

WEBVTT

NOTE duration: "01:01:17.354"

NOTE Confidence: 0.9579544

00:00:00.160 --> 00:00:00.980 Morning, everyone.

NOTE Confidence: 0.9479083

00:00:01.360 --> 00:00:02.560 Thank you for joining us

NOTE Confidence: 0.9479083

00:00:02.560 --> 00:00:03.620 at town hall.

NOTE Confidence: 0.9650508

00:00:04.000 --> 00:00:05.380 We have a great agenda

NOTE Confidence: 0.9650508

00:00:05.440 --> 00:00:06.559 today, and,

NOTE Confidence: 0.9714368

00:00:06.960 --> 00:00:08.340 I'll say just

NOTE Confidence: 0.91572094

00:00:08.880 --> 00:00:10.559 by word of welcome on

NOTE Confidence: 0.91572094

00:00:10.559 --> 00:00:12.179 behalf of Tracy and myself.

NOTE Confidence: 0.9438774

00:00:13.145 --> 00:00:14.845 We really appreciate the community

NOTE Confidence: 0.9974192

00:00:15.145 --> 00:00:16.204 joining us today.

NOTE Confidence: 0.98918766

00:00:16.825 --> 00:00:17.625 I think it's been a

NOTE Confidence: 0.98918766

00:00:17.625 --> 00:00:18.665 period of time since our

NOTE Confidence: 0.98918766

00:00:18.665 --> 00:00:19.805 last town hall,

NOTE Confidence: 0.98867834

00:00:20.985 --> 00:00:22.125 and we,

NOTE Confidence: 0.99863243

00:00:22.585 --> 00:00:24.345 I think, have the honor  
NOTE Confidence: 0.99863243

00:00:24.345 --> 00:00:26.045 of sharing some really  
NOTE Confidence: 0.97134686

00:00:26.500 --> 00:00:28.440 great work that our community  
NOTE Confidence: 0.97134686

00:00:28.500 --> 00:00:29.720 has been doing and  
NOTE Confidence: 0.97612303

00:00:30.020 --> 00:00:30.520 also  
NOTE Confidence: 0.88027716

00:00:30.980 --> 00:00:33.000 celebrating some amazing achievements  
NOTE Confidence: 0.96799415

00:00:33.780 --> 00:00:35.380 that reflect the incredible work  
NOTE Confidence: 0.96799415

00:00:35.380 --> 00:00:36.820 and commitment of our cancer  
NOTE Confidence: 0.96799415

00:00:36.820 --> 00:00:38.600 center faculty and our Smilow  
NOTE Confidence: 0.96799415

00:00:38.659 --> 00:00:39.159 staff.  
NOTE Confidence: 0.93520474

00:00:39.945 --> 00:00:41.165 We also have a series  
NOTE Confidence: 0.93520474

00:00:41.225 --> 00:00:43.184 of important programmatic updates by  
NOTE Confidence: 0.93520474

00:00:43.184 --> 00:00:44.185 a number of number of  
NOTE Confidence: 0.93520474

00:00:44.185 --> 00:00:45.325 our leaders, including  
NOTE Confidence: 0.8765993

00:00:45.784 --> 00:00:47.885 Mary Ann Davies, Kate Daniels,  
NOTE Confidence: 0.8765993

00:00:48.104 --> 00:00:49.325 Kate Daniels Mason,

NOTE Confidence: 0.9118951  
00:00:50.585 --> 00:00:52.825 Sam Abdelgani from pharmacy, and  
NOTE Confidence: 0.9118951  
00:00:52.825 --> 00:00:54.640 doctor Jensen Morris from the  
NOTE Confidence: 0.9118951  
00:00:54.640 --> 00:00:55.700 hospitalist service.  
NOTE Confidence: 0.9663183  
00:00:56.800 --> 00:00:58.240 I will say this morning  
NOTE Confidence: 0.9663183  
00:00:58.240 --> 00:00:59.620 on a more personal note,  
NOTE Confidence: 0.96945524  
00:01:00.240 --> 00:01:01.600 I wanna share how grateful  
NOTE Confidence: 0.96945524  
00:01:01.600 --> 00:01:03.600 I am to witness every  
NOTE Confidence: 0.96945524  
00:01:03.600 --> 00:01:04.800 day as Tracy and I  
NOTE Confidence: 0.96945524  
00:01:04.800 --> 00:01:05.300 round,  
NOTE Confidence: 0.99985045  
00:01:05.760 --> 00:01:07.140 the incredible collaboration  
NOTE Confidence: 0.994501  
00:01:07.760 --> 00:01:08.819 and teamwork  
NOTE Confidence: 0.89834416  
00:01:09.494 --> 00:01:11.194 within Smilow and our organization.  
NOTE Confidence: 0.997185  
00:01:11.895 --> 00:01:13.015 You know, it goes without  
NOTE Confidence: 0.997185  
00:01:13.015 --> 00:01:13.975 saying that we need to  
NOTE Confidence: 0.997185  
00:01:13.975 --> 00:01:15.575 look no further than our  
NOTE Confidence: 0.997185

00:01:15.575 --> 00:01:16.314 very recent  
NOTE Confidence: 0.9430422

00:01:16.694 --> 00:01:18.715 tumultuous election season  
NOTE Confidence: 0.99279314

00:01:19.015 --> 00:01:20.615 to recognize that we are  
NOTE Confidence: 0.99279314

00:01:20.615 --> 00:01:21.115 in  
NOTE Confidence: 0.94637513

00:01:21.640 --> 00:01:22.460 times of,  
NOTE Confidence: 0.9525424

00:01:22.920 --> 00:01:24.300 division and some discord,  
NOTE Confidence: 0.9805392

00:01:24.600 --> 00:01:26.380 both nationally and internationally.  
NOTE Confidence: 0.9981718

00:01:27.400 --> 00:01:28.860 But I am really grateful  
NOTE Confidence: 0.9981718

00:01:29.000 --> 00:01:30.620 to see and feel  
NOTE Confidence: 0.98612386

00:01:31.000 --> 00:01:32.920 how we, as a community  
NOTE Confidence: 0.98612386

00:01:32.920 --> 00:01:34.940 of cancer caregivers, come together  
NOTE Confidence: 0.98612386

00:01:35.000 --> 00:01:37.415 every day around our unifying  
NOTE Confidence: 0.98612386

00:01:37.475 --> 00:01:39.395 mission of providing outstanding care  
NOTE Confidence: 0.98612386

00:01:39.395 --> 00:01:41.415 for cancer patients and advancing  
NOTE Confidence: 0.98612386

00:01:41.475 --> 00:01:43.315 cancer care for our patients  
NOTE Confidence: 0.98612386

00:01:43.315 --> 00:01:43.975 and families.

NOTE Confidence: 0.9871523  
00:01:44.435 --> 00:01:45.955 I think the presentations today  
NOTE Confidence: 0.9871523  
00:01:45.955 --> 00:01:47.235 are an important reminder of  
NOTE Confidence: 0.9871523  
00:01:47.235 --> 00:01:48.855 the power of our collaborative  
NOTE Confidence: 0.9871523  
00:01:49.155 --> 00:01:49.655 spirit.  
NOTE Confidence: 0.93463427  
00:01:50.230 --> 00:01:51.670 And if you were anything  
NOTE Confidence: 0.93463427  
00:01:51.670 --> 00:01:52.490 like me,  
NOTE Confidence: 0.9936291  
00:01:52.950 --> 00:01:54.150 I I'm certain that you  
NOTE Confidence: 0.9936291  
00:01:54.150 --> 00:01:55.690 will leave this morning's gathering,  
NOTE Confidence: 0.9991847  
00:01:56.150 --> 00:01:57.909 with renewed optimism for the  
NOTE Confidence: 0.9991847  
00:01:57.909 --> 00:01:59.850 work we're doing together. So  
NOTE Confidence: 0.97893864  
00:02:00.470 --> 00:02:01.430 maybe we could put the  
NOTE Confidence: 0.97893864  
00:02:01.430 --> 00:02:02.410 agenda up.  
NOTE Confidence: 0.9037083  
00:02:14.495 --> 00:02:15.794 Will we advance the slide?  
NOTE Confidence: 0.99587554  
00:02:17.455 --> 00:02:18.415 I'm not sure it's in  
NOTE Confidence: 0.99587554  
00:02:18.415 --> 00:02:19.555 presentation mode.  
NOTE Confidence: 0.99810386

00:02:21.510 --> 00:02:22.010 So  
NOTE Confidence: 0.991886  
00:02:22.470 --> 00:02:23.590 Tracy and I will kick  
NOTE Confidence: 0.991886  
00:02:23.590 --> 00:02:24.810 off with some introductions,  
NOTE Confidence: 0.95960206  
00:02:25.190 --> 00:02:26.230 and then we will go  
NOTE Confidence: 0.95960206  
00:02:26.230 --> 00:02:28.230 into a a presentation by  
NOTE Confidence: 0.95960206  
00:02:28.230 --> 00:02:29.050 doctor Huntington  
NOTE Confidence: 0.94779545  
00:02:29.590 --> 00:02:31.130 on important work we're doing  
NOTE Confidence: 0.94779545  
00:02:31.349 --> 00:02:33.510 regarding transitioning inpatient treatments to  
NOTE Confidence: 0.94779545  
00:02:33.510 --> 00:02:34.730 the outpatient setting,  
NOTE Confidence: 0.99658096  
00:02:35.205 --> 00:02:36.485 which will be important in  
NOTE Confidence: 0.99658096  
00:02:36.485 --> 00:02:37.625 generating capacity.  
NOTE Confidence: 0.93995494  
00:02:39.205 --> 00:02:41.364 Marion Davies and Kate Mason  
NOTE Confidence: 0.93995494  
00:02:41.364 --> 00:02:42.264 will talk about  
NOTE Confidence: 0.88337684  
00:02:42.565 --> 00:02:44.105 work in our Care Signature  
NOTE Confidence: 0.88337684  
00:02:44.165 --> 00:02:44.665 Council,  
NOTE Confidence: 0.98542607  
00:02:45.205 --> 00:02:45.525 and,

NOTE Confidence: 0.9175083  
00:02:46.485 --> 00:02:48.485 Sam Abdulani will update us  
NOTE Confidence: 0.9175083  
00:02:48.485 --> 00:02:50.425 on our IV fluid mitigation  
NOTE Confidence: 0.95181036  
00:02:51.159 --> 00:02:52.760 plans and, of course, doctor  
NOTE Confidence: 0.95181036  
00:02:52.760 --> 00:02:54.599 Morris on high priority work  
NOTE Confidence: 0.95181036  
00:02:54.599 --> 00:02:55.419 stream planning.  
NOTE Confidence: 0.9814442  
00:02:57.480 --> 00:02:58.519 Next slide. And I think  
NOTE Confidence: 0.9814442  
00:02:58.519 --> 00:02:59.720 that will be for you,  
NOTE Confidence: 0.9814442  
00:02:59.720 --> 00:03:00.220 Tracy.  
NOTE Confidence: 0.9972826  
00:03:00.840 --> 00:03:02.540 Yes. Hi. Good morning, everyone.  
NOTE Confidence: 0.97664726  
00:03:03.079 --> 00:03:04.379 I am very pleased,  
NOTE Confidence: 0.9692099  
00:03:05.615 --> 00:03:06.735 to announce, and this slide  
NOTE Confidence: 0.9692099  
00:03:06.735 --> 00:03:07.875 will hopefully advance,  
NOTE Confidence: 0.9372371  
00:03:08.655 --> 00:03:10.655 that, Toby Bresler will be  
NOTE Confidence: 0.9372371  
00:03:10.655 --> 00:03:11.155 joining  
NOTE Confidence: 0.959055  
00:03:11.455 --> 00:03:13.055 Smilow Cancer Hospital as the  
NOTE Confidence: 0.959055

00:03:13.055 --> 00:03:14.835 vice president for patient services  
NOTE Confidence: 0.959055

00:03:14.975 --> 00:03:16.355 on January sixth.  
NOTE Confidence: 0.9985271

00:03:17.294 --> 00:03:18.879 This comes after a long  
NOTE Confidence: 0.9985271

00:03:18.879 --> 00:03:20.080 year, and we are very  
NOTE Confidence: 0.9985271

00:03:20.080 --> 00:03:21.360 excited for her to join.  
NOTE Confidence: 0.9985271

00:03:21.360 --> 00:03:22.180 She is currently  
NOTE Confidence: 0.9740368

00:03:22.720 --> 00:03:24.239 the senior director of nursing  
NOTE Confidence: 0.9740368

00:03:24.239 --> 00:03:26.079 for oncology and clinical quality  
NOTE Confidence: 0.9740368

00:03:26.079 --> 00:03:27.860 at Mount Sinai Health System,  
NOTE Confidence: 0.9985466

00:03:28.480 --> 00:03:29.540 associate professor  
NOTE Confidence: 0.96302843

00:03:30.044 --> 00:03:31.005 of the school of medicine  
NOTE Confidence: 0.96302843

00:03:31.005 --> 00:03:32.544 at Mount Sinai, and adjunct  
NOTE Confidence: 0.96302843

00:03:32.605 --> 00:03:33.805 professor at the Phillips School  
NOTE Confidence: 0.96302843

00:03:33.805 --> 00:03:35.565 of Nursing. Her expertise in  
NOTE Confidence: 0.96302843

00:03:35.565 --> 00:03:38.045 oncology program development, creating value  
NOTE Confidence: 0.96302843

00:03:38.045 --> 00:03:39.265 based staffing models,

NOTE Confidence: 0.99485755

00:03:39.885 --> 00:03:42.224 streamlining provider onboarding, and establishing

NOTE Confidence: 0.99485755

00:03:42.444 --> 00:03:44.065 standardized clinical guidelines

NOTE Confidence: 0.97703916

00:03:44.790 --> 00:03:46.310 will be a valuable asset

NOTE Confidence: 0.97703916

00:03:46.310 --> 00:03:47.909 to SMIL. So we're very

NOTE Confidence: 0.97703916

00:03:47.909 --> 00:03:49.530 excited for Toby to join

NOTE Confidence: 0.97703916

00:03:49.670 --> 00:03:50.870 after the first of the

NOTE Confidence: 0.97703916

00:03:50.870 --> 00:03:51.370 year.

NOTE Confidence: 0.941307

00:03:53.349 --> 00:03:53.849 Then,

NOTE Confidence: 0.9536672

00:03:54.390 --> 00:03:56.069 next slide. We wanted I

NOTE Confidence: 0.9536672

00:03:56.069 --> 00:03:57.269 wanted to take a moment

NOTE Confidence: 0.9536672

00:03:57.269 --> 00:03:57.769 to,

NOTE Confidence: 0.9799456

00:03:59.095 --> 00:04:00.295 recognize and honor the work

NOTE Confidence: 0.9799456

00:04:00.295 --> 00:04:01.754 of Doctor. Peter Schwartz,

NOTE Confidence: 0.99720794

00:04:02.295 --> 00:04:02.795 who

NOTE Confidence: 0.9864025

00:04:03.415 --> 00:04:05.675 unfortunately passed away in October

NOTE Confidence: 0.9864025

00:04:05.735 --> 00:04:07.114 after a prolonged illness.

NOTE Confidence: 0.9871417

00:04:07.735 --> 00:04:09.894 Doctor. Schwartz spent forty nine

NOTE Confidence: 0.9871417

00:04:09.894 --> 00:04:11.575 years of his professional career

NOTE Confidence: 0.9871417

00:04:11.575 --> 00:04:12.875 as faculty member

NOTE Confidence: 0.98375344

00:04:13.440 --> 00:04:15.440 and professor emeritus at the

NOTE Confidence: 0.98375344

00:04:15.440 --> 00:04:17.200 Yale University School of Medicine.

NOTE Confidence: 0.98375344

00:04:17.200 --> 00:04:18.480 Doctor Schwartz was chief of

NOTE Confidence: 0.98375344

00:04:18.480 --> 00:04:20.640 GYN oncology from nineteen seventy

NOTE Confidence: 0.98375344

00:04:20.640 --> 00:04:21.760 eight to two thousand and

NOTE Confidence: 0.98375344

00:04:21.760 --> 00:04:22.260 five,

NOTE Confidence: 0.9456107

00:04:22.720 --> 00:04:24.240 vice chairman of the department

NOTE Confidence: 0.9456107

00:04:24.240 --> 00:04:25.700 of OB and gynecology.

NOTE Confidence: 0.99979323

00:04:26.240 --> 00:04:26.895 He was

NOTE Confidence: 0.9477266

00:04:27.294 --> 00:04:29.235 most recently the John Slade

NOTE Confidence: 0.9477266

00:04:29.375 --> 00:04:31.134 Eli professor in the department

NOTE Confidence: 0.9477266

00:04:31.134 --> 00:04:32.835 of OB GYN and reproductive  
NOTE Confidence: 0.9975695

00:04:33.375 --> 00:04:33.875 sciences  
NOTE Confidence: 0.9987016

00:04:34.414 --> 00:04:35.474 at Yale University.  
NOTE Confidence: 0.9486478

00:04:36.574 --> 00:04:37.935 He was attending meetings in  
NOTE Confidence: 0.9486478

00:04:37.935 --> 00:04:39.294 two room board reviews right  
NOTE Confidence: 0.9486478

00:04:39.294 --> 00:04:40.495 up until a few weeks  
NOTE Confidence: 0.9486478

00:04:40.495 --> 00:04:41.714 before his passing.  
NOTE Confidence: 0.91195804

00:04:43.199 --> 00:04:44.880 Doctor. Schwartz was the recipient  
NOTE Confidence: 0.91195804

00:04:44.880 --> 00:04:46.560 of Yale Cancer Center Lifetime  
NOTE Confidence: 0.91195804

00:04:46.560 --> 00:04:48.900 Achievement Award, Yale Medicine Distinguished  
NOTE Confidence: 0.91195804

00:04:49.039 --> 00:04:49.940 Clinical Career  
NOTE Confidence: 0.7248539

00:04:50.400 --> 00:04:50.900 Award,  
NOTE Confidence: 0.88845444

00:04:51.680 --> 00:04:53.759 recognized numerous times in America's  
NOTE Confidence: 0.88845444

00:04:53.759 --> 00:04:54.255 Best  
NOTE Confidence: 0.9334572

00:04:54.654 --> 00:04:55.775 Doctors. In two thousand and  
NOTE Confidence: 0.9334572

00:04:55.775 --> 00:04:57.775 six, Governor Jody Reil declared

NOTE Confidence: 0.9334572

00:04:57.775 --> 00:04:59.775 November eighteenth as Doctor. Peter

NOTE Confidence: 0.9334572

00:04:59.775 --> 00:05:01.455 Schwartz Day for his years

NOTE Confidence: 0.9334572

00:05:01.455 --> 00:05:02.995 of service at Yale University

NOTE Confidence: 0.9334572

00:05:03.135 --> 00:05:04.435 and the state of Connecticut.

NOTE Confidence: 0.7767361

00:05:05.295 --> 00:05:06.835 Doctor. Schwartz was a significant

NOTE Confidence: 0.9834728

00:05:07.160 --> 00:05:09.240 mentor, friend, and colleague of

NOTE Confidence: 0.9834728

00:05:09.240 --> 00:05:10.860 mine for many years and

NOTE Confidence: 0.80823165

00:05:11.320 --> 00:05:11.720 really,

NOTE Confidence: 0.9647713

00:05:13.160 --> 00:05:14.839 helped shape my career. And

NOTE Confidence: 0.9647713

00:05:14.839 --> 00:05:16.220 I just wanted to

NOTE Confidence: 0.9970632

00:05:16.600 --> 00:05:17.720 take a moment for us

NOTE Confidence: 0.9970632

00:05:17.720 --> 00:05:19.560 to thank him and recognize

NOTE Confidence: 0.9970632

00:05:19.560 --> 00:05:21.625 the outstanding achievements he had

NOTE Confidence: 0.9970632

00:05:21.625 --> 00:05:22.985 in the field of women's

NOTE Confidence: 0.9970632

00:05:22.985 --> 00:05:23.485 oncology.

NOTE Confidence: 0.99434835

00:05:26.985 --> 00:05:28.664 I think, we're gonna turn  
NOTE Confidence: 0.99434835

00:05:28.664 --> 00:05:30.185 it over to Kevin for  
NOTE Confidence: 0.99434835

00:05:30.185 --> 00:05:31.565 the next couple slides.  
NOTE Confidence: 0.97907066

00:05:35.070 --> 00:05:37.169 Thanks, Tracy. Well, Renee's  
NOTE Confidence: 0.9926208

00:05:37.470 --> 00:05:39.330 kind of preparing the slides.  
NOTE Confidence: 0.8745859

00:05:40.830 --> 00:05:41.490 It is  
NOTE Confidence: 0.9330821

00:05:41.790 --> 00:05:43.949 great to honor someone who  
NOTE Confidence: 0.9330821

00:05:43.949 --> 00:05:45.790 was truly a giant in  
NOTE Confidence: 0.9330821

00:05:45.790 --> 00:05:46.990 the field of g u  
NOTE Confidence: 0.9330821

00:05:46.990 --> 00:05:48.850 n oncology and women's health.  
NOTE Confidence: 0.99703264

00:05:49.695 --> 00:05:50.195 And  
NOTE Confidence: 0.95653355

00:05:50.975 --> 00:05:52.675 carrying on that tradition,  
NOTE Confidence: 0.880672

00:05:53.855 --> 00:05:56.014 is doctor Elena Ratner, who,  
NOTE Confidence: 0.9588538

00:05:57.135 --> 00:05:58.755 you will see has recently  
NOTE Confidence: 0.9588538

00:05:58.815 --> 00:06:00.255 been awarded with the David  
NOTE Confidence: 0.9588538

00:06:00.255 --> 00:06:01.315 and Cindy LaFele

NOTE Confidence: 0.8659968  
00:06:01.775 --> 00:06:03.395 Prize for Clinical Excellence.  
NOTE Confidence: 0.9556578  
00:06:04.830 --> 00:06:05.569 You know,  
NOTE Confidence: 0.79039794  
00:06:06.270 --> 00:06:07.169 doctor Ratner's  
NOTE Confidence: 0.83502436  
00:06:07.550 --> 00:06:08.050 achievements,  
NOTE Confidence: 0.9891965  
00:06:08.990 --> 00:06:11.490 are legend in this organization.  
NOTE Confidence: 0.9959941  
00:06:12.509 --> 00:06:14.129 She's an outstanding clinician,  
NOTE Confidence: 0.9970031  
00:06:14.830 --> 00:06:15.330 surgeon,  
NOTE Confidence: 0.99885523  
00:06:15.710 --> 00:06:17.009 educator, researcher,  
NOTE Confidence: 0.9970083  
00:06:17.949 --> 00:06:18.930 patient advocate,  
NOTE Confidence: 0.9792725  
00:06:19.574 --> 00:06:20.074 fundraiser,  
NOTE Confidence: 0.98876876  
00:06:20.935 --> 00:06:22.074 and community citizen.  
NOTE Confidence: 0.9853184  
00:06:22.535 --> 00:06:25.115 So this honor, is incredibly  
NOTE Confidence: 0.9853184  
00:06:25.255 --> 00:06:26.875 well deserved. She's an inspiration  
NOTE Confidence: 0.9853184  
00:06:27.014 --> 00:06:28.875 for us all and has  
NOTE Confidence: 0.9023639  
00:06:29.255 --> 00:06:29.755 literally,  
NOTE Confidence: 0.9612809

00:06:30.615 --> 00:06:32.055 hundreds, if not thousands, of  
NOTE Confidence: 0.9612809

00:06:32.055 --> 00:06:33.815 grateful patients around Connecticut and  
NOTE Confidence: 0.9612809

00:06:33.815 --> 00:06:35.115 around the world. So,  
NOTE Confidence: 0.8790145

00:06:36.240 --> 00:06:37.860 thank you, Doctor. Ratner.  
NOTE Confidence: 0.921438

00:06:38.160 --> 00:06:38.660 Next.  
NOTE Confidence: 0.97535926

00:06:40.880 --> 00:06:42.160 It's also a real pleasure  
NOTE Confidence: 0.97535926

00:06:42.160 --> 00:06:43.220 for me to,  
NOTE Confidence: 0.9956882

00:06:43.839 --> 00:06:45.440 acknowledge and honor one of  
NOTE Confidence: 0.9956882

00:06:45.440 --> 00:06:46.660 my surgical colleagues,  
NOTE Confidence: 0.97556645

00:06:47.279 --> 00:06:49.540 Doctor. Dan Boffa, another outstanding  
NOTE Confidence: 0.97556645

00:06:49.839 --> 00:06:50.740 clinical surgeon  
NOTE Confidence: 0.9873006

00:06:51.064 --> 00:06:52.504 and also a leader in  
NOTE Confidence: 0.9873006

00:06:52.504 --> 00:06:54.365 cancer care and cancer quality  
NOTE Confidence: 0.9633137

00:06:55.305 --> 00:06:56.745 nationally. Dan has recently been  
NOTE Confidence: 0.9633137

00:06:56.745 --> 00:06:58.425 appointed as vice chair of  
NOTE Confidence: 0.9633137

00:06:58.425 --> 00:06:59.805 the commission on cancer.

NOTE Confidence: 0.9988179  
00:07:01.145 --> 00:07:02.425 Dan has been a national  
NOTE Confidence: 0.9988179  
00:07:02.425 --> 00:07:03.884 leader in using  
NOTE Confidence: 0.9268765  
00:07:04.420 --> 00:07:05.940 Commission on Cancer Data and  
NOTE Confidence: 0.9268765  
00:07:05.940 --> 00:07:07.940 NCDB data to look at  
NOTE Confidence: 0.9268765  
00:07:07.940 --> 00:07:10.100 patterns of care and understand  
NOTE Confidence: 0.9268765  
00:07:10.100 --> 00:07:10.600 variation  
NOTE Confidence: 0.98990065  
00:07:11.220 --> 00:07:13.640 and the role of volume  
NOTE Confidence: 0.98990065  
00:07:13.700 --> 00:07:16.180 and program development in cancer  
NOTE Confidence: 0.98990065  
00:07:16.180 --> 00:07:17.320 surgery quality.  
NOTE Confidence: 0.96583956  
00:07:17.780 --> 00:07:19.460 So well done, Dan. Thank  
NOTE Confidence: 0.96583956  
00:07:19.460 --> 00:07:19.960 you.  
NOTE Confidence: 0.98721975  
00:07:21.995 --> 00:07:23.615 Next, it's a pleasure to  
NOTE Confidence: 0.98721975  
00:07:23.835 --> 00:07:25.375 recognize and honor,  
NOTE Confidence: 0.9294667  
00:07:25.995 --> 00:07:27.435 my friend and colleague, doctor  
NOTE Confidence: 0.9294667  
00:07:27.435 --> 00:07:28.254 Roy Herbst.  
NOTE Confidence: 0.9744911

00:07:28.955 --> 00:07:30.634 Roy is, as all of  
NOTE Confidence: 0.9744911

00:07:30.634 --> 00:07:32.014 us know, really a giant  
NOTE Confidence: 0.9744911

00:07:32.074 --> 00:07:33.294 in, oncology.  
NOTE Confidence: 0.94495946

00:07:34.000 --> 00:07:35.520 He's a world leader in  
NOTE Confidence: 0.94495946

00:07:35.520 --> 00:07:37.760 thoracic oncology, and he's recently  
NOTE Confidence: 0.94495946

00:07:37.760 --> 00:07:39.699 been honored by the chemotherapy  
NOTE Confidence: 0.91954756

00:07:40.160 --> 00:07:42.260 foundation with the Ezra Greenspan  
NOTE Confidence: 0.91954756

00:07:42.400 --> 00:07:42.900 award.  
NOTE Confidence: 0.96706355

00:07:43.440 --> 00:07:44.100 The chemotherapy  
NOTE Confidence: 0.9681901

00:07:44.960 --> 00:07:46.580 foundation is a well known  
NOTE Confidence: 0.9681901

00:07:46.639 --> 00:07:47.860 advocacy group  
NOTE Confidence: 0.99887365

00:07:48.345 --> 00:07:50.505 that supports the development of  
NOTE Confidence: 0.99887365

00:07:50.505 --> 00:07:51.005 oncology  
NOTE Confidence: 0.89066905

00:07:52.105 --> 00:07:53.785 treatment and research across the  
NOTE Confidence: 0.89066905

00:07:53.785 --> 00:07:54.285 country.  
NOTE Confidence: 0.966436

00:07:54.585 --> 00:07:56.445 Ezra Greenspan was a renowned

NOTE Confidence: 0.90659165

00:07:57.065 --> 00:07:58.845 early oncologist who developed

NOTE Confidence: 0.9698631

00:07:59.465 --> 00:08:01.245 early mouse models of chemotherapy.

NOTE Confidence: 0.7726292

00:08:02.185 --> 00:08:02.670 So,

NOTE Confidence: 0.9468723

00:08:03.230 --> 00:08:04.750 receiving this honor in his

NOTE Confidence: 0.9468723

00:08:04.750 --> 00:08:06.610 name is is incredibly

NOTE Confidence: 0.92502964

00:08:07.150 --> 00:08:07.650 meritorious.

NOTE Confidence: 0.9531344

00:08:08.590 --> 00:08:10.930 And, I think the recognition

NOTE Confidence: 0.9531344

00:08:11.230 --> 00:08:13.730 committee really pointed to Doctor

NOTE Confidence: 0.8343869

00:08:14.190 --> 00:08:15.330 Herbst works

NOTE Confidence: 0.9404668

00:08:16.025 --> 00:08:18.425 work in developing immunotherapy for

NOTE Confidence: 0.9404668

00:08:18.425 --> 00:08:20.365 our lung cancer and personalized

NOTE Confidence: 0.9404668

00:08:20.504 --> 00:08:21.004 therapy.

