NOTE duration:"01:01:05"

NOTE recognizability:0.876

NOTE language:en-us

NOTE Confidence: 0.944051199166667

00:00:00.000 --> 00:00:03.171 Hi folks. I am coming to you

NOTE Confidence: 0.944051199166667

00:00:03.171 --> 00:00:06.245 live from just getting off I-95,

NOTE Confidence: 0.944051199166667

00:00:06.245 --> 00:00:09.360 so if I seem a little distracted,

NOTE Confidence: 0.944051199166667

00:00:09.360 --> 00:00:13.480 please give me your forbearance.

NOTE Confidence: 0.944051199166667

00:00:13.480 --> 00:00:16.154 We have a great agenda this evening.

NOTE Confidence: 0.944051199166667

00:00:16.160 --> 00:00:18.392 Tracy and I will be giving

NOTE Confidence: 0.944051199166667

00:00:18.392 --> 00:00:19.880 our usual clinical updates.

NOTE Confidence: 0.944051199166667

00:00:19.880 --> 00:00:23.120 We have a terrific and timely

NOTE Confidence: 0.944051199166667

00:00:23.120 --> 00:00:25.280 presentation on Workplace safety

NOTE Confidence: 0.944051199166667

00:00:25.280 --> 00:00:28.731 and we will be hearing from our

NOTE Confidence: 0.944051199166667

00:00:28.731 --> 00:00:30.959 multidisciplinary team who will be

NOTE Confidence: 0.944051199166667

00:00:30.959 --> 00:00:33.982 sharing details about our rapidly

NOTE Confidence: 0.944051199166667

00:00:33.982 --> 00:00:35.764 developing multidisciplinary

NOTE Confidence: 0.944051199166667

00:00:35.764 --> 00:00:38.437 cellular therapy program.
NOTE Confidence: 0.944051199166667

00:00:38.440 --> 00:00:41.086 I'm going to jump right into the
NOTE Confidence: 0.944051199166667

00:00:41.086 --> 00:00:43.486 the clinical updates and details and
NOTE Confidence: 0.944051199166667

00:00:43.486 --> 00:00:46.734 I'm going to say one of the things
NOTE Confidence: 0.944051199166667

00:00:46.734 --> 00:00:50.483 that I am I enjoy most and is most
NOTE Confidence: 0.944051199166667

00:00:50.483 --> 00:00:53.250 gratifying is welcoming new faculty
NOTE Confidence: 0.944051199166667

00:00:53.250 --> 00:00:56.280 and experts to the Cancer Center.
NOTE Confidence: 0.944051199166667

00:00:56.280 --> 00:00:58.947 And I am particularly excited to share
NOTE Confidence: 0.944051199166667

00:00:58.947 --> 00:01:01.903 news of the arrival of Doctor Tracy
NOTE Confidence: 0.944051199166667

00:01:01.903 --> 00:01:05.120 Battaglia to Smilo and the Cancer Center.
NOTE Confidence: 0.96667261

00:01:07.760 --> 00:01:10.160 And I can't tell since I'm
NOTE Confidence: 0.96667261

00:01:10.160 --> 00:01:13.864 driving if Tracy's picture is up,
NOTE Confidence: 0.96667261

00:01:13.864 --> 00:01:16.072 but I hope that slides up.
NOTE Confidence: 0.96667261

00:01:16.080 --> 00:01:21.624 Tracy is a is a internist by clinical
NOTE Confidence: 0.96667261

00:01:21.624 --> 00:01:25.080 background, but she is also a
NOTE Confidence: 0.921361292666667

00:01:27.240 --> 00:01:30.378 a cancer care equity expert and

NOTE Confidence: 0.921361292666667
00:01:30.378 --> 00:01:33.222 researcher and an expert in
NOTE Confidence: 0.921361292666667
00:01:33.222 --> 00:01:35.838 clinical cancer care navigation.
NOTE Confidence: 0.921361292666667
00:01:35.840 --> 00:01:39.053 She comes to us from Boston University
NOTE Confidence: 0.921361292666667
00:01:39.053 --> 00:01:41.616 and Boston Medical Center where she
NOTE Confidence: 0.921361292666667
00:01:41.616 --> 00:01:44.142 was the Director of the Women's Health
NOTE Confidence: 0.921361292666667
00:01:44.142 --> 00:01:47.088 Initiative and also the Director of
NOTE Confidence: 0.921361292666667
00:01:47.088 --> 00:01:50.240 the Avon Breast Cancer Initiative.
NOTE Confidence: 0.921361292666667
00:01:50.240 --> 00:01:53.372 And I think Tracy's arrival is
NOTE Confidence: 0.921361292666667
00:01:53.372 --> 00:01:56.092 particularly timely as we have
NOTE Confidence: 0.921361292666667
00:01:56.092 --> 00:01:59.284 learned that CMS and major payers
NOTE Confidence: 0.921361292666667
00:01:59.284 --> 00:02:02.527 will be supporting reimbursement for
NOTE Confidence: 0.921361292666667
00:02:02.527 --> 00:02:05.635 cancer care navigation services.
NOTE Confidence: 0.921361292666667
00:02:05.640 --> 00:02:08.268 So I think her leadership and
NOTE Confidence: 0.921361292666667
00:02:08.268 --> 00:02:10.020 expertise combined with these
NOTE Confidence: 0.921361292666667
00:02:10.095 --> 00:02:12.285 additional resources will be a
NOTE Confidence: 0.921361292666667

00:02:12.285 --> 00:02:15.045 unique opportunity for us to augment
NOTE Confidence: 0.921361292666667

00:02:15.045 --> 00:02:17.520 these services for our patients.
NOTE Confidence: 0.921361292666667

00:02:17.520 --> 00:02:20.096 So I I think all of you will
NOTE Confidence: 0.921361292666667

00:02:20.096 --> 00:02:22.742 probably have a chance to meet Doctor
NOTE Confidence: 0.921361292666667

00:02:22.742 --> 00:02:25.215 Battaglia as she makes her rounds
NOTE Confidence: 0.921361292666667

00:02:25.215 --> 00:02:27.502 and the organization and please
NOTE Confidence: 0.921361292666667

00:02:27.502 --> 00:02:29.794 join me in in welcoming her.
NOTE Confidence: 0.899737789473684

00:02:33.240 --> 00:02:36.222 The next slide that I can't see
NOTE Confidence: 0.899737789473684

00:02:36.222 --> 00:02:39.714 but I think is probably up is
NOTE Confidence: 0.899737789473684

00:02:39.714 --> 00:02:42.354 our update on clinical trials.
NOTE Confidence: 0.899737789473684

00:02:42.360 --> 00:02:45.258 I think it is a good point in our
NOTE Confidence: 0.899737789473684

00:02:45.258 --> 00:02:48.020 history to show that we've really come
NOTE Confidence: 0.899737789473684

00:02:48.020 --> 00:02:50.332 through a very significant downturn
NOTE Confidence: 0.899737789473684

00:02:50.332 --> 00:02:53.728 in our clinical trials accrual and
NOTE Confidence: 0.899737789473684

00:02:53.728 --> 00:02:57.597 we are now on a significant upswing.
NOTE Confidence: 0.899737789473684

00:02:57.600 --> 00:02:59.976 And I'd like to give a big shout

NOTE Confidence: 0.899737789473684
00:02:59.976 --> 00:03:02.438 out and word of gratitude to Dr.
NOTE Confidence: 0.899737789473684
00:03:02.440 --> 00:03:04.925 Ian Crop, Alyssa Gateman and
NOTE Confidence: 0.899737789473684
00:03:04.925 --> 00:03:07.855 Adam Roschka who've LED A-Team,
NOTE Confidence: 0.899737789473684
00:03:07.855 --> 00:03:11.616 an expanding team of of the clinical
NOTE Confidence: 0.899737789473684
00:03:11.616 --> 00:03:15.046 trials staff as well as all of our
NOTE Confidence: 0.899737789473684
00:03:15.046 --> 00:03:17.779 investigators and division chiefs who
NOTE Confidence: 0.899737789473684
00:03:17.779 --> 00:03:20.857 have deployed A robust portfolio of
NOTE Confidence: 0.899737789473684
00:03:20.857 --> 00:03:24.516 trials and we're really putting patients on.
NOTE Confidence: 0.899737789473684
00:03:24.520 --> 00:03:26.844 So I think it's something we could
NOTE Confidence: 0.899737789473684
00:03:26.844 --> 00:03:28.680 all celebrate and be proud of.
NOTE Confidence: 0.886222127272727
00:03:31.760 --> 00:03:33.803 The other thing that I want to take a
NOTE Confidence: 0.886222127272727
00:03:33.803 --> 00:03:36.340 minute to, to call out and ask people
NOTE Confidence: 0.886222127272727
00:03:36.340 --> 00:03:40.416 to do if they have not already is to
NOTE Confidence: 0.886222127272727
00:03:40.416 --> 00:03:44.461 get on Toximity and vote of course for
NOTE Confidence: 0.886222127272727
00:03:44.461 --> 00:03:47.030 Smilo and Yale Cancer Center as the
NOTE Confidence: 0.886222127272727

00:03:47.113 --> 00:03:50.035 premier cancer treatment center on U.S.
NOTE Confidence: 0.886222127272727

00:03:50.040 --> 00:03:52.000 news and world reports.
NOTE Confidence: 0.886222127272727

00:03:52.000 --> 00:03:55.440 The Doximity voting is closing very soon.
NOTE Confidence: 0.886222127272727

00:03:55.440 --> 00:03:58.248 So I think that window of
NOTE Confidence: 0.886222127272727

00:03:58.248 --> 00:04:00.120 opportunity is rapidly closing.
NOTE Confidence: 0.886222127272727

00:04:00.120 --> 00:04:04.640 So please take the opportunity.
NOTE Confidence: 0.886222127272727

00:04:04.640 --> 00:04:06.140 So with that,
NOTE Confidence: 0.886222127272727

00:04:06.140 --> 00:04:09.120 I think I'll pass it over to you, Tracy.
NOTE Confidence: 0.927229485833334

00:04:11.040 --> 00:04:12.780 Thank you. So we just wanted
NOTE Confidence: 0.927229485833334

00:04:12.780 --> 00:04:14.679 to mention that on March 19th,
NOTE Confidence: 0.927229485833334

00:04:14.680 --> 00:04:17.200 we celebrated our certified nurses.
NOTE Confidence: 0.927229485833334

00:04:17.200 --> 00:04:19.468 It's it's a national day to celebrate
NOTE Confidence: 0.927229485833334

00:04:19.468 --> 00:04:20.924 certified nurses through the
NOTE Confidence: 0.927229485833334

00:04:20.924 --> 00:04:22.640 American Nurses Credentialing Center.
NOTE Confidence: 0.927229485833334

00:04:22.640 --> 00:04:26.371 And so we have over 200 certified
NOTE Confidence: 0.927229485833334

00:04:26.371 --> 00:04:29.371 registered nurses in our Smilo sites

NOTE Confidence: 0.927229485833334
00:04:29.371 --> 00:04:32.248 and organization and we have over 30
NOTE Confidence: 0.927229485833334
00:04:32.248 --> 00:04:35.640 AP PS with specialty certification.
NOTE Confidence: 0.927229485833334
00:04:35.640 --> 00:04:38.216 So those are really great numbers and we
NOTE Confidence: 0.927229485833334
00:04:38.216 --> 00:04:40.560 have continued to increase those each year.
NOTE Confidence: 0.927229485833334
00:04:40.560 --> 00:04:43.104 So thank you to all the nurses for
NOTE Confidence: 0.927229485833334
00:04:43.104 --> 00:04:45.889 all they do and the professionalism
NOTE Confidence: 0.927229485833334
00:04:45.889 --> 00:04:48.479 they bring with their certification.
NOTE Confidence: 0.927229485833334
00:04:48.480 --> 00:04:52.045 We also just want to mention that and
NOTE Confidence: 0.927229485833334
00:04:52.045 --> 00:04:54.475 thank the the cancer registry team.
NOTE Confidence: 0.927229485833334
00:04:54.480 --> 00:04:57.224 National Cancer Cancer Registrar
NOTE Confidence: 0.927229485833334
00:04:57.224 --> 00:05:00.765 Week is April 8th through the 12th
NOTE Confidence: 0.927229485833334
00:05:00.765 --> 00:05:04.320 and this is the team pictured here.
NOTE Confidence: 0.927229485833334
00:05:04.320 --> 00:05:07.635 The the registry team really plays
NOTE Confidence: 0.927229485833334
00:05:07.635 --> 00:05:09.948 a vital role in the fight against
NOTE Confidence: 0.927229485833334
00:05:09.948 --> 00:05:11.730 cancer and their work really helps
NOTE Confidence: 0.927229485833334

00:05:11.786 --> 00:05:13.326 to continuously improve the quality
NOTE Confidence: 0.927229485833334

00:05:13.326 --> 00:05:15.719 of care we provide to our patients
NOTE Confidence: 0.927229485833334

00:05:15.719 --> 00:05:16.916 across the organization.
NOTE Confidence: 0.927229485833334

00:05:16.920 --> 00:05:19.260 The cancer data that they collect
NOTE Confidence: 0.927229485833334

00:05:19.260 --> 00:05:21.092 helps provide valuable insights
NOTE Confidence: 0.927229485833334

00:05:21.092 --> 00:05:23.722 to understand our cancer outcomes
NOTE Confidence: 0.927229485833334

00:05:23.722 --> 00:05:26.680 and they play important roles,
NOTE Confidence: 0.927229485833334

00:05:26.680 --> 00:05:28.545 sometimes unseen and collecting data
NOTE Confidence: 0.927229485833334

00:05:28.545 --> 00:05:30.885 that will impact Cancer Research and
NOTE Confidence: 0.927229485833334

00:05:30.885 --> 00:05:32.960 treatment programs for future generations.
NOTE Confidence: 0.927229485833334

00:05:32.960 --> 00:05:35.318 So great shout out to the team and if
NOTE Confidence: 0.927229485833334

00:05:35.318 --> 00:05:37.755 you see any of them during this week,
NOTE Confidence: 0.927229485833334

00:05:37.760 --> 00:05:39.194 please make sure you thank them
NOTE Confidence: 0.927229485833334

00:05:39.194 --> 00:05:40.480 for all that they're doing.
NOTE Confidence: 0.824593757692308

00:05:44.400 --> 00:05:47.128 We are now gonna turn it over to
NOTE Confidence: 0.824593757692308

00:05:47.128 --> 00:05:49.639 Nick Proto and Stephanie McGuire.

NOTE Confidence: 0.824593757692308
00:05:49.640 --> 00:05:52.504 We, as in we in Smilo as well
NOTE Confidence: 0.824593757692308
00:05:52.504 --> 00:05:55.696 as the organization had a lot
NOTE Confidence: 0.824593757692308
00:05:55.696 --> 00:05:57.636 of feedback and comments through
NOTE Confidence: 0.824593757692308
00:05:57.636 --> 00:05:59.757 the Glint survey about concerns
NOTE Confidence: 0.824593757692308
00:05:59.757 --> 00:06:01.612 related to personal safety,
NOTE Confidence: 0.824593757692308
00:06:01.612 --> 00:06:03.556 security and you know,
NOTE Confidence: 0.824593757692308
00:06:03.560 --> 00:06:04.816 there's been a number,
NOTE Confidence: 0.824593757692308
00:06:04.816 --> 00:06:07.032 there's a lot of events going on
NOTE Confidence: 0.824593757692308
00:06:07.032 --> 00:06:08.658 and so the organization is taking
NOTE Confidence: 0.824593757692308
00:06:08.658 --> 00:06:11.038 a lot of action in relation to
NOTE Confidence: 0.824593757692308
00:06:11.038 --> 00:06:12.913 the concerns with employee safety.
NOTE Confidence: 0.824593757692308
00:06:12.920 --> 00:06:15.048 And so thank you Nick and Stephanie
NOTE Confidence: 0.824593757692308
00:06:15.048 --> 00:06:16.812 for joining tonight to share some
NOTE Confidence: 0.824593757692308
00:06:16.812 --> 00:06:18.396 of the work that you're doing
NOTE Confidence: 0.908093013333333
00:06:18.400 --> 00:06:19.600 in this forum.
NOTE Confidence: 0.86272936

00:06:20.480 --> 00:06:21.344 Thank you, Tracy.
NOTE Confidence: 0.86272936

00:06:21.344 --> 00:06:23.072 So I'm gonna be speaking on
NOTE Confidence: 0.86272936

00:06:23.072 --> 00:06:24.916 behalf of myself and Tom Mendillo,
NOTE Confidence: 0.86272936

00:06:24.920 --> 00:06:26.588 who's the operations Manager who is
NOTE Confidence: 0.86272936

00:06:26.588 --> 00:06:28.680 tied up at another meeting right now.
NOTE Confidence: 0.86272936

00:06:28.680 --> 00:06:31.200 I'll be doing the presentation on
NOTE Confidence: 0.86272936

00:06:31.200 --> 00:06:32.712 security and safety initiatives
NOTE Confidence: 0.86272936

00:06:32.712 --> 00:06:34.980 that we are currently doing at
NOTE Confidence: 0.86272936

00:06:35.048 --> 00:06:37.466 Yellow Haven Hospital and has been
NOTE Confidence: 0.86272936

00:06:37.466 --> 00:06:39.078 ongoing initiatives every year.
NOTE Confidence: 0.86272936

00:06:39.080 --> 00:06:41.696 And Stephanie's gonna talk about the
NOTE Confidence: 0.86272936

00:06:41.696 --> 00:06:43.440 electronic physical security infrastructure.
NOTE Confidence: 0.86272936

00:06:43.440 --> 00:06:45.900 She manages the infrastructure from infant
NOTE Confidence: 0.86272936

00:06:45.900 --> 00:06:48.999 security to all the cameras and carriers.
NOTE Confidence: 0.86272936

00:06:49.000 --> 00:06:51.048 Anything that's not people,
NOTE Confidence: 0.86272936

00:06:51.048 --> 00:06:54.120 Stephanie manages from a security standpoint,

NOTE Confidence: 0.86272936

00:06:54.120 --> 00:06:57.474 very well versed and educated in

NOTE Confidence: 0.86272936

00:06:57.474 --> 00:07:00.237 electronic physical technology and is

NOTE Confidence: 0.86272936

00:07:00.237 --> 00:07:02.889 always looking at bigger and better

NOTE Confidence: 0.86272936

00:07:02.889 --> 00:07:05.719 ways to secure our institutions.

NOTE Confidence: 0.86272936

00:07:05.720 --> 00:07:07.472 So if you could progress the

NOTE Confidence: 0.86272936

00:07:07.472 --> 00:07:08.640 slide for me Stephanie,

NOTE Confidence: 0.86272936

00:07:08.640 --> 00:07:11.144 so I want to talk to you about

NOTE Confidence: 0.86272936

00:07:11.144 --> 00:07:12.760 communication and collaboration.

NOTE Confidence: 0.86272936

00:07:12.760 --> 00:07:13.742 You know,

NOTE Confidence: 0.86272936

00:07:13.742 --> 00:07:16.688 aside from our patients and visitors

NOTE Confidence: 0.86272936

00:07:16.688 --> 00:07:19.720 arriving with a high level of anxiety,

NOTE Confidence: 0.86272936

00:07:19.720 --> 00:07:21.745 there are considerable increases in

NOTE Confidence: 0.86272936

00:07:21.745 --> 00:07:23.770 behavioral health and substance abuse

NOTE Confidence: 0.86272936

00:07:23.831 --> 00:07:25.716 patients arriving in our facility.

NOTE Confidence: 0.86272936

00:07:25.720 --> 00:07:26.800 And they're not just showing

NOTE Confidence: 0.86272936

00:07:26.800 --> 00:07:27.880 up at our Salem Tunnel,
NOTE Confidence: 0.86272936

00:07:27.880 --> 00:07:30.576 one floors in Salem Tunnel 5 and Yale
NOTE Confidence: 0.86272936

00:07:30.576 --> 00:07:32.136 physician Yale's Saint Ganswick Hospital.
NOTE Confidence: 0.86272936

00:07:32.136 --> 00:07:33.656 They're showing up on all
NOTE Confidence: 0.86272936

00:07:33.656 --> 00:07:34.960 the patient care units.
NOTE Confidence: 0.86272936

00:07:34.960 --> 00:07:37.024 They're coming in with medical issues
NOTE Confidence: 0.86272936

00:07:37.024 --> 00:07:39.479 and then it's escalation and our staff
NOTE Confidence: 0.86272936

00:07:39.479 --> 00:07:41.513 are getting injured or getting assaulted.
NOTE Confidence: 0.86272936

00:07:41.520 --> 00:07:42.312 And, you know,
NOTE Confidence: 0.86272936

00:07:42.312 --> 00:07:44.160 aside from the high level of anxiety,
NOTE Confidence: 0.86272936

00:07:44.160 --> 00:07:45.490 there are also societal issues
NOTE Confidence: 0.86272936

00:07:45.490 --> 00:07:46.554 that are going on.
NOTE Confidence: 0.86272936

00:07:46.560 --> 00:07:47.840 There's the political climate.
NOTE Confidence: 0.86272936

00:07:47.840 --> 00:07:48.480 There's St.
NOTE Confidence: 0.86272936

00:07:48.480 --> 00:07:51.198 violence, COVID, the cost of living,
NOTE Confidence: 0.86272936

00:07:51.200 --> 00:07:54.496 the wars in Gaza, in Ukraine, you know,

NOTE Confidence: 0.86272936

00:07:54.496 --> 00:07:55.836 mass shootings around the country.

NOTE Confidence: 0.86272936

00:07:55.840 --> 00:07:58.225 There are a lot of things happening in our

NOTE Confidence: 0.86272936

00:07:58.225 --> 00:08:00.239 society that are affecting our patients,

NOTE Confidence: 0.86272936

00:08:00.240 --> 00:08:01.520 our employees and visitors

NOTE Confidence: 0.86272936

00:08:01.520 --> 00:08:03.120 who are coming in there.

NOTE Confidence: 0.86272936

00:08:03.120 --> 00:08:04.929 We're seeing a spike in a lot of crime

NOTE Confidence: 0.86272936

00:08:04.929 --> 00:08:06.720 and we're seeing a spike in a lot of

NOTE Confidence: 0.933811531

00:08:09.120 --> 00:08:10.896 things that are going on in

NOTE Confidence: 0.933811531

00:08:10.896 --> 00:08:12.080 and around the hospital.

NOTE Confidence: 0.933811531

00:08:12.080 --> 00:08:13.430 I want to talk to you about some of

NOTE Confidence: 0.933811531

00:08:13.430 --> 00:08:14.488 the initiatives that we're doing

NOTE Confidence: 0.933811531

00:08:14.488 --> 00:08:16.209 and some of the things that we could

NOTE Confidence: 0.933811531

00:08:16.209 --> 00:08:17.560 all do to keep the institution safe.

