

WEBVTT

NOTE duration:"00:02:40.852000"

NOTE recognizability:0.902

NOTE language:en-us

NOTE Confidence: 0.901608500000001

00:00:00.000 --> 00:00:03.087 So the PROSPER study is a newly

NOTE Confidence: 0.901608500000001

00:00:03.087 --> 00:00:05.593 funded project that we are very

NOTE Confidence: 0.901608500000001

00:00:05.593 --> 00:00:08.782 excited about as a way to have a

NOTE Confidence: 0.901608500000001

00:00:08.782 --> 00:00:11.552 scalable solution for navigation for

NOTE Confidence: 0.901608500000001

00:00:11.552 --> 00:00:14.550 patients with early onset cancers.

NOTE Confidence: 0.901608500000001

00:00:14.550 --> 00:00:17.598 So this particular study team is very broad

NOTE Confidence: 0.901608500000001

00:00:17.598 --> 00:00:20.210 and includes expertise from physicians,

NOTE Confidence: 0.901608500000001

00:00:20.210 --> 00:00:22.390 from researchers and from patients

NOTE Confidence: 0.901608500000001

00:00:22.390 --> 00:00:23.698 and advocates themselves.

NOTE Confidence: 0.901608500000001

00:00:23.700 --> 00:00:26.402 So the expertise that we have on

NOTE Confidence: 0.901608500000001

00:00:26.402 --> 00:00:28.929 this team includes medical oncology,

NOTE Confidence: 0.901608500000001

00:00:28.930 --> 00:00:30.730 radiation oncology, cancer genetics,

NOTE Confidence: 0.901608500000001

00:00:30.730 --> 00:00:32.530 community outreach and engagement.

NOTE Confidence: 0.901608500000001

00:00:32.530 --> 00:00:33.322 Disparities research,
NOTE Confidence: 0.901608500000001

00:00:33.322 --> 00:00:34.510 population science research,
NOTE Confidence: 0.901608500000001

00:00:34.510 --> 00:00:37.317 social work and really from the psychosocial
NOTE Confidence: 0.901608500000001

00:00:37.317 --> 00:00:39.639 needs perspective of patients as well.
NOTE Confidence: 0.901608500000001

00:00:39.640 --> 00:00:42.552 So we're very excited to engage a
NOTE Confidence: 0.901608500000001

00:00:42.552 --> 00:00:45.595 very diverse team for the prosperous
NOTE Confidence: 0.901608500000001

00:00:45.595 --> 00:00:48.450 study for really meaningful outcomes.
NOTE Confidence: 0.901608500000001

00:00:48.450 --> 00:00:50.694 The E navigation tool or electronic
NOTE Confidence: 0.901608500000001

00:00:50.694 --> 00:00:52.926 navigation tool is one of the
NOTE Confidence: 0.901608500000001

00:00:52.926 --> 00:00:54.936 exciting novel aspects of our program
NOTE Confidence: 0.901608500000001

00:00:54.936 --> 00:00:57.247 for the early onset cancer program
NOTE Confidence: 0.901608500000001

00:00:57.247 --> 00:00:59.605 and also for the prosperous study.
NOTE Confidence: 0.901608500000001

00:00:59.610 --> 00:01:01.782 The reason that we are developing
NOTE Confidence: 0.901608500000001

00:01:01.782 --> 00:01:03.959 this E navigation tool is because
NOTE Confidence: 0.901608500000001

00:01:03.959 --> 00:01:06.269 we know that we need a scalable
NOTE Confidence: 0.901608500000001