NOTE Confidence: 0.9803725

00:08:21.384 --> 00:08:21.865 So,

NOTE Confidence: 0.96268797

00:08:23.145 --> 00:08:25.064 Roy is gonna be, fetted

NOTE Confidence: 0.96268797

00:08:25.064 --> 00:08:26.664 at a gala in, New

NOTE Confidence: 0.96268797

00:08:26.664 --> 00:08:27.784 York City in the next  
NOTE Confidence: 0.96268797

00:08:27.784 --> 00:08:29.224 couple of weeks, but please  
NOTE Confidence: 0.96268797

00:08:29.224 --> 00:08:31.100 join me in congratulating him  
NOTE Confidence: 0.96268797

00:08:31.100 --> 00:08:32.240 when you see him.  
NOTE Confidence: 0.88420117

00:08:33.179 --> 00:08:33.679 We'll  
NOTE Confidence: 0.9724856

00:08:34.620 --> 00:08:35.900 turn it over to Vonna  
NOTE Confidence: 0.9724856

00:08:35.900 --> 00:08:36.640 to recognize,  
NOTE Confidence: 0.9768884

00:08:37.420 --> 00:08:38.559 some of our APPs.  
NOTE Confidence: 0.9889545

00:08:39.580 --> 00:08:40.640 Good morning, everybody.  
NOTE Confidence: 0.9308978

00:08:41.340 --> 00:08:43.434 Renee Moy, who's from, Smilow  
NOTE Confidence: 0.9308978

00:08:43.434 --> 00:08:44.554 Fear Field was honored at  
NOTE Confidence: 0.9308978

00:08:44.554 --> 00:08:45.915 the ninth annual one hundred  
NOTE Confidence: 0.9308978

00:08:45.915 --> 00:08:47.595 women of color gala and  
NOTE Confidence: 0.9308978

00:08:47.595 --> 00:08:49.375 award ceremony. So we congratulate  
NOTE Confidence: 0.9308978

00:08:49.595 --> 00:08:50.095 Renee.  
NOTE Confidence: 0.95390004

00:08:53.115 --> 00:08:55.755 So last Thursday, November seventh,

NOTE Confidence: 0.95390004

00:08:55.915 --> 00:08:57.630 we had our annual system

NOTE Confidence: 0.95390004

00:08:57.630 --> 00:08:58.850 wide APP dinner.

NOTE Confidence: 0.9748239

00:08:59.550 --> 00:09:00.590 And it's really an award

NOTE Confidence: 0.9748239

00:09:00.590 --> 00:09:02.190 and recognition dinner that has

NOTE Confidence: 0.9748239

00:09:02.190 --> 00:09:02.930 been sponsored,

NOTE Confidence: 0.9877801

00:09:03.710 --> 00:09:05.070 truly for the past eight

NOTE Confidence: 0.9877801

00:09:05.070 --> 00:09:07.150 years. There was over two

NOTE Confidence: 0.9877801

00:09:07.150 --> 00:09:08.290 hundred and fifty nominations,

NOTE Confidence: 0.9001659

00:09:09.070 --> 00:09:11.230 across all delivery networks and

NOTE Confidence: 0.9001659

00:09:11.230 --> 00:09:12.690 twenty five are from Smilo.

NOTE Confidence: 0.97369736

00:09:13.125 --> 00:09:14.665 We had ten award categories,

NOTE Confidence: 0.97369736

00:09:14.885 --> 00:09:16.165 and there were twenty award

NOTE Confidence: 0.97369736

00:09:16.165 --> 00:09:17.365 winners. And I'm very proud

NOTE Confidence: 0.97369736

00:09:17.365 --> 00:09:18.665 to say that three of

NOTE Confidence: 0.97369736

00:09:18.725 --> 00:09:20.745 the Smilo APPs did receive,

NOTE Confidence: 0.9394081

00:09:21.605 --> 00:09:22.825 some some of those awards.

NOTE Confidence: 0.9394081

00:09:23.125 --> 00:09:25.304 So congratulations to Emily Copas.

NOTE Confidence: 0.95516443

00:09:25.940 --> 00:09:27.780 She's from Smilow, Greenwich. She,

NOTE Confidence: 0.95516443

00:09:28.020 --> 00:09:29.620 actually was awarded the APP

NOTE Confidence: 0.95516443

00:09:29.620 --> 00:09:31.700 clinical excellence award, which is

NOTE Confidence: 0.95516443

00:09:31.700 --> 00:09:32.980 awarded to an APP who

NOTE Confidence: 0.95516443

00:09:32.980 --> 00:09:35.400 demonstrates exceptional expert and compassion-  
ate

NOTE Confidence: 0.95516443

00:09:35.460 --> 00:09:36.600 care to their patients.

NOTE Confidence: 0.99961984

00:09:38.835 --> 00:09:39.335 Congratulations

NOTE Confidence: 0.88890886

00:09:39.715 --> 00:09:41.095 to Amy Burrell Pugliese.

NOTE Confidence: 0.9647282

00:09:41.955 --> 00:09:43.175 She's nurse practitioner,

NOTE Confidence: 0.9917035

00:09:43.635 --> 00:09:45.075 for bone marrow transplant and

NOTE Confidence: 0.9917035

00:09:45.075 --> 00:09:46.355 stem cell. She is the

NOTE Confidence: 0.9917035

00:09:46.355 --> 00:09:48.035 lead APP. She was given

NOTE Confidence: 0.9917035

00:09:48.035 --> 00:09:49.895 the APP clinical leader award,

NOTE Confidence: 0.9917035

00:09:50.179 --> 00:09:51.220 which is given to an  
NOTE Confidence: 0.9917035

00:09:51.220 --> 00:09:53.459 APP who demonstrates clinical leadership  
NOTE Confidence: 0.9917035

00:09:53.459 --> 00:09:55.380 and professionalism while maintaining an  
NOTE Confidence: 0.9917035

00:09:55.380 --> 00:09:56.920 outstanding clinical practice.  
NOTE Confidence: 0.9604059

00:09:58.740 --> 00:10:00.259 And very proud of Caroline  
NOTE Confidence: 0.9604059

00:10:00.259 --> 00:10:01.699 Hatta. She is the lead  
NOTE Confidence: 0.9604059

00:10:01.699 --> 00:10:03.620 APP for the inpatient medical  
NOTE Confidence: 0.9604059

00:10:03.620 --> 00:10:04.120 oncology  
NOTE Confidence: 0.9914309

00:10:04.455 --> 00:10:06.295 and hematology team. She was  
NOTE Confidence: 0.9914309

00:10:06.295 --> 00:10:07.495 awarded the APP of the  
NOTE Confidence: 0.9914309

00:10:07.495 --> 00:10:07.995 year.  
NOTE Confidence: 0.9924566

00:10:08.535 --> 00:10:09.735 And that award goes to  
NOTE Confidence: 0.9924566

00:10:09.735 --> 00:10:11.175 an APP who embodies the  
NOTE Confidence: 0.9924566

00:10:11.175 --> 00:10:12.375 wholeness of all the other  
NOTE Confidence: 0.9924566

00:10:12.375 --> 00:10:14.455 categories, a peer, a leader,  
NOTE Confidence: 0.9924566

00:10:14.455 --> 00:10:15.975 a colleague, a mentor, and

NOTE Confidence: 0.9924566

00:10:15.975 --> 00:10:17.575 someone who symbolizes the best

NOTE Confidence: 0.9924566

00:10:17.575 --> 00:10:18.395 of our profession.

NOTE Confidence: 0.9956854

00:10:19.070 --> 00:10:20.190 So please join me in

NOTE Confidence: 0.9956854

00:10:20.190 --> 00:10:21.730 congratulating the three of them.

NOTE Confidence: 0.9097447

00:10:22.429 --> 00:10:24.110 In addition, Teresa White from

NOTE Confidence: 0.9097447

00:10:24.110 --> 00:10:25.250 GI Medical Oncology,

NOTE Confidence: 0.9449933

00:10:25.950 --> 00:10:27.790 was awarded the twenty twenty

NOTE Confidence: 0.9449933

00:10:27.790 --> 00:10:29.390 four Marsha Burkett award at

NOTE Confidence: 0.9449933

00:10:29.390 --> 00:10:31.630 the Southwestern Connecticut Oncology Nursing

NOTE Confidence: 0.9449933

00:10:31.630 --> 00:10:32.130 Society.

NOTE Confidence: 0.9684767

00:10:32.785 --> 00:10:33.985 Teresa has been very active

NOTE Confidence: 0.9684767

00:10:33.985 --> 00:10:35.265 in this society for many

NOTE Confidence: 0.9684767

00:10:35.265 --> 00:10:36.705 years. It is given to

NOTE Confidence: 0.9684767

00:10:36.705 --> 00:10:38.385 a distinguished oncology nurse who

NOTE Confidence: 0.9684767

00:10:38.385 --> 00:10:40.565 displays excellence in oncology nursing,

NOTE Confidence: 0.9686422

00:10:40.945 --> 00:10:42.865 maintains an active role in  
NOTE Confidence: 0.9686422

00:10:42.865 --> 00:10:44.725 this particular chapter of ONS,  
NOTE Confidence: 0.9686422

00:10:44.865 --> 00:10:46.385 mentors, supports, and cares for  
NOTE Confidence: 0.9686422

00:10:46.385 --> 00:10:47.525 patients and their colleagues.  
NOTE Confidence: 0.98894423

00:10:55.440 --> 00:10:57.940 So I will, just say,  
NOTE Confidence: 0.9928885

00:10:58.639 --> 00:11:00.399 on behalf of both Tracy  
NOTE Confidence: 0.9928885

00:11:00.399 --> 00:11:01.139 and I,  
NOTE Confidence: 0.98651296

00:11:01.839 --> 00:11:02.899 as well as,  
NOTE Confidence: 0.8871159

00:11:03.440 --> 00:11:04.765 you know, I know, Jen  
NOTE Confidence: 0.8871159

00:11:04.765 --> 00:11:06.045 said you're a driver in  
NOTE Confidence: 0.8871159

00:11:06.045 --> 00:11:06.545 this.  
NOTE Confidence: 0.99043036

00:11:07.804 --> 00:11:09.024 Driving our throughput  
NOTE Confidence: 0.93702054

00:11:09.565 --> 00:11:10.065 and,  
NOTE Confidence: 0.9963799

00:11:10.445 --> 00:11:10.945 managing  
NOTE Confidence: 0.9850941

00:11:11.804 --> 00:11:14.304 our inpatient stays is incredibly  
NOTE Confidence: 0.9203645

00:11:14.845 --> 00:11:15.825 important work,

NOTE Confidence: 0.9184324  
00:11:16.684 --> 00:11:18.705 and the system does recognize  
NOTE Confidence: 0.9184324  
00:11:18.765 --> 00:11:20.990 units who do particularly well  
NOTE Confidence: 0.9184324  
00:11:20.990 --> 00:11:21.650 at this.  
NOTE Confidence: 0.95131075  
00:11:22.110 --> 00:11:23.710 And our team on EP  
NOTE Confidence: 0.95131075  
00:11:23.710 --> 00:11:24.450 four seven,  
NOTE Confidence: 0.8060661  
00:11:25.630 --> 00:11:27.410 won the Smileo East team.  
NOTE Confidence: 0.8060661  
00:11:27.470 --> 00:11:29.090 We're the October champions,  
NOTE Confidence: 0.92666054  
00:11:29.790 --> 00:11:30.429 for the,  
NOTE Confidence: 0.9546919  
00:11:31.070 --> 00:11:31.570 discharge.  
NOTE Confidence: 0.89532584  
00:11:32.965 --> 00:11:33.845 What do they call it?  
NOTE Confidence: 0.89532584  
00:11:33.845 --> 00:11:34.985 The throughput cup?  
NOTE Confidence: 0.98992306  
00:11:35.525 --> 00:11:37.705 The discharge cup for meeting  
NOTE Confidence: 0.98992306  
00:11:37.845 --> 00:11:39.684 discharge target eighty one percent  
NOTE Confidence: 0.98992306  
00:11:39.684 --> 00:11:40.745 of the day. So  
NOTE Confidence: 0.9712954  
00:11:41.285 --> 00:11:43.125 not not a straightforward patient  
NOTE Confidence: 0.9712954

00:11:43.125 --> 00:11:43.625 population.  
NOTE Confidence: 0.998882

00:11:44.005 --> 00:11:46.005 Really well done work by  
NOTE Confidence: 0.998882

00:11:46.005 --> 00:11:46.745 this group.  
NOTE Confidence: 0.96131516

00:11:53.059 --> 00:11:54.179 Lana, I'm gonna kick this  
NOTE Confidence: 0.96131516

00:11:54.179 --> 00:11:55.700 one over to you. K.  
NOTE Confidence: 0.96131516

00:11:55.700 --> 00:11:56.679 So in addition,  
NOTE Confidence: 0.99900323

00:11:58.020 --> 00:11:59.080 there have been  
NOTE Confidence: 0.9841295

00:12:00.445 --> 00:12:02.125 eight APPs that have actually  
NOTE Confidence: 0.9841295

00:12:02.125 --> 00:12:03.404 been promoted on the clinical  
NOTE Confidence: 0.9841295

00:12:03.404 --> 00:12:03.904 ladder,  
NOTE Confidence: 0.9687165

00:12:04.684 --> 00:12:05.725 which is something that we  
NOTE Confidence: 0.9687165

00:12:05.725 --> 00:12:07.404 instituted Preble about two years  
NOTE Confidence: 0.9687165

00:12:07.404 --> 00:12:08.684 ago. So those that have  
NOTE Confidence: 0.9687165

00:12:08.684 --> 00:12:10.045 been promoted to clinical ladder  
NOTE Confidence: 0.9687165

00:12:10.045 --> 00:12:12.059 too include Tara Anderson from  
NOTE Confidence: 0.9251396

00:12:12.540 --> 00:12:13.760 malignant heme myeloma,

NOTE Confidence: 0.8948867

00:12:14.140 --> 00:12:16.240 Alfredo Axmyer from malignant hematology,

NOTE Confidence: 0.88864934

00:12:16.620 --> 00:12:18.620 Stephanie Kasik from BMT and

NOTE Confidence: 0.88864934

00:12:18.620 --> 00:12:20.620 stem cell, Nicole Paul from

NOTE Confidence: 0.88864934

00:12:20.620 --> 00:12:22.700 palliative care, Steven Scioscia from

NOTE Confidence: 0.88864934

00:12:22.700 --> 00:12:24.700 Smiler Waterford. He, is actually

NOTE Confidence: 0.88864934

00:12:24.700 --> 00:12:25.740 on the consult team at

NOTE Confidence: 0.88864934

00:12:25.740 --> 00:12:26.720 Lawrence and Memorial.

NOTE Confidence: 0.9613692

00:12:27.535 --> 00:12:29.934 Erica Stevens, malignant hematology, and

NOTE Confidence: 0.9613692

00:12:29.934 --> 00:12:32.515 Joanna Daddario for GYN oncology.

NOTE Confidence: 0.9613692

00:12:32.735 --> 00:12:34.495 And then Polly Sather was

NOTE Confidence: 0.9613692

00:12:34.495 --> 00:12:36.595 promoted to clinical ladder three,

NOTE Confidence: 0.9613692

00:12:36.815 --> 00:12:38.035 and she works in pulmonary

NOTE Confidence: 0.9613692

00:12:38.095 --> 00:12:39.395 and lung cancer screening.

NOTE Confidence: 0.9908066

00:12:40.550 --> 00:12:41.450 Just in addition,

NOTE Confidence: 0.97702485

00:12:42.070 --> 00:12:43.350 this week is actually nurse

NOTE Confidence: 0.97702485

00:12:43.350 --> 00:12:45.270 practitioner week. So I really  
NOTE Confidence: 0.97702485

00:12:45.270 --> 00:12:46.630 do wanna recognize all of  
NOTE Confidence: 0.97702485

00:12:46.630 --> 00:12:47.370 the APPs  
NOTE Confidence: 0.9899064

00:12:47.750 --> 00:12:48.709 for all of their hard  
NOTE Confidence: 0.9899064

00:12:48.709 --> 00:12:50.470 work and dedication to providing  
NOTE Confidence: 0.9899064

00:12:50.470 --> 00:12:51.990 exceptional compassionate care to our  
NOTE Confidence: 0.9899064

00:12:51.990 --> 00:12:52.490 patients.  
NOTE Confidence: 0.9880706

00:12:57.815 --> 00:12:58.315 So  
NOTE Confidence: 0.82867485

00:12:59.015 --> 00:13:00.075 thank you, Ivana.  
NOTE Confidence: 0.9919705

00:13:00.615 --> 00:13:01.415 One of the things that  
NOTE Confidence: 0.9919705

00:13:01.415 --> 00:13:02.375 I do wanna share with  
NOTE Confidence: 0.9919705

00:13:02.375 --> 00:13:04.075 the community is after  
NOTE Confidence: 0.99205804

00:13:04.934 --> 00:13:06.855 more than two years of  
NOTE Confidence: 0.99205804

00:13:06.855 --> 00:13:08.775 kind of consistent effort across  
NOTE Confidence: 0.99205804

00:13:08.775 --> 00:13:09.755 our health system,  
NOTE Confidence: 0.9881446

00:13:10.329 --> 00:13:12.170 our senior leadership team made

NOTE Confidence: 0.9881446  
00:13:12.170 --> 00:13:14.190 the, I believe, somewhat difficult  
NOTE Confidence: 0.9881446  
00:13:14.490 --> 00:13:15.769 decision to put the home  
NOTE Confidence: 0.9881446  
00:13:15.769 --> 00:13:16.829 hospital program  
NOTE Confidence: 0.9978311  
00:13:17.370 --> 00:13:18.190 on pause.  
NOTE Confidence: 0.98877907  
00:13:19.450 --> 00:13:20.269 Like many  
NOTE Confidence: 0.9777274  
00:13:20.649 --> 00:13:21.630 kind of transitions,  
NOTE Confidence: 0.9865185  
00:13:22.434 --> 00:13:23.235 I I think there are  
NOTE Confidence: 0.9865185  
00:13:23.235 --> 00:13:24.355 a lot of factors that  
NOTE Confidence: 0.9865185  
00:13:24.355 --> 00:13:25.795 went into this decision, and  
NOTE Confidence: 0.9865185  
00:13:25.795 --> 00:13:26.995 I don't think that this  
NOTE Confidence: 0.9865185  
00:13:26.995 --> 00:13:27.495 is,  
NOTE Confidence: 0.997355  
00:13:28.195 --> 00:13:29.415 the end of the story.  
NOTE Confidence: 0.997355  
00:13:29.475 --> 00:13:31.235 I am really quite confident  
NOTE Confidence: 0.997355  
00:13:31.235 --> 00:13:32.035 that we are going to  
NOTE Confidence: 0.997355  
00:13:32.035 --> 00:13:33.255 be redeploying  
NOTE Confidence: 0.97592527

00:13:34.195 --> 00:13:36.355 home hospital services as part

NOTE Confidence: 0.97592527

00:13:36.355 --> 00:13:38.055 of our continuum of care,

NOTE Confidence: 0.9994769

00:13:38.639 --> 00:13:40.019 but there is some complicated

NOTE Confidence: 0.90268207

00:13:40.639 --> 00:13:42.959 legislative work, in the CMS

NOTE Confidence: 0.90268207

00:13:42.959 --> 00:13:43.459 waiver,

NOTE Confidence: 0.997785

00:13:44.959 --> 00:13:46.339 that are in a transitional

NOTE Confidence: 0.997785

00:13:46.559 --> 00:13:47.839 phase. And as we move

NOTE Confidence: 0.997785

00:13:47.839 --> 00:13:48.339 into

NOTE Confidence: 0.9984391

00:13:48.800 --> 00:13:49.839 what we hope to be

NOTE Confidence: 0.9984391

00:13:49.839 --> 00:13:51.459 a more favorable regulatory

NOTE Confidence: 0.98743814

00:13:52.000 --> 00:13:54.285 and financial climate, I'm sure

NOTE Confidence: 0.98743814

00:13:54.285 --> 00:13:55.745 this, you will

NOTE Confidence: 0.98073274

00:13:56.285 --> 00:13:57.985 be seeing this this program

NOTE Confidence: 0.9991086

00:13:59.085 --> 00:13:59.585 resurface.

NOTE Confidence: 0.93985736

00:14:02.445 --> 00:14:03.565 It's a real pleasure for

NOTE Confidence: 0.93985736

00:14:03.565 --> 00:14:05.345 me to welcome some outstanding

NOTE Confidence: 0.93985736  
00:14:05.645 --> 00:14:07.005 new faculty the to the  
NOTE Confidence: 0.93985736  
00:14:07.005 --> 00:14:07.905 cancer center.  
NOTE Confidence: 0.8543835  
00:14:08.250 --> 00:14:09.929 Doctor William O has joined  
NOTE Confidence: 0.8543835  
00:14:09.929 --> 00:14:11.210 us as the service line  
NOTE Confidence: 0.8543835  
00:14:11.210 --> 00:14:12.570 medical director in,  
NOTE Confidence: 0.8873522  
00:14:13.050 --> 00:14:14.270 for Smilo Greenwich.  
NOTE Confidence: 0.95491564  
00:14:15.050 --> 00:14:16.910 He's a GU medical oncologist.  
NOTE Confidence: 0.95491564  
00:14:17.130 --> 00:14:18.170 He will also serve as  
NOTE Confidence: 0.95491564  
00:14:18.170 --> 00:14:19.950 director of precision medicine.  
NOTE Confidence: 0.9637635  
00:14:20.490 --> 00:14:21.690 Doctor O comes to us  
NOTE Confidence: 0.9637635  
00:14:21.690 --> 00:14:22.670 after a distinguished  
NOTE Confidence: 0.93346107  
00:14:23.004 --> 00:14:24.605 career both at the Dana  
NOTE Confidence: 0.93346107  
00:14:24.605 --> 00:14:26.365 Farber as well as serving  
NOTE Confidence: 0.93346107  
00:14:26.365 --> 00:14:27.824 as the medical oncology  
NOTE Confidence: 0.9594427  
00:14:28.365 --> 00:14:30.305 division chief at Mount Sinai  
NOTE Confidence: 0.9594427

00:14:30.605 --> 00:14:32.204 and a number of prominent  
NOTE Confidence: 0.9594427

00:14:32.204 --> 00:14:32.704 roles,  
NOTE Confidence: 0.99987996

00:14:33.084 --> 00:14:33.584 including  
NOTE Confidence: 0.95725965

00:14:34.045 --> 00:14:35.805 leadership of the Prostate Cancer  
NOTE Confidence: 0.95725965

00:14:35.805 --> 00:14:36.305 Foundation.  
NOTE Confidence: 0.96899927

00:14:37.410 --> 00:14:39.490 Doctor. Raghav Sundar has joined  
NOTE Confidence: 0.96899927

00:14:39.490 --> 00:14:40.630 the GI team.  
NOTE Confidence: 0.9640012

00:14:41.089 --> 00:14:43.510 Raghav is an incredibly accomplished  
NOTE Confidence: 0.9519397

00:14:44.050 --> 00:14:45.750 clinician and clinical researcher,  
NOTE Confidence: 0.9584675

00:14:46.850 --> 00:14:48.210 with a focus on upper  
NOTE Confidence: 0.9584675

00:14:48.210 --> 00:14:50.210 GI cancers. He also has  
NOTE Confidence: 0.9584675

00:14:50.210 --> 00:14:51.795 expertise in hepatobiliary  
NOTE Confidence: 0.99851835

00:14:52.095 --> 00:14:53.875 and peritoneal surface malignancies.  
NOTE Confidence: 0.9731066

00:14:55.855 --> 00:14:57.615 Doctor Sundar comes to us  
NOTE Confidence: 0.9731066

00:14:57.615 --> 00:14:59.135 from the National University of  
NOTE Confidence: 0.9731066

00:14:59.135 --> 00:14:59.635 Singapore.

NOTE Confidence: 0.9462568

00:15:00.575 --> 00:15:02.895 Matt Danish has, just joined

NOTE Confidence: 0.9462568

00:15:02.895 --> 00:15:04.575 or will shortly join our

NOTE Confidence: 0.9462568

00:15:04.575 --> 00:15:07.250 Smilow team in Waterford and

NOTE Confidence: 0.9462568

00:15:07.250 --> 00:15:07.750 Westerly.

NOTE Confidence: 0.9427463

00:15:08.370 --> 00:15:09.890 Doctor Danish is a graduate

NOTE Confidence: 0.9427463

00:15:09.890 --> 00:15:11.430 of the Brown Oncology

NOTE Confidence: 0.97043145

00:15:11.730 --> 00:15:13.250 Program. He has been in

NOTE Confidence: 0.97043145

00:15:13.250 --> 00:15:14.450 practice for the past couple

NOTE Confidence: 0.97043145

00:15:14.450 --> 00:15:15.490 of years in,

NOTE Confidence: 0.88837004

00:15:16.690 --> 00:15:17.910 Southern Rhode Island.

NOTE Confidence: 0.9921549

00:15:18.425 --> 00:15:20.045 He is a malignant,

NOTE Confidence: 0.9986584

00:15:20.824 --> 00:15:21.324 and

NOTE Confidence: 0.95075685

00:15:21.865 --> 00:15:23.625 his specialty is hematology, including

NOTE Confidence: 0.95075685

00:15:23.625 --> 00:15:25.725 both malignant and classical hematology.

