

WEBVTT

NOTE duration:"01:27:18.7630000"

NOTE language:en-us

NOTE Confidence: 0.88311380147934

00:00:06.810 --> 00:00:09.168 So I'm I'm Steven Marans Amoco,

NOTE Confidence: 0.88311380147934

00:00:09.170 --> 00:00:11.528 developer of the child and family.

NOTE Confidence: 0.88311380147934

00:00:11.530 --> 00:00:14.260 Traumatic stress intervention an I am

NOTE Confidence: 0.88311380147934

00:00:14.260 --> 00:00:17.579 just delighted to be with you all today

NOTE Confidence: 0.88311380147934

00:00:17.579 --> 00:00:20.842 were all from the AHL team and I think

NOTE Confidence: 0.88311380147934

00:00:20.842 --> 00:00:24.104 from around the world it's a It's a real.

NOTE Confidence: 0.88311380147934

00:00:24.104 --> 00:00:26.456 It's a more than a tree.

NOTE Confidence: 0.88311380147934

00:00:26.460 --> 00:00:29.068 That's an honor to be with you all

NOTE Confidence: 0.88311380147934

00:00:29.068 --> 00:00:32.056 and I think one of the things I

NOTE Confidence: 0.88311380147934

00:00:32.056 --> 00:00:34.639 just wanted to begin the discussion

NOTE Confidence: 0.88311380147934

00:00:34.639 --> 00:00:37.633 today by pointing out the obvious.

NOTE Confidence: 0.88311380147934

00:00:37.640 --> 00:00:41.296 That TSI is was developed in order to

NOTE Confidence: 0.88311380147934

00:00:41.296 --> 00:00:44.853 help children and families have been

NOTE Confidence: 0.88311380147934

00:00:44.853 --> 00:00:47.405 impacted by potentially traumatic,

NOTE Confidence: 0.88311380147934

00:00:47.410 --> 00:00:49.598 overwhelming events in greater

NOTE Confidence: 0.88311380147934

00:00:49.598 --> 00:00:52.880 control over what they can control.

NOTE Confidence: 0.88311380147934

00:00:52.880 --> 00:00:56.990 And I think we're we're operating in this

NOTE Confidence: 0.88311380147934

00:00:56.990 --> 00:01:01.280 meeting is happening at a time of enormous.

NOTE Confidence: 0.88311380147934

00:01:01.280 --> 00:01:02.644 An opportunity.

NOTE Confidence: 0.88311380147934

00:01:02.644 --> 00:01:06.054 And there were only impacted

NOTE Confidence: 0.88311380147934

00:01:06.054 --> 00:01:09.250 were only impacted by the.

NOTE Confidence: 0.88311380147934

00:01:09.250 --> 00:01:12.866 Over 19 brawl impacted by the foment of

NOTE Confidence: 0.88311380147934

00:01:12.866 --> 00:01:15.966 of protest against racism and injustice

NOTE Confidence: 0.88311380147934

00:01:15.966 --> 00:01:19.750 in our country and around the world,

NOTE Confidence: 0.88311380147934

00:01:19.750 --> 00:01:22.370 and this adds additional burdens,

NOTE Confidence: 0.88311380147934

00:01:22.370 --> 00:01:23.990 challenges and opportunities

NOTE Confidence: 0.88311380147934

00:01:23.990 --> 00:01:27.370 for all of us as clinicians.

NOTE Confidence: 0.88311380147934

00:01:27.370 --> 00:01:30.422 Um, when we too are affected by

NOTE Confidence: 0.88311380147934

00:01:30.422 --> 00:01:33.245 the events that are also affecting

NOTE Confidence: 0.88311380147934

00:01:33.245 --> 00:01:36.089 the people we hope to help.
NOTE Confidence: 0.88311380147934

00:01:36.090 --> 00:01:39.366 I wanted to state the obvious because
NOTE Confidence: 0.88311380147934

00:01:39.366 --> 00:01:42.926 I think too often we we may operate
NOTE Confidence: 0.88311380147934

00:01:42.926 --> 00:01:46.991 in a vacuum and may not be able to
NOTE Confidence: 0.88311380147934

00:01:46.991 --> 00:01:49.381 adequately support each other as
NOTE Confidence: 0.88311380147934

00:01:49.381 --> 00:01:52.584 we attempt to continue to do work
NOTE Confidence: 0.88311380147934

00:01:52.584 --> 00:01:55.828 that is so essential now and always,
NOTE Confidence: 0.88311380147934

00:01:55.830 --> 00:01:58.590 and dealing with the most vulnerable.
NOTE Confidence: 0.88311380147934

00:01:58.590 --> 00:02:02.398 Navarre populations but we are part of
NOTE Confidence: 0.88311380147934

00:02:02.398 --> 00:02:07.559 this part of this world and were part of the.
NOTE Confidence: 0.88311380147934

00:02:07.560 --> 00:02:09.908 Potentially overwhelming impact of
NOTE Confidence: 0.88311380147934

00:02:09.908 --> 00:02:13.430 events that are affecting us daily.
NOTE Confidence: 0.88311380147934

00:02:13.430 --> 00:02:17.539 So it's actually a a wonderful chance,
NOTE Confidence: 0.88311380147934

00:02:17.540 --> 00:02:21.068 a wonderful opportunity to be together.
NOTE Confidence: 0.88311380147934

00:02:21.070 --> 00:02:24.390 For the first time in quite some time.
NOTE Confidence: 0.88311380147934

00:02:24.390 --> 00:02:27.206 But to be together at a time where

NOTE Confidence: 0.88311380147934

00:02:27.206 --> 00:02:30.880 we all need each other to lean on to

NOTE Confidence: 0.88311380147934

00:02:30.880 --> 00:02:34.518 support each other as we continue to to

NOTE Confidence: 0.88311380147934

00:02:34.518 --> 00:02:37.866 support the children and families who are.

NOTE Confidence: 0.88311380147934

00:02:37.866 --> 00:02:40.505 Overwhelming events in their lives with

NOTE Confidence: 0.88311380147934

00:02:40.505 --> 00:02:43.659 the aim of helping them to recover.

NOTE Confidence: 0.88311380147934

00:02:43.660 --> 00:02:46.828 I do want to say that.

NOTE Confidence: 0.88311380147934

00:02:46.830 --> 00:02:48.520 You know for many years,

NOTE Confidence: 0.88311380147934

00:02:48.520 --> 00:02:51.118 some of our colleagues have been.

NOTE Confidence: 0.88311380147934

00:02:51.120 --> 00:02:53.865 Pushing and and actually exploring

NOTE Confidence: 0.88311380147934

00:02:53.865 --> 00:02:57.412 and implementing the use of Surfside

NOTE Confidence: 0.88311380147934

00:02:57.412 --> 00:02:58.830 via Telehealth.

NOTE Confidence: 0.88311380147934

00:02:58.830 --> 00:03:02.456 And so if there is any silver

NOTE Confidence: 0.88311380147934

00:03:02.456 --> 00:03:06.540 lining in any of what's occurring,

NOTE Confidence: 0.88311380147934

00:03:06.540 --> 00:03:10.635 the opportunity to develop and put into

NOTE Confidence: 0.88311380147934

00:03:10.635 --> 00:03:14.248 practice new methods of delivering cai.

NOTE Confidence: 0.88311380147934

00:03:14.250 --> 00:03:16.050 This is why we we,
NOTE Confidence: 0.88311380147934

00:03:16.050 --> 00:03:18.899 one of the reasons for coming together
NOTE Confidence: 0.88311380147934

00:03:18.899 --> 00:03:22.310 today to talk about how we how we can
NOTE Confidence: 0.88311380147934

00:03:22.310 --> 00:03:24.713 learn from each other in moving forward
NOTE Confidence: 0.88311380147934

00:03:24.713 --> 00:03:27.915 in a in a new age and to continue to
NOTE Confidence: 0.88311380147934

00:03:27.915 --> 00:03:30.810 help those that need safety aside the most.
NOTE Confidence: 0.88311380147934

00:03:30.810 --> 00:03:31.839 So with that,
NOTE Confidence: 0.88311380147934

00:03:31.839 --> 00:03:33.897 I'm going to turn this over
NOTE Confidence: 0.88311380147934

00:03:33.897 --> 00:03:35.490 to carry up steam.
NOTE Confidence: 0.88311380147934

00:03:35.490 --> 00:03:38.248 Who's the Co developer of CFC who's
NOTE Confidence: 0.88311380147934

00:03:38.248 --> 00:03:41.528 going to lay out what we have in mind
NOTE Confidence: 0.88311380147934

00:03:41.528 --> 00:03:44.928 for what we hope will be rich discussion.
NOTE Confidence: 0.88311380147934

00:03:44.930 --> 00:03:46.060 Thanks,
NOTE Confidence: 0.88311380147934

00:03:46.060 --> 00:03:47.190 Kerry.
NOTE Confidence: 0.898018300533295

00:03:47.190 --> 00:03:49.809 So welcome everyone, I want to Echo.
NOTE Confidence: 0.898018300533295

00:03:49.810 --> 00:03:52.428 Stevens comments were so glad you're all

NOTE Confidence: 0.898018300533295

00:03:52.430 --> 00:03:55.326 here. It's really the first time that we've

NOTE Confidence: 0.898018300533295

00:03:55.326 --> 00:03:58.567 been able to come together as a full CSI

NOTE Confidence: 0.898018300533295

00:03:58.567 --> 00:04:00.474 community and really acknowledging that

NOTE Confidence: 0.898018300533295

00:04:00.474 --> 00:04:03.642 we're in the midst of that many things,

NOTE Confidence: 0.898018300533295

00:04:03.650 --> 00:04:06.038 particularly in our country, and also

NOTE Confidence: 0.898018300533295

00:04:06.038 --> 00:04:08.510 something that we've never as a country.

NOTE Confidence: 0.898018300533295

00:04:08.510 --> 00:04:11.093 Extendo, if you get the world will

NOTE Confidence: 0.898018300533295

00:04:11.093 --> 00:04:13.569 experience before this particular pandemic.

NOTE Confidence: 0.898018300533295

00:04:13.570 --> 00:04:15.698 I mean, so it also seems important

NOTE Confidence: 0.898018300533295

00:04:15.698 --> 00:04:17.721 to start out by acknowledging that

NOTE Confidence: 0.898018300533295

00:04:17.721 --> 00:04:20.164 the events that are going on and

NOTE Confidence: 0.898018300533295

00:04:20.232 --> 00:04:22.206 this pandemic are impacting all of

NOTE Confidence: 0.898018300533295

00:04:22.206 --> 00:04:24.862 us were not just to providers that

NOTE Confidence: 0.898018300533295

00:04:24.862 --> 00:04:27.033 were also impacted ourselves. So.

NOTE Confidence: 0.898018300533295

00:04:27.033 --> 00:04:29.784 Today we really wanted to create an

NOTE Confidence: 0.898018300533295

00:04:29.784 --> 00:04:32.249 opportunity to bring people together.
NOTE Confidence: 0.898018300533295

00:04:32.250 --> 00:04:34.651 The sort of special community of providers
NOTE Confidence: 0.898018300533295

00:04:34.651 --> 00:04:36.998 who do acute Perry dramatic work.
NOTE Confidence: 0.898018300533295

00:04:37.000 --> 00:04:39.310 It's also an opportunity to share
NOTE Confidence: 0.898018300533295

00:04:39.310 --> 00:04:42.380 some of our experiences as a full 50
NOTE Confidence: 0.898018300533295

00:04:42.380 --> 00:04:44.205 side community that challenges we've
NOTE Confidence: 0.898018300533295

00:04:44.205 --> 00:04:46.955 been facing as well as you know how
NOTE Confidence: 0.898018300533295

00:04:46.955 --> 00:04:48.790 we've been meeting those challenges.
NOTE Confidence: 0.898018300533295

00:04:48.790 --> 00:04:51.730 So this is really a time when
NOTE Confidence: 0.898018300533295

00:04:51.730 --> 00:04:53.340 being able to offer.
NOTE Confidence: 0.898018300533295

00:04:53.340 --> 00:04:56.564 EMT SI may be more critical than ever,
NOTE Confidence: 0.898018300533295

00:04:56.570 --> 00:04:59.405 so our goal today is to discuss.
NOTE Confidence: 0.898018300533295

00:04:59.410 --> 00:05:01.792 Find Egypt Elehouse Therese and discuss
NOTE Confidence: 0.898018300533295

00:05:01.792 --> 00:05:04.144 any questions or challenges coming up
NOTE Confidence: 0.898018300533295

00:05:04.144 --> 00:05:06.244 in regards to implementing CSI via
NOTE Confidence: 0.898018300533295

00:05:06.244 --> 00:05:08.190 Telehealth and discussing solution.

NOTE Confidence: 0.933626592159271
00:05:10.540 --> 00:05:12.394 So just to predict what are
NOTE Confidence: 0.933626592159271
00:05:12.394 --> 00:05:14.379 sessions going to look like today?
NOTE Confidence: 0.933626592159271
00:05:14.380 --> 00:05:17.215 As I said, We are going to be recording
NOTE Confidence: 0.933626592159271
00:05:17.215 --> 00:05:19.393 this event since not everyone could
NOTE Confidence: 0.933626592159271
00:05:19.393 --> 00:05:22.495 join and we want to make sure that
NOTE Confidence: 0.933626592159271
00:05:22.495 --> 00:05:24.973 the content is available to everyone.
NOTE Confidence: 0.933626592159271
00:05:24.980 --> 00:05:27.857 Because of the large number of attendees,
NOTE Confidence: 0.933626592159271
00:05:27.860 --> 00:05:29.910 this event, as you entered,
NOTE Confidence: 0.933626592159271
00:05:29.910 --> 00:05:31.970 everyone's been put on mute.
NOTE Confidence: 0.933626592159271
00:05:31.970 --> 00:05:35.012 In fact, I think we have around 75 people
NOTE Confidence: 0.933626592159271
00:05:35.012 --> 00:05:37.435 just acknowledging calling in from
NOTE Confidence: 0.933626592159271
00:05:37.435 --> 00:05:40.420 the United States, Australia, Sweden.
NOTE Confidence: 0.933626592159271
00:05:40.420 --> 00:05:43.222 As well. And because of the large
NOTE Confidence: 0.933626592159271
00:05:43.222 --> 00:05:45.537 number we want to actually ask vote
NOTE Confidence: 0.933626592159271
00:05:45.537 --> 00:05:47.889 if they could keep themselves on mute,
NOTE Confidence: 0.933626592159271

00:05:47.890 --> 00:05:50.860 but feel free to type into the chat box.
NOTE Confidence: 0.933626592159271

00:05:50.860 --> 00:05:51.520 Any comments?
NOTE Confidence: 0.933626592159271

00:05:51.520 --> 00:05:53.170 Any questions you may have.
NOTE Confidence: 0.933626592159271

00:05:53.170 --> 00:05:55.634 You can feel free to use the razor
NOTE Confidence: 0.933626592159271

00:05:55.634 --> 00:05:57.319 hand feature will be pausing
NOTE Confidence: 0.933626592159271

00:05:57.319 --> 00:05:59.323 between each of our sections of
NOTE Confidence: 0.933626592159271

00:05:59.323 --> 00:06:01.396 our initial discussion to check in
NOTE Confidence: 0.933626592159271

00:06:01.396 --> 00:06:03.482 with the chat box to review.
NOTE Confidence: 0.933626592159271

00:06:03.482 --> 00:06:05.130 Any questions or comments
NOTE Confidence: 0.933626592159271

00:06:05.130 --> 00:06:06.778 that are being raised.
NOTE Confidence: 0.933626592159271

00:06:06.780 --> 00:06:09.660 That was the end of our initial discussion.
NOTE Confidence: 0.933626592159271

00:06:09.660 --> 00:06:11.060 Will be opening up conversation,
NOTE Confidence: 0.933626592159271

00:06:11.060 --> 00:06:12.740 a dialogue to have a dialogue
NOTE Confidence: 0.933626592159271

00:06:12.740 --> 00:06:13.860 with everyone joining us,
NOTE Confidence: 0.933626592159271

00:06:13.860 --> 00:06:15.690 joining today and we're really looking
NOTE Confidence: 0.933626592159271

00:06:15.690 --> 00:06:17.499 forward to hearing from all of you.

NOTE Confidence: 0.933626592159271
00:06:17.500 --> 00:06:18.106 So again,
NOTE Confidence: 0.933626592159271
00:06:18.106 --> 00:06:19.924 because the large number of attendees
NOTE Confidence: 0.933626592159271
00:06:19.924 --> 00:06:21.889 will use the chat box for people
NOTE Confidence: 0.933626592159271
00:06:21.889 --> 00:06:23.775 to indicate if they have a question
NOTE Confidence: 0.933626592159271
00:06:23.775 --> 00:06:25.630 or comment and then we can even
NOTE Confidence: 0.933626592159271
00:06:25.630 --> 00:06:27.604 invite people to come of- need to
NOTE Confidence: 0.933626592159271
00:06:27.604 --> 00:06:29.260 join and contribute to the dialogue.
NOTE Confidence: 0.899283945560455
00:06:32.460 --> 00:06:34.472 So welcome, you are joining
NOTE Confidence: 0.899283945560455
00:06:34.472 --> 00:06:36.084 me and Steven today.
NOTE Confidence: 0.899283945560455
00:06:36.090 --> 00:06:38.100 Our colleagues and faculty members.
NOTE Confidence: 0.899283945560455
00:06:38.100 --> 00:06:40.120 I'll start with Kristen Hamill.
NOTE Confidence: 0.916693568229675
00:06:42.360 --> 00:06:44.248 Christian are you there? Can you say Hello?
NOTE Confidence: 0.916693568229675
00:06:44.250 --> 00:06:45.190 Hi Everybody, it's so
NOTE Confidence: 0.916693568229675
00:06:45.190 --> 00:06:46.370 nice to see you all
NOTE Confidence: 0.916693568229675
00:06:46.370 --> 00:06:47.318 and it's really nice
NOTE Confidence: 0.916693568229675

00:06:47.320 --> 00:06:48.968 to see some friends in the audience.
NOTE Confidence: 0.916693568229675

00:06:48.968 --> 00:06:51.608 I haven't seen in awhile. Thank
NOTE Confidence: 0.758351504802704

00:06:51.610 --> 00:06:56.330 you Kristen and Megan Gosselin, everyone.
NOTE Confidence: 0.688974499702454

00:06:58.790 --> 00:07:01.870 And Katie just perm. Everybody.
NOTE Confidence: 0.856504619121552

00:07:03.950 --> 00:07:06.075 And for those of you who
NOTE Confidence: 0.856504619121552

00:07:06.075 --> 00:07:07.810 attended trainings for if you
NOTE Confidence: 0.856504619121552

00:07:07.882 --> 00:07:09.725 sign master trainers, again,
NOTE Confidence: 0.856504619121552

00:07:09.725 --> 00:07:10.880 formally introducing myself,
NOTE Confidence: 0.856504619121552

00:07:10.880 --> 00:07:13.190 carry up soon as could developer.
NOTE Confidence: 0.856504619121552

00:07:13.190 --> 00:07:15.740 And of course even marriage you've
NOTE Confidence: 0.856504619121552

00:07:15.740 --> 00:07:18.660 already heard from Co developers CSI.
NOTE Confidence: 0.856504619121552

00:07:18.660 --> 00:07:21.124 I also want to acknowledge a few
NOTE Confidence: 0.856504619121552

00:07:21.124 --> 00:07:23.539 others who are joining us today.
NOTE Confidence: 0.856504619121552

00:07:23.540 --> 00:07:26.179 I'd like to acknowledge our wonderful CSI
NOTE Confidence: 0.856504619121552

00:07:26.179 --> 00:07:28.410 master trainers were joining the call.
NOTE Confidence: 0.856504619121552

00:07:28.410 --> 00:07:29.858 Also. Acknowledge Jenn Brown,

NOTE Confidence: 0.856504619121552
00:07:29.858 --> 00:07:31.306 who's managing or redcap
NOTE Confidence: 0.856504619121552
00:07:31.306 --> 00:07:33.245 database and as managing the
NOTE Confidence: 0.856504619121552
00:07:33.245 --> 00:07:34.789 technology under the presentation,
NOTE Confidence: 0.856504619121552
00:07:34.790 --> 00:07:36.234 and Hilary Hahn Co.
NOTE Confidence: 0.856504619121552
00:07:36.234 --> 00:07:38.812 Developer of our red cap database system
NOTE Confidence: 0.856504619121552
00:07:38.812 --> 00:07:41.532 and just to name the 50 side master
NOTE Confidence: 0.856504619121552
00:07:41.532 --> 00:07:43.789 trainer ship joined Rachel Sheller,
NOTE Confidence: 0.856504619121552
00:07:43.790 --> 00:07:45.290 Victoria Dexter, Ann Rodriguez,
NOTE Confidence: 0.856504619121552
00:07:45.290 --> 00:07:48.665 Carlos Tovar, who is a key member of art.
NOTE Confidence: 0.856504619121552
00:07:48.670 --> 00:07:50.980 Skip TSI Corda Veltman team as well.
NOTE Confidence: 0.902245044708252
00:07:53.830 --> 00:07:56.068 So today we're here to support
NOTE Confidence: 0.902245044708252
00:07:56.068 --> 00:07:57.187 clinicians supervisors in
NOTE Confidence: 0.902245044708252
00:07:57.187 --> 00:07:58.588 implementing CSI via Telehouse.
NOTE Confidence: 0.902245044708252
00:07:58.590 --> 00:08:01.044 There has a question that's been
NOTE Confidence: 0.902245044708252
00:08:01.044 --> 00:08:03.850 raised about whether CTS I can be
NOTE Confidence: 0.902245044708252

00:08:03.850 --> 00:08:05.314 implemented via Telehealth and
NOTE Confidence: 0.902245044708252

00:08:05.314 --> 00:08:08.024 for some of us there may have been
NOTE Confidence: 0.902245044708252

00:08:08.024 --> 00:08:10.282 a May continue to be a concern.
NOTE Confidence: 0.902245044708252

00:08:10.282 --> 00:08:11.706 That Telehealth creates situations
NOTE Confidence: 0.902245044708252

00:08:11.706 --> 00:08:13.562 in which it's more difficult
NOTE Confidence: 0.902245044708252

00:08:13.562 --> 00:08:15.417 to engage patients or clients.
NOTE Confidence: 0.902245044708252

00:08:15.420 --> 00:08:17.740 It may be that in fact these are
NOTE Confidence: 0.902245044708252

00:08:17.740 --> 00:08:19.749 the same engagement issues as
NOTE Confidence: 0.902245044708252

00:08:19.749 --> 00:08:22.004 we might experience in person.
NOTE Confidence: 0.902245044708252

00:08:22.010 --> 00:08:24.950 It's just playing out until a health.
NOTE Confidence: 0.902245044708252

00:08:24.950 --> 00:08:26.098 And the question is,
NOTE Confidence: 0.902245044708252

00:08:26.098 --> 00:08:28.390 how can we work with what we have?
NOTE Confidence: 0.902245044708252

00:08:28.390 --> 00:08:29.926 How can we recreate being there
NOTE Confidence: 0.902245044708252

00:08:29.926 --> 00:08:31.550 with a child in caregiver?
NOTE Confidence: 0.902245044708252

00:08:31.550 --> 00:08:33.942 and I know Megan Dawson is going to
NOTE Confidence: 0.902245044708252

00:08:33.942 --> 00:08:36.140 be speaking to this in a little bit.

NOTE Confidence: 0.906994879245758
00:08:38.790 --> 00:08:40.960 So the context for this conversation is
NOTE Confidence: 0.906994879245758
00:08:40.960 --> 00:08:43.226 very important for some people in the call.
NOTE Confidence: 0.906994879245758
00:08:43.230 --> 00:08:44.780 Talla Health, maybe something that
NOTE Confidence: 0.906994879245758
00:08:44.780 --> 00:08:46.780 you've been doing for quite a while.
NOTE Confidence: 0.906994879245758
00:08:46.780 --> 00:08:48.593 For others they moved to tell a
NOTE Confidence: 0.906994879245758
00:08:48.593 --> 00:08:50.091 health may have happy relatively
NOTE Confidence: 0.906994879245758
00:08:50.091 --> 00:08:52.408 quickly in the context of a pandemic,
NOTE Confidence: 0.906994879245758
00:08:52.410 --> 00:08:54.240 and therefore may have felt somewhat
NOTE Confidence: 0.906994879245758
00:08:54.240 --> 00:08:55.960 sudden as a result of that,
NOTE Confidence: 0.906994879245758
00:08:55.960 --> 00:08:58.025 it may have felt a little disorienting,
NOTE Confidence: 0.906994879245758
00:08:58.030 --> 00:09:00.095 or man raised a lot of questions,
NOTE Confidence: 0.906994879245758
00:09:00.100 --> 00:09:02.228 and so when when is shifting to talla
NOTE Confidence: 0.906994879245758
00:09:02.228 --> 00:09:04.020 health into summit more unexpected sudden
NOTE Confidence: 0.906994879245758
00:09:04.020 --> 00:09:06.805 way we want to figure out how we could
NOTE Confidence: 0.906994879245758
00:09:06.805 --> 00:09:08.665 we ground ourselves in the political
NOTE Confidence: 0.906994879245758

00:09:08.665 --> 00:09:10.530 process is in the clinical guidelines.
NOTE Confidence: 0.906994879245758

00:09:10.530 --> 00:09:12.707 That we know so well as clinicians,
NOTE Confidence: 0.906994879245758

00:09:12.710 --> 00:09:14.726 and that we followed prior to
NOTE Confidence: 0.906994879245758

00:09:14.726 --> 00:09:16.750 starting to implement via telephone.
NOTE Confidence: 0.906994879245758

00:09:16.750 --> 00:09:19.389 So our message to see if she's
NOTE Confidence: 0.906994879245758

00:09:19.389 --> 00:09:21.469 like community is that CF TS.
NOTE Confidence: 0.906994879245758

00:09:21.470 --> 00:09:23.462 I can definitely be implemented via
NOTE Confidence: 0.906994879245758

00:09:23.462 --> 00:09:26.188 Telehouse and both at Yale and organizations,
NOTE Confidence: 0.906994879245758

00:09:26.190 --> 00:09:28.368 both in the United States and
NOTE Confidence: 0.906994879245758

00:09:28.368 --> 00:09:29.457 in other countries.
NOTE Confidence: 0.906994879245758

00:09:29.460 --> 00:09:30.908 Donations have been effectively
NOTE Confidence: 0.906994879245758

00:09:30.908 --> 00:09:32.718 delivering CSI in this manner,
NOTE Confidence: 0.906994879245758

00:09:32.720 --> 00:09:35.700 so you'll hear an overarching.
NOTE Confidence: 0.906994879245758

00:09:35.700 --> 00:09:38.675 Beam today that is reminding ourselves that
NOTE Confidence: 0.906994879245758

00:09:38.675 --> 00:09:42.040 our goal is to work with what we have.
NOTE Confidence: 0.906994879245758

00:09:42.040 --> 00:09:43.076 Be creative.

NOTE Confidence: 0.906994879245758
00:09:43.076 --> 00:09:46.702 Content consider how you might be flexible.
NOTE Confidence: 0.906994879245758
00:09:46.710 --> 00:09:48.985 We've talked a lot in CSI training
NOTE Confidence: 0.906994879245758
00:09:48.985 --> 00:09:50.479 and consultation calls about
NOTE Confidence: 0.906994879245758
00:09:50.479 --> 00:09:51.850 Fidelity with flexibility.
NOTE Confidence: 0.881651282310486
00:09:55.530 --> 00:09:58.020 So Jennifer could take me to the next slide.
NOTE Confidence: 0.929637670516968
00:10:00.800 --> 00:10:03.110 Now I'd like to talk a bit
NOTE Confidence: 0.929637670516968
00:10:03.110 --> 00:10:04.430 about implementing this idea.
NOTE Confidence: 0.929637670516968
00:10:04.430 --> 00:10:06.160 Telehealth using the different technologies
NOTE Confidence: 0.929637670516968
00:10:06.160 --> 00:10:08.390 and platforms that you may be using.
NOTE Confidence: 0.929637670516968
00:10:08.390 --> 00:10:11.030 So we really want to acknowledge that people,
NOTE Confidence: 0.929637670516968
00:10:11.030 --> 00:10:13.410 clinicians are using a range of technologies
NOTE Confidence: 0.929637670516968
00:10:13.410 --> 00:10:15.550 and platforms to provide telehealth.
NOTE Confidence: 0.929637670516968
00:10:15.550 --> 00:10:17.470 Some clinicians are conducting to
NOTE Confidence: 0.929637670516968
00:10:17.470 --> 00:10:19.006 allow sessions through advanced
NOTE Confidence: 0.929637670516968
00:10:19.006 --> 00:10:20.532 technologies with video capability
NOTE Confidence: 0.929637670516968

00:10:20.532 --> 00:10:22.347 and screen sharing and Whiteboarding.
NOTE Confidence: 0.929637670516968

00:10:22.350 --> 00:10:24.982 Some of you may be conducting Telehouse
NOTE Confidence: 0.929637670516968

00:10:24.982 --> 00:10:26.889 sessions through simple phone calls,
NOTE Confidence: 0.929637670516968

00:10:26.890 --> 00:10:29.536 and for some it's anywhere in between,
NOTE Confidence: 0.929637670516968

00:10:29.540 --> 00:10:31.568 so everyone is in a different
NOTE Confidence: 0.929637670516968

00:10:31.568 --> 00:10:34.069 place in terms of the technology.
NOTE Confidence: 0.929637670516968

00:10:34.070 --> 00:10:36.670 So our goal is really to talk about
NOTE Confidence: 0.929637670516968

00:10:36.670 --> 00:10:39.359 how CSI is possible and effective,
NOTE Confidence: 0.929637670516968

00:10:39.360 --> 00:10:41.185 regardless of the technological venue
NOTE Confidence: 0.929637670516968

00:10:41.185 --> 00:10:43.520 you're using to conduct the session.
NOTE Confidence: 0.929637670516968

00:10:43.520 --> 00:10:45.806 Again, we want to remind ourselves.
NOTE Confidence: 0.929637670516968

00:10:45.810 --> 00:10:47.545 Of the overarching theme of
NOTE Confidence: 0.929637670516968

00:10:47.545 --> 00:10:49.280 working with what you have,
NOTE Confidence: 0.929637670516968

00:10:49.280 --> 00:10:50.668 being creative and reaching
NOTE Confidence: 0.929637670516968

00:10:50.668 --> 00:10:52.056 for Fidelity with flexibility.
NOTE Confidence: 0.929637670516968

00:10:52.060 --> 00:10:54.136 So as a very basic example,

NOTE Confidence: 0.929637670516968
00:10:54.140 --> 00:10:56.216 when we're talking about Plex ability,
NOTE Confidence: 0.929637670516968
00:10:56.220 --> 00:10:58.369 one example might be that in cases
NOTE Confidence: 0.929637670516968
00:10:58.369 --> 00:11:00.341 where a clinician is carefully planned
NOTE Confidence: 0.929637670516968
00:11:00.341 --> 00:11:02.321 to share materials with a client
NOTE Confidence: 0.929637670516968
00:11:02.321 --> 00:11:04.547 or patient through screen sharing,
NOTE Confidence: 0.929637670516968
00:11:04.550 --> 00:11:05.588 something may happen.
NOTE Confidence: 0.929637670516968
00:11:05.588 --> 00:11:06.280 For example,
NOTE Confidence: 0.929637670516968
00:11:06.280 --> 00:11:09.059 why fire Internet issues and we may
NOTE Confidence: 0.929637670516968
00:11:09.059 --> 00:11:11.762 need to improvise and depend on the
NOTE Confidence: 0.929637670516968
00:11:11.762 --> 00:11:14.400 relationship to do the work to really
NOTE Confidence: 0.929637670516968
00:11:14.400 --> 00:11:17.214 use the Relationship and rely on it.
NOTE Confidence: 0.929637670516968
00:11:17.220 --> 00:11:19.225 For those of you conducting
NOTE Confidence: 0.929637670516968
00:11:19.225 --> 00:11:20.829 CSI over the phone,
NOTE Confidence: 0.929637670516968
00:11:20.830 --> 00:11:23.220 sometimes conditions have big worries
NOTE Confidence: 0.929637670516968
00:11:23.220 --> 00:11:26.337 about whether this is doable and one
NOTE Confidence: 0.929637670516968

00:11:26.337 --> 00:11:28.945 of the things we've talked about as a
NOTE Confidence: 0.929637670516968

00:11:29.019 --> 00:11:31.323 group of CSI providers and developers
NOTE Confidence: 0.929637670516968

00:11:31.323 --> 00:11:34.440 is that this is an opportunity to make
NOTE Confidence: 0.929637670516968

00:11:34.440 --> 00:11:37.270 use of the silver lining here that,
NOTE Confidence: 0.929637670516968

00:11:37.270 --> 00:11:38.694 as we all know,
NOTE Confidence: 0.929637670516968

00:11:38.694 --> 00:11:42.480 one of the goals of Cai is finding words,
NOTE Confidence: 0.929637670516968

00:11:42.480 --> 00:11:43.282 increasing observation.
NOTE Confidence: 0.929637670516968

00:11:43.282 --> 00:11:44.886 Ull capacity about symptoms,
NOTE Confidence: 0.929637670516968

00:11:44.890 --> 00:11:46.099 and increasing communication
NOTE Confidence: 0.929637670516968

00:11:46.099 --> 00:11:47.308 about symptoms so.
NOTE Confidence: 0.929637670516968

00:11:47.310 --> 00:11:49.029 When a collision is conducting,
NOTE Confidence: 0.929637670516968

00:11:49.029 --> 00:11:50.058 either sessions 3,
NOTE Confidence: 0.929637670516968

00:11:50.060 --> 00:11:52.130 four and five over the phone.
NOTE Confidence: 0.929637670516968

00:11:52.130 --> 00:11:53.845 When you're working with the
NOTE Confidence: 0.929637670516968

00:11:53.845 --> 00:11:55.217 child and caregiver together,
NOTE Confidence: 0.929637670516968

00:11:55.220 --> 00:11:55.780 for example,

NOTE Confidence: 0.929637670516968
00:11:55.780 --> 00:11:57.740 the clinician may not be able to
NOTE Confidence: 0.929637670516968
00:11:57.740 --> 00:11:59.690 see the nonverbal communication.
NOTE Confidence: 0.929637670516968
00:11:59.690 --> 00:12:01.778 The body language of the child
NOTE Confidence: 0.929637670516968
00:12:01.778 --> 00:12:04.098 and caregiver sort of what's the
NOTE Confidence: 0.929637670516968
00:12:04.098 --> 00:12:06.248 dynamic happening between the two?
NOTE Confidence: 0.929637670516968
00:12:06.250 --> 00:12:08.236 So in this circumstance those clinician
NOTE Confidence: 0.929637670516968
00:12:08.236 --> 00:12:10.731 could actually say to the child and
NOTE Confidence: 0.929637670516968
00:12:10.731 --> 00:12:12.219 caregiver something like remember,
NOTE Confidence: 0.929637670516968
00:12:12.220 --> 00:12:15.644 I can't see what's going on right now.
NOTE Confidence: 0.929637670516968
00:12:15.650 --> 00:12:18.100 How would you describe each others reactions?
NOTE Confidence: 0.929637670516968
00:12:18.100 --> 00:12:20.312 So in this way you're dealing with
NOTE Confidence: 0.929637670516968
00:12:20.312 --> 00:12:22.132 the limitations of the telephone
NOTE Confidence: 0.929637670516968
00:12:22.132 --> 00:12:23.347 and that technology,
NOTE Confidence: 0.929637670516968
00:12:23.350 --> 00:12:25.035 but you're actually using the
NOTE Confidence: 0.929637670516968
00:12:25.035 --> 00:12:27.140 limitation to further some of the
NOTE Confidence: 0.929637670516968

00:12:27.140 --> 00:12:28.945 overarching clinical goals of Cai.

