## WEBVTT

NOTE duration: "00:55:50.5710000"

NOTE language:en-us

NOTE Confidence: 0.8785817

 $00:00:00.000 \longrightarrow 00:00:01.805$  And we want your feedback

NOTE Confidence: 0.8785817

 $00:00:01.805 \longrightarrow 00:00:03.610$  about how this format works.

NOTE Confidence: 0.8785817

 $00:00:03.610 \longrightarrow 00:00:04.794$  This is, we think,

NOTE Confidence: 0.8785817

 $00:00:04.794 \longrightarrow 00:00:06.953$  a chance to embrace the future and

NOTE Confidence: 0.8785817

 $00:00:06.953 \longrightarrow 00:00:09.158$  embrace a new way of reaching people

NOTE Confidence: 0.8785817

 $00:00:09.158 \longrightarrow 00:00:11.204$  and telling them about the child

NOTE Confidence: 0.8785817

 $00{:}00{:}11.204 \dashrightarrow 00{:}00{:}13.238$  study center and getting your input

NOTE Confidence: 0.8785817

 $00:00:13.240 \longrightarrow 00:00:16.467$  about the Child study Center as well.

NOTE Confidence: 0.8785817

 $00{:}00{:}16.470 \dashrightarrow 00{:}00{:}19.956$  So today's session is about trauma and

NOTE Confidence: 0.8785817

 $00:00:19.956 \longrightarrow 00:00:22.680$  working with children under adversity

NOTE Confidence: 0.8785817

 $00{:}00{:}22.680 \rightarrow 00{:}00{:}25.530$  and who have experienced trauma.

NOTE Confidence: 0.8785817

00:00:25.530 --> 00:00:28.466 And we have two members of our faculty,

NOTE Confidence: 0.8785817

00:00:28.470 --> 00:00:30.322 Steven Marans and Ellie

NOTE Confidence: 0.8785817

 $00{:}00{:}30.322 \dashrightarrow 00{:}00{:}32.637$  Liebowitz to kick us all.

 $00{:}00{:}32.640 \dashrightarrow 00{:}00{:}34.719$  The other point that I just want

NOTE Confidence: 0.8785817

00:00:34.719 --> 00:00:37.040 to make is that perhaps there is

NOTE Confidence: 0.8785817

 $00{:}00{:}37.040 \dashrightarrow 00{:}00{:}39.592$  never been a time even more than

NOTE Confidence: 0.8785817

00:00:39.592 --> 00:00:41.388 now where children's behavioral

NOTE Confidence: 0.8785817

00:00:41.388 --> 00:00:43.633 health services are in need.

NOTE Confidence: 0.8785817

 $00:00:43.640 \longrightarrow 00:00:46.223$  You may have been aware of the

NOTE Confidence: 0.8785817

 $00:00:46.223 \longrightarrow 00:00:48.316$  recent report just from the

NOTE Confidence: 0.8785817

 $00:00:48.316 \longrightarrow 00:00:50.576$  Center for Disease Control shows.

NOTE Confidence: 0.8785817

 $00{:}00{:}50.580 \dashrightarrow 00{:}00{:}53.094$  The dramatic increase in need for

NOTE Confidence: 0.8785817

 $00{:}00{:}53.094 \dashrightarrow 00{:}00{:}54.770$  behavioral health services from

NOTE Confidence: 0.8785817

 $00{:}00{:}54.841 \dashrightarrow 00{:}00{:}57.097$  children from birth through age 18.

NOTE Confidence: 0.8785817

00:00:57.100 --> 00:00:59.860 We are in the sense we're in a

NOTE Confidence: 0.8785817

 $00{:}00{:}59.860 \dashrightarrow 00{:}01{:}02.041$  parallel surge of parallel pandemic

NOTE Confidence: 0.8785817

 $00:01:02.041 \longrightarrow 00:01:04.855$  of the need for behavioral health,

NOTE Confidence: 0.8785817

 $00:01:04.860 \longrightarrow 00:01:07.075$  and nothing perhaps contributes more

 $00:01:07.075 \longrightarrow 00:01:09.749$  than the stress and uncertainty of the

NOTE Confidence: 0.8541446

 $00{:}01{:}09.750 \longrightarrow 00{:}01{:}11.790$  current circumstances that all of

NOTE Confidence: 0.8541446

 $00:01:11.790 \longrightarrow 00:01:13.353$  our communities and

NOTE Confidence: 0.8541446

 $00:01:13.353 \longrightarrow 00:01:15.437$  families find themselves in.

NOTE Confidence: 0.8541446

 $00:01:15.440 \longrightarrow 00:01:18.422$  So it is fitting that we start

NOTE Confidence: 0.8541446

 $00:01:18.422 \longrightarrow 00:01:20.290$  with this particular topic.

NOTE Confidence: 0.8541446

00:01:20.290 --> 00:01:22.186 I mean, I want to turn it over

NOTE Confidence: 0.8541446

 $00{:}01{:}22.186 \dashrightarrow 00{:}01{:}24.324$  now to Doctor Steven Marans who

NOTE Confidence: 0.8541446

 $00{:}01{:}24.324 \dashrightarrow 00{:}01{:}26.314$  is some Professor Harris professor

NOTE Confidence: 0.8541446

 $00:01:26.314 \longrightarrow 00:01:28.258$  in the trial study Center.

NOTE Confidence: 0.8541446

 $00{:}01{:}28.260 \dashrightarrow 00{:}01{:}30.252$  The leader of our child development

NOTE Confidence: 0.8541446

00:01:30.252 --> 00:01:31.580 and Community Policing Program,

NOTE Confidence: 0.8541446

 $00:01:31.580 \longrightarrow 00:01:33.452$  and provides a tremendous amount of

NOTE Confidence: 0.8541446

00:01:33.452 --> 00:01:35.108 services to children and families

NOTE Confidence: 0.8541446

 $00:01:35.108 \longrightarrow 00:01:36.843$  who have experienced both acute

NOTE Confidence: 0.8541446

 $00:01:36.843 \longrightarrow 00:01:37.884$  and chronic trauma.

00:01:37.890 --> 00:01:40.346 So may I turn it to Steven to

NOTE Confidence: 0.8541446

 $00{:}01{:}40.346 \dashrightarrow 00{:}01{:}43.083$  you and to kick us off in this

NOTE Confidence: 0.8541446

 $00:01:43.083 \longrightarrow 00:01:44.860$  new format on this day?

NOTE Confidence: 0.8541446

 $00:01:44.860 \longrightarrow 00:01:45.520$  Thank you.

NOTE Confidence: 0.8470612

 $00{:}01{:}47.970 \dashrightarrow 00{:}01{:}51.458$  Great, so now I'm hoping that I can

NOTE Confidence: 0.8470612

 $00:01:51.458 \dashrightarrow 00:01:54.792$  get back to slides. Duncan you can I.

NOTE Confidence: 0.8470612

 $00:01:54.792 \longrightarrow 00:01:57.270$  Point me in the right direction here.

NOTE Confidence: 0.8531078

 $00{:}01{:}57.270 \longrightarrow 00{:}01{:}59.090$  Yeah, if you got your slides up,

NOTE Confidence: 0.8531078

 $00:01:59.090 \longrightarrow 00:02:00.390$  go to the share screen

NOTE Confidence: 0.8531078

 $00:02:00.390 \longrightarrow 00:02:01.430$  button in the bottom

NOTE Confidence: 0.8531078

 $00:02:01.430 \longrightarrow 00:02:04.670$  of those in window there.

NOTE Confidence: 0.8531078

 $00:02:04.670 \longrightarrow 00:02:08.780$  Got it. OK, there you go.

NOTE Confidence: 0.8531078

 $00:02:08.780 \longrightarrow 00:02:11.601$  So thank you Linda and thank you

NOTE Confidence: 0.8531078

00:02:11.601 --> 00:02:14.220 all for being together today.

NOTE Confidence: 0.8531078

 $00:02:14.220 \longrightarrow 00:02:16.788$  I want to begin by first

00:02:16.788 --> 00:02:19.220 thanking the Harris family,

NOTE Confidence: 0.8531078

 $00:02:19.220 \longrightarrow 00:02:21.776$  who in doubt my chair that

NOTE Confidence: 0.8531078

 $00:02:21.776 \longrightarrow 00:02:24.210$  actually allows the trauma section.

NOTE Confidence: 0.8531078

00:02:24.210 --> 00:02:26.480 The childhood Violent Trauma Center,

NOTE Confidence: 0.8531078

 $00:02:26.480 \longrightarrow 00:02:29.770$  which I'm the director of to continue

NOTE Confidence: 0.8531078

 $00:02:29.770 \longrightarrow 00:02:33.286$  to work and thrive as well as to.

NOTE Confidence: 0.8531078

 $00{:}02{:}33.290 \dashrightarrow 00{:}02{:}36.020$  Well, thanks and gratitude to Thomas.

NOTE Confidence: 0.84722275

00:02:36.990 --> 00:02:39.109 I could ask to one moment, Steven,

NOTE Confidence: 0.84722275

 $00{:}02{:}39.109 \dashrightarrow 00{:}02{:}41.661$  if I could ask everyone else to mute

NOTE Confidence: 0.84722275

00:02:41.661 --> 00:02:43.960 while Steven and others are talking.

NOTE Confidence: 0.84722275

 $00{:}02{:}43.960 \dashrightarrow 00{:}02{:}45.815$  And Duncan, can you help us with

NOTE Confidence: 0.84722275

00:02:45.815 --> 00:02:47.148 the muting? Sorry Steven. Maybe

NOTE Confidence: 0.7450379

 $00:02:47.150 \longrightarrow 00:02:47.948$  you could go.

NOTE Confidence: 0.8547119

 $00:02:51.200 \longrightarrow 00:02:53.580$  OK, so just get Tom.

NOTE Confidence: 0.8547119

 $00:02:53.580 \longrightarrow 00:02:56.430$  You get to have a another

NOTE Confidence: 0.8547119

00:02:56.430 --> 00:02:57.855 thank you opportunity.

 $00:02:57.860 \longrightarrow 00:03:00.891$  I bet the support of the the

NOTE Confidence: 0.8547119

 $00:03:00.891 \longrightarrow 00:03:03.100$  associates is enormously important,

NOTE Confidence: 0.8547119

 $00:03:03.100 \longrightarrow 00:03:04.872$  especially in these times,

NOTE Confidence: 0.8547119

00:03:04.872 --> 00:03:06.644 with funding cuts continuing

NOTE Confidence: 0.8547119

 $00:03:06.644 \longrightarrow 00:03:08.340$  and demand increasing.

NOTE Confidence: 0.8547119

 $00:03:08.340 \longrightarrow 00:03:13.724$  So I want to begin by thinking about.

NOTE Confidence: 0.8547119

 $00:03:13.730 \longrightarrow 00:03:16.570$  Oh my goodness. Sorry.

NOTE Confidence: 0.7526589

 $00:03:22.080 \longrightarrow 00:03:24.974$  I am trying to back OK.

NOTE Confidence: 0.7526589

00:03:24.974 --> 00:03:28.446 Yeah, I want to begin by thinking about

NOTE Confidence: 0.7526589

00:03:28.446 --> 00:03:31.866 some of the common sources of threat,

NOTE Confidence: 0.7526589

 $00:03:31.870 \longrightarrow 00:03:33.845$  danger, and distress that all

NOTE Confidence: 0.7526589

 $00{:}03{:}33.845 \dashrightarrow 00{:}03{:}36.278$  of the shares human beings and

NOTE Confidence: 0.7526589

00:03:36.278 --> 00:03:38.564 unfortunately all of us are feeling

NOTE Confidence: 0.7526589

 $00:03:38.564 \longrightarrow 00:03:40.559$  to some extent or another.

NOTE Confidence: 0.7526589

 $00:03:40.560 \longrightarrow 00:03:42.530$  Do the covid covid pandemic.

00:03:42.530 --> 00:03:44.900 None of these will surprise you,

NOTE Confidence: 0.7526589

 $00:03:44.900 \longrightarrow 00:03:47.174$  but they are all dangers that

NOTE Confidence: 0.7526589

 $00:03:47.174 \longrightarrow 00:03:49.250$  as human beings we share.

NOTE Confidence: 0.8963839

 $00:03:52.110 \longrightarrow 00:03:54.749$  We think about these dangers as being

NOTE Confidence: 0.8963839

 $00:03:54.749 \longrightarrow 00:03:56.954$  the context for considering what

NOTE Confidence: 0.8963839

 $00:03:56.954 \longrightarrow 00:03:59.444$  we mean by psychological trauma.

NOTE Confidence: 0.8963839

 $00{:}03{:}59.450 \dashrightarrow 00{:}04{:}01.234$  We consider psychological traumas

NOTE Confidence: 0.8963839

 $00:04:01.234 \longrightarrow 00:04:03.910$  and injury that occurs when there's

NOTE Confidence: 0.8963839

 $00{:}04{:}03.977 \dashrightarrow 00{:}04{:}05.333$  an overwhelming unanticipated

NOTE Confidence: 0.8963839

 $00:04:05.333 \longrightarrow 00:04:08.045$  danger involving some of the things

NOTE Confidence: 0.8963839

 $00{:}04{:}08.045 \dashrightarrow 00{:}04{:}10.249$  with which we are all familiar.

NOTE Confidence: 0.8963839

 $00:04:10.250 \longrightarrow 00:04:12.842$  That leads to a subjective experience

NOTE Confidence: 0.8963839

 $00:04:12.842 \longrightarrow 00:04:14.940$  of helplessness, loss of control,

NOTE Confidence: 0.8963839

 $00:04:14.940 \longrightarrow 00:04:17.400$  and the experience of what we

NOTE Confidence: 0.8963839

 $00:04:17.400 \longrightarrow 00:04:19.500$  call feeling overwhelmed.

NOTE Confidence: 0.8963839

 $00:04:19.500 \longrightarrow 00:04:22.510$  This is a situation in which there

00:04:22.510 --> 00:04:25.459 is an immobilization of our usual

NOTE Confidence: 0.8963839

 $00{:}04{:}25.459 \dashrightarrow 00{:}04{:}27.555$  normally available capacities to

NOTE Confidence: 0.8963839

 $00:04:27.555 \longrightarrow 00:04:30.535$  defend against danger and to decrease

NOTE Confidence: 0.8963839

 $00:04:30.535 \longrightarrow 00:04:32.735$  feelings of fear and anxiety,

NOTE Confidence: 0.8963839

 $00:04:32.740 \longrightarrow 00:04:34.258$  and in fact,

NOTE Confidence: 0.8963839

 $00:04:34.258 \longrightarrow 00:04:36.282$  there's a neurophysiologic dysregulation

NOTE Confidence: 0.8963839

00:04:36.282 --> 00:04:38.244 that significantly disrupts our

NOTE Confidence: 0.8963839

00:04:38.244 --> 00:04:40.008 affect of cognitive, somatic,

NOTE Confidence: 0.8963839

 $00:04:40.008 \longrightarrow 00:04:43.198$  and behavioral responses to stimuli.

NOTE Confidence: 0.8963839

 $00{:}04{:}43.200 \dashrightarrow 00{:}04{:}45.918$  We've learned a lot about the

NOTE Confidence: 0.8963839

00:04:45.918 --> 00:04:48.151 phenomenon of trauma through 30

NOTE Confidence: 0.8963839

 $00{:}04{:}48.151 \dashrightarrow 00{:}04{:}50.895$  odd years of our work as a trauma

NOTE Confidence: 0.8963839

 $00{:}04{:}50.895 \dashrightarrow 00{:}04{:}53.663$  section in addressing the needs of

NOTE Confidence: 0.8963839

00:04:53.663 --> 00:04:56.003 children and families who've been

NOTE Confidence: 0.8963839

 $00:04:56.010 \longrightarrow 00:04:58.506$  exposed to a host of potentially

00:04:58.506 --> 00:05:00.710 traumatic events ranging from murder,

NOTE Confidence: 0.8963839

 $00{:}05{:}00.710 \dashrightarrow 00{:}05{:}02.840$  sexual abuse to accidental injuries,

NOTE Confidence: 0.8963839

 $00:05:02.840 \longrightarrow 00:05:05.780$  an mass casualty events.

NOTE Confidence: 0.8963839

00:05:05.780 --> 00:05:07.900 And we've had, we know,

NOTE Confidence: 0.8963839

00:05:07.900 --> 00:05:10.010 not only from our work,

NOTE Confidence: 0.8963839

 $00:05:10.010 \longrightarrow 00:05:12.548$  but from research around the world,

NOTE Confidence: 0.8963839

 $00:05:12.550 \longrightarrow 00:05:14.865$  that the longer term consequences

NOTE Confidence: 0.8963839

 $00:05:14.865 \longrightarrow 00:05:16.717$  are incredibly significant when

NOTE Confidence: 0.8963839

 $00:05:16.717 \longrightarrow 00:05:19.753$  there's a failure of recovery from the

NOTE Confidence: 0.8963839

 $00:05:19.753 \longrightarrow 00:05:21.425$  traumatic dysregulation that occurs

NOTE Confidence: 0.8963839

 $00:05:21.496 \longrightarrow 00:05:23.740$  when children are exposed to the

NOTE Confidence: 0.8963839

00:05:23.740 --> 00:05:26.509 kind of circumstances that I was outlining.

NOTE Confidence: 0.8963839

00:05:26.509 --> 00:05:27.778 And in fact,

NOTE Confidence: 0.8963839

 $00:05:27.780 \longrightarrow 00:05:30.924$  we know that two of the most significant

NOTE Confidence: 0.8963839

00:05:30.924 --> 00:05:33.667 predictors of poor outcome is the

NOTE Confidence: 0.8963839

 $00{:}05{:}33.667 \dashrightarrow 00{:}05{:}36.012$  failure to identify affected children.

 $00:05:36.020 \longrightarrow 00:05:39.380$  Or for them to receive the adequate

NOTE Confidence: 0.8963839

 $00{:}05{:}39.380 \dashrightarrow 00{:}05{:}42.539$  social supports that aid their recovery.

NOTE Confidence: 0.8963839

 $00:05:42.540 \longrightarrow 00:05:45.529$  We know that the long term sequelae

NOTE Confidence: 0.8963839

 $00:05:45.529 \longrightarrow 00:05:48.660$  I do not just include PTSD,

NOTE Confidence: 0.8963839

 $00:05:48.660 \longrightarrow 00:05:51.957$  but also higher risk for substance abuse,

NOTE Confidence: 0.8963839

 $00:05:51.960 \longrightarrow 00:05:52.902$  school failures,

NOTE Confidence: 0.8963839

 $00:05:52.902 \longrightarrow 00:05:53.844$  anxiety disorders,

NOTE Confidence: 0.8963839

 $00:05:53.844 \longrightarrow 00:05:54.786 \mod disorders$ ,

NOTE Confidence: 0.8963839

 $00:05:54.790 \longrightarrow 00:05:57.364$  and increased risk of victimization as

NOTE Confidence: 0.8963839

 $00:05:57.364 \longrightarrow 00:06:00.076$  well as increased risk of perpetrating

NOTE Confidence: 0.8963839

 $00:06:00.076 \longrightarrow 00:06:02.366$  the very violent circumstances to

NOTE Confidence: 0.8963839

 $00:06:02.366 \longrightarrow 00:06:05.149$  which they were originally exposed.

NOTE Confidence: 0.8963839

 $00{:}06{:}05.150 --> 00{:}06{:}07.904$  We also know that there's a

NOTE Confidence: 0.8963839

 $00{:}06{:}07.904 --> 00{:}06{:}10.330$  way of changing the math.