NOTE Confidence: 0.99173725

00:15:26.425 --> 00:15:27.704 So welcome to all of

NOTE Confidence: 0.99173725

00:15:27.704 --> 00:15:30.444 these outstanding faculty members. Next.  
NOTE Confidence: 0.9971173

00:15:32.430 --> 00:15:33.310 You know, I think one  
NOTE Confidence: 0.9971173

00:15:33.310 --> 00:15:34.350 of the things that we  
NOTE Confidence: 0.9971173

00:15:34.350 --> 00:15:35.470 need to be most proud  
NOTE Confidence: 0.9971173

00:15:35.470 --> 00:15:37.310 of is our is the  
NOTE Confidence: 0.9971173

00:15:37.310 --> 00:15:38.829 work that we do across  
NOTE Confidence: 0.9971173

00:15:38.829 --> 00:15:39.490 the organization  
NOTE Confidence: 0.99829894

00:15:40.670 --> 00:15:42.130 to move forward  
NOTE Confidence: 0.9938747

00:15:43.915 --> 00:15:46.075 equitable cancer care across all  
NOTE Confidence: 0.9938747

00:15:46.075 --> 00:15:47.695 vulnerable patient populations.  
NOTE Confidence: 0.9545279

00:15:49.275 --> 00:15:50.395 Tracy and I wanted to  
NOTE Confidence: 0.9545279

00:15:50.395 --> 00:15:51.595 take a minute to share  
NOTE Confidence: 0.9545279

00:15:51.595 --> 00:15:52.495 with the community,  
NOTE Confidence: 0.99814224

00:15:53.915 --> 00:15:55.535 work that is being done  
NOTE Confidence: 0.991383

00:15:55.910 --> 00:15:58.070 to create an inclusive care  
NOTE Confidence: 0.991383

00:15:58.070 --> 00:16:00.070 environment for transgender patients with

NOTE Confidence: 0.991383  
00:16:00.070 --> 00:16:01.050 cancer care.  
NOTE Confidence: 0.97973955  
00:16:01.750 --> 00:16:03.190 There will be an event  
NOTE Confidence: 0.97973955  
00:16:03.190 --> 00:16:05.590 to recognize and celebrate this  
NOTE Confidence: 0.97973955  
00:16:05.590 --> 00:16:07.690 work and a panel discussion  
NOTE Confidence: 0.97973955  
00:16:07.830 --> 00:16:09.690 with a number of experts.  
NOTE Confidence: 0.9986876  
00:16:10.345 --> 00:16:11.645 And I'd like to particularly  
NOTE Confidence: 0.88957566  
00:16:12.105 --> 00:16:14.365 call out, Doctor. Ash Alpert.  
NOTE Confidence: 0.3748171  
00:16:14.905 --> 00:16:15.405 They  
NOTE Confidence: 0.9470837  
00:16:15.945 --> 00:16:18.205 are an expert in,  
NOTE Confidence: 0.99964345  
00:16:18.665 --> 00:16:20.605 care for this vulnerable population  
NOTE Confidence: 0.81547403  
00:16:21.225 --> 00:16:22.125 as well as,  
NOTE Confidence: 0.9911639  
00:16:23.110 --> 00:16:24.970 hematology and malignant hematology.  
NOTE Confidence: 0.98533523  
00:16:25.430 --> 00:16:26.950 So note this for your  
NOTE Confidence: 0.98533523  
00:16:26.950 --> 00:16:28.170 calendars, Friday,  
NOTE Confidence: 0.99924886  
00:16:28.550 --> 00:16:29.530 November fifteenth.  
NOTE Confidence: 0.98893857

00:16:30.470 --> 00:16:30.970 Next.  
NOTE Confidence: 0.9976229  
00:16:34.070 --> 00:16:34.570 So  
NOTE Confidence: 0.9775273  
00:16:35.774 --> 00:16:37.055 I am hoping that,  
NOTE Confidence: 0.9921665  
00:16:38.014 --> 00:16:39.795 we will continue to have,  
NOTE Confidence: 0.97055644  
00:16:40.334 --> 00:16:41.695 good turnout at our town  
NOTE Confidence: 0.97055644  
00:16:41.695 --> 00:16:42.195 halls.  
NOTE Confidence: 0.9840973  
00:16:42.975 --> 00:16:44.175 You will see that they  
NOTE Confidence: 0.9840973  
00:16:44.175 --> 00:16:46.355 are coming up, roughly every,  
NOTE Confidence: 0.9949213  
00:16:47.055 --> 00:16:48.654 two to three months as  
NOTE Confidence: 0.9949213  
00:16:48.654 --> 00:16:49.935 we move through the year.  
NOTE Confidence: 0.9949213  
00:16:49.935 --> 00:16:51.270 The next will be January  
NOTE Confidence: 0.9949213  
00:16:51.410 --> 00:16:52.770 twenty ninth. This will be  
NOTE Confidence: 0.9949213  
00:16:52.770 --> 00:16:54.450 a hybrid meeting with an  
NOTE Confidence: 0.9949213  
00:16:54.450 --> 00:16:55.510 in person option,  
NOTE Confidence: 0.82766885  
00:16:55.970 --> 00:16:57.350 in the Smileo Auditorium,  
NOTE Confidence: 0.99591446  
00:16:57.810 --> 00:16:59.730 and we will alternate between

NOTE Confidence: 0.99591446  
00:16:59.730 --> 00:17:01.190 virtual only and hybrid.  
NOTE Confidence: 0.9997972  
00:17:01.810 --> 00:17:02.310 Again,  
NOTE Confidence: 0.9549657  
00:17:02.690 --> 00:17:04.210 we love to see people  
NOTE Confidence: 0.9549657  
00:17:04.210 --> 00:17:05.835 in person, so I'm hoping  
NOTE Confidence: 0.9549657  
00:17:05.895 --> 00:17:07.115 in late January,  
NOTE Confidence: 0.99938864  
00:17:07.895 --> 00:17:09.095 we can get an audience  
NOTE Confidence: 0.99938864  
00:17:09.095 --> 00:17:09.915 at the auditorium.  
NOTE Confidence: 0.9988674  
00:17:11.095 --> 00:17:11.595 So  
NOTE Confidence: 0.99217767  
00:17:12.055 --> 00:17:13.175 we'll go ahead with the  
NOTE Confidence: 0.99217767  
00:17:13.175 --> 00:17:13.675 agenda,  
NOTE Confidence: 0.9684803  
00:17:14.375 --> 00:17:15.255 and I will,  
NOTE Confidence: 0.99767095  
00:17:15.735 --> 00:17:16.855 turn it over to doctor  
NOTE Confidence: 0.99767095  
00:17:16.855 --> 00:17:17.355 Huntington.  
NOTE Confidence: 0.96342844  
00:17:17.840 --> 00:17:19.440 Great. Thanks so much. Really  
NOTE Confidence: 0.96342844  
00:17:19.440 --> 00:17:20.180 great updates.  
NOTE Confidence: 0.88313186

00:17:21.040 --> 00:17:21.920 Wonderful to be a part  
NOTE Confidence: 0.88313186

00:17:21.920 --> 00:17:22.820 of this great community.  
NOTE Confidence: 0.77997553

00:17:28.000 --> 00:17:29.060 So it's  
NOTE Confidence: 0.9968834

00:17:40.125 --> 00:17:40.625 sorry.  
NOTE Confidence: 0.9863542

00:17:41.965 --> 00:17:42.945 There we go.  
NOTE Confidence: 0.9963038

00:17:46.929 --> 00:17:47.409 So,  
NOTE Confidence: 0.9534396

00:17:47.970 --> 00:17:49.409 I'm gonna provide in the  
NOTE Confidence: 0.9534396

00:17:49.409 --> 00:17:50.769 next ten minutes an update  
NOTE Confidence: 0.9534396

00:17:50.769 --> 00:17:52.690 on some important work, really  
NOTE Confidence: 0.9534396

00:17:52.690 --> 00:17:53.830 identifying the capacity,  
NOTE Confidence: 0.9429722

00:17:54.450 --> 00:17:56.450 concerns in inpatient setting and  
NOTE Confidence: 0.9429722

00:17:56.450 --> 00:17:58.130 identifying patients that we currently  
NOTE Confidence: 0.9429722

00:17:58.130 --> 00:17:58.950 treat inpatient,  
NOTE Confidence: 0.9768674

00:17:59.924 --> 00:18:01.924 to really transition them safely,  
NOTE Confidence: 0.9768674

00:18:02.164 --> 00:18:03.465 to ambulatory setting.  
NOTE Confidence: 0.99550086

00:18:04.725 --> 00:18:05.524 So the reason that we're

NOTE Confidence: 0.99550086  
00:18:05.524 --> 00:18:06.404 doing this is that there  
NOTE Confidence: 0.99550086  
00:18:06.404 --> 00:18:07.304 really has been,  
NOTE Confidence: 0.9767347  
00:18:07.924 --> 00:18:09.205 a significant growth in our  
NOTE Confidence: 0.9767347  
00:18:09.205 --> 00:18:10.184 inpatient services.  
NOTE Confidence: 0.935456  
00:18:10.484 --> 00:18:11.205 Some of this has been  
NOTE Confidence: 0.935456  
00:18:11.205 --> 00:18:11.705 programmatic  
NOTE Confidence: 0.8182867  
00:18:12.085 --> 00:18:13.365 growth. So e s smile  
NOTE Confidence: 0.8182867  
00:18:13.365 --> 00:18:14.850 o four seven has allowed  
NOTE Confidence: 0.8182867  
00:18:14.850 --> 00:18:15.730 us to,  
NOTE Confidence: 0.9895599  
00:18:16.130 --> 00:18:17.430 increase our footprint,  
NOTE Confidence: 0.8928636  
00:18:17.809 --> 00:18:18.850 and that that has led  
NOTE Confidence: 0.8928636  
00:18:18.850 --> 00:18:20.790 to increased, cancer discharges,  
NOTE Confidence: 0.9815408  
00:18:21.490 --> 00:18:22.790 through the SMILO service.  
NOTE Confidence: 0.98615766  
00:18:23.250 --> 00:18:23.990 But even,  
NOTE Confidence: 0.9986425  
00:18:24.530 --> 00:18:25.590 year over year,  
NOTE Confidence: 0.9994688

00:18:25.970 --> 00:18:27.830 we've had some significant increase.

NOTE Confidence: 0.96643025

00:18:28.544 --> 00:18:29.264 A lot of this is

NOTE Confidence: 0.96643025

00:18:29.264 --> 00:18:30.465 coming being driven by new

NOTE Confidence: 0.96643025

00:18:30.465 --> 00:18:32.164 therapeutics that require inpatient,

NOTE Confidence: 0.7119098

00:18:32.784 --> 00:18:33.284 bedtime

NOTE Confidence: 0.9741237

00:18:33.825 --> 00:18:34.644 for initiation.

NOTE Confidence: 0.9721334

00:18:35.184 --> 00:18:36.544 And at this point, at

NOTE Confidence: 0.9721334

00:18:36.544 --> 00:18:38.465 any given day, somewhere between

NOTE Confidence: 0.9721334

00:18:38.465 --> 00:18:39.904 twenty to twenty five patients

NOTE Confidence: 0.9721334

00:18:39.904 --> 00:18:40.884 that have cancer

NOTE Confidence: 0.9413622

00:18:41.600 --> 00:18:43.280 are being treated outside of

NOTE Confidence: 0.9413622

00:18:43.280 --> 00:18:43.780 SmiloBeds,

NOTE Confidence: 0.98347163

00:18:44.640 --> 00:18:46.000 and this is really, an

NOTE Confidence: 0.98347163

00:18:46.000 --> 00:18:47.119 impact on patient,

NOTE Confidence: 0.99284554

00:18:47.600 --> 00:18:48.100 well-being

NOTE Confidence: 0.9315481

00:18:48.720 --> 00:18:50.500 and, something that we wanna

NOTE Confidence: 0.9315481

00:18:50.560 --> 00:18:52.580 tackle and improve, with time.

NOTE Confidence: 0.9727855

00:18:53.200 --> 00:18:53.700 So,

NOTE Confidence: 0.9952002

00:18:54.080 --> 00:18:55.680 expanding inpatient capacity is really

NOTE Confidence: 0.9952002

00:18:55.680 --> 00:18:56.180 critical

NOTE Confidence: 0.9738315

00:18:56.644 --> 00:18:58.325 to provide timely, access to

NOTE Confidence: 0.9738315

00:18:58.325 --> 00:18:59.764 inpatient beds for patients coming

NOTE Confidence: 0.9738315

00:18:59.764 --> 00:19:01.065 through the emergency room.

NOTE Confidence: 0.94725

00:19:01.605 --> 00:19:03.205 It's really important to be

NOTE Confidence: 0.94725

00:19:03.205 --> 00:19:04.725 able to redirect patients from

NOTE Confidence: 0.94725

00:19:04.725 --> 00:19:06.325 non smilo beds to smilo

NOTE Confidence: 0.94725

00:19:06.325 --> 00:19:08.404 to enable safe treatment and

NOTE Confidence: 0.94725

00:19:08.404 --> 00:19:09.304 timely treatment.

NOTE Confidence: 0.9598422

00:19:09.684 --> 00:19:10.184 And

NOTE Confidence: 0.9774249

00:19:10.590 --> 00:19:12.929 this trend towards novel therapeutics

NOTE Confidence: 0.9774249

00:19:12.990 --> 00:19:14.030 that are going to require

NOTE Confidence: 0.9774249

00:19:14.030 --> 00:19:15.710 some inpatient stay is not,  
NOTE Confidence: 0.9774249

00:19:16.030 --> 00:19:16.530 ending,  
NOTE Confidence: 0.9928692

00:19:17.150 --> 00:19:18.350 and we need to really  
NOTE Confidence: 0.9928692

00:19:18.350 --> 00:19:20.190 expand our capacity to enable  
NOTE Confidence: 0.9928692

00:19:20.190 --> 00:19:21.630 us to provide these therapies  
NOTE Confidence: 0.9928692

00:19:21.630 --> 00:19:22.510 that are growing in things  
NOTE Confidence: 0.9928692

00:19:22.510 --> 00:19:23.570 like solid tumor,  
NOTE Confidence: 0.97062725

00:19:24.265 --> 00:19:26.505 non malignant hematology, including sickle  
NOTE Confidence: 0.97062725

00:19:26.505 --> 00:19:27.865 cell, and so this is  
NOTE Confidence: 0.97062725

00:19:27.865 --> 00:19:28.505 really just,  
NOTE Confidence: 0.9964427

00:19:28.984 --> 00:19:30.905 the first phase of important  
NOTE Confidence: 0.9964427

00:19:30.905 --> 00:19:31.645 work ahead.  
NOTE Confidence: 0.99745286

00:19:32.185 --> 00:19:33.625 When you think about the  
NOTE Confidence: 0.99745286

00:19:33.625 --> 00:19:35.565 current, average daily census  
NOTE Confidence: 0.93449515

00:19:35.865 --> 00:19:37.065 of cancer patients here in  
NOTE Confidence: 0.93449515

00:19:37.065 --> 00:19:38.140 New Haven, We have a

NOTE Confidence: 0.93449515  
00:19:38.140 --> 00:19:39.900 hundred twenty five beds, across  
NOTE Confidence: 0.93449515  
00:19:39.900 --> 00:19:40.480 the SMILO,  
NOTE Confidence: 0.96581566  
00:19:40.780 --> 00:19:41.740 and then, like we said,  
NOTE Confidence: 0.96581566  
00:19:41.740 --> 00:19:43.020 there's about twenty patients that  
NOTE Confidence: 0.96581566  
00:19:43.020 --> 00:19:44.380 are admitted to non SMILO  
NOTE Confidence: 0.96581566  
00:19:44.380 --> 00:19:45.660 beds and about four on  
NOTE Confidence: 0.96581566  
00:19:45.660 --> 00:19:47.440 average in our ERD serum.  
NOTE Confidence: 0.989831  
00:19:49.020 --> 00:19:50.865 So moving and identifying select  
NOTE Confidence: 0.989831  
00:19:51.105 --> 00:19:52.085 inpatient regimens,  
NOTE Confidence: 0.99950284  
00:19:52.465 --> 00:19:53.744 to the ambulatory setting is  
NOTE Confidence: 0.99950284  
00:19:53.744 --> 00:19:54.484 really important  
NOTE Confidence: 0.96195364  
00:19:54.865 --> 00:19:56.565 so that we enhance patient  
NOTE Confidence: 0.96195364  
00:19:56.705 --> 00:19:57.845 experience and convenience.  
NOTE Confidence: 0.94996136  
00:19:58.304 --> 00:20:00.545 We expand access through, Infusion  
NOTE Confidence: 0.94996136  
00:20:00.545 --> 00:20:01.825 Everywhere that really can help  
NOTE Confidence: 0.94996136

00:20:01.825 --> 00:20:03.744 patients ideally get treatment closer

NOTE Confidence: 0.94996136

00:20:03.744 --> 00:20:04.405 to home.

NOTE Confidence: 0.9756101

00:20:05.010 --> 00:20:05.650 And it is,

NOTE Confidence: 0.9082111

00:20:06.130 --> 00:20:07.250 this kind of trend is

NOTE Confidence: 0.9082111

00:20:07.250 --> 00:20:08.530 is not unique to Smilow

NOTE Confidence: 0.9082111

00:20:08.530 --> 00:20:10.050 or capacity issues not unique

NOTE Confidence: 0.9082111

00:20:10.050 --> 00:20:10.630 to Smilow.

NOTE Confidence: 0.9775121

00:20:10.930 --> 00:20:12.230 Other of our peer institutions

NOTE Confidence: 0.9775121

00:20:12.290 --> 00:20:13.910 have already developed ambulatory,

NOTE Confidence: 0.95616156

00:20:14.609 --> 00:20:16.050 administrations of several of these

NOTE Confidence: 0.95616156

00:20:16.050 --> 00:20:16.545 therapies,

NOTE Confidence: 0.9809281

00:20:17.105 --> 00:20:18.465 And, this will allow us

NOTE Confidence: 0.9809281

00:20:18.465 --> 00:20:19.765 to really provide consistent,

NOTE Confidence: 0.93541586

00:20:20.305 --> 00:20:21.585 signature of care and over

NOTE Confidence: 0.93541586

00:20:21.585 --> 00:20:22.405 time, hopefully,

NOTE Confidence: 0.96415484

00:20:23.265 --> 00:20:23.744 enable,

NOTE Confidence: 0.9301053

00:20:24.065 --> 00:20:26.305 these complex therapeutics across our

NOTE Confidence: 0.9301053

00:20:26.305 --> 00:20:27.285 delivery network.

NOTE Confidence: 0.9618258

00:20:29.920 --> 00:20:31.600 This, required a lot of

NOTE Confidence: 0.9618258

00:20:31.600 --> 00:20:32.720 coordination and a lot of

NOTE Confidence: 0.9618258

00:20:32.720 --> 00:20:33.520 work from really,

NOTE Confidence: 0.8181493

00:20:34.240 --> 00:20:34.980 the multidisciplinary

NOTE Confidence: 0.9473412

00:20:35.360 --> 00:20:36.960 group. I wanna highlight Elaine

NOTE Confidence: 0.9473412

00:20:36.960 --> 00:20:39.120 Whitney, Latha, and Alex, who

NOTE Confidence: 0.9473412

00:20:39.120 --> 00:20:41.040 have helped, really develop and

NOTE Confidence: 0.9473412

00:20:41.040 --> 00:20:42.260 then move this forward.

NOTE Confidence: 0.9923653

00:20:42.715 --> 00:20:43.674 But these are the four

NOTE Confidence: 0.9923653

00:20:43.674 --> 00:20:44.955 key working groups that we've

NOTE Confidence: 0.9923653

00:20:44.955 --> 00:20:46.335 had, come together,

NOTE Confidence: 0.95656407

00:20:46.955 --> 00:20:47.434 nearly,

NOTE Confidence: 0.984749

00:20:47.994 --> 00:20:49.294 biweekly or monthly,

NOTE Confidence: 0.999423

00:20:49.754 --> 00:20:50.975 for the last year.  
NOTE Confidence: 0.99423236

00:20:51.355 --> 00:20:53.375 This includes focusing on cytotoxic  
NOTE Confidence: 0.99423236

00:20:53.595 --> 00:20:54.095 infusions,  
NOTE Confidence: 0.99837786

00:20:54.794 --> 00:20:56.394 a group looking at cellular  
NOTE Confidence: 0.99837786

00:20:56.394 --> 00:20:56.894 therapeutics,  
NOTE Confidence: 0.991242

00:20:57.300 --> 00:20:58.600 a group looking at bispecifics,  
NOTE Confidence: 0.991242

00:20:58.820 --> 00:21:00.580 and then a fourth group  
NOTE Confidence: 0.991242

00:21:00.580 --> 00:21:02.520 looking at expanding capacity  
NOTE Confidence: 0.9205471

00:21:02.900 --> 00:21:04.840 and availability of our ECC.  
NOTE Confidence: 0.99476093

00:21:06.020 --> 00:21:07.240 There's been lots of  
NOTE Confidence: 0.92258376

00:21:07.780 --> 00:21:10.280 nursing, lots of emergency room  
NOTE Confidence: 0.7688621

00:21:10.900 --> 00:21:11.400 coordination,  
NOTE Confidence: 0.88468087

00:21:12.020 --> 00:21:12.840 and also  
NOTE Confidence: 0.99388105

00:21:13.355 --> 00:21:15.115 finance, making sure that this  
NOTE Confidence: 0.99388105

00:21:15.115 --> 00:21:16.635 is a financially sound plan  
NOTE Confidence: 0.99388105

00:21:16.635 --> 00:21:17.135 moving

NOTE Confidence: 0.99037427

00:21:17.595 --> 00:21:18.395 forward. Some of the key

NOTE Confidence: 0.99037427

00:21:18.395 --> 00:21:20.415 deliverables that we've, really identified

NOTE Confidence: 0.99037427

00:21:20.475 --> 00:21:21.375 and and targeted

NOTE Confidence: 0.9899916

00:21:21.835 --> 00:21:23.755 are, thinking about what's the

NOTE Confidence: 0.9899916

00:21:23.755 --> 00:21:24.715 impact of this work in

NOTE Confidence: 0.9899916

00:21:24.715 --> 00:21:25.775 terms of our volume.

NOTE Confidence: 0.9296458

00:21:26.635 --> 00:21:27.695 Certainly, capacity

NOTE Confidence: 0.9378714

00:21:28.010 --> 00:21:29.850 constraints exist outside the inpatient

NOTE Confidence: 0.9378714

00:21:29.850 --> 00:21:31.210 setting in our ambulatory world.

NOTE Confidence: 0.9378714

00:21:31.210 --> 00:21:32.730 And so thinking about how

NOTE Confidence: 0.9378714

00:21:32.730 --> 00:21:34.170 the shift could have impact

NOTE Confidence: 0.9378714

00:21:34.170 --> 00:21:35.310 on on those capacities,

NOTE Confidence: 0.9304048

00:21:36.090 --> 00:21:38.010 assessments of resource needs, barriers

NOTE Confidence: 0.9304048

00:21:38.010 --> 00:21:39.150 and operational adjustments,

NOTE Confidence: 0.98755854

00:21:39.850 --> 00:21:41.130 thinking about how we make

NOTE Confidence: 0.98755854

00:21:41.130 --> 00:21:42.670 our teams ready and operationally,  
NOTE Confidence: 0.9086832

00:21:43.675 --> 00:21:44.175 proficient,  
NOTE Confidence: 0.73045737

00:21:45.035 --> 00:21:46.335 financial assess analysis,  
NOTE Confidence: 0.97329575

00:21:47.195 --> 00:21:48.415 and impact on reimbursement.  
NOTE Confidence: 0.95437086

00:21:49.435 --> 00:21:50.155 And a lot of this  
NOTE Confidence: 0.95437086

00:21:50.155 --> 00:21:51.435 work is really being done  
NOTE Confidence: 0.95437086

00:21:51.435 --> 00:21:51.935 through,  
NOTE Confidence: 0.8571119

00:21:52.635 --> 00:21:53.855 care signature pathways  
NOTE Confidence: 0.7780128

00:21:54.234 --> 00:21:54.715 and,  
NOTE Confidence: 0.94610935

00:21:55.115 --> 00:21:57.455 improved handoffs between our clinical  
NOTE Confidence: 0.94610935

00:21:57.515 --> 00:21:58.015 teams.  
NOTE Confidence: 0.92037076

00:21:58.770 --> 00:22:01.090 We've also updated our, beacon  
NOTE Confidence: 0.92037076

00:22:01.090 --> 00:22:02.770 builds to really default,  
NOTE Confidence: 0.88745517

00:22:03.090 --> 00:22:04.450 these regimens to the outpatient  
NOTE Confidence: 0.88745517

00:22:04.450 --> 00:22:04.950 setting,  
NOTE Confidence: 0.99780256

00:22:05.490 --> 00:22:06.550 and also identifying

NOTE Confidence: 0.9558969

00:22:06.850 --> 00:22:09.570 opportunities to perhaps expand hours

NOTE Confidence: 0.9558969

00:22:09.570 --> 00:22:10.850 like an ECC or some

NOTE Confidence: 0.9558969

00:22:10.850 --> 00:22:11.590 of our clinics.

NOTE Confidence: 0.961504

00:22:12.855 --> 00:22:14.135 So this is ongoing work,

NOTE Confidence: 0.961504

00:22:14.455 --> 00:22:15.255 but I do want to

NOTE Confidence: 0.961504

00:22:15.255 --> 00:22:16.455 provide some updates on the

NOTE Confidence: 0.961504

00:22:16.455 --> 00:22:18.395 first phase of this, initiation.

NOTE Confidence: 0.96894944

00:22:20.054 --> 00:22:21.015 So one area of the

NOTE Confidence: 0.96894944

00:22:21.015 --> 00:22:21.975 first phase is going to

NOTE Confidence: 0.96894944

00:22:21.975 --> 00:22:23.835 be, CAR T and bispecific

NOTE Confidence: 0.96894944

00:22:23.975 --> 00:22:24.475 antibodies.

NOTE Confidence: 0.84022254

00:22:25.530 --> 00:22:26.330 This is a unique,

NOTE Confidence: 0.83863354

00:22:27.690 --> 00:22:28.190 clinical

NOTE Confidence: 0.97514457

00:22:28.650 --> 00:22:30.330 scenario where patients receive these

NOTE Confidence: 0.97514457

00:22:30.330 --> 00:22:30.830 immunotherapies.

NOTE Confidence: 0.9701688

00:22:31.369 --> 00:22:32.970 And during the initiation phase,  
NOTE Confidence: 0.9701688

00:22:32.970 --> 00:22:34.330 patients are at particularly high  
NOTE Confidence: 0.9701688

00:22:34.330 --> 00:22:35.710 risk for complex,  
NOTE Confidence: 0.97693187

00:22:36.410 --> 00:22:38.030 toxicities, including neurotoxicity  
NOTE Confidence: 0.9737629

00:22:38.330 --> 00:22:39.790 and cytokine release syndrome.  
NOTE Confidence: 0.9502685

00:22:40.205 --> 00:22:41.725 This to date has required  
NOTE Confidence: 0.9502685

00:22:41.725 --> 00:22:43.325 our patients to be, admitted  
NOTE Confidence: 0.9502685

00:22:43.325 --> 00:22:44.605 for the hospital for close  
NOTE Confidence: 0.9502685

00:22:44.605 --> 00:22:45.105 monitoring.  
NOTE Confidence: 0.94239086

00:22:45.885 --> 00:22:47.325 But we really recognize that,  
NOTE Confidence: 0.94239086

00:22:47.725 --> 00:22:49.965 with close coordination and,  
NOTE Confidence: 0.8443882

00:22:50.685 --> 00:22:51.744 increasing capacity  
NOTE Confidence: 0.8821355

00:22:52.365 --> 00:22:52.685 and,  
NOTE Confidence: 0.9555068

00:22:54.320 --> 00:22:55.220 kind of workflows,  
NOTE Confidence: 0.9795518

00:22:55.520 --> 00:22:57.119 we're able to really transition  
NOTE Confidence: 0.9795518

00:22:57.119 --> 00:22:58.240 many of these patients, not

NOTE Confidence: 0.9795518

00:22:58.240 --> 00:22:59.040 all, but many of these

NOTE Confidence: 0.9795518

00:22:59.040 --> 00:23:00.500 patients safely to the ambulatory

NOTE Confidence: 0.9795518

00:23:00.559 --> 00:23:02.320 setting. So some key challenges

NOTE Confidence: 0.9795518

00:23:02.320 --> 00:23:03.359 that we needed to tackle

NOTE Confidence: 0.9795518

00:23:03.359 --> 00:23:04.880 for this work really has

NOTE Confidence: 0.9795518

00:23:04.880 --> 00:23:06.400 been focused on monitoring and

NOTE Confidence: 0.9795518

00:23:06.400 --> 00:23:08.415 management of adverse, side effects,

NOTE Confidence: 0.9928783

00:23:08.895 --> 00:23:10.175 making sure that patients have

NOTE Confidence: 0.9928783

00:23:10.175 --> 00:23:11.675 urgent access to,

NOTE Confidence: 0.99546456

00:23:12.015 --> 00:23:13.695 admissions or specialized care if

NOTE Confidence: 0.99546456

00:23:13.695 --> 00:23:15.075 they do develop these toxicities

NOTE Confidence: 0.99546456

00:23:15.215 --> 00:23:15.875 as outpatient.

NOTE Confidence: 0.9950928

00:23:16.575 --> 00:23:17.375 A lot of this work

NOTE Confidence: 0.9950928

00:23:17.375 --> 00:23:18.655 also has been on patient

NOTE Confidence: 0.9950928

00:23:18.655 --> 00:23:20.515 and family education and compliance,

NOTE Confidence: 0.99886334

00:23:21.560 --> 00:23:22.619 logistical considerations,  
NOTE Confidence: 0.90981567

00:23:23.480 --> 00:23:23.960 cost,  
NOTE Confidence: 0.97191525

00:23:24.280 --> 00:23:25.720 implications, as well as making  
NOTE Confidence: 0.97191525

00:23:25.720 --> 00:23:26.859 sure that we can track,  
NOTE Confidence: 0.8822406

00:23:27.480 --> 00:23:27.980 outcomes,  
NOTE Confidence: 0.9994543

00:23:28.280 --> 00:23:29.500 when we make this transition.  
NOTE Confidence: 0.98255223

00:23:31.320 --> 00:23:32.619 So this really has required,  
NOTE Confidence: 0.8887898

00:23:32.920 --> 00:23:34.540 really broad inter and interdepartment  
NOTE Confidence: 0.9971814

00:23:34.920 --> 00:23:35.420 collaboration.  
NOTE Confidence: 0.8949769

00:23:35.960 --> 00:23:37.265 This is just the focus  
NOTE Confidence: 0.9318153

00:23:37.645 --> 00:23:39.345 on CRS and ICANS management.  
NOTE Confidence: 0.9950809

00:23:39.965 --> 00:23:41.505 But this has been developing  
NOTE Confidence: 0.9950809

00:23:41.725 --> 00:23:43.025 partnerships and collaborations  
NOTE Confidence: 0.96451217

00:23:43.325 --> 00:23:44.925 with both SMILO and ex  
NOTE Confidence: 0.96451217

00:23:44.925 --> 00:23:47.484 SMILO, groups. This includes emergency  
NOTE Confidence: 0.96451217

00:23:47.484 --> 00:23:48.465 room, EMS,

NOTE Confidence: 0.9957426

00:23:49.030 --> 00:23:49.830 tons of work,

NOTE Confidence: 0.9884165

00:23:50.950 --> 00:23:51.930 throughout the year.