NOTE Confidence: 0.933811531

00:08:17.560 --> 00:08:19.360 I want to talk about rounding,

NOTE Confidence: 0.933811531

00:08:19.360 --> 00:08:21.464 Tricare system and educational

NOTE Confidence: 0.933811531

00:08:21.464 --> 00:08:22.516 safety huddles.
NOTE Confidence: 0.933811531

00:08:22.520 --> 00:08:25.537 We have a we require our officers
NOTE Confidence: 0.933811531

00:08:25.537 --> 00:08:27.732 to round 6500 rounds per month
NOTE Confidence: 0.933811531

00:08:27.732 --> 00:08:29.397 on every patient care unit.
NOTE Confidence: 0.933811531

00:08:29.400 --> 00:08:32.015 That's a documented tract performance
NOTE Confidence: 0.933811531

00:08:32.015 --> 00:08:34.630 improvement initiative that we require
NOTE Confidence: 0.933811531

00:08:34.700 --> 00:08:37.040 officers to do every single month.
NOTE Confidence: 0.933811531

00:08:37.040 --> 00:08:39.098 That gives us an opportunity to
NOTE Confidence: 0.933811531

00:08:39.098 --> 00:08:41.053 communicate with clinical staff and team
NOTE Confidence: 0.933811531

00:08:41.053 --> 00:08:42.880 up at our off shift clinical leaders
NOTE Confidence: 0.933811531

00:08:42.880 --> 00:08:44.836 on the off shift and on weekends.
NOTE Confidence: 0.933811531

00:08:44.840 --> 00:08:46.618 In addition to that we do the
NOTE Confidence: 0.933811531

00:08:46.618 --> 00:08:47.960 three tiers of rounding.
NOTE Confidence: 0.933811531

00:08:47.960 --> 00:08:49.955 The first one is we call direct,
NOTE Confidence: 0.933811531

00:08:49.960 --> 00:08:51.850 the 2nd is intuitive and the
NOTE Confidence: 0.933811531

00:08:51.850 --> 00:08:52.795 third is indirect.

NOTE Confidence: 0.933811531
00:08:52.800 --> 00:08:54.956 The direct rounding deals directly with BRA,
NOTE Confidence: 0.933811531
00:08:54.960 --> 00:08:55.528 said Rossitool.
NOTE Confidence: 0.933811531
00:08:55.528 --> 00:08:57.516 If you don't know what it is,
NOTE Confidence: 0.933811531
00:08:57.520 --> 00:09:00.208 it's those patients who have a
NOTE Confidence: 0.933811531
00:09:00.208 --> 00:09:02.760 propensity for escalation of violence.
NOTE Confidence: 0.933811531
00:09:02.760 --> 00:09:05.680 We get a list of those patients twice a day,
NOTE Confidence: 0.933811531
00:09:05.680 --> 00:09:07.840 9:00 in the morning and 9:00 at night.
NOTE Confidence: 0.933811531
00:09:07.840 --> 00:09:09.532 And those officers who are on
NOTE Confidence: 0.933811531
00:09:09.532 --> 00:09:11.671 patrol go up to those units and
NOTE Confidence: 0.933811531
00:09:11.671 --> 00:09:13.555 talk to clinical staff to see
NOTE Confidence: 0.933811531
00:09:13.555 --> 00:09:15.140 what the patients are doing,
NOTE Confidence: 0.933811531
00:09:15.140 --> 00:09:16.840 making sure there's no escalation.
NOTE Confidence: 0.933811531
00:09:16.840 --> 00:09:19.647 And try to be proactive before the
NOTE Confidence: 0.933811531
00:09:19.647 --> 00:09:21.999 patient does escalate or get violent.
NOTE Confidence: 0.933811531
00:09:22.000 --> 00:09:23.636 There's the intuitive rounding
NOTE Confidence: 0.933811531

00:09:23.636 --> 00:09:25.272 and the intuitive rounding
NOTE Confidence: 0.933811531

00:09:25.272 --> 00:09:27.438 is our victims of violence.
NOTE Confidence: 0.933811531

00:09:27.440 --> 00:09:29.204 We have numerous victims of violence
NOTE Confidence: 0.933811531

00:09:29.204 --> 00:09:31.512 here on any given day and it's
NOTE Confidence: 0.933811531

00:09:31.512 --> 00:09:32.948 community violence with shooting
NOTE Confidence: 0.933811531

00:09:32.948 --> 00:09:34.520 victims and stabbing victims.
NOTE Confidence: 0.933811531

00:09:34.520 --> 00:09:36.710 The we have numerous victims of
NOTE Confidence: 0.933811531

00:09:36.710 --> 00:09:38.980 domestic violence and we also have
NOTE Confidence: 0.933811531

00:09:38.980 --> 00:09:40.835 issues on our maternity floors
NOTE Confidence: 0.933811531

00:09:40.835 --> 00:09:42.998 where their risk of injury of a,
NOTE Confidence: 0.933811531

00:09:43.000 --> 00:09:45.359 I'm sorry, risk of a patient being,
NOTE Confidence: 0.933811531

00:09:45.360 --> 00:09:46.346 you know,
NOTE Confidence: 0.933811531

00:09:46.346 --> 00:09:49.403 taken out against the Guardian's best wishes.
NOTE Confidence: 0.933811531

00:09:49.403 --> 00:09:51.569 And it's usually some kind of
NOTE Confidence: 0.933811531

00:09:51.569 --> 00:09:53.453 domestic distribute between two
NOTE Confidence: 0.933811531

00:09:53.453 --> 00:09:55.518 parties responsible for that child.

NOTE Confidence: 0.933811531

00:09:55.520 --> 00:09:57.624 So the risks are very high in some

NOTE Confidence: 0.933811531

00:09:57.624 --> 00:09:59.837 of these areas and we make sure

NOTE Confidence: 0.933811531

00:09:59.837 --> 00:10:01.870 that the indirect rounding and the

NOTE Confidence: 0.933811531

00:10:01.870 --> 00:10:03.928 intuitive rounding goes up on all

NOTE Confidence: 0.933811531

00:10:03.928 --> 00:10:06.196 those patient care units every day,

NOTE Confidence: 0.933811531

00:10:06.196 --> 00:10:09.080 numerous times a day on every shift.

NOTE Confidence: 0.933811531

00:10:09.080 --> 00:10:10.760 We also do safety huddle talks.

NOTE Confidence: 0.933811531

00:10:10.760 --> 00:10:12.275 It's a an abbreviated version

NOTE Confidence: 0.933811531

00:10:12.275 --> 00:10:14.200 of what I'm giving you today.

NOTE Confidence: 0.933811531

00:10:14.200 --> 00:10:15.824 We go on the patient care units

NOTE Confidence: 0.933811531

00:10:15.824 --> 00:10:17.894 and we talk to patient to our

NOTE Confidence: 0.933811531

00:10:17.894 --> 00:10:20.216 employees and clinical staff and we

NOTE Confidence: 0.933811531

00:10:20.216 --> 00:10:22.679 talk about situational awareness.

NOTE Confidence: 0.933811531

00:10:22.680 --> 00:10:23.788 We talk about St.

NOTE Confidence: 0.933811531

00:10:23.788 --> 00:10:25.450 awareness and things that are happening

NOTE Confidence: 0.933811531

00:10:25.498 --> 00:10:27.297 around the hospital and what we could
NOTE Confidence: 0.933811531

00:10:27.297 --> 00:10:29.237 do together and want to keep them safe,
NOTE Confidence: 0.933811531

00:10:29.240 --> 00:10:31.270 to keep our patients safe and to
NOTE Confidence: 0.933811531

00:10:31.270 --> 00:10:32.818 work with security for reporting
NOTE Confidence: 0.933811531

00:10:32.818 --> 00:10:34.353 whether they see something that
NOTE Confidence: 0.933811531

00:10:34.353 --> 00:10:36.847 may be a potential risk for the
NOTE Confidence: 0.933811531

00:10:36.847 --> 00:10:38.355 hospital or somebody's safety.
NOTE Confidence: 0.933811531

00:10:38.360 --> 00:10:39.680 The next thing I want to talk about is St.
NOTE Confidence: 0.933811531

00:10:39.680 --> 00:10:40.120 Outreach,
NOTE Confidence: 0.933811531

00:10:40.120 --> 00:10:42.320 the Hospital Violence Intervention Program.
NOTE Confidence: 0.933811531

00:10:42.320 --> 00:10:44.288 These are people in the community
NOTE Confidence: 0.933811531

00:10:44.288 --> 00:10:46.608 who did not have great pasts with
NOTE Confidence: 0.933811531

00:10:46.608 --> 00:10:49.040 the law but have done their time and
NOTE Confidence: 0.933811531

00:10:49.040 --> 00:10:51.160 are now working with the community,
NOTE Confidence: 0.933811531

00:10:51.160 --> 00:10:52.375 with the police,
NOTE Confidence: 0.933811531

00:10:52.375 --> 00:10:53.995 with Hospital Protective Services,

NOTE Confidence: 0.933811531

00:10:54.000 --> 00:10:55.656 with Yale University Police

NOTE Confidence: 0.933811531

00:10:55.656 --> 00:10:58.140 Department to turn the lives of

NOTE Confidence: 0.9563785588

00:10:58.216 --> 00:11:00.356 children and kids and teenagers

NOTE Confidence: 0.9563785588

00:11:00.356 --> 00:11:02.938 in our communities around and not

NOTE Confidence: 0.9563785588

00:11:02.938 --> 00:11:04.813 have the recidivism of shootings

NOTE Confidence: 0.9563785588

00:11:04.813 --> 00:11:06.878 and victims of violence etcetera.

NOTE Confidence: 0.9563785588

00:11:06.880 --> 00:11:08.840 So when we get victims of violence,

NOTE Confidence: 0.9563785588

00:11:08.840 --> 00:11:11.204 they show up at our emergency

NOTE Confidence: 0.9563785588

00:11:11.204 --> 00:11:13.433 departments and they work with my

NOTE Confidence: 0.9563785588

00:11:13.433 --> 00:11:16.198 team and tell us is it gang related,

NOTE Confidence: 0.9563785588

00:11:16.200 --> 00:11:18.594 is it gang, is it drug related,

NOTE Confidence: 0.9563785588

00:11:18.600 --> 00:11:20.040 is it random act of violence,

NOTE Confidence: 0.9563785588

00:11:20.040 --> 00:11:22.560 is it domestic violence?

NOTE Confidence: 0.9563785588

00:11:22.560 --> 00:11:25.080 So we end up getting the information

NOTE Confidence: 0.9563785588

00:11:25.080 --> 00:11:27.363 and that's important to our emergency

NOTE Confidence: 0.9563785588

00:11:27.363 --> 00:11:29.730 departments so they could provide the

NOTE Confidence: 0.9563785588

00:11:29.730 --> 00:11:32.280 care to that patient without being

NOTE Confidence: 0.9563785588

00:11:32.280 --> 00:11:34.679 hindered by risk of retaliation.

NOTE Confidence: 0.9563785588

00:11:34.680 --> 00:11:36.836 And it also follows up to the

NOTE Confidence: 0.9563785588

00:11:36.836 --> 00:11:39.193 patient care unit where we house or

NOTE Confidence: 0.9563785588

00:11:39.193 --> 00:11:41.239 we treat the patients of violence.

NOTE Confidence: 0.9563785588

00:11:41.240 --> 00:11:44.112 And we have to lock down the patient

NOTE Confidence: 0.9563785588

00:11:44.112 --> 00:11:46.311 care units to make sure staff

NOTE Confidence: 0.9563785588

00:11:46.311 --> 00:11:48.880 are safe and that victim is safe.

NOTE Confidence: 0.9563785588

00:11:48.880 --> 00:11:50.100 The COMSTAT participation in

NOTE Confidence: 0.9563785588

00:11:50.100 --> 00:11:51.320 New Haven Police Department.

NOTE Confidence: 0.9563785588

00:11:51.320 --> 00:11:53.360 I work with the Chief of Police myself,

NOTE Confidence: 0.9563785588

00:11:53.360 --> 00:11:54.176 Tom and Steph.

NOTE Confidence: 0.9563785588

00:11:54.176 --> 00:11:56.080 We meet with the chief every other

NOTE Confidence: 0.9563785588

00:11:56.135 --> 00:11:57.800 Thursday at a COMSTAT meeting.

NOTE Confidence: 0.9563785588

00:11:57.800 --> 00:11:59.914 We also meet with the Yale University

NOTE Confidence: 0.9563785588

00:11:59.914 --> 00:12:01.800 Chief of Police Anthony Campbell

NOTE Confidence: 0.9563785588

00:12:01.800 --> 00:12:04.278 and Bonnar Cease on a regular basis.

NOTE Confidence: 0.9563785588

00:12:04.280 --> 00:12:05.560 Anything that goes on here,

NOTE Confidence: 0.9563785588

00:12:05.560 --> 00:12:06.976 we have open communication.

NOTE Confidence: 0.9563785588

00:12:06.976 --> 00:12:09.100 We're a phone call away and

NOTE Confidence: 0.9563785588

00:12:09.172 --> 00:12:10.720 we talk very frequently.

NOTE Confidence: 0.9563785588

00:12:10.720 --> 00:12:12.225 I want to talk about a workplace

NOTE Confidence: 0.9563785588

00:12:12.225 --> 00:12:13.040 violence tracker in it,

NOTE Confidence: 0.9563785588

00:12:13.040 --> 00:12:14.475 but before I talk about the tractor,

NOTE Confidence: 0.9563785588

00:12:14.480 --> 00:12:15.544 I wanna the tracker.

NOTE Confidence: 0.9563785588

00:12:15.544 --> 00:12:17.140 I wanna tell you about what

NOTE Confidence: 0.9563785588

00:12:17.205 --> 00:12:19.035 actually initiated us to do this.

NOTE Confidence: 0.9563785588

00:12:19.040 --> 00:12:22.320 A number of years ago we had an an employee,

NOTE Confidence: 0.9563785588

00:12:22.320 --> 00:12:26.153 a nurse who was assaulted and

NOTE Confidence: 0.9563785588

00:12:26.153 --> 00:12:29.118 the we took a report,

NOTE Confidence: 0.9563785588

00:12:29.120 --> 00:12:30.060 patient assaulted the nurse.
NOTE Confidence: 0.9563785588

00:12:30.060 --> 00:12:31.000 We took the report.
NOTE Confidence: 0.9563785588

00:12:31.000 --> 00:12:32.410 We called the New Haven Police
NOTE Confidence: 0.9563785588

00:12:32.410 --> 00:12:33.926 Department and the New Haven Police
NOTE Confidence: 0.9563785588

00:12:33.926 --> 00:12:35.498 Department showed up and took the
NOTE Confidence: 0.9563785588

00:12:35.498 --> 00:12:37.853 report and then asked the nurse for her
NOTE Confidence: 0.9563785588

00:12:37.853 --> 00:12:40.160 home address and her home phone number.
NOTE Confidence: 0.9563785588

00:12:40.160 --> 00:12:41.663 And the nurse said I'm not gonna give you
NOTE Confidence: 0.9563785588

00:12:41.663 --> 00:12:43.196 my home address and home phone number.
NOTE Confidence: 0.9563785588

00:12:43.200 --> 00:12:44.352 I'm gonna give you my work
NOTE Confidence: 0.9563785588

00:12:44.352 --> 00:12:45.440 address and work phone number.
NOTE Confidence: 0.9563785588

00:12:45.440 --> 00:12:46.720 And the police said no,
NOTE Confidence: 0.9563785588

00:12:46.720 --> 00:12:47.728 if you don't give me your home
NOTE Confidence: 0.9563785588

00:12:47.728 --> 00:12:48.599 address and home phone number,
NOTE Confidence: 0.9563785588

00:12:48.600 --> 00:12:50.060 we're not documenting it and
NOTE Confidence: 0.9563785588

00:12:50.060 --> 00:12:51.960 we're not gonna affect an arrest.

NOTE Confidence: 0.9563785588

00:12:51.960 --> 00:12:53.688 So they walked away and I came in

NOTE Confidence: 0.9563785588

00:12:53.688 --> 00:12:55.443 the next day and I found out about

NOTE Confidence: 0.9563785588

00:12:55.443 --> 00:12:57.200 it and I called the district manager

NOTE Confidence: 0.9563785588

00:12:57.200 --> 00:12:58.916 and I said what is happening?

NOTE Confidence: 0.9563785588

00:12:58.920 --> 00:12:59.880 Why did this happen?

NOTE Confidence: 0.9563785588

00:12:59.880 --> 00:13:01.720 And he said Nick, it doesn't come from us,

NOTE Confidence: 0.9563785588

00:13:01.720 --> 00:13:03.519 it comes from the chief of police.

NOTE Confidence: 0.9563785588

00:13:03.520 --> 00:13:05.815 So I called the chief and I said

NOTE Confidence: 0.9563785588

00:13:05.815 --> 00:13:06.795 why is this happening?

NOTE Confidence: 0.9563785588

00:13:06.800 --> 00:13:08.834 And he said, Nick, it doesn't come from me,

NOTE Confidence: 0.9563785588

00:13:08.840 --> 00:13:10.790 It's an order from the state's

NOTE Confidence: 0.9563785588

00:13:10.790 --> 00:13:11.440 attorney's office.

NOTE Confidence: 0.9563785588

00:13:11.440 --> 00:13:12.798 So I called the state's attorney and

NOTE Confidence: 0.9563785588

00:13:12.798 --> 00:13:14.798 I asked to meet with him, which I did.

NOTE Confidence: 0.9563785588

00:13:14.798 --> 00:13:15.596 And I said,

NOTE Confidence: 0.9563785588

00:13:15.600 --> 00:13:18.274 why are you making this rule that
NOTE Confidence: 0.9563785588

00:13:18.280 --> 00:13:20.236 people get assaulted in the hospital,
NOTE Confidence: 0.9563785588

00:13:20.240 --> 00:13:22.960 are not being their their,
NOTE Confidence: 0.9563785588

00:13:22.960 --> 00:13:25.508 their crimes are not being recorded and
NOTE Confidence: 0.9563785588

00:13:25.508 --> 00:13:27.639 there's no consequences for the offender.
NOTE Confidence: 0.9563785588

00:13:27.640 --> 00:13:28.384 And he said,
NOTE Confidence: 0.9563785588

00:13:28.384 --> 00:13:29.872 because if they don't give their
NOTE Confidence: 0.9563785588

00:13:29.872 --> 00:13:31.681 home address and home phone number
NOTE Confidence: 0.9563785588

00:13:31.681 --> 00:13:33.191 when the court appearance comes
NOTE Confidence: 0.9528621612

00:13:33.249 --> 00:13:35.184 on and we're looking for that person to
NOTE Confidence: 0.9528621612

00:13:35.184 --> 00:13:36.920 give a statement as to what happened,
NOTE Confidence: 0.9528621612

00:13:36.920 --> 00:13:38.726 we can't reach them because it's occurring
NOTE Confidence: 0.9528621612

00:13:38.726 --> 00:13:40.556 on evenings and nights and the courts
NOTE Confidence: 0.9528621612

00:13:40.556 --> 00:13:42.074 aren't open on evenings and nights.
NOTE Confidence: 0.9528621612

00:13:42.080 --> 00:13:44.768 And this is causing a backlog
NOTE Confidence: 0.9528621612

00:13:44.768 --> 00:13:46.560 in our judicial system.

NOTE Confidence: 0.9528621612

00:13:46.560 --> 00:13:48.280 And I said, well, this is not fair.

NOTE Confidence: 0.9528621612

00:13:48.280 --> 00:13:49.918 I said you gotta overturn that.

NOTE Confidence: 0.9528621612

00:13:49.920 --> 00:13:51.760 And he said absolutely not.

NOTE Confidence: 0.9528621612

00:13:51.760 --> 00:13:53.520 I'm not gonna overturn it.

NOTE Confidence: 0.9528621612

00:13:53.520 --> 00:13:55.186 So I have a friend of mine

NOTE Confidence: 0.9528621612

00:13:55.186 --> 00:13:56.679 who's a judge in Hartford,

NOTE Confidence: 0.9528621612

00:13:56.680 --> 00:13:57.508 from the judge.

NOTE Confidence: 0.9528621612

00:13:57.508 --> 00:14:00.028 And I was talking to him about it and

NOTE Confidence: 0.9528621612

00:14:00.028 --> 00:14:02.560 he connected me with the judge in New Haven.

NOTE Confidence: 0.9528621612

00:14:02.560 --> 00:14:04.396 And I spoke to the judge in his chambers.

NOTE Confidence: 0.9528621612

00:14:04.400 --> 00:14:06.510 And I said when I was a police officer for

NOTE Confidence: 0.9528621612

00:14:06.565 --> 00:14:08.680 20 years in New Haven and I was assaulted,

NOTE Confidence: 0.9528621612

00:14:08.680 --> 00:14:10.800 I never had to give my home address and home

NOTE Confidence: 0.9528621612

00:14:10.852 --> 00:14:12.875 phone number with the risk of retaliation.

NOTE Confidence: 0.9528621612

00:14:12.880 --> 00:14:15.064 I never required firefighters to give it

NOTE Confidence: 0.9528621612

00:14:15.064 --> 00:14:18.256 and neither did I require AMR to give it.
NOTE Confidence: 0.9528621612

00:14:18.256 --> 00:14:21.420 Why are we allowing this for healthcare
NOTE Confidence: 0.9528621612

00:14:21.420 --> 00:14:24.887 workers who work in a world class
NOTE Confidence: 0.9528621612

00:14:24.887 --> 00:14:26.849 hospital giving world class care to
NOTE Confidence: 0.9528621612

00:14:26.849 --> 00:14:29.107 give their home address and home phone
NOTE Confidence: 0.9528621612

00:14:29.107 --> 00:14:31.280 numbers and put their lives at risk?
NOTE Confidence: 0.9528621612

00:14:31.280 --> 00:14:33.400 And he said you make a good point.
NOTE Confidence: 0.9528621612

00:14:33.400 --> 00:14:34.597 I'll let you know in two days.
NOTE Confidence: 0.9528621612

00:14:34.600 --> 00:14:35.664 I'll render a decision.
NOTE Confidence: 0.9528621612

00:14:35.664 --> 00:14:37.600 I'll let you know in two days.
NOTE Confidence: 0.9528621612

00:14:37.600 --> 00:14:40.264 He called me in 2 1/2 hours and overturned
NOTE Confidence: 0.9528621612

00:14:40.264 --> 00:14:42.439 the state's attorney's decision.
NOTE Confidence: 0.9528621612

00:14:42.440 --> 00:14:44.155 And now the police are coming here.
NOTE Confidence: 0.9528621612

00:14:44.160 --> 00:14:45.777 Now when I talk about the collaboration
NOTE Confidence: 0.9528621612

00:14:45.777 --> 00:14:46.800 with the judicial system,
NOTE Confidence: 0.9528621612

00:14:46.800 --> 00:14:47.880 that's what I'm talking about.

NOTE Confidence: 0.9528621612

00:14:47.880 --> 00:14:49.800 And this prompted Tom Mondillo and

NOTE Confidence: 0.9528621612

00:14:49.800 --> 00:14:51.945 myself and Stephanie to put together

NOTE Confidence: 0.9528621612

00:14:51.945 --> 00:14:53.955 something called the Violence Tracker.

NOTE Confidence: 0.9528621612

00:14:53.960 --> 00:14:54.860 And quite simply,

NOTE Confidence: 0.9528621612

00:14:54.860 --> 00:14:56.360 it's a four pronged effect.

