00:00:09.040 --> 00:00:10.215 And good morning and welcome

NOTE Confidence: 0.8646782

00:00:10.215 --> 00:00:11.390 back to the morning show.

NOTE Confidence: 0.8646782

00:00:11.390 --> 00:00:13.270 It is 7:45 in the morning and Zach.

NOTE Confidence: 0.8646782

00:00:13.270 --> 00:00:15.640 The temperature on your device.

00:00:15.640 --> 00:00:17.950 60 Here say Frank in the

NOTE Confidence: 0.8646782

00:00:17.950 --> 00:00:19.490 morning and 60 degrees,

NOTE Confidence: 0.8646782

00:00:19.490 --> 00:00:22.185 and we are at 61 degrees here.

NOTE Confidence: 0.8646782

00:00:22.190 --> 00:00:24.745 Thank you Zach, and joining us this

NOTE Confidence: 0.8646782

00:00:24.745 --> 00:00:26.810 morning is Doctor Joe Renzulli.

NOTE Confidence: 0.8646782

00:00:26.810 --> 00:00:29.114 He is a longtime Rhode Island

NOTE Confidence: 0.8646782

00:00:29.114 --> 00:00:30.266 urologist assistant professor,

NOTE Confidence: 0.8646782

00:00:30.270 --> 00:00:32.580 associate professor of urology at Yale,

NOTE Confidence: 0.8646782

00:00:32.580 --> 00:00:33.507 School of Medicine,

NOTE Confidence: 0.8646782

00:00:33.507 --> 00:00:36.155 and he takes on a new role recently

NOTE Confidence: 0.8646782

00:00:36.155 --> 00:00:38.235 appointed as medical Director and

NOTE Confidence: 0.8646782

00:00:38.235 --> 00:00:41.050 Chief of Urology at Wesley Hospital,

NOTE Confidence: 0.8646782

00:00:41.050 --> 00:00:42.975 Ann Lawrence and Memorial Hospital

NOTE Confidence: 0.8646782

00:00:42.975 --> 00:00:44.900 in New London and welcome.

NOTE Confidence: 0.8669453

00:00:47.420 --> 00:00:49.540 Good morning. Joe

NOTE Confidence: 0.83715874

00:00:49.540 --> 00:00:50.488 is still with us.

NOTE Confidence: 0.815942

00:00:51.880 --> 00:00:53.920 There he is having me

NOTE Confidence: 0.815942

00:00:53.920 --> 00:00:56.356 this morning good to have you.

NOTE Confidence: 0.815942

00:00:56.356 --> 00:00:58.802 Joni, yes I can hear you.

NOTE Confidence: 0.815942

00:00:58.802 --> 00:01:00.428 That's much better, yeah?

NOTE Confidence: 0.815942

00:01:00.430 --> 00:01:03.687 So I guess just real quickly for those

NOTE Confidence: 0.815942

00:01:03.687 --> 00:01:06.129 people who who don't understand it.

NOTE Confidence: 0.815942

00:01:06.130 --> 00:01:08.566 What is the scope of urology?

NOTE Confidence: 0.815942

00:01:08.570 --> 00:01:11.012 One of the things that you

NOTE Confidence: 0.815942

00:01:11.012 --> 00:01:12.640 are primarily involved with.

NOTE Confidence: 0.8532773

00:01:14.900 --> 00:01:18.218 Urologist are the surgeons who take

NOTE Confidence: 0.8532773

00:01:18.218 --> 00:01:22.190 care of both females and males for

NOTE Confidence: 0.8532773

00:01:22.190 --> 00:01:25.508 problems that could be associated with

NOTE Confidence: 0.8532773

00:01:25.508 --> 00:01:29.618 the urinary tract or the genital tract,

NOTE Confidence: 0.8532773

00:01:29.620 --> 00:01:32.450 and that can include benign

NOTE Confidence: 0.8532773

00:01:32.450 --> 00:01:35.280 things such as kidney stones,

NOTE Confidence: 0.8532773

00:01:35.280 --> 00:01:38.628 urinary track infections, or it can

NOTE Confidence: 0.8532773

00:01:38.628 --> 00:01:42.070 include meant answers of the kidneys,

NOTE Confidence: 0.8532773

00:01:42.070 --> 00:01:43.762 bladder, prostate and that.

NOTE Confidence: 0.8532773

00:01:43.762 --> 00:01:46.300 Then it even extends beyond that

NOTE Confidence: 0.8532773

00:01:46.375 --> 00:01:49.033 into infertility problems for men and

NOTE Confidence: 0.8532773

00:01:49.033 --> 00:01:51.430 \*\*\*\*\* dysfunction for men and women.