NOTE Confidence: 0.92993164

00:23:52.470 --> 00:23:54.390 We've recognized that for allo

NOTE Confidence: 0.92993164

00:23:54.390 --> 00:23:56.550 transplants, having a centralized number

NOTE Confidence: 0.92993164

00:23:56.550 --> 00:23:58.250 and and really a centralized

NOTE Confidence: 0.92993164

00:23:58.390 --> 00:23:58.890 approach,

NOTE Confidence: 0.943079

00:23:59.510 --> 00:24:01.050 to, getting specialized,

NOTE Confidence: 0.98934555

00:24:02.495 --> 00:24:04.175 expertise on the phone is

NOTE Confidence: 0.98934555

00:24:04.175 --> 00:24:05.935 key. And so we've adopted

NOTE Confidence: 0.98934555

00:24:05.935 --> 00:24:06.915 what the allotransplant

NOTE Confidence: 0.9947373

00:24:07.215 --> 00:24:08.175 team has been doing for

NOTE Confidence: 0.9947373

00:24:08.175 --> 00:24:08.675 years,

NOTE Confidence: 0.9736164

00:24:09.295 --> 00:24:10.675 in in order to enable,

NOTE Confidence: 0.94449455

00:24:11.375 --> 00:24:13.055 this kind of, easy access

NOTE Confidence: 0.94449455

00:24:13.055 --> 00:24:14.335 for patients and families on

NOTE Confidence: 0.94449455

00:24:14.335 --> 00:24:15.075 their own.  
NOTE Confidence: 0.9978526

00:24:15.780 --> 00:24:17.480 We've also developed some additional,  
NOTE Confidence: 0.9995075

00:24:18.100 --> 00:24:19.240 best practice alerts  
NOTE Confidence: 0.95579416

00:24:19.619 --> 00:24:20.820 as well as an auto  
NOTE Confidence: 0.95579416

00:24:20.820 --> 00:24:22.500 page function so that when  
NOTE Confidence: 0.95579416

00:24:22.500 --> 00:24:23.320 these patients,  
NOTE Confidence: 0.9745075

00:24:23.700 --> 00:24:25.080 that are receiving these treatments  
NOTE Confidence: 0.9745075

00:24:25.140 --> 00:24:26.680 arrive in the emergency room,  
NOTE Confidence: 0.9745075

00:24:26.740 --> 00:24:27.940 they'll will be an auto  
NOTE Confidence: 0.9745075

00:24:27.940 --> 00:24:29.060 page of the fellow to  
NOTE Confidence: 0.9745075

00:24:29.060 --> 00:24:29.960 make them aware,  
NOTE Confidence: 0.994768

00:24:30.415 --> 00:24:31.935 similar to trauma or other  
NOTE Confidence: 0.994768

00:24:31.935 --> 00:24:33.215 kind of high risk patients  
NOTE Confidence: 0.994768

00:24:33.215 --> 00:24:34.415 presenting to the emergency room  
NOTE Confidence: 0.994768

00:24:34.415 --> 00:24:35.315 and other specialties.  
NOTE Confidence: 0.9344148

00:24:36.415 --> 00:24:38.494 We have, clearly articulated or

NOTE Confidence: 0.9344148

00:24:38.494 --> 00:24:40.815 cover coverage responsibilities that includes

NOTE Confidence: 0.9344148

00:24:40.815 --> 00:24:42.335 really engaging with our APP

NOTE Confidence: 0.9344148

00:24:42.335 --> 00:24:43.695 service. So thank you, Vanna,

NOTE Confidence: 0.9344148

00:24:43.695 --> 00:24:44.734 for that, as well as

NOTE Confidence: 0.9344148

00:24:44.734 --> 00:24:45.875 our fellowship program.

NOTE Confidence: 0.9543139

00:24:46.650 --> 00:24:48.490 We've identified primary sites of

NOTE Confidence: 0.9543139

00:24:48.490 --> 00:24:49.850 care and ambulatory setting, which

NOTE Confidence: 0.9543139

00:24:49.850 --> 00:24:51.230 have predominantly been,

NOTE Confidence: 0.90101826

00:24:51.770 --> 00:24:53.550 the day hospital and MP7.

NOTE Confidence: 0.94854283

00:24:54.250 --> 00:24:55.850 But recognizing that our ECC

NOTE Confidence: 0.94854283

00:24:55.850 --> 00:24:57.050 will be a really important

NOTE Confidence: 0.94854283

00:24:57.050 --> 00:24:58.650 partner, in the after hours

NOTE Confidence: 0.94854283

00:24:58.650 --> 00:25:00.110 and emergency room overnight.

NOTE Confidence: 0.9878101

00:25:01.034 --> 00:25:02.554 We've developed several,

NOTE Confidence: 0.9740994

00:25:03.034 --> 00:25:04.475 care signature pathways that are

NOTE Confidence: 0.9740994

00:25:04.475 --> 00:25:05.695 really regimen specific,  
NOTE Confidence: 0.9542713

00:25:06.394 --> 00:25:07.034 that have,  
NOTE Confidence: 0.986136

00:25:07.514 --> 00:25:09.355 really clear guidance on how  
NOTE Confidence: 0.986136

00:25:09.355 --> 00:25:10.394 to treat these patients in  
NOTE Confidence: 0.986136

00:25:10.394 --> 00:25:12.095 terms of CRS and ICANS.  
NOTE Confidence: 0.9633117

00:25:12.720 --> 00:25:14.320 And overall, we're really developing  
NOTE Confidence: 0.9633117

00:25:14.320 --> 00:25:15.840 a consistent workflow both for  
NOTE Confidence: 0.9633117

00:25:15.840 --> 00:25:17.220 CAR T and the bispecific  
NOTE Confidence: 0.9633117

00:25:17.359 --> 00:25:17.859 antibodies.  
NOTE Confidence: 0.9971303

00:25:19.520 --> 00:25:20.400 So this is just the  
NOTE Confidence: 0.9971303

00:25:20.400 --> 00:25:21.940 planning and execution timeline.  
NOTE Confidence: 0.9556544

00:25:22.400 --> 00:25:23.540 There's been months,  
NOTE Confidence: 0.9035652

00:25:23.919 --> 00:25:25.299 kind of focused on implementation  
NOTE Confidence: 0.9035652

00:25:25.520 --> 00:25:26.820 and design of this rollout.  
NOTE Confidence: 0.9326655

00:25:27.455 --> 00:25:29.055 The first of the rollout  
NOTE Confidence: 0.9326655

00:25:29.055 --> 00:25:30.595 was on infusional chemotherapy,

NOTE Confidence: 0.87332886  
00:25:30.895 --> 00:25:31.715 EPOC chemotherapy.  
NOTE Confidence: 0.99333954  
00:25:33.055 --> 00:25:33.875 This chemotherapy,  
NOTE Confidence: 0.9168625  
00:25:35.055 --> 00:25:36.335 historically over the last several  
NOTE Confidence: 0.9168625  
00:25:36.335 --> 00:25:36.835 years  
NOTE Confidence: 0.9461926  
00:25:37.135 --> 00:25:38.175 has had a build that  
NOTE Confidence: 0.9461926  
00:25:38.175 --> 00:25:39.215 allows us to give this  
NOTE Confidence: 0.9461926  
00:25:39.215 --> 00:25:40.415 outpatient, but it's been used  
NOTE Confidence: 0.9461926  
00:25:40.415 --> 00:25:40.915 variably.  
NOTE Confidence: 0.9984412  
00:25:41.320 --> 00:25:42.780 And so we really redesigned  
NOTE Confidence: 0.9475844  
00:25:43.080 --> 00:25:45.560 the, the beacon pathway. We  
NOTE Confidence: 0.9475844  
00:25:45.560 --> 00:25:46.780 redeveloped an SOP,  
NOTE Confidence: 0.94259673  
00:25:47.240 --> 00:25:48.359 and this went live in  
NOTE Confidence: 0.94259673  
00:25:48.359 --> 00:25:49.740 August and will be continuing  
NOTE Confidence: 0.94259673  
00:25:49.800 --> 00:25:51.400 to track and and change  
NOTE Confidence: 0.94259673  
00:25:51.400 --> 00:25:53.000 through an interim process to  
NOTE Confidence: 0.94259673

00:25:53.000 --> 00:25:55.385 really, enable our outpatient epoch

NOTE Confidence: 0.94259673

00:25:55.385 --> 00:25:56.365 rather than inpatient,

NOTE Confidence: 0.9491808

00:25:56.825 --> 00:25:58.205 bed space for this regimen.

NOTE Confidence: 0.9098859

00:25:58.984 --> 00:26:00.424 The first of the CAR

NOTE Confidence: 0.9098859

00:26:00.424 --> 00:26:01.164 t bispecifics,

NOTE Confidence: 0.99113005

00:26:01.784 --> 00:26:03.065 combination will be,

NOTE Confidence: 0.9354465

00:26:03.385 --> 00:26:04.664 focused on CAR t, which

NOTE Confidence: 0.9354465

00:26:04.664 --> 00:26:05.784 will be on label use

NOTE Confidence: 0.9354465

00:26:05.784 --> 00:26:07.244 for Carvictine brionzi,

NOTE Confidence: 0.9769137

00:26:07.945 --> 00:26:09.065 and that will launch in

NOTE Confidence: 0.9769137

00:26:09.065 --> 00:26:09.565 January.

NOTE Confidence: 0.9628405

00:26:10.490 --> 00:26:11.690 And then about a month

NOTE Confidence: 0.9628405

00:26:11.690 --> 00:26:13.130 later, as we really learned

NOTE Confidence: 0.9628405

00:26:13.130 --> 00:26:14.110 from that launch,

NOTE Confidence: 0.92798096

00:26:14.730 --> 00:26:15.770 and we will be rolling

NOTE Confidence: 0.92798096

00:26:15.770 --> 00:26:17.869 out by specific antibodies initiation

NOTE Confidence: 0.92798096  
00:26:17.930 --> 00:26:18.670 for myeloma  
NOTE Confidence: 0.9986105  
00:26:18.970 --> 00:26:19.710 and lymphoma.  
NOTE Confidence: 0.97218364  
00:26:22.225 --> 00:26:23.264 So what do we expect  
NOTE Confidence: 0.97218364  
00:26:23.264 --> 00:26:24.384 to gain from this phase  
NOTE Confidence: 0.97218364  
00:26:24.384 --> 00:26:24.884 one?  
NOTE Confidence: 0.98752177  
00:26:25.424 --> 00:26:26.065 At the end of the  
NOTE Confidence: 0.98752177  
00:26:26.065 --> 00:26:27.284 day, it's about a thousand  
NOTE Confidence: 0.83075535  
00:26:27.585 --> 00:26:28.465 patient days,  
NOTE Confidence: 0.9745197  
00:26:28.865 --> 00:26:30.565 that the shift will enable  
NOTE Confidence: 0.9745197  
00:26:30.625 --> 00:26:31.445 us to make.  
NOTE Confidence: 0.96768636  
00:26:31.825 --> 00:26:33.264 That's equivalent to an average  
NOTE Confidence: 0.96768636  
00:26:33.264 --> 00:26:34.544 daily census of about two  
NOTE Confidence: 0.96768636  
00:26:34.544 --> 00:26:35.605 point six patients.  
NOTE Confidence: 0.97040135  
00:26:36.390 --> 00:26:37.510 And that will allow over  
NOTE Confidence: 0.97040135  
00:26:37.510 --> 00:26:38.869 a hundred patients that otherwise  
NOTE Confidence: 0.97040135

00:26:38.869 --> 00:26:40.150 would be treated outside of  
NOTE Confidence: 0.97040135

00:26:40.150 --> 00:26:41.910 Smilo to gain access to  
NOTE Confidence: 0.97040135

00:26:41.910 --> 00:26:42.890 a Smilo bed.  
NOTE Confidence: 0.98521954

00:26:44.230 --> 00:26:45.430 We do recognize that not  
NOTE Confidence: 0.98521954

00:26:45.430 --> 00:26:46.470 all patients will be able  
NOTE Confidence: 0.98521954

00:26:46.470 --> 00:26:47.750 to be shifted from inpatient  
NOTE Confidence: 0.98521954

00:26:47.750 --> 00:26:49.190 to outpatient. Our current targets  
NOTE Confidence: 0.98521954

00:26:49.190 --> 00:26:50.170 that we'll be tracking  
NOTE Confidence: 0.96571577

00:26:50.494 --> 00:26:51.775 is about ninety percent of  
NOTE Confidence: 0.96571577

00:26:51.775 --> 00:26:53.875 epochs will be, delivered outpatient,  
NOTE Confidence: 0.96900535

00:26:54.175 --> 00:26:55.535 and about seventy five percent  
NOTE Confidence: 0.96900535

00:26:55.535 --> 00:26:56.675 of the CAR t,  
NOTE Confidence: 0.9240018

00:26:56.975 --> 00:26:59.135 Briansy, and Carvifty, as well  
NOTE Confidence: 0.9240018

00:26:59.135 --> 00:27:00.994 as the bispecific antibody initiations  
NOTE Confidence: 0.9240018

00:27:01.135 --> 00:27:02.415 will be delivered outpatient. So  
NOTE Confidence: 0.9240018

00:27:02.415 --> 00:27:03.910 that's our goal. And what

NOTE Confidence: 0.9240018  
00:27:03.910 --> 00:27:06.310 that translates into freeing up,  
NOTE Confidence: 0.9240018  
00:27:06.710 --> 00:27:08.150 bed space is really epoch  
NOTE Confidence: 0.9240018  
00:27:08.150 --> 00:27:09.109 as a driver here. So  
NOTE Confidence: 0.9240018  
00:27:09.109 --> 00:27:10.490 about one point six patients,  
NOTE Confidence: 0.8724433  
00:27:11.430 --> 00:27:12.869 average daily census that should  
NOTE Confidence: 0.8724433  
00:27:12.869 --> 00:27:14.570 free, and the other,  
NOTE Confidence: 0.88948524  
00:27:15.030 --> 00:27:16.730 CAR t and and bispecifics  
NOTE Confidence: 0.96550643  
00:27:17.030 --> 00:27:18.434 is is less, here at  
NOTE Confidence: 0.96550643  
00:27:18.434 --> 00:27:20.135 about one patient on average.  
NOTE Confidence: 0.96493626  
00:27:22.275 --> 00:27:23.554 So I showed on the  
NOTE Confidence: 0.96493626  
00:27:23.554 --> 00:27:25.095 first slide that we have  
NOTE Confidence: 0.9880631  
00:27:25.475 --> 00:27:27.554 significant capacity constraints, and this  
NOTE Confidence: 0.9880631  
00:27:27.554 --> 00:27:28.595 is just one part of  
NOTE Confidence: 0.9880631  
00:27:28.595 --> 00:27:29.255 the solution,  
NOTE Confidence: 0.9981948  
00:27:29.794 --> 00:27:31.320 but an important first step.  
NOTE Confidence: 0.9848934

00:27:31.720 --> 00:27:33.480 We recognize that there's over  
NOTE Confidence: 0.9848934

00:27:33.480 --> 00:27:35.340 twenty patients on average currently  
NOTE Confidence: 0.9848934

00:27:35.639 --> 00:27:36.919 that are admitted to medicine  
NOTE Confidence: 0.9848934

00:27:36.919 --> 00:27:37.880 or the ED,  
NOTE Confidence: 0.9298862

00:27:38.200 --> 00:27:39.960 that really would be providing  
NOTE Confidence: 0.9298862

00:27:39.960 --> 00:27:41.000 better care if we could  
NOTE Confidence: 0.9298862

00:27:41.000 --> 00:27:42.440 get them into the Smilo  
NOTE Confidence: 0.9298862

00:27:42.440 --> 00:27:42.940 system.  
NOTE Confidence: 0.9825613

00:27:43.720 --> 00:27:45.955 And so recognizing that current  
NOTE Confidence: 0.9825613

00:27:45.955 --> 00:27:47.555 inpatients that can be treated  
NOTE Confidence: 0.9825613

00:27:47.555 --> 00:27:49.555 safely outpatient and making that  
NOTE Confidence: 0.9825613

00:27:49.555 --> 00:27:50.994 shift is really a critical  
NOTE Confidence: 0.9825613

00:27:50.994 --> 00:27:52.355 next step, and we're looking  
NOTE Confidence: 0.9825613

00:27:52.355 --> 00:27:53.575 forward to this shift.  
NOTE Confidence: 0.99623746

00:27:54.515 --> 00:27:55.715 This phase one is nearing  
NOTE Confidence: 0.99623746

00:27:55.715 --> 00:27:56.215 completion.

NOTE Confidence: 0.981238

00:27:56.595 --> 00:27:57.795 EPOC is live, and so

NOTE Confidence: 0.981238

00:27:57.795 --> 00:27:59.230 if you have experience or

NOTE Confidence: 0.981238

00:27:59.230 --> 00:28:00.429 concerns with EPOC or have

NOTE Confidence: 0.981238

00:28:00.429 --> 00:28:01.549 suggestions on how to make

NOTE Confidence: 0.981238

00:28:01.549 --> 00:28:02.289 this work better,

NOTE Confidence: 0.94641334

00:28:02.669 --> 00:28:03.890 feel free to reach out.

NOTE Confidence: 0.94641334

00:28:04.109 --> 00:28:05.390 And then come early twenty

NOTE Confidence: 0.94641334

00:28:05.390 --> 00:28:07.010 twenty five, you'll start seeing

NOTE Confidence: 0.94641334

00:28:07.070 --> 00:28:08.529 the CARVIC d and BRIANZI

NOTE Confidence: 0.94641334

00:28:08.750 --> 00:28:10.289 shifted to the outpatient setting.

NOTE Confidence: 0.89989024

00:28:10.750 --> 00:28:11.390 This is going to be

NOTE Confidence: 0.89989024

00:28:11.390 --> 00:28:12.830 an iterative process and and

NOTE Confidence: 0.89989024

00:28:12.830 --> 00:28:14.130 certainly will be identifying

NOTE Confidence: 0.98328674

00:28:14.494 --> 00:28:15.695 additional inpatient treatments that we

NOTE Confidence: 0.98328674

00:28:15.695 --> 00:28:16.975 hope to transition to the

NOTE Confidence: 0.98328674

00:28:16.975 --> 00:28:18.415 ambulatory setting in the coming

NOTE Confidence: 0.98328674

00:28:18.415 --> 00:28:19.315 months to years.

NOTE Confidence: 0.98975164

00:28:22.975 --> 00:28:24.435 So that is the presentation.

NOTE Confidence: 0.9237289

00:28:28.030 --> 00:28:28.930 Do we wanna

NOTE Confidence: 0.9562233

00:28:29.310 --> 00:28:31.330 allow any questions or perhaps

NOTE Confidence: 0.98039573

00:28:32.910 --> 00:28:34.110 Scott, I know you would

NOTE Confidence: 0.98039573

00:28:34.110 --> 00:28:35.330 have to go to clinic.

NOTE Confidence: 0.98039573

00:28:35.470 --> 00:28:35.869 Yeah.

NOTE Confidence: 0.9828806

00:28:37.390 --> 00:28:38.450 I think we,

NOTE Confidence: 0.99663067

00:28:39.230 --> 00:28:40.590 probably will let you off

NOTE Confidence: 0.99663067

00:28:40.590 --> 00:28:42.005 the hook. Thank you for

NOTE Confidence: 0.99663067

00:28:42.005 --> 00:28:43.144 an excellent presentation.

NOTE Confidence: 0.9936916

00:28:45.205 --> 00:28:46.404 There may be questions at

NOTE Confidence: 0.9936916

00:28:46.404 --> 00:28:47.385 the end that,

NOTE Confidence: 0.99036455

00:28:49.524 --> 00:28:50.485 maybe the rest of us

NOTE Confidence: 0.99036455

00:28:50.485 --> 00:28:52.005 can try to stumble through

NOTE Confidence: 0.99036455

00:28:52.005 --> 00:28:53.605 or circle back with you

NOTE Confidence: 0.99036455

00:28:53.605 --> 00:28:55.524 offline. Very excited about this

NOTE Confidence: 0.99036455

00:28:55.524 --> 00:28:56.024 work.

NOTE Confidence: 0.91155875

00:28:56.380 --> 00:28:57.260 Thank you so much. I

NOTE Confidence: 0.91155875

00:28:57.260 --> 00:28:58.080 appreciate it.

NOTE Confidence: 0.8887042

00:29:00.780 --> 00:29:02.140 Mary Anne and Kate, take

NOTE Confidence: 0.8887042

00:29:02.140 --> 00:29:02.799 it away.

NOTE Confidence: 0.97227645

00:29:03.179 --> 00:29:04.620 Great. Thank you so much,

NOTE Confidence: 0.97227645

00:29:04.620 --> 00:29:06.299 doctor Billingsley, and thank you,

NOTE Confidence: 0.97227645

00:29:06.299 --> 00:29:07.740 Scott, for that great presentation.

NOTE Confidence: 0.97227645

00:29:07.740 --> 00:29:08.700 It really is a great

NOTE Confidence: 0.97227645

00:29:08.700 --> 00:29:09.440 lead into

NOTE Confidence: 0.9183819

00:29:10.015 --> 00:29:12.495 our presentation on Smilo Care

NOTE Confidence: 0.9183819

00:29:12.495 --> 00:29:14.174 Signature work. And it's our

NOTE Confidence: 0.9183819

00:29:14.174 --> 00:29:15.775 pleasure to present to you

NOTE Confidence: 0.9183819

00:29:15.775 --> 00:29:16.815 today. So, Kate, you can  
NOTE Confidence: 0.9183819

00:29:16.815 --> 00:29:17.855 just advance to the next  
NOTE Confidence: 0.9183819

00:29:17.855 --> 00:29:18.355 slide  
NOTE Confidence: 0.82676125

00:29:18.895 --> 00:29:20.115 and the next one.  
NOTE Confidence: 0.949495

00:29:20.415 --> 00:29:21.554 So Care Signature,  
NOTE Confidence: 0.9277196

00:29:21.855 --> 00:29:23.215 really our strategy is to  
NOTE Confidence: 0.9277196

00:29:23.215 --> 00:29:25.420 provide, overall the highest quality  
NOTE Confidence: 0.9277196

00:29:25.420 --> 00:29:26.860 evidence based clinical care across  
NOTE Confidence: 0.9277196

00:29:26.860 --> 00:29:27.520 the continuum,  
NOTE Confidence: 0.8484946

00:29:28.060 --> 00:29:29.500 and really in in sticking  
NOTE Confidence: 0.8484946

00:29:29.500 --> 00:29:30.380 with the things that's,  
NOTE Confidence: 0.9915908

00:29:30.860 --> 00:29:31.180 that,  
NOTE Confidence: 0.9142307

00:29:31.740 --> 00:29:33.760 doctor Huntington just said, minimizing  
NOTE Confidence: 0.9142307

00:29:33.900 --> 00:29:34.720 any unnecessary  
NOTE Confidence: 0.95786124

00:29:35.020 --> 00:29:36.380 variation for our patients and  
NOTE Confidence: 0.95786124

00:29:36.380 --> 00:29:37.660 making sure that we're really

NOTE Confidence: 0.95786124  
00:29:37.660 --> 00:29:39.180 getting the the most equitable  
NOTE Confidence: 0.95786124  
00:29:39.180 --> 00:29:40.960 care across, for patients across  
NOTE Confidence: 0.95786124  
00:29:40.995 --> 00:29:41.155 the,  
NOTE Confidence: 0.96838635  
00:29:41.955 --> 00:29:43.315 the network. Kate and I  
NOTE Confidence: 0.96838635  
00:29:43.315 --> 00:29:44.915 have, began our working care  
NOTE Confidence: 0.96838635  
00:29:44.915 --> 00:29:46.115 signature about a year ago,  
NOTE Confidence: 0.96838635  
00:29:46.115 --> 00:29:46.915 and so we're happy to  
NOTE Confidence: 0.96838635  
00:29:46.915 --> 00:29:48.755 share, the progress so far.  
NOTE Confidence: 0.96838635  
00:29:48.755 --> 00:29:49.575 Next slide.  
NOTE Confidence: 0.9377888  
00:29:52.675 --> 00:29:53.795 So these are our council  
NOTE Confidence: 0.9377888  
00:29:53.795 --> 00:29:55.495 members for our general council.  
NOTE Confidence: 0.97473675  
00:29:56.300 --> 00:29:58.860 They we had originally had  
NOTE Confidence: 0.97473675  
00:29:58.860 --> 00:30:00.480 councils for each specialty.  
NOTE Confidence: 0.8915827  
00:30:01.260 --> 00:30:03.120 Breast council and  
NOTE Confidence: 0.9905141  
00:30:03.500 --> 00:30:04.480 classical hematology  
NOTE Confidence: 0.9940219

00:30:04.860 --> 00:30:06.300 are two of the councils  
NOTE Confidence: 0.9940219

00:30:06.300 --> 00:30:07.420 that have done,  
NOTE Confidence: 0.94016135

00:30:07.820 --> 00:30:09.440 significant work in Care Signature,  
NOTE Confidence: 0.9548197

00:30:09.885 --> 00:30:12.125 and we decided that we  
NOTE Confidence: 0.9548197

00:30:12.125 --> 00:30:13.325 needed more of a general  
NOTE Confidence: 0.9548197

00:30:13.325 --> 00:30:14.445 one that can touch all  
NOTE Confidence: 0.9548197

00:30:14.445 --> 00:30:16.205 of Smilo. So our council  
NOTE Confidence: 0.9548197

00:30:16.205 --> 00:30:17.585 chair is Scott Huntington.  
NOTE Confidence: 0.9726033

00:30:17.885 --> 00:30:19.505 Our sponsors are Kevin Billingsley  
NOTE Confidence: 0.9726033

00:30:19.565 --> 00:30:20.545 and Tracy Carafino.  
NOTE Confidence: 0.97930235

00:30:21.005 --> 00:30:21.965 And as you can see,  
NOTE Confidence: 0.97930235

00:30:21.965 --> 00:30:23.885 we have a diverse group,  
NOTE Confidence: 0.97930235

00:30:24.205 --> 00:30:25.025 who's representing,  
NOTE Confidence: 0.8925607

00:30:26.100 --> 00:30:27.960 the entire Smilo network.  
NOTE Confidence: 0.9691952

00:30:33.460 --> 00:30:34.500 So what are we actually  
NOTE Confidence: 0.9691952

00:30:34.500 --> 00:30:35.620 doing with the Care Signature

NOTE Confidence: 0.9691952

00:30:35.620 --> 00:30:36.820 group? So the council meets

NOTE Confidence: 0.9691952

00:30:36.820 --> 00:30:38.280 and actually helps to prioritize

NOTE Confidence: 0.9691952

00:30:38.500 --> 00:30:40.020 the, pathway work that is

NOTE Confidence: 0.9691952

00:30:40.020 --> 00:30:41.080 going to be developed.

NOTE Confidence: 0.9621211

00:30:41.835 --> 00:30:43.034 But then from that, we

NOTE Confidence: 0.9621211

00:30:43.034 --> 00:30:45.115 develop clinical consensus groups or

NOTE Confidence: 0.9621211

00:30:45.115 --> 00:30:46.155 what we refer to as

NOTE Confidence: 0.9621211

00:30:46.155 --> 00:30:46.655 CCGs.