NOTE Confidence: 0.9528621612

00:14:56.360 --> 00:14:58.000 It's confidence that our staff

NOTE Confidence: 0.9528621612

00:14:58.000 --> 00:14:59.312 are going to report.

NOTE Confidence: 0.9528621612

00:14:59.320 --> 00:15:02.584 We go up to 100 different patient care

NOTE Confidence: 0.9528621612

00:15:02.584 --> 00:15:05.760 units a couple times a year and we give

NOTE Confidence: 0.9528621612

00:15:05.760 --> 00:15:08.556 safety talks and we encourage our staff.

NOTE Confidence: 0.9528621612

00:15:08.560 --> 00:15:09.680 If you feel threatened,

NOTE Confidence: 0.9528621612

00:15:09.680 --> 00:15:12.129 if you come to work and you feel

NOTE Confidence: 0.9528621612

00:15:12.129 --> 00:15:13.879 threatened if you are assaulted,

NOTE Confidence: 0.9528621612

00:15:13.880 --> 00:15:15.340 if you are groped,

NOTE Confidence: 0.9528621612

00:15:15.340 --> 00:15:16.800 if you're sexually assaulted,

NOTE Confidence: 0.9528621612

00:15:16.800 --> 00:15:17.880 we want to know about it.
NOTE Confidence: 0.9528621612

00:15:17.880 --> 00:15:19.400 You have to call us.
NOTE Confidence: 0.9528621612

00:15:19.400 --> 00:15:21.032 We want to be the conduit
NOTE Confidence: 0.9528621612

00:15:21.032 --> 00:15:22.120 to local law enforcement.
NOTE Confidence: 0.9528621612

00:15:22.120 --> 00:15:24.328 We'll document it and we will be the
NOTE Confidence: 0.9528621612

00:15:24.328 --> 00:15:26.480 conduit to local for law enforcement.
NOTE Confidence: 0.9528621612

00:15:26.480 --> 00:15:27.945 It's accountability for the police
NOTE Confidence: 0.9528621612

00:15:27.945 --> 00:15:29.781 and the judicial system to follow
NOTE Confidence: 0.9528621612

00:15:29.781 --> 00:15:31.677 through with these types of complaints.
NOTE Confidence: 0.9528621612

00:15:31.680 --> 00:15:33.260 It's consequences for the
NOTE Confidence: 0.9528621612

00:15:33.260 --> 00:15:34.840 offender and most importantly,
NOTE Confidence: 0.9528621612

00:15:34.840 --> 00:15:37.078 it's closure for the victimized employee.
NOTE Confidence: 0.9528621612

00:15:37.080 --> 00:15:39.117 We have lieutenants who work every shift.
NOTE Confidence: 0.9528621612

00:15:39.120 --> 00:15:40.420 They find out the status
NOTE Confidence: 0.9528621612

00:15:40.420 --> 00:15:41.720 and disposition of the case.
NOTE Confidence: 0.9528621612

00:15:41.720 --> 00:15:43.214 They meet with our employees and

NOTE Confidence: 0.9528621612

00:15:43.214 --> 00:15:45.027 they let them know what the status

NOTE Confidence: 0.9528621612

00:15:45.027 --> 00:15:46.557 and disposition of the case is.

NOTE Confidence: 0.9528621612

00:15:46.560 --> 00:15:47.910 I tell our employees the

NOTE Confidence: 0.9528621612

00:15:47.910 --> 00:15:48.720 morning safety huddles.

NOTE Confidence: 0.9528621612

00:15:48.720 --> 00:15:50.889 If you go to Home Depot tonight and they

NOTE Confidence: 0.9528621612

00:15:50.889 --> 00:15:52.948 don't have a part to your house and you

NOTE Confidence: 0.9528621612

00:15:52.948 --> 00:15:55.120 kick the person who is not helping you,

NOTE Confidence: 0.9528621612

00:15:55.120 --> 00:15:56.800 chances are you're not leaving Home Depot,

NOTE Confidence: 0.9528621612

00:15:56.800 --> 00:15:57.613 not in handcuffs.

NOTE Confidence: 0.9528621612

00:15:57.613 --> 00:15:59.802 If you go to a restaurant tonight and

NOTE Confidence: 0.9528621612

00:15:59.802 --> 00:16:01.953 they don't give you your meal on time and

NOTE Confidence: 0.930724328518519

00:16:02.007 --> 00:16:03.918 you slap the waiter or the waitress,

NOTE Confidence: 0.930724328518519

00:16:03.920 --> 00:16:05.640 you're not leaving the restaurant,

NOTE Confidence: 0.930724328518519

00:16:05.640 --> 00:16:06.459 not in handcuffs.

NOTE Confidence: 0.930724328518519

00:16:06.459 --> 00:16:09.005 So why do you think you could come to

NOTE Confidence: 0.930724328518519

00:16:09.005 --> 00:16:10.993 a medical facility and and and slap,
NOTE Confidence: 0.930724328518519

00:16:11.000 --> 00:16:13.190 abuse, threaten and assault our staff
NOTE Confidence: 0.930724328518519

00:16:13.190 --> 00:16:16.039 and not be held accountable for it?
NOTE Confidence: 0.930724328518519

00:16:16.040 --> 00:16:17.592 So we drew a line in the sand
NOTE Confidence: 0.930724328518519

00:16:17.592 --> 00:16:18.879 with this violence tracker.
NOTE Confidence: 0.930724328518519

00:16:18.880 --> 00:16:20.836 Again, it's the confidence,
NOTE Confidence: 0.930724328518519

00:16:20.836 --> 00:16:23.281 the accountability of the consequences
NOTE Confidence: 0.930724328518519

00:16:23.281 --> 00:16:26.317 and the closure for each event and
NOTE Confidence: 0.930724328518519

00:16:26.317 --> 00:16:28.600 everything is documented and tracked.
NOTE Confidence: 0.930724328518519

00:16:28.600 --> 00:16:31.148 I also serve on the Workplace Balance
NOTE Confidence: 0.930724328518519

00:16:31.148 --> 00:16:33.269 Risk Assessment Committee and we have
NOTE Confidence: 0.930724328518519

00:16:33.269 --> 00:16:34.852 a Joint Commission standard which
NOTE Confidence: 0.930724328518519

00:16:34.852 --> 00:16:36.896 we go up and do risk assessments
NOTE Confidence: 0.930724328518519

00:16:36.896 --> 00:16:39.009 on every patient care unit and
NOTE Confidence: 0.930724328518519

00:16:39.009 --> 00:16:40.839 look at gaps and opportunities.
NOTE Confidence: 0.930724328518519

00:16:40.840 --> 00:16:42.760 And Department of Homeland Security,

NOTE Confidence: 0.930724328518519
00:16:42.760 --> 00:16:46.029 which is DHS and the FBI are
NOTE Confidence: 0.930724328518519
00:16:46.029 --> 00:16:47.880 very close to us.
NOTE Confidence: 0.930724328518519
00:16:47.880 --> 00:16:49.430 Department of Homeland Security comes
NOTE Confidence: 0.930724328518519
00:16:49.430 --> 00:16:52.172 here every five years and they do a risk
NOTE Confidence: 0.930724328518519
00:16:52.172 --> 00:16:53.592 assessment on the entire institution.
NOTE Confidence: 0.930724328518519
00:16:53.600 --> 00:16:55.352 They come with a team of people and
NOTE Confidence: 0.930724328518519
00:16:55.352 --> 00:16:56.793 they look at gaps and opportunities
NOTE Confidence: 0.930724328518519
00:16:56.793 --> 00:16:58.861 and we take that and we make the
NOTE Confidence: 0.930724328518519
00:16:58.861 --> 00:17:00.029 department work with Stephanie
NOTE Confidence: 0.930724328518519
00:17:00.029 --> 00:17:02.400 McGuire and her team to make the
NOTE Confidence: 0.930724328518519
00:17:02.400 --> 00:17:04.400 department more secure and safer.
NOTE Confidence: 0.930724328518519
00:17:04.400 --> 00:17:06.236 The FBI is in the city of New Haven,
NOTE Confidence: 0.930724328518519
00:17:06.240 --> 00:17:08.346 so it's good to have open
NOTE Confidence: 0.930724328518519
00:17:08.346 --> 00:17:09.399 collaboration with them.
NOTE Confidence: 0.930724328518519
00:17:09.400 --> 00:17:10.364 They work with us.
NOTE Confidence: 0.930724328518519

00:17:10.364 --> 00:17:12.206 We've had we had a bomb threat
NOTE Confidence: 0.930724328518519

00:17:12.206 --> 00:17:14.572 going back about 14 months ago where
NOTE Confidence: 0.930724328518519

00:17:14.572 --> 00:17:16.381 somebody called them for bomb threats
NOTE Confidence: 0.930724328518519

00:17:16.381 --> 00:17:19.956 over a or over a 12 hour period.
NOTE Confidence: 0.930724328518519

00:17:19.960 --> 00:17:22.480 We called the Joint Terrorist Task Force.
NOTE Confidence: 0.930724328518519

00:17:22.480 --> 00:17:25.934 They sent somebody up here and they
NOTE Confidence: 0.930724328518519

00:17:25.934 --> 00:17:27.804 investigated and four weeks ago
NOTE Confidence: 0.930724328518519

00:17:27.804 --> 00:17:30.478 that person got 7 years in prison.
NOTE Confidence: 0.930724328518519

00:17:30.480 --> 00:17:33.042 We recently had another bomb threat
NOTE Confidence: 0.930724328518519

00:17:33.042 --> 00:17:35.624 that happened 3 weeks ago and they're
NOTE Confidence: 0.930724328518519

00:17:35.624 --> 00:17:36.680 investigating that right now.
NOTE Confidence: 0.930724328518519

00:17:36.680 --> 00:17:38.570 But somebody had called in that
NOTE Confidence: 0.930724328518519

00:17:38.570 --> 00:17:41.440 there was a ammonium nitrate bomb
NOTE Confidence: 0.930724328518519

00:17:41.440 --> 00:17:43.680 around Yellow Haven Hospital.
NOTE Confidence: 0.930724328518519

00:17:43.680 --> 00:17:46.720 And that the person who made the call,
NOTE Confidence: 0.930724328518519

00:17:46.720 --> 00:17:46.974 actually,

NOTE Confidence: 0.930724328518519
00:17:46.974 --> 00:17:48.752 he actually sent an e-mail to the
NOTE Confidence: 0.930724328518519
00:17:48.752 --> 00:17:50.744 mayor of the city of New Haven saying
NOTE Confidence: 0.930724328518519
00:17:50.744 --> 00:17:52.648 that he's gonna find me on New Haven
NOTE Confidence: 0.930724328518519
00:17:52.648 --> 00:17:54.329 Hospital and that he was going to
NOTE Confidence: 0.930724328518519
00:17:54.329 --> 00:17:56.632 shoot at doctors who were leaving the
NOTE Confidence: 0.930724328518519
00:17:56.632 --> 00:17:58.798 facility because they killed his daughter.
NOTE Confidence: 0.930724328518519
00:17:58.800 --> 00:18:01.580 So we have the FBI working on this and we're
NOTE Confidence: 0.930724328518519
00:18:01.652 --> 00:18:04.438 actually tracking this through the dark web.
NOTE Confidence: 0.930724328518519
00:18:04.440 --> 00:18:05.676 So more to come on that,
NOTE Confidence: 0.930724328518519
00:18:05.680 --> 00:18:06.709 but those are,
NOTE Confidence: 0.930724328518519
00:18:06.709 --> 00:18:08.081 those are that's the
NOTE Confidence: 0.930724328518519
00:18:08.081 --> 00:18:09.480 collaboration that we have.
NOTE Confidence: 0.930724328518519
00:18:09.480 --> 00:18:11.760 This is a communication we have with staff.
NOTE Confidence: 0.930724328518519
00:18:11.760 --> 00:18:13.120 This is the ongoing communication
NOTE Confidence: 0.930724328518519
00:18:13.120 --> 00:18:14.480 we have with the community,
NOTE Confidence: 0.930724328518519

00:18:14.480 --> 00:18:15.764 with local law enforcement,
NOTE Confidence: 0.930724328518519

00:18:15.764 --> 00:18:17.690 with projects that are going on
NOTE Confidence: 0.930724328518519

00:18:17.746 --> 00:18:19.541 within the hospital which includes
NOTE Confidence: 0.930724328518519

00:18:19.541 --> 00:18:21.814 risk assessments and being part of
NOTE Confidence: 0.930724328518519

00:18:21.814 --> 00:18:24.010 workplace violence committee on a
NOTE Confidence: 0.930724328518519

00:18:24.010 --> 00:18:26.800 hospital and a health care setting.
NOTE Confidence: 0.930724328518519

00:18:26.800 --> 00:18:27.960 Next slide please Stephanie.
NOTE Confidence: 0.919794288125

00:18:30.080 --> 00:18:32.969 So this gives you a an idea of the
NOTE Confidence: 0.919794288125

00:18:32.969 --> 00:18:35.196 breadth and scope of what we do.
NOTE Confidence: 0.919794288125

00:18:35.200 --> 00:18:38.133 We are at at we currently have
NOTE Confidence: 0.919794288125

00:18:38.133 --> 00:18:41.160 presence at 10 offsite locations.
NOTE Confidence: 0.919794288125

00:18:41.160 --> 00:18:44.376 However we're we're with the technology
NOTE Confidence: 0.919794288125

00:18:44.376 --> 00:18:46.520 that the security technology
NOTE Confidence: 0.919794288125

00:18:46.601 --> 00:18:48.869 Stephanie currently operates at
NOTE Confidence: 0.919794288125

00:18:48.869 --> 00:18:51.200 over 104 offsite locations for
NOTE Confidence: 0.919794288125

00:18:51.200 --> 00:18:53.400 approximately 10.8 million square feet,

NOTE Confidence: 0.919794288125

00:18:53.400 --> 00:18:54.680 thousands of people into

NOTE Confidence: 0.919794288125

00:18:54.680 --> 00:18:55.960 our facilities every day.

NOTE Confidence: 0.919794288125

00:18:55.960 --> 00:18:58.600 We have numerous victims of violence.

NOTE Confidence: 0.919794288125

00:18:58.600 --> 00:19:00.496 Stephanie, I don't know if you want to

NOTE Confidence: 0.919794288125

00:19:00.496 --> 00:19:01.964 talk about the electronic infrastructure

NOTE Confidence: 0.919794288125

00:19:01.964 --> 00:19:04.162 at these locations and what we have

NOTE Confidence: 0.919794288125

00:19:04.220 --> 00:19:05.964 here and what we're trying to do to

NOTE Confidence: 0.919794288125

00:19:05.964 --> 00:19:07.075 make this the institution safer.

NOTE Confidence: 0.919794288125

00:19:07.075 --> 00:19:08.650 If you want to talk about the

NOTE Confidence: 0.919794288125

00:19:08.698 --> 00:19:10.024 technology now and then I'll get

NOTE Confidence: 0.919794288125

00:19:10.024 --> 00:19:11.559 into the last part of the slides.

NOTE Confidence: 0.888374134

00:19:12.960 --> 00:19:13.848 Sure. Thanks, Nick.

NOTE Confidence: 0.888374134

00:19:13.848 --> 00:19:15.920 And apologies for not being on camera.

NOTE Confidence: 0.888374134

00:19:15.920 --> 00:19:17.080 I'm not feeling my best.

NOTE Confidence: 0.888374134

00:19:17.080 --> 00:19:18.884 I'm like minutes, hours,

NOTE Confidence: 0.888374134

00:19:18.884 --> 00:19:21.590 days away from giving birth so

NOTE Confidence: 0.888374134

00:19:21.678 --> 00:19:24.798 I am home resting and again just

NOTE Confidence: 0.888374134

00:19:24.798 --> 00:19:26.154 not feeling or looking my best.

NOTE Confidence: 0.888374134

00:19:26.160 --> 00:19:29.436 So apologies for not being on camera.

NOTE Confidence: 0.888374134

00:19:29.440 --> 00:19:30.292 But again Nick,

NOTE Confidence: 0.888374134

00:19:30.292 --> 00:19:31.996 thanks for for kicking this over.

NOTE Confidence: 0.888374134

00:19:32.000 --> 00:19:33.320 As he said,

NOTE Confidence: 0.888374134

00:19:33.320 --> 00:19:36.088 we have a very robust physical

NOTE Confidence: 0.888374134

00:19:36.088 --> 00:19:38.360 security security technology system

NOTE Confidence: 0.9692811425

00:19:39.320 --> 00:19:40.560 that's not only located

NOTE Confidence: 0.962727607142857

00:19:40.560 --> 00:19:43.080 within the four walls of each campus,

NOTE Confidence: 0.962727607142857

00:19:43.080 --> 00:19:44.586 but we have a heavy presence

NOTE Confidence: 0.962727607142857

00:19:44.586 --> 00:19:45.840 in our ambulatory sites too.

NOTE Confidence: 0.962727607142857

00:19:45.840 --> 00:19:49.158 So for those of you that frequent

NOTE Confidence: 0.962727607142857

00:19:49.160 --> 00:19:52.160 the off site Smilo centers,

NOTE Confidence: 0.962727607142857

00:19:52.160 --> 00:19:53.876 you know that we have panic

NOTE Confidence: 0.962727607142857
00:19:53.876 --> 00:19:56.063 devices and we have cameras and we
NOTE Confidence: 0.962727607142857
00:19:56.063 --> 00:19:58.150 have card readers to keep those
NOTE Confidence: 0.962727607142857
00:19:58.150 --> 00:20:00.000 satellite locations safe as well.
NOTE Confidence: 0.962727607142857
00:20:00.000 --> 00:20:03.876 So we have over 1700 cameras,
NOTE Confidence: 0.962727607142857
00:20:03.880 --> 00:20:07.520 we have over 2800 card readers we have.
NOTE Confidence: 0.962727607142857
00:20:07.520 --> 00:20:09.640 Over 2500 links, panic devices,
NOTE Confidence: 0.962727607142857
00:20:09.640 --> 00:20:11.440 which are the panic devices that
NOTE Confidence: 0.962727607142857
00:20:11.440 --> 00:20:13.280 are located on your keyboards.
NOTE Confidence: 0.962727607142857
00:20:13.280 --> 00:20:14.596 As Nick mentioned before,
NOTE Confidence: 0.962727607142857
00:20:14.596 --> 00:20:17.017 we have a very robust infant security
NOTE Confidence: 0.962727607142857
00:20:17.017 --> 00:20:18.937 system which we actually just
NOTE Confidence: 0.962727607142857
00:20:18.937 --> 00:20:20.944 transitioned over as I'm noticing
NOTE Confidence: 0.962727607142857
00:20:20.944 --> 00:20:23.398 we're we're looking at the PowerPoint.
NOTE Confidence: 0.962727607142857
00:20:23.400 --> 00:20:25.776 We have transitioned from a Stanley
NOTE Confidence: 0.962727607142857
00:20:25.776 --> 00:20:28.055 product which was formerly called Hugs
NOTE Confidence: 0.962727607142857

00:20:28.055 --> 00:20:30.559 to a new program by Guard RFID called

NOTE Confidence: 0.962727607142857

00:20:30.626 --> 00:20:32.798 Top Guard that was completed about

NOTE Confidence: 0.962727607142857

00:20:32.800 --> 00:20:35.915 two weeks ago because we do have,

NOTE Confidence: 0.962727607142857

00:20:35.920 --> 00:20:36.494 you know,

NOTE Confidence: 0.962727607142857

00:20:36.494 --> 00:20:38.216 that's one of our most precious

NOTE Confidence: 0.962727607142857

00:20:38.216 --> 00:20:41.770 populations with over 6000 babies birthed

NOTE Confidence: 0.962727607142857

00:20:41.770 --> 00:20:44.640 annually at the York Street campus.

NOTE Confidence: 0.962727607142857

00:20:44.640 --> 00:20:46.698 We have over 100 emergency blue

NOTE Confidence: 0.962727607142857

00:20:46.698 --> 00:20:48.857 phones which I'll get into talking

NOTE Confidence: 0.962727607142857

00:20:48.857 --> 00:20:51.142 about some initiatives regarding blue

NOTE Confidence: 0.962727607142857

00:20:51.142 --> 00:20:53.280 phones on the exterior in a moment.

NOTE Confidence: 0.962727607142857

00:20:53.280 --> 00:20:57.800 We have close to 3000 alerts users,

NOTE Confidence: 0.962727607142857

00:20:57.800 --> 00:20:59.624 which we will also talk about

NOTE Confidence: 0.962727607142857

00:20:59.624 --> 00:21:00.840 in a future slide,

NOTE Confidence: 0.962727607142857

00:21:00.840 --> 00:21:04.480 which is the mobile panic device system.

NOTE Confidence: 0.962727607142857

00:21:04.480 --> 00:21:07.360 And dispatch receives or can receive

NOTE Confidence: 0.962727607142857
00:21:07.360 --> 00:21:13.384 up to 10,000 alarms that are monitored.
NOTE Confidence: 0.962727607142857
00:21:13.384 --> 00:21:15.976 So between panic alarms,
NOTE Confidence: 0.962727607142857
00:21:15.976 --> 00:21:18.040 between fire alarms,
NOTE Confidence: 0.962727607142857
00:21:18.040 --> 00:21:18.760 environmental alarms,
NOTE Confidence: 0.962727607142857
00:21:18.760 --> 00:21:19.480 pharmacy alarms,
NOTE Confidence: 0.962727607142857
00:21:19.480 --> 00:21:22.297 there's quite a bit of action that comes
NOTE Confidence: 0.962727607142857
00:21:22.297 --> 00:21:24.397 in through both of our dispatch centers.
NOTE Confidence: 0.809101046
00:21:26.680 --> 00:21:27.364 Thank you, Steph.
NOTE Confidence: 0.809101046
00:21:27.364 --> 00:21:30.320 If you go to the next slide, please?
NOTE Confidence: 0.809101046
00:21:30.320 --> 00:21:33.680 Sure. So I'd like to give you the
NOTE Confidence: 0.809101046
00:21:33.680 --> 00:21:35.197 breadth and scope of what we do.
NOTE Confidence: 0.809101046
00:21:35.200 --> 00:21:36.586 This is sort of like an eye
NOTE Confidence: 0.809101046
00:21:36.586 --> 00:21:37.840 chart and I you know it.
NOTE Confidence: 0.809101046
00:21:37.840 --> 00:21:39.356 You know we monitor,
NOTE Confidence: 0.809101046
00:21:39.356 --> 00:21:41.251 we have performance improvement initiatives
NOTE Confidence: 0.809101046

00:21:41.251 --> 00:21:43.480 that we monitor on a daily basis,
NOTE Confidence: 0.809101046

00:21:43.480 --> 00:21:45.316 almost on an hourly basis and
NOTE Confidence: 0.809101046

00:21:45.316 --> 00:21:47.160 we calculate them by the year.
NOTE Confidence: 0.809101046

00:21:47.160 --> 00:21:49.197 The the calls between here and St.
NOTE Confidence: 0.809101046

00:21:49.200 --> 00:21:51.480 Rayfield Campus, we average about
NOTE Confidence: 0.809101046

00:21:51.480 --> 00:21:54.360 150,000 calls for service a year.
NOTE Confidence: 0.809101046

00:21:54.360 --> 00:21:55.816 I talked about the building checks that
NOTE Confidence: 0.809101046

00:21:55.816 --> 00:21:57.758 we do, the rounding up on the floors.
NOTE Confidence: 0.809101046

00:21:57.760 --> 00:22:00.760 We average anywhere between 6000
NOTE Confidence: 0.809101046

00:22:00.760 --> 00:22:03.000 and 7500 rounds pounds per month,
NOTE Confidence: 0.809101046

00:22:03.000 --> 00:22:05.455 which is required as performance
NOTE Confidence: 0.809101046

00:22:05.455 --> 00:22:06.437 improvement initiative.
NOTE Confidence: 0.809101046

00:22:06.440 --> 00:22:07.478 I want to take your line,
NOTE Confidence: 0.809101046

00:22:07.480 --> 00:22:09.916 your eyes to line number four.
NOTE Confidence: 0.809101046

00:22:09.920 --> 00:22:11.798 It says number of patient interactions.
NOTE Confidence: 0.809101046

00:22:11.800 --> 00:22:14.440 Those aren't. Those aren't patient problems.

