Yale School of Public Health Department of Environmental Health Sciences Presents: "Olive Oil and Health: New Frontiers and Partnerships for Research and Education"

Enjoy the convenience of attending Weight Watchers’ meetings at work and learn how to make positive changes to lose weight and keep it off! Meetings are held every Tuesday at 12noon, in SHM 1-304. Walk-ins welcome! You’re welcome to visit a meeting for free to learn more.

Speakers

Joseph R. Profaci
North American Olive Oil Association

Mary M. Flynn, Ph.D., RD
Brow University

Professor of Medicinal and Natural Products
Khalid El sayed, Ph.D
School of Pharmacy, University of Louisiana

Professor of Pharmaceutical Sciences
Diomedes E. Logothetis
School of Pharmacy, University of Louisiana

Kimberly Houdling
American Olive Oil Producers Association

Professor of Drug Discovery
Amal Kaddoura, Ph.D.
Harrison School of Pharmacy

Distinguished Member & President
Gary Beauchamp, Ph.D
Mount Chemical Sensory Center

Dynamics of the HIV Outbreak and Response in Scott County, Indiana

Chadi Abdallah MD
Assistant Professor of Psychiatry; Acting Deputy Director; and Director of Neuroimaging, Clinical Neuroscience Division, VA National Center for PTSD

Biography
Dr. Chadi G. Abdallah has expertise in translational clinical neuroscience, multimodal magnetic resonance neuroimaging, and the use of glutamatergic drugs in treating trauma- and stress-related psychiatric disorders. He employs a broad range of neuroimaging modalities to study the neurobiology of psychiatric disorders and the mechanisms underlying the behavioral effect of glutamate-based agents. His research program focuses on understanding the mechanisms underlying trauma, depression, and chronic stress, with emphasis on the glutamatergic system and neuroenergetics. He has particular interest in glutamate transmission and synaptic plasticity, and how these contribute to neuroenergetics.

Office: 347/653/0717
Email: chadi.abdallah@yale.edu
Located on the 2nd floor of 100 York Street Building.

Making milestone against non-smiling lung cancer.
Reed, Neustadter awarded competitive fellowships to present research at Austen Riggs Center

August 29, 2019

Submitted by Christopher Souter

Professor James Rothman, the Wallace Professor of the Biomedical Sciences at Yale University, is one of the world’s most distinguished biochemists.

With the temperature at 87 degrees, it seemed like August 9, the day of the School of Medicine’s White Coat Ceremony, was to be a scorcher. Instead, clouds rolled in from the southwest, a cool breeze swept into Havens Plaza, and more than 400 staff, faculty, friends, and family members gathered under a tent outside Havens Plaza to watch as the School of Medicine’s Class of 2022 opened a new chapter of their lives.

"Today represents the culmination of decades of commitment on your part and on the part of our newest students," said Robert J. Alpers, MD, chief and Ensign Professor of Medicine, addressing the
I'm not a fan of cold weather.