NOTE Confidence: 0.929637670516968

00:12:28.950 --> 00:12:30.410 You're really increasing observation.

NOTE Confidence: 0.929637670516968

00:12:30.410 --> 00:12:32.235 Ull capacity you are increasing

NOTE Confidence: 0.929637670516968

00:12:32.235 --> 00:12:33.615 communication about symptoms and

NOTE Confidence: 0.929637670516968

00:12:33.615 --> 00:12:34.899 observations between the parent,

NOTE Confidence: 0.929637670516968

00:12:34.900 --> 00:12:36.244 the child and caregiver,

NOTE Confidence: 0.929637670516968

00:12:36.244 --> 00:12:37.924 and you're really helping them

NOTE Confidence: 0.929637670516968

00:12:37.924 --> 00:12:39.799 put words to their experience.

NOTE Confidence: 0.929637670516968

00:12:39.800 --> 00:12:42.166 So this can really be built into

NOTE Confidence: 0.929637670516968

00:12:42.166 --> 00:12:43.999 the treatment and blended in,

NOTE Confidence: 0.929637670516968

00:12:44.000 --> 00:12:46.160 and it's actually a very helpful.

NOTE Confidence: 0.929637670516968

00:12:46.160 --> 00:12:48.236 Way to help them describe what's

NOTE Confidence: 0.929637670516968

00:12:48.236 --> 00:12:50.350 happening and putting it into words.

NOTE Confidence: 0.929637670516968

00:12:50.350 --> 00:12:53.820 So next slide please Jen.

NOTE Confidence: 0.929637670516968

00:12:53.820 --> 00:12:55.580 Thank you.

NOTE Confidence: 0.929637670516968

00:12:55.580 --> 00:12:57.589 So some of you may have already

NOTE Confidence: 0.929637670516968
00:12:57.589 --> 00:12:59.869 received a lot of guidance when it
NOTE Confidence: 0.929637670516968
00:12:59.869 --> 00:13:01.891 comes to the basics of conducting.
NOTE Confidence: 0.929637670516968
00:13:01.900 --> 00:13:02.530 Tell health,
NOTE Confidence: 0.929637670516968
00:13:02.530 --> 00:13:04.735 while others may have received less guidance.
NOTE Confidence: 0.929637670516968
00:13:04.740 --> 00:13:06.679 We thought we would just start with
NOTE Confidence: 0.929637670516968
00:13:06.679 --> 00:13:09.247 a very brief review of some of the
NOTE Confidence: 0.929637670516968
00:13:09.247 --> 00:13:10.922 basics regarding provision of Taylor
NOTE Confidence: 0.921280205249786
00:13:10.983 --> 00:13:12.921 Health and focus most of today
NOTE Confidence: 0.921280205249786
00:13:12.921 --> 00:13:14.852 on actually the provision of cai
NOTE Confidence: 0.921280205249786
00:13:14.852 --> 00:13:16.116 screening preparation for screening,
NOTE Confidence: 0.921280205249786
00:13:16.120 --> 00:13:18.229 screening and treatment.
NOTE Confidence: 0.921280205249786
00:13:18.230 --> 00:13:20.950 But as you can see on this slide,
NOTE Confidence: 0.921280205249786
00:13:20.950 --> 00:13:23.670 some of the basics are for the clinician,
NOTE Confidence: 0.921280205249786
00:13:23.670 --> 00:13:25.566 making sure that you've been able
NOTE Confidence: 0.921280205249786
00:13:25.566 --> 00:13:27.534 to identify a private location where
NOTE Confidence: 0.921280205249786

00:13:27.534 --> 00:13:29.788 you can be for the CSI screening
NOTE Confidence: 0.921280205249786

00:13:29.788 --> 00:13:31.488 sessions and treatment sessions,
NOTE Confidence: 0.921280205249786

00:13:31.490 --> 00:13:33.065 ensuring that there's some kind
NOTE Confidence: 0.921280205249786

00:13:33.065 --> 00:13:34.640 of neutral background that limits
NOTE Confidence: 0.921280205249786

00:13:34.696 --> 00:13:36.416 distractions and then also ensuring
NOTE Confidence: 0.921280205249786

00:13:36.416 --> 00:13:38.136 that you have emergency information
NOTE Confidence: 0.921280205249786

00:13:38.193 --> 00:13:39.988 for the caregiver readily accessible.
NOTE Confidence: 0.921280205249786

00:13:39.990 --> 00:13:40.652 For example,
NOTE Confidence: 0.921280205249786

00:13:40.652 --> 00:13:42.638 when you are meeting alone with
NOTE Confidence: 0.921280205249786

00:13:42.638 --> 00:13:44.410 the child during session 2.
NOTE Confidence: 0.352665334939957

00:13:46.540 --> 00:13:49.260 Slide. Thank you John.
NOTE Confidence: 0.352665334939957

00:13:49.260 --> 00:13:51.516 Let's take a moment and talk a little
NOTE Confidence: 0.352665334939957

00:13:51.516 --> 00:13:54.282 bit about what we can do prior to even
NOTE Confidence: 0.352665334939957

00:13:54.282 --> 00:13:56.820 starting CSI screening and talk about some
NOTE Confidence: 0.352665334939957

00:13:56.820 --> 00:13:59.160 considerations really setting up for success.
NOTE Confidence: 0.352665334939957

00:13:59.160 --> 00:14:01.253 So as we prepared to conduct CSI

NOTE Confidence: 0.352665334939957
00:14:01.253 --> 00:14:02.790 screening and later treatment,
NOTE Confidence: 0.352665334939957
00:14:02.790 --> 00:14:05.254 ideally will want to schedule a session that
NOTE Confidence: 0.352665334939957
00:14:05.254 --> 00:14:08.070 will be held prior to the screening session,
NOTE Confidence: 0.352665334939957
00:14:08.070 --> 00:14:10.098 during which we can review some
NOTE Confidence: 0.352665334939957
00:14:10.098 --> 00:14:12.359 considerations that will set up for success.
NOTE Confidence: 0.352665334939957
00:14:12.360 --> 00:14:14.250 But this session will give the
NOTE Confidence: 0.352665334939957
00:14:14.250 --> 00:14:15.918 clinician and the family time
NOTE Confidence: 0.352665334939957
00:14:15.918 --> 00:14:17.638 to really think things through.
NOTE Confidence: 0.352665334939957
00:14:17.640 --> 00:14:20.368 It's an opportunity for the clinician to set.
NOTE Confidence: 0.352665334939957
00:14:20.370 --> 00:14:22.090 The expectations and will really
NOTE Confidence: 0.352665334939957
00:14:22.090 --> 00:14:24.240 help to make the safety aside.
NOTE Confidence: 0.352665334939957
00:14:24.240 --> 00:14:25.648 Screening and treatment sessions
NOTE Confidence: 0.352665334939957
00:14:25.648 --> 00:14:27.056 that feel more predictable,
NOTE Confidence: 0.352665334939957
00:14:27.060 --> 00:14:29.335 which is an important goal in the
NOTE Confidence: 0.352665334939957
00:14:29.335 --> 00:14:31.280 paragenetic phase of Trump response.
NOTE Confidence: 0.352665334939957

00:14:31.280 --> 00:14:33.374 So first the condition can identify
NOTE Confidence: 0.352665334939957

00:14:33.374 --> 00:14:36.410 a time to hold a session with the
NOTE Confidence: 0.352665334939957

00:14:36.410 --> 00:14:38.756 character in family during which they
NOTE Confidence: 0.352665334939957

00:14:38.832 --> 00:14:41.345 can Orient the family to tell about.
NOTE Confidence: 0.352665334939957

00:14:41.350 --> 00:14:43.252 And this session could be seen
NOTE Confidence: 0.352665334939957

00:14:43.252 --> 00:14:44.520 as part of intake.
NOTE Confidence: 0.352665334939957

00:14:44.520 --> 00:14:46.739 For example, leading up to conducting CSI,
NOTE Confidence: 0.352665334939957

00:14:46.740 --> 00:14:47.676 screening and treatment.
NOTE Confidence: 0.352665334939957

00:14:47.676 --> 00:14:50.684 The idea is for this to be one of
NOTE Confidence: 0.352665334939957

00:14:50.684 --> 00:14:52.200 the first clinical interactions
NOTE Confidence: 0.352665334939957

00:14:52.200 --> 00:14:54.460 that clinician has with the family,
NOTE Confidence: 0.352665334939957

00:14:54.460 --> 00:14:56.090 so the clinician would likely
NOTE Confidence: 0.352665334939957

00:14:56.090 --> 00:14:57.394 set up the call,
NOTE Confidence: 0.352665334939957

00:14:57.400 --> 00:14:59.030 initial effect caregiver and again,
NOTE Confidence: 0.352665334939957

00:14:59.030 --> 00:15:00.020 perhaps the condition.
NOTE Confidence: 0.352665334939957

00:15:00.020 --> 00:15:01.670 Consider setting up a separate

NOTE Confidence: 0.352665334939957
00:15:01.670 --> 00:15:03.588 call with a child if appropriate.
NOTE Confidence: 0.352665334939957
00:15:03.590 --> 00:15:04.278 For example,
NOTE Confidence: 0.352665334939957
00:15:04.278 --> 00:15:06.342 if you're working with an adolescent
NOTE Confidence: 0.352665334939957
00:15:06.342 --> 00:15:08.691 and the idea is to proactively spend
NOTE Confidence: 0.352665334939957
00:15:08.691 --> 00:15:10.953 some time focused on how the clinician
NOTE Confidence: 0.352665334939957
00:15:10.953 --> 00:15:13.361 can work with the family to make the
NOTE Confidence: 0.352665334939957
00:15:13.370 --> 00:15:15.326 sessions as useful to the caregiver,
NOTE Confidence: 0.352665334939957
00:15:15.330 --> 00:15:16.834 and child is possible.
NOTE Confidence: 0.352665334939957
00:15:16.834 --> 00:15:20.214 So there are a few areas it might
NOTE Confidence: 0.352665334939957
00:15:20.214 --> 00:15:21.774 be understandably important
NOTE Confidence: 0.352665334939957
00:15:21.774 --> 00:15:24.374 to review with the families.
NOTE Confidence: 0.352665334939957
00:15:24.380 --> 00:15:25.232 For example,
NOTE Confidence: 0.352665334939957
00:15:25.232 --> 00:15:27.788 they may be thinking of the
NOTE Confidence: 0.352665334939957
00:15:27.788 --> 00:15:29.937 virtual session as a phone call.
NOTE Confidence: 0.352665334939957
00:15:29.940 --> 00:15:31.302 They may be,
NOTE Confidence: 0.352665334939957

00:15:31.302 --> 00:15:34.480 so they might be holding the call
NOTE Confidence: 0.352665334939957

00:15:34.586 --> 00:15:37.646 when they may be multi tasking.
NOTE Confidence: 0.352665334939957

00:15:37.650 --> 00:15:40.740 So for example when there are
NOTE Confidence: 0.352665334939957

00:15:40.740 --> 00:15:43.428 making dinner when they're going
NOTE Confidence: 0.352665334939957

00:15:43.428 --> 00:15:46.093 grocery shopping when they are
NOTE Confidence: 0.352665334939957

00:15:46.093 --> 00:15:49.060 talking or texting to friends.
NOTE Confidence: 0.352665334939957

00:15:49.060 --> 00:15:49.508 Jenn, actually,
NOTE Confidence: 0.352665334939957

00:15:49.508 --> 00:15:51.300 if you could go to the next slide,
NOTE Confidence: 0.352665334939957

00:15:51.300 --> 00:15:52.200 that would be great.
NOTE Confidence: 0.901597857475281

00:15:54.680 --> 00:15:58.206 Thank you. So we really want to help
NOTE Confidence: 0.901597857475281

00:15:58.206 --> 00:16:00.247 them to think about how they might set
NOTE Confidence: 0.901597857475281

00:16:00.247 --> 00:16:02.502 up the time when they are most focused
NOTE Confidence: 0.901597857475281

00:16:02.502 --> 00:16:04.674 spending time during that initial call,
NOTE Confidence: 0.901597857475281

00:16:04.680 --> 00:16:06.432 helping him think differently about how
NOTE Confidence: 0.901597857475281

00:16:06.432 --> 00:16:08.190 the therapy sessions are conducted over
NOTE Confidence: 0.901597857475281

00:16:08.190 --> 00:16:10.352 the phone or the computer, or a tablet,

NOTE Confidence: 0.901597857475281

00:16:10.352 --> 00:16:11.722 how they're different from other

NOTE Confidence: 0.901597857475281

00:16:11.722 --> 00:16:13.796 kinds of calls that are more informal.

NOTE Confidence: 0.901597857475281

00:16:13.800 --> 00:16:15.718 So our goal is to really help

NOTE Confidence: 0.901597857475281

00:16:15.718 --> 00:16:17.760 predict some of these expectations.

NOTE Confidence: 0.901597857475281

00:16:17.760 --> 00:16:20.710 And next slide please John.

NOTE Confidence: 0.901597857475281

00:16:20.710 --> 00:16:22.942 So the idea is really to discuss a

NOTE Confidence: 0.901597857475281

00:16:22.942 --> 00:16:25.325 plan for creating a sense of walking

NOTE Confidence: 0.901597857475281

00:16:25.325 --> 00:16:27.470 into the therapy room each week,

NOTE Confidence: 0.901597857475281

00:16:27.470 --> 00:16:30.690 and it's really a nice way to begin the work.

NOTE Confidence: 0.901597857475281

00:16:30.690 --> 00:16:33.186 It helps to engage the caregiver

NOTE Confidence: 0.901597857475281

00:16:33.186 --> 00:16:35.751 parenting role and really help set

NOTE Confidence: 0.901597857475281

00:16:35.751 --> 00:16:38.223 the tone for everything that follows.

NOTE Confidence: 0.901597857475281

00:16:38.230 --> 00:16:40.659 Which I think can be incredibly important.

NOTE Confidence: 0.901597857475281

00:16:40.660 --> 00:16:43.268 So we want to work with the caregiver

NOTE Confidence: 0.901597857475281

00:16:43.268 --> 00:16:44.820 to brainstorm and identify,

NOTE Confidence: 0.901597857475281

00:16:44.820 --> 00:16:46.224 ideally consistent location where
NOTE Confidence: 0.901597857475281

00:16:46.224 --> 00:16:48.330 the caregiver and child will be
NOTE Confidence: 0.901597857475281

00:16:48.384 --> 00:16:49.680 during the CSI sessions.
NOTE Confidence: 0.901597857475281

00:16:49.680 --> 00:16:51.920 Will want to Orient the caregiver and
NOTE Confidence: 0.901597857475281

00:16:51.920 --> 00:16:53.849 child participating in virtual sessions.
NOTE Confidence: 0.901597857475281

00:16:53.850 --> 00:16:56.346 Meaning how do we create that sense of
NOTE Confidence: 0.901597857475281

00:16:56.346 --> 00:16:58.866 walking into the therapist office so that
NOTE Confidence: 0.901597857475281

00:16:58.866 --> 00:17:01.130 they really have an appropriate space?
NOTE Confidence: 0.901597857475281

00:17:01.130 --> 00:17:03.206 Meaning privacy as much as possible,
NOTE Confidence: 0.901597857475281

00:17:03.210 --> 00:17:05.490 with ideally as few distractions as
NOTE Confidence: 0.901597857475281

00:17:05.490 --> 00:17:07.506 possible so that they're grounded
NOTE Confidence: 0.901597857475281

00:17:07.506 --> 00:17:09.230 and ready to participate.
NOTE Confidence: 0.901597857475281

00:17:09.230 --> 00:17:11.264 And I also might say that at the start
NOTE Confidence: 0.901597857475281

00:17:11.264 --> 00:17:13.149 of each other screening session,
NOTE Confidence: 0.901597857475281

00:17:13.150 --> 00:17:15.206 or see if TSI session that the clinician
NOTE Confidence: 0.901597857475281

00:17:15.206 --> 00:17:17.011 may want to consider starting the

NOTE Confidence: 0.901597857475281
00:17:17.011 --> 00:17:18.865 session with some kind of checking
NOTE Confidence: 0.901597857475281
00:17:18.925 --> 00:17:20.759 in so to speak about whether they're
NOTE Confidence: 0.901597857475281
00:17:20.759 --> 00:17:22.387 actually in a location where they're
NOTE Confidence: 0.901597857475281
00:17:22.387 --> 00:17:24.061 focused and where there's as much
NOTE Confidence: 0.901597857475281
00:17:24.061 --> 00:17:24.910 privacy as possible.
NOTE Confidence: 0.901597857475281
00:17:24.910 --> 00:17:26.870 Perhaps by asking something like you know,
NOTE Confidence: 0.901597857475281
00:17:26.870 --> 00:17:29.390 are you settled in your room or your space?
NOTE Confidence: 0.901597857475281
00:17:29.390 --> 00:17:33.053 Or do you need a minute before we begin?
NOTE Confidence: 0.901597857475281
00:17:33.060 --> 00:17:34.859 Another piece is taking the time to
NOTE Confidence: 0.901597857475281
00:17:34.859 --> 00:17:36.779 talk with a caregiver about identifying
NOTE Confidence: 0.901597857475281
00:17:36.779 --> 00:17:38.963 a space for the therapy session.
NOTE Confidence: 0.901597857475281
00:17:38.970 --> 00:17:39.281 Again,
NOTE Confidence: 0.901597857475281
00:17:39.281 --> 00:17:41.147 we've talked about as identifying where
NOTE Confidence: 0.901597857475281
00:17:41.147 --> 00:17:43.377 it will have as few interruptions as
NOTE Confidence: 0.901597857475281
00:17:43.377 --> 00:17:45.243 possible so that privacy is insured
NOTE Confidence: 0.901597857475281

00:17:45.295 --> 00:17:47.095 and really lends itself to the
NOTE Confidence: 0.901597857475281

00:17:47.095 --> 00:17:48.576 caregiver and child really engaging
NOTE Confidence: 0.901597857475281

00:17:48.576 --> 00:17:50.508 into the work so the family may
NOTE Confidence: 0.901597857475281

00:17:50.508 --> 00:17:52.817 need to really come up with unique
NOTE Confidence: 0.901597857475281

00:17:52.817 --> 00:17:54.512 spaces for the therapy sessions.
NOTE Confidence: 0.901597857475281

00:17:54.520 --> 00:17:55.154 And again,
NOTE Confidence: 0.901597857475281

00:17:55.154 --> 00:17:57.056 this is the moment for working
NOTE Confidence: 0.901597857475281

00:17:57.056 --> 00:17:58.249 with what we have.
NOTE Confidence: 0.901597857475281

00:17:58.250 --> 00:18:00.427 This is the time to be creative,
NOTE Confidence: 0.901597857475281

00:18:00.430 --> 00:18:00.749 inflexible,
NOTE Confidence: 0.901597857475281

00:18:00.749 --> 00:18:02.982 the family may have ideas or may
NOTE Confidence: 0.901597857475281

00:18:02.982 --> 00:18:04.870 need help to think through or.
NOTE Confidence: 0.901597857475281

00:18:04.870 --> 00:18:06.886 Think outside the box in terms of
NOTE Confidence: 0.901597857475281

00:18:06.886 --> 00:18:08.690 the setting for these sessions.
NOTE Confidence: 0.901597857475281

00:18:08.690 --> 00:18:09.722 So for example,
NOTE Confidence: 0.901597857475281

00:18:09.722 --> 00:18:11.786 we know that families that are

NOTE Confidence: 0.901597857475281
00:18:11.786 --> 00:18:13.456 participating in CSI who are living,
NOTE Confidence: 0.901597857475281
00:18:13.460 --> 00:18:14.148 for example,
NOTE Confidence: 0.901597857475281
00:18:14.148 --> 00:18:16.212 very small studio apartments that the
NOTE Confidence: 0.901597857475281
00:18:16.212 --> 00:18:18.540 bathroom may be seen as the therapy space.
NOTE Confidence: 0.901597857475281
00:18:18.540 --> 00:18:22.635 As this is the only space with the door.
NOTE Confidence: 0.901597857475281
00:18:22.640 --> 00:18:23.381 So thinking creatively,
NOTE Confidence: 0.901597857475281
00:18:23.381 --> 00:18:25.403 we also want to talk to the caregiver
NOTE Confidence: 0.901597857475281
00:18:25.403 --> 00:18:27.097 about how they can plan for a
NOTE Confidence: 0.901597857475281
00:18:27.097 --> 00:18:28.426 child care during the sessions
NOTE Confidence: 0.901597857475281
00:18:28.426 --> 00:18:30.010 said they were able to focus.
NOTE Confidence: 0.901597857475281
00:18:30.010 --> 00:18:30.679 So for example,
NOTE Confidence: 0.901597857475281
00:18:30.679 --> 00:18:32.538 in session one we want to ensure that
NOTE Confidence: 0.901597857475281
00:18:32.538 --> 00:18:33.793 the caregiver has the opportunity
NOTE Confidence: 0.901597857475281
00:18:33.793 --> 00:18:35.432 to focus on the discussions that
NOTE Confidence: 0.901597857475281
00:18:35.432 --> 00:18:36.608 arise in the session,
NOTE Confidence: 0.915074408054352

00:18:36.610 --> 00:18:38.762 and we want to make sure that they
NOTE Confidence: 0.915074408054352

00:18:38.762 --> 00:18:41.316 have the space that they need for any
NOTE Confidence: 0.915074408054352

00:18:41.316 --> 00:18:43.749 reactions that they may come up for them.
NOTE Confidence: 0.915074408054352

00:18:43.750 --> 00:18:45.734 We also want to Orient the child in
NOTE Confidence: 0.915074408054352

00:18:45.734 --> 00:18:47.830 caregiver to this new way of working and
NOTE Confidence: 0.915074408054352

00:18:47.830 --> 00:18:49.590 address the reality of tell Alls so.
NOTE Confidence: 0.915074408054352

00:18:49.590 --> 00:18:51.876 For example, as you can see on this slide,
NOTE Confidence: 0.915074408054352

00:18:51.880 --> 00:18:53.398 the clinician might decide to say
NOTE Confidence: 0.915074408054352

00:18:53.398 --> 00:18:54.668 something like you, even though
NOTE Confidence: 0.915074408054352

00:18:54.668 --> 00:18:56.446 we're not in the same room together.
NOTE Confidence: 0.915074408054352

00:18:56.450 --> 00:18:58.626 We're going to do our best to have
NOTE Confidence: 0.915074408054352

00:18:58.626 --> 00:18:59.956 helpful productive sessions in spite
NOTE Confidence: 0.915074408054352

00:18:59.956 --> 00:19:01.938 of the fact that we're not in the
NOTE Confidence: 0.915074408054352

00:19:01.938 --> 00:19:03.354 same room together and that our
NOTE Confidence: 0.915074408054352

00:19:03.354 --> 00:19:05.515 goal is to make this as useful and
NOTE Confidence: 0.915074408054352

00:19:05.515 --> 00:19:07.437 helpful as possible so that you get

NOTE Confidence: 0.915074408054352
00:19:07.437 --> 00:19:09.400 the most out of it as best we can.
NOTE Confidence: 0.840015649795532
00:19:16.750 --> 00:19:19.630 So Jen, if you want to move to
NOTE Confidence: 0.840015649795532
00:19:19.630 --> 00:19:22.540 the next slide. If you're using a
NOTE Confidence: 0.840015649795532
00:19:22.540 --> 00:19:23.312 video component,
NOTE Confidence: 0.840015649795532
00:19:23.312 --> 00:19:24.856 telehealth positioning the cameras.
NOTE Confidence: 0.840015649795532
00:19:24.860 --> 00:19:26.790 Also something to think through.
NOTE Confidence: 0.840015649795532
00:19:26.790 --> 00:19:29.415 We want to review how the position
NOTE Confidence: 0.840015649795532
00:19:29.415 --> 00:19:32.189 of the camera can ensure that you,
NOTE Confidence: 0.840015649795532
00:19:32.190 --> 00:19:32.964 the therapist,
NOTE Confidence: 0.840015649795532
00:19:32.964 --> 00:19:35.673 or able to in the initial sessions
NOTE Confidence: 0.840015649795532
00:19:35.673 --> 00:19:38.745 to see the caregiver to see the child,
NOTE Confidence: 0.840015649795532
00:19:38.750 --> 00:19:41.501 and then to see the child care
NOTE Confidence: 0.840015649795532
00:19:41.501 --> 00:19:44.079 Gerber Dyad in later sessions.
NOTE Confidence: 0.840015649795532
00:19:44.080 --> 00:19:45.862 It's important to note that in
NOTE Confidence: 0.840015649795532
00:19:45.862 --> 00:19:47.330 the diotic sessions of CSI,
NOTE Confidence: 0.840015649795532

00:19:47.330 --> 00:19:49.346 if the child and caregiver don't
NOTE Confidence: 0.840015649795532

00:19:49.346 --> 00:19:50.690 feel comfortable to sitting
NOTE Confidence: 0.840015649795532

00:19:50.748 --> 00:19:52.188 right up close next to each
NOTE Confidence: 0.840015649795532

00:19:52.188 --> 00:19:54.110 other to fit in the camera view,
NOTE Confidence: 0.840015649795532

00:19:54.110 --> 00:19:55.886 just to remind ourselves and remind
NOTE Confidence: 0.840015649795532

00:19:55.886 --> 00:19:57.715 them that they can position the
NOTE Confidence: 0.840015649795532

00:19:57.715 --> 00:19:59.461 camera a little bit farther away
NOTE Confidence: 0.840015649795532

00:19:59.461 --> 00:20:01.242 so that the therapist can really
NOTE Confidence: 0.840015649795532

00:20:01.242 --> 00:20:03.451 see them both and they make more,
NOTE Confidence: 0.840015649795532

00:20:03.451 --> 00:20:06.397 maybe more comfortable where there sitting.
NOTE Confidence: 0.840015649795532

00:20:06.400 --> 00:20:07.960 I'm in terms of lighting.
NOTE Confidence: 0.840015649795532

00:20:07.960 --> 00:20:10.360 It can be helpful to ensure that there's
NOTE Confidence: 0.840015649795532

00:20:10.360 --> 00:20:12.309 enough lighting during that LL sessions.
NOTE Confidence: 0.840015649795532

00:20:12.310 --> 00:20:13.960 We have really found that sometimes
NOTE Confidence: 0.840015649795532

00:20:13.960 --> 00:20:16.119 it's hard to see the child and
NOTE Confidence: 0.840015649795532

00:20:16.119 --> 00:20:17.451 caregivers faces and expressions

NOTE Confidence: 0.840015649795532

00:20:17.451 --> 00:20:19.448 when there isn't enough light and

NOTE Confidence: 0.840015649795532

00:20:19.448 --> 00:20:21.320 that the clinician may want to

NOTE Confidence: 0.840015649795532

00:20:21.320 --> 00:20:22.864 proactively bring up an address.

NOTE Confidence: 0.840015649795532

00:20:22.864 --> 00:20:24.700 The challenge of where to direct

NOTE Confidence: 0.840015649795532

00:20:24.767 --> 00:20:26.615 their gaze or their eye contact,

NOTE Confidence: 0.840015649795532

00:20:26.620 --> 00:20:27.860 particularly maybe when implementing

NOTE Confidence: 0.840015649795532

00:20:27.860 --> 00:20:29.100 the symptom assessment instruments,

NOTE Confidence: 0.840015649795532

00:20:29.100 --> 00:20:31.417 but the one possibility is for the

NOTE Confidence: 0.840015649795532

00:20:31.417 --> 00:20:32.793 therapist to proactively acknowledge

NOTE Confidence: 0.840015649795532

00:20:32.793 --> 00:20:35.033 that it can be tricky to decide

NOTE Confidence: 0.840015649795532

00:20:35.033 --> 00:20:36.968 whether where to look at the camera.

NOTE Confidence: 0.840015649795532

00:20:36.970 --> 00:20:38.874 To look at the video looking right

NOTE Confidence: 0.840015649795532

00:20:38.874 --> 00:20:40.679 into the camera of the caregiver,

NOTE Confidence: 0.840015649795532

00:20:40.680 --> 00:20:43.072 child or looking at the picture of the

NOTE Confidence: 0.840015649795532

00:20:43.072 --> 00:20:45.387 child that maybe if you're using video

NOTE Confidence: 0.840015649795532

00:20:45.387 --> 00:20:47.650 technology a little bit to the side.
NOTE Confidence: 0.840015649795532

00:20:47.650 --> 00:20:48.790 So the clinician might say,
NOTE Confidence: 0.840015649795532

00:20:48.790 --> 00:20:50.092 Dwight you know at times I
NOTE Confidence: 0.840015649795532

00:20:50.092 --> 00:20:51.530 might be looking at the camera.
NOTE Confidence: 0.840015649795532

00:20:51.530 --> 00:20:53.530 At times it might be looking at you
NOTE Confidence: 0.840015649795532

00:20:53.530 --> 00:20:55.757 and we can have a discussion about.
NOTE Confidence: 0.840015649795532

00:20:55.760 --> 00:20:56.049 So,
NOTE Confidence: 0.840015649795532

00:20:56.049 --> 00:20:57.783 just to summarize that it's really
NOTE Confidence: 0.840015649795532

00:20:57.783 --> 00:21:00.099 this is all about setting the frame.
NOTE Confidence: 0.840015649795532

00:21:00.100 --> 00:21:01.650 It's about reviewing the common
NOTE Confidence: 0.840015649795532

00:21:01.650 --> 00:21:02.890 pitfalls of families understandably.
NOTE Confidence: 0.840015649795532

00:21:02.890 --> 00:21:05.060 May need to review with the therapist.
NOTE Confidence: 0.840015649795532

00:21:05.060 --> 00:21:06.872 It's really worth spending the time
NOTE Confidence: 0.840015649795532

00:21:06.872 --> 00:21:09.089 in a first session with a caregiver,
NOTE Confidence: 0.840015649795532

00:21:09.090 --> 00:21:10.950 perhaps with the child as well.
NOTE Confidence: 0.840015649795532

00:21:10.950 --> 00:21:13.253 It's about sending the message to the

NOTE Confidence: 0.840015649795532
00:21:13.253 --> 00:21:15.458 family that they've come to the right
NOTE Confidence: 0.840015649795532
00:21:15.458 --> 00:21:17.770 place that they're in good hands with you,
NOTE Confidence: 0.840015649795532
00:21:17.770 --> 00:21:18.619 the CSI therapist,
NOTE Confidence: 0.840015649795532
00:21:18.619 --> 00:21:20.317 and it can be really helpful
NOTE Confidence: 0.840015649795532
00:21:20.317 --> 00:21:22.431 and important for the family to
NOTE Confidence: 0.840015649795532
00:21:22.431 --> 00:21:24.206 experience this message that they're
NOTE Confidence: 0.840015649795532
00:21:24.263 --> 00:21:26.146 in good hands and will get relief.
NOTE Confidence: 0.840015649795532
00:21:26.150 --> 00:21:30.026 By participating in CSI via Telehealth.
NOTE Confidence: 0.840015649795532
00:21:30.030 --> 00:21:32.058 Jenn next slide please?
NOTE Confidence: 0.840015649795532
00:21:32.058 --> 00:21:35.100 And just a note about structure.
NOTE Confidence: 0.840015649795532
00:21:35.100 --> 00:21:36.087 Before we pause,
NOTE Confidence: 0.840015649795532
00:21:36.087 --> 00:21:38.390 I think during safety as I training
NOTE Confidence: 0.840015649795532
00:21:38.458 --> 00:21:40.230 we discussed the importance
NOTE Confidence: 0.840015649795532
00:21:40.230 --> 00:21:42.002 of structures and intervention
NOTE Confidence: 0.840015649795532
00:21:42.002 --> 00:21:43.970 unto itself in trauma cases,
NOTE Confidence: 0.840015649795532

00:21:43.970 --> 00:21:45.865 which really involves lots of
NOTE Confidence: 0.840015649795532

00:21:45.865 --> 00:21:48.534 clinical of loss of control as a
NOTE Confidence: 0.840015649795532

00:21:48.534 --> 00:21:50.646 clinical scheme and the structure of
NOTE Confidence: 0.840015649795532

00:21:50.646 --> 00:21:53.072 the therapy session can really lead
NOTE Confidence: 0.840015649795532

00:21:53.072 --> 00:21:55.132 to an experience of predictability
NOTE Confidence: 0.840015649795532

00:21:55.132 --> 00:21:57.094 and therefore sense of control.
NOTE Confidence: 0.840015649795532

00:21:57.094 --> 00:21:58.638 So for this reason,
NOTE Confidence: 0.840015649795532

00:21:58.640 --> 00:22:00.956 as we've discussed for traumatized clients,
NOTE Confidence: 0.840015649795532

00:22:00.960 --> 00:22:02.895 and patients are more directive
NOTE Confidence: 0.840015649795532

00:22:02.895 --> 00:22:04.830 structured approach is really warranted.
NOTE Confidence: 0.840015649795532

00:22:04.830 --> 00:22:05.814 And in fact,
NOTE Confidence: 0.840015649795532

00:22:05.814 --> 00:22:08.110 is a really good match for Telehealth.
NOTE Confidence: 0.840015649795532

00:22:08.110 --> 00:22:09.106 So In addition,
NOTE Confidence: 0.840015649795532

00:22:09.106 --> 00:22:11.430 the structure can be really helpful and
NOTE Confidence: 0.927333831787109

00:22:11.491 --> 00:22:13.369 important when it feels like there
NOTE Confidence: 0.927333831787109

00:22:13.369 --> 00:22:15.668 are so many other unknowns in a

NOTE Confidence: 0.927333831787109
00:22:15.668 --> 00:22:17.624 person's life and you have knowledge
NOTE Confidence: 0.927333831787109
00:22:17.624 --> 00:22:20.075 ING that definitely in the context
NOTE Confidence: 0.927333831787109
00:22:20.075 --> 00:22:22.664 of what is happening for this
NOTE Confidence: 0.927333831787109
00:22:22.664 --> 00:22:25.366 country in this world at this time.
NOTE Confidence: 0.927333831787109
00:22:25.370 --> 00:22:27.386 So now I'd like to pause for a moment
NOTE Confidence: 0.927333831787109
00:22:27.386 --> 00:22:29.739 to check in with the chat box so Jen can
NOTE Confidence: 0.927333831787109
00:22:29.739 --> 00:22:32.095 you let us know when we can all check it,
NOTE Confidence: 0.927333831787109
00:22:32.100 --> 00:22:34.452 but can you let us know about any
NOTE Confidence: 0.927333831787109
00:22:34.452 --> 00:22:36.153 questions that have come in that
NOTE Confidence: 0.927333831787109
00:22:36.153 --> 00:22:38.300 we may be able to respond to? So
NOTE Confidence: 0.920495271682739
00:22:38.300 --> 00:22:39.278 so far the
NOTE Confidence: 0.920495271682739
00:22:39.280 --> 00:22:41.188 main question is if the power
NOTE Confidence: 0.920495271682739
00:22:41.188 --> 00:22:43.220 point will be available to all
NOTE Confidence: 0.920495271682739
00:22:43.220 --> 00:22:44.960 the attendees afterwards so that
NOTE Confidence: 0.920495271682739
00:22:44.960 --> 00:22:46.729 they can reference back to it.
NOTE Confidence: 0.920495271682739

00:22:46.730 --> 00:22:49.314 So I'm really glad you asked that question.

