The Collaborative Behavioral Health and Addiction Medicine in Primary Care training (CHAMP) program for medical residents, physician associate (PA) students, and faculty is pleased to offer an Addiction Medicine Faculty Development Program for faculty interested in enhancing their addiction medicine and behavioral health knowledge and skillset. Over the course of an academic year, participants will have the opportunity to:

- Receive one-on-one guidance for clinical work related to addiction medicine and behavioral health from their specially paired CHAMP Faculty Mentor.
- Meet quarterly or more with their mentor to create and implement a faculty development plan that suits their interests.
- Engage with a menu of elective training activities, depending on participants availability, on topics ranging from behavioral health counseling to medications for addiction treatment.
- Gain opportunities to participate in clinical immersion experiences in a number of outpatient and inpatient settings where they can gain practical, "real-world" experience in addiction medicine.

Meet Our CHAMP Faculty Mentors

Kenneth Morford, MD, FASAM  
Jeanette Tetrault, MD, FASAM, FACP  
Dana Cavallo, PhD  
David Fiellin, MD  
Melissa Weimer, DO, MCR, FASAM  
Steven Holt, MD, MD FACP  
William Becker, MD  
Sarita Soares, MD, FACP  
Joseph Donroe, MD, MPH  
Lisa Puglisi, MD
The CHAMP Faculty Development Program Core Content

The CHAMP Faculty Development Program comprises 22-46 hours of core content, depending on participants' prior training and individual needs.

**Mentorship Meetings**
Quarterly one-hour meetings between CHAMP faculty participants and their mentors.

**Trainings**
- X-Waiver Training (8-24 hours)
- Stigma and Accurate/Appropriate Language (1 hour)
- OARS Workshop: Basics of Motivational Interviewing (1 hour)

**Clinical Experiences**
1-2 half-day (4-hour) clinical immersion experiences tailored to the faculty participant's interests.

**Teaching Experiences**
Opportunities to participate in one or more teaching experiences (1-4 hours) co-led with a CHAMP faculty mentor or additional addiction medicine faculty, including
- ILCE Taking a Substance Use History Workshop
- Screening, Brief Intervention and Referral to Treatment (SBIRT) Training
- X-Waiver Training
- iPro Addiction Medicine Primer

**CHAMP Faculty Retreat**
Participation in a day-long (8 hour) learning and professional development retreat on topics in addiction medicine and behavioral health.
Learn More About Our Immersion Sites

APT Foundation Central Medical Unit (CMU)

CMU is a primary care clinic embedded within the APT Foundation, which is a large addiction treatment center and federally certified Opioid Treatment Program. The APT Foundation is a Level 4 integrated healthcare system with both primary care and behavioral health services sharing the same physical space and a unified electronic medical record. CMU hosts an inter-professional team of physicians, nurse practitioners, registered nurses, social workers, and administrative staff providing primary care, behavioral health, and addiction treatment services to a Medicaid-predominant patient population. Faculty may receive experience initiating and monitoring treatments for opioid use disorder (OUD) with methadone, buprenorphine, and naltrexone; treating patients with medications for alcohol use disorder and smoking cessation; performing outpatient alcohol detoxification and benzodiazepine tapers; and screening, diagnosing and treating hepatitis C infection.

Addiction Recovery Clinic (ARC)

ARC is a longitudinal, chronic disease management clinic embedded within the academic primary care practice for all YPC residents. ARC features an inter-professional team that includes a physician board-certified in Internal Medicine and Addiction Medicine, clinical psychologist, nurse practitioner, Addiction Medicine fellow, clinical pharmacist, and registered nurses to identify, evaluate and treat a variety of substance use disorders. Faculty may receive experience initiating and monitoring treatments for OUD with both sublingual and injectable buprenorphine; treating patients with medications for alcohol use disorder and smoking cessation; providing behavioral counseling alongside a clinical psychologist; and participating in shared medical group visits.

YNHH Primary Care Center - Transitions Clinic

Transitions Clinic is a medical home for people in the New Haven area who have recently been released from prison and have a chronic medical condition, including SUD and behavioral health conditions. Visiting faculty work with an attending physician board-certified in Internal Medicine and Addiction Medicine and a community health worker with a previous history of incarceration to provide patients with primary care services, referral to specialty clinics, and support for employment, housing, medical coverage and education.

Yale Addiction Medicine Consult Service (YAMCS)

YAMCS provides addiction assessment and treatment to patients who are admitted to Yale New Haven Hospital for a range of medical conditions including SUD, behavioral health conditions, and other relevant medical disorders, such as chronic pain and infective endocarditis. YAMCS comprises an inter-professional team including an attending physician board-certified in Internal Medicine and Addiction Medicine, an Addiction Medicine fellow, a nurse practitioner, and two health promotion advocates. Faculty may gain inpatient experience diagnosing a variety of SUD; initiating medication treatment for OUD, alcohol use disorder, and tobacco use; assisting in the management of medical and behavioral health co-morbidities; and establishing safe transitions of care from the hospital to the outpatient community setting.
