Yale BioMed Amgen Scholars Program/Summer Undergraduate Research Fellowship

The Yale BioMed Amgen Scholars Program is a research-intensive summer training in biomedical and research for undergraduate students who plan obtain a PhD or an MD-PhD in the biomedical sciences. Students from diverse backgrounds, including those who are first in their families to attend college, members of groups underrepresented in the sciences, from inner-city or rural communities, or have group up with financial or other disadvantages are encouraged to apply.

**Program Details**
- 9-week research and didactic curriculum
- Matched with faculty and pursue a research project under his/her direction
- Hands on training in research techniques, data acquisition and analysis
- Participate in lab meetings
- Attend weekly Journal Club, Career Development and Faculty Talks and social activities
- Peer mentoring by current PhD and MD-PhD students
- $5,000 stipend; cost of travel to and from New Haven reimbursed up to $750
- Housing on Medical School Campus
- Closing symposium to present summer research

**Eligibility Requirements**
- Are United States or citizens or permanent residents
- Attend an accredited four-year college or university in the United States, Puerto Rico, or other US territories
- Must be rising juniors or seniors*
- Have completed at least one semester of college level biology, chemistry, or physics at time of application
- Have a cumulative grade point average of 3.2 or above
- Have an interest in pursuing a PhD or MD-PhD

*Non-Amgen resources are available to support a small number of rising sophomores who are disadvantaged or members of underrepresented groups as part of the BioMed SURF Program

Applications open in early November!
