

# Ready to mix paint?

## Protect yourself and your co-workers

- ❖ **Nitrile Gloves**  
protect skin from solvents and hardeners. Replace after each use.
- ❖ **Coveralls**  
protect skin and street clothes from contact with solvents.
- ❖ **Eye Protection**  
protects against splashes and fumes.
- ❖ **Respirator with Organic Vapor Cartridges and N95 Paint Pads**

protects from solvent vapors when opening, pouring and stirring solvents and paint.

- ❖ **Mixing Room** – Paint Mixing should always be done with good ventilation.
