The following case study applies to questions 11-30

Ms. Smith is a 17-year-old non-restrained driver involved in a single car crash brought to the ED by EMS. She is awake and alert, and angry about crashing her new car. She sustained a laceration to her forehead. She has a noticeable smell of alcohol on her breath, and she reports drinking a six-pack of beer with her friends after class. She generally drinks 5 or 6 beers 2-3 times a week stating that it helps her with the stress in her life. Her c-spine x-ray is negative and her laceration has been repaired.

Please answer whether is it True or False that each of the following statements/questions is something you would you say or do as an effective strategy to PRODUCE CHANGES in Ms. Smith’s drinking patterns.
<table>
<thead>
<tr>
<th>11. The first step towards change is to admit you have a drinking problem</th>
<th>TRUE...1</th>
<th>FALSE...2</th>
</tr>
</thead>
<tbody>
<tr>
<td>12. Ask the patient permission to discuss his/her drinking.</td>
<td>T</td>
<td>F</td>
</tr>
<tr>
<td>13. Your stress is directly related to your drinking.</td>
<td>T</td>
<td>F</td>
</tr>
<tr>
<td>14. Convince the patient that there is in fact a connection between their drinking and the car crash.</td>
<td>T</td>
<td>F</td>
</tr>
<tr>
<td>15. What if any connection is there between your drinking and the car crash?</td>
<td>T</td>
<td>F</td>
</tr>
<tr>
<td>16. You should already know that drinking and driving is dangerous.</td>
<td>T</td>
<td>F</td>
</tr>
<tr>
<td>17. Until you hit “rock bottom”, it will be very hard for you to change your drinking.</td>
<td>T</td>
<td>F</td>
</tr>
<tr>
<td>18. How ready are you to simply think about cutting down on your drinking?</td>
<td>T</td>
<td>F</td>
</tr>
<tr>
<td>19. What makes you motivated to want to make a change?</td>
<td>T</td>
<td>F</td>
</tr>
<tr>