NOTE Confidence: 0.809101046

00:22:14.440 --> 00:22:15.496 Those are interactions.

NOTE Confidence: 0.809101046

00:22:15.496 --> 00:22:16.200 Those are.

NOTE Confidence: 0.809101046

00:22:16.200 --> 00:22:19.840 They gives us an opportunity to make

NOTE Confidence: 0.809101046

00:22:19.840 --> 00:22:22.635 that right when we approach a patient

NOTE Confidence: 0.809101046

00:22:22.635 --> 00:22:24.880 and they're highly escalated or highly,

NOTE Confidence: 0.809101046

00:22:24.880 --> 00:22:25.760 you know,

NOTE Confidence: 0.809101046

00:22:25.760 --> 00:22:27.960 they're 1° above boiling point.

NOTE Confidence: 0.809101046

00:22:27.960 --> 00:22:30.768 It's up to us to deescalate that or

NOTE Confidence: 0.809101046

00:22:30.768 --> 00:22:33.618 redirect that patient to comply with the

NOTE Confidence: 0.809101046

00:22:33.618 --> 00:22:36.560 medical care that they're going to receive.

NOTE Confidence: 0.809101046

00:22:36.560 --> 00:22:41.860 We do about of the redirects we

NOTE Confidence: 0.809101046

00:22:41.860 --> 00:22:44.746 we interact with about 32,500 /

NOTE Confidence: 0.809101046

00:22:44.746 --> 00:22:46.158 a thirteen month period.

NOTE Confidence: 0.809101046

00:22:46.160 --> 00:22:48.358 If you look at line number six,

NOTE Confidence: 0.809101046

00:22:48.360 --> 00:22:50.481 look at the number of those patients

NOTE Confidence: 0.809101046

00:22:50.481 --> 00:22:52.984 that end up in restraints 19101,
NOTE Confidence: 0.809101046

00:22:52.984 --> 00:22:56.908 that's less than 5% of the patients that
NOTE Confidence: 0.809101046

00:22:56.908 --> 00:22:59.301 we interact with that end up in clinical
NOTE Confidence: 0.809101046

00:22:59.301 --> 00:23:01.632 restraints at the request of a physician.
NOTE Confidence: 0.809101046

00:23:01.640 --> 00:23:04.864 So we hire retired police officers to patrol
NOTE Confidence: 0.809101046

00:23:04.864 --> 00:23:08.276 and to respond to these types of calls.
NOTE Confidence: 0.809101046

00:23:08.280 --> 00:23:09.520 They bring a skill set,
NOTE Confidence: 0.809101046

00:23:09.520 --> 00:23:12.040 they bring a discipline and they bring
NOTE Confidence: 0.809101046

00:23:12.040 --> 00:23:14.319 a certain level of communication,
NOTE Confidence: 0.809101046

00:23:14.320 --> 00:23:16.605 problem solving and critical thinking
NOTE Confidence: 0.809101046

00:23:16.605 --> 00:23:18.433 to every patient interaction.
NOTE Confidence: 0.809101046

00:23:18.440 --> 00:23:20.764 Most of our patient interactions are in
NOTE Confidence: 0.809101046

00:23:20.764 --> 00:23:22.945 the adult emergency departments and our
NOTE Confidence: 0.809101046

00:23:22.945 --> 00:23:25.195 behavioral health and our YPH buildings.
NOTE Confidence: 0.809101046

00:23:25.200 --> 00:23:27.090 They know us by name and there
NOTE Confidence: 0.809101046

00:23:27.090 --> 00:23:28.860 are many patients who call us on

NOTE Confidence: 0.809101046

00:23:28.860 --> 00:23:30.551 a first name basis and we have

NOTE Confidence: 0.809101046

00:23:30.551 --> 00:23:31.956 a good rapport with them.

NOTE Confidence: 0.809101046

00:23:31.960 --> 00:23:33.830 We also have opportunities to

NOTE Confidence: 0.809101046

00:23:33.830 --> 00:23:35.700 empower clinical staff and they

NOTE Confidence: 0.809101046

00:23:35.766 --> 00:23:37.974 have opportunities to empower us to

NOTE Confidence: 0.809101046

00:23:37.974 --> 00:23:40.136 sometimes step back from a patient

NOTE Confidence: 0.809101046

00:23:40.136 --> 00:23:41.701 'cause they may be escalating

NOTE Confidence: 0.809101046

00:23:41.701 --> 00:23:43.564 and we tell them the same thing.

NOTE Confidence: 0.809101046

00:23:43.564 --> 00:23:44.719 You may wanna step back.

NOTE Confidence: 0.809101046

00:23:44.720 --> 00:23:45.528 This is gonna escalate.

NOTE Confidence: 0.809101046

00:23:45.528 --> 00:23:47.000 We don't want you to get hurt.

NOTE Confidence: 0.809101046

00:23:47.000 --> 00:23:48.480 So these are the types.

NOTE Confidence: 0.809101046

00:23:48.480 --> 00:23:50.460 We put a lot of emphasis on the number

NOTE Confidence: 0.809101046

00:23:50.460 --> 00:23:52.483 of patient interactions and the number

NOTE Confidence: 0.809101046

00:23:52.483 --> 00:23:55.039 of patient restraints to show our successes.

NOTE Confidence: 0.809101046

00:23:55.040 --> 00:23:56.928 But look in line #7 where it has
NOTE Confidence: 0.809101046

00:23:56.928 --> 00:23:58.720 patient number of patient safety checks.
NOTE Confidence: 0.809101046

00:23:58.720 --> 00:24:00.680 You know how difficult it is to
NOTE Confidence: 0.809101046

00:24:00.680 --> 00:24:02.808 put your hands on a patient who
NOTE Confidence: 0.809101046

00:24:02.808 --> 00:24:04.638 has a mental illness or behavior,
NOTE Confidence: 0.809101046

00:24:04.640 --> 00:24:07.202 health issue or substance abuse issue
NOTE Confidence: 0.809101046

00:24:07.202 --> 00:24:09.736 or may have Alzheimer's or the onset
NOTE Confidence: 0.809101046

00:24:09.736 --> 00:24:12.022 of of dementia to put your hands on
NOTE Confidence: 0.809101046

00:24:12.022 --> 00:24:14.359 them to check for weapons or drugs.
NOTE Confidence: 0.809101046

00:24:14.360 --> 00:24:17.920 We do that 16,000 times over the course
NOTE Confidence: 0.809101046

00:24:17.920 --> 00:24:21.800 of a year and very rarely does that escalate.
NOTE Confidence: 0.809101046

00:24:21.800 --> 00:24:23.414 So you have to have really
NOTE Confidence: 0.809101046

00:24:23.414 --> 00:24:24.490 good communication skills and
NOTE Confidence: 0.917128093809524

00:24:24.543 --> 00:24:25.888 problem solving techniques in order
NOTE Confidence: 0.917128093809524

00:24:25.888 --> 00:24:27.720 to put your hands on somebody,
NOTE Confidence: 0.917128093809524

00:24:27.720 --> 00:24:29.771 search them and get them to comply

NOTE Confidence: 0.917128093809524
00:24:29.771 --> 00:24:31.883 so the clinical staff could do the
NOTE Confidence: 0.917128093809524
00:24:31.883 --> 00:24:33.641 care that is provided they they
NOTE Confidence: 0.917128093809524
00:24:33.702 --> 00:24:35.520 need to provide for that staff.
NOTE Confidence: 0.917128093809524
00:24:35.520 --> 00:24:36.688 So these are some of the things that
NOTE Confidence: 0.917128093809524
00:24:36.688 --> 00:24:37.916 we do and these are the numbers.
NOTE Confidence: 0.917128093809524
00:24:37.920 --> 00:24:39.198 Again, it's just an eye chart,
NOTE Confidence: 0.917128093809524
00:24:39.200 --> 00:24:40.929 but it's something that we track and
NOTE Confidence: 0.917128093809524
00:24:40.929 --> 00:24:42.932 we report out on a monthly basis and
NOTE Confidence: 0.917128093809524
00:24:42.932 --> 00:24:44.639 something that we hold and as a P I,
NOTE Confidence: 0.917128093809524
00:24:44.640 --> 00:24:48.160 I and hold all our officers accountable for.
NOTE Confidence: 0.917128093809524
00:24:48.160 --> 00:24:49.080 Next slide please, Steph.
NOTE Confidence: 0.906633668
00:24:54.200 --> 00:24:56.813 So New Haven crime statistics, again,
NOTE Confidence: 0.906633668
00:24:56.813 --> 00:24:59.477 you know, why is this important to us?
NOTE Confidence: 0.906633668
00:24:59.480 --> 00:25:01.744 You know, I get emails from the chief
NOTE Confidence: 0.906633668
00:25:01.744 --> 00:25:04.219 almost on a daily basis from the Yale
NOTE Confidence: 0.906633668

00:25:04.219 --> 00:25:06.359 University and Yale New even hospital.
NOTE Confidence: 0.906633668

00:25:06.360 --> 00:25:07.192 While things that are
NOTE Confidence: 0.906633668

00:25:07.192 --> 00:25:08.232 going on around the city,
NOTE Confidence: 0.906633668

00:25:08.240 --> 00:25:10.328 there are a lot of protests based on the
NOTE Confidence: 0.906633668

00:25:10.328 --> 00:25:12.516 wars that are going on around the country.
NOTE Confidence: 0.906633668

00:25:12.520 --> 00:25:15.424 You know, for or against certain countries.
NOTE Confidence: 0.906633668

00:25:15.424 --> 00:25:17.056 There are a lot of protests
NOTE Confidence: 0.906633668

00:25:17.056 --> 00:25:18.479 on the New Haven Green,
NOTE Confidence: 0.906633668

00:25:18.480 --> 00:25:20.559 not a concern to Yellow Haven Hospital.
NOTE Confidence: 0.906633668

00:25:20.560 --> 00:25:22.276 We are not the focal point.
NOTE Confidence: 0.906633668

00:25:22.280 --> 00:25:25.038 However, we can become the focal point.
NOTE Confidence: 0.906633668

00:25:25.040 --> 00:25:27.200 If somebody gets hurt at once,
NOTE Confidence: 0.906633668

00:25:27.200 --> 00:25:30.476 there's any kind of a risk involved.
NOTE Confidence: 0.906633668

00:25:30.480 --> 00:25:31.692 Once there's an assault,
NOTE Confidence: 0.906633668

00:25:31.692 --> 00:25:33.510 once there's somebody that at that
NOTE Confidence: 0.906633668

00:25:33.566 --> 00:25:35.516 location that needs medical attention,

NOTE Confidence: 0.906633668

00:25:35.520 --> 00:25:37.904 that shows up at our front door and

NOTE Confidence: 0.906633668

00:25:37.904 --> 00:25:40.122 our emergency department and that will

NOTE Confidence: 0.906633668

00:25:40.122 --> 00:25:42.456 bring family and friends and protesters

NOTE Confidence: 0.906633668

00:25:42.525 --> 00:25:44.835 to the front doors of our institution.

NOTE Confidence: 0.906633668

00:25:44.840 --> 00:25:46.325 It will also bring media

NOTE Confidence: 0.906633668

00:25:46.325 --> 00:25:47.513 and a police presence.

NOTE Confidence: 0.906633668

00:25:47.520 --> 00:25:49.866 So although I'm not concerned about

NOTE Confidence: 0.906633668

00:25:49.866 --> 00:25:52.120 the protests that are going on,

NOTE Confidence: 0.906633668

00:25:52.120 --> 00:25:52.678 you know,

NOTE Confidence: 0.906633668

00:25:52.678 --> 00:25:54.631 anything that has a potential for violence

NOTE Confidence: 0.906633668

00:25:54.631 --> 00:25:56.480 that may show up at our front doors.

NOTE Confidence: 0.906633668

00:25:56.480 --> 00:25:58.484 It's important that we're in close

NOTE Confidence: 0.906633668

00:25:58.484 --> 00:26:00.483 communication with the chief at both

NOTE Confidence: 0.906633668

00:26:00.483 --> 00:26:01.998 the hospital and the university.

NOTE Confidence: 0.906633668

00:26:02.000 --> 00:26:04.408 I wanna know about the about the confirmed

NOTE Confidence: 0.906633668

00:26:04.408 --> 00:26:07.000 shots that are fired every day or every year.
NOTE Confidence: 0.906633668

00:26:07.000 --> 00:26:08.716 I wanna get the rolling numbers.
NOTE Confidence: 0.906633668

00:26:08.720 --> 00:26:10.715 I wanna know about the aggravated assaults,
NOTE Confidence: 0.906633668

00:26:10.720 --> 00:26:12.280 the assault with the firearm,
NOTE Confidence: 0.906633668

00:26:12.280 --> 00:26:13.819 the the robberies,
NOTE Confidence: 0.906633668

00:26:13.819 --> 00:26:15.358 the murder victims.
NOTE Confidence: 0.906633668

00:26:15.360 --> 00:26:17.880 These patients show up at our front doors.
NOTE Confidence: 0.906633668

00:26:17.880 --> 00:26:19.775 They bring friends and sometimes
NOTE Confidence: 0.906633668

00:26:19.775 --> 00:26:22.240 they bring foes who come in here
NOTE Confidence: 0.906633668

00:26:22.240 --> 00:26:24.426 and want to try to do harm to
NOTE Confidence: 0.906633668

00:26:24.426 --> 00:26:26.556 that patient or patient's family.
NOTE Confidence: 0.906633668

00:26:26.560 --> 00:26:28.776 I know a big thing on the glint
NOTE Confidence: 0.906633668

00:26:28.776 --> 00:26:31.120 was the thefts from or of autos.
NOTE Confidence: 0.906633668

00:26:31.120 --> 00:26:33.170 This is something that's been
NOTE Confidence: 0.906633668

00:26:33.170 --> 00:26:34.400 going on nationwide.
NOTE Confidence: 0.906633668

00:26:34.400 --> 00:26:37.728 We've seen an increase and thefts from

NOTE Confidence: 0.906633668

00:26:37.728 --> 00:26:40.276 autos from our parking lots and garages.

NOTE Confidence: 0.906633668

00:26:40.280 --> 00:26:41.738 We're not exempt from any other

NOTE Confidence: 0.906633668

00:26:41.738 --> 00:26:43.522 city or town or any other parking

NOTE Confidence: 0.906633668

00:26:43.522 --> 00:26:45.040 lot or garage in the city.

NOTE Confidence: 0.906633668

00:26:45.040 --> 00:26:45.496 New Haven.

NOTE Confidence: 0.906633668

00:26:45.496 --> 00:26:47.320 I know everyone's seen an uptick in this.

NOTE Confidence: 0.906633668

00:26:47.320 --> 00:26:49.840 It's sort of started levelling out

NOTE Confidence: 0.906633668

00:26:49.840 --> 00:26:53.074 but we have put New Haven police,

NOTE Confidence: 0.906633668

00:26:53.080 --> 00:26:54.510 New Haven Parking Authority because

NOTE Confidence: 0.906633668

00:26:54.510 --> 00:26:56.190 Yale New Haven Hospital does not

NOTE Confidence: 0.906633668

00:26:56.190 --> 00:26:57.597 own any of our lots and garages.

NOTE Confidence: 0.906633668

00:26:57.600 --> 00:26:59.679 So we encourage the parking authority to

NOTE Confidence: 0.906633668

00:26:59.679 --> 00:27:01.923 round and put personnel in these areas

NOTE Confidence: 0.906633668

00:27:01.923 --> 00:27:04.203 and we also encourage our officers to

NOTE Confidence: 0.906633668

00:27:04.203 --> 00:27:05.853 go there especially during peak times

NOTE Confidence: 0.906633668

00:27:05.853 --> 00:27:08.450 to show a presence in the lots and
NOTE Confidence: 0.906633668

00:27:08.450 --> 00:27:11.000 garages to make sure that our staff,
NOTE Confidence: 0.906633668

00:27:11.000 --> 00:27:12.172 our patients and visitors
NOTE Confidence: 0.906633668

00:27:12.172 --> 00:27:13.637 are safe on the lot.
NOTE Confidence: 0.906633668

00:27:13.640 --> 00:27:15.340 They are some of these
NOTE Confidence: 0.906633668

00:27:15.340 --> 00:27:16.360 are opportunistic crimes.
NOTE Confidence: 0.906633668

00:27:16.360 --> 00:27:18.642 We just arrested 214 year old kids
NOTE Confidence: 0.906633668

00:27:18.642 --> 00:27:21.357 today in our two house street garage.
NOTE Confidence: 0.906633668

00:27:21.360 --> 00:27:24.120 Were checking door handles of cars
NOTE Confidence: 0.906633668

00:27:24.120 --> 00:27:25.970 walking around and they're also
NOTE Confidence: 0.906633668

00:27:25.970 --> 00:27:27.520 involved in other things that
NOTE Confidence: 0.906633668

00:27:27.520 --> 00:27:29.079 they admitted to today as well.
NOTE Confidence: 0.906633668

00:27:29.080 --> 00:27:30.080 But just so you know,
NOTE Confidence: 0.906633668

00:27:30.080 --> 00:27:33.113 do not leave anything of value in your car.
NOTE Confidence: 0.906633668

00:27:33.120 --> 00:27:34.776 We are in a high end call for
NOTE Confidence: 0.906633668

00:27:34.776 --> 00:27:35.190 police service

NOTE Confidence: 0.693878434545455
00:27:35.244 --> 00:27:37.640 area. We are, we are in a great community.
NOTE Confidence: 0.693878434545455
00:27:37.640 --> 00:27:39.652 I got to tell you, I work in the
NOTE Confidence: 0.693878434545455
00:27:39.652 --> 00:27:41.680 streets in New Haven for 20 years.
NOTE Confidence: 0.693878434545455
00:27:41.680 --> 00:27:44.956 95% of this community are great people
NOTE Confidence: 0.693878434545455
00:27:44.960 --> 00:27:46.660 but we have 5% are out for all the wrong
NOTE Confidence: 0.693878434545455
00:27:46.705 --> 00:27:48.537 things and all the wrong reasons and that's
NOTE Confidence: 0.693878434545455
00:27:48.537 --> 00:27:50.278 the reason why we got to lock the doors.
NOTE Confidence: 0.693878434545455
00:27:50.280 --> 00:27:51.292 Be careful walking to
NOTE Confidence: 0.693878434545455
00:27:51.292 --> 00:27:52.557 and from from your cars.
NOTE Confidence: 0.693878434545455
00:27:52.560 --> 00:27:54.775 Take advantage of shuttles of
NOTE Confidence: 0.693878434545455
00:27:54.775 --> 00:27:56.990 security escorts of police escorts
NOTE Confidence: 0.693878434545455
00:27:57.065 --> 00:27:58.520 from Yale University.
NOTE Confidence: 0.693878434545455
00:27:58.520 --> 00:27:59.997 Take advantage if you're going to walk.
NOTE Confidence: 0.693878434545455
00:28:00.000 --> 00:28:01.560 It's getting lighter later now,
NOTE Confidence: 0.693878434545455
00:28:01.560 --> 00:28:02.220 so take advantage.
NOTE Confidence: 0.693878434545455

00:28:02.220 --> 00:28:04.160 If you're going to walk to your vehicle,
NOTE Confidence: 0.693878434545455

00:28:04.160 --> 00:28:07.280 walk in groups, safety and numbers.
NOTE Confidence: 0.693878434545455

00:28:07.280 --> 00:28:09.038 I know, I know Yale University
NOTE Confidence: 0.693878434545455

00:28:09.038 --> 00:28:11.000 has an app for your phone.
NOTE Confidence: 0.693878434545455

00:28:11.000 --> 00:28:12.792 We also have one for Yale New
NOTE Confidence: 0.693878434545455

00:28:12.792 --> 00:28:14.359 Haven Hospital for our employees.
NOTE Confidence: 0.693878434545455

00:28:14.360 --> 00:28:17.000 It's called Alert CC app.
NOTE Confidence: 0.693878434545455

00:28:17.000 --> 00:28:19.079 That's definitely talking about in a minute,
NOTE Confidence: 0.693878434545455

00:28:19.080 --> 00:28:21.000 but you need to take precautions.
NOTE Confidence: 0.693878434545455

00:28:21.000 --> 00:28:22.876 You can be viewed as a target,
NOTE Confidence: 0.693878434545455

00:28:22.880 --> 00:28:24.914 but you do not have to be a victim,
NOTE Confidence: 0.693878434545455

00:28:24.920 --> 00:28:25.679 so take precaution.
NOTE Confidence: 0.693878434545455

00:28:25.679 --> 00:28:27.450 We need the eyes and ears of
NOTE Confidence: 0.693878434545455

00:28:27.509 --> 00:28:29.315 every one of our employees to
NOTE Confidence: 0.693878434545455

00:28:29.315 --> 00:28:30.519 keep our institutions safe.
NOTE Confidence: 0.693878434545455

00:28:30.520 --> 00:28:33.736 There was an incident about about two

NOTE Confidence: 0.693878434545455
00:28:33.736 --> 00:28:35.720 months ago where one where one of our
NOTE Confidence: 0.693878434545455
00:28:35.779 --> 00:28:37.459 employees parked their vehicle at a
NOTE Confidence: 0.693878434545455
00:28:37.459 --> 00:28:39.476 lot on the office in Rayfield Campus
NOTE Confidence: 0.693878434545455
00:28:39.476 --> 00:28:41.436 and as she was exiting her vehicle
NOTE Confidence: 0.693878434545455
00:28:41.440 --> 00:28:43.491 she was approached by a homeless woman
NOTE Confidence: 0.693878434545455
00:28:43.491 --> 00:28:45.840 who asked for her the keys for her car.
NOTE Confidence: 0.693878434545455
00:28:45.840 --> 00:28:48.531 When she refused to give the keys over to
NOTE Confidence: 0.693878434545455
00:28:48.531 --> 00:28:51.037 this woman they engaged in a struggle.
NOTE Confidence: 0.693878434545455
00:28:51.040 --> 00:28:54.590 The woman while the woman felt she
NOTE Confidence: 0.693878434545455
00:28:54.590 --> 00:28:56.398 was losing the struggle she reached in
NOTE Confidence: 0.693878434545455
00:28:56.398 --> 00:28:58.318 her pocket and she pulled out a knife.
NOTE Confidence: 0.693878434545455
00:28:58.320 --> 00:29:00.154 Our employees started to run away from
NOTE Confidence: 0.693878434545455
00:29:00.154 --> 00:29:02.527 the woman and the woman threw the knife
NOTE Confidence: 0.693878434545455
00:29:02.527 --> 00:29:04.320 that the employee thankfully missed her.
NOTE Confidence: 0.693878434545455
00:29:04.320 --> 00:29:06.480 But please think about this.
NOTE Confidence: 0.693878434545455