NOTE Confidence: 0.920495271682739

00:22:49.320 --> 00:22:51.427 Absolutely, we will send this out along

NOTE Confidence: 0.920495271682739

00:22:51.427 --> 00:22:53.529 with the link to the presentation,

NOTE Confidence: 0.920495271682739

00:22:53.530 --> 00:22:55.480 both for you all for attending,

NOTE Confidence: 0.920495271682739

00:22:55.480 --> 00:22:58.072 but also for folks were not able to

NOTE Confidence: 0.920495271682739

00:22:58.072 --> 00:23:00.340 attend today, so will make sure that

NOTE Confidence: 0.920495271682739

00:23:00.340 --> 00:23:01.960 everything gets out to everyone.

NOTE Confidence: 0.856427490711212

00:23:02.990 --> 00:23:06.588 Just to get the moment whether there's

NOTE Confidence: 0.856427490711212

00:23:06.590 --> 00:23:09.360 any other comments or reflections

NOTE Confidence: 0.856427490711212

00:23:09.360 --> 00:23:11.576 or questions from anybody

NOTE Confidence: 0.856427490711212

00:23:11.576 --> 00:23:13.777 else before we move on.

NOTE Confidence: 0.920628428459167

00:23:18.890 --> 00:23:21.867 OK, so at this point I'd like to turn things

NOTE Confidence: 0.920628428459167

00:23:21.867 --> 00:23:24.306 over to our colleague Megan Gosselin.

NOTE Confidence: 0.908546507358551

00:23:25.050 --> 00:23:27.332 Great so thanks Kerry um and just

NOTE Confidence: 0.908546507358551

00:23:27.332 --> 00:23:29.735 to read before I dive in to the

NOTE Confidence: 0.908546507358551

00:23:29.735 --> 00:23:31.710 material that I want to present,

NOTE Confidence: 0.908546507358551
00:23:31.710 --> 00:23:33.576 I just want to reiterate what
NOTE Confidence: 0.908546507358551
00:23:33.576 --> 00:23:35.190 Kerry and Steven both said,
NOTE Confidence: 0.908546507358551
00:23:35.190 --> 00:23:37.248 which is just how appreciative I feel
NOTE Confidence: 0.908546507358551
00:23:37.248 --> 00:23:40.254 to be here amongst all of you I've been
NOTE Confidence: 0.908546507358551
00:23:40.254 --> 00:23:42.294 personally I've been trying to kind
NOTE Confidence: 0.908546507358551
00:23:42.294 --> 00:23:44.394 of find Silver Linings where I can
NOTE Confidence: 0.908546507358551
00:23:44.394 --> 00:23:46.215 during these these months that have
NOTE Confidence: 0.908546507358551
00:23:46.215 --> 00:23:48.510 been so challenging for so many reasons.
NOTE Confidence: 0.908546507358551
00:23:48.510 --> 00:23:50.322 In the end, I'm personally finding
NOTE Confidence: 0.908546507358551
00:23:50.322 --> 00:23:52.310 the fact that so many people,
NOTE Confidence: 0.908546507358551
00:23:52.310 --> 00:23:52.962 somebody, clinicians,
NOTE Confidence: 0.908546507358551
00:23:52.962 --> 00:23:55.244 felt that it would be a good
NOTE Confidence: 0.908546507358551
00:23:55.244 --> 00:23:56.480 use of their time.
NOTE Confidence: 0.908546507358551
00:23:56.480 --> 00:23:58.728 You been during the middle of the night
NOTE Confidence: 0.908546507358551
00:23:58.728 --> 00:24:00.788 to figure out how they can continue
NOTE Confidence: 0.908546507358551

00:24:00.788 --> 00:24:02.656 to hone their skills and helping
NOTE Confidence: 0.908546507358551

00:24:02.656 --> 00:24:05.267 traumatized kids and families in this venue.
NOTE Confidence: 0.908546507358551

00:24:05.270 --> 00:24:07.774 I just to me, that's a silver lining,
NOTE Confidence: 0.908546507358551

00:24:07.780 --> 00:24:10.849 so I just wanted to begin by saying how
NOTE Confidence: 0.908546507358551

00:24:10.849 --> 00:24:14.059 glad I am that to be part of this so Jen,
NOTE Confidence: 0.908546507358551

00:24:14.060 --> 00:24:15.944 would you mind going to the
NOTE Confidence: 0.908546507358551

00:24:15.944 --> 00:24:16.886 next slide please?
NOTE Confidence: 0.908546507358551

00:24:16.886 --> 00:24:17.199 Great,
NOTE Confidence: 0.908546507358551

00:24:17.200 --> 00:24:19.192 so I'm going to talk with us today
NOTE Confidence: 0.908546507358551

00:24:19.192 --> 00:24:21.189 about some of the engagement challenges
NOTE Confidence: 0.908546507358551

00:24:21.189 --> 00:24:23.349 that we might experience while we're
NOTE Confidence: 0.908546507358551

00:24:23.406 --> 00:24:25.332 implementing Cai Entella Health and you
NOTE Confidence: 0.908546507358551

00:24:25.332 --> 00:24:27.900 can see that we've listed a couple here.
NOTE Confidence: 0.908546507358551

00:24:27.900 --> 00:24:28.860 So we may.
NOTE Confidence: 0.908546507358551

00:24:28.860 --> 00:24:30.960 We may run into this situation where
NOTE Confidence: 0.908546507358551

00:24:30.960 --> 00:24:33.400 the child or the caregiver is saying,

NOTE Confidence: 0.908546507358551
00:24:33.400 --> 00:24:34.016 You know,
NOTE Confidence: 0.908546507358551
00:24:34.016 --> 00:24:36.172 I don't want to start treatment at
NOTE Confidence: 0.908546507358551
00:24:36.172 --> 00:24:38.251 this time I feel uncomfortable with
NOTE Confidence: 0.908546507358551
00:24:38.251 --> 00:24:40.633 this idea of of meeting with you
NOTE Confidence: 0.908546507358551
00:24:40.633 --> 00:24:42.789 over the phone or through a screen,
NOTE Confidence: 0.908546507358551
00:24:42.790 --> 00:24:44.090 or by the way,
NOTE Confidence: 0.908546507358551
00:24:44.090 --> 00:24:46.459 can't we just wait until the the
NOTE Confidence: 0.908546507358551
00:24:46.459 --> 00:24:49.179 pandemic is over or when we would be
NOTE Confidence: 0.908546507358551
00:24:49.179 --> 00:24:51.864 able to to be able to be in person?
NOTE Confidence: 0.908546507358551
00:24:51.870 --> 00:24:52.863 and I think,
NOTE Confidence: 0.908546507358551
00:24:52.863 --> 00:24:54.518 especially toward the beginning of.
NOTE Confidence: 0.908546507358551
00:24:54.520 --> 00:24:55.350 The pandemic,
NOTE Confidence: 0.908546507358551
00:24:55.350 --> 00:24:57.840 some of those comments may have
NOTE Confidence: 0.908546507358551
00:24:57.840 --> 00:24:59.469 reflected either I'm misunderstanding
NOTE Confidence: 0.908546507358551
00:24:59.469 --> 00:25:02.365 or A wish that this would be kind
NOTE Confidence: 0.908546507358551

00:25:02.433 --> 00:25:04.869 of a quick disruption in all our
NOTE Confidence: 0.908546507358551

00:25:04.869 --> 00:25:06.680 lives that actually hasn't panned
NOTE Confidence: 0.908546507358551

00:25:06.680 --> 00:25:08.580 out to be the case.
NOTE Confidence: 0.908546507358551

00:25:08.580 --> 00:25:10.860 And even once a family has
NOTE Confidence: 0.908546507358551

00:25:10.860 --> 00:25:12.380 agreed to begin cai,
NOTE Confidence: 0.908546507358551

00:25:12.380 --> 00:25:15.428 I think we've we've all had the experience
NOTE Confidence: 0.908546507358551

00:25:15.428 --> 00:25:17.959 where there may be some dead ends
NOTE Confidence: 0.908546507358551

00:25:17.959 --> 00:25:20.360 or some silence during the sessions,
NOTE Confidence: 0.908546507358551

00:25:20.360 --> 00:25:23.020 either from the child or the caregiver,
NOTE Confidence: 0.908546507358551

00:25:23.020 --> 00:25:23.734 or both.
NOTE Confidence: 0.908546507358551

00:25:23.734 --> 00:25:25.876 So the the clients who are
NOTE Confidence: 0.908546507358551

00:25:25.876 --> 00:25:27.990 really not offering much or.
NOTE Confidence: 0.908546507358551

00:25:27.990 --> 00:25:29.778 I think you know they adolescent
NOTE Confidence: 0.908546507358551

00:25:29.778 --> 00:25:32.062 who is kind of in their hoodie
NOTE Confidence: 0.908546507358551

00:25:32.062 --> 00:25:33.767 and just kind of shrugging,
NOTE Confidence: 0.908546507358551

00:25:33.770 --> 00:25:34.643 I don't know,

NOTE Confidence: 0.908546507358551
00:25:34.643 --> 00:25:37.105 so I imagine that some of these scenarios
NOTE Confidence: 0.908546507358551
00:25:37.105 --> 00:25:39.977 might be familiar to people on the call.
NOTE Confidence: 0.908546507358551
00:25:39.980 --> 00:25:42.412 And I think one way that we could
NOTE Confidence: 0.908546507358551
00:25:42.412 --> 00:25:45.082 go would be to take these statements
NOTE Confidence: 0.908546507358551
00:25:45.082 --> 00:25:47.787 in these kind of behaviours at face
NOTE Confidence: 0.908546507358551
00:25:47.787 --> 00:25:50.034 value and kind of agree and say,
NOTE Confidence: 0.908546507358551
00:25:50.040 --> 00:25:51.288 OK, well you know,
NOTE Confidence: 0.908546507358551
00:25:51.288 --> 00:25:53.619 let's wait until we can do this
NOTE Confidence: 0.908546507358551
00:25:53.619 --> 00:25:55.935 in person or either or explicitly,
NOTE Confidence: 0.908546507358551
00:25:55.940 --> 00:25:57.675 or even implicitly give the
NOTE Confidence: 0.908546507358551
00:25:57.675 --> 00:25:59.063 message that we agree.
NOTE Confidence: 0.908546507358551
00:25:59.070 --> 00:26:01.499 Yeah, you know, Telehouse is just not.
NOTE Confidence: 0.908546507358551
00:26:01.500 --> 00:26:03.380 It's just not as good.
NOTE Confidence: 0.908546507358551
00:26:03.380 --> 00:26:04.508 It's second best,
NOTE Confidence: 0.908546507358551
00:26:04.508 --> 00:26:07.140 but I think we're all here because
NOTE Confidence: 0.908546507358551

00:26:07.221 --> 00:26:09.609 we believe that taking that approach
NOTE Confidence: 0.908546507358551

00:26:09.609 --> 00:26:12.269 is really going to do a disservice
NOTE Confidence: 0.908546507358551

00:26:12.269 --> 00:26:14.249 to the kid in the family,
NOTE Confidence: 0.925338387489319

00:26:14.250 --> 00:26:16.500 and that leaving trauma reactions untreated,
NOTE Confidence: 0.925338387489319

00:26:16.500 --> 00:26:19.348 you know what we know is that they
NOTE Confidence: 0.925338387489319

00:26:19.348 --> 00:26:22.088 are likely to continue or or even to
NOTE Confidence: 0.925338387489319

00:26:22.088 --> 00:26:25.607 to get worse so I can quickly share a
NOTE Confidence: 0.925338387489319

00:26:25.607 --> 00:26:28.632 personal anecdote which helps me as I'm
NOTE Confidence: 0.925338387489319

00:26:28.632 --> 00:26:30.396 thinking about engagement challenges
NOTE Confidence: 0.925338387489319

00:26:30.396 --> 00:26:32.773 with new families. Which is it?
NOTE Confidence: 0.925338387489319

00:26:32.773 --> 00:26:35.660 I reflect back on the initial moments here.
NOTE Confidence: 0.925338387489319

00:26:35.660 --> 00:26:38.468 When the RR agency was the schools in
NOTE Confidence: 0.925338387489319

00:26:38.468 --> 00:26:41.030 Connecticut had just closed the day before.
NOTE Confidence: 0.925338387489319

00:26:41.030 --> 00:26:43.397 It was a Friday and we were all kind
NOTE Confidence: 0.925338387489319

00:26:43.397 --> 00:26:45.957 of scrambling around in our agency
NOTE Confidence: 0.925338387489319

00:26:45.957 --> 00:26:48.182 thinking about the following week.

NOTE Confidence: 0.925338387489319
00:26:48.190 --> 00:26:50.758 We were likely going to be closed and
NOTE Confidence: 0.925338387489319
00:26:50.758 --> 00:26:53.149 moving to tell a health and another
NOTE Confidence: 0.925338387489319
00:26:53.149 --> 00:26:55.297 a senior kind of trauma supervisor
NOTE Confidence: 0.925338387489319
00:26:55.297 --> 00:26:57.715 from a different program came to
NOTE Confidence: 0.925338387489319
00:26:57.715 --> 00:26:59.626 consult with us and said,
NOTE Confidence: 0.925338387489319
00:26:59.626 --> 00:27:01.366 how are you guys going
NOTE Confidence: 0.925338387489319
00:27:01.366 --> 00:27:02.890 to implement these these?
NOTE Confidence: 0.925338387489319
00:27:02.890 --> 00:27:04.805 Um trauma focused interventions in
NOTE Confidence: 0.925338387489319
00:27:04.805 --> 00:27:07.815 this new way and I'll never forget my
NOTE Confidence: 0.925338387489319
00:27:07.815 --> 00:27:10.209 reaction at that point was to say,
NOTE Confidence: 0.925338387489319
00:27:10.210 --> 00:27:11.308 well, we're not.
NOTE Confidence: 0.925338387489319
00:27:11.308 --> 00:27:12.406 We're going to.
NOTE Confidence: 0.925338387489319
00:27:12.410 --> 00:27:14.600 We're going to do case management
NOTE Confidence: 0.925338387489319
00:27:14.600 --> 00:27:15.695 and supportive checkins,
NOTE Confidence: 0.925338387489319
00:27:15.700 --> 00:27:18.628 and now looking back and reflecting on that,
NOTE Confidence: 0.925338387489319

00:27:18.630 --> 00:27:21.073 I can really acknowledge that that was
NOTE Confidence: 0.925338387489319

00:27:21.073 --> 00:27:23.630 largely driven by my own acute stress
NOTE Confidence: 0.925338387489319

00:27:23.630 --> 00:27:25.435 reactions that were really limiting
NOTE Confidence: 0.925338387489319

00:27:25.435 --> 00:27:27.737 my ability to think broadly and
NOTE Confidence: 0.925338387489319

00:27:27.737 --> 00:27:30.332 creatively and to problem solve an end.
NOTE Confidence: 0.925338387489319

00:27:30.332 --> 00:27:31.054 So Fortunately,
NOTE Confidence: 0.925338387489319

00:27:31.054 --> 00:27:33.220 I've been able to move forward
NOTE Confidence: 0.925338387489319

00:27:33.291 --> 00:27:35.499 from that initial kind of frozen.
NOTE Confidence: 0.925338387489319

00:27:35.500 --> 00:27:36.182 A feeling.
NOTE Confidence: 0.925338387489319

00:27:36.182 --> 00:27:38.228 And now as I see it,
NOTE Confidence: 0.925338387489319

00:27:38.230 --> 00:27:40.282 the question isn't whether we can
NOTE Confidence: 0.925338387489319

00:27:40.282 --> 00:27:42.039 implement cai intella health because
NOTE Confidence: 0.925338387489319

00:27:42.039 --> 00:27:44.025 we've had such such tremendous success
NOTE Confidence: 0.925338387489319

00:27:44.025 --> 00:27:46.069 in doing that over these months.
NOTE Confidence: 0.925338387489319

00:27:46.070 --> 00:27:47.780 But really, the question isn't.
NOTE Confidence: 0.925338387489319

00:27:47.780 --> 00:27:51.530 It is now about how are we going to do it?

NOTE Confidence: 0.925338387489319
00:27:51.530 --> 00:27:53.570 So let's talk more about that.
NOTE Confidence: 0.925338387489319
00:27:53.570 --> 00:27:54.252 So Jen,
NOTE Confidence: 0.925338387489319
00:27:54.252 --> 00:27:56.980 would you please go to the next slide?
NOTE Confidence: 0.932854235172272
00:28:00.800 --> 00:28:03.467 Thank you so as we're encountering this,
NOTE Confidence: 0.932854235172272
00:28:03.470 --> 00:28:05.370 this range of engagement challenges,
NOTE Confidence: 0.932854235172272
00:28:05.370 --> 00:28:08.186 I think, really the first thing that we
NOTE Confidence: 0.932854235172272
00:28:08.186 --> 00:28:10.982 really should try to do is understand
NOTE Confidence: 0.932854235172272
00:28:10.982 --> 00:28:12.602 what were clinically observing.
NOTE Confidence: 0.932854235172272
00:28:12.610 --> 00:28:14.906 So I think everyone on this call would
NOTE Confidence: 0.932854235172272
00:28:14.906 --> 00:28:17.124 agree that assessment is necessary
NOTE Confidence: 0.932854235172272
00:28:17.124 --> 00:28:18.705 before effective intervention.
NOTE Confidence: 0.932854235172272
00:28:18.710 --> 00:28:21.110 So I would encourage us all to shift
NOTE Confidence: 0.932854235172272
00:28:21.110 --> 00:28:23.052 away from thinking about engagement
NOTE Confidence: 0.932854235172272
00:28:23.052 --> 00:28:26.020 challenges that we're facing in this in
NOTE Confidence: 0.932854235172272
00:28:26.091 --> 00:28:28.919 this period as being exclusively or even
NOTE Confidence: 0.932854235172272

00:28:28.919 --> 00:28:31.440 necessarily driven by or caused by Telehouse.

NOTE Confidence: 0.932854235172272

00:28:31.440 --> 00:28:34.628 And instead we want to get back to our

NOTE Confidence: 0.932854235172272

00:28:34.628 --> 00:28:36.578 broad kind of clinical perspectives.

NOTE Confidence: 0.932854235172272

00:28:36.580 --> 00:28:38.518 And also remember what we really

NOTE Confidence: 0.932854235172272

00:28:38.518 --> 00:28:40.260 know about the traumatic response

NOTE Confidence: 0.932854235172272

00:28:40.260 --> 00:28:42.195 during this very dramatic phase,

NOTE Confidence: 0.932854235172272

00:28:42.200 --> 00:28:43.888 which includes, for example,

NOTE Confidence: 0.932854235172272

00:28:43.888 --> 00:28:46.420 often high levels of Terro Avoidance.

NOTE Confidence: 0.932854235172272

00:28:46.420 --> 00:28:48.850 And also high levels of overwhelm.

NOTE Confidence: 0.932854235172272

00:28:48.850 --> 00:28:51.530 So it's really our goal to keep and

NOTE Confidence: 0.932854235172272

00:28:51.530 --> 00:28:53.709 maintain that clinical perspective,

NOTE Confidence: 0.932854235172272

00:28:53.710 --> 00:28:56.140 for example by identifying and uncovering.

NOTE Confidence: 0.932854235172272

00:28:56.140 --> 00:28:58.170 What is the clinical concern?

NOTE Confidence: 0.932854235172272

00:28:58.170 --> 00:29:00.690 What is the concern or the clinical

NOTE Confidence: 0.932854235172272

00:29:00.690 --> 00:29:02.317 issue that's actually resulting

NOTE Confidence: 0.932854235172272

00:29:02.317 --> 00:29:04.237 in the engagement challenge?

NOTE Confidence: 0.932854235172272
00:29:04.240 --> 00:29:06.628 And then once we have more
NOTE Confidence: 0.932854235172272
00:29:06.628 --> 00:29:09.109 precisely identified that we can be
NOTE Confidence: 0.932854235172272
00:29:09.109 --> 00:29:11.129 more effective at addressing it.
NOTE Confidence: 0.932854235172272
00:29:11.130 --> 00:29:12.411 So, for example,
NOTE Confidence: 0.932854235172272
00:29:12.411 --> 00:29:14.973 this can be accomplished through questions
NOTE Confidence: 0.932854235172272
00:29:14.973 --> 00:29:18.006 like help me help me understand your worry.
NOTE Confidence: 0.932854235172272
00:29:18.010 --> 00:29:19.902 What's the worry about?
NOTE Confidence: 0.932854235172272
00:29:19.902 --> 00:29:23.110 About participating in treatment in this way.
NOTE Confidence: 0.932854235172272
00:29:23.110 --> 00:29:23.655 Next,
NOTE Confidence: 0.932854235172272
00:29:23.655 --> 00:29:24.950 slide Jen.
NOTE Confidence: 0.932854235172272
00:29:24.950 --> 00:29:26.736 And so as I said,
NOTE Confidence: 0.932854235172272
00:29:26.736 --> 00:29:28.753 once we have kind of better understood
NOTE Confidence: 0.932854235172272
00:29:28.753 --> 00:29:31.141 from the the clients perspective what
NOTE Confidence: 0.932854235172272
00:29:31.141 --> 00:29:33.790 is driving the engagement challenges.
NOTE Confidence: 0.932854235172272
00:29:33.790 --> 00:29:37.006 Think we're going to be more prepared to
NOTE Confidence: 0.932854235172272

00:29:37.006 --> 00:29:38.815 affectively intervene and help engage
NOTE Confidence: 0.932854235172272

00:29:38.815 --> 00:29:41.520 the kid and the caregiver into a trauma,
NOTE Confidence: 0.932854235172272

00:29:41.520 --> 00:29:43.470 focus screening and treatment that
NOTE Confidence: 0.932854235172272

00:29:43.470 --> 00:29:45.810 we all believe is really going
NOTE Confidence: 0.932854235172272

00:29:45.810 --> 00:29:47.405 to be helpful for them.
NOTE Confidence: 0.932854235172272

00:29:47.410 --> 00:29:49.602 and I think we need to kind of
NOTE Confidence: 0.932854235172272

00:29:49.602 --> 00:29:52.127 dig deep back into our knowledge
NOTE Confidence: 0.932854235172272

00:29:52.127 --> 00:29:54.027 about Perry dramatic symptoms,
NOTE Confidence: 0.932854235172272

00:29:54.030 --> 00:29:55.270 the role of prevention.
NOTE Confidence: 0.932854235172272

00:29:55.270 --> 00:29:57.963 And then you realize some of that evidence
NOTE Confidence: 0.932854235172272

00:29:57.963 --> 00:29:59.873 based engagement strategies that we
NOTE Confidence: 0.932854235172272

00:29:59.873 --> 00:30:02.637 have relied on even outside of Telehouse.
NOTE Confidence: 0.932854235172272

00:30:02.640 --> 00:30:03.675 So for example,
NOTE Confidence: 0.932854235172272

00:30:03.675 --> 00:30:05.400 if engagement challenges are playing
NOTE Confidence: 0.932854235172272

00:30:05.400 --> 00:30:07.230 out with kids or caregivers,
NOTE Confidence: 0.932854235172272

00:30:07.230 --> 00:30:09.678 saying You know they don't want

NOTE Confidence: 0.932854235172272
00:30:09.678 --> 00:30:11.665 to participate in treatment or
NOTE Confidence: 0.932854235172272
00:30:11.665 --> 00:30:13.937 they want to wait to be in person,
NOTE Confidence: 0.932854235172272
00:30:13.940 --> 00:30:15.992 we might Taylor or clinical discussions
NOTE Confidence: 0.932854235172272
00:30:15.992 --> 00:30:17.787 to help increase the motivation
NOTE Confidence: 0.932854235172272
00:30:17.787 --> 00:30:19.637 to participate in treatment and
NOTE Confidence: 0.932854235172272
00:30:19.637 --> 00:30:21.350 to participate now and we.
NOTE Confidence: 0.932854235172272
00:30:21.350 --> 00:30:22.388 So, for example,
NOTE Confidence: 0.932854235172272
00:30:22.388 --> 00:30:24.464 we might focus on what's really
NOTE Confidence: 0.932854235172272
00:30:24.464 --> 00:30:26.708 in it for them to participate.
NOTE Confidence: 0.932854235172272
00:30:26.710 --> 00:30:29.428 What are the most distressing or
NOTE Confidence: 0.932854235172272
00:30:29.428 --> 00:30:32.000 impairing symptoms and what might be?
NOTE Confidence: 0.932854235172272
00:30:32.000 --> 00:30:35.216 What might we predict will happen to those
NOTE Confidence: 0.932854235172272
00:30:35.216 --> 00:30:38.180 symptoms when they're not treated overtime?
NOTE Confidence: 0.932854235172272
00:30:38.180 --> 00:30:38.578 Again,
NOTE Confidence: 0.932854235172272
00:30:38.578 --> 00:30:41.762 the focus on the role of cai as
NOTE Confidence: 0.932854235172272

00:30:41.762 --> 00:30:44.164 prevention model or when engagement

NOTE Confidence: 0.932854235172272

00:30:44.164 --> 00:30:46.559 challenges take the form of,

NOTE Confidence: 0.932854235172272

00:30:46.560 --> 00:30:49.200 you know, I'm just too overwhelmed.

NOTE Confidence: 0.932854235172272

00:30:49.200 --> 00:30:52.287 It's too hard to fit in this

NOTE Confidence: 0.932854235172272

00:30:52.287 --> 00:30:53.610 treatment right now.

NOTE Confidence: 0.932854235172272

00:30:53.610 --> 00:30:56.760 I think it's important for us to.

NOTE Confidence: 0.932854235172272

00:30:56.760 --> 00:30:58.734 Conceptualize it's important for us to

NOTE Confidence: 0.932854235172272

00:30:58.734 --> 00:31:00.896 think about how we conceptualize our

NOTE Confidence: 0.932854235172272

00:31:00.896 --> 00:31:03.236 role as clinicians in those moments.

NOTE Confidence: 0.932854235172272

00:31:03.240 --> 00:31:04.143 So our goal,

NOTE Confidence: 0.932854235172272

00:31:04.143 --> 00:31:06.742 I think as clinicians is to help make

NOTE Confidence: 0.932854235172272

00:31:06.742 --> 00:31:08.827 things easier and more manageable

NOTE Confidence: 0.932854235172272

00:31:08.827 --> 00:31:10.722 for families and, you know,

NOTE Confidence: 0.932854235172272

00:31:10.722 --> 00:31:12.969 I think sometimes we can feel like

NOTE Confidence: 0.932854235172272

00:31:12.969 --> 00:31:14.927 we're imposing on families when

NOTE Confidence: 0.932854235172272

00:31:14.927 --> 00:31:17.279 we're trying to schedule with them,

NOTE Confidence: 0.933795094490051
00:31:17.280 --> 00:31:19.160 when, especially when they're letting
NOTE Confidence: 0.933795094490051
00:31:19.160 --> 00:31:22.318 us know so much is going on for them,
NOTE Confidence: 0.933795094490051
00:31:22.320 --> 00:31:24.679 and I think that might be particularly
NOTE Confidence: 0.933795094490051
00:31:24.679 --> 00:31:27.278 true when were also may be feeling
NOTE Confidence: 0.933795094490051
00:31:27.278 --> 00:31:29.564 overwhelmed at times during this period.
NOTE Confidence: 0.933795094490051
00:31:29.570 --> 00:31:31.802 But if we can shift the
NOTE Confidence: 0.933795094490051
00:31:31.802 --> 00:31:33.290 frame for our patients,
NOTE Confidence: 0.933795094490051
00:31:33.290 --> 00:31:35.747 but also perhaps if it's necessary for
NOTE Confidence: 0.933795094490051
00:31:35.747 --> 00:31:37.903 ourselves from this idea that treatment
NOTE Confidence: 0.933795094490051
00:31:37.903 --> 00:31:40.318 sessions are a burden to treatment is
NOTE Confidence: 0.933795094490051
00:31:40.386 --> 00:31:42.822 really an opportunity that can strengthen
NOTE Confidence: 0.933795094490051
00:31:42.822 --> 00:31:45.194 the family functioning in an ultimately
NOTE Confidence: 0.933795094490051
00:31:45.194 --> 00:31:48.170 lead to in a short amount of time,
NOTE Confidence: 0.933795094490051
00:31:48.170 --> 00:31:50.767 less stress and less overwhelming the family.
NOTE Confidence: 0.933795094490051
00:31:50.770 --> 00:31:52.630 So I think, of course,
NOTE Confidence: 0.933795094490051

00:31:52.630 --> 00:31:54.748 we all want to validate that
NOTE Confidence: 0.933795094490051

00:31:54.748 --> 00:31:57.018 sense of overwhelmed that we know
NOTE Confidence: 0.933795094490051

00:31:57.018 --> 00:31:58.590 as Perry dramatic providers.
NOTE Confidence: 0.933795094490051

00:31:58.590 --> 00:32:00.480 This is a really common
NOTE Confidence: 0.933795094490051

00:32:00.480 --> 00:32:01.992 experience that we heard.
NOTE Confidence: 0.933795094490051

00:32:02.000 --> 00:32:03.011 A pre pandemic,
NOTE Confidence: 0.933795094490051

00:32:03.011 --> 00:32:05.033 but it certainly there may be
NOTE Confidence: 0.933795094490051

00:32:05.033 --> 00:32:06.864 additional burdens right now that
NOTE Confidence: 0.933795094490051

00:32:06.864 --> 00:32:09.000 are contributing over and above too.
NOTE Confidence: 0.933795094490051

00:32:09.000 --> 00:32:10.440 That sense of overwhelm.
NOTE Confidence: 0.933795094490051

00:32:10.440 --> 00:32:13.899 So we do want to validate that we get that.
NOTE Confidence: 0.933795094490051

00:32:13.900 --> 00:32:16.315 But then how can we help caregivers
NOTE Confidence: 0.933795094490051

00:32:16.315 --> 00:32:18.692 and kids reframe the idea of this
NOTE Confidence: 0.933795094490051

00:32:18.692 --> 00:32:20.600 session is kind of just another
NOTE Confidence: 0.933795094490051

00:32:20.675 --> 00:32:22.997 thing that's on the families plate,
NOTE Confidence: 0.933795094490051

00:32:23.000 --> 00:32:25.920 but instead can we help them think about

NOTE Confidence: 0.933795094490051
00:32:25.920 --> 00:32:28.130 these sessions as an investment that
NOTE Confidence: 0.933795094490051
00:32:28.130 --> 00:32:30.948 the family is making that could and we
NOTE Confidence: 0.933795094490051
00:32:30.948 --> 00:32:33.500 believe could have a big payoff for them.
NOTE Confidence: 0.933795094490051
00:32:33.500 --> 00:32:34.583 So for example,
NOTE Confidence: 0.933795094490051
00:32:34.583 --> 00:32:35.666 if we're successful.
NOTE Confidence: 0.933795094490051
00:32:35.670 --> 00:32:38.638 Through see after yes I in reducing
NOTE Confidence: 0.933795094490051
00:32:38.638 --> 00:32:40.888 the caregivers on symptoms we
NOTE Confidence: 0.933795094490051
00:32:40.888 --> 00:32:43.118 can actually help the case.
NOTE Confidence: 0.933795094490051
00:32:43.120 --> 00:32:45.310 Management concerns become more manageable,
NOTE Confidence: 0.933795094490051
00:32:45.310 --> 00:32:48.558 so that's because we know that lowering
NOTE Confidence: 0.933795094490051
00:32:48.558 --> 00:32:51.286 anxiety and trauma reactions you know
NOTE Confidence: 0.933795094490051
00:32:51.286 --> 00:32:54.695 we can allow that caregiver to be in
NOTE Confidence: 0.933795094490051
00:32:54.695 --> 00:32:57.565 a place to be making better decisions.
NOTE Confidence: 0.933795094490051
00:32:57.570 --> 00:33:01.066 To be able to problem solve more creatively,
NOTE Confidence: 0.933795094490051
00:33:01.070 --> 00:33:01.926 and similarly.
NOTE Confidence: 0.933795094490051