NOTE Confidence: 0.99119574

00:30:47.034 --> 00:30:48.395 These groups are a group

NOTE Confidence: 0.99119574

00:30:48.395 --> 00:30:49.595 of, really,

NOTE Confidence: 0.9925024

00:30:50.075 --> 00:30:52.495 expert stakeholders across our network

NOTE Confidence: 0.9925024

00:30:52.794 --> 00:30:54.815 that help to, really review,

NOTE Confidence: 0.9911592

00:30:55.429 --> 00:30:57.510 clinical data, help identify what

NOTE Confidence: 0.9911592

00:30:57.510 --> 00:30:58.630 the scope of a pathway

NOTE Confidence: 0.9911592

00:30:58.630 --> 00:31:00.150 is going to be, making

NOTE Confidence: 0.9911592

00:31:00.150 --> 00:31:01.750 sure that we're reviewing any  
NOTE Confidence: 0.9911592

00:31:01.750 --> 00:31:03.750 variations across our network in  
NOTE Confidence: 0.9911592

00:31:03.750 --> 00:31:05.049 terms of how we're delivering  
NOTE Confidence: 0.9911592

00:31:05.110 --> 00:31:05.610 care,  
NOTE Confidence: 0.89570636

00:31:05.990 --> 00:31:08.295 identifying national and international guidelines  
NOTE Confidence: 0.84327507

00:31:08.775 --> 00:31:09.275 recommendations,  
NOTE Confidence: 0.9669

00:31:09.575 --> 00:31:10.855 and really helping to kind  
NOTE Confidence: 0.9669

00:31:10.855 --> 00:31:12.295 of merge those all together  
NOTE Confidence: 0.9669

00:31:12.295 --> 00:31:14.155 and how, we can help  
NOTE Confidence: 0.9669

00:31:14.215 --> 00:31:16.395 deliver a care signature pathway  
NOTE Confidence: 0.9956043

00:31:16.935 --> 00:31:17.995 that represents  
NOTE Confidence: 0.98820573

00:31:18.295 --> 00:31:20.135 the SMILO way of how  
NOTE Confidence: 0.98820573

00:31:20.135 --> 00:31:21.495 we are actually delivering care  
NOTE Confidence: 0.98820573

00:31:21.495 --> 00:31:22.875 on a particular topic.  
NOTE Confidence: 0.99245304

00:31:23.650 --> 00:31:24.230 The group,  
NOTE Confidence: 0.9861278

00:31:24.610 --> 00:31:25.110 analyzes,

NOTE Confidence: 0.98019636  
00:31:25.490 --> 00:31:27.010 any relevant data and then  
NOTE Confidence: 0.98019636  
00:31:27.010 --> 00:31:28.850 builds a draft of a,  
NOTE Confidence: 0.9622238  
00:31:29.490 --> 00:31:31.170 of a pathway, which is  
NOTE Confidence: 0.9622238  
00:31:31.170 --> 00:31:32.690 kind of step five. And  
NOTE Confidence: 0.9622238  
00:31:32.690 --> 00:31:33.810 once it kind of goes  
NOTE Confidence: 0.9622238  
00:31:33.810 --> 00:31:35.030 live where it's implemented,  
NOTE Confidence: 0.9907131  
00:31:35.345 --> 00:31:36.005 it's accessible,  
NOTE Confidence: 0.956118  
00:31:36.625 --> 00:31:37.985 on epic, then we can  
NOTE Confidence: 0.956118  
00:31:37.985 --> 00:31:39.745 begin to look at, data,  
NOTE Confidence: 0.95279175  
00:31:40.145 --> 00:31:41.665 such as how often the  
NOTE Confidence: 0.95279175  
00:31:41.665 --> 00:31:42.785 pathway has been used and  
NOTE Confidence: 0.95279175  
00:31:42.785 --> 00:31:43.825 if we're making an impact  
NOTE Confidence: 0.95279175  
00:31:43.825 --> 00:31:45.505 on patient outcomes. So doctor  
NOTE Confidence: 0.95279175  
00:31:45.505 --> 00:31:46.005 Huntington  
NOTE Confidence: 0.9842768  
00:31:46.305 --> 00:31:47.825 mentioned a couple of key  
NOTE Confidence: 0.9842768

00:31:47.825 --> 00:31:49.185 areas in terms of CAR  
NOTE Confidence: 0.9842768

00:31:49.185 --> 00:31:49.685 T,  
NOTE Confidence: 0.98056585

00:31:50.490 --> 00:31:51.950 and management of patients,  
NOTE Confidence: 0.9831894

00:31:52.410 --> 00:31:54.250 adverse events associated with that.  
NOTE Confidence: 0.9831894

00:31:54.250 --> 00:31:55.930 And so once those patients  
NOTE Confidence: 0.9831894

00:31:55.930 --> 00:31:56.890 are starting to be treated  
NOTE Confidence: 0.9831894

00:31:56.890 --> 00:31:58.170 on the outpatient setting and  
NOTE Confidence: 0.9831894

00:31:58.170 --> 00:31:59.370 we're using our pathways, we'll  
NOTE Confidence: 0.9831894

00:31:59.370 --> 00:32:00.170 be able to look at,  
NOTE Confidence: 0.9831894

00:32:00.410 --> 00:32:02.430 the impact of, the data,  
NOTE Confidence: 0.99703866

00:32:02.775 --> 00:32:03.735 and the usage of the  
NOTE Confidence: 0.99703866

00:32:03.735 --> 00:32:05.255 pathways. So that's just one  
NOTE Confidence: 0.99703866

00:32:05.255 --> 00:32:05.755 example.  
NOTE Confidence: 0.96493936

00:32:06.455 --> 00:32:07.255 We'll go to the next  
NOTE Confidence: 0.96493936

00:32:07.255 --> 00:32:07.755 slide.  
NOTE Confidence: 0.99547994

00:32:08.615 --> 00:32:09.675 Yep. So

NOTE Confidence: 0.88004947  
00:32:10.215 --> 00:32:11.735 Care Signature is not just  
NOTE Confidence: 0.88004947  
00:32:11.735 --> 00:32:14.135 about pathways, and Mary Anne  
NOTE Confidence: 0.88004947  
00:32:14.135 --> 00:32:16.295 kinda just mentioned that as  
NOTE Confidence: 0.88004947  
00:32:16.295 --> 00:32:16.795 well.  
NOTE Confidence: 0.9727317  
00:32:17.330 --> 00:32:18.450 But we touch upon a  
NOTE Confidence: 0.9727317  
00:32:18.450 --> 00:32:19.810 lot of things, such as  
NOTE Confidence: 0.9727317  
00:32:19.810 --> 00:32:21.030 orders, system policies,  
NOTE Confidence: 0.72082317  
00:32:21.490 --> 00:32:22.630 referral workflows,  
NOTE Confidence: 0.9081993  
00:32:24.130 --> 00:32:24.630 operational,  
NOTE Confidence: 0.9947841  
00:32:25.490 --> 00:32:27.490 needs. And so we we  
NOTE Confidence: 0.9947841  
00:32:27.490 --> 00:32:28.930 do want you guys to  
NOTE Confidence: 0.9947841  
00:32:28.930 --> 00:32:29.970 be able feel free to  
NOTE Confidence: 0.9947841  
00:32:29.970 --> 00:32:31.090 reach out to us in  
NOTE Confidence: 0.9947841  
00:32:31.090 --> 00:32:31.990 any capacity  
NOTE Confidence: 0.9562072  
00:32:32.290 --> 00:32:33.945 to help. We just use  
NOTE Confidence: 0.9562072

00:32:33.945 --> 00:32:35.304 pathways as a tool and  
NOTE Confidence: 0.9562072

00:32:35.304 --> 00:32:36.905 a vehicle of change and  
NOTE Confidence: 0.9562072

00:32:36.905 --> 00:32:38.265 and one way of being  
NOTE Confidence: 0.9562072

00:32:38.265 --> 00:32:39.705 able to communicate to all  
NOTE Confidence: 0.9562072

00:32:39.705 --> 00:32:40.445 of Smilo.  
NOTE Confidence: 0.98221827

00:32:45.780 --> 00:32:47.780 So we've, been busy in  
NOTE Confidence: 0.98221827

00:32:47.780 --> 00:32:48.660 the past year.  
NOTE Confidence: 0.98748004

00:32:49.140 --> 00:32:50.580 And so in the past  
NOTE Confidence: 0.98748004

00:32:50.580 --> 00:32:52.760 year, we've had several general  
NOTE Confidence: 0.99142015

00:32:53.060 --> 00:32:54.520 pathways that have been approved,  
NOTE Confidence: 0.92968893

00:32:55.060 --> 00:32:57.620 pathways specific to, the breast  
NOTE Confidence: 0.92968893

00:32:57.620 --> 00:32:58.120 center,  
NOTE Confidence: 0.9642625

00:32:58.500 --> 00:32:59.800 and classical hematology,  
NOTE Confidence: 0.96592194

00:33:00.580 --> 00:33:02.414 while, iron iron deficiency anemia  
NOTE Confidence: 0.96592194

00:33:02.414 --> 00:33:03.534 is one that's approved. The  
NOTE Confidence: 0.96592194

00:33:03.534 --> 00:33:04.495 ones that are in the

NOTE Confidence: 0.96592194  
00:33:04.495 --> 00:33:05.615 process on the bottom will  
NOTE Confidence: 0.96592194  
00:33:05.615 --> 00:33:06.755 go live in December.  
NOTE Confidence: 0.9796112  
00:33:07.534 --> 00:33:09.054 And then, key work in  
NOTE Confidence: 0.9796112  
00:33:09.054 --> 00:33:09.554 malignant,  
NOTE Confidence: 0.99012494  
00:33:09.934 --> 00:33:10.434 hematology,  
NOTE Confidence: 0.9621528  
00:33:10.735 --> 00:33:12.654 particularly in, the CAR T  
NOTE Confidence: 0.9621528  
00:33:12.654 --> 00:33:13.154 world.  
NOTE Confidence: 0.9806334  
00:33:13.615 --> 00:33:14.654 You can see under general  
NOTE Confidence: 0.9806334  
00:33:14.654 --> 00:33:15.855 counsel, these are there are  
NOTE Confidence: 0.9806334  
00:33:15.855 --> 00:33:17.980 several pathways that, really can  
NOTE Confidence: 0.9806334  
00:33:17.980 --> 00:33:19.580 help guide practice across our  
NOTE Confidence: 0.9806334  
00:33:19.580 --> 00:33:20.880 network, both in the inpatient  
NOTE Confidence: 0.9806334  
00:33:21.020 --> 00:33:22.320 setting and in the ambulatory  
NOTE Confidence: 0.9806334  
00:33:22.539 --> 00:33:23.039 setting.  
NOTE Confidence: 0.82778704  
00:33:24.299 --> 00:33:26.240 Work around hepatitis monitoring,  
NOTE Confidence: 0.99760354

00:33:26.700 --> 00:33:27.200 hypersensitivity  
NOTE Confidence: 0.9230927

00:33:27.740 --> 00:33:29.260 reactions. This is one example  
NOTE Confidence: 0.9230927

00:33:29.260 --> 00:33:30.140 of where we actually are,  
NOTE Confidence: 0.9230927

00:33:30.539 --> 00:33:32.299 changed workflows and responses, particularly  
NOTE Confidence: 0.9230927

00:33:32.299 --> 00:33:32.880 in the  
NOTE Confidence: 0.99291337

00:33:35.794 --> 00:33:37.075 and then the work on,  
NOTE Confidence: 0.99291337

00:33:37.394 --> 00:33:38.134 the bispecific  
NOTE Confidence: 0.9378519

00:33:38.514 --> 00:33:40.274 T cell engager therapy, which  
NOTE Confidence: 0.9378519

00:33:40.274 --> 00:33:41.975 is active in the inpatient,  
NOTE Confidence: 0.9894304

00:33:42.514 --> 00:33:44.115 setting right now. And we  
NOTE Confidence: 0.9894304

00:33:44.115 --> 00:33:45.715 have several pathways that are  
NOTE Confidence: 0.9894304

00:33:45.715 --> 00:33:46.375 in progress,  
NOTE Confidence: 0.99434423

00:33:46.754 --> 00:33:47.495 right now.  
NOTE Confidence: 0.9391339

00:33:47.875 --> 00:33:50.790 I'm, particularly focusing on, the  
NOTE Confidence: 0.9391339

00:33:50.790 --> 00:33:52.310 bispecifics and and the CAR  
NOTE Confidence: 0.9391339

00:33:52.310 --> 00:33:53.530 Ts, foregoing,

NOTE Confidence: 0.98381233  
00:33:54.070 --> 00:33:55.690 live in the outpatient setting,  
NOTE Confidence: 0.9886311  
00:33:56.150 --> 00:33:58.150 working on neutropenic fever, both  
NOTE Confidence: 0.9886311  
00:33:58.150 --> 00:33:59.210 inpatient ambulatory,  
NOTE Confidence: 0.9907335  
00:34:00.150 --> 00:34:01.050 and also,  
NOTE Confidence: 0.98338604  
00:34:01.590 --> 00:34:03.130 immune related, toxicities,  
NOTE Confidence: 0.99743074  
00:34:03.825 --> 00:34:04.965 starting with pneumonitis.  
NOTE Confidence: 0.9601165  
00:34:05.505 --> 00:34:06.945 And Kate is focused on  
NOTE Confidence: 0.9601165  
00:34:06.945 --> 00:34:08.705 infusion everywhere right now,  
NOTE Confidence: 0.90337247  
00:34:09.105 --> 00:34:10.325 and also PEDVT  
NOTE Confidence: 0.9463523  
00:34:10.705 --> 00:34:11.825 in addition to her work  
NOTE Confidence: 0.9463523  
00:34:11.825 --> 00:34:13.285 with the breast center.  
NOTE Confidence: 0.9735518  
00:34:16.800 --> 00:34:18.000 We just wanted to give  
NOTE Confidence: 0.9735518  
00:34:18.000 --> 00:34:20.340 you a a quick glimpse  
NOTE Confidence: 0.9735518  
00:34:20.400 --> 00:34:22.320 of what is out there  
NOTE Confidence: 0.9735518  
00:34:22.320 --> 00:34:23.140 in Pathways.  
NOTE Confidence: 0.9788257

00:34:23.840 --> 00:34:25.680 Our colleagues have been developing

NOTE Confidence: 0.9788257

00:34:25.680 --> 00:34:27.520 Pathways for over three years

NOTE Confidence: 0.9788257

00:34:27.520 --> 00:34:28.800 now, and a lot of

NOTE Confidence: 0.9788257

00:34:28.800 --> 00:34:30.900 them are relevant to Smilo.

NOTE Confidence: 0.9915895

00:34:31.625 --> 00:34:32.825 So these are just a

NOTE Confidence: 0.9915895

00:34:32.825 --> 00:34:35.224 few and not nearly as

NOTE Confidence: 0.9915895

00:34:35.224 --> 00:34:37.405 many as you could actually

NOTE Confidence: 0.9915895

00:34:37.625 --> 00:34:38.765 find in

NOTE Confidence: 0.9728857

00:34:39.224 --> 00:34:40.045 in the,

NOTE Confidence: 0.9366714

00:34:40.984 --> 00:34:42.905 the pathway link or pathway

NOTE Confidence: 0.9366714

00:34:42.905 --> 00:34:43.964 tab in Epic.

NOTE Confidence: 0.99973625

00:34:44.505 --> 00:34:45.625 But you can see that

NOTE Confidence: 0.99973625

00:34:45.625 --> 00:34:47.405 there are plenty of

NOTE Confidence: 0.9580145

00:34:48.960 --> 00:34:51.040 pathways that relate to us

NOTE Confidence: 0.9580145

00:34:51.040 --> 00:34:52.580 that our colleagues have created.

NOTE Confidence: 0.9704802

00:34:53.280 --> 00:34:54.560 We have created a SMILO

NOTE Confidence: 0.9704802  
00:34:54.560 --> 00:34:55.540 table of contents  
NOTE Confidence: 0.99394745  
00:34:55.920 --> 00:34:57.520 in order to kind of  
NOTE Confidence: 0.99394745  
00:34:57.520 --> 00:34:58.020 organize  
NOTE Confidence: 0.9844595  
00:34:58.320 --> 00:34:58.980 for you,  
NOTE Confidence: 0.95844376  
00:34:59.600 --> 00:35:00.880 the ability to see a  
NOTE Confidence: 0.95844376  
00:35:00.880 --> 00:35:02.160 lot of these pathways and  
NOTE Confidence: 0.95844376  
00:35:02.160 --> 00:35:03.140 in in different  
NOTE Confidence: 0.9555399  
00:35:03.945 --> 00:35:06.445 formats, such as disease specific  
NOTE Confidence: 0.95403534  
00:35:07.065 --> 00:35:09.145 or supportive care or anything  
NOTE Confidence: 0.95403534  
00:35:09.145 --> 00:35:10.985 like that. So pea please  
NOTE Confidence: 0.95403534  
00:35:10.985 --> 00:35:12.185 feel free. That is a  
NOTE Confidence: 0.95403534  
00:35:12.185 --> 00:35:13.245 pathway itself.  
NOTE Confidence: 0.97321177  
00:35:13.785 --> 00:35:14.905 Feel free to look in  
NOTE Confidence: 0.97321177  
00:35:14.905 --> 00:35:16.585 the tab pathway and find  
NOTE Confidence: 0.97321177  
00:35:16.585 --> 00:35:17.465 it and look at what  
NOTE Confidence: 0.97321177

00:35:17.465 --> 00:35:19.140 you can. And you you  
NOTE Confidence: 0.97321177

00:35:19.140 --> 00:35:20.660 can even search any word  
NOTE Confidence: 0.97321177

00:35:20.660 --> 00:35:21.619 that you think and say,  
NOTE Confidence: 0.97321177

00:35:21.619 --> 00:35:22.500 I wonder if there's a  
NOTE Confidence: 0.97321177

00:35:22.500 --> 00:35:23.780 pathway for that. Kind of  
NOTE Confidence: 0.97321177

00:35:23.780 --> 00:35:24.660 like, I wonder if there's  
NOTE Confidence: 0.97321177

00:35:24.660 --> 00:35:25.559 an app for that.  
NOTE Confidence: 0.9976125

00:35:25.859 --> 00:35:26.359 So  
NOTE Confidence: 0.99185616

00:35:26.660 --> 00:35:27.700 please look at it and  
NOTE Confidence: 0.99185616

00:35:27.700 --> 00:35:28.200 see.  
NOTE Confidence: 0.81530416

00:35:32.364 --> 00:35:33.265 So Smilo,  
NOTE Confidence: 0.9677869

00:35:33.724 --> 00:35:35.164 we just started building a  
NOTE Confidence: 0.9677869

00:35:35.164 --> 00:35:37.005 pathway specific to Smilo in,  
NOTE Confidence: 0.9677869

00:35:37.244 --> 00:35:38.224 the past year.  
NOTE Confidence: 0.97640145

00:35:38.605 --> 00:35:40.224 As Kate mentioned, our colleagues  
NOTE Confidence: 0.97640145

00:35:40.285 --> 00:35:41.885 across the network such as,

NOTE Confidence: 0.97640145

00:35:42.285 --> 00:35:44.545 in the ICUs, internal medicine,

NOTE Confidence: 0.97640145

00:35:44.605 --> 00:35:45.800 the surgical realm have been

NOTE Confidence: 0.97640145

00:35:45.800 --> 00:35:47.239 building pathways for about three

NOTE Confidence: 0.97640145

00:35:47.239 --> 00:35:48.040 years, and you can see

NOTE Confidence: 0.97640145

00:35:48.040 --> 00:35:48.780 the significant

NOTE Confidence: 0.9811232

00:35:49.080 --> 00:35:50.920 growth over the past, several

NOTE Confidence: 0.9811232

00:35:50.920 --> 00:35:51.420 years.

NOTE Confidence: 0.9835387

00:35:52.200 --> 00:35:53.480 To date there's been over

NOTE Confidence: 0.9835387

00:35:53.480 --> 00:35:54.760 a million pathways that have

NOTE Confidence: 0.9835387

00:35:54.760 --> 00:35:56.440 been used by over twelve

NOTE Confidence: 0.9835387

00:35:56.440 --> 00:35:57.180 hundred unique,

NOTE Confidence: 0.8263641

00:35:58.434 --> 00:35:58.934 network,

NOTE Confidence: 0.9923404

00:35:59.395 --> 00:36:00.214 staff members.

NOTE Confidence: 0.9839826

00:36:00.914 --> 00:36:02.855 And there's been significant involvement

NOTE Confidence: 0.9839826

00:36:02.914 --> 00:36:04.775 by many of our colleagues,

NOTE Confidence: 0.9839826

00:36:04.914 --> 00:36:06.594 our clinical experts. So over  
NOTE Confidence: 0.9839826

00:36:06.594 --> 00:36:08.214 a thousand people have participated  
NOTE Confidence: 0.9839826

00:36:08.355 --> 00:36:09.954 on these clinical consensus groups,  
NOTE Confidence: 0.9839826

00:36:09.954 --> 00:36:11.400 which is really,  
NOTE Confidence: 0.9943203

00:36:11.700 --> 00:36:12.980 the backbone of how these  
NOTE Confidence: 0.9943203

00:36:12.980 --> 00:36:14.340 pathways get developed. So we  
NOTE Confidence: 0.9943203

00:36:14.340 --> 00:36:15.860 really do value that that,  
NOTE Confidence: 0.98971486

00:36:16.260 --> 00:36:17.620 contribution that all of our  
NOTE Confidence: 0.98971486

00:36:17.620 --> 00:36:18.120 colleagues,  
NOTE Confidence: 0.9593086

00:36:18.500 --> 00:36:19.780 make to participating in the  
NOTE Confidence: 0.9593086

00:36:19.780 --> 00:36:20.920 CCGs because,  
NOTE Confidence: 0.7504087

00:36:21.860 --> 00:36:22.520 the pathways,  
NOTE Confidence: 0.9961134

00:36:22.965 --> 00:36:24.265 wouldn't be as impactful,  
NOTE Confidence: 0.956475

00:36:24.645 --> 00:36:25.525 if Kate and I just  
NOTE Confidence: 0.956475

00:36:25.525 --> 00:36:26.485 developed them in a in  
NOTE Confidence: 0.956475

00:36:26.485 --> 00:36:27.845 a silo. So we really

NOTE Confidence: 0.956475  
00:36:27.845 --> 00:36:28.745 need our Smilo,  
NOTE Confidence: 0.91828984  
00:36:29.925 --> 00:36:31.785 clinical experts to to participate,  
NOTE Confidence: 0.9809432  
00:36:32.645 --> 00:36:33.525 in this. And you can  
NOTE Confidence: 0.9809432  
00:36:33.525 --> 00:36:34.965 see the significant growth in  
NOTE Confidence: 0.9809432  
00:36:34.965 --> 00:36:36.200 the number of pathways and  
NOTE Confidence: 0.9809432  
00:36:36.200 --> 00:36:38.119 and, usage over the past,  
NOTE Confidence: 0.9809432  
00:36:38.359 --> 00:36:38.859 particularly,  
NOTE Confidence: 0.9805279  
00:36:39.239 --> 00:36:40.680 in the past year. And  
NOTE Confidence: 0.9805279  
00:36:40.680 --> 00:36:41.960 some of that attributable to  
NOTE Confidence: 0.9805279  
00:36:41.960 --> 00:36:42.680 the fact that we now  
NOTE Confidence: 0.9805279  
00:36:42.680 --> 00:36:44.680 have Smilo pathways. So we,  
NOTE Confidence: 0.9805279  
00:36:45.000 --> 00:36:45.799 we have a way of  
NOTE Confidence: 0.9805279  
00:36:45.799 --> 00:36:47.079 actually looking at the data  
NOTE Confidence: 0.9805279  
00:36:47.079 --> 00:36:48.680 to see which pathways are  
NOTE Confidence: 0.9805279  
00:36:48.680 --> 00:36:49.960 being used and by which  
NOTE Confidence: 0.9805279

00:36:49.960 --> 00:36:51.865 providers. And so we're hoping  
NOTE Confidence: 0.9805279

00:36:51.865 --> 00:36:53.705 to be using this information.  
NOTE Confidence: 0.9805279

00:36:53.705 --> 00:36:54.825 And I know that Doctor.  
NOTE Confidence: 0.9805279

00:36:54.825 --> 00:36:56.665 Morris certainly does use this  
NOTE Confidence: 0.9805279

00:36:56.665 --> 00:36:57.945 information when she meets with  
NOTE Confidence: 0.9805279

00:36:57.945 --> 00:36:58.685 her hospital,  
NOTE Confidence: 0.9841189

00:36:59.065 --> 00:37:00.985 inpatient team to really say,  
NOTE Confidence: 0.9841189

00:37:00.985 --> 00:37:02.425 you know, this is this  
NOTE Confidence: 0.9841189

00:37:02.425 --> 00:37:04.280 is how how often, we're  
NOTE Confidence: 0.9841189

00:37:04.280 --> 00:37:05.020 we're utilizing,  
NOTE Confidence: 0.9732318

00:37:05.320 --> 00:37:06.360 this information. Yeah. Kate, you  
NOTE Confidence: 0.9732318

00:37:06.360 --> 00:37:06.920 can go to the next  
NOTE Confidence: 0.9732318

00:37:06.920 --> 00:37:08.140 slide. I'm sorry. Sorry.  
NOTE Confidence: 0.8854586

00:37:09.640 --> 00:37:11.000 There you go. So this  
NOTE Confidence: 0.8854586

00:37:11.000 --> 00:37:11.820 is the ambulatory  
NOTE Confidence: 0.8758117

00:37:12.680 --> 00:37:13.900 SMILO utilization.

NOTE Confidence: 0.97868973

00:37:14.680 --> 00:37:16.040 And as you can see,

NOTE Confidence: 0.97868973

00:37:16.040 --> 00:37:18.145 it it has grown, and

NOTE Confidence: 0.97868973

00:37:18.145 --> 00:37:19.425 we hope it will grow

NOTE Confidence: 0.97868973

00:37:19.425 --> 00:37:20.165 even further.

NOTE Confidence: 0.98065597

00:37:21.265 --> 00:37:22.625 But it it's slow growing

NOTE Confidence: 0.98065597

00:37:22.625 --> 00:37:24.065 growing, but that that's what

NOTE Confidence: 0.98065597

00:37:24.065 --> 00:37:25.585 our colleagues saw as well.

NOTE Confidence: 0.98065597

00:37:25.585 --> 00:37:26.625 And so that's why we

NOTE Confidence: 0.98065597

00:37:26.625 --> 00:37:27.825 are presenting at the town

NOTE Confidence: 0.98065597

00:37:27.825 --> 00:37:28.704 hall. We're trying to get

NOTE Confidence: 0.98065597

00:37:28.704 --> 00:37:30.065 out the word that these

NOTE Confidence: 0.98065597

00:37:30.065 --> 00:37:30.565 these

NOTE Confidence: 0.9564634

00:37:30.900 --> 00:37:33.400 pathways are for everyone. Nurses,

NOTE Confidence: 0.9564634

00:37:33.619 --> 00:37:34.119 residents,

NOTE Confidence: 0.99102056

00:37:34.420 --> 00:37:34.920 fellows,

NOTE Confidence: 0.93977505

00:37:35.619 --> 00:37:36.119 attendings,  
NOTE Confidence: 0.99112785

00:37:36.500 --> 00:37:38.500 everyone can utilize these pathways.  
NOTE Confidence: 0.99112785

00:37:38.500 --> 00:37:39.380 And if you don't feel  
NOTE Confidence: 0.99112785

00:37:39.380 --> 00:37:40.579 it's in your scope, you  
NOTE Confidence: 0.99112785

00:37:40.579 --> 00:37:41.460 at least can use it  
NOTE Confidence: 0.99112785

00:37:41.460 --> 00:37:42.920 as a vehicle of communication  
NOTE Confidence: 0.99112785

00:37:43.140 --> 00:37:44.579 with your your team and  
NOTE Confidence: 0.99112785

00:37:44.579 --> 00:37:45.079 see,  
NOTE Confidence: 0.9898289

00:37:45.465 --> 00:37:46.745 hey. I noticed that it's  
NOTE Confidence: 0.9898289

00:37:46.825 --> 00:37:47.885 this is in the pathway.  
NOTE Confidence: 0.9898289

00:37:47.945 --> 00:37:49.385 Why are we deviating from  
NOTE Confidence: 0.9898289

00:37:49.385 --> 00:37:50.045 the pathway?  
NOTE Confidence: 0.99774617

00:37:50.505 --> 00:37:52.345 So so please look at  
NOTE Confidence: 0.99774617

00:37:52.345 --> 00:37:53.325 them. They're great.  
NOTE Confidence: 0.9974028

00:37:57.065 --> 00:37:58.105 So as I started to  
NOTE Confidence: 0.9974028

00:37:58.105 --> 00:37:59.465 mention, we can actually delve

NOTE Confidence: 0.9974028  
00:37:59.465 --> 00:38:00.859 down into the utilization  
NOTE Confidence: 0.90267015  
00:38:01.239 --> 00:38:03.739 by, delivery network, by units  
NOTE Confidence: 0.90267015  
00:38:03.799 --> 00:38:04.940 at who's using them,  
NOTE Confidence: 0.9939587  
00:38:05.480 --> 00:38:06.839 and even down to the  
NOTE Confidence: 0.9939587  
00:38:06.839 --> 00:38:07.339 providers,  
NOTE Confidence: 0.98659515  
00:38:07.880 --> 00:38:08.839 either on a on a  
NOTE Confidence: 0.98659515  
00:38:08.839 --> 00:38:10.519 daily basis, a monthly basis,  
NOTE Confidence: 0.98659515  
00:38:10.519 --> 00:38:11.019 etcetera.  
NOTE Confidence: 0.96648455  
00:38:11.880 --> 00:38:12.920 And so in some of  
NOTE Confidence: 0.96648455  
00:38:12.920 --> 00:38:14.279 our, for some of our  
NOTE Confidence: 0.96648455  
00:38:14.279 --> 00:38:15.255 colleagues across,  
NOTE Confidence: 0.99787974  
00:38:15.734 --> 00:38:16.234 the  
NOTE Confidence: 0.8691431  
00:38:17.174 --> 00:38:17.914 health system  
NOTE Confidence: 0.9930111  
00:38:18.295 --> 00:38:19.914 are actually using this information,  
NOTE Confidence: 0.9408603  
00:38:20.775 --> 00:38:22.614 for, and the metrics really,  
NOTE Confidence: 0.9408603

00:38:23.015 --> 00:38:24.714 for quality and safety purposes

NOTE Confidence: 0.9408603

00:38:24.775 --> 00:38:26.855 and to drive changes in

NOTE Confidence: 0.9408603

00:38:26.855 --> 00:38:28.410 care and look at outcomes.

NOTE Confidence: 0.9408603

00:38:28.410 --> 00:38:28.730 So,

NOTE Confidence: 0.93026716

00:38:30.170 --> 00:38:31.230 most of the pathways

NOTE Confidence: 0.9931421

00:38:31.530 --> 00:38:32.589 are not mandatory.