NOTE Confidence: 0.8532773

00:01:51.430 --> 00:01:54.160 So the the breadth of the field

NOTE Confidence: 0.8532773

00:01:54.160 --> 00:01:55.330 is quite large.

NOTE Confidence: 0.8570036

00:01:56.700 --> 00:01:58.092 And has it been a practice

NOTE Confidence: 0.8570036

00:01:58.092 --> 00:01:59.689 in Wesley up to this point?

NOTE Confidence: 0.8463566

00:02:01.620 --> 00:02:03.595 Yes, there's been a practice

NOTE Confidence: 0.8463566

00:02:03.595 --> 00:02:06.141 there for a long time with

NOTE Confidence: 0.8463566

00:02:06.141 --> 00:02:08.576 Doctor Leddy and Doctor Enquist.

NOTE Confidence: 0.8463566

00:02:08.580 --> 00:02:11.219 The big change coming in just two

NOTE Confidence: 0.8463566

00:02:11.219 --> 00:02:14.394 weeks will be the addition of the

NOTE Confidence: 0.8463566

00:02:14.394 --> 00:02:16.844 ability to provide robotic surgery,

NOTE Confidence: 0.8463566

00:02:16.850 --> 00:02:19.020 which is the Davinci, Robot,

NOTE Confidence: 0.8463566

00:02:19.020 --> 00:02:21.540 and majority of the cancer procedures

NOTE Confidence: 0.8463566

00:02:21.540 --> 00:02:24.645 done these days in urologic surgery are

NOTE Confidence: 0.8463566

00:02:24.645 --> 00:02:27.345 done with robotic technology and and

NOTE Confidence: 0.8463566

00:02:27.345 --> 00:02:29.970 to have that advancement in westerly

NOTE Confidence: 0.8463566

00:02:29.970 --> 00:02:33.266 is a great addition to the community.

NOTE Confidence: 0.8463566

00:02:33.266 --> 00:02:35.060 They'll also be.

NOTE Confidence: 0.8463566

00:02:35.060 --> 00:02:37.360 MRI guided prostate biopsy's which

NOTE Confidence: 0.8463566

00:02:37.360 --> 00:02:40.574 are really cutting edge for how to  
NOTE Confidence: 0.8463566

00:02:40.574 --> 00:02:42.654 diagnose cancers such as prostate  
NOTE Confidence: 0.8463566

00:02:42.654 --> 00:02:45.180 cancer and that technology is all  
NOTE Confidence: 0.8463566

00:02:45.180 --> 00:02:47.987 been purchased and is going to begin  
NOTE Confidence: 0.8463566

00:02:47.990 --> 00:02:51.438 you being used in May of this year,  
NOTE Confidence: 0.8463566

00:02:51.440 --> 00:02:54.254 so this is exciting for westerly  
NOTE Confidence: 0.8463566

00:02:54.254 --> 00:02:57.103 and we're really excited to bring  
NOTE Confidence: 0.8463566

00:02:57.103 --> 00:02:59.767 Yale Urology to Rhode Islanders as  
NOTE Confidence: 0.8463566

00:02:59.767 --> 00:03:02.076 opposed to Rhode Islanders having  
NOTE Confidence: 0.8463566

00:03:02.076 --> 00:03:05.184 to leave the state to get care.  
NOTE Confidence: 0.8463566

00:03:05.190 --> 00:03:06.734 At a world class,  
NOTE Confidence: 0.8463566

00:03:06.734 --> 00:03:08.278 institutions such as Yale,  
NOTE Confidence: 0.8463566

00:03:08.280 --> 00:03:09.050 what are  
NOTE Confidence: 0.84249055

00:03:09.050 --> 00:03:12.138 the most common types of cancers you treat?  
NOTE Confidence: 0.85556406

00:03:13.390 --> 00:03:16.722 The most common in men in his  
NOTE Confidence: 0.85556406

00:03:16.722 --> 00:03:19.364 prostate cancer and then bladder

NOTE Confidence: 0.85556406

00:03:19.364 --> 00:03:22.688 and kidney cancer follow and those

NOTE Confidence: 0.85556406

00:03:22.688 --> 00:03:26.219 are about 2/3 men. One third women.

NOTE Confidence: 0.82584125

00:03:28.930 --> 00:03:30.028 With prostate cancer,

NOTE Confidence: 0.82584125

00:03:30.028 --> 00:03:32.224 and we often hear hear that.

NOTE Confidence: 0.82584125

00:03:32.230 --> 00:03:35.470 How prevalent is it and?

