NOTE recognizability:0.839

NOTE language:en-us

NOTE Confidence: 0.77236456

00:00:02.350 --> 00:00:05.360 People get the MRA injections for their

NOTE Confidence: 0.781669

00:00:05.360 --> 00:00:08.490 vaccine in their deltoid. So

NOTE Confidence: 0.81888676

00:00:08.490 --> 00:00:11.220 they tend to think many people that

NOTE Confidence: 0.81888676

00:00:11.220 --> 00:00:14.559 the M RNA is doing this by itself.

NOTE Confidence: 0.81888676

00:00:14.560 --> 00:00:16.834 The mRNA does nothing by itself

NOTE Confidence: 0.81888676

00:00:16.834 --> 00:00:18.867 unless it finds the right

NOTE Confidence: 0.81888676

00:00:18.867 --> 00:00:21.037 cellular partner to get into,

NOTE Confidence: 0.81888676

00:00:21.040 --> 00:00:23.470 because the M RNA needs to

NOTE Confidence: 0.81888676

00:00:23.470 --> 00:00:25.090 cellular machine the cells

NOTE Confidence: 0.81888676

00:00:25.090 --> 00:00:27.950 machinery to do anything.

NOTE Confidence: 0.84507734

00:00:27.950 --> 00:00:30.890 The right partner is the dendritic cell.

NOTE Confidence: 0.84507734

00:00:30.890 --> 00:00:34.906 It's a dendritic cell that works in patients.

NOTE Confidence: 0.84507734

00:00:34.910 --> 00:00:37.580 We've demonstrated that. These

NOTE Confidence: 0.9106236

00:00:37.580 --> 00:00:41.800 are huge hurdles. They're gone.

NOTE Confidence: 0.9106236

00:00:41.800 --> 00:00:43.990 There are huge hurdles ahead

NOTE Confidence: 0.8889507

00:00:43.990 --> 00:00:46.170 but we are running fast.

NOTE Confidence: 0.8889507

00:00:46.170 --> 00:00:47.918 We're coming down the

NOTE Confidence: 0.8889507

00:00:47.920 --> 00:00:50.100 hill from the previous ones.

NOTE Confidence: 0.8889507

00:00:50.100 --> 00:00:51.456 They've got momentum.