00:33:01.926 --> 00:33:04.066 Getting the kids trauma reactions
NOTE Confidence: 0.933795094490051

00:33:04.066 --> 00:33:05.930 down can certainly improve.
NOTE Confidence: 0.933795094490051

00:33:05.930 --> 00:33:08.010 And I think we've all seen this as
NOTE Confidence: 0.933795094490051

00:33:08.010 --> 00:33:10.320 safe TSI providers that can improve
NOTE Confidence: 0.933795094490051

00:33:10.320 --> 00:33:12.044 the parent child relationship,
NOTE Confidence: 0.933795094490051

00:33:12.050 --> 00:33:13.750 reduce the parent child conflict,
NOTE Confidence: 0.933795094490051

00:33:13.750 --> 00:33:15.654 and lead to less stress in the
NOTE Confidence: 0.933795094490051

00:33:15.654 --> 00:33:18.247 family as a whole and just improve
NOTE Confidence: 0.933795094490051

00:33:18.247 --> 00:33:19.525 the family functioning.
NOTE Confidence: 0.933795094490051

00:33:19.530 --> 00:33:21.623 So if we're able to convey that
NOTE Confidence: 0.933795094490051

00:33:21.623 --> 00:33:23.950 that idea of these sessions as yes
NOTE Confidence: 0.933795094490051

00:33:23.950 --> 00:33:26.792 taking up time but as really being an
NOTE Confidence: 0.933795094490051

00:33:26.792 --> 00:33:29.728 investment where the payoff will be worth it,
NOTE Confidence: 0.933795094490051

00:33:29.730 --> 00:33:31.928 I think that could be an important
NOTE Confidence: 0.933795094490051

00:33:31.928 --> 00:33:33.490 part of engaging families.
NOTE Confidence: 0.933795094490051

00:33:33.490 --> 00:33:35.828 Now, this second scenario when families OK,

NOTE Confidence: 0.933795094490051
00:33:35.830 --> 00:33:37.828 they've said yes we want to,
NOTE Confidence: 0.933795094490051
00:33:37.830 --> 00:33:39.170 uh, begin this treatment.
NOTE Confidence: 0.933795094490051
00:33:39.170 --> 00:33:39.840 But then,
NOTE Confidence: 0.933795094490051
00:33:39.840 --> 00:33:41.838 as you're going through the treatment,
NOTE Confidence: 0.933795094490051
00:33:41.840 --> 00:33:43.510 we're running into engagement challenges.
NOTE Confidence: 0.933795094490051
00:33:43.510 --> 00:33:45.617 Then I think you know we've been
NOTE Confidence: 0.933795094490051
00:33:45.617 --> 00:33:48.071 depending on where we are at with
NOTE Confidence: 0.933795094490051
00:33:48.071 --> 00:33:49.184 our professional development.
NOTE Confidence: 0.933795094490051
00:33:49.190 --> 00:33:50.177 In our experience,
NOTE Confidence: 0.933795094490051
00:33:50.177 --> 00:33:52.480 we may have become comfortable with the
NOTE Confidence: 0.933795094490051
00:33:52.541 --> 00:33:54.865 idea that in clinical sessions in person,
NOTE Confidence: 0.933795094490051
00:33:54.870 --> 00:33:56.868 you know their silence, their space,
NOTE Confidence: 0.933795094490051
00:33:56.870 --> 00:33:58.838 and we become kind of comfortable
NOTE Confidence: 0.933795094490051
00:33:58.838 --> 00:34:00.879 with how to work with that.
NOTE Confidence: 0.933795094490051
00:34:00.880 --> 00:34:03.632 But I think for many of us where
NOTE Confidence: 0.933795094490051

00:34:03.632 --> 00:34:05.577 Tele Health is a new venue.
NOTE Confidence: 0.933795094490051

00:34:05.580 --> 00:34:08.520 It can be awkward and uncomfortable.
NOTE Confidence: 0.933795094490051

00:34:08.520 --> 00:34:10.975 You know when long periods
NOTE Confidence: 0.933795094490051

00:34:10.975 --> 00:34:13.430 of silence on a phone.
NOTE Confidence: 0.933795094490051

00:34:13.430 --> 00:34:14.363 It feels uncomfortable,
NOTE Confidence: 0.933795094490051

00:34:14.363 --> 00:34:15.607 but I think again,
NOTE Confidence: 0.933795094490051

00:34:15.610 --> 00:34:17.612 if we can kind of try to
NOTE Confidence: 0.933795094490051

00:34:17.612 --> 00:34:19.050 unpack with the family,
NOTE Confidence: 0.933795094490051

00:34:19.050 --> 00:34:20.395 what might be going on
NOTE Confidence: 0.933795094490051

00:34:20.395 --> 00:34:21.740 and then that will help
NOTE Confidence: 0.93331104516983

00:34:21.806 --> 00:34:23.531 us to better approximate what
NOTE Confidence: 0.93331104516983

00:34:23.531 --> 00:34:25.910 strategies we might have done in person.
NOTE Confidence: 0.93331104516983

00:34:25.910 --> 00:34:28.718 So I'll just go through a couple of examples.
NOTE Confidence: 0.93331104516983

00:34:28.720 --> 00:34:30.284 Although these are not
NOTE Confidence: 0.93331104516983

00:34:30.284 --> 00:34:31.848 meant to be exhaustive.
NOTE Confidence: 0.93331104516983

00:34:31.850 --> 00:34:34.964 So if a child is quiet or just keeps

NOTE Confidence: 0.93331104516983

00:34:34.964 --> 00:34:37.040 repeating, you know I don't know.

NOTE Confidence: 0.93331104516983

00:34:37.040 --> 00:34:38.924 I think you know we might

NOTE Confidence: 0.93331104516983

00:34:38.924 --> 00:34:40.850 comment on what we're noticing,

NOTE Confidence: 0.93331104516983

00:34:40.850 --> 00:34:42.902 so you know I'm noticing that

NOTE Confidence: 0.93331104516983

00:34:42.902 --> 00:34:44.650 you're not really saying much.

NOTE Confidence: 0.93331104516983

00:34:44.650 --> 00:34:46.146 Have you noticed that?

NOTE Confidence: 0.93331104516983

00:34:46.146 --> 00:34:48.786 Do you have any ideas about you

NOTE Confidence: 0.93331104516983

00:34:48.786 --> 00:34:51.354 know why that might be the case and

NOTE Confidence: 0.93331104516983

00:34:51.354 --> 00:34:53.996 see if the child can bite on that.

NOTE Confidence: 0.93331104516983

00:34:54.000 --> 00:34:57.206 And if that more open ended approach

NOTE Confidence: 0.93331104516983

00:34:57.206 --> 00:35:00.828 is is is not getting anywhere,

NOTE Confidence: 0.93331104516983

00:35:00.830 --> 00:35:04.742 we might kind of utilized the the role

NOTE Confidence: 0.93331104516983

00:35:04.742 --> 00:35:07.487 of psychoeducation throughout CF side

NOTE Confidence: 0.93331104516983

00:35:07.487 --> 00:35:10.277 and being grounding for families.

NOTE Confidence: 0.93331104516983

00:35:10.280 --> 00:35:14.150 But we might utilize it by.

NOTE Confidence: 0.93331104516983

00:35:14.150 --> 00:35:16.170 By offering some, uh,
NOTE Confidence: 0.93331104516983

00:35:16.170 --> 00:35:18.695 some of what we know.
NOTE Confidence: 0.93331104516983

00:35:18.700 --> 00:35:22.748 So, for example, we might say something like.
NOTE Confidence: 0.93331104516983

00:35:22.750 --> 00:35:23.410 You know,
NOTE Confidence: 0.93331104516983

00:35:23.410 --> 00:35:25.390 for some kids in especially when
NOTE Confidence: 0.93331104516983

00:35:25.390 --> 00:35:27.090 their first meeting with me,
NOTE Confidence: 0.93331104516983

00:35:27.090 --> 00:35:28.760 they might be having yucky
NOTE Confidence: 0.93331104516983

00:35:28.760 --> 00:35:30.096 feelings in their bodies,
NOTE Confidence: 0.93331104516983

00:35:30.100 --> 00:35:31.882 and that could make it really
NOTE Confidence: 0.93331104516983

00:35:31.882 --> 00:35:34.250 hard to talk for other kids even
NOTE Confidence: 0.93331104516983

00:35:34.250 --> 00:35:36.105 outside of our sessions there.
NOTE Confidence: 0.93331104516983

00:35:36.110 --> 00:35:37.780 Noticing that it's really hard,
NOTE Confidence: 0.93331104516983

00:35:37.780 --> 00:35:39.450 it's harder than usual to
NOTE Confidence: 0.93331104516983

00:35:39.450 --> 00:35:40.786 concentrate and pay attention,
NOTE Confidence: 0.93331104516983

00:35:40.790 --> 00:35:42.981 and so that could make it hard
NOTE Confidence: 0.93331104516983

00:35:42.981 --> 00:35:45.457 for you to know how to answer.

NOTE Confidence: 0.93331104516983

00:35:45.460 --> 00:35:46.788 Some of my questions.

NOTE Confidence: 0.93331104516983

00:35:46.788 --> 00:35:47.784 For other kids,

NOTE Confidence: 0.93331104516983

00:35:47.790 --> 00:35:49.614 they may really believe that the

NOTE Confidence: 0.93331104516983

00:35:49.614 --> 00:35:51.853 best way to manage all the big

NOTE Confidence: 0.93331104516983

00:35:51.853 --> 00:35:53.458 changes that have happened in

NOTE Confidence: 0.93331104516983

00:35:53.458 --> 00:35:55.063 their bodies and their feelings

NOTE Confidence: 0.93331104516983

00:35:55.063 --> 00:35:57.149 and their thought is to kind of

NOTE Confidence: 0.93331104516983

00:35:57.150 --> 00:35:59.257 don't talk or think at all about

NOTE Confidence: 0.93331104516983

00:35:59.257 --> 00:36:01.209 what the what happened to me.

NOTE Confidence: 0.93331104516983

00:36:01.210 --> 00:36:03.136 And that might be going on,

NOTE Confidence: 0.93331104516983

00:36:03.140 --> 00:36:05.186 and then I would include potentially

NOTE Confidence: 0.93331104516983

00:36:05.186 --> 00:36:07.537 the possibility that it is the venue

NOTE Confidence: 0.93331104516983

00:36:07.537 --> 00:36:09.072 of technology by saying something

NOTE Confidence: 0.93331104516983

00:36:09.072 --> 00:36:11.562 like an for some kids it just feels

NOTE Confidence: 0.93331104516983

00:36:11.562 --> 00:36:13.063 strange to talked through through

NOTE Confidence: 0.93331104516983

00:36:13.063 --> 00:36:15.407 a screen or talk over a phone and
NOTE Confidence: 0.93331104516983

00:36:15.407 --> 00:36:17.795 then you know trying to open a
NOTE Confidence: 0.93331104516983

00:36:17.795 --> 00:36:19.529 conversation with the child about
NOTE Confidence: 0.93331104516983

00:36:19.529 --> 00:36:21.437 any of these things sound like
NOTE Confidence: 0.93331104516983

00:36:21.437 --> 00:36:23.822 they might be happening for you.
NOTE Confidence: 0.93331104516983

00:36:23.822 --> 00:36:25.578 So, uh, you know?
NOTE Confidence: 0.93331104516983

00:36:25.578 --> 00:36:26.386 In conclusion,
NOTE Confidence: 0.93331104516983

00:36:26.386 --> 00:36:28.810 I think it's it's always been,
NOTE Confidence: 0.93331104516983

00:36:28.810 --> 00:36:30.022 as Carrie said,
NOTE Confidence: 0.93331104516983

00:36:30.022 --> 00:36:31.638 it's always been important.
NOTE Confidence: 0.93331104516983

00:36:31.640 --> 00:36:34.600 I believe as cai providers that we convey
NOTE Confidence: 0.93331104516983

00:36:34.600 --> 00:36:37.181 this sense of confidence and optimism
NOTE Confidence: 0.93331104516983

00:36:37.181 --> 00:36:40.120 as families are initiating cai with us.
NOTE Confidence: 0.93331104516983

00:36:40.120 --> 00:36:42.871 The idea that we really believe that
NOTE Confidence: 0.93331104516983

00:36:42.871 --> 00:36:45.703 they came to the right place and
NOTE Confidence: 0.93331104516983

00:36:45.703 --> 00:36:48.554 we have the medicine for what is

NOTE Confidence: 0.93331104516983

00:36:48.554 --> 00:36:51.026 ailing their child in the family.

NOTE Confidence: 0.93331104516983

00:36:51.030 --> 00:36:55.130 But I think that to the extent that we can.

NOTE Confidence: 0.93331104516983

00:36:55.130 --> 00:36:57.476 Convey that same sense of growing

NOTE Confidence: 0.93331104516983

00:36:57.476 --> 00:36:59.396 optimism and growing confidence about

NOTE Confidence: 0.93331104516983

00:36:59.396 --> 00:37:01.447 the venue of Tela Health as well,

NOTE Confidence: 0.93331104516983

00:37:01.450 --> 00:37:03.200 even if at the beginning,

NOTE Confidence: 0.93331104516983

00:37:03.200 --> 00:37:05.657 as to steal a line from Carrie,

NOTE Confidence: 0.93331104516983

00:37:05.660 --> 00:37:07.766 we need to be borrowing from

NOTE Confidence: 0.93331104516983

00:37:07.766 --> 00:37:08.819 other people's confidence.

NOTE Confidence: 0.93331104516983

00:37:08.820 --> 00:37:10.926 I think that would be important.

NOTE Confidence: 0.93331104516983

00:37:10.930 --> 00:37:14.081 So Jenn, could you go to the left side?

NOTE Confidence: 0.93331104516983

00:37:14.081 --> 00:37:15.836 And so before I close,

NOTE Confidence: 0.93331104516983

00:37:15.840 --> 00:37:17.856 I just wanted to briefly raise an

NOTE Confidence: 0.93331104516983

00:37:17.856 --> 00:37:19.932 issue that can certainly present a

NOTE Confidence: 0.93331104516983

00:37:19.932 --> 00:37:21.852 particular clinical challenge in one

NOTE Confidence: 0.93331104516983

00:37:21.852 --> 00:37:24.540 that we absolutely need to have at
NOTE Confidence: 0.93331104516983

00:37:24.540 --> 00:37:26.400 the forefront of our consideration.
NOTE Confidence: 0.934853434562683

00:37:26.400 --> 00:37:29.025 So I think we're all familiar with
NOTE Confidence: 0.934853434562683

00:37:29.025 --> 00:37:31.334 situations where the child in the
NOTE Confidence: 0.934853434562683

00:37:31.334 --> 00:37:33.179 caregiver are continuing to live
NOTE Confidence: 0.934853434562683

00:37:33.179 --> 00:37:35.829 with the perpetrator of their abuse,
NOTE Confidence: 0.934853434562683

00:37:35.830 --> 00:37:38.238 and so we could be speaking about
NOTE Confidence: 0.934853434562683

00:37:38.238 --> 00:37:40.550 domestic violence or child maltreatment,
NOTE Confidence: 0.934853434562683

00:37:40.550 --> 00:37:43.049 or or both, and I think it's
NOTE Confidence: 0.934853434562683

00:37:43.049 --> 00:37:44.975 important to acknowledge that it's
NOTE Confidence: 0.934853434562683

00:37:44.975 --> 00:37:47.321 always been a challenge to engage
NOTE Confidence: 0.934853434562683

00:37:47.321 --> 00:37:49.848 those families in treatment with the
NOTE Confidence: 0.934853434562683

00:37:49.848 --> 00:37:51.943 perpetrator remaining in the home.
NOTE Confidence: 0.934853434562683

00:37:51.950 --> 00:37:54.164 But it's also important to really
NOTE Confidence: 0.934853434562683

00:37:54.164 --> 00:37:56.950 consider how Tele health can pose even
NOTE Confidence: 0.934853434562683

00:37:56.950 --> 00:37:59.020 greater challenges for these families.

NOTE Confidence: 0.934853434562683
00:37:59.020 --> 00:38:01.516 And then in clinic appointments potentially.
NOTE Confidence: 0.934853434562683
00:38:01.520 --> 00:38:04.088 and I think the message that we all
NOTE Confidence: 0.934853434562683
00:38:04.088 --> 00:38:06.863 want to convey is that a prioritization
NOTE Confidence: 0.934853434562683
00:38:06.863 --> 00:38:09.493 of the family safety is really
NOTE Confidence: 0.934853434562683
00:38:09.493 --> 00:38:11.993 important when we're scheduling and
NOTE Confidence: 0.934853434562683
00:38:11.993 --> 00:38:14.654 then implementing cai in the home.
NOTE Confidence: 0.934853434562683
00:38:14.654 --> 00:38:17.816 So what do we do as Carrie was describing
NOTE Confidence: 0.934853434562683
00:38:17.816 --> 00:38:21.480 this kind of pre work work with the
NOTE Confidence: 0.934853434562683
00:38:21.480 --> 00:38:24.810 caregiver and setting things up for success?
NOTE Confidence: 0.934853434562683
00:38:24.810 --> 00:38:27.450 I think we want to be similarly working
NOTE Confidence: 0.934853434562683
00:38:27.450 --> 00:38:29.830 with the participating caregiver.
NOTE Confidence: 0.934853434562683
00:38:29.830 --> 00:38:30.806 So as you recall,
NOTE Confidence: 0.934853434562683
00:38:30.806 --> 00:38:33.445 in CF CS I would be the non perpetrating
NOTE Confidence: 0.934853434562683
00:38:33.445 --> 00:38:36.028 caregiver to think about how we can
NOTE Confidence: 0.934853434562683
00:38:36.100 --> 00:38:38.872 really get creative and be flexible and
NOTE Confidence: 0.934853434562683

00:38:38.872 --> 00:38:41.280 problem solve around ways that we can.

NOTE Confidence: 0.934853434562683

00:38:41.280 --> 00:38:43.490 We can offer this treatment so for

NOTE Confidence: 0.934853434562683

00:38:43.490 --> 00:38:45.392 example some things to consider are

NOTE Confidence: 0.934853434562683

00:38:45.392 --> 00:38:47.962 is there a consistent time when the

NOTE Confidence: 0.934853434562683

00:38:47.962 --> 00:38:50.284 perpetrator is not actually at home?

NOTE Confidence: 0.934853434562683

00:38:50.290 --> 00:38:51.319 Are they working?

NOTE Confidence: 0.934853434562683

00:38:51.319 --> 00:38:54.139 I've had one family that I worked with

NOTE Confidence: 0.934853434562683

00:38:54.139 --> 00:38:56.931 in the past where there was a pretty

NOTE Confidence: 0.934853434562683

00:38:56.931 --> 00:38:58.937 consistent nap time of this individual

NOTE Confidence: 0.934853434562683

00:38:58.937 --> 00:39:01.630 and we were able to work around that.

NOTE Confidence: 0.934853434562683

00:39:01.630 --> 00:39:02.370 If not,

NOTE Confidence: 0.934853434562683

00:39:02.370 --> 00:39:04.698 if there's no time where where

NOTE Confidence: 0.934853434562683

00:39:04.698 --> 00:39:07.278 that person is not in the home,

NOTE Confidence: 0.934853434562683

00:39:07.280 --> 00:39:09.695 is there a safe place where the

NOTE Confidence: 0.934853434562683

00:39:09.695 --> 00:39:12.014 child in the in the caregiver

NOTE Confidence: 0.934853434562683

00:39:12.014 --> 00:39:14.814 could go just for the CF sessions,

NOTE Confidence: 0.934853434562683
00:39:14.820 --> 00:39:15.807 and if not,
NOTE Confidence: 0.934853434562683
00:39:15.807 --> 00:39:18.110 how could we be creative within the
NOTE Confidence: 0.934853434562683
00:39:18.183 --> 00:39:20.731 home environment to find a place that
NOTE Confidence: 0.934853434562683
00:39:20.731 --> 00:39:23.180 allows for the privacy that would
NOTE Confidence: 0.934853434562683
00:39:23.180 --> 00:39:25.748 be necessary to have these sessions?
NOTE Confidence: 0.934853434562683
00:39:25.750 --> 00:39:27.210 So, as Carrie mentioned,
NOTE Confidence: 0.934853434562683
00:39:27.210 --> 00:39:29.893 I have one adult patient that I'm
NOTE Confidence: 0.934853434562683
00:39:29.893 --> 00:39:32.389 routinely meeting with in her bathroom.
NOTE Confidence: 0.934853434562683
00:39:32.390 --> 00:39:32.725 Um,
NOTE Confidence: 0.934853434562683
00:39:32.725 --> 00:39:35.070 and if that's not an option is
NOTE Confidence: 0.934853434562683
00:39:35.070 --> 00:39:38.070 would it be safe for the child and
NOTE Confidence: 0.934853434562683
00:39:38.070 --> 00:39:40.589 caregiver to meet with us in a car?
NOTE Confidence: 0.934853434562683
00:39:40.590 --> 00:39:42.942 And there are additional ideas that
NOTE Confidence: 0.934853434562683
00:39:42.942 --> 00:39:45.684 we could share, but so to conclude,
NOTE Confidence: 0.934853434562683
00:39:45.684 --> 00:39:46.466 you know,
NOTE Confidence: 0.934853434562683

00:39:46.470 --> 00:39:49.606 I think hopefully we're all in this call,
NOTE Confidence: 0.934853434562683

00:39:49.610 --> 00:39:51.974 because we believe that leaving the
NOTE Confidence: 0.934853434562683

00:39:51.974 --> 00:39:54.379 child and family with no treatment
NOTE Confidence: 0.934853434562683

00:39:54.379 --> 00:39:56.659 is actually not a great option,
NOTE Confidence: 0.934853434562683

00:39:56.660 --> 00:39:59.796 not the option we want to go with,
NOTE Confidence: 0.934853434562683

00:39:59.800 --> 00:40:01.496 Because Articulary for those
NOTE Confidence: 0.934853434562683

00:40:01.496 --> 00:40:03.616 children who are continuing to
NOTE Confidence: 0.934853434562683

00:40:03.616 --> 00:40:05.677 live at home with the abuser,
NOTE Confidence: 0.934853434562683

00:40:05.680 --> 00:40:08.130 that child is is at potentially even
NOTE Confidence: 0.934853434562683

00:40:08.130 --> 00:40:10.379 greater risk for trauma reactions,
NOTE Confidence: 0.934853434562683

00:40:10.380 --> 00:40:11.126 given that.
NOTE Confidence: 0.934853434562683

00:40:11.126 --> 00:40:13.364 You know the presence of this
NOTE Confidence: 0.934853434562683

00:40:13.364 --> 00:40:15.803 person may serve as a powerful
NOTE Confidence: 0.934853434562683

00:40:15.803 --> 00:40:17.419 trauma reminder for them,
NOTE Confidence: 0.934853434562683

00:40:17.420 --> 00:40:20.150 even if the actual violence has stopped.
NOTE Confidence: 0.934853434562683

00:40:20.150 --> 00:40:22.406 So I think the overarching message

NOTE Confidence: 0.934853434562683
00:40:22.406 --> 00:40:25.260 and strategy is how can we be as
NOTE Confidence: 0.934853434562683
00:40:25.260 --> 00:40:27.180 creative and flexible and kind of
NOTE Confidence: 0.934853434562683
00:40:27.254 --> 00:40:29.090 collaborative with that participating
NOTE Confidence: 0.934853434562683
00:40:29.090 --> 00:40:32.752 caregiver as we can in order to be
NOTE Confidence: 0.934853434562683
00:40:32.752 --> 00:40:35.458 able to provide this treatment that
NOTE Confidence: 0.934853434562683
00:40:35.458 --> 00:40:38.358 we believe can be really helpful.
NOTE Confidence: 0.924590885639191
00:40:38.360 --> 00:40:41.336 So I'm gonna pause there and an John.
NOTE Confidence: 0.924590885639191
00:40:41.340 --> 00:40:44.324 Maybe we can talk about if there were
NOTE Confidence: 0.924590885639191
00:40:44.324 --> 00:40:46.912 questions that came in related to this
NOTE Confidence: 0.924590885639191
00:40:46.912 --> 00:40:50.260 content before we move on to the next topic.
NOTE Confidence: 0.911860048770905
00:40:52.810 --> 00:40:54.950 Alright, we have a few questions.
NOTE Confidence: 0.911860048770905
00:40:54.950 --> 00:40:56.936 Uhm, one from Carla Arroyo due
NOTE Confidence: 0.911860048770905
00:40:56.936 --> 00:40:59.114 to the high demand and shortage
NOTE Confidence: 0.911860048770905
00:40:59.114 --> 00:41:00.996 of therapists in our agency,
NOTE Confidence: 0.911860048770905
00:41:00.996 --> 00:41:03.486 90% of the clients a Spanish speaking.
NOTE Confidence: 0.911860048770905

00:41:03.490 --> 00:41:05.975 What are your thoughts of using peer
NOTE Confidence: 0.911860048770905

00:41:05.980 --> 00:41:07.758 support specialists meeting with apparent
NOTE Confidence: 0.911860048770905

00:41:07.758 --> 00:41:09.538 to review the telehealth settings,
NOTE Confidence: 0.911860048770905

00:41:09.540 --> 00:41:10.888 what to expect etc?
NOTE Confidence: 0.911860048770905

00:41:10.888 --> 00:41:12.573 And having the parents attend
NOTE Confidence: 0.911860048770905

00:41:12.573 --> 00:41:14.881 a Psycho Ed Class led by a
NOTE Confidence: 0.911860048770905

00:41:14.881 --> 00:41:16.650 trained peer support in general
NOTE Confidence: 0.911860048770905

00:41:16.650 --> 00:41:18.800 information about trauma in the
NOTE Confidence: 0.8700057665507

00:41:18.800 --> 00:41:21.740 brain. OK, and I think this
NOTE Confidence: 0.861634910106659

00:41:21.740 --> 00:41:23.852 you know all anyone from the
NOTE Confidence: 0.861634910106659

00:41:23.852 --> 00:41:26.049 panel should feel free to jump
NOTE Confidence: 0.861634910106659

00:41:26.049 --> 00:41:27.824 in with their their thought.
NOTE Confidence: 0.861634910106659

00:41:27.830 --> 00:41:29.990 I guess I have a question.
NOTE Confidence: 0.861634910106659

00:41:29.990 --> 00:41:31.700 Where do you mean instead of
NOTE Confidence: 0.861634910106659

00:41:31.700 --> 00:41:33.470 a moving might be connected
NOTE Confidence: 0.889617025852203

00:41:33.470 --> 00:41:35.045 to prior prior to engagement

NOTE Confidence: 0.889617025852203
00:41:35.045 --> 00:41:36.941 prior to screening. Is that what
NOTE Confidence: 0.889617025852203
00:41:36.941 --> 00:41:38.520 you're thinking of Carla? Yes,
NOTE Confidence: 0.889617025852203
00:41:38.520 --> 00:41:41.365 yes. So we have. I mean, there are very,
NOTE Confidence: 0.889617025852203
00:41:41.365 --> 00:41:43.260 very few therapists available, period, right?
NOTE Confidence: 0.889617025852203
00:41:43.260 --> 00:41:46.360 And so when we have so many so many
NOTE Confidence: 0.889617025852203
00:41:46.360 --> 00:41:48.536 people trying to access surface is
NOTE Confidence: 0.889617025852203
00:41:48.536 --> 00:41:51.160 what we find is that you have a lot of
NOTE Confidence: 0.889617025852203
00:41:51.160 --> 00:41:53.441 people in the waiting list and then
NOTE Confidence: 0.889617025852203
00:41:53.441 --> 00:41:55.463 they don't qualify for DFCSFDSI or
NOTE Confidence: 0.889617025852203
00:41:55.463 --> 00:41:57.856 then you know it's too late or then
NOTE Confidence: 0.889617025852203
00:41:57.856 --> 00:41:59.378 they don't want treatment anymore.
NOTE Confidence: 0.889617025852203
00:41:59.380 --> 00:42:01.050 But then what we find?
NOTE Confidence: 0.889617025852203
00:42:01.050 --> 00:42:03.498 Is that when you use a case management
NOTE Confidence: 0.889617025852203
00:42:03.498 --> 00:42:05.847 you can make it you're looking at
NOTE Confidence: 0.889617025852203
00:42:05.847 --> 00:42:07.980 there at the basic needs right?
NOTE Confidence: 0.889617025852203

00:42:07.980 --> 00:42:09.300 And then and then,
NOTE Confidence: 0.889617025852203

00:42:09.300 --> 00:42:11.940 but then by the time they get to
NOTE Confidence: 0.889617025852203

00:42:11.940 --> 00:42:13.920 the therapist is almost like well,
NOTE Confidence: 0.889617025852203

00:42:13.920 --> 00:42:14.552 we're good.
NOTE Confidence: 0.889617025852203

00:42:14.552 --> 00:42:16.764 You know the the things are moving
NOTE Confidence: 0.889617025852203

00:42:16.764 --> 00:42:19.127 so so my idea is how could you
NOTE Confidence: 0.889617025852203

00:42:19.127 --> 00:42:20.865 keep him engaged by providing
NOTE Confidence: 0.889617025852203

00:42:20.865 --> 00:42:22.497 their basics basic needs,
NOTE Confidence: 0.889617025852203

00:42:22.500 --> 00:42:24.060 but also by starting working
NOTE Confidence: 0.889617025852203

00:42:24.060 --> 00:42:26.130 with them on what to expect,
NOTE Confidence: 0.889617025852203

00:42:26.130 --> 00:42:28.440 not just entirely help but with trauma.
NOTE Confidence: 0.889617025852203

00:42:28.440 --> 00:42:31.168 What emotional, like even doing some sort of.
NOTE Confidence: 0.889617025852203

00:42:31.170 --> 00:42:34.018 So it's I made at least with the
NOTE Confidence: 0.889617025852203

00:42:34.018 --> 00:42:35.769 population were working with,
NOTE Confidence: 0.889617025852203

00:42:35.770 --> 00:42:38.448 sometimes you get to that first session
NOTE Confidence: 0.889617025852203

00:42:38.448 --> 00:42:41.830 with the parent an and they don't like it.

NOTE Confidence: 0.889617025852203
00:42:41.830 --> 00:42:43.270 It's a complete Psycho
NOTE Confidence: 0.889617025852203
00:42:43.270 --> 00:42:44.960 Locational session on emotions,
NOTE Confidence: 0.889617025852203
00:42:44.960 --> 00:42:47.655 just is not just good and bad.
NOTE Confidence: 0.889617025852203
00:42:47.660 --> 00:42:49.190 It's about emotions and what?
NOTE Confidence: 0.889617025852203
00:42:49.190 --> 00:42:50.790 What are the works?
NOTE Confidence: 0.889617025852203
00:42:50.790 --> 00:42:52.390 Because in our culture.
NOTE Confidence: 0.889617025852203
00:42:52.390 --> 00:42:54.382 We were not talking about how
NOTE Confidence: 0.889617025852203
00:42:54.382 --> 00:42:56.352 like what are emotions is good
NOTE Confidence: 0.889617025852203
00:42:56.352 --> 00:42:58.074 and bad and that's about it.
NOTE Confidence: 0.889617025852203
00:42:58.080 --> 00:42:59.344 And you don't cry,
NOTE Confidence: 0.889617025852203
00:42:59.344 --> 00:43:01.690 you don't complain and so that has been
NOTE Confidence: 0.889617025852203
00:43:01.690 --> 00:43:04.396 one of the hardest things for us in
NOTE Confidence: 0.889617025852203
00:43:04.396 --> 00:43:06.606 implementing this model that you know it's.
NOTE Confidence: 0.889617025852203
00:43:06.610 --> 00:43:08.850 It's almost like when in session too
NOTE Confidence: 0.889617025852203
00:43:08.850 --> 00:43:11.351 and we gotta move are in station 3
NOTE Confidence: 0.889617025852203

00:43:11.351 --> 00:43:13.524 and it feels like you can't even
NOTE Confidence: 0.889617025852203

00:43:13.524 --> 00:43:15.498 finish and just things seem too
NOTE Confidence: 0.889617025852203

00:43:15.498 --> 00:43:17.168 convoluted and still were trying
NOTE Confidence: 0.889617025852203

00:43:17.168 --> 00:43:19.688 to figure out how can we use the
NOTE Confidence: 0.889617025852203

00:43:19.688 --> 00:43:21.800 continuum of air into helping these families,
NOTE Confidence: 0.889617025852203

00:43:21.800 --> 00:43:23.425 but it's still trying to
NOTE Confidence: 0.889617025852203

00:43:23.425 --> 00:43:24.400 maintain flight Fidelity.
NOTE Confidence: 0.889617025852203

00:43:24.400 --> 00:43:26.368 Within within the
NOTE Confidence: 0.622966180245081

00:43:26.370 --> 00:43:29.610 model. So. On
NOTE Confidence: 0.789292991161346

00:43:29.610 --> 00:43:31.776 faculty I'm I'm. I'm happy to
NOTE Confidence: 0.789292991161346

00:43:31.776 --> 00:43:34.170 sort of start of.-. The response.
NOTE Confidence: 0.643260478973389

00:43:35.230 --> 00:43:38.830 Check. I'm so Carl, I really appreciate
NOTE Confidence: 0.643260478973389

00:43:38.830 --> 00:43:41.050 you bringing this up for multiple reasons,
NOTE Confidence: 0.915173649787903

00:43:41.050 --> 00:43:43.073 and I think it really appreciate the
NOTE Confidence: 0.915173649787903

00:43:43.073 --> 00:43:45.214 understaffing and also wanting to keep folks
NOTE Confidence: 0.915173649787903

00:43:45.214 --> 00:43:47.240 engaged so that they actually transition in.

NOTE Confidence: 0.915173649787903

00:43:47.240 --> 00:43:49.680 Does the TSI and also trying to address

NOTE Confidence: 0.915173649787903

00:43:49.680 --> 00:43:52.368 the issue of making sure that they're still

NOTE Confidence: 0.915173649787903

00:43:52.368 --> 00:43:55.019 in the pair dramatic days when you start.