NOTE Confidence: 0.82584125

00:03:35.470 --> 00:03:39.187 And how, how, how treatable is it?

NOTE Confidence: 0.85981303

00:03:40.850 --> 00:03:43.314 Is so prostate cancer is very prevalent.

NOTE Confidence: 0.85981303

00:03:43.320 --> 00:03:46.232 It ranges anywhere from one in seven to

NOTE Confidence: 0.85981303

00:03:46.232 --> 00:03:49.210 one and eight men in their lifetime.

NOTE Confidence: 0.85981303

00:03:49.210 --> 00:03:52.479 The good news is it ranks among

NOTE Confidence: 0.85981303

00:03:52.479 --> 00:03:54.710 the highest curable cancers,

NOTE Confidence: 0.85981303

00:03:54.710 --> 00:03:57.710 especially if it is detected early.

NOTE Confidence: 0.85981303

00:03:57.710 --> 00:03:59.710 So we're very passionate

NOTE Confidence: 0.85981303

00:03:59.710 --> 00:04:01.710 about screening for men,

NOTE Confidence: 0.85981303

00:04:01.710 --> 00:04:04.580 and that includes a blood test called

NOTE Confidence: 0.85981303

00:04:04.580 --> 00:04:06.589 PSA angusta physical examination  
NOTE Confidence: 0.85981303

00:04:06.589 --> 00:04:08.710 digital rectal examinations.  
NOTE Confidence: 0.85981303

00:04:08.710 --> 00:04:12.769 So it's very easy to be screened and in  
NOTE Confidence: 0.85981303

00:04:12.769 --> 00:04:16.312 studies that have been done worldwide if  
NOTE Confidence: 0.85981303

00:04:16.312 --> 00:04:20.230 you just follow the screening protocol.  
NOTE Confidence: 0.85981303

00:04:20.230 --> 00:04:22.190 Even if you are diagnosed  
NOTE Confidence: 0.85981303

00:04:22.190 --> 00:04:23.366 with prostate cancer,  
NOTE Confidence: 0.85981303

00:04:23.370 --> 00:04:25.494 your chances of dying of prostate  
NOTE Confidence: 0.85981303

00:04:25.494 --> 00:04:27.680 cancer is single digit percentage,  
NOTE Confidence: 0.85981303

00:04:27.680 --> 00:04:29.248 so screening is paramount.  
NOTE Confidence: 0.8150635

00:04:30.750 --> 00:04:32.796 Talk to me a little bit  
NOTE Confidence: 0.8150635

00:04:32.796 --> 00:04:34.640 about the PSA blood test.  
NOTE Confidence: 0.8150635

00:04:34.640 --> 00:04:36.305 When should people get that  
NOTE Confidence: 0.8150635

00:04:36.305 --> 00:04:38.772 and and is that is that given  
NOTE Confidence: 0.8150635

00:04:38.772 --> 00:04:41.306 indefinitely or is there a time when  
NOTE Confidence: 0.8150635

00:04:41.306 --> 00:04:43.847 in fact the PSA is not required?

NOTE Confidence: 0.8518019

00:04:45.110 --> 00:04:47.511 Sure is, so PSA is a blood

NOTE Confidence: 0.8518019

00:04:47.511 --> 00:04:49.449 test looking at an enzyme.

NOTE Confidence: 0.8518019

00:04:49.450 --> 00:04:53.284 We all all men have PSA in their bloodstream.

NOTE Confidence: 0.8518019

00:04:53.290 --> 00:04:55.929 The test is very sensitive for prostate

NOTE Confidence: 0.8518019

00:04:55.929 --> 00:04:58.190 cancer, but it's not very specific,

NOTE Confidence: 0.8518019

00:04:58.190 --> 00:05:00.989 so it's a guide, but it is not an

NOTE Confidence: 0.8518019

00:05:00.989 --> 00:05:03.089 absolute you know determination,

NOTE Confidence: 0.8518019

00:05:03.090 --> 00:05:05.722 so we have to use that in conjunction

NOTE Confidence: 0.8518019

00:05:05.722 --> 00:05:07.619 with other diagnostic tools.

NOTE Confidence: 0.8518019

00:05:07.620 --> 00:05:09.756 But at age 50 the average

NOTE Confidence: 0.8518019

00:05:09.756 --> 00:05:11.651 American male should start to

NOTE Confidence: 0.8518019

00:05:11.651 --> 00:05:13.646 be screened for prostate cancer.

