A PRACTICE OF THE YALE MEDICAL GROUP

Yale Fertility Center

A RECOGNIZED LEADER

It begins with our medical staff.

The academic background and clinical expertise of our physicians enable us to provide couples and individuals with the latest, most valuable discoveries in contemporary fertility medicine. Discoveries which, applied by skilled and knowledgeable specialists, have resulted in countless fertility success stories.

Our renowned physicians, nurses, specialized support staff and scientists know how to help both female and male patients get through the often complex, stressful, and time-consuming fertility process successfully. We are committed to maximizing your chances for fertility while minimizing the number of procedures you undergo.

Yale Fertility Center

A PRACTICE OF YALE OBSTETRICS AND GYNECOLOGY

or call 203.785.4708 or 1.877.YALE.IVF.

Open 7 days a week.

Ask about Saturday and evening appointments.

Bringing Innovation To Life.

Leading the Way in Reproductive Endocrinology

As with our Fertility Center, our board-certified Reproductive Endocrinologists, specially trained nurses and medical and laboratory staff also provide some of the most innovative and beneficial treatments available today. For example, their areas of expertise include: a) understanding the effects of estrogen on heart disease during menopause, b) specializing in minimally invasive surgical techniques, like advanced laparoscopy and hysteroscopy for treatment of fibroids, endometriosis, tubal disease and uterine adhesions, and c) performing office hysteroscopy and endometrial cryoablation for irregular bleeding.

Some conditions our team of specialists treat:

- **Polycystic Ovary Syndrome (PCOS)**
- **Hyperprolactinemia**
- **Pituitary/Hypothalamic Failure**
- **Thyroid and Adrenal Disease**
- **Hyperandrogenism (including acne and hirsutism)**
- **Ovulatory Disorders**
- **Hormone Imbalance**
- **Irregular/Abnormal Uterine Bleeding**
- **Uterine Fibroids**
- **Pelvic Pain (including painful menses or intercourse)**
- **Endometriosis**
- **Perimenopause and Menopause**
- **Pediatric and Adolescent Gynecology (including HPV vaccination)**

Talk to your healthcare provider about us today.

Then visit **www.yalereproductivemedicine.org**

or call **203.785.4708** or **1.877.YALE.IVF.**