NOTE Confidence: 0.8963839

 $00:06:10.330 \longrightarrow 00:06:12.774$  We know that unrecognized.

00:06:12.774 --> 00:06:15.829 Trump trauma plus being untreated

NOTE Confidence: 0.8963839

 $00:06:15.829 \longrightarrow 00:06:17.290$  plus failure.

NOTE Confidence: 0.8963839

 $00:06:17.290 \longrightarrow 00:06:21.690$  Recovery leads to poor outcomes.

NOTE Confidence: 0.8963839

00:06:21.690 --> 00:06:24.687 We can change that math when we apply what

NOTE Confidence: 0.8963839

 $00:06:24.687 \longrightarrow 00:06:27.610$  we know to increasing identification,

NOTE Confidence: 0.8963839

00:06:27.610 --> 00:06:28.876 increasing early intervention,

NOTE Confidence: 0.8963839

 $00:06:28.876 \longrightarrow 00:06:30.564$  and support for recovery.

NOTE Confidence: 0.88742894

 $00:06:33.590 \longrightarrow 00:06:36.286$  So I want to just briefly review

NOTE Confidence: 0.88742894

 $00:06:36.286 \longrightarrow 00:06:38.950$  some of the areas of work of the

NOTE Confidence: 0.88742894

 $00:06:39.028 \longrightarrow 00:06:41.300$  childhood violent trauma center.

NOTE Confidence: 0.88742894

 $00:06:41.300 \longrightarrow 00:06:43.330$  This includes, as Linda mentioned,

NOTE Confidence: 0.88742894

 $00:06:43.330 \longrightarrow 00:06:44.548$  or child development

NOTE Confidence: 0.88742894

00:06:44.548 --> 00:06:45.766 Community Policing Program,

NOTE Confidence: 0.88742894

 $00:06:45.770 \longrightarrow 00:06:47.382$  a longstanding partnership with

NOTE Confidence: 0.88742894

 $00:06:47.382 \longrightarrow 00:06:49.800$  police in order to better immediately

NOTE Confidence: 0.88742894

 $00{:}06{:}49.859 \dashrightarrow 00{:}06{:}51.869$  respond to children and families

00:06:51.869 --> 00:06:53.477 impacted by traumatic events,

NOTE Confidence: 0.88742894

 $00{:}06{:}53.480 {\:{\circ}{\circ}{\circ}}>00{:}06{:}56.504$  and that has led to the development of

NOTE Confidence: 0.88742894

 $00:06:56.504 \longrightarrow 00:06:59.615$  a national model that has been broadly

NOTE Confidence: 0.88742894

 $00:06:59.615 \longrightarrow 00:07:02.819$  disseminated here in the States and abroad.

NOTE Confidence: 0.88742894

 $00:07:02.820 \longrightarrow 00:07:06.528$  It's also led to the development of an early.

NOTE Confidence: 0.88742894

 $00:07:06.530 \longrightarrow 00:07:09.002$  The only early evidence based trauma

NOTE Confidence: 0.88742894

 $00:07:09.002 \longrightarrow 00:07:10.650$  focused treatment for children.

NOTE Confidence: 0.88742894

 $00:07:10.650 \longrightarrow 00:07:12.286$  The child and family,

NOTE Confidence: 0.88742894

 $00:07:12.286 \longrightarrow 00:07:14.331$  traumatic stress intervention it has

NOTE Confidence: 0.88742894

 $00{:}07{:}14.331 \dashrightarrow 00{:}07{:}16.662$  led to an increased collaboration

NOTE Confidence: 0.88742894

00:07:16.662 --> 00:07:18.972 with Neil New Haven Hospital's

NOTE Confidence: 0.88742894

 $00:07:18.972 \longrightarrow 00:07:20.907$  pediatric emergency room and sexual

NOTE Confidence: 0.88742894

 $00{:}07{:}20.907 \dashrightarrow 00{:}07{:}23.393$  abuse clinic and has led to the

NOTE Confidence: 0.88742894

 $00:07:23.393 \longrightarrow 00:07:26.074$  development of what is now a nationally

NOTE Confidence: 0.88742894

 $00:07:26.074 \longrightarrow 00:07:27.680$  disseminated trauma informed policing

 $00:07:27.680 \longrightarrow 00:07:30.014$  tool kit and training and continues

NOTE Confidence: 0.88742894

 $00{:}07{:}30.014 \dashrightarrow 00{:}07{:}32.070$  to involve training psychology,

NOTE Confidence: 0.88742894

 $00:07:32.070 \longrightarrow 00:07:34.130$  child psychiatry and social work.

NOTE Confidence: 0.88742894

 $00:07:34.130 \longrightarrow 00:07:36.410$  Fellows and trauma focused treatments.

NOTE Confidence: 0.88742894

 $00:07:36.410 \longrightarrow 00:07:39.380$  As well as psychodynamic psychotherapy.

NOTE Confidence: 0.88742894

00:07:39.380 --> 00:07:41.288 And through our work,

NOTE Confidence: 0.88742894

 $00:07:41.288 \longrightarrow 00:07:44.150$  the center provides trauma focused cognitive,

NOTE Confidence: 0.88742894

 $00:07:44.150 \longrightarrow 00:07:45.182$  behavioral therapy,

NOTE Confidence: 0.88742894

 $00:07:45.182 \longrightarrow 00:07:48.278$  and psychodynamic therapy to help children

NOTE Confidence: 0.88742894

 $00:07:48.278 \longrightarrow 00:07:51.937$  who need work beyond our early intervention.

NOTE Confidence: 0.88742894

 $00{:}07{:}51.940 \dashrightarrow 00{:}07{:}54.712$  We've also been involved in responses

NOTE Confidence: 0.88742894

00:07:54.712 --> 00:07:57.894 to mass casualty events and have worked

NOTE Confidence: 0.88742894

 $00:07:57.894 \longrightarrow 00:08:00.813$  closely with policy makers to take what

NOTE Confidence: 0.88742894

 $00:08:00.891 \longrightarrow 00:08:03.849$  we've learned to translate into policy.

NOTE Confidence: 0.88742894

 $00:08:03.850 \longrightarrow 00:08:06.330$  That includes increase the resources

NOTE Confidence: 0.88742894

 $00:08:06.330 \longrightarrow 00:08:09.377$  for children and families who are

 $00:08:09.377 \longrightarrow 00:08:11.329$  affected by potentially traumatic

NOTE Confidence: 0.88742894

 $00{:}08{:}11.329 \dashrightarrow 00{:}08{:}14.530$  experiences to aid in their recovery.

NOTE Confidence: 0.88742894

00:08:14.530 --> 00:08:16.138 So very briefly,

NOTE Confidence: 0.88742894

00:08:16.138 --> 00:08:18.282 the child development Community

NOTE Confidence: 0.88742894

 $00:08:18.282 \longrightarrow 00:08:20.570$  Policing program began in 1991.

NOTE Confidence: 0.88742894

 $00:08:20.570 \longrightarrow 00:08:23.234$  And involves and aims to increase

NOTE Confidence: 0.88742894

 $00:08:23.234 \longrightarrow 00:08:25.595$  the provision of clinically relevant

NOTE Confidence: 0.88742894

 $00:08:25.595 \longrightarrow 00:08:28.140$  services to children and families

NOTE Confidence: 0.88742894

 $00:08:28.140 \longrightarrow 00:08:30.840$  and communities impacted by violent.

NOTE Confidence: 0.88742894

 $00:08:30.840 \longrightarrow 00:08:33.840$  Another catastrophic catastrophic events.

NOTE Confidence: 0.88742894

 $00:08:33.840 \longrightarrow 00:08:35.844$  And the elements involved.

NOTE Confidence: 0.88742894

00:08:35.844 --> 00:08:37.848 Training for police officers.

NOTE Confidence: 0.88742894

 $00{:}08{:}37.850 \dashrightarrow 00{:}08{:}39.458$  Training for clinicians.

NOTE Confidence: 0.88742894

 $00{:}08{:}39.458 \dashrightarrow 00{:}08{:}42.674$  A 24/7 acute response consultation service

NOTE Confidence: 0.88742894

 $00:08:42.674 \longrightarrow 00:08:45.811$  follow up home visits an referral for

 $00:08:45.811 \longrightarrow 00:08:48.370$  clinic based trauma focused treatments.

NOTE Confidence: 0.8904158

 $00{:}08{:}52.640 \dashrightarrow 00{:}08{:}54.936$  What you're seeing in front of you

NOTE Confidence: 0.8904158

 $00:08:54.936 \longrightarrow 00:08:58.546$  is a slide of what is now a national

NOTE Confidence: 0.8904158

 $00:08:58.546 \longrightarrow 00:09:00.870$  nationally available toolkit for law

NOTE Confidence: 0.8904158

 $00:09:00.870 \longrightarrow 00:09:03.090$  enforcement agencies that increase

NOTE Confidence: 0.8904158

 $00:09:03.090 \longrightarrow 00:09:05.865$  the opportunities for police officers

NOTE Confidence: 0.8904158

 $00{:}09{:}05.870 \dashrightarrow 00{:}09{:}08.474$  to serve an important function in

NOTE Confidence: 0.8904158

 $00:09:08.474 \longrightarrow 00:09:10.770$  initiating recovery by first recognizing

NOTE Confidence: 0.8904158

 $00:09:10.770 \longrightarrow 00:09:13.220$  and responding in a developmentally

NOTE Confidence: 0.8904158

 $00:09:13.220 \longrightarrow 00:09:15.635$  appropriate way to the children

NOTE Confidence: 0.8904158

 $00{:}09{:}15.635 \dashrightarrow 00{:}09{:}18.330$  and a dults who are impacted by the

NOTE Confidence: 0.8904158

 $00:09:18.330 \longrightarrow 00:09:20.420$  events that require police presence.

NOTE Confidence: 0.8699987

 $00:09:23.420 \longrightarrow 00:09:25.415$  The child and family traumatic

NOTE Confidence: 0.8699987

 $00:09:25.415 \longrightarrow 00:09:28.396$  Stress Intervention is a 5 to 8

NOTE Confidence: 0.8699987

 $00:09:28.396 \longrightarrow 00:09:30.216$  evidence based early intervention.

NOTE Confidence: 0.8699987

 $00:09:30.220 \longrightarrow 00:09:32.854$  That is for children who've been

 $00:09:32.854 \longrightarrow 00:09:34.610$  exposed to potentially traumatic

NOTE Confidence: 0.8699987

 $00:09:34.685 \longrightarrow 00:09:37.079$  event or after the recent disclosure

NOTE Confidence: 0.8699987

 $00:09:37.079 \longrightarrow 00:09:39.150$  of sexual and physical abuse.

NOTE Confidence: 0.8699987

 $00:09:39.150 \longrightarrow 00:09:40.905$  What's been impressive is that

NOTE Confidence: 0.8699987

 $00:09:40.905 \longrightarrow 00:09:43.284$  this is really taking a family

NOTE Confidence: 0.8699987

 $00:09:43.284 \longrightarrow 00:09:45.520$  strengthening approach to treatment.

NOTE Confidence: 0.8699987

 $00:09:45.520 \longrightarrow 00:09:46.370$  Increasing communication

NOTE Confidence: 0.8699987

 $00:09:46.370 \longrightarrow 00:09:48.070$  between child and caregivers.

NOTE Confidence: 0.8699987

 $00{:}09{:}48.070 \dashrightarrow 00{:}09{:}50.195$  An increasing support for children

NOTE Confidence: 0.8699987

 $00:09:50.195 \longrightarrow 00:09:51.895$  impacted by traumatic events.

NOTE Confidence: 0.8699987

 $00:09:51.900 \longrightarrow 00:09:54.888$  You'll see that we've developed adaptations.

NOTE Confidence: 0.8699987

 $00{:}09{:}54.890 \dashrightarrow 00{:}09{:}57.145$  But perhaps most significant is

NOTE Confidence: 0.8699987

 $00{:}09{:}57.145 \dashrightarrow 00{:}10{:}00.109$  what we've learned that CF TSI can.

NOTE Confidence: 0.8699987

 $00:10:00.110 \longrightarrow 00:10:02.422$  Decrease the likelihood of

NOTE Confidence: 0.8699987

 $00:10:02.422 \longrightarrow 00:10:05.312$  development of PTSD and related

 $00:10:05.312 \longrightarrow 00:10:07.982$  disorders by 65 to 73% and more

NOTE Confidence: 0.8699987

 $00:10:07.982 \longrightarrow 00:10:10.437$  recently we've learned that CF.

NOTE Confidence: 0.8699987

 $00:10:10.440 \longrightarrow 00:10:12.324$  TSI can also significantly

NOTE Confidence: 0.8699987

 $00:10:12.324 \longrightarrow 00:10:14.208$  decrease the post traumatic

NOTE Confidence: 0.8699987

 $00{:}10{:}14.208 \dashrightarrow 00{:}10{:}16.350$  reactions of a dults involved.

NOTE Confidence: 0.86762357

 $00:10:19.580 \longrightarrow 00:10:20.954$  Again, we are.

NOTE Confidence: 0.86762357

 $00:10:20.954 \longrightarrow 00:10:23.702$  This is now being broadly disseminated.

NOTE Confidence: 0.86762357

 $00:10:23.710 \longrightarrow 00:10:25.087$  We've now trained,

NOTE Confidence: 0.86762357

00:10:25.087 --> 00:10:27.382 close to 800 providers nationally

NOTE Confidence: 0.86762357

 $00:10:27.382 \longrightarrow 00:10:28.300$  and internationally,

NOTE Confidence: 0.86762357

 $00:10:28.300 \longrightarrow 00:10:31.060$  and we have developed a database,

NOTE Confidence: 0.86762357

 $00:10:31.060 \longrightarrow 00:10:33.526$  a research database of over 3000

NOTE Confidence: 0.86762357

 $00:10:33.526 \longrightarrow 00:10:35.784$  children that we're using to

NOTE Confidence: 0.86762357

 $00:10:35.784 \longrightarrow 00:10:37.940$  further evaluate the effectiveness,

NOTE Confidence: 0.86762357

 $00:10:37.940 \longrightarrow 00:10:41.534$  and the active mechanisms in the

NOTE Confidence: 0.86762357

 $00:10:41.534 \longrightarrow 00:10:44.450$  successful outcomes of CF TSI.

 $00:10:44.450 \longrightarrow 00:10:46.790$  Damaged with develop virtual adaptations

NOTE Confidence: 0.86762357

 $00:10:46.790 \longrightarrow 00:10:50.091$  of CF TSI treatment and training and

NOTE Confidence: 0.86762357

 $00:10:50.091 \longrightarrow 00:10:53.164$  have shared that with CFTO site grant

NOTE Confidence: 0.86762357

 $00:10:53.164 \longrightarrow 00:10:55.877$  providers around the country and abroad.

NOTE Confidence: 0.86762357

00:10:55.880 --> 00:10:57.704 In response to COVID-19,

NOTE Confidence: 0.86762357

 $00:10:57.704 \longrightarrow 00:11:00.942$  we have developed guidelines to help support

NOTE Confidence: 0.86762357

 $00:11:00.942 \longrightarrow 00:11:03.889$  the impact of the pandemic on adults.

NOTE Confidence: 0.86762357

 $00{:}11{:}03.890 \dashrightarrow 00{:}11{:}05.630$  Help, we've developed guidelines

NOTE Confidence: 0.86762357

 $00{:}11{:}05.630 \dashrightarrow 00{:}11{:}07.805$  to help parents and care givers

NOTE Confidence: 0.86762357

00:11:07.805 --> 00:11:09.229 support their children.

NOTE Confidence: 0.86762357

00:11:09.230 --> 00:11:10.120 Through COVID-19,

NOTE Confidence: 0.86762357

 $00:11:10.120 \longrightarrow 00:11:11.900$  these have been broadly

NOTE Confidence: 0.86762357

 $00{:}11{:}11.900 \dashrightarrow 00{:}11{:}13.680$  disseminated through news media.

NOTE Confidence: 0.86762357

00:11:13.680 --> 00:11:16.350 US Congress Hill, New Haven Hospital,

NOTE Confidence: 0.86762357

 $00:11:16.350 \longrightarrow 00:11:17.260$  and others.

 $00:11:17.260 \longrightarrow 00:11:21.250$  We've also developed along with my CF TSI Co.

NOTE Confidence: 0.86762357

 $00{:}11{:}21.250 \dashrightarrow 00{:}11{:}23.470$  Developer carry up steam carrying.

NOTE Confidence: 0.86762357

 $00{:}11{:}23.470 \dashrightarrow 00{:}11{:}26.200$  I developed the acute stress intervention.

NOTE Confidence: 0.86762357

00:11:26.200 --> 00:11:27.038 For adults,

NOTE Confidence: 0.86762357

 $00:11:27.038 \longrightarrow 00:11:29.971$  this is was developed in order to

NOTE Confidence: 0.86762357

00:11:29.971 --> 00:11:33.002 support hospital staff in New Haven

NOTE Confidence: 0.86762357

 $00:11:33.002 \longrightarrow 00:11:35.532$  who have been significantly impacted

NOTE Confidence: 0.86762357

 $00:11:35.614 \longrightarrow 00:11:38.458$  by the intense experience of treating

NOTE Confidence: 0.86762357

00:11:38.458 --> 00:11:40.874 the volume of COVID-19 patients,

NOTE Confidence: 0.86762357

 $00:11:40.874 \longrightarrow 00:11:44.472$  and we have trained over 100 mental

NOTE Confidence: 0.86762357

 $00{:}11{:}44.472 \dashrightarrow 00{:}11{:}46.418$  health professionals locally who

NOTE Confidence: 0.86762357

 $00:11:46.418 \longrightarrow 00:11:49.330$  are available to provide one on one.

NOTE Confidence: 0.86762357

 $00:11:49.330 \longrightarrow 00:11:51.602$  Consultations for hospital staff

NOTE Confidence: 0.86762357

 $00:11:51.602 \longrightarrow 00:11:54.442$  who are feeling the understandable

NOTE Confidence: 0.86762357

 $00:11:54.442 \longrightarrow 00:11:56.639$  reactions to the heavy load of.

NOTE Confidence: 0.86762357

 $00:11:56.640 \longrightarrow 00:11:57.978$  Their work.

 $00:11:57.978 \longrightarrow 00:12:01.323$  We've also conducted an acute

NOTE Confidence: 0.86762357

00:12:01.323 --> 00:12:04.020 stress intervention training for

NOTE Confidence: 0.86762357

 $00:12:04.020 \longrightarrow 00:12:06.965$  over 400 mental health providers.

NOTE Confidence: 0.86762357

00:12:06.970 --> 00:12:10.706 Um, both, both nationally and abroad as well.

