NOTE duration:"00:01:38.8800000"

NOTE recognizability:0.880

NOTE language:en-us

NOTE Confidence: 0.88002205

00:00:00.000 --> 00:00:02.928 It is so important to address

NOTE Confidence: 0.88002205

00:00:02.928 --> 00:00:06.309 disparities when it comes to cancer care,

NOTE Confidence: 0.88002205

00:00:06.310 --> 00:00:08.175 and this actually is incredibly

NOTE Confidence: 0.88002205

00:00:08.175 --> 00:00:10.040 important when we think about

NOTE Confidence: 0.88002205

00:00:10.107 --> 00:00:12.187 patients with early onset cancers.

NOTE Confidence: 0.88002205

00:00:12.190 --> 00:00:14.235 We know that minority underserved

NOTE Confidence: 0.88002205

00:00:14.235 --> 00:00:15.871 populations really struggle with

NOTE Confidence: 0.88002205

00:00:15.871 --> 00:00:17.667 many aspects of cancer care,

NOTE Confidence: 0.88002205

00:00:17.670 --> 00:00:19.630 whether it's access to care,

NOTE Confidence: 0.88002205

00:00:19.630 --> 00:00:21.988 whether it is the psychosocial needs,

NOTE Confidence: 0.88002205

00:00:21.990 --> 00:00:24.336 whether it is their socioeconomic needs,

NOTE Confidence: 0.88002205

00:00:24.340 --> 00:00:26.902 and really just in terms of relatability

NOTE Confidence: 0.88002205

00:00:26.902 --> 00:00:28.917 about what they're experiencing from

NOTE Confidence: 0.88002205

00:00:28.917 --> 00:00:31.473 their own cancer diagnosis and their.
NOTE Confidence: 0.88002205

00:00:31.480 --> 00:00:33.322 Cancer journey and we really want
NOTE Confidence: 0.88002205

00:00:33.322 --> 00:00:35.645 this to be across the spectrum from
NOTE Confidence: 0.88002205

00:00:35.645 --> 00:00:37.703 the beginning of a cancer diagnosis
NOTE Confidence: 0.88002205

00:00:37.703 --> 00:00:39.613 all the way into survivorship
NOTE Confidence: 0.88002205

00:00:39.613 --> 00:00:41.488 across the board for patients.
NOTE Confidence: 0.88002205

00:00:41.490 --> 00:00:43.946 So we really want to ensure that we're
NOTE Confidence: 0.88002205

00:00:43.946 --> 00:00:46.140 addressing the needs of patients that
NOTE Confidence: 0.88002205

00:00:46.140 --> 00:00:48.040 are coming from diverse communities,
NOTE Confidence: 0.88002205

00:00:48.040 --> 00:00:49.075 from underserved populations
NOTE Confidence: 0.88002205

00:00:49.075 --> 00:00:50.455 and from minority populations.
NOTE Confidence: 0.88002205

00:00:50.460 --> 00:00:52.609 So the PROSPER study has really been
NOTE Confidence: 0.88002205

00:00:52.609 --> 00:00:55.128 designed to address the needs of minority
NOTE Confidence: 0.88002205

00:00:55.128 --> 00:00:56.664 and underserved populations first.
NOTE Confidence: 0.88002205

00:00:56.670 --> 00:00:58.756 So we are looking at patients that
NOTE Confidence: 0.88002205

00:00:58.756 --> 00:01:01.150 have an early onset cancer diagnosis,

NOTE Confidence: 0.88002205

00:01:01.150 --> 00:01:03.050 whether it's breast cancer or.

NOTE Confidence: 0.88002205

00:01:03.050 --> 00:01:03.812 Colorectal cancer,

NOTE Confidence: 0.88002205

00:01:03.812 --> 00:01:05.717 pancreatic cancer or prostate cancer

NOTE Confidence: 0.88002205

00:01:05.717 --> 00:01:08.202 and who are from black or African

NOTE Confidence: 0.88002205

00:01:08.202 --> 00:01:10.116 ancestry and also Hispanic Latin X

NOTE Confidence: 0.88002205

00:01:10.176 --> 00:01:12.000 or Spanish speaking individuals.

NOTE Confidence: 0.88002205

00:01:12.000 --> 00:01:14.064 And we're very excited to partner

NOTE Confidence: 0.88002205

00:01:14.064 --> 00:01:16.277 with our groups in the community

NOTE Confidence: 0.88002205

00:01:16.277 --> 00:01:18.581 to help really understand the needs

NOTE Confidence: 0.88002205

00:01:18.581 --> 00:01:21.301 of these individuals to be able to

NOTE Confidence: 0.88002205

00:01:21.301 --> 00:01:23.186 really bring forth programs and

NOTE Confidence: 0.88002205

00:01:23.190 --> 00:01:25.060 tools that are really meaningful,

NOTE Confidence: 0.88002205

00:01:25.060 --> 00:01:26.645 impactful and can really make

NOTE Confidence: 0.88002205

00:01:26.645 --> 00:01:28.731 a difference in terms of their

NOTE Confidence: 0.88002205

00:01:28.731 --> 00:01:30.901 cancer treatment and their journey

NOTE Confidence: 0.88002205

00:01:30.901 --> 00:01:31.769 into survivorship.
