Breast and Gynecologic Pathology

The Yale Breast Pathology and Yale Gynecologic Pathology Programs offer world-renowned diagnostic and therapeutic services. Our Breast Pathology team provides diagnoses on biopsies in order to evaluate breast lesions detected clinically or by imaging studies. Therapeutic resections such as lumpectomies, mastectomies, sentinel lymph nodes, and axillary lymph node dissections are studied in detail to evaluate significant factors subsequently used to guide therapy. Our Gynecologic Pathology team receives diagnostically challenging cases from around the world, and performs not only routine evaluation of gross and microscopic specimens, but can also carry out specialized electron microscopic, immunohistochemical, and sophisticated molecular studies.

Thoracic & Urologic Pathology

The Yale Program in Urologic Pathology offers comprehensive diagnostic services on biopsies and resections from the kidney, ureter, bladder, urethra, prostate, and testis. Results of comprehensive examinations are rendered with an emphasis on prognosis and prediction of the response to therapy. For that we employ our state-of-the-art diagnostic facilities, which include laboratories specializing in molecular diagnostics, cytopathology, immunohistochemistry, flow cytometry, electron microscopy, and cytogenetics.

Malini Harigopal, M.D.
Associate Professor of Pathology
Director, Breast Pathology Program

Pei Hu, M.D., Ph.D.
Professor of Pathology
Director, Gynecologic Pathology
Clinical Director, Molecular Diagnostics Laboratory

Rita Abla Rea, M.D.
Instructor in Pathology

Veeve Bossuyt, M.D.
Assistant Professor of Pathology

Natalia Ruse, M.D.
Associate Professor of Pathology

Peter Humphrey, M.D.
Professor of Pathology
Director, Geriatric Pathology

William Leekin M.D.
Associate Professor of Pathology

Ugur Ozdemir, M.D.
Clinical in Pathology

Vinita Parkash, M.D.
Associate Professor of Pathology

Marguerite Pinto, M.D.
Associate Professor of Pathology

Sereni Wang, M.D.
Assistant Professor of Pathology

Susan Fernandez, M.D.
Assistant Professor of Pathology

Robert J. Homer, M.D., Ph.D.
Professor of Pathology and of Medicine (Pulmonary)
Director, Thoracic Pathology

Peter Humphrey, M.D.
Professor of Pathology
Director, Geriatric Pathology

Addai Ehiemens, M.D.
Associate Professor of Pathology

Gusping Cai, M.D.
Associate Professor of Pathology

Paul Cohen, M.D.
Assistant Professor of Pathology
Chair, Bridgeport Hospital Pathology

Angelique Levi, M.D.
Assistant Professor of Pathology

Director and Liaison, Pathology Outreach

Vinita Parkash, M.D.
Associate Professor of Pathology

Director, Geriatric Pathology

Director, Cytology Laboratory

Associate Director, Pathology Residency Program

Angelique Levi, M.D.
Assistant Professor of Pathology

Director and Liaison, Pathology Outreach

John Smad, M.D., Ph.D.
Professor of Pathology

Director, Ophthalmology and Visual Science

Vinita chair, Pathology

Director, Anatomic Pathology