NOTE Confidence: 0.8628262

 $00:12:14.100 \longrightarrow 00:12:16.908$  And again, what we know is that

NOTE Confidence: 0.8628262

 $00:12:16.908 \longrightarrow 00:12:18.838$  when reality converges with an

NOTE Confidence: 0.8628262

00:12:18.838 --> 00:12:21.119 evokes our most powerful fears,

NOTE Confidence: 0.8628262

 $00:12:21.120 \longrightarrow 00:12:23.376$  there's a disruption in the way

NOTE Confidence: 0.8628262

 $00:12:23.376 \longrightarrow 00:12:25.864$  that our brains work and our

NOTE Confidence: 0.8628262

 $00:12:25.864 \longrightarrow 00:12:28.134$  abilities to normally reduce stress,

NOTE Confidence: 0.8628262

00:12:28.140 --> 00:12:29.792 not just traumatic experience,

NOTE Confidence: 0.8628262

 $00:12:29.792 \longrightarrow 00:12:31.444$  but stress is undermined,

NOTE Confidence: 0.8628262

 $00:12:31.450 \longrightarrow 00:12:33.080$  and it's not surprising that

NOTE Confidence: 0.8628262

 $00{:}12{:}33.080 \dashrightarrow 00{:}12{:}35.656$  many of us may be familiar with

NOTE Confidence: 0.8628262

 $00:12:35.656 \longrightarrow 00:12:37.821$  the intensified feelings of loss

 $00:12:37.821 \longrightarrow 00:12:40.120$  of control and helplessness,

NOTE Confidence: 0.8628262

 $00:12:40.120 \longrightarrow 00:12:42.983$  and we see a host and may

NOTE Confidence: 0.8628262

 $00:12:42.983 \longrightarrow 00:12:44.770$  have experienced a host.

NOTE Confidence: 0.8628262

 $00:12:44.770 \longrightarrow 00:12:50.398$  Of of stress related symptomatic responses.

NOTE Confidence: 0.8628262

 $00:12:50.400 \longrightarrow 00:12:53.826$  In the physical and semantic arenas.

NOTE Confidence: 0.8628262

 $00:12:53.830 \longrightarrow 00:12:57.250$  In the cognitive arena.

NOTE Confidence: 0.8628262

 $00:12:57.250 \longrightarrow 00:13:02.380$  In the affective or emotional arena.

NOTE Confidence: 0.8628262

 $00{:}13{:}02.380 \dashrightarrow 00{:}13{:}06.314$  And in interference with some of the

NOTE Confidence: 0.8628262

 $00{:}13{:}06.314 \dashrightarrow 00{:}13{:}09.750$  standard expectations of optimal behaviors.

NOTE Confidence: 0.90270334

 $00:13:11.880 \longrightarrow 00:13:14.512$  So when so much of our external

NOTE Confidence: 0.90270334

00:13:14.512 --> 00:13:17.836 world is in fact out of our control,

NOTE Confidence: 0.90270334

00:13:17.840 --> 00:13:19.424 it's important to find

NOTE Confidence: 0.90270334

 $00:13:19.424 \longrightarrow 00:13:21.008$  ways to increase control,

NOTE Confidence: 0.90270334

 $00{:}13{:}21.010 \longrightarrow 00{:}13{:}23.425$  and so the guidelines that we developed

NOTE Confidence: 0.90270334

 $00:13:23.425 \longrightarrow 00:13:26.736$  in much of the consultation we do with

NOTE Confidence: 0.90270334

 $00{:}13{:}26.736 \dashrightarrow 00{:}13{:}28.941$  our pediatric and internal medicine,

 $00:13:28.950 \longrightarrow 00:13:30.750$  health care providers and others

NOTE Confidence: 0.90270334

 $00:13:30.750 \longrightarrow 00:13:32.993$  has been focused on 1st helping

NOTE Confidence: 0.90270334

00:13:32.993 --> 00:13:34.858 people to understand what's going

NOTE Confidence: 0.90270334

 $00:13:34.858 \longrightarrow 00:13:37.750$  on with them and then to provide

NOTE Confidence: 0.90270334

 $00{:}13{:}37.750 \dashrightarrow 00{:}13{:}39.970$  guidelines for walking through both

NOTE Confidence: 0.90270334

 $00{:}13{:}39.970 \dashrightarrow 00{:}13{:}41.942$  recognizing one's own symptomatology.

NOTE Confidence: 0.90270334

00:13:41.942 --> 00:13:45.188 And identifying coping strategies and why

NOTE Confidence: 0.90270334

 $00:13:45.188 \longrightarrow 00:13:48.538$  these coping strategies might be effective?

NOTE Confidence: 0.90270334

 $00:13:48.540 \longrightarrow 00:13:51.558$  So we've developed this first for

NOTE Confidence: 0.90270334

 $00:13:51.558 \longrightarrow 00:13:54.152$  adults and then subsequently we

NOTE Confidence: 0.90270334

 $00:13:54.152 \longrightarrow 00:13:56.627$  developed a guideline for parents

NOTE Confidence: 0.90270334

00:13:56.627 --> 00:13:59.829 helping children to cope with COVID-19.

NOTE Confidence: 0.90270334

 $00{:}13{:}59.830 \dashrightarrow 00{:}14{:}01.666$  And and children's response to that

NOTE Confidence: 0.90270334

 $00:14:01.666 \longrightarrow 00:14:03.717$  also help parents to better understand

NOTE Confidence: 0.90270334

 $00:14:03.717 \longrightarrow 00:14:06.015$  their children and to find strategies

 $00:14:06.015 \longrightarrow 00:14:07.967$  for decreasing the increased stress

NOTE Confidence: 0.90270334

 $00{:}14{:}07.967 \dashrightarrow 00{:}14{:}09.847$  that children may be experiencing,

NOTE Confidence: 0.90270334

 $00:14:09.850 \longrightarrow 00:14:12.069$  not only as a result of the

NOTE Confidence: 0.90270334

00:14:12.069 --> 00:14:14.149 fears and worries about COVID-19,

NOTE Confidence: 0.90270334

 $00:14:14.150 \longrightarrow 00:14:16.232$  but also because of the enormous

NOTE Confidence: 0.90270334

00:14:16.232 --> 00:14:18.416 impact that they just that the

NOTE Confidence: 0.90270334

00:14:18.416 --> 00:14:20.588 disruptions have had on their lives.

NOTE Confidence: 0.863818

 $00:14:22.650 \longrightarrow 00:14:24.230$  We've, as I mentioned,

NOTE Confidence: 0.863818

 $00:14:24.230 \longrightarrow 00:14:26.600$  also developed the acute stress intervention,

NOTE Confidence: 0.863818

 $00:14:26.600 \longrightarrow 00:14:29.759$  which is a one to four session model for

NOTE Confidence: 0.863818

 $00:14:29.759 \longrightarrow 00:14:31.644$  consulting with health care providers

NOTE Confidence: 0.863818

 $00:14:31.644 \longrightarrow 00:14:34.894$  and others who may not yet need a

NOTE Confidence: 0.863818

 $00:14:34.894 \longrightarrow 00:14:36.870$  more extensive clinical involvement,

NOTE Confidence: 0.863818

 $00:14:36.870 \longrightarrow 00:14:39.278$  but are aimed to help support their

NOTE Confidence: 0.863818

 $00:14:39.278 \longrightarrow 00:14:41.587$  ability to get a better handle

NOTE Confidence: 0.863818

00:14:41.587 --> 00:14:43.187 on their symptomatic reactions

 $00:14:43.187 \longrightarrow 00:14:45.559$  and to take greater control.

NOTE Confidence: 0.81126714

00:14:47.910 --> 00:14:50.300 We've also, as I mentioned,

NOTE Confidence: 0.81126714

00:14:50.300 --> 00:14:52.144 develop Connect virtual training,

NOTE Confidence: 0.81126714

 $00:14:52.144 \longrightarrow 00:14:55.480$  which has been broadly offered to mental

NOTE Confidence: 0.81126714

 $00:14:55.480 \longrightarrow 00:14:57.950$  health providers around the country,

NOTE Confidence: 0.81126714

 $00:14:57.950 \longrightarrow 00:15:00.340$  so I will stop there.

NOTE Confidence: 0.81126714

 $00:15:00.340 \longrightarrow 00:15:04.960$  This was meant to be a.

NOTE Confidence: 0.81126714

 $00{:}15{:}04.960 \dashrightarrow 00{:}15{:}06.402$  Rapid sort of introduction

NOTE Confidence: 0.81126714

 $00:15:06.402 \longrightarrow 00:15:08.478$  so that we can look forward

NOTE Confidence: 0.81126714

00:15:08.478 --> 00:15:10.979 to a discussion with you all,

NOTE Confidence: 0.81126714

 $00:15:10.980 \longrightarrow 00:15:16.030$  and I will now turn it over if I can.

NOTE Confidence: 0.81126714

 $00{:}15{:}16.030 \dashrightarrow 00{:}15{:}17.810$  To my esteemed colleague Eli

NOTE Confidence: 0.81126714

 $00{:}15{:}17.810 \dashrightarrow 00{:}15{:}19.590$  Boards talking review, it's before

NOTE Confidence: 0.7974678

 $00:15:19.590 \longrightarrow 00:15:21.114$  you before you start,

NOTE Confidence: 0.7974678

 $00:15:21.114 \longrightarrow 00:15:23.400$  let me just remind everyone if

00:15:23.477 --> 00:15:25.367 you have a question to please

NOTE Confidence: 0.7974678

00:15:25.367 --> 00:15:27.766 put it in the chat. Mr slash.

NOTE Confidence: 0.7974678

 $00{:}15{:}27.766 \dashrightarrow 00{:}15{:}30.202$  I see that you were Doctor Marincin

NOTE Confidence: 0.7974678

 $00:15:30.202 \longrightarrow 00:15:32.758$  and will let both speaker speak and

NOTE Confidence: 0.7974678

 $00:15:32.758 \longrightarrow 00:15:34.898$  then we'll go to the questions.

NOTE Confidence: 0.7974678

 $00:15:34.900 \longrightarrow 00:15:38.106$  But please use the chat and will.

NOTE Confidence: 0.7974678

00:15:38.110 --> 00:15:39.844 Her and get your questions

NOTE Confidence: 0.7974678

 $00:15:39.844 \longrightarrow 00:15:41.549$  answered as soon as Doctor

NOTE Confidence: 0.7974678

 $00:15:41.549 \longrightarrow 00:15:43.289$  Liebowitz feeds Doctor Liebowitz.

NOTE Confidence: 0.8846295925

00:15:45.040 --> 00:15:48.656 Thank you. Well, thank you very much Steve.

NOTE Confidence: 0.8846295925

 $00{:}15{:}48.660 \dashrightarrow 00{:}15{:}51.404$  And those inspiring and thank you Linda.

NOTE Confidence: 0.8846295925

00:15:51.410 --> 00:15:53.860 And of course thank you to each

NOTE Confidence: 0.8846295925

 $00{:}15{:}53.860 \dashrightarrow 00{:}15{:}56.109$  and everyone of the associates.

NOTE Confidence: 0.8846295925

00:15:56.110 --> 00:15:58.822 All of you for joining us today and

NOTE Confidence: 0.8846295925

00:15:58.822 --> 00:16:01.384 for the really critical support that

NOTE Confidence: 0.8846295925

 $00{:}16{:}01.384 \dashrightarrow 00{:}16{:}04.885$  you provide to the work that we do

00:16:04.885 --> 00:16:09.290 at the Child study Center. So my.

NOTE Confidence: 0.8846295925

 $00{:}16{:}09.290 \dashrightarrow 00{:}16{:}11.678$  The presentation is pre recorded in,

NOTE Confidence: 0.8846295925

00:16:11.680 --> 00:16:14.207 perhaps in a nod to the uncertainty

NOTE Confidence: 0.8846295925

00:16:14.207 --> 00:16:16.450 that we're all living through,

NOTE Confidence: 0.8846295925

 $00:16:16.450 \longrightarrow 00:16:19.257$  so I'm going to be playing a

NOTE Confidence: 0.8846295925

00:16:19.257 --> 00:16:21.229 pre recorded video for you,

NOTE Confidence: 0.8846295925

00:16:21.230 --> 00:16:23.766 but I am here and will be happy

NOTE Confidence: 0.8846295925

 $00:16:23.766 \longrightarrow 00:16:25.915$  to address any questions together

NOTE Confidence: 0.8846295925

 $00:16:25.915 \longrightarrow 00:16:28.783$  with together with Steven and Ann.

NOTE Confidence: 0.8846295925

 $00{:}16{:}28.790 \dashrightarrow 00{:}16{:}32.670$  This is a little bit less of a

NOTE Confidence: 0.8846295925

 $00:16:32.670 \longrightarrow 00:16:35.099$  formal presentation and innocence.

NOTE Confidence: 0.8846295925

 $00:16:35.100 \longrightarrow 00:16:37.557$  You might say a reflection on this

NOTE Confidence: 0.8846295925

 $00{:}16{:}37.557 \dashrightarrow 00{:}16{:}40.511$  past year and what we have been living

NOTE Confidence: 0.8846295925

 $00:16:40.511 \longrightarrow 00:16:43.471$  through and the work that we have been

NOTE Confidence: 0.8846295925

 $00:16:43.471 \longrightarrow 00:16:45.928$  doing to try to meet the challenges

 $00:16:45.930 \longrightarrow 00:16:48.457$  that all of us have been experiencing.

NOTE Confidence: 0.8846295925

 $00:16:48.460 \longrightarrow 00:16:51.709$  So let me try to bring that up now.

NOTE Confidence: 0.6577914 00:16:55.980 --> 00:16:56.590 OK.

NOTE Confidence: 0.8687483

 $00:16:58.840 \longrightarrow 00:16:59.578$  Is that up?

NOTE Confidence: 0.86062557

 $00:17:00.680 \longrightarrow 00:17:01.490$  What's up?

NOTE Confidence: 0.75902957

 $00:17:03.030 \longrightarrow 00:17:04.090$  Good Ali, thank you

NOTE Confidence: 0.75902957

 $00:17:04.090 \longrightarrow 00:17:05.518$  very much. OK, so you get

NOTE Confidence: 0.75902957

 $00:17:05.518 \longrightarrow 00:17:07.289$  a peek at my living room.

NOTE Confidence: 0.9169597

00:17:11.140 --> 00:17:12.790 Thank you for the opportunity

NOTE Confidence: 0.9169597

00:17:12.790 --> 00:17:14.800 to talk with you all about

NOTE Confidence: 0.9169597

 $00:17:14.871 \longrightarrow 00:17:17.216$  the work we've been doing in the

NOTE Confidence: 0.9169597

 $00:17:17.216 \longrightarrow 00:17:19.499$  area of childhood anxiety disorders.

NOTE Confidence: 0.9169597

 $00:17:19.500 \longrightarrow 00:17:21.876$  Even in the best of times,

NOTE Confidence: 0.9169597

 $00{:}17{:}21.880 \dashrightarrow 00{:}17{:}23.705$  anxiety disorders are the most

NOTE Confidence: 0.9169597

 $00:17:23.705 \longrightarrow 00:17:25.165$  common mental health problems

NOTE Confidence: 0.9169597

 $00:17:25.165 \longrightarrow 00:17:27.040$  in children and adolescents,

00:17:27.040 --> 00:17:28.968 causing tremendous distress and

NOTE Confidence: 0.9169597

 $00{:}17{:}28.968 \dashrightarrow 00{:}17{:}31.860$  impairment to the lives of millions

NOTE Confidence: 0.9169597

 $00:17:31.937 \longrightarrow 00:17:34.167$  of children and their families.

NOTE Confidence: 0.9169597

 $00:17:34.170 \longrightarrow 00:17:35.754$  But let's face it,

NOTE Confidence: 0.9169597

 $00:17:35.754 \longrightarrow 00:17:39.020$  this has not been the best of times.

NOTE Confidence: 0.9169597

 $00:17:39.020 \longrightarrow 00:17:41.240$  The entire globe has been thrown

NOTE Confidence: 0.9169597

 $00:17:41.240 \longrightarrow 00:17:43.460$  into turmoil by a pandemic,

NOTE Confidence: 0.9169597

 $00:17:43.460 \longrightarrow 00:17:46.140$  the likes of which none of us have

NOTE Confidence: 0.9169597

00:17:46.140 --> 00:17:48.285 ever seen before lives livelihoods

NOTE Confidence: 0.9169597

 $00:17:48.285 \longrightarrow 00:17:51.540$  have been lost at a staggering pace,

NOTE Confidence: 0.9169597

 $00:17:51.540 \longrightarrow 00:17:55.320$  and our world sometimes seems unrecognizable.

NOTE Confidence: 0.9169597

 $00:17:55.320 \longrightarrow 00:17:58.540$  This country has been rocked by an

NOTE Confidence: 0.9169597

00:17:58.540 --> 00:18:00.974 explosive outpouring of pain and

NOTE Confidence: 0.9169597

 $00:18:00.974 \longrightarrow 00:18:03.409$  anger at injustice and unfairness.

NOTE Confidence: 0.9169597

 $00:18:03.410 \longrightarrow 00:18:06.188$  These are what one might normally

 $00:18:06.188 \longrightarrow 00:18:09.119$  think of as issues for adults,

NOTE Confidence: 0.9169597

 $00:18:09.120 \longrightarrow 00:18:13.047$  but in 2020 no child is oblivious.

NOTE Confidence: 0.9169597

 $00{:}18{:}13.050 \dashrightarrow 00{:}18{:}15.689$  I think my own school aged children

NOTE Confidence: 0.9169597

 $00:18:15.689 \longrightarrow 00:18:17.663$  probably know more about Epidemiology

NOTE Confidence: 0.9169597

00:18:17.663 --> 00:18:20.735 today than their dad did a year ago.

NOTE Confidence: 0.9169597

00:18:20.740 --> 00:18:23.326 It's now almost exactly one year

NOTE Confidence: 0.9169597

 $00:18:23.326 \longrightarrow 00:18:26.803$  to the day since the first known

NOTE Confidence: 0.9169597

 $00:18:26.803 \longrightarrow 00:18:29.015$  COVID-19 patient became ill.

NOTE Confidence: 0.9169597

 $00:18:29.020 \longrightarrow 00:18:30.355$  In that year,

NOTE Confidence: 0.9169597

 $00:18:30.355 \longrightarrow 00:18:32.580$  children's lives have changed more

NOTE Confidence: 0.9169597

 $00{:}18{:}32.580 \to 00{:}18{:}35.362$  rapidly and more dramatically than any

NOTE Confidence: 0.9169597

 $00:18:35.362 \longrightarrow 00:18:38.080$  of us would have thought possible.

NOTE Confidence: 0.9169597

 $00:18:38.080 \longrightarrow 00:18:40.620$  Even for children without a

NOTE Confidence: 0.9169597

00:18:40.620 --> 00:18:41.636 pronounced predisposition,

NOTE Confidence: 0.9169597

00:18:41.640 --> 00:18:44.530 word anxiety problems this year

NOTE Confidence: 0.9169597

 $00:18:44.530 \longrightarrow 00:18:46.842$  has been anxiety provoking.

 $00:18:46.850 \longrightarrow 00:18:49.694$  And for the one in three children with a

NOTE Confidence: 0.9169597

 $00:18:49.694 \longrightarrow 00:18:52.390$  natural vulnerability to anxiety disorders,

NOTE Confidence: 0.9169597

 $00{:}18{:}52.390 \dashrightarrow 00{:}18{:}55.393$  it has been a challenge that at

NOTE Confidence: 0.9169597

 $00:18:55.393 \longrightarrow 00:18:58.120$  times has seemed insurmountable.

NOTE Confidence: 0.9169597

 $00:18:58.120 \longrightarrow 00:19:00.370$  Consider the ways in which anxious

NOTE Confidence: 0.9169597

 $00{:}19{:}00.370 \dashrightarrow 00{:}19{:}02.706$  children tend to approach the world

NOTE Confidence: 0.9169597

 $00:19:02.706 \longrightarrow 00:19:04.626$  and the situations they confront.

