WEBVTT

NOTE duration:"01:53:24.7700000"

NOTE language:en-us

NOTE Confidence: 0.883678674697876

00:00:00.000 --> 00:00:02.320 OK, so let's move on

NOTE Confidence: 0.883678674697876

00:00:02.320 --> 00:00:04.539 to the next flight and and so

NOTE Confidence: 0.883678674697876

00:00:04.539 --> 00:00:06.839 my name is Meher Kriegerin.

NOTE Confidence: 0.883678674697876

00:00:06.840 --> 00:00:08.724 We're going to be.

NOTE Confidence: 0.883678674697876

00:00:08.724 --> 00:00:10.608 Starting this right now,

NOTE Confidence: 0.883678674697876

00:00:10.610 --> 00:00:14.830 and so if you want credit for the CME credit,

NOTE Confidence: 0.883678674697876

00:00:14.830 --> 00:00:17.566 here are the instructions and we're

NOTE Confidence: 0.883678674697876

00:00:17.566 --> 00:00:20.829 going to send out the instructions a

NOTE Confidence: 0.883678674697876

00:00:20.829 --> 00:00:24.450 little bit later or put them into the

NOTE Confidence: 0.883678674697876

00:00:24.450 --> 00:00:28.014 chat so you can get some credits for this.

NOTE Confidence: 0.883678674697876

00:00:28.020 --> 00:00:30.980 And so we're going to start off here.

NOTE Confidence: 0.883678674697876

00:00:30.980 --> 00:00:33.570 So Karen, let's have the next slide.

NOTE Confidence: 0.883678674697876

00:00:33.570 --> 00:00:35.420 So basically, there's no commercial

NOTE Confidence: 0.883678674697876

00:00:35.420 --> 00:00:37.270 support for this grand rounds,

NOTE Confidence: 0.883678674697876

00:00:37.270 --> 00:00:39.790 and we have looked at everybody

NOTE Confidence: 0.883678674697876

00:00:39.790 --> 00:00:42.393 slides and what we're going to

NOTE Confidence: 0.883678674697876

00:00:42.393 --> 00:00:45.333 talk about an all the conflicts of

NOTE Confidence: 0.883678674697876

00:00:45.333 --> 00:00:47.740 interests have been resolved next.

NOTE Confidence: 0.883678674697876

00:00:47.740 --> 00:00:51.604 So my world here at the ale changed

NOTE Confidence: 0.883678674697876

00:00:51.604 --> 00:00:56.802 on March the 10th, 2020 at 7:51 PM.

NOTE Confidence: 0.883678674697876

00:00:56.802 --> 00:00:58.368 Next slide.

NOTE Confidence: 0.883678674697876

00:00:58.370 --> 00:01:02.195 So everybody on faculty at DL got this email,

NOTE Confidence: 0.883678674697876

00:01:02.200 --> 00:01:05.280 and on the next slide I'm going to

NOTE Confidence: 0.883678674697876

00:01:05.280 --> 00:01:08.568 show you what the email showed next.

NOTE Confidence: 0.883678674697876

00:01:08.570 --> 00:01:14.690 Slide Carne. So basically this was before.

NOTE Confidence: 0.883678674697876

00:01:14.690 --> 00:01:18.173 Prove it became a big deal in our community.

NOTE Confidence: 0.883678674697876

00:01:18.180 --> 00:01:20.364 So the all the students that

NOTE Confidence: 0.883678674697876

00:01:20.364 --> 00:01:22.628 they'll they were on spring break

NOTE Confidence: 0.883678674697876

00:01:22.628 --> 00:01:25.176 an what they were being told here

NOTE Confidence: 0.883678674697876

00:01:25.176 --> 00:01:27.626 is that they should stay home.

NOTE Confidence: 0.883678674697876

00:01:27.630 --> 00:01:31.366 All the classes are going to be online.

NOTE Confidence: 0.883678674697876

00:01:31.370 --> 00:01:33.700 None of the faculty was

NOTE Confidence: 0.883678674697876

00:01:33.700 --> 00:01:35.564 allowed to travel anymore.

NOTE Confidence: 0.883678674697876

00:01:35.570 --> 00:01:38.360 Research was sort of done and

NOTE Confidence: 0.883678674697876

00:01:38.360 --> 00:01:40.772 all teaching was done except

NOTE Confidence: 0.883678674697876

00:01:40.772 --> 00:01:43.508 for using zoom and so forth.

NOTE Confidence: 0.883678674697876

00:01:43.510 --> 00:01:44.440 Next slide.

NOTE Confidence: 0.93797767162323

00:01:46.720 --> 00:01:49.276 So this was our new reality,

NOTE Confidence: 0.93797767162323

00:01:49.280 --> 00:01:53.132 so the email that I just sent you came

NOTE Confidence: 0.93797767162323

00:01:53.132 --> 00:01:56.729 about a week before my last day in

NOTE Confidence: 0.93797767162323

00:01:56.729 --> 00:02:00.188 clinic which was about March the 14th.

NOTE Confidence: 0.93797767162323

00:02:00.190 --> 00:02:03.144 The reopening of our clinic and I'm

NOTE Confidence: 0.93797767162323

00:02:03.144 --> 00:02:06.015 using the word reopening here in

NOTE Confidence: 0.93797767162323

00:02:06.015 --> 00:02:08.545 quotation marks occured about two

NOTE Confidence: 0.93797767162323

00:02:08.545 --> 00:02:11.929 or three days ago and what I mean

NOTE Confidence: 0.93797767162323

00:02:11.929 --> 00:02:14.776 by reopening is that in the interval

NOTE Confidence: 0.93797767162323

00:02:14.776 --> 00:02:17.870 between March the 15th and now we

NOTE Confidence: 0.93797767162323

00:02:17.963 --> 00:02:20.993 were only doing a telemedicine visits

NOTE Confidence: 0.93797767162323

00:02:20.993 --> 00:02:24.190 either by phone or or by video.

NOTE Confidence: 0.93797767162323

00:02:24.190 --> 00:02:27.606 And we were doing very limited sleep testing.

NOTE Confidence: 0.93797767162323

00:02:27.610 --> 00:02:30.166 Uh, no titration studies no split

NOTE Confidence: 0.93797767162323

00:02:30.166 --> 00:02:31.018 night studies.

NOTE Confidence: 0.93797767162323

00:02:31.020 --> 00:02:33.798 And during this interval what I'm

NOTE Confidence: 0.93797767162323

00:02:33.798 --> 00:02:37.051 showing you here is the number of

NOTE Confidence: 0.93797767162323

00:02:37.051 --> 00:02:39.673 patients in the hospital at Yale

NOTE Confidence: 0.93797767162323

00:02:39.673 --> 00:02:41.509 New Haven Hospital.

NOTE Confidence: 0.93797767162323

00:02:41.510 --> 00:02:43.460 Uh, yeah, during this time,

NOTE Confidence: 0.93797767162323

00:02:43.460 --> 00:02:46.015 so the number of patients peaked at

NOTE Confidence: 0.93797767162323

00:02:46.015 --> 00:02:48.434 about 4:50 and now the yesterday

NOTE Confidence: 0.93797767162323

00:02:48.434 --> 00:02:49.676 morning was 122.

NOTE Confidence: 0.93797767162323

00:02:49.680 --> 00:02:52.008 And as you can see below,

NOTE Confidence: 0.93797767162323

00:02:52.010 --> 00:02:54.110 the patients on ventilators most of

NOTE Confidence: 0.93797767162323

00:02:54.110 --> 00:02:56.942 the time we had about 70 patients

NOTE Confidence: 0.93797767162323

00:02:56.942 --> 00:02:57.848 on Ventilators,

NOTE Confidence: 0.93797767162323

00:02:57.850 --> 00:03:00.566 an now we're down to about 30.

NOTE Confidence: 0.93797767162323

00:03:00.570 --> 00:03:03.048 So things are getting better and when

NOTE Confidence: 0.93797767162323

00:03:03.048 --> 00:03:05.630 you look at something like this,

NOTE Confidence: 0.93797767162323

00:03:05.630 --> 00:03:08.185 what we're seeing is is really a

NOTE Confidence: 0.93797767162323

00:03:08.185 --> 00:03:10.986 spike and one of the things about

NOTE Confidence: 0.93797767162323

00:03:10.986 --> 00:03:13.416 this spike is that it affected.

NOTE Confidence: 0.93797767162323

00:03:13.420 --> 00:03:15.570 Everybody, uh, in our community,

NOTE Confidence: 0.93797767162323

00:03:15.570 --> 00:03:18.568 but it affected some parts of our

NOTE Confidence: 0.93797767162323

00:03:18.568 --> 00:03:21.136 community more than others in particular,

NOTE Confidence: 0.93797767162323

00:03:21.140 --> 00:03:23.695 the African American patients in

NOTE Confidence: 0.93797767162323

00:03:23.695 --> 00:03:26.748 our community were twice as likely

NOTE Confidence: 0.93797767162323

00:03:26.748 --> 00:03:29.611 to be in the hospital and twice

NOTE Confidence: 0.93797767162323

00:03:29.611 --> 00:03:32.260 as likely to be on on ventilators

NOTE Confidence: 0.93797767162323

00:03:32.260 --> 00:03:34.870 as as the rest of the population.

NOTE Confidence: 0.93797767162323

00:03:34.870 --> 00:03:37.020 So right now you know,

NOTE Confidence: 0.93797767162323

00:03:37.020 --> 00:03:40.584 all of you know there are a lot of

NOTE Confidence: 0.93797767162323

00:03:40.584 --> 00:03:43.569 protests going on out there because.

NOTE Confidence: 0.93797767162323

00:03:43.570 --> 00:03:47.058 Of disparities uh in in many parts of

NOTE Confidence: 0.93797767162323

00:03:47.058 --> 00:03:50.110 American Society, but this is a disparity,

NOTE Confidence: 0.93797767162323

00:03:50.110 --> 00:03:52.325 a healthcare disparity that we're

NOTE Confidence: 0.93797767162323

00:03:52.325 --> 00:03:55.405 looking at so we quote reopened and

NOTE Confidence: 0.93797767162323

00:03:55.405 --> 00:03:58.121 now I'm gonna hand the baton over

NOTE Confidence: 0.93797767162323

00:03:58.121 --> 00:04:01.346 to Carney who's gonna tell us about

NOTE Confidence: 0.93797767162323

00:04:01.346 --> 00:04:03.625 what people been thinking about

NOTE Confidence: 0.93797767162323

00:04:03.625 --> 00:04:06.235 and what's going to happen next?

NOTE Confidence: 0.930592656135559

00:04:06.240 --> 00:04:08.856 So yeah we're going to have

NOTE Confidence: 0.930592656135559

00:04:08.856 --> 00:04:10.600 a number of presentations.

NOTE Confidence: 0.930592656135559

00:04:10.600 --> 00:04:13.694 Overall, we're going to basically hold the.

NOTE Confidence: 0.930592656135559

00:04:13.700 --> 00:04:15.128 Questions until the sort

NOTE Confidence: 0.930592656135559

00:04:15.128 --> 00:04:16.556 of panel discussion part,

NOTE Confidence: 0.930592656135559

00:04:16.560 --> 00:04:18.856 but please start sending a Mens so

NOTE Confidence: 0.930592656135559

00:04:18.856 --> 00:04:21.816 we can try to collect them and put

NOTE Confidence: 0.930592656135559

00:04:21.816 --> 00:04:24.493 them together and please try to use

NOTE Confidence: 0.930592656135559

00:04:24.493 --> 00:04:26.943 the Q&A function rather than the chat

NOTE Confidence: 0.930592656135559

00:04:26.943 --> 00:04:29.090 box for sending in your questions.

NOTE Confidence: 0.930592656135559

00:04:29.090 --> 00:04:31.954 And again most of us will be available

NOTE Confidence: 0.930592656135559

00:04:31.954 --> 00:04:34.413 till 4:00 PM eastern Standard Time

NOTE Confidence: 0.930592656135559

00:04:34.413 --> 00:04:37.220 to help talk about what's going on.

NOTE Confidence: 0.930592656135559

00:04:37.220 --> 00:04:41.099 Hum. So a man we have seemed a list

NOTE Confidence: 0.930592656135559

00:04:41.099 --> 00:04:45.046 of of panelists joining us today.

NOTE Confidence: 0.930592656135559

00:04:45.050 --> 00:04:48.162 Most that you'll hear from a man and

NOTE Confidence: 0.930592656135559

00:04:48.162 --> 00:04:51.910 a man will summarize this at the end,

NOTE Confidence: 0.930592656135559

00:04:51.910 --> 00:04:54.906 as we're getting towards the panel part.

NOTE Confidence: 0.930592656135559

00:04:54.910 --> 00:04:57.060 So as a little background,

NOTE Confidence: 0.930592656135559

00:04:57.060 --> 00:04:59.628 you know, as we all know,

NOTE Confidence: 0.930592656135559

00:04:59.630 --> 00:05:01.770 COVID-19 has had a particular

NOTE Confidence: 0.930592656135559

00:05:01.770 --> 00:05:03.482 impact on sleep medison,

NOTE Confidence: 0.930592656135559

00:05:03.490 --> 00:05:06.500 especially with the in lab testing sins,

NOTE Confidence: 0.930592656135559

00:05:06.500 --> 00:05:08.680 pap, Canaris Allies the Cove

NOTE Confidence: 0.930592656135559

00:05:08.680 --> 00:05:11.669 in viruses as far as we know.

NOTE Confidence: 0.930592656135559

00:05:11.670 --> 00:05:14.386 And because patients with this virus can

NOTE Confidence: 0.930592656135559

00:05:14.386 --> 00:05:16.559 be effective starting six days prior,

NOTE Confidence: 0.930592656135559

00:05:16.560 --> 00:05:18.858 the symptoms which is earlier than

NOTE Confidence: 0.930592656135559

00:05:18.858 --> 00:05:21.070 pass viruses like SARS and Murs,

NOTE Confidence: 0.930592656135559

00:05:21.070 --> 00:05:23.590 it's you know there's more of that

NOTE Confidence: 0.930592656135559

00:05:23.590 --> 00:05:25.517 potential of being a spreader

NOTE Confidence: 0.930592656135559

00:05:25.517 --> 00:05:27.457 before you even get symptoms,

NOTE Confidence: 0.930592656135559

00:05:27.460 --> 00:05:30.709 which again puts a sort of in a different

NOTE Confidence: 0.930592656135559

00:05:30.709 --> 00:05:33.850 light for this virus than any prior ones.

NOTE Confidence: 0.930592656135559

00:05:33.850 --> 00:05:36.489 So with this in about mid March,

NOTE Confidence: 0.930592656135559

00:05:36.490 --> 00:05:37.284 national organizations,

NOTE Confidence: 0.930592656135559

00:05:37.284 --> 00:05:39.666 including the SM gave guidance to

NOTE Confidence: 0.930592656135559

00:05:39.666 --> 00:05:41.747 limit testing around that same time.

NOTE Confidence: 0.930592656135559

00:05:41.750 --> 00:05:43.964 A lot of states were placing

NOTE Confidence: 0.930592656135559

00:05:43.964 --> 00:05:46.680 limits on testing a lot of medical.

NOTE Confidence: 0.930592656135559

00:05:46.680 --> 00:05:48.948 Centers were needing to close down,

NOTE Confidence: 0.930592656135559

00:05:48.950 --> 00:05:51.477 and since then sort of follow-up guidance

NOTE Confidence: 0.930592656135559

00:05:51.477 --> 00:05:54.566 about how and when to reopen and expand

NOTE Confidence: 0.930592656135559

00:05:54.566 --> 00:05:56.501 services have started coming out,

NOTE Confidence: 0.930592656135559

00:05:56.510 --> 00:05:58.666 but there are just so many local

NOTE Confidence: 0.930592656135559

00:05:58.666 --> 00:06:00.686 factors related to the code that

NOTE Confidence: 0.930592656135559

00:06:00.686 --> 00:06:02.750 levels as Doctor Krieger just mentioned

NOTE Confidence: 0.930592656135559

00:06:02.750 --> 00:06:05.124 the availability gpe testing other

NOTE Confidence: 0.930592656135559

00:06:05.124 --> 00:06:07.088 governmental restriction in place.

NOTE Confidence: 0.930592656135559

00:06:07.090 --> 00:06:10.204 So we're going to try to touch on some

NOTE Confidence: 0.930592656135559

00:06:10.204 --> 00:06:13.520 of this with some of the talks today.

NOTE Confidence: 0.930592656135559

00:06:13.520 --> 00:06:15.788 We did do two prior presentations.

NOTE Confidence: 0.930592656135559

00:06:15.790 --> 00:06:18.088 If you haven't seen them yet.

NOTE Confidence: 0.930592656135559

00:06:18.090 --> 00:06:20.538 They're available on on the website

NOTE Confidence: 0.930592656135559

00:06:20.538 --> 00:06:23.005 and again will post these links

NOTE Confidence: 0.930592656135559

00:06:23.005 --> 00:06:25.273 on the chat function during the

NOTE Confidence: 0.930592656135559

00:06:25.273 --> 00:06:27.817 talk so you can get them there,

NOTE Confidence: 0.930592656135559

00:06:27.820 --> 00:06:28.199 um,

NOTE Confidence: 0.930592656135559

00:06:28.199 --> 00:06:31.231 but what I'm going to focus on today

NOTE Confidence: 0.930592656135559

00:06:31.231 --> 00:06:34.717 is we had sent out a survey at the end

NOTE Confidence: 0.930592656135559

00:06:34.717 --> 00:06:38.315 of April through the first week in May,

NOTE Confidence: 0.930592656135559

00:06:38.320 --> 00:06:39.469 and obviously providers,

NOTE Confidence: 0.930592656135559

00:06:39.469 --> 00:06:42.600 and so I'm going to go over that.

NOTE Confidence: 0.930592656135559

00:06:42.600 --> 00:06:46.490 So in that one week that the survey was open,

NOTE Confidence: 0.930592656135559

00:06:46.490 --> 00:06:49.442 we had 379 completed surveys and they seem

NOTE Confidence: 0.930592656135559

00:06:49.442 --> 00:06:51.927 to represent about 297 unique centers.

NOTE Confidence: 0.930592656135559

00:06:51.930 --> 00:06:53.148 Another unique respondents.

NOTE Confidence: 0.930592656135559

00:06:53.148 --> 00:06:55.584 For 75 positions in 283 technologists,

NOTE Confidence: 0.930592656135559

00:06:55.590 --> 00:06:58.870 an we had responders from 46 US states

NOTE Confidence: 0.930592656135559

00:06:58.870 --> 00:07:00.988 and territories in 13 countries,

NOTE Confidence: 0.930592656135559

00:07:00.990 --> 00:07:04.046 so we had a pretty wide breadth of

NOTE Confidence: 0.930592656135559

00:07:04.046 --> 00:07:06.218 respondents and they really reflected

NOTE Confidence: 0.930592656135559

00:07:06.218 --> 00:07:09.319 all different sorts of lab types and

NOTE Confidence: 0.930592656135559

00:07:09.399 --> 00:07:12.607 specialties and seems to be a quite broad.

NOTE Confidence: 0.930592656135559

00:07:12.610 --> 00:07:14.969 Population so one of the sort of

NOTE Confidence: 0.930592656135559

00:07:14.969 --> 00:07:17.426 a top questions we asked was what

NOTE Confidence: 0.930592656135559

00:07:17.426 --> 00:07:19.490 was the effect that people were

NOTE Confidence: 0.930592656135559

00:07:19.561 --> 00:07:21.823 seeing locally due to COVID-19 in

NOTE Confidence: 0.930592656135559

00:07:21.823 --> 00:07:24.004 about 90% of respondents said that

NOTE Confidence: 0.930592656135559

00:07:24.004 --> 00:07:26.140 they stop there in lab testing

NOTE Confidence: 0.911923587322235

00:07:26.206 --> 00:07:28.294 or significantly reduced it by at

NOTE Confidence: 0.911923587322235

00:07:28.294 --> 00:07:30.770 least 90% an about 60% said they

NOTE Confidence: 0.911923587322235

00:07:30.770 --> 00:07:32.550 significantly reduce their home sleep.

NOTE Confidence: 0.911923587322235

00:07:32.550 --> 00:07:35.278 Testing an when you look at sort of

NOTE Confidence: 0.911923587322235

00:07:35.278 --> 00:07:38.236 the dates of when this testing came in.

NOTE Confidence: 0.911923587322235

00:07:38.240 --> 00:07:40.334 Sort of as suspected the highest

NOTE Confidence: 0.911923587322235

00:07:40.334 --> 00:07:42.918 numbers were sort of around that week.

NOTE Confidence: 0.911923587322235

00:07:42.920 --> 00:07:46.792 Of March 16th, when a lot of the

NOTE Confidence: 0.911923587322235

00:07:46.792 --> 00:07:49.504 different recommendations and changes at

NOTE Confidence: 0.911923587322235

00:07:49.504 --> 00:07:52.269 the governmental level we're changing.

NOTE Confidence: 0.911923587322235

00:07:52.270 --> 00:07:55.861 But there was a sort of a little bit

NOTE Confidence: 0.911923587322235

00:07:55.861 --> 00:07:58.990 earlier into the North East and West,

NOTE Confidence: 0.911923587322235

00:07:58.990 --> 00:08:01.862 and a little bit later in the southeast

NOTE Confidence: 0.911923587322235

00:08:01.862 --> 00:08:04.028 and Southwest and Midwest for some

NOTE Confidence: 0.911923587322235

00:08:04.028 --> 00:08:06.712 of the places we really didn't see

NOTE Confidence: 0.911923587322235

00:08:06.712 --> 00:08:08.876 any otherwise significant regional

NOTE Confidence: 0.911923587322235

00:08:08.876 --> 00:08:11.040 differences or urban suburban

NOTE Confidence: 0.911923587322235

00:08:11.040 --> 00:08:14.530 differences in terms of the 90 and 60%,

NOTE Confidence: 0.911923587322235

00:08:14.530 --> 00:08:17.050 it was pretty across the country

NOTE Confidence: 0.911923587322235

00:08:17.050 --> 00:08:19.630 that most people did stop testing.

NOTE Confidence: 0.911923587322235

00:08:19.630 --> 00:08:23.527 So then we asked about some of the concerns.

NOTE Confidence: 0.911923587322235

00:08:23.530 --> 00:08:25.792 We asked how concerned are you

NOTE Confidence: 0.911923587322235

00:08:25.792 --> 00:08:27.968 about exposing patients or the

NOTE Confidence: 0.911923587322235

00:08:27.968 --> 00:08:29.160 technologists COVID-19?

NOTE Confidence: 0.911923587322235

00:08:29.160 --> 00:08:31.752 And it was definitely a high

NOTE Confidence: 0.911923587322235

00:08:31.752 --> 00:08:33.048 concern for both.

NOTE Confidence: 0.911923587322235

00:08:33.050 --> 00:08:33.532 Interestingly,

NOTE Confidence: 0.911923587322235

00:08:33.532 --> 00:08:36.906 there was sort of higher concern about

NOTE Confidence: 0.911923587322235

00:08:36.906 --> 00:08:39.628 exposing the text then the patients.

NOTE Confidence: 0.911923587322235

00:08:39.630 --> 00:08:42.206 Another question we asked was about what

NOTE Confidence: 0.911923587322235

00:08:42.206 --> 00:08:45.018 PPD should be used for in lab testing,

NOTE Confidence: 0.911923587322235

00:08:45.020 --> 00:08:46.665 and interesting that the physicians

NOTE Confidence: 0.911923587322235

00:08:46.665 --> 00:08:49.320 in the text had very similar answers,

NOTE Confidence: 0.911923587322235

00:08:49.320 --> 00:08:52.200 but there was no real consensus of answers,

NOTE Confidence: 0.911923587322235

00:08:52.200 --> 00:08:54.928 and I think this is where the importance

NOTE Confidence: 0.911923587322235

00:08:54.928 --> 00:08:57.484 of getting sort of guidance so that

NOTE Confidence: 0.911923587322235

00:08:57.484 --> 00:08:59.719 we might start hopefully come together

NOTE Confidence: 0.911923587322235

00:08:59.719 --> 00:09:02.968 with what we think would be the best answers.

NOTE Confidence: 0.911923587322235

00:09:02.970 --> 00:09:05.939 So we had about 50% feeling that Eris

NOTE Confidence: 0.911923587322235

00:09:05.939 --> 00:09:07.904 allies aerosol precautions should be

NOTE Confidence: 0.911923587322235

00:09:07.904 --> 00:09:10.910 used at any for all patients in about 25%.

NOTE Confidence: 0.911923587322235

00:09:10.910 --> 00:09:12.820 Feeling that the aerosol precautions

NOTE Confidence: 0.911923587322235

00:09:12.820 --> 00:09:15.806 only needs to be used when Pat therapy

NOTE Confidence: 0.911923587322235

00:09:15.806 --> 00:09:18.192 was used and then another 25% that

NOTE Confidence: 0.911923587322235

00:09:18.192 --> 00:09:20.364 thought different strategies could be used.

NOTE Confidence: 0.911923587322235

00:09:20.370 --> 00:09:21.126 So again,

NOTE Confidence: 0.911923587322235

00:09:21.126 --> 00:09:23.772 just a wide variety of what people

NOTE Confidence: 0.911923587322235

00:09:23.772 --> 00:09:25.320 thought were important.

NOTE Confidence: 0.911923587322235

00:09:25.320 --> 00:09:25.734 Um,

NOTE Confidence: 0.911923587322235

00:09:25.734 --> 00:09:28.218 in terms of other mitigation strategies

NOTE Confidence: 0.911923587322235

00:09:28.218 --> 00:09:32.000 for in lab testing over about 3/4 were

NOTE Confidence: 0.911923587322235

00:09:32.000 --> 00:09:34.455 planning on screening their patients

NOTE Confidence: 0.911923587322235

00:09:34.538 --> 00:09:37.148 for symptoms prior to the studies,

NOTE Confidence: 0.911923587322235

00:09:37.150 --> 00:09:40.013 about 65% thought that they would be

NOTE Confidence: 0.911923587322235

00:09:40.013 --> 00:09:42.328 kept taking the temperature patients

NOTE Confidence: 0.911923587322235

00:09:42.328 --> 00:09:45.340 when they came in for studies.

NOTE Confidence: 0.911923587322235

00:09:45.340 --> 00:09:48.378 About 1/4 looking to see if there

NOTE Confidence: 0.911923587322235

00:09:48.378 --> 00:09:51.716 was any prior testing and only about.

NOTE Confidence: 0.911923587322235

00:09:51.716 --> 00:09:54.570 You know about 17% thought they

NOTE Confidence: 0.911923587322235

00:09:54.570 --> 00:09:56.995 would actually be doing covert

NOTE Confidence: 0.911923587322235

00:09:56.995 --> 00:09:58.999 testing prior to the test,

NOTE Confidence: 0.911923587322235

00:09:59.000 --> 00:10:02.640 so I'm very interested to see you know,

NOTE Confidence: 0.911923587322235

00:10:02.640 --> 00:10:06.070 pretending the fob what was actually done

NOTE Confidence: 0.911923587322235

00:10:06.070 --> 00:10:09.497 versus what people sort of expected to do.

NOTE Confidence: 0.911923587322235

00:10:09.500 --> 00:10:12.104 We asked them the question of what

NOTE Confidence: 0.911923587322235

00:10:12.104 --> 00:10:14.727 type of testing was expected to be

NOTE Confidence: 0.911923587322235

00:10:14.727 --> 00:10:17.620 offered in the next month and about 60%

NOTE Confidence: 0.911923587322235

00:10:17.620 --> 00:10:19.978 thought that they would be offering

NOTE Confidence: 0.911923587322235

00:10:19.978 --> 00:10:22.049 diagnostic testing about 20 to 30%.

NOTE Confidence: 0.911923587322235

00:10:22.050 --> 00:10:24.348 Thought that they would be offering

NOTE Confidence: 0.911923587322235

00:10:24.348 --> 00:10:27.179 in titrations with a little sort of

NOTE Confidence: 0.911923587322235

00:10:27.179 --> 00:10:29.229 smaller numbers for the Pediatrics

NOTE Confidence: 0.911923587322235

00:10:29.229 --> 00:10:31.079 as opposed to the adults.

NOTE Confidence: 0.911923587322235

00:10:31.080 --> 00:10:33.498 Uhm, and then when we asked,

NOTE Confidence: 0.911923587322235

00:10:33.500 --> 00:10:35.520 was there certain populations of

NOTE Confidence: 0.911923587322235

00:10:35.520 --> 00:10:37.540 people you'd offer testing to?

NOTE Confidence: 0.911923587322235

00:10:37.540 --> 00:10:39.560 Um, most people weren't Nestle.

NOTE Confidence: 0.911923587322235

00:10:39.560 --> 00:10:41.340 Restricting to certain populations,

NOTE Confidence: 0.911923587322235

00:10:41.340 --> 00:10:44.474 but but the highest were sort of

NOTE Confidence: 0.911923587322235

00:10:44.474 --> 00:10:46.814 restricting to people who had been

NOTE Confidence: 0.911923587322235

00:10:46.814 --> 00:10:49.130 tested negative and or people that

NOTE Confidence: 0.911923587322235

00:10:49.130 --> 00:10:51.272 had recovered from prior to bed.

NOTE Confidence: 0.873697459697723

00:10:51.280 --> 00:10:54.216 Only about 13% thought that they would limit

NOTE Confidence: 0.873697459697723

00:10:54.216 --> 00:10:57.736 it to low risk patients without Comer base.

NOTE Confidence: 0.873697459697723

00:10:57.740 --> 00:11:01.430 That would put him at risk for severe kovid.

NOTE Confidence: 0.873697459697723

00:11:01.430 --> 00:11:03.694 In about 1/4 of people said that they

NOTE Confidence: 0.873697459697723

00:11:03.694 --> 00:11:05.801 would be offering testing the any

NOTE Confidence: 0.873697459697723

00:11:05.801 --> 00:11:08.015 willing patient that would come in.

NOTE Confidence: 0.873697459697723

00:11:08.020 --> 00:11:11.803 Um, so we. We then asked about, uhm,

NOTE Confidence: 0.873697459697723

00:11:11.803 --> 00:11:14.974 sort of would PCR testing change your

NOTE Confidence: 0.873697459697723

00:11:14.974 --> 00:11:18.020 mind about about strategies and so?

NOTE Confidence: 0.873697459697723

00:11:18.020 --> 00:11:21.652 About 65% of respondents felt that no matter

NOTE Confidence: 0.873697459697723

00:11:21.652 --> 00:11:24.677 Wat Aerosolizes precautions should be used,

NOTE Confidence: 0.873697459697723

00:11:24.680 --> 00:11:28.005 even if there was recent PCR testing.

NOTE Confidence: 0.873697459697723

00:11:28.010 --> 00:11:31.610 But when we asked sort of a question

NOTE Confidence: 0.873697459697723

00:11:31.610 --> 00:11:35.625 of if you are going to do testing,

NOTE Confidence: 0.873697459697723

00:11:35.630 --> 00:11:38.060 how close to the test?

NOTE Confidence: 0.873697459697723

00:11:38.060 --> 00:11:40.356 You know what it needs to be done

NOTE Confidence: 0.873697459697723

00:11:40.356 --> 00:11:42.890 for you to feel confident about it?

NOTE Confidence: 0.873697459697723

00:11:42.890 --> 00:11:45.102 Again, a pretty widespread but about 1/4

NOTE Confidence: 0.873697459697723

00:11:45.102 --> 00:11:47.399 thought that rapid testing would be needed.

NOTE Confidence: 0.873697459697723

00:11:47.400 --> 00:11:49.668 A man about 20% said doesn't really

NOTE Confidence: 0.873697459697723

00:11:49.668 --> 00:11:52.193 matter if you do testing 'cause I think

NOTE Confidence: 0.873697459697723

00:11:52.193 --> 00:11:54.412 you need to use all the precautions

NOTE Confidence: 0.873697459697723

00:11:54.412 --> 00:11:57.052 no matter Wat and then so the rest

NOTE Confidence: 0.873697459697723

00:11:57.060 --> 00:11:59.136 were sort of spread somewhere in

NOTE Confidence: 0.873697459697723

00:11:59.136 --> 00:12:01.473 the middle between sort of one and

NOTE Confidence: 0.873697459697723

00:12:01.473 --> 00:12:03.243 mostly two to three days before.

NOTE Confidence: 0.873697459697723

00:12:03.250 --> 00:12:05.525 Another big issue is how many patients

NOTE Confidence: 0.873697459697723

00:12:05.525 --> 00:12:07.787 are willing to come in for testing.

NOTE Confidence: 0.873697459697723

00:12:07.790 --> 00:12:10.674 So overall is only felt that about 30% of

NOTE Confidence: 0.873697459697723

00:12:10.674 --> 00:12:13.026 patients would be willing to come in in

NOTE Confidence: 0.873697459697723

00:12:13.026 --> 00:12:15.890 the next month if we were offering testing.

NOTE Confidence: 0.873697459697723

00:12:15.890 --> 00:12:18.460 Now we are that month later, so again,

NOTE Confidence: 0.873697459697723

00:12:18.460 --> 00:12:20.980 I don't know what people would say a

NOTE Confidence: 0.873697459697723

00:12:21.054 --> 00:12:23.654 month from now or two months from now.

NOTE Confidence: 0.873697459697723

00:12:23.660 --> 00:12:25.928 Um, and their sum of guard regions.

NOTE Confidence: 0.873697459697723

00:12:25.930 --> 00:12:28.198 We didn't have a ton of data,

NOTE Confidence: 0.873697459697723

00:12:28.200 --> 00:12:30.720 but the northeast seemed to think the less

NOTE Confidence: 0.873697459697723

00:12:30.720 --> 00:12:33.415 the least number of patients would come in.

NOTE Confidence: 0.873697459697723

00:12:33.420 --> 00:12:34.311 And more in,

NOTE Confidence: 0.873697459697723

00:12:34.311 --> 00:12:36.390 in the South felt that felt their

NOTE Confidence: 0.873697459697723

00:12:36.456 --> 00:12:37.488 patient come in,

NOTE Confidence: 0.873697459697723

00:12:37.490 --> 00:12:39.674 but still only less than about 50%.

NOTE Confidence: 0.873697459697723

00:12:39.680 --> 00:12:41.864 So I think as we open up,

NOTE Confidence: 0.873697459697723

00:12:41.870 --> 00:12:45.432 this is going to be a big issue for all of us

NOTE Confidence: 0.873697459697723

00:12:45.432 --> 00:12:48.440 is we may have best intentions to full laps,

NOTE Confidence: 0.873697459697723

00:12:48.440 --> 00:12:50.010 but if patients won't come,

NOTE Confidence: 0.873697459697723

00:12:50.010 --> 00:12:52.866 then we're going to have have issues there.

NOTE Confidence: 0.873697459697723

00:12:52.870 --> 00:12:56.274 In terms of home sleep studies up,

NOTE Confidence: 0.873697459697723

00:12:56.274 --> 00:13:00.208 about 10% of the lab said they were

NOTE Confidence: 0.873697459697723

00:13:00.208 --> 00:13:03.099 using disposable devices and about 25%

NOTE Confidence: 0.873697459697723

00:13:03.100 --> 00:13:05.632 said they were using mailable reusable

NOTE Confidence: 0.873697459697723

00:13:05.632 --> 00:13:08.569 devices and in terms of different

NOTE Confidence: 0.873697459697723

00:13:08.569 --> 00:13:10.909 strategies for processing equipment.

NOTE Confidence: 0.873697459697723

00:13:10.910 --> 00:13:13.406 It was sort of variations and

NOTE Confidence: 0.873697459697723

00:13:13.406 --> 00:13:14.654 certainly no consistency,

NOTE Confidence: 0.873697459697723

00:13:14.660 --> 00:13:17.162 and in what type of procedures

NOTE Confidence: 0.873697459697723

00:13:17.162 --> 00:13:20.502 would be used up, and so you know.

NOTE Confidence: 0.873697459697723

00:13:20.502 --> 00:13:20.920 Interestingly,

NOTE Confidence: 0.873697459697723

00:13:20.920 --> 00:13:23.446 only 62% said they were disinfecting

NOTE Confidence: 0.873697459697723

00:13:23.446 --> 00:13:26.655 the device that may go with some with

NOTE Confidence: 0.873697459697723

00:13:26.655 --> 00:13:29.375 the people that were using the disposal

NOTE Confidence: 0.873697459697723

00:13:29.375 --> 00:13:32.177 device instead only about 35% said

NOTE Confidence: 0.873697459697723

00:13:32.177 --> 00:13:35.096 they would be waiting the 72 hours.

NOTE Confidence: 0.873697459697723

00:13:35.100 --> 00:13:37.620 That has been recommended between reusing.

NOTE Confidence: 0.873697459697723

00:13:37.620 --> 00:13:40.800 So moving on to clinic.

NOTE Confidence: 0.873697459697723

00:13:40.800 --> 00:13:43.628 We have had major changes in clinic,

NOTE Confidence: 0.873697459697723

00:13:43.630 --> 00:13:46.366 so about 75% of of people a month

NOTE Confidence: 0.873697459697723

00:13:46.366 --> 00:13:48.987 ago said they were only offering

NOTE Confidence: 0.873697459697723

00:13:48.987 --> 00:13:51.704 virtual visits and about 4% closed

NOTE Confidence: 0.873697459697723

00:13:51.704 --> 00:13:55.297 all visits and so only 4% of lab said

NOTE Confidence: 0.873697459697723

00:13:55.297 --> 00:13:58.020 that they had no limitations on who

NOTE Confidence: 0.873697459697723

00:13:58.103 --> 00:14:00.994 they allowed to come in for visits.

NOTE Confidence: 0.873697459697723

00:14:01.000 --> 00:14:03.920 And then when we ask sort of where

NOTE Confidence: 0.873697459697723

00:14:03.920 --> 00:14:04.650 you were

NOTE Confidence: 0.911444425582886

00:14:04.740 --> 00:14:07.458 before and where you were after,

NOTE Confidence: 0.911444425582886

00:14:07.460 --> 00:14:11.105 like about 70% of people said they did no.

NOTE Confidence: 0.911444425582886

00:14:11.110 --> 00:14:15.126 Virtual visits before an almost all the rest

NOTE Confidence: 0.911444425582886

00:14:15.126 --> 00:14:18.329 were less than 5% virtual visits before,

NOTE Confidence: 0.911444425582886

00:14:18.329 --> 00:14:21.227 but when we asked about after.

NOTE Confidence: 0.911444425582886

00:14:21.230 --> 00:14:23.178 Almost 75% of people felt that

NOTE Confidence: 0.911444425582886

00:14:23.178 --> 00:14:25.850 they were going to be at least 25%

NOTE Confidence: 0.911444425582886

00:14:25.850 --> 00:14:28.160 of their visits after Um Cove it.

NOTE Confidence: 0.911444425582886

00:14:28.160 --> 00:14:29.480 That would state virtual.

NOTE Confidence: 0.911444425582886

00:14:29.480 --> 00:14:31.130 So this is, I think,

NOTE Confidence: 0.911444425582886

00:14:31.130 --> 00:14:33.148 going to be a, you know,

NOTE Confidence: 0.911444425582886

00:14:33.148 --> 00:14:35.591 a huge shift in the way Sleep

NOTE Confidence: 0.911444425582886

00:14:35.591 --> 00:14:37.718 Medicine is practiced that I expect

NOTE Confidence: 0.911444425582886

00:14:37.718 --> 00:14:40.229 to really stay for a long time.

NOTE Confidence: 0.911444425582886

00:14:40.230 --> 00:14:44.172 And then the last area we sort of ask

NOTE Confidence: 0.911444425582886

00:14:44.172 --> 00:14:48.205 people about some of the insurance issues,

NOTE Confidence: 0.911444425582886

00:14:48.210 --> 00:14:51.493 and so over 70% of respondents felt

NOTE Confidence: 0.911444425582886

00:14:51.493 --> 00:14:54.058 that insurance should at least

NOTE Confidence: 0.911444425582886

00:14:54.058 --> 00:14:56.198 temporary temporarily cover C,

NOTE Confidence: 0.911444425582886

00:14:56.200 --> 00:14:59.200 Pap and rad devices without the

NOTE Confidence: 0.911444425582886

00:14:59.200 --> 00:15:01.200 need of prior testing.

NOTE Confidence: 0.911444425582886

00:15:01.200 --> 00:15:04.044 And then when we ask so if a person

NOTE Confidence: 0.911444425582886

00:15:04.044 --> 00:15:06.940 got a a device sort of empirically,

NOTE Confidence: 0.911444425582886

00:15:06.940 --> 00:15:08.740 should they get follow-up testing

NOTE Confidence: 0.911444425582886

00:15:08.740 --> 00:15:10.894 in about 60% of people thought

NOTE Confidence: 0.911444425582886

00:15:10.894 --> 00:15:12.326 they needed follow-up testing.

NOTE Confidence: 0.911444425582886

00:15:12.330 --> 00:15:15.194 However, there was even more if we said,

NOTE Confidence: 0.911444425582886

00:15:15.200 --> 00:15:17.412 what if that patient gets the fault

NOTE Confidence: 0.911444425582886

00:15:17.412 --> 00:15:19.510 testing and it isn't diagnostic,

NOTE Confidence: 0.911444425582886

00:15:19.510 --> 00:15:20.224 you know,

NOTE Confidence: 0.911444425582886

00:15:20.224 --> 00:15:22.009 I think particularly Medicare patients

NOTE Confidence: 0.911444425582886

00:15:22.009 --> 00:15:24.538 who might not meet Medicare's 4% criteria,

NOTE Confidence: 0.911444425582886

00:15:24.538 --> 00:15:27.044 but might still have OSA in about

NOTE Confidence: 0.911444425582886

00:15:27.044 --> 00:15:29.180 71% felt that if the patient

NOTE Confidence: 0.911444425582886

00:15:29.180 --> 00:15:31.719 got a machine and was using it,

NOTE Confidence: 0.911444425582886

00:15:31.720 --> 00:15:33.100 and benefiting from it.

NOTE Confidence: 0.911444425582886

00:15:33.100 --> 00:15:35.780 That day it still should be covered,

NOTE Confidence: 0.911444425582886

00:15:35.780 --> 00:15:38.452 but my guess is unless we have some

NOTE Confidence: 0.911444425582886

00:15:38.452 --> 00:15:40.608 real advocacy around that that that

NOTE Confidence: 0.911444425582886

00:15:40.608 --> 00:15:43.490 won't be the reality of what's happening.

NOTE Confidence: 0.911444425582886

00:15:43.490 --> 00:15:45.692 Another area that it was thought

NOTE Confidence: 0.911444425582886

00:15:45.692 --> 00:15:47.890 that the insurance is should help

NOTE Confidence: 0.911444425582886

00:15:47.890 --> 00:15:50.370 with is if a patient need extra

NOTE Confidence: 0.911444425582886

00:15:50.370 --> 00:15:52.120 supplies because they got coded

NOTE Confidence: 0.911444425582886

00:15:52.188 --> 00:15:54.366 or they had some other respiratory

NOTE Confidence: 0.911444425582886

00:15:54.366 --> 00:15:56.330 illness and needed new master.