00:29:06.480 --> 00:29:08.622 Do not take any unnecessary if somebody
NOTE Confidence: 0.693878434545455

00:29:08.622 --> 00:29:10.828 asks for your purse or somebody asks
NOTE Confidence: 0.693878434545455

00:29:10.828 --> 00:29:12.960 for your computer keys to your car,
NOTE Confidence: 0.693878434545455

00:29:12.960 --> 00:29:14.692 please give them up.
NOTE Confidence: 0.693878434545455

00:29:14.692 --> 00:29:17.030 Your life is not worth a setting your
NOTE Confidence: 0.693878434545455

00:29:17.030 --> 00:29:19.360 your set of keys is not worth your life.
NOTE Confidence: 0.693878434545455

00:29:19.360 --> 00:29:21.160 So please turn them over.
NOTE Confidence: 0.693878434545455

00:29:21.160 --> 00:29:22.444 It's not worth it.
NOTE Confidence: 0.693878434545455

00:29:22.444 --> 00:29:23.728 They're desperate people out
NOTE Confidence: 0.693878434545455

00:29:23.728 --> 00:29:25.439 there taking desperate measures.
NOTE Confidence: 0.693878434545455

00:29:25.440 --> 00:29:27.200 And you know, we don't want to see,
NOTE Confidence: 0.693878434545455

00:29:27.200 --> 00:29:27.780 you know,
NOTE Confidence: 0.693878434545455

00:29:27.780 --> 00:29:29.810 one of the unthinkable happen to any
NOTE Confidence: 0.693878434545455

00:29:29.810 --> 00:29:31.992 of our employees from the the hospital
NOTE Confidence: 0.693878434545455

00:29:31.992 --> 00:29:34.000 or university or anybody for that matter.
NOTE Confidence: 0.693878434545455

00:29:34.000 --> 00:29:34.538 So please,

NOTE Confidence: 0.693878434545455
00:29:34.538 --> 00:29:36.690 if they're if you're asked to give something
NOTE Confidence: 0.693878434545455
00:29:36.743 --> 00:29:38.799 starting over and it could save your life,
NOTE Confidence: 0.693878434545455
00:29:38.800 --> 00:29:41.754 relinquish whatever you have and and please,
NOTE Confidence: 0.693878434545455
00:29:41.760 --> 00:29:43.520 it's not worth your life.
NOTE Confidence: 0.693878434545455
00:29:43.520 --> 00:29:45.920 Give it up and and and move on.
NOTE Confidence: 0.693878434545455
00:29:45.920 --> 00:29:47.768 Call the police and chances are very
NOTE Confidence: 0.693878434545455
00:29:47.768 --> 00:29:49.639 good it's on a camera somewhere.
NOTE Confidence: 0.693878434545455
00:29:49.640 --> 00:29:52.076 We'll be able to capture that.
NOTE Confidence: 0.693878434545455
00:29:52.080 --> 00:29:54.720 Next slide, please.
NOTE Confidence: 0.693878434545455
00:29:54.720 --> 00:29:55.176 So Stephanie,
NOTE Confidence: 0.693878434545455
00:29:55.176 --> 00:29:57.320 you want to talk about the alerts and links?
NOTE Confidence: 0.929627084827586
00:29:58.720 --> 00:30:00.550 Sure. So two pieces of technology
NOTE Confidence: 0.929627084827586
00:30:00.550 --> 00:30:02.751 that I wanted to review with you
NOTE Confidence: 0.929627084827586
00:30:02.751 --> 00:30:04.886 today and then we'll also get into
NOTE Confidence: 0.929627084827586
00:30:04.951 --> 00:30:06.659 some perspective technology and
NOTE Confidence: 0.929627084827586

00:30:06.659 --> 00:30:08.794 projects that we're working on.
NOTE Confidence: 0.929627084827586

00:30:08.800 --> 00:30:10.018 But these are two that are
NOTE Confidence: 0.929627084827586

00:30:10.018 --> 00:30:11.040 available to you right now.
NOTE Confidence: 0.62049585

00:30:13.280 --> 00:30:15.317 Sorry, it's Tracy. I just want to,
NOTE Confidence: 0.62049585

00:30:15.320 --> 00:30:17.606 I'm sorry, but like we're if you guys
NOTE Confidence: 0.62049585

00:30:17.606 --> 00:30:19.497 could try and just wrap up in the next
NOTE Confidence: 0.62049585

00:30:19.497 --> 00:30:21.193 5 minutes or so because we do have
NOTE Confidence: 0.62049585

00:30:21.244 --> 00:30:23.320 another presentation, I apologize.
NOTE Confidence: 0.828683

00:30:23.480 --> 00:30:24.494 Yes, no problem.
NOTE Confidence: 0.828683

00:30:24.494 --> 00:30:27.748 So Alerts is a is an app that is
NOTE Confidence: 0.828683

00:30:27.748 --> 00:30:30.160 available to all Yale New Haven
NOTE Confidence: 0.828683

00:30:30.160 --> 00:30:31.648 Hospital employees right now.
NOTE Confidence: 0.828683

00:30:31.648 --> 00:30:35.119 So Alerts you say now is a smartphone app.
NOTE Confidence: 0.828683

00:30:35.120 --> 00:30:37.118 You can sign up through Infor
NOTE Confidence: 0.828683

00:30:37.118 --> 00:30:38.117 under Quick Links.
NOTE Confidence: 0.828683

00:30:38.120 --> 00:30:40.005 You go through a credentialing

NOTE Confidence: 0.828683

00:30:40.005 --> 00:30:42.320 process and then you can download

NOTE Confidence: 0.828683

00:30:42.320 --> 00:30:44.438 the app from the App Store.

NOTE Confidence: 0.828683

00:30:44.440 --> 00:30:47.040 Basically there's three main features

NOTE Confidence: 0.828683

00:30:47.040 --> 00:30:48.318 that we leverage with this app.

NOTE Confidence: 0.828683

00:30:48.320 --> 00:30:50.940 Users can send a a photo or a video and

NOTE Confidence: 0.828683

00:30:51.009 --> 00:30:53.343 it gets issued directly to Protective

NOTE Confidence: 0.828683

00:30:53.343 --> 00:30:56.319 Services and you can text back and forth.

NOTE Confidence: 0.828683

00:30:56.320 --> 00:30:59.448 We have canned reports under this

NOTE Confidence: 0.828683

00:30:59.448 --> 00:31:02.864 kind of like a share problem which

NOTE Confidence: 0.828683

00:31:02.864 --> 00:31:05.319 is suspicious person vehicle.

NOTE Confidence: 0.828683

00:31:05.320 --> 00:31:07.880 You know you see the same car

NOTE Confidence: 0.828683

00:31:07.880 --> 00:31:09.560 in the parking garage for five

NOTE Confidence: 0.828683

00:31:09.560 --> 00:31:11.438 weeks and it's filled with dust.

NOTE Confidence: 0.828683

00:31:11.440 --> 00:31:13.253 You can send a photo and and

NOTE Confidence: 0.828683

00:31:13.253 --> 00:31:15.006 we'll check it out through to,

NOTE Confidence: 0.828683

00:31:15.006 --> 00:31:15.732 you know,
NOTE Confidence: 0.828683

00:31:15.732 --> 00:31:17.910 there's pan handlers in the garage
NOTE Confidence: 0.828683

00:31:17.983 --> 00:31:20.160 or you see kids hitting door handles
NOTE Confidence: 0.828683

00:31:20.160 --> 00:31:22.399 and you get something on video.
NOTE Confidence: 0.828683

00:31:22.400 --> 00:31:25.118 You can share that with us.
NOTE Confidence: 0.828683

00:31:25.120 --> 00:31:27.388 Two of the the more important features
NOTE Confidence: 0.828683

00:31:27.388 --> 00:31:29.695 I would say is you can directly
NOTE Confidence: 0.828683

00:31:29.695 --> 00:31:31.840 dial 911 through the app and the
NOTE Confidence: 0.828683

00:31:31.840 --> 00:31:33.520 credentials that you sign in with.
NOTE Confidence: 0.828683

00:31:33.520 --> 00:31:36.520 So we know Nick Proto just dialed 911.
NOTE Confidence: 0.828683

00:31:36.520 --> 00:31:38.338 We have his telephone number because
NOTE Confidence: 0.828683

00:31:38.338 --> 00:31:40.562 he signed up with that and we can
NOTE Confidence: 0.828683

00:31:40.562 --> 00:31:42.555 follow up with him from the hospital
NOTE Confidence: 0.828683

00:31:42.555 --> 00:31:44.625 perspective to make sure that our
NOTE Confidence: 0.828683

00:31:44.625 --> 00:31:46.960 employee is OK and also file a report.
NOTE Confidence: 0.828683

00:31:46.960 --> 00:31:50.434 And then you can also hit a panic button,

NOTE Confidence: 0.828683

00:31:50.440 --> 00:31:51.226 which is not,

NOTE Confidence: 0.828683

00:31:51.226 --> 00:31:53.686 does not go to 911 comes to us directly

NOTE Confidence: 0.828683

00:31:53.686 --> 00:31:56.320 and we can follow up with you as well.

NOTE Confidence: 0.828683

00:31:56.320 --> 00:31:59.260 So all of these features are are 24/7 365.

NOTE Confidence: 0.828683

00:31:59.260 --> 00:32:00.880 As a Yale New Haven employee,

NOTE Confidence: 0.828683

00:32:00.880 --> 00:32:02.920 you can use it on or off site.

NOTE Confidence: 0.828683

00:32:02.920 --> 00:32:04.580 So whether you're working in

NOTE Confidence: 0.828683

00:32:04.580 --> 00:32:06.598 New Haven or an ambulatory site

NOTE Confidence: 0.828683

00:32:06.598 --> 00:32:08.356 or you're not working at all,

NOTE Confidence: 0.828683

00:32:08.360 --> 00:32:10.256 if there's something happening

NOTE Confidence: 0.828683

00:32:10.256 --> 00:32:12.445 in your community and you cannot

NOTE Confidence: 0.828683

00:32:12.445 --> 00:32:13.975 safely call 911 and you feel

NOTE Confidence: 0.828683

00:32:13.975 --> 00:32:15.559 like you need to be discreet,

NOTE Confidence: 0.828683

00:32:15.560 --> 00:32:17.709 you can contact us and we can

NOTE Confidence: 0.828683

00:32:17.709 --> 00:32:19.959 call the local PD on your behalf.

NOTE Confidence: 0.828683

00:32:19.960 --> 00:32:20.478 So again,
NOTE Confidence: 0.828683

00:32:20.478 --> 00:32:22.032 you can sign up through through
NOTE Confidence: 0.828683

00:32:22.032 --> 00:32:23.802 info and I can provide more
NOTE Confidence: 0.828683

00:32:23.802 --> 00:32:24.994 information and then links.
NOTE Confidence: 0.828683

00:32:25.000 --> 00:32:26.200 We also talked about earlier
NOTE Confidence: 0.828683

00:32:26.200 --> 00:32:27.160 on in the presentation,
NOTE Confidence: 0.828683

00:32:27.160 --> 00:32:29.902 which is the computer keyboard panic
NOTE Confidence: 0.828683

00:32:29.902 --> 00:32:32.916 system where if if you have it,
NOTE Confidence: 0.828683

00:32:32.920 --> 00:32:35.800 get familiar where you can hit F1 and F-12.
NOTE Confidence: 0.828683

00:32:35.800 --> 00:32:38.104 They're stickers about both of those
NOTE Confidence: 0.828683

00:32:38.104 --> 00:32:40.439 what were referred to as hotkeys.
NOTE Confidence: 0.828683

00:32:40.440 --> 00:32:42.666 If you're in a situation where you
NOTE Confidence: 0.828683

00:32:42.666 --> 00:32:44.520 feel like behavior is escalating,
NOTE Confidence: 0.828683

00:32:44.520 --> 00:32:46.362 you can discreetly hit both of
NOTE Confidence: 0.828683

00:32:46.362 --> 00:32:48.513 those buttons at the same time and
NOTE Confidence: 0.828683

00:32:48.513 --> 00:32:50.391 security is notified and we will

NOTE Confidence: 0.828683
00:32:50.391 --> 00:32:52.508 call you because one dispatcher is
NOTE Confidence: 0.828683
00:32:52.508 --> 00:32:54.358 calling to get more information.
NOTE Confidence: 0.828683
00:32:54.360 --> 00:32:56.700 We're we're also dispatching an
NOTE Confidence: 0.828683
00:32:56.700 --> 00:32:59.869 officer or group of officers to your
NOTE Confidence: 0.828683
00:32:59.869 --> 00:33:02.480 area to help you in that situation.
NOTE Confidence: 0.828683
00:33:02.480 --> 00:33:02.768 Quickly,
NOTE Confidence: 0.828683
00:33:02.768 --> 00:33:04.496 I'll share with you that there
NOTE Confidence: 0.828683
00:33:04.496 --> 00:33:06.213 are some other initiatives that
NOTE Confidence: 0.828683
00:33:06.213 --> 00:33:08.213 we're currently working on under
NOTE Confidence: 0.828683
00:33:08.213 --> 00:33:10.177 the executive sponsorship of Ann
NOTE Confidence: 0.828683
00:33:10.177 --> 00:33:11.597 Diamond from Bridgeport Hospital.
NOTE Confidence: 0.828683
00:33:11.600 --> 00:33:12.914 She gives a proof for Yale
NOTE Confidence: 0.828683
00:33:12.914 --> 00:33:13.790 New Haven to get
NOTE Confidence: 0.661150197857143
00:33:13.850 --> 00:33:15.638 more robust infrastructure outside,
NOTE Confidence: 0.661150197857143
00:33:15.640 --> 00:33:16.905 which we're referring to as
NOTE Confidence: 0.661150197857143

00:33:16.905 --> 00:33:17.917 the safe walkway initiative.
NOTE Confidence: 0.661150197857143

00:33:17.920 --> 00:33:20.860 So as Nick discusses, you know crime
NOTE Confidence: 0.661150197857143

00:33:20.860 --> 00:33:22.960 in the community and parking lot crime.
NOTE Confidence: 0.661150197857143

00:33:22.960 --> 00:33:25.515 You will soon see more blue phones
NOTE Confidence: 0.661150197857143

00:33:25.515 --> 00:33:27.737 and more cameras and increase
NOTE Confidence: 0.661150197857143

00:33:27.737 --> 00:33:29.837 lighting between both campuses,
NOTE Confidence: 0.661150197857143

00:33:29.840 --> 00:33:31.478 especially as summer months are approaching.
NOTE Confidence: 0.661150197857143

00:33:31.480 --> 00:33:33.377 We know that folks like to walk
NOTE Confidence: 0.661150197857143

00:33:33.377 --> 00:33:35.079 versus utilizing the shuttle service.
NOTE Confidence: 0.661150197857143

00:33:35.080 --> 00:33:36.488 We will always say if you could wait
NOTE Confidence: 0.661150197857143

00:33:36.488 --> 00:33:38.028 for the shuttle, please take it.
NOTE Confidence: 0.661150197857143

00:33:38.028 --> 00:33:39.960 But in the event that you don't,
NOTE Confidence: 0.661150197857143

00:33:39.960 --> 00:33:43.096 we felt it was important to increase
NOTE Confidence: 0.661150197857143

00:33:43.096 --> 00:33:45.478 some technology across the way between
NOTE Confidence: 0.661150197857143

00:33:45.478 --> 00:33:47.554 both campuses and the parking lots.
NOTE Confidence: 0.661150197857143

00:33:47.560 --> 00:33:49.360 So that was something that

NOTE Confidence: 0.661150197857143
00:33:49.360 --> 00:33:50.528 was approved as well.
NOTE Confidence: 0.661150197857143
00:33:50.528 --> 00:33:51.200 As you know,
NOTE Confidence: 0.661150197857143
00:33:51.200 --> 00:33:53.960 we talked about Elerts being the current app.
NOTE Confidence: 0.661150197857143
00:33:53.960 --> 00:33:55.832 Everbridge is our current
NOTE Confidence: 0.661150197857143
00:33:55.832 --> 00:33:57.236 mass notification system.
NOTE Confidence: 0.661150197857143
00:33:57.240 --> 00:33:58.914 And Everbridge did come up with
NOTE Confidence: 0.661150197857143
00:33:58.914 --> 00:34:00.867 a very similar app as Elerts
NOTE Confidence: 0.661150197857143
00:34:00.867 --> 00:34:02.037 called Safety Connection.
NOTE Confidence: 0.661150197857143
00:34:02.040 --> 00:34:04.476 So we did receive funding for that.
NOTE Confidence: 0.661150197857143
00:34:04.480 --> 00:34:08.240 It has all of these features plus a few more,
NOTE Confidence: 0.661150197857143
00:34:08.240 --> 00:34:09.800 so it's definitely more robust.
NOTE Confidence: 0.661150197857143
00:34:09.800 --> 00:34:12.752 And with that they're allowing us
NOTE Confidence: 0.661150197857143
00:34:12.752 --> 00:34:15.999 to pilot 50 wearable panic devices
NOTE Confidence: 0.661150197857143
00:34:16.000 --> 00:34:18.520 that we will start in the home
NOTE Confidence: 0.661150197857143
00:34:18.520 --> 00:34:20.804 health Hospice region that will have
NOTE Confidence: 0.661150197857143

00:34:20.804 --> 00:34:22.759 cellular enabled chips in them.
NOTE Confidence: 0.661150197857143

00:34:22.760 --> 00:34:24.632 So you know rather than having
NOTE Confidence: 0.661150197857143

00:34:24.632 --> 00:34:26.998 to rely on the cell phone app,
NOTE Confidence: 0.661150197857143

00:34:27.000 --> 00:34:28.980 you can utilize this wearable
NOTE Confidence: 0.661150197857143

00:34:28.980 --> 00:34:31.731 badge and it will work the same
NOTE Confidence: 0.661150197857143

00:34:31.731 --> 00:34:34.160 way as it goes back to dispatch.
NOTE Confidence: 0.661150197857143

00:34:34.160 --> 00:34:36.340 So that I know that has been a hot topic
NOTE Confidence: 0.661150197857143

00:34:36.402 --> 00:34:38.474 with home health and B and A services.
NOTE Confidence: 0.661150197857143

00:34:38.480 --> 00:34:40.532 You know unfortunately we lost that
NOTE Confidence: 0.661150197857143

00:34:40.532 --> 00:34:42.480 nurse in Connecticut in the fall.
NOTE Confidence: 0.661150197857143

00:34:42.480 --> 00:34:44.195 So those are some other things that
NOTE Confidence: 0.661150197857143

00:34:44.195 --> 00:34:45.519 we're currently working on right now.
NOTE Confidence: 0.74871393

00:34:48.120 --> 00:34:50.800 Thank you, Stephanie and and Tracy I will,
NOTE Confidence: 0.74871393

00:34:50.800 --> 00:34:52.396 I will wrap it up with just
NOTE Confidence: 0.74871393

00:34:52.396 --> 00:34:53.640 a couple more comments.
NOTE Confidence: 0.74871393

00:34:53.640 --> 00:34:55.880 So if you have not seen this video,

NOTE Confidence: 0.74871393

00:34:55.880 --> 00:34:57.235 this is a called active

NOTE Confidence: 0.74871393

00:34:57.235 --> 00:34:58.319 shooter life threatening event.

NOTE Confidence: 0.74871393

00:34:58.320 --> 00:34:59.232 It's on in four.

NOTE Confidence: 0.74871393

00:34:59.232 --> 00:35:00.600 Please take a look at it.

NOTE Confidence: 0.74871393

00:35:00.600 --> 00:35:01.628 These horrific events are

NOTE Confidence: 0.74871393

00:35:01.628 --> 00:35:02.913 happening all over the country.

NOTE Confidence: 0.74871393

00:35:02.920 --> 00:35:03.958 It doesn't matter who you are,

NOTE Confidence: 0.74871393

00:35:03.960 --> 00:35:05.160 where you are, where you go,

NOTE Confidence: 0.74871393

00:35:05.160 --> 00:35:07.356 where you socialize, where you work.

NOTE Confidence: 0.74871393

00:35:07.360 --> 00:35:11.116 These coward events are happening everywhere.

NOTE Confidence: 0.74871393

00:35:11.120 --> 00:35:13.549 Please know, you know the concept of

NOTE Confidence: 0.74871393

00:35:13.549 --> 00:35:16.038 run height fight is still very active.

NOTE Confidence: 0.74871393

00:35:16.040 --> 00:35:18.263 Know to call 911 or 155

NOTE Confidence: 0.74871393

00:35:18.263 --> 00:35:19.412 wherever you're located.

NOTE Confidence: 0.74871393

00:35:19.412 --> 00:35:21.710 Run height fight is critical and

NOTE Confidence: 0.74871393

00:35:21.782 --> 00:35:23.980 know that there's going to be a
NOTE Confidence: 0.74871393

00:35:23.980 --> 00:35:25.913 very robust police and Protective
NOTE Confidence: 0.74871393

00:35:25.913 --> 00:35:27.757 Services response to isolate,
NOTE Confidence: 0.74871393

00:35:27.760 --> 00:35:29.092 contain and neutralize that
NOTE Confidence: 0.74871393

00:35:29.092 --> 00:35:30.757 threat as quick as possible.
NOTE Confidence: 0.74871393

00:35:30.760 --> 00:35:32.875 It will be a sad day in this hospital.
NOTE Confidence: 0.74871393

00:35:32.880 --> 00:35:34.068 Something like this happens,
NOTE Confidence: 0.74871393

00:35:34.068 --> 00:35:35.553 but we're taking every precaution,
NOTE Confidence: 0.74871393

00:35:35.560 --> 00:35:37.835 working with every department to keep the
NOTE Confidence: 0.74871393

00:35:37.835 --> 00:35:39.879 institution as safe as we possibly can.
NOTE Confidence: 0.74871393

00:35:39.880 --> 00:35:41.176 Look at this video.
NOTE Confidence: 0.74871393

00:35:41.176 --> 00:35:42.796 It's not a bad idea.
NOTE Confidence: 0.74871393

00:35:42.800 --> 00:35:43.528 And finally,
NOTE Confidence: 0.74871393

00:35:43.528 --> 00:35:46.440 and we could send this out to everyone,
NOTE Confidence: 0.74871393

00:35:46.440 --> 00:35:49.611 I think we send out safety tips twice a year.
NOTE Confidence: 0.74871393

00:35:49.611 --> 00:35:51.256 And these are just, you know,

NOTE Confidence: 0.74871393

00:35:51.256 --> 00:35:52.396 be aware of your surroundings.