NOTE Confidence: 0.9704587

00:38:32.969 --> 00:38:35.210 They are, ex really just

NOTE Confidence: 0.9704587

00:38:35.210 --> 00:38:37.210 used, if a person is

NOTE Confidence: 0.9704587

00:38:37.210 --> 00:38:38.650 looking for some guidance, but

NOTE Confidence: 0.9704587

00:38:38.650 --> 00:38:40.030 there are a few pathways

NOTE Confidence: 0.9704587

00:38:40.089 --> 00:38:40.589 that,

NOTE Confidence: 0.96268207

00:38:41.085 --> 00:38:41.805 were made,

NOTE Confidence: 0.8749071

00:38:42.205 --> 00:38:43.425 mandatory such as,

NOTE Confidence: 0.96113324

00:38:44.045 --> 00:38:45.025 when COVID,

NOTE Confidence: 0.8598077

00:38:45.405 --> 00:38:46.685 was really, really active. When

NOTE Confidence: 0.8598077

00:38:46.685 --> 00:38:47.645 we were looking at,

NOTE Confidence: 0.98299015  
00:38:48.125 --> 00:38:49.984 strategies for mitigation and medication  
NOTE Confidence: 0.98299015  
00:38:50.045 --> 00:38:51.645 prescriptions, it was mandatory to  
NOTE Confidence: 0.98299015  
00:38:51.645 --> 00:38:52.705 utilize the pathway,  
NOTE Confidence: 0.9582021  
00:38:53.250 --> 00:38:54.550 in order to prescribe.  
NOTE Confidence: 0.9719709  
00:38:55.410 --> 00:38:56.210 We began,  
NOTE Confidence: 0.99775934  
00:38:56.610 --> 00:38:58.930 utilizing the pathway for blood  
NOTE Confidence: 0.99775934  
00:38:58.930 --> 00:38:59.430 cultures,  
NOTE Confidence: 0.9925892  
00:39:00.130 --> 00:39:00.630 etcetera.  
NOTE Confidence: 0.95223165  
00:39:01.170 --> 00:39:02.050 So those are just a  
NOTE Confidence: 0.95223165  
00:39:02.050 --> 00:39:03.410 few examples of things that  
NOTE Confidence: 0.95223165  
00:39:03.410 --> 00:39:05.410 are, were made mandatory. And  
NOTE Confidence: 0.95223165  
00:39:05.410 --> 00:39:06.450 maybe in the future, we  
NOTE Confidence: 0.95223165  
00:39:06.450 --> 00:39:08.630 may make other, types of  
NOTE Confidence: 0.95223165  
00:39:08.864 --> 00:39:09.605 the vehicle  
NOTE Confidence: 0.9314497  
00:39:10.305 --> 00:39:10.805 for  
NOTE Confidence: 0.9480927

00:39:11.665 --> 00:39:12.331 which, care is delivered or  
NOTE Confidence: 0.9480927

00:39:12.331 --> 00:39:12.929 or, patient care, side effects,  
NOTE Confidence: 0.9480927

00:39:12.929 --> 00:39:13.585 etcetera, are managed. And you  
NOTE Confidence: 0.9480927

00:39:13.585 --> 00:39:14.705 can see on this slide  
NOTE Confidence: 0.9480927

00:39:14.705 --> 00:39:16.244 that the inpatient utilization went  
NOTE Confidence: 0.9480927

00:39:16.385 --> 00:39:16.885 up  
NOTE Confidence: 0.98181117

00:39:23.270 --> 00:39:25.369 when ECART and blood cultures  
NOTE Confidence: 0.9762802

00:39:25.829 --> 00:39:27.609 were did become mandatory.  
NOTE Confidence: 0.99955755

00:39:28.390 --> 00:39:30.069 So we can see that  
NOTE Confidence: 0.99955755

00:39:30.069 --> 00:39:31.450 the mandatory pathways  
NOTE Confidence: 0.98438567

00:39:31.829 --> 00:39:33.430 are are helpful because it  
NOTE Confidence: 0.98438567

00:39:33.430 --> 00:39:33.930 keeps,  
NOTE Confidence: 0.9394095

00:39:34.390 --> 00:39:35.715 it in the minds of  
NOTE Confidence: 0.9394095

00:39:35.875 --> 00:39:36.855 of our providers  
NOTE Confidence: 0.99935454

00:39:37.155 --> 00:39:38.775 to to utilize them.  
NOTE Confidence: 0.99444556

00:39:39.235 --> 00:39:40.515 So this is the inpatient

NOTE Confidence: 0.99444556  
00:39:40.515 --> 00:39:42.275 utilization, but they've also been  
NOTE Confidence: 0.99444556  
00:39:42.275 --> 00:39:44.435 using it far longer than  
NOTE Confidence: 0.99444556  
00:39:44.435 --> 00:39:45.175 the ambulatory  
NOTE Confidence: 0.9791833  
00:39:45.475 --> 00:39:46.755 setting. And so you can  
NOTE Confidence: 0.9791833  
00:39:46.755 --> 00:39:48.035 see that there is,  
NOTE Confidence: 0.9993979  
00:39:48.515 --> 00:39:50.215 an increase over the months  
NOTE Confidence: 0.9993979  
00:39:50.355 --> 00:39:51.015 of utilization.  
NOTE Confidence: 0.9846346  
00:39:56.170 --> 00:39:57.630 So, we were,  
NOTE Confidence: 0.9611502  
00:39:58.170 --> 00:39:59.210 in all of our meetings,  
NOTE Confidence: 0.9611502  
00:39:59.210 --> 00:40:00.089 really having a lot of  
NOTE Confidence: 0.9611502  
00:40:00.089 --> 00:40:01.069 people requesting,  
NOTE Confidence: 0.76163065  
00:40:01.530 --> 00:40:02.030 pathways,  
NOTE Confidence: 0.99080807  
00:40:02.650 --> 00:40:03.690 and so we had to  
NOTE Confidence: 0.99080807  
00:40:03.690 --> 00:40:04.829 find a way to,  
NOTE Confidence: 0.9756593  
00:40:05.585 --> 00:40:07.505 make it manageable. And so  
NOTE Confidence: 0.9756593

00:40:07.505 --> 00:40:08.885 the Oncology Clinical  
NOTE Confidence: 0.98974895

00:40:09.344 --> 00:40:11.025 Council, worked with us and  
NOTE Confidence: 0.98974895

00:40:11.025 --> 00:40:12.785 we developed a pathway request  
NOTE Confidence: 0.98974895

00:40:12.785 --> 00:40:14.385 form. And so we're sharing  
NOTE Confidence: 0.98974895

00:40:14.385 --> 00:40:15.585 this with all of you,  
NOTE Confidence: 0.9995908

00:40:15.984 --> 00:40:16.484 and  
NOTE Confidence: 0.9941179

00:40:16.785 --> 00:40:18.065 hoping that if there are  
NOTE Confidence: 0.9941179

00:40:18.065 --> 00:40:19.585 any, if anybody has any  
NOTE Confidence: 0.9941179

00:40:19.585 --> 00:40:20.085 ideas,  
NOTE Confidence: 0.9721279

00:40:20.460 --> 00:40:22.219 suggestions, or any needs for  
NOTE Confidence: 0.9721279

00:40:22.219 --> 00:40:24.300 additional pathways, once you've kind  
NOTE Confidence: 0.9721279

00:40:24.300 --> 00:40:25.840 of reviewed what's already accessible,  
NOTE Confidence: 0.981066

00:40:26.700 --> 00:40:28.239 please fill out this request  
NOTE Confidence: 0.981066

00:40:28.300 --> 00:40:29.820 form, and you can email  
NOTE Confidence: 0.981066

00:40:29.820 --> 00:40:31.200 it to Kate and myself.  
NOTE Confidence: 0.9819958

00:40:31.900 --> 00:40:33.420 We bring this, to the

NOTE Confidence: 0.9819958

00:40:33.420 --> 00:40:34.700 council, and we help to

NOTE Confidence: 0.9819958

00:40:34.700 --> 00:40:36.515 prioritize what the next pathways

NOTE Confidence: 0.9819958

00:40:36.515 --> 00:40:37.635 are going to be. So

NOTE Confidence: 0.9819958

00:40:37.635 --> 00:40:39.255 remember, when we are prioritizing

NOTE Confidence: 0.9819958

00:40:39.395 --> 00:40:40.435 the pathway, we have to

NOTE Confidence: 0.9819958

00:40:40.435 --> 00:40:42.055 put together a work group.

NOTE Confidence: 0.9388869

00:40:42.435 --> 00:40:44.355 So hopefully whoever's requesting a

NOTE Confidence: 0.9388869

00:40:44.355 --> 00:40:45.975 pathway is willing to participate

NOTE Confidence: 0.9388869

00:40:46.035 --> 00:40:47.635 on that clinical consensus group

NOTE Confidence: 0.9388869

00:40:47.635 --> 00:40:48.295 and contribute,

NOTE Confidence: 0.9381218

00:40:49.795 --> 00:40:51.430 their expertise in helping to

NOTE Confidence: 0.9381218

00:40:51.430 --> 00:40:52.330 develop that.

NOTE Confidence: 0.9811053

00:40:53.030 --> 00:40:54.170 And so right now,

NOTE Confidence: 0.9589533

00:40:54.550 --> 00:40:55.370 this is not,

NOTE Confidence: 0.96800566

00:40:55.910 --> 00:40:57.430 we we we will find

NOTE Confidence: 0.96800566

00:40:57.430 --> 00:40:58.550 a way to have this,  
NOTE Confidence: 0.96800566

00:40:58.870 --> 00:41:00.150 downloadable for you. But right  
NOTE Confidence: 0.96800566

00:41:00.150 --> 00:41:01.030 now, if you if you  
NOTE Confidence: 0.96800566

00:41:01.030 --> 00:41:03.105 have a request, just reach  
NOTE Confidence: 0.96800566

00:41:03.105 --> 00:41:03.745 out to Kate and I,  
NOTE Confidence: 0.96800566

00:41:03.745 --> 00:41:04.625 and we will mail this  
NOTE Confidence: 0.96800566

00:41:04.625 --> 00:41:06.405 request form, to you.  
NOTE Confidence: 0.9873748

00:41:07.025 --> 00:41:08.145 And when we meet with  
NOTE Confidence: 0.9873748

00:41:08.145 --> 00:41:09.985 our council, we, discuss and  
NOTE Confidence: 0.9873748

00:41:09.985 --> 00:41:11.985 help prioritize the the next  
NOTE Confidence: 0.9873748

00:41:11.985 --> 00:41:12.485 CCGs.  
NOTE Confidence: 0.9566701

00:41:14.680 --> 00:41:16.360 So here are emails. Feel  
NOTE Confidence: 0.9566701

00:41:16.360 --> 00:41:17.320 free to reach out to  
NOTE Confidence: 0.9566701

00:41:17.320 --> 00:41:19.080 us with any questions, any  
NOTE Confidence: 0.9566701

00:41:19.080 --> 00:41:20.380 suggestions, or recommendations,  
NOTE Confidence: 0.986442

00:41:20.760 --> 00:41:22.440 and we are excited to

NOTE Confidence: 0.986442  
00:41:22.440 --> 00:41:23.400 work with all of you  
NOTE Confidence: 0.986442  
00:41:23.400 --> 00:41:23.900 guys.  
NOTE Confidence: 0.8931113  
00:41:26.775 --> 00:41:28.135 Okay. Mary Anne, this is  
NOTE Confidence: 0.8931113  
00:41:28.135 --> 00:41:29.575 great work. Thank you for  
NOTE Confidence: 0.8931113  
00:41:29.575 --> 00:41:30.315 your leadership,  
NOTE Confidence: 0.99183214  
00:41:30.934 --> 00:41:31.414 and,  
NOTE Confidence: 0.9319456  
00:41:32.214 --> 00:41:33.674 also thank you for recognizing  
NOTE Confidence: 0.9995642  
00:41:34.454 --> 00:41:35.655 how much this is a  
NOTE Confidence: 0.9995642  
00:41:35.655 --> 00:41:36.155 collaborative  
NOTE Confidence: 0.99438953  
00:41:36.614 --> 00:41:38.535 effort and how many different  
NOTE Confidence: 0.99438953  
00:41:38.535 --> 00:41:40.155 stakeholders need to be involved.  
NOTE Confidence: 0.9750644  
00:41:40.520 --> 00:41:42.280 I'll just say briefly, it's  
NOTE Confidence: 0.9750644  
00:41:42.280 --> 00:41:43.400 great to put all of  
NOTE Confidence: 0.9750644  
00:41:43.400 --> 00:41:44.680 these pieces together in this  
NOTE Confidence: 0.9750644  
00:41:44.680 --> 00:41:46.760 town hall because we can  
NOTE Confidence: 0.9750644

00:41:46.760 --> 00:41:47.260 see  
NOTE Confidence: 0.9967357

00:41:47.719 --> 00:41:49.819 how much there is interdependence  
NOTE Confidence: 0.99831814

00:41:50.440 --> 00:41:52.280 and interlocking elements in our  
NOTE Confidence: 0.99831814

00:41:52.280 --> 00:41:52.780 programs.  
NOTE Confidence: 0.9198162

00:41:54.045 --> 00:41:55.505 The work that Doctor. Huntington  
NOTE Confidence: 0.9198162

00:41:55.724 --> 00:41:56.224 described,  
NOTE Confidence: 0.99871725

00:41:57.085 --> 00:41:58.944 largely relies on  
NOTE Confidence: 0.9760318

00:41:59.724 --> 00:42:01.645 development and deployment of care  
NOTE Confidence: 0.9760318

00:42:01.645 --> 00:42:03.825 signature pathways as we transition  
NOTE Confidence: 0.9760318

00:42:03.885 --> 00:42:06.045 these complicated regimens from the  
NOTE Confidence: 0.9760318

00:42:06.045 --> 00:42:07.724 inpatient arena to the outpatient  
NOTE Confidence: 0.9760318

00:42:07.724 --> 00:42:08.224 arena.  
NOTE Confidence: 0.9400884

00:42:09.460 --> 00:42:10.120 I think,  
NOTE Confidence: 0.88886577

00:42:10.500 --> 00:42:11.940 you will hear more about  
NOTE Confidence: 0.88886577

00:42:11.940 --> 00:42:13.719 pathways as we move forward,  
NOTE Confidence: 0.9991742

00:42:14.580 --> 00:42:15.080 and

NOTE Confidence: 0.9947193

00:42:15.460 --> 00:42:16.980 special shout out to the

NOTE Confidence: 0.9947193

00:42:16.980 --> 00:42:17.480 ECC,

NOTE Confidence: 0.985666

00:42:18.980 --> 00:42:19.940 who are the high

NOTE Confidence: 0.9861358

00:42:21.140 --> 00:42:22.820 we need a pathway cup,

NOTE Confidence: 0.9861358

00:42:22.820 --> 00:42:24.435 not just a capacity cup.

NOTE Confidence: 0.8847826

00:42:25.075 --> 00:42:25.955 They win the cup We'll

NOTE Confidence: 0.8847826

00:42:25.955 --> 00:42:27.495 develop that. Pathway cup.

NOTE Confidence: 0.995416

00:42:27.955 --> 00:42:29.094 So well done.

NOTE Confidence: 0.92949784

00:42:29.395 --> 00:42:31.155 I'd also note that if

NOTE Confidence: 0.92949784

00:42:31.155 --> 00:42:32.594 you look at the data

NOTE Confidence: 0.92949784

00:42:32.594 --> 00:42:34.114 that, Kate and Mary Anne

NOTE Confidence: 0.92949784

00:42:34.114 --> 00:42:34.614 shared,

NOTE Confidence: 0.999663

00:42:34.995 --> 00:42:36.695 many of our most robust

NOTE Confidence: 0.9777581

00:42:37.155 --> 00:42:38.295 pathway utilizers

NOTE Confidence: 0.969888

00:42:38.835 --> 00:42:39.895 are our APPs.

NOTE Confidence: 0.952801

00:42:41.210 --> 00:42:41.450 So,  
NOTE Confidence: 0.9806909

00:42:42.089 --> 00:42:43.130 kind of shout out to  
NOTE Confidence: 0.9806909

00:42:43.130 --> 00:42:44.809 Vonna and her team. Let  
NOTE Confidence: 0.9806909

00:42:44.809 --> 00:42:45.930 me just kick it over  
NOTE Confidence: 0.9806909

00:42:45.930 --> 00:42:47.210 to Sam to talk about  
NOTE Confidence: 0.9806909

00:42:47.210 --> 00:42:48.270 IV fluid utilization,  
NOTE Confidence: 0.99925

00:42:48.969 --> 00:42:49.849 which has been a hot  
NOTE Confidence: 0.99925

00:42:49.849 --> 00:42:50.989 topic in the organization.  
NOTE Confidence: 0.9655144

00:42:52.844 --> 00:42:53.825 Thank you, Kevin.  
NOTE Confidence: 0.9950923

00:42:54.445 --> 00:42:54.765 And,  
NOTE Confidence: 0.9600175

00:42:55.325 --> 00:42:56.445 I have the tough job  
NOTE Confidence: 0.9600175

00:42:56.445 --> 00:42:58.205 after two great presentations on  
NOTE Confidence: 0.9600175

00:42:58.205 --> 00:42:59.725 progress and improvement. I get  
NOTE Confidence: 0.9600175

00:42:59.725 --> 00:43:01.265 to talk about natural disasters  
NOTE Confidence: 0.8976079

00:43:02.045 --> 00:43:02.864 and shortage.  
NOTE Confidence: 0.9511605

00:43:03.645 --> 00:43:04.844 But I promise I'm gonna

NOTE Confidence: 0.9511605

00:43:04.844 --> 00:43:06.285 leave you with a good

NOTE Confidence: 0.9511605

00:43:06.285 --> 00:43:06.785 news,

NOTE Confidence: 0.9996903

00:43:07.244 --> 00:43:07.920 at the end.

NOTE Confidence: 0.90654933

00:43:08.640 --> 00:43:09.920 I'm sure by now most

NOTE Confidence: 0.90654933

00:43:09.920 --> 00:43:11.200 of us know about Hurricane

NOTE Confidence: 0.90654933

00:43:11.200 --> 00:43:13.680 Helen hitting Baxter manufacturing plant

NOTE Confidence: 0.90654933

00:43:13.680 --> 00:43:14.579 in North Carolina.

NOTE Confidence: 0.893039

00:43:15.920 --> 00:43:17.200 If you didn't know, this

NOTE Confidence: 0.893039

00:43:17.200 --> 00:43:19.280 plant manufacture about sixty percent

NOTE Confidence: 0.893039

00:43:19.280 --> 00:43:20.960 all of old IV food

NOTE Confidence: 0.893039

00:43:20.960 --> 00:43:22.704 products in the US. But

NOTE Confidence: 0.893039

00:43:22.704 --> 00:43:24.545 more importantly for us, we

NOTE Confidence: 0.893039

00:43:24.545 --> 00:43:25.665 are a Baxter shop. So

NOTE Confidence: 0.893039

00:43:25.665 --> 00:43:26.805 about sixty percent,

NOTE Confidence: 0.98014283

00:43:27.344 --> 00:43:27.844 nationally,

NOTE Confidence: 0.9625959

00:43:28.145 --> 00:43:29.344 we are a hundred percent  
NOTE Confidence: 0.9625959

00:43:29.344 --> 00:43:30.864 relying on Baxter product for  
NOTE Confidence: 0.9625959

00:43:30.864 --> 00:43:31.984 the most part. So you  
NOTE Confidence: 0.9625959

00:43:31.984 --> 00:43:32.944 may hear from your colleagues  
NOTE Confidence: 0.9625959

00:43:32.944 --> 00:43:34.484 at Hartford Hospital or MSK  
NOTE Confidence: 0.9625959

00:43:34.625 --> 00:43:36.050 that they have no idea  
NOTE Confidence: 0.9625959

00:43:36.050 --> 00:43:37.010 what's going on in that  
NOTE Confidence: 0.9625959

00:43:37.010 --> 00:43:37.750 fluid shortage  
NOTE Confidence: 0.9854833

00:43:38.050 --> 00:43:39.330 world. It's because they rely  
NOTE Confidence: 0.9854833

00:43:39.330 --> 00:43:40.310 on other manufacturers.  
NOTE Confidence: 0.98789006

00:43:41.090 --> 00:43:43.430 Immediately after the the hurricane  
NOTE Confidence: 0.98789006

00:43:43.489 --> 00:43:44.530 and the damage to this  
NOTE Confidence: 0.98789006

00:43:44.530 --> 00:43:45.890 plant, we were told that  
NOTE Confidence: 0.98789006

00:43:45.890 --> 00:43:47.830 our allocation is forty percent.  
NOTE Confidence: 0.9760717

00:43:48.585 --> 00:43:50.065 So our challenge was the  
NOTE Confidence: 0.9760717

00:43:50.185 --> 00:43:52.125 how to maintain patient care

NOTE Confidence: 0.9894125

00:43:52.425 --> 00:43:54.344 and continue to work business

NOTE Confidence: 0.9894125

00:43:54.344 --> 00:43:56.105 as usual with only forty

NOTE Confidence: 0.9894125

00:43:56.105 --> 00:43:57.805 percent of the fluid,

NOTE Confidence: 0.9960718

00:43:58.344 --> 00:43:59.484 allocated to us.

NOTE Confidence: 0.97446537

00:43:59.864 --> 00:44:01.705 And since that time, essentially,

NOTE Confidence: 0.97446537

00:44:01.705 --> 00:44:02.925 the first week of October,

NOTE Confidence: 0.94212526

00:44:03.830 --> 00:44:05.510 it's been nonstop work on

NOTE Confidence: 0.94212526

00:44:05.510 --> 00:44:06.730 mitigation strategies.

NOTE Confidence: 0.9829672

00:44:07.190 --> 00:44:08.570 Some external to

NOTE Confidence: 0.8672972

00:44:08.950 --> 00:44:09.690 our system,

NOTE Confidence: 0.8923413

00:44:10.230 --> 00:44:11.190 Baxter did a lot of

NOTE Confidence: 0.8923413

00:44:11.190 --> 00:44:11.690 work.

NOTE Confidence: 0.9716198

00:44:12.070 --> 00:44:13.989 All the professional organization provide

NOTE Confidence: 0.9716198

00:44:13.989 --> 00:44:15.610 guidelines on how to optimize

NOTE Confidence: 0.9716198

00:44:15.670 --> 00:44:16.170 hydration.

NOTE Confidence: 0.9817387

00:44:16.844 --> 00:44:18.925 The FDA allowed importation from

NOTE Confidence: 0.9817387

00:44:18.925 --> 00:44:20.285 nine different sites around the

NOTE Confidence: 0.9817387

00:44:20.285 --> 00:44:20.785 world.

NOTE Confidence: 0.96368694

00:44:21.565 --> 00:44:23.085 But this business slide show

NOTE Confidence: 0.96368694

00:44:23.085 --> 00:44:23.965 you some of the things

NOTE Confidence: 0.96368694

00:44:23.965 --> 00:44:25.505 that we've done internally here.

NOTE Confidence: 0.96368694

00:44:25.645 --> 00:44:27.025 There were communications,

NOTE Confidence: 0.9922291

00:44:27.565 --> 00:44:28.925 almost on a daily basis.

NOTE Confidence: 0.9922291

00:44:28.925 --> 00:44:30.045 There are signs that were

NOTE Confidence: 0.9922291

00:44:30.045 --> 00:44:32.109 posted everywhere. We, we talked

NOTE Confidence: 0.9922291

00:44:32.109 --> 00:44:34.130 about clinical pathway earlier today.

NOTE Confidence: 0.99847704

00:44:34.830 --> 00:44:36.210 We created pathways

NOTE Confidence: 0.8514397

00:44:36.590 --> 00:44:37.330 to drive,

NOTE Confidence: 0.99829096

00:44:38.830 --> 00:44:39.330 utilization

NOTE Confidence: 0.95684767

00:44:39.710 --> 00:44:41.550 optimal utilization of fluid in

NOTE Confidence: 0.95684767

00:44:41.550 --> 00:44:43.230 in multiple settings. We change

NOTE Confidence: 0.95684767  
00:44:43.230 --> 00:44:44.050 order sets.  
NOTE Confidence: 0.96052307  
00:44:45.265 --> 00:44:47.025 I have some of the  
NOTE Confidence: 0.96052307  
00:44:47.025 --> 00:44:48.065 items that we,  
NOTE Confidence: 0.7781156  
00:44:48.465 --> 00:44:49.585 implemented, and it,  
NOTE Confidence: 0.68088114  
00:44:50.145 --> 00:44:51.025 what wanted,  
NOTE Confidence: 0.93898416  
00:44:51.344 --> 00:44:52.785 just emphasize that we had  
NOTE Confidence: 0.93898416  
00:44:52.785 --> 00:44:54.705 over two hundred ideas that  
NOTE Confidence: 0.93898416  
00:44:54.705 --> 00:44:55.445 got implemented  
NOTE Confidence: 0.99924487  
00:44:55.984 --> 00:44:57.185 or considered along the way.  
NOTE Confidence: 0.99924487  
00:44:57.185 --> 00:44:59.125 This is a small fraction  
NOTE Confidence: 0.9449064  
00:44:59.850 --> 00:45:01.610 of, of all the ideas  
NOTE Confidence: 0.9449064  
00:45:01.610 --> 00:45:02.570 and most of it came  
NOTE Confidence: 0.9449064  
00:45:02.570 --> 00:45:04.410 from frontline clinician and staff.  
NOTE Confidence: 0.9449064  
00:45:04.410 --> 00:45:04.910 So  
NOTE Confidence: 0.9141504  
00:45:05.290 --> 00:45:06.970 I wanna thank everybody on  
NOTE Confidence: 0.9141504

00:45:06.970 --> 00:45:08.650 this call. And if you  
NOTE Confidence: 0.9141504

00:45:08.650 --> 00:45:09.150 have,  
NOTE Confidence: 0.9296184

00:45:09.610 --> 00:45:10.970 your frontline staff are not  
NOTE Confidence: 0.9296184

00:45:10.970 --> 00:45:12.170 on on this call, please  
NOTE Confidence: 0.9296184

00:45:12.170 --> 00:45:13.610 extend our thanks to all  
NOTE Confidence: 0.9296184

00:45:13.610 --> 00:45:14.989 their effort and ideas.  
NOTE Confidence: 0.92843646

00:45:15.435 --> 00:45:17.755 I wanna specifically highlight, Jensen  
NOTE Confidence: 0.92843646

00:45:17.755 --> 00:45:18.715 and her team. They give  
NOTE Confidence: 0.92843646

00:45:18.715 --> 00:45:19.515 us a lot of great  
NOTE Confidence: 0.92843646

00:45:19.515 --> 00:45:21.135 ideas in the oncology side  
NOTE Confidence: 0.7761384

00:45:21.435 --> 00:45:23.695 that that, bone management team,  
NOTE Confidence: 0.8458985

00:45:24.395 --> 00:45:25.055 they were,  
NOTE Confidence: 0.97619456

00:45:25.594 --> 00:45:26.875 self initiated, a lot of  
NOTE Confidence: 0.97619456

00:45:26.875 --> 00:45:28.315 changes to decrease the the  
NOTE Confidence: 0.97619456

00:45:28.315 --> 00:45:28.815 fluid.  
NOTE Confidence: 0.92416936

00:45:29.355 --> 00:45:30.475 But if if I look

NOTE Confidence: 0.92416936  
00:45:30.475 --> 00:45:32.380 at all the interventions, they  
NOTE Confidence: 0.92416936  
00:45:32.380 --> 00:45:33.580 really fall in two buckets.  
NOTE Confidence: 0.92416936  
00:45:33.580 --> 00:45:34.960 One is reduce waste,  
NOTE Confidence: 0.9039655  
00:45:35.260 --> 00:45:35.980 and we had a lot  
NOTE Confidence: 0.9039655  
00:45:35.980 --> 00:45:37.260 of that spike in bags  
NOTE Confidence: 0.9039655  
00:45:37.260 --> 00:45:38.540 before the where we need  
NOTE Confidence: 0.9039655  
00:45:38.540 --> 00:45:39.040 them,  
NOTE Confidence: 0.76832455  
00:45:39.660 --> 00:45:40.480 flush uses  
NOTE Confidence: 0.9522496  
00:45:40.780 --> 00:45:42.540 big bags of flush IV  
NOTE Confidence: 0.9522496  
00:45:42.540 --> 00:45:43.785 lines. So we did a  
NOTE Confidence: 0.9522496  
00:45:43.785 --> 00:45:44.905 lot of work to minimize  
NOTE Confidence: 0.9522496  
00:45:44.905 --> 00:45:46.105 that. We looked at all  
NOTE Confidence: 0.9522496  
00:45:46.105 --> 00:45:47.704 the order sets and and  
NOTE Confidence: 0.9522496  
00:45:47.704 --> 00:45:49.864 therapy plans if IV fluid  
NOTE Confidence: 0.9522496  
00:45:49.864 --> 00:45:50.605 was defaulted  
NOTE Confidence: 0.88919336

00:45:51.065 --> 00:45:52.505 and was not necessarily we  
NOTE Confidence: 0.88919336

00:45:52.505 --> 00:45:53.405 took this out.  
NOTE Confidence: 0.94786865

00:45:53.785 --> 00:45:55.484 We switched to any premade  
NOTE Confidence: 0.94786865

00:45:55.545 --> 00:45:56.984 manufacturing bags, so we have  
NOTE Confidence: 0.94786865

00:45:56.984 --> 00:45:58.640 tons of Jocelyn and Venco  
NOTE Confidence: 0.94786865

00:45:58.640 --> 00:46:00.080 now that comes frozen to  
NOTE Confidence: 0.94786865

00:46:00.080 --> 00:46:01.760 replace the need for IV  
NOTE Confidence: 0.94786865

00:46:01.760 --> 00:46:02.260 fluid.  
NOTE Confidence: 0.80427337

00:46:02.640 --> 00:46:04.160 On the oncology side, we  
NOTE Confidence: 0.80427337

00:46:04.160 --> 00:46:06.020 switched from, IV Amanda  
NOTE Confidence: 0.4026146

00:46:06.320 --> 00:46:07.460 IV Poets Cervantes.  
NOTE Confidence: 0.9199141

00:46:07.920 --> 00:46:08.880 And it it's a small  
NOTE Confidence: 0.9199141

00:46:08.880 --> 00:46:10.080 change, but that account for  
NOTE Confidence: 0.9199141

00:46:10.080 --> 00:46:11.520 about thousand bags of two  
NOTE Confidence: 0.9199141

00:46:11.520 --> 00:46:13.220 hundred fifty ml per month.  
NOTE Confidence: 0.9708787

00:46:14.505 --> 00:46:15.005 We,

NOTE Confidence: 0.97360706

00:46:15.625 --> 00:46:16.905 we are limiting the use

NOTE Confidence: 0.97360706

00:46:16.905 --> 00:46:18.184 of high dose methotrexate to

NOTE Confidence: 0.97360706

00:46:18.184 --> 00:46:19.464 high risk patients, and those

NOTE Confidence: 0.97360706

00:46:19.464 --> 00:46:21.545 cases get escalated doctor Huntington

NOTE Confidence: 0.97360706

00:46:21.545 --> 00:46:22.285 for approval.

NOTE Confidence: 0.86415935

00:46:22.744 --> 00:46:24.184 We are encouraging the use

NOTE Confidence: 0.86415935

00:46:24.184 --> 00:46:25.405 of PO cytoxin,

NOTE Confidence: 0.94428396

00:46:26.424 --> 00:46:27.545 and we are looking for

NOTE Confidence: 0.94428396

00:46:27.545 --> 00:46:28.859 ways that to change the

NOTE Confidence: 0.94428396

00:46:28.859 --> 00:46:29.819 sequence with some of the

NOTE Confidence: 0.94428396

00:46:29.819 --> 00:46:30.319 chemotherapies,

NOTE Confidence: 0.9179279

00:46:31.180 --> 00:46:31.920 with cisplatin

NOTE Confidence: 0.8638988

00:46:32.219 --> 00:46:34.460 that that optimized hydration. So

NOTE Confidence: 0.8638988

00:46:34.460 --> 00:46:35.420 a lot of work,

NOTE Confidence: 0.93021667

00:46:35.739 --> 00:46:37.039 in in this area.