NOTE Confidence: 0.911444425582886

00:15:56.330 --> 00:15:57.062 Two beings,

NOTE Confidence: 0.911444425582886

00:15:57.062 --> 00:15:58.937 most respondents or 73% of

NOTE Confidence: 0.911444425582886

00:15:58.937 --> 00:16:00.972 respondents felt that that those

NOTE Confidence: 0.911444425582886

00:16:00.972 --> 00:16:03.220 extra supplies should be covered.

NOTE Confidence: 0.911444425582886

00:16:03.220 --> 00:16:05.680 In terms of adherence requirements,

NOTE Confidence: 0.911444425582886

00:16:05.680 --> 00:16:08.080 especially given the limitations on

NOTE Confidence: 0.911444425582886

00:16:08.080 --> 00:16:11.090 clinic visits and in person visits,

NOTE Confidence: 0.911444425582886

00:16:11.090 --> 00:16:15.026 we should ask what what things would be,

NOTE Confidence: 0.911444425582886

00:16:15.030 --> 00:16:15.878 uh, built,

NOTE Confidence: 0.911444425582886

00:16:15.878 --> 00:16:19.270 a sort of able to qualify a patient

NOTE Confidence: 0.911444425582886

00:16:19.365 --> 00:16:22.130 for keeping keeping an initial

NOTE Confidence: 0.911444425582886

00:16:22.130 --> 00:16:25.360 equipment and getting it paid for,

NOTE Confidence: 0.911444425582886

00:16:25.360 --> 00:16:29.296 and so about 77% thought that any fault.

NOTE Confidence: 0.911444425582886

00:16:29.300 --> 00:16:31.780 Visit note about adherence and

NOTE Confidence: 0.911444425582886

00:16:31.780 --> 00:16:33.268 benefit could be.

NOTE Confidence: 0.911444425582886

00:16:33.270 --> 00:16:36.084 Used to qualify for patients and about

NOTE Confidence: 0.911444425582886

00:16:36.084 --> 00:16:39.349 half felt that a phone note was adequate.

NOTE Confidence: 0.911444425582886

00:16:39.350 --> 00:16:39.785 Adequate,

NOTE Confidence: 0.911444425582886

00:16:39.785 --> 00:16:42.830 but 39% also thought that if the

NOTE Confidence: 0.911444425582886

00:16:42.830 --> 00:16:45.094 insurance data showed good use and

NOTE Confidence: 0.911444425582886

00:16:45.094 --> 00:16:48.014 had a low hi that there should be

NOTE Confidence: 0.911444425582886

00:16:48.014 --> 00:16:50.189 automatic approval for the machine

NOTE Confidence: 0.911444425582886

00:16:50.189 --> 00:16:52.892 with even if the patient didn't

NOTE Confidence: 0.911444425582886

00:16:52.892 --> 00:16:55.676 have any follow-up visit at all.

NOTE Confidence: 0.911444425582886

00:16:55.680 --> 00:16:58.160 In terms of annual supplies,

NOTE Confidence: 0.911444425582886

00:16:58.160 --> 00:17:01.298 about 59% thought that an annual

NOTE Confidence: 0.911444425582886

00:17:01.298 --> 00:17:03.919 visit about adherence and benefit

NOTE Confidence: 0.911444425582886

00:17:03.919 --> 00:17:07.090 could be used and 34% again feeling

NOTE Confidence: 0.911444425582886

00:17:07.090 --> 00:17:10.060 that the phone note was adequate.

NOTE Confidence: 0.911444425582886

00:17:10.060 --> 00:17:13.114 I was actually surprised that more

NOTE Confidence: 0.911444425582886

00:17:13.114 --> 00:17:16.189 people didn't feel the phone would

NOTE Confidence: 0.911444425582886

00:17:16.189 --> 00:17:19.027 be an adequate way to qualify

NOTE Confidence: 0.911444425582886

00:17:19.027 --> 00:17:20.470 someone for supplies.

NOTE Confidence: 0.911444425582886

00:17:20.470 --> 00:17:23.326 And in about 25% felt that

NOTE Confidence: 0.911444425582886

00:17:23.326 --> 00:17:25.671 supplies should be covered even

NOTE Confidence: 0.911444425582886

00:17:25.671 --> 00:17:28.058 if adherence wasn't met.

NOTE Confidence: 0.911444425582886

00:17:28.060 --> 00:17:31.435 Um, when we sort of followed up on that.

NOTE Confidence: 0.911444425582886

00:17:31.440 --> 00:17:34.806 So despite only 25% saying that that it here,

NOTE Confidence: 0.884408295154572

00:17:34.810 --> 00:17:38.185 it's uh, or that things could be paid for.

NOTE Confidence: 0.884408295154572

00:17:38.190 --> 00:17:40.808 There was actually a lot higher numbers,

NOTE Confidence: 0.884408295154572

00:17:40.810 --> 00:17:43.102 about 80% when we asked about

NOTE Confidence: 0.884408295154572

00:17:43.102 --> 00:17:45.787 reasons that a patient could be non

NOTE Confidence: 0.884408295154572

00:17:45.787 --> 00:17:48.307 adherent that it should be paid for.

NOTE Confidence: 0.884408295154572

00:17:48.310 --> 00:17:51.390 Did feel it should be paid for in

NOTE Confidence: 0.884408295154572

00:17:51.390 --> 00:17:53.369 certain circumstances where we could

NOTE Confidence: 0.884408295154572

00:17:53.369 --> 00:17:56.230 potentially right at a node in document Y.

NOTE Confidence: 0.884408295154572

00:17:56.230 --> 00:17:58.010 They couldn't meet the adherence,

NOTE Confidence: 0.884408295154572

00:17:58.010 --> 00:17:58.991 so you know.

NOTE Confidence: 0.884408295154572

00:17:58.991 --> 00:18:02.269 So if a patient has a short sleep time,

NOTE Confidence: 0.884408295154572

00:18:02.270 --> 00:18:04.364 either because of shift work or

NOTE Confidence: 0.884408295154572

00:18:04.364 --> 00:18:06.529 just because that's how they sleep,

NOTE Confidence: 0.884408295154572

00:18:06.530 --> 00:18:08.300 but we're using it regularly.

NOTE Confidence: 0.884408295154572

00:18:08.300 --> 00:18:10.666 Oh, 81% felt that these supplies recovered.

NOTE Confidence: 0.884408295154572

00:18:10.670 --> 00:18:13.036 If a patient had a recent hospitalization

NOTE Confidence: 0.884408295154572

00:18:13.036 --> 00:18:15.435 or illness or the family was ill

NOTE Confidence: 0.884408295154572

00:18:15.435 --> 00:18:17.421 and they couldn't use the supplies,

NOTE Confidence: 0.884408295154572

00:18:17.430 --> 00:18:20.319 those again were felt by most people to be

NOTE Confidence: 0.884408295154572

00:18:20.319 --> 00:18:22.827 reasons why insurance should be paid for.

NOTE Confidence: 0.884408295154572

00:18:22.830 --> 00:18:23.392 You know,

NOTE Confidence: 0.884408295154572

00:18:23.392 --> 00:18:25.359 people that got put on the machine

NOTE Confidence: 0.884408295154572

00:18:25.359 --> 00:18:27.226 but never made adherence because

NOTE Confidence: 0.884408295154572

00:18:27.226 --> 00:18:29.131 their pressure wasn't quite right

NOTE Confidence: 0.884408295154572

00:18:29.131 --> 00:18:30.930 or they didn't have supplies

NOTE Confidence: 0.884408295154572

00:18:30.930 --> 00:18:32.970 that were working well for them.

NOTE Confidence: 0.884408295154572

00:18:32.970 --> 00:18:35.140 As long as there was a plan

NOTE Confidence: 0.884408295154572

00:18:35.140 --> 00:18:36.690 to make that change.

NOTE Confidence: 0.884408295154572

00:18:36.690 --> 00:18:39.450 Again, 3/4 felt that that was a reason.

NOTE Confidence: 0.884408295154572

00:18:39.450 --> 00:18:40.954 To get new supplies.

NOTE Confidence: 0.884408295154572

00:18:40.954 --> 00:18:44.799 So again I think this is room where we can,

NOTE Confidence: 0.884408295154572

00:18:44.800 --> 00:18:45.608 you know,

NOTE Confidence: 0.884408295154572

00:18:45.608 --> 00:18:48.032 potentially use kovid to think about

NOTE Confidence: 0.884408295154572

00:18:48.032 --> 00:18:51.260 how we can advocate to get our patients

NOTE Confidence: 0.884408295154572

00:18:51.260 --> 00:18:53.570 treated as well as possible that

NOTE Confidence: 0.884408295154572

00:18:53.570 --> 00:18:56.699 this is a time to sort of work on.

NOTE Confidence: 0.884408295154572

00:18:56.699 --> 00:18:59.333 Some of these issues that patients

NOTE Confidence: 0.884408295154572

00:18:59.333 --> 00:19:00.990 get hooked up in.

NOTE Confidence: 0.884408295154572

00:19:00.990 --> 00:19:03.622 So we are working on the publication

NOTE Confidence: 0.884408295154572

00:19:03.622 --> 00:19:06.669 of some of these original results,

NOTE Confidence: 0.884408295154572

00:19:06.670 --> 00:19:09.435 but I have reopened the survey and

NOTE Confidence: 0.884408295154572

00:19:09.435 --> 00:19:12.126 will continue to collect ideas and

NOTE Confidence: 0.884408295154572

00:19:12.126 --> 00:19:14.970 especially for some of the insurance.

NOTE Confidence: 0.884408295154572

00:19:14.970 --> 00:19:18.903 Um, ones if I can get more results back,

NOTE Confidence: 0.884408295154572

00:19:18.910 --> 00:19:21.424 I'd love to incorporate them into

NOTE Confidence: 0.884408295154572

00:19:21.424 --> 00:19:24.589 some of the stuff we're working on,

NOTE Confidence: 0.884408295154572

00:19:24.590 --> 00:19:25.580 and again,

NOTE Confidence: 0.884408295154572

00:19:25.580 --> 00:19:29.540 I'll put this link in the chat function.

NOTE Confidence: 0.884408295154572

00:19:29.540 --> 00:19:32.168 So I am going to now passes are first

NOTE Confidence: 0.884408295154572

00:19:32.168 --> 00:19:34.684 to doctor Nuñez and Doctor Lee Chong

NOTE Confidence: 0.884408295154572

00:19:34.684 --> 00:19:37.980 to give us sort of an update from the

NOTE Confidence: 0.884408295154572

00:19:37.980 --> 00:19:40.494 res Med an respironics side of things.

NOTE Confidence: 0.884408295154572

00:19:40.494 --> 00:19:41.218 Great thank

NOTE Confidence: 0.912315547466278

00:19:41.220 --> 00:19:43.440 you honey. Hear me OK, perfect

NOTE Confidence: 0.912315547466278

00:19:43.440 --> 00:19:44.550 great and just

NOTE Confidence: 0.912315547466278

00:19:44.550 --> 00:19:45.660 wanted to thank

NOTE Confidence: 0.912315547466278

00:19:45.660 --> 00:19:47.880 you again for inviting us back.

NOTE Confidence: 0.912315547466278

00:19:47.880 --> 00:19:50.166 It's always nice to help inform

NOTE Confidence: 0.912315547466278

00:19:50.166 --> 00:19:52.118 the discussion from the industry

NOTE Confidence: 0.912315547466278

00:19:52.118 --> 00:19:54.589 perspective so I just want to touch

NOTE Confidence: 0.912315547466278

00:19:54.589 --> 00:19:57.173 on the three bullet points that you

NOTE Confidence: 0.912315547466278

00:19:57.173 --> 00:20:00.090 see there on the slides you update on

NOTE Confidence: 0.912315547466278

00:20:00.090 --> 00:20:02.310 the current state of the pandemic.

NOTE Confidence: 0.912315547466278

00:20:02.310 --> 00:20:04.060 Response from that industry viewpoint

NOTE Confidence: 0.912315547466278

00:20:04.060 --> 00:20:06.678 and then go through the other points

NOTE Confidence: 0.912315547466278

00:20:06.678 --> 00:20:08.688 around current considerations and what

NOTE Confidence: 0.912315547466278

00:20:08.688 --> 00:20:11.219 this post pandemic world could look like.

NOTE Confidence: 0.912315547466278

00:20:11.220 --> 00:20:15.338 So as you're all acutely aware, most of us,

NOTE Confidence: 0.912315547466278

00:20:15.338 --> 00:20:19.819 at least on the panel in the United States,

NOTE Confidence: 0.912315547466278

00:20:19.820 --> 00:20:23.753 we are in a period where it appears that

NOTE Confidence: 0.912315547466278

00:20:23.753 --> 00:20:27.465 the first wave has begun to subside.

NOTE Confidence: 0.912315547466278

00:20:27.470 --> 00:20:29.855 We're seeing both political and

NOTE Confidence: 0.912315547466278

00:20:29.855 --> 00:20:31.763 other reasons for reopening,

NOTE Confidence: 0.912315547466278

00:20:31.770 --> 00:20:33.658 driven largely by it.

NOTE Confidence: 0.912315547466278

00:20:33.658 --> 00:20:36.018 You know pretty cautious approach

NOTE Confidence: 0.912315547466278

00:20:36.018 --> 00:20:37.989 that relies on testing,

NOTE Confidence: 0.912315547466278

00:20:37.990 --> 00:20:40.380 but from an industry standpoint,

NOTE Confidence: 0.912315547466278

00:20:40.380 --> 00:20:43.260 most of the manufacturers are global.

NOTE Confidence: 0.912315547466278

00:20:43.260 --> 00:20:45.675 And we are still seeing the late

NOTE Confidence: 0.912315547466278

00:20:45.675 --> 00:20:48.125 1st wave countries peeking and Latin

NOTE Confidence: 0.912315547466278

00:20:48.125 --> 00:20:50.365 America comes to mind specifically.

NOTE Confidence: 0.912315547466278

00:20:50.370 --> 00:20:52.890 Also second or subsequent waves in

NOTE Confidence: 0.912315547466278

00:20:52.890 --> 00:20:55.334 certain pockets around the globe or

NOTE Confidence: 0.912315547466278

00:20:55.334 --> 00:20:57.742 areas where the first wave has not

NOTE Confidence: 0.912315547466278

00:20:57.742 --> 00:21:01.040 really yet subsided. Many of us I know.

NOTE Confidence: 0.912315547466278

00:21:01.040 --> 00:21:01.400 Personally,

NOTE Confidence: 0.912315547466278

00:21:01.400 --> 00:21:04.280 I'm still involved in some of the work

NOTE Confidence: 0.912315547466278

00:21:04.280 --> 00:21:06.570 through the World Health Organization.

NOTE Confidence: 0.912315547466278

00:21:06.570 --> 00:21:08.946 Their pandemic supply chain network is

NOTE Confidence: 0.912315547466278

00:21:08.946 --> 00:21:11.310 something that were closely involved in.

NOTE Confidence: 0.912315547466278

00:21:11.310 --> 00:21:13.842 We've even work together on some

NOTE Confidence: 0.912315547466278

00:21:13.842 --> 00:21:16.110 epidemiological modeling where we look at.

NOTE Confidence: 0.912315547466278

00:21:16.110 --> 00:21:18.684 An approach to um provision supplies

NOTE Confidence: 0.912315547466278

00:21:18.684 --> 00:21:21.574 and devices on ethically based on need

NOTE Confidence: 0.912315547466278

00:21:21.574 --> 00:21:24.136 for patients who actually need them to

NOTE Confidence: 0.912315547466278

00:21:24.209 --> 00:21:26.969 breathe and not to go into a stockpile

NOTE Confidence: 0.912315547466278

00:21:26.969 --> 00:21:28.869 are things like that preferentially.

NOTE Confidence: 0.912315547466278

00:21:28.869 --> 00:21:30.884 So it's been really interesting

NOTE Confidence: 0.912315547466278

00:21:30.884 --> 00:21:32.669 and it's still not over,

NOTE Confidence: 0.912315547466278

00:21:32.670 --> 00:21:35.561 and when Doctor Krieger at the beginning

NOTE Confidence: 0.912315547466278

00:21:35.561 --> 00:21:38.438 was talking about the email that he got,

NOTE Confidence: 0.912315547466278

00:21:38.440 --> 00:21:40.365 I probably speak for all

NOTE Confidence: 0.912315547466278

00:21:40.365 --> 00:21:41.520 of the manufacturers.

NOTE Confidence: 0.912315547466278

00:21:41.520 --> 00:21:44.264 It began for us in late December

NOTE Confidence: 0.912315547466278

00:21:44.264 --> 00:21:46.180 when a lot of the.

NOTE Confidence: 0.912315547466278

00:21:46.180 --> 00:21:48.484 People that work in our companies

NOTE Confidence: 0.912315547466278

00:21:48.484 --> 00:21:51.269 in China were alerted to what was

NOTE Confidence: 0.912315547466278

00:21:51.269 --> 00:21:53.615 happening and we saw ventilator orders

NOTE Confidence: 0.912315547466278

00:21:53.615 --> 00:21:55.970 spike threefold in late December,

NOTE Confidence: 0.912315547466278

00:21:55.970 --> 00:21:57.176 so it's been.

NOTE Confidence: 0.912315547466278

00:21:57.176 --> 00:22:00.460 It's been interesting and it's not yet over.

NOTE Confidence: 0.912315547466278

00:22:00.460 --> 00:22:03.716 But um, Speaking of what we're doing today,

NOTE Confidence: 0.912315547466278

00:22:03.720 --> 00:22:06.234 the pandemic is dovetailing and that

NOTE Confidence: 0.912315547466278

00:22:06.234 --> 00:22:08.630 response is dovetailing with some very.

NOTE Confidence: 0.912315547466278

00:22:08.630 --> 00:22:09.080 Yeah,

NOTE Confidence: 0.912315547466278

00:22:09.080 --> 00:22:11.330 the current considerations are very

NOTE Confidence: 0.912315547466278

00:22:11.330 --> 00:22:13.882 timely based on what is happening

NOTE Confidence: 0.912315547466278

00:22:13.882 --> 00:22:15.898 on the ground in the in,

NOTE Confidence: 0.912315547466278

00:22:15.900 --> 00:22:18.324 in in the countries where the

NOTE Confidence: 0.912315547466278

00:22:18.324 --> 00:22:19.940 pandemic has already peaked.

NOTE Confidence: 0.912315547466278

00:22:19.940 --> 00:22:21.152 So for example,

NOTE Confidence: 0.912315547466278

00:22:21.152 --> 00:22:23.576 the manufacturing events and devices you

NOTE Confidence: 0.912315547466278

00:22:23.576 --> 00:22:26.000 heard from all of the manufacturers,

NOTE Confidence: 0.912315547466278

00:22:26.000 --> 00:22:27.616 including some nontraditional manufacturers,

NOTE Confidence: 0.912315547466278

00:22:27.616 --> 00:22:29.636 automakers, Tesla people like that,

NOTE Confidence: 0.912315547466278

00:22:29.636 --> 00:22:30.040 saying,

NOTE Confidence: 0.912315547466278

00:22:30.040 --> 00:22:32.664 You know we're all going to be making

NOTE Confidence: 0.912315547466278

00:22:32.664 --> 00:22:36.099 10s and hundreds of thousands of ventilators.

NOTE Confidence: 0.912315547466278

00:22:36.100 --> 00:22:36.864 Well, Fortunately,

NOTE Confidence: 0.912315547466278

00:22:36.864 --> 00:22:39.156 the supply chain from the traditional

NOTE Confidence: 0.912315547466278

00:22:39.156 --> 00:22:40.610 manufacturers of Ventilators.

NOTE Confidence: 0.912315547466278

00:22:40.610 --> 00:22:43.616 Related devices like by level devices,

NOTE Confidence: 0.912315547466278

00:22:43.620 --> 00:22:46.506 even high flow oxygen therapy, etc.

NOTE Confidence: 0.912315547466278

00:22:46.506 --> 00:22:47.634 The the, uh,

NOTE Confidence: 0.912315547466278

00:22:47.634 --> 00:22:50.208 the native supply chain, if you will,

NOTE Confidence: 0.912315547466278

00:22:50.208 --> 00:22:52.344 was able to ramp up considerably,

NOTE Confidence: 0.912315547466278

00:22:52.350 --> 00:22:54.486 and most of the large countries.

NOTE Confidence: 0.912315547466278

00:22:54.490 --> 00:22:56.632 Most of the large markets fulfilled

NOTE Confidence: 0.912315547466278

00:22:56.632 --> 00:22:57.703 what they needed.

NOTE Confidence: 0.912315547466278

00:22:57.710 --> 00:22:59.490 With some exceptions, you know,

NOTE Confidence: 0.912315547466278

00:22:59.490 --> 00:23:01.280 northern Italy, New York City.

NOTE Confidence: 0.912315547466278

00:23:01.280 --> 00:23:02.796 There were examples there.

NOTE Confidence: 0.912315547466278

00:23:02.796 --> 00:23:04.691 Were they outstrip the capacity

NOTE Confidence: 0.912315547466278

00:23:04.691 --> 00:23:07.081 at times to get them the devices

NOTE Confidence: 0.912315547466278

00:23:07.081 --> 00:23:08.053 that they needed?

NOTE Confidence: 0.931122183799744

00:23:08.060 --> 00:23:09.845 But overall you look at

NOTE Confidence: 0.931122183799744

00:23:09.845 --> 00:23:10.916 either than California,

NOTE Confidence: 0.931122183799744

00:23:10.920 --> 00:23:12.336 the most populous state,

NOTE Confidence: 0.931122183799744

00:23:12.336 --> 00:23:14.106 the 1st place where community

NOTE Confidence: 0.931122183799744

00:23:14.106 --> 00:23:15.199 transmission was recorded.

NOTE Confidence: 0.931122183799744

00:23:15.200 --> 00:23:17.972 But we got really lucky in that we started

NOTE Confidence: 0.931122183799744

00:23:17.972 --> 00:23:20.228 social distancing and isolation soon.

NOTE Confidence: 0.931122183799744

00:23:20.230 --> 00:23:22.156 And our peak looks very different.

NOTE Confidence: 0.931122183799744

00:23:22.160 --> 00:23:24.400 We never ran outta ventilators Here at.

NOTE Confidence: 0.931122183799744

00:23:24.400 --> 00:23:26.899 Hopefully we do not in second or

NOTE Confidence: 0.931122183799744

00:23:26.899 --> 00:23:28.829 subsequent waves that they arrive.

NOTE Confidence: 0.931122183799744

00:23:28.830 --> 00:23:31.308 So what we're modeling is that even

NOTE Confidence: 0.931122183799744

00:23:31.308 --> 00:23:34.061 if a big second wave comes back

NOTE Confidence: 0.931122183799744

00:23:34.061 --> 00:23:36.410 to Europe or the United States,

NOTE Confidence: 0.931122183799744

00:23:36.410 --> 00:23:38.315 the systems are probably been

NOTE Confidence: 0.931122183799744

00:23:38.315 --> 00:23:40.220 preloaded with enough devices and

NOTE Confidence: 0.931122183799744

00:23:40.284 --> 00:23:42.099 stockpiles have begun to grow,

NOTE Confidence: 0.931122183799744

00:23:42.100 --> 00:23:44.557 and so the the shift in Manufacturing

NOTE Confidence: 0.931122183799744

00:23:44.557 --> 00:23:46.260 is really around supplies,

NOTE Confidence: 0.931122183799744

00:23:46.260 --> 00:23:47.400 circuit components, disposables,

NOTE Confidence: 0.931122183799744

00:23:47.400 --> 00:23:49.300 at least from our perspective.

NOTE Confidence: 0.931122183799744

00:23:49.300 --> 00:23:51.995 But it's really all of the supplies

NOTE Confidence: 0.931122183799744

00:23:51.995 --> 00:23:54.632 and disposables that are going to go

NOTE Confidence: 0.931122183799744

00:23:54.632 --> 00:23:56.738 into both managing the pandemic and

NOTE Confidence: 0.931122183799744

00:23:56.811 --> 00:23:59.506 the volume of patients as well as

NOTE Confidence: 0.931122183799744

00:23:59.506 --> 00:24:02.182 managing the reopening in the return to.

NOTE Confidence: 0.931122183799744

00:24:02.182 --> 00:24:03.694 The new normal uhm,

NOTE Confidence: 0.931122183799744

00:24:03.700 --> 00:24:06.094 which brings me to the third bullet

NOTE Confidence: 0.931122183799744

00:24:06.094 --> 00:24:08.359 point and just real quick again.

NOTE Confidence: 0.931122183799744

00:24:08.360 --> 00:24:09.458 Supplies circuit components.

NOTE Confidence: 0.931122183799744

00:24:09.458 --> 00:24:11.288 Disposables are going to be

NOTE Confidence: 0.931122183799744

00:24:11.288 --> 00:24:12.988 important from from the manufacturers

NOTE Confidence: 0.931122183799744

00:24:12.988 --> 00:24:15.116 perspective that from like a res Med

NOTE Confidence: 0.931122183799744

00:24:15.173 --> 00:24:16.977 or Philipson Respironics Viewpoint.

NOTE Confidence: 0.931122183799744

00:24:16.980 --> 00:24:19.540 But think about things like PE and all

NOTE Confidence: 0.931122183799744

00:24:19.540 --> 00:24:21.909 of the other medical supplies you're

NOTE Confidence: 0.931122183799744

00:24:21.909 --> 00:24:25.600 going to need in your office is in your labs.

NOTE Confidence: 0.931122183799744

00:24:25.600 --> 00:24:27.994 In your procedure rooms that that

NOTE Confidence: 0.931122183799744

00:24:27.994 --> 00:24:30.886 supply chain is really going to have to

NOTE Confidence: 0.931122183799744

00:24:30.886 --> 00:24:33.509 continue to do what we did for vents.

NOTE Confidence: 0.931122183799744

00:24:33.510 --> 00:24:37.160 For those for those disposables,

NOTE Confidence: 0.931122183799744

00:24:37.160 --> 00:24:41.330 uhm you know the previous.

NOTE Confidence: 0.931122183799744

00:24:41.330 --> 00:24:43.454 Slides about the results of the

NOTE Confidence: 0.931122183799744

00:24:43.454 --> 00:24:45.646 survey are really telling because we

NOTE Confidence: 0.931122183799744

00:24:45.646 --> 00:24:47.770 are really in this reopening period

NOTE Confidence: 0.931122183799744

00:24:47.770 --> 00:24:50.006 and trying to understand what are we

NOTE Confidence: 0.931122183799744

00:24:50.006 --> 00:24:52.144 going to do around PE workflow procedures.

NOTE Confidence: 0.931122183799744

00:24:52.144 --> 00:24:54.166 How does the patient journey change?

NOTE Confidence: 0.931122183799744

00:24:54.170 --> 00:24:56.530 Where are the ways in which we make

NOTE Confidence: 0.931122183799744

00:24:56.530 --> 00:24:58.500 it safer in those acute visits

NOTE Confidence: 0.931122183799744

00:24:58.500 --> 00:25:00.956 where your face to face and there's

NOTE Confidence: 0.931122183799744

00:25:00.956 --> 00:25:02.616 a risk of transmission?

NOTE Confidence: 0.931122183799744

00:25:02.620 --> 00:25:04.979 And then how do we take advantage

NOTE Confidence: 0.931122183799744

00:25:04.979 --> 00:25:07.282 of some of the trends that were

NOTE Confidence: 0.931122183799744

00:25:07.282 --> 00:25:08.710 exposed in the survey?

NOTE Confidence: 0.931122183799744

00:25:08.710 --> 00:25:10.415 A greater use of telemedicine

NOTE Confidence: 0.931122183799744

00:25:10.415 --> 00:25:11.779 and virtualization of visits?

NOTE Confidence: 0.931122183799744

00:25:11.780 --> 00:25:14.244 I'm at the beginning of the call.

NOTE Confidence: 0.931122183799744

00:25:14.250 --> 00:25:14.956 You know,

NOTE Confidence: 0.931122183799744

00:25:14.956 --> 00:25:17.074 when we were having a little

NOTE Confidence: 0.931122183799744

00:25:17.074 --> 00:25:17.780 technical difficulties.

NOTE Confidence: 0.931122183799744

00:25:17.780 --> 00:25:19.898 Both Doctor Krieger and I'm sorry.

NOTE Confidence: 0.931122183799744

00:25:19.900 --> 00:25:22.371 In German I don't want to mess

NOTE Confidence: 0.931122183799744

00:25:22.371 --> 00:25:23.784 up your last name.

NOTE Confidence: 0.931122183799744

00:25:23.784 --> 00:25:25.546 So if you don't mind,

NOTE Confidence: 0.931122183799744

00:25:25.546 --> 00:25:27.983 I'll use your first name were talking

NOTE Confidence: 0.931122183799744

00:25:27.983 --> 00:25:30.029 device is being used for telemedicine

NOTE Confidence: 0.931122183799744

00:25:30.029 --> 00:25:31.929 visits and so Webex notwithstanding

NOTE Confidence: 0.931122183799744

00:25:31.929 --> 00:25:33.799 here you've got physicians every

NOTE Confidence: 0.931122183799744

00:25:33.799 --> 00:25:35.777 single day taking care of patients.

NOTE Confidence: 0.931122183799744

00:25:35.780 --> 00:25:36.141 Virtually.

NOTE Confidence: 0.931122183799744

00:25:36.141 --> 00:25:38.668 How can industry help both in the

NOTE Confidence: 0.931122183799744

00:25:38.668 --> 00:25:40.478 advocacy that will be surrounding

NOTE Confidence: 0.931122183799744

00:25:40.478 --> 00:25:42.188 that new normal and the.

NOTE Confidence: 0.931122183799744

00:25:42.190 --> 00:25:44.320 Mechanisms through which we can help?

NOTE Confidence: 0.931122183799744

00:25:44.320 --> 00:25:46.450 How can we help a patient,

NOTE Confidence: 0.931122183799744

00:25:46.450 --> 00:25:47.164 you know,

NOTE Confidence: 0.931122183799744

00:25:47.164 --> 00:25:48.949 have a successful virtual visitor

NOTE Confidence: 0.931122183799744

00:25:48.949 --> 00:25:51.088 virtual set up with the tools

NOTE Confidence: 0.931122183799744

00:25:51.088 --> 00:25:53.086 that we provide so that outcomes

NOTE Confidence: 0.931122183799744

00:25:53.086 --> 00:25:55.296 remain great and get better and

NOTE Confidence: 0.931122183799744

00:25:55.296 --> 00:25:56.748 care becomes more efficient.

NOTE Confidence: 0.931122183799744

00:25:56.750 --> 00:25:58.808 We've learned a lot through this

NOTE Confidence: 0.931122183799744

00:25:58.808 --> 00:26:00.855 pandemic and just to give one

NOTE Confidence: 0.931122183799744

00:26:00.855 --> 00:26:02.983 last example as I close when you

NOTE Confidence: 0.931122183799744

00:26:02.983 --> 00:26:04.910 think of traditional medicine,

NOTE Confidence: 0.931122183799744

00:26:04.910 --> 00:26:06.940 there a few icons that come to

NOTE Confidence: 0.931122183799744

00:26:06.940 --> 00:26:08.952 mind and the New England Journal

NOTE Confidence: 0.931122183799744

00:26:08.952 --> 00:26:11.451 of Medicine is one of those icons

NOTE Confidence: 0.917188107967377

00:26:11.527 --> 00:26:14.155 of the traditional thinking in Madison.

NOTE Confidence: 0.917188107967377

00:26:14.160 --> 00:26:16.232 And I read it an amazing article

NOTE Confidence: 0.917188107967377

00:26:16.232 --> 00:26:18.109 about them a few weeks ago.

NOTE Confidence: 0.917188107967377

00:26:18.110 --> 00:26:20.621 At the peak of the pandemic as it raged

NOTE Confidence: 0.917188107967377

00:26:20.621 --> 00:26:22.668 across Europe in the United States,

NOTE Confidence: 0.917188107967377

00:26:22.670 --> 00:26:24.488 they were receiving over 200 submissions

NOTE Confidence: 0.917188107967377

00:26:24.488 --> 00:26:26.316 a day, just uncovered, related research,

NOTE Confidence: 0.917188107967377

00:26:26.316 --> 00:26:28.140 and many of us have worked,

NOTE Confidence: 0.917188107967377

00:26:28.140 --> 00:26:29.660 you know, and submitted papers

NOTE Confidence: 0.917188107967377

00:26:29.660 --> 00:26:31.180 to the New England Journal.

NOTE Confidence: 0.917188107967377

00:26:31.180 --> 00:26:33.916 We know how long it takes to hear back,

NOTE Confidence: 0.917188107967377

00:26:33.920 --> 00:26:35.440 and it's a big process.

NOTE Confidence: 0.917188107967377

00:26:35.440 --> 00:26:37.841 They committed to turning around and answer

NOTE Confidence: 0.917188107967377

00:26:37.841 --> 00:26:40.296 for every single one of them in 48 hours.

NOTE Confidence: 0.917188107967377

00:26:40.300 --> 00:26:42.617 So if the New England Journal of

NOTE Confidence: 0.917188107967377

00:26:42.617 --> 00:26:44.966 Medicine can adapt to a new, normal and.

NOTE Confidence: 0.917188107967377

00:26:44.966 --> 00:26:47.084 Work at a different Clock speed.

NOTE Confidence: 0.917188107967377

00:26:47.090 --> 00:26:49.898 I think all of us industry providers and

NOTE Confidence: 0.917188107967377

00:26:49.898 --> 00:26:52.623 patients are going to enter a new normal

NOTE Confidence: 0.917188107967377

00:26:52.623 --> 00:26:54.919 where the tools we've been building,

NOTE Confidence: 0.917188107967377

00:26:54.920 --> 00:26:57.664 you know connected devices tell a Medison

NOTE Confidence: 0.917188107967377

00:26:57.664 --> 00:26:59.867 and the ability to take advantage

NOTE Confidence: 0.917188107967377

00:26:59.867 --> 00:27:02.499 of a base of patients who is much

NOTE Confidence: 0.917188107967377

00:27:02.499 --> 00:27:04.907 more tech savvy and expects the same

NOTE Confidence: 0.917188107967377

00:27:04.907 --> 00:27:06.992 sorts of efficiencies for health care

NOTE Confidence: 0.917188107967377

00:27:06.992 --> 00:27:09.510 as they do in their everyday lives,

NOTE Confidence: 0.917188107967377

00:27:09.510 --> 00:27:11.808 amplified through the lens of the

NOTE Confidence: 0.917188107967377

00:27:11.808 --> 00:27:14.759 pandemic were really in a really in a

NOTE Confidence: 0.917188107967377

00:27:14.759 --> 00:27:17.050 very interesting place to help usher in.

NOTE Confidence: 0.917188107967377

00:27:17.050 --> 00:27:19.171 A new era in Madison and Sleep

NOTE Confidence: 0.917188107967377

00:27:19.171 --> 00:27:20.826 Medicine in particular stands at

NOTE Confidence: 0.917188107967377

00:27:20.826 --> 00:27:22.198 a really privileged pipes.

NOTE Confidence: 0.917188107967377

00:27:22.200 --> 00:27:24.776 Because if you look at the numbers of

NOTE Confidence: 0.917188107967377

00:27:24.776 --> 00:27:26.708 connected medical devices in the world,

NOTE Confidence: 0.917188107967377

00:27:26.710 --> 00:27:27.998 connected sleep devices dominate

NOTE Confidence: 0.917188107967377

00:27:27.998 --> 00:27:29.286 over every other category,

NOTE Confidence: 0.917188107967377

00:27:29.290 --> 00:27:31.603 so this is great to be a part of

NOTE Confidence: 0.917188107967377

00:27:31.603 --> 00:27:34.404 this discussion and I hope we can

NOTE Confidence: 0.917188107967377

00:27:34.404 --> 00:27:36.467 have a wonderful collaboration as

NOTE Confidence: 0.917188107967377

00:27:36.467 --> 00:27:38.207 we move into the reopening.

NOTE Confidence: 0.917188107967377

00:27:38.210 --> 00:27:38.774 Hum,

NOTE Confidence: 0.917188107967377

00:27:38.774 --> 00:27:40.466 there you go.

NOTE Confidence: 0.917188107967377

00:27:40.466 --> 00:27:41.030 I'm

NOTE Confidence: 0.788755550980568

00:27:41.030 --> 00:27:43.190 done, thank you. Yes,

NOTE Confidence: 0.85169792175293

00:27:43.190 --> 00:27:46.770 can you hear me?

NOTE Confidence: 0.85169792175293

00:27:46.770 --> 00:27:50.074 Can you hear me? Yes, thank you.

NOTE Confidence: 0.85169792175293

00:27:50.074 --> 00:27:52.622 So I've been asked a day to

NOTE Confidence: 0.85169792175293

00:27:52.622 --> 00:27:54.550 represent Philipson asleep industry.

NOTE Confidence: 0.85169792175293

00:27:54.550 --> 00:27:57.105 But as I have shared with me,

NOTE Confidence: 0.85169792175293

00:27:57.110 --> 00:27:59.300 a Keurig are being a clinician

NOTE Confidence: 0.85169792175293

00:27:59.300 --> 00:28:01.466 and researcher, like most of you,

NOTE Confidence: 0.85169792175293

00:28:01.466 --> 00:28:04.040 I feel somewhat inadequate for the task,

NOTE Confidence: 0.85169792175293

00:28:04.040 --> 00:28:05.492 kind, alarmed, explained.

NOTE Confidence: 0.85169792175293

00:28:05.492 --> 00:28:07.912 I've been in touch constantly

NOTE Confidence: 0.85169792175293

00:28:07.912 --> 00:28:10.550 with our colleagues in Europe,

NOTE Confidence: 0.85169792175293

00:28:10.550 --> 00:28:12.474 Germany, France, Italy, Portugal,

NOTE Confidence: 0.85169792175293

00:28:12.474 --> 00:28:15.402 the Middle East, South America, Asia,

NOTE Confidence: 0.85169792175293

00:28:15.402 --> 00:28:18.366 Australia and one things made very

NOTE Confidence: 0.85169792175293

00:28:18.366 --> 00:28:21.217 clear that directly or indirectly.

NOTE Confidence: 0.85169792175293

00:28:21.220 --> 00:28:25.196 The covered pandemic has affected all of us,

NOTE Confidence: 0.85169792175293

00:28:25.200 --> 00:28:27.112 our families, our communities,

NOTE Confidence: 0.85169792175293

00:28:27.112 --> 00:28:29.024 and this common experience

NOTE Confidence: 0.85169792175293

00:28:29.024 --> 00:28:31.159 reveals our shared humanity.

NOTE Confidence: 0.85169792175293

00:28:31.160 --> 00:28:34.639 However, like what mere had said earlier,

NOTE Confidence: 0.85169792175293

00:28:34.640 --> 00:28:37.545 to covet virus has not

NOTE Confidence: 0.85169792175293

00:28:37.545 --> 00:28:39.288 affected everyone equally.

NOTE Confidence: 0.85169792175293

00:28:39.290 --> 00:28:42.026 And the loss of lives and burden of

NOTE Confidence: 0.85169792175293

00:28:42.026 --> 00:28:45.095 illness is far worse for some than others.

NOTE Confidence: 0.85169792175293

00:28:45.100 --> 00:28:45.912 And this,

NOTE Confidence: 0.85169792175293

00:28:45.912 --> 00:28:47.942 in equities magnified by social

NOTE Confidence: 0.85169792175293

00:28:47.942 --> 00:28:49.160 dislocations and business

NOTE Confidence: 0.85169792175293

00:28:49.221 --> 00:28:51.156 disruptions on the global stage.

NOTE Confidence: 0.85169792175293

00:28:51.160 --> 00:28:53.464 It has exposed major flaws and

NOTE Confidence: 0.85169792175293

00:28:53.464 --> 00:28:55.837 weaknesses in our medical response and

NOTE Confidence: 0.85169792175293

00:28:55.837 --> 00:28:58.525 responsiveness in it is in this time

NOTE Confidence: 0.85169792175293

00:28:58.525 --> 00:29:00.830 facing this confluence of medical,

NOTE Confidence: 0.85169792175293

00:29:00.830 --> 00:29:02.565 social and economic challenges that

NOTE Confidence: 0.85169792175293

00:29:02.565 --> 00:29:04.845 we must remind ourselves of our

NOTE Confidence: 0.85169792175293

00:29:04.845 --> 00:29:06.306 collective shared responsibilities

NOTE Confidence: 0.85169792175293

00:29:06.306 --> 00:29:07.280 in Healthcare.

NOTE Confidence: 0.85169792175293

00:29:07.280 --> 00:29:10.920 It is this vital second point that I

NOTE Confidence: 0.85169792175293

00:29:10.920 --> 00:29:14.247 would like to share with you today.

NOTE Confidence: 0.85169792175293

00:29:14.250 --> 00:29:16.776 Industry, like all of you know,

NOTE Confidence: 0.85169792175293

00:29:16.780 --> 00:29:18.592 has a social responsibility.

NOTE Confidence: 0.85169792175293

00:29:18.592 --> 00:29:21.310 It is tempting to reassure everyone

NOTE Confidence: 0.85169792175293

00:29:21.384 --> 00:29:23.649 that supplies will be available.

NOTE Confidence: 0.85169792175293

00:29:23.650 --> 00:29:26.530 At all times at anytime.

NOTE Confidence: 0.85169792175293

00:29:26.530 --> 00:29:28.660 But it would be reckless not

NOTE Confidence: 0.85169792175293

00:29:28.660 --> 00:29:30.998 to admit the reality of triage

NOTE Confidence: 0.85169792175293

00:29:30.998 --> 00:29:32.686 due to limited resources.

NOTE Confidence: 0.85169792175293

00:29:32.690 --> 00:29:35.338 We are still today in the midst of

NOTE Confidence: 0.85169792175293

00:29:35.338 --> 00:29:38.078 a global pandemic and the outbreak.

NOTE Confidence: 0.85169792175293

00:29:38.080 --> 00:29:41.116 The next outbreak can occur anywhere.

NOTE Confidence: 0.85169792175293

00:29:41.120 --> 00:29:43.022 Differing needs, therefore,

NOTE Confidence: 0.85169792175293

00:29:43.022 --> 00:29:45.558 may require different commitments.

NOTE Confidence: 0.85169792175293

00:29:45.560 --> 00:29:45.918 Likewise,

NOTE Confidence: 0.85169792175293

00:29:45.918 --> 00:29:48.066 it is easy to create programs

NOTE Confidence: 0.85169792175293

00:29:48.066 --> 00:29:49.870 to enhance clinical efficiency,

NOTE Confidence: 0.85169792175293

00:29:49.870 --> 00:29:51.830 including telemedicine, at remote monitoring.