NOTE Confidence: 0.9169597

 $00:19:04.630 \longrightarrow 00:19:06.919$  We tend to shy away from change

NOTE Confidence: 0.9169597

 $00:19:06.919 \longrightarrow 00:19:09.940$  and to feel most comfortable with

NOTE Confidence: 0.9169597

 $00:19:09.940 \longrightarrow 00:19:11.807$  familiarity patterns, repetition.

NOTE Confidence: 0.9169597

 $00:19:11.807 \longrightarrow 00:19:14.592$  They tend to dislike surprises

NOTE Confidence: 0.9169597

 $00:19:14.592 \longrightarrow 00:19:15.706$  and unpredictability,

NOTE Confidence: 0.9169597

00:19:15.710 --> 00:19:18.615 preferring the predictable in the

NOTE Confidence: 0.9169597

 $00{:}19{:}18.615 \dashrightarrow 00{:}19{:}20.358$  for eseeable whenever possible.

NOTE Confidence: 0.9169597

 $00:19:20.360 \longrightarrow 00:19:23.426$  And they tend to abhor uncertainty,

 $00:19:23.430 \longrightarrow 00:19:27.690$  seeking positive assurances and absolutes.

NOTE Confidence: 0.9169597

 $00:19:27.690 \longrightarrow 00:19:30.622$  Change unpredictability uncertainty.

NOTE Confidence: 0.9169597

00:19:30.622 --> 00:19:35.038 Maybe the three best words to

NOTE Confidence: 0.9169597

00:19:35.038 --> 00:19:37.829 describe this entire year.

NOTE Confidence: 0.9169597

 $00:19:37.830 \longrightarrow 00:19:40.740$  It is no surprise that so

NOTE Confidence: 0.9169597

 $00:19:40.740 \longrightarrow 00:19:42.680$  many children are struggling.

NOTE Confidence: 0.9169597

 $00:19:42.680 \longrightarrow 00:19:43.362$  For some,

NOTE Confidence: 0.9169597

 $00:19:43.362 \longrightarrow 00:19:45.749$  the hardest part comes when their life

NOTE Confidence: 0.9169597

 $00{:}19{:}45.749 \dashrightarrow 00{:}19{:}47.858$  seems to change almost overnight,

NOTE Confidence: 0.9169597

 $00:19:47.860 \longrightarrow 00:19:49.848$  and so many of the patterns they

NOTE Confidence: 0.9169597

 $00:19:49.848 \longrightarrow 00:19:52.122$  rely on of the things they take

NOTE Confidence: 0.9169597

 $00:19:52.122 \longrightarrow 00:19:54.144$  for granted as making up their

NOTE Confidence: 0.9169597

 $00:19:54.219 \longrightarrow 00:19:56.644$  daily world are suddenly either

NOTE Confidence: 0.9169597

 $00:19:56.644 \longrightarrow 00:19:58.584$  different or completely suspended.

NOTE Confidence: 0.9169597

 $00:19:58.590 \longrightarrow 00:20:00.010$  For others, it's actually.

NOTE Confidence: 0.9169597

 $00:20:00.010 \longrightarrow 00:20:02.632$  We ask them to resume a semblance

 $00{:}20{:}02.632 \to 00{:}20{:}05.104$  of normality that they seem to

NOTE Confidence: 0.9169597

 $00{:}20{:}05.104 \dashrightarrow 00{:}20{:}08.155$  struggle the most for the child with

NOTE Confidence: 0.9169597

00:20:08.155 --> 00:20:10.325 separation anxiety disorder who's not

NOTE Confidence: 0.9169597

 $00:20:10.325 \longrightarrow 00:20:12.975$  been separated from his parents for

NOTE Confidence: 0.9169597

 $00:20:12.975 \longrightarrow 00:20:15.649$  months because there's really nowhere to go.

NOTE Confidence: 0.9169597

00:20:15.650 --> 00:20:18.499 Going back to school can seem daunting,

NOTE Confidence: 0.9169597

 $00:20:18.500 \longrightarrow 00:20:20.530$  and for the child with

NOTE Confidence: 0.9169597

00:20:20.530 --> 00:20:21.748 social anxiety disorder,

NOTE Confidence: 0.9169597

00:20:21.750 --> 00:20:23.374 who's been socially distancing

NOTE Confidence: 0.9169597

 $00:20:23.374 \longrightarrow 00:20:25.404$  and even isolating at home,

NOTE Confidence: 0.9169597

 $00:20:25.410 \longrightarrow 00:20:27.445$  walking back into a classroom

NOTE Confidence: 0.9169597

00:20:27.445 --> 00:20:28.666 can feel overwhelming.

NOTE Confidence: 0.884362759999999

 $00{:}20{:}30.740 \dashrightarrow 00{:}20{:}33.080$  The anxiety and Mood Disorders program

NOTE Confidence: 0.884362759999999

 $00:20:33.080 \longrightarrow 00:20:35.505$  under the leadership of Doctor Wendy

NOTE Confidence: 0.884362759999999

 $00{:}20{:}35.505 \dashrightarrow 00{:}20{:}37.490$  Silverman and the broader clinical

 $00:20:37.490 \longrightarrow 00:20:40.029$  services of the Yale Child Study Center

NOTE Confidence: 0.884362759999999

 $00{:}20{:}40.029 \dashrightarrow 00{:}20{:}42.452$  has taken an active role in helping

NOTE Confidence: 0.884362759999999

 $00{:}20{:}42.452 \dashrightarrow 00{:}20{:}45.404$  children and families face this challenge.

NOTE Confidence: 0.884362759999999

 $00:20:45.410 \longrightarrow 00:20:48.322$  As a program that was already providing

NOTE Confidence: 0.884362759999999

00:20:48.322 --> 00:20:50.669 Tele treatment to many families,

NOTE Confidence: 0.884362759999999

 $00:20:50.670 \longrightarrow 00:20:53.603$  we were uniquely poised to transition to

NOTE Confidence: 0.884362759999999

 $00:20:53.603 \longrightarrow 00:20:56.735$  a completely online model and to continue

NOTE Confidence: 0.884362759999999

 $00:20:56.735 \longrightarrow 00:20:58.985$  to provide therapy and consultation.

NOTE Confidence: 0.884362759999999

 $00:20:58.990 \longrightarrow 00:21:01.135$  Through countless interviews on radio

NOTE Confidence: 0.884362759999999

00:21:01.135 --> 00:21:03.810 and television and print and online,

NOTE Confidence: 0.884362759999999

 $00:21:03.810 \longrightarrow 00:21:06.810$  we have been there to offer guidance and

NOTE Confidence: 0.884362759999999

 $00:21:06.810 \longrightarrow 00:21:09.908$  support to parents struggling to adapt to

NOTE Confidence: 0.884362759999999

 $00:21:09.908 \longrightarrow 00:21:13.000$  the new and constantly changing realities.

NOTE Confidence: 0.884362759999999

 $00:21:13.000 \longrightarrow 00:21:14.356$  We help parents.

NOTE Confidence: 0.884362759999999

 $00:21:14.356 \longrightarrow 00:21:16.164$  Sessions consulted the schools.

NOTE Confidence: 0.884362759999999

 $00:21:16.170 \longrightarrow 00:21:18.837$  One remote learning as well as the

 $00:21:18.837 \longrightarrow 00:21:21.748$  return to classrooms and we held online

NOTE Confidence: 0.884362759999999

 $00:21:21.748 \longrightarrow 00:21:23.863$  we binars and information sessions for

NOTE Confidence: 0.884362759999999

 $00:21:23.863 \longrightarrow 00:21:26.579$  both the lay and professional Publix.

NOTE Confidence: 0.884362759999999

00:21:26.580 --> 00:21:28.718 But this year hasn't only been

NOTE Confidence: 0.884362759999999

 $00:21:28.718 \longrightarrow 00:21:29.789$  about bad news,

NOTE Confidence: 0.884362759999999

 $00:21:29.790 \longrightarrow 00:21:31.475$  even while we juggled the

NOTE Confidence: 0.884362759999999

00:21:31.475 --> 00:21:33.608 shutting down and reopening of our

NOTE Confidence: 0.884362759999999

00:21:33.608 --> 00:21:35.148 in person clinical services,

NOTE Confidence: 0.884362759999999

00:21:35.150 --> 00:21:37.635 we continued to make strides in our

NOTE Confidence: 0.884362759999999

 $00{:}21{:}37.635 \dashrightarrow 00{:}21{:}40.378$  key missions of research and education.

00:21:40.380 --> 00:21:41.924 With funding from NIH,

NOTE Confidence: 0.884362759999999

 $00:21:41.924 \longrightarrow 00:21:44.240$  we completed the first ever clinical

NOTE Confidence: 0.884362759999999

 $00{:}21{:}44.310 \dashrightarrow 00{:}21{:}46.500$ trial of childhood anxiety disorders

NOTE Confidence: 0.884362759999999

 $00:21:46.500 \longrightarrow 00:21:49.444$  that used brain imaging before and after

NOTE Confidence: 0.884362759999999

 $00:21:49.444 \longrightarrow 00:21:51.484$  treatment to learn about what changes

 $00:21:51.484 \longrightarrow 00:21:55.720$  in a child's brain due to treatment.

NOTE Confidence: 0.884362759999999

 $00:21:55.720 \longrightarrow 00:21:58.126$  The clinical study focused on a

NOTE Confidence: 0.884362759999999

 $00:21:58.126 \longrightarrow 00:22:00.251$  parent based treatment called space

NOTE Confidence: 0.884362759999999

 $00:22:00.251 \longrightarrow 00:22:02.486$  or supportive parenting for anxious

NOTE Confidence: 0.884362759999999

 $00:22:02.486 \longrightarrow 00:22:04.734$  childhood emotions that we developed

NOTE Confidence: 0.884362759999999

00:22:04.734 --> 00:22:07.044 here at the Child Study Center.

NOTE Confidence: 0.884362759999999

 $00:22:07.050 \longrightarrow 00:22:09.075$  Space focuses on teaching parents

NOTE Confidence: 0.884362759999999

00:22:09.075 --> 00:22:11.614 to respond to their child's anxiety

00:22:11.614 --> 00:22:13.829 symptoms in a supportive manner,

NOTE Confidence: 0.884362759999999

 $00:22:13.830 \longrightarrow 00:22:16.235$  showing them both genuine acceptance

 $00{:}22{:}16.235 \dashrightarrow 00{:}22{:}19.547$  of their distress as well as confidence

NOTE Confidence: 0.884362759999999

 $00:22:19.547 \longrightarrow 00:22:22.424$  in the child's ability to cope with

NOTE Confidence: 0.884362759999999

 $00:22:22.424 \longrightarrow 00:22:24.940$  and to tolerate that distress.

 $00{:}22{:}24.940 \dashrightarrow 00{:}22{:}27.946$  Parents in space learn to systematically

NOTE Confidence: 0.884362759999999

 $00:22:27.946 \longrightarrow 00:22:29.950$  reduce the accommodations that

NOTE Confidence: 0.884362759999999

 $00{:}22{:}30.028 \dashrightarrow 00{:}22{:}32.356$  they've been making to the child.

00:22:32.360 --> 00:22:35.175 Symptoms allowing the return of

NOTE Confidence: 0.884362759999999

 $00{:}22{:}35.175 \dashrightarrow 00{:}22{:}37.427$  normal functioning and healthier

NOTE Confidence: 0.884362759999999

 $00:22:37.427 \longrightarrow 00:22:39.310$  interactions in relationships.

NOTE Confidence: 0.884362759999999

00:22:39.310 --> 00:22:41.175 In a previous randomized clinical

NOTE Confidence: 0.884362759999999

00:22:41.175 --> 00:22:42.294 trial of space,

NOTE Confidence: 0.884362759999999

 $00:22:42.300 \longrightarrow 00:22:44.215$  we compared it with cognitive

NOTE Confidence: 0.884362759999999

 $00:22:44.215 \longrightarrow 00:22:46.130$  behavioral therapy and found that

NOTE Confidence: 0.884362759999999

 $00{:}22{:}46.200 \longrightarrow 00{:}22{:}48.318$  space was just as efficacious as

NOTE Confidence: 0.884362759999999

 $00{:}22{:}48.318 \dashrightarrow 00{:}22{:}50.160$  working directly with the child.

NOTE Confidence: 0.884362759999999

 $00:22:50.160 \longrightarrow 00:22:52.338$  The findings from that study were

NOTE Confidence: 0.884362759999999

00:22:52.338 --> 00:22:54.640 published in the Journal of the

NOTE Confidence: 0.884362759999999

00:22:54.640 --> 00:22:56.585 American Academy of Child and

NOTE Confidence: 0.884362759999999

 $00{:}22{:}56.585 \dashrightarrow 00{:}22{:}58.379$ Adolescent Psychiatry one year ago,

NOTE Confidence: 0.884362759999999

 $00:22:58.380 \longrightarrow 00:23:01.019$  and became the most cited article in

NOTE Confidence: 0.884362759999999

 $00:23:01.019 \longrightarrow 00:23:03.250$  the Journal during that past year.

 $00:23:05.280 \longrightarrow 00:23:08.440$  In the study we just completed the findings

NOTE Confidence: 0.8395577

 $00:23:08.440 \longrightarrow 00:23:11.370$  of which are not even published yet.

NOTE Confidence: 0.8395577

 $00{:}23{:}11.370 \dashrightarrow 00{:}23{:}14.004$  Children looked at images while we

NOTE Confidence: 0.8395577

 $00:23:14.004 \longrightarrow 00:23:15.760$  used functional magnetic resonance

NOTE Confidence: 0.8395577

 $00:23:15.826 \longrightarrow 00:23:17.962$  imaging or fMRI to observe patterns

NOTE Confidence: 0.8395577

 $00:23:17.962 \longrightarrow 00:23:19.900$  of activity in their brains.

NOTE Confidence: 0.8395577

 $00:23:19.900 \longrightarrow 00:23:22.852$  We did this both before the start of

NOTE Confidence: 0.8395577

00:23:22.852 --> 00:23:25.728 their first treatment and after they

NOTE Confidence: 0.8395577

 $00:23:25.728 \longrightarrow 00:23:28.293$  ended their last treatment session.

NOTE Confidence: 0.8395577

 $00:23:28.300 \longrightarrow 00:23:30.508$  By comparing brain activity when the

NOTE Confidence: 0.8395577

 $00{:}23{:}30.508 \mathrel{--}{>} 00{:}23{:}33.296$  child lay alone in the scanner to

NOTE Confidence: 0.8395577

 $00:23:33.296 \longrightarrow 00:23:35.371$  brain activation when their mother

NOTE Confidence: 0.8395577

00:23:35.371 --> 00:23:37.610 stood nearby and held their hand,

NOTE Confidence: 0.8395577

 $00:23:37.610 \longrightarrow 00:23:40.562$  we were able to observe just how dependent

NOTE Confidence: 0.8395577

00:23:40.562 --> 00:23:43.037 each child was on their attachment,

NOTE Confidence: 0.8395577

 $00:23:43.040 \longrightarrow 00:23:45.605$  figure their mother to regulate

 $00:23:45.605 \longrightarrow 00:23:47.657$  their fear and anxiety.

NOTE Confidence: 0.8395577

 $00{:}23{:}47.660 {\:{\circ}{\circ}{\circ}}>00{:}23{:}49.580$  Following space treatment compared

NOTE Confidence: 0.8395577

 $00:23:49.580 \longrightarrow 00:23:51.980$  with the control comparison condition,

NOTE Confidence: 0.8395577

 $00:23:51.980 \longrightarrow 00:23:54.145$  children were significantly better relabel

NOTE Confidence: 0.8395577

 $00:23:54.145 \longrightarrow 00:23:57.260$  to regulate their own fear independently,

NOTE Confidence: 0.8395577

00:23:57.260 --> 00:24:01.116 and they were less reliant on their parents

NOTE Confidence: 0.8395577

 $00:24:01.116 \longrightarrow 00:24:04.950$  for family accommodation and less anxious.

NOTE Confidence: 0.8395577

 $00:24:04.950 \longrightarrow 00:24:07.126$  We're continuing this research

NOTE Confidence: 0.8395577

 $00{:}24{:}07.126 \dashrightarrow 00{:}24{:}09.846$  and yet another clinical trial.

NOTE Confidence: 0.8395577

 $00:24:09.850 \longrightarrow 00:24:12.866$  This year has also been one of tremendous

NOTE Confidence: 0.8395577

 $00{:}24{:}12.866 \dashrightarrow 00{:}24{:}15.230$  progress in the dissemination of our

NOTE Confidence: 0.8395577

 $00:24:15.230 \longrightarrow 00:24:18.250$  work to a broader and broader audience.

NOTE Confidence: 0.8395577

 $00{:}24{:}18.250 \dashrightarrow 00{:}24{:}21.036$  News about the new parent based treatment

NOTE Confidence: 0.8395577

 $00{:}24{:}21.036 \dashrightarrow 00{:}24{:}24.222$  for child anxiety out of the Yale Child

NOTE Confidence: 0.8395577

 $00:24:24.222 \longrightarrow 00:24:26.142$  Study Center has received attention

00:24:26.219 --> 00:24:28.649 everywhere from NPR to the Atlantic,

NOTE Confidence: 0.8395577

 $00:24:28.650 \longrightarrow 00:24:32.640$  to CNN and countless other news sources.

NOTE Confidence: 0.8395577

00:24:32.640 --> 00:24:34.593 Let me share with you one example

NOTE Confidence: 0.8395577

 $00:24:34.593 \longrightarrow 00:24:36.279$  from a local news channel.

NOTE Confidence: 0.8231341

00:24:37.310 --> 00:24:39.718 Going to the National Institutes of Health,

NOTE Confidence: 0.8231341

00:24:39.720 --> 00:24:42.128 the number of kids struggling with anxiety,

NOTE Confidence: 0.8231341

 $00:24:42.130 \longrightarrow 00:24:43.850$  depression and other mental health

NOTE Confidence: 0.8231341

 $00:24:43.850 \longrightarrow 00:24:45.566$  conditions has steadily been underlines.

NOTE Confidence: 0.8231341

00:24:45.566 --> 00:24:46.252 That's right,

NOTE Confidence: 0.8231341

00:24:46.252 --> 00:24:47.967 therapy and medication may help,

NOTE Confidence: 0.8231341

 $00{:}24{:}47.970 \dashrightarrow 00{:}24{:}50.378$  but for some kids and their families,

NOTE Confidence: 0.8231341

 $00:24:50.380 \longrightarrow 00:24:52.028$  that's little relief. Tonight.

NOTE Confidence: 0.8231341

 $00{:}24{:}52.028 \dashrightarrow 00{:}24{:}54.500$  Now Anderson tells us how researchers

NOTE Confidence: 0.8231341

 $00{:}24{:}54.566 \dashrightarrow 00{:}24{:}56.564$  are studying a new method that

NOTE Confidence: 0.8231341

 $00:24:56.564 \longrightarrow 00:24:58.510$  helps parents help their children.

NOTE Confidence: 0.8231341

 $00:24:58.510 \longrightarrow 00:24:59.950$  Bedtime for some families

00:24:59.950 --> 00:25:01.390 can become a struggle,

NOTE Confidence: 0.8231341

00:25:01.390 --> 00:25:03.340 but when the goodnight routine

NOTE Confidence: 0.8231341

 $00:25:03.340 \longrightarrow 00:25:05.668$  for Nicole Murphy's son began to

NOTE Confidence: 0.8231341

 $00:25:05.668 \longrightarrow 00:25:07.510$  stretch for up to three hours,

NOTE Confidence: 0.8231341

00:25:07.510 --> 00:25:09.310 she knew she needed help

NOTE Confidence: 0.8231341

 $00:25:09.310 \longrightarrow 00:25:10.750$  with his separation anxiety.