NOTE Confidence: 0.86054105

00:46:37.420 --> 00:46:39.180 And I wanna proud of  
NOTE Confidence: 0.86054105

00:46:39.180 --> 00:46:40.859 to show you even, this  
NOTE Confidence: 0.86054105

00:46:40.859 --> 00:46:42.219 slide that show where,  
NOTE Confidence: 0.906921

00:46:43.375 --> 00:46:44.255 the the result of all  
NOTE Confidence: 0.906921

00:46:44.255 --> 00:46:44.915 this work.  
NOTE Confidence: 0.94458085

00:46:45.375 --> 00:46:46.735 This is specific to Smilow.  
NOTE Confidence: 0.94458085

00:46:46.735 --> 00:46:47.535 So we can see from  
NOTE Confidence: 0.94458085

00:46:47.535 --> 00:46:48.975 baseline, we have about forty  
NOTE Confidence: 0.94458085

00:46:48.975 --> 00:46:49.875 percent reduction,  
NOTE Confidence: 0.9026933

00:46:51.135 --> 00:46:51.955 in IV,  
NOTE Confidence: 0.9628705

00:46:52.495 --> 00:46:53.235 fluid utilization.  
NOTE Confidence: 0.9144444

00:46:54.255 --> 00:46:56.094 More importantly for me is  
NOTE Confidence: 0.9144444

00:46:56.094 --> 00:46:56.895 the the fact that the  
NOTE Confidence: 0.9144444

00:46:56.895 --> 00:46:57.875 last three weeks,  
NOTE Confidence: 0.94500035

00:46:58.590 --> 00:47:00.030 has been stable. So it's  
NOTE Confidence: 0.94500035

00:47:00.030 --> 00:47:01.790 it's not, a decrease that

NOTE Confidence: 0.94500035  
00:47:01.790 --> 00:47:03.250 followed by an increase.  
NOTE Confidence: 0.9575203  
00:47:03.790 --> 00:47:04.910 We we maybe now have  
NOTE Confidence: 0.9575203  
00:47:04.910 --> 00:47:06.350 a a new baseline, so  
NOTE Confidence: 0.9575203  
00:47:06.350 --> 00:47:07.710 we can sustain that after  
NOTE Confidence: 0.9575203  
00:47:07.710 --> 00:47:08.930 the shortage is over.  
NOTE Confidence: 0.9214895  
00:47:09.470 --> 00:47:11.150 The hospital hospital wide way  
NOTE Confidence: 0.9214895  
00:47:11.150 --> 00:47:12.430 about forty five percent reduction  
NOTE Confidence: 0.9214895  
00:47:12.430 --> 00:47:13.755 for baseline, so we're almost  
NOTE Confidence: 0.9214895  
00:47:13.994 --> 00:47:14.954 in line with the rest  
NOTE Confidence: 0.9214895  
00:47:14.954 --> 00:47:16.255 of the health system.  
NOTE Confidence: 0.87329364  
00:47:16.954 --> 00:47:18.315 On the bottom left, the  
NOTE Confidence: 0.87329364  
00:47:18.394 --> 00:47:19.835 it's another tool that we  
NOTE Confidence: 0.87329364  
00:47:19.835 --> 00:47:20.954 added on the on the,  
NOTE Confidence: 0.9216129  
00:47:21.755 --> 00:47:22.255 dashboard.  
NOTE Confidence: 0.86701375  
00:47:22.714 --> 00:47:23.454 It show,  
NOTE Confidence: 0.9981681

00:47:24.315 --> 00:47:24.815 utilization  
NOTE Confidence: 0.9316378

00:47:25.515 --> 00:47:27.214 rate per hundred patients,  
NOTE Confidence: 0.9961525

00:47:27.860 --> 00:47:28.680 from baseline  
NOTE Confidence: 0.9668608

00:47:29.140 --> 00:47:29.880 to currently.  
NOTE Confidence: 0.94913185

00:47:30.420 --> 00:47:31.540 I I just wanna emphasize  
NOTE Confidence: 0.94913185

00:47:31.540 --> 00:47:32.340 that this is not a  
NOTE Confidence: 0.94913185

00:47:32.340 --> 00:47:33.620 scorecard. So if you see  
NOTE Confidence: 0.94913185

00:47:33.620 --> 00:47:34.500 that you have a major  
NOTE Confidence: 0.94913185

00:47:34.500 --> 00:47:35.000 reduction,  
NOTE Confidence: 0.9980477

00:47:36.580 --> 00:47:37.880 or don't have a reduction  
NOTE Confidence: 0.9980477

00:47:37.940 --> 00:47:39.800 that does not reflect on  
NOTE Confidence: 0.9769845

00:47:40.285 --> 00:47:42.145 the staff or patient management.  
NOTE Confidence: 0.994556

00:47:42.445 --> 00:47:43.425 It's just an idea  
NOTE Confidence: 0.97114456

00:47:43.805 --> 00:47:45.005 to show you where are  
NOTE Confidence: 0.97114456

00:47:45.005 --> 00:47:47.005 you today, encourage everyone to  
NOTE Confidence: 0.97114456

00:47:47.005 --> 00:47:48.864 to look at, this dashboard,

NOTE Confidence: 0.97114456  
00:47:49.085 --> 00:47:50.285 look at your unit, see  
NOTE Confidence: 0.97114456  
00:47:50.285 --> 00:47:52.125 how utilizing your fluid, and  
NOTE Confidence: 0.97114456  
00:47:52.125 --> 00:47:53.025 look for opportunity.  
NOTE Confidence: 0.997363  
00:47:53.325 --> 00:47:54.869 Again, we wanna provide as  
NOTE Confidence: 0.997363  
00:47:54.869 --> 00:47:56.410 much information as possible,  
NOTE Confidence: 0.9886141  
00:47:57.029 --> 00:47:57.989 in your hand,  
NOTE Confidence: 0.85138834  
00:47:58.710 --> 00:48:00.230 at that to help you  
NOTE Confidence: 0.85138834  
00:48:00.230 --> 00:48:01.690 help us with the mitigation  
NOTE Confidence: 0.85138834  
00:48:01.750 --> 00:48:02.250 strategy.  
NOTE Confidence: 0.9907758  
00:48:04.230 --> 00:48:05.190 I promise to end with  
NOTE Confidence: 0.9907758  
00:48:05.190 --> 00:48:06.089 a happy note.  
NOTE Confidence: 0.9881876  
00:48:06.549 --> 00:48:07.635 I I seem to be  
NOTE Confidence: 0.9881876  
00:48:07.635 --> 00:48:08.675 invited to this,  
NOTE Confidence: 0.99066406  
00:48:08.995 --> 00:48:10.195 town hall every time there's  
NOTE Confidence: 0.99066406  
00:48:10.195 --> 00:48:10.775 a shortage,  
NOTE Confidence: 0.9849878

00:48:11.235 --> 00:48:12.675 and I am committing to  
NOTE Confidence: 0.9849878

00:48:12.675 --> 00:48:14.275 happy happy news at the  
NOTE Confidence: 0.9849878

00:48:14.275 --> 00:48:15.875 end. We are seeing, a  
NOTE Confidence: 0.9849878

00:48:15.875 --> 00:48:17.075 light at the end of  
NOTE Confidence: 0.9849878

00:48:17.075 --> 00:48:17.895 the tunnel.  
NOTE Confidence: 0.9774029

00:48:18.594 --> 00:48:19.875 We heard from Baxter that  
NOTE Confidence: 0.9774029

00:48:19.875 --> 00:48:21.575 they already started their highest  
NOTE Confidence: 0.9774029

00:48:21.760 --> 00:48:23.940 throughput IV solution manufacturer line.  
NOTE Confidence: 0.9774029

00:48:24.160 --> 00:48:25.600 That line is responsible for  
NOTE Confidence: 0.9774029

00:48:25.600 --> 00:48:26.960 twenty five percent of all  
NOTE Confidence: 0.9774029

00:48:26.960 --> 00:48:28.320 output in this plant and  
NOTE Confidence: 0.9774029

00:48:28.320 --> 00:48:29.520 fifty percent of the one  
NOTE Confidence: 0.9774029

00:48:29.520 --> 00:48:30.020 liter.  
NOTE Confidence: 0.9897922

00:48:31.120 --> 00:48:32.880 They also told us that  
NOTE Confidence: 0.9897922

00:48:32.880 --> 00:48:34.239 the second line would be  
NOTE Confidence: 0.9897922

00:48:34.239 --> 00:48:36.315 coming online this week, and

NOTE Confidence: 0.9897922  
00:48:36.315 --> 00:48:37.835 that wouldn't make it fifty  
NOTE Confidence: 0.9897922  
00:48:37.835 --> 00:48:38.335 percent,  
NOTE Confidence: 0.92541474  
00:48:39.114 --> 00:48:40.494 of all capacity  
NOTE Confidence: 0.9587835  
00:48:40.795 --> 00:48:42.395 in this plant and almost  
NOTE Confidence: 0.9587835  
00:48:42.395 --> 00:48:43.835 a hundred percent eighty five  
NOTE Confidence: 0.9587835  
00:48:43.835 --> 00:48:44.955 percent of the one liter.  
NOTE Confidence: 0.9587835  
00:48:44.955 --> 00:48:46.335 We're no more tomorrow.  
NOTE Confidence: 0.9711744  
00:48:46.795 --> 00:48:48.395 Baxter update us, now on  
NOTE Confidence: 0.9711744  
00:48:48.395 --> 00:48:49.855 a weekly basis on Thursday.  
NOTE Confidence: 0.93200797  
00:48:51.369 --> 00:48:53.130 And, they also, told us  
NOTE Confidence: 0.93200797  
00:48:53.130 --> 00:48:54.570 that they're gonna now increase  
NOTE Confidence: 0.93200797  
00:48:54.570 --> 00:48:56.590 this allocation in a plan  
NOTE Confidence: 0.93200797  
00:48:56.650 --> 00:48:57.390 phase approach  
NOTE Confidence: 0.967759  
00:48:57.770 --> 00:48:58.650 starting at the end of  
NOTE Confidence: 0.967759  
00:48:58.650 --> 00:48:59.230 the month,  
NOTE Confidence: 0.99890274

00:48:59.530 --> 00:49:00.350 mid December  
NOTE Confidence: 0.81443775

00:49:00.730 --> 00:49:01.950 with the goal of,  
NOTE Confidence: 0.99730104

00:49:02.410 --> 00:49:03.850 complete resolution by the end  
NOTE Confidence: 0.99730104

00:49:03.850 --> 00:49:05.114 of the year. So we  
NOTE Confidence: 0.99730104

00:49:05.114 --> 00:49:06.975 should see some relief in,  
NOTE Confidence: 0.9676132

00:49:08.315 --> 00:49:09.594 later this month. It's not  
NOTE Confidence: 0.9676132

00:49:09.594 --> 00:49:10.795 gonna be across all product  
NOTE Confidence: 0.9676132

00:49:10.795 --> 00:49:12.075 lines. I think we'll start  
NOTE Confidence: 0.9676132

00:49:12.075 --> 00:49:12.955 with the one liter and  
NOTE Confidence: 0.9676132

00:49:12.955 --> 00:49:13.855 the five hundred.  
NOTE Confidence: 0.93978196

00:49:14.155 --> 00:49:15.515 You will see improvement in  
NOTE Confidence: 0.93978196

00:49:15.515 --> 00:49:16.175 a smaller,  
NOTE Confidence: 0.88242996

00:49:16.475 --> 00:49:17.675 size is two fifty, one  
NOTE Confidence: 0.88242996

00:49:17.675 --> 00:49:18.715 hundred, and and and then  
NOTE Confidence: 0.88242996

00:49:18.715 --> 00:49:20.015 fifty ml by  
NOTE Confidence: 0.994003

00:49:21.330 --> 00:49:22.450 mid December to the end

NOTE Confidence: 0.994003

00:49:22.450 --> 00:49:23.190 of the year.

NOTE Confidence: 0.7823614

00:49:23.570 --> 00:49:24.070 Unfortunately,

NOTE Confidence: 0.98192865

00:49:24.370 --> 00:49:25.250 and I'm I'm looking at

NOTE Confidence: 0.98192865

00:49:25.250 --> 00:49:26.450 Kevin here, we have not

NOTE Confidence: 0.98192865

00:49:26.450 --> 00:49:27.490 heard any good news about

NOTE Confidence: 0.98192865

00:49:27.490 --> 00:49:28.390 irrigation fluid,

NOTE Confidence: 0.9547617

00:49:28.770 --> 00:49:29.970 and this has continued to

NOTE Confidence: 0.9547617

00:49:29.970 --> 00:49:30.370 be,

NOTE Confidence: 0.942475

00:49:30.850 --> 00:49:32.710 the challenge here and nationally.

NOTE Confidence: 0.9570062

00:49:33.234 --> 00:49:34.594 But I'm also proud to

NOTE Confidence: 0.9570062

00:49:34.594 --> 00:49:35.974 say that unlike other,

NOTE Confidence: 0.98364043

00:49:36.594 --> 00:49:37.795 centers where we heard that

NOTE Confidence: 0.98364043

00:49:37.795 --> 00:49:39.094 surgeries are being canceled,

NOTE Confidence: 0.999783

00:49:39.555 --> 00:49:40.775 we have not had

NOTE Confidence: 0.9108921

00:49:41.075 --> 00:49:43.655 any procedure surgery canceled here.

NOTE Confidence: 0.9585819

00:49:44.035 --> 00:49:45.315 We did not have any  
NOTE Confidence: 0.9585819

00:49:45.315 --> 00:49:47.795 impact on, our infusions inpatient  
NOTE Confidence: 0.9585819

00:49:47.795 --> 00:49:48.454 or outpatient.  
NOTE Confidence: 0.9713544

00:49:49.100 --> 00:49:50.460 So, again, thanks to all  
NOTE Confidence: 0.9713544

00:49:50.460 --> 00:49:51.500 your efforts. We're able to  
NOTE Confidence: 0.9713544

00:49:51.500 --> 00:49:52.960 maintain patient care  
NOTE Confidence: 0.8215342

00:49:53.420 --> 00:49:53.920 without,  
NOTE Confidence: 0.95361656

00:49:54.860 --> 00:49:55.340 any,  
NOTE Confidence: 0.978549

00:49:55.820 --> 00:49:56.640 delay. So  
NOTE Confidence: 0.9485049

00:49:57.100 --> 00:49:57.840 with that,  
NOTE Confidence: 0.9938338

00:49:59.260 --> 00:50:00.460 I will and happy to  
NOTE Confidence: 0.9938338

00:50:00.460 --> 00:50:01.580 answer questions now or at  
NOTE Confidence: 0.9938338

00:50:01.580 --> 00:50:02.160 the end.  
NOTE Confidence: 0.98595023

00:50:02.775 --> 00:50:04.954 Thanks, Sam. Incredible work.  
NOTE Confidence: 0.97457635

00:50:05.655 --> 00:50:07.015 And in the interest of  
NOTE Confidence: 0.97457635

00:50:07.015 --> 00:50:08.694 time, doctor Morris is in

NOTE Confidence: 0.97457635  
00:50:08.694 --> 00:50:10.234 high demand this morning.  
NOTE Confidence: 0.99810123  
00:50:10.535 --> 00:50:11.815 So I'm just going to  
NOTE Confidence: 0.99810123  
00:50:11.815 --> 00:50:12.855 pass it right over to  
NOTE Confidence: 0.99810123  
00:50:12.855 --> 00:50:13.674 her for  
NOTE Confidence: 0.970703  
00:50:13.974 --> 00:50:14.934 discussion of,  
NOTE Confidence: 0.94653237  
00:50:15.494 --> 00:50:17.174 high priority work stream planning.  
NOTE Confidence: 0.94653237  
00:50:17.174 --> 00:50:18.539 Thank you, Jensa.  
NOTE Confidence: 0.9814837  
00:50:19.000 --> 00:50:20.759 Thanks, Kevin. And thank you,  
NOTE Confidence: 0.9814837  
00:50:20.759 --> 00:50:21.980 Sam, for the good news.  
NOTE Confidence: 0.9814837  
00:50:22.039 --> 00:50:23.880 IV fluids for everyone. Right?  
NOTE Confidence: 0.9814837  
00:50:23.880 --> 00:50:24.920 I I can just write  
NOTE Confidence: 0.9814837  
00:50:24.920 --> 00:50:26.279 every okay. Good. Thanks. I  
NOTE Confidence: 0.9814837  
00:50:26.279 --> 00:50:27.259 got a nod there.  
NOTE Confidence: 0.98933697  
00:50:27.640 --> 00:50:28.039 So,  
NOTE Confidence: 0.9808211  
00:50:28.839 --> 00:50:30.440 we have just a few  
NOTE Confidence: 0.9808211

00:50:30.440 --> 00:50:31.799 minutes left. So I really  
NOTE Confidence: 0.9808211

00:50:31.799 --> 00:50:34.205 prepared a very brief overview  
NOTE Confidence: 0.9808211

00:50:34.265 --> 00:50:36.105 of the SMILO inpatient years  
NOTE Confidence: 0.9808211

00:50:36.105 --> 00:50:36.605 and  
NOTE Confidence: 0.8970908

00:50:37.465 --> 00:50:38.285 SMILO inpatient  
NOTE Confidence: 0.9912792

00:50:38.745 --> 00:50:40.105 units and our fiscal year  
NOTE Confidence: 0.9912792

00:50:40.105 --> 00:50:41.485 summary. So next slide.  
NOTE Confidence: 0.9743839

00:50:42.745 --> 00:50:44.585 We'll look at the Yale  
NOTE Confidence: 0.9743839

00:50:44.585 --> 00:50:46.185 New Haven Health System fiscal  
NOTE Confidence: 0.9743839

00:50:46.185 --> 00:50:47.785 year twenty four objectives and  
NOTE Confidence: 0.9743839

00:50:47.785 --> 00:50:48.745 see how we did on  
NOTE Confidence: 0.9743839

00:50:48.745 --> 00:50:50.049 the inpatient side, how we  
NOTE Confidence: 0.9743839

00:50:50.049 --> 00:50:51.250 measured up. We'll look at  
NOTE Confidence: 0.9743839

00:50:51.250 --> 00:50:52.869 some of our throughput outcomes  
NOTE Confidence: 0.9697067

00:50:53.489 --> 00:50:55.170 and then some successes and  
NOTE Confidence: 0.9697067

00:50:55.170 --> 00:50:56.770 challenges on the inpatient side.

NOTE Confidence: 0.9697067  
00:50:56.770 --> 00:50:58.469 As I said, very brief.  
NOTE Confidence: 0.9970448  
00:50:58.770 --> 00:51:00.469 Okay. Here's the big overview.  
NOTE Confidence: 0.9970448  
00:51:00.530 --> 00:51:02.289 This is the, you know,  
NOTE Confidence: 0.9970448  
00:51:02.289 --> 00:51:03.270 the big picture.  
NOTE Confidence: 0.95639586  
00:51:04.685 --> 00:51:06.045 Yale New Haven Health System  
NOTE Confidence: 0.95639586  
00:51:06.045 --> 00:51:06.545 sets,  
NOTE Confidence: 0.99876994  
00:51:09.245 --> 00:51:09.745 important  
NOTE Confidence: 0.9998679  
00:51:10.125 --> 00:51:10.625 goals  
NOTE Confidence: 0.9995164  
00:51:11.325 --> 00:51:12.625 based on our  
NOTE Confidence: 0.9980363  
00:51:13.725 --> 00:51:16.045 objectives and values. The first  
NOTE Confidence: 0.9980363  
00:51:16.045 --> 00:51:16.864 most important  
NOTE Confidence: 0.99974245  
00:51:17.245 --> 00:51:18.625 value is that we  
NOTE Confidence: 0.98290366  
00:51:20.719 --> 00:51:21.700 try to provide  
NOTE Confidence: 0.9918109  
00:51:22.320 --> 00:51:23.839 world class care. That's why  
NOTE Confidence: 0.9918109  
00:51:23.839 --> 00:51:24.719 we go to work every  
NOTE Confidence: 0.9918109

00:51:24.719 --> 00:51:26.820 day. And the second is  
NOTE Confidence: 0.9962237

00:51:27.599 --> 00:51:28.099 the  
NOTE Confidence: 0.99946094

00:51:28.719 --> 00:51:30.660 to accelerate agile and intentional  
NOTE Confidence: 0.99946094

00:51:30.880 --> 00:51:32.485 growth. So within the world  
NOTE Confidence: 0.99946094

00:51:32.485 --> 00:51:33.945 class care objective,  
NOTE Confidence: 0.9993737

00:51:34.565 --> 00:51:36.105 it's really patient experience,  
NOTE Confidence: 0.9156376

00:51:36.725 --> 00:51:37.545 care signature,  
NOTE Confidence: 0.9998006

00:51:38.325 --> 00:51:38.825 and  
NOTE Confidence: 0.9915058

00:51:39.205 --> 00:51:40.344 inpatient mortality.  
NOTE Confidence: 0.99489933

00:51:41.045 --> 00:51:41.925 So if you look at  
NOTE Confidence: 0.99489933

00:51:41.925 --> 00:51:42.744 care signature,  
NOTE Confidence: 0.98317605

00:51:43.620 --> 00:51:44.580 we all know that Press  
NOTE Confidence: 0.98317605

00:51:44.580 --> 00:51:46.440 Ganey sends out surveys to  
NOTE Confidence: 0.98317605

00:51:46.660 --> 00:51:48.440 our patients after their hospitalization.  
NOTE Confidence: 0.8935324

00:51:48.900 --> 00:51:50.360 There are numerous questions.  
NOTE Confidence: 0.97082704

00:51:50.660 --> 00:51:51.620 But the one that the

NOTE Confidence: 0.97082704  
00:51:51.620 --> 00:51:53.380 health system really zooms in  
NOTE Confidence: 0.97082704  
00:51:53.380 --> 00:51:55.220 on is the of the  
NOTE Confidence: 0.97082704  
00:51:55.220 --> 00:51:57.220 question of how likely are  
NOTE Confidence: 0.97082704  
00:51:57.220 --> 00:51:58.360 you to recommend  
NOTE Confidence: 0.98859155  
00:51:58.905 --> 00:52:00.285 Yale New Haven Hospital,  
NOTE Confidence: 0.93128  
00:52:01.705 --> 00:52:02.445 to others.  
NOTE Confidence: 0.99958414  
00:52:03.065 --> 00:52:03.565 And  
NOTE Confidence: 0.997499  
00:52:03.864 --> 00:52:05.145 what we're looking for is  
NOTE Confidence: 0.997499  
00:52:05.145 --> 00:52:06.344 we're looking for people to  
NOTE Confidence: 0.997499  
00:52:06.344 --> 00:52:07.705 say, of course, that they're  
NOTE Confidence: 0.997499  
00:52:07.705 --> 00:52:09.165 very likely to recommend.  
NOTE Confidence: 0.98968226  
00:52:09.545 --> 00:52:10.045 And  
NOTE Confidence: 0.97055733  
00:52:10.344 --> 00:52:12.665 of our discharges from inpatient  
NOTE Confidence: 0.97055733  
00:52:12.665 --> 00:52:14.880 Smilo units, seventy six point  
NOTE Confidence: 0.97055733  
00:52:14.880 --> 00:52:16.239 eight percent of people said  
NOTE Confidence: 0.97055733

00:52:16.239 --> 00:52:17.520 they were very likely to  
NOTE Confidence: 0.97055733

00:52:17.520 --> 00:52:18.020 recommend.  
NOTE Confidence: 0.9871199

00:52:18.480 --> 00:52:19.839 And that puts us in  
NOTE Confidence: 0.9871199

00:52:19.839 --> 00:52:21.380 the seventy sixth percentile,  
NOTE Confidence: 0.9879537

00:52:21.920 --> 00:52:23.279 which you can see we  
NOTE Confidence: 0.9879537

00:52:23.279 --> 00:52:24.559 did fall short of our  
NOTE Confidence: 0.9879537

00:52:24.559 --> 00:52:25.059 threshold  
NOTE Confidence: 0.9991123

00:52:25.680 --> 00:52:26.180 objectives  
NOTE Confidence: 0.99967897

00:52:26.480 --> 00:52:28.420 for fiscal year twenty four.  
NOTE Confidence: 0.98056656

00:52:28.875 --> 00:52:30.155 We worked really hard in  
NOTE Confidence: 0.98056656

00:52:30.155 --> 00:52:31.675 sort of three domains or  
NOTE Confidence: 0.98056656

00:52:31.675 --> 00:52:33.455 three areas. One was responsiveness,  
NOTE Confidence: 0.98056656

00:52:33.594 --> 00:52:35.355 so responsiveness to call about,  
NOTE Confidence: 0.98056656

00:52:35.355 --> 00:52:37.435 responsiveness to patient needs. The  
NOTE Confidence: 0.98056656

00:52:37.435 --> 00:52:38.635 second thing we worked really  
NOTE Confidence: 0.98056656

00:52:38.635 --> 00:52:39.535 hard on was

NOTE Confidence: 0.97954124

00:52:41.049 --> 00:52:41.549 cleanliness,

NOTE Confidence: 0.962158

00:52:42.410 --> 00:52:44.430 the inpatient environment and cleanliness.

NOTE Confidence: 0.81277674

00:52:50.250 --> 00:52:50.750 And

NOTE Confidence: 0.9915582

00:52:51.289 --> 00:52:53.469 we will indeed have more

NOTE Confidence: 0.9985732

00:52:56.255 --> 00:52:57.935 unit level projects that will

NOTE Confidence: 0.9985732

00:52:57.935 --> 00:52:59.795 continue to drive patient satisfaction

NOTE Confidence: 0.9985732

00:52:59.935 --> 00:53:01.555 in the new fiscal year.

NOTE Confidence: 0.88489676

00:53:01.935 --> 00:53:04.035 For Care Signature Pathway utilization,

NOTE Confidence: 0.9927989

00:53:04.415 --> 00:53:05.375 I'm really glad that you

NOTE Confidence: 0.9927989

00:53:05.375 --> 00:53:06.415 heard all about the Care

NOTE Confidence: 0.9927989

00:53:06.415 --> 00:53:07.935 Signature Pathways. I have to

NOTE Confidence: 0.9927989

00:53:07.935 --> 00:53:08.975 say that I'm a huge

NOTE Confidence: 0.9927989

00:53:08.975 --> 00:53:09.475 fan,

NOTE Confidence: 0.9265126

00:53:09.855 --> 00:53:10.915 and Kate,

NOTE Confidence: 0.9200471

00:53:11.610 --> 00:53:12.810 and Mary Anne are doing

NOTE Confidence: 0.9200471

00:53:12.810 --> 00:53:14.030 great work on this.  
NOTE Confidence: 0.96637356

00:53:14.810 --> 00:53:15.770 The way that we measured  
NOTE Confidence: 0.96637356

00:53:15.770 --> 00:53:17.770 Care Signature pathway utilization is  
NOTE Confidence: 0.96637356

00:53:17.770 --> 00:53:19.290 that we wanted for every  
NOTE Confidence: 0.96637356

00:53:19.290 --> 00:53:20.750 time a patient was hospitalized  
NOTE Confidence: 0.96637356

00:53:20.810 --> 00:53:22.170 for that entire encounter of  
NOTE Confidence: 0.96637356

00:53:22.170 --> 00:53:22.910 their hospitalization,  
NOTE Confidence: 0.9997306

00:53:23.545 --> 00:53:24.525 we really wanted  
NOTE Confidence: 0.99886423

00:53:24.825 --> 00:53:26.425 one pathway used for that  
NOTE Confidence: 0.99886423

00:53:26.425 --> 00:53:27.325 entire hospitalization.  
NOTE Confidence: 0.9880106

00:53:27.864 --> 00:53:28.825 So it's a low, low  
NOTE Confidence: 0.9880106

00:53:28.825 --> 00:53:30.105 bar for this very first  
NOTE Confidence: 0.9880106

00:53:30.105 --> 00:53:31.864 year of measuring it, and  
NOTE Confidence: 0.9880106

00:53:31.864 --> 00:53:33.785 we wanted forty percent of  
NOTE Confidence: 0.9880106

00:53:33.785 --> 00:53:34.445 all hospitalizations  
NOTE Confidence: 0.9958286

00:53:34.825 --> 00:53:36.390 to have one pathway used.

NOTE Confidence: 0.9953747

00:53:36.869 --> 00:53:38.390 We met that metric, but

NOTE Confidence: 0.9953747

00:53:38.390 --> 00:53:39.430 I think we really have

NOTE Confidence: 0.9953747

00:53:39.430 --> 00:53:40.390 to do a whole lot

NOTE Confidence: 0.9953747

00:53:40.390 --> 00:53:41.510 better than that. The metrics

NOTE Confidence: 0.9953747

00:53:41.510 --> 00:53:42.549 are going to go up

NOTE Confidence: 0.9953747

00:53:42.549 --> 00:53:44.950 next year, but, really, every

NOTE Confidence: 0.9953747

00:53:44.950 --> 00:53:46.489 patient should have a pathway

NOTE Confidence: 0.9953747

00:53:46.549 --> 00:53:47.049 used

NOTE Confidence: 0.9947253

00:53:47.510 --> 00:53:49.029 every day in their clinical

NOTE Confidence: 0.9947253

00:53:49.029 --> 00:53:49.989 care, and that's what we

NOTE Confidence: 0.9947253

00:53:49.989 --> 00:53:51.450 should be aspiring to.