NOTE Confidence: 0.915173649787903

00:43:55.020 --> 00:43:57.954 And so I think that it's a really lovely

NOTE Confidence: 0.915173649787903

00:43:57.954 --> 00:44:01.552 idea that you've come up with to use peer

NOTE Confidence: 0.915173649787903

00:44:01.552 --> 00:44:03.949 support specialist to keep them engaged.

NOTE Confidence: 0.915173649787903

00:44:03.950 --> 00:44:06.398 and I think that as you wrote in

NOTE Confidence: 0.915173649787903

00:44:06.398 --> 00:44:07.989 your question reviewing telehouse

NOTE Confidence: 0.915173649787903

00:44:07.989 --> 00:44:10.269 settings and what to expect,

NOTE Confidence: 0.915173649787903

00:44:10.270 --> 00:44:12.520 having caregivers attend a group that's

NOTE Confidence: 0.915173649787903

00:44:12.520 --> 00:44:14.020 focused on general psychoeducation

NOTE Confidence: 0.915173649787903

00:44:14.080 --> 00:44:15.177 about trauma, etc.

NOTE Confidence: 0.915173649787903

00:44:15.177 --> 00:44:18.236 That's being conducted by a peer support

NOTE Confidence: 0.915173649787903

00:44:18.236 --> 00:44:20.381 specialist sounds like a really wise

NOTE Confidence: 0.915173649787903

00:44:20.381 --> 00:44:23.288 thing to do I think that you might also.

NOTE Confidence: 0.915173649787903

00:44:23.290 --> 00:44:25.492 You're also bringing up some things
NOTE Confidence: 0.915173649787903

00:44:25.492 --> 00:44:28.141 that are about not just be a
NOTE Confidence: 0.915173649787903

00:44:28.141 --> 00:44:29.995 safety aside via Telehealth, But.
NOTE Confidence: 0.915173649787903

00:44:29.995 --> 00:44:30.745 In general,
NOTE Confidence: 0.915173649787903

00:44:30.745 --> 00:44:32.620 where you're saying that actually
NOTE Confidence: 0.915173649787903

00:44:32.620 --> 00:44:35.191 there's a piece of our culture that we
NOTE Confidence: 0.915173649787903

00:44:35.191 --> 00:44:37.604 need to address in terms of discussing
NOTE Confidence: 0.915173649787903

00:44:37.604 --> 00:44:39.907 and putting words to feelings, etc.
NOTE Confidence: 0.915173649787903

00:44:39.907 --> 00:44:42.336 And I'm wondering whether that could be
NOTE Confidence: 0.915173649787903

00:44:42.336 --> 00:44:45.136 built in at all to anything that the
NOTE Confidence: 0.915173649787903

00:44:45.136 --> 00:44:47.680 peer support group would be talking about.
NOTE Confidence: 0.915173649787903

00:44:47.680 --> 00:44:50.795 I do think that once one gets.
NOTE Confidence: 0.915173649787903

00:44:50.800 --> 00:44:52.992 Connect to the clinic.
NOTE Confidence: 0.915173649787903

00:44:52.992 --> 00:44:54.636 Deceive TSI clinician.
NOTE Confidence: 0.915173649787903

00:44:54.640 --> 00:44:57.855 Reviewing some of these things
NOTE Confidence: 0.915173649787903

00:44:57.855 --> 00:45:00.427 in a pre screening.

NOTE Confidence: 0.915173649787903
00:45:00.430 --> 00:45:01.652 Giving yourself the space is
NOTE Confidence: 0.915173649787903
00:45:01.652 --> 00:45:02.628 what you're talking about.
NOTE Confidence: 0.915173649787903
00:45:02.630 --> 00:45:04.246 Setting up a call that you could build
NOTE Confidence: 0.915173649787903
00:45:04.246 --> 00:45:06.038 for case management of Billington issue,
NOTE Confidence: 0.915173649787903
00:45:06.040 --> 00:45:08.020 where you actually have the space.
NOTE Confidence: 0.915173649787903
00:45:08.020 --> 00:45:09.880 It talk about review that out,
NOTE Confidence: 0.915173649787903
00:45:09.880 --> 00:45:11.910 because I think it's begins the engagement
NOTE Confidence: 0.915173649787903
00:45:11.910 --> 00:45:13.290 between caregiver an therapist,
NOTE Confidence: 0.915173649787903
00:45:13.290 --> 00:45:15.404 so that if the peer support specialist
NOTE Confidence: 0.915173649787903
00:45:15.404 --> 00:45:18.026 reviewed it a little bit of we review
NOTE Confidence: 0.915173649787903
00:45:18.026 --> 00:45:19.681 because it's about engagement and
NOTE Confidence: 0.915173649787903
00:45:19.742 --> 00:45:21.730 it gives you the space to discuss
NOTE Confidence: 0.915173649787903
00:45:21.730 --> 00:45:23.520 things prior to screening and then
NOTE Confidence: 0.915173649787903
00:45:23.520 --> 00:45:24.450 prior to treatment.
NOTE Confidence: 0.915173649787903
00:45:24.450 --> 00:45:26.310 So I'm wondering if that addresses
NOTE Confidence: 0.915173649787903

00:45:26.310 --> 00:45:27.550 some of your concerns,
NOTE Confidence: 0.915173649787903

00:45:27.550 --> 00:45:29.100 and whether other faculty has
NOTE Confidence: 0.915173649787903

00:45:29.100 --> 00:45:30.340 anything else to add.
NOTE Confidence: 0.920541167259216

00:45:33.020 --> 00:45:34.340 But I I
NOTE Confidence: 0.920541167259216

00:45:34.340 --> 00:45:36.980 don't I. I think it's a.
NOTE Confidence: 0.920541167259216

00:45:36.980 --> 00:45:39.969 It's a really creative way of thinking
NOTE Confidence: 0.920541167259216

00:45:39.969 --> 00:45:42.670 about a very real constraint in
NOTE Confidence: 0.920541167259216

00:45:42.670 --> 00:45:45.778 terms of just the number of folks.
NOTE Confidence: 0.920541167259216

00:45:45.780 --> 00:45:48.828 and I completely agree that it's such a
NOTE Confidence: 0.920541167259216

00:45:48.828 --> 00:45:52.376 shame if there is this initial opportunity.
NOTE Confidence: 0.920541167259216

00:45:52.380 --> 00:45:55.074 But then the delay interrupts the
NOTE Confidence: 0.920541167259216

00:45:55.074 --> 00:45:57.686 possibility of folks getting help that
NOTE Confidence: 0.920541167259216

00:45:57.686 --> 00:46:00.269 actually having some of the Psycho ad
NOTE Confidence: 0.920541167259216

00:46:00.269 --> 00:46:03.398 and the general description of something.
NOTE Confidence: 0.920541167259216

00:46:03.400 --> 00:46:06.376 In between good and bad feelings
NOTE Confidence: 0.920541167259216

00:46:06.376 --> 00:46:08.930 sounds like a lovely idea.

NOTE Confidence: 0.920541167259216
00:46:08.930 --> 00:46:12.586 I do want to emphasize that that would
NOTE Confidence: 0.920541167259216
00:46:12.586 --> 00:46:16.830 not replace when they do enter into CSI
NOTE Confidence: 0.920541167259216
00:46:16.830 --> 00:46:19.999 that doesn't replace discussing the frame.
NOTE Confidence: 0.920541167259216
00:46:20.000 --> 00:46:23.346 The shared frame of reference around what
NOTE Confidence: 0.920541167259216
00:46:23.346 --> 00:46:27.039 we know about trauma and and treatment,
NOTE Confidence: 0.920541167259216
00:46:27.040 --> 00:46:29.698 because again it is shared so
NOTE Confidence: 0.920541167259216
00:46:29.698 --> 00:46:33.080 that there may be some repetition,
NOTE Confidence: 0.920541167259216
00:46:33.080 --> 00:46:35.072 but I think reviewing.
NOTE Confidence: 0.920541167259216
00:46:35.072 --> 00:46:38.180 Again, once one is able to start,
NOTE Confidence: 0.920541167259216
00:46:38.180 --> 00:46:40.976 the treatment is a very important
NOTE Confidence: 0.920541167259216
00:46:40.976 --> 00:46:43.740 central ingredient to then being able
NOTE Confidence: 0.920541167259216
00:46:43.740 --> 00:46:46.617 to move through CFTSI with an anchor
NOTE Confidence: 0.920541167259216
00:46:46.617 --> 00:46:49.579 point in what is shared about what
NOTE Confidence: 0.920541167259216
00:46:49.579 --> 00:46:51.660 is known about traumatic reactions.
NOTE Confidence: 0.901191353797913
00:46:53.960 --> 00:46:55.568 So I'm sorry to enter into
NOTE Confidence: 0.901191353797913

00:46:55.568 --> 00:46:56.640 interact again and again.
NOTE Confidence: 0.901191353797913

00:46:56.640 --> 00:46:57.980 This is just something that
NOTE Confidence: 0.901191353797913

00:46:57.980 --> 00:46:59.320 we're trying to figure out,
NOTE Confidence: 0.901191353797913

00:46:59.320 --> 00:47:02.000 so if if their peer support was to do this,
NOTE Confidence: 0.901191353797913

00:47:02.000 --> 00:47:03.644 type educational piece and it's looking
NOTE Confidence: 0.901191353797913

00:47:03.644 --> 00:47:05.478 at at the trauma and the brain.
NOTE Confidence: 0.901191353797913

00:47:05.480 --> 00:47:07.624 I mean we're looking at just what are,
NOTE Confidence: 0.901191353797913

00:47:07.624 --> 00:47:08.964 what's the impact, right? What?
NOTE Confidence: 0.901191353797913

00:47:08.964 --> 00:47:11.110 What is it that what are some of?
NOTE Confidence: 0.901191353797913

00:47:11.110 --> 00:47:13.094 What are some of the things that we
NOTE Confidence: 0.901191353797913

00:47:13.094 --> 00:47:14.996 can start seeing in our children and
NOTE Confidence: 0.901191353797913

00:47:14.996 --> 00:47:17.009 why it happens and all this stuff?
NOTE Confidence: 0.901191353797913

00:47:17.010 --> 00:47:19.154 So then by the time they get to
NOTE Confidence: 0.901191353797913

00:47:19.154 --> 00:47:20.491 the therapist, they're looking at
NOTE Confidence: 0.901191353797913

00:47:20.491 --> 00:47:21.826 the symptoms and processing and.
NOTE Confidence: 0.901191353797913

00:47:21.830 --> 00:47:23.440 And it's almost like a more

NOTE Confidence: 0.901191353797913
00:47:23.440 --> 00:47:24.324 in depth conversation.
NOTE Confidence: 0.901191353797913
00:47:24.324 --> 00:47:26.732 But uhm, so when when is it
NOTE Confidence: 0.901191353797913
00:47:26.732 --> 00:47:28.782 possible that when they say that
NOTE Confidence: 0.901191353797913
00:47:28.782 --> 00:47:30.828 the peer support could be doing,
NOTE Confidence: 0.901191353797913
00:47:30.830 --> 00:47:33.560 the CPS is as with the with the
NOTE Confidence: 0.901191353797913
00:47:33.560 --> 00:47:35.620 parent before in and the children
NOTE Confidence: 0.901191353797913
00:47:35.620 --> 00:47:37.734 so that the therapist is not
NOTE Confidence: 0.901191353797913
00:47:37.734 --> 00:47:39.696 used to that time in decision.
NOTE Confidence: 0.901191353797913
00:47:39.700 --> 00:47:42.080 So that's another complain that we've had.
NOTE Confidence: 0.901191353797913
00:47:42.080 --> 00:47:43.790 You know, that they're going.
NOTE Confidence: 0.901191353797913
00:47:43.790 --> 00:47:46.171 There's just a lot of time we
NOTE Confidence: 0.901191353797913
00:47:46.171 --> 00:47:48.558 don't have the time to do this,
NOTE Confidence: 0.901191353797913
00:47:48.560 --> 00:47:50.456 but can we use supportive services
NOTE Confidence: 0.901191353797913
00:47:50.456 --> 00:47:52.988 to help with it with the paperwork,
NOTE Confidence: 0.901191353797913
00:47:52.990 --> 00:47:56.875 and then we can review it as a team in our?
NOTE Confidence: 0.901191353797913

00:47:56.875 --> 00:47:59.084 In that immediate some weeks,
NOTE Confidence: 0.901191353797913

00:47:59.084 --> 00:48:02.748 you know, as we move into the cases.
NOTE Confidence: 0.901191353797913

00:48:02.750 --> 00:48:03.740 Can we?
NOTE Confidence: 0.901191353797913

00:48:03.740 --> 00:48:04.235 Again,
NOTE Confidence: 0.901191353797913

00:48:04.235 --> 00:48:07.700 I guess I'm struggling with keeping Fidelity,
NOTE Confidence: 0.901191353797913

00:48:07.700 --> 00:48:08.522 Anne, Anne,
NOTE Confidence: 0.901191353797913

00:48:08.522 --> 00:48:08.933 Anne,
NOTE Confidence: 0.901191353797913

00:48:08.933 --> 00:48:10.988 and really the realistic way
NOTE Confidence: 0.901191353797913

00:48:10.988 --> 00:48:13.950 of of running and moving an
NOTE Confidence: 0.901191353797913

00:48:13.950 --> 00:48:16.348 organization when you have all
NOTE Confidence: 0.901191353797913

00:48:16.350 --> 00:48:19.080 kinds of barriers such as timing,
NOTE Confidence: 0.901191353797913

00:48:19.080 --> 00:48:20.896 you know insurance is
NOTE Confidence: 0.901191353797913

00:48:20.896 --> 00:48:23.170 payments and all this stuff.
NOTE Confidence: 0.937382519245148

00:48:24.860 --> 00:48:27.490 Well, I think we could. We could
NOTE Confidence: 0.937382519245148

00:48:27.490 --> 00:48:28.994 continue this discussion further.
NOTE Confidence: 0.937382519245148

00:48:29.000 --> 00:48:31.324 An happy to do it offline so

NOTE Confidence: 0.937382519245148
00:48:31.324 --> 00:48:34.064 that we make sure that we have
NOTE Confidence: 0.937382519245148
00:48:34.064 --> 00:48:36.134 an opportunity for you know,
NOTE Confidence: 0.937382519245148
00:48:36.140 --> 00:48:38.020 the continued points of discussion.
NOTE Confidence: 0.937382519245148
00:48:38.020 --> 00:48:40.306 I would simply say I don't
NOTE Confidence: 0.937382519245148
00:48:40.306 --> 00:48:42.160 think it's an either or,
NOTE Confidence: 0.937382519245148
00:48:42.160 --> 00:48:44.296 and I think that what you're
NOTE Confidence: 0.937382519245148
00:48:44.296 --> 00:48:46.157 describing in the interim about
NOTE Confidence: 0.937382519245148
00:48:46.157 --> 00:48:48.740 being able to engage folks and keep
NOTE Confidence: 0.937382519245148
00:48:48.740 --> 00:48:50.715 people engaged while they're waiting
NOTE Confidence: 0.937382519245148
00:48:50.715 --> 00:48:53.049 by giving information in the way
NOTE Confidence: 0.937382519245148
00:48:53.049 --> 00:48:55.370 that you're describing can be, uh.
NOTE Confidence: 0.937382519245148
00:48:55.370 --> 00:48:57.262 A very creative approach.
NOTE Confidence: 0.937382519245148
00:48:57.262 --> 00:48:59.627 I would underline the fact
NOTE Confidence: 0.937382519245148
00:48:59.627 --> 00:49:01.767 that that again CF cyan.
NOTE Confidence: 0.937382519245148
00:49:01.770 --> 00:49:04.969 All the intervention strategies are based on.
NOTE Confidence: 0.937382519245148

00:49:04.970 --> 00:49:06.798 Again something that shared
NOTE Confidence: 0.937382519245148

00:49:06.798 --> 00:49:08.169 between the provider,
NOTE Confidence: 0.937382519245148

00:49:08.170 --> 00:49:10.450 the clinician and the family.
NOTE Confidence: 0.937382519245148

00:49:10.450 --> 00:49:12.278 So regardless of what
NOTE Confidence: 0.937382519245148

00:49:12.278 --> 00:49:14.106 occurs prior to session,
NOTE Confidence: 0.937382519245148

00:49:14.110 --> 00:49:17.054 one being able to refer back to that
NOTE Confidence: 0.937382519245148

00:49:17.054 --> 00:49:19.879 shared frame of reference will be
NOTE Confidence: 0.937382519245148

00:49:19.879 --> 00:49:22.394 a significant and important shared
NOTE Confidence: 0.937382519245148

00:49:22.394 --> 00:49:25.080 anchorpoint throughout the cai sessions.
NOTE Confidence: 0.937382519245148

00:49:25.080 --> 00:49:25.528 But.
NOTE Confidence: 0.937382519245148

00:49:25.528 --> 00:49:28.664 More than happy to continue this discussion.
NOTE Confidence: 0.937382519245148

00:49:28.670 --> 00:49:29.560 You know,
NOTE Confidence: 0.937382519245148

00:49:29.560 --> 00:49:31.785 following this web and R,
NOTE Confidence: 0.937382519245148

00:49:31.790 --> 00:49:34.658 this is actually a great opportunity
NOTE Confidence: 0.937382519245148

00:49:34.658 --> 00:49:36.570 to identify broader issues
NOTE Confidence: 0.937382519245148

00:49:36.651 --> 00:49:38.925 that don't just apply during a

NOTE Confidence: 0.912899792194366
00:49:38.930 --> 00:49:41.990 pandemic and turmoil. Steven I
NOTE Confidence: 0.934474468231201
00:49:41.990 --> 00:49:44.454 think we're going to move forward and have
NOTE Confidence: 0.934474468231201
00:49:44.454 --> 00:49:46.408 Katie thank you so much. Carla Katie.
NOTE Confidence: 0.934474468231201
00:49:46.408 --> 00:49:48.760 I'm going to turn it over to you.
NOTE Confidence: 0.860349059104919
00:49:49.280 --> 00:49:50.300 Great thanks Kerry Mom.
NOTE Confidence: 0.860349059104919
00:49:50.300 --> 00:49:52.092 I wanted to do it just another
NOTE Confidence: 0.860349059104919
00:49:52.092 --> 00:49:53.116 little borrowing of language.
NOTE Confidence: 0.860349059104919
00:49:53.116 --> 00:49:54.140 There you go. Thanks
NOTE Confidence: 0.860349059104919
00:49:54.140 --> 00:49:55.420 Jennifer me. The next slide
NOTE Confidence: 0.860349059104919
00:49:55.420 --> 00:49:57.220 there go kicking a man. Just echo
NOTE Confidence: 0.860349059104919
00:49:57.220 --> 00:49:58.963 what Megan said in terms of silver
NOTE Confidence: 0.860349059104919
00:49:58.963 --> 00:50:00.533 lining and being here with you
NOTE Confidence: 0.860349059104919
00:50:00.533 --> 00:50:01.813 all during the current time.
NOTE Confidence: 0.860349059104919
00:50:01.820 --> 00:50:04.700 So I'm grateful to be with you all and
NOTE Confidence: 0.860349059104919
00:50:04.700 --> 00:50:06.980 excited to be a part of this event.
NOTE Confidence: 0.860349059104919

00:50:06.980 --> 00:50:09.220 So I'm going to jump into talking
NOTE Confidence: 0.860349059104919

00:50:09.220 --> 00:50:10.933 about CSI screening and then
NOTE Confidence: 0.860349059104919

00:50:10.933 --> 00:50:12.658 going into the actual sessions.
NOTE Confidence: 0.860349059104919

00:50:12.660 --> 00:50:14.659 So overall, we really want to
NOTE Confidence: 0.860349059104919

00:50:14.660 --> 00:50:16.610 think about doing the screening in
NOTE Confidence: 0.860349059104919

00:50:16.610 --> 00:50:18.999 the way that you would in person.
NOTE Confidence: 0.860349059104919

00:50:19.000 --> 00:50:21.640 In general, I think that the key piece
NOTE Confidence: 0.860349059104919

00:50:21.640 --> 00:50:23.919 in preparation that we want to think
NOTE Confidence: 0.860349059104919

00:50:23.919 --> 00:50:26.350 about is using the pictorial rating sheet.
NOTE Confidence: 0.860349059104919

00:50:26.350 --> 00:50:28.406 How we're going to incorporate that
NOTE Confidence: 0.860349059104919

00:50:28.406 --> 00:50:30.554 depending on the means of Telehealth
NOTE Confidence: 0.860349059104919

00:50:30.554 --> 00:50:32.241 that we're using again emphasizing
NOTE Confidence: 0.860349059104919

00:50:32.241 --> 00:50:34.700 as you'll hear us say over and over.
NOTE Confidence: 0.860349059104919

00:50:34.700 --> 00:50:36.116 This creativity with flexibility.
NOTE Confidence: 0.860349059104919

00:50:36.116 --> 00:50:37.886 So depending on how you're
NOTE Confidence: 0.860349059104919

00:50:37.886 --> 00:50:38.889 conducting the session,

NOTE Confidence: 0.860349059104919
00:50:38.890 --> 00:50:40.941 for example whether or not it's by
NOTE Confidence: 0.860349059104919
00:50:40.941 --> 00:50:42.971 phone video that can help influence
NOTE Confidence: 0.860349059104919
00:50:42.971 --> 00:50:45.143 and determine how we're going to
NOTE Confidence: 0.860349059104919
00:50:45.143 --> 00:50:47.010 incorporate the patrol reading sheet.
NOTE Confidence: 0.860349059104919
00:50:47.010 --> 00:50:48.021 So if you,
NOTE Confidence: 0.860349059104919
00:50:48.021 --> 00:50:49.706 for example are on video,
NOTE Confidence: 0.860349059104919
00:50:49.710 --> 00:50:52.020 you can have the capacity to hold
NOTE Confidence: 0.860349059104919
00:50:52.020 --> 00:50:54.780 it up and show it on the screen.
NOTE Confidence: 0.860349059104919
00:50:54.780 --> 00:50:56.985 I know Carrie test on these as
NOTE Confidence: 0.860349059104919
00:50:56.985 --> 00:50:59.509 well a little bit in the beginning.
NOTE Confidence: 0.860349059104919
00:50:59.510 --> 00:51:01.799 Another option can be to share the
NOTE Confidence: 0.860349059104919
00:51:01.799 --> 00:51:03.853 screen as was mentioned as well
NOTE Confidence: 0.860349059104919
00:51:03.853 --> 00:51:06.670 before as well as sending it by email.
NOTE Confidence: 0.860349059104919
00:51:06.670 --> 00:51:08.742 If that is something that you feel
NOTE Confidence: 0.860349059104919
00:51:08.742 --> 00:51:10.318 comfortable in the relationship with
NOTE Confidence: 0.860349059104919

00:51:10.318 --> 00:51:13.050 the family or you have the capacity to do.

NOTE Confidence: 0.860349059104919

00:51:13.050 --> 00:51:15.017 We also as a team we're talking

NOTE Confidence: 0.860349059104919

00:51:15.017 --> 00:51:16.400 about getting really creative.

NOTE Confidence: 0.860349059104919

00:51:16.400 --> 00:51:18.446 In another option that could enhance

NOTE Confidence: 0.860349059104919

00:51:18.446 --> 00:51:19.810 himself observation capacities or

NOTE Confidence: 0.860349059104919

00:51:19.863 --> 00:51:21.837 abilities for kids to be really engaged

NOTE Confidence: 0.860349059104919

00:51:21.837 --> 00:51:23.852 and involved could be to help them

NOTE Confidence: 0.860349059104919

00:51:23.852 --> 00:51:25.520 develop their own pictorial rating sheet,

NOTE Confidence: 0.860349059104919

00:51:25.520 --> 00:51:27.728 so walking them through the different

NOTE Confidence: 0.860349059104919

00:51:27.728 --> 00:51:29.546 categories of their rating sheet

NOTE Confidence: 0.860349059104919

00:51:29.546 --> 00:51:31.520 and having them draw or create one

NOTE Confidence: 0.860349059104919

00:51:31.520 --> 00:51:33.473 on their own in preparation to

NOTE Confidence: 0.860349059104919

00:51:33.473 --> 00:51:35.133 do the CPS escalating measure.

NOTE Confidence: 0.860349059104919

00:51:35.140 --> 00:51:36.916 And so if the therapist is

NOTE Confidence: 0.860349059104919

00:51:36.916 --> 00:51:38.540 conducting the CPS by phone,

NOTE Confidence: 0.860349059104919

00:51:38.540 --> 00:51:40.082 this is still something that

NOTE Confidence: 0.860349059104919
00:51:40.082 --> 00:51:41.766 we feel is really feasible,
NOTE Confidence: 0.860349059104919
00:51:41.766 --> 00:51:44.219 but wanted to highlight some of the
NOTE Confidence: 0.860349059104919
00:51:44.219 --> 00:51:46.787 differences as well that doing it by phone.
NOTE Confidence: 0.860349059104919
00:51:46.790 --> 00:51:49.236 In the areas that you could go into,
NOTE Confidence: 0.860349059104919
00:51:49.240 --> 00:51:50.908 that might be helpful to make
NOTE Confidence: 0.860349059104919
00:51:50.908 --> 00:51:52.909 that a little bit more seamless,
NOTE Confidence: 0.860349059104919
00:51:52.910 --> 00:51:54.961 so it's really important to review the
NOTE Confidence: 0.860349059104919
00:51:54.961 --> 00:51:56.802 frequency categories at the start and
NOTE Confidence: 0.860349059104919
00:51:56.802 --> 00:51:58.014 repeating the frequency categories
NOTE Confidence: 0.860349059104919
00:51:58.014 --> 00:52:00.247 again as needed throughout the CPS measure.
NOTE Confidence: 0.860349059104919
00:52:00.250 --> 00:52:02.392 If the child in Gig Harbor needs
NOTE Confidence: 0.860349059104919
00:52:02.392 --> 00:52:03.310 it in particular,
NOTE Confidence: 0.860349059104919
00:52:03.310 --> 00:52:05.035 but reminding them throughout and
NOTE Confidence: 0.860349059104919
00:52:05.035 --> 00:52:07.689 making sure to sort of be aware of
NOTE Confidence: 0.860349059104919
00:52:07.689 --> 00:52:09.712 who's in front of you and listening
NOTE Confidence: 0.860349059104919

00:52:09.779 --> 00:52:11.676 for you know what's going on in
NOTE Confidence: 0.860349059104919

00:52:11.676 --> 00:52:13.164 terms of our their pauses,
NOTE Confidence: 0.860349059104919

00:52:13.164 --> 00:52:15.186 or making sure that their comprehending
NOTE Confidence: 0.860349059104919

00:52:15.186 --> 00:52:17.475 and needing the prompting as you go along.
NOTE Confidence: 0.860349059104919

00:52:17.480 --> 00:52:18.920 For those rating categories,
NOTE Confidence: 0.860349059104919

00:52:18.920 --> 00:52:21.080 another important point that I think
NOTE Confidence: 0.860349059104919

00:52:21.140 --> 00:52:22.868 has been helpful in Telehealth and
NOTE Confidence: 0.860349059104919

00:52:22.868 --> 00:52:24.844 been useful to me as an emphasis
NOTE Confidence: 0.860349059104919

00:52:24.844 --> 00:52:26.629 on the amount of times per week
NOTE Confidence: 0.860349059104919

00:52:26.630 --> 00:52:27.918 in those rating categories.
NOTE Confidence: 0.860349059104919

00:52:27.918 --> 00:52:30.481 So really honing in on for example if
NOTE Confidence: 0.860349059104919

00:52:30.481 --> 00:52:32.729 their rating is to that two or three
NOTE Confidence: 0.860349059104919

00:52:32.790 --> 00:52:34.883 times per week this is occurring and
NOTE Confidence: 0.860349059104919

00:52:34.883 --> 00:52:36.674 that can help with them assessing
NOTE Confidence: 0.860349059104919

00:52:36.674 --> 00:52:38.760 where there at in their symptoms and
NOTE Confidence: 0.907720267772675

00:52:38.822 --> 00:52:40.050 having a clearer sense.

NOTE Confidence: 0.907720267772675
00:52:40.050 --> 00:52:42.605 and I find that to be particularly
NOTE Confidence: 0.907720267772675
00:52:42.605 --> 00:52:44.848 useful on the phone as well.
NOTE Confidence: 0.907720267772675
00:52:44.850 --> 00:52:46.626 Then I'm so similar to conducting
NOTE Confidence: 0.907720267772675
00:52:46.626 --> 00:52:47.810 safety sign person sharing
NOTE Confidence: 0.907720267772675
00:52:47.859 --> 00:52:49.287 that control rating shooting.
NOTE Confidence: 0.907720267772675
00:52:49.290 --> 00:52:50.238 Thinking carefully about
NOTE Confidence: 0.907720267772675
00:52:50.238 --> 00:52:51.818 this really helps them focus.
NOTE Confidence: 0.907720267772675
00:52:51.820 --> 00:52:54.207 It helps raise awareness and it really
NOTE Confidence: 0.907720267772675
00:52:54.207 --> 00:52:56.735 does help have an easier time reporting
NOTE Confidence: 0.907720267772675
00:52:56.735 --> 00:52:59.350 on symptoms in the frequency of those.
NOTE Confidence: 0.907720267772675
00:52:59.350 --> 00:53:00.995 And then concretely thinking about
NOTE Confidence: 0.907720267772675
00:53:00.995 --> 00:53:02.640 going into this CPS measure,
NOTE Confidence: 0.907720267772675
00:53:02.640 --> 00:53:04.608 just as we do in person.
NOTE Confidence: 0.907720267772675
00:53:04.608 --> 00:53:06.834 Again, the Commission will read or walk
NOTE Confidence: 0.907720267772675
00:53:06.834 --> 00:53:08.862 through the CPS symptoms questions and
NOTE Confidence: 0.907720267772675

00:53:08.862 --> 00:53:10.866 as the caregiver or child response,
NOTE Confidence: 0.907720267772675

00:53:10.870 --> 00:53:13.494 depending on who you're meeting with at that,
NOTE Confidence: 0.907720267772675

00:53:13.500 --> 00:53:15.800 I'm going to select the one that
NOTE Confidence: 0.907720267772675

00:53:15.800 --> 00:53:17.446 feels describes the frequency of
NOTE Confidence: 0.907720267772675

00:53:17.446 --> 00:53:19.406 the symptoms for them, and really,
NOTE Confidence: 0.907720267772675

00:53:19.406 --> 00:53:21.021 using how you prepared that
NOTE Confidence: 0.907720267772675

00:53:21.021 --> 00:53:22.380 patrol rating sheet again,
NOTE Confidence: 0.907720267772675

00:53:22.380 --> 00:53:24.276 whether that's on the phone and
NOTE Confidence: 0.907720267772675

00:53:24.276 --> 00:53:26.610 you're going through it in terms of
NOTE Confidence: 0.907720267772675

00:53:26.610 --> 00:53:28.295 reminders of the frequency ratings,
NOTE Confidence: 0.907720267772675

00:53:28.300 --> 00:53:30.358 or showing them on the screen.
NOTE Confidence: 0.907720267772675

00:53:30.360 --> 00:53:30.763 Etc.
NOTE Confidence: 0.907720267772675

00:53:30.763 --> 00:53:32.778 However, you set it up.
NOTE Confidence: 0.907720267772675

00:53:32.780 --> 00:53:34.008 And then after conducting
NOTE Confidence: 0.907720267772675

00:53:34.010 --> 00:53:34.847 the screening again,
NOTE Confidence: 0.907720267772675

00:53:34.847 --> 00:53:36.800 just as you typically would make your

NOTE Confidence: 0.907720267772675
00:53:36.855 --> 00:53:38.565 recommendation for treatment and really
NOTE Confidence: 0.907720267772675
00:53:38.565 --> 00:53:40.760 by conducting the assessment in this way,
NOTE Confidence: 0.907720267772675
00:53:40.760 --> 00:53:42.923 you're conveying to the family we've got
NOTE Confidence: 0.907720267772675
00:53:42.923 --> 00:53:45.367 this and that they are accessing a helpful,
NOTE Confidence: 0.907720267772675
00:53:45.367 --> 00:53:46.846 effective treatment through this.
NOTE Confidence: 0.907720267772675
00:53:46.846 --> 00:53:49.070 Then you will tell.
NOTE Confidence: 0.907720267772675
00:53:49.070 --> 00:53:49.266 Alright,
NOTE Confidence: 0.907720267772675
00:53:49.266 --> 00:53:50.638 we can go to the next slide.
NOTE Confidence: 0.874433696269989
00:53:55.400 --> 00:53:56.868 Thanks Jenn. Alright so
NOTE Confidence: 0.874433696269989
00:53:56.870 --> 00:53:59.712 now to jump into conducting actual and
NOTE Confidence: 0.874433696269989
00:53:59.712 --> 00:54:02.050 managing CSI sessions to think about
NOTE Confidence: 0.874433696269989
00:54:02.050 --> 00:54:04.507 sessions one and two again follow the
NOTE Confidence: 0.874433696269989
00:54:04.583 --> 00:54:06.776 same format as you would in person.
NOTE Confidence: 0.874433696269989
00:54:06.776 --> 00:54:09.340 Provide a quick reminder of the clinical
NOTE Confidence: 0.874433696269989
00:54:09.340 --> 00:54:12.650 goals of session one and two at the onset,
NOTE Confidence: 0.874433696269989

00:54:12.650 --> 00:54:14.480 and similarly to the screening.
NOTE Confidence: 0.874433696269989

00:54:14.480 --> 00:54:17.049 Find a way to be creative and
NOTE Confidence: 0.874433696269989

00:54:17.049 --> 00:54:18.150 affectively inappropriately used.
NOTE Confidence: 0.874433696269989

00:54:18.150 --> 00:54:20.712 A pictorial rating sheet according to the
NOTE Confidence: 0.874433696269989

00:54:20.712 --> 00:54:23.288 measures that you're using in those sessions.
NOTE Confidence: 0.874433696269989

00:54:23.290 --> 00:54:25.130 So for example, session one.
NOTE Confidence: 0.874433696269989

00:54:25.130 --> 00:54:27.030 That's the PCL PTS DRINMFQ.
NOTE Confidence: 0.874433696269989

00:54:27.030 --> 00:54:28.955 And then in session two
NOTE Confidence: 0.874433696269989