NOTE Confidence: 0.85169792175293

00:29:51.830 --> 00:29:52.295 However,

NOTE Confidence: 0.85169792175293

00:29:52.295 --> 00:29:55.085 we must seek to provide this

NOTE Confidence: 0.85169792175293

00:29:55.085 --> 00:29:57.752 service is not only to those

NOTE Confidence: 0.85169792175293

00:29:57.752 --> 00:30:00.503 who are most able to use them.

NOTE Confidence: 0.85169792175293

00:30:00.510 --> 00:30:02.710 But more importantly also to

NOTE Confidence: 0.85169792175293

00:30:02.710 --> 00:30:04.910 those who need them most.

NOTE Confidence: 0.85169792175293

00:30:04.910 --> 00:30:07.065 And have no access to

NOTE Confidence: 0.85169792175293

00:30:07.065 --> 00:30:08.358 reliable web connectivity.

NOTE Confidence: 0.85169792175293

00:30:08.360 --> 00:30:12.056 We must also consider issues so data privacy.

NOTE Confidence: 0.85169792175293

00:30:12.060 --> 00:30:15.920 Data security and data ownership.

NOTE Confidence: 0.85169792175293

00:30:15.920 --> 00:30:19.871 Cyber crime is a real threat in our patients

NOTE Confidence: 0.85169792175293

00:30:19.871 --> 00:30:23.339 are among its most frequent victims.

NOTE Confidence: 0.85169792175293

00:30:23.340 --> 00:30:26.152 Industry also has an

NOTE Confidence: 0.85169792175293

00:30:26.152 --> 00:30:27.558 ecological responsibility.

NOTE Confidence: 0.85169792175293

00:30:27.560 --> 00:30:30.014 It might seem expedient to turn

NOTE Confidence: 0.85169792175293

00:30:30.014 --> 00:30:32.116 to single use disposable testing

NOTE Confidence: 0.85169792175293

00:30:32.116 --> 00:30:34.438 devices in order to reduce the

NOTE Confidence: 0.85169792175293

00:30:34.438 --> 00:30:36.630 risks of viral transmission,

NOTE Confidence: 0.85169792175293

00:30:36.630 --> 00:30:40.086 but is this in the long term sustainable?

NOTE Confidence: 0.85169792175293

00:30:40.090 --> 00:30:41.683 Are we unnecessarily

NOTE Confidence: 0.85169792175293

00:30:41.683 --> 00:30:43.276 creating unnecessary waste?

NOTE Confidence: 0.85169792175293

00:30:43.280 --> 00:30:45.955 Are we needlessly wasting much

NOTE Confidence: 0.85169792175293

00:30:45.955 --> 00:30:49.570 needed funds for our sleep programs?

NOTE Confidence: 0.85169792175293

00:30:49.570 --> 00:30:50.454 And finally,

NOTE Confidence: 0.85169792175293

00:30:50.454 --> 00:30:52.664 industry too has to be

NOTE Confidence: 0.85169792175293

00:30:52.664 --> 00:30:53.548 economically responsible.

NOTE Confidence: 0.85169792175293

00:30:53.550 --> 00:30:56.644 It needs to address the new variety

NOTE Confidence: 0.85169792175293

00:30:56.644 --> 00:30:59.443 of patient needs, volume of care,

NOTE Confidence: 0.85169792175293

00:30:59.443 --> 00:31:02.389 velocity of change in voice of

NOTE Confidence: 0.85169792175293

00:31:02.389 --> 00:31:05.289 advocacy today and in the incoming.

NOTE Confidence: 0.85169792175293

00:31:05.290 --> 00:31:06.559 Who's covered era?

NOTE Confidence: 0.85169792175293

00:31:06.559 --> 00:31:08.674 It has to provide connections

NOTE Confidence: 0.85169792175293

00:31:08.674 --> 00:31:10.888 with tools for cold learning.

NOTE Confidence: 0.85169792175293

00:31:10.890 --> 00:31:15.129 Had initiatives. Education.

NOTE Confidence: 0.85169792175293

00:31:15.130 --> 00:31:16.453 How to reach?

NOTE Confidence: 0.85169792175293

00:31:16.453 --> 00:31:19.099 In each moment industry strike that

NOTE Confidence: 0.85169792175293

00:31:19.099 --> 00:31:21.319 balance this different concerns

NOTE Confidence: 0.85169792175293

00:31:21.319 --> 00:31:24.144 concerns relate to legal regulatory

NOTE Confidence: 0.85169792175293

00:31:24.144 --> 00:31:26.723 processes and that are each

NOTE Confidence: 0.85169792175293

00:31:26.723 --> 00:31:28.998 taking four by scientific review.

NOTE Confidence: 0.85169792175293

00:31:29.000 --> 00:31:30.112 Government oversight.

NOTE Confidence: 0.85169792175293

00:31:30.112 --> 00:31:32.892 Pier negotiations alot of things

NOTE Confidence: 0.85169792175293

00:31:32.892 --> 00:31:34.560 manufacturing supply change,

NOTE Confidence: 0.85169792175293

00:31:34.560 --> 00:31:36.744 business agreements and most

NOTE Confidence: 0.85169792175293

00:31:36.744 --> 00:31:39.474 importantly the needs of patients.

NOTE Confidence: 0.911480128765106

00:31:39.480 --> 00:31:41.460 None of which, by the way,

NOTE Confidence: 0.911480128765106

00:31:41.460 --> 00:31:43.878 can be predicted with certainty or

NOTE Confidence: 0.911480128765106

00:31:43.878 --> 00:31:46.500 constancy in the near or long term.

NOTE Confidence: 0.911480128765106

00:31:46.500 --> 00:31:48.336 And there are still so much

NOTE Confidence: 0.911480128765106

00:31:48.336 --> 00:31:50.280 more that we do not know.

NOTE Confidence: 0.911480128765106

00:31:50.280 --> 00:31:54.400 It is this reasons why I felt inadequate.

NOTE Confidence: 0.911480128765106

00:31:54.400 --> 00:31:57.352 It is easy to Oversimplify and merely convey

NOTE Confidence: 0.911480128765106

00:31:57.352 --> 00:31:59.969 a compelling narrative on reopening labs,

NOTE Confidence: 0.911480128765106

00:31:59.970 --> 00:32:04.674 but this would be naive and I think.

NOTE Confidence: 0.911480128765106

00:32:04.680 --> 00:32:05.648 Be responsible.

NOTE Confidence: 0.911480128765106

00:32:05.648 --> 00:32:09.036 Who among us still believe that with

NOTE Confidence: 0.911480128765106

00:32:09.036 --> 00:32:12.749 a few filters and valves with a few

NOTE Confidence: 0.911480128765106

00:32:12.749 --> 00:32:16.067 blood testing it is business as usual,

NOTE Confidence: 0.911480128765106

00:32:16.070 --> 00:32:19.796 or that one size fits all?

NOTE Confidence: 0.911480128765106

00:32:19.800 --> 00:32:22.696 I believe that as we opened our labs,

NOTE Confidence: 0.911480128765106

00:32:22.700 --> 00:32:25.227 we have to think of three things.

NOTE Confidence: 0.911480128765106

00:32:25.230 --> 00:32:26.674 First, sleep health care.

NOTE Confidence: 0.911480128765106

00:32:26.674 --> 00:32:28.124 By design, I repeat,

NOTE Confidence: 0.911480128765106

00:32:28.124 --> 00:32:29.934 sleep health care by design,

NOTE Confidence: 0.911480128765106

00:32:29.940 --> 00:32:32.106 not rationing of care by inconvenience,

NOTE Confidence: 0.911480128765106

00:32:32.110 --> 00:32:34.998 not provision of care by the lowest bidder.

NOTE Confidence: 0.911480128765106

00:32:35.000 --> 00:32:35.431 Second,

NOTE Confidence: 0.911480128765106

00:32:35.431 --> 00:32:38.879 I think we have to humanize our technology.

NOTE Confidence: 0.911480128765106

00:32:38.880 --> 00:32:41.310 I like to change and so

NOTE Confidence: 0.911480128765106

00:32:41.310 --> 00:32:42.936 too much on technologies.

NOTE Confidence: 0.911480128765106

00:32:42.936 --> 00:32:45.374 I understand the current concern regarding

NOTE Confidence: 0.911480128765106

00:32:45.374 --> 00:32:47.810 filters and valves and remote monitoring.

NOTE Confidence: 0.911480128765106

00:32:47.810 --> 00:32:51.578 I do this Armada questions that my hospital

NOTE Confidence: 0.911480128765106

00:32:51.578 --> 00:32:54.828 sleep lab needs answers to as well.

NOTE Confidence: 0.911480128765106

00:32:54.830 --> 00:32:56.876 But you have to understand the

NOTE Confidence: 0.911480128765106

00:32:56.876 --> 00:32:58.860 promise of technology is a larger.

NOTE Confidence: 0.911480128765106

00:32:58.860 --> 00:33:01.580 Much larger you should expect.

NOTE Confidence: 0.911480128765106

00:33:01.580 --> 00:33:04.300 You should demand minimal touch

NOTE Confidence: 0.911480128765106

00:33:04.300 --> 00:33:07.020 or nearly touch free solutions.

NOTE Confidence: 0.911480128765106

00:33:07.020 --> 00:33:10.320 More eco friendly and more importantly

NOTE Confidence: 0.911480128765106

00:33:10.320 --> 00:33:13.653 morcos appropriate single use home testing

NOTE Confidence: 0.911480128765106

00:33:13.653 --> 00:33:16.803 real time imaging guided mass election,

NOTE Confidence: 0.911480128765106

00:33:16.810 --> 00:33:18.676 better adherence tools,

NOTE Confidence: 0.911480128765106

00:33:18.676 --> 00:33:21.786 Internet based coaching and has.

NOTE Confidence: 0.911480128765106

00:33:21.790 --> 00:33:25.020 Remote monitoring features to support

NOTE Confidence: 0.911480128765106

00:33:25.020 --> 00:33:28.250 more precise and proactive care.

NOTE Confidence: 0.911480128765106

00:33:28.250 --> 00:33:30.788 Not to mention safer interfaces and

NOTE Confidence: 0.911480128765106

00:33:30.788 --> 00:33:33.660 effective non pet therapy for sleep apnea.

NOTE Confidence: 0.911480128765106

00:33:33.660 --> 00:33:36.509 The next speaker will be talking about

NOTE Confidence: 0.911480128765106

00:33:36.509 --> 00:33:39.719 or appliance and I think we should

NOTE Confidence: 0.911480128765106

00:33:39.719 --> 00:33:42.104 consider those into discovered pandemic.

NOTE Confidence: 0.911480128765106

00:33:42.110 --> 00:33:42.486 Lastly,

NOTE Confidence: 0.911480128765106

00:33:42.486 --> 00:33:46.650 and I speak to you as a colleague in Madison.

NOTE Confidence: 0.911480128765106

00:33:46.650 --> 00:33:50.838 For 25 years.

NOTE Confidence: 0.911480128765106

00:33:50.840 --> 00:33:52.010 To build a new road,

NOTE Confidence: 0.911480128765106

00:33:52.010 --> 00:33:55.166 we have to walk it again.

NOTE Confidence: 0.911480128765106

00:33:55.170 --> 00:33:59.256 None of us can be bystanders.

NOTE Confidence: 0.911480128765106

00:33:59.260 --> 00:34:01.966 None of us can be silent.

NOTE Confidence: 0.911480128765106

00:34:01.970 --> 00:34:06.400 Eye witnesses No, not not,

NOTE Confidence: 0.911480128765106

00:34:06.400 --> 00:34:08.410 not this time.

NOTE Confidence: 0.911480128765106

00:34:08.410 --> 00:34:09.510 Thank you for helping me.

NOTE Confidence: 0.836836338043213

00:34:10.250 --> 00:34:14.450 Thank you, um, and we're going

NOTE Confidence: 0.836836338043213

00:34:14.450 --> 00:34:18.653 to keep moving. Uhm, and, uh,

NOTE Confidence: 0.836836338043213

00:34:18.653 --> 00:34:22.158 we're gonna have Doctor Dioguardi.

NOTE Confidence: 0.836836338043213

00:34:22.160 --> 00:34:25.320 Hi hey, how are you? Thank you

NOTE Confidence: 0.83572781085968

00:34:25.320 --> 00:34:28.484 for inviting me to speak at this.

NOTE Confidence: 0.83572781085968

00:34:28.490 --> 00:34:31.913 As you can see the left picture

NOTE Confidence: 0.83572781085968

00:34:31.913 --> 00:34:35.012 is made before March 18th and

NOTE Confidence: 0.83572781085968

00:34:35.012 --> 00:34:38.060 the right picture is me now.

NOTE Confidence: 0.83572781085968

00:34:38.060 --> 00:34:39.728 Uh, it's been a tremendous challenge.

NOTE Confidence: 0.83572781085968

00:34:39.730 --> 00:34:41.130 I am a private practitioner.

NOTE Confidence: 0.83572781085968

00:34:41.130 --> 00:34:43.363 About half of my practice is in

NOTE Confidence: 0.83572781085968

00:34:43.363 --> 00:34:44.974 dental Sleep Medicine on the

NOTE Confidence: 0.83572781085968

00:34:44.974 --> 00:34:46.439 other half is in dentistry.

NOTE Confidence: 0.83572781085968

00:34:46.440 --> 00:34:47.588 And in dentistry, uhm,

NOTE Confidence: 0.83572781085968

00:34:47.588 --> 00:34:49.883 we are unique in that we're creating

NOTE Confidence: 0.83572781085968

00:34:49.883 --> 00:34:52.050 aerosols, an orb out a foot,

NOTE Confidence: 0.83572781085968

00:34:52.050 --> 00:34:54.360 and a half from the patient's mouth,

NOTE Confidence: 0.83572781085968

00:34:54.360 --> 00:34:57.918 and one of us isn't wearing a mask, so.

NOTE Confidence: 0.83572781085968

00:34:57.918 --> 00:35:02.508 We have the responsibility of.

NOTE Confidence: 0.83572781085968

00:35:02.510 --> 00:35:03.742 Protecting our patience and

NOTE Confidence: 0.83572781085968

00:35:03.742 --> 00:35:04.666 his private practitioners.

NOTE Confidence: 0.83572781085968

00:35:04.670 --> 00:35:06.776 We're pretty much it as far as we don't

NOTE Confidence: 0.83572781085968

00:35:06.776 --> 00:35:08.599 have maintenance services and things

NOTE Confidence: 0.83572781085968

00:35:08.599 --> 00:35:10.519 like that to create environments,

NOTE Confidence: 0.83572781085968

00:35:10.520 --> 00:35:12.976 we really have to create our own environment.

NOTE Confidence: 0.83572781085968

00:35:12.980 --> 00:35:15.136 and I took that very very seriously.

NOTE Confidence: 0.83572781085968

00:35:15.140 --> 00:35:16.064 And In addition,

NOTE Confidence: 0.83572781085968

00:35:16.064 --> 00:35:18.220 I'd like to point out doctor Lee.

NOTE Confidence: 0.83572781085968

00:35:18.220 --> 00:35:19.690 Chong mentioned that how much

NOTE Confidence: 0.83572781085968

00:35:19.690 --> 00:35:21.910 waste are we going to be creating?

NOTE Confidence: 0.83572781085968

00:35:21.910 --> 00:35:24.790 So I wanted to protect us in a way that

NOTE Confidence: 0.83572781085968

00:35:24.872 --> 00:35:27.756 we were generating the least amount of.

NOTE Confidence: 0.83572781085968

00:35:27.760 --> 00:35:28.880 Plastics and things like

NOTE Confidence: 0.83572781085968

00:35:28.880 --> 00:35:30.280 that that are going to.

NOTE Confidence: 0.83572781085968

00:35:30.280 --> 00:35:32.719 Come back in his later on the next slide,

NOTE Confidence: 0.83572781085968

00:35:32.720 --> 00:35:32.990 please.

NOTE Confidence: 0.871712803840637

00:35:35.060 --> 00:35:37.136 I have no conflicts of interest.

NOTE Confidence: 0.871712803840637

00:35:37.140 --> 00:35:39.216 These are the appliances I make.

NOTE Confidence: 0.871712803840637

00:35:39.220 --> 00:35:41.302 I have no allegiance to any

NOTE Confidence: 0.871712803840637

00:35:41.302 --> 00:35:42.343 one particular appliance.

NOTE Confidence: 0.871712803840637

00:35:42.350 --> 00:35:45.534 Next time please. And so.

NOTE Confidence: 0.871712803840637

00:35:45.534 --> 00:35:48.126 When we closed on March 18th,

NOTE Confidence: 0.871712803840637

00:35:48.130 --> 00:35:50.629 but I was presented with the challenge

NOTE Confidence: 0.871712803840637

00:35:50.629 --> 00:35:53.415 will how can I maintain how can I

NOTE Confidence: 0.871712803840637

00:35:53.415 --> 00:35:55.690 follow my patients who are already?

NOTE Confidence: 0.871712803840637

00:35:55.690 --> 00:35:57.634 Catholic appliance that are

NOTE Confidence: 0.871712803840637

00:35:57.634 --> 00:35:59.578 waiting for sleep appliances.

NOTE Confidence: 0.871712803840637

00:35:59.580 --> 00:36:02.760 Um? That it had appliances

NOTE Confidence: 0.871712803840637

00:36:02.760 --> 00:36:04.980 that are ready ready to go.

NOTE Confidence: 0.871712803840637

00:36:04.980 --> 00:36:07.200 So I explored some telemedicine options.

NOTE Confidence: 0.871712803840637

00:36:07.200 --> 00:36:10.160 Now it becomes a little easier for me.

NOTE Confidence: 0.871712803840637

00:36:10.160 --> 00:36:13.268 In the there are no real insurance.

NOTE Confidence: 0.871712803840637

00:36:13.270 --> 00:36:14.398 Considerations in my practice

NOTE Confidence: 0.871712803840637

00:36:14.398 --> 00:36:15.526 in that I don't.

NOTE Confidence: 0.871712803840637

00:36:15.530 --> 00:36:16.935 I don't charge for consultations

NOTE Confidence: 0.871712803840637

00:36:16.935 --> 00:36:18.059 for follow up visit,

NOTE Confidence: 0.871712803840637

00:36:18.060 --> 00:36:20.157 so that made it a bit easier and I

NOTE Confidence: 0.871712803840637

00:36:20.157 --> 00:36:22.157 wanted to just examine how my patients

NOTE Confidence: 0.871712803840637

00:36:22.157 --> 00:36:24.270 can best be served by telemedicine.

NOTE Confidence: 0.871712803840637

00:36:24.270 --> 00:36:26.808 How can I get all the information I need,

NOTE Confidence: 0.871712803840637

00:36:26.810 --> 00:36:29.939 answer all their questions in a way?

NOTE Confidence: 0.871712803840637

00:36:29.940 --> 00:36:31.384 Then everybody be satisfied,

NOTE Confidence: 0.871712803840637

00:36:31.384 --> 00:36:32.828 yet not miss anything.

NOTE Confidence: 0.871712803840637

00:36:32.830 --> 00:36:34.522 And personally I found it a

NOTE Confidence: 0.871712803840637

00:36:34.522 --> 00:36:36.727 lot of my patients are not

NOTE Confidence: 0.871712803840637

00:36:36.727 --> 00:36:38.239 particularly technology friendly,

NOTE Confidence: 0.871712803840637

00:36:38.240 --> 00:36:40.406 so my patients are senior citizens.

NOTE Confidence: 0.871712803840637

00:36:40.410 --> 00:36:42.140 Some just don't have access

NOTE Confidence: 0.871712803840637

00:36:42.140 --> 00:36:44.380 to a computer with a phone.

NOTE Confidence: 0.871712803840637

00:36:44.380 --> 00:36:46.810 And as we experienced early.

NOTE Confidence: 0.871712803840637

00:36:46.810 --> 00:36:49.736 In in the symposium of there can

NOTE Confidence: 0.871712803840637

00:36:49.736 --> 00:36:51.424 be technical limitations and

NOTE Confidence: 0.871712803840637

00:36:51.424 --> 00:36:53.536 snack foods that happen as we

NOTE Confidence: 0.871712803840637

00:36:53.536 --> 00:36:55.480 try to connect video wise,

NOTE Confidence: 0.871712803840637

00:36:55.480 --> 00:36:59.620 and so I have found myself.

NOTE Confidence: 0.871712803840637

00:36:59.620 --> 00:37:01.435 The telephone can actually be

NOTE Confidence: 0.871712803840637

00:37:01.435 --> 00:37:03.762 a wonderful way to do this

NOTE Confidence: 0.871712803840637

00:37:03.762 --> 00:37:06.408 without having to deal with all

NOTE Confidence: 0.871712803840637

00:37:06.408 --> 00:37:08.090 the technical limitations and.

NOTE Confidence: 0.871712803840637

00:37:08.090 --> 00:37:10.250 Video is another is another option.

NOTE Confidence: 0.871712803840637

00:37:10.250 --> 00:37:12.410 Also summer not summer not have

NOTE Confidence: 0.871712803840637

00:37:12.410 --> 00:37:13.490 come pick compliant.

NOTE Confidence: 0.871712803840637

00:37:13.490 --> 00:37:16.024 It was nice that HIPAA Drop some

NOTE Confidence: 0.871712803840637

00:37:16.024 --> 00:37:17.809 of the requirements early on.

NOTE Confidence: 0.871712803840637

00:37:17.810 --> 00:37:19.808 So I have used FaceTime and

NOTE Confidence: 0.871712803840637

00:37:19.808 --> 00:37:21.582 WhatsApp and there's another tip

NOTE Confidence: 0.871712803840637

00:37:21.582 --> 00:37:23.482 compliant platform that I've been

NOTE Confidence: 0.871712803840637

00:37:23.482 --> 00:37:25.002 using recently called Doc.

NOTE Confidence: 0.871712803840637

00:37:25.010 --> 00:37:27.170 See me which is another option.

NOTE Confidence: 0.871712803840637

00:37:27.170 --> 00:37:29.228 But as I progressed I'm finding

NOTE Confidence: 0.871712803840637

00:37:29.228 --> 00:37:31.048 more success with actual telephone

NOTE Confidence: 0.871712803840637

00:37:31.048 --> 00:37:32.568 in emails next slide.

NOTE Confidence: 0.952138721942902

00:37:35.170 --> 00:37:37.942 And in some ways I was

NOTE Confidence: 0.952138721942902

00:37:37.942 --> 00:37:39.790 surprised to discover that.

NOTE Confidence: 0.952138721942902

00:37:39.790 --> 00:37:41.590 This way of doing a consultation

NOTE Confidence: 0.952138721942902

00:37:41.590 --> 00:37:43.485 was in some ways more productive

NOTE Confidence: 0.952138721942902

00:37:43.485 --> 00:37:45.989 than a face to face by explain why,

NOTE Confidence: 0.952138721942902

00:37:45.990 --> 00:37:47.166 as with every consultation,

NOTE Confidence: 0.952138721942902

00:37:47.166 --> 00:37:49.400 that we need all of the basics,

NOTE Confidence: 0.952138721942902

00:37:49.400 --> 00:37:51.570 his dentist before we can go ahead.

NOTE Confidence: 0.952138721942902

00:37:51.570 --> 00:37:54.396 So we need a sleep test referral from the

NOTE Confidence: 0.952138721942902

00:37:54.396 --> 00:37:56.538 position letter of medical necessity.

NOTE Confidence: 0.952138721942902

00:37:56.540 --> 00:37:58.204 The questionnaire for the

NOTE Confidence: 0.952138721942902

00:37:58.204 --> 00:38:00.284 patient and the insurance info,

NOTE Confidence: 0.952138721942902

00:38:00.290 --> 00:38:01.958 which is generally discussed

NOTE Confidence: 0.952138721942902

00:38:01.958 --> 00:38:03.626 on the first visit,

NOTE Confidence: 0.952138721942902

00:38:03.630 --> 00:38:06.870 but what I've been doing is I send

NOTE Confidence: 0.952138721942902

00:38:06.870 --> 00:38:09.940 a letter to patients explaining.

NOTE Confidence: 0.952138721942902

00:38:09.940 --> 00:38:12.012 How to click on the video which

NOTE Confidence: 0.952138721942902

00:38:12.012 --> 00:38:13.533 explains sleep apnea and these

NOTE Confidence: 0.952138721942902

00:38:13.533 --> 00:38:15.243 are all things that I normally

NOTE Confidence: 0.952138721942902

00:38:15.243 --> 00:38:17.070 do during initial consultation.

NOTE Confidence: 0.952138721942902

00:38:17.070 --> 00:38:19.107 A diagram and I asked them to

NOTE Confidence: 0.952138721942902

00:38:19.107 --> 00:38:20.788 send me some general photographs

NOTE Confidence: 0.952138721942902

00:38:20.788 --> 00:38:23.724 of their teeth and I use the ones

NOTE Confidence: 0.952138721942902

00:38:23.800 --> 00:38:26.086 on the bottom as a demonstration.

NOTE Confidence: 0.952138721942902

00:38:26.090 --> 00:38:29.298 For. What I'd like to them to do,

NOTE Confidence: 0.952138721942902

00:38:29.300 --> 00:38:31.196 and they, even though not all of them,

NOTE Confidence: 0.952138721942902

00:38:31.200 --> 00:38:32.628 have a computer with a camera,

NOTE Confidence: 0.952138721942902

00:38:32.630 --> 00:38:34.289 just about everybody, has a cell phone,

NOTE Confidence: 0.952138721942902

00:38:34.290 --> 00:38:36.194 and they can either send it or email,

NOTE Confidence: 0.952138721942902

00:38:36.200 --> 00:38:37.859 or set it to my text Ann.

NOTE Confidence: 0.952138721942902

00:38:37.860 --> 00:38:39.050 Once we receive all that,

NOTE Confidence: 0.952138721942902

00:38:39.050 --> 00:38:40.720 we schedule a visit next slide, please.

NOTE Confidence: 0.943251371383667

00:38:43.900 --> 00:38:46.936 And we have a wonderful conversation.

NOTE Confidence: 0.943251371383667

00:38:46.940 --> 00:38:49.467 As a dentist, as as a clinician,

NOTE Confidence: 0.943251371383667

00:38:49.470 --> 00:38:52.126 I'm of the belief and I saw a

NOTE Confidence: 0.943251371383667

00:38:52.126 --> 00:38:53.800 doctor Johnson's slide before.

NOTE Confidence: 0.943251371383667

00:38:53.800 --> 00:38:57.195 What precautions should be used and when?

NOTE Confidence: 0.943251371383667

00:38:57.200 --> 00:39:00.203 I like the philosophy that there's way

NOTE Confidence: 0.943251371383667

00:39:00.203 --> 00:39:02.800 too many unknowns in this disease,

NOTE Confidence: 0.943251371383667

00:39:02.800 --> 00:39:05.386 and especially because I'm doing dentistry

NOTE Confidence: 0.943251371383667

00:39:05.386 --> 00:39:07.952 all day where we're creating aerosols.

NOTE Confidence: 0.943251371383667

00:39:07.952 --> 00:39:12.380 I like to use as many ways of minimizing.

NOTE Confidence: 0.943251371383667

00:39:12.380 --> 00:39:14.130 Potential transmissions from the patient

NOTE Confidence: 0.943251371383667

00:39:14.130 --> 00:39:16.629 to us and vice versa as possible.

NOTE Confidence: 0.943251371383667

00:39:16.630 --> 00:39:19.807 One way, if you notice on the upper left,

NOTE Confidence: 0.943251371383667

00:39:19.810 --> 00:39:23.016 it's a poor man's negative pressure room.

NOTE Confidence: 0.943251371383667

00:39:23.020 --> 00:39:26.038 It's a. Basically a window fan.

NOTE Confidence: 0.943251371383667

00:39:26.040 --> 00:39:28.224 It's pointing out an in order so that

NOTE Confidence: 0.943251371383667

00:39:28.224 --> 00:39:30.177 we're not drawing from the intake

NOTE Confidence: 0.943251371383667

00:39:30.177 --> 00:39:32.199 of the building to large building.

NOTE Confidence: 0.943251371383667

00:39:32.200 --> 00:39:34.504 I have another fan blowing from

NOTE Confidence: 0.943251371383667

00:39:34.504 --> 00:39:35.656 an empty room.

NOTE Confidence: 0.943251371383667

00:39:35.660 --> 00:39:38.693 Blowing in so it supports sort of push pull.

NOTE Confidence: 0.943251371383667

00:39:38.700 --> 00:39:41.450 Add this slide in the middle is

NOTE Confidence: 0.943251371383667

00:39:41.450 --> 00:39:44.984 something I came up with Because I felt

NOTE Confidence: 0.943251371383667

00:39:44.984 --> 00:39:47.942 it was important to capture Aerosoles.

NOTE Confidence: 0.943251371383667

00:39:47.950 --> 00:39:50.638 Close to the source as possible.

NOTE Confidence: 0.943251371383667

00:39:50.640 --> 00:39:54.672 And so this is basically a high

NOTE Confidence: 0.943251371383667

00:39:54.672 --> 00:39:55.824 speed evacuator.

NOTE Confidence: 0.943251371383667

00:39:55.830 --> 00:39:57.734 Hooked up to a face mask face shield

NOTE Confidence: 0.943251371383667

00:39:57.734 --> 00:39:59.906 that I wrapped around a cylinder that

NOTE Confidence: 0.943251371383667

00:39:59.906 --> 00:40:02.210 fits into evacuator and it's stabilized.

NOTE Confidence: 0.943251371383667

00:40:02.210 --> 00:40:04.650 I wasn't quite sure how to stabilize it,

NOTE Confidence: 0.943251371383667

00:40:04.650 --> 00:40:06.746 but if you notice from the back I'm

NOTE Confidence: 0.943251371383667

00:40:06.746 --> 00:40:09.206 also a musician that is a microphone.

NOTE Confidence: 0.943251371383667

00:40:09.210 --> 00:40:11.352 Boom stand an so it works exceedingly

NOTE Confidence: 0.943251371383667

00:40:11.352 --> 00:40:13.722 well and I've got them in every

NOTE Confidence: 0.943251371383667

00:40:13.722 --> 00:40:15.462 Operatory and it really something

NOTE Confidence: 0.943251371383667

00:40:15.462 --> 00:40:17.130 that's worked out wonderful.

NOTE Confidence: 0.943251371383667

00:40:17.130 --> 00:40:19.160 The item on the right is called

NOTE Confidence: 0.943251371383667

00:40:19.160 --> 00:40:21.602 an ice light and we use it when

NOTE Confidence: 0.943251371383667

00:40:21.602 --> 00:40:22.802 we first see patients.

NOTE Confidence: 0.943251371383667

00:40:22.810 --> 00:40:24.002 When we scan teeth,

NOTE Confidence: 0.943251371383667

00:40:24.002 --> 00:40:25.492 which is basically with scanning,

NOTE Confidence: 0.943251371383667

00:40:25.500 --> 00:40:27.300 is it replaces the traditional impressions?

NOTE Confidence: 0.943251371383667

00:40:27.300 --> 00:40:29.505 What we do is we have to wand over

NOTE Confidence: 0.943251371383667

00:40:29.505 --> 00:40:31.938 the teeth that you can see in the

NOTE Confidence: 0.943251371383667

00:40:31.938 --> 00:40:34.589 photograph on the right and make it 3

NOTE Confidence: 0.943251371383667

00:40:34.589 --> 00:40:36.535 dimensional image and the device on

NOTE Confidence: 0.943251371383667

00:40:36.535 --> 00:40:38.390 the right is called an isolate and

NOTE Confidence: 0.943251371383667

00:40:38.390 --> 00:40:40.798 what it does is it's cooked up also to

NOTE Confidence: 0.943251371383667

00:40:40.798 --> 00:40:43.440 vacuum and it retracts and such and so

NOTE Confidence: 0.943251371383667

00:40:43.440 --> 00:40:45.240 basically it's catching the patients

NOTE Confidence: 0.943251371383667

00:40:45.240 --> 00:40:47.354 breath out before it leaves their mouth.

NOTE Confidence: 0.943251371383667

00:40:47.360 --> 00:40:48.739 So with all these things in place,

NOTE Confidence: 0.943251371383667

00:40:48.740 --> 00:40:49.406 I'm very,

NOTE Confidence: 0.943251371383667

00:40:49.406 --> 00:40:51.737 very confident that I'm able to protect.

NOTE Confidence: 0.943251371383667

00:40:51.740 --> 00:40:54.584 Hold my staff myself an our patients in a

NOTE Confidence: 0.943251371383667

00:40:54.584 --> 00:40:57.708 lot better way than I saw available before.

NOTE Confidence: 0.943251371383667

00:40:57.710 --> 00:40:58.760 Next time please.

NOTE Confidence: 0.699329674243927

00:41:01.000 --> 00:41:05.510 The one visit the cannot.

NOTE Confidence: 0.699329674243927

00:41:05.510 --> 00:41:07.965 Be done by telemedicine is

NOTE Confidence: 0.699329674243927

00:41:07.965 --> 00:41:09.929 obviously the examination and.

NOTE Confidence: 0.699329674243927

00:41:09.930 --> 00:41:10.803 The scanning visit.

NOTE Confidence: 0.699329674243927

00:41:10.803 --> 00:41:12.840 Follow up visits I find have been

NOTE Confidence: 0.699329674243927

00:41:12.903 --> 00:41:14.608 wonderful and patients in very,

NOTE Confidence: 0.699329674243927

00:41:14.610 --> 00:41:16.780 very appreciative of the fact that they

NOTE Confidence: 0.699329674243927

00:41:16.780 --> 00:41:18.980 didn't have to come into the office.

NOTE Confidence: 0.699329674243927

00:41:18.980 --> 00:41:21.644 And what I need to see in follow up

NOTE Confidence: 0.699329674243927

00:41:21.644 --> 00:41:24.280 visits for the most part is number one.

NOTE Confidence: 0.699329674243927

00:41:24.280 --> 00:41:26.296 I need to hear the patient find

NOTE Confidence: 0.699329674243927

00:41:26.296 --> 00:41:28.157 out what what either benefits

NOTE Confidence: 0.699329674243927

00:41:28.157 --> 00:41:30.487 they're getting from the appliance.

NOTE Confidence: 0.699329674243927

00:41:30.490 --> 00:41:30.888 Subjectively,

NOTE Confidence: 0.699329674243927

00:41:30.888 --> 00:41:33.674 are they sleeping better or they snoring?

NOTE Confidence: 0.699329674243927

00:41:33.680 --> 00:41:37.249 Or waking up at night?

NOTE Confidence: 0.699329674243927

00:41:37.250 --> 00:41:39.530 Uh, and I also like to know how

NOTE Confidence: 0.699329674243927

00:41:39.530 --> 00:41:41.140 much protrusive range they have,

NOTE Confidence: 0.699329674243927

00:41:41.140 --> 00:41:42.928 because as I adjust the appliance,

NOTE Confidence: 0.699329674243927

00:41:42.930 --> 00:41:44.122 the Protrusive range increases

NOTE Confidence: 0.699329674243927

00:41:44.122 --> 00:41:45.314 as their ligament stretch,

NOTE Confidence: 0.699329674243927

00:41:45.320 --> 00:41:47.119 and I want to know how their

NOTE Confidence: 0.699329674243927

00:41:47.119 --> 00:41:48.933 appliances doing so by taking these

NOTE Confidence: 0.699329674243927

00:41:48.933 --> 00:41:50.568 photographs able to ascertain how

NOTE Confidence: 0.699329674243927

00:41:50.568 --> 00:41:52.182 far they've advanced the appliance

NOTE Confidence: 0.699329674243927

00:41:52.182 --> 00:41:53.982 by looking at the amount of

NOTE Confidence: 0.699329674243927

00:41:53.982 --> 00:41:56.114 screw threads that are available.

NOTE Confidence: 0.699329674243927

00:41:56.114 --> 00:41:57.026 Next slide,

NOTE Confidence: 0.699329674243927

00:41:57.030 --> 00:41:58.890 please.

NOTE Confidence: 0.699329674243927

00:41:58.890 --> 00:42:01.403 And of course there are also said

NOTE Confidence: 0.699329674243927

00:42:01.403 --> 00:42:03.447 there also filling out this form

NOTE Confidence: 0.699329674243927

00:42:03.447 --> 00:42:05.526 with email it to them and it.

NOTE Confidence: 0.699329674243927

00:42:05.530 --> 00:42:07.834 They didn't get a chance to email it back.

NOTE Confidence: 0.699329674243927

00:42:07.840 --> 00:42:09.808 I simply go over it verbally and enter

NOTE Confidence: 0.699329674243927

00:42:09.808 --> 00:42:12.126 it into the chart and what it does is

NOTE Confidence: 0.699329674243927

00:42:12.126 --> 00:42:14.009 basically the top is an airport scale.

NOTE Confidence: 0.699329674243927

00:42:14.010 --> 00:42:16.269 As we all know and the bottom just just

NOTE Confidence: 0.699329674243927

00:42:16.269 --> 00:42:18.640 talks about any changes that might pertain.

NOTE Confidence: 0.699329674243927

00:42:18.640 --> 00:42:20.156 So what's going on?

NOTE Confidence: 0.699329674243927

00:42:20.156 --> 00:42:23.040 I have found in about 80 or 90%

NOTE Confidence: 0.699329674243927

00:42:23.040 --> 00:42:26.204 of the patients prefer to do this.

NOTE Confidence: 0.699329674243927

00:42:26.210 --> 00:42:27.000 Who telemedicine?

NOTE Confidence: 0.699329674243927

00:42:27.000 --> 00:42:30.160 I've even had a case where I delivered

NOTE Confidence: 0.699329674243927

00:42:30.231 --> 00:42:32.697 a case with with with telemedicine,

NOTE Confidence: 0.699329674243927

00:42:32.700 --> 00:42:34.686 and that was a little trickier,

NOTE Confidence: 0.699329674243927

00:42:34.690 --> 00:42:36.038 but it was done.

NOTE Confidence: 0.699329674243927

00:42:36.038 --> 00:42:38.528 The situation was a young male student

NOTE Confidence: 0.699329674243927

00:42:38.528 --> 00:42:40.856 who was having found sleepiness and

NOTE Confidence: 0.699329674243927

00:42:40.856 --> 00:42:43.888 he was all set to get his appliance.

NOTE Confidence: 0.699329674243927

00:42:43.890 --> 00:42:47.360 On But he was on vacation when

NOTE Confidence: 0.699329674243927

00:42:47.360 --> 00:42:49.270 Yale closed the doors and said,

NOTE Confidence: 0.699329674243927

00:42:49.270 --> 00:42:51.614 Don't come back and so he went from

NOTE Confidence: 0.699329674243927

00:42:51.614 --> 00:42:54.262 Mexico to his home in Fairbanks, AK and.

NOTE Confidence: 0.699329674243927

00:42:54.262 --> 00:42:55.918 He wasn't going to come back

NOTE Confidence: 0.699329674243927

00:42:55.918 --> 00:42:57.959 to New Haven until September,

NOTE Confidence: 0.699329674243927

00:42:57.960 --> 00:42:59.928 and I just did not think it was

NOTE Confidence: 0.699329674243927

00:42:59.928 --> 00:43:01.377 reasonable in this situation to

NOTE Confidence: 0.699329674243927

00:43:01.377 --> 00:43:03.165 deny him the treatment to them.

NOTE Confidence: 0.699329674243927

00:43:03.170 --> 00:43:06.048 So I FedEx did too, and with a video.

NOTE Confidence: 0.699329674243927

00:43:06.048 --> 00:43:07.933 By using a video chat,

NOTE Confidence: 0.699329674243927

00:43:07.940 --> 00:43:09.956 he and put it in his mouth.

NOTE Confidence: 0.699329674243927

00:43:09.960 --> 00:43:11.688 Fortunately with the appliances I make,

NOTE Confidence: 0.699329674243927

00:43:11.690 --> 00:43:14.354 about 90% or more just go in without

NOTE Confidence: 0.699329674243927

00:43:14.354 --> 00:43:16.151 any adjustments to scanning is

NOTE Confidence: 0.699329674243927

00:43:16.151 --> 00:43:17.916 extremely accurate and the lab

NOTE Confidence: 0.699329674243927

00:43:17.916 --> 00:43:20.251 is really got it right and we

NOTE Confidence: 0.699329674243927

00:43:20.251 --> 00:43:21.503 went over the insertion.

NOTE Confidence: 0.699329674243927

00:43:21.510 --> 00:43:24.541 We went over the post operative instructions

NOTE Confidence: 0.699329674243927

00:43:24.541 --> 00:43:27.596 and he's doing fantastic so even the

NOTE Confidence: 0.699329674243927

00:43:27.596 --> 00:43:30.110 insertion can be done if necessary.

NOTE Confidence: 0.699329674243927

00:43:30.110 --> 00:43:32.260 The follow up visits again

NOTE Confidence: 0.699329674243927

00:43:32.260 --> 00:43:33.550 a relatively simple.

NOTE Confidence: 0.699329674243927

00:43:33.550 --> 00:43:36.196 I just did three this afternoon.

NOTE Confidence: 0.699329674243927

00:43:36.200 --> 00:43:38.480 The patient tells us what's going

NOTE Confidence: 0.699329674243927

00:43:38.480 --> 00:43:40.829 on and if there's any issue.

NOTE Confidence: 0.699329674243927

00:43:40.830 --> 00:43:43.790 We discuss it, and if there's a problem,

NOTE Confidence: 0.699329674243927

00:43:43.790 --> 00:43:45.640 they can always come in.

NOTE Confidence: 0.699329674243927

00:43:45.640 --> 00:43:47.780 The gum wrapper is basically

NOTE Confidence: 0.699329674243927

00:43:47.780 --> 00:43:49.920 to ascertain whether or not.

NOTE Confidence: 0.699329674243927

00:43:49.920 --> 00:43:51.092 There's pochette posterior contact

NOTE Confidence: 0.699329674243927

00:43:51.092 --> 00:43:53.467 of the appliance and what I do is

NOTE Confidence: 0.699329674243927

00:43:53.467 --> 00:43:55.165 normally I just I just visualized

NOTE Confidence: 0.699329674243927

00:43:55.165 --> 00:43:56.269 outputs articulating paper between

NOTE Confidence: 0.699329674243927

00:43:56.269 --> 00:43:58.197 the back teeth and see make sure that

NOTE Confidence: 0.866680383682251

00:43:58.200 --> 00:44:00.008 I can't pull it out and so I

NOTE Confidence: 0.866680383682251

00:44:00.008 --> 00:44:02.056 thought gum wrapper was it was a

NOTE Confidence: 0.866680383682251

00:44:02.056 --> 00:44:03.586 great solution that everybody has

NOTE Confidence: 0.866680383682251

00:44:03.646 --> 00:44:05.374 their house and Israel is clean

NOTE Confidence: 0.866680383682251

00:44:05.374 --> 00:44:07.270 and they could put it in their

NOTE Confidence: 0.866680383682251

00:44:07.270 --> 00:44:08.960 mouth and it's worked out well.

NOTE Confidence: 0.866680383682251

00:44:08.960 --> 00:44:09.788 Next time please.