NOTE Confidence: 0.9758834

00:53:52.005 --> 00:53:54.085 ODE inpatient mortality is critically

NOTE Confidence: 0.9758834

00:53:54.085 --> 00:53:55.525 important. We want our patients

NOTE Confidence: 0.9758834

00:53:55.525 --> 00:53:56.344 to do well.

NOTE Confidence: 0.98831236

00:53:58.404 --> 00:54:00.585 ODE is observed to expected.

NOTE Confidence: 0.97476816

00:54:02.404 --> 00:54:03.844 Observed is exactly how it  
NOTE Confidence: 0.97476816

00:54:03.844 --> 00:54:04.344 sounds,  
NOTE Confidence: 0.9814068

00:54:06.000 --> 00:54:07.120 how many of our patients  
NOTE Confidence: 0.9814068

00:54:07.120 --> 00:54:08.400 died in our care, and  
NOTE Confidence: 0.9814068

00:54:08.400 --> 00:54:10.400 expected is based on the  
NOTE Confidence: 0.9831477

00:54:10.880 --> 00:54:12.400 our case mix index, how  
NOTE Confidence: 0.9831477

00:54:12.400 --> 00:54:13.920 sick our patients are, what  
NOTE Confidence: 0.9831477

00:54:13.920 --> 00:54:15.760 our expected mortality would have  
NOTE Confidence: 0.9831477

00:54:15.760 --> 00:54:16.260 been,  
NOTE Confidence: 0.9831897

00:54:16.560 --> 00:54:18.180 and that ODE is calculated  
NOTE Confidence: 0.9831897

00:54:18.239 --> 00:54:18.980 from there.  
NOTE Confidence: 0.9714278

00:54:19.575 --> 00:54:21.734 Our target was zero point  
NOTE Confidence: 0.9714278

00:54:21.734 --> 00:54:23.035 eight nine, where  
NOTE Confidence: 0.9790906

00:54:23.655 --> 00:54:25.015 one is the median. So  
NOTE Confidence: 0.9790906

00:54:25.015 --> 00:54:26.055 if you compare us to  
NOTE Confidence: 0.9790906

00:54:26.055 --> 00:54:28.214 all like academic institutions, if

NOTE Confidence: 0.9790906  
00:54:28.214 --> 00:54:30.315 we hit one, we're average.  
NOTE Confidence: 0.99444705  
00:54:30.935 --> 00:54:32.535 If less than one, we're  
NOTE Confidence: 0.99444705  
00:54:32.535 --> 00:54:33.969 better than average. And as  
NOTE Confidence: 0.99444705  
00:54:33.969 --> 00:54:35.330 you can see, if you  
NOTE Confidence: 0.99444705  
00:54:35.330 --> 00:54:36.630 look at month to month,  
NOTE Confidence: 0.91933167  
00:54:37.570 --> 00:54:38.690 at our very best, we  
NOTE Confidence: 0.91933167  
00:54:38.690 --> 00:54:39.910 are point o seven  
NOTE Confidence: 0.89086485  
00:54:40.450 --> 00:54:40.950 and,  
NOTE Confidence: 0.98182386  
00:54:41.969 --> 00:54:43.010 up to point three two,  
NOTE Confidence: 0.98182386  
00:54:43.010 --> 00:54:43.810 and I'll show you a  
NOTE Confidence: 0.98182386  
00:54:43.810 --> 00:54:44.610 graph of that in a  
NOTE Confidence: 0.98182386  
00:54:44.610 --> 00:54:46.290 minute. But we far exceeded  
NOTE Confidence: 0.98182386  
00:54:46.290 --> 00:54:46.950 our target.  
NOTE Confidence: 0.9858275  
00:54:47.315 --> 00:54:49.155 Our patients do well, and  
NOTE Confidence: 0.9858275  
00:54:49.155 --> 00:54:50.755 this is really, really important.  
NOTE Confidence: 0.9858275

00:54:50.755 --> 00:54:51.975 Our clinical care,  
NOTE Confidence: 0.9838911

00:54:52.835 --> 00:54:54.114 and our goal to deliver  
NOTE Confidence: 0.9838911

00:54:54.114 --> 00:54:55.635 world class care, we are  
NOTE Confidence: 0.9838911

00:54:55.635 --> 00:54:57.015 we are achieving that.  
NOTE Confidence: 0.98788285

00:54:58.355 --> 00:55:00.355 Accelerate agile and intentional growth  
NOTE Confidence: 0.98788285

00:55:00.355 --> 00:55:01.315 is the second part of  
NOTE Confidence: 0.98788285

00:55:01.315 --> 00:55:01.815 this.  
NOTE Confidence: 0.9998089

00:55:02.610 --> 00:55:04.070 We want more patients  
NOTE Confidence: 0.9999009

00:55:04.370 --> 00:55:05.510 to have the opportunity  
NOTE Confidence: 0.9647706

00:55:05.890 --> 00:55:07.490 to receive the specialized care  
NOTE Confidence: 0.9647706

00:55:07.490 --> 00:55:09.030 within the Smilo units.  
NOTE Confidence: 0.9898227

00:55:10.050 --> 00:55:11.810 Doctor Huntington spoke about how  
NOTE Confidence: 0.9898227

00:55:11.810 --> 00:55:13.170 there are twenty patients every  
NOTE Confidence: 0.9898227

00:55:13.170 --> 00:55:15.010 day, Smilo patients that are  
NOTE Confidence: 0.9898227

00:55:15.010 --> 00:55:16.290 rolling other over to other  
NOTE Confidence: 0.9898227

00:55:16.290 --> 00:55:17.970 services because there just aren't

NOTE Confidence: 0.9898227  
00:55:17.970 --> 00:55:18.344 enough  
NOTE Confidence: 0.9968015  
00:55:18.905 --> 00:55:19.864 beds. The way that we  
NOTE Confidence: 0.9968015  
00:55:19.864 --> 00:55:21.405 make beds is by reducing  
NOTE Confidence: 0.9968015  
00:55:21.465 --> 00:55:22.445 length of stay.  
NOTE Confidence: 0.95911443  
00:55:23.465 --> 00:55:25.145 And, again, it's our observed  
NOTE Confidence: 0.95911443  
00:55:25.145 --> 00:55:26.585 to expected, so that's our  
NOTE Confidence: 0.95911443  
00:55:26.585 --> 00:55:28.185 actual length of stay compared  
NOTE Confidence: 0.95911443  
00:55:28.185 --> 00:55:29.705 against our expected length of  
NOTE Confidence: 0.95911443  
00:55:29.705 --> 00:55:30.205 stay.  
NOTE Confidence: 0.9992042  
00:55:30.585 --> 00:55:31.405 And our  
NOTE Confidence: 0.9912297  
00:55:31.839 --> 00:55:33.760 target was point was one  
NOTE Confidence: 0.9912297  
00:55:33.760 --> 00:55:34.719 point zero five. That was  
NOTE Confidence: 0.9912297  
00:55:34.719 --> 00:55:35.760 what Yale New Haven had  
NOTE Confidence: 0.9912297  
00:55:35.760 --> 00:55:36.900 targeted this year,  
NOTE Confidence: 0.9992964  
00:55:37.280 --> 00:55:39.440 and our performance was much  
NOTE Confidence: 0.9992964

00:55:39.440 --> 00:55:40.339 less than that,  
NOTE Confidence: 0.9732267

00:55:40.640 --> 00:55:42.000 which is good. We had  
NOTE Confidence: 0.9732267

00:55:42.000 --> 00:55:43.520 shorter length of stay. But  
NOTE Confidence: 0.9732267

00:55:43.520 --> 00:55:44.800 I do wanna point out  
NOTE Confidence: 0.9732267

00:55:44.800 --> 00:55:46.555 for all of you that  
NOTE Confidence: 0.9732267

00:55:46.555 --> 00:55:48.475 SMILO actually had the lowest  
NOTE Confidence: 0.9732267

00:55:48.475 --> 00:55:50.315 o ODE length of stay  
NOTE Confidence: 0.9732267

00:55:50.315 --> 00:55:51.755 of any service line at  
NOTE Confidence: 0.9732267

00:55:51.755 --> 00:55:53.355 Yale New Haven Hospital. So  
NOTE Confidence: 0.9732267

00:55:53.355 --> 00:55:55.055 really a great accomplishment  
NOTE Confidence: 0.97407293

00:55:56.795 --> 00:55:59.114 demonstrating high quality, efficient care,  
NOTE Confidence: 0.97407293

00:55:59.114 --> 00:55:59.995 which is what we aim  
NOTE Confidence: 0.97407293

00:55:59.995 --> 00:56:00.655 to provide,  
NOTE Confidence: 0.9637803

00:56:01.410 --> 00:56:02.790 on our SMILO units.  
NOTE Confidence: 0.99975026

00:56:03.569 --> 00:56:04.390 Next slide.  
NOTE Confidence: 0.99885494

00:56:05.410 --> 00:56:06.710 Okay. Let's look at ODE

NOTE Confidence: 0.99950224  
00:56:07.089 --> 00:56:07.589 mortality.  
NOTE Confidence: 0.9605093  
00:56:07.969 --> 00:56:09.089 This is our observed to  
NOTE Confidence: 0.9605093  
00:56:09.089 --> 00:56:10.069 expected mortality,  
NOTE Confidence: 0.9827657  
00:56:10.369 --> 00:56:11.430 and you can see,  
NOTE Confidence: 0.98206013  
00:56:12.770 --> 00:56:14.309 it varies month to month.  
NOTE Confidence: 0.98206013  
00:56:14.530 --> 00:56:15.855 But you can see that  
NOTE Confidence: 0.98206013  
00:56:15.855 --> 00:56:17.075 at our very best,  
NOTE Confidence: 0.93865407  
00:56:17.855 --> 00:56:20.094 we do extremely well remembering  
NOTE Confidence: 0.93865407  
00:56:20.094 --> 00:56:21.455 that one point zero is  
NOTE Confidence: 0.93865407  
00:56:21.455 --> 00:56:23.315 the median for like academic  
NOTE Confidence: 0.93865407  
00:56:23.455 --> 00:56:23.955 institutions.  
NOTE Confidence: 0.99926656  
00:56:24.655 --> 00:56:25.155 And  
NOTE Confidence: 0.9966764  
00:56:25.775 --> 00:56:27.455 even even in our tough  
NOTE Confidence: 0.9966764  
00:56:27.455 --> 00:56:27.955 months,  
NOTE Confidence: 0.9880435  
00:56:28.335 --> 00:56:30.210 zero point three two. So  
NOTE Confidence: 0.9880435

00:56:30.210 --> 00:56:31.910 we are excelling here.  
NOTE Confidence: 0.9991638

00:56:32.770 --> 00:56:33.590 Next slide.  
NOTE Confidence: 0.99357414

00:56:35.090 --> 00:56:37.090 Accelerating agile and intentional growth.  
NOTE Confidence: 0.99357414

00:56:37.090 --> 00:56:38.690 This is our efficient length  
NOTE Confidence: 0.99357414

00:56:38.690 --> 00:56:40.290 of stay. Let's break this  
NOTE Confidence: 0.99357414

00:56:40.290 --> 00:56:41.270 down by  
NOTE Confidence: 0.9997207

00:56:41.730 --> 00:56:42.550 our units.  
NOTE Confidence: 0.9002501

00:56:43.010 --> 00:56:43.830 So, overall,  
NOTE Confidence: 0.9997193

00:56:44.210 --> 00:56:44.710 we  
NOTE Confidence: 0.9482896

00:56:45.114 --> 00:56:46.495 had a length of stay  
NOTE Confidence: 0.9482896

00:56:46.635 --> 00:56:47.835 ODE of zero point nine  
NOTE Confidence: 0.9482896

00:56:47.835 --> 00:56:48.875 three, and I'd just like  
NOTE Confidence: 0.9482896

00:56:48.875 --> 00:56:50.255 to say one more time  
NOTE Confidence: 0.9482896

00:56:50.475 --> 00:56:52.555 that Smilow was the most  
NOTE Confidence: 0.9482896

00:56:52.555 --> 00:56:53.055 efficient  
NOTE Confidence: 0.98950046

00:56:53.515 --> 00:56:54.975 service line in the hospital.

NOTE Confidence: 0.98950046

00:56:55.195 --> 00:56:56.315 But even if you look

NOTE Confidence: 0.98950046

00:56:56.315 --> 00:56:57.935 at each of our individual

NOTE Confidence: 0.9971129

00:56:58.395 --> 00:56:58.895 units,

NOTE Confidence: 0.90490055

00:56:59.355 --> 00:57:00.655 it's it's really

NOTE Confidence: 0.99254274

00:57:01.089 --> 00:57:01.589 impressive.

NOTE Confidence: 0.979388

00:57:01.890 --> 00:57:03.250 So remembering our target for

NOTE Confidence: 0.979388

00:57:03.250 --> 00:57:04.450 Yale New Haven was one

NOTE Confidence: 0.979388

00:57:04.450 --> 00:57:05.589 point zero five.

NOTE Confidence: 0.9942964

00:57:06.050 --> 00:57:07.569 All of our units were

NOTE Confidence: 0.9942964

00:57:07.569 --> 00:57:09.750 successful. Look at surgical oncology

NOTE Confidence: 0.9942964

00:57:09.890 --> 00:57:11.270 and how well they did.

NOTE Confidence: 0.95254517

00:57:11.650 --> 00:57:13.089 And a special shout out

NOTE Confidence: 0.95254517

00:57:13.089 --> 00:57:14.230 to Smilo East.

NOTE Confidence: 0.99961746

00:57:14.609 --> 00:57:15.349 This unit

NOTE Confidence: 0.99244773

00:57:15.730 --> 00:57:17.655 has only existed for a

NOTE Confidence: 0.99244773

00:57:17.655 --> 00:57:19.355 year. We we had a  
NOTE Confidence: 0.9873391

00:57:20.215 --> 00:57:22.855 opening ceremony cutting the the  
NOTE Confidence: 0.9873391

00:57:22.855 --> 00:57:23.755 tape at  
NOTE Confidence: 0.9590147

00:57:24.135 --> 00:57:25.815 in August of twenty twenty  
NOTE Confidence: 0.9590147

00:57:25.815 --> 00:57:26.315 three.  
NOTE Confidence: 0.9983306

00:57:27.015 --> 00:57:28.615 Smilo East had three thousand  
NOTE Confidence: 0.9983306

00:57:28.615 --> 00:57:30.135 and four discharges, which was  
NOTE Confidence: 0.9983306

00:57:30.135 --> 00:57:32.200 thirty four percent of all  
NOTE Confidence: 0.9983306

00:57:32.200 --> 00:57:32.780 the discharges  
NOTE Confidence: 0.959601

00:57:33.160 --> 00:57:34.060 from SMILO,  
NOTE Confidence: 0.9102298

00:57:35.000 --> 00:57:36.760 with an overall efficiency or  
NOTE Confidence: 0.9102298

00:57:36.760 --> 00:57:37.880 OTLE e length of stay  
NOTE Confidence: 0.9102298

00:57:37.880 --> 00:57:39.340 of zero point eight two.  
NOTE Confidence: 0.9102298

00:57:39.400 --> 00:57:39.900 Impressive.  
NOTE Confidence: 0.9990325

00:57:40.600 --> 00:57:41.100 Next.  
NOTE Confidence: 0.991862

00:57:42.440 --> 00:57:44.360 Okay. SMILO inpatient throughput. This

NOTE Confidence: 0.991862  
00:57:44.360 --> 00:57:45.285 is this is sort of  
NOTE Confidence: 0.991862  
00:57:45.285 --> 00:57:46.964 the full summary slide, and  
NOTE Confidence: 0.991862  
00:57:46.964 --> 00:57:48.005 then we will wrap it  
NOTE Confidence: 0.991862  
00:57:48.005 --> 00:57:48.505 up.  
NOTE Confidence: 0.98657435  
00:57:49.605 --> 00:57:51.204 ODE length of stay is  
NOTE Confidence: 0.98657435  
00:57:51.204 --> 00:57:53.045 gradually decreasing over the last  
NOTE Confidence: 0.98657435  
00:57:53.045 --> 00:57:53.704 two years.  
NOTE Confidence: 0.99935704  
00:57:54.085 --> 00:57:54.585 But  
NOTE Confidence: 0.99500173  
00:57:54.885 --> 00:57:56.165 if you were thinking and  
NOTE Confidence: 0.99500173  
00:57:56.165 --> 00:57:58.085 listening carefully, you might say,  
NOTE Confidence: 0.99500173  
00:57:58.085 --> 00:57:58.585 well,  
NOTE Confidence: 0.97080004  
00:57:59.270 --> 00:58:00.650 it is a ratio,  
NOTE Confidence: 0.96744823  
00:58:01.270 --> 00:58:02.630 and the expected length of  
NOTE Confidence: 0.96744823  
00:58:02.630 --> 00:58:04.250 stay is all about documentation  
NOTE Confidence: 0.96744823  
00:58:04.390 --> 00:58:05.510 and coding. So what if  
NOTE Confidence: 0.96744823

00:58:05.510 --> 00:58:07.430 we were just documenting better  
NOTE Confidence: 0.96744823

00:58:07.430 --> 00:58:08.790 and, really, our length of  
NOTE Confidence: 0.96744823

00:58:08.790 --> 00:58:09.990 stay was exactly the same?  
NOTE Confidence: 0.96744823

00:58:09.990 --> 00:58:11.205 That wouldn't really help us.  
NOTE Confidence: 0.96744823

00:58:11.525 --> 00:58:12.405 So let's see what our  
NOTE Confidence: 0.96744823

00:58:12.405 --> 00:58:13.685 actual length of stay was  
NOTE Confidence: 0.96744823

00:58:13.685 --> 00:58:14.805 because that's how we re  
NOTE Confidence: 0.96744823

00:58:14.885 --> 00:58:15.705 open beds.  
NOTE Confidence: 0.9734128

00:58:16.085 --> 00:58:16.905 So next.  
NOTE Confidence: 0.98154736

00:58:17.765 --> 00:58:19.605 Alright. Our actual average length  
NOTE Confidence: 0.98154736

00:58:19.605 --> 00:58:21.385 of stay is also declining,  
NOTE Confidence: 0.97053796

00:58:21.765 --> 00:58:22.645 and you can see that  
NOTE Confidence: 0.97053796

00:58:22.645 --> 00:58:24.005 we've put our goodness in  
NOTE Confidence: 0.97053796

00:58:24.005 --> 00:58:25.205 the almost up at the  
NOTE Confidence: 0.97053796

00:58:25.205 --> 00:58:27.500 seven range days, and we're  
NOTE Confidence: 0.97053796

00:58:27.500 --> 00:58:29.599 down just below six days.

NOTE Confidence: 0.9995101  
00:58:29.980 --> 00:58:31.420 So the gradual decrease in  
NOTE Confidence: 0.9995101  
00:58:31.420 --> 00:58:32.540 length of stay over the  
NOTE Confidence: 0.9995101  
00:58:32.540 --> 00:58:33.599 last two years  
NOTE Confidence: 0.9711378  
00:58:34.460 --> 00:58:36.140 is what's critical to open  
NOTE Confidence: 0.9711378  
00:58:36.140 --> 00:58:37.839 beds and bring our overflow  
NOTE Confidence: 0.9711378  
00:58:37.900 --> 00:58:40.079 patients onto our SMILO units.  
NOTE Confidence: 0.9711378  
00:58:40.375 --> 00:58:41.735 And so, theoretically, we should  
NOTE Confidence: 0.9711378  
00:58:41.735 --> 00:58:43.015 be increasing the number of  
NOTE Confidence: 0.9711378  
00:58:43.015 --> 00:58:44.855 discharges from Smilo units, and  
NOTE Confidence: 0.9711378  
00:58:44.855 --> 00:58:46.555 that's the next bar, encounters.  
NOTE Confidence: 0.9711378  
00:58:46.695 --> 00:58:48.135 Neck and you can see,  
NOTE Confidence: 0.9711378  
00:58:48.135 --> 00:58:49.415 yes, we've had a gradual  
NOTE Confidence: 0.9711378  
00:58:49.415 --> 00:58:50.715 increase in encounters  
NOTE Confidence: 0.98648435  
00:58:51.175 --> 00:58:52.535 from the low nine thousand  
NOTE Confidence: 0.98648435  
00:58:52.535 --> 00:58:54.230 range to the low ten  
NOTE Confidence: 0.98648435

00:58:54.470 --> 00:58:56.410 or, actually, nearly eleven thousand,  
NOTE Confidence: 0.99949694

00:58:58.470 --> 00:58:58.970 discharges  
NOTE Confidence: 0.99857765

00:58:59.910 --> 00:59:00.809 for the  
NOTE Confidence: 0.9845411

00:59:01.109 --> 00:59:02.730 the last month of this  
NOTE Confidence: 0.9845411

00:59:02.950 --> 00:59:04.250 of this two year cycle.  
NOTE Confidence: 0.9871537

00:59:05.030 --> 00:59:06.795 Everyone always asks, if we  
NOTE Confidence: 0.9871537

00:59:06.795 --> 00:59:08.234 are more efficient, do we  
NOTE Confidence: 0.9871537

00:59:08.234 --> 00:59:10.415 increase readmissions? So I'm obliged  
NOTE Confidence: 0.9871537

00:59:10.474 --> 00:59:11.435 to show you the next  
NOTE Confidence: 0.9871537

00:59:11.435 --> 00:59:12.734 one, which is readmissions.  
NOTE Confidence: 0.98911464

00:59:13.275 --> 00:59:14.474 Ignore that very last month.  
NOTE Confidence: 0.98911464

00:59:14.474 --> 00:59:15.275 We don't have all the  
NOTE Confidence: 0.98911464

00:59:15.275 --> 00:59:17.035 data back for readmissions yet,  
NOTE Confidence: 0.98911464

00:59:17.035 --> 00:59:17.694 so that,  
NOTE Confidence: 0.9750987

00:59:18.395 --> 00:59:20.234 is particularly low, but we're  
NOTE Confidence: 0.9750987

00:59:20.234 --> 00:59:22.230 sitting at eleven, twelve percent

NOTE Confidence: 0.9750987

00:59:22.370 --> 00:59:23.990 month after month after month.

NOTE Confidence: 0.94044644

00:59:24.450 --> 00:59:26.210 Yes. There's opportunity for improvement,

NOTE Confidence: 0.94044644

00:59:26.210 --> 00:59:27.730 and, yes, we're actually just

NOTE Confidence: 0.94044644

00:59:27.730 --> 00:59:29.570 embarking right now on a

NOTE Confidence: 0.94044644

00:59:29.570 --> 00:59:30.550 Smilu specific

NOTE Confidence: 0.9413349

00:59:30.930 --> 00:59:32.865 readmission reduction program with the

NOTE Confidence: 0.9413349

00:59:32.945 --> 00:59:34.385 the skilled nursing facility. It's

NOTE Confidence: 0.9413349

00:59:34.385 --> 00:59:35.665 sort of a really key

NOTE Confidence: 0.9413349

00:59:35.665 --> 00:59:36.805 intervention there.

NOTE Confidence: 0.9889523

00:59:38.225 --> 00:59:39.345 But let's see. I think

NOTE Confidence: 0.9889523

00:59:39.345 --> 00:59:40.625 this is the last. Next

NOTE Confidence: 0.9889523

00:59:40.625 --> 00:59:41.125 slide.

NOTE Confidence: 0.9814115

00:59:41.825 --> 00:59:43.025 Let's just summarize some of

NOTE Confidence: 0.9814115

00:59:43.025 --> 00:59:44.545 our successes and challenges in

NOTE Confidence: 0.9814115

00:59:44.545 --> 00:59:45.925 the last thirty seconds.

NOTE Confidence: 0.95111984

00:59:46.660 --> 00:59:48.020 So throughput has been a  
NOTE Confidence: 0.95111984

00:59:48.020 --> 00:59:49.460 great success, but it also  
NOTE Confidence: 0.95111984

00:59:49.460 --> 00:59:50.500 remains one of our great  
NOTE Confidence: 0.95111984

00:59:50.500 --> 00:59:52.740 challenges, ed boarding, overflow of  
NOTE Confidence: 0.95111984

00:59:52.740 --> 00:59:54.420 SMILO patients. We still have  
NOTE Confidence: 0.95111984

00:59:54.420 --> 00:59:56.100 work to do. Our we've  
NOTE Confidence: 0.95111984

00:59:56.100 --> 00:59:57.160 had great success  
NOTE Confidence: 0.8765634

00:59:57.460 --> 00:59:58.820 with the roll with the  
NOTE Confidence: 0.8765634

00:59:58.820 --> 01:00:00.920 rollout of the clinical deterioration  
NOTE Confidence: 0.95043755

01:00:01.220 --> 01:00:02.885 index and the Smilow specific  
NOTE Confidence: 0.95043755

01:00:02.885 --> 01:00:04.325 rapid response team, we now  
NOTE Confidence: 0.95043755

01:00:04.325 --> 01:00:04.825 have,  
NOTE Confidence: 0.9345225

01:00:05.365 --> 01:00:07.785 Smilow hospitalists responding to emergencies.  
NOTE Confidence: 0.99066615

01:00:08.484 --> 01:00:10.085 But we we can respond  
NOTE Confidence: 0.99066615

01:00:10.085 --> 01:00:11.365 to the emergencies, but then  
NOTE Confidence: 0.99066615

01:00:11.365 --> 01:00:12.405 we have no access to

NOTE Confidence: 0.99066615  
01:00:12.405 --> 01:00:14.405 critical care beds. Access to  
NOTE Confidence: 0.99066615  
01:00:14.405 --> 01:00:15.605 urgent care is still an  
NOTE Confidence: 0.99066615  
01:00:15.605 --> 01:00:16.105 issue.  
NOTE Confidence: 0.9689902  
01:00:16.790 --> 01:00:18.230 And then we've done a  
NOTE Confidence: 0.9689902  
01:00:18.230 --> 01:00:19.910 great job specializing our care.  
NOTE Confidence: 0.9689902  
01:00:19.910 --> 01:00:21.830 Our oncology consult service is  
NOTE Confidence: 0.9689902  
01:00:21.830 --> 01:00:23.109 now making sure that the  
NOTE Confidence: 0.9689902  
01:00:23.109 --> 01:00:24.950 specialist oncologist is seeing the  
NOTE Confidence: 0.9689902  
01:00:24.950 --> 01:00:26.390 patients, the right doctor is  
NOTE Confidence: 0.9689902  
01:00:26.390 --> 01:00:27.530 seeing the right patient,  
NOTE Confidence: 0.99339473  
01:00:27.830 --> 01:00:28.630 but now we have to  
NOTE Confidence: 0.99339473  
01:00:28.630 --> 01:00:30.330 adapt the workforce and workflows  
NOTE Confidence: 0.99339473  
01:00:30.390 --> 01:00:31.849 to match these really specialized  
NOTE Confidence: 0.99339473  
01:00:31.910 --> 01:00:32.685 clinical needs.  
NOTE Confidence: 0.98239195  
01:00:34.445 --> 01:00:35.265 Next slide.  
NOTE Confidence: 0.9799135

01:00:37.085 --> 01:00:38.545 And thank you.  
NOTE Confidence: 0.9617037

01:00:43.565 --> 01:00:44.065 So  
NOTE Confidence: 0.94435847

01:00:44.525 --> 01:00:45.885 thank you, Jensa and your  
NOTE Confidence: 0.94435847

01:00:45.885 --> 01:00:47.585 team. This is incredible work.  
NOTE Confidence: 0.99893636

01:00:48.740 --> 01:00:49.940 We have shared so much  
NOTE Confidence: 0.99893636

01:00:49.940 --> 01:00:50.599 great work  
NOTE Confidence: 0.99137354

01:00:50.980 --> 01:00:52.680 that I regret to say  
NOTE Confidence: 0.94923645

01:00:53.380 --> 01:00:54.260 we all have to run  
NOTE Confidence: 0.94923645

01:00:54.260 --> 01:00:55.220 away and we have no  
NOTE Confidence: 0.94923645

01:00:55.220 --> 01:00:56.039 time for questions.  
NOTE Confidence: 0.99737614

01:00:58.260 --> 01:00:59.460 Tracy, do you have anything  
NOTE Confidence: 0.99737614

01:00:59.460 --> 01:01:00.119 to add?  
NOTE Confidence: 0.99108106

01:01:00.420 --> 01:01:01.539 No. Thank you all to  
NOTE Confidence: 0.99108106

01:01:01.539 --> 01:01:02.660 the great presenters. I think  
NOTE Confidence: 0.99108106

01:01:02.660 --> 01:01:03.495 this was a lot of  
NOTE Confidence: 0.99108106

01:01:03.735 --> 01:01:05.895 really valuable information shared this

NOTE Confidence: 0.99108106

01:01:05.895 --> 01:01:06.795 morning and,

NOTE Confidence: 0.9985669

01:01:07.575 --> 01:01:09.415 appreciate all everyone is doing

NOTE Confidence: 0.9985669

01:01:09.415 --> 01:01:11.675 to make processes smoother and

NOTE Confidence: 0.99701375

01:01:11.975 --> 01:01:13.035 better for patients.

NOTE Confidence: 0.99345237

01:01:14.855 --> 01:01:16.135 Have a great day, everyone.

NOTE Confidence: 0.99345237

01:01:16.135 --> 01:01:16.875 Thank you.