NOTE Confidence: 0.8518019

00:05:13.650 --> 00:05:16.429 If you're African American or you have

NOTE Confidence: 0.8518019

00:05:16.429 --> 00:05:18.928 a family history such as a father,

NOTE Confidence: 0.8518019

00:05:18.930 --> 00:05:20.810 grand Father or brother who

NOTE Confidence: 0.8518019

00:05:20.810 --> 00:05:21.938 have prostate cancer,  
NOTE Confidence: 0.8518019

00:05:21.940 --> 00:05:23.930 then you should start it.  
NOTE Confidence: 0.8518019

00:05:23.930 --> 00:05:25.358 Age 40 too,  
NOTE Confidence: 0.8518019

00:05:25.358 --> 00:05:28.214 because there could be some genetic  
NOTE Confidence: 0.8518019

00:05:28.214 --> 00:05:30.790 component to it which allows  
NOTE Confidence: 0.8518019

00:05:30.790 --> 00:05:33.300 prostate cancer to develop earlier.  
NOTE Confidence: 0.8518019

00:05:33.300 --> 00:05:34.006 And basically,  
NOTE Confidence: 0.8518019

00:05:34.006 --> 00:05:36.124 if you have an elevated PSA  
NOTE Confidence: 0.8518019

00:05:36.124 --> 00:05:38.450 or an abnormal rectal exam,  
NOTE Confidence: 0.8518019

00:05:38.450 --> 00:05:40.605 then the physician may decide  
NOTE Confidence: 0.8518019

00:05:40.605 --> 00:05:42.760 to either order additional tests  
NOTE Confidence: 0.8518019

00:05:42.832 --> 00:05:44.776 such as the MRI I discussed,  
NOTE Confidence: 0.8518019

00:05:44.780 --> 00:05:48.020 or they may decide biopsy is  
NOTE Confidence: 0.8518019

00:05:48.020 --> 00:05:50.770 warranted and proceed with bias.  
NOTE Confidence: 0.8518019

00:05:50.770 --> 00:05:53.362 Directly and a biopsy is done with an  
NOTE Confidence: 0.8518019

00:05:53.362 --> 00:05:55.478 ultrasound an it's done transrectal.

NOTE Confidence: 0.8518019

00:05:55.480 --> 00:05:57.442 It takes about 15 minutes and

NOTE Confidence: 0.8518019

00:05:57.442 --> 00:05:59.954 that will then allow us to gather

NOTE Confidence: 0.8518019

00:05:59.954 --> 00:06:02.228 tissue from the prostate that the

NOTE Confidence: 0.8518019

00:06:02.228 --> 00:06:04.140 pathologist can look at under

NOTE Confidence: 0.8518019

00:06:04.140 --> 00:06:05.970 the microscope and determine if

NOTE Confidence: 0.8518019

00:06:05.970 --> 00:06:08.150 cancer is present and is there

NOTE Confidence: 0.8591543

00:06:08.150 --> 00:06:12.170 with the PSA and upper age. Or is

NOTE Confidence: 0.8786456

00:06:12.170 --> 00:06:14.094 that forever? Usually yes.

NOTE Confidence: 0.8786456

00:06:14.094 --> 00:06:17.688 So studies have been done and usually

NOTE Confidence: 0.8786456

00:06:17.688 --> 00:06:20.768 it's recommended that screening is.

NOTE Confidence: 0.77189857

00:06:22.910 --> 00:06:24.498 That somewhere, but it's.

NOTE Confidence: 0.84083456

00:06:26.730 --> 00:06:27.390 We lost we

NOTE Confidence: 0.84083456

00:06:27.390 --> 00:06:28.762 lost. Yeah, it sounds like you're having

NOTE Confidence: 0.84083456

00:06:28.762 --> 00:06:30.268 some Wi-Fi or Internet problems there.

NOTE Confidence: 0.84083456

00:06:30.270 --> 00:06:31.370 Could you say that again?

NOTE Confidence: 0.8875021

00:06:33.490 --> 00:06:36.170 One second. We  
NOTE Confidence: 0.85258377

00:06:36.170 --> 00:06:37.470 heard one second that  
NOTE Confidence: 0.85258377

00:06:37.470 --> 00:06:38.758 we heard OK. Usually  
NOTE Confidence: 0.85258377

00:06:38.760 --> 00:06:41.014 the screening is up to age 70,  
NOTE Confidence: 0.85258377

00:06:41.020 --> 00:06:42.630 sometimes 75, but not much  
NOTE Confidence: 0.85258377

NOTE Confidence: 0.8465447

00:10:42.060 --> 00:10:44.484 and we are talking about prostate

NOTE Confidence: 0.8465447

00:10:44.484 --> 00:10:46.517 cancer and or prostate cancer

NOTE Confidence: 0.8465447

00:10:46.517 --> 00:10:48.557 has been been one of them,

NOTE Confidence: 0.8465447

00:10:48.560 --> 00:10:50.084 with Doctor Joe Renzulli.