00:01:06.269 --> 00:01:08.345 solution for navigation of patients

NOTE Confidence: 0.901608500000001
00:01:08.345 --> 00:01:10.025 with early onset cancers.
NOTE Confidence: 0.901608500000001
00:01:10.030 --> 00:01:12.064 Another benefit of an eye navigation
NOTE Confidence: 0.901608500000001
00:01:12.064 --> 00:01:14.860 tool is that it can be self-directed,
NOTE Confidence: 0.901608500000001
00:01:14.860 --> 00:01:17.506 so a person can be using the
NOTE Confidence: 0.901608500000001
00:01:17.506 --> 00:01:19.540 tool on their own time.
NOTE Confidence: 0.901608500000001
00:01:19.540 --> 00:01:20.968 With those specific questions
NOTE Confidence: 0.901608500000001
00:01:20.968 --> 00:01:22.753 and needs that they have,
NOTE Confidence: 0.901608500000001
00:01:22.760 --> 00:01:25.973 so it can be much more personalized as well.
NOTE Confidence: 0.901608500000001
00:01:25.980 --> 00:01:28.318 So we're very excited to develop this
NOTE Confidence: 0.901608500000001
00:01:28.318 --> 00:01:30.467 E navigation tool which will have
NOTE Confidence: 0.901608500000001
00:01:30.467 --> 00:01:32.621 modules of information that are relevant
NOTE Confidence: 0.901608500000001
00:01:32.621 --> 00:01:34.928 to what patients might be seeking.
NOTE Confidence: 0.901608500000001
00:01:34.930 --> 00:01:35.821 So for example,
NOTE Confidence: 0.901608500000001
00:01:35.821 --> 00:01:37.603 where are there resources to help
NOTE Confidence: 0.901608500000001
00:01:37.603 --> 00:01:39.670 with financial concerns or insurance
NOTE Confidence: 0.901608500000001

00:01:39.670 --> 00:01:41.378 concerns for their healthcare?
NOTE Confidence: 0.901608500000001

00:01:41.380 --> 00:01:43.040 Are there resources available for
NOTE Confidence: 0.901608500000001

00:01:43.040 --> 00:01:45.525 childcare or helping to deal with family
NOTE Confidence: 0.901608500000001

00:01:45.525 --> 00:01:47.817 responsibilities that an individual may have?
NOTE Confidence: 0.901608500000001

00:01:47.820 --> 00:01:49.660 What are the resources for
NOTE Confidence: 0.901608500000001

00:01:49.660 --> 00:01:50.396 fertility concerns?
NOTE Confidence: 0.901608500000001

00:01:50.400 --> 00:01:52.350 Or sexuality medicine and in addition,
NOTE Confidence: 0.901608500000001

00:01:52.350 --> 00:01:54.065 lots of resources for transportation
NOTE Confidence: 0.901608500000001

00:01:54.065 --> 00:01:56.134 needs and really thinking about coping
NOTE Confidence: 0.901608500000001

00:01:56.134 --> 00:01:57.922 with cancer from a mental health
NOTE Confidence: 0.901608500000001

00:01:57.922 --> 00:01:59.513 perspective as well as alternative
NOTE Confidence: 0.901608500000001

00:01:59.513 --> 00:02:01.128 strategies that might be really
NOTE Confidence: 0.901608500000001

00:02:01.128 --> 00:02:03.075 important to help with cope with
NOTE Confidence: 0.901608500000001

00:02:03.075 --> 00:02:04.700 cancer such as meditation techniques,
NOTE Confidence: 0.901608500000001

00:02:04.700 --> 00:02:05.344 et cetera.
NOTE Confidence: 0.901608500000001

00:02:05.344 --> 00:02:07.598 So we're very excited to develop about

NOTE Confidence: 0.901608500000001
00:02:07.598 --> 00:02:09.966 a very novel E navigation tool that
NOTE Confidence: 0.901608500000001
00:02:09.966 --> 00:02:12.278 covers all of this information in one
NOTE Confidence: 0.901608500000001
00:02:12.278 --> 00:02:14.783 place that a patient can go to with
NOTE Confidence: 0.901608500000001
00:02:14.783 --> 00:02:16.781 an early onset cancer diagnosis to
NOTE Confidence: 0.901608500000001
00:02:16.781 --> 00:02:18.679 get some information that they need.
NOTE Confidence: 0.901608500000001
00:02:18.680 --> 00:02:20.340 A really important aspect is
NOTE Confidence: 0.901608500000001
00:02:20.340 --> 00:02:22.000 that we're planning to do.
NOTE Confidence: 0.901608500000001
00:02:22.000 --> 00:02:23.530 Develop this in multiple languages,
NOTE Confidence: 0.901608500000001
00:02:23.530 --> 00:02:25.216 so if English is not the
NOTE Confidence: 0.901608500000001
00:02:25.216 --> 00:02:26.880 primary language for a patient,
NOTE Confidence: 0.901608500000001
00:02:26.880 --> 00:02:28.314 we still want to resource that
NOTE Confidence: 0.901608500000001
00:02:28.314 --> 00:02:30.032 is going to be really important
NOTE Confidence: 0.901608500000001
00:02:30.032 --> 00:02:32.138 for them and meaningful to engage
NOTE Confidence: 0.901608500000001
00:02:32.138 --> 00:02:33.590 patients across the spectrum.