00:54:28.955 --> 00:54:31.140 of the PTS dri another Q.
NOTE Confidence: 0.874433696269989

00:54:31.140 --> 00:54:32.932 And then I'm gonna spend a little
NOTE Confidence: 0.874433696269989

00:54:32.932 --> 00:54:34.445 bit more time thinking about
NOTE Confidence: 0.874433696269989

00:54:34.445 --> 00:54:36.160 this setup for session three.
NOTE Confidence: 0.874433696269989

00:54:36.160 --> 00:54:36.748 But again,
NOTE Confidence: 0.874433696269989

00:54:36.748 --> 00:54:38.806 the over Arcing and overall theme is
NOTE Confidence: 0.874433696269989

00:54:38.806 --> 00:54:41.168 to conduct it as you would in person,
NOTE Confidence: 0.874433696269989

00:54:41.170 --> 00:54:42.835 but reminding them in preparing

NOTE Confidence: 0.874433696269989
00:54:42.835 --> 00:54:44.846 them that you've reviewed the same
NOTE Confidence: 0.874433696269989
00:54:44.846 --> 00:54:46.869 questions with both of them about the
NOTE Confidence: 0.874433696269989
00:54:46.869 --> 00:54:48.762 big events in the child's life and
NOTE Confidence: 0.874433696269989
00:54:48.762 --> 00:54:50.636 how the child has been doing since
NOTE Confidence: 0.874433696269989
00:54:50.636 --> 00:54:52.484 the events have happened and that
NOTE Confidence: 0.874433696269989
00:54:52.484 --> 00:54:54.450 we're going to be walking through what
NOTE Confidence: 0.874433696269989
00:54:54.450 --> 00:54:57.106 you've reported to me in our recent sessions.
NOTE Confidence: 0.874433696269989
00:54:57.106 --> 00:54:59.685 Obviously in reference to both session one
NOTE Confidence: 0.874433696269989
00:54:59.685 --> 00:55:02.117 session 2 for the caregiver and the child.
NOTE Confidence: 0.874433696269989
00:55:02.120 --> 00:55:03.540 Just as he wouldn't receive
NOTE Confidence: 0.874433696269989
00:55:03.540 --> 00:55:04.676 TSI in person session,
NOTE Confidence: 0.874433696269989
00:55:04.680 --> 00:55:06.654 think about the dire that you have,
NOTE Confidence: 0.874433696269989
00:55:06.660 --> 00:55:08.568 whether that's persons on the other
NOTE Confidence: 0.874433696269989
00:55:08.568 --> 00:55:11.070 line on the phone or in front of you
NOTE Confidence: 0.874433696269989
00:55:11.070 --> 00:55:13.164 in the video in both the cab driver
NOTE Confidence: 0.874433696269989

00:55:13.164 --> 00:55:15.180 on the child and think about what
NOTE Confidence: 0.874433696269989

00:55:15.180 --> 00:55:17.040 preparation specific to this family that
NOTE Confidence: 0.874433696269989

00:55:17.040 --> 00:55:19.157 might be helpful to set them up for.
NOTE Confidence: 0.874433696269989

00:55:19.160 --> 00:55:20.348 This can join session,
NOTE Confidence: 0.874433696269989

00:55:20.348 --> 00:55:21.536 whether that's prompting whatever
NOTE Confidence: 0.874433696269989

00:55:21.536 --> 00:55:22.570 support that might be,
NOTE Confidence: 0.874433696269989

00:55:22.570 --> 00:55:24.719 but you need to that family and
NOTE Confidence: 0.874433696269989

00:55:24.719 --> 00:55:26.994 you should have a good sense of
NOTE Confidence: 0.874433696269989

00:55:26.994 --> 00:55:28.914 this from your session and wanted
NOTE Confidence: 0.874433696269989

00:55:28.989 --> 00:55:31.149 to interactions with them so far.
NOTE Confidence: 0.874433696269989

00:55:31.150 --> 00:55:33.320 And this was already emphasized as well,
NOTE Confidence: 0.874433696269989

00:55:33.320 --> 00:55:35.496 but I think is important to say again
NOTE Confidence: 0.874433696269989

00:55:35.496 --> 00:55:37.658 in the context of session three,
NOTE Confidence: 0.874433696269989

00:55:37.660 --> 00:55:39.522 that this structure of CSI and the
NOTE Confidence: 0.874433696269989

00:55:39.522 --> 00:55:41.054 use of these structured instruments
NOTE Confidence: 0.874433696269989

00:55:41.054 --> 00:55:43.427 to help the family helps him regain

NOTE Confidence: 0.874433696269989
00:55:43.427 --> 00:55:44.788 a sense of control.
NOTE Confidence: 0.874433696269989
00:55:44.790 --> 00:55:45.720 But it also,
NOTE Confidence: 0.874433696269989
00:55:45.720 --> 00:55:47.580 particularly in the time of Telehealth,
NOTE Confidence: 0.874433696269989
00:55:47.580 --> 00:55:49.130 helps us as CSI conditions.
NOTE Confidence: 0.874433696269989
00:55:49.130 --> 00:55:51.045 She really Orient ourselves and
NOTE Confidence: 0.874433696269989
00:55:51.045 --> 00:55:52.960 anchor ourselves in the model
NOTE Confidence: 0.874433696269989
00:55:53.028 --> 00:55:54.598 and in the clinical work.
NOTE Confidence: 0.874433696269989
00:55:54.600 --> 00:55:56.707 An and some of these examples are
NOTE Confidence: 0.874433696269989
00:55:56.707 --> 00:55:58.510 also mentioned, but just to reiterate,
NOTE Confidence: 0.874433696269989
00:55:58.510 --> 00:56:00.568 in terms of if someone's being quiet,
NOTE Confidence: 0.874433696269989
00:56:00.568 --> 00:56:02.760 if you can see the nonverbals and make
NOTE Confidence: 0.874433696269989
00:56:02.823 --> 00:56:05.140 observations of those and comments on that.
NOTE Confidence: 0.874433696269989
00:56:05.140 --> 00:56:07.065 If there's pauses over the phone to
NOTE Confidence: 0.874433696269989
00:56:07.065 --> 00:56:08.928 also be particularly aware of these
NOTE Confidence: 0.874433696269989
00:56:08.928 --> 00:56:10.244 particular during session three,
NOTE Confidence: 0.874433696269989

00:56:10.250 --> 00:56:11.610 given that there together,
NOTE Confidence: 0.874433696269989

00:56:11.610 --> 00:56:13.650 and what that might be bringing
NOTE Confidence: 0.874433696269989

00:56:13.710 --> 00:56:15.635 up for families in the event that
NOTE Confidence: 0.874433696269989

00:56:15.635 --> 00:56:17.349 the child and cake over don't
NOTE Confidence: 0.874433696269989

00:56:17.349 --> 00:56:19.274 want to sit next to each other.
NOTE Confidence: 0.874433696269989

00:56:19.280 --> 00:56:20.790 This is when this instance,
NOTE Confidence: 0.874433696269989

00:56:20.790 --> 00:56:22.890 I know is mentioned in the beginning.
NOTE Confidence: 0.874433696269989

00:56:22.890 --> 00:56:25.330 But this is one most likely will come
NOTE Confidence: 0.874433696269989

00:56:25.330 --> 00:56:27.728 up might be at session three as it.
NOTE Confidence: 0.874433696269989

00:56:27.730 --> 00:56:28.336 Potential barrier,
NOTE Confidence: 0.874433696269989

00:56:28.336 --> 00:56:30.156 but thinking about the problem solving
NOTE Confidence: 0.874433696269989

00:56:30.156 --> 00:56:31.672 options about moving the camera
NOTE Confidence: 0.874433696269989

00:56:31.672 --> 00:56:33.490 back and discussing with them about,
NOTE Confidence: 0.874433696269989

00:56:33.490 --> 00:56:35.326 you know the options for having
NOTE Confidence: 0.874433696269989

00:56:35.326 --> 00:56:36.550 them since so you
NOTE Confidence: 0.918496191501617

00:56:36.617 --> 00:56:38.540 can see them, but that

NOTE Confidence: 0.918496191501617
00:56:38.540 --> 00:56:40.760 they are also comfortable.
NOTE Confidence: 0.918496191501617
00:56:40.760 --> 00:56:42.790 OK, we can go on shoes at
NOTE Confidence: 0.918496191501617
00:56:42.790 --> 00:56:44.072 the next slide, perfect.
NOTE Confidence: 0.918496191501617
00:56:44.072 --> 00:56:46.956 And so by session four and five,
NOTE Confidence: 0.918496191501617
00:56:46.960 --> 00:56:49.242 you're really going to have a nice
NOTE Confidence: 0.918496191501617
00:56:49.242 --> 00:56:51.731 sense of the family in terms of
NOTE Confidence: 0.918496191501617
00:56:51.731 --> 00:56:53.891 what setup and support Phil mean.
NOTE Confidence: 0.918496191501617
00:56:53.900 --> 00:56:54.938 As I mentioned,
NOTE Confidence: 0.918496191501617
00:56:54.938 --> 00:56:57.014 going into these last two sessions,
NOTE Confidence: 0.918496191501617
00:56:57.020 --> 00:56:58.575 but again, just thinking about
NOTE Confidence: 0.918496191501617
00:56:58.575 --> 00:57:00.566 the big tool reading sheet that
NOTE Confidence: 0.918496191501617
00:57:00.566 --> 00:57:02.074 corresponds to the instruments
NOTE Confidence: 0.918496191501617
00:57:02.074 --> 00:57:03.959 you reviewing for these sessions.
NOTE Confidence: 0.918496191501617
00:57:03.960 --> 00:57:04.652 Being creative,
NOTE Confidence: 0.918496191501617
00:57:04.652 --> 00:57:06.036 using what you've learned,
NOTE Confidence: 0.918496191501617

00:57:06.040 --> 00:57:07.556 and gathered clinically about
NOTE Confidence: 0.918496191501617

00:57:07.556 --> 00:57:09.830 these families so far using their
NOTE Confidence: 0.918496191501617

00:57:09.896 --> 00:57:11.641 words and hopefully at that
NOTE Confidence: 0.918496191501617

00:57:11.641 --> 00:57:13.736 point the capacity to continue in
NOTE Confidence: 0.918496191501617

00:57:13.736 --> 00:57:15.440 the framework that you set up.
NOTE Confidence: 0.918496191501617

00:57:15.440 --> 00:57:16.740 Well, have really gotten some
NOTE Confidence: 0.918496191501617

00:57:16.740 --> 00:57:20.270 case at this point in treatment.
NOTE Confidence: 0.918496191501617

00:57:20.270 --> 00:57:21.576 So I'm gonna before we parted.
NOTE Confidence: 0.918496191501617

00:57:21.576 --> 00:57:23.510 I'm actually going to pass it on to Kristen,
NOTE Confidence: 0.918496191501617

00:57:23.510 --> 00:57:24.610 'cause she's going to continue
NOTE Confidence: 0.918496191501617

00:57:24.610 --> 00:57:25.949 with some of the structure of
NOTE Confidence: 0.918496191501617

00:57:25.949 --> 00:57:27.940 the sessions from there.
NOTE Confidence: 0.926630318164825

00:57:27.940 --> 00:57:28.999 Thank you Katie.
NOTE Confidence: 0.907057464122772

00:57:30.020 --> 00:57:31.140 'cause I'm going to
NOTE Confidence: 0.907057464122772

00:57:31.140 --> 00:57:32.545 start my talking about teaching
NOTE Confidence: 0.907057464122772

00:57:32.545 --> 00:57:33.670 coping strategies. We have

NOTE Confidence: 0.907057464122772
00:57:33.670 --> 00:57:35.080 Telehouse so you teach them
NOTE Confidence: 0.907057464122772
00:57:35.080 --> 00:57:35.920 very similar to
NOTE Confidence: 0.907057464122772
00:57:35.920 --> 00:57:38.449 what you would do in person in your office.
NOTE Confidence: 0.907057464122772
00:57:38.450 --> 00:57:40.016 You're going to teach them with
NOTE Confidence: 0.907057464122772
00:57:40.016 --> 00:57:41.540 the child and caregiver together.
NOTE Confidence: 0.907057464122772
00:57:41.540 --> 00:57:43.241 You're going to rely on in vivo
NOTE Confidence: 0.907057464122772
00:57:43.241 --> 00:57:45.229 practice in the session so you're going
NOTE Confidence: 0.907057464122772
00:57:45.229 --> 00:57:47.029 to teach them the strategies right
NOTE Confidence: 0.907057464122772
00:57:47.087 --> 00:57:48.845 then and there during the session,
NOTE Confidence: 0.907057464122772
00:57:48.850 --> 00:57:50.662 and you're going to choose strategies
NOTE Confidence: 0.907057464122772
00:57:50.662 --> 00:57:52.406 that target the symptoms you have
NOTE Confidence: 0.907057464122772
00:57:52.406 --> 00:57:54.107 decided to work on and have them
NOTE Confidence: 0.907057464122772
00:57:54.107 --> 00:57:55.840 practice just those strategies at home
NOTE Confidence: 0.907057464122772
00:57:55.840 --> 00:57:57.660 as the symptoms arise between sessions.
NOTE Confidence: 0.907057464122772
00:57:57.660 --> 00:57:58.800 Like other areas,
NOTE Confidence: 0.907057464122772

00:57:58.800 --> 00:58:00.700 we've discussed regarding regarding how
NOTE Confidence: 0.907057464122772

00:58:00.700 --> 00:58:03.098 to implement safety S Ivy Hotel Health,
NOTE Confidence: 0.907057464122772

00:58:03.100 --> 00:58:05.228 it's a time to be flexible and
NOTE Confidence: 0.907057464122772

00:58:05.228 --> 00:58:06.142 use your creativity.
NOTE Confidence: 0.907057464122772

00:58:06.142 --> 00:58:07.962 If you're a clinician who typically
NOTE Confidence: 0.907057464122772

00:58:07.962 --> 00:58:10.090 uses tools or props in the office,
NOTE Confidence: 0.907057464122772

00:58:10.090 --> 00:58:11.914 such as stress balls, feathers, etc.
NOTE Confidence: 0.907057464122772

00:58:11.914 --> 00:58:13.434 You don't have those available
NOTE Confidence: 0.907057464122772

00:58:13.434 --> 00:58:14.954 to be a tile health,
NOTE Confidence: 0.907057464122772

00:58:14.954 --> 00:58:16.780 but you do have what families
NOTE Confidence: 0.907057464122772

00:58:16.780 --> 00:58:18.000 have in their home.
NOTE Confidence: 0.907057464122772

00:58:18.000 --> 00:58:19.918 They may have slime or play DoH
NOTE Confidence: 0.907057464122772

00:58:19.918 --> 00:58:21.340 drawing or coloring materials.
NOTE Confidence: 0.907057464122772

00:58:21.340 --> 00:58:22.556 Those free coloring apps
NOTE Confidence: 0.907057464122772

00:58:22.556 --> 00:58:24.076 that exist for all ages
NOTE Confidence: 0.884891510009766

00:58:24.080 --> 00:58:24.989 are really great.

NOTE Confidence: 0.916875243186951
00:58:25.870 --> 00:58:26.869 And if you
NOTE Confidence: 0.916875243186951
00:58:26.870 --> 00:58:29.535 feel like, um, like they may be struggling
NOTE Confidence: 0.916875243186951
00:58:29.535 --> 00:58:31.530 to grasp the strategies via Telehealth.
NOTE Confidence: 0.916875243186951
00:58:31.530 --> 00:58:33.175 For example, if you're teaching
NOTE Confidence: 0.916875243186951
00:58:33.175 --> 00:58:34.491 something like focused breathing
NOTE Confidence: 0.916875243186951
00:58:34.491 --> 00:58:36.096 or progressive muscle relaxation by
NOTE Confidence: 0.916875243186951
00:58:36.096 --> 00:58:38.714 phone and they're not able to see you
NOTE Confidence: 0.916875243186951
00:58:38.714 --> 00:58:40.190 demonstrating those steps strategies,
NOTE Confidence: 0.916875243186951
00:58:40.190 --> 00:58:42.325 there are some fun videos you may
NOTE Confidence: 0.916875243186951
00:58:42.325 --> 00:58:44.384 want to suggest to help reinforce
NOTE Confidence: 0.916875243186951
00:58:44.384 --> 00:58:46.174 the use of those strategies.
NOTE Confidence: 0.737725615501404
00:58:49.040 --> 00:58:50.540 Channel you please
NOTE Confidence: 0.737725615501404
00:58:50.540 --> 00:58:52.040 up. You already
NOTE Confidence: 0.737725615501404
00:58:52.040 --> 00:58:55.340 did OK, thank you, um.
NOTE Confidence: 0.737725615501404
00:58:55.340 --> 00:58:57.139 So I'm going to talk about the
NOTE Confidence: 0.737725615501404

00:58:57.139 --> 00:58:59.216 post and for this you're going
NOTE Confidence: 0.737725615501404

00:58:59.216 --> 00:59:01.281 to introduce an administer that
NOTE Confidence: 0.737725615501404

00:59:01.281 --> 00:59:02.948 assessment measures for the post,
NOTE Confidence: 0.737725615501404

00:59:02.950 --> 00:59:04.936 just as you would in person.
NOTE Confidence: 0.737725615501404

00:59:04.940 --> 00:59:07.492 You're going to start by re and re
NOTE Confidence: 0.737725615501404

00:59:07.492 --> 00:59:09.239 orienting them to the measures.
NOTE Confidence: 0.737725615501404

00:59:09.240 --> 00:59:12.590 The CPS in the PCL you're going to start by.
NOTE Confidence: 0.737725615501404

00:59:12.590 --> 00:59:13.124 Talking about,
NOTE Confidence: 0.737725615501404

00:59:13.124 --> 00:59:14.993 remember when we first met during the
NOTE Confidence: 0.737725615501404

00:59:14.993 --> 00:59:16.572 intake I asked you these questions
NOTE Confidence: 0.737725615501404

00:59:16.572 --> 00:59:18.160 regarding how your child was doing.
NOTE Confidence: 0.737725615501404

00:59:18.160 --> 00:59:19.480 We're going to do that
NOTE Confidence: 0.737725615501404

00:59:19.480 --> 00:59:20.536 same measure right now.
NOTE Confidence: 0.737725615501404

00:59:20.540 --> 00:59:22.718 The same thing with the PCL.
NOTE Confidence: 0.737725615501404

00:59:22.720 --> 00:59:24.970 And even if it's possible that you
NOTE Confidence: 0.737725615501404

00:59:24.970 --> 00:59:26.950 can share the pictorial rating sheets

NOTE Confidence: 0.737725615501404
00:59:26.950 --> 00:59:28.892 using the method that's been working
NOTE Confidence: 0.737725615501404
00:59:28.892 --> 00:59:32.500 with for you up until this point.
NOTE Confidence: 0.737725615501404
00:59:32.500 --> 00:59:34.180 It's also a really good time to
NOTE Confidence: 0.737725615501404
00:59:34.180 --> 00:59:35.909 point out where key trauma symptoms
NOTE Confidence: 0.737725615501404
00:59:35.909 --> 00:59:37.817 started and where they have changed,
NOTE Confidence: 0.737725615501404
00:59:37.820 --> 00:59:39.836 and you may have to narrate a little
NOTE Confidence: 0.737725615501404
00:59:39.836 --> 00:59:41.740 bit more about what you're doing,
NOTE Confidence: 0.737725615501404
00:59:41.740 --> 00:59:43.420 because when you're in the office,
NOTE Confidence: 0.737725615501404
00:59:43.420 --> 00:59:45.464 you can see that you're looking at
NOTE Confidence: 0.737725615501404
00:59:45.464 --> 00:59:47.060 the different measures they can see.
NOTE Confidence: 0.737725615501404
00:59:47.060 --> 00:59:48.740 Oh, that symptoms were all fours
NOTE Confidence: 0.737725615501404
00:59:48.740 --> 00:59:50.140 and fives in the beginning,
NOTE Confidence: 0.737725615501404
00:59:50.140 --> 00:59:52.142 and maybe now there are ones and
NOTE Confidence: 0.737725615501404
00:59:52.142 --> 00:59:54.337 twos and you have to say hold on.
NOTE Confidence: 0.737725615501404
00:59:54.340 --> 00:59:56.174 I'm going to add up these scores
NOTE Confidence: 0.737725615501404

00:59:56.174 --> 00:59:57.899 and just walk through what you're
NOTE Confidence: 0.737725615501404

00:59:57.899 --> 00:59:59.936 doing and so they have an idea.
NOTE Confidence: 0.891577184200287

01:00:01.590 --> 01:00:03.648 Disposition planning. It might be a little
NOTE Confidence: 0.891577184200287

01:00:03.650 --> 01:00:04.818 bit more difficult than
NOTE Confidence: 0.891577184200287

01:00:04.820 --> 01:00:06.584 it typically does for kids who
NOTE Confidence: 0.891577184200287

01:00:06.584 --> 01:00:07.760 need longer term treatment.
NOTE Confidence: 0.891577184200287

01:00:07.760 --> 01:00:09.727 There may be less capacity for referrals
NOTE Confidence: 0.891577184200287

01:00:09.727 --> 01:00:12.306 as we were just hearing an you might
NOTE Confidence: 0.891577184200287

01:00:12.306 --> 01:00:13.986 have feelings about having children
NOTE Confidence: 0.891577184200287

01:00:14.044 --> 01:00:16.068 placed on a wait list during a pandemic
NOTE Confidence: 0.891577184200287

01:00:16.068 --> 01:00:18.314 and in a similar vein for kids whom
NOTE Confidence: 0.891577184200287

01:00:18.314 --> 01:00:19.805 you're not recommending longer term
NOTE Confidence: 0.891577184200287

01:00:19.805 --> 01:00:21.225 treatment but whose families are
NOTE Confidence: 0.891577184200287

01:00:21.225 --> 01:00:23.049 more isolated due to the pandemic,
NOTE Confidence: 0.891577184200287

01:00:23.050 --> 01:00:26.870 it may feel harder to end with them as well.
NOTE Confidence: 0.891577184200287

01:00:26.870 --> 01:00:28.872 So this is where we can really

NOTE Confidence: 0.891577184200287
01:00:28.872 --> 01:00:30.628 take advantage of the one month,
NOTE Confidence: 0.891577184200287
01:00:30.630 --> 01:00:32.207 three month follow ups that are
NOTE Confidence: 0.891577184200287
01:00:32.207 --> 01:00:34.179 already built in to see if TSI we
NOTE Confidence: 0.891577184200287
01:00:34.179 --> 01:00:36.131 can use them either as a bridge to
NOTE Confidence: 0.891577184200287
01:00:36.131 --> 01:00:38.296 longer term treatment or with families
NOTE Confidence: 0.891577184200287
01:00:38.296 --> 01:00:40.156 where treatment is not recommended.
NOTE Confidence: 0.891577184200287
01:00:40.160 --> 01:00:40.932 Further treatment,
NOTE Confidence: 0.891577184200287
01:00:40.932 --> 01:00:43.248 but who are really more isolated
NOTE Confidence: 0.891577184200287
01:00:43.248 --> 01:00:44.899 because of the pandemic.
NOTE Confidence: 0.891577184200287
01:00:44.900 --> 01:00:48.810 Generally, go to the next slide, please.
NOTE Confidence: 0.891577184200287
01:00:48.810 --> 01:00:50.793 So a couple of key challenges
NOTE Confidence: 0.891577184200287
01:00:50.793 --> 01:00:52.448 that are coming up consistently.
NOTE Confidence: 0.891577184200287
01:00:52.450 --> 01:00:54.436 I'm going to talk about now.
NOTE Confidence: 0.891577184200287
01:00:54.440 --> 01:00:56.612 One is that children and adolescents
NOTE Confidence: 0.891577184200287
01:00:56.612 --> 01:00:59.067 who really don't want to be on video.
NOTE Confidence: 0.891577184200287

01:00:59.070 --> 01:01:01.310 Some may say outright to you and somebody
NOTE Confidence: 0.891577184200287

01:01:01.310 --> 01:01:03.040 just appear really uncomfortable.
NOTE Confidence: 0.891577184200287

01:01:03.040 --> 01:01:04.700 It's important not to assume
NOTE Confidence: 0.891577184200287

01:01:04.700 --> 01:01:06.412 what's going on for them,
NOTE Confidence: 0.891577184200287

01:01:06.412 --> 01:01:08.578 but to think about what's happening
NOTE Confidence: 0.891577184200287

01:01:08.578 --> 01:01:10.990 clinically 1st and then try to address it.
NOTE Confidence: 0.891577184200287

01:01:10.990 --> 01:01:13.230 Talk it through with them.
NOTE Confidence: 0.891577184200287

01:01:13.230 --> 01:01:14.326 An once you've determined
NOTE Confidence: 0.891577184200287

01:01:14.326 --> 01:01:15.970 that that is what's going on,
NOTE Confidence: 0.891577184200287

01:01:15.970 --> 01:01:17.678 try to problem solve and determine
NOTE Confidence: 0.891577184200287

01:01:17.678 --> 01:01:19.706 what's the right solution for the
NOTE Confidence: 0.891577184200287

01:01:19.706 --> 01:01:21.490 family that you're working with.
NOTE Confidence: 0.891577184200287

01:01:21.490 --> 01:01:23.548 You can play around with what's possible
NOTE Confidence: 0.891577184200287

01:01:23.550 --> 01:01:26.184 and what you have to work with in
NOTE Confidence: 0.891577184200287

01:01:26.184 --> 01:01:28.512 terms of what venue you're using.
NOTE Confidence: 0.891577184200287

01:01:28.520 --> 01:01:29.290 For example,

NOTE Confidence: 0.891577184200287
01:01:29.290 --> 01:01:31.985 video platforms like zoom and some others.
NOTE Confidence: 0.891577184200287
01:01:31.990 --> 01:01:34.699 They have an option to pin participants,
NOTE Confidence: 0.891577184200287
01:01:34.700 --> 01:01:37.038 so the patient will only see the
NOTE Confidence: 0.891577184200287
01:01:37.038 --> 01:01:40.137 therapist or to make themselves really small.
NOTE Confidence: 0.891577184200287
01:01:40.140 --> 01:01:42.822 I had a teenage boy that I was working
NOTE Confidence: 0.891577184200287
01:01:42.822 --> 01:01:45.326 with last week that I met with for
NOTE Confidence: 0.891577184200287
01:01:45.326 --> 01:01:47.901 the very first time and he was very
NOTE Confidence: 0.891577184200287
01:01:47.901 --> 01:01:50.152 far back and looking down the whole
NOTE Confidence: 0.891577184200287
01:01:50.152 --> 01:01:52.108 initially and so we started talking
NOTE Confidence: 0.891577184200287
01:01:52.108 --> 01:01:54.647 about and I knew this was somebody who
NOTE Confidence: 0.891577184200287
01:01:54.647 --> 01:01:56.988 was also very avoidant due to his trauma.
NOTE Confidence: 0.891577184200287
01:01:56.990 --> 01:01:58.856 I had already known this prior
NOTE Confidence: 0.891577184200287
01:01:58.856 --> 01:02:00.600 to meeting with him,
NOTE Confidence: 0.891577184200287
01:02:00.600 --> 01:02:01.160 but.
NOTE Confidence: 0.891577184200287
01:02:01.160 --> 01:02:02.870 He talked through a little bit
NOTE Confidence: 0.891577184200287

01:02:02.870 --> 01:02:05.096 about What is this like to do this
NOTE Confidence: 0.891577184200287

01:02:05.096 --> 01:02:07.168 via video and what it's like to see
NOTE Confidence: 0.891577184200287

01:02:07.168 --> 01:02:09.072 you on your screen and and I said,
NOTE Confidence: 0.891577184200287

01:02:09.080 --> 01:02:09.606 You know,
NOTE Confidence: 0.891577184200287

01:02:09.606 --> 01:02:11.710 there's an option where you can pin so
NOTE Confidence: 0.891577184200287

01:02:11.769 --> 01:02:13.645 the participants so you only seeing me
NOTE Confidence: 0.891577184200287

01:02:13.645 --> 01:02:16.205 and he lit up right away and was like wait,
NOTE Confidence: 0.891577184200287

01:02:16.205 --> 01:02:17.528 can you show me that?
NOTE Confidence: 0.891577184200287

01:02:17.528 --> 01:02:19.636 Can you show me how to do that?
NOTE Confidence: 0.891577184200287

01:02:19.636 --> 01:02:21.220 And he still sat back and
NOTE Confidence: 0.891577184200287

01:02:21.220 --> 01:02:22.540 didn't look up very much,
NOTE Confidence: 0.891577184200287

01:02:22.540 --> 01:02:25.804 but he was much calmer and more engaged.
NOTE Confidence: 0.891577184200287

01:02:25.810 --> 01:02:27.875 And you know why we really do?
NOTE Confidence: 0.891577184200287

01:02:27.880 --> 01:02:30.248 If we have the option to use video,
NOTE Confidence: 0.891577184200287

01:02:30.250 --> 01:02:31.730 it's helpful to see what's
NOTE Confidence: 0.891577184200287

01:02:31.730 --> 01:02:32.320 happening nonverbally.

NOTE Confidence: 0.891577184200287
01:02:32.320 --> 01:02:34.390 We also we had one family with
NOTE Confidence: 0.891577184200287
01:02:34.390 --> 01:02:36.468 a teenage girl who she was just
NOTE Confidence: 0.891577184200287
01:02:36.470 --> 01:02:37.950 so uncomfortable being on video
NOTE Confidence: 0.891577184200287
01:02:37.950 --> 01:02:39.430 that she just wasn't engaging.
NOTE Confidence: 0.891577184200287
01:02:39.430 --> 01:02:41.495 We tried a couple of different tactics,
NOTE Confidence: 0.891577184200287
01:02:41.500 --> 01:02:42.406 changing the video,
NOTE Confidence: 0.891577184200287
01:02:42.406 --> 01:02:44.520 and then ultimately we decided to try
NOTE Confidence: 0.92016065120697
01:02:44.576 --> 01:02:46.696 switching to phone an that actually it made
NOTE Confidence: 0.92016065120697
01:02:46.696 --> 01:02:49.189 a huge difference in her ability to engage.
NOTE Confidence: 0.92016065120697
01:02:49.190 --> 01:02:51.482 So it's really it's problem solving
NOTE Confidence: 0.92016065120697
01:02:51.482 --> 01:02:53.699 in working with what you have.
NOTE Confidence: 0.92016065120697
01:02:53.700 --> 01:02:55.280 Another challenge is distracted children.
NOTE Confidence: 0.92016065120697
01:02:55.280 --> 01:02:57.492 We know that kids get really distracted
NOTE Confidence: 0.92016065120697
01:02:57.492 --> 01:02:59.706 during sessions in our office as well.
NOTE Confidence: 0.92016065120697
01:02:59.706 --> 01:03:02.228 So just like you would in your office,
NOTE Confidence: 0.92016065120697

01:03:02.228 --> 01:03:03.768 it's helpful to think about
NOTE Confidence: 0.92016065120697

01:03:03.768 --> 01:03:05.390 what might help them focus.
NOTE Confidence: 0.92016065120697

01:03:05.390 --> 01:03:07.252 So maybe it's setting up so they
NOTE Confidence: 0.92016065120697

01:03:07.252 --> 01:03:09.594 are able to engage in a specific
NOTE Confidence: 0.92016065120697

01:03:09.594 --> 01:03:11.074 activity during the session,
NOTE Confidence: 0.92016065120697

01:03:11.080 --> 01:03:12.043 like drawing, coloring,
NOTE Confidence: 0.92016065120697

01:03:12.043 --> 01:03:13.648 playing with Plato or slime.
NOTE Confidence: 0.92016065120697

01:03:13.650 --> 01:03:15.684 My 8 year olds that I I met with
NOTE Confidence: 0.92016065120697

01:03:15.684 --> 01:03:17.317 a couple of weeks ago.
NOTE Confidence: 0.92016065120697

01:03:17.320 --> 01:03:18.886 She brought materials to the session.
NOTE Confidence: 0.92016065120697

01:03:18.890 --> 01:03:20.180 She practice braiding while she
NOTE Confidence: 0.92016065120697

01:03:20.180 --> 01:03:22.039 was talking to me and it really
NOTE Confidence: 0.92016065120697

01:03:22.039 --> 01:03:23.714 helped her be able to sit.
NOTE Confidence: 0.92016065120697

01:03:23.714 --> 01:03:25.210 Instead of running around,
NOTE Confidence: 0.92016065120697

01:03:25.210 --> 01:03:26.806 sit calmly and focus on what
NOTE Confidence: 0.947557687759399

01:03:26.810 --> 01:03:27.878 we were talking about.