NOTE Confidence: 0.8609938621521

00:44:12.500 --> 00:44:16.415 And the last thing I want to mention is

NOTE Confidence: 0.8609938621521

00:44:16.415 --> 00:44:20.265 the ASM. Exactly John mentioned that oral

NOTE Confidence: 0.8609938621521

00:44:20.265 --> 00:44:24.095 appliances might be considered as far as

NOTE Confidence: 0.8609938621521

00:44:24.095 --> 00:44:27.407 an alternative or an adjunct to see Pat.

NOTE Confidence: 0.8609938621521

00:44:27.410 --> 00:44:30.356 Because of the problems with their

NOTE Confidence: 0.8609938621521

00:44:30.356 --> 00:44:32.665 Association, potentially other virus

NOTE Confidence: 0.8609938621521

00:44:32.665 --> 00:44:35.690 that we're all concerned about.

NOTE Confidence: 0.8609938621521

00:44:35.690 --> 00:44:38.952 Next one. And that's it.

NOTE Confidence: 0.8609938621521

00:44:38.952 --> 00:44:39.808 Thank you very much.

NOTE Confidence: 0.824007272720337

00:44:42.230 --> 00:44:47.228 Thank you, um, an now we are.

NOTE Confidence: 0.824007272720337

00:44:47.230 --> 00:44:49.680 Moving on to doctor Gore,

NOTE Confidence: 0.824007272720337

00:44:49.680 --> 00:44:53.390 Abuka Batula might have got that right.

NOTE Confidence: 0.824007272720337

00:44:53.390 --> 00:44:56.125 Talking about reopening of sleep

NOTE Confidence: 0.824007272720337

00:44:56.125 --> 00:44:59.180 settings from the ASM perspective. Thank

NOTE Confidence: 0.918851733207703

00:44:59.180 --> 00:45:01.385 you card. So almost overnight you know

NOTE Confidence: 0.918851733207703

00:45:01.385 --> 00:45:03.977 as as all of us went through this,

NOTE Confidence: 0.918851733207703

00:45:03.980 --> 00:45:05.625 this transition from business as

NOTE Confidence: 0.918851733207703

00:45:05.625 --> 00:45:07.820 before to the new way of life.

NOTE Confidence: 0.918851733207703

00:45:07.820 --> 00:45:10.140 We had to kind of scramble and put

NOTE Confidence: 0.918851733207703

00:45:10.140 --> 00:45:12.067 things together as part of the

NOTE Confidence: 0.918851733207703

00:45:12.067 --> 00:45:13.667 Public Safety Committee for the

NOTE Confidence: 0.918851733207703

00:45:13.667 --> 00:45:15.497 American Academy of sleep Medison.

NOTE Confidence: 0.918851733207703

00:45:15.500 --> 00:45:17.558 And we did this with essentially

NOTE Confidence: 0.918851733207703

00:45:17.558 --> 00:45:19.915 very little data and if you could

NOTE Confidence: 0.918851733207703

00:45:19.915 --> 00:45:22.043 show the next slide what you could

NOTE Confidence: 0.918851733207703

00:45:22.116 --> 00:45:24.202 see is that the centers that are

NOTE Confidence: 0.918851733207703

00:45:24.202 --> 00:45:26.716 relying on us for for help and

NOTE Confidence: 0.918851733207703

00:45:26.716 --> 00:45:29.460 guidance are very diverse in terms of.

NOTE Confidence: 0.918851733207703

00:45:29.460 --> 00:45:31.380 The age group serve the region

NOTE Confidence: 0.918851733207703

00:45:31.380 --> 00:45:32.340 in the affiliation,

NOTE Confidence: 0.918851733207703

00:45:32.340 --> 00:45:34.260 whether their hospital affiliated or not.

NOTE Confidence: 0.918851733207703

00:45:34.260 --> 00:45:36.388 So 80% serve adults and kids Anna

NOTE Confidence: 0.918851733207703

00:45:36.388 --> 00:45:38.738 minority would do only children up there.

NOTE Confidence: 0.918851733207703

00:45:38.740 --> 00:45:41.300 About 1/3 of labs located in the southeast,

NOTE Confidence: 0.918851733207703

00:45:41.300 --> 00:45:43.860 1/4 in the Midwest and 15 to 20%

NOTE Confidence: 0.918851733207703

00:45:43.860 --> 00:45:45.876 in the northeast and on the West

NOTE Confidence: 0.918851733207703

00:45:45.876 --> 00:45:47.700 coast and in the Southwest,

NOTE Confidence: 0.918851733207703

00:45:47.700 --> 00:45:50.616 about 10% and as you can see more than

NOTE Confidence: 0.918851733207703

00:45:50.616 --> 00:45:53.588 half or hospital affiliated next slide.

NOTE Confidence: 0.918851733207703

00:45:53.590 --> 00:45:55.956 And this diversity in in our populace

NOTE Confidence: 0.918851733207703

00:45:55.956 --> 00:45:57.754 is accompanied by a tremendous

NOTE Confidence: 0.918851733207703

00:45:57.754 --> 00:45:59.896 diversity in the way that COVID-19

NOTE Confidence: 0.918851733207703

00:45:59.896 --> 00:46:01.600 played out across America,

NOTE Confidence: 0.918851733207703

00:46:01.600 --> 00:46:04.096 and this is a slide from one of

NOTE Confidence: 0.918851733207703

00:46:04.096 --> 00:46:06.292 the pages of the Johns Hopkins

NOTE Confidence: 0.918851733207703

00:46:06.292 --> 00:46:09.415 website and what you can see is that

NOTE Confidence: 0.918851733207703

00:46:09.415 --> 00:46:11.425 there are the kovid epidemic.

NOTE Confidence: 0.918851733207703

00:46:11.430 --> 00:46:13.002 Surveillance curves are widely

NOTE Confidence: 0.918851733207703

00:46:13.002 --> 00:46:14.967 varying depending on which region

NOTE Confidence: 0.918851733207703

00:46:14.967 --> 00:46:16.887 of the US you're looking at.

NOTE Confidence: 0.918851733207703

00:46:16.890 --> 00:46:19.068 So many regions of the Midwest.

NOTE Confidence: 0.918851733207703

00:46:19.070 --> 00:46:20.890 The curve stayed relatively flat,

NOTE Confidence: 0.918851733207703

00:46:20.890 --> 00:46:23.134 but you can see over in

NOTE Confidence: 0.918851733207703

00:46:23.134 --> 00:46:24.630 the East Coast Northeast.

NOTE Confidence: 0.918851733207703

00:46:24.630 --> 00:46:26.230 In New York, New Jersey,

NOTE Confidence: 0.918851733207703

00:46:26.230 --> 00:46:27.026 Massachusetts, Connecticut,

NOTE Confidence: 0.918851733207703

00:46:27.026 --> 00:46:29.812 there there were huge spikes in activity.

NOTE Confidence: 0.918851733207703

00:46:29.820 --> 00:46:30.560 A man,

NOTE Confidence: 0.918851733207703

00:46:30.560 --> 00:46:32.780 the Midwest wasn't completely quiet either.

NOTE Confidence: 0.918851733207703

00:46:32.780 --> 00:46:34.260 States like South Dakota.

NOTE Confidence: 0.918851733207703

00:46:34.260 --> 00:46:36.022 So it's like, you know,

NOTE Confidence: 0.918851733207703

00:46:36.022 --> 00:46:37.652 because of an outbreak related

NOTE Confidence: 0.918851733207703

00:46:37.652 --> 00:46:39.810 to a meat processing plant,

NOTE Confidence: 0.918851733207703

00:46:39.810 --> 00:46:42.030 and similarly Louisiana with Mardi Gras.

NOTE Confidence: 0.918851733207703

00:46:42.030 --> 00:46:42.366 So,

NOTE Confidence: 0.918851733207703

00:46:42.366 --> 00:46:44.718 so every locality in region it even

NOTE Confidence: 0.918851733207703

00:46:44.718 --> 00:46:47.905 in a state that seemed to see low

NOTE Confidence: 0.918851733207703

00:46:47.905 --> 00:46:50.665 levels of activity might have had a

NOTE Confidence: 0.918851733207703

00:46:50.665 --> 00:46:52.777 big outbreak in a specific around

NOTE Confidence: 0.918851733207703

00:46:52.777 --> 00:46:56.170 a specific laboratory next slide.

NOTE Confidence: 0.918851733207703

00:46:56.170 --> 00:46:56.914 So, uh,

NOTE Confidence: 0.918851733207703

00:46:56.914 --> 00:46:59.890 and as we can see in recent times,

NOTE Confidence: 0.918851733207703

00:46:59.890 --> 00:47:02.122 we've had protests because of math

NOTE Confidence: 0.918851733207703

00:47:02.122 --> 00:47:02.866 and shutdowns.

NOTE Confidence: 0.918851733207703

00:47:02.870 --> 00:47:05.467 We've had people lining up to vote.

NOTE Confidence: 0.918851733207703

00:47:05.470 --> 00:47:07.342 We had beaches reopening and in

NOTE Confidence: 0.918851733207703

00:47:07.342 --> 00:47:09.499 the last few days we've seen a

NOTE Confidence: 0.918851733207703

00:47:09.499 --> 00:47:11.459 lot of civil unrest and so many

NOTE Confidence: 0.918851733207703

00:47:11.528 --> 00:47:13.568 unpredictable gatherings where there

NOTE Confidence: 0.918851733207703

00:47:13.568 --> 00:47:16.118 are opportunities for these super

NOTE Confidence: 0.918851733207703

00:47:16.118 --> 00:47:18.670 spreading events to occur where a

NOTE Confidence: 0.918851733207703

00:47:18.670 --> 00:47:21.239 single person can be responsible for

NOTE Confidence: 0.918851733207703

00:47:21.239 --> 00:47:23.504 infecting hundreds if not thousands

NOTE Confidence: 0.918851733207703

00:47:23.504 --> 00:47:26.175 of people exline So how do we do

NOTE Confidence: 0.918851733207703

00:47:26.175 --> 00:47:28.379 this then how do we provide guidance

NOTE Confidence: 0.918851733207703

00:47:28.379 --> 00:47:31.249 in this type of an environment well

NOTE Confidence: 0.918851733207703

00:47:31.249 --> 00:47:33.931 we intended for this to really be

NOTE Confidence: 0.918851733207703

00:47:33.931 --> 00:47:36.022 viewed as a living document and

NOTE Confidence: 0.918851733207703

00:47:36.022 --> 00:47:38.510 what that means is that we we we

NOTE Confidence: 0.918851733207703

00:47:38.587 --> 00:47:40.662 advised everyone to expect that

NOTE Confidence: 0.918851733207703

00:47:40.662 --> 00:47:43.124 there could be sudden spikes in

NOTE Confidence: 0.918851733207703

00:47:43.124 --> 00:47:44.990 local activity and that if you

NOTE Confidence: 0.918851733207703

00:47:44.990 --> 00:47:47.580 open up you may need to close down

NOTE Confidence: 0.918851733207703

00:47:47.580 --> 00:47:49.619 again based on what's happening and

NOTE Confidence: 0.918851733207703

00:47:49.619 --> 00:47:51.563 so to stay connected with federal

NOTE Confidence: 0.918851733207703

00:47:51.563 --> 00:47:53.699 state local and hospital guidance.

NOTE Confidence: 0.918851733207703

00:47:53.700 --> 00:47:54.651 In scientific data,

NOTE Confidence: 0.918851733207703

00:47:54.651 --> 00:47:55.919 as was mentioned earlier,

NOTE Confidence: 0.918851733207703

00:47:55.920 --> 00:47:57.555 there's a huge volume of

NOTE Confidence: 0.918851733207703

00:47:57.555 --> 00:47:59.190 publications coming out and so

NOTE Confidence: 0.910088896751404

00:47:59.256 --> 00:48:01.293 staying attuned and often in spite of

NOTE Confidence: 0.910088896751404

00:48:01.293 --> 00:48:03.835 how much is coming out, it still seems

NOTE Confidence: 0.910088896751404

00:48:03.835 --> 00:48:06.380 to lag behind what we need right now,

NOTE Confidence: 0.910088896751404

00:48:06.380 --> 00:48:08.599 but Anna's new evidence comes out sometimes.

NOTE Confidence: 0.910088896751404

00:48:08.600 --> 00:48:10.180 What things we were doing

NOTE Confidence: 0.910088896751404

00:48:10.180 --> 00:48:11.444 before need to change.

NOTE Confidence: 0.910088896751404

00:48:11.450 --> 00:48:13.178 So being nimble and being quick

NOTE Confidence: 0.910088896751404

00:48:13.178 --> 00:48:15.794 in the way we adapt is going to

NOTE Confidence: 0.910088896751404

00:48:15.794 --> 00:48:17.600 be what's necessary. Next slide.

NOTE Confidence: 0.910088896751404

00:48:17.600 --> 00:48:20.640 So in the midst of all this change,

NOTE Confidence: 0.910088896751404

00:48:20.640 --> 00:48:23.184 then what can we? What can we do?

NOTE Confidence: 0.910088896751404

00:48:23.190 --> 00:48:25.074 Well, we just we chose several

NOTE Confidence: 0.910088896751404

00:48:25.074 --> 00:48:26.999 goals that we thought should be,

NOTE Confidence: 0.910088896751404

00:48:27.000 --> 00:48:27.948 uhm, anchor points.

NOTE Confidence: 0.910088896751404

00:48:27.948 --> 00:48:30.533 The first of course first and foremost is

NOTE Confidence: 0.910088896751404

00:48:30.533 --> 00:48:32.724 to minimize viral exposure to all patients,

NOTE Confidence: 0.910088896751404

00:48:32.730 --> 00:48:34.320 staff and health care providers.

NOTE Confidence: 0.910088896751404

00:48:34.320 --> 00:48:37.500 And the 2nd is that if we're going to reopen,

NOTE Confidence: 0.910088896751404

00:48:37.500 --> 00:48:40.036 there's going to be a steep learning curve.

NOTE Confidence: 0.910088896751404

00:48:40.040 --> 00:48:41.340 So let's not Russian.

NOTE Confidence: 0.910088896751404

00:48:41.340 --> 00:48:43.290 Let's do things gradually and keep

NOTE Confidence: 0.910088896751404

00:48:43.349 --> 00:48:45.575 building on our experience and knowledge

NOTE Confidence: 0.910088896751404

00:48:45.575 --> 00:48:47.760 and do things gradually and safely.

NOTE Confidence: 0.910088896751404

00:48:47.760 --> 00:48:50.448 And the third to implement best practices

NOTE Confidence: 0.910088896751404

00:48:50.448 --> 00:48:52.739 for infection control and Prevention and

NOTE Confidence: 0.910088896751404

00:48:52.739 --> 00:48:55.252 refer to the authorities in these areas.

NOTE Confidence: 0.910088896751404

00:48:55.260 --> 00:48:57.140 And finally, as we differ,

NOTE Confidence: 0.910088896751404

00:48:57.140 --> 00:48:58.262 patients delay care.

NOTE Confidence: 0.910088896751404

00:48:58.262 --> 00:48:59.758 Postpone an urgent care.

NOTE Confidence: 0.910088896751404

00:48:59.760 --> 00:49:02.094 It's really important that we maintain

NOTE Confidence: 0.910088896751404

00:49:02.094 --> 00:49:04.050 communication with these individuals and

NOTE Confidence: 0.910088896751404

00:49:04.050 --> 00:49:06.138 continue to maintain access and continuity.

NOTE Confidence: 0.910088896751404

00:49:06.140 --> 00:49:09.140 And the patients aren't lost to follow up.

NOTE Confidence: 0.910088896751404

00:49:09.140 --> 00:49:09.898 And finally,

NOTE Confidence: 0.910088896751404

00:49:09.898 --> 00:49:11.793 really important to maintain and

NOTE Confidence: 0.910088896751404

00:49:11.793 --> 00:49:14.008 promote public health and public safety.

NOTE Confidence: 0.910088896751404

00:49:14.010 --> 00:49:16.359 OK, next slide.

NOTE Confidence: 0.910088896751404

00:49:16.360 --> 00:49:16.821 Um,

NOTE Confidence: 0.910088896751404

00:49:16.821 --> 00:49:20.048 so we all we went through general

NOTE Confidence: 0.910088896751404

00:49:20.048 --> 00:49:22.273 considerations for reopening and

NOTE Confidence: 0.910088896751404

00:49:22.273 --> 00:49:25.318 that included what the patient's

NOTE Confidence: 0.910088896751404

00:49:25.318 --> 00:49:27.480 COVID-19 statuses screening of.

NOTE Confidence: 0.910088896751404

00:49:27.480 --> 00:49:29.012 Staff and patients infection

NOTE Confidence: 0.910088896751404

00:49:29.012 --> 00:49:29.778 control procedures,

NOTE Confidence: 0.910088896751404

00:49:29.780 --> 00:49:31.392 personal protective equipment or

NOTE Confidence: 0.910088896751404

00:49:31.392 --> 00:49:33.407 PE and then specific strategies

NOTE Confidence: 0.910088896751404

00:49:33.407 --> 00:49:35.540 based on how services are provided.

NOTE Confidence: 0.910088896751404

00:49:35.540 --> 00:49:36.312 Next slide.

NOTE Confidence: 0.910088896751404

00:49:36.312 --> 00:49:38.620 So next slide again soko VAT

NOTE Confidence: 0.910088896751404

00:49:38.620 --> 00:49:40.200 19 status we can.

NOTE Confidence: 0.910088896751404

00:49:40.200 --> 00:49:42.175 There are five different categories

NOTE Confidence: 0.910088896751404

00:49:42.175 --> 00:49:44.724 that a patient or a health care

NOTE Confidence: 0.910088896751404

00:49:44.724 --> 00:49:46.976 provider could belong to so they

NOTE Confidence: 0.910088896751404

00:49:46.976 --> 00:49:48.951 could be quarantined for two

NOTE Confidence: 0.910088896751404

00:49:48.951 --> 00:49:50.906 weeks because they've had an

NOTE Confidence: 0.910088896751404

00:49:50.906 --> 00:49:52.438 exposure or suspected exposure.

NOTE Confidence: 0.910088896751404

00:49:52.440 --> 00:49:54.786 They could be presumed positive because

NOTE Confidence: 0.910088896751404

00:49:54.786 --> 00:49:57.488 of symptoms or because they have either.

NOTE Confidence: 0.910088896751404

00:49:57.490 --> 00:49:59.404 A test that spending or because

NOTE Confidence: 0.910088896751404

00:49:59.404 --> 00:50:01.410 of symptoms that seem suspicious,

NOTE Confidence: 0.910088896751404

00:50:01.410 --> 00:50:03.540 perhaps with unknown contact or not,

NOTE Confidence: 0.910088896751404

00:50:03.540 --> 00:50:05.676 their status could be completely unknown,

NOTE Confidence: 0.910088896751404

00:50:05.680 --> 00:50:07.816 or they could be presumed negative

NOTE Confidence: 0.910088896751404

00:50:07.816 --> 00:50:08.528 or recovered,

NOTE Confidence: 0.910088896751404

00:50:08.530 --> 00:50:10.660 and as these last two categories,

NOTE Confidence: 0.910088896751404

00:50:10.660 --> 00:50:12.610 next slide that we're talking about

NOTE Confidence: 0.910088896751404

00:50:12.610 --> 00:50:14.580 when we talk about reopening,

NOTE Confidence: 0.910088896751404

00:50:14.580 --> 00:50:16.876 who should be first in line to be

NOTE Confidence: 0.910088896751404

00:50:16.876 --> 00:50:19.441 to be coming in and the presumed

NOTE Confidence: 0.910088896751404

00:50:19.441 --> 00:50:21.813 negative cases we need to be

NOTE Confidence: 0.910088896751404

00:50:21.813 --> 00:50:24.494 aware that you know there are pre

NOTE Confidence: 0.910088896751404

00:50:24.494 --> 00:50:25.986 symptomatic and asymptomatic carriers,

NOTE Confidence: 0.910088896751404

00:50:25.986 --> 00:50:28.164 so a negative test doesn't necessarily.

NOTE Confidence: 0.910088896751404

00:50:28.170 --> 00:50:30.042 Rule out disease and so if

NOTE Confidence: 0.910088896751404

00:50:30.042 --> 00:50:31.290 clinical suspicion remains high.

NOTE Confidence: 0.910088896751404

00:50:31.290 --> 00:50:32.850 May need to be repeated.

NOTE Confidence: 0.910088896751404

00:50:32.850 --> 00:50:34.716 An recovered patients similarly could have.

NOTE Confidence: 0.910088896751404

00:50:34.720 --> 00:50:36.764 At least they should be a febrile

NOTE Confidence: 0.910088896751404

00:50:36.764 --> 00:50:39.037 for at least 72 hours and their

NOTE Confidence: 0.910088896751404

00:50:39.037 --> 00:50:40.692 symptoms need to have improved

NOTE Confidence: 0.910088896751404

00:50:40.692 --> 00:50:42.582 an what CDC recommends is that

NOTE Confidence: 0.910088896751404

00:50:42.582 --> 00:50:44.740 at least 10 days is passed since

NOTE Confidence: 0.910088896751404

00:50:44.740 --> 00:50:46.720 symptoms started or that they've had

NOTE Confidence: 0.910088896751404

00:50:46.720 --> 00:50:48.576 at least two negative cova tests

NOTE Confidence: 0.910088896751404

00:50:48.576 --> 00:50:50.630 at least 24 hours apart in time.

NOTE Confidence: 0.910088896751404

00:50:50.630 --> 00:50:52.822 But we need to be aware that some

NOTE Confidence: 0.910088896751404

00:50:52.822 --> 00:50:55.149 patients shed viral DNA for a really

NOTE Confidence: 0.910088896751404

00:50:55.149 --> 00:50:56.869 long time without positive cultures.

NOTE Confidence: 0.910088896751404

00:50:56.870 --> 00:50:59.656 It could be weeks before they clear.

NOTE Confidence: 0.882623136043549

00:50:59.660 --> 00:51:01.976 Are any friends from their blood?

NOTE Confidence: 0.882623136043549

00:51:01.980 --> 00:51:04.682 It's not clear that they're actually an

NOTE Confidence: 0.882623136043549

00:51:04.682 --> 00:51:06.612 infectious transmission risk, so again,

NOTE Confidence: 0.882623136043549

00:51:06.612 --> 00:51:08.928 that's a place where more scientific

NOTE Confidence: 0.882623136043549

00:51:08.928 --> 00:51:12.890 evidence would be helpful. Next slide.

NOTE Confidence: 0.882623136043549

00:51:12.890 --> 00:51:14.857 Um, so moving on to screening infection

NOTE Confidence: 0.882623136043549

00:51:14.857 --> 00:51:16.729 control and personal protective equipment.

NOTE Confidence: 0.882623136043549

00:51:16.730 --> 00:51:18.330 Next slide in terms of

NOTE Confidence: 0.882623136043549

00:51:18.330 --> 00:51:19.290 screening for patients,

NOTE Confidence: 0.882623136043549

00:51:19.290 --> 00:51:21.572 we recommended that there should be at

NOTE Confidence: 0.882623136043549

00:51:21.572 --> 00:51:23.450 least two different points in time,

NOTE Confidence: 0.882623136043549

00:51:23.450 --> 00:51:24.730 and screening is done.

NOTE Confidence: 0.882623136043549

00:51:24.730 --> 00:51:26.650 One is well before the appointments

NOTE Confidence: 0.882623136043549

00:51:26.713 --> 00:51:27.929 that you can identify.

NOTE Confidence: 0.882623136043549

00:51:27.930 --> 00:51:30.072 Those patients who are potentially Cove

NOTE Confidence: 0.882623136043549

00:51:30.072 --> 00:51:32.557 in positive and advise them not to come

NOTE Confidence: 0.882623136043549

00:51:32.557 --> 00:51:34.970 and then again at the time of appointment.

NOTE Confidence: 0.882623136043549

00:51:34.970 --> 00:51:35.930 Ask about symptoms,

NOTE Confidence: 0.882623136043549

00:51:35.930 --> 00:51:37.210 shortness of breath, cough,

NOTE Confidence: 0.882623136043549

00:51:37.210 --> 00:51:38.490 fever, check their temperatures.

NOTE Confidence: 0.882623136043549

00:51:38.490 --> 00:51:40.994 An if there is a coded test available

NOTE Confidence: 0.882623136043549

00:51:40.994 --> 00:51:43.003 if asked them if they'd been

NOTE Confidence: 0.882623136043549

00:51:43.003 --> 00:51:45.240 tested and if they are aware of.

NOTE Confidence: 0.882623136043549

00:51:45.240 --> 00:51:47.334 Results and we don't want patients

NOTE Confidence: 0.882623136043549

00:51:47.334 --> 00:51:49.118 coming in because they're worried

NOTE Confidence: 0.882623136043549

00:51:49.118 --> 00:51:51.407 they're going to be charged a co-pay,

NOTE Confidence: 0.882623136043549

00:51:51.410 --> 00:51:52.670 or miss an opportunity.

NOTE Confidence: 0.882623136043549

00:51:52.670 --> 00:51:54.560 So be generous with policies regarding

NOTE Confidence: 0.882623136043549

00:51:54.619 --> 00:51:56.504 penalties for cancellation and missed

NOTE Confidence: 0.882623136043549

00:51:56.504 --> 00:51:58.012 missed appointments because the

NOTE Confidence: 0.882623136043549

00:51:58.012 --> 00:52:00.396 rest Realness and as far as staff

NOTE Confidence: 0.882623136043549

00:52:00.396 --> 00:52:01.700 we recommended checking temperature

NOTE Confidence: 0.882623136043549

00:52:01.700 --> 00:52:03.420 at least twice a day.

NOTE Confidence: 0.882623136043549

00:52:03.420 --> 00:52:05.814 And if they're febrile with 100.4 more,

NOTE Confidence: 0.882623136043549

00:52:05.820 --> 00:52:07.104 send them home.

NOTE Confidence: 0.882623136043549

00:52:07.104 --> 00:52:07.532 Um,

NOTE Confidence: 0.882623136043549

00:52:07.532 --> 00:52:09.244 flexible or reduce scheduling

NOTE Confidence: 0.882623136043549

00:52:09.244 --> 00:52:10.900 is really important,

NOTE Confidence: 0.882623136043549

00:52:10.900 --> 00:52:13.826 especially at the height of the pandemic

NOTE Confidence: 0.882623136043549

00:52:13.826 --> 00:52:16.779 when many people were out with illness,

NOTE Confidence: 0.882623136043549

00:52:16.780 --> 00:52:18.460 were quarantined or redeployed

NOTE Confidence: 0.882623136043549

00:52:18.460 --> 00:52:19.720 to other areas,

NOTE Confidence: 0.882623136043549

00:52:19.720 --> 00:52:21.835 and in those situations where

NOTE Confidence: 0.882623136043549

00:52:21.835 --> 00:52:23.104 staff is working.

NOTE Confidence: 0.882623136043549

00:52:23.110 --> 00:52:25.329 There are a few people handling everything.

NOTE Confidence: 0.882623136043549

00:52:25.330 --> 00:52:27.130 It's important that they get many

NOTE Confidence: 0.882623136043549

00:52:27.130 --> 00:52:28.820 rest breaks to prevent burnout.

NOTE Confidence: 0.882623136043549

00:52:28.820 --> 00:52:30.458 Sick leave policies also need to

NOTE Confidence: 0.882623136043549

00:52:30.458 --> 00:52:32.361 be consistent with what CDC another

NOTE Confidence: 0.882623136043549

00:52:32.361 --> 00:52:33.885 health Department sat recommending.

NOTE Confidence: 0.882623136043549

00:52:33.890 --> 00:52:35.490 Advise your employees not to

NOTE Confidence: 0.882623136043549

00:52:35.490 --> 00:52:37.380 report to work when they're ill,

NOTE Confidence: 0.882623136043549

00:52:37.380 --> 00:52:39.543 because a lot of cases of transmission

NOTE Confidence: 0.882623136043549

00:52:39.543 --> 00:52:41.488 that have occured with health care

NOTE Confidence: 0.882623136043549

00:52:41.488 --> 00:52:43.078 worker to health care worker.

NOTE Confidence: 0.882623136043549

00:52:43.080 --> 00:52:45.012 And finally the point of contact

NOTE Confidence: 0.882623136043549

00:52:45.012 --> 00:52:46.658 testing patients before they come

NOTE Confidence: 0.882623136043549

00:52:46.658 --> 00:52:48.470 into the visit and staff regularly.

NOTE Confidence: 0.882623136043549

00:52:48.470 --> 00:52:50.366 And this is heavily dependent on

NOTE Confidence: 0.882623136043549

00:52:50.366 --> 00:52:52.268 availability of tests. Next slide.

NOTE Confidence: 0.882623136043549

00:52:52.268 --> 00:52:54.638 In terms of infection control

NOTE Confidence: 0.882623136043549

00:52:54.638 --> 00:52:55.586 these recommendations,

NOTE Confidence: 0.882623136043549

00:52:55.590 --> 00:52:57.118 it's really important for

NOTE Confidence: 0.882623136043549

00:52:57.120 --> 00:52:59.794 somebody to stay on top of these,

NOTE Confidence: 0.882623136043549

00:52:59.794 --> 00:53:00.937 so we advise,

NOTE Confidence: 0.882623136043549

00:53:00.940 --> 00:53:02.292 recommended designating a staff

NOTE Confidence: 0.882623136043549

00:53:02.292 --> 00:53:05.156 member to stay up to date on what

NOTE Confidence: 0.882623136043549

00:53:05.156 --> 00:53:07.086 local health Department state Health

NOTE Confidence: 0.882623136043549

00:53:07.086 --> 00:53:09.121 Department since EDC or recommending

NOTE Confidence: 0.882623136043549

00:53:09.121 --> 00:53:11.166 as well as manufacturers physical

NOTE Confidence: 0.882623136043549

00:53:11.166 --> 00:53:13.928 distancing is still a very very key

NOTE Confidence: 0.882623136043549

00:53:13.928 --> 00:53:15.462 component of control, infection,

NOTE Confidence: 0.882623136043549

00:53:15.462 --> 00:53:17.372 control and telemedicine is a

NOTE Confidence: 0.882623136043549

00:53:17.372 --> 00:53:18.900 big component of that,

NOTE Confidence: 0.882623136043549

00:53:18.900 --> 00:53:20.835 so we advocated using telemedicine

NOTE Confidence: 0.882623136043549

00:53:20.835 --> 00:53:23.170 as much as possible and then.

NOTE Confidence: 0.882623136043549

00:53:23.170 --> 00:53:26.110 Uh, if patients do need to come in on site.

NOTE Confidence: 0.882623136043549

00:53:26.110 --> 00:53:26.774 Physical distancing,

NOTE Confidence: 0.882623136043549

00:53:26.774 --> 00:53:28.766 which includes not having a lot

NOTE Confidence: 0.882623136043549

00:53:28.766 --> 00:53:30.720 of people in the waiting rooms or

NOTE Confidence: 0.882623136043549

00:53:30.720 --> 00:53:32.887 piling up and check in areas or check

NOTE Confidence: 0.882623136043549

00:53:32.887 --> 00:53:34.639 out areas facing chairs far apart,

NOTE Confidence: 0.882623136043549

00:53:34.640 --> 00:53:36.260 studying only a few patients at

NOTE Confidence: 0.882623136043549

00:53:36.260 --> 00:53:37.870 a time and limiting FaceTime.

NOTE Confidence: 0.882623136043549

00:53:37.870 --> 00:53:39.646 So between the technician or the

NOTE Confidence: 0.882623136043549

00:53:39.646 --> 00:53:41.460 health care provider and the patient

NOTE Confidence: 0.882623136043549

00:53:41.460 --> 00:53:43.748 and any instructions that need to be given,

NOTE Confidence: 0.882623136043549

00:53:43.750 --> 00:53:45.964 give them in advance or afterwards

NOTE Confidence: 0.882623136043549

00:53:45.964 --> 00:53:47.440 and do it remotely.

NOTE Confidence: 0.882623136043549

00:53:47.440 --> 00:53:48.264 Limiting visitors,

NOTE Confidence: 0.882623136043549

00:53:48.264 --> 00:53:49.912 unless they're absolutely necessary

NOTE Confidence: 0.882623136043549

00:53:49.912 --> 00:53:51.148 for patient care,

NOTE Confidence: 0.882623136043549

00:53:51.150 --> 00:53:53.210 and even for translation services.

NOTE Confidence: 0.882623136043549

00:53:53.210 --> 00:53:55.082 Try using online services.

NOTE Confidence: 0.882623136043549

00:53:55.082 --> 00:53:57.890 Have copious signs of advising patients

NOTE Confidence: 0.897944927215576

00:53:57.960 --> 00:53:59.765 on proper hand hygiene and

NOTE Confidence: 0.897944927215576

00:53:59.765 --> 00:54:01.860 keep looking at your pee PE,

NOTE Confidence: 0.897944927215576

00:54:01.860 --> 00:54:04.326 because that's going to drive everything.

NOTE Confidence: 0.897944927215576

00:54:04.330 --> 00:54:05.566 Is there available

NOTE Confidence: 0.897944927215576

00:54:05.566 --> 00:54:07.626 accessible PE for your staff?

NOTE Confidence: 0.897944927215576

00:54:07.630 --> 00:54:09.690 An enough masks for patients

NOTE Confidence: 0.897944927215576

00:54:09.690 --> 00:54:11.338 if they need them?

NOTE Confidence: 0.897944927215576

00:54:11.340 --> 00:54:13.400 An review the control procedures?

NOTE Confidence: 0.897944927215576

00:54:13.400 --> 00:54:15.256 As I said with.

NOTE Confidence: 0.897944927215576

00:54:15.256 --> 00:54:18.800 With all of your staff next slide.

NOTE Confidence: 0.897944927215576

00:54:18.800 --> 00:54:21.408 As far as PP monitoring supplies is primary,

NOTE Confidence: 0.897944927215576

00:54:21.410 --> 00:54:23.558 there were many times when shortages

NOTE Confidence: 0.897944927215576

00:54:23.558 --> 00:54:25.970 have been faced by by many of us.

NOTE Confidence: 0.897944927215576

00:54:25.970 --> 00:54:28.336 What we advise is that staff should

NOTE Confidence: 0.897944927215576

00:54:28.336 --> 00:54:30.282 be everybody should be masked all

NOTE Confidence: 0.897944927215576

00:54:30.282 --> 00:54:32.305 the time and that staff should be

NOTE Confidence: 0.897944927215576

00:54:32.367 --> 00:54:34.057 wearing at least surgical masks

NOTE Confidence: 0.897944927215576

00:54:34.057 --> 00:54:36.073 when they're on site on duty,

NOTE Confidence: 0.897944927215576

00:54:36.073 --> 00:54:38.011 except when they're eating and patients

NOTE Confidence: 0.897944927215576

00:54:38.011 --> 00:54:40.329 should have at least a cloth covering

NOTE Confidence: 0.897944927215576

00:54:40.329 --> 00:54:42.267 or bringing their own surgical masks.

NOTE Confidence: 0.897944927215576

00:54:42.270 --> 00:54:44.538 If you have enough supplies to loan

NOTE Confidence: 0.897944927215576

00:54:44.538 --> 00:54:46.684 patience for surgical mask, that's great,

NOTE Confidence: 0.897944927215576

00:54:46.684 --> 00:54:49.156 but state and federal guidelines should

NOTE Confidence: 0.897944927215576

00:54:49.156 --> 00:54:51.608 be consulted as to how best to use PP.

NOTE Confidence: 0.897944927215576

00:54:51.610 --> 00:54:53.536 Because as you be all know,

NOTE Confidence: 0.897944927215576

00:54:53.540 --> 00:54:54.506 those recommendations did

NOTE Confidence: 0.897944927215576

00:54:54.506 --> 00:54:55.794 change over the course.

NOTE Confidence: 0.897944927215576

00:54:55.800 --> 00:54:58.047 The pandemic, and there is mixed data,

NOTE Confidence: 0.897944927215576

00:54:58.050 --> 00:54:59.334 but there's definitely data.

NOTE Confidence: 0.897944927215576

00:54:59.334 --> 00:55:00.297 That path can,

NOTE Confidence: 0.897944927215576

00:55:00.300 --> 00:55:01.910 potentially ERISA lies the virus,

NOTE Confidence: 0.897944927215576

00:55:01.910 --> 00:55:03.898 and so anytime path is being delivered

NOTE Confidence: 0.897944927215576

00:55:03.898 --> 00:55:05.777 using in 95 respirator along with

NOTE Confidence: 0.897944927215576

00:55:05.777 --> 00:55:07.715 full PB and 95 respirator's need

NOTE Confidence: 0.897944927215576

00:55:07.715 --> 00:55:10.180 to because you could test it in

NOTE Confidence: 0.897944927215576

00:55:10.180 --> 00:55:11.564 accordance with OSHA guidelines.

NOTE Confidence: 0.897944927215576

00:55:11.570 --> 00:55:14.146 Next slide and as far as specific strategies.

NOTE Confidence: 0.897944927215576

00:55:14.150 --> 00:55:14.912 Next slide.

NOTE Confidence: 0.897944927215576

00:55:14.912 --> 00:55:15.293 Um,

NOTE Confidence: 0.897944927215576

00:55:15.293 --> 00:55:17.579 we recommended that OK on the

NOTE Confidence: 0.897944927215576

00:55:17.579 --> 00:55:19.059 far right column.

NOTE Confidence: 0.897944927215576

00:55:19.060 --> 00:55:21.244 If you really have no disease

NOTE Confidence: 0.897944927215576

00:55:21.244 --> 00:55:22.700 activity or very minimal,

NOTE Confidence: 0.897944927215576

00:55:22.700 --> 00:55:24.520 then you can pretty much

NOTE Confidence: 0.897944927215576

00:55:24.520 --> 00:55:25.976 conduct business as usual.

NOTE Confidence: 0.897944927215576

00:55:25.980 --> 00:55:27.926 But if you have at least minimal

NOTE Confidence: 0.897944927215576

00:55:27.926 --> 00:55:29.383 to moderate or substantial

NOTE Confidence: 0.897944927215576

00:55:29.383 --> 00:55:31.069 of community transmission,

NOTE Confidence: 0.897944927215576

00:55:31.070 --> 00:55:32.306 then changes in order.

NOTE Confidence: 0.897944927215576

00:55:32.306 --> 00:55:35.440 So in terms of Papus in clinical settings,

NOTE Confidence: 0.897944927215576

00:55:35.440 --> 00:55:37.426 we had concerns about potential spread

NOTE Confidence: 0.897944927215576

00:55:37.426 --> 00:55:39.810 because of this error civilization risk.

NOTE Confidence: 0.897944927215576

00:55:39.810 --> 00:55:41.262 There have been multiple

NOTE Confidence: 0.897944927215576

00:55:41.262 --> 00:55:42.714 studies to suggest this,

NOTE Confidence: 0.897944927215576

00:55:42.720 --> 00:55:44.540 so unless very special procedures

NOTE Confidence: 0.897944927215576

00:55:44.540 --> 00:55:46.360 are taken to limit transition,

NOTE Confidence: 0.897944927215576

00:55:46.360 --> 00:55:48.080 we recommended as a general

NOTE Confidence: 0.897944927215576

00:55:48.080 --> 00:55:50.430 rule that it should be avoided.

NOTE Confidence: 0.897944927215576

00:55:50.430 --> 00:55:53.209 In terms of titration, PS GS in,

NOTE Confidence: 0.897944927215576

00:55:53.210 --> 00:55:53.610 in,

NOTE Confidence: 0.897944927215576

00:55:53.610 --> 00:55:55.210 in regions with substantial

NOTE Confidence: 0.897944927215576

00:55:55.210 --> 00:55:57.210 transmission where there's a lot

NOTE Confidence: 0.897944927215576

00:55:57.275 --> 00:55:59.530 of community spread and staffing

NOTE Confidence: 0.897944927215576

00:55:59.530 --> 00:56:01.334 has been significantly impacted.

NOTE Confidence: 0.897944927215576

00:56:01.340 --> 00:56:03.305 Consider using this Medicare option

NOTE Confidence: 0.897944927215576

00:56:03.305 --> 00:56:05.730 for the older patients of offering

NOTE Confidence: 0.897944927215576

00:56:05.730 --> 00:56:08.052 empiric path therapy an if it's

NOTE Confidence: 0.897944927215576

00:56:08.052 --> 00:56:10.120 minimal to moderate transmission.

NOTE Confidence: 0.897944927215576

00:56:10.120 --> 00:56:12.205 Then limit those pap titrations

NOTE Confidence: 0.897944927215576

00:56:12.205 --> 00:56:13.456 to emergency patients.

NOTE Confidence: 0.897944927215576

00:56:13.460 --> 00:56:14.588 Use adequate pipian,

NOTE Confidence: 0.897944927215576

00:56:14.588 --> 00:56:16.468 consider using negative pressure rooms

NOTE Confidence: 0.897944927215576

00:56:16.468 --> 00:56:19.132 in terms of diagnostic testing in

NOTE Confidence: 0.897944927215576

00:56:19.132 --> 00:56:20.984 substantial with substantial transmission.

NOTE Confidence: 0.897944927215576

00:56:20.990 --> 00:56:23.080 We advised restrict only to

NOTE Confidence: 0.897944927215576

00:56:23.080 --> 00:56:25.170 emergencies for in lab studies,

NOTE Confidence: 0.897944927215576

00:56:25.170 --> 00:56:27.260 an use plenty of PP,

NOTE Confidence: 0.897944927215576

00:56:27.260 --> 00:56:29.350 and follow social distancing policies

NOTE Confidence: 0.897944927215576

00:56:29.350 --> 00:56:31.551 that we talked about earlier.

NOTE Confidence: 0.897944927215576

00:56:31.551 --> 00:56:34.293 And with minimal to moderate transmission.

NOTE Confidence: 0.897944927215576

00:56:34.300 --> 00:56:35.480 Uhm, it's it's we,

NOTE Confidence: 0.897944927215576

00:56:35.480 --> 00:56:38.025 which is kind of where a lot of

NOTE Confidence: 0.897944927215576

00:56:38.025 --> 00:56:39.790 reopening labs are right now.

NOTE Confidence: 0.897944927215576

00:56:39.790 --> 00:56:41.716 Look at your patience and consider

NOTE Confidence: 0.897944927215576

00:56:41.716 --> 00:56:43.969 whether they are at high risk for

NOTE Confidence: 0.897944927215576

00:56:43.969 --> 00:56:45.787 severe disease an it really should

NOTE Confidence: 0.897944927215576

00:56:45.787 --> 00:56:47.811 be reserved for those patients who

NOTE Confidence: 0.897944927215576

00:56:47.811 --> 00:56:50.293 are not considered to be a very high

NOTE Confidence: 0.897944927215576

00:56:50.293 --> 00:56:52.190 risk for severe disease in terms of

NOTE Confidence: 0.897944927215576

00:56:52.252 --> 00:56:54.067 clinic appointments in restrict in

NOTE Confidence: 0.897944927215576

00:56:54.067 --> 00:56:56.269 person visits to only urgent cases

NOTE Confidence: 0.897944927215576

00:56:56.269 --> 00:56:58.195 and use PP and social distancing,

NOTE Confidence: 0.897944927215576

00:56:58.200 --> 00:56:59.388 an really use telemedicine

NOTE Confidence: 0.897944927215576

00:56:59.388 --> 00:57:01.170 as much as possible in areas

NOTE Confidence: 0.893226206302643

00:57:01.226 --> 00:57:02.360 with substantial transmission

NOTE Confidence: 0.893226206302643

00:57:02.360 --> 00:57:04.628 and in minimal to moderate areas.

