I. Tell us about yourself. (Please use three sentences or less for each answer).

1. What are your primary academic interest?

2. Describe your possible career interests. How certain do you feel that you know what you want to do as a career?

3. Describe your major extracurricular activities.

4. Describe your outside-of-school interests.

5. Discuss briefly two books (that were not course texts), which you have read recently and would recommend to others.

II. Essay: In 400 words (or less) please describe your scientific research experience and/or goals and tell us how you feel this internship can help you to achieve your goals.