NOTE Confidence: 0.8465447

00:10:50.084 --> 00:10:51.608 He is a urologist.

NOTE Confidence: 0.8465447

00:10:51.610 --> 00:10:53.764 He see new Regional Medical Director

NOTE Confidence: 0.8465447

00:10:53.764 --> 00:10:56.080 and chief of Urology at Wesley  
NOTE Confidence: 0.8465447

00:10:56.080 --> 00:10:58.105 Hospital and Lawrence and Memorial.  
NOTE Confidence: 0.8465447

00:10:58.110 --> 00:11:00.096 A couple of quick questions is  
NOTE Confidence: 0.8465447

00:11:00.096 --> 00:11:02.358 are we seeing an increase of  
NOTE Confidence: 0.8465447

00:11:02.358 --> 00:11:04.508 urological issues and also what  
NOTE Confidence: 0.8465447

00:11:04.508 --> 00:11:06.509 are they relative to women,  
NOTE Confidence: 0.8465447

00:11:06.510 --> 00:11:07.659 not just men?  
NOTE Confidence: 0.8436068

00:11:09.020 --> 00:11:11.786 So yes, we're seeing an increase,  
NOTE Confidence: 0.8436068

00:11:11.790 --> 00:11:14.688 and that's really related to the two  
NOTE Confidence: 0.8436068

00:11:14.688 --> 00:11:17.821 things one we're seeing the baby boomer  
NOTE Confidence: 0.8436068

00:11:17.821 --> 00:11:21.119 generation come into a advanced age in  
NOTE Confidence: 0.8436068

00:11:21.119 --> 00:11:23.119 Eurologic malignancies all increase  
NOTE Confidence: 0.8436068

00:11:23.119 --> 00:11:26.282 with advancing age by the decade.  
NOTE Confidence: 0.8436068

00:11:26.282 --> 00:11:28.930 The other thing is.  
NOTE Confidence: 0.8436068

00:11:28.930 --> 00:11:31.000 You know, with bladder cancer,  
NOTE Confidence: 0.8436068

00:11:31.000 --> 00:11:33.510 smoking still is the number

NOTE Confidence: 0.8436068

00:11:33.510 --> 00:11:36.640 one cause and we know that.

NOTE Confidence: 0.8436068

00:11:36.640 --> 00:11:39.292 More and more women have begun

NOTE Confidence: 0.8436068

00:11:39.292 --> 00:11:42.417 smoking over the last 30 or 40 years,

NOTE Confidence: 0.8436068

00:11:42.420 --> 00:11:45.304 somewhat catching up to the male population.

NOTE Confidence: 0.8436068

00:11:45.310 --> 00:11:47.788 So we've seen an increase in

NOTE Confidence: 0.8436068

00:11:47.788 --> 00:11:49.440 bladder cancer amongst women,

NOTE Confidence: 0.8436068

00:11:49.440 --> 00:11:50.936 which is of concern.

NOTE Confidence: 0.8436068

00:11:50.936 --> 00:11:54.400 And then when we think of kidney cancer,

NOTE Confidence: 0.8436068

00:11:54.400 --> 00:11:56.755 it is directly related to

NOTE Confidence: 0.8436068

00:11:56.755 --> 00:11:59.110 smoking in obesity and certainly.

NOTE Confidence: 0.8436068

00:11:59.110 --> 00:12:01.372 We do have a obesity epidemic

NOTE Confidence: 0.8436068

00:12:01.372 --> 00:12:02.503 in this country,

NOTE Confidence: 0.8436068

00:12:02.510 --> 00:12:04.544 so all of those three cancers

NOTE Confidence: 0.8436068

00:12:04.544 --> 00:12:07.268 have been on the rise over the

NOTE Confidence: 0.8436068

00:12:07.268 --> 00:12:08.558 last several decades.