NOTE Confidence: 0.893226206302643

00:57:04.630 --> 00:57:07.045 Um again, limit, uh, if you can,

NOTE Confidence: 0.893226206302643

00:57:07.050 --> 00:57:08.780 to those at high risk.

NOTE Confidence: 0.893226206302643

00:57:08.780 --> 00:57:10.856 For severe Cove it or not,

NOTE Confidence: 0.893226206302643

00:57:10.860 --> 00:57:13.276 at high risk for severe coded and only

NOTE Confidence: 0.893226206302643

00:57:13.276 --> 00:57:15.358 if there's no telemedicine option.

NOTE Confidence: 0.893226206302643

00:57:15.360 --> 00:57:17.334 So really pushing telemedicine here as a

NOTE Confidence: 0.893226206302643

00:57:17.334 --> 00:57:19.855 as a key component of maintaining physical

NOTE Confidence: 0.893226206302643

00:57:19.855 --> 00:57:22.273 distancing and in terms of visitors,

NOTE Confidence: 0.893226206302643

00:57:22.280 --> 00:57:24.236 they should be restricted and prescreen

NOTE Confidence: 0.893226206302643

00:57:24.236 --> 00:57:26.629 just the same way you would prescreen

NOTE Confidence: 0.893226206302643

00:57:26.629 --> 00:57:28.687 patients and restrict them to only

NOTE Confidence: 0.893226206302643

00:57:28.687 --> 00:57:30.580 those who are absolutely needed.

NOTE Confidence: 0.893226206302643

00:57:30.580 --> 00:57:32.528 For for patient care.

NOTE Confidence: 0.893226206302643

00:57:32.528 --> 00:57:33.989 And and finally,

NOTE Confidence: 0.893226206302643

00:57:33.990 --> 00:57:35.178 home sleep testing.

NOTE Confidence: 0.893226206302643

00:57:35.178 --> 00:57:37.158 We have specific service parameters

NOTE Confidence: 0.893226206302643

00:57:37.158 --> 00:57:37.950 we recommended.

NOTE Confidence: 0.893226206302643

00:57:37.950 --> 00:57:40.320 If you are using reasonable devices,

NOTE Confidence: 0.893226206302643

00:57:40.320 --> 00:57:41.904 follow the disinfection protocols

NOTE Confidence: 0.893226206302643

00:57:41.904 --> 00:57:44.280 recommended by the manufacturer and CDC.

NOTE Confidence: 0.893226206302643

00:57:44.280 --> 00:57:46.692 There very clearly outline and we

NOTE Confidence: 0.893226206302643

00:57:46.692 --> 00:57:49.039 provided links on the web page.

NOTE Confidence: 0.893226206302643

00:57:49.040 --> 00:57:51.362 Remove them from service for at

NOTE Confidence: 0.893226206302643

00:57:51.362 --> 00:57:54.042 least 72 hours based on data that

NOTE Confidence: 0.893226206302643

00:57:54.042 --> 00:57:57.030 buyers can be viable for that time on

NOTE Confidence: 0.893226206302643

00:57:57.030 --> 00:57:59.325 services and disinfect before use.

NOTE Confidence: 0.893226206302643

00:57:59.330 --> 00:58:01.574 Using appropriate PPA and consider using

NOTE Confidence: 0.893226206302643

00:58:01.574 --> 00:58:03.740 fully disposable devices or components.

NOTE Confidence: 0.893226206302643

00:58:03.740 --> 00:58:04.093 Again,

NOTE Confidence: 0.893226206302643

00:58:04.093 --> 00:58:06.211 there is the cost concerned that

NOTE Confidence: 0.893226206302643

00:58:06.211 --> 00:58:07.938 others have mentioned earlier and

NOTE Confidence: 0.893226206302643

00:58:07.938 --> 00:58:09.744 really use a service model that

NOTE Confidence: 0.893226206302643

00:58:09.744 --> 00:58:11.859 can help with physical distancing,

NOTE Confidence: 0.893226206302643

00:58:11.860 --> 00:58:13.272 so either curbside drop-off

NOTE Confidence: 0.893226206302643

00:58:13.272 --> 00:58:15.037 or pick-up or Mail delivery,

NOTE Confidence: 0.893226206302643

00:58:15.040 --> 00:58:17.490 and as much as possible in structure

NOTE Confidence: 0.893226206302643

00:58:17.490 --> 00:58:19.629 patients using remote methods you know,

NOTE Confidence: 0.893226206302643

00:58:19.630 --> 00:58:22.060 Mail them brochures or pamphlets called

NOTE Confidence: 0.893226206302643

00:58:22.060 --> 00:58:25.708 them up and do a telephone call or video.

NOTE Confidence: 0.893226206302643

00:58:25.710 --> 00:58:28.200 At next slide.

NOTE Confidence: 0.893226206302643

00:58:28.200 --> 00:58:30.576 So an an finally really in,

NOTE Confidence: 0.893226206302643

00:58:30.580 --> 00:58:31.228 you know,

NOTE Confidence: 0.893226206302643

00:58:31.228 --> 00:58:33.820 in an era where we don't be used

NOTE Confidence: 0.893226206302643

00:58:33.903 --> 00:58:36.528 the best possible available judge.

NOTE Confidence: 0.893226206302643

00:58:36.530 --> 00:58:38.786 Evidence that we have and when

NOTE Confidence: 0.893226206302643

00:58:38.786 --> 00:58:40.290 evidence is not available,

NOTE Confidence: 0.893226206302643

00:58:40.290 --> 00:58:42.300 we come to conferences like this

NOTE Confidence: 0.893226206302643

00:58:42.300 --> 00:58:44.155 and really share our knowledge

NOTE Confidence: 0.893226206302643

00:58:44.155 --> 00:58:45.927 and use expert consensus.

NOTE Confidence: 0.893226206302643

00:58:45.930 --> 00:58:48.562 But at the end of the dates

NOTE Confidence: 0.893226206302643

00:58:48.562 --> 00:58:49.690 are clinical judgment.

NOTE Confidence: 0.893226206302643

00:58:49.690 --> 00:58:51.565 It's going to be extremely

NOTE Confidence: 0.893226206302643

00:58:51.565 --> 00:58:53.065 valuable in this environment.

NOTE Confidence: 0.893226206302643

00:58:53.070 --> 00:58:55.452 It's really important that we keep

NOTE Confidence: 0.893226206302643

00:58:55.452 --> 00:58:57.855 health and safety first of our

NOTE Confidence: 0.893226206302643

00:58:57.855 --> 00:59:00.075 patients anavar staff and of the

NOTE Confidence: 0.893226206302643

00:59:00.075 --> 00:59:02.118 greater public good an above all.

NOTE Confidence: 0.893226206302643

00:59:02.120 --> 00:59:04.528 Air on the side of caution when you're

NOTE Confidence: 0.893226206302643

00:59:04.528 --> 00:59:06.060 making decisions about reopening.

NOTE Confidence: 0.893226206302643

00:59:06.060 --> 00:59:07.948 Thank you very much.

NOTE Confidence: 0.893226206302643

00:59:07.948 --> 00:59:08.420 Thank

NOTE Confidence: 0.88935774564743

00:59:08.420 --> 00:59:11.884 you Indera and finally a doctor Cannon Ramar,

NOTE Confidence: 0.88935774564743

00:59:11.890 --> 00:59:16.350 who's the president elect of the ASM. Thank

NOTE Confidence: 0.913665294647217

00:59:16.350 --> 00:59:18.515 you and Good afternoon everyone

NOTE Confidence: 0.913665294647217

00:59:18.515 --> 00:59:20.247 really appreciate this opportunity.

NOTE Confidence: 0.913665294647217

00:59:20.250 --> 00:59:23.001 An invitation to be here with you

NOTE Confidence: 0.913665294647217

00:59:23.001 --> 00:59:26.448 all and first of all I just wanted

NOTE Confidence: 0.913665294647217

00:59:26.448 --> 00:59:28.623 to express my sincere gratitude

NOTE Confidence: 0.913665294647217

00:59:28.714 --> 00:59:31.878 and thank each and everyone of you

NOTE Confidence: 0.913665294647217

00:59:31.878 --> 00:59:33.992 for everything that you've done.

NOTE Confidence: 0.913665294647217

00:59:33.992 --> 00:59:36.624 Gone through in the last few weeks

NOTE Confidence: 0.913665294647217

00:59:36.624 --> 00:59:39.973 to months in terms of adapting to

NOTE Confidence: 0.913665294647217

00:59:39.973 --> 00:59:41.901 these significant ongoing changes

NOTE Confidence: 0.913665294647217

00:59:41.977 --> 00:59:44.551 related to arc over 90 Lation

NOTE Confidence: 0.913665294647217

00:59:44.551 --> 00:59:46.267 and showing resilience and.

NOTE Confidence: 0.913665294647217

00:59:46.270 --> 00:59:48.362 I'm getting lessons to learn from

NOTE Confidence: 0.913665294647217

00:59:48.362 --> 00:59:50.700 all these two to hopefully make these

NOTE Confidence: 0.913665294647217

00:59:50.766 --> 00:59:53.190 things better has been moved forward,

NOTE Confidence: 0.913665294647217

00:59:53.190 --> 00:59:56.886 so thank you again for all of that.

NOTE Confidence: 0.913665294647217

00:59:56.890 --> 00:59:59.375 Um, what I said might actually resonate.

NOTE Confidence: 0.913665294647217

00:59:59.380 --> 01:00:01.963 Share a little bit with this particular

NOTE Confidence: 0.913665294647217

01:00:01.963 --> 01:00:04.008 slide that's in front of you.

NOTE Confidence: 0.913665294647217

01:00:04.010 --> 01:00:06.682 This is the slide or a figure that

NOTE Confidence: 0.913665294647217

01:00:06.682 --> 01:00:08.989 I borrowed from the CDC website,

NOTE Confidence: 0.913665294647217

01:00:08.990 --> 01:00:11.190 and here you can see at the center

NOTE Confidence: 0.913665294647217

01:00:11.190 --> 01:00:13.858 is a pandemic phase and then they

NOTE Confidence: 0.913665294647217

01:00:13.858 --> 01:00:16.470 talk about different types of phases,

NOTE Confidence: 0.913665294647217

01:00:16.470 --> 01:00:18.425 including transition phase and the

NOTE Confidence: 0.913665294647217

01:00:18.425 --> 01:00:20.380 Inter pandemic phase transition phases

NOTE Confidence: 0.913665294647217

01:00:20.439 --> 01:00:22.728 where believed to be the second surge

NOTE Confidence: 0.913665294647217

01:00:22.728 --> 01:00:24.300 that we're anticipating to happen.

NOTE Confidence: 0.913665294647217

01:00:24.300 --> 01:00:25.434 Then your future,

NOTE Confidence: 0.913665294647217

01:00:25.434 --> 01:00:27.324 and the reason to keep.

NOTE Confidence: 0.913665294647217

01:00:27.330 --> 01:00:28.407 These different faces,

NOTE Confidence: 0.913665294647217

01:00:28.407 --> 01:00:31.360 at least at the back of our mind,

NOTE Confidence: 0.913665294647217

01:00:31.360 --> 01:00:34.016 Isba cause in terms of not only from

NOTE Confidence: 0.913665294647217

01:00:34.016 --> 01:00:36.506 a risk assessment but also in terms

NOTE Confidence: 0.913665294647217

01:00:36.506 --> 01:00:39.410 of how we end up responding to.

NOTE Confidence: 0.913665294647217

01:00:39.410 --> 01:00:42.338 It might also depend on the hyper phase.

NOTE Confidence: 0.913665294647217

01:00:42.340 --> 01:00:44.876 We might be again and I think it's

NOTE Confidence: 0.913665294647217

01:00:44.876 --> 01:00:47.379 also very important that the lessons

NOTE Confidence: 0.913665294647217

01:00:47.379 --> 01:00:50.061 learned during this current time is

NOTE Confidence: 0.913665294647217

01:00:50.142 --> 01:00:52.361 going to be needed much more when

NOTE Confidence: 0.913665294647217

01:00:52.361 --> 01:00:54.736 we look at the second search are

NOTE Confidence: 0.913665294647217

01:00:54.736 --> 01:00:56.860 another panic in the near future

NOTE Confidence: 0.913665294647217

01:00:56.932 --> 01:00:59.212 and I think that's why webinars

NOTE Confidence: 0.913665294647217

01:00:59.212 --> 01:01:00.732 an conferences like these.

NOTE Confidence: 0.913665294647217

01:01:00.740 --> 01:01:03.169 Where we continue to learn and hopefully

NOTE Confidence: 0.913665294647217

01:01:03.169 --> 01:01:04.835 with publications related studies that

NOTE Confidence: 0.913665294647217

01:01:04.835 --> 01:01:06.837 are being done as they come through,

NOTE Confidence: 0.913665294647217

01:01:06.840 --> 01:01:09.400 they're going to be able to help us

NOTE Confidence: 0.913665294647217

01:01:09.400 --> 01:01:11.646 figure out what needs to be done.

NOTE Confidence: 0.913665294647217

01:01:11.650 --> 01:01:13.870 As we move forward here.

NOTE Confidence: 0.913665294647217

01:01:13.870 --> 01:01:18.148 Next slide, please. So I thought.

NOTE Confidence: 0.913665294647217

01:01:18.148 --> 01:01:19.560 A doctor,

NOTE Confidence: 0.913665294647217

01:01:19.560 --> 01:01:20.252 uh Indra.

NOTE Confidence: 0.913665294647217

01:01:20.252 --> 01:01:22.328 There are fantastic job in covering

NOTE Confidence: 0.913665294647217

01:01:22.328 --> 01:01:24.855 what she was doing from a public

NOTE Confidence: 0.913665294647217

01:01:24.855 --> 01:01:26.620 Safety Committee point of view,

NOTE Confidence: 0.913665294647217

01:01:26.620 --> 01:01:29.056 so I thought I'll take the big

NOTE Confidence: 0.913665294647217

01:01:29.056 --> 01:01:31.396 picture roll off at least outlining

NOTE Confidence: 0.913665294647217

01:01:31.396 --> 01:01:33.838 what we are currently doing and

NOTE Confidence: 0.913665294647217

01:01:33.838 --> 01:01:36.626 what we plan to do from an ASM POV

NOTE Confidence: 0.913665294647217

01:01:36.626 --> 01:01:38.925 and would love to get your thoughts

NOTE Confidence: 0.913665294647217

01:01:38.925 --> 01:01:41.703 input in terms of what else we could

NOTE Confidence: 0.913665294647217

01:01:41.703 --> 01:01:44.006 be doing to help our members and

NOTE Confidence: 0.913665294647217

01:01:44.079 --> 01:01:46.311 our sleep providers during and in

NOTE Confidence: 0.913665294647217

01:01:46.311 --> 01:01:49.312 the post code with 19 face as well.

NOTE Confidence: 0.913665294647217

01:01:49.312 --> 01:01:51.634 And uh, doctor good about Ella,

NOTE Confidence: 0.913665294647217

01:01:51.634 --> 01:01:53.980 who chairs the Public Safety Committee,

NOTE Confidence: 0.913665294647217

01:01:53.980 --> 01:01:56.326 nicely outlined what's currently being done.

NOTE Confidence: 0.913665294647217

01:01:56.330 --> 01:01:59.426 A lot of work has been done by that

NOTE Confidence: 0.913665294647217

01:01:59.426 --> 01:02:01.800 particular community through the ASM,

NOTE Confidence: 0.913665294647217

01:02:01.800 --> 01:02:04.760 and kudos to her and her team with

NOTE Confidence: 0.913665294647217

01:02:04.760 --> 01:02:07.034 excellent work that they have done

NOTE Confidence: 0.913665294647217

01:02:07.034 --> 01:02:09.791 so far and the continuing to be

NOTE Confidence: 0.913665294647217

01:02:09.791 --> 01:02:10.799 periodic updates.

NOTE Confidence: 0.913665294647217

01:02:10.800 --> 01:02:13.411 and I would encourage you if you

NOTE Confidence: 0.913665294647217

01:02:13.411 --> 01:02:15.418 have questions related to anything

NOTE Confidence: 0.913665294647217

01:02:15.418 --> 01:02:17.046 that might be discussed.

NOTE Confidence: 0.913665294647217

01:02:17.050 --> 01:02:19.085 Probably well covered under the

NOTE Confidence: 0.913665294647217

01:02:19.085 --> 01:02:21.380 resource section within the code 19.

NOTE Confidence: 0.913665294647217

01:02:21.380 --> 01:02:24.700 And there's a website that's listed out here.

NOTE Confidence: 0.913665294647217

01:02:24.700 --> 01:02:25.340 The.

NOTE Confidence: 0.913665294647217

01:02:25.340 --> 01:02:27.900 Another initiative that is,

NOTE Confidence: 0.913665294647217

01:02:27.900 --> 01:02:29.952 I'm mistaken as a startup code

NOTE Confidence: 0.913665294647217

01:02:29.952 --> 01:02:31.320 19 task force that's

NOTE Confidence: 0.873918950557709

01:02:31.390 --> 01:02:34.406 actually going to get going here pretty soon,

NOTE Confidence: 0.873918950557709

01:02:34.410 --> 01:02:36.444 and doctor Phil is actually going

NOTE Confidence: 0.873918950557709

01:02:36.444 --> 01:02:39.015 to be heading that task force along

NOTE Confidence: 0.873918950557709

01:02:39.015 --> 01:02:40.930 with Shannon Sullivan as well.

NOTE Confidence: 0.873918950557709

01:02:40.930 --> 01:02:43.477 And we what we ended up doing was more

NOTE Confidence: 0.873918950557709

01:02:43.477 --> 01:02:46.306 a few members from the Public Safety

NOTE Confidence: 0.873918950557709

01:02:46.306 --> 01:02:49.156 Committee onto the code 19 task force

NOTE Confidence: 0.873918950557709

01:02:49.156 --> 01:02:51.788 so that the Public Safety Committee can

NOTE Confidence: 0.873918950557709

01:02:51.790 --> 01:02:54.262 continue to focus on what needs to be

NOTE Confidence: 0.873918950557709

01:02:54.262 --> 01:02:56.919 done from the public safety perspective.

NOTE Confidence: 0.873918950557709

01:02:56.920 --> 01:03:00.735 And move all the cover 19 related.

NOTE Confidence: 0.873918950557709

01:03:00.740 --> 01:03:02.570 Discussions and uh and anything

NOTE Confidence: 0.873918950557709

01:03:02.570 --> 01:03:04.810 related to that to the code.

NOTE Confidence: 0.873918950557709

01:03:04.810 --> 01:03:07.230 19 passport. Apart from that,

NOTE Confidence: 0.873918950557709

01:03:07.230 --> 01:03:09.624 it's also very important for the board,

NOTE Confidence: 0.873918950557709

01:03:09.630 --> 01:03:12.198 and there is some leadership to be aware

NOTE Confidence: 0.873918950557709

01:03:12.198 --> 01:03:14.778 of what's happening on a regular basis,

NOTE Confidence: 0.873918950557709

01:03:14.780 --> 01:03:17.020 so that with these data points we

NOTE Confidence: 0.873918950557709

01:03:17.020 --> 01:03:19.380 might be able to better strategize in

NOTE Confidence: 0.873918950557709

01:03:19.380 --> 01:03:22.541 terms of what needs to be done of help

NOTE Confidence: 0.873918950557709

01:03:22.541 --> 01:03:24.719 our field are members of providers,

NOTE Confidence: 0.873918950557709

01:03:24.720 --> 01:03:25.641 and of course,

NOTE Confidence: 0.873918950557709

01:03:25.641 --> 01:03:27.483 our patience as we go through

NOTE Confidence: 0.873918950557709

01:03:27.483 --> 01:03:28.840 these different faces.

NOTE Confidence: 0.873918950557709

01:03:28.840 --> 01:03:32.564 That's coming up in the near future.

NOTE Confidence: 0.873918950557709

01:03:32.570 --> 01:03:35.097 Also wanted just let out of providers.

NOTE Confidence: 0.873918950557709

01:03:35.100 --> 01:03:37.613 Be aware that there are there is

NOTE Confidence: 0.873918950557709

01:03:37.613 --> 01:03:40.005 a help line that's available if

NOTE Confidence: 0.873918950557709

01:03:40.005 --> 01:03:42.861 you were to just call the ASM.

NOTE Confidence: 0.873918950557709

01:03:42.870 --> 01:03:45.439 Phone number there will be a properly

NOTE Confidence: 0.873918950557709

01:03:45.439 --> 01:03:47.996 triage right away to the right person

NOTE Confidence: 0.873918950557709

01:03:47.996 --> 01:03:50.486 to have a discussions related to cover

NOTE Confidence: 0.873918950557709

01:03:50.486 --> 01:03:53.206 19 or any other questions that you might

NOTE Confidence: 0.873918950557709

01:03:53.206 --> 01:03:55.330 have related to this particular issue.

NOTE Confidence: 0.873918950557709

01:03:55.330 --> 01:03:56.398 Next page please.

NOTE Confidence: 0.878228187561035

01:03:59.030 --> 01:04:01.154 But telemedicine, presidential comedy

NOTE Confidence: 0.878228187561035

01:04:01.154 --> 01:04:04.790 has been initiated as well and for

NOTE Confidence: 0.878228187561035

01:04:04.790 --> 01:04:07.702 the reasons that we all very well now.

NOTE Confidence: 0.878228187561035

01:04:07.710 --> 01:04:10.452 At this point, I think thanks

NOTE Confidence: 0.878228187561035

01:04:10.452 --> 01:04:12.280 to the national emergency,

NOTE Confidence: 0.878228187561035

01:04:12.280 --> 01:04:14.108 and then subsequently the

NOTE Confidence: 0.878228187561035

01:04:14.108 --> 01:04:15.936 Public Health Emergency Act.

NOTE Confidence: 0.878228187561035

01:04:15.940 --> 01:04:18.220 There's been a significant waivers,

NOTE Confidence: 0.878228187561035

01:04:18.220 --> 01:04:20.505 an related to use of

NOTE Confidence: 0.878228187561035

01:04:20.505 --> 01:04:22.333 telemedicine through see MSN,

NOTE Confidence: 0.878228187561035

01:04:22.340 --> 01:04:25.548 other players and and to make sure that

NOTE Confidence: 0.878228187561035

01:04:25.548 --> 01:04:29.240 we are providing the resources and and.

NOTE Confidence: 0.878228187561035

01:04:29.240 --> 01:04:31.358 And information to our members and

NOTE Confidence: 0.878228187561035

01:04:31.358 --> 01:04:33.902 to providers we created created the

NOTE Confidence: 0.878228187561035

01:04:33.902 --> 01:04:35.507 celebration presidential comedy.

NOTE Confidence: 0.878228187561035

01:04:35.510 --> 01:04:38.597 It's a way to make sure that we are

NOTE Confidence: 0.878228187561035

01:04:38.597 --> 01:04:41.132 putting the necessary resources together

NOTE Confidence: 0.878228187561035

01:04:41.132 --> 01:04:44.743 that could then be made available and

NOTE Confidence: 0.878228187561035

01:04:44.743 --> 01:04:47.679 also as a way to answer any inquiries

NOTE Confidence: 0.878228187561035

01:04:47.679 --> 01:04:50.105 from providers in members who might

NOTE Confidence: 0.878228187561035

01:04:50.105 --> 01:04:52.650 be interested in knowing more about,

NOTE Confidence: 0.878228187561035

01:04:52.650 --> 01:04:55.188 uh, how best to use telemedicine?

NOTE Confidence: 0.878228187561035

01:04:55.190 --> 01:04:57.110 And questions for later that.

NOTE Confidence: 0.878228187561035

01:04:57.110 --> 01:04:59.680 It's also important to know.

NOTE Confidence: 0.878228187561035

01:04:59.680 --> 01:05:02.158 That the Public Health Emergency Act.

NOTE Confidence: 0.878228187561035

01:05:02.160 --> 01:05:06.300 I think at this point is till end of June.

NOTE Confidence: 0.878228187561035

01:05:06.300 --> 01:05:09.620 It's probably going to be renewed after that.

NOTE Confidence: 0.878228187561035

01:05:09.620 --> 01:05:11.690 And if when that happens,

NOTE Confidence: 0.878228187561035

01:05:11.690 --> 01:05:13.940 hopefully whatever the way was

NOTE Confidence: 0.878228187561035

01:05:13.940 --> 01:05:16.790 that are in place will stick.

NOTE Confidence: 0.878228187561035

01:05:16.790 --> 01:05:18.813 A whole aware what's going to happen

NOTE Confidence: 0.878228187561035

01:05:18.813 --> 01:05:20.788 after that is a bigger question,

NOTE Confidence: 0.878228187561035

01:05:20.790 --> 01:05:23.400 and of course we need to be on the

NOTE Confidence: 0.878228187561035

01:05:23.400 --> 01:05:25.578 forefront to make sure that we are

NOTE Confidence: 0.878228187561035

01:05:25.578 --> 01:05:27.494 advocating or some of these waivers

NOTE Confidence: 0.878228187561035

01:05:27.494 --> 01:05:30.022 to stick in place to help the help

NOTE Confidence: 0.878228187561035

01:05:30.030 --> 01:05:32.318 out providers to be able to do what's

NOTE Confidence: 0.878228187561035

01:05:32.318 --> 01:05:34.347 needed to take care for patients.

NOTE Confidence: 0.878228187561035

01:05:34.350 --> 01:05:38.080 And I'll come back to that here in a second.

NOTE Confidence: 0.878228187561035

01:05:38.080 --> 01:05:40.257 Sleep TM through the ASM just so

NOTE Confidence: 0.878228187561035

01:05:40.257 --> 01:05:42.652 that everyone is aware there's a pre

NOTE Confidence: 0.878228187561035

01:05:42.652 --> 01:05:44.746 access and there's nothing offer in

NOTE Confidence: 0.878228187561035

01:05:44.813 --> 01:05:47.095 still in existence till end of July.

NOTE Confidence: 0.878228187561035

01:05:47.100 --> 01:05:50.250 And when you do sign up you have free

NOTE Confidence: 0.878228187561035

01:05:50.250 --> 01:05:53.076 access for a three month time period.

NOTE Confidence: 0.878228187561035

01:05:53.080 --> 01:05:53.498 Also,

NOTE Confidence: 0.878228187561035

01:05:53.498 --> 01:05:55.588 there's been other thoughts on

NOTE Confidence: 0.878228187561035

01:05:55.588 --> 01:05:58.397 telling Medison in the last few years

NOTE Confidence: 0.878228187561035

01:05:58.397 --> 01:06:00.521 and we have bundle that together

NOTE Confidence: 0.878228187561035

01:06:00.521 --> 01:06:03.219 to make it free to all our members.

NOTE Confidence: 0.878228187561035

01:06:03.220 --> 01:06:04.620 Next slide,

NOTE Confidence: 0.878228187561035

01:06:04.620 --> 01:06:05.320 please.

NOTE Confidence: 0.878228187561035

01:06:05.320 --> 01:06:07.918 And this is where the advocacy

NOTE Confidence: 0.878228187561035

01:06:07.918 --> 01:06:09.650 committee comes into play.

NOTE Confidence: 0.878228187561035

01:06:09.650 --> 01:06:12.162 And this is a new committee that we

NOTE Confidence: 0.878228187561035

01:06:12.162 --> 01:06:14.584 at the Asian recently commissioned

NOTE Confidence: 0.878228187561035

01:06:14.584 --> 01:06:17.439 because it's very important that,

NOTE Confidence: 0.878228187561035

01:06:17.440 --> 01:06:19.400 particularly with the with the

NOTE Confidence: 0.878228187561035

01:06:19.400 --> 01:06:21.936 issues that we just touched upon

NOTE Confidence: 0.878228187561035

01:06:21.936 --> 01:06:23.940 from a telemedicine perspective,

NOTE Confidence: 0.878228187561035

01:06:23.940 --> 01:06:27.076 as we as the public agency act.

NOTE Confidence: 0.878228187561035

01:06:27.080 --> 01:06:28.730 Tends to potentially go away

NOTE Confidence: 0.878228187561035

01:06:28.730 --> 01:06:30.050 in the near future.

NOTE Confidence: 0.878228187561035

01:06:30.050 --> 01:06:32.416 We want to make sure that whatever

NOTE Confidence: 0.878228187561035

01:06:32.416 --> 01:06:34.338 waivers have been put in place,

NOTE Confidence: 0.878228187561035

01:06:34.340 --> 01:06:36.564 it sticks and and so we want to

NOTE Confidence: 0.878228187561035

01:06:36.564 --> 01:06:38.778 make sure that we are taking are

NOTE Confidence: 0.878228187561035

01:06:38.778 --> 01:06:40.822 wanting to make sure our voices

NOTE Confidence: 0.878228187561035

01:06:40.822 --> 01:06:43.096 heard at legislator levels to make

NOTE Confidence: 0.878228187561035

01:06:43.096 --> 01:06:45.422 sure that some of these important

NOTE Confidence: 0.878228187561035

01:06:45.422 --> 01:06:47.786 waivers that have come through are

NOTE Confidence: 0.878228187561035

01:06:47.786 --> 01:06:50.450 going to be in place to help our

NOTE Confidence: 0.878228187561035

01:06:50.450 --> 01:06:52.463 providers in members to do what's

NOTE Confidence: 0.878228187561035

01:06:52.463 --> 01:06:54.467 needed to take care of patients.

NOTE Confidence: 0.878228187561035

01:06:54.470 --> 01:06:55.990 Emily is this ongoing

NOTE Confidence: 0.878228187561035

01:06:55.990 --> 01:06:57.130 patient advocacy efforts,

NOTE Confidence: 0.878228187561035

01:06:57.130 --> 01:06:59.674 and this is actually a part of our

NOTE Confidence: 0.878228187561035

01:06:59.674 --> 01:07:02.787 a new strategy plan and we want to

NOTE Confidence: 0.878228187561035

01:07:02.787 --> 01:07:05.682 make sure we continue to hear the

NOTE Confidence: 0.878228187561035

01:07:05.682 --> 01:07:08.118 patient voices and there's more to

NOTE Confidence: 0.878228187561035

01:07:08.118 --> 01:07:10.924 come related to this in terms of some

NOTE Confidence: 0.878228187561035

01:07:10.924 --> 01:07:13.317 of this study strategy priorities of

NOTE Confidence: 0.878228187561035

01:07:13.317 --> 01:07:16.334 from ASM in terms of advocating for

NOTE Confidence: 0.871754348278046

01:07:16.411 --> 01:07:18.784 patients to and as part of that,

NOTE Confidence: 0.871754348278046

01:07:18.790 --> 01:07:20.788 they SM is also planning to

NOTE Confidence: 0.871754348278046

01:07:20.788 --> 01:07:23.094 hire A public health manager to

NOTE Confidence: 0.871754348278046

01:07:23.094 --> 01:07:24.898 highlight the importance of.

NOTE Confidence: 0.871754348278046

01:07:24.900 --> 01:07:27.224 Sleep issues and sleep health and what?

NOTE Confidence: 0.871754348278046

01:07:27.230 --> 01:07:29.894 And also from an advocacy point of view,

NOTE Confidence: 0.871754348278046

01:07:29.900 --> 01:07:33.230 in terms of what they could be doing to help.

NOTE Confidence: 0.871754348278046

01:07:33.230 --> 01:07:34.740 Help themselves as well as

NOTE Confidence: 0.871754348278046

01:07:34.740 --> 01:07:35.948 the field sleep Madison.

NOTE Confidence: 0.871754348278046

01:07:35.950 --> 01:07:38.799 I threw some of these ongoing changes.

NOTE Confidence: 0.871754348278046

01:07:38.800 --> 01:07:39.679 Next line please.

NOTE Confidence: 0.906396090984344

01:07:42.620 --> 01:07:44.308 Return to Accra, Dacian.

NOTE Confidence: 0.906396090984344

01:07:44.308 --> 01:07:46.840 There's been a lot of changes.

NOTE Confidence: 0.906396090984344

01:07:46.840 --> 01:07:49.234 Uh, that's either being made or

NOTE Confidence: 0.906396090984344

01:07:49.234 --> 01:07:51.899 will be made here pretty soon.

NOTE Confidence: 0.906396090984344

01:07:51.900 --> 01:07:54.305 I would really encourage anyone

NOTE Confidence: 0.906396090984344

01:07:54.305 --> 01:07:56.710 who's interested in seeing what's

NOTE Confidence: 0.906396090984344

01:07:56.786 --> 01:07:58.562 happening out here to go to

NOTE Confidence: 0.906396090984344

01:07:58.562 --> 01:08:00.318 the to the S m.org/application

NOTE Confidence: 0.906396090984344

01:08:00.318 --> 01:08:03.300 to see some of these changes.

NOTE Confidence: 0.906396090984344

01:08:03.300 --> 01:08:04.134 And similarly,

NOTE Confidence: 0.906396090984344

01:08:04.134 --> 01:08:06.636 if you have any questions related

NOTE Confidence: 0.906396090984344

01:08:06.636 --> 01:08:08.940 to whether contacting the email

NOTE Confidence: 0.906396090984344

01:08:08.940 --> 01:08:11.270 address out share that's mentioned

NOTE Confidence: 0.906396090984344

01:08:11.270 --> 01:08:13.410 would also be very helpful.

NOTE Confidence: 0.906396090984344

01:08:13.410 --> 01:08:15.546 But there's been a bundle of

NOTE Confidence: 0.906396090984344

01:08:15.546 --> 01:08:17.580 standards that have been relaxed.

NOTE Confidence: 0.906396090984344

01:08:17.580 --> 01:08:21.815 A time extensions related to

NOTE Confidence: 0.906396090984344

01:08:21.815 --> 01:08:25.203 submission of materials for.

NOTE Confidence: 0.906396090984344

01:08:25.210 --> 01:08:26.750 I've also been extended.

NOTE Confidence: 0.906396090984344

01:08:26.750 --> 01:08:29.892 And I again for a certain lab that

NOTE Confidence: 0.906396090984344

01:08:29.892 --> 01:08:32.524 I mean that might have been closed.

NOTE Confidence: 0.906396090984344

01:08:32.530 --> 01:08:33.922 Basin is completely understandable.

NOTE Confidence: 0.906396090984344

01:08:33.922 --> 01:08:36.200 Understanding in terms of what's going on,

NOTE Confidence: 0.906396090984344

01:08:36.200 --> 01:08:38.398 and so we want to make sure

NOTE Confidence: 0.906396090984344

01:08:38.398 --> 01:08:40.880 that we are there to help you.

NOTE Confidence: 0.906396090984344

01:08:40.880 --> 01:08:43.168 We want to make sure at the same

NOTE Confidence: 0.906396090984344

01:08:43.168 --> 01:08:45.681 time that right here and safe care

NOTE Confidence: 0.906396090984344

01:08:45.681 --> 01:08:47.551 is being provided to patients.

NOTE Confidence: 0.906396090984344

01:08:47.560 --> 01:08:49.558 If your lab is getting reopened,

NOTE Confidence: 0.906396090984344

01:08:49.560 --> 01:08:51.564 and when it comes to standards

NOTE Confidence: 0.906396090984344

01:08:51.564 --> 01:08:52.900 from an aggregation point,

NOTE Confidence: 0.906396090984344

01:08:52.900 --> 01:08:55.550 if we want to make sure that you are at

NOTE Confidence: 0.906396090984344

01:08:55.619 --> 01:08:58.608 least making the right intention efforts to.

NOTE Confidence: 0.906396090984344

01:08:58.610 --> 01:08:59.399 Address these standards,

NOTE Confidence: 0.906396090984344

01:08:59.399 --> 01:09:01.839 at least the ones that are in place compared

NOTE Confidence: 0.906396090984344

01:09:01.839 --> 01:09:03.736 to the ones that have been relaxed.

NOTE Confidence: 0.906396090984344

01:09:03.740 --> 01:09:06.645 And so I'm happy to touch upon

NOTE Confidence: 0.906396090984344

01:09:06.645 --> 01:09:08.609 any questions related to that.

NOTE Confidence: 0.906396090984344

01:09:08.610 --> 01:09:11.046 Or if you have any questions,

NOTE Confidence: 0.906396090984344

01:09:11.050 --> 01:09:13.654 don't hesitate to reach out to

NOTE Confidence: 0.906396090984344

01:09:13.654 --> 01:09:16.600 to a semantic is aggregation.

NOTE Confidence: 0.906396090984344

01:09:16.600 --> 01:09:18.000 Next slide,

NOTE Confidence: 0.906396090984344

01:09:18.000 --> 01:09:18.700 please.

NOTE Confidence: 0.906396090984344

01:09:18.700 --> 01:09:20.848 A few other resources and opportunities

NOTE Confidence: 0.906396090984344

01:09:20.848 --> 01:09:23.393 that I've listed out here and as

NOTE Confidence: 0.906396090984344

01:09:23.393 --> 01:09:25.143 mentioned by the previous speakers.

NOTE Confidence: 0.906396090984344

01:09:25.150 --> 01:09:26.942 The studies are coming,

NOTE Confidence: 0.906396090984344

01:09:26.942 --> 01:09:29.182 they're being published and JCSM.

NOTE Confidence: 0.906396090984344

01:09:29.190 --> 01:09:31.888 The Journal of Clinical sleep, Madison.

NOTE Confidence: 0.906396090984344

01:09:31.888 --> 01:09:33.680 Thanks to doctor Nancy.

NOTE Confidence: 0.906396090984344

01:09:33.680 --> 01:09:35.930 Call approves editor in chief,

NOTE Confidence: 0.906396090984344

01:09:35.930 --> 01:09:39.098 has created a section for COVID-19

NOTE Confidence: 0.906396090984344

01:09:39.098 --> 01:09:42.111 and so that's definitely a place

NOTE Confidence: 0.906396090984344

01:09:42.111 --> 01:09:44.529 that you could visit to see.

NOTE Confidence: 0.906396090984344

01:09:44.530 --> 01:09:44.994 What information,

NOTE Confidence: 0.906396090984344

01:09:44.994 --> 01:09:46.386 at least from a study perspective,

NOTE Confidence: 0.906396090984344

01:09:46.390 --> 01:09:48.007 what's coming out and see if that

NOTE Confidence: 0.906396090984344

01:09:48.007 --> 01:09:49.821 might be of some help or guidance

NOTE Confidence: 0.906396090984344

01:09:49.821 --> 01:09:51.731 as you're trying to figure out the

NOTE Confidence: 0.906396090984344

01:09:51.731 --> 01:09:53.523 next steps in your own practice too.

NOTE Confidence: 0.906396090984344

01:09:53.530 --> 01:09:53.943 Similarly,

NOTE Confidence: 0.906396090984344

01:09:53.943 --> 01:09:56.421 there's ongoing ace on webinars similar

NOTE Confidence: 0.906396090984344

01:09:56.421 --> 01:09:59.419 to the one that we are in right now,

NOTE Confidence: 0.906396090984344

01:09:59.420 --> 01:10:01.868 and I would encourage you to look at

NOTE Confidence: 0.906396090984344

01:10:01.868 --> 01:10:04.578 that as well for further information.

NOTE Confidence: 0.906396090984344

01:10:04.580 --> 01:10:05.708 Could be forthcoming,

NOTE Confidence: 0.906396090984344

01:10:05.708 --> 01:10:08.340 has a has been cutting it all

NOTE Confidence: 0.906396090984344

01:10:08.415 --> 01:10:09.888 learn together here.

NOTE Confidence: 0.906396090984344

01:10:09.890 --> 01:10:11.282 Uh, is some sleep.

NOTE Confidence: 0.906396090984344

01:10:11.282 --> 01:10:13.022 I saw the underscore reliability,

NOTE Confidence: 0.906396090984344

01:10:13.030 --> 01:10:14.780 at least for our members.

NOTE Confidence: 0.906396090984344

01:10:14.780 --> 01:10:16.520 It's currently a free for

NOTE Confidence: 0.906396090984344

01:10:16.520 --> 01:10:17.912 a three month period,

NOTE Confidence: 0.906396090984344

01:10:17.920 --> 01:10:20.272 so if there's a little bit of downtime

NOTE Confidence: 0.906396090984344

01:10:20.272 --> 01:10:22.787 and you're looking to see or looking

NOTE Confidence: 0.906396090984344

01:10:22.787 --> 01:10:24.647 for opportunities from a development

NOTE Confidence: 0.906396090984344

01:10:24.716 --> 01:10:26.636 cycle development point of view,

NOTE Confidence: 0.906396090984344

01:10:26.640 --> 01:10:29.196 this might be something that one

NOTE Confidence: 0.906396090984344

01:10:29.196 --> 01:10:31.739 could take advantage of this page.

NOTE Confidence: 0.906396090984344

01:10:31.740 --> 01:10:33.670 There's more to come related

NOTE Confidence: 0.906396090984344

01:10:33.670 --> 01:10:35.600 to the state sleep societies,

NOTE Confidence: 0.906396090984344

01:10:35.600 --> 01:10:37.605 because of course with with

NOTE Confidence: 0.906396090984344

01:10:37.605 --> 01:10:39.209 our current situation and

NOTE Confidence: 0.906396090984344

01:10:39.209 --> 01:10:40.997 everything else that's going on,

NOTE Confidence: 0.906396090984344

01:10:41.000 --> 01:10:42.600 it's they are in.

NOTE Confidence: 0.906396090984344

01:10:42.600 --> 01:10:44.200 From a financial perspective,

NOTE Confidence: 0.906396090984344

01:10:44.200 --> 01:10:46.636 an from other issues may be

NOTE Confidence: 0.906396090984344

01:10:46.636 --> 01:10:47.854 needing some help.

NOTE Confidence: 0.906396090984344

01:10:47.860 --> 01:10:50.870 And at ASM level we are looking

NOTE Confidence: 0.906396090984344

01:10:50.870 --> 01:10:54.367 to see what is it that we can do,

NOTE Confidence: 0.906396090984344

01:10:54.370 --> 01:10:56.722 and so the board is definitely

NOTE Confidence: 0.906396090984344

01:10:56.722 --> 01:10:58.290 approved of moving forward

NOTE Confidence: 0.899575710296631

01:10:58.358 --> 01:11:00.956 with some resources from a funding

NOTE Confidence: 0.899575710296631

01:11:00.956 --> 01:11:03.125 perspective and there's more to

NOTE Confidence: 0.899575710296631

01:11:03.125 --> 01:11:04.955 come related related to that,

NOTE Confidence: 0.899575710296631

01:11:04.960 --> 01:11:07.944 but at the same time we also want

NOTE Confidence: 0.899575710296631

01:11:07.944 --> 01:11:10.661 to hear from the slaves, states,

NOTE Confidence: 0.899575710296631

01:11:10.661 --> 01:11:12.716 sleep society, presidents and chairs.