NOTE Confidence: 0.6763666

00:25:13.080 --> 00:25:16.594 Non stop, so it's kind of hard.

NOTE Confidence: 0.6763666

 $00:25:16.600 \longrightarrow 00:25:18.260$  Allie Liebowitz and his colleagues

NOTE Confidence: 0.6763666

 $00:25:18.260 \longrightarrow 00:25:20.346$  at the Yale Child Study Center

NOTE Confidence: 0.6763666

 $00:25:20.346 \longrightarrow 00:25:22.176$  developed a method of training

NOTE Confidence: 0.6763666

 $00{:}25{:}22.176 \dashrightarrow 00{:}25{:}24.220$  parents to support anxious children.

NOTE Confidence: 0.6763666

 $00{:}25{:}24.220 \dashrightarrow 00{:}25{:}26.035$  It's called space or supportive

NOTE Confidence: 0.6763666

 $00{:}25{:}26.035 \dashrightarrow 00{:}25{:}27.850$  parenting for anxious childhood emotions.

NOTE Confidence: 0.6763666

 $00:25:27.850 \longrightarrow 00:25:29.998$  Parents go through training to help

NOTE Confidence: 0.6763666

 $00:25:29.998 \longrightarrow 00:25:31.850$  their child face anxiety level.

 $00:25:31.850 \longrightarrow 00:25:34.083$  It says the first step is to

NOTE Confidence: 0.6763666

 $00{:}25{:}34.083 \dashrightarrow 00{:}25{:}35.942$  show support and not downplay

NOTE Confidence: 0.6763666

 $00:25:35.942 \longrightarrow 00:25:38.017$  what their child is feeling.

NOTE Confidence: 0.6763666

 $00:25:38.020 \longrightarrow 00:25:39.106 I did it.$ 

NOTE Confidence: 0.6763666

00:25:39.106 --> 00:25:41.649 This is really hard but I know

NOTE Confidence: 0.83534503

 $00:25:41.650 \longrightarrow 00:25:43.830$  you can handle it label. It

NOTE Confidence: 0.83534503

 $00:25:43.830 \longrightarrow 00:25:46.252$  says. Parents also learn to help their

NOTE Confidence: 0.83534503

 $00:25:46.252 \longrightarrow 00:25:48.650$  child by not accommodating them.

NOTE Confidence: 0.83534503

 $00{:}25{:}48.650 \dashrightarrow 00{:}25{:}50.648$  For example, a parent who would

NOTE Confidence: 0.83534503

00:25:50.648 --> 00:25:53.111 limit visitors for a child who gets

NOTE Confidence: 0.83534503

 $00:25:53.111 \longrightarrow 00:25:55.229$  anxious around strangers or speaks for

NOTE Confidence: 0.83534503

 $00{:}25{:}55.229 \dashrightarrow 00{:}25{:}57.696$  a child who gets nervous speaking,

NOTE Confidence: 0.83534503

 $00:25:57.700 \longrightarrow 00:26:00.596$  learns not to take those steps in the

NOTE Confidence: 0.83534503

 $00{:}26{:}00.596 \dashrightarrow 00{:}26{:}03.130$  study of 124 kids and their parents.

NOTE Confidence: 0.83534503

 $00{:}26{:}03.130 \dashrightarrow 00{:}26{:}05.010$  The Yale researchers examined whether

NOTE Confidence: 0.83534503

 $00:26:05.010 \longrightarrow 00:26:06.890$  the space intervention was effective

 $00{:}26{:}06.942 \dashrightarrow 00{:}26{:}08.612$  in treating children's anxiety even

NOTE Confidence: 0.83534503

 $00:26:08.612 \longrightarrow 00:26:10.732$  though the children never met directly

NOTE Confidence: 0.83534503

 $00:26:10.732 \longrightarrow 00:26:13.266$  with the therapist and all the work

NOTE Confidence: 0.8448307

 $00:26:13.270 \longrightarrow 00:26:14.710$  was done for the

NOTE Confidence: 0.8448307

 $00:26:14.710 \longrightarrow 00:26:16.158$  parents, we found that

NOTE Confidence: 0.8448307

 $00:26:16.160 \longrightarrow 00:26:17.249$  space was just

NOTE Confidence: 0.84230604

 $00:26:17.250 \longrightarrow 00:26:19.270$  as effective as CBT. In

NOTE Confidence: 0.8322074

00:26:19.270 --> 00:26:21.440 treating childhood anxiety disorders.

NOTE Confidence: 0.8322074

 $00:26:21.440 \longrightarrow 00:26:23.905$  The Monkees used the techniques learned

NOTE Confidence: 0.8322074

 $00{:}26{:}23.905 \dashrightarrow 00{:}26{:}26.029$  through space to coach their sign

NOTE Confidence: 0.8322074

 $00:26:26.029 \longrightarrow 00:26:27.907$  through bedtime within a few weeks.

NOTE Confidence: 0.8322074

 $00{:}26{:}27.910 \dashrightarrow 00{:}26{:}30.290$  He was falling a sleep in 30 minutes.

NOTE Confidence: 0.8322074

 $00{:}26{:}30.290 \dashrightarrow 00{:}26{:}31.985$  It was practically like like

NOTE Confidence: 0.8322074

 $00:26:31.985 \longrightarrow 00:26:33.680$  changing constant for news 10.

NOTE Confidence: 0.8322074

 $00:26:33.680 \longrightarrow 00:26:34.694$  I'm Mallory Anderson,

 $00:26:34.694 \longrightarrow 00:26:35.370$  reporting Mallory.

NOTE Confidence: 0.8322074

 $00:26:35.370 \longrightarrow 00:26:37.230$  Thank you For more information about

NOTE Confidence: 0.8322074

00:26:37.230 --> 00:26:40.117 space or to find a practitioner in Michigan,

NOTE Confidence: 0.8322074

 $00:26:40.120 \longrightarrow 00:26:42.154$  click on the links in this

NOTE Confidence: 0.8322074

 $00:26:42.154 \longrightarrow 00:26:43.510$  article on our website.

NOTE Confidence: 0.89019793

00:26:44.510 --> 00:26:47.930 It's so brief, but in just under 2 minutes

NOTE Confidence: 0.89019793

 $00:26:47.930 \longrightarrow 00:26:50.756$  parents can learn some key points that

NOTE Confidence: 0.89019793

 $00:26:50.756 \longrightarrow 00:26:54.073$  can have long lasting impact on their

NOTE Confidence: 0.89019793

 $00:26:54.073 \longrightarrow 00:26:56.285$  children's anxiety and development.

NOTE Confidence: 0.89019793

 $00:26:56.290 \longrightarrow 00:26:58.552$  Therapists around the world have also

NOTE Confidence: 0.89019793

 $00{:}26{:}58.552 \dashrightarrow 00{:}27{:}01.213$  been eager to learn how to deliver

NOTE Confidence: 0.89019793

00:27:01.213 --> 00:27:03.373 space treatment in their own work,

NOTE Confidence: 0.89019793

 $00:27:03.380 \longrightarrow 00:27:05.414$  and we have held training workshops

NOTE Confidence: 0.89019793

 $00{:}27{:}05.414 \dashrightarrow 00{:}27{:}07.578$  each month so that hundreds of

NOTE Confidence: 0.89019793

 $00:27:07.578 \longrightarrow 00:27:09.798$  clinicians around the world can now

NOTE Confidence: 0.89019793

00:27:09.798 --> 00:27:12.193 offer space as another option for

00:27:12.193 --> 00:27:14.173 helping children and families impacted

NOTE Confidence: 0.89019793

 $00:27:14.173 \longrightarrow 00:27:16.799$  by childhood anxiety disorders.

NOTE Confidence: 0.89019793

00:27:16.800 --> 00:27:19.122 Recently we received a grant from

NOTE Confidence: 0.89019793

 $00:27:19.122 \longrightarrow 00:27:21.109$  the National Institutes of Health

NOTE Confidence: 0.89019793

 $00:27:21.109 \longrightarrow 00:27:23.353$  to continue the work of studying

NOTE Confidence: 0.89019793

 $00:27:23.353 \longrightarrow 00:27:25.773$  this treatment and its impacts on

NOTE Confidence: 0.89019793

00:27:25.773 --> 00:27:27.828 child anxiety and brain functioning.

NOTE Confidence: 0.89019793

 $00:27:27.830 \longrightarrow 00:27:29.800$  In other areas of research,

NOTE Confidence: 0.89019793

 $00:27:29.800 \longrightarrow 00:27:31.765$  we're making exciting discoveries with

NOTE Confidence: 0.89019793

 $00:27:31.765 \longrightarrow 00:27:34.129$  the potential to inform future treatments.

NOTE Confidence: 0.89019793

 $00:27:34.130 \longrightarrow 00:27:36.776$  One example is our work in the

NOTE Confidence: 0.89019793

 $00:27:36.776 \longrightarrow 00:27:38.470$  fibroblast growth factor system.

NOTE Confidence: 0.89019793

 $00{:}27{:}38.470 \dashrightarrow 00{:}27{:}41.046$  This system was first shown in animal

NOTE Confidence: 0.89019793

 $00:27:41.046 \longrightarrow 00:27:44.135$  studies that we linked to behavioral and

NOTE Confidence: 0.89019793

 $00:27:44.135 \longrightarrow 00:27:47.009$  biological models of anxiety and depression.

00:27:47.010 --> 00:27:49.908 We conducted the first study of this

NOTE Confidence: 0.89019793

 $00{:}27{:}49.908 \dashrightarrow 00{:}27{:}52.094$  potential novel biomarker in human

NOTE Confidence: 0.89019793

00:27:52.094 --> 00:27:54.284 children with anxiety and depression,

NOTE Confidence: 0.89019793

 $00:27:54.290 \longrightarrow 00:27:56.300$  and the findings are consistent

NOTE Confidence: 0.89019793

 $00:27:56.300 \longrightarrow 00:27:58.990$  with what was shown in rodents.

NOTE Confidence: 0.89019793

 $00{:}27{:}58.990 \dashrightarrow 00{:}28{:}00.642$  Fibroblast growth factor 2,

NOTE Confidence: 0.89019793

 $00{:}28{:}00.642 \dashrightarrow 00{:}28{:}03.120$  which plays important roles in brain

NOTE Confidence: 0.89019793

 $00:28:03.189 \longrightarrow 00:28:05.374$  development and in the generation

NOTE Confidence: 0.89019793

 $00:28:05.374 \longrightarrow 00:28:07.122$  of neurons throughout life,

NOTE Confidence: 0.89019793

 $00:28:07.130 \longrightarrow 00:28:10.304$  is linked to symptoms of anxiety

NOTE Confidence: 0.89019793

 $00:28:10.304 \longrightarrow 00:28:12.420$  and depression in children.

NOTE Confidence: 0.89019793

 $00:28:12.420 \longrightarrow 00:28:14.646$  One thing that makes this research

NOTE Confidence: 0.89019793

 $00:28:14.646 \longrightarrow 00:28:17.102$  so exciting is that the fiberglassed

NOTE Confidence: 0.89019793

 $00{:}28{:}17.102 \dashrightarrow 00{:}28{:}19.784$  system is not targeted by any

NOTE Confidence: 0.89019793

 $00:28:19.784 \longrightarrow 00:28:21.580$  current treatments for anxiety.

NOTE Confidence: 0.89019793

 $00{:}28{:}21.580 \dashrightarrow 00{:}28{:}25.204$  Discovering a new layer of the

00:28:25.204 --> 00:28:27.016 biological infrastructure underlying

NOTE Confidence: 0.89019793

 $00{:}28{:}27.016 \dashrightarrow 00{:}28{:}30.042$  anxiety problems could lead to an

NOTE Confidence: 0.89019793

 $00{:}28{:}30.042 \dashrightarrow 00{:}28{:}33.040$  entirely new class of treatments for

NOTE Confidence: 0.89019793

 $00:28:33.040 \longrightarrow 00:28:35.925$  these common and debilitating problems.

NOTE Confidence: 0.89019793

 $00:28:35.930 \longrightarrow 00:28:39.548$  So it has been a difficult year for all

NOTE Confidence: 0.89019793

 $00:28:39.548 \longrightarrow 00:28:43.394$  of us are year truly unlike any other.

NOTE Confidence: 0.89019793

00:28:43.400 --> 00:28:45.955 But the Child study Center and the

NOTE Confidence: 0.89019793

 $00:28:45.955 \longrightarrow 00:28:47.870$  anxiety program have been there

NOTE Confidence: 0.89019793

 $00{:}28{:}47.870 \dashrightarrow 00{:}28{:}50.474$  throughout doing what we can to help

NOTE Confidence: 0.89019793

 $00{:}28{:}50.474 \dashrightarrow 00{:}28{:}52.055$  children and families struggling

NOTE Confidence: 0.89019793

 $00{:}28{:}52.055 \dashrightarrow 00{:}28{:}55.202$  today and learning what we can to help

NOTE Confidence: 0.89019793

 $00:28:55.202 \longrightarrow 00:28:58.154$  children and families in the future.

NOTE Confidence: 0.89019793

00:28:58.160 --> 00:28:58.890 Thank you.

NOTE Confidence: 0.828778400000001

 $00:29:06.530 \longrightarrow 00:29:08.612$  So thank you Doctor Liebowitz and

NOTE Confidence: 0.828778400000001

00:29:08.612 --> 00:29:10.672 Doctor Mehrens we now have two

00:29:10.672 --> 00:29:12.490 questions in the chat which I'd

NOTE Confidence: 0.828778400000001

 $00{:}29{:}12.490 \dashrightarrow 00{:}29{:}14.597$  like to and I encourage encourage

NOTE Confidence: 0.828778400000001

 $00:29:14.597 \longrightarrow 00:29:17.186$  everyone to either speak up and ask

NOTE Confidence: 0.828778400000001

 $00:29:17.186 \longrightarrow 00:29:20.168$  questions or put them in the chat.

NOTE Confidence: 0.828778400000001

00:29:20.170 --> 00:29:22.246 The first one, Steven was about

NOTE Confidence: 0.828778400000001

00:29:22.246 --> 00:29:24.907 your work and there are any other

NOTE Confidence: 0.828778400000001

00:29:24.907 --> 00:29:26.912 providers trained in your model

NOTE Confidence: 0.828778400000001

 $00:29:26.912 \longrightarrow 00:29:29.105$  serving young people impacted by

NOTE Confidence: 0.828778400000001

 $00{:}29{:}29.105 \dashrightarrow 00{:}29{:}31.751$  family home destruction such as the

NOTE Confidence: 0.828778400000001

 $00:29:31.751 \longrightarrow 00:29:33.796$  Hurricanes or wildfires or earthquakes.

NOTE Confidence: 0.828778400000001

 $00{:}29{:}33.796 \dashrightarrow 00{:}29{:}36.610$  So would you like to address that?

NOTE Confidence: 0.8739262

 $00:29:36.610 \longrightarrow 00:29:38.997$  Yes, so many of the things that

NOTE Confidence: 0.8739262

 $00:29:38.997 \longrightarrow 00:29:41.464$  we're doing in the midst of of

NOTE Confidence: 0.8739262

 $00:29:41.464 \longrightarrow 00:29:43.510$  COVID-19 in terms of the broad

NOTE Confidence: 0.8739262

 $00:29:43.590 \longrightarrow 00:29:46.620$  public health approach was which is

NOTE Confidence: 0.8739262

 $00:29:46.620 \longrightarrow 00:29:48.640$  about increasing information and

00:29:48.640 --> 00:29:50.990 strategies for the broad populist.

NOTE Confidence: 0.8739262

 $00:29:50.990 \longrightarrow 00:29:54.494$  Have been applied in past hurricanes

NOTE Confidence: 0.8739262

 $00:29:54.494 \longrightarrow 00:29:57.789$  and and other catastrophic natural

NOTE Confidence: 0.8739262

 $00:29:57.789 \longrightarrow 00:30:00.090$  catastrophic events, and.

NOTE Confidence: 0.8739262

 $00:30:00.090 \longrightarrow 00:30:02.370$  They are available currently,

NOTE Confidence: 0.8739262

 $00:30:02.370 \longrightarrow 00:30:06.186$  as well as folks who are trained in CF

NOTE Confidence: 0.8739262

 $00:30:06.186 \longrightarrow 00:30:09.306$  Geosci in affected areas are employing

NOTE Confidence: 0.8739262

 $00:30:09.306 \longrightarrow 00:30:13.599$  CF TSI for families who are able to

NOTE Confidence: 0.8739262

 $00:30:13.599 \longrightarrow 00:30:16.803$  have access to those clinical services.

NOTE Confidence: 0.4298471

 $00:30:18.780 \longrightarrow 00:30:22.110$  Thank you Ann.

NOTE Confidence: 0.4298471

 $00:30:22.110 \longrightarrow 00:30:24.489$  Doctor Califon oh has asked both of you.

NOTE Confidence: 0.4298471

 $00:30:24.490 \longrightarrow 00:30:26.314$  Could you speak to your thoughts

NOTE Confidence: 0.4298471

00:30:26.314 --> 00:30:28.134 about the next stage of the

NOTE Confidence: 0.4298471

 $00:30:28.134 \longrightarrow 00:30:29.484$  pandemic that we are actually

NOTE Confidence: 0.4298471

 $00:30:29.484 \longrightarrow 00:30:31.569$  in the mid staff and what you

 $00:30:31.569 \longrightarrow 00:30:33.089$  would anticipate the next level

NOTE Confidence: 0.4298471

00:30:33.089 --> 00:30:35.248 of needs might be and how all of

NOTE Confidence: 0.4298471

 $00{:}30{:}35.248 \dashrightarrow 00{:}30{:}36.959$  us as clinicians should respond.

NOTE Confidence: 0.9118325

 $00:30:38.470 \longrightarrow 00:30:40.220$  I only wanted to take that first.

NOTE Confidence: 0.8945848

 $00:30:42.710 \longrightarrow 00:30:43.550$  Thank you.

NOTE Confidence: 0.8662811

00:30:45.810 --> 00:30:49.634 I, I think we're actually entering where are

NOTE Confidence: 0.8662811

 $00:30:49.634 \longrightarrow 00:30:54.295$  in a really critical phase of this entire.

NOTE Confidence: 0.8662811

00:30:54.300 --> 00:30:58.124 Saga when it comes to mental health needs,

NOTE Confidence: 0.8662811

 $00:30:58.130 \longrightarrow 00:31:01.224$  and not only because of the increasing

NOTE Confidence: 0.8662811

00:31:01.224 --> 00:31:04.038 empirical evidence for the frequency of

NOTE Confidence: 0.8662811

 $00{:}31{:}04.038 \dashrightarrow 00{:}31{:}06.393$  mental health problems among individuals

NOTE Confidence: 0.8662811

 $00:31:06.393 \longrightarrow 00:31:09.150$  who are diagnosed with COVID-19.

NOTE Confidence: 0.8662811

 $00:31:09.150 \longrightarrow 00:31:12.727$  And there has been some really troubling

NOTE Confidence: 0.8662811

 $00:31:12.727 \longrightarrow 00:31:15.932$  research around the prevalence of those

NOTE Confidence: 0.8662811

 $00:31:15.932 \longrightarrow 00:31:19.628$  of mental health problems among people who

NOTE Confidence: 0.8662811

 $00:31:19.717 \longrightarrow 00:31:23.038$  do get covid but also the cause of the.