NOTE Confidence: 0.8581593

00:12:08.560 --> 00:12:10.450 What are the symptoms that  
NOTE Confidence: 0.8581593

00:12:10.450 --> 00:12:12.340 people should be looking for?  
NOTE Confidence: 0.8573503

00:12:13.300 --> 00:12:15.100 Well, that that's the really  
NOTE Confidence: 0.8573503

00:12:15.100 --> 00:12:16.900 important part of this discussion.  
NOTE Confidence: 0.8573503

00:12:16.900 --> 00:12:19.420 There everyone comes in and says, well,  
NOTE Confidence: 0.8573503

00:12:19.420 --> 00:12:21.940 I never had symptoms with prostate cancer,  
NOTE Confidence: 0.8573503

00:12:21.940 --> 00:12:23.740 and even most kidney cancers.  
NOTE Confidence: 0.8573503

00:12:23.740 --> 00:12:25.540 You do not have symptoms.  
NOTE Confidence: 0.8573503

00:12:25.540 --> 00:12:27.906 So if you want to catch these  
NOTE Confidence: 0.8573503

00:12:27.906 --> 00:12:29.860 diseases in their early state,  
NOTE Confidence: 0.8573503

00:12:29.860 --> 00:12:32.740 you're not going to find it with symptoms.  
NOTE Confidence: 0.8573503

00:12:32.740 --> 00:12:34.540 That's why screening becomes so  
NOTE Confidence: 0.8573503

00:12:34.540 --> 00:12:35.980 important for prostate cancer.  
NOTE Confidence: 0.8573503

00:12:35.980 --> 00:12:38.129 With bladder cancer almost 90% or  
NOTE Confidence: 0.8573503

00:12:38.129 --> 00:12:39.874 more patients will present because  
NOTE Confidence: 0.8573503

00:12:39.874 --> 00:12:42.100 they see blood in their urine.

NOTE Confidence: 0.8573503

00:12:42.100 --> 00:12:45.116 So anyone who sees blood in their urine.

NOTE Confidence: 0.8573503

00:12:45.120 --> 00:12:47.248 That is a very important sign and should

NOTE Confidence: 0.8573503

00:12:47.248 --> 00:12:49.648 not be ignored and should be evaluated.

NOTE Confidence: 0.8573503

00:12:49.650 --> 00:12:50.858 Certainly it doesn't mean

NOTE Confidence: 0.8573503

00:12:50.858 --> 00:12:52.066 you have bladder cancer.

NOTE Confidence: 0.8573503

00:12:52.070 --> 00:12:54.002 There are other causes such as

NOTE Confidence: 0.8573503

00:12:54.002 --> 00:12:55.609 infections and kidney stones that

NOTE Confidence: 0.8573503

00:12:55.609 --> 00:12:57.199 can cause blood in the urine,

NOTE Confidence: 0.8573503

00:12:57.200 --> 00:12:59.012 but it is something that should

NOTE Confidence: 0.8573503

00:12:59.012 --> 00:13:01.340 not be ignored.

NOTE Confidence: 0.8288413

00:13:01.340 --> 00:13:02.784 Offer prostate cancer knowledge

NOTE Confidence: 0.8288413

00:13:02.784 --> 00:13:04.228 with his bladder cancer.

NOTE Confidence: 0.8288413

00:13:04.230 --> 00:13:06.396 Does that does that require surgery

NOTE Confidence: 0.8288413

00:13:06.396 --> 00:13:08.920 and if not, what are the options?

NOTE Confidence: 0.8645999

00:13:09.680 --> 00:13:11.948 Yes bladder, so bladder cancer is

NOTE Confidence: 0.8645999

00:13:11.948 --> 00:13:14.550 detected by performing a scope in the  
NOTE Confidence: 0.8645999

00:13:14.550 --> 00:13:16.923 bladder just very similar to how people  
NOTE Confidence: 0.8645999

00:13:16.994 --> 00:13:19.279 get colonoscopies for colon cancer.  
NOTE Confidence: 0.8645999

00:13:19.280 --> 00:13:21.877 It's done in the office and takes  
NOTE Confidence: 0.8645999

00:13:21.877 --> 00:13:24.657 about 5 minutes to do this procedure.  
NOTE Confidence: 0.8645999

00:13:24.660 --> 00:13:26.958 If there's a bladder cancer identified,  
NOTE Confidence: 0.8645999

00:13:26.960 --> 00:13:28.496 then it is removed,  
NOTE Confidence: 0.8645999

00:13:28.496 --> 00:13:30.800 but it's removed through the urethra,  
NOTE Confidence: 0.8645999

00:13:30.800 --> 00:13:33.488 which is the opening to the bladder,  
NOTE Confidence: 0.8645999

00:13:33.490 --> 00:13:35.410 so it's done with scopes.  
NOTE Confidence: 0.8645999

00:13:35.410 --> 00:13:39.712 So 90% of people would not have to have.  
NOTE Confidence: 0.8645999

00:13:39.720 --> 00:13:42.048 Major surgery to remove bladder cancer.  
NOTE Confidence: 0.8645999

00:13:42.050 --> 00:13:44.367 If you fall into the minority group  
NOTE Confidence: 0.8645999

00:13:44.367 --> 00:13:47.089 where it's a advanced bladder cancer,  
NOTE Confidence: 0.8645999

00:13:47.090 --> 00:13:49.806 which we call muscle invasive bladder cancer,  
NOTE Confidence: 0.8645999

00:13:49.810 --> 00:13:51.670 then those patients have to

NOTE Confidence: 0.8645999

00:13:51.670 --> 00:13:53.530 have quite extensive surgery to

NOTE Confidence: 0.8645999

00:13:53.598 --> 00:13:55.238 remove the entire bladder.