NOTE Confidence: 0.896558940410614
01:03:28.420 --> 01:03:29.740 The you know the difference
NOTE Confidence: 0.896558940410614
01:03:29.740 --> 01:03:31.708 between them being at home or be in
NOTE Confidence: 0.896558940410614
01:03:31.708 --> 01:03:33.708 the office is that the child care they
NOTE Confidence: 0.896558940410614
01:03:33.708 --> 01:03:35.607 need to bring and find the materials
NOTE Confidence: 0.896558940410614
01:03:35.607 --> 01:03:37.359 and bring them to the session.
NOTE Confidence: 0.896558940410614
01:03:37.360 --> 01:03:39.808 Since you can't put it out for them and
NOTE Confidence: 0.896558940410614
01:03:39.808 --> 01:03:41.801 there's a lot more for them to choose
NOTE Confidence: 0.896558940410614
01:03:41.801 --> 01:03:44.197 from and to show you when there at home.
NOTE Confidence: 0.896558940410614
01:03:44.200 --> 01:03:46.920 So it's helpful to have that discussion and
NOTE Confidence: 0.896558940410614
01:03:46.920 --> 01:03:49.335 prepare about what they might want to use.
NOTE Confidence: 0.896558940410614
01:03:49.340 --> 01:03:51.995 If a child needs to take a movement break,
NOTE Confidence: 0.896558940410614
01:03:52.000 --> 01:03:54.079 you can help orchestrate that for them.
NOTE Confidence: 0.896558940410614
01:03:54.080 --> 01:03:55.862 For some children, engaging in that
NOTE Confidence: 0.896558940410614
01:03:55.862 --> 01:03:59.060 need to move can be really helpful.
NOTE Confidence: 0.896558940410614
01:03:59.060 --> 01:04:00.620 And as with many challenges,
NOTE Confidence: 0.896558940410614

01:04:00.620 --> 01:04:02.170 remember that engaging the caregivers
NOTE Confidence: 0.896558940410614

01:04:02.170 --> 01:04:04.040 help with all of these things
NOTE Confidence: 0.896558940410614

01:04:04.040 --> 01:04:05.590 can just be really useful.
NOTE Confidence: 0.556479156017303

01:04:08.360 --> 01:04:09.320 OK John.
NOTE Confidence: 0.894494235515594

01:04:30.090 --> 01:04:32.460 OK, so a couple of questions
NOTE Confidence: 0.894494235515594

01:04:32.460 --> 01:04:34.040 that have come through.
NOTE Confidence: 0.894494235515594

01:04:34.040 --> 01:04:36.068 Wi-Fi freezing and not being
NOTE Confidence: 0.880419969558716

01:04:36.070 --> 01:04:39.302 able to tell if the client is quiet
NOTE Confidence: 0.880419969558716

01:04:39.302 --> 01:04:41.294 or if they're actually frozen.
NOTE Confidence: 0.880419969558716

01:04:41.294 --> 01:04:42.994 Maria Blanchard asked that question,
NOTE Confidence: 0.880419969558716

01:04:42.994 --> 01:04:44.624 Kelly Stout actually commented that
NOTE Confidence: 0.880419969558716

01:04:44.624 --> 01:04:46.546 she's heard the suggestion of putting
NOTE Confidence: 0.880419969558716

01:04:46.546 --> 01:04:48.152 something having them put something
NOTE Confidence: 0.880419969558716

01:04:48.152 --> 01:04:50.733 in the room that moves so you can
NOTE Confidence: 0.880419969558716

01:04:50.733 --> 01:04:53.000 actually see if it's if that freezes.
NOTE Confidence: 0.880419969558716

01:04:53.000 --> 01:04:55.256 Then you know it's the Wi-Fi connection,

NOTE Confidence: 0.880419969558716
01:04:55.256 --> 01:04:56.544 but that's still moving.
NOTE Confidence: 0.880419969558716
01:04:56.550 --> 01:04:58.490 Then you know that's the client.
NOTE Confidence: 0.902600049972534
01:05:00.590 --> 01:05:01.960 Do you have any suggestions
NOTE Confidence: 0.902600049972534
01:05:01.960 --> 01:05:03.330 from our our panel here?
NOTE Confidence: 0.767725586891174
01:05:06.970 --> 01:05:11.185 Anyone? No, just that I like the
NOTE Confidence: 0.767725586891174
01:05:11.185 --> 01:05:12.940 creativity that's that's being offered
NOTE Confidence: 0.908209502696991
01:05:13.004 --> 01:05:15.340 there an and I think we've all had the
NOTE Confidence: 0.908209502696991
01:05:15.340 --> 01:05:17.204 the awkwardness of the frozen Wi-Fi
NOTE Confidence: 0.908209502696991
01:05:17.204 --> 01:05:18.759 or the Wi-Fi connectivity issues.
NOTE Confidence: 0.908209502696991
01:05:18.760 --> 01:05:20.657 And you know, I think this is
NOTE Confidence: 0.908209502696991
01:05:20.657 --> 01:05:22.578 where are being are genuine selves
NOTE Confidence: 0.908209502696991
01:05:22.578 --> 01:05:24.666 that you know just talking about?
NOTE Confidence: 0.908209502696991
01:05:24.670 --> 01:05:27.022 Yep, this is one of the things that
NOTE Confidence: 0.908209502696991
01:05:27.022 --> 01:05:29.017 were going to be flexible about,
NOTE Confidence: 0.908209502696991
01:05:29.020 --> 01:05:31.292 and to the extent that we can kind
NOTE Confidence: 0.908209502696991

01:05:31.292 --> 01:05:33.353 of have a sense of humor about
NOTE Confidence: 0.908209502696991

01:05:33.353 --> 01:05:35.580 it and and even for the question
NOTE Confidence: 0.908209502696991

01:05:35.580 --> 01:05:37.415 that I think Maria asked,
NOTE Confidence: 0.908209502696991

01:05:37.420 --> 01:05:38.975 maybe even just being very
NOTE Confidence: 0.908209502696991

01:05:38.975 --> 01:05:40.530 direct with the family about.
NOTE Confidence: 0.908209502696991

01:05:40.530 --> 01:05:42.784 There are times when I'm not sure.
NOTE Confidence: 0.908209502696991

01:05:42.790 --> 01:05:44.026 Whether it's actually the
NOTE Confidence: 0.908209502696991

01:05:44.026 --> 01:05:45.880 Wi-Fi that has kind of frozen,
NOTE Confidence: 0.908209502696991

01:05:45.880 --> 01:05:47.112 or whether you're not,
NOTE Confidence: 0.908209502696991

01:05:47.112 --> 01:05:48.036 you're not responding,
NOTE Confidence: 0.908209502696991

01:05:48.040 --> 01:05:50.203 and so maybe we could come up
NOTE Confidence: 0.908209502696991

01:05:50.203 --> 01:05:52.680 with a way so that I could better,
NOTE Confidence: 0.907089114189148

01:05:52.680 --> 01:05:55.630 better know that perfect. I think
NOTE Confidence: 0.885412871837616

01:05:55.630 --> 01:05:57.880 it's not. You know it's not only the our
NOTE Confidence: 0.885412871837616

01:05:57.880 --> 01:05:59.859 clients and families Wi-Fi that freezes.
NOTE Confidence: 0.885412871837616

01:05:59.860 --> 01:06:01.820 Mine was freezing all last week and

NOTE Confidence: 0.885412871837616
01:06:01.820 --> 01:06:03.810 I would start by telling them I'm
NOTE Confidence: 0.885412871837616
01:06:03.810 --> 01:06:04.938 having some Wi-Fi issues
NOTE Confidence: 0.885412871837616
01:06:04.938 --> 01:06:06.348 and if this happens we
NOTE Confidence: 0.885412871837616
01:06:06.350 --> 01:06:07.478 that we would, we
NOTE Confidence: 0.885412871837616
01:06:07.480 --> 01:06:09.346 would switch to talking by phone
NOTE Confidence: 0.885412871837616
01:06:09.346 --> 01:06:11.428 if it was happening or the IT was
NOTE Confidence: 0.881434420744578
01:06:11.430 --> 01:06:13.602 dropping. I like that Christmas,
NOTE Confidence: 0.881434420744578
01:06:13.602 --> 01:06:14.832 so we're talking about maybe
NOTE Confidence: 0.881434420744578
01:06:14.832 --> 01:06:16.060 even having a pro actively
NOTE Confidence: 0.879445195198059
01:06:16.060 --> 01:06:17.044 bringing this and saying
NOTE Confidence: 0.879445195198059
01:06:17.044 --> 01:06:18.028 that it might happen.
NOTE Confidence: 0.879445195198059
01:06:18.030 --> 01:06:19.998 And I've even talking about we have a
NOTE Confidence: 0.90502127011617
01:06:20.000 --> 01:06:22.280 backup plan. I would agree with all this
NOTE Confidence: 0.90502127011617
01:06:22.280 --> 01:06:24.478 and the only minor thing I would add
NOTE Confidence: 0.90502127011617
01:06:24.478 --> 01:06:26.678 is that I think that the message going
NOTE Confidence: 0.90502127011617

01:06:26.678 --> 01:06:28.582 into all of this in the preparation
NOTE Confidence: 0.90502127011617

01:06:28.582 --> 01:06:30.154 is that we're in this together.
NOTE Confidence: 0.90502127011617

01:06:30.160 --> 01:06:32.896 TSI but also in the telephone mode that
NOTE Confidence: 0.90502127011617

01:06:32.896 --> 01:06:34.528 while difficulties come up or not,
NOTE Confidence: 0.90502127011617

01:06:34.530 --> 01:06:36.252 the clinician and the family are
NOTE Confidence: 0.90502127011617

01:06:36.252 --> 01:06:38.473 in this together in terms of the
NOTE Confidence: 0.90502127011617

01:06:38.473 --> 01:06:39.829 difficulties that could arise.
NOTE Confidence: 0.90502127011617

01:06:39.830 --> 01:06:41.696 Can help with engagement as well.
NOTE Confidence: 0.916440188884735

01:06:47.260 --> 01:06:49.880 There was a question about using puppets
NOTE Confidence: 0.916440188884735

01:06:49.880 --> 01:06:51.368 to engage kids, and
NOTE Confidence: 0.916440188884735

01:06:51.370 --> 01:06:52.498 if anybody had
NOTE Confidence: 0.916440188884735

01:06:52.500 --> 01:06:53.619 thoughts on that.
NOTE Confidence: 0.613981664180756

01:07:02.780 --> 01:07:08.009 Anyone respond about
NOTE Confidence: 0.812421371539434

01:07:08.010 --> 01:07:12.301 using puppets? As a way to engage
NOTE Confidence: 0.812421371539434

01:07:12.301 --> 01:07:16.420 the child into the treatment. Well,
NOTE Confidence: 0.911148130893707

01:07:16.420 --> 01:07:19.928 I I think one of the points that was raised

NOTE Confidence: 0.911148130893707
01:07:19.928 --> 01:07:23.711 was that it it and tell me if I got this
NOTE Confidence: 0.911148130893707
01:07:23.711 --> 01:07:26.770 right but that it seemed to work great.
NOTE Confidence: 0.911148130893707
01:07:26.770 --> 01:07:29.370 But then the child gets distracted by the
NOTE Confidence: 0.911148130893707
01:07:29.370 --> 01:07:31.385 puppet if I understood that correctly
NOTE Confidence: 0.911148130893707
01:07:31.385 --> 01:07:34.216 and it seems to me that that's where
NOTE Confidence: 0.911148130893707
01:07:34.216 --> 01:07:37.072 again the child's using the puppet for
NOTE Confidence: 0.911148130893707
01:07:37.072 --> 01:07:39.909 displacement and that one can use join in
NOTE Confidence: 0.911148130893707
01:07:39.909 --> 01:07:42.126 that displacement and talk directly to
NOTE Confidence: 0.911148130893707
01:07:42.126 --> 01:07:44.980 the puppet about what might be going on.
NOTE Confidence: 0.911148130893707
01:07:44.980 --> 01:07:48.004 That may be a. Very short response,
NOTE Confidence: 0.911148130893707
01:07:48.010 --> 01:07:50.914 but that's what came to my
NOTE Confidence: 0.911148130893707
01:07:50.914 --> 01:07:54.790 mind in in in our experience.
NOTE Confidence: 0.911148130893707
01:07:54.790 --> 01:07:56.980 But others might have other ideas.
NOTE Confidence: 0.910553514957428
01:07:57.580 --> 01:07:59.060 I guess my only other
NOTE Confidence: 0.910553514957428
01:07:59.060 --> 01:08:00.776 ideas that you know the themes
NOTE Confidence: 0.910553514957428

01:08:00.776 --> 01:08:02.300 that we've been talking about,
NOTE Confidence: 0.910553514957428

01:08:02.300 --> 01:08:03.278 our flexibility, creativity,
NOTE Confidence: 0.910553514957428

01:08:03.278 --> 01:08:05.560 and one thing that we didn't talk
NOTE Confidence: 0.910553514957428

01:08:05.616 --> 01:08:07.464 about that for me has been a mantra
NOTE Confidence: 0.910553514957428

01:08:07.464 --> 01:08:09.089 has been like self compassion,
NOTE Confidence: 0.910553514957428

01:08:09.090 --> 01:08:11.450 which is that if something doesn't go well,
NOTE Confidence: 0.910553514957428

01:08:11.450 --> 01:08:14.105 I try not to beat myself up tonight, right?
NOTE Confidence: 0.910553514957428

01:08:14.105 --> 01:08:16.170 OK, well that was a good try.
NOTE Confidence: 0.910553514957428

01:08:16.170 --> 01:08:17.640 Let's let's try something else.
NOTE Confidence: 0.910553514957428

01:08:17.640 --> 01:08:19.410 So I guess if you're finding
NOTE Confidence: 0.910553514957428

01:08:19.410 --> 01:08:21.193 that this is a successful way
NOTE Confidence: 0.910553514957428

01:08:21.193 --> 01:08:22.708 to help engage especially kids
NOTE Confidence: 0.910553514957428

01:08:22.708 --> 01:08:24.718 on the younger and roll with it.
NOTE Confidence: 0.910553514957428

01:08:24.720 --> 01:08:26.490 And if it's not working with
NOTE Confidence: 0.910553514957428

01:08:26.490 --> 01:08:27.375 a particular patient,
NOTE Confidence: 0.910553514957428

01:08:27.380 --> 01:08:29.246 kind of saying but without us.

NOTE Confidence: 0.910553514957428
01:08:29.250 --> 01:08:31.205 Something we tried and let's
NOTE Confidence: 0.910553514957428
01:08:31.205 --> 01:08:32.378 try something else.
NOTE Confidence: 0.882142961025238
01:08:35.900 --> 01:08:37.985 Nicola hurting also said that she
NOTE Confidence: 0.882142961025238
01:08:37.985 --> 01:08:39.730 commented on the connection issues
NOTE Confidence: 0.882142961025238
01:08:39.792 --> 01:08:41.040 with specific cases when
NOTE Confidence: 0.882142961025238
01:08:41.040 --> 01:08:42.600 it seems to happen alot.
NOTE Confidence: 0.882142961025238
01:08:42.600 --> 01:08:45.001 She actually calls a cell phone and
NOTE Confidence: 0.882142961025238
01:08:45.001 --> 01:08:47.341 does the audio over the cell phone
NOTE Confidence: 0.882142961025238
01:08:47.341 --> 01:08:49.303 so that she always has connection.
NOTE Confidence: 0.882142961025238
01:08:49.303 --> 01:08:51.310 So even if the Wi-Fi freezes
NOTE Confidence: 0.882142961025238
01:08:51.310 --> 01:08:53.320 they can still talk through it.
NOTE Confidence: 0.882142961025238
01:08:53.320 --> 01:08:56.005 But she also mentioned that she has done,
NOTE Confidence: 0.882142961025238
01:08:56.005 --> 01:08:58.318 you know use like puppet type things
NOTE Confidence: 0.882142961025238
01:08:58.318 --> 01:09:00.280 with her younger children to animate
NOTE Confidence: 0.882142961025238
01:09:00.338 --> 01:09:02.028 and be playful over Telehealth.
NOTE Confidence: 0.882142961025238

01:09:02.030 --> 01:09:03.705 And it's been very successful
NOTE Confidence: 0.882142961025238

01:09:03.705 --> 01:09:05.380 and kind of helping to
NOTE Confidence: 0.837781568368276

01:09:05.380 --> 01:09:07.306 engage them. Pause for a moment.
NOTE Confidence: 0.837781568368276

01:09:07.310 --> 01:09:10.595 Nickel, I know you've been doing a lot of.
NOTE Confidence: 0.837781568368276

01:09:10.600 --> 01:09:13.376 Tell a Health Ministry is going to help.
NOTE Confidence: 0.837781568368276

01:09:13.380 --> 01:09:16.860 Do you mind coming off like for a moment and
NOTE Confidence: 0.738021874427795

01:09:16.860 --> 01:09:19.940 just? Hi, good to see
NOTE Confidence: 0.727448999881744

01:09:19.940 --> 01:09:24.590 you see you too. Uhm, Yeah, Uh, I've
NOTE Confidence: 0.832362473011017

01:09:24.590 --> 01:09:28.750 been doing most of my Telehealth is with TF
NOTE Confidence: 0.832362473011017

01:09:28.750 --> 01:09:30.590 CBT and PSBCBT. And
NOTE Confidence: 0.832362473011017

01:09:30.590 --> 01:09:32.903 then we've been doing our
NOTE Confidence: 0.832362473011017

01:09:32.903 --> 01:09:35.210 assessments and screening which we
NOTE Confidence: 0.832362473011017

01:09:35.210 --> 01:09:37.990 include the CSI measures all over.
NOTE Confidence: 0.832362473011017

01:09:37.990 --> 01:09:40.300 Tell a health. And so.
NOTE Confidence: 0.902383267879486

01:09:40.910 --> 01:09:41.870 I think I'd
NOTE Confidence: 0.902383267879486

01:09:41.870 --> 01:09:43.138 like to say that

NOTE Confidence: 0.902383267879486
01:09:43.140 --> 01:09:44.100 I you know
NOTE Confidence: 0.902383267879486
01:09:44.100 --> 01:09:45.380 when I when I
NOTE Confidence: 0.902383267879486
01:09:45.380 --> 01:09:47.487 moved some kids from in person to
NOTE Confidence: 0.902383267879486
01:09:47.487 --> 01:09:49.844 to tell a health because of Covid.
NOTE Confidence: 0.902383267879486
01:09:49.844 --> 01:09:51.118 Uhm, the puppet idea,
NOTE Confidence: 0.902383267879486
01:09:51.118 --> 01:09:53.670 that was something we had used in session.
NOTE Confidence: 0.902383267879486
01:09:53.670 --> 01:09:55.896 She loved this stuff animal I had.
NOTE Confidence: 0.902383267879486
01:09:55.900 --> 01:09:58.140 It was her favorite thing and so
NOTE Confidence: 0.902383267879486
01:09:58.140 --> 01:10:00.364 using that having that be kind of
NOTE Confidence: 0.902383267879486
01:10:00.364 --> 01:10:02.272 a transitional object in terms of
NOTE Confidence: 0.902383267879486
01:10:02.272 --> 01:10:04.414 like we can still connect and we
NOTE Confidence: 0.902383267879486
01:10:04.414 --> 01:10:06.430 can still do some similar things
NOTE Confidence: 0.902383267879486
01:10:06.430 --> 01:10:08.661 that we did in person was important.
NOTE Confidence: 0.902383267879486
01:10:08.661 --> 01:10:11.238 So if you have got kids that you.
NOTE Confidence: 0.902383267879486
01:10:11.238 --> 01:10:12.866 Transitioning over to tell a
NOTE Confidence: 0.902383267879486

01:10:12.866 --> 01:10:14.795 health at this point probably not
NOTE Confidence: 0.902383267879486

01:10:14.795 --> 01:10:16.079 was the empty side
NOTE Confidence: 0.897723376750946

01:10:16.080 --> 01:10:17.360 being a shorter Reaper
NOTE Confidence: 0.897723376750946

01:10:17.360 --> 01:10:19.607 intervention, but that can be very helpful
NOTE Confidence: 0.897723376750946

01:10:19.610 --> 01:10:21.210 to utilize some of those
NOTE Confidence: 0.897723376750946

01:10:21.210 --> 01:10:23.140 same items that you would in
NOTE Confidence: 0.897723376750946

01:10:23.140 --> 01:10:25.380 in person. I don't care if you
NOTE Confidence: 0.897723376750946

01:10:25.380 --> 01:10:26.990 have specific questions, no, I
NOTE Confidence: 0.897723376750946

01:10:26.990 --> 01:10:27.950 just wanted to
NOTE Confidence: 0.897723376750946

01:10:27.950 --> 01:10:30.239 know it's just nice to sort of
NOTE Confidence: 0.897723376750946

01:10:30.239 --> 01:10:31.799 hear your experience with it,
NOTE Confidence: 0.897723376750946

01:10:31.800 --> 01:10:34.128 and I do think that we may be
NOTE Confidence: 0.897723376750946

01:10:34.128 --> 01:10:35.660 definitely in this country.
NOTE Confidence: 0.897723376750946

01:10:35.660 --> 01:10:37.260 Possibly be experiencing going back
NOTE Confidence: 0.897723376750946

01:10:37.260 --> 01:10:39.224 to having therapy in person and
NOTE Confidence: 0.897723376750946

01:10:39.224 --> 01:10:40.789 then because of things happening.

NOTE Confidence: 0.897723376750946
01:10:40.790 --> 01:10:42.400 Maybe note back to Telehealth.
NOTE Confidence: 0.897723376750946
01:10:42.400 --> 01:10:44.230 So I think that your comments
NOTE Confidence: 0.897723376750946
01:10:44.230 --> 01:10:46.269 are things that are helpful now.
NOTE Confidence: 0.897723376750946
01:10:46.270 --> 01:10:48.320 And possibly in the future,
NOTE Confidence: 0.897723376750946
01:10:48.320 --> 01:10:50.790 so it's very much welcome. You've
NOTE Confidence: 0.878549814224243
01:10:50.790 --> 01:10:53.388 done without with measures as we
NOTE Confidence: 0.878549814224243
01:10:53.390 --> 01:10:55.988 utiliza PowerPoint where we have one
NOTE Confidence: 0.878549814224243
01:10:55.990 --> 01:10:57.289 question at a
NOTE Confidence: 0.878549814224243
01:10:57.290 --> 01:11:00.750 time on the screen 'cause we use a
NOTE Confidence: 0.878549814224243
01:11:00.750 --> 01:11:02.049 lot utilize shares
NOTE Confidence: 0.908436257105607
01:11:02.050 --> 01:11:04.762 screen sharing. So that's how kind of how
NOTE Confidence: 0.908436257105607
01:11:04.762 --> 01:11:07.668 we've we've done the measures, and then we
NOTE Confidence: 0.91387015581131
01:11:07.670 --> 01:11:08.690 have the clinician
NOTE Confidence: 0.91387015581131
01:11:08.690 --> 01:11:10.714 have the whole measure also on
NOTE Confidence: 0.91387015581131
01:11:10.714 --> 01:11:12.401 their part of their screen,
NOTE Confidence: 0.91387015581131

01:11:12.401 --> 01:11:14.771 and then have fillable forms to be
NOTE Confidence: 0.91387015581131

01:11:14.771 --> 01:11:17.808 able to fill it in so that it's not
NOTE Confidence: 0.91387015581131

01:11:17.810 --> 01:11:19.158 overwhelming for a caregiver
NOTE Confidence: 0.91387015581131

01:11:19.160 --> 01:11:22.540 or a child to see like 20 questions at once,
NOTE Confidence: 0.91387015581131

01:11:22.540 --> 01:11:24.748 and that the you can also have
NOTE Confidence: 0.91387015581131

01:11:24.748 --> 01:11:26.530 the rating scale with the stars
NOTE Confidence: 0.91387015581131

01:11:26.592 --> 01:11:28.288 up underneath each question.
NOTE Confidence: 0.91387015581131

01:11:28.290 --> 01:11:29.980 So that's something that we've
NOTE Confidence: 0.91387015581131

01:11:29.980 --> 01:11:32.006 been doing in terms of screening
NOTE Confidence: 0.91387015581131

01:11:32.006 --> 01:11:34.068 and assessment that we find it.
NOTE Confidence: 0.91387015581131

01:11:34.070 --> 01:11:35.598 Very effective and kind
NOTE Confidence: 0.91387015581131

01:11:35.600 --> 01:11:39.430 of not as overwhelming and
NOTE Confidence: 0.907454967498779

01:11:37.520 --> 01:11:39.430 as close to how we
NOTE Confidence: 0.907454967498779

01:11:39.430 --> 01:11:41.350 usually do it in person.
NOTE Confidence: 0.828118622303009

01:11:41.460 --> 01:11:43.525 Thank you Nicola. Anyone from
NOTE Confidence: 0.828118622303009

01:11:43.525 --> 01:11:46.320 our team want to talk a little

NOTE Confidence: 0.828118622303009
01:11:46.320 --> 01:11:48.350 bit about maybe how? Additionally,
NOTE Confidence: 0.828118622303009
01:11:48.350 --> 01:11:50.936 how we've sort of been approaching
NOTE Confidence: 0.828118622303009
01:11:50.936 --> 01:11:53.115 using the control rating sheets
NOTE Confidence: 0.828118622303009
01:11:53.115 --> 01:11:55.775 and using the how we use the
NOTE Confidence: 0.828118622303009
01:11:55.775 --> 01:11:58.068 instruments when we've been doing it.
NOTE Confidence: 0.828118622303009
01:11:58.070 --> 01:12:00.610 When we drink telehealth when
NOTE Confidence: 0.828118622303009
01:12:00.610 --> 01:12:03.870 there's a visual or not. Or not.
NOTE Confidence: 0.857065379619598
01:12:04.450 --> 01:12:06.285 There was also a question
NOTE Confidence: 0.857065379619598
01:12:06.285 --> 01:12:07.753 about um from Shannon.
NOTE Confidence: 0.857065379619598
01:12:07.760 --> 01:12:09.602 Carry about if they're sharing
NOTE Confidence: 0.857065379619598
01:12:09.602 --> 01:12:11.810 the actual forms and session 3
NOTE Confidence: 0.857065379619598
01:12:11.810 --> 01:12:14.018 on a screen share or favorably
NOTE Confidence: 0.857065379619598
01:12:14.018 --> 01:12:15.490 going over the questions.
NOTE Confidence: 0.869725823402405
01:12:16.670 --> 01:12:19.323 For me, I I don't share the
NOTE Confidence: 0.869725823402405
01:12:19.323 --> 01:12:21.599 actual measure I've been sharing,
NOTE Confidence: 0.869725823402405

01:12:21.600 --> 01:12:24.888 just just very much in the way that
NOTE Confidence: 0.869725823402405

01:12:24.890 --> 01:12:26.630 Nicola you were describing.
NOTE Confidence: 0.869725823402405

01:12:26.630 --> 01:12:30.810 I think it's a lot can be a lot for
NOTE Confidence: 0.869725823402405

01:12:30.810 --> 01:12:33.520 some families to kind of see that,
NOTE Confidence: 0.869725823402405

01:12:33.520 --> 01:12:35.580 and I'm sure you know,
NOTE Confidence: 0.869725823402405

01:12:35.580 --> 01:12:37.890 as we're all getting more and
NOTE Confidence: 0.869725823402405

01:12:37.890 --> 01:12:40.403 more familiar with the items on
NOTE Confidence: 0.869725823402405

01:12:40.403 --> 01:12:42.562 the various measures, you know,
NOTE Confidence: 0.869725823402405

01:12:42.562 --> 01:12:45.850 a lot of them require kind of caustic,
NOTE Confidence: 0.869725823402405

01:12:45.850 --> 01:12:47.502 explain and change the
NOTE Confidence: 0.869725823402405

01:12:47.502 --> 01:12:49.567 language to help my kiddo.
NOTE Confidence: 0.869725823402405

01:12:49.570 --> 01:12:52.834 Or I caregiver understand and so for me,
NOTE Confidence: 0.869725823402405

01:12:52.840 --> 01:12:55.264 I've been just putting up the
NOTE Confidence: 0.869725823402405

01:12:55.264 --> 01:12:56.880 the pictorial rating scale
NOTE Confidence: 0.869725823402405

01:12:56.957 --> 01:12:58.977 and not the actual measures.
NOTE Confidence: 0.870561540126801

01:13:00.640 --> 01:13:01.699 Alright, I'm done

NOTE Confidence: 0.870561540126801
01:13:01.700 --> 01:13:04.157 it that way to Megan Ann also.
NOTE Confidence: 0.870561540126801
01:13:04.160 --> 01:13:06.320 Um, I've shared the screen and
NOTE Confidence: 0.870561540126801
01:13:06.320 --> 01:13:08.739 I've also used on one of them.
NOTE Confidence: 0.870561540126801
01:13:08.740 --> 01:13:10.930 I used like a whiteboard option
NOTE Confidence: 0.870561540126801
01:13:10.930 --> 01:13:13.339 an and wrote them out and
NOTE Confidence: 0.870561540126801
01:13:13.339 --> 01:13:15.079 so trying trying different.
NOTE Confidence: 0.870561540126801
01:13:15.080 --> 01:13:16.790 Our techniques that seemed to work.
NOTE Confidence: 0.662572294473648
01:13:18.820 --> 01:13:23.658 Great. I also wanted to sort of also
NOTE Confidence: 0.662572294473648
01:13:23.658 --> 01:13:26.440 acknowledge that you know there was.
NOTE Confidence: 0.93029522895813
01:13:26.440 --> 01:13:28.736 You know, we really want to be aware
NOTE Confidence: 0.93029522895813
01:13:28.736 --> 01:13:30.949 that we were talking about this,
NOTE Confidence: 0.93029522895813
01:13:30.950 --> 01:13:32.490 that we realized that everyone
NOTE Confidence: 0.93029522895813
01:13:32.490 --> 01:13:34.030 calling in repeating what I'd
NOTE Confidence: 0.93029522895813
01:13:34.084 --> 01:13:35.779 said earlier is using technology.
NOTE Confidence: 0.93029522895813
01:13:35.780 --> 01:13:37.064 Different technologies in different
NOTE Confidence: 0.93029522895813

01:13:37.064 --> 01:13:38.348 platforms in different ways.
NOTE Confidence: 0.93029522895813

01:13:38.350 --> 01:13:40.518 And, you know, we really want to be
NOTE Confidence: 0.93029522895813

01:13:40.518 --> 01:13:42.491 sending the message that we understand
NOTE Confidence: 0.93029522895813

01:13:42.491 --> 01:13:44.938 that there's sort of a disparity in
NOTE Confidence: 0.93029522895813

01:13:44.938 --> 01:13:46.984 terms of resources that can exist
NOTE Confidence: 0.93029522895813

01:13:46.984 --> 01:13:48.338 between clinicians and families.
NOTE Confidence: 0.93029522895813

01:13:48.338 --> 01:13:49.978 So we really respect that
NOTE Confidence: 0.93029522895813

01:13:49.978 --> 01:13:51.880 some families we may be using.
NOTE Confidence: 0.93029522895813

01:13:51.880 --> 01:13:52.500 Tablets, laptops,
NOTE Confidence: 0.93029522895813

01:13:52.500 --> 01:13:53.740 computers and other families
NOTE Confidence: 0.93029522895813

01:13:53.740 --> 01:13:55.740 we may be using the telephone,
NOTE Confidence: 0.93029522895813

01:13:55.740 --> 01:13:56.536 depending what?
NOTE Confidence: 0.93029522895813

01:13:56.536 --> 01:13:58.128 Technology is available and
NOTE Confidence: 0.93029522895813

01:13:58.128 --> 01:14:00.444 what they have or they may
NOTE Confidence: 0.93029522895813

01:14:00.444 --> 01:14:02.074 not even have the Internet
NOTE Confidence: 0.829148828983307

01:14:02.080 --> 01:14:03.580 or Wi-Fi. So I

NOTE Confidence: 0.829148828983307
01:14:03.580 --> 01:14:05.455 really wanted to address well
NOTE Confidence: 0.829148828983307
01:14:05.455 --> 01:14:07.700 in just just to figure that.
NOTE Confidence: 0.829148828983307
01:14:07.700 --> 01:14:09.746 That that so if you are
NOTE Confidence: 0.829148828983307
01:14:09.746 --> 01:14:11.700 doing it over the phone,
NOTE Confidence: 0.829148828983307
01:14:11.700 --> 01:14:13.890 I think this was said earlier,
NOTE Confidence: 0.829148828983307
01:14:13.890 --> 01:14:16.158 but the idea of really using a
NOTE Confidence: 0.829148828983307
01:14:16.158 --> 01:14:18.040 lot of repetition any grounding
NOTE Confidence: 0.829148828983307
01:14:18.040 --> 01:14:19.708 in the answer choices.
NOTE Confidence: 0.829148828983307
01:14:19.710 --> 01:14:21.530 But which is we know,
NOTE Confidence: 0.829148828983307
01:14:21.530 --> 01:14:23.581 and I know this is deep deeply
NOTE Confidence: 0.829148828983307
01:14:23.581 --> 01:14:25.311 embedded in the training that
NOTE Confidence: 0.829148828983307
01:14:25.311 --> 01:14:27.281 repetition in paramedic work is
NOTE Confidence: 0.829148828983307
01:14:27.281 --> 01:14:29.730 actually not bad and it's actually
NOTE Confidence: 0.829148828983307
01:14:29.730 --> 01:14:31.720 grounding and helpful to people.
NOTE Confidence: 0.829148828983307
01:14:31.720 --> 01:14:33.904 So if you were doing this
NOTE Confidence: 0.829148828983307

01:14:33.904 --> 01:14:34.996 without any visuals,
NOTE Confidence: 0.829148828983307

01:14:35.000 --> 01:14:37.984 I would just think that the repetition of.
NOTE Confidence: 0.829148828983307

01:14:37.990 --> 01:14:40.378 Uh, with the various answer choices
NOTE Confidence: 0.829148828983307

01:14:40.378 --> 01:14:42.630 are could be really helpful.
NOTE Confidence: 0.917103409767151

01:14:43.850 --> 01:14:45.714 I just wanted to add to
NOTE Confidence: 0.917103409767151

01:14:45.714 --> 01:14:46.958 that about their phone.
NOTE Confidence: 0.917103409767151

01:14:46.960 --> 01:14:48.801 I've actually done a lot more by
NOTE Confidence: 0.917103409767151

01:14:48.801 --> 01:14:51.000 phone than I was anticipating doing,
NOTE Confidence: 0.917103409767151

01:14:51.000 --> 01:14:52.866 just by the nature of the
NOTE Confidence: 0.917103409767151

01:14:52.866 --> 01:14:54.110 families I'm working within,
NOTE Confidence: 0.917103409767151

01:14:54.110 --> 01:14:56.287 the resources they have or glitches etc,
NOTE Confidence: 0.917103409767151

01:14:56.290 --> 01:14:58.156 and I found it really feasible.
NOTE Confidence: 0.917103409767151

01:14:58.160 --> 01:14:59.404 You know the repetition
NOTE Confidence: 0.917103409767151

01:14:59.404 --> 01:15:00.959 pieces key in terms of.
NOTE Confidence: 0.917103409767151

01:15:00.960 --> 01:15:02.555 Sometimes I've even repeated the
NOTE Confidence: 0.917103409767151

01:15:02.555 --> 01:15:03.831 frequency rating categories after

NOTE Confidence: 0.917103409767151
01:15:03.831 --> 01:15:05.620 every question and walking through it,
NOTE Confidence: 0.917103409767151
01:15:05.620 --> 01:15:07.175 so sometimes it does take
NOTE Confidence: 0.917103409767151
01:15:07.175 --> 01:15:08.419 a little bit longer.
NOTE Confidence: 0.917103409767151
01:15:08.420 --> 01:15:10.281 However, I do find it to
NOTE Confidence: 0.917103409767151
01:15:10.281 --> 01:15:11.836 still be just as effective,
NOTE Confidence: 0.917103409767151
01:15:11.840 --> 01:15:14.017 and I've been pleasantly surprised by that.
NOTE Confidence: 0.897444725036621
01:15:15.650 --> 01:15:17.528 Thank you well, I also want
NOTE Confidence: 0.897444725036621
01:15:17.530 --> 01:15:18.858 to acknowledge we have.
NOTE Confidence: 0.897444725036621
01:15:18.858 --> 01:15:21.195 Lisa Wright is joining us today from
NOTE Confidence: 0.897444725036621
01:15:21.195 --> 01:15:23.459 Virginia and at least I know that you
NOTE Confidence: 0.897444725036621
01:15:23.459 --> 01:15:25.380 have been doing CSI via Telehealth
NOTE Confidence: 0.897444725036621
01:15:25.380 --> 01:15:27.799 and wanted to just ask if you would
NOTE Confidence: 0.897444725036621
01:15:27.799 --> 01:15:30.410 take a moment to just make a comment.
NOTE Confidence: 0.897444725036621
01:15:30.410 --> 01:15:32.608 Reflection on your experience in doing this.
NOTE Confidence: 0.492614775896072
01:15:37.430 --> 01:15:38.690 But Loose Lisa.
NOTE Confidence: 0.889831900596619

01:15:42.420 --> 01:15:44.490 She may have had to get of.