 $00:31:26.000 \longrightarrow 00:31:29.760$  The wear and tear in a sense that

NOTE Confidence: 0.821672

 $00:31:29.760 \longrightarrow 00:31:33.458$  repeated and long-term challenges have,

NOTE Confidence: 0.821672

00:31:33.460 --> 00:31:38.570 you know, many of us, really.

NOTE Confidence: 0.821672

 $00{:}31{:}38.570 \dashrightarrow 00{:}31{:}41.839$  Shine in the initial moments of crisis.

NOTE Confidence: 0.821672

00:31:41.840 --> 00:31:45.109 It is true that many will struggle,

NOTE Confidence: 0.821672

 $00:31:45.110 \longrightarrow 00:31:47.046$  but many will also.

NOTE Confidence: 0.821672

 $00:31:47.046 \longrightarrow 00:31:49.950$  China those sure shorter term initial

NOTE Confidence: 0.821672

 $00:31:50.036 \longrightarrow 00:31:53.123$  moments of crisis we we may recruit

NOTE Confidence: 0.821672

00:31:53.123 --> 00:31:56.317 resources we may rise to the occasion,

NOTE Confidence: 0.821672

 $00:31:56.320 \longrightarrow 00:31:58.224$  but that gets increasingly

NOTE Confidence: 0.821672

 $00:31:58.224 \longrightarrow 00:32:01.450$  harder to do as time goes by.

NOTE Confidence: 0.821672

 $00:32:01.450 \longrightarrow 00:32:04.540$  And as we cycle through

NOTE Confidence: 0.821672

 $00:32:04.540 \longrightarrow 00:32:07.012$  another another cycle of.

NOTE Confidence: 0.821672

 $00:32:07.020 \longrightarrow 00:32:08.600$  Loss in many cases,

NOTE Confidence: 0.821672

 $00:32:08.600 \longrightarrow 00:32:10.970$  many children are going to be

 $00:32:11.053 \longrightarrow 00:32:14.275$  experiencing the loss of family members,

NOTE Confidence: 0.821672

 $00:32:14.280 \dashrightarrow 00:32:17.773$  loved ones and relatives and also repeated

NOTE Confidence: 0.821672

00:32:17.773 --> 00:32:21.243 cycles of loss of our of all those

NOTE Confidence: 0.821672

 $00:32:21.243 \longrightarrow 00:32:24.270$  things that make up our daily lives.

NOTE Confidence: 0.821672

 $00:32:24.270 \longrightarrow 00:32:28.358$  And I think that we're going to see

NOTE Confidence: 0.821672

 $00:32:28.358 \longrightarrow 00:32:31.789$  tremendous need in in children as they.

NOTE Confidence: 0.821672

00:32:31.790 --> 00:32:32.494 You know,

NOTE Confidence: 0.821672

 $00:32:32.494 \longrightarrow 00:32:34.958$  come to terms with this new phase,

NOTE Confidence: 0.821672

 $00{:}32{:}34.960 \longrightarrow 00{:}32{:}36.715$  an everything that it's going

NOTE Confidence: 0.821672

 $00:32:36.715 \longrightarrow 00:32:39.179$  to mean and we don't even yet.

NOTE Confidence: 0.821672

 $00{:}32{:}39.180 \dashrightarrow 00{:}32{:}41.708$  No what it is going to mean for

NOTE Confidence: 0.821672

 $00:32:41.708 \longrightarrow 00:32:43.542$  different places around the country

NOTE Confidence: 0.821672

 $00:32:43.542 \longrightarrow 00:32:45.798$  and we're going to see tremendous

NOTE Confidence: 0.821672

 $00:32:45.798 \longrightarrow 00:32:48.336$  need in parents who are going to

NOTE Confidence: 0.821672

 $00:32:48.336 \longrightarrow 00:32:50.444$  be coping themselves with all of

NOTE Confidence: 0.821672

 $00{:}32{:}50.444 \dashrightarrow 00{:}32{:}52.204$  the obligations that they have.

 $00:32:52.210 \longrightarrow 00:32:53.618$  Whether those are financial,

NOTE Confidence: 0.821672

00:32:53.618 --> 00:32:53.970 physical,

NOTE Confidence: 0.821672

 $00:32:53.970 \longrightarrow 00:32:55.725$  health related and the requirements

NOTE Confidence: 0.821672

 $00:32:55.725 \longrightarrow 00:32:56.778$  of their children.

NOTE Confidence: 0.821672

 $00:32:56.780 \longrightarrow 00:32:59.363$  So what I think we can foresee

NOTE Confidence: 0.821672

 $00:32:59.363 \longrightarrow 00:33:01.800$  is really a high level of.

NOTE Confidence: 0.821672

 $00:33:01.800 \longrightarrow 00:33:05.373$  Need and I think we need to be.

NOTE Confidence: 0.821672

 $00:33:05.380 \longrightarrow 00:33:07.415$  Braced for that because it's

NOTE Confidence: 0.821672

00:33:07.415 --> 00:33:09.043 going to be substantial.

NOTE Confidence: 0.8690848

 $00:33:10.270 \longrightarrow 00:33:12.140$  So I would agree with

NOTE Confidence: 0.8690848

 $00{:}33{:}12.140 --> 00{:}33{:}13.636$  everything that they do.

NOTE Confidence: 0.8690848

 $00:33:13.640 \dashrightarrow 00:33:16.244$  We're just saying Ellie and I would.

NOTE Confidence: 0.8690848

 $00{:}33{:}16.250 \dashrightarrow 00{:}33{:}19.616$  I would add just a few a few comments.

NOTE Confidence: 0.8690848

 $00:33:19.620 \longrightarrow 00:33:22.596$  One is that no right now we are

NOTE Confidence: 0.8690848

00:33:22.596 --> 00:33:25.081 confronted with and in the midst of

 $00:33:25.081 \longrightarrow 00:33:27.635$  a of a huge resurgence that brings

NOTE Confidence: 0.8690848

00:33:27.635 --> 00:33:30.463 home not only the threat of death,

NOTE Confidence: 0.8690848

 $00{:}33{:}30.470 \dashrightarrow 00{:}33{:}32.258$  but continued disruption an

NOTE Confidence: 0.8690848

 $00:33:32.258 \longrightarrow 00:33:34.046$  that fear and helplessness.

NOTE Confidence: 0.8690848

 $00:33:34.050 \longrightarrow 00:33:36.600$  Is are powerful enough factors,

NOTE Confidence: 0.8690848

 $00:33:36.600 \longrightarrow 00:33:40.640$  but the length of time that people have

NOTE Confidence: 0.8690848

 $00:33:40.640 \longrightarrow 00:33:43.766$  been sustaining the impact of COVID-19

NOTE Confidence: 0.8690848

 $00:33:43.766 \longrightarrow 00:33:46.796$  also can lead to 1/3 ingredient,

NOTE Confidence: 0.8690848

 $00{:}33{:}46.800 \dashrightarrow 00{:}33{:}49.860$  which is a sense of hopelessness.

NOTE Confidence: 0.8690848

 $00:33:49.860 \longrightarrow 00:33:50.406$  Fortunately,

NOTE Confidence: 0.8690848

 $00:33:50.406 \longrightarrow 00:33:53.136$  the announcement about the vaccines

NOTE Confidence: 0.8690848

 $00:33:53.136 \longrightarrow 00:33:56.298$  can help to hopefully offset the

NOTE Confidence: 0.8690848

 $00:33:56.298 \longrightarrow 00:33:58.528$  impact of that latter factor,

NOTE Confidence: 0.8690848

 $00:33:58.530 \longrightarrow 00:34:01.692$  but there's no more time and

NOTE Confidence: 0.8690848

 $00:34:01.692 \longrightarrow 00:34:04.350$  no harder time than now.

NOTE Confidence: 0.8690848

 $00:34:04.350 \longrightarrow 00:34:07.437$  After this long haul to recognize the

 $00:34:07.437 \longrightarrow 00:34:10.520$  extent to which we are all impacted.

NOTE Confidence: 0.8690848

 $00{:}34{:}10.520 \dashrightarrow 00{:}34{:}13.691$  There is a version of Covid fatigue

NOTE Confidence: 0.8690848

 $00:34:13.691 \longrightarrow 00:34:16.809$  that makes us want to turn away,

NOTE Confidence: 0.8690848

00:34:16.810 --> 00:34:19.395 including from our own experiences

NOTE Confidence: 0.8690848

 $00:34:19.395 \longrightarrow 00:34:21.980$  that in turn has implications

NOTE Confidence: 0.8690848

 $00:34:22.069 \longrightarrow 00:34:24.617$  not only for us as adults but

NOTE Confidence: 0.8690848

 $00:34:24.617 \longrightarrow 00:34:26.680$  also for adults as parents.

NOTE Confidence: 0.8690848

00:34:26.680 --> 00:34:27.691 And so again,

NOTE Confidence: 0.8690848

00:34:27.691 --> 00:34:31.074 the idea of our task of being able to

NOTE Confidence: 0.8690848

 $00:34:31.074 \longrightarrow 00:34:33.894$  increase and focus attention not only

NOTE Confidence: 0.8690848

 $00{:}34{:}33.894 \dashrightarrow 00{:}34{:}37.050$  on individuals ability to identify that

NOTE Confidence: 0.8690848

 $00:34:37.050 \longrightarrow 00:34:39.710$  what they're experiencing is normal,

NOTE Confidence: 0.8690848

 $00:34:39.710 \longrightarrow 00:34:40.781$  but not nice.

NOTE Confidence: 0.8690848

 $00:34:40.781 \longrightarrow 00:34:43.280$  But there are also some ways of

NOTE Confidence: 0.8690848

 $00:34:43.363 \longrightarrow 00:34:45.491$  attending to structured approaches

 $00:34:45.491 \longrightarrow 00:34:48.151$  to mitigating the impact and

NOTE Confidence: 0.8690848

 $00:34:48.151 \longrightarrow 00:34:50.943$  the symptoms that follow is

NOTE Confidence: 0.8690848

 $00:34:50.943 \longrightarrow 00:34:53.123$  especially important right now.

NOTE Confidence: 0.83288693

 $00{:}34{:}54.860 \dashrightarrow 00{:}34{:}56.770$  Thank you Steve and Eli.

NOTE Confidence: 0.83288693

 $00:34:56.770 \longrightarrow 00:34:59.050$  There is a question from Julie

NOTE Confidence: 0.83288693

00:34:59.050 --> 00:35:01.190 Klingenstein, can you provide a link

NOTE Confidence: 0.83288693

 $00:35:01.190 \longrightarrow 00:35:03.620$  to the space guidance for parents?

NOTE Confidence: 0.8836737

 $00:35:04.610 \longrightarrow 00:35:07.738$  Yes, in fact I will write a link.

NOTE Confidence: 0.8836737

00:35:07.740 --> 00:35:10.372 I'll say it, but I will write a

NOTE Confidence: 0.8836737

 $00:35:10.372 \longrightarrow 00:35:13.367$  link in the chat because maybe that

NOTE Confidence: 0.8836737

 $00{:}35{:}13.367 \dashrightarrow 00{:}35{:}16.210$  will be even easier. So I just did.

NOTE Confidence: 0.8836737

 $00:35:16.210 \longrightarrow 00:35:18.358$  So the best place to get information

NOTE Confidence: 0.8836737

 $00:35:18.358 \longrightarrow 00:35:21.442$  relating to space treatment is on

NOTE Confidence: 0.8836737

 $00:35:21.442 \longrightarrow 00:35:22.984$  the website spacetreatment.net,

NOTE Confidence: 0.8836737

00:35:22.990 --> 00:35:26.378 which I maintain. Any resources?

NOTE Confidence: 0.8836737

 $00:35:26.378 \longrightarrow 00:35:27.774$  There's information for professionals

 $00:35:27.774 \longrightarrow 00:35:30.020$  who are interested in becoming trained,

NOTE Confidence: 0.8836737

 $00:35:30.020 \dashrightarrow 00:35:32.200$  but there's also many resources for

NOTE Confidence: 0.8836737

 $00:35:32.200 \longrightarrow 00:35:34.727$  parents and others on the Resource tab.

NOTE Confidence: 0.8836737

 $00:35:34.730 \longrightarrow 00:35:36.902$  There are links to both books

NOTE Confidence: 0.8836737

 $00:35:36.902 \longrightarrow 00:35:37.988$  and research articles,

NOTE Confidence: 0.8836737

 $00:35:37.990 \longrightarrow 00:35:40.120$  as well as many media articles

NOTE Confidence: 0.8836737

00:35:40.120 --> 00:35:42.329 like I mentioned in the video,

NOTE Confidence: 0.8836737

 $00:35:42.330 \longrightarrow 00:35:44.506$  and there are also forums where

NOTE Confidence: 0.8836737

 $00{:}35{:}44.506 \dashrightarrow 00{:}35{:}45.970$  parents and professionals can

NOTE Confidence: 0.8836737

 $00:35:45.970 \longrightarrow 00:35:48.206$  interact and write and get advice

NOTE Confidence: 0.8836737

 $00:35:48.206 \longrightarrow 00:35:49.926$  and connect with each other,

NOTE Confidence: 0.8836737

 $00:35:49.930 \longrightarrow 00:35:51.964$  so that's the best place to

NOTE Confidence: 0.8836737

 $00{:}35{:}51.964 \dashrightarrow 00{:}35{:}53.780$  visit for information about space

NOTE Confidence: 0.8836737

 $00:35:53.780 \longrightarrow 00:35:55.360$  is really space treatment.

NOTE Confidence: 0.8753434

 $00:35:57.770 \longrightarrow 00:35:58.746$  And also another question,

 $00:35:58.746 \longrightarrow 00:36:00.797$  is there a specific age range that the

NOTE Confidence: 0.8753434

 $00:36:00.797 \longrightarrow 00:36:02.137$  interventions are best suited for?

NOTE Confidence: 0.8753434

00:36:02.140 --> 00:36:04.284 And I think that actually in many ways

NOTE Confidence: 0.8753434

00:36:04.284 --> 00:36:06.254 could go to both of you, but Eli,

NOTE Confidence: 0.8753434

 $00:36:06.254 \longrightarrow 00:36:10.930$  do you want to start? Sure, so.

NOTE Confidence: 0.8694768

 $00:36:10.930 \longrightarrow 00:36:13.204$  We have conducted clinical trials of

NOTE Confidence: 0.8694768

00:36:13.204 --> 00:36:15.840 space across a fairly broad age range,

NOTE Confidence: 0.8694768

 $00:36:15.840 \longrightarrow 00:36:17.730$  with the youngest study being

NOTE Confidence: 0.8694768

00:36:17.730 --> 00:36:19.242 in preschool age children.

NOTE Confidence: 0.8694768

 $00:36:19.250 \longrightarrow 00:36:20.758$  So we're talking about

NOTE Confidence: 0.8694768

 $00{:}36{:}20.758 \dashrightarrow 00{:}36{:}22.643$  children ages three and four.

NOTE Confidence: 0.8694768

 $00:36:22.650 \longrightarrow 00:36:24.540$  Proximately we've done several clinical

NOTE Confidence: 0.8694768

 $00:36:24.540 \longrightarrow 00:36:26.430$  trials in school age children,

NOTE Confidence: 0.8694768

00:36:26.430 --> 00:36:28.698 so like 6 through early adolescence,

NOTE Confidence: 0.8694768

 $00:36:28.700 \longrightarrow 00:36:31.444$  and we even have worked with not just

NOTE Confidence: 0.8694768

 $00:36:31.444 \longrightarrow 00:36:33.608$  older parents of older adolescents,

00:36:33.610 --> 00:36:35.878 but using a version of space,

NOTE Confidence: 0.8694768

 $00{:}36{:}35{.}880 \dashrightarrow 00{:}36{:}38.136$  even with parents of a dult children

NOTE Confidence: 0.8694768

 $00:36:38.136 \longrightarrow 00:36:40.481$  who struggle with anxiety and other

NOTE Confidence: 0.8694768

00:36:40.481 --> 00:36:42.809 mental health problems and remain highly

NOTE Confidence: 0.8694768

 $00:36:42.809 \longrightarrow 00:36:45.318$  impaired and dependent on their parents.

NOTE Confidence: 0.8694768

 $00:36:45.320 \longrightarrow 00:36:46.945$  And unable to function independently

NOTE Confidence: 0.8694768

 $00:36:46.945 \longrightarrow 00:36:48.980$  as adults in the world.

NOTE Confidence: 0.8694768

00:36:48.980 --> 00:36:50.858 So really, across a fairly broad

NOTE Confidence: 0.8694768

 $00{:}36{:}50.858 \dashrightarrow 00{:}36{:}52.875$  age range with with the most

NOTE Confidence: 0.8694768

 $00{:}36{:}52.875 \dashrightarrow 00{:}36{:}54.635$  research focusing on school age.

NOTE Confidence: 0.8300786

 $00:36:56.230 \longrightarrow 00:36:59.844$  Steven, do you want to comment about CF

NOTE Confidence: 0.8300786

 $00:36:59.844 \longrightarrow 00:37:02.560$  TSI or other other inventions? Well,

NOTE Confidence: 0.8300786

 $00{:}37{:}02.560 \dashrightarrow 00{:}37{:}05.458$  I think that the what's what's really

NOTE Confidence: 0.8300786

 $00:37:05.458 \longrightarrow 00:37:08.123$  quite wonderful about the CF TSI

NOTE Confidence: 0.8300786

00:37:08.123 --> 00:37:10.368 dissemination is that we've worked

 $00:37:10.368 \longrightarrow 00:37:12.773$  with organizations like the National

NOTE Confidence: 0.8300786

 $00:37:12.773 \dashrightarrow 00:37:15.635$  Children's Alliance that has helped to

NOTE Confidence: 0.8300786

 $00:37:15.635 \dashrightarrow 00:37:18.120$  proliferate the the number of clinicians

NOTE Confidence: 0.8300786

 $00:37:18.120 \longrightarrow 00:37:21.110$  who are trained in offering CF TSI

NOTE Confidence: 0.8300786

 $00:37:21.110 \longrightarrow 00:37:23.395$  and the National Children's Alliance

NOTE Confidence: 0.8300786

00:37:23.395 --> 00:37:26.060 represents 900 child advocacy centers.

NOTE Confidence: 0.8300786

 $00:37:26.060 \longrightarrow 00:37:29.518$  These are centers that deal with children.

NOTE Confidence: 0.8300786

00:37:29.520 --> 00:37:32.220 Who are sexually or physically abused,

NOTE Confidence: 0.8300786

 $00{:}37{:}32.220 \to 00{:}37{:}35.272$  and we're also working closely with our

NOTE Confidence: 0.8300786

 $00:37:35.272 \longrightarrow 00:37:38.287$  colleagues in a network of pediatric

NOTE Confidence: 0.8300786

 $00{:}37{:}38.287 \dashrightarrow 00{:}37{:}40.987$  emergency rooms to increase the

NOTE Confidence: 0.8300786

 $00:37:40.987 \longrightarrow 00:37:43.574$  availability of C FTSI to children

NOTE Confidence: 0.8300786

 $00:37:43.574 \longrightarrow 00:37:46.156$  who are seen because of of injuries

NOTE Confidence: 0.8300786

 $00:37:46.156 \longrightarrow 00:37:48.336$  or because they have witnessed

NOTE Confidence: 0.8300786

 $00:37:48.336 \longrightarrow 00:37:50.608$  terrible events that bring their

NOTE Confidence: 0.8300786

 $00:37:50.608 \longrightarrow 00:37:52.918$  parents to the emergency Department.