NOTE Confidence: 0.8645999

00:13:55.240 --> 00:13:57.676 But we have the ability to make

NOTE Confidence: 0.8645999

00:13:57.676 --> 00:13:59.664 new bladders out of intestine

NOTE Confidence: 0.8645999

00:13:59.664 --> 00:14:01.839 for people an reconnect them,

NOTE Confidence: 0.8645999

00:14:01.840 --> 00:14:04.354 so this is really advanced surgical

NOTE Confidence: 0.8645999

00:14:04.354 --> 00:14:07.658 procedures that we do all the time at Yale,

NOTE Confidence: 0.8645999

00:14:07.660 --> 00:14:10.313 and Fortunately it helps to restore the

NOTE Confidence: 0.8645999

00:14:10.313 --> 00:14:12.828 quality of life for these patients.

NOTE Confidence: 0.8645999

00:14:12.830 --> 00:14:15.062 Rather than having to have a

NOTE Confidence: 0.8645999

00:14:15.062 --> 00:14:17.350 bag to drain urine and such.

NOTE Confidence: 0.88392323

00:14:18.280 --> 00:14:20.428 Are there non-surgical options?

NOTE Confidence: 0.87711406

00:14:21.290 --> 00:14:22.715 For bladder cancer,

NOTE Confidence: 0.87711406

00:14:22.715 --> 00:14:24.615 there's really not non-surgical

NOTE Confidence: 0.87711406

00:14:24.615 --> 00:14:26.570 options for prostate cancer.

NOTE Confidence: 0.87711406

00:14:26.570 --> 00:14:29.456 There are men can have radiation  
NOTE Confidence: 0.87711406

00:14:29.456 --> 00:14:31.384 therapy to treat prostate  
NOTE Confidence: 0.87711406

00:14:31.384 --> 00:14:33.770 cancer as opposed to surgery.  
NOTE Confidence: 0.8681828

00:14:35.720 --> 00:14:37.760 Chemotherapy involved with any of that.  
NOTE Confidence: 0.85922045

00:14:38.680 --> 00:14:40.708 So for for these diseases the  
NOTE Confidence: 0.85922045

00:14:40.708 --> 00:14:42.060 primary treatment does not  
NOTE Confidence: 0.85922045

00:14:42.126 --> 00:14:43.998 typically include chemotherapy,  
NOTE Confidence: 0.85922045

00:14:44.000 --> 00:14:45.224 although for advanced  
NOTE Confidence: 0.85922045

00:14:45.224 --> 00:14:46.856 bladder cancer many patients,  
NOTE Confidence: 0.85922045

00:14:46.860 --> 00:14:49.555 the one that I spoke about that  
NOTE Confidence: 0.85922045

00:14:49.555 --> 00:14:51.360 requires the extensive surgery.  
NOTE Confidence: 0.85922045

00:14:51.360 --> 00:14:53.405 Many patients will have chemotherapy  
NOTE Confidence: 0.85922045

00:14:53.405 --> 00:14:55.450 before having that major surgery,  
NOTE Confidence: 0.85922045

00:14:55.450 --> 00:14:57.832 but again, that's the minority of  
NOTE Confidence: 0.85922045

00:14:57.832 --> 00:14:59.950 patients that have bladder cancer,  
NOTE Confidence: 0.85922045

00:14:59.950 --> 00:15:01.180 so most people

NOTE Confidence: 0.85922045

00:15:01.180 --> 00:15:03.442 will go to their primary care

NOTE Confidence: 0.85922045

00:15:03.442 --> 00:15:06.397 physician and and don't don't go to

NOTE Confidence: 0.85922045

00:15:06.397 --> 00:15:08.606 urologist regularly, should they be,

NOTE Confidence: 0.85922045

00:15:08.606 --> 00:15:11.630 or should they wait for a referral?

NOTE Confidence: 0.85922045

00:15:11.630 --> 00:15:14.556 And present to their primary care physician.

NOTE Confidence: 0.85922045

00:15:14.560 --> 00:15:16.660 Getting a referral to urologist.