NOTE Confidence: 0.74871393

00:35:52.400 --> 00:35:53.875 If you're confronted by an

NOTE Confidence: 0.74871393

00:35:53.875 --> 00:35:54.760 individual who's threatening,

NOTE Confidence: 0.74871393

00:35:54.760 --> 00:35:55.098 demanding,

NOTE Confidence: 0.74871393

00:35:55.098 --> 00:35:57.126 give over your possessions so you

NOTE Confidence: 0.74871393

00:35:57.126 --> 00:35:59.607 could read these and post them in your

NOTE Confidence: 0.74871393

00:35:59.607 --> 00:36:01.799 areas and remind staff during your huddles,

NOTE Confidence: 0.74871393

00:36:01.800 --> 00:36:02.968 during your safety talks,

NOTE Confidence: 0.74871393

00:36:02.968 --> 00:36:04.720 please remind staff of these things.

NOTE Confidence: 0.74871393

00:36:04.720 --> 00:36:05.506 It's a,

NOTE Confidence: 0.74871393

00:36:05.506 --> 00:36:07.078 it's a good reminder,

NOTE Confidence: 0.74871393

00:36:07.080 --> 00:36:08.960 you know every time you come to work,

NOTE Confidence: 0.74871393

00:36:08.960 --> 00:36:10.493 every time you leave and also at

NOTE Confidence: 0.74871393

00:36:10.493 --> 00:36:12.000 home with your families as well.

NOTE Confidence: 0.74871393

00:36:12.000 --> 00:36:12.470 So Tracy,

NOTE Confidence: 0.74871393

00:36:12.470 --> 00:36:13.880 I know we're out of time,
NOTE Confidence: 0.74871393

00:36:13.880 --> 00:36:15.960 but I just want to thank you for
NOTE Confidence: 0.74871393

00:36:15.960 --> 00:36:17.404 the opportunity you and Renee for
NOTE Confidence: 0.74871393

00:36:17.404 --> 00:36:18.856 putting this together and I want
NOTE Confidence: 0.74871393

00:36:18.856 --> 00:36:20.188 to thank everyone for listening
NOTE Confidence: 0.74871393

00:36:20.188 --> 00:36:22.050 and we are always here to support
NOTE Confidence: 0.74871393

00:36:22.098 --> 00:36:23.757 our staff and anything we could do,
NOTE Confidence: 0.74871393

00:36:23.760 --> 00:36:26.119 we look forward to working with you.
NOTE Confidence: 0.74871393

00:36:26.120 --> 00:36:26.760 Great,
NOTE Confidence: 0.926766186666667

00:36:26.760 --> 00:36:28.356 Nick and Stephanie, I appreciate it.
NOTE Confidence: 0.926766186666667

00:36:28.360 --> 00:36:30.470 Two questions that we'll just
NOTE Confidence: 0.926766186666667

00:36:30.470 --> 00:36:32.892 touch on quickly is will the
NOTE Confidence: 0.926766186666667

00:36:32.892 --> 00:36:34.356 return of metal detectors.
NOTE Confidence: 0.926766186666667

00:36:34.360 --> 00:36:36.424 I know we piloted metal detectors
NOTE Confidence: 0.926766186666667

00:36:36.424 --> 00:36:38.526 and we have Ellian asking if
NOTE Confidence: 0.926766186666667

00:36:38.526 --> 00:36:41.080 that's going to be implemented.

NOTE Confidence: 0.84074217375

00:36:41.560 --> 00:36:43.840 We are working right now with Ann Diamond,

NOTE Confidence: 0.84074217375

00:36:43.840 --> 00:36:45.904 who's our executive sponsor and we're

NOTE Confidence: 0.84074217375

00:36:45.904 --> 00:36:47.600 putting together a business case.

NOTE Confidence: 0.84074217375

00:36:47.600 --> 00:36:49.232 So early to determine whether or

NOTE Confidence: 0.84074217375

00:36:49.232 --> 00:36:51.134 not that's going to come to fruition

NOTE Confidence: 0.84074217375

00:36:51.134 --> 00:36:52.880 or not, but it's in process,

NOTE Confidence: 0.887079164166667

00:36:53.600 --> 00:36:55.274 right. And then the other one

NOTE Confidence: 0.887079164166667

00:36:55.274 --> 00:36:56.958 was around who makes the decision

NOTE Confidence: 0.887079164166667

00:36:56.958 --> 00:36:58.750 to search a patient and do we

NOTE Confidence: 0.887079164166667

00:36:58.750 --> 00:37:00.517 get patients consent for that.

NOTE Confidence: 0.870054652857143

00:37:01.680 --> 00:37:03.630 We search patients who have behavioral

NOTE Confidence: 0.870054652857143

00:37:03.630 --> 00:37:05.612 health, mental health issues and

NOTE Confidence: 0.870054652857143

00:37:05.612 --> 00:37:08.090 substance abuse issues for their safety

NOTE Confidence: 0.870054652857143

00:37:08.155 --> 00:37:10.200 and the safety of staff and that's

NOTE Confidence: 0.870054652857143

00:37:10.200 --> 00:37:11.880 at the request of clinical staff.

NOTE Confidence: 0.969197352

00:37:14.680 --> 00:37:16.600 Thank you both very much.
NOTE Confidence: 0.969197352

00:37:16.600 --> 00:37:18.538 We're now, we're now going to
NOTE Confidence: 0.969197352

00:37:18.538 --> 00:37:21.104 turn it over to the to the Stewart
NOTE Confidence: 0.969197352

00:37:21.104 --> 00:37:23.072 Seropian and his team who will
NOTE Confidence: 0.969197352

00:37:23.072 --> 00:37:25.119 talk about cellular therapies.
NOTE Confidence: 0.6915515

00:37:32.590 --> 00:37:35.230 Thanks. Can you hear me OK?
NOTE Confidence: 0.95855343

00:37:39.590 --> 00:37:40.510 Yes, we can
NOTE Confidence: 0.50207543

00:37:44.560 --> 00:37:46.400 just share my screen here.
NOTE Confidence: 0.93367636

00:37:50.960 --> 00:37:52.560 So I'm, I'm going
NOTE Confidence: 0.87997421

00:37:52.560 --> 00:37:55.158 to introduce the program I think quickly
NOTE Confidence: 0.73747693

00:37:55.160 --> 00:37:57.995 because I I want to give time for our
NOTE Confidence: 0.73747693

00:37:57.995 --> 00:38:01.040 our other speakers to tell you about
NOTE Confidence: 0.73747693

00:38:01.040 --> 00:38:03.320 our our recent fact accreditation.
NOTE Confidence: 0.73747693

00:38:03.320 --> 00:38:06.108 That'll be Alex Stormala, Program Manager.
NOTE Confidence: 0.73747693

00:38:06.108 --> 00:38:09.426 And then Doctor Sufi's going to talk
NOTE Confidence: 0.73747693

00:38:09.426 --> 00:38:12.655 about our our cell therapy products

NOTE Confidence: 0.73747693

00:38:12.655 --> 00:38:15.244 for hemologic malignancies and then

NOTE Confidence: 0.73747693

00:38:15.244 --> 00:38:18.796 Mike Kurwitz is going to tell us about

NOTE Confidence: 0.73747693

00:38:18.800 --> 00:38:22.600 cell therapy in solid tumors. So

NOTE Confidence: 0.811777618333333

00:38:25.000 --> 00:38:28.413 the the transplant and cell therapy program's

NOTE Confidence: 0.811777618333333

00:38:28.413 --> 00:38:31.030 the only program in Connecticut and it's

NOTE Confidence: 0.811777618333333

00:38:31.030 --> 00:38:33.280 been in existence couple of decades.

NOTE Confidence: 0.811777618333333

00:38:33.280 --> 00:38:36.360 So we do stem cell transplants of

NOTE Confidence: 0.811777618333333

00:38:36.360 --> 00:38:39.140 course and then more recently CAR T

NOTE Confidence: 0.811777618333333

00:38:39.140 --> 00:38:42.182 cell and other cell therapies and are

NOTE Confidence: 0.811777618333333

00:38:42.182 --> 00:38:44.499 now getting into the business of gene

NOTE Confidence: 0.811777618333333

00:38:44.499 --> 00:38:48.960 therapy for some hematologic disorders.

NOTE Confidence: 0.811777618333333

00:38:48.960 --> 00:38:51.298 So there's a lot of planning going

NOTE Confidence: 0.811777618333333

00:38:51.298 --> 00:38:53.844 on for new cell therapy products

NOTE Confidence: 0.811777618333333

00:38:53.844 --> 00:38:55.796 for sickle cell disease,

NOTE Confidence: 0.811777618333333

00:38:55.800 --> 00:38:59.350 thalassemia and a number of

NOTE Confidence: 0.811777618333333

00:38:59.350 --> 00:39:01.480 non malignant indications,
NOTE Confidence: 0.8117776183333333

00:39:01.480 --> 00:39:02.468 rheumatologic diseases.
NOTE Confidence: 0.8117776183333333

00:39:02.468 --> 00:39:05.432 So it's a pretty exciting time
NOTE Confidence: 0.8117776183333333

00:39:05.432 --> 00:39:08.040 in the cell therapy field.
NOTE Confidence: 0.8117776183333333

00:39:08.040 --> 00:39:10.875 The program's been around since the 90s.
NOTE Confidence: 0.8117776183333333

00:39:10.880 --> 00:39:13.145 The adult program started then
NOTE Confidence: 0.8117776183333333

00:39:13.145 --> 00:39:15.410 and then the pediatric program
NOTE Confidence: 0.8117776183333333

00:39:15.486 --> 00:39:17.595 in its current form in 2011.
NOTE Confidence: 0.8117776183333333

00:39:17.595 --> 00:39:20.920 The CAR T program is relatively young.
NOTE Confidence: 0.8117776183333333

00:39:20.920 --> 00:39:25.215 It's now on its fifth year and he's just
NOTE Confidence: 0.8117776183333333

00:39:25.215 --> 00:39:28.732 the beauty of our our program volumes
NOTE Confidence: 0.8117776183333333

00:39:28.732 --> 00:39:32.200 and you can see on the right side there,
NOTE Confidence: 0.8117776183333333

00:39:32.200 --> 00:39:35.144 we do about 200 procedures a year and
NOTE Confidence: 0.8117776183333333

00:39:35.144 --> 00:39:37.838 the growing field is the CAR T cells.
NOTE Confidence: 0.8117776183333333

00:39:37.840 --> 00:39:39.640 It was a little bit of a low
NOTE Confidence: 0.8117776183333333

00:39:39.640 --> 00:39:41.078 with COVID a few years ago,

NOTE Confidence: 0.811777618333333
00:39:41.080 --> 00:39:43.761 but we're really quite busy with all
NOTE Confidence: 0.811777618333333
00:39:43.761 --> 00:39:46.161 these procedures and I think with time
NOTE Confidence: 0.811777618333333
00:39:46.161 --> 00:39:48.680 we'll see more of the cell therapies,
NOTE Confidence: 0.811777618333333
00:39:48.680 --> 00:39:52.700 perhaps less of some of the
NOTE Confidence: 0.811777618333333
00:39:52.700 --> 00:39:54.040 transplant procedures.
NOTE Confidence: 0.811777618333333
00:39:54.040 --> 00:39:57.355 So Harrison and Mike have to
NOTE Confidence: 0.811777618333333
00:39:57.355 --> 00:39:58.880 get a go over the product.
NOTE Confidence: 0.811777618333333
00:39:58.880 --> 00:40:01.876 So I'm not going to belabour this.
NOTE Confidence: 0.811777618333333
00:40:01.880 --> 00:40:04.477 There there are CAR T that are
NOTE Confidence: 0.811777618333333
00:40:04.477 --> 00:40:06.586 FDA approved for blood cancers
NOTE Confidence: 0.811777618333333
00:40:06.586 --> 00:40:08.888 and now there's tumor infiltrating
NOTE Confidence: 0.811777618333333
00:40:08.888 --> 00:40:10.280 lymphocytes for Melanoma.
NOTE Confidence: 0.811777618333333
00:40:10.280 --> 00:40:13.437 Down at the bottom you can see
NOTE Confidence: 0.811777618333333
00:40:13.440 --> 00:40:16.744 that there are a number of CAR T
NOTE Confidence: 0.811777618333333
00:40:16.744 --> 00:40:19.059 in development for non malignant
NOTE Confidence: 0.811777618333333

00:40:19.059 --> 00:40:21.660 diseases and as the the content
NOTE Confidence: 0.8117776183333333

00:40:21.660 --> 00:40:23.880 experts for these types of therapies
NOTE Confidence: 0.8117776183333333

00:40:23.880 --> 00:40:26.576 we will be involved in helping our
NOTE Confidence: 0.8117776183333333

00:40:26.576 --> 00:40:28.915 colleagues in medicine try and develop
NOTE Confidence: 0.8117776183333333

00:40:28.915 --> 00:40:31.237 these sorts of therapies as well.
NOTE Confidence: 0.8117776183333333

00:40:31.240 --> 00:40:33.544 A number of gene therapies are
NOTE Confidence: 0.8117776183333333

00:40:33.544 --> 00:40:35.692 are coming forward for inherited
NOTE Confidence: 0.8117776183333333

00:40:35.692 --> 00:40:37.836 metabolic diseases as well.
NOTE Confidence: 0.8117776183333333

00:40:37.840 --> 00:40:42.200 These are quite rare.
NOTE Confidence: 0.8117776183333333

00:40:42.200 --> 00:40:43.880 So the program is a big program,
NOTE Confidence: 0.8117776183333333

00:40:43.880 --> 00:40:46.658 there's a lot of departments involved
NOTE Confidence: 0.8117776183333333

00:40:46.658 --> 00:40:49.770 and I'm going to show you pictures of
NOTE Confidence: 0.8117776183333333

00:40:49.837 --> 00:40:52.519 our our team here as we go through this.
NOTE Confidence: 0.8117776183333333

00:40:52.520 --> 00:40:54.650 So a pheresis where stem cells
NOTE Confidence: 0.8117776183333333

00:40:54.650 --> 00:40:55.715 are are collected.
NOTE Confidence: 0.8117776183333333

00:40:55.720 --> 00:41:00.760 That program is run by Chris Tormey and Alex.

NOTE Confidence: 0.811777618333333
00:41:00.760 --> 00:41:03.185 Cell processing is where cells
NOTE Confidence: 0.811777618333333
00:41:03.185 --> 00:41:05.466 go to be evaluated, frozen,
NOTE Confidence: 0.811777618333333
00:41:05.466 --> 00:41:08.357 thought out and delivered to our patients.
NOTE Confidence: 0.811777618333333
00:41:08.360 --> 00:41:10.478 This takes a lot of expertise.
NOTE Confidence: 0.811777618333333
00:41:10.480 --> 00:41:12.238 This is our cell processing team.
NOTE Confidence: 0.811777618333333
00:41:12.240 --> 00:41:15.516 They receive cells from the registry.
NOTE Confidence: 0.811777618333333
00:41:15.520 --> 00:41:16.416 Of course,
NOTE Confidence: 0.811777618333333
00:41:16.416 --> 00:41:19.104 there's a ton of providers on
NOTE Confidence: 0.811777618333333
00:41:19.104 --> 00:41:21.799 the adult and pediatric side,
NOTE Confidence: 0.811777618333333
00:41:21.800 --> 00:41:24.000 a lot of coordination, a lot of nursing.
NOTE Confidence: 0.811777618333333
00:41:24.000 --> 00:41:26.904 I can't put every picture of
NOTE Confidence: 0.811777618333333
00:41:26.904 --> 00:41:28.840 everybody in the program,
NOTE Confidence: 0.811777618333333
00:41:28.840 --> 00:41:30.492 but he's a bunch.
NOTE Confidence: 0.811777618333333
00:41:30.492 --> 00:41:32.557 The coordinators in particular are
NOTE Confidence: 0.811777618333333
00:41:32.557 --> 00:41:34.874 really what the sort of the the
NOTE Confidence: 0.811777618333333

00:41:34.874 --> 00:41:37.478 engine that keeps our programs going.
NOTE Confidence: 0.8117776183333333

00:41:37.480 --> 00:41:40.570 We have great data management and
NOTE Confidence: 0.8117776183333333

00:41:40.570 --> 00:41:43.890 pharmacy support and we have a very
NOTE Confidence: 0.8117776183333333

00:41:43.890 --> 00:41:46.180 robust quality management program and
NOTE Confidence: 0.8117776183333333

00:41:46.269 --> 00:41:49.213 this is now headed up by Lori Crouch
NOTE Confidence: 0.8117776183333333

00:41:49.213 --> 00:41:51.920 and Alex is our program manager,
NOTE Confidence: 0.8117776183333333

00:41:51.920 --> 00:41:56.008 really gets everything together
NOTE Confidence: 0.8117776183333333

00:41:56.008 --> 00:41:58.600 for the entire program.
NOTE Confidence: 0.8117776183333333

00:41:58.600 --> 00:42:01.057 All the people you just saw really
NOTE Confidence: 0.8117776183333333

00:42:01.057 --> 00:42:03.319 she keeps keeps us afloat here.
NOTE Confidence: 0.853619517

00:42:03.320 --> 00:42:05.516 And I'm going to hand it over to Alex
NOTE Confidence: 0.853619517

00:42:05.516 --> 00:42:09.750 to tell us about our recent fact
NOTE Confidence: 0.853619517

00:42:09.750 --> 00:42:12.480 re accreditation for a few slides.
NOTE Confidence: 0.75683036

00:42:14.640 --> 00:42:16.040 Hi everyone. So, yes,
NOTE Confidence: 0.75683036

00:42:16.040 --> 00:42:18.618 I'm going to talk a little bit
NOTE Confidence: 0.75683036

00:42:18.618 --> 00:42:21.024 about our factor creation as it's

NOTE Confidence: 0.75683036

00:42:21.024 --> 00:42:23.400 an important part of the program.

NOTE Confidence: 0.75683036

00:42:23.400 --> 00:42:25.752 So FACT is the foundation for

NOTE Confidence: 0.75683036

00:42:25.752 --> 00:42:27.320 accretation of cellular therapies.

NOTE Confidence: 0.75683036

00:42:27.320 --> 00:42:31.172 It was a Co founded in 1996 by the

NOTE Confidence: 0.75683036

00:42:31.172 --> 00:42:33.836 International Society for Cell and Gene

NOTE Confidence: 0.75683036

00:42:33.836 --> 00:42:37.024 Therapies and the American Society for

NOTE Confidence: 0.75683036

00:42:37.024 --> 00:42:39.160 Transplantation and Cellular Therapy.

NOTE Confidence: 0.75683036

00:42:39.160 --> 00:42:41.480 So FACT establishes standard for

NOTE Confidence: 0.75683036

00:42:41.480 --> 00:42:43.800 high quality medical and laboratory

NOTE Confidence: 0.75683036

00:42:43.875 --> 00:42:45.719 practice in cell therapies.

NOTE Confidence: 0.75683036

00:42:45.720 --> 00:42:49.492 So that includes, oh, sorry,

NOTE Confidence: 0.75683036

00:42:49.492 --> 00:42:53.480 can you hear me? Yeah. OK.

NOTE Confidence: 0.75683036

00:42:53.480 --> 00:42:55.868 That includes auto and auto stem

NOTE Confidence: 0.75683036

00:42:55.868 --> 00:42:58.319 cell transplant and CAR T infusion.

NOTE Confidence: 0.75683036

00:42:58.320 --> 00:43:01.956 It will also include the tail and the gene

NOTE Confidence: 0.75683036

00:43:01.956 --> 00:43:04.616 therapies that includes also commercial

NOTE Confidence: 0.75683036

00:43:04.616 --> 00:43:07.436 product but also research product.

NOTE Confidence: 0.75683036

00:43:07.440 --> 00:43:09.625 The standards consist of clinical

NOTE Confidence: 0.75683036

00:43:09.625 --> 00:43:11.810 program requirement that go from

NOTE Confidence: 0.75683036

00:43:11.879 --> 00:43:13.799 nursing to provider training,

NOTE Confidence: 0.75683036

00:43:13.800 --> 00:43:17.530 specific SOP cell collection requirements

NOTE Confidence: 0.75683036

00:43:17.530 --> 00:43:19.880 such as cell product storage,

NOTE Confidence: 0.75683036

00:43:19.880 --> 00:43:20.395 temperature,

NOTE Confidence: 0.75683036

00:43:20.395 --> 00:43:22.455 humidity and cell processing

NOTE Confidence: 0.75683036

00:43:22.455 --> 00:43:24.515 requirements like safe handling

NOTE Confidence: 0.75683036

00:43:24.515 --> 00:43:26.840 and processing of the product.