 $00:37:52.920 \longrightarrow 00:37:56.752$  We are also working on evaluating a version

NOTE Confidence: 0.8300786

 $00:37:56.752 \longrightarrow 00:38:00.978$  of CFT aside for three to six year olds.

NOTE Confidence: 0.8300786

 $00:38:00.980 \dashrightarrow 00:38:04.515$  And that work is is continuing a pace,

NOTE Confidence: 0.8300786

 $00:38:04.520 \longrightarrow 00:38:07.556$  in spite of the pandemic.

NOTE Confidence: 0.8908051

 $00:38:09.200 \longrightarrow 00:38:11.552$  I think I would direct this question

NOTE Confidence: 0.8908051

 $00:38:11.552 \longrightarrow 00:38:14.735$  to both of you as we are waiting for

NOTE Confidence: 0.8908051

 $00:38:14.735 \longrightarrow 00:38:17.414$  other questions to come to the chat as

NOTE Confidence: 0.8908051

 $00:38:17.414 \longrightarrow 00:38:19.930$  we've had to switch over to Tele Health

NOTE Confidence: 0.8908051

 $00:38:19.930 \longrightarrow 00:38:22.060$  and converted so many services that

NOTE Confidence: 0.8908051

 $00:38:22.060 \longrightarrow 00:38:24.227$  converted all of our services to that.

NOTE Confidence: 0.8908051

 $00:38:24.230 \longrightarrow 00:38:26.568$  Could you both comment on the differences?

NOTE Confidence: 0.8908051

 $00:38:26.570 \longrightarrow 00:38:28.484$  The advantages disadvantages that you've seen

NOTE Confidence: 0.8908051

 $00:38:28.484 \longrightarrow 00:38:30.908$  in the models that you're speaking about.

NOTE Confidence: 0.7665514

 $00:38:34.390 \longrightarrow 00:38:35.200$  Ellie, why don't

NOTE Confidence: 0.7665514

 $00:38:35.200 \longrightarrow 00:38:37.344$  you start and I'll chime in after your

 $00:38:37.350 \longrightarrow 00:38:38.690$  soul and I want to

NOTE Confidence: 0.7665514

 $00:38:38.690 \dashrightarrow 00:38:40.310$  be clear. I understand the question.

NOTE Confidence: 0.8243735

 $00:38:41.020 \longrightarrow 00:38:43.336$  So the delivery of CF TSI,

NOTE Confidence: 0.8243735

 $00:38:43.340 \longrightarrow 00:38:44.772$  for example through virtual

NOTE Confidence: 0.8243735

 $00:38:44.772 \longrightarrow 00:38:46.562$  means or the delivery of

NOTE Confidence: 0.8243735

 $00:38:46.562 \longrightarrow 00:38:48.348$  space through virtual means.

NOTE Confidence: 0.8243735

 $00:38:48.350 \longrightarrow 00:38:50.280$  What are the advantages and

NOTE Confidence: 0.8243735

00:38:50.280 --> 00:38:51.824 disadvantages that you've seen?

NOTE Confidence: 0.87933135

00:38:52.820 --> 00:38:55.010 Well, with younger children under

NOTE Confidence: 0.87933135

 $00:38:55.010 \longrightarrow 00:38:57.626$  under five and six, it's harder,

NOTE Confidence: 0.87933135

 $00{:}38{:}57.630 \dashrightarrow 00{:}39{:}00.283$  but with with the older kids it's

NOTE Confidence: 0.87933135

 $00:39:00.283 \longrightarrow 00:39:02.869$  it's really been quite interesting.

NOTE Confidence: 0.87933135

 $00:39:02.870 \longrightarrow 00:39:06.414$  In some ways it actually provides a special

NOTE Confidence: 0.87933135

 $00:39:06.414 \longrightarrow 00:39:10.190$  time for a child and parent to be together

NOTE Confidence: 0.87933135

 $00:39:10.190 \longrightarrow 00:39:13.360$  because it is a conjoint treatment,

NOTE Confidence: 0.87933135

 $00:39:13.360 \longrightarrow 00:39:16.048$  so that above and beyond the efficacy

00:39:16.048 --> 00:39:18.599 and treating post traumatic symptoms,

NOTE Confidence: 0.87933135

 $00{:}39{:}18.600 \dashrightarrow 00{:}39{:}20.895$  the opportunity to be together

NOTE Confidence: 0.87933135

 $00:39:20.895 \longrightarrow 00:39:23.190$  in the midst of of.

NOTE Confidence: 0.87933135

 $00:39:23.190 \longrightarrow 00:39:25.590$  It is often very busy.

NOTE Confidence: 0.87933135

 $00{:}39{:}25.590 \dashrightarrow 00{:}39{:}27.458$  Households has its advantages.

NOTE Confidence: 0.87933135

 $00:39:27.458 \longrightarrow 00:39:30.260$  We've also actually seen an increase

NOTE Confidence: 0.87933135

 $00:39:30.336 \longrightarrow 00:39:32.288$  in continuity of engagement,

NOTE Confidence: 0.87933135

 $00:39:32.290 \longrightarrow 00:39:35.778$  and we think in part because some of

NOTE Confidence: 0.87933135

 $00:39:35.778 \longrightarrow 00:39:39.303$  the additional burdens of coming to the

NOTE Confidence: 0.87933135

 $00:39:39.303 \longrightarrow 00:39:42.350$  clinic and juggling work schedules, etc.

NOTE Confidence: 0.87933135

 $00:39:42.350 \longrightarrow 00:39:44.270$  As has been decreased,

NOTE Confidence: 0.87933135

 $00:39:44.270 \longrightarrow 00:39:47.264$  we've actually been quite impressed with

NOTE Confidence: 0.87933135

 $00:39{:}47.264 \dashrightarrow 00:39{:}51.280$  not only the the number of families that

NOTE Confidence: 0.87933135

 $00:39:51.280 \longrightarrow 00:39:54.610$  have been able to engage during the.

NOTE Confidence: 0.87933135

00:39:54.610 --> 00:39:55.534 Covid pandemic,

 $00:39:55.534 \longrightarrow 00:39:57.844$  but also equally impressed by

NOTE Confidence: 0.87933135

 $00:39:57.844 \longrightarrow 00:40:00.328$  the fact that there are so.

NOTE Confidence: 0.87933135

 $00:40:00.330 \longrightarrow 00:40:02.065$  More children who are currently

NOTE Confidence: 0.87933135

 $00:40:02.065 \longrightarrow 00:40:03.800$  being exposed to increases in

NOTE Confidence: 0.87933135

 $00:40:03.859 \longrightarrow 00:40:06.274$  domestic violence abuse and other

NOTE Confidence: 0.87933135

00:40:06.274 --> 00:40:07.723 potentially traumatic experiences,

NOTE Confidence: 0.87933135

 $00:40:07.730 \longrightarrow 00:40:09.780$  and it is good fortune,

NOTE Confidence: 0.87933135

00:40:09.780 --> 00:40:12.335 not only in New Haven but around

NOTE Confidence: 0.87933135

 $00:40:12.335 \longrightarrow 00:40:14.412$  the country that children and

NOTE Confidence: 0.87933135

 $00:40:14.412 \longrightarrow 00:40:16.682$  families have an opportunity to

NOTE Confidence: 0.87933135

 $00{:}40{:}16.682 \dashrightarrow 00{:}40{:}19.239$  be treated early and to recover.

NOTE Confidence: 0.80872047

00:40:21.560 --> 00:40:22.880 Kelly, you have thought.

NOTE Confidence: 0.85325074

 $00:40:23.790 \longrightarrow 00:40:26.934$  Yes, well, first of all it is such

NOTE Confidence: 0.85325074

 $00:40:26.934 \longrightarrow 00:40:29.616$  an important question because the we

NOTE Confidence: 0.85325074

00:40:29.616 --> 00:40:32.904 we love meeting in person with with

NOTE Confidence: 0.85325074

 $00:40:32.904 \longrightarrow 00:40:35.369$  our patients and really appreciate

 $00{:}40{:}35.369 \dashrightarrow 00{:}40{:}37.801$  that sort of direct connection

NOTE Confidence: 0.85325074

 $00{:}40{:}37.801 \dashrightarrow 00{:}40{:}40.507$  that in in person meeting provides.

NOTE Confidence: 0.85325074

 $00:40:40.510 \longrightarrow 00:40:43.035$  However, we're also really keenly

NOTE Confidence: 0.85325074

 $00:40:43.035 \longrightarrow 00:40:46.413$  aware of the barriers that the need

NOTE Confidence: 0.85325074

 $00:40:46.413 \longrightarrow 00:40:49.094$  to meet in person puts in place,

NOTE Confidence: 0.85325074

 $00:40:49.100 \longrightarrow 00:40:51.806$  even in a non covid world.

NOTE Confidence: 0.85325074

 $00:40:51.810 \longrightarrow 00:40:53.678$  Whether that is distance,

NOTE Confidence: 0.85325074

00:40:53.678 --> 00:40:55.079 not everybody lives.

NOTE Confidence: 0.85325074

 $00:40:55.080 \longrightarrow 00:40:57.565$  In close proximity to a skilled therapist,

NOTE Confidence: 0.85325074

 $00{:}40{:}57.570 \dashrightarrow 00{:}40{:}59.400$  whether that is time right having

NOTE Confidence: 0.85325074

 $00:40:59.400 \longrightarrow 00:41:02.299$  to go to a meeting in person triples

NOTE Confidence: 0.85325074

 $00:41:02.299 \longrightarrow 00:41:05.128$  the time at least typically wear for

NOTE Confidence: 0.85325074

 $00{:}41{:}05.128 \operatorname{--}{>} 00{:}41{:}07.550$  many patients 'cause you have to get

NOTE Confidence: 0.85325074

 $00{:}41{:}07.550 \dashrightarrow 00{:}41{:}10.252$  there and you have to get back and it

NOTE Confidence: 0.85325074

 $00:41:10.252 \longrightarrow 00:41:12.520$  has other costs like transportation,

 $00:41:12.520 \longrightarrow 00:41:14.300$  parking and things like that.

NOTE Confidence: 0.85325074

 $00:41:14.300 \longrightarrow 00:41:16.715$  And so being able to provide treatment

NOTE Confidence: 0.85325074

00:41:16.715 --> 00:41:18.928 to people even outside of kovid.

NOTE Confidence: 0.85325074

00:41:18.930 --> 00:41:20.382 Even putting that aside,

NOTE Confidence: 0.85325074

 $00:41:20.382 \longrightarrow 00:41:22.560$  being able to provide treatment remotely

NOTE Confidence: 0.85325074

00:41:22.618 --> 00:41:24.628 is actually a really important goal,

NOTE Confidence: 0.85325074

 $00:41:24.630 \longrightarrow 00:41:25.946$  and because of that.

NOTE Confidence: 0.85325074

00:41:25.946 --> 00:41:27.920 We were actually doing space over

NOTE Confidence: 0.85325074

 $00{:}41{:}27.981 \dashrightarrow 00{:}41{:}29.926$  talent even before the pandemic.

NOTE Confidence: 0.85325074

 $00:41:29.930 \longrightarrow 00:41:32.514$  We offered it as an option to all

NOTE Confidence: 0.85325074

 $00{:}41{:}32.514 \dashrightarrow 00{:}41{:}34.670$  the families that we were seeing

NOTE Confidence: 0.85325074

 $00{:}41{:}34.670 \dashrightarrow 00{:}41{:}36.818$  through the program and many of

NOTE Confidence: 0.85325074

 $00:41:36.897 \longrightarrow 00:41:39.214$  them collected to do it that way,

NOTE Confidence: 0.85325074

00:41:39.220 --> 00:41:41.369 which meant that any we had good

NOTE Confidence: 0.85325074

 $00:41:41.369 \longrightarrow 00:41:43.403$  practice and be we had good data

NOTE Confidence: 0.85325074

 $00:41:43.403 \longrightarrow 00:41:45.966$  and it showed us that we can do

00:41:45.966 --> 00:41:47.814 this treatment efficaciously now

NOTE Confidence: 0.85325074

 $00:41:47.814 \longrightarrow 00:41:49.200$  during social distancing.

NOTE Confidence: 0.85325074

 $00:41:49.200 \longrightarrow 00:41:51.657$  Of course it made it easier for

NOTE Confidence: 0.85325074

00:41:51.657 --> 00:41:54.102 us to transition to doing all of

NOTE Confidence: 0.85325074

00:41:54.102 --> 00:41:56.076 our work in over over Taylor,

NOTE Confidence: 0.85325074

 $00:41:56.080 \longrightarrow 00:41:57.484$  although now we are.

NOTE Confidence: 0.85325074

00:41:57.484 --> 00:41:59.239 Active providing and hope and

NOTE Confidence: 0.85325074

00:41:59.239 --> 00:42:01.764 I hope we are able to continue

NOTE Confidence: 0.85325074

00:42:01.764 --> 00:42:03.909 providing at least some in person,

NOTE Confidence: 0.85325074

 $00{:}42{:}03.910 \dashrightarrow 00{:}42{:}06.332$  but we were well positioned for it

NOTE Confidence: 0.85325074

 $00{:}42{:}06.332 \dashrightarrow 00{:}42{:}08.412$  and space itself lends itself to

NOTE Confidence: 0.85325074

 $00:42:08.412 \longrightarrow 00:42:10.687$  Tele treatment in a way that not

NOTE Confidence: 0.85325074

 $00{:}42{:}10.761 --> 00{:}42{:}13.115$  every the rapy does. It is hard.

NOTE Confidence: 0.85325074

00:42:13.115 --> 00:42:14.890 I won't say it's impossible,

NOTE Confidence: 0.85325074

 $00:42:14.890 \longrightarrow 00:42:18.067$  but it is hard to do play therapy over.

00:42:18.070 --> 00:42:21.256 Tell it you know, with with a young child,

NOTE Confidence: 0.85325074

 $00:42:21.260 \longrightarrow 00:42:23.738$  that's that's a challenging thing for sure.

NOTE Confidence: 0.85325074

 $00:42:23.740 \longrightarrow 00:42:25.510$  Space is done with parents.

NOTE Confidence: 0.85325074

 $00:42:25.510 \longrightarrow 00:42:28.037$  It's a meeting between a therapist and.

NOTE Confidence: 0.85325074

 $00:42:28.040 \longrightarrow 00:42:29.084$  One or two adults,

NOTE Confidence: 0.85325074

 $00:42:29.084 \longrightarrow 00:42:30.979$  and that means that it is easier

NOTE Confidence: 0.85325074

 $00:42:30.979 \longrightarrow 00:42:33.115$  to do now we have learned a little

NOTE Confidence: 0.85325074

 $00:42:33.115 \longrightarrow 00:42:34.808$  bit about what it requires.

NOTE Confidence: 0.85325074

 $00:42:34.810 \longrightarrow 00:42:36.842$  We do need to still treat it as

NOTE Confidence: 0.85325074

 $00:42:36.842 \longrightarrow 00:42:37.910$  a therapy session.

NOTE Confidence: 0.85325074

00:42:37.910 --> 00:42:39.709 We can't do it while people are

NOTE Confidence: 0.85325074

 $00:42:39.709 \longrightarrow 00:42:41.580$  waiting in line at the supermarket.

NOTE Confidence: 0.85325074

00:42:41.580 --> 00:42:44.400 Or, you know, working out at the at the gym.

NOTE Confidence: 0.85325074

 $00:42:44.400 \longrightarrow 00:42:46.367$  But we are able to do it.

NOTE Confidence: 0.85325074

 $00:42:46.370 \longrightarrow 00:42:47.210$  And this treatment.

NOTE Confidence: 0.85325074

 $00:42:47.210 \longrightarrow 00:42:49.170$  I really do think lends itself to

00:42:49.225 --> 00:42:51.129 that kind of modality in a way that

NOTE Confidence: 0.85325074

 $00:42:51.129 \longrightarrow 00:42:52.608$  not every therapy actually does

NOTE Confidence: 0.85325074

00:42:52.608 --> 00:42:54.510 that we're very happy with the

NOTE Confidence: 0.85325074

 $00:42:54.510 \longrightarrow 00:42:56.240$  ability to do space over overtime,

NOTE Confidence: 0.85325074

 $00:42:56.240 \longrightarrow 00:42:57.800$  and we will continue to offer

NOTE Confidence: 0.85325074

 $00:42:57.800 \longrightarrow 00:42:59.914$  it as an option even when social

NOTE Confidence: 0.85325074

 $00:42:59.914 \longrightarrow 00:43:01.266$  distancing is no longer.

NOTE Confidence: 0.85325074

 $00:43:01.270 \longrightarrow 00:43:01.980$  Are required.

NOTE Confidence: 0.82630384

 $00:43:02.720 \longrightarrow 00:43:05.632$  Yeah, I just had to add one other

NOTE Confidence: 0.82630384

 $00:43:05.632 \longrightarrow 00:43:08.665$  comment that with CF TSI we had been

NOTE Confidence: 0.82630384

 $00{:}43{:}08.665 \dashrightarrow 00{:}43{:}11.091$  struggling prior to the pandemic about

NOTE Confidence: 0.82630384

 $00{:}43{:}11.091 \dashrightarrow 00{:}43{:}14.080$  how to address the needs of families

NOTE Confidence: 0.82630384

 $00{:}43{:}14.080 \dashrightarrow 00{:}43{:}16.670$  in rural communities or where there is

NOTE Confidence: 0.82630384

 $00:43:16.670 \longrightarrow 00:43:19.229$  a paucity of mental health services.

NOTE Confidence: 0.82630384

00:43:19.230 --> 00:43:21.694 And in many ways learning quickly how

 $00:43:21.694 \longrightarrow 00:43:25.195$  to adapt CF TSI to a virtual format has

NOTE Confidence: 0.82630384

 $00{:}43{:}25.195 \dashrightarrow 00{:}43{:}27.684$  actually solved an enormous problem that

NOTE Confidence: 0.82630384

00:43:27.684 --> 00:43:30.603 is now making safety sign much more

NOTE Confidence: 0.82630384

 $00:43:30.603 \longrightarrow 00:43:32.588$  available regardless of families locations.

NOTE Confidence: 0.79241586

00:43:33.230 --> 00:43:34.910 Guess even add tongue Israel.

NOTE Confidence: 0.79241586

 $00{:}43{:}34.910 \dashrightarrow 00{:}43{:}37.360$  Thank you for the comment that these

NOTE Confidence: 0.79241586

 $00:43:37.360 \longrightarrow 00:43:39.598$  great programs work well in New Haven.

NOTE Confidence: 0.79241586

 $00:43:39.600 \longrightarrow 00:43:41.270$  Are you also asking do

NOTE Confidence: 0.79241586

00:43:41.270 --> 00:43:42.606 they work well elsewhere,

NOTE Confidence: 0.79241586

 $00:43:42.610 \longrightarrow 00:43:45.616$  which I'm assuming would be the.

NOTE Confidence: 0.79241586

 $00:43:45.620 \longrightarrow 00:43:48.220$  Implication of the question.

NOTE Confidence: 0.79241586

 $00:43:48.220 \longrightarrow 00:43:49.620$  Stephen Lady want to talk

NOTE Confidence: 0.79241586

 $00:43:49.620 \longrightarrow 00:43:50.180$  about dissemination?