NOTE Confidence: 0.87131006

00:15:17.840 --> 00:15:20.230 That's correct, everyone should continue

NOTE Confidence: 0.87131006

00:15:20.230 --> 00:15:22.620 with their primary care physician.

NOTE Confidence: 0.87131006

00:15:22.620 --> 00:15:25.010 They should inquire to whether

NOTE Confidence: 0.87131006

00:15:25.010 --> 00:15:27.400 they are having PSA screening,

NOTE Confidence: 0.87131006

00:15:27.400 --> 00:15:30.640 because unfortunately there is some.

NOTE Confidence: 0.87131006

00:15:30.640 --> 00:15:33.466 Controversy and some physicians in the

NOTE Confidence: 0.87131006

00:15:33.466 --> 00:15:37.126 primary care setting to do not often use

NOTE Confidence: 0.87131006

00:15:37.126 --> 00:15:39.676 PSA because there's been a controversy,

NOTE Confidence: 0.87131006

00:15:39.680 --> 00:15:41.087 whether it's as.

NOTE Confidence: 0.87131006

00:15:41.087 --> 00:15:44.370 As specific as they would like it,  
NOTE Confidence: 0.87131006

00:15:44.370 --> 00:15:45.802 but still right now.  
NOTE Confidence: 0.87131006

00:15:45.802 --> 00:15:47.950 The recommendation is for screening so  
NOTE Confidence: 0.87131006

00:15:48.016 --> 00:15:50.020 the patients should ask for screening  
NOTE Confidence: 0.87131006

00:15:50.020 --> 00:15:52.328 and then it would be carried out,  
NOTE Confidence: 0.87131006

00:15:52.330 --> 00:15:54.724 and then if there's a problem they  
NOTE Confidence: 0.87131006

00:15:54.724 --> 00:15:56.828 will be referred to a urologist.  
NOTE Confidence: 0.8096489

00:15:57.760 --> 00:16:00.070 And once somebody is seeing urologist,  
NOTE Confidence: 0.8096489

00:16:00.070 --> 00:16:03.150 I presume it's as with many of these,  
NOTE Confidence: 0.8096489

00:16:03.150 --> 00:16:05.460 at least a yearly yearly visit.  
NOTE Confidence: 0.8616622

00:16:06.050 --> 00:16:08.190 Typically it's a yearly visit. Yes,  
NOTE Confidence: 0.8616622

00:16:08.190 --> 00:16:08.900 doctor renzulli.  
NOTE Confidence: 0.8616622

00:16:08.900 --> 00:16:11.030 Unfortunately we are at a time.  
NOTE Confidence: 0.8616622

00:16:11.030 --> 00:16:13.662 I want to thank you so much for  
NOTE Confidence: 0.8616622

00:16:13.662 --> 00:16:15.658 being with us this morning.  
NOTE Confidence: 0.8616622

00:16:15.660 --> 00:16:17.084 An important area that

NOTE Confidence: 0.8616622

00:16:17.084 --> 00:16:18.508 for people to consider,

NOTE Confidence: 0.8616622

00:16:18.510 --> 00:16:20.376 and I think maybe the biggest

NOTE Confidence: 0.8616622

00:16:20.376 --> 00:16:22.451 takeaway from this is that people

NOTE Confidence: 0.8616622

00:16:22.451 --> 00:16:24.755 should make sure that their primary

NOTE Confidence: 0.8616622

00:16:24.755 --> 00:16:26.309 care physicians are actually

NOTE Confidence: 0.8616622

00:16:26.309 --> 00:16:28.109 performing the tests that are

NOTE Confidence: 0.8616622

00:16:28.109 --> 00:16:29.902 necessary to see whether there

NOTE Confidence: 0.8616622

00:16:29.902 --> 00:16:32.038 is any need to see urologist.

NOTE Confidence: 0.8616622

00:16:32.040 --> 00:16:34.580 With that. With that Zach.

NOTE Confidence: 0.8616622

00:16:34.580 --> 00:16:36.818 Tell me what time it is.

NOTE Confidence: 0.8616622

00:16:36.820 --> 00:16:40.336 Is time for the news?

NOTE Confidence: 0.8616622

00:16:40.336 --> 00:16:41.429 How?

NOTE Confidence: 0.81989616

00:16:42.940 --> 00:16:45.404 Thank you very much. Both man Zach.

NOTE Confidence: 0.81989616

00:16:45.410 --> 00:16:47.811 Appreciate it. It is time for the

NOTE Confidence: 0.61938953

00:17:11.010 --> 00:17:12.210 Southeastern Connecticut news.

NOTE Confidence: 0.61938953