NOTE Confidence: 0.75683036

00:43:26.840 --> 00:43:28.526 So the fact that creation is

NOTE Confidence: 0.75683036

00:43:28.526 --> 00:43:30.096 so important for our program

NOTE Confidence: 0.75683036

00:43:30.096 --> 00:43:32.016 because it elevates our position

NOTE Confidence: 0.75683036

00:43:32.016 --> 00:43:33.552 as a quality organization,

NOTE Confidence: 0.870043174761905

00:43:36.640 --> 00:43:38.960 it informs patient health insurance

NOTE Confidence: 0.870043174761905
00:43:38.960 --> 00:43:41.280 companies and government that our
NOTE Confidence: 0.870043174761905
00:43:41.353 --> 00:43:43.473 organization is dedicated to excellence
NOTE Confidence: 0.870043174761905
00:43:43.473 --> 00:43:46.200 in patient care and lab services
NOTE Confidence: 0.870043174761905
00:43:46.200 --> 00:43:48.244 and it's also in some cases required
NOTE Confidence: 0.870043174761905
00:43:48.244 --> 00:43:49.640 for patient care reimbursement
NOTE Confidence: 0.870043174761905
00:43:49.640 --> 00:43:51.480 from some government agencies
NOTE Confidence: 0.870043174761905
00:43:51.480 --> 00:43:53.320 and health insurance companies.
NOTE Confidence: 0.70373579
00:43:56.000 --> 00:43:56.798 Next slide please.
NOTE Confidence: 0.958546997777778
00:44:03.890 --> 00:44:06.968 So this is a quick road map to show
NOTE Confidence: 0.958546997777778
00:44:06.970 --> 00:44:10.075 how long it it took to get to the
NOTE Confidence: 0.958546997777778
00:44:10.075 --> 00:44:12.728 accretation which we should receive soon.
NOTE Confidence: 0.958546997777778
00:44:12.730 --> 00:44:14.837 It all started in June 2022.
NOTE Confidence: 0.958546997777778
00:44:14.837 --> 00:44:17.546 We do file a compliance application which
NOTE Confidence: 0.958546997777778
00:44:17.546 --> 00:44:20.544 we did in August states review by fact.
NOTE Confidence: 0.958546997777778
00:44:20.544 --> 00:44:23.142 They asked us For more information and
NOTE Confidence: 0.958546997777778

00:44:23.142 --> 00:44:25.194 they finally assembled their team in
NOTE Confidence: 0.958546997777778

00:44:25.194 --> 00:44:27.880 September of 2023 with the inspection
NOTE Confidence: 0.958546997777778

00:44:27.880 --> 00:44:30.196 that occurred in November of 2023.
NOTE Confidence: 0.958546997777778

00:44:30.196 --> 00:44:32.887 They extend a report that goes out for
NOTE Confidence: 0.958546997777778

00:44:32.887 --> 00:44:35.148 fact which was reviewed in December and
NOTE Confidence: 0.958546997777778

00:44:35.148 --> 00:44:37.798 we received more question in February.
NOTE Confidence: 0.958546997777778

00:44:37.800 --> 00:44:40.761 We just submitted our responses and now
NOTE Confidence: 0.958546997777778

00:44:40.761 --> 00:44:43.839 we are waiting for our accreditation.
NOTE Confidence: 0.958546997777778

00:44:43.840 --> 00:44:45.838 So next slide.
NOTE Confidence: 0.958546997777778

00:44:45.840 --> 00:44:48.594 So this is a quick step shot of all
NOTE Confidence: 0.958546997777778

00:44:48.594 --> 00:44:51.797 the department and units that are
NOTE Confidence: 0.958546997777778

00:44:51.797 --> 00:44:54.408 participating in this fact accreditation.
NOTE Confidence: 0.958546997777778

00:44:54.408 --> 00:44:57.480 And I'm not going over everything,
NOTE Confidence: 0.958546997777778

00:44:57.480 --> 00:44:59.620 but there's many nursing units
NOTE Confidence: 0.958546997777778

00:44:59.620 --> 00:45:01.760 that are involved in patient,
NOTE Confidence: 0.958546997777778

00:45:01.760 --> 00:45:05.560 outpatient, the research team,

NOTE Confidence: 0.958546997777778
00:45:05.560 --> 00:45:09.880 yes, the West Pavilion,
NOTE Confidence: 0.958546997777778
00:45:09.880 --> 00:45:12.238 ORICUSEDs and really any area where
NOTE Confidence: 0.958546997777778
00:45:12.238 --> 00:45:14.468 herself the reputation may go could
NOTE Confidence: 0.958546997777778
00:45:14.468 --> 00:45:16.808 potentially be visited by fact
NOTE Confidence: 0.958546997777778
00:45:16.808 --> 00:45:19.450 and we'll have to work with us on
NOTE Confidence: 0.958546997777778
00:45:19.450 --> 00:45:22.160 the accreditation and next slide.
NOTE Confidence: 0.93356955
00:45:24.200 --> 00:45:28.460 So this is just a slide of the team
NOTE Confidence: 0.93356955
00:45:28.460 --> 00:45:31.006 working and under fact inspection and I
NOTE Confidence: 0.93356955
00:45:31.006 --> 00:45:33.986 just wanted to have that to say just a
NOTE Confidence: 0.93356955
00:45:33.986 --> 00:45:36.200 huge thank you to everybody involved.
NOTE Confidence: 0.93356955
00:45:36.200 --> 00:45:38.216 The inspection was a great success and
NOTE Confidence: 0.93356955
00:45:38.216 --> 00:45:40.520 it's because of you all. So thank you.
NOTE Confidence: 0.8369639
00:45:44.000 --> 00:45:47.080 OK, thanks Alex. We, we, in fact,
NOTE Confidence: 0.860437629
00:45:47.080 --> 00:45:50.392 I think had our best fact
NOTE Confidence: 0.860437629
00:45:50.392 --> 00:45:52.600 inspection in 20 years,
NOTE Confidence: 0.860437629

00:45:52.600 --> 00:45:54.574 really due to the work of
NOTE Confidence: 0.860437629

00:45:54.574 --> 00:45:56.639 all the people you see here.
NOTE Confidence: 0.860437629

00:45:56.640 --> 00:45:58.236 All right, we're going to turn
NOTE Confidence: 0.860437629

00:45:58.236 --> 00:45:59.640 it over to Irisa Sufi.
NOTE Confidence: 0.860437629

00:45:59.640 --> 00:46:01.480 She is an associate professor
NOTE Confidence: 0.860437629

00:46:01.480 --> 00:46:03.302 in our program and Clinical
NOTE Confidence: 0.860437629

00:46:03.302 --> 00:46:05.354 Director of our CAR T program.
NOTE Confidence: 0.860437629

00:46:05.360 --> 00:46:06.878 She's going to tell you about
NOTE Confidence: 0.827624861666667

00:46:08.920 --> 00:46:10.120 hematologic malignancy.
NOTE Confidence: 0.827624861666667

00:46:10.120 --> 00:46:12.520 So I'll stop sharing.
NOTE Confidence: 0.57116778

00:46:14.440 --> 00:46:15.200 Thanks, Stewart.
NOTE Confidence: 0.9434001

00:46:27.560 --> 00:46:33.272 So I've been leading the the cell therapy
NOTE Confidence: 0.9434001

00:46:33.272 --> 00:46:36.279 clinical program for heme malignancies
NOTE Confidence: 0.9434001

00:46:36.280 --> 00:46:40.150 and we are at a very exciting time in
NOTE Confidence: 0.9434001

00:46:40.150 --> 00:46:43.758 cell therapy for heme malignancies.
NOTE Confidence: 0.9434001

00:46:43.760 --> 00:46:44.840 As you can see here,

NOTE Confidence: 0.9434001

00:46:44.840 --> 00:46:47.612 we have 6 commercial products that were

NOTE Confidence: 0.9434001

00:46:47.612 --> 00:46:50.641 approved in the last several years and

NOTE Confidence: 0.9434001

00:46:50.641 --> 00:46:53.281 they have been approved across several

NOTE Confidence: 0.9434001

00:46:53.355 --> 00:46:55.878 different hematologic malignancies.

NOTE Confidence: 0.9434001

00:46:55.880 --> 00:46:56.290 Initially,

NOTE Confidence: 0.9434001

00:46:56.290 --> 00:46:59.160 the first approvals came in B cell,

NOTE Confidence: 0.9434001

00:46:59.160 --> 00:47:01.920 childhood B cell ALL and Diffuse

NOTE Confidence: 0.9434001

00:47:01.920 --> 00:47:03.760 large B cell lymphoma.

NOTE Confidence: 0.9434001

00:47:03.760 --> 00:47:05.800 The therapies were initially studied

NOTE Confidence: 0.9434001

00:47:05.800 --> 00:47:08.570 in the third line setting for high

NOTE Confidence: 0.9434001

00:47:08.570 --> 00:47:10.760 grade B cell lymphomas and subsequent

NOTE Confidence: 0.9434001

00:47:10.760 --> 00:47:13.179 to that they were moved to the

NOTE Confidence: 0.9434001

00:47:13.179 --> 00:47:15.480 second line for high risk patients.

NOTE Confidence: 0.9434001

00:47:15.480 --> 00:47:17.760 So we have now two products,

NOTE Confidence: 0.9434001

00:47:17.760 --> 00:47:19.935 Oxycaptogen and Lysocaptogen that are

NOTE Confidence: 0.9434001

00:47:19.935 --> 00:47:22.567 approved in the second line setting
NOTE Confidence: 0.9434001

00:47:22.567 --> 00:47:24.592 for patients who have aggressive
NOTE Confidence: 0.9434001

00:47:24.592 --> 00:47:26.480 diseases like primary refractory
NOTE Confidence: 0.9434001

00:47:26.480 --> 00:47:29.303 large cell lymphomas or large cell
NOTE Confidence: 0.9434001

00:47:29.303 --> 00:47:31.273 lymphomas that relapse within 12
NOTE Confidence: 0.9434001

00:47:31.273 --> 00:47:33.440 months of their upfront therapy.
NOTE Confidence: 0.9434001

00:47:33.440 --> 00:47:36.984 And these studies in the second line were
NOTE Confidence: 0.9434001

00:47:36.984 --> 00:47:39.758 actually compared to stem cell transplant.
NOTE Confidence: 0.9434001

00:47:39.760 --> 00:47:41.713 And as I'll show you in the next slide,
NOTE Confidence: 0.9434001

00:47:41.720 --> 00:47:43.610 there's been a significant improvement
NOTE Confidence: 0.9434001

00:47:43.610 --> 00:47:45.994 in both progression free and overall
NOTE Confidence: 0.9434001

00:47:45.994 --> 00:47:48.159 survival with these cellular therapies
NOTE Confidence: 0.9434001

00:47:48.160 --> 00:47:51.208 for aggressive lymphomas in patients who
NOTE Confidence: 0.9434001

00:47:51.208 --> 00:47:54.519 previously had very limited life expectancy.
NOTE Confidence: 0.9434001

00:47:54.520 --> 00:47:56.076 And subsequent to that,
NOTE Confidence: 0.9434001

00:47:56.076 --> 00:47:58.841 we now have approvals in mantle cell

NOTE Confidence: 0.9434001

00:47:58.841 --> 00:48:00.965 lymphoma after one line of therapy

NOTE Confidence: 0.9434001

00:48:00.965 --> 00:48:04.188 as well as third line for relapsed

NOTE Confidence: 0.9434001

00:48:04.188 --> 00:48:06.276 and refractory follicular lymphoma.

NOTE Confidence: 0.9434001

00:48:06.280 --> 00:48:07.378 And then finally,

NOTE Confidence: 0.9434001

00:48:07.378 --> 00:48:10.516 we have two new products that were more

NOTE Confidence: 0.9434001

00:48:10.516 --> 00:48:13.036 recently approved in multiple myeloma.

NOTE Confidence: 0.9434001

00:48:13.040 --> 00:48:14.832 So those were Ida,

NOTE Confidence: 0.9434001

00:48:14.832 --> 00:48:15.901 Captogen, occlusanal,

NOTE Confidence: 0.9434001

00:48:15.901 --> 00:48:16.522 siltacaptogen,

NOTE Confidence: 0.9434001

00:48:16.522 --> 00:48:20.869 Autoluso that have a different target than

NOTE Confidence: 0.9434001

00:48:20.869 --> 00:48:24.370 the CD 19 target in the B cell lymphomas.

NOTE Confidence: 0.9434001

00:48:24.370 --> 00:48:27.470 So the target in multiple myeloma is the

NOTE Confidence: 0.9434001

00:48:27.470 --> 00:48:29.638 BCMA and they have both been approved

NOTE Confidence: 0.9434001

00:48:29.638 --> 00:48:32.160 in the 4th and plus line setting.

NOTE Confidence: 0.9434001

00:48:32.160 --> 00:48:33.800 So these were patients that

NOTE Confidence: 0.9434001

00:48:33.800 --> 00:48:35.112 were very heavily pretreated.
NOTE Confidence: 0.9434001

00:48:35.120 --> 00:48:38.262 They had had exposure and
NOTE Confidence: 0.9434001

00:48:38.262 --> 00:48:40.626 resistance to multiple therapies
NOTE Confidence: 0.9434001

00:48:40.626 --> 00:48:42.399 including immunomodulating agents,
NOTE Confidence: 0.9434001

00:48:42.400 --> 00:48:45.384 proteasome inhibitors and monoclonal
NOTE Confidence: 0.9434001

00:48:45.384 --> 00:48:48.560 antibodies targeting CD38.
NOTE Confidence: 0.9434001

00:48:48.560 --> 00:48:51.388 And now we're waiting to hear from
NOTE Confidence: 0.9434001

00:48:51.388 --> 00:48:53.724 the FDA regarding even approvals
NOTE Confidence: 0.9434001

00:48:53.724 --> 00:48:55.800 in earlier line settings.
NOTE Confidence: 0.9434001

00:48:55.800 --> 00:48:58.280 The in just in March of this year
NOTE Confidence: 0.9434001

00:48:58.280 --> 00:49:00.557 actually the FD as Oncologic Drug
NOTE Confidence: 0.9434001

00:49:00.557 --> 00:49:02.542 Advisory Committee has voted in
NOTE Confidence: 0.9434001

00:49:02.542 --> 00:49:04.666 favour of both of these products
NOTE Confidence: 0.9434001

00:49:04.666 --> 00:49:06.912 based on a benefit risk profile
NOTE Confidence: 0.9434001

00:49:06.912 --> 00:49:09.280 analysis for earlier lines.
NOTE Confidence: 0.9434001

00:49:09.280 --> 00:49:12.532 So myeloma between one or three

NOTE Confidence: 0.9434001

00:49:12.532 --> 00:49:15.546 lines of therapy based on two

NOTE Confidence: 0.9434001

00:49:15.546 --> 00:49:17.394 large phase three studies,

NOTE Confidence: 0.9434001

00:49:17.400 --> 00:49:19.998 the KARMA 3 and Cartitude 4.

NOTE Confidence: 0.9434001

00:49:20.000 --> 00:49:22.373 So we're waiting to hear on those

NOTE Confidence: 0.9434001

00:49:22.373 --> 00:49:24.235 approvals for earlier lines of

NOTE Confidence: 0.9434001

00:49:24.235 --> 00:49:25.795 therapy and multiple myeloma.

NOTE Confidence: 0.9434001

00:49:25.800 --> 00:49:28.995 And we now as of this publication in New

NOTE Confidence: 0.9434001

00:49:28.995 --> 00:49:32.208 England Journal of Medicine just last year,

NOTE Confidence: 0.9434001

00:49:32.208 --> 00:49:34.944 we have randomized phase three data

NOTE Confidence: 0.9434001

00:49:34.944 --> 00:49:37.208 confirming overall survival advantage

NOTE Confidence: 0.9434001

00:49:37.208 --> 00:49:39.942 of chimeric antigen receptor cell

NOTE Confidence: 0.9434001

00:49:39.942 --> 00:49:42.474 therapy in the second line setting

NOTE Confidence: 0.9434001

00:49:42.480 --> 00:49:44.120 compared to stem cell transplant.

NOTE Confidence: 0.9434001

00:49:44.120 --> 00:49:46.952 So for for high risk patients this has

NOTE Confidence: 0.9434001

00:49:46.952 --> 00:49:49.425 already replaced at all of the stem cell

NOTE Confidence: 0.9434001

00:49:49.425 --> 00:49:51.719 transplant and has a survival benefit.

NOTE Confidence: 0.9434001

00:49:51.720 --> 00:49:54.678 So these therapies are not investigational,

NOTE Confidence: 0.9434001

00:49:54.680 --> 00:49:55.212 investigational.

NOTE Confidence: 0.9434001

00:49:55.212 --> 00:49:58.404 They are FDA approved and they

NOTE Confidence: 0.9434001

00:49:58.404 --> 00:50:01.715 have a very good track record

NOTE Confidence: 0.9434001

00:50:01.715 --> 00:50:03.879 with very good outcomes.

NOTE Confidence: 0.9434001

00:50:03.880 --> 00:50:05.960 So now I'm going to shift gears

NOTE Confidence: 0.9434001

00:50:05.960 --> 00:50:08.064 to the our research portfolio,

NOTE Confidence: 0.9434001

00:50:08.064 --> 00:50:11.480 which we have managed in parallel to

NOTE Confidence: 0.936900623529412

00:50:11.570 --> 00:50:13.758 all of these Commercial

NOTE Confidence: 0.936900623529412

00:50:13.758 --> 00:50:15.399 6 commercial approvals.

NOTE Confidence: 0.936900623529412

00:50:15.400 --> 00:50:18.556 And with our clinical trial portfolio,

NOTE Confidence: 0.936900623529412

00:50:18.560 --> 00:50:23.320 we're trying to target populations that

NOTE Confidence: 0.936900623529412

00:50:23.320 --> 00:50:27.160 do not necessarily have an approved

NOTE Confidence: 0.936900623529412

00:50:27.160 --> 00:50:29.590 FDA product that we can administer

NOTE Confidence: 0.936900623529412

00:50:29.590 --> 00:50:33.066 or in cases where we think they might

NOTE Confidence: 0.936900623529412
00:50:33.066 --> 00:50:35.730 benefit from enrollment in a clinical
NOTE Confidence: 0.936900623529412
00:50:35.810 --> 00:50:38.085 trial because of maybe high risk
NOTE Confidence: 0.936900623529412
00:50:38.085 --> 00:50:40.424 features of their disease or patients
NOTE Confidence: 0.936900623529412
00:50:40.424 --> 00:50:43.058 who may have failed and progressed
NOTE Confidence: 0.936900623529412
00:50:43.058 --> 00:50:45.803 after upfront cortisol therapy with
NOTE Confidence: 0.936900623529412
00:50:45.803 --> 00:50:48.200 a commercially approved products.
NOTE Confidence: 0.936900623529412
00:50:48.200 --> 00:50:51.672 So my area is lymphoma here in
NOTE Confidence: 0.936900623529412
00:50:51.672 --> 00:50:55.092 blue and we have two very exciting
NOTE Confidence: 0.936900623529412
00:50:55.092 --> 00:50:57.312 clinical trials that are phase
NOTE Confidence: 0.936900623529412
00:50:57.312 --> 00:50:59.360 two multi institutional.
NOTE Confidence: 0.936900623529412
00:50:59.360 --> 00:51:02.034 One of the trials is studying by
NOTE Confidence: 0.936900623529412
00:51:02.034 --> 00:51:04.279 a specific Corti cell therapy.
NOTE Confidence: 0.936900623529412
00:51:04.280 --> 00:51:06.255 So instead of just targeting
NOTE Confidence: 0.936900623529412
00:51:06.255 --> 00:51:07.835 the CD 19 antigen,
NOTE Confidence: 0.936900623529412
00:51:07.840 --> 00:51:11.404 the cells target both CD19 and
NOTE Confidence: 0.936900623529412

00:51:11.404 --> 00:51:14.555 CD20 with the goal of decreasing
NOTE Confidence: 0.936900623529412

00:51:14.555 --> 00:51:16.599 the risk of resistance.
NOTE Confidence: 0.936900623529412

00:51:16.600 --> 00:51:22.130 And then now the study has an open arm
NOTE Confidence: 0.936900623529412

00:51:22.130 --> 00:51:24.470 for patients with primary CNS lymphoma
NOTE Confidence: 0.936900623529412

00:51:24.470 --> 00:51:26.963 and secondary CNS lymphoma that that
NOTE Confidence: 0.936900623529412

00:51:26.963 --> 00:51:30.000 who have failed a first line therapy.
NOTE Confidence: 0.936900623529412

00:51:30.000 --> 00:51:32.695 And so these patients as you probably
NOTE Confidence: 0.936900623529412

00:51:32.695 --> 00:51:35.519 all know have very limited options.
NOTE Confidence: 0.936900623529412

00:51:35.520 --> 00:51:37.728 So we're very excited about the
NOTE Confidence: 0.936900623529412

00:51:37.728 --> 00:51:40.792 opening of this arm on this study.
NOTE Confidence: 0.936900623529412

00:51:40.792 --> 00:51:43.232 And then for patients who
NOTE Confidence: 0.936900623529412

00:51:43.232 --> 00:51:45.200 progress after CD19 CAR,
NOTE Confidence: 0.936900623529412

00:51:45.200 --> 00:51:48.161 we have a very exciting phase two
NOTE Confidence: 0.936900623529412

00:51:48.161 --> 00:51:51.915 study with a new target which is CD 22.
NOTE Confidence: 0.936900623529412

00:51:51.920 --> 00:51:54.290 There's already very good phase one
NOTE Confidence: 0.936900623529412

00:51:54.290 --> 00:51:58.760 data with CD22 directed autologous CAR T

NOTE Confidence: 0.936900623529412
00:51:58.760 --> 00:52:02.508 cells in patients who have had CD19 cars.
NOTE Confidence: 0.936900623529412
00:52:02.508 --> 00:52:05.112 And based on that very promising
NOTE Confidence: 0.936900623529412
00:52:05.112 --> 00:52:06.480 phase one data,
NOTE Confidence: 0.936900623529412
00:52:06.480 --> 00:52:09.196 we have moved this to the second
NOTE Confidence: 0.936900623529412
00:52:09.200 --> 00:52:11.990 to the second phase and are
NOTE Confidence: 0.936900623529412
00:52:11.990 --> 00:52:14.768 investigating it at Yale as well.
NOTE Confidence: 0.936900623529412
00:52:14.768 --> 00:52:17.078 And then for multiple myeloma,
NOTE Confidence: 0.936900623529412
00:52:17.080 --> 00:52:17.790 Dr.,
NOTE Confidence: 0.936900623529412
00:52:17.790 --> 00:52:21.904 Barr is leading all of our cell
NOTE Confidence: 0.936900623529412
00:52:21.904 --> 00:52:24.200 therapy clinical trials and she
NOTE Confidence: 0.936900623529412
00:52:24.200 --> 00:52:26.900 has several both in the upfront
NOTE Confidence: 0.936900623529412
00:52:26.988 --> 00:52:29.198 and in the relapse setting.
NOTE Confidence: 0.936900623529412
00:52:29.200 --> 00:52:29.898 For example,
NOTE Confidence: 0.936900623529412
00:52:29.898 --> 00:52:32.690 here we have Cortitut 5 and this is
NOTE Confidence: 0.936900623529412
00:52:32.770 --> 00:52:35.320 a phase three study that's bringing
NOTE Confidence: 0.936900623529412

00:52:35.320 --> 00:52:37.360 cortisol therapy to the front line.
NOTE Confidence: 0.936900623529412

00:52:37.360 --> 00:52:39.345 So multiple myeloma patients who
NOTE Confidence: 0.936900623529412

00:52:39.345 --> 00:52:41.330 are not planned for immediate
NOTE Confidence: 0.936900623529412

00:52:41.399 --> 00:52:43.680 transplant and instead of getting
NOTE Confidence: 0.936900623529412

00:52:43.680 --> 00:52:45.730 their initial induction with VRD
NOTE Confidence: 0.936900623529412

00:52:45.730 --> 00:52:48.362 and going on prolonged maintenance
NOTE Confidence: 0.936900623529412

00:52:48.362 --> 00:52:50.514 with Lenalidomide and Revlimid,
NOTE Confidence: 0.936900623529412

00:52:50.520 --> 00:52:53.936 they have the chance to go onto a
NOTE Confidence: 0.936900623529412

00:52:53.936 --> 00:52:56.159 cortisol therapy with Silta Cell
NOTE Confidence: 0.936900623529412

00:52:56.160 --> 00:52:57.960 which is a one time therapy.
NOTE Confidence: 0.936900623529412

00:52:57.960 --> 00:53:00.444 And hopefully they can come off
NOTE Confidence: 0.936900623529412

00:53:00.444 --> 00:53:02.567 treatment and be monitored rather
NOTE Confidence: 0.936900623529412

00:53:02.567 --> 00:53:06.135 than remain on sort of indefinite
NOTE Confidence: 0.936900623529412

00:53:06.135 --> 00:53:08.675 maintenance therapy until progression.
NOTE Confidence: 0.936900623529412

00:53:08.680 --> 00:53:11.518 And then Dr. Gauda and Dr.
NOTE Confidence: 0.936900623529412