NOTE Confidence: 0.889831900596619

01:15:44.490 --> 01:15:46.548 OK, well we'll find a way to

NOTE Confidence: 0.889831900596619

01:15:46.548 --> 01:15:47.458 convey leases, experiences,

NOTE Confidence: 0.889831900596619

01:15:47.458 --> 01:15:50.002 but I do know that least actually has

NOTE Confidence: 0.889831900596619

01:15:50.002 --> 01:15:51.860 written up a piece on her programs.

NOTE Confidence: 0.889831900596619

01:15:51.860 --> 01:15:53.040 Experience with doing CS.

NOTE Confidence: 0.889831900596619

01:15:53.040 --> 01:15:54.515 I would tell a health,

NOTE Confidence: 0.889831900596619

01:15:54.520 --> 01:15:55.995 and that's actually been disseminated

NOTE Confidence: 0.889831900596619

01:15:55.995 --> 01:15:57.470 by the National Children's alliance.

NOTE Confidence: 0.889831900596619

01:15:57.470 --> 01:15:59.366 The MCA, which is the organization

NOTE Confidence: 0.889831900596619

01:15:59.366 --> 01:16:01.342 in United States that overseas all

NOTE Confidence: 0.889831900596619

01:16:01.342 --> 01:16:03.304 child advocacy centers so will make

NOTE Confidence: 0.889831900596619

01:16:03.304 --> 01:16:05.426 sure that we get out to all of you.

NOTE Confidence: 0.889831900596619

01:16:05.430 --> 01:16:08.447 At least is written up in her

NOTE Confidence: 0.889831900596619

01:16:08.447 --> 01:16:10.250 experience with doing that.

NOTE Confidence: 0.889831900596619

01:16:10.250 --> 01:16:12.469 I know that just because I know

NOTE Confidence: 0.889831900596619
01:16:12.469 --> 01:16:14.628 I'm before we run out of time.
NOTE Confidence: 0.889831900596619
01:16:14.630 --> 01:16:17.438 There have been questions asked about.
NOTE Confidence: 0.889831900596619
01:16:17.440 --> 01:16:18.835 Upcoming training so I will
NOTE Confidence: 0.889831900596619
01:16:18.835 --> 01:16:20.654 write something in the chat about
NOTE Confidence: 0.889831900596619
01:16:20.654 --> 01:16:22.484 upcoming training while we continue
NOTE Confidence: 0.889831900596619
01:16:22.484 --> 01:16:23.582 asking additional questions
NOTE Confidence: 0.889831900596619
01:16:23.582 --> 01:16:25.168 or actually opening it up.
NOTE Confidence: 0.889831900596619
01:16:25.170 --> 01:16:27.342 Now that keep coming with people's
NOTE Confidence: 0.889831900596619
01:16:27.342 --> 01:16:29.160 comments would really like this
NOTE Confidence: 0.889831900596619
01:16:29.160 --> 01:16:30.978 to be a dialogue and conversation
NOTE Confidence: 0.889831900596619
01:16:30.978 --> 01:16:32.897 from to hear from all of you.
NOTE Confidence: 0.889831900596619
01:16:32.900 --> 01:16:35.560 So if you want to actually raise
NOTE Confidence: 0.889831900596619
01:16:35.560 --> 01:16:37.469 your hand through the chat.
NOTE Confidence: 0.889831900596619
01:16:37.470 --> 01:16:37.680 Uhm,
NOTE Confidence: 0.889831900596619
01:16:37.680 --> 01:16:38.940 let us know you have something
NOTE Confidence: 0.889831900596619

01:16:38.940 --> 01:16:39.790 you'd like to say.
NOTE Confidence: 0.889831900596619

01:16:39.790 --> 01:16:41.056 We'd really love that and have
NOTE Confidence: 0.889831900596619

01:16:41.056 --> 01:16:41.900 you come up Mike.
NOTE Confidence: 0.890324711799622

01:17:03.910 --> 01:17:07.430 When they have a covered a lot today,
NOTE Confidence: 0.890324711799622

01:17:07.430 --> 01:17:10.070 I'm glad people's questions have been
NOTE Confidence: 0.890324711799622

01:17:10.070 --> 01:17:11.830 coming throughout the presentation.
NOTE Confidence: 0.920950531959534

01:17:19.100 --> 01:17:22.097 So the the only thing I would I would
NOTE Confidence: 0.920950531959534

01:17:22.097 --> 01:17:25.120 add and I want to be very brief so
NOTE Confidence: 0.920950531959534

01:17:25.120 --> 01:17:27.894 that give people have a moment to
NOTE Confidence: 0.920950531959534

01:17:27.894 --> 01:17:30.652 kind of figure out whether they want
NOTE Confidence: 0.920950531959534

01:17:30.652 --> 01:17:32.818 to add anything to the discussion,
NOTE Confidence: 0.920950531959534

01:17:32.820 --> 01:17:35.158 but in the the point about children
NOTE Confidence: 0.920950531959534

01:17:35.158 --> 01:17:37.150 and families where the perpetrator
NOTE Confidence: 0.920950531959534

01:17:37.150 --> 01:17:39.379 is still present in the home,
NOTE Confidence: 0.920950531959534

01:17:39.379 --> 01:17:41.677 I think that there is something
NOTE Confidence: 0.920950531959534

01:17:41.677 --> 01:17:43.798 important to remember that you know

NOTE Confidence: 0.920950531959534
01:17:43.798 --> 01:17:47.070 the the idea that the what's in it for
NOTE Confidence: 0.920950531959534
01:17:47.070 --> 01:17:49.368 them also applies to the perpetrator.
NOTE Confidence: 0.920950531959534
01:17:49.370 --> 01:17:51.750 That again, the focus is not on
NOTE Confidence: 0.920950531959534
01:17:51.750 --> 01:17:54.272 retailing and the perpetrator can be
NOTE Confidence: 0.920950531959534
01:17:54.272 --> 01:17:56.657 reminded of the alleged perpetrator.
NOTE Confidence: 0.920950531959534
01:17:56.660 --> 01:17:59.495 Be reminded that is not about repeating.
NOTE Confidence: 0.920950531959534
01:17:59.500 --> 01:18:01.930 You know. Whatever the accusations are,
NOTE Confidence: 0.920950531959534
01:18:01.930 --> 01:18:04.330 but actually trying to help the
NOTE Confidence: 0.920950531959534
01:18:04.330 --> 01:18:06.810 child in a way that the.
NOTE Confidence: 0.920950531959534
01:18:06.810 --> 01:18:09.534 With the family can benefit by
NOTE Confidence: 0.920950531959534
01:18:09.534 --> 01:18:11.350 decreasing the child's distress
NOTE Confidence: 0.920950531959534
01:18:11.430 --> 01:18:13.410 and similar symptomatology,
NOTE Confidence: 0.920950531959534
01:18:13.410 --> 01:18:18.486 but there was a comment that just came in.
NOTE Confidence: 0.920950531959534
01:18:18.490 --> 01:18:19.978 Uh from Brittany?
NOTE Confidence: 0.87747985124588
01:18:26.170 --> 01:18:27.250 Yeah, Brittany said
NOTE Confidence: 0.87747985124588

01:18:27.250 --> 01:18:29.386 that her center has been offering
NOTE Confidence: 0.87747985124588

01:18:29.386 --> 01:18:31.269 in person sessions for engagement
NOTE Confidence: 0.87747985124588

01:18:31.269 --> 01:18:33.209 at screening session three and
NOTE Confidence: 0.87747985124588

01:18:33.209 --> 01:18:35.479 the last session if the family
NOTE Confidence: 0.87747985124588

01:18:35.479 --> 01:18:37.423 is comfortable and would like to
NOTE Confidence: 0.87747985124588

01:18:37.423 --> 01:18:39.524 come in there doing the normal.
NOTE Confidence: 0.87747985124588

01:18:39.524 --> 01:18:41.329 The screening in the lobby,
NOTE Confidence: 0.87747985124588

01:18:41.330 --> 01:18:43.140 temperature taken and given masks,
NOTE Confidence: 0.87747985124588

01:18:43.140 --> 01:18:45.304 and but they're doing the remainder
NOTE Confidence: 0.87747985124588

01:18:45.304 --> 01:18:47.109 of the session through Telehealth.
NOTE Confidence: 0.907749176025391

01:18:51.160 --> 01:18:53.600 So my my reaction to that is really,
NOTE Confidence: 0.907749176025391

01:18:53.600 --> 01:18:55.856 you know our agency and I think it
NOTE Confidence: 0.907749176025391

01:18:55.856 --> 01:18:58.018 depends on where where people are at
NOTE Confidence: 0.907749176025391

01:18:58.018 --> 01:19:00.555 in terms of where their state is that
NOTE Confidence: 0.907749176025391

01:19:00.555 --> 01:19:02.746 where the countries that in terms of
NOTE Confidence: 0.907749176025391

01:19:02.750 --> 01:19:04.906 overall kind of levels of infection and.

NOTE Confidence: 0.907749176025391
01:19:04.910 --> 01:19:06.870 Terms of weather in person.
NOTE Confidence: 0.907749176025391
01:19:06.870 --> 01:19:09.216 Appointments are available at this point,
NOTE Confidence: 0.907749176025391
01:19:09.220 --> 01:19:11.860 but my question for a it was a
NOTE Confidence: 0.907749176025391
01:19:11.860 --> 01:19:14.230 Britney Yeah my question for Britney
NOTE Confidence: 0.907749176025391
01:19:14.230 --> 01:19:16.672 I thought I would find myself
NOTE Confidence: 0.907749176025391
01:19:16.753 --> 01:19:19.285 curious about whether it's hard to
NOTE Confidence: 0.907749176025391
01:19:19.285 --> 01:19:22.156 shift back and forth between the in
NOTE Confidence: 0.907749176025391
01:19:22.156 --> 01:19:24.116 person and then the Telehealth.
NOTE Confidence: 0.907749176025391
01:19:24.120 --> 01:19:26.080 I'd be curious about what
NOTE Confidence: 0.907749176025391
01:19:26.080 --> 01:19:28.040 her experience was of that.
NOTE Confidence: 0.876079797744751
01:19:35.550 --> 01:19:38.049 Do you mind coming out great? Yeah sorry,
NOTE Confidence: 0.876079797744751
01:19:38.050 --> 01:19:40.849 I just went ahead and had to type it.
NOTE Confidence: 0.876079797744751
01:19:40.850 --> 01:19:43.160 Yeah, several of our clinicians have been
NOTE Confidence: 0.876079797744751
01:19:43.160 --> 01:19:45.202 offering that and there's been families
NOTE Confidence: 0.876079797744751
01:19:45.202 --> 01:19:47.512 that have have liked that and haven't
NOTE Confidence: 0.876079797744751

01:19:47.573 --> 01:19:49.589 seemed to have too much of an issue.
NOTE Confidence: 0.876079797744751

01:19:49.590 --> 01:19:51.456 Kind of transitioning back and forth,
NOTE Confidence: 0.876079797744751

01:19:51.460 --> 01:19:53.378 but again, you know many of our
NOTE Confidence: 0.876079797744751

01:19:53.378 --> 01:19:54.627 families are more comfortable
NOTE Confidence: 0.876079797744751

01:19:54.627 --> 01:19:56.447 just doing it all remotely,
NOTE Confidence: 0.876079797744751

01:19:56.450 --> 01:19:58.328 which is totally fine as well,
NOTE Confidence: 0.876079797744751

01:19:58.330 --> 01:20:00.094 so I think it's been kind
NOTE Confidence: 0.876079797744751

01:20:00.094 --> 01:20:01.760 of mixed on that point.
NOTE Confidence: 0.902868568897247

01:20:06.470 --> 01:20:08.520 When it sounds like your
NOTE Confidence: 0.902868568897247

01:20:08.520 --> 01:20:10.160 agency has the capacity,
NOTE Confidence: 0.902868568897247

01:20:10.160 --> 01:20:12.876 then to provide some choice which you
NOTE Confidence: 0.902868568897247

01:20:12.876 --> 01:20:15.951 know we know from the themes of trauma
NOTE Confidence: 0.902868568897247

01:20:15.951 --> 01:20:19.180 that you know we feel caught off-guard,
NOTE Confidence: 0.902868568897247

01:20:19.180 --> 01:20:20.820 powerless, helpless and overwhelmed.
NOTE Confidence: 0.902868568897247

01:20:20.820 --> 01:20:23.396 You know, during and then following
NOTE Confidence: 0.902868568897247

01:20:23.396 --> 01:20:25.591 these traumatic experiences so your

NOTE Confidence: 0.902868568897247
01:20:25.591 --> 01:20:27.965 agency is helping to reverse that
NOTE Confidence: 0.902868568897247
01:20:27.965 --> 01:20:29.835 by providing some choices that,
NOTE Confidence: 0.902868568897247
01:20:29.840 --> 01:20:32.300 while maintaining kind of physical safety,
NOTE Confidence: 0.902868568897247
01:20:32.300 --> 01:20:33.940 so that sounds great.
NOTE Confidence: 0.71359246969223
01:20:36.580 --> 01:20:42.780 Any other questions or comments,
NOTE Confidence: 0.71359246969223
01:20:42.780 --> 01:20:47.740 either from focusing in
NOTE Confidence: 0.71359246969223
01:20:47.740 --> 01:20:52.700 or from our team?
NOTE Confidence: 0.883218765258789
01:20:54.610 --> 01:20:55.630 Yeah I have
NOTE Confidence: 0.883218765258789
01:20:55.630 --> 01:20:57.670 a question. This is Anna Maria
NOTE Confidence: 0.883218765258789
01:20:57.670 --> 01:21:00.730 I I think I put it in the chat.
NOTE Confidence: 0.883218765258789
01:21:00.730 --> 01:21:03.450 I'm not sure if you guys saw it,
NOTE Confidence: 0.883218765258789
01:21:03.450 --> 01:21:05.150 but I'm wondering if you
NOTE Confidence: 0.883218765258789
01:21:05.150 --> 01:21:06.510 have any upcoming training
NOTE Confidence: 0.883218765258789
01:21:06.510 --> 01:21:08.550 specifically for Spanish speaking. CF TSI.
NOTE Confidence: 0.840492188930511
01:21:10.410 --> 01:21:13.840 So I think that's a really interesting
NOTE Confidence: 0.840492188930511

01:21:13.840 --> 01:21:16.290 question, and I don't mean

NOTE Confidence: 0.840492188930511

01:21:16.290 --> 01:21:19.706 to put one of our lives inside

NOTE Confidence: 0.840492188930511

01:21:19.706 --> 01:21:22.840 master trainers on the spot, but.

NOTE Confidence: 0.840492188930511

01:21:22.840 --> 01:21:26.190 Anna. If you're still there,

NOTE Confidence: 0.840492188930511

01:21:26.190 --> 01:21:29.547 I'd love you to speak to your thoughts about.

NOTE Confidence: 0.840492188930511

01:21:29.550 --> 01:21:32.378 I think the question on Maria is

NOTE Confidence: 0.840492188930511

01:21:32.378 --> 01:21:34.081 there specific training about

NOTE Confidence: 0.840492188930511

01:21:34.081 --> 01:21:36.126 how to implement this model.

NOTE Confidence: 0.840492188930511

01:21:36.130 --> 01:21:39.094 With. Um, folks who are Spanish

NOTE Confidence: 0.840492188930511

01:21:39.094 --> 01:21:42.510 speaking is not right. Yes.

NOTE Confidence: 0.750112732251485

01:21:42.860 --> 01:21:49.520 OK, honey. I

NOTE Confidence: 0.897983908653259

01:21:49.520 --> 01:21:51.630 guess we have been done at my.

NOTE Confidence: 0.897983908653259

01:21:51.630 --> 01:21:52.830 My initial thought is

NOTE Confidence: 0.897983908653259

01:21:52.830 --> 01:21:54.590 thinking how we might be able.

NOTE Confidence: 0.897983908653259

01:21:54.590 --> 01:21:56.790 I guess I have to initial thoughts and

NOTE Confidence: 0.897983908653259

01:21:56.856 --> 01:21:58.848 we haven't really talked about it,

NOTE Confidence: 0.897983908653259
01:21:58.850 --> 01:22:00.360 but that a lot of
NOTE Confidence: 0.897983908653259
01:22:00.360 --> 01:22:01.260 that can be
NOTE Confidence: 0.897983908653259
01:22:01.260 --> 01:22:02.464 discussed on the consultation
NOTE Confidence: 0.897983908653259
01:22:02.464 --> 01:22:03.367 calls like water.
NOTE Confidence: 0.897983908653259
01:22:03.370 --> 01:22:04.942 What if any or adaptations that
NOTE Confidence: 0.897983908653259
01:22:04.942 --> 01:22:06.763 need to be made for engaging
NOTE Confidence: 0.897983908653259
01:22:06.763 --> 01:22:08.179 families in this process?
NOTE Confidence: 0.897983908653259
01:22:08.180 --> 01:22:10.590 and I guess it links back to some
NOTE Confidence: 0.897983908653259
01:22:10.590 --> 01:22:12.396 of Carl's comments of like even
NOTE Confidence: 0.897983908653259
01:22:12.396 --> 01:22:14.205 using support staff to provide those
NOTE Confidence: 0.897983908653259
01:22:14.205 --> 01:22:16.010 initial psycho edge kinds of sessions.
NOTE Confidence: 0.897983908653259
01:22:16.010 --> 01:22:17.780 And then my other thought that
NOTE Confidence: 0.897983908653259
01:22:17.780 --> 01:22:19.250 we haven't really talked about
NOTE Confidence: 0.897983908653259
01:22:19.310 --> 01:22:21.444 Carrie or the rest of the team.
NOTE Confidence: 0.897983908653259
01:22:21.444 --> 01:22:23.286 I don't know if there's like.
NOTE Confidence: 0.897983908653259

01:22:23.290 --> 01:22:25.908 Almost like a booster session or like
NOTE Confidence: 0.897983908653259

01:22:25.908 --> 01:22:29.176 a like a like an additional uhm.
NOTE Confidence: 0.897983908653259

01:22:29.176 --> 01:22:32.475 Training or something for a couple of
NOTE Confidence: 0.897983908653259

01:22:32.475 --> 01:22:36.019 hours that looks at what are some of the.
NOTE Confidence: 0.897983908653259

01:22:36.020 --> 01:22:38.346 Issue is more specific to
NOTE Confidence: 0.897983908653259

01:22:38.346 --> 01:22:39.742 Spanish speaking families,
NOTE Confidence: 0.897983908653259

01:22:39.742 --> 01:22:42.070 but it's also like it's
NOTE Confidence: 0.897983908653259

01:22:42.070 --> 01:22:44.194 such a diverse group that.
NOTE Confidence: 0.897983908653259

01:22:44.194 --> 01:22:46.396 You know that you know anyway,
NOTE Confidence: 0.897983908653259

01:22:46.400 --> 01:22:48.746 so those are my my initial thought,
NOTE Confidence: 0.897983908653259

01:22:48.746 --> 01:22:51.425 so like that part of it can be
NOTE Confidence: 0.897983908653259

01:22:51.430 --> 01:22:53.104 addressed in the consultation calls
NOTE Confidence: 0.897983908653259

01:22:53.104 --> 01:22:55.782 and so and we can do thoughtful of
NOTE Confidence: 0.897983908653259

01:22:55.782 --> 01:22:57.460 some of the cultural considerations
NOTE Confidence: 0.897983908653259

01:22:57.460 --> 01:22:58.800 within the training so,
NOTE Confidence: 0.889412581920624

01:22:58.800 --> 01:23:00.475 but it sounds like you

NOTE Confidence: 0.889412581920624
01:23:00.475 --> 01:23:01.809 had a follow-up question.
NOTE Confidence: 0.889412581920624
01:23:01.810 --> 01:23:03.820 Yeah, so if in the consultation
NOTE Confidence: 0.889412581920624
01:23:03.820 --> 01:23:05.160 calls there are no
NOTE Confidence: 0.889412581920624
01:23:05.160 --> 01:23:06.840 other Spanish speaking clinicians, you
NOTE Confidence: 0.889412581920624
01:23:06.840 --> 01:23:08.695 know. I know that TF CBT models
NOTE Confidence: 0.889412581920624
01:23:08.695 --> 01:23:10.764 off they have like a Spanish
NOTE Confidence: 0.889412581920624
01:23:10.764 --> 01:23:12.384 speaking call specifically for
NOTE Confidence: 0.889412581920624
01:23:12.384 --> 01:23:13.536 Spanish speaking clinician.
NOTE Confidence: 0.889412581920624
01:23:13.536 --> 01:23:15.582 So I guess I'm just wondering
NOTE Confidence: 0.889412581920624
01:23:15.582 --> 01:23:17.640 if there's a possibility to do.
NOTE Confidence: 0.889412581920624
01:23:17.640 --> 01:23:20.433 To do that because all the safety
NOTE Confidence: 0.889412581920624
01:23:20.433 --> 01:23:23.028 cases I have our Spanish so.
NOTE Confidence: 0.889412581920624
01:23:23.030 --> 01:23:25.568 What do we think team I got
NOTE Confidence: 0.902467310428619
01:23:25.570 --> 01:23:26.659 and I really
NOTE Confidence: 0.902467310428619
01:23:26.660 --> 01:23:28.862 I really liked your suggestion and
NOTE Confidence: 0.902467310428619

01:23:28.862 --> 01:23:31.878 I think that one of the things we
NOTE Confidence: 0.902467310428619

01:23:31.878 --> 01:23:34.080 could think about doing is setting
NOTE Confidence: 0.902467310428619

01:23:34.160 --> 01:23:36.533 up an additional call or calls in
NOTE Confidence: 0.902467310428619

01:23:36.533 --> 01:23:38.982 the future to talk about and have
NOTE Confidence: 0.902467310428619

01:23:38.982 --> 01:23:40.772 the community come together to
NOTE Confidence: 0.902467310428619

01:23:40.772 --> 01:23:43.017 talk about things just like this.
NOTE Confidence: 0.902467310428619

01:23:43.020 --> 01:23:45.585 It's really here and for us to listen and
NOTE Confidence: 0.902467310428619

01:23:45.585 --> 01:23:48.239 hear from folks in this seaside community.
NOTE Confidence: 0.902467310428619

01:23:48.240 --> 01:23:50.391 What is it that we think we need to
NOTE Confidence: 0.902467310428619

01:23:50.391 --> 01:23:52.655 tweak and address in order to support
NOTE Confidence: 0.902467310428619

01:23:52.655 --> 01:23:54.470 families who speak other languages
NOTE Confidence: 0.902467310428619

01:23:54.470 --> 01:23:56.705 who come from different backgrounds?
NOTE Confidence: 0.902467310428619

01:23:56.710 --> 01:23:59.266 And so I think that it might be a
NOTE Confidence: 0.902467310428619

01:23:59.266 --> 01:24:00.966 wonderful opportunity for us to
NOTE Confidence: 0.902467310428619

01:24:00.966 --> 01:24:03.397 maybe set up something in the future
NOTE Confidence: 0.902467310428619

01:24:03.397 --> 01:24:05.455 to actually press to listen for

NOTE Confidence: 0.902467310428619
01:24:05.455 --> 01:24:07.468 us to discuss those very things.
NOTE Confidence: 0.901026904582977
01:24:08.240 --> 01:24:10.697 Yeah I do for I also train in child
NOTE Confidence: 0.901026904582977
01:24:10.700 --> 01:24:12.499 parent psychotherapy and so I know there's
NOTE Confidence: 0.901026904582977
01:24:12.499 --> 01:24:14.248 a monthly group for Spanish speaking.
NOTE Confidence: 0.901026904582977
01:24:14.250 --> 01:24:16.154 So with this for Spanish speaking therapist
NOTE Confidence: 0.901026904582977
01:24:16.154 --> 01:24:17.796 that are working with Spanish speaking
NOTE Confidence: 0.901026904582977
01:24:17.796 --> 01:24:19.434 families where they come in present
NOTE Confidence: 0.901026904582977
01:24:19.434 --> 01:24:21.886 cases so I don't know if there's like a
NOTE Confidence: 0.901026904582977
01:24:21.886 --> 01:24:24.070 version of that that maybe we could do.
NOTE Confidence: 0.924872875213623
01:24:24.690 --> 01:24:26.598 Right, so I don't think these
NOTE Confidence: 0.924872875213623
01:24:26.598 --> 01:24:28.550 are these are mutually exclusive,
NOTE Confidence: 0.924872875213623
01:24:28.550 --> 01:24:31.118 but I agree with Kerry that In addition
NOTE Confidence: 0.924872875213623
01:24:31.118 --> 01:24:33.470 to whatever you know discussion group,
NOTE Confidence: 0.924872875213623
01:24:33.470 --> 01:24:35.570 there might be for Spanish speaking
NOTE Confidence: 0.924872875213623
01:24:35.570 --> 01:24:37.675 providers, clinicians that this is an
NOTE Confidence: 0.924872875213623

01:24:37.675 --> 01:24:40.510 opportunity for us to to find the silver
NOTE Confidence: 0.924872875213623

01:24:40.510 --> 01:24:43.291 lining into not just have this be a
NOTE Confidence: 0.924872875213623

01:24:43.291 --> 01:24:45.397 one off a community meeting because
NOTE Confidence: 0.924872875213623

01:24:45.397 --> 01:24:48.110 the more that were able to learn from
NOTE Confidence: 0.924872875213623

01:24:48.110 --> 01:24:50.569 our colleagues about some of the the
NOTE Confidence: 0.924872875213623

01:24:50.569 --> 01:24:52.753 additional tweaks and additions to how
NOTE Confidence: 0.924872875213623

01:24:52.753 --> 01:24:55.277 we deliver CF TSI to Spanish speaking.
NOTE Confidence: 0.924872875213623

01:24:55.280 --> 01:24:58.176 Clients that that's a benefit all of us.
NOTE Confidence: 0.924872875213623

01:24:58.180 --> 01:24:59.239 So it's, uh,
NOTE Confidence: 0.924872875213623

01:24:59.239 --> 01:25:02.167 I think this is a great opportunity to
NOTE Confidence: 0.924872875213623

01:25:02.167 --> 01:25:04.841 actually take this forum and to begin
NOTE Confidence: 0.924872875213623

01:25:04.841 --> 01:25:07.375 to identify some of the other topics
NOTE Confidence: 0.924872875213623

01:25:07.375 --> 01:25:10.454 that we want to share as a group and
NOTE Confidence: 0.924872875213623

01:25:10.454 --> 01:25:13.070 to continue to learn from each other.
NOTE Confidence: 0.924872875213623

01:25:13.070 --> 01:25:14.518 So then it's a
NOTE Confidence: 0.916236996650696

01:25:14.520 --> 01:25:15.609 great idea. Great

NOTE Confidence: 0.91290803750356

01:25:15.610 --> 01:25:17.633 idea. Things that I wanted to as

NOTE Confidence: 0.91290803750356

01:25:17.633 --> 01:25:20.010 we start to wrap up so on America.

NOTE Confidence: 0.91290803750356

01:25:20.010 --> 01:25:22.194 Thank you for your questions and I think

NOTE Confidence: 0.91290803750356

01:25:22.194 --> 01:25:24.307 that I'm already seeing in the chat.

NOTE Confidence: 0.91290803750356

01:25:24.310 --> 01:25:26.008 People responding to liking the idea

NOTE Confidence: 0.91290803750356

01:25:26.008 --> 01:25:27.763 of are having future events like

NOTE Confidence: 0.91290803750356

01:25:27.763 --> 01:25:29.473 this that might be topic specific.

NOTE Confidence: 0.91290803750356

01:25:29.480 --> 01:25:31.489 I think that people should feel free.

NOTE Confidence: 0.91290803750356

01:25:31.490 --> 01:25:33.308 I've given one of my email

NOTE Confidence: 0.91290803750356

01:25:33.308 --> 01:25:35.218 addresses at to reach out to me.

NOTE Confidence: 0.91290803750356

01:25:35.220 --> 01:25:37.497 If you have a topic that you think it

NOTE Confidence: 0.91290803750356

01:25:37.497 --> 01:25:39.997 might be good for us to actually bring

NOTE Confidence: 0.91290803750356

01:25:39.997 --> 01:25:41.820 the commute together to talk about,

NOTE Confidence: 0.91290803750356

01:25:41.820 --> 01:25:43.829 so we'd like to plan for that.

NOTE Confidence: 0.91290803750356

01:25:43.830 --> 01:25:45.300 I also put information in

NOTE Confidence: 0.91290803750356

01:25:45.300 --> 01:25:46.476 the chat about upcoming.
NOTE Confidence: 0.91290803750356

01:25:46.480 --> 01:25:49.800 Virtual training that will be held in July,
NOTE Confidence: 0.91290803750356

01:25:49.800 --> 01:25:52.896 so all of you if anyone is interested in
NOTE Confidence: 0.91290803750356

01:25:52.896 --> 01:25:56.028 having someone attend this virtual training,
NOTE Confidence: 0.91290803750356

01:25:56.030 --> 01:25:59.783 please feel free to reach out to me directly.
NOTE Confidence: 0.91290803750356

01:25:59.790 --> 01:26:01.974 Again, given my email address and let me
NOTE Confidence: 0.91290803750356

01:26:01.974 --> 01:26:04.479 know one who can still exists on your team.
NOTE Confidence: 0.91290803750356

01:26:04.480 --> 01:26:05.860 If you have a CSI.
NOTE Confidence: 0.91290803750356

01:26:05.860 --> 01:26:08.148 Supervisors came for me to know and how
NOTE Confidence: 0.91290803750356

01:26:08.148 --> 01:26:10.421 many people would like to train the timing
NOTE Confidence: 0.91290803750356

01:26:10.421 --> 01:26:12.757 of the training in terms of time of day,
NOTE Confidence: 0.91290803750356

01:26:12.760 --> 01:26:14.974 where it's still a little bit on the table
NOTE Confidence: 0.91290803750356

01:26:14.974 --> 01:26:16.732 because we're trying to incorporate take
NOTE Confidence: 0.91290803750356

01:26:16.732 --> 01:26:18.830 into account as many times as possible.
NOTE Confidence: 0.91290803750356

01:26:18.830 --> 01:26:20.906 I'm very much thinking particularly about
NOTE Confidence: 0.91290803750356

01:26:20.906 --> 01:26:23.093 of our Australian and Swedish of college

NOTE Confidence: 0.91290803750356
01:26:23.093 --> 01:26:25.723 to run the call as well as our East Coast
NOTE Confidence: 0.91290803750356
01:26:25.723 --> 01:26:27.683 and West Coast folks from the state.
NOTE Confidence: 0.91290803750356
01:26:27.690 --> 01:26:29.769 So I think this is a time
NOTE Confidence: 0.91290803750356
01:26:29.769 --> 01:26:31.849 we're going to be wrapping up.
NOTE Confidence: 0.91290803750356
01:26:31.850 --> 01:26:34.730 We really want to thank you all for coming.
NOTE Confidence: 0.91290803750356
01:26:34.730 --> 01:26:36.310 It's been a wonderful opportunity
NOTE Confidence: 0.91290803750356
01:26:36.310 --> 01:26:38.274 to bring our safety side community
NOTE Confidence: 0.91290803750356
01:26:38.274 --> 01:26:40.236 together for the first time at
NOTE Confidence: 0.91290803750356
01:26:40.236 --> 01:26:42.088 this very important moment in time.
NOTE Confidence: 0.91290803750356
01:26:42.090 --> 01:26:44.970 and I know on behalf of myself, my Co.
NOTE Confidence: 0.91290803750356
01:26:44.970 --> 01:26:45.930 Developer Steven Marans,
NOTE Confidence: 0.91290803750356
01:26:45.930 --> 01:26:47.530 the rest of our team.
NOTE Confidence: 0.91290803750356
01:26:47.530 --> 01:26:49.408 We really thank you for coming
NOTE Confidence: 0.91290803750356
01:26:49.408 --> 01:26:51.044 and really appreciate your joining
NOTE Confidence: 0.91290803750356
01:26:51.044 --> 01:26:52.649 in towards in the dialogue.
NOTE Confidence: 0.815450966358185

01:26:54.740 --> 01:26:55.800 See when you're on mute.

NOTE Confidence: 0.935909569263458

01:26:59.370 --> 01:27:01.010 Thank you all so much.

NOTE Confidence: 0.935909569263458

01:27:01.010 --> 01:27:03.152 Um, what a great opportunity to be

NOTE Confidence: 0.935909569263458

01:27:03.152 --> 01:27:05.328 together and if nothing else, uh,

NOTE Confidence: 0.935909569263458

01:27:05.328 --> 01:27:08.114 it's been a great opportunity to realize

NOTE Confidence: 0.935909569263458

01:27:08.114 --> 01:27:11.056 that we need to do more of this so.

NOTE Confidence: 0.935909569263458

01:27:11.060 --> 01:27:13.110 Tattoo moving forward will will

NOTE Confidence: 0.935909569263458

01:27:13.110 --> 01:27:16.298 figure out the next time we can meet

NOTE Confidence: 0.935909569263458

01:27:16.298 --> 01:27:18.762 In addition to the training in July.
