1. In your best clinical judgement,

- Was the death caused by HIV/AIDS? (I = Immediate, C = Contributing)
  - Information regarding Cause of Death is currently unavailable.

- Was the death caused by drug toxicity? (I = Immediate, C = Contributing)

- Was the death caused by Non-HIV comorbid conditions?
  - Information regarding Cause of Death is currently unavailable.

- Was autopsy performed?  ○ Yes  ○ No  ○ Unknown

2. Did the patient refuse to start or choose to discontinue ART?  ○ Yes  ○ No  ○ Unknown

3. Did the patient or their surrogate choose to discontinue life sustaining treatment?  ○ Yes  ○ No  ○ Unknown

4. Contributing HIV/AIDS cause of death *(fill circle for all that apply)*: *(I = Immediate, C = Contributing)*

| ○  | ○  | Histoplasmosis
| ○  | ○  | Toxoplasmosis
| ○  | ○  | Isosporiasis
| ○  | ○  | Wasting
| ○  | ○  | AIDS, unspecified
5. Contributing non-HIV/AIDS cause of death (fill circles for all that contributed):
   (I = Immediate, C = Contributing)

   I  C
   ○ ○ Trauma/Suicide/Homocide
   ○ ○ Sudden Death
   ○ ○ MI  ○ By ECG abnormality
   ○ ○ By Cardiac Enzymes
   ○ ○ Pancreatitis  ○ Amylase > 3x normal
   ○ ○ Lipase > 3x normal
   ○ ○ Non-AIDS dementia/stroke  ○ CT consistent with diagnosis
   ○ ○ Hepatitis/Cirrhosis  ○ Alcohol abuse  ○ Albumin < 2.5
   ○ ○ Acute/chronic Hep B  ○ SGOT > 2x normal
   ○ ○ Acute/chronic Hep C  ○ SGPT > 2x normal
   ○ ○ Pancreatitis  ○ Amylase > 3x normal
   ○ ○ Lipase > 3x normal
   ○ ○ Sepsis (fungal/viral/bacterial)
   Please Specify Organism (if known):
   ○ ○ Mitochondrial toxicity  ○ PH < 7.3?
   ○ ○ Serum Lactate elevated?
   ○ ○ Bicarb < 18?
   ○ ○ Cancer
   Please Specify Type:
   ○ ○ Other
   Please Specify:

6. Drugs contributing to death,

   Antiretrovirals (specify):
   Other (specify):

THANK YOU