00:53:11.520 --> 00:53:14.258 Seropian are involved in the leukemia

NOTE Confidence: 0.936900623529412
00:53:14.258 --> 00:53:15.872 cellular therapy investigations
NOTE Confidence: 0.936900623529412
00:53:15.872 --> 00:53:19.100 and and we have several exciting
NOTE Confidence: 0.936900623529412
00:53:19.183 --> 00:53:21.349 phase one trials in the leukemia
NOTE Confidence: 0.936900623529412
00:53:21.349 --> 00:53:23.760 area as well for patients who
NOTE Confidence: 0.936900623529412
00:53:23.760 --> 00:53:25.800 are candidates for transplant.
NOTE Confidence: 0.936900623529412
00:53:25.800 --> 00:53:28.860 And then we have several studies
NOTE Confidence: 0.936900623529412
00:53:28.944 --> 00:53:30.240 in the pipeline.
NOTE Confidence: 0.936900623529412
00:53:30.240 --> 00:53:33.320 And I just wanted to highlight here
NOTE Confidence: 0.936900623529412
00:53:33.320 --> 00:53:37.079 a couple of studies that are also
NOTE Confidence: 0.936900623529412
00:53:37.079 --> 00:53:39.333 dual targeting antigens targeting
NOTE Confidence: 0.936900623529412
00:53:39.333 --> 00:53:42.752 both BCMA and GPRC 5D because in
NOTE Confidence: 0.936900623529412
00:53:42.752 --> 00:53:44.992 multiple myeloma now we're already
NOTE Confidence: 0.936900623529412
00:53:44.992 --> 00:53:47.609 getting patients who have progressed
NOTE Confidence: 0.936900623529412
00:53:47.609 --> 00:53:49.697 after antibody treatments that
NOTE Confidence: 0.936900623529412
00:53:49.697 --> 00:53:51.919 are already targeting BCMA.
NOTE Confidence: 0.936900623529412

00:53:51.920 --> 00:53:54.232 And so it's an exciting time for the
NOTE Confidence: 0.936900623529412

00:53:54.232 --> 00:53:56.805 patients to be able to participate in
NOTE Confidence: 0.936900623529412

00:53:56.805 --> 00:54:00.435 these studies that are dual targeting.
NOTE Confidence: 0.936900623529412

00:54:00.440 --> 00:54:03.905 And we are also taking patients
NOTE Confidence: 0.936900623529412

00:54:03.905 --> 00:54:06.370 who have high risk disease
NOTE Confidence: 0.8266297533333333

00:54:06.464 --> 00:54:08.979 with certain genomic abnormalities and
NOTE Confidence: 0.8266297533333333

00:54:08.979 --> 00:54:11.344 taking those patients that relapse
NOTE Confidence: 0.8266297533333333

00:54:11.344 --> 00:54:14.762 within 12 months of their initial therapy
NOTE Confidence: 0.8266297533333333

00:54:14.762 --> 00:54:17.162 including transplant and then enrolling
NOTE Confidence: 0.8266297533333333

00:54:17.233 --> 00:54:19.599 them in these Corti trials as well.
NOTE Confidence: 0.8266297533333333

00:54:19.600 --> 00:54:23.882 So if you do have patients with either
NOTE Confidence: 0.8266297533333333

00:54:23.882 --> 00:54:26.774 early relapsed high grade lymphoma within
NOTE Confidence: 0.8266297533333333

00:54:26.774 --> 00:54:30.504 12 months of their initial therapy or
NOTE Confidence: 0.8266297533333333

00:54:30.504 --> 00:54:33.208 patients with multiple myeloma with
NOTE Confidence: 0.8266297533333333

00:54:33.208 --> 00:54:36.418 high risk features who who also may
NOTE Confidence: 0.8266297533333333

00:54:36.418 --> 00:54:38.614 have progressed within 12 months of

NOTE Confidence: 0.826629753333333

00:54:38.614 --> 00:54:41.126 their therapy or who have already

NOTE Confidence: 0.826629753333333

00:54:41.126 --> 00:54:43.196 had BCMA exposure and progressed,

NOTE Confidence: 0.826629753333333

00:54:43.200 --> 00:54:45.824 it's would be a good time for our

NOTE Confidence: 0.826629753333333

00:54:45.824 --> 00:54:47.680 team to evaluate them.

NOTE Confidence: 0.826629753333333

00:54:47.680 --> 00:54:50.634 And then finally as as Alex mentioned,

NOTE Confidence: 0.826629753333333

00:54:50.640 --> 00:54:52.640 this is indeed the multidisciplinary

NOTE Confidence: 0.826629753333333

00:54:52.640 --> 00:54:53.440 team effort.

NOTE Confidence: 0.826629753333333

00:54:53.440 --> 00:54:55.946 You can see here that the program

NOTE Confidence: 0.826629753333333

00:54:55.946 --> 00:54:58.608 does not function as a whole without

NOTE Confidence: 0.826629753333333

00:54:58.608 --> 00:55:00.692 each of these individual pieces.

NOTE Confidence: 0.826629753333333

00:55:00.692 --> 00:55:04.696 And we are also in very close

NOTE Confidence: 0.826629753333333

00:55:04.696 --> 00:55:06.282 collaboration with oncologists

NOTE Confidence: 0.826629753333333

00:55:06.282 --> 00:55:08.934 throughout the state who are both

NOTE Confidence: 0.826629753333333

00:55:08.934 --> 00:55:12.010 part of the SMILO network or outside

NOTE Confidence: 0.826629753333333

00:55:12.010 --> 00:55:14.655 of the network who do refer patients

NOTE Confidence: 0.826629753333333

00:55:14.655 --> 00:55:16.280 to us for cellular therapy.
NOTE Confidence: 0.8266297533333333

00:55:16.280 --> 00:55:19.010 And we remain in close contact
NOTE Confidence: 0.8266297533333333

00:55:19.010 --> 00:55:20.830 regarding bridging treatment while
NOTE Confidence: 0.8266297533333333

00:55:20.906 --> 00:55:23.181 we can manufacture the cellular
NOTE Confidence: 0.8266297533333333

00:55:23.181 --> 00:55:24.232 therapy products.
NOTE Confidence: 0.8266297533333333

00:55:24.232 --> 00:55:26.600 And so with that,
NOTE Confidence: 0.8266297533333333

00:55:26.600 --> 00:55:29.274 I am going to stop sharing and
NOTE Confidence: 0.8266297533333333

00:55:29.280 --> 00:55:30.480 leave the rest of MIC.
NOTE Confidence: 0.940531588

00:55:33.600 --> 00:55:35.760 I think we're at the top of the hour here.
NOTE Confidence: 0.940531588

00:55:35.760 --> 00:55:37.560 I don't know if people are still on.
NOTE Confidence: 0.940531588

00:55:37.560 --> 00:55:38.560 Should I keep going?
NOTE Confidence: 0.8174249083333333

00:55:38.800 --> 00:55:40.078 Yeah, lots of people are on.
NOTE Confidence: 0.8174249083333333

00:55:40.080 --> 00:55:42.000 There's 88 people listening. So,
NOTE Confidence: 0.865809991428572

00:55:42.720 --> 00:55:45.198 OK, so I'll try to be brief.
NOTE Confidence: 0.944823872

00:55:47.240 --> 00:55:48.440 Are you guys seeing it?
NOTE Confidence: 0.944823872

00:55:48.440 --> 00:55:50.520 There we go. All right.

NOTE Confidence: 0.944823872

00:55:50.520 --> 00:55:53.040 So on the on on the solid side,

NOTE Confidence: 0.944823872

00:55:53.040 --> 00:55:55.320 we're also doing cell therapies

NOTE Confidence: 0.944823872

00:55:55.320 --> 00:55:56.516 just for very quickly.

NOTE Confidence: 0.944823872

00:55:56.516 --> 00:55:58.011 I just wanted to sort

NOTE Confidence: 0.944823872

00:55:58.011 --> 00:55:59.716 of give a sense of what,

NOTE Confidence: 0.944823872

00:55:59.720 --> 00:56:01.015 what it is for a patient to

NOTE Confidence: 0.944823872

00:56:01.015 --> 00:56:02.040 go through these therapies.

NOTE Confidence: 0.944823872

00:56:02.040 --> 00:56:04.446 They're pretty involved in that whether

NOTE Confidence: 0.944823872

00:56:04.446 --> 00:56:06.600 it's something called till therapy,

NOTE Confidence: 0.944823872

00:56:06.600 --> 00:56:07.820 which is tumor infiltrating lymphocyte

NOTE Confidence: 0.944823872

00:56:07.820 --> 00:56:09.560 therapy or whether it's CAR T or

NOTE Confidence: 0.944823872

00:56:09.560 --> 00:56:12.399 an engineered type cell therapy.

NOTE Confidence: 0.944823872

00:56:12.400 --> 00:56:14.212 You know you have to either take out

NOTE Confidence: 0.944823872

00:56:14.212 --> 00:56:16.354 a tumor or take out someone's cells,

NOTE Confidence: 0.944823872

00:56:16.360 --> 00:56:18.383 those cells and then and then T

NOTE Confidence: 0.944823872

00:56:18.383 --> 00:56:20.364 cells are are isolated from whatever
NOTE Confidence: 0.944823872

00:56:20.364 --> 00:56:22.793 you take out and then those are
NOTE Confidence: 0.944823872

00:56:22.865 --> 00:56:24.888 grown up in vitro for like a month.
NOTE Confidence: 0.944823872

00:56:24.888 --> 00:56:26.618 You know that there there are various
NOTE Confidence: 0.944823872

00:56:26.618 --> 00:56:28.048 times usually it's anywhere between
NOTE Confidence: 0.944823872

00:56:28.048 --> 00:56:30.155 3 weeks and in fact in one trial
NOTE Confidence: 0.944823872

00:56:30.155 --> 00:56:31.697 it takes four months to make the
NOTE Confidence: 0.944823872

00:56:31.697 --> 00:56:32.759 product that you're going to make.
NOTE Confidence: 0.944823872

00:56:32.760 --> 00:56:34.528 And some of them are just growing up
NOTE Confidence: 0.944823872

00:56:34.528 --> 00:56:36.026 cells and making them very active
NOTE Confidence: 0.944823872

00:56:36.026 --> 00:56:38.119 and some of them are growing up cells
NOTE Confidence: 0.944823872

00:56:38.119 --> 00:56:39.464 and transfecting in adna construct
NOTE Confidence: 0.944823872

00:56:39.464 --> 00:56:42.820 to make some sort of protein that
NOTE Confidence: 0.944823872

00:56:42.820 --> 00:56:45.995 results in targeting the tumor.
NOTE Confidence: 0.944823872

00:56:46.000 --> 00:56:47.408 And so for patients,
NOTE Confidence: 0.944823872

00:56:47.408 --> 00:56:49.168 it's you know having something

NOTE Confidence: 0.944823872

00:56:49.168 --> 00:56:50.838 done to take T cells out,

NOTE Confidence: 0.944823872

00:56:50.840 --> 00:56:52.790 waiting for them and then right

NOTE Confidence: 0.944823872

00:56:52.790 --> 00:56:54.413 before they actually get the

NOTE Confidence: 0.944823872

00:56:54.413 --> 00:56:55.955 T cells put back into them,

NOTE Confidence: 0.944823872

00:56:55.960 --> 00:56:57.120 they have to get lymphodepletion,

NOTE Confidence: 0.944823872

00:56:57.120 --> 00:56:58.200 they have to get a chemotherapy,

NOTE Confidence: 0.944823872

00:56:58.200 --> 00:56:59.985 a pretty intense chemotherapy so

NOTE Confidence: 0.944823872

00:56:59.985 --> 00:57:02.400 that their body is ready for this.

NOTE Confidence: 0.944823872

00:57:02.400 --> 00:57:03.320 And for lack of time,

NOTE Confidence: 0.944823872

00:57:03.320 --> 00:57:04.118 I'm not going to go into it

NOTE Confidence: 0.944823872

00:57:04.118 --> 00:57:04.839 in too much more detail,

NOTE Confidence: 0.944823872

00:57:04.840 --> 00:57:07.774 but just a sense of what we have open

NOTE Confidence: 0.944823872

00:57:07.774 --> 00:57:10.759 right now in solid tumor cell therapies,

NOTE Confidence: 0.944823872

00:57:10.760 --> 00:57:12.958 we have all the ones in blue are open.

NOTE Confidence: 0.944823872

00:57:12.960 --> 00:57:16.068 So we have four different cell therapies

NOTE Confidence: 0.944823872

00:57:16.068 --> 00:57:18.355 open right now and you can see the
NOTE Confidence: 0.944823872

00:57:18.355 --> 00:57:19.119 diseases that they're covering.
NOTE Confidence: 0.944823872

00:57:19.120 --> 00:57:21.928 So at the moment we have things for
NOTE Confidence: 0.944823872

00:57:21.928 --> 00:57:24.357 smoking related non small cell Melanoma.
NOTE Confidence: 0.944823872

00:57:24.360 --> 00:57:25.974 We also have four other subsets
NOTE Confidence: 0.944823872

00:57:25.974 --> 00:57:28.088 of of non small cell and triple
NOTE Confidence: 0.944823872

00:57:28.088 --> 00:57:29.718 negative breast cancer and these
NOTE Confidence: 0.944823872

00:57:29.718 --> 00:57:32.800 are ones that express ROAR ONE.
NOTE Confidence: 0.944823872

00:57:32.800 --> 00:57:35.040 These are there's a CAR T trial
NOTE Confidence: 0.944823872

00:57:35.040 --> 00:57:37.678 and ROAR one is expressed about 40%
NOTE Confidence: 0.944823872

00:57:37.680 --> 00:57:39.675 of non small cell and about 60%
NOTE Confidence: 0.944823872

00:57:39.680 --> 00:57:41.280 of triple negative breast cancer.
NOTE Confidence: 0.944823872

00:57:41.280 --> 00:57:43.242 And we also have something called
NOTE Confidence: 0.944823872

00:57:43.242 --> 00:57:45.920 TCR TS sort of a variation on this
NOTE Confidence: 0.944823872

00:57:45.920 --> 00:57:48.760 and they also have a a number of
NOTE Confidence: 0.944823872

00:57:48.760 --> 00:57:51.238 diseases and this trial has four targets,

NOTE Confidence: 0.944823872

00:57:51.240 --> 00:57:53.355 but you have to be HLA mass to them.

NOTE Confidence: 0.944823872

00:57:53.360 --> 00:57:54.868 So it's somewhat complex.

NOTE Confidence: 0.944823872

00:57:54.868 --> 00:57:56.753 We hope to open soon.

NOTE Confidence: 0.944823872

00:57:56.760 --> 00:57:58.044 They're in the pipeline,

NOTE Confidence: 0.944823872

00:57:58.044 --> 00:57:59.649 something for renal cell carcinoma

NOTE Confidence: 0.944823872

00:57:59.649 --> 00:58:00.639 and some others.

NOTE Confidence: 0.944823872

00:58:00.640 --> 00:58:01.252 For example,

NOTE Confidence: 0.944823872

00:58:01.252 --> 00:58:04.072 one that that hits all K Ras G12V tumors,

NOTE Confidence: 0.944823872

00:58:04.072 --> 00:58:06.088 another that hits all her two

NOTE Confidence: 0.944823872

00:58:06.088 --> 00:58:06.760 positive tumors.

NOTE Confidence: 0.944823872

00:58:06.760 --> 00:58:07.936 What you'll notice is I have

NOTE Confidence: 0.944823872

00:58:07.936 --> 00:58:08.720 the sponsor down here,

NOTE Confidence: 0.944823872

00:58:08.720 --> 00:58:11.919 none of these are actually from Yale

NOTE Confidence: 0.944823872

00:58:11.919 --> 00:58:14.320 Science because we're probably not there yet.

NOTE Confidence: 0.944823872

00:58:14.320 --> 00:58:15.140 It's very expensive to

NOTE Confidence: 0.944823872

00:58:15.140 --> 00:58:15.960 get these things going.
NOTE Confidence: 0.944823872

00:58:15.960 --> 00:58:17.688 And so for the most part
NOTE Confidence: 0.944823872

00:58:17.688 --> 00:58:18.840 we're using industry sponsors,
NOTE Confidence: 0.944823872

00:58:18.840 --> 00:58:21.365 but we hope in the future to get Yale
NOTE Confidence: 0.944823872

00:58:21.365 --> 00:58:22.970 Science into patients because there
NOTE Confidence: 0.833329425714286

00:58:23.026 --> 00:58:24.586 are a lot of Yale scientists
NOTE Confidence: 0.833329425714286

00:58:24.586 --> 00:58:25.960 doing this kind of work.
NOTE Confidence: 0.833329425714286

00:58:25.960 --> 00:58:27.885 And finally, we have the first standard
NOTE Confidence: 0.833329425714286

00:58:27.885 --> 00:58:30.012 of care T cell therapy for solid tumors
NOTE Confidence: 0.833329425714286

00:58:30.012 --> 00:58:31.795 and that's for Melanoma and that was
NOTE Confidence: 0.833329425714286

00:58:31.795 --> 00:58:33.391 approved I think about a month ago.
NOTE Confidence: 0.833329425714286

00:58:33.400 --> 00:58:35.448 And we're probably going to have it open
NOTE Confidence: 0.833329425714286

00:58:35.448 --> 00:58:37.414 within the next month and know from
NOTE Confidence: 0.833329425714286

00:58:37.414 --> 00:58:39.202 other people that's probably the fastest
NOTE Confidence: 0.833329425714286

00:58:39.202 --> 00:58:41.276 of of maybe any site in the country.
NOTE Confidence: 0.833329425714286

00:58:41.280 --> 00:58:42.240 So that's exciting.

NOTE Confidence: 0.833329425714286
00:58:42.240 --> 00:58:44.388 Well, I'll leave it at that since
NOTE Confidence: 0.833329425714286
00:58:44.388 --> 00:58:46.440 people have to have to get out of here.
NOTE Confidence: 0.832833973333333
00:58:49.200 --> 00:58:50.838 Thank you. Thank you all the,
NOTE Confidence: 0.832833973333333
00:58:50.840 --> 00:58:52.480 I don't see any questions in the chat.
NOTE Confidence: 0.832833973333333
00:58:52.480 --> 00:58:54.460 If anyone had any questions
NOTE Confidence: 0.832833973333333
00:58:54.460 --> 00:58:56.440 for the cellular therapy team,
NOTE Confidence: 0.832833973333333
00:58:56.440 --> 00:58:57.916 please put them in the chat.
NOTE Confidence: 0.921826997272727
00:59:02.120 --> 00:59:03.180 If anyone has any questions
NOTE Confidence: 0.921826997272727
00:59:03.180 --> 00:59:04.440 about your patients by the way,
NOTE Confidence: 0.921826997272727
00:59:04.440 --> 00:59:06.036 just reach out to us directly.
NOTE Confidence: 0.921826997272727
00:59:06.040 --> 00:59:07.538 I mean I'll, I'll talk to anyone
NOTE Confidence: 0.921826997272727
00:59:07.538 --> 00:59:08.759 about any solid tumor stuff.
NOTE Confidence: 0.960101475
00:59:13.880 --> 00:59:15.656 So I guess I will say I don't
NOTE Confidence: 0.960101475
00:59:15.656 --> 00:59:17.560 have any particular questions.
NOTE Confidence: 0.960101475
00:59:17.560 --> 00:59:22.120 I I think it is just I hope others
NOTE Confidence: 0.970401843333333

00:59:22.120 --> 00:59:23.200 in our clinical
NOTE Confidence: 0.976841066666667

00:59:23.200 --> 00:59:25.360 community can get
NOTE Confidence: 0.974722572

00:59:25.360 --> 00:59:27.972 a sense of the promise and excitement
NOTE Confidence: 0.974722572

00:59:27.972 --> 00:59:29.780 that these therapies offer for
NOTE Confidence: 0.974722572

00:59:29.780 --> 00:59:32.080 many of our patients. You know
NOTE Confidence: 0.84285943

00:59:32.760 --> 00:59:33.999 as both Mike
NOTE Confidence: 0.602258961666667

00:59:34.000 --> 00:59:36.160 and Aris and and Stuart also
NOTE Confidence: 0.602258961666667

00:59:36.160 --> 00:59:38.470 alluded to, these are very
NOTE Confidence: 0.602258961666667

00:59:38.470 --> 00:59:40.800 complex therapies and they require
NOTE Confidence: 0.956706485

00:59:42.600 --> 00:59:43.840 kind of the resources,
NOTE Confidence: 0.912525774

00:59:43.840 --> 00:59:46.310 the deep expertise and coordination that
NOTE Confidence: 0.912525774

00:59:46.310 --> 00:59:49.600 only that centers like ours have to offer.
NOTE Confidence: 0.912525774

00:59:49.600 --> 00:59:53.000 But they truly offer hope and a
NOTE Confidence: 0.912525774

00:59:53.000 --> 00:59:55.168 unique therapeutic offering to a
NOTE Confidence: 0.912525774

00:59:55.168 --> 00:59:57.760 group of patients who are either
NOTE Confidence: 0.912525774

00:59:57.760 --> 01:00:00.280 not eligible for other therapies are

NOTE Confidence: 0.92308691

01:00:00.280 --> 01:00:02.880 failing other therapies and they

NOTE Confidence: 0.963420406

01:00:02.880 --> 01:00:07.800 also offer the hope of durable remission

NOTE Confidence: 0.963420406

01:00:07.800 --> 01:00:10.599 or even cure in situations that

NOTE Confidence: 0.963420406

01:00:10.600 --> 01:00:13.480 otherwise would would be hopeless.

NOTE Confidence: 0.963420406

01:00:13.480 --> 01:00:16.120 And I think that you know these are

NOTE Confidence: 0.854117524

01:00:16.160 --> 01:00:19.520 this team was very modest in the

NOTE Confidence: 0.755861364

01:00:19.520 --> 01:00:21.360 description of the and and

NOTE Confidence: 0.88100735

01:00:21.960 --> 01:00:23.368 even circumspect in their

NOTE Confidence: 0.88100735

01:00:23.368 --> 01:00:26.280 description but but this is. Really,

NOTE Confidence: 0.930509588

01:00:26.320 --> 01:00:27.980 I don't think it's overstating it to

NOTE Confidence: 0.930509588

01:00:27.980 --> 01:00:29.876 say we are on the threshold of a of

NOTE Confidence: 0.930509588

01:00:29.876 --> 01:00:32.102 a new era and this is just the tip

NOTE Confidence: 0.930509588

01:00:32.102 --> 01:00:34.118 of the iceberg we're talking about.

NOTE Confidence: 0.930509588

01:00:34.120 --> 01:00:36.666 So more to come, and it's great

NOTE Confidence: 0.930509588

01:00:36.666 --> 01:00:38.560 to be part of that. Yep.

NOTE Confidence: 0.24943241

01:00:41.360 --> 01:00:43.040 Which I, I forgot to say,
NOTE Confidence: 0.847760916363636

01:00:43.040 --> 01:00:44.405 the acknowledgement of actually the
NOTE Confidence: 0.847760916363636

01:00:44.405 --> 01:00:46.120 team who actually makes this happen.
NOTE Confidence: 0.847760916363636

01:00:46.120 --> 01:00:47.555 So these people should be up there,
NOTE Confidence: 0.847760916363636

01:00:47.560 --> 01:00:48.334 'cause they're amazing.
NOTE Confidence: 0.847760916363636

01:00:48.334 --> 01:00:50.140 They're the ones who actually make it
NOTE Confidence: 0.847760916363636

01:00:50.190 --> 01:00:52.120 possible for us do any of this stuff. Thanks.
NOTE Confidence: 0.5897335125

01:00:58.280 --> 01:00:59.840 Thanks, Mike. I think
NOTE Confidence: 0.925854226

01:00:59.840 --> 01:01:01.800 we'll wrap up. Thanks everyone.
