NOTE language:en-us

NOTE Confidence: 0.852224

00:00:00.000 --> 00:00:02.758 In terms of privacy, you know there

NOTE Confidence: 0.852224

 $00:00:02.758 \longrightarrow 00:00:06.516$ is a broad law that was passed in

NOTE Confidence: 0.852224

00:00:06.516 --> 00:00:09.001 2008 called the genetic Information

NOTE Confidence: 0.852224

 $00:00:09.092 \longrightarrow 00:00:11.918$ Nondiscrimination Act or Gina for short

NOTE Confidence: 0.852224

 $00{:}00{:}11.918 \dashrightarrow 00{:}00{:}16.090$ and so that was really passed. Not

NOTE Confidence: 0.8735221

 $00:00:16.090 \longrightarrow 00:00:19.834$ as much that we had a lot of evidence

NOTE Confidence: 0.8735221

 $00{:}00{:}19.840 --> 00{:}00{:}21.928$ of concerns, but just to give

NOTE Confidence: 0.8735221

00:00:21.928 --> 00:00:24.754 people that kind of extra layer of

NOTE Confidence: 0.8735221

 $00{:}00{:}24.754 \dashrightarrow 00{:}00{:}27.024$ reassurance that it provides protections

NOTE Confidence: 0.8735221

 $00:00:27.024 \longrightarrow 00:00:29.428$ in terms of health insurance,

NOTE Confidence: 0.8735221

 $00:00:29.430 \longrightarrow 00:00:32.174$ an employment that you know from genetic

NOTE Confidence: 0.8735221

 $00:00:32.174 \longrightarrow 00:00:34.278$ discrimination so from insurers or

NOTE Confidence: 0.8735221

 $00:00:34.278 \longrightarrow 00:00:36.428$ employers using genetic information to

NOTE Confidence: 0.8735221

 $00{:}00{:}36.428 \dashrightarrow 00{:}00{:}39.026$ make decisions and to discriminate against

NOTE Confidence: 0.8735221

00:00:39.026 --> 00:00:41.516 people in terms of health insurance,

NOTE Confidence: 0.8735221

 $00:00:41.520 \longrightarrow 00:00:43.872$ it provides protections that say health

NOTE Confidence: 0.8735221

 $00:00:43.872 \longrightarrow 00:00:46.858$ insurers can't use or ask that information

NOTE Confidence: 0.8735221

 $00:00:46.858 \longrightarrow 00:00:49.108$ to determine coverage to determine.

NOTE Confidence: 0.8735221

 $00{:}00{:}49.110 \dashrightarrow 00{:}00{:}51.215$ 'cause those kinds of things

NOTE Confidence: 0.8735221

 $00:00:51.215 \longrightarrow 00:00:52.899$ in terms of employment.

NOTE Confidence: 0.8735221

00:00:52.900 --> 00:00:55.210 Again, it's the employers can't ask

NOTE Confidence: 0.8735221

00:00:55.210 --> 00:00:57.281 for user require that information

NOTE Confidence: 0.8735221

00:00:57.281 --> 00:01:00.059 to make hiring and firing decisions,

NOTE Confidence: 0.8735221

 $00:01:00.060 \longrightarrow 00:01:02.160$ payment promotions, things like that.

NOTE Confidence: 0.8735221

 $00:01:02.160 \longrightarrow 00:01:03.844$ There are certainly some

NOTE Confidence: 0.8735221

 $00:01:03.844 \longrightarrow 00:01:05.528$ gaps in that coverage,

NOTE Confidence: 0.8735221

 $00{:}01{:}05.530 \dashrightarrow 00{:}01{:}07.635$ so the important ones being

NOTE Confidence: 0.8735221

 $00{:}01{:}07.635 \dashrightarrow 00{:}01{:}09.319$ that for health insurance,

NOTE Confidence: 0.8735221

 $00:01:09.320 \longrightarrow 00:01:11.816$ it doesn't necessarily cover patients that

NOTE Confidence: 0.8735221

 $00:01:11.816 \longrightarrow 00:01:14.388$ are involved in certain federal health

NOTE Confidence: 0.8735221

 $00:01:14.388 \longrightarrow 00:01:16.896$ systems like the military or veterans.

NOTE Confidence: 0.8735221

 $00{:}01{:}16.900 \dashrightarrow 00{:}01{:}19.490$ There are other policies and things in

NOTE Confidence: 0.8735221

00:01:19.490 --> 00:01:21.950 place that provides similar protections,

NOTE Confidence: 0.8735221

 $00:01:21.950 \longrightarrow 00:01:24.120$ but it's not covered under.

NOTE Confidence: 0.8735221

 $00:01:24.120 \longrightarrow 00:01:26.064$ Gina for other insurers,

NOTE Confidence: 0.8735221

00:01:26.064 --> 00:01:28.494 so life insurance disability long

NOTE Confidence: 0.8735221

 $00:01:28.494 \longrightarrow 00:01:31.200$ term care those are not covered

NOTE Confidence: 0.8735221

 $00:01:31.200 \longrightarrow 00:01:32.912$ by Gina for employment.

NOTE Confidence: 0.8735221

 $00{:}01{:}32.920 \dashrightarrow 00{:}01{:}35.235$ Small employers less than 15

NOTE Confidence: 0.8735221

 $00{:}01{:}35.235 \dashrightarrow 00{:}01{:}37.550$ people aren't covered by Gina,

NOTE Confidence: 0.8735221

 $00:01:37.550 \longrightarrow 00:01:40.328$ so there are certainly some gaps,

NOTE Confidence: 0.8735221

 $00:01:40.330 \longrightarrow 00:01:42.875$ but it does provide some

NOTE Confidence: 0.8735221

 $00{:}01{:}42.875 --> 00{:}01{:}44.911$ good protection as well.