NOTE Confidence: 0.899575710296631

01:11:12.720 --> 01:11:14.504 In terms of what is it that we

NOTE Confidence: 0.899575710296631

01:11:14.504 --> 01:11:17.080 can do to help you out as well

NOTE Confidence: 0.899575710296631

01:11:17.080 --> 01:11:18.456 during this particular situation?

NOTE Confidence: 0.899575710296631

01:11:18.460 --> 01:11:20.350 And finally, I'll just close

NOTE Confidence: 0.899575710296631

01:11:20.350 --> 01:11:22.770 up is talking about a PS is,

NOTE Confidence: 0.899575710296631

01:11:22.770 --> 01:11:25.992 as you all very well now are in person.

NOTE Confidence: 0.899575710296631

01:11:26.000 --> 01:11:28.667 Meeting has been moved to a virtual

NOTE Confidence: 0.899575710296631

01:11:28.667 --> 01:11:30.670 meeting between August 27 and 30th,

NOTE Confidence: 0.899575710296631

01:11:30.670 --> 01:11:32.860 and so if you're doing some

NOTE Confidence: 0.899575710296631

01:11:32.860 --> 01:11:34.620 work related to cover 19,

NOTE Confidence: 0.899575710296631

01:11:34.620 --> 01:11:37.228 we all want to hear it and so

NOTE Confidence: 0.899575710296631

01:11:37.228 --> 01:11:39.639 feel free to put in proposals.

NOTE Confidence: 0.899575710296631

01:11:39.640 --> 01:11:42.862 I think that deadline is coming up here soon,

NOTE Confidence: 0.899575710296631

01:11:42.870 --> 01:11:43.947 sometime in June,

NOTE Confidence: 0.899575710296631

01:11:43.947 --> 01:11:46.460 and so if you do have proposals,

NOTE Confidence: 0.899575710296631

01:11:46.460 --> 01:11:48.416 please do submit them because I

NOTE Confidence: 0.899575710296631

01:11:48.416 --> 01:11:50.789 think we all need alone together.

NOTE Confidence: 0.899575710296631

01:11:50.790 --> 01:11:51.395 OK.

NOTE Confidence: 0.899575710296631

01:11:51.395 --> 01:11:55.025 And I think next slide please.

NOTE Confidence: 0.826411664485931

01:11:56.360 --> 01:11:58.020 Big bad is it

NOTE Confidence: 0.826411664485931

01:11:58.020 --> 01:11:59.268 wonderful. I'll stop

NOTE Confidence: 0.826411664485931

01:11:59.270 --> 01:12:01.345 here and again thank you

NOTE Confidence: 0.826411664485931

01:12:01.345 --> 01:12:02.590 for this opportunity.

NOTE Confidence: 0.892174959182739

01:12:03.700 --> 01:12:05.932 And sorry, I I don't know if people

NOTE Confidence: 0.892174959182739

01:12:05.932 --> 01:12:08.052 can hear the tractor trailer that

NOTE Confidence: 0.892174959182739

01:12:08.052 --> 01:12:10.296 decided to park outside my window.

NOTE Confidence: 0.892174959182739

01:12:10.300 --> 01:12:11.620 So sorry about the

NOTE Confidence: 0.892174959182739

01:12:11.620 --> 01:12:14.260 noise up. I want to thank all the

NOTE Confidence: 0.892174959182739

01:12:14.260 --> 01:12:15.910 speakers. Uh again, we're gonna

NOTE Confidence: 0.892174959182739

01:12:15.910 --> 01:12:18.550 still be on for quite a while trying

NOTE Confidence: 0.892174959182739

01:12:18.550 --> 01:12:20.860 to just have more of a discussion

NOTE Confidence: 0.892174959182739

01:12:20.860 --> 01:12:23.170 so please send in through the Q&A.

NOTE Confidence: 0.892174959182739

01:12:23.170 --> 01:12:25.150 Any comments, experiences you've had and

NOTE Confidence: 0.892174959182739

01:12:25.150 --> 01:12:27.430 will help breed them of- any questions

NOTE Confidence: 0.892174959182739

01:12:27.430 --> 01:12:30.427 you have for any of the panelists is talk.

NOTE Confidence: 0.892174959182739

01:12:30.430 --> 01:12:32.740 We'll eventually get on to the website.

NOTE Confidence: 0.892174959182739

01:12:32.740 --> 01:12:35.580 I will say last time it took a

NOTE Confidence: 0.892174959182739

01:12:35.580 --> 01:12:37.697 little while to get it on so.

NOTE Confidence: 0.892174959182739

01:12:37.700 --> 01:12:39.590 So don't expect it there tomorrow.

NOTE Confidence: 0.892174959182739

01:12:39.590 --> 01:12:42.110 If you want to reach out to me,

NOTE Confidence: 0.892174959182739

01:12:42.110 --> 01:12:44.945 I could potentially get it out to you sooner.

NOTE Confidence: 0.892174959182739

01:12:44.950 --> 01:12:46.994 Um again, if you want to add

NOTE Confidence: 0.892174959182739

01:12:46.994 --> 01:12:48.410 to the research survey,

NOTE Confidence: 0.892174959182739

01:12:48.410 --> 01:12:50.794 I did put the link in the chat

NOTE Confidence: 0.892174959182739

01:12:50.794 --> 01:12:52.963 function and again, here is, uh.

NOTE Confidence: 0.892174959182739

01:12:52.963 --> 01:12:56.248 For May shun if you need that. So, um,

NOTE Confidence: 0.892174959182739

01:12:56.248 --> 01:12:59.280 I don't believe Doctor Thomas ever joined us,

NOTE Confidence: 0.892174959182739

01:12:59.280 --> 01:13:02.320 but the rest of the panelists are here.

NOTE Confidence: 0.892174959182739

01:13:02.320 --> 01:13:04.588 You per for both of them.

NOTE Confidence: 0.892174959182739

01:13:04.590 --> 01:13:06.684 So one main person you haven't

NOTE Confidence: 0.892174959182739

01:13:06.684 --> 01:13:08.760 heard from his doctor Sullivan,

NOTE Confidence: 0.892174959182739

01:13:08.760 --> 01:13:11.040 who adds a sort of pediatric

NOTE Confidence: 0.892174959182739

01:13:11.040 --> 01:13:12.930 sleep background to our mix.

NOTE Confidence: 0.892174959182739

01:13:12.930 --> 01:13:15.576 An is also active on the Public

NOTE Confidence: 0.892174959182739

01:13:15.576 --> 01:13:16.332 Safety Committee.

NOTE Confidence: 0.892174959182739

01:13:16.340 --> 01:13:17.856 It, as you heard,

NOTE Confidence: 0.892174959182739

01:13:17.856 --> 01:13:20.130 the task force that's coming up.

NOTE Confidence: 0.892174959182739

01:13:20.130 --> 01:13:22.080 So I am going to.

NOTE Confidence: 0.892174959182739

01:13:22.080 --> 01:13:24.397 Leave us back on on this slide,

NOTE Confidence: 0.892174959182739

01:13:24.400 --> 01:13:26.720 but I'm going to hand us over to

NOTE Confidence: 0.892174959182739

01:13:26.720 --> 01:13:28.729 Doctor Krieger to help moderate any

NOTE Confidence: 0.892174959182739

01:13:28.729 --> 01:13:30.769 questions and other people want to

NOTE Confidence: 0.892174959182739

01:13:30.834 --> 01:13:33.298 join in with any comments they've seen

NOTE Confidence: 0.892174959182739

01:13:33.298 --> 01:13:35.359 from the questions that are coming.

NOTE Confidence: 0.892015933990479

01:13:35.960 --> 01:13:38.888 OK, so the waivers that came out the

NOTE Confidence: 0.892015933990479

01:13:38.888 --> 01:13:42.437 see Ms waivers I thought were terrific.

NOTE Confidence: 0.892015933990479

01:13:42.440 --> 01:13:45.346 How did they know about what

NOTE Confidence: 0.892015933990479

01:13:45.346 --> 01:13:48.370 they needed to have on waiver?

NOTE Confidence: 0.892015933990479

01:13:48.370 --> 01:13:51.322 Uh, and I'd like to give this to the

NOTE Confidence: 0.892015933990479

01:13:51.322 --> 01:13:53.811 Academy because these are things that

NOTE Confidence: 0.892015933990479

01:13:53.811 --> 01:13:57.020 they must have known about it in advance.

NOTE Confidence: 0.896573603153229

01:13:59.320 --> 01:14:02.224 Yes, I I'm not sure I have a good

NOTE Confidence: 0.896573603153229

01:14:02.224 --> 01:14:04.349 answer for that Doctor Krieger,

NOTE Confidence: 0.896573603153229

01:14:04.350 --> 01:14:06.856 the as we all very well no.

NOTE Confidence: 0.896573603153229

01:14:06.860 --> 01:14:09.731 I think uh, the ASM has been trying to

NOTE Confidence: 0.896573603153229

01:14:09.731 --> 01:14:13.218 push for this for the last few years and

NOTE Confidence: 0.896573603153229

01:14:13.218 --> 01:14:15.480 something needed to tip the balance.

NOTE Confidence: 0.896573603153229

01:14:15.480 --> 01:14:16.554 And unfortunately we

NOTE Confidence: 0.896573603153229

01:14:16.554 --> 01:14:18.344 have had to be recovered.

NOTE Confidence: 0.896573603153229

01:14:18.350 --> 01:14:21.059 19 that tipped in favor in terms

NOTE Confidence: 0.896573603153229

01:14:21.059 --> 01:14:23.350 of relaxing all these things.

NOTE Confidence: 0.896573603153229

01:14:23.350 --> 01:14:25.888 I mean, of course from a

NOTE Confidence: 0.896573603153229

01:14:25.888 --> 01:14:27.157 practical practice perspective.

NOTE Confidence: 0.896573603153229

01:14:27.160 --> 01:14:29.610 It makes complete sense in

NOTE Confidence: 0.896573603153229

01:14:29.610 --> 01:14:32.060 terms of what they did.

NOTE Confidence: 0.896573603153229

01:14:32.060 --> 01:14:35.660 Um, uh, that way I think access becomes easy.

NOTE Confidence: 0.896573603153229

01:14:35.660 --> 01:14:38.078 However, what prompted them in the

NOTE Confidence: 0.896573603153229

01:14:38.078 --> 01:14:40.540 1st place might be more related

NOTE Confidence: 0.896573603153229

01:14:40.540 --> 01:14:42.475 to what's being pushed onto

NOTE Confidence: 0.896573603153229

01:14:42.475 --> 01:14:44.860 them for a period of time.

NOTE Confidence: 0.896573603153229

01:14:44.860 --> 01:14:46.860 For the last few years,

NOTE Confidence: 0.896573603153229

01:14:46.860 --> 01:14:49.450 and I think they probably.

NOTE Confidence: 0.896573603153229

01:14:49.450 --> 01:14:51.174 Had that in place,

NOTE Confidence: 0.896573603153229

01:14:51.174 --> 01:14:52.467 which subsequently helped,

NOTE Confidence: 0.896573603153229

01:14:52.470 --> 01:14:54.630 uh, when the situation came

NOTE Confidence: 0.908773467654274

01:14:54.630 --> 01:14:58.230 before. OK so I have a question that

NOTE Confidence: 0.908773467654274

01:14:58.230 --> 01:15:01.848 came up in the question and answer

NOTE Confidence: 0.908773467654274

01:15:01.848 --> 01:15:05.280 section from a couple of people.

NOTE Confidence: 0.908773467654274

01:15:05.280 --> 01:15:08.822 So right now the IT is recommended

NOTE Confidence: 0.908773467654274

01:15:08.822 --> 01:15:11.510 that there be a 72 hour.

NOTE Confidence: 0.908773467654274

01:15:11.510 --> 01:15:13.810 If I'm machine comes back,

NOTE Confidence: 0.908773467654274

01:15:13.810 --> 01:15:17.268 you know if ends home sleep testing

NOTE Confidence: 0.908773467654274

01:15:17.268 --> 01:15:20.895 device comes back and it's not be used

NOTE Confidence: 0.908773467654274

01:15:20.895 --> 01:15:24.409 for three days for some labs that might

NOTE Confidence: 0.908773467654274

01:15:24.409 --> 01:15:28.009 be a really big sort of financial hit.

NOTE Confidence: 0.908773467654274

01:15:28.009 --> 01:15:30.802 The is is it not recommended that

NOTE Confidence: 0.908773467654274

01:15:30.802 --> 01:15:33.737 one can use something else to

NOTE Confidence: 0.908773467654274

01:15:33.737 --> 01:15:36.809 disinfect the device except for time?

NOTE Confidence: 0.610292077064514

01:15:40.570 --> 01:15:44.820 So in in Barrow. Do you

NOTE Confidence: 0.889668345451355

01:15:44.820 --> 01:15:47.080 think? Well, the recommendation came?

NOTE Confidence: 0.889668345451355

01:15:47.080 --> 01:15:48.548 We had sort of.

NOTE Confidence: 0.889668345451355

01:15:48.548 --> 01:15:50.750 Two different recommendations and the 72

NOTE Confidence: 0.889668345451355

01:15:50.817 --> 01:15:53.708 hours for devices that are being reused

NOTE Confidence: 0.889668345451355

01:15:53.708 --> 01:15:55.930 and recycled throughout the community,

NOTE Confidence: 0.889668345451355

01:15:55.930 --> 01:15:57.869 and the recommendation to wait 72 hours

NOTE Confidence: 0.889668345451355

01:15:57.869 --> 01:16:00.639 was at a time during the height of the

NOTE Confidence: 0.889668345451355

01:16:00.639 --> 01:16:02.419 pandemic when there were substantial

NOTE Confidence: 0.889668345451355

01:16:02.419 --> 01:16:04.759 community transmission and the risk

NOTE Confidence: 0.889668345451355

01:16:04.759 --> 01:16:06.981 of potential transmission through it.

NOTE Confidence: 0.889668345451355

01:16:06.981 --> 01:16:09.027 Because there are areas of the

NOTE Confidence: 0.889668345451355

01:16:09.027 --> 01:16:11.330 device that just cannot be cleaned.

NOTE Confidence: 0.889668345451355

01:16:11.330 --> 01:16:12.654 And there's 72 hours.

NOTE Confidence: 0.889668345451355

01:16:12.654 --> 01:16:14.640 That's a room been following where

NOTE Confidence: 0.889668345451355

01:16:14.701 --> 01:16:16.789 we don't even handle the package

NOTE Confidence: 0.889668345451355

01:16:16.789 --> 01:16:18.580 because of the possibility that

NOTE Confidence: 0.889668345451355

01:16:18.580 --> 01:16:20.566 viable virus can persist on certain

NOTE Confidence: 0.889668345451355

01:16:20.566 --> 01:16:22.475 surfaces for up to 72 hours,

NOTE Confidence: 0.889668345451355

01:16:22.475 --> 01:16:24.000 and so really was following

NOTE Confidence: 0.889668345451355

01:16:24.000 --> 01:16:25.650 one of the principles.

NOTE Confidence: 0.889668345451355

01:16:25.650 --> 01:16:27.355 One of the guiding principles

NOTE Confidence: 0.889668345451355

01:16:27.355 --> 01:16:28.719 we established early on,

NOTE Confidence: 0.889668345451355

01:16:28.720 --> 01:16:31.200 which is first do no harm and air

NOTE Confidence: 0.889668345451355

01:16:31.200 --> 01:16:33.570 on the side of caution, basically.

NOTE Confidence: 0.889668345451355

01:16:33.570 --> 01:16:37.738 Um, so so that was that was the main, uhm.

NOTE Confidence: 0.889668345451355

01:16:37.738 --> 01:16:39.678 The guiding force behind saying

NOTE Confidence: 0.889668345451355

01:16:39.678 --> 01:16:42.506 72 hours so the other option is

NOTE Confidence: 0.889668345451355

01:16:42.506 --> 01:16:44.894 then to use disposable parts or.

NOTE Confidence: 0.889668345451355

01:16:44.900 --> 01:16:47.760 Units that are entirely disposable.

NOTE Confidence: 0.889668345451355

01:16:47.760 --> 01:16:49.998 I mean that would be ideal.

NOTE Confidence: 0.889668345451355

01:16:50.000 --> 01:16:52.010 But it is cost prohibitive

NOTE Confidence: 0.889668345451355

01:16:52.010 --> 01:16:54.422 for most centers to do that.

NOTE Confidence: 0.889668345451355

01:16:54.422 --> 01:16:58.430 Yeah so but I agree with you and I think

NOTE Confidence: 0.889668345451355

01:16:58.430 --> 01:17:01.522 that that's something that we need to

NOTE Confidence: 0.889668345451355

01:17:01.522 --> 01:17:03.787 ask the the device representatives.

NOTE Confidence: 0.889668345451355

01:17:03.790 --> 01:17:05.827 That that sell these devices to us?

NOTE Confidence: 0.889668345451355

01:17:05.830 --> 01:17:09.290 Is there a way to come up with a model?

NOTE Confidence: 0.889668345451355

01:17:09.290 --> 01:17:11.924 Where large numbers of studies can

NOTE Confidence: 0.889668345451355

01:17:11.924 --> 01:17:14.680 be done and become accessible.

NOTE Confidence: 0.889668345451355

01:17:14.680 --> 01:17:18.368 No, at at at a more viable cost.

NOTE Confidence: 0.889668345451355

01:17:18.370 --> 01:17:19.624 Yeah, you know,

NOTE Confidence: 0.889668345451355

01:17:19.624 --> 01:17:22.550 like a like a loan program or

NOTE Confidence: 0.911319077014923

01:17:22.550 --> 01:17:24.366 something. Yeah so indera,

NOTE Confidence: 0.911319077014923

01:17:24.366 --> 01:17:27.090 I have another question kind of

NOTE Confidence: 0.911319077014923

01:17:27.174 --> 01:17:29.533 related to that is from what I

NOTE Confidence: 0.911319077014923

01:17:29.533 --> 01:17:31.797 can tell the reimbursement for

NOTE Confidence: 0.911319077014923

01:17:31.797 --> 01:17:34.145 Tele Health isn't fabulous.

NOTE Confidence: 0.911319077014923

01:17:34.150 --> 01:17:37.307 An and and a lot of places.

NOTE Confidence: 0.911319077014923

01:17:37.310 --> 01:17:40.640 A lot of centers are going to be doing

NOTE Confidence: 0.911319077014923

01:17:40.640 --> 01:17:44.067 a lot of Telehealth going forwards

NOTE Confidence: 0.911319077014923

01:17:44.070 --> 01:17:47.600 an do you do you think that that's

NOTE Confidence: 0.911319077014923

01:17:47.600 --> 01:17:49.750 a sustainable financial model in

NOTE Confidence: 0.911319077014923

01:17:49.750 --> 01:17:52.190 terms of reimbursement right now?

NOTE Confidence: 0.88815838098526

01:17:52.790 --> 01:17:56.840 That's a great question, uhm?

NOTE Confidence: 0.88815838098526

01:17:56.840 --> 01:17:58.348 From from my understanding,

NOTE Confidence: 0.88815838098526

01:17:58.348 --> 01:18:00.610 many pairs followed what Medicare suggested.

NOTE Confidence: 0.88815838098526

01:18:00.610 --> 01:18:03.242 See Ms suggested, which is that there

NOTE Confidence: 0.88815838098526

01:18:03.242 --> 01:18:05.887 be parody with face to face visits,

NOTE Confidence: 0.88815838098526

01:18:05.890 --> 01:18:07.770 at least for right now.

NOTE Confidence: 0.88815838098526

01:18:07.770 --> 01:18:09.278 What they'll do moving

NOTE Confidence: 0.88815838098526

01:18:09.278 --> 01:18:10.786 forward is anyone's guess.

NOTE Confidence: 0.88815838098526

01:18:10.790 --> 01:18:13.037 It would be great if they would

NOTE Confidence: 0.88815838098526

01:18:13.037 --> 01:18:15.444 maintain that so that we can

NOTE Confidence: 0.88815838098526

01:18:15.444 --> 01:18:16.815 continue physical distancing,

NOTE Confidence: 0.88815838098526

01:18:16.820 --> 01:18:19.260 but it's really not known.

NOTE Confidence: 0.88815838098526

01:18:19.260 --> 01:18:21.766 And uh, and there is this difference

NOTE Confidence: 0.88815838098526

01:18:21.766 --> 01:18:24.147 for some pairs between a video

NOTE Confidence: 0.88815838098526

01:18:24.147 --> 01:18:26.207 visit versus a telephone visit,

NOTE Confidence: 0.88815838098526

01:18:26.210 --> 01:18:28.905 and a lot of infrastructure is required,

NOTE Confidence: 0.88815838098526

01:18:28.910 --> 01:18:31.170 and personnel are required to

NOTE Confidence: 0.88815838098526

01:18:31.170 --> 01:18:32.978 prepare patients for video.

NOTE Confidence: 0.88815838098526

01:18:32.980 --> 01:18:34.715 You need the right platform

NOTE Confidence: 0.88815838098526

01:18:34.715 --> 01:18:37.415 and some of the ones that were

NOTE Confidence: 0.88815838098526

01:18:37.415 --> 01:18:39.635 mentioned earlier by our dentist.

NOTE Confidence: 0.88815838098526

01:18:39.640 --> 01:18:42.106 Dental of input Doctor D Gardy.

NOTE Confidence: 0.88815838098526

01:18:42.110 --> 01:18:43.097 Was very helpful,

NOTE Confidence: 0.88815838098526

01:18:43.097 --> 01:18:45.400 so you know using easily accessible apps.

NOTE Confidence: 0.88815838098526

01:18:45.400 --> 01:18:46.524 So doximity is one,

NOTE Confidence: 0.88815838098526

01:18:46.524 --> 01:18:48.210 but different health centers are using

NOTE Confidence: 0.88815838098526

01:18:48.259 --> 01:18:49.763 different different software platforms

NOTE Confidence: 0.88815838098526

01:18:49.763 --> 01:18:51.643 to to accommodate these visits.

NOTE Confidence: 0.88815838098526

01:18:51.650 --> 01:18:53.290 An LG centers have done

NOTE Confidence: 0.88815838098526

01:18:53.290 --> 01:18:54.274 this very successfully,

NOTE Confidence: 0.88815838098526

01:18:54.280 --> 01:18:55.975 but even smaller practices through

NOTE Confidence: 0.88815838098526

01:18:55.975 --> 01:18:58.692 the use of some of the freeware that's

NOTE Confidence: 0.88815838098526

01:18:58.692 --> 01:19:01.190 out there have been able to do it.

NOTE Confidence: 0.88815838098526

01:19:01.190 --> 01:19:03.745 But there's definitely going to be a

NOTE Confidence: 0.88815838098526

01:19:03.745 --> 01:19:06.130 population that's going to be hard to reach,

NOTE Confidence: 0.88815838098526

01:19:06.130 --> 01:19:08.098 and that's one of our concerns.

NOTE Confidence: 0.88815838098526

01:19:08.100 --> 01:19:09.750 How do we reach everybody,

NOTE Confidence: 0.88815838098526

01:19:09.750 --> 01:19:12.438 and how do we not make disparities worse?

NOTE Confidence: 0.88815838098526

01:19:12.440 --> 01:19:13.475 In the pandemic,

NOTE Confidence: 0.88815838098526

01:19:13.475 --> 01:19:15.200 with the solutions that we

NOTE Confidence: 0.88815838098526

01:19:15.200 --> 01:19:16.480 are potentially offering.

NOTE Confidence: 0.88815838098526

01:19:16.480 --> 01:19:19.896 So we need to work together to to

NOTE Confidence: 0.912105619907379

01:19:19.900 --> 01:19:21.181 get through this.

NOTE Confidence: 0.912105619907379

01:19:21.181 --> 01:19:24.680 OK so a couple of people had a

NOTE Confidence: 0.912105619907379

01:19:24.680 --> 01:19:27.182 question that had to do this

NOTE Confidence: 0.912105619907379

01:19:27.182 --> 01:19:29.784 again is gonna be for Indera

NOTE Confidence: 0.912105619907379

01:19:29.784 --> 01:19:32.703 can you define what is meant by

NOTE Confidence: 0.912105619907379

01:19:32.710 --> 01:19:34.434 substantial versus minimal versus

NOTE Confidence: 0.912105619907379

01:19:34.434 --> 01:19:36.589 moderate versus non versus minimal?

NOTE Confidence: 0.912105619907379

01:19:36.590 --> 01:19:40.307 A couple of people ask that question.

NOTE Confidence: 0.918249845504761

01:19:40.810 --> 01:19:43.624 Yeah, that's a That's a really important

NOTE Confidence: 0.918249845504761

01:19:43.624 --> 01:19:46.448 question, and it's really based on um,

NOTE Confidence: 0.918249845504761

01:19:46.450 --> 01:19:49.273 what the, uh? the CDC says, right?

NOTE Confidence: 0.918249845504761

01:19:49.273 --> 01:19:51.288 So there's widespread community transmission.

NOTE Confidence: 0.918249845504761

01:19:51.290 --> 01:19:54.104 There are many cases of Comunal Transmission,

NOTE Confidence: 0.918249845504761

01:19:54.110 --> 01:19:56.120 and staffing is significantly impacted,

NOTE Confidence: 0.918249845504761

01:19:56.120 --> 01:19:58.364 and that's the that's what we

NOTE Confidence: 0.918249845504761

01:19:58.364 --> 01:20:00.807 use for substantial and none or

NOTE Confidence: 0.918249845504761

01:20:00.807 --> 01:20:02.977 minimal is almost self explanatory.

NOTE Confidence: 0.918249845504761

01:20:02.980 --> 01:20:06.156 And then we have what's in between and

NOTE Confidence: 0.918249845504761

01:20:06.156 --> 01:20:09.018 many places now along the East Coast,

NOTE Confidence: 0.918249845504761

01:20:09.020 --> 01:20:12.476 or sort of in that in between area.

NOTE Confidence: 0.918249845504761

01:20:12.480 --> 01:20:14.524 Where the risk is more than minimal,

NOTE Confidence: 0.918249845504761

01:20:14.530 --> 01:20:16.082 but not quite substantial.

NOTE Confidence: 0.918249845504761

01:20:16.082 --> 01:20:18.660 A man and again, this is dynamic.

NOTE Confidence: 0.918249845504761

01:20:18.660 --> 01:20:21.440 There's no specific number an as I said,

NOTE Confidence: 0.918249845504761

01:20:21.440 --> 01:20:21.803 regionally,

NOTE Confidence: 0.918249845504761

01:20:21.803 --> 01:20:24.344 lokoli things can vary within the same

NOTE Confidence: 0.918249845504761

01:20:24.344 --> 01:20:27.297 zip code as to how many cases you're seeing.

NOTE Confidence: 0.918249845504761

01:20:27.300 --> 01:20:29.202 So, uhm, you know it behooves

NOTE Confidence: 0.918249845504761

01:20:29.202 --> 01:20:31.655 us to be connected to what local

NOTE Confidence: 0.918249845504761

01:20:31.655 --> 01:20:33.135 health departments are saying

NOTE Confidence: 0.918249845504761

01:20:33.135 --> 01:20:35.558 and what our state guidance and

NOTE Confidence: 0.918249845504761

01:20:35.558 --> 01:20:37.623 water health systems are doing.

NOTE Confidence: 0.918249845504761

01:20:37.630 --> 01:20:38.384 To determine,

NOTE Confidence: 0.918249845504761

01:20:38.384 --> 01:20:40.646 like how quickly do we open

NOTE Confidence: 0.918249845504761

01:20:40.646 --> 01:20:42.657 up and and when do we?

NOTE Confidence: 0.918249845504761

01:20:42.660 --> 01:20:43.370 When do

NOTE Confidence: 0.884583532810211

01:20:43.370 --> 01:20:45.530 we scale back? Yeah, so again,

NOTE Confidence: 0.884583532810211

01:20:45.530 --> 01:20:49.120 it turns out and arrow that this is for you.

NOTE Confidence: 0.884583532810211

01:20:49.120 --> 01:20:51.268 Uh, several people asked the question

NOTE Confidence: 0.884583532810211

01:20:51.268 --> 01:20:52.946 about negative pressure rooms.

NOTE Confidence: 0.884583532810211

01:20:52.946 --> 01:20:55.408 What are your thoughts about it

NOTE Confidence: 0.884583532810211

01:20:55.408 --> 01:20:58.069 and what if some or you know what?

NOTE Confidence: 0.884583532810211

01:20:58.070 --> 01:21:00.026 If a clinic can't do it?

NOTE Confidence: 0.934087574481964

01:21:01.050 --> 01:21:03.605 Yeah, I think that's a great question.

NOTE Confidence: 0.934087574481964

01:21:03.610 --> 01:21:05.955 I think the first and foremost thing

NOTE Confidence: 0.934087574481964

01:21:05.955 --> 01:21:08.734 to remember is that this is still a

NOTE Confidence: 0.934087574481964

01:21:08.734 --> 01:21:10.921 droplet spread that the primary mode

NOTE Confidence: 0.934087574481964

01:21:10.921 --> 01:21:12.956 of transmission is still contacting

NOTE Confidence: 0.934087574481964

01:21:12.956 --> 01:21:15.688 droplet spread and so using the basic

NOTE Confidence: 0.934087574481964

01:21:15.688 --> 01:21:17.884 hand washing don't touch your face.

NOTE Confidence: 0.934087574481964

01:21:17.890 --> 01:21:19.875 Maintain physical distancing is really

NOTE Confidence: 0.934087574481964

01:21:19.875 --> 01:21:21.860 important and minimizing contact face

NOTE Confidence: 0.934087574481964

01:21:21.912 --> 01:21:23.736 to face contact time with patients.

NOTE Confidence: 0.934087574481964

01:21:23.740 --> 01:21:26.164 So all of those other things we talked

NOTE Confidence: 0.934087574481964

01:21:26.164 --> 01:21:29.419 about are still going to be primary and

NOTE Confidence: 0.934087574481964

01:21:29.419 --> 01:21:31.139 foundational in reducing transmission.

NOTE Confidence: 0.934087574481964

01:21:31.140 --> 01:21:33.520 So this the the question of negative

NOTE Confidence: 0.934087574481964

01:21:33.520 --> 01:21:35.511 pressure rooms really becomes an issue

NOTE Confidence: 0.934087574481964

01:21:35.511 --> 01:21:37.335 when you look at the possibility

NOTE Confidence: 0.934087574481964

01:21:37.335 --> 01:21:38.820 of error civilization.

NOTE Confidence: 0.934087574481964

01:21:38.820 --> 01:21:41.690 And uh, and there's so many different

NOTE Confidence: 0.934087574481964

01:21:41.690 --> 01:21:44.292 factors involved when it comes to

NOTE Confidence: 0.934087574481964

01:21:44.292 --> 01:21:46.447 efficient Aircel ization enough to

NOTE Confidence: 0.934087574481964

01:21:46.447 --> 01:21:48.640 cause infection in another person.

NOTE Confidence: 0.934087574481964

01:21:48.640 --> 01:21:51.629 And so air exchange rates are important.

NOTE Confidence: 0.934087574481964

01:21:51.630 --> 01:21:54.186 Is there sunlight in the room?

NOTE Confidence: 0.934087574481964

01:21:54.190 --> 01:21:56.330 Is there adequate UV light?

NOTE Confidence: 0.934087574481964

01:21:56.330 --> 01:21:58.322 Is there a ventilation?

NOTE Confidence: 0.934087574481964

01:21:58.322 --> 01:22:00.812 And definitely is there affective

NOTE Confidence: 0.934087574481964

01:22:00.812 --> 01:22:02.782 negative pressure so we don't

NOTE Confidence: 0.934087574481964

01:22:02.782 --> 01:22:04.864 have data on any of this.

NOTE Confidence: 0.934087574481964

01:22:04.870 --> 01:22:07.020 And unfortunately lot of labs

NOTE Confidence: 0.934087574481964

01:22:07.020 --> 01:22:09.170 don't have windows there closed.

NOTE Confidence: 0.934087574481964

01:22:09.170 --> 01:22:11.138 There's not a lot of ventilation,

NOTE Confidence: 0.934087574481964

01:22:11.140 --> 01:22:13.457 and some of the freestanding centers don't

NOTE Confidence: 0.934087574481964

01:22:13.457 --> 01:22:16.385 have the air exchange rates of six per hour.

NOTE Confidence: 0.934087574481964

01:22:16.390 --> 01:22:18.030 That hospital grade rooms have,

NOTE Confidence: 0.934087574481964

01:22:18.030 --> 01:22:20.646 so that just poses a lot of challenges,

NOTE Confidence: 0.934087574481964

01:22:20.650 --> 01:22:21.738 and I acknowledge that.

NOTE Confidence: 0.934087574481964

01:22:21.738 --> 01:22:23.782 So we advise that if you're going

NOTE Confidence: 0.934087574481964

01:22:23.782 --> 01:22:25.567 to do something potentially Aircel

NOTE Confidence: 0.934087574481964

01:22:25.567 --> 01:22:27.405 Ising like positive airway pressure

NOTE Confidence: 0.934087574481964

01:22:27.405 --> 01:22:29.505 administration in a lab setting that,

NOTE Confidence: 0.934087574481964

01:22:29.510 --> 01:22:30.818 then you consider using

NOTE Confidence: 0.934087574481964

01:22:30.818 --> 01:22:31.799 negative pressure rooms.

NOTE Confidence: 0.934087574481964

01:22:31.800 --> 01:22:32.130 OK,

NOTE Confidence: 0.934087574481964

01:22:32.130 --> 01:22:32.460 so

NOTE Confidence: 0.908294379711151

01:22:32.460 --> 01:22:34.734 I'm gonna ask you one final

NOTE Confidence: 0.908294379711151

01:22:34.734 --> 01:22:36.250 question that somebody asked.

NOTE Confidence: 0.908294379711151

01:22:36.250 --> 01:22:40.610 Uh room cleaning between patients.

NOTE Confidence: 0.908294379711151

01:22:40.610 --> 01:22:43.110 It's recommend for

NOTE Confidence: 0.87643226981163

01:22:43.110 --> 01:22:46.374 that. Come and look at the CDC guidelines.

NOTE Confidence: 0.87643226981163

01:22:46.380 --> 01:22:49.156 We lick linked those in our document online.

NOTE Confidence: 0.87643226981163

01:22:49.160 --> 01:22:51.616 So is it an and they they're very

NOTE Confidence: 0.87643226981163

01:22:51.616 --> 01:22:53.699 specific about how to clean everything

NOTE Confidence: 0.87643226981163

01:22:53.699 --> 01:22:55.805 all the surfaces but high touch

NOTE Confidence: 0.87643226981163

01:22:55.877 --> 01:22:57.857 surfaces definitely need to be.

NOTE Confidence: 0.87643226981163

01:22:57.860 --> 01:22:59.228 You know there's cleaning.

NOTE Confidence: 0.87643226981163

01:22:59.228 --> 01:23:01.280 And then there's this infection and

NOTE Confidence: 0.87643226981163

01:23:01.337 --> 01:23:02.907 the protocols are very specific

NOTE Confidence: 0.87643226981163

01:23:02.907 --> 01:23:04.932 about dwell time and what percentage

NOTE Confidence: 0.87643226981163

01:23:04.932 --> 01:23:06.907 bleaches affective and so forth.

NOTE Confidence: 0.87643226981163

01:23:06.910 --> 01:23:08.655 And it's unfortunate that at

NOTE Confidence: 0.87643226981163

01:23:08.655 --> 01:23:10.400 times during the pandemic that

NOTE Confidence: 0.87643226981163

01:23:10.462 --> 01:23:12.117 were actually shortages of these

NOTE Confidence: 0.87643226981163

01:23:12.117 --> 01:23:14.250 of these agents that we needed.

NOTE Confidence: 0.87643226981163

01:23:14.250 --> 01:23:16.775 So maintaining an adequate supply

NOTE Confidence: 0.87643226981163

01:23:16.775 --> 01:23:20.448 is going to be really important at

NOTE Confidence: 0.87643226981163

01:23:20.448 --> 01:23:23.592 supply of pbe of cleaning materials

NOTE Confidence: 0.87643226981163

01:23:23.592 --> 01:23:25.928 and also of masks and.

NOTE Confidence: 0.87643226981163

01:23:25.930 --> 01:23:27.826 Gowns and gloves and so forth.

NOTE Confidence: 0.87643226981163

01:23:27.830 --> 01:23:30.053 It is going to be going to go and

NOTE Confidence: 0.87643226981163

01:23:30.053 --> 01:23:31.906 testing supplies is going to go

NOTE Confidence: 0.87643226981163

01:23:31.906 --> 01:23:33.886 hand in hand with reopening an

NOTE Confidence: 0.87643226981163

01:23:33.886 --> 01:23:36.166 offering services in which volume of

NOTE Confidence: 0.87643226981163

01:23:36.166 --> 01:23:37.940 services is appropriate to offer.

NOTE Confidence: 0.91276353597641

01:23:38.500 --> 01:23:41.433 OK, so another question which is gonna

NOTE Confidence: 0.91276353597641

01:23:41.433 --> 01:23:45.560 be going to Doctor Amar. So tell me so.

NOTE Confidence: 0.91276353597641

01:23:45.560 --> 01:23:47.928 A person asked about insurance companies

NOTE Confidence: 0.91276353597641

01:23:47.928 --> 01:23:50.669 and I know that here in Connecticut

NOTE Confidence: 0.91276353597641

01:23:50.669 --> 01:23:53.303 every insurance company ends up doing

NOTE Confidence: 0.91276353597641

01:23:53.303 --> 01:23:56.262 their own thing even though they're

NOTE Confidence: 0.91276353597641

01:23:56.262 --> 01:23:58.350 pretending that they're following.

NOTE Confidence: 0.91276353597641

01:23:58.350 --> 01:24:01.430 See Ms guidelines. So the so how?

NOTE Confidence: 0.91276353597641

01:24:01.430 --> 01:24:04.522 How are you going to be advocating?

NOTE Confidence: 0.91276353597641

01:24:04.522 --> 01:24:07.168 Kind of at the local level?

NOTE Confidence: 0.91276353597641

01:24:07.170 --> 01:24:09.370 Like how would you advocate,

NOTE Confidence: 0.91276353597641

01:24:09.370 --> 01:24:11.410 for example for?

NOTE Confidence: 0.91276353597641

01:24:11.410 --> 01:24:14.810 Connecticut Blue Cross Blue Shield

NOTE Confidence: 0.91276353597641

01:24:14.810 --> 01:24:18.338 or Connecticut Oxford and so forth.

NOTE Confidence: 0.91276353597641

01:24:18.340 --> 01:24:21.245 'cause it sounds like that's gonna be

NOTE Confidence: 0.866927027702332

01:24:21.250 --> 01:24:22.910 a really big task.

NOTE Confidence: 0.866927027702332

01:24:22.910 --> 01:24:25.717 That's a good question and difficult one's

NOTE Confidence: 0.866927027702332

01:24:25.717 --> 01:24:28.719 you pretty well known doctor krieger too.

NOTE Confidence: 0.866927027702332

01:24:28.720 --> 01:24:32.221 So I think from an advocacy POV at the

NOTE Confidence: 0.866927027702332

01:24:32.221 --> 01:24:35.356 folks that we really want to target.

NOTE Confidence: 0.866927027702332

01:24:35.360 --> 01:24:37.430 Of course, other legislators who

NOTE Confidence: 0.866927027702332

01:24:37.430 --> 01:24:39.086 will hopefully influence EMS.

NOTE Confidence: 0.866927027702332

01:24:39.090 --> 01:24:41.855 You're hoping that by influencing CMS that

NOTE Confidence: 0.866927027702332

01:24:41.855 --> 01:24:44.490 the other players would follow through,

NOTE Confidence: 0.866927027702332

01:24:44.490 --> 01:24:47.676 which includes the local state players.

NOTE Confidence: 0.866927027702332

01:24:47.680 --> 01:24:51.496 And this is where I think that stayed.

NOTE Confidence: 0.866927027702332

01:24:51.500 --> 01:24:54.686 Sleep societies and other drastic grassroot

NOTE Confidence: 0.866927027702332

01:24:54.686 --> 01:24:57.303 level folks becomes really important

NOTE Confidence: 0.866927027702332

01:24:57.303 --> 01:25:00.607 to make sure that they are engaged and.

NOTE Confidence: 0.866927027702332

01:25:00.610 --> 01:25:03.249 And I think there are some local

NOTE Confidence: 0.866927027702332

01:25:03.249 --> 01:25:05.416 advocacy groups that we may want

NOTE Confidence: 0.866927027702332

01:25:05.416 --> 01:25:07.656 to figure out ways to engage them

NOTE Confidence: 0.866927027702332

01:25:07.732 --> 01:25:09.940 with the at the national level.

NOTE Confidence: 0.866927027702332

01:25:09.940 --> 01:25:13.090 And then I think it goes back to the

NOTE Confidence: 0.866927027702332

01:25:13.090 --> 01:25:15.689 point that has been made so far.

NOTE Confidence: 0.866927027702332

01:25:15.690 --> 01:25:17.776 We're all in this together and we

NOTE Confidence: 0.866927027702332

01:25:17.776 --> 01:25:19.750 want to make sure that whatever

NOTE Confidence: 0.866927027702332

01:25:19.750 --> 01:25:22.109 effort that's being put in at the

NOTE Confidence: 0.866927027702332

01:25:22.178 --> 01:25:23.890 national level against disseminated

NOTE Confidence: 0.866927027702332

01:25:23.890 --> 01:25:26.818 to the local level and whether that's

NOTE Confidence: 0.866927027702332

01:25:26.818 --> 01:25:28.608 through the state sleep societies,

NOTE Confidence: 0.866927027702332

01:25:28.610 --> 01:25:30.074 other grassroot level folks,

NOTE Confidence: 0.866927027702332

01:25:30.074 --> 01:25:32.270 that's what I think we need

NOTE Confidence: 0.866927027702332

01:25:32.339 --> 01:25:34.039 to continue to explore an.

NOTE Confidence: 0.866927027702332

01:25:34.040 --> 01:25:37.316 And making sure that those advocacy

NOTE Confidence: 0.886121571063995

01:25:37.320 --> 01:25:39.504 efforts continue to happen

NOTE Confidence: 0.886121571063995

01:25:39.504 --> 01:25:42.780 so I don't have any other

NOTE Confidence: 0.888341416012157

01:25:42.780 --> 01:25:43.568 questions here.

NOTE Confidence: 0.888341416012157

01:25:43.568 --> 01:25:47.500 I want to follow up on on that comment.

NOTE Confidence: 0.888341416012157

01:25:47.500 --> 01:25:49.465 Uhm, So what one experience

NOTE Confidence: 0.888341416012157

01:25:49.465 --> 01:25:51.920 I had recently was so mass.

NOTE Confidence: 0.888341416012157

01:25:51.920 --> 01:25:53.368 How, um, recently, um,

NOTE Confidence: 0.888341416012157

01:25:53.368 --> 01:25:55.178 higher Debbie court to do

NOTE Confidence: 0.888341416012157

01:25:55.178 --> 01:25:57.150 their their sleep management,

NOTE Confidence: 0.888341416012157

01:25:57.150 --> 01:25:59.664 and so they you know basically

NOTE Confidence: 0.888341416012157

01:25:59.664 --> 01:26:01.784 assume that every Corps doing

NOTE Confidence: 0.888341416012157

01:26:01.784 --> 01:26:03.974 doing a great job for them.

NOTE Confidence: 0.888341416012157

01:26:03.980 --> 01:26:07.172 So I actually reached out to their

NOTE Confidence: 0.888341416012157

01:26:07.172 --> 01:26:10.351 mass health people to find out who was

NOTE Confidence: 0.888341416012157

01:26:10.351 --> 01:26:13.226 sort of in charge of of, you know,

NOTE Confidence: 0.888341416012157

01:26:13.226 --> 01:26:15.644 having the contract with every core.

NOTE Confidence: 0.888341416012157

01:26:15.650 --> 01:26:17.994 And so I had an hour conversation with

NOTE Confidence: 0.888341416012157

01:26:17.994 --> 01:26:19.704 them explaining different ways that

NOTE Confidence: 0.888341416012157

01:26:19.704 --> 01:26:21.840 that things weren't weren't going well.

NOTE Confidence: 0.888341416012157

01:26:21.840 --> 01:26:24.024 So one of the things now that

NOTE Confidence: 0.888341416012157

01:26:24.024 --> 01:26:26.035 we're reopening our lab or trying

NOTE Confidence: 0.888341416012157

01:26:26.035 --> 01:26:27.710 to get people's cross again.

NOTE Confidence: 0.888341416012157

01:26:27.710 --> 01:26:30.350 So we have patients that were approved for

NOTE Confidence: 0.888341416012157

01:26:30.350 --> 01:26:32.932 prior off before and now are, you know,

NOTE Confidence: 0.888341416012157

01:26:32.932 --> 01:26:35.540 we were on the phone for an hour.

NOTE Confidence: 0.888341416012157

01:26:35.540 --> 01:26:36.848 For two, you know,

NOTE Confidence: 0.888341416012157

01:26:36.848 --> 01:26:39.190 each time for two different patients just

NOTE Confidence: 0.888341416012157

01:26:39.190 --> 01:26:41.726 to get an off that was previously approved.

NOTE Confidence: 0.888341416012157

01:26:41.730 --> 01:26:44.338 So you know, she thought it was a

NOTE Confidence: 0.888341416012157

01:26:44.338 --> 01:26:46.311 very reasonable idea that you know.

NOTE Confidence: 0.888341416012157

01:26:46.311 --> 01:26:48.016 There should be a grandfathering

NOTE Confidence: 0.888341416012157

01:26:48.016 --> 01:26:50.410 end of a prior authorizations.

NOTE Confidence: 0.888341416012157

01:26:50.410 --> 01:26:51.222 Uh, uh,

NOTE Confidence: 0.888341416012157

01:26:51.222 --> 01:26:52.440 and you know.

NOTE Confidence: 0.888341416012157

01:26:52.440 --> 01:26:55.408 And and then other issues that have

NOTE Confidence: 0.888341416012157

01:26:55.408 --> 01:26:58.509 come up related to kovid in terms of,

NOTE Confidence: 0.888341416012157

01:26:58.510 --> 01:26:59.256 you know,

NOTE Confidence: 0.888341416012157

01:26:59.256 --> 01:27:01.494 when we can't get testing or

NOTE Confidence: 0.888341416012157

01:27:01.494 --> 01:27:04.050 the issues related to follow up

NOTE Confidence: 0.888341416012157

01:27:04.050 --> 01:27:06.210 and getting on going supplies.

NOTE Confidence: 0.888341416012157

01:27:06.210 --> 01:27:08.784 So I think you know if all of us

NOTE Confidence: 0.888341416012157

01:27:08.784 --> 01:27:11.468 can specially reach out to those

NOTE Confidence: 0.888341416012157

01:27:11.468 --> 01:27:14.376 insurers that have decided to use

NOTE Confidence: 0.888341416012157

01:27:14.376 --> 01:27:16.654 these other companies, you know.

NOTE Confidence: 0.888341416012157

01:27:16.654 --> 01:27:18.826 Sometimes the insurers are are actually

NOTE Confidence: 0.888341416012157

01:27:18.826 --> 01:27:21.415 more willing to to hear the stories and and,

NOTE Confidence: 0.888341416012157

01:27:21.420 --> 01:27:22.257 and you know,

NOTE Confidence: 0.888341416012157

01:27:22.257 --> 01:27:24.695 and bring them back to the every course

NOTE Confidence: 0.888341416012157

01:27:24.695 --> 01:27:26.990 through the aims and really say you

NOTE Confidence: 0.888341416012157

01:27:26.990 --> 01:27:28.590 know the service you're providing

NOTE Confidence: 0.888341416012157

01:27:28.590 --> 01:27:30.658 for our patients is making you know,

NOTE Confidence: 0.888341416012157

01:27:30.660 --> 01:27:32.200 is making us look bad.

NOTE Confidence: 0.888341416012157

01:27:32.200 --> 01:27:34.048 You know you shouldn't, you know.

NOTE Confidence: 0.888341416012157

01:27:34.050 --> 01:27:34.666 I mean,

NOTE Confidence: 0.888341416012157

01:27:34.666 --> 01:27:37.130 maybe you still have to have these things,

NOTE Confidence: 0.888341416012157

01:27:37.130 --> 01:27:39.794 but you should make it so we don't have

NOTE Confidence: 0.888341416012157

01:27:39.794 --> 01:27:42.978 to spend an hour on the phone to get there.

NOTE Confidence: 0.888341416012157

01:27:42.980 --> 01:27:44.096 Or you know so.

NOTE Confidence: 0.888341416012157

01:27:44.096 --> 01:27:45.770 So really letting them know what

NOTE Confidence: 0.888341416012157

01:27:45.829 --> 01:27:47.689 the reality of what's happening.

NOTE Confidence: 0.888341416012157

01:27:47.690 --> 01:27:49.540 With these services and then

NOTE Confidence: 0.888341416012157

01:27:49.540 --> 01:27:51.020 you know the other.

NOTE Confidence: 0.888341416012157

01:27:51.020 --> 01:27:53.980 The other way is a lot of um,

NOTE Confidence: 0.888341416012157

01:27:53.980 --> 01:27:55.945 specially big companies do self

NOTE Confidence: 0.888341416012157

01:27:55.945 --> 01:27:58.419 and ensure so you know if if,

NOTE Confidence: 0.888341416012157

01:27:58.420 --> 01:27:59.056 let's say,

NOTE Confidence: 0.888341416012157

01:27:59.056 --> 01:27:59.692 my hospital,

NOTE Confidence: 0.888341416012157

01:27:59.692 --> 01:28:02.429 you know we all of us get insurance

NOTE Confidence: 0.888341416012157

01:28:02.429 --> 01:28:05.429 through Health New England so I may not

NOTE Confidence: 0.888341416012157

01:28:05.505 --> 01:28:08.410 get anywhere talking to help New England.

NOTE Confidence: 0.888341416012157

01:28:08.410 --> 01:28:09.890 But I might get,

NOTE Confidence: 0.888341416012157

01:28:09.890 --> 01:28:10.630 you know,

NOTE Confidence: 0.888341416012157

01:28:10.630 --> 01:28:12.485 somewhere talking to my people

NOTE Confidence: 0.888341416012157

01:28:12.485 --> 01:28:14.340 at the hospital we're paying

NOTE Confidence: 0.888341416012157

01:28:14.409 --> 01:28:16.545 health New England or mass mutual?

NOTE Confidence: 0.888341416012157

01:28:16.550 --> 01:28:17.594 Who's paying Cigna?

NOTE Confidence: 0.888341416012157

01:28:17.594 --> 01:28:20.650 You know, so if you go to some of these,

NOTE Confidence: 0.888341416012157

01:28:20.650 --> 01:28:22.715 uh, these companies that are self insurers,

NOTE Confidence: 0.888341416012157

01:28:22.720 --> 01:28:24.490 it's in their self interest to,

NOTE Confidence: 0.888341416012157

01:28:24.490 --> 01:28:26.224 you know, make these insurers do

NOTE Confidence: 0.888341416012157

01:28:26.224 --> 01:28:27.730 do things right by them.

NOTE Confidence: 0.888341416012157

01:28:27.730 --> 01:28:29.500 So I think there are some.

NOTE Confidence: 0.888341416012157

01:28:29.500 --> 01:28:31.544 You know some ways that we can

NOTE Confidence: 0.888341416012157

01:28:31.544 --> 01:28:33.536 get the stories out and you know

NOTE Confidence: 0.888341416012157

01:28:33.536 --> 01:28:35.803 not what I would love is to have

NOTE Confidence: 0.888341416012157

01:28:35.803 --> 01:28:37.393 a collection of patient stories

NOTE Confidence: 0.888341416012157

01:28:37.393 --> 01:28:38.347 to be able

NOTE Confidence: 0.920158743858337

01:28:38.350 --> 01:28:41.005 to use. and I think those are the most

NOTE Confidence: 0.920158743858337

01:28:41.005 --> 01:28:43.065 telling an you know if we can get

NOTE Confidence: 0.920158743858337

01:28:43.065 --> 01:28:45.530 those out in the main media of some

NOTE Confidence: 0.920158743858337

01:28:45.530 --> 01:28:47.510 of the struggles patients are having,

NOTE Confidence: 0.920158743858337

01:28:47.510 --> 01:28:48.750 I think that's the.

NOTE Confidence: 0.920158743858337

01:28:48.750 --> 01:28:50.685 You know some of the best ways to advocate,

NOTE Confidence: 0.920158743858337

01:28:50.690 --> 01:28:52.195 so I think really working with those

NOTE Confidence: 0.920158743858337

01:28:52.195 --> 01:28:53.719 patient advocates is going to be important.

NOTE Confidence: 0.931988120079041

01:28:54.490 --> 01:28:57.088 Yeah, so I'd like to change

NOTE Confidence: 0.931988120079041

01:28:57.088 --> 01:28:59.250 the subject very, very briefly.

NOTE Confidence: 0.931988120079041

01:28:59.250 --> 01:29:01.916 We've been talking as though sleep

NOTE Confidence: 0.931988120079041

01:29:01.916 --> 01:29:05.516 apnea is like the only problem that is

NOTE Confidence: 0.931988120079041

01:29:05.516 --> 01:29:08.780 related that we need to be talking about.

NOTE Confidence: 0.931988120079041

01:29:08.780 --> 01:29:10.945 So several of the patients

NOTE Confidence: 0.931988120079041

01:29:10.945 --> 01:29:12.677 that I've had recently,

NOTE Confidence: 0.931988120079041

01:29:12.680 --> 01:29:14.260 I've had nightmares symptoms

NOTE Confidence: 0.931988120079041

01:29:14.260 --> 01:29:16.630 that I think will progress into

NOTE Confidence: 0.931988120079041

01:29:16.698 --> 01:29:18.738 post traumatic stress disorder.

NOTE Confidence: 0.931988120079041

01:29:18.740 --> 01:29:21.820 I've had patients who I think have

NOTE Confidence: 0.931988120079041

01:29:21.820 --> 01:29:24.039 developed central apnea because of

NOTE Confidence: 0.931988120079041

01:29:24.039 --> 01:29:27.000 something going on in their nervous system.

NOTE Confidence: 0.931988120079041

01:29:27.000 --> 01:29:30.141 Related to Kovid and I think we need to

NOTE Confidence: 0.931988120079041

01:29:30.141 --> 01:29:33.654 pay attention to to the to the nightmares.

NOTE Confidence: 0.931988120079041

01:29:33.660 --> 01:29:35.620 The pandemic insomnia's out there,

NOTE Confidence: 0.931988120079041

01:29:35.620 --> 01:29:38.908 and because I think we're going to be

NOTE Confidence: 0.931988120079041

01:29:38.908 --> 01:29:42.454 seeing a lot of patients like that in

NOTE Confidence: 0.931988120079041

01:29:42.454 --> 01:29:46.176 the future and maybe for a very long time.

NOTE Confidence: 0.931988120079041

01:29:46.180 --> 01:29:49.348 I mean, today I had a patient who

NOTE Confidence: 0.931988120079041

01:29:49.348 --> 01:29:51.685 is actually a psychiatry resident

NOTE Confidence: 0.931988120079041

01:29:51.685 --> 01:29:55.073 here at the ale who had insomnia.

NOTE Confidence: 0.931988120079041

01:29:55.080 --> 01:29:58.360 That started with the pandemic.

NOTE Confidence: 0.931988120079041

01:29:58.360 --> 01:30:00.448 You know and and that's we're

NOTE Confidence: 0.860678315162659

01:30:00.450 --> 01:30:02.540 going to be seeing a lot

NOTE Confidence: 0.865975717703502

01:30:02.540 --> 01:30:04.328 of that. That's

NOTE Confidence: 0.876570522785187

01:30:04.330 --> 01:30:06.460 a great point. I completely agree.

NOTE Confidence: 0.876570522785187

01:30:06.460 --> 01:30:08.380 I don't think we should definitely

NOTE Confidence: 0.876570522785187

01:30:08.380 --> 01:30:10.710 not forget the other disorders either.

NOTE Confidence: 0.876570522785187

01:30:10.710 --> 01:30:12.118 I mean, there's definitely.

NOTE Confidence: 0.876570522785187

01:30:12.118 --> 01:30:14.950 And if all, as you rightly point out,

NOTE Confidence: 0.876570522785187

01:30:14.950 --> 01:30:17.710 they might be on the rise at this

NOTE Confidence: 0.876570522785187

01:30:17.710 --> 01:30:19.908 stage compared to be covered error.

NOTE Confidence: 0.876570522785187

01:30:19.910 --> 01:30:21.330 So your point is

NOTE Confidence: 0.876570522785187

01:30:21.330 --> 01:30:22.742 very important, IP alright,

NOTE Confidence: 0.876570522785187

01:30:22.742 --> 01:30:24.154 so Karen should we.

NOTE Confidence: 0.876570522785187

01:30:24.160 --> 01:30:25.153 Should we adjourn?

NOTE Confidence: 0.876570522785187

01:30:25.153 --> 01:30:26.808 This has been a great

NOTE Confidence: 0.876570522785187

01:30:26.808 --> 01:30:28.409 session that you organized.

NOTE Confidence: 0.864760220050812

01:30:29.390 --> 01:30:32.580 Uhm, well I wanted to, uh my.

NOTE Confidence: 0.864760220050812

01:30:32.580 --> 01:30:36.298 I have one other question a friend era.

NOTE Confidence: 0.864760220050812

01:30:36.298 --> 01:30:40.256 So for those centers that do have access

NOTE Confidence: 0.864760220050812

01:30:40.256 --> 01:30:43.854 to Dekoven testing prior to coming in.

NOTE Confidence: 0.864760220050812

01:30:43.860 --> 01:30:46.164 You know the what's up on

NOTE Confidence: 0.864760220050812

01:30:46.164 --> 01:30:47.700 the website really says,

NOTE Confidence: 0.864760220050812

01:30:47.700 --> 01:30:49.620 you know, using, uhm, uh,

NOTE Confidence: 0.864760220050812

01:30:49.620 --> 01:30:51.415 the negative pressure rooms and

NOTE Confidence: 0.864760220050812

01:30:51.415 --> 01:30:54.609 using the N 95 if you're using path.

NOTE Confidence: 0.864760220050812

01:30:54.610 --> 01:30:57.162 But what if it is a presumed negative

NOTE Confidence: 0.864760220050812

01:30:57.162 --> 01:30:59.990 or not more beyond presume negative?

NOTE Confidence: 0.864760220050812

01:30:59.990 --> 01:31:01.526 A tested negative patient?

NOTE Confidence: 0.864760220050812

01:31:01.526 --> 01:31:04.698 Do you feel that that puts people in

NOTE Confidence: 0.864760220050812

01:31:04.698 --> 01:31:07.484 that sort of different basket from the

NOTE Confidence: 0.864760220050812

01:31:07.484 --> 01:31:10.090 others where you can safely feel that

NOTE Confidence: 0.864760220050812

01:31:10.090 --> 01:31:12.273 that you don't use those precautions?

NOTE Confidence: 0.864760220050812

01:31:12.273 --> 01:31:14.512 I will catch this and saying.

NOTE Confidence: 0.864760220050812

01:31:14.512 --> 01:31:16.720 The idea experts in my institution,

NOTE Confidence: 0.864760220050812

01:31:16.720 --> 01:31:17.620 uhm, you know,

NOTE Confidence: 0.864760220050812

01:31:17.620 --> 01:31:20.210 feel feel that's true an in the conversation

NOTE Confidence: 0.864760220050812

01:31:20.210 --> 01:31:23.036 that we basically had with them is,

NOTE Confidence: 0.864760220050812

01:31:23.036 --> 01:31:23.751 you know,

NOTE Confidence: 0.864760220050812

01:31:23.751 --> 01:31:25.556 they acknowledge you know that

NOTE Confidence: 0.864760220050812

01:31:25.556 --> 01:31:27.250 there's always the what if?

NOTE Confidence: 0.864760220050812

01:31:27.250 --> 01:31:29.164 What if the patient who we've

NOTE Confidence: 0.864760220050812

01:31:29.164 --> 01:31:30.905 already screened for symptoms that

NOTE Confidence: 0.864760220050812

01:31:30.905 --> 01:31:32.509 we've checked their temperature,

NOTE Confidence: 0.864760220050812

01:31:32.510 --> 01:31:34.616 that they've had a negative task?

NOTE Confidence: 0.864760220050812

01:31:34.620 --> 01:31:37.070 What if you know they picked it

NOTE Confidence: 0.864760220050812

01:31:37.070 --> 01:31:39.586 up in the last three days where

NOTE Confidence: 0.864760220050812

01:31:39.586 --> 01:31:41.770 there are false a false negative

NOTE Confidence: 0.864760220050812

01:31:41.839 --> 01:31:43.389 test and they said yes,

NOTE Confidence: 0.864760220050812

01:31:43.390 --> 01:31:45.150 you know that can happen.

NOTE Confidence: 0.864760220050812

01:31:45.150 --> 01:31:47.298 However, we can't ever present prevent.

NOTE Confidence: 0.864760220050812

01:31:47.300 --> 01:31:48.608 All the what ifs.

NOTE Confidence: 0.864760220050812

01:31:48.608 --> 01:31:51.050 So we have to think reasonably about,

NOTE Confidence: 0.864760220050812

01:31:51.050 --> 01:31:51.722 you know,

NOTE Confidence: 0.864760220050812

01:31:51.722 --> 01:31:54.074 supplies about you know how we're going

NOTE Confidence: 0.864760220050812

01:31:54.074 --> 01:31:56.661 to use our resources and if you know

NOTE Confidence: 0.864760220050812

01:31:56.661 --> 01:31:58.889 there there is that slight chance,

NOTE Confidence: 0.864760220050812

01:31:58.890 --> 01:32:01.628 but it's lower risk than someone you know

NOTE Confidence: 0.864760220050812

01:32:01.628 --> 01:32:04.349 going to the grocery store or you know,

NOTE Confidence: 0.864760220050812

01:32:04.350 --> 01:32:05.802 having having you know,

NOTE Confidence: 0.864760220050812

01:32:05.802 --> 01:32:07.980 meeting with a friend you know

NOTE Confidence: 0.864760220050812

01:32:08.047 --> 01:32:10.259 is that is that is that except

NOTE Confidence: 0.864760220050812

01:32:10.259 --> 01:32:11.926 you know exactly acceptable and

NOTE Confidence: 0.864760220050812

01:32:11.926 --> 01:32:13.556 and what to do with

NOTE Confidence: 0.900450527667999

01:32:13.560 --> 01:32:15.926 that. I think that we gotta look

NOTE Confidence: 0.900450527667999

01:32:15.926 --> 01:32:18.069 at the totality of the picture.

NOTE Confidence: 0.900450527667999

01:32:18.070 --> 01:32:19.852 And it really is going to

NOTE Confidence: 0.900450527667999

01:32:19.852 --> 01:32:21.870 vary based on the time point,

NOTE Confidence: 0.900450527667999

01:32:21.870 --> 01:32:23.675 the region, what happened locally

NOTE Confidence: 0.900450527667999

01:32:23.675 --> 01:32:25.940 in the last couple of weeks.

NOTE Confidence: 0.900450527667999

01:32:25.940 --> 01:32:28.406 And could this be a presymptomatic

NOTE Confidence: 0.900450527667999

01:32:28.406 --> 01:32:30.050 Renee symptomatic patients and

NOTE Confidence: 0.900450527667999

01:32:30.120 --> 01:32:31.830 testing may not pick it up,

NOTE Confidence: 0.900450527667999

01:32:31.830 --> 01:32:34.358 and we know there the rates of false

NOTE Confidence: 0.900450527667999

01:32:34.358 --> 01:32:36.554 positive iti with antibody tests and

NOTE Confidence: 0.900450527667999

01:32:36.554 --> 01:32:38.798 the rates of false negativity with

NOTE Confidence: 0.900450527667999

01:32:38.867 --> 01:32:41.267 PCR testing an antigen testing is

NOTE Confidence: 0.900450527667999

01:32:41.267 --> 01:32:43.236 just unacceptably high right now,

NOTE Confidence: 0.900450527667999

01:32:43.236 --> 01:32:44.334 and you know,

NOTE Confidence: 0.900450527667999

01:32:44.334 --> 01:32:45.798 and even temperature testing

NOTE Confidence: 0.900450527667999

01:32:45.798 --> 01:32:47.807 I've heard about patient saying I

NOTE Confidence: 0.900450527667999

01:32:47.807 --> 01:32:50.116 have a fever and then you check

NOTE Confidence: 0.900450527667999

01:32:50.116 --> 01:32:51.824 and they absolutely completely

NOTE Confidence: 0.900450527667999

01:32:51.824 --> 01:32:53.532 afebrile and vice versa,

NOTE Confidence: 0.900450527667999

01:32:53.540 --> 01:32:56.144 and then we don't know who has.

NOTE Confidence: 0.900450527667999

01:32:56.150 --> 01:32:58.100 Anti pyretic use or happens to

NOTE Confidence: 0.900450527667999

01:32:58.100 --> 01:33:00.864 be on an sets for some of the

NOTE Confidence: 0.900450527667999

01:33:00.864 --> 01:33:02.946 reasons so it mastiff you were.

NOTE Confidence: 0.900450527667999

01:33:02.950 --> 01:33:05.214 So I think you got to look at

NOTE Confidence: 0.900450527667999

01:33:05.214 --> 01:33:07.485 the whole picture of what's going

NOTE Confidence: 0.900450527667999

01:33:07.485 --> 01:33:09.927 on and really look at background

NOTE Confidence: 0.900450527667999

01:33:10.000 --> 01:33:11.888 prevalence in that locale.

NOTE Confidence: 0.900450527667999

01:33:11.890 --> 01:33:13.680 And make your best gas.

NOTE Confidence: 0.900450527667999

01:33:13.680 --> 01:33:16.112 So a man I would say if you're

NOTE Confidence: 0.900450527667999

01:33:16.112 --> 01:33:18.319 gonna start doing pap titrations,

NOTE Confidence: 0.900450527667999

01:33:18.320 --> 01:33:21.524 it's gotta happen in a in an orderly way.

NOTE Confidence: 0.900450527667999

01:33:21.530 --> 01:33:23.534 So the ones that absolutely cannot

NOTE Confidence: 0.900450527667999

01:33:23.534 --> 01:33:26.801 wait like I have a few people now who

NOTE Confidence: 0.900450527667999

01:33:26.801 --> 01:33:28.666 are completely recovered from coded.

NOTE Confidence: 0.900450527667999

01:33:28.670 --> 01:33:30.094 They clearly had it.

NOTE Confidence: 0.900450527667999

01:33:30.094 --> 01:33:32.600 They tested positive that symptoms are gone,

NOTE Confidence: 0.900450527667999

01:33:32.600 --> 01:33:34.380 their positive tests are negative,

NOTE Confidence: 0.900450527667999

01:33:34.380 --> 01:33:36.879 and they really need to come in.

NOTE Confidence: 0.900450527667999

01:33:36.880 --> 01:33:39.379 So someone like that I feel more

NOTE Confidence: 0.900450527667999

01:33:39.379 --> 01:33:40.450 comfortable sending forward.

NOTE Confidence: 0.900450527667999

01:33:40.450 --> 01:33:43.378 We don't know how long the immunity lasts.

NOTE Confidence: 0.900450527667999

01:33:43.380 --> 01:33:45.697 But imagine it you know in the

NOTE Confidence: 0.900450527667999

01:33:45.697 --> 01:33:46.690 first initial week.

NOTE Confidence: 0.900450527667999

01:33:46.690 --> 01:33:48.811 So far we haven't heard of every

NOTE Confidence: 0.900450527667999

01:33:48.811 --> 01:33:50.531 infections in the first few

NOTE Confidence: 0.900450527667999

01:33:50.531 --> 01:33:51.656 weeks after recovery,

NOTE Confidence: 0.900450527667999

01:33:51.660 --> 01:33:54.630 and so that might actually be a safer window.

NOTE Confidence: 0.900450527667999

01:33:54.630 --> 01:33:55.007 No?

NOTE Confidence: 0.900450527667999

01:33:55.007 --> 01:33:56.138 It's you know,

NOTE Confidence: 0.900450527667999

01:33:56.138 --> 01:33:58.400 providing tears of which patients need

NOTE Confidence: 0.900450527667999

01:33:58.470 --> 01:34:00.918 to go up first and who needs to wait.

NOTE Confidence: 0.900450527667999

01:34:00.920 --> 01:34:02.360 So probably the emergency patients

NOTE Confidence: 0.900450527667999

01:34:02.360 --> 01:34:04.247 and the ones that are recently

NOTE Confidence: 0.900450527667999

01:34:04.247 --> 01:34:06.217 recovered that you're very confident.

NOTE Confidence: 0.900450527667999

01:34:06.220 --> 01:34:07.870 Or F cleared their virus.

NOTE Confidence: 0.900450527667999

01:34:07.870 --> 01:34:09.856 The ones that are clearly negative

NOTE Confidence: 0.900450527667999

01:34:09.856 --> 01:34:10.849 and low risk,

NOTE Confidence: 0.900450527667999

01:34:10.850 --> 01:34:12.418 local regional transmission rates.

NOTE Confidence: 0.900450527667999

01:34:12.418 --> 01:34:15.112 And then look at the other ones

NOTE Confidence: 0.900450527667999

01:34:15.112 --> 01:34:17.336 that are if they were to get cold,

NOTE Confidence: 0.900450527667999

01:34:17.340 --> 01:34:19.708 but are they going to get severe disease?

NOTE Confidence: 0.900450527667999

01:34:19.710 --> 01:34:20.340 And unfortunately,

NOTE Confidence: 0.900450527667999

01:34:20.340 --> 01:34:22.545 that's a lot of our patient panels

NOTE Confidence: 0.900450527667999

01:34:22.545 --> 01:34:24.905 look that way because of obesity and

NOTE Confidence: 0.900450527667999

01:34:24.905 --> 01:34:26.779 hypertension and diabetes and so forth.

NOTE Confidence: 0.900450527667999

01:34:26.780 --> 01:34:27.615 Um?

NOTE Confidence: 0.900450527667999

01:34:27.615 --> 01:34:28.450 Yeah,

NOTE Confidence: 0.871658861637115

01:34:28.450 --> 01:34:31.450 I I've uh, so sort of following those

NOTE Confidence: 0.871658861637115

01:34:31.450 --> 01:34:34.065 sort of guidelines that that uh is

NOTE Confidence: 0.871658861637115

01:34:34.065 --> 01:34:37.432 I'm did put out I I've taken all our

NOTE Confidence: 0.871658861637115

01:34:37.432 --> 01:34:39.298 patients probably have about 500

NOTE Confidence: 0.871658861637115

01:34:39.298 --> 01:34:41.539 patients that have been studied to

NOTE Confidence: 0.871658861637115

01:34:41.540 --> 01:34:43.425 get rescheduled and reviewed all

NOTE Confidence: 0.871658861637115

01:34:43.425 --> 01:34:46.033 of them for those high risk states

NOTE Confidence: 0.871658861637115

01:34:46.033 --> 01:34:48.280 for sort of their urgency level.

NOTE Confidence: 0.871658861637115

01:34:48.280 --> 01:34:50.435 And you know there is a.

NOTE Confidence: 0.871658861637115

01:34:50.435 --> 01:34:52.812 You know a small percentage that are

NOTE Confidence: 0.871658861637115

01:34:52.812 --> 01:34:55.090 sort of in that hitting that more

NOTE Confidence: 0.85553389787674

01:34:55.090 --> 01:34:57.380 emergent state, but but yeah, I mean,

NOTE Confidence: 0.85553389787674

01:34:57.380 --> 01:34:59.360 you know, probably over half I

NOTE Confidence: 0.85553389787674

01:34:59.360 --> 01:35:01.940 kind of teared his level 4. So my

NOTE Confidence: 0.85553389787674

01:35:01.940 --> 01:35:04.840 you know I did on the wonder for scale and

NOTE Confidence: 0.85553389787674

01:35:04.910 --> 01:35:07.806 so you know those patients have high risk.

NOTE Confidence: 0.85553389787674

01:35:07.810 --> 01:35:10.426 Conditions are going to use path and so

NOTE Confidence: 0.85553389787674

01:35:10.426 --> 01:35:13.000 you know put them sort of after. You've

NOTE Confidence: 0.899683058261871

01:35:13.000 --> 01:35:14.400 done a really great point.

NOTE Confidence: 0.899683058261871

01:35:14.400 --> 01:35:16.920 You have come up with a way to strategize.

NOTE Confidence: 0.899683058261871

01:35:16.920 --> 01:35:18.882 I think we should have a form

NOTE Confidence: 0.899683058261871

01:35:18.882 --> 01:35:20.292 where we share these strategies

NOTE Confidence: 0.899683058261871

01:35:20.292 --> 01:35:22.283 with each other and how well are

NOTE Confidence: 0.899683058261871

01:35:22.283 --> 01:35:23.633 they working now we're working

NOTE Confidence: 0.899683058261871

01:35:23.640 --> 01:35:25.320 in sort of an information boy.

NOTE Confidence: 0.899683058261871

01:35:25.320 --> 01:35:27.280 I have too many tears. I

NOTE Confidence: 0.916034817695618

01:35:27.280 --> 01:35:29.198 just wanted to add on to that.

NOTE Confidence: 0.916034817695618

01:35:29.200 --> 01:35:30.104 I agree with that.

NOTE Confidence: 0.916034817695618

01:35:30.104 --> 01:35:32.090 I think if you were I've been reading

NOTE Confidence: 0.916034817695618

01:35:32.090 --> 01:35:34.113 through the comments and I think if

NOTE Confidence: 0.916034817695618

01:35:34.113 --> 01:35:36.249 you're into practice where you're able to

NOTE Confidence: 0.916034817695618

01:35:36.249 --> 01:35:38.278 Cove in test everybody before coming in.

NOTE Confidence: 0.916034817695618

01:35:38.278 --> 01:35:40.200 I mean, that's fantastic. Kudos to you.

NOTE Confidence: 0.916034817695618

01:35:40.200 --> 01:35:41.670 I don't think it's available

NOTE Confidence: 0.916034817695618

01:35:41.670 --> 01:35:43.140 everywhere and these issues especially

NOTE Confidence: 0.916034817695618

01:35:43.192 --> 01:35:44.596 come up with the pep titrations.

NOTE Confidence: 0.916034817695618

01:35:44.600 --> 01:35:46.525 I mean, it's great if you're testing

NOTE Confidence: 0.916034817695618

01:35:46.525 --> 01:35:48.175 everybody coming in, but the The

NOTE Confidence: 0.916034817695618

01:35:48.175 --> 01:35:49.550 real concern is around titrations.

NOTE Confidence: 0.916034817695618

01:35:49.550 --> 01:35:51.453 I think that's a special category, Karen.

NOTE Confidence: 0.916034817695618

01:35:51.453 --> 01:35:52.971 We saw that with your data

NOTE Confidence: 0.916034817695618

01:35:52.971 --> 01:35:54.499 when you ask the question,

NOTE Confidence: 0.916034817695618

01:35:54.500 --> 01:35:55.880 are you resuming services OK?

NOTE Confidence: 0.916034817695618

01:35:55.880 --> 01:35:56.710 Which ones?

NOTE Confidence: 0.916034817695618

01:35:56.710 --> 01:35:59.615 You had twice as many uhm responding,

NOTE Confidence: 0.916034817695618

01:35:59.620 --> 01:36:01.558 saying that they were planning to

NOTE Confidence: 0.916034817695618

01:36:01.558 --> 01:36:03.215 get restarted on diagnostic testing

NOTE Confidence: 0.916034817695618

01:36:03.215 --> 01:36:05.057 as compared to past studies and

NOTE Confidence: 0.916034817695618

01:36:05.057 --> 01:36:06.853 especially if your patient population

NOTE Confidence: 0.916034817695618

01:36:06.853 --> 01:36:08.485 you have special populations

NOTE Confidence: 0.916034817695618

01:36:08.485 --> 01:36:10.117 weather very chronically ill,

NOTE Confidence: 0.916034817695618

01:36:10.120 --> 01:36:11.520 special needs, Pediatrics, whatever.

NOTE Confidence: 0.916034817695618

01:36:11.520 --> 01:36:12.920 It happens to be,

NOTE Confidence: 0.916034817695618

01:36:12.920 --> 01:36:14.600 you have to consider that

NOTE Confidence: 0.916034817695618

01:36:14.600 --> 01:36:16.770 and the health of your staff.

NOTE Confidence: 0.916034817695618

01:36:16.770 --> 01:36:19.587 So that was a point I wanted to bring

NOTE Confidence: 0.916034817695618

01:36:19.587 --> 01:36:22.615 up that you know it may be the case

NOTE Confidence: 0.916034817695618

01:36:22.615 --> 01:36:24.916 that your staff member is someone

NOTE Confidence: 0.916034817695618

01:36:24.916 --> 01:36:27.667 who stands to be a special risk.

NOTE Confidence: 0.916034817695618

01:36:27.667 --> 01:36:30.049 They were to contract COVID-19 because

NOTE Confidence: 0.916034817695618

01:36:30.049 --> 01:36:32.712 of other risk factors that they have

NOTE Confidence: 0.916034817695618

01:36:32.712 --> 01:36:35.429 and we have to consider that as well.

NOTE Confidence: 0.916034817695618

01:36:35.430 --> 01:36:37.908 So I can't imagine I don't know.

NOTE Confidence: 0.916034817695618

01:36:37.910 --> 01:36:41.105 It's a question for the rest of the panel.

NOTE Confidence: 0.916034817695618

01:36:41.110 --> 01:36:43.324 In what circumstances would you be

NOTE Confidence: 0.916034817695618

01:36:43.324 --> 01:36:45.196 comfortable not having airborne and

NOTE Confidence: 0.916034817695618

01:36:45.196 --> 01:36:47.176 aerosol precautions in place during a

NOTE Confidence: 0.916034817695618

01:36:47.176 --> 01:36:49.629 titration for the pattern in the titration,

NOTE Confidence: 0.916034817695618

01:36:49.630 --> 01:36:51.435 knowing that there's no way

NOTE Confidence: 0.916034817695618

01:36:51.435 --> 01:36:53.890 they can stay the safe 1 meter.

NOTE Confidence: 0.916034817695618

01:36:53.890 --> 01:36:56.368 Just say for 1 meter distance away?

NOTE Confidence: 0.856762230396271

01:36:57.400 --> 01:37:01.220 I like to make a make a point so much

NOTE Confidence: 0.856762230396271

01:37:01.220 --> 01:37:03.510 over discussion is about process. We're

NOTE Confidence: 0.856762230396271

01:37:03.510 --> 01:37:06.700 kind of forgetting. In part

NOTE Confidence: 0.861873090267181

01:37:06.700 --> 01:37:09.019 location. Occasions experiences

NOTE Confidence: 0.917139708995819

01:37:09.020 --> 01:37:11.520 has been of course very

NOTE Confidence: 0.760122525691986

01:37:11.520 --> 01:37:15.680 different. During this a pandemic.

NOTE Confidence: 0.760122525691986

01:37:15.680 --> 01:37:17.535 We have a lot of patience waiting.

NOTE Confidence: 0.760122525691986

01:37:17.535 --> 01:37:19.492 It means that a lot of

NOTE Confidence: 0.760122525691986

01:37:19.492 --> 01:37:21.210 patients were bumped. So

NOTE Confidence: 0.897220194339752

01:37:21.210 --> 01:37:22.718 they care has got

NOTE Confidence: 0.897220194339752

01:37:22.720 --> 01:37:24.220 delayed in many instances.

NOTE Confidence: 0.902961611747742

01:37:25.130 --> 01:37:27.806 Yeah, more to help they get from their home.

NOTE Confidence: 0.902961611747742

01:37:27.806 --> 01:37:28.990 Care companies has dramatically

NOTE Confidence: 0.880327165126801

01:37:28.990 --> 01:37:30.918 dropped. Uh, at least

NOTE Confidence: 0.872782349586487

01:37:30.920 --> 01:37:31.960 in our area, no

NOTE Confidence: 0.852092027664185

01:37:31.960 --> 01:37:34.130 ones doing home visits. An

NOTE Confidence: 0.769330739974976

01:37:34.130 --> 01:37:35.360 patients, uh, have

NOTE Confidence: 0.769330739974976

01:37:35.360 --> 01:37:37.400 to do a bit more

NOTE Confidence: 0.866306006908417

01:37:37.400 --> 01:37:40.715 DIY. Uh, with the mask mask fitting so much

NOTE Confidence: 0.866306006908417

01:37:40.715 --> 01:37:42.886 harder now they pretty much have to go

NOTE Confidence: 0.89863109588623

01:37:42.890 --> 01:37:43.970 to the home care

NOTE Confidence: 0.89863109588623

01:37:43.970 --> 01:37:45.596 company. Well, of course they meet

NOTE Confidence: 0.89863109588623

01:37:45.600 --> 01:37:48.960 someone in a rubber suit. Um?

NOTE Confidence: 0.908816814422607

01:37:50.330 --> 01:37:51.418 If it is delay,

NOTE Confidence: 0.908816814422607

01:37:51.420 --> 01:37:53.317 we all of us have patients who

NOTE Confidence: 0.893572121858596

01:37:53.320 --> 01:37:55.600 are fairly complicated. And,

NOTE Confidence: 0.891183495521546

01:37:55.600 --> 01:37:58.730 uh. You know the past. We simply got

NOTE Confidence: 0.891183495521546

01:37:58.730 --> 01:38:00.789 into the lab and go the data and

NOTE Confidence: 0.912856221199036

01:38:00.790 --> 01:38:02.840 send them on their way with water. Treatment

NOTE Confidence: 0.895247662067413

01:38:02.840 --> 01:38:06.538 was right. I will have to do I think

NOTE Confidence: 0.895247662067413

01:38:06.540 --> 01:38:09.030 much more empiric treatments and.

NOTE Confidence: 0.895247662067413

01:38:09.030 --> 01:38:11.138 Uh, put us, uh? I mean, if we

NOTE Confidence: 0.895247662067413

01:38:11.138 --> 01:38:13.430 all just go back if it all target

NOTE Confidence: 0.860263645648956

01:38:13.430 --> 01:38:15.600 in going back to baseline.

NOTE Confidence: 0.860263645648956

01:38:15.600 --> 01:38:17.842 Think they're Lawson opportunity?

NOTE Confidence: 0.860263645648956

01:38:17.842 --> 01:38:21.340 Uh, this disruptive hopefully will. Change

NOTE Confidence: 0.891660213470459

01:38:21.340 --> 01:38:23.020 things I worry the see Ms is just

NOTE Confidence: 0.891660213470459

01:38:23.020 --> 01:38:24.700 gonna go back to doing what they were

NOTE Confidence: 0.891660213470459

01:38:24.700 --> 01:38:26.170 doing before and so will Blue Cross

NOTE Confidence: 0.891660213470459

01:38:26.170 --> 01:38:28.938 over how the program. And it'll be

NOTE Confidence: 0.909828126430511

01:38:28.940 --> 01:38:30.990 good at the pandemic is gone, but will

NOTE Confidence: 0.909828126430511

01:38:30.990 --> 01:38:32.270 be pretty much doing what

NOTE Confidence: 0.909828126430511

01:38:32.270 --> 01:38:33.550 you were doing in the

NOTE Confidence: 0.947555911540986

01:38:33.550 --> 01:38:35.580 past. I'm not sure exactly

NOTE Confidence: 0.956987857818604

01:38:35.580 --> 01:38:36.880 how we can avoid that.

NOTE Confidence: 0.888832271099091

01:38:38.530 --> 01:38:40.511 I agree with that and, um,

NOTE Confidence: 0.888832271099091

01:38:40.511 --> 01:38:42.557 you know the other place where

NOTE Confidence: 0.888832271099091

01:38:42.557 --> 01:38:44.526 I practice the VA hospital has

NOTE Confidence: 0.888832271099091

01:38:44.526 --> 01:38:47.060 not been bound by a lot of these.

NOTE Confidence: 0.888832271099091

01:38:47.060 --> 01:38:49.028 These rules that players have had,

NOTE Confidence: 0.888832271099091

01:38:49.030 --> 01:38:51.646 and so in terms of empiric see path.

NOTE Confidence: 0.888832271099091

01:38:51.650 --> 01:38:54.764 I think Mary, You said you had done this

NOTE Confidence: 0.888832271099091

01:38:54.764 --> 01:38:57.550 before 2 but offering C Pap based on on

NOTE Confidence: 0.888832271099091

01:38:57.550 --> 01:38:59.846 clinical criteria and so far they haven't

NOTE Confidence: 0.888832271099091

01:38:59.850 --> 01:39:01.818 been refused. Yeah they've done great.

NOTE Confidence: 0.888832271099091

01:39:01.820 --> 01:39:03.632 I've had probably in the last

NOTE Confidence: 0.888832271099091

01:39:03.632 --> 01:39:05.750 10 years a couple 100 patients.

NOTE Confidence: 0.888832271099091

01:39:05.750 --> 01:39:07.062 I've done that before

NOTE Confidence: 0.888832271099091

01:39:07.062 --> 01:39:08.702 and I don't believe that.

NOTE Confidence: 0.888832271099091

01:39:08.710 --> 01:39:10.318 Adherence rates are worse than they

NOTE Confidence: 0.888832271099091

01:39:10.318 --> 01:39:12.449 would be in the veteran population.

NOTE Confidence: 0.888832271099091

01:39:12.450 --> 01:39:14.946 They tend to be low to begin with,

NOTE Confidence: 0.888832271099091

01:39:14.950 --> 01:39:16.510 so yeah, yeah, that's true,

NOTE Confidence: 0.888832271099091

01:39:16.510 --> 01:39:18.666 but I don't believe they were worse.

NOTE Confidence: 0.888832271099091

01:39:18.666 --> 01:39:21.744 And what there is to do is to put the

NOTE Confidence: 0.888832271099091

01:39:21.744 --> 01:39:24.310 data together and put it out in press.

NOTE Confidence: 0.900460779666901

01:39:25.200 --> 01:39:26.890 Well, one thing and let's

NOTE Confidence: 0.900460779666901

01:39:26.890 --> 01:39:27.566 not forget.

NOTE Confidence: 0.900460779666901

01:39:27.566 --> 01:39:29.256 There's also nasal dilator therapy.

NOTE Confidence: 0.900460779666901

01:39:29.260 --> 01:39:30.840 There's position therapy and you

NOTE Confidence: 0.900460779666901

01:39:30.840 --> 01:39:32.846 know good old weight loss and

NOTE Confidence: 0.900460779666901

01:39:32.846 --> 01:39:34.326 addressing nasal issues there.

NOTE Confidence: 0.900460779666901

01:39:34.330 --> 01:39:36.598 There are other things that we could

NOTE Confidence: 0.900460779666901

01:39:36.598 --> 01:39:39.057 be doing in the meantime as well,

NOTE Confidence: 0.900460779666901

01:39:39.060 --> 01:39:41.538 and I find that my patients are

NOTE Confidence: 0.900460779666901

01:39:41.538 --> 01:39:43.584 actually very motivated to do those

NOTE Confidence: 0.900460779666901

01:39:43.584 --> 01:39:45.820 things when they hear that sleep is

NOTE Confidence: 0.900460779666901

01:39:45.820 --> 01:39:48.480 important for immunity and well being.

NOTE Confidence: 0.900460779666901

01:39:48.480 --> 01:39:51.660 They actually are interested. And

NOTE Confidence: 0.809910178184509

01:39:51.660 --> 01:39:54.330 when one experiences having been on

NOTE Confidence: 0.809910178184509

01:39:54.330 --> 01:39:57.021 the ASM care Policy Committee when

NOTE Confidence: 0.809910178184509

01:39:57.021 --> 01:39:59.912 we were writing up are sort of.

NOTE Confidence: 0.809910178184509

01:39:59.920 --> 01:40:02.404 Cards to rate how insurance companies

NOTE Confidence: 0.809910178184509

01:40:02.404 --> 01:40:04.770 were doing with their policies.

NOTE Confidence: 0.809910178184509

01:40:04.770 --> 01:40:08.386 We were reflecting it on the ASM policy

NOTE Confidence: 0.809910178184509

01:40:08.386 --> 01:40:11.183 statements and all those policy statements

NOTE Confidence: 0.809910178184509

01:40:11.183 --> 01:40:15.184 are based on what the data is out there

NOTE Confidence: 0.809910178184509

01:40:15.184 --> 01:40:17.991 and sort of the best case scenario.

NOTE Confidence: 0.809910178184509

01:40:18.000 --> 01:40:21.861 So a lot of all these scenarios there's not

NOTE Confidence: 0.809910178184509

01:40:21.861 --> 01:40:25.497 studied data on doesn't mean they don't work,

NOTE Confidence: 0.809910178184509

01:40:25.500 --> 01:40:29.730 so it is. How do we get? You know the.

NOTE Confidence: 0.809910178184509

01:40:29.730 --> 01:40:32.932 These things that we've had to do out

NOTE Confidence: 0.809910178184509

01:40:32.932 --> 01:40:35.210 of necessity, and either, you know,

NOTE Confidence: 0.809910178184509

01:40:35.210 --> 01:40:38.209 say you know we was expert consensus to

NOTE Confidence: 0.809910178184509

01:40:38.209 --> 01:40:41.296 say that these are are potentially options.

NOTE Confidence: 0.809910178184509

01:40:41.300 --> 01:40:44.058 Whether there are ways that the SM

NOTE Confidence: 0.809910178184509

01:40:44.058 --> 01:40:47.184 could so sort of help fund, you know,

NOTE Confidence: 0.809910178184509

01:40:47.184 --> 01:40:49.566 these sort of research projects on.

NOTE Confidence: 0.809910178184509

01:40:49.570 --> 01:40:52.377 Facility of care which I know you

NOTE Confidence: 0.809910178184509

01:40:52.377 --> 01:40:55.085 know when when I talk to um, uh,

NOTE Confidence: 0.809910178184509

01:40:55.085 --> 01:40:57.360 some of the NIH folks about sort

NOTE Confidence: 0.809910178184509

01:40:57.360 --> 01:41:00.131 of you know how about this idea

NOTE Confidence: 0.809910178184509

01:41:00.131 --> 01:41:02.171 for product and they're like?

NOTE Confidence: 0.809910178184509

01:41:02.180 --> 01:41:03.628 Well, that's not science,

NOTE Confidence: 0.809910178184509

01:41:03.628 --> 01:41:06.640 so I've been really shut down about. Well,

NOTE Confidence: 0.809910178184509

01:41:06.640 --> 01:41:09.230 this is what really impacts our patients.

NOTE Confidence: 0.809910178184509

01:41:09.230 --> 01:41:10.714 We need to know,

NOTE Confidence: 0.809910178184509

01:41:10.714 --> 01:41:12.571 you know whether 3% criteria

NOTE Confidence: 0.809910178184509

01:41:12.571 --> 01:41:14.426 for percent creature is better.

NOTE Confidence: 0.809910178184509

01:41:14.430 --> 01:41:17.157 We need to know if we set up a

NOTE Confidence: 0.809910178184509

01:41:17.157 --> 01:41:19.640 home sleep tasks with attack.

NOTE Confidence: 0.809910178184509

01:41:19.640 --> 01:41:22.394 I don't showing them how to use it up

NOTE Confidence: 0.809910178184509

01:41:22.394 --> 01:41:25.062 over a video is acceptable to doing a

NOTE Confidence: 0.809910178184509

01:41:25.062 --> 01:41:27.979 face to face set up because those are

NOTE Confidence: 0.809910178184509

01:41:27.979 --> 01:41:30.182 the things that affect the guidelines,

NOTE Confidence: 0.809910178184509

01:41:30.182 --> 01:41:31.550 which then a fact.

NOTE Confidence: 0.809910178184509

01:41:31.550 --> 01:41:33.895 Tell the insurance policies to do so,

NOTE Confidence: 0.809910178184509

01:41:33.900 --> 01:41:36.175 I think you know there needs to

NOTE Confidence: 0.809910178184509

01:41:36.175 --> 01:41:38.200 be this change from, you know,

NOTE Confidence: 0.809910178184509

01:41:38.200 --> 01:41:40.060 sort of the guidelines to to

NOTE Confidence: 0.809910178184509

01:41:40.060 --> 01:41:41.939 what the players should do.

NOTE Confidence: 0.809910178184509

01:41:41.940 --> 01:41:44.740 and I think when you just follow the

NOTE Confidence: 0.809910178184509

01:41:44.740 --> 01:41:47.300 guidelines it may work for 70% of cases,

NOTE Confidence: 0.809910178184509

01:41:47.300 --> 01:41:49.310 but it doesn't work for 30.

NOTE Confidence: 0.809910178184509

01:41:49.310 --> 01:41:51.990 And now that we're going to go visit,

NOTE Confidence: 0.809910178184509

01:41:51.990 --> 01:41:53.996 it probably works for 30% of

NOTE Confidence: 0.809910178184509

01:41:53.996 --> 01:41:56.008 the cases and 70% it doesn't.

NOTE Confidence: 0.809910178184509

01:41:56.008 --> 01:41:58.346 You know it's not not working for,

NOTE Confidence: 0.809910178184509

01:41:58.350 --> 01:42:00.653 so I think those are some other

NOTE Confidence: 0.809910178184509

01:42:00.653 --> 01:42:02.410 things to think about and.

NOTE Confidence: 0.809910178184509

01:42:02.410 --> 01:42:04.881 And maybe it's time does have some

NOTE Confidence: 0.809910178184509

01:42:04.881 --> 01:42:07.679 ways to help get people to do this.

NOTE Confidence: 0.809910178184509

01:42:07.680 --> 01:42:08.018 Little,

NOTE Confidence: 0.809910178184509

01:42:08.018 --> 01:42:08.694 you know,

NOTE Confidence: 0.809910178184509

01:42:08.694 --> 01:42:10.722 sort of tests and provide data

NOTE Confidence: 0.809910178184509

01:42:10.722 --> 01:42:12.939 based on sort of their experiences.

NOTE Confidence: 0.809910178184509

01:42:12.940 --> 01:42:15.476 I know I was thinking of a project

NOTE Confidence: 0.809910178184509

01:42:15.476 --> 01:42:18.071 now that we removed from having all

NOTE Confidence: 0.809910178184509

01:42:18.071 --> 01:42:21.010 the patients come in and do home sleep

NOTE Confidence: 0.809910178184509

01:42:21.010 --> 01:42:23.120 studies settings in person to mailing

NOTE Confidence: 0.809910178184509

01:42:23.120 --> 01:42:25.990 out the devices and doing it over the

NOTE Confidence: 0.809910178184509

01:42:25.990 --> 01:42:29.146 phone when it is looking at what is our.

NOTE Confidence: 0.809910178184509

01:42:29.150 --> 01:42:30.161 You know what?

NOTE Confidence: 0.809910178184509

01:42:30.161 --> 01:42:32.520 What is our rates of technical failure?

NOTE Confidence: 0.809910178184509

01:42:32.520 --> 01:42:35.216 And it actually sort of quick quick look.

NOTE Confidence: 0.809910178184509

01:42:35.220 --> 01:42:35.526 Adam,

NOTE Confidence: 0.809910178184509

01:42:35.526 --> 01:42:37.668 it seems to be that we actually

NOTE Confidence: 0.809910178184509

01:42:37.668 --> 01:42:39.260 have less favor failure,

NOTE Confidence: 0.809910178184509

01:42:39.260 --> 01:42:41.040 probably because the person's right

NOTE Confidence: 0.809910178184509

01:42:41.040 --> 01:42:43.134 there watching a video at home

NOTE Confidence: 0.809910178184509

01:42:43.134 --> 01:42:45.266 and then sort of focusing in on

NOTE Confidence: 0.809910178184509

01:42:45.266 --> 01:42:47.114 it right then rather than rushing

NOTE Confidence: 0.809910178184509

01:42:47.114 --> 01:42:49.245 in through the day and getting

NOTE Confidence: 0.809910178184509

01:42:49.245 --> 01:42:51.060 annoyed about parking and timing.

NOTE Confidence: 0.809910178184509

01:42:51.060 --> 01:42:52.740 So I think you know,

NOTE Confidence: 0.809910178184509

01:42:52.740 --> 01:42:54.840 I think there's a lot of data

NOTE Confidence: 0.809910178184509

01:42:54.840 --> 01:42:55.740 we can gather

NOTE Confidence: 0.879163205623627

01:42:55.810 --> 01:42:57.298 about these practices of

NOTE Confidence: 0.879163205623627

01:42:57.298 --> 01:42:59.158 care that were sort of.

NOTE Confidence: 0.879163205623627

01:42:59.160 --> 01:43:02.702 Worst part is that we need to

NOTE Confidence: 0.879163205623627

01:43:02.702 --> 01:43:05.640 really inform future guidelines in

NOTE Confidence: 0.865960563932146

01:43:05.640 --> 01:43:06.522 future changes.

NOTE Confidence: 0.865960563932146

01:43:06.522 --> 01:43:08.727 It is very well taken.

NOTE Confidence: 0.865960563932146

01:43:08.730 --> 01:43:11.118 You're absolutely right, the the policies.

NOTE Confidence: 0.865960563932146

01:43:11.120 --> 01:43:13.508 Usually, as you rightly point out,

NOTE Confidence: 0.865960563932146

01:43:13.510 --> 01:43:16.219 come out of clinical practice guidelines in

NOTE Confidence: 0.865960563932146

01:43:16.219 --> 01:43:18.698 the clinical practice guidelines through a.

NOTE Confidence: 0.865960563932146

01:43:18.700 --> 01:43:20.700 Some are usually data driven,

NOTE Confidence: 0.865960563932146

01:43:20.700 --> 01:43:23.364 and so that's how you come up with

NOTE Confidence: 0.865960563932146

01:43:23.364 --> 01:43:25.879 these strong and weak recommendations.

NOTE Confidence: 0.865960563932146

01:43:25.880 --> 01:43:27.218 Using great mythology.

NOTE Confidence: 0.865960563932146

01:43:27.218 --> 01:43:30.340 And so there's a science to how

NOTE Confidence: 0.865960563932146

01:43:30.422 --> 01:43:32.844 that ends up being used to get

NOTE Confidence: 0.865960563932146

01:43:32.844 --> 01:43:35.457 to the data points as well as.

NOTE Confidence: 0.865960563932146

01:43:35.460 --> 01:43:38.900 Helping out with a policy point of things,

NOTE Confidence: 0.865960563932146

01:43:38.900 --> 01:43:41.805 there are other two types of papers

NOTE Confidence: 0.865960563932146

01:43:41.805 --> 01:43:44.836 that they some puts out the best

NOTE Confidence: 0.865960563932146

01:43:44.836 --> 01:43:47.380 practices as well as the position

NOTE Confidence: 0.865960563932146

01:43:47.464 --> 01:43:50.537 statements and so those are based on.

NOTE Confidence: 0.865960563932146

01:43:50.540 --> 01:43:53.483 And studies that may not be up to the

NOTE Confidence: 0.865960563932146

01:43:53.483 --> 01:43:56.629 level of the clinical practice guidelines,

NOTE Confidence: 0.865960563932146

01:43:56.630 --> 01:43:57.442 for example,

NOTE Confidence: 0.865960563932146

01:43:57.442 --> 01:44:00.690 and so if it's a retrospective study case,

NOTE Confidence: 0.865960563932146

01:44:00.690 --> 01:44:03.525 reports K series and our expert consensus,

NOTE Confidence: 0.865960563932146

01:44:03.530 --> 01:44:06.546 then they might come under one of these

NOTE Confidence: 0.865960563932146

01:44:06.546 --> 01:44:09.619 other two paper formats through the SM.

NOTE Confidence: 0.865960563932146

01:44:09.620 --> 01:44:13.680 They don't carry as much weight as a CP G,

NOTE Confidence: 0.865960563932146

01:44:13.680 --> 01:44:16.116 the clinical practice guidelines do from,

NOTE Confidence: 0.865960563932146

01:44:16.120 --> 01:44:19.368 uh, from a paper policy point of things,

NOTE Confidence: 0.865960563932146

01:44:19.370 --> 01:44:21.450 but they still might help.

NOTE Confidence: 0.865960563932146

01:44:21.450 --> 01:44:25.434 22 Fight for things that's needed

NOTE Confidence: 0.865960563932146

01:44:25.434 --> 01:44:30.178 from a policy change point of things,

NOTE Confidence: 0.865960563932146

01:44:30.180 --> 01:44:33.540 and so I would take this as.

NOTE Confidence: 0.865960563932146

01:44:33.540 --> 01:44:35.420 If people are doing studies,

NOTE Confidence: 0.865960563932146

01:44:35.420 --> 01:44:37.948 I think we need to make sure that

NOTE Confidence: 0.865960563932146

01:44:37.948 --> 01:44:40.368 that gets published because any data

NOTE Confidence: 0.865960563932146

01:44:40.368 --> 01:44:42.930 is better than no data cycling.

NOTE Confidence: 0.865960563932146

01:44:42.930 --> 01:44:44.334 Through webinars and uh,

NOTE Confidence: 0.865960563932146

01:44:44.334 --> 01:44:45.738 such as these things,

NOTE Confidence: 0.865960563932146

01:44:45.740 --> 01:44:47.884 if we can come up with some type

NOTE Confidence: 0.865960563932146

01:44:47.884 --> 01:44:49.950 of a consensus statement,

NOTE Confidence: 0.865960563932146

01:44:49.950 --> 01:44:53.494 I think those are going to be helpful.

NOTE Confidence: 0.865960563932146

01:44:53.500 --> 01:44:55.940 And then I'll maybe let a bug of

NOTE Confidence: 0.865960563932146

01:44:55.940 --> 01:44:57.946 Attila touch upon this as well

NOTE Confidence: 0.865960563932146

01:44:57.946 --> 01:44:59.938 through the code 19 task force,

NOTE Confidence: 0.865960563932146

01:44:59.940 --> 01:45:01.824 if she hears these things and

NOTE Confidence: 0.865960563932146

01:45:01.824 --> 01:45:03.809 puts out a recommendation or a

NOTE Confidence: 0.865960563932146

01:45:03.809 --> 01:45:05.153 consensus type position statement

NOTE Confidence: 0.865960563932146

01:45:05.153 --> 01:45:07.019 on things that could be done,

NOTE Confidence: 0.865960563932146

01:45:07.020 --> 01:45:09.274 which is not going to be easy,

NOTE Confidence: 0.865960563932146

01:45:09.280 --> 01:45:11.206 because whatever you say right now,

NOTE Confidence: 0.865960563932146

01:45:11.210 --> 01:45:13.457 she also pointed out things do change,

NOTE Confidence: 0.865960563932146

01:45:13.460 --> 01:45:15.488 and so that's where we've been

NOTE Confidence: 0.865960563932146

01:45:15.488 --> 01:45:17.811 caught a little bit in terms of

NOTE Confidence: 0.865960563932146

01:45:17.811 --> 01:45:19.897 how best to go about doing this.

NOTE Confidence: 0.865960563932146

01:45:19.900 --> 01:45:21.560 And so without the data

NOTE Confidence: 0.865960563932146

01:45:21.560 --> 01:45:23.510 to support it when you do.

NOTE Confidence: 0.865960563932146

01:45:23.510 --> 01:45:24.827 Make a recommendation.

NOTE Confidence: 0.865960563932146

01:45:24.827 --> 01:45:27.900 It's very likely to change in the

NOTE Confidence: 0.865960563932146

01:45:27.987 --> 01:45:30.500 next few weeks to months at two,

NOTE Confidence: 0.865960563932146

01:45:30.500 --> 01:45:31.644 depending on your data,

NOTE Confidence: 0.865960563932146

01:45:31.644 --> 01:45:33.074 so it's a tricky point,

NOTE Confidence: 0.865960563932146

01:45:33.080 --> 01:45:35.510 but at the same time your point is very

NOTE Confidence: 0.865960563932146

01:45:35.510 --> 01:45:38.970 well taken, and I think that's where.

NOTE Confidence: 0.865960563932146

01:45:38.970 --> 01:45:40.502 Books, researchers doing studies.

NOTE Confidence: 0.865960563932146

01:45:40.502 --> 01:45:43.157 We want to make sure that they

NOTE Confidence: 0.865960563932146

01:45:43.157 --> 01:45:45.201 get their data out as soon as

NOTE Confidence: 0.865960563932146

01:45:45.201 --> 01:45:47.018 a bathroom from a foundation.

NOTE Confidence: 0.865960563932146

01:45:47.020 --> 01:45:48.488 A some foundation perspective,

NOTE Confidence: 0.865960563932146

01:45:48.488 --> 01:45:51.219 we thought through this a little bit too.

NOTE Confidence: 0.865960563932146

01:45:51.220 --> 01:45:53.332 Should we be putting out our

NOTE Confidence: 0.865960563932146

01:45:53.332 --> 01:45:54.740 face for these things?

NOTE Confidence: 0.865960563932146

01:45:54.740 --> 01:45:57.516 Answer is of course it would be great.

NOTE Confidence: 0.865960563932146

01:45:57.520 --> 01:45:59.856 Only downside to it is by the time

NOTE Confidence: 0.865960563932146

01:45:59.856 --> 01:46:02.368 we get answers through our phase,

NOTE Confidence: 0.865960563932146

01:46:02.370 --> 01:46:05.247 it's going to take awhile and but

NOTE Confidence: 0.865960563932146

01:46:05.247 --> 01:46:07.251 that shouldn't preclude us from

NOTE Confidence: 0.865960563932146

01:46:07.251 --> 01:46:09.327 making sure that the studies that

NOTE Confidence: 0.865960563932146

01:46:09.327 --> 01:46:11.759 are in place that are ongoing.

NOTE Confidence: 0.865960563932146

01:46:11.760 --> 01:46:13.740 Hopefully can get their results

NOTE Confidence: 0.865960563932146

01:46:13.740 --> 01:46:14.928 out pretty soon.

NOTE Confidence: 0.865960563932146

01:46:14.930 --> 01:46:15.929 So I mean,

NOTE Confidence: 0.865960563932146

01:46:15.929 --> 01:46:18.260 I think there's more to come on

NOTE Confidence: 0.901137709617615

01:46:18.343 --> 01:46:20.868 this. I think we just still have to

NOTE Confidence: 0.901137709617615

01:46:20.868 --> 01:46:23.341 have an open mind and continue to

NOTE Confidence: 0.901137709617615

01:46:23.341 --> 01:46:25.984 explore other ways of how best to

NOTE Confidence: 0.901137709617615

01:46:25.984 --> 01:46:28.420 come up with these things that will

NOTE Confidence: 0.901137709617615

01:46:28.420 --> 01:46:30.324 support a policy changes or support.

NOTE Confidence: 0.901137709617615

01:46:30.324 --> 01:46:32.440 Pushing from an advocacy point of view,

NOTE Confidence: 0.901137709617615

01:46:32.440 --> 01:46:35.890 I think all those need to be way inflated. I

NOTE Confidence: 0.905803263187408

01:46:35.890 --> 01:46:38.305 think I I that is beautifully said.

NOTE Confidence: 0.905803263187408

01:46:38.310 --> 01:46:40.380 I agree with everything you said.

NOTE Confidence: 0.905803263187408

01:46:40.380 --> 01:46:42.855 Come and I think the other thing is just

NOTE Confidence: 0.905803263187408

01:46:42.855 --> 01:46:45.294 really leveraging all the knowledge that

NOTE Confidence: 0.905803263187408

01:46:45.294 --> 01:46:47.399 our international colleagues have have

NOTE Confidence: 0.905803263187408

01:46:47.461 --> 01:46:49.953 gathered ahead of us. And you know,

NOTE Confidence: 0.905803263187408

01:46:49.953 --> 01:46:52.058 origin collaborations and you know.

NOTE Confidence: 0.905803263187408

01:46:52.060 --> 01:46:53.168 Sharing what they have,

NOTE Confidence: 0.905803263187408

01:46:53.168 --> 01:46:54.830 I think we're going to have

NOTE Confidence: 0.905803263187408

01:46:54.893 --> 01:46:56.197 to broaden our platform.

NOTE Confidence: 0.905803263187408

01:46:56.200 --> 01:46:57.260 Very quickly.

NOTE Confidence: 0.910325169563293

01:46:58.890 --> 01:47:01.170 Can I pay by parent Pediatrics

NOTE Confidence: 0.910325169563293

01:47:01.170 --> 01:47:03.450 to change topics a little bit?

NOTE Confidence: 0.910325169563293

01:47:03.450 --> 01:47:05.890 I see a couple of questions coming in

NOTE Confidence: 0.910325169563293

01:47:05.890 --> 01:47:08.898 on the chat related to that and the

NOTE Confidence: 0.910325169563293

01:47:08.898 --> 01:47:11.431 questions are basically you know what

NOTE Confidence: 0.910325169563293

01:47:11.431 --> 01:47:13.706 about from a Pediatrics perspective,

NOTE Confidence: 0.910325169563293

01:47:13.710 --> 01:47:16.041 and I think you know there's a

NOTE Confidence: 0.910325169563293

01:47:16.041 --> 01:47:17.890 few reasons that Pediatrics,

NOTE Confidence: 0.910325169563293

01:47:17.890 --> 01:47:20.627 while all of the considerations we have

NOTE Confidence: 0.910325169563293

01:47:20.627 --> 01:47:23.448 discussed are also in play for labs that

NOTE Confidence: 0.910325169563293

01:47:23.448 --> 01:47:26.250 are in practices that are serving children.

NOTE Confidence: 0.910325169563293

01:47:26.250 --> 01:47:27.770 There's also unique features.

NOTE Confidence: 0.910325169563293

01:47:27.770 --> 01:47:28.530 For example,

NOTE Confidence: 0.910325169563293

01:47:28.530 --> 01:47:30.810 there's really no home diagnostic pathway,

NOTE Confidence: 0.910325169563293

01:47:30.810 --> 01:47:33.898 at least supported by the Academy right now.

NOTE Confidence: 0.910325169563293

01:47:33.900 --> 01:47:36.406 Um for for children or for adolescents,

NOTE Confidence: 0.910325169563293

01:47:36.410 --> 01:47:38.708 and so in many cases pediatric

NOTE Confidence: 0.910325169563293

01:47:38.708 --> 01:47:40.639 practices have already had very

NOTE Confidence: 0.910325169563293

01:47:40.639 --> 01:47:42.900 long waiting list to get end long

NOTE Confidence: 0.910325169563293

01:47:42.900 --> 01:47:45.028 waits for patients to get into,

NOTE Confidence: 0.910325169563293

01:47:45.030 --> 01:47:47.184 but their studies done and now

NOTE Confidence: 0.910325169563293

01:47:47.184 --> 01:47:49.332 they have been made even longer,

NOTE Confidence: 0.910325169563293

01:47:49.340 --> 01:47:51.846 and so I think that's an issue.

NOTE Confidence: 0.910325169563293

01:47:51.850 --> 01:47:54.088 Another issue is even simple things

NOTE Confidence: 0.910325169563293

01:47:54.088 --> 01:47:56.005 for children having their health

NOTE Confidence: 0.910325169563293

01:47:56.005 --> 01:47:58.171 care providers be wearing masks so

NOTE Confidence: 0.910325169563293

01:47:58.171 --> 01:48:00.306 that their police cannot be seen

NOTE Confidence: 0.910325169563293

01:48:00.306 --> 01:48:02.286 can change the experience for the

NOTE Confidence: 0.910325169563293

01:48:02.286 --> 01:48:04.440 child coming in for the study.

NOTE Confidence: 0.910325169563293

01:48:04.440 --> 01:48:05.736 Can be very frightening,

NOTE Confidence: 0.910325169563293

01:48:05.736 --> 01:48:06.708 and In addition,

NOTE Confidence: 0.910325169563293

01:48:06.710 --> 01:48:07.370 of course,

NOTE Confidence: 0.910325169563293

01:48:07.370 --> 01:48:09.350 when you have a child coming

NOTE Confidence: 0.910325169563293

01:48:09.350 --> 01:48:11.570 into your clinic or to your lab,

NOTE Confidence: 0.910325169563293

01:48:11.570 --> 01:48:13.838 you don't have one individual coming in.

NOTE Confidence: 0.910325169563293

01:48:13.840 --> 01:48:15.092 You have minimum too,

NOTE Confidence: 0.910325169563293

01:48:15.092 --> 01:48:16.970 so there's also the family member

NOTE Confidence: 0.910325169563293

01:48:17.035 --> 01:48:17.719 to consider.

NOTE Confidence: 0.910325169563293

01:48:17.720 --> 01:48:19.946 And when we talk about screening for

NOTE Confidence: 0.910325169563293

01:48:19.946 --> 01:48:21.933 symptoms or doing testing for individuals

NOTE Confidence: 0.910325169563293

01:48:21.933 --> 01:48:23.880 before coming in for their studies,

NOTE Confidence: 0.910325169563293

01:48:23.880 --> 01:48:24.530 for example,

NOTE Confidence: 0.910325169563293

01:48:24.530 --> 01:48:26.738 we have to think about what is going

NOTE Confidence: 0.910325169563293

01:48:26.738 --> 01:48:29.161 to be the pathway to be considering

NOTE Confidence: 0.910325169563293

01:48:29.161 --> 01:48:31.357 that family member who is going

NOTE Confidence: 0.910325169563293

01:48:31.357 --> 01:48:33.597 to be coming in with the patient.

NOTE Confidence: 0.910325169563293

01:48:33.600 --> 01:48:35.889 Do we even know who the family?

NOTE Confidence: 0.910325169563293

01:48:35.890 --> 01:48:37.864 Number is he's coming in and where

NOTE Confidence: 0.910325169563293

01:48:37.864 --> 01:48:40.518 where do we stand and being able to

NOTE Confidence: 0.910325169563293

01:48:40.518 --> 01:48:42.263 collect that type of information?

NOTE Confidence: 0.910325169563293

01:48:42.270 --> 01:48:45.454 And then what do we do once we get the

NOTE Confidence: 0.910325169563293

01:48:45.454 --> 01:48:47.362 information? So there's a lot there.

NOTE Confidence: 0.910325169563293

01:48:47.370 --> 01:48:49.290 Another thing to get back to?

NOTE Confidence: 0.910325169563293

01:48:49.290 --> 01:48:50.750 Mirrors point about 9.

NOTE Confidence: 0.910325169563293

01:48:50.750 --> 01:48:52.372 Non apnea, non breathing.

NOTE Confidence: 0.910325169563293

01:48:52.372 --> 01:48:53.264 Related disorders.

NOTE Confidence: 0.910325169563293

01:48:53.264 --> 01:48:55.048 Young people in particular,

NOTE Confidence: 0.910325169563293

01:48:55.050 --> 01:48:57.770 oftentimes at this might be the age

NOTE Confidence: 0.910325169563293

01:48:57.770 --> 01:49:00.359 range where you say hypersomnia central

NOTE Confidence: 0.910325169563293

01:49:00.359 --> 01:49:03.078 hypersomnia's present, such as narcolepsy.

NOTE Confidence: 0.910325169563293

01:49:03.078 --> 01:49:03.970 Type one.

NOTE Confidence: 0.910325169563293

01:49:03.970 --> 01:49:06.748 These individuals are going to are.

NOTE Confidence: 0.910325169563293

01:49:06.750 --> 01:49:07.376 You know,

NOTE Confidence: 0.910325169563293

01:49:07.376 --> 01:49:09.180 often worked up with an MSLT,

NOTE Confidence: 0.910325169563293

01:49:09.180 --> 01:49:11.802 and so in a smaller lab you have to

NOTE Confidence: 0.910325169563293

01:49:11.802 --> 01:49:13.932 think about what's your protocol for

NOTE Confidence: 0.910325169563293

01:49:13.932 --> 01:49:16.544 being able to turn over that room in

NOTE Confidence: 0.910325169563293

01:49:16.544 --> 01:49:18.644 a sanitary way to get it prepared

NOTE Confidence: 0.910325169563293

01:49:18.644 --> 01:49:20.516 for the next patient coming answers.

NOTE Confidence: 0.910325169563293

01:49:20.520 --> 01:49:22.090 A lot of unique issues.

NOTE Confidence: 0.910325169563293

01:49:22.090 --> 01:49:22.402 Again,

NOTE Confidence: 0.910325169563293

01:49:22.402 --> 01:49:23.650 they're facing all labs,

NOTE Confidence: 0.910325169563293

01:49:23.650 --> 01:49:25.841 but in particular we have to think

NOTE Confidence: 0.910325169563293

01:49:25.841 --> 01:49:26.467 about children,

NOTE Confidence: 0.910325169563293

01:49:26.470 --> 01:49:28.654 and I wouldn't say it's the case.

NOTE Confidence: 0.910325169563293

01:49:28.660 --> 01:49:31.156 I know early on there was this discussion.

NOTE Confidence: 0.910325169563293

01:49:31.160 --> 01:49:31.473 Well,

NOTE Confidence: 0.910325169563293

01:49:31.473 --> 01:49:33.351 children don't seem to be affected

NOTE Confidence: 0.910325169563293

01:49:33.351 --> 01:49:33.977 by coronavirus,

NOTE Confidence: 0.910325169563293

01:49:33.980 --> 01:49:36.227 but I you know there are also

NOTE Confidence: 0.910325169563293

01:49:36.227 --> 01:49:37.800 reports that there is very.

NOTE Confidence: 0.910325169563293

01:49:37.800 --> 01:49:40.236 A very serious syndromic multi organ

NOTE Confidence: 0.910325169563293

01:49:40.236 --> 01:49:42.498 system illness that can resolve and

NOTE Confidence: 0.910325169563293

01:49:42.498 --> 01:49:45.180 we have to be aware of that as well.

NOTE Confidence: 0.910325169563293

01:49:45.180 --> 01:49:47.260 These kids might not present,

NOTE Confidence: 0.910325169563293

01:49:47.260 --> 01:49:47.670 typically.

NOTE Confidence: 0.799634039402008

01:49:48.930 --> 01:49:51.430 Our children having more home

NOTE Confidence: 0.799634039402008

01:49:51.430 --> 01:49:53.430 studies, now you know.

NOTE Confidence: 0.917319595813751

01:49:53.430 --> 01:49:55.620 You know there's good question.

NOTE Confidence: 0.917319595813751

01:49:55.620 --> 01:49:58.455 I'd love to hear from what's happening

NOTE Confidence: 0.917319595813751

01:49:58.455 --> 01:50:01.299 at the panelists institution for sure.

NOTE Confidence: 0.917319595813751

01:50:01.300 --> 01:50:03.304 Uhm, in my practice,

NOTE Confidence: 0.917319595813751

01:50:03.304 --> 01:50:06.310 children are being diagnosed in laboratory.

NOTE Confidence: 0.917319595813751

01:50:06.310 --> 01:50:08.060 And so if there are suspected to

NOTE Confidence: 0.917319595813751

01:50:08.060 --> 01:50:09.810 have a sleep related breathing

NOTE Confidence: 0.917319595813751

01:50:09.810 --> 01:50:10.686 disorder movement disorder,

NOTE Confidence: 0.917319595813751

01:50:10.686 --> 01:50:12.148 they're coming into the lab

NOTE Confidence: 0.917319595813751

01:50:12.148 --> 01:50:13.608 and having in lab testing.

NOTE Confidence: 0.829925954341888

01:50:14.790 --> 01:50:15.998 Agree the same here.

NOTE Confidence: 0.828090031941732

01:50:16.560 --> 01:50:19.446 Yeah. Yeah, we're we're in lab,

NOTE Confidence: 0.828090031941732

01:50:19.450 --> 01:50:20.900 although I certainly question

NOTE Confidence: 0.828090031941732

01:50:20.900 --> 01:50:22.904 for the older kids point.

NOTE Confidence: 0.828090031941732

01:50:22.904 --> 01:50:25.880 Are they the same as adults? Yeah

NOTE Confidence: 0.861549198627472

01:50:25.880 --> 01:50:29.295 there uh at shop as well. It's in lab.

NOTE Confidence: 0.861549198627472

01:50:29.295 --> 01:50:32.245 There was some talk about some of the

NOTE Confidence: 0.861549198627472

01:50:32.245 --> 01:50:35.005 older kids possibly doing home studies,

NOTE Confidence: 0.861549198627472

01:50:35.010 --> 01:50:36.990 but that hasn't been formalized.

NOTE Confidence: 0.88979035615921

01:50:39.240 --> 01:50:42.480 And I think this is again work for the pair

NOTE Confidence: 0.88979035615921

01:50:42.480 --> 01:50:43.776 Policy Committee as well.

NOTE Confidence: 0.88979035615921

01:50:43.776 --> 01:50:45.720 Yeah, and I don't believe doctor

NOTE Confidence: 0.88979035615921

01:50:45.720 --> 01:50:47.340 remark and coming on this,

NOTE Confidence: 0.88979035615921

01:50:47.340 --> 01:50:49.194 but I don't believe there's any

NOTE Confidence: 0.88979035615921

01:50:49.194 --> 01:50:50.829 pathway for diagnosis that supported

NOTE Confidence: 0.88979035615921

01:50:50.829 --> 01:50:52.519 through the Academy via home

NOTE Confidence: 0.88979035615921

01:50:52.520 --> 01:50:53.820 testing. That's true. You're

NOTE Confidence: 0.88979035615921

01:50:53.820 --> 01:50:57.726 right, there is none at this point.

NOTE Confidence: 0.88979035615921

01:50:57.730 --> 01:51:00.364 Yeah, I think through this alone, but in

NOTE Confidence: 0.88979035615921

01:51:00.364 --> 01:51:03.669 terms of what else can we do to help in

NOTE Confidence: 0.889486074447632

01:51:03.670 --> 01:51:05.058 the mean time, Yeah?

NOTE Confidence: 0.889486074447632

01:51:05.058 --> 01:51:07.140 As I've been hearing everybody speak,

NOTE Confidence: 0.889486074447632

01:51:07.140 --> 01:51:08.920 I think that change happens

NOTE Confidence: 0.889486074447632

01:51:08.920 --> 01:51:10.700 through drift and through Swift,

NOTE Confidence: 0.889486074447632

01:51:10.700 --> 01:51:12.737 and this is one of those times

NOTE Confidence: 0.889486074447632

01:51:12.737 --> 01:51:15.621 were in a shift and so it's an

NOTE Confidence: 0.889486074447632

01:51:15.621 --> 01:51:17.551 enormous opportunity as a number

NOTE Confidence: 0.889486074447632

01:51:17.630 --> 01:51:19.600 of people have pointed out,

NOTE Confidence: 0.889486074447632

01:51:19.600 --> 01:51:22.498 and I hope that we as a field can

NOTE Confidence: 0.889486074447632

01:51:22.498 --> 01:51:24.811 take advantage of this time of

NOTE Confidence: 0.889486074447632

01:51:24.811 --> 01:51:28.193 shift to be able to do what we know

NOTE Confidence: 0.889486074447632

01:51:28.193 --> 01:51:30.635 how to do best and really build

NOTE Confidence: 0.889486074447632

01:51:30.635 --> 01:51:32.410 on efficiencies for our patients

NOTE Confidence: 0.866917580366135

01:51:32.410 --> 01:51:34.498 of all ages. Yeah,

NOTE Confidence: 0.718809485435486

01:51:34.500 --> 01:51:37.970 let's try Colburn, it's hot. And it's

NOTE Confidence: 0.922092139720917

01:51:37.970 --> 01:51:39.530 the time to collect data.

NOTE Confidence: 0.922092139720917

01:51:39.530 --> 01:51:41.690 We might not get because we are forced

NOTE Confidence: 0.922092139720917

01:51:41.690 --> 01:51:44.206 to do things we wouldn't normally do.

NOTE Confidence: 0.922092139720917

01:51:44.210 --> 01:51:46.154 So you know, I do think if there

NOTE Confidence: 0.922092139720917

01:51:46.154 --> 01:51:48.179 can be thoughts of what are

NOTE Confidence: 0.922092139720917

01:51:48.179 --> 01:51:49.651 these practice questions that

NOTE Confidence: 0.922092139720917

01:51:49.651 --> 01:51:51.700 we can't get in normal times,

NOTE Confidence: 0.922092139720917

01:51:51.700 --> 01:51:53.210 but might people might have

NOTE Confidence: 0.922092139720917

01:51:53.210 --> 01:51:55.130 been trying out in these times,

NOTE Confidence: 0.922092139720917

01:51:55.130 --> 01:51:57.314 can we ask to you know to get

NOTE Confidence: 0.922092139720917

01:51:57.314 --> 01:51:59.414 that data and let people know

NOTE Confidence: 0.922092139720917

01:51:59.414 --> 01:52:01.640 what we're interested in and then

NOTE Confidence: 0.922092139720917

01:52:01.710 --> 01:52:03.871 try to see if it does make sense

NOTE Confidence: 0.922092139720917

01:52:03.871 --> 01:52:05.737 to change some of the way

NOTE Confidence: 0.922092139720917

01:52:05.740 --> 01:52:07.924 we're doing things in the long term.

NOTE Confidence: 0.898207545280457

01:52:09.830 --> 01:52:12.000 So I do as less

NOTE Confidence: 0.898207545280457

01:52:12.000 --> 01:52:13.736 as anyone else. Have.

NOTE Confidence: 0.898207545280457

01:52:13.736 --> 01:52:16.339 Any lungs comments? We are at

NOTE Confidence: 0.898207545280457

01:52:16.340 --> 01:52:18.080 355, just a quick

NOTE Confidence: 0.898207545280457

01:52:18.080 --> 01:52:20.950 a comment. There were a couple of

NOTE Confidence: 0.898207545280457

01:52:20.950 --> 01:52:23.396 questions about screening and how do

NOTE Confidence: 0.898207545280457

01:52:23.396 --> 01:52:25.688 you specifically screen and the ASM

NOTE Confidence: 0.898207545280457

01:52:25.688 --> 01:52:27.648 document the mitigation strategies

NOTE Confidence: 0.898207545280457

01:52:27.648 --> 01:52:30.660 document online has details about that.

NOTE Confidence: 0.898207545280457

01:52:30.660 --> 01:52:33.644 So the questions to ask is what the

NOTE Confidence: 0.898207545280457

01:52:33.644 --> 01:52:36.738 CDC has specific questions to ask,

NOTE Confidence: 0.898207545280457

01:52:36.740 --> 01:52:38.814 common symptoms, shortness of breath,

NOTE Confidence: 0.898207545280457

01:52:38.814 --> 01:52:39.502 cough, fever.

NOTE Confidence: 0.898207545280457

01:52:39.502 --> 01:52:42.390 Loss of sense of smell and so forth,

NOTE Confidence: 0.898207545280457

01:52:42.390 --> 01:52:44.588 and an actual testing of testing is

NOTE Confidence: 0.898207545280457

01:52:44.588 --> 01:52:46.859 available that should be implemented as well.

NOTE Confidence: 0.898207545280457

01:52:46.860 --> 01:52:48.995 And there's a schedule for when to

NOTE Confidence: 0.898207545280457

01:52:48.995 --> 01:52:51.048 do patients and also technologists

NOTE Confidence: 0.898207545280457

01:52:51.048 --> 01:52:52.659 with temperature screens.

NOTE Confidence: 0.898207545280457

01:52:52.660 --> 01:52:53.500 And the

NOTE Confidence: 0.885919213294983

01:52:53.500 --> 01:52:55.415 other last comments. Otherwise I

NOTE Confidence: 0.885919213294983

01:52:55.415 --> 01:52:58.110 want to thank all our panelists.

NOTE Confidence: 0.885919213294983

01:52:58.110 --> 01:53:00.618 Um, thank you for coming out.

NOTE Confidence: 0.885919213294983

01:53:00.620 --> 01:53:04.382 And in two hours of time with us today.

NOTE Confidence: 0.885919213294983

01:53:04.390 --> 01:53:06.490 And thank you, I think

NOTE Confidence: 0.885919213294983

01:53:06.490 --> 01:53:08.998 we still had almost 200 people

NOTE Confidence: 0.885919213294983

01:53:09.000 --> 01:53:11.932 at the at the end of this.

NOTE Confidence: 0.885919213294983

01:53:11.932 --> 01:53:14.870 So thanks to all the participants and

NOTE Confidence: 0.885919213294983

01:53:14.870 --> 01:53:18.180 till next time. Thank you very much.

NOTE Confidence: 0.893552839756012

01:53:18.180 --> 01:53:20.730 Bye bye everybody, thank you.