NOTE Confidence: 0.79241586

00:43:50.180 --> 00:43:52.980 I think you both touched a little bit on it,

NOTE Confidence: 0.79241586

 $00:43:52.980 \longrightarrow 00:43:54.940$  but maybe to make it more explicit.

NOTE Confidence: 0.8762727

00:43:57.160 --> 00:43:59.624 Yeah, I, I think that number one

 $00:43:59.624 \longrightarrow 00:44:02.479$  being able to we've been doing in

NOTE Confidence: 0.8762727

 $00{:}44{:}02.479 \to 00{:}44{:}05.053$  person trainings for many many years

NOTE Confidence: 0.8762727

 $00:44:05.133 \longrightarrow 00:44:07.758$  in which we both travel to other

NOTE Confidence: 0.8762727

 $00:44:07.758 \longrightarrow 00:44:09.850$  States and other countries to do

NOTE Confidence: 0.8762727

 $00:44:09.850 \longrightarrow 00:44:12.582$  in person training an we have a an

NOTE Confidence: 0.8762727

 $00{:}44{:}12.582 \dashrightarrow 00{:}44{:}14.692$  annual training that brings people

NOTE Confidence: 0.8762727

 $00:44:14.692 \longrightarrow 00:44:16.880$  together from around the country

NOTE Confidence: 0.8762727

 $00:44:16.880 \longrightarrow 00:44:19.448$  and sometimes from around the world.

NOTE Confidence: 0.8762727

 $00:44:19.450 \longrightarrow 00:44:21.400$  Every year in New Haven.

NOTE Confidence: 0.8762727

 $00:44:21.400 \longrightarrow 00:44:23.480$  Since the pandemic we've continued

NOTE Confidence: 0.8762727

00:44:23.480 --> 00:44:25.560 our trainings an we've learned

NOTE Confidence: 0.8762727

 $00:44:25.625 \longrightarrow 00:44:28.013$  how to we've developed a virtual

NOTE Confidence: 0.8762727

00:44:28.013 --> 00:44:29.207 training approach that.

NOTE Confidence: 0.8762727

 $00:44:29.210 \longrightarrow 00:44:32.030$  We conducted a virtual training this

NOTE Confidence: 0.8762727

 $00:44:32.030 \longrightarrow 00:44:34.830$  summer involving 75 clinicians from around

00:44:34.830 --> 00:44:37.356 the country and several from abroad,

NOTE Confidence: 0.8762727

 $00:44:37.360 \longrightarrow 00:44:40.016$  and we're about to do a round of

NOTE Confidence: 0.8762727

 $00:44:40.016 \longrightarrow 00:44:41.891$  training for Scandinavian countries

NOTE Confidence: 0.8762727

 $00:44:41.891 \longrightarrow 00:44:44.163$  and Eastern European countries

NOTE Confidence: 0.8762727

 $00:44:44.163 \longrightarrow 00:44:46.880$  several months down the road.

NOTE Confidence: 0.8762727

00:44:46.880 --> 00:44:50.496 So actually that part has been very doable.

NOTE Confidence: 0.8762727

 $00:44:50.500 \longrightarrow 00:44:53.206$  There's ongoing consultation that has is

NOTE Confidence: 0.8762727

00:44:53.206 --> 00:44:55.940 done telephonically as well as virtually,

NOTE Confidence: 0.8762727

 $00:44:55.940 \longrightarrow 00:45:00.068$  which is always been part of CFT assign.

NOTE Confidence: 0.8762727

 $00:45:00.070 \longrightarrow 00:45:02.200$  With regard to the policing trauma,

NOTE Confidence: 0.8762727

 $00:45:02.200 \longrightarrow 00:45:02.910$  informed policing,

NOTE Confidence: 0.8762727

 $00:45:02.910 \longrightarrow 00:45:05.750$  not every community has a child study center.

NOTE Confidence: 0.8762727

 $00:45:05.750 \longrightarrow 00:45:08.249$  None of the every community has the

NOTE Confidence: 0.8762727

 $00{:}45{:}08.249 \dashrightarrow 00{:}45{:}10.331$  opportunity to engage in this kind

NOTE Confidence: 0.8762727

 $00:45:10.331 \longrightarrow 00:45:12.522$  of partnership that we've done in New

NOTE Confidence: 0.8762727

 $00:45:12.594 \longrightarrow 00:45:14.976$  Haven and that other communities have.

 $00:45:14.980 \longrightarrow 00:45:17.356$  It's one of the reasons that we developed

NOTE Confidence: 0.8762727

 $00{:}45{:}17.356 \to 00{:}45{:}19.780$  the trauma informed Policing tool kit

NOTE Confidence: 0.8762727

 $00:45:19.780 \longrightarrow 00:45:21.985$  in conjunction with the international

NOTE Confidence: 0.8762727

00:45:21.985 --> 00:45:23.860 associations of the Chiefs of Police,

NOTE Confidence: 0.8762727

 $00:45:23.860 \longrightarrow 00:45:26.460$  which is now just been turned into an

NOTE Confidence: 0.8762727

 $00:45:26.460 \longrightarrow 00:45:28.752$  interactive web web based training for

NOTE Confidence: 0.8762727

00:45:28.752 --> 00:45:30.727 police officers around the country.

NOTE Confidence: 0.8762727

00:45:30.730 --> 00:45:33.100 This training has now been approved

NOTE Confidence: 0.8762727

 $00{:}45{:}33.100 \to 00{:}45{:}36.052$  in 35 states for officers to engage

NOTE Confidence: 0.8762727

 $00:45:36.052 \longrightarrow 00:45:38.644$  in this training and it enhances

NOTE Confidence: 0.8762727

00:45:38.644 --> 00:45:41.041 their ability to affectively respond

NOTE Confidence: 0.8762727

 $00:45:41.041 \longrightarrow 00:45:43.861$  to children and families in the

NOTE Confidence: 0.8762727

00:45:43.870 --> 00:45:45.454 throes of traumatic experiences,

NOTE Confidence: 0.8762727

 $00:45:45.454 \longrightarrow 00:45:49.130$  even in the absence of of clinical partners.

NOTE Confidence: 0.8762727

00:45:49.130 --> 00:45:51.746 We're also working with Saint Louis,

00:45:51.750 --> 00:45:53.940 virtually to replicate CD CP,

NOTE Confidence: 0.8762727

 $00:45:53.940 \longrightarrow 00:45:56.125$  and they have the wonderful

NOTE Confidence: 0.8762727

 $00:45:56.125 \longrightarrow 00:45:58.790$  advantage of also having a Contra

NOTE Confidence: 0.8762727

00:45:58.790 --> 00:46:01.562 of clinicians who are trained in CF

NOTE Confidence: 0.8762727

 $00:46:01.562 \longrightarrow 00:46:04.707$  TSI so there's a seamless response.

NOTE Confidence: 0.8762727

 $00:46:04.710 \longrightarrow 00:46:08.195$  From the police interaction to

NOTE Confidence: 0.8762727

00:46:08.195 --> 00:46:10.983 the clinical recovery efforts

NOTE Confidence: 0.8762727

00:46:10.983 --> 00:46:13.279 available through CF TSI.

NOTE Confidence: 0.8762727

 $00:46:13.280 \longrightarrow 00:46:13.560$  Thank

NOTE Confidence: 0.86961466

00:46:13.560 --> 00:46:15.477 you Steve and Eli. Do you want to talk

NOTE Confidence: 0.86961466

00:46:15.477 --> 00:46:17.199 about dissemination and replication?

NOTE Confidence: 0.8334359

 $00:46:18.970 \longrightarrow 00:46:21.938$  So a lot of my answer is echoes.

NOTE Confidence: 0.8334359

 $00:46:21.940 \longrightarrow 00:46:24.285$  The first half of Stevens answer

NOTE Confidence: 0.8334359

00:46:24.285 --> 00:46:26.961 in terms of the training that we

NOTE Confidence: 0.8334359

 $00:46:26.961 \longrightarrow 00:46:29.355$  continue to provide over over Tele.

NOTE Confidence: 0.8334359

 $00:46:29.360 \longrightarrow 00:46:31.215$  And we really are training

 $00:46:31.215 \longrightarrow 00:46:33.070$  people from around the world.

NOTE Confidence: 0.8334359

00:46:33.070 --> 00:46:35.667 In fact, people do visit that website

NOTE Confidence: 0.8334359

 $00:46:35.667 \longrightarrow 00:46:36.409$  the spacetreatment.net website.

NOTE Confidence: 0.8334359

00:46:36.410 --> 00:46:38.876 You can. There's a searchable list

NOTE Confidence: 0.8334359

 $00:46:38.876 \longrightarrow 00:46:41.238$  of space trained providers and it's

NOTE Confidence: 0.8334359

00:46:41.238 --> 00:46:43.822 searchable not only by state in the US,

NOTE Confidence: 0.8334359

 $00:46:43.830 \longrightarrow 00:46:46.008$  but by country because there are

NOTE Confidence: 0.8334359

 $00:46:46.008 \longrightarrow 00:46:47.910$  providers now around the world.

NOTE Confidence: 0.8334359

 $00:46:47.910 \longrightarrow 00:46:50.250$  And because we continue to provide

NOTE Confidence: 0.8334359

 $00:46:50.250 \longrightarrow 00:46:51.420$  consultation and remaining.

NOTE Confidence: 0.8334359

 $00:46:51.420 \longrightarrow 00:46:53.436$  Respondents with providers from many places.

NOTE Confidence: 0.8334359

 $00:46:53.440 \longrightarrow 00:46:55.432$  We also get a lot of feedback and

NOTE Confidence: 0.8334359

 $00:46:55.432 \longrightarrow 00:46:57.558$  are able to think through things

NOTE Confidence: 0.8334359

00:46:57.558 --> 00:46:59.513 like cultural adaptations of the

NOTE Confidence: 0.8334359

 $00:46:59.513 \longrightarrow 00:47:01.160$  treatment to different places.

 $00:47:01.160 \longrightarrow 00:47:03.452$  We have providers who are doing

NOTE Confidence: 0.8334359

 $00:47:03.452 \longrightarrow 00:47:06.159$  space in the Middle East and we

NOTE Confidence: 0.8334359

 $00:47:06.159 \longrightarrow 00:47:08.361$  have providers who are doing space

NOTE Confidence: 0.8334359

 $00:47:08.361 \longrightarrow 00:47:11.126$  in multiple countries in Asia and.

NOTE Confidence: 0.8334359

 $00:47:11.130 \longrightarrow 00:47:13.970$  Australia and many other places.

NOTE Confidence: 0.8334359

 $00:47:13.970 \longrightarrow 00:47:14.852$  Europe and and.

NOTE Confidence: 0.8334359

 $00:47:14.852 \longrightarrow 00:47:17.467$  And so we learn a lot about what

NOTE Confidence: 0.8334359

 $00:47:17.467 \longrightarrow 00:47:19.415$  refinements may be necessary

NOTE Confidence: 0.8334359

 $00:47:19.415 \longrightarrow 00:47:20.876$  for different cultures,

NOTE Confidence: 0.8334359

 $00:47:20.880 \longrightarrow 00:47:23.808$  but the But the short version of the

NOTE Confidence: 0.8334359

 $00{:}47{:}23.808 \dashrightarrow 00{:}47{:}26.598$  answer would be that it is applied

NOTE Confidence: 0.8334359

 $00:47:26.598 \longrightarrow 00:47:29.029$  successfully in by providers really

NOTE Confidence: 0.8334359

 $00:47:29.029 \longrightarrow 00:47:32.013$  from a very broad variety of low cats.

NOTE Confidence: 0.82884675

 $00:47:34.890 \longrightarrow 00:47:37.326$  Have you seen any cultural differences

NOTE Confidence: 0.82884675

 $00:47:37.326 \longrightarrow 00:47:39.630$  in the efficacious or efficacy?

NOTE Confidence: 0.86028796

 $00:47:40.560 \longrightarrow 00:47:41.970$  We have not had no.

 $00:47:41.970 \longrightarrow 00:47:43.370$  I don't think we've seen

NOTE Confidence: 0.86028796

 $00:47:43.370 \longrightarrow 00:47:44.210$  differences in efficacy.

NOTE Confidence: 0.86028796

 $00:47:44.210 \longrightarrow 00:47:45.944$  I think the efficacy has been

NOTE Confidence: 0.86028796

 $00:47:45.944 \longrightarrow 00:47:47.443$  maintained and preserved in the

NOTE Confidence: 0.86028796

 $00{:}47{:}47.443 \dashrightarrow 00{:}47{:}49.177$  different places and I should say

NOTE Confidence: 0.86028796

 $00:47:49.177 \longrightarrow 00:47:50.957$  that not everywhere where it is done,

NOTE Confidence: 0.86028796

 $00:47:50.960 \longrightarrow 00:47:53.208$  it is done in the context of research.

NOTE Confidence: 0.86028796

 $00:47:53.210 \longrightarrow 00:47:54.806$  There are many providers and programs

NOTE Confidence: 0.86028796

 $00:47:54.806 \longrightarrow 00:47:57.087$  and clinics that are doing it and not

NOTE Confidence: 0.86028796

 $00:47:57.087 \longrightarrow 00:47:58.255$  necessarily doing clinical trials,

NOTE Confidence: 0.86028796

 $00{:}47{:}58.260 \dashrightarrow 00{:}48{:}00.404$  but those that and there we get more

NOTE Confidence: 0.86028796

 $00:48:00.404 \longrightarrow 00:48:01.920$  anecdotal feedback from the providers,

NOTE Confidence: 0.86028796

00:48:01.920 --> 00:48:04.160 but where we have actual clinical trial data,

NOTE Confidence: 0.86028796

 $00:48:04.160 \longrightarrow 00:48:06.127$  we actually see similar levels of efficacy,

NOTE Confidence: 0.86028796

 $00:48:06.130 \longrightarrow 00:48:07.999$  but we do need to be thoughtful

 $00:48:07.999 \longrightarrow 00:48:10.014$  about culture and that is true when

NOTE Confidence: 0.86028796

00:48:10.014 --> 00:48:11.748 we're working in the United States.

NOTE Confidence: 0.86028796

00:48:11.750 --> 00:48:13.717 Even if you're just working here in

NOTE Confidence: 0.86028796

00:48:13.717 --> 00:48:15.736 New Haven, it's always a mistake.

NOTE Confidence: 0.86028796

 $00:48:15.736 \longrightarrow 00:48:18.550$  That one's own culture is the culture,

NOTE Confidence: 0.86028796

 $00:48:18.550 \longrightarrow 00:48:21.454$  and so we have to be sensitive to

NOTE Confidence: 0.86028796

 $00:48:21.454 \longrightarrow 00:48:23.053$  cultural differences when we're

NOTE Confidence: 0.86028796

 $00:48:23.053 \longrightarrow 00:48:25.471$  working right here locally and when

NOTE Confidence: 0.86028796

00:48:25.471 --> 00:48:27.584 we're working in places where it's

NOTE Confidence: 0.86028796

 $00:48:27.584 \longrightarrow 00:48:30.164$  a lot easier to keep that in mind.

NOTE Confidence: 0.86028796

 $00:48:30.164 \longrightarrow 00:48:31.974$  And where were more obvious?

NOTE Confidence: 0.72610855

 $00:48:33.620 \longrightarrow 00:48:35.845$  So Doctor Patalano has put

NOTE Confidence: 0.72610855

 $00:48:35.845 \longrightarrow 00:48:38.070$  a question in the chair.

NOTE Confidence: 0.72610855

00:48:38.070 --> 00:48:39.620 Ellie, can you see it?

NOTE Confidence: 0.72610855

 $00:48:39.620 \longrightarrow 00:48:41.456$  Do some parents insist that you

NOTE Confidence: 0.72610855

 $00:48:41.456 \longrightarrow 00:48:43.271$  meet with their parents to be

00:48:43.271 --> 00:48:44.606 sure that they're not missing

NOTE Confidence: 0.72610855

00:48:44.606 --> 00:48:46.410 any of their child's problems?

NOTE Confidence: 0.791993

00:48:49.100 --> 00:48:51.562 OK, I do see it, but I think he

NOTE Confidence: 0.791993

 $00:48:51.562 \longrightarrow 00:48:53.420$  added not be with their parents as

NOTE Confidence: 0.791993

 $00:48:53.420 \longrightarrow 00:48:56.120$  in the grand no no that was an auto correct

NOTE Confidence: 0.791993

 $00:48:56.120 \longrightarrow 00:48:57.740$  meeting with their child sorry Ellie.

NOTE Confidence: 0.86971563

00:48:59.290 --> 00:49:02.200 Got it. Good question,

NOTE Confidence: 0.86971563

 $00:49:02.200 \longrightarrow 00:49:04.790$  although by the way we do me

NOTE Confidence: 0.86971563

 $00:49:04.790 \longrightarrow 00:49:06.183$  grandparents, not all that.

NOTE Confidence: 0.86971563

 $00:49:06.183 \longrightarrow 00:49:07.888$  But do your two year

NOTE Confidence: 0.86971563

 $00{:}49{:}07.888 \dashrightarrow 00{:}49{:}09.230$  question whenever possible.

NOTE Confidence: 0.86971563

 $00:49:09.230 \longrightarrow 00:49:10.710$  Our assessment involves the

NOTE Confidence: 0.86971563

 $00:49:10.710 \longrightarrow 00:49:12.930$  child as well as the parent,

NOTE Confidence: 0.86971563

 $00{:}49{:}12.930 \dashrightarrow 00{:}49{:}15.698$  and so we do think that a thorough

NOTE Confidence: 0.86971563

00:49:15.698 --> 00:49:16.880 comprehensive evaluation and

00:49:16.880 --> 00:49:18.480 assessment should, whenever possible,

NOTE Confidence: 0.86971563

 $00:49:18.480 \longrightarrow 00:49:20.330$  not be only parent based.

NOTE Confidence: 0.86971563

 $00:49:20.330 \longrightarrow 00:49:22.738$  But we should meet with the child and

NOTE Confidence: 0.86971563

 $00:49:22.738 \longrightarrow 00:49:25.762$  we do as a regular practice and so

NOTE Confidence: 0.86971563

 $00:49:25.762 \longrightarrow 00:49:28.100$  that absolutely informs the treatment.

NOTE Confidence: 0.86971563

00:49:28.100 --> 00:49:31.060 The only thing to add to it though,

NOTE Confidence: 0.86971563

 $00:49:31.060 \longrightarrow 00:49:32.224$  is that one.

NOTE Confidence: 0.86971563

00:49:32.224 --> 00:49:35.870 Of the advantages of having as as an option,

NOTE Confidence: 0.86971563

 $00{:}49{:}35.870 \dashrightarrow 00{:}49{:}37.870$  having an entirely parent based

NOTE Confidence: 0.86971563

 $00:49:37.870 \longrightarrow 00:49:40.669$  treatment is there for those cases where

NOTE Confidence: 0.86971563

 $00{:}49{:}40.670 \dashrightarrow 00{:}49{:}43.037$  meeting with the child directly is

NOTE Confidence: 0.86971563

 $00:49:43.037 \longrightarrow 00:49:45.371$  not feasible because the OR assessing

NOTE Confidence: 0.86971563

 $00:49:45.371 \longrightarrow 00:49:47.866$  the child directly is not feasible.

NOTE Confidence: 0.86971563

 $00:49:47.870 \longrightarrow 00:49:50.270$  Sometimes that is because the child

NOTE Confidence: 0.86971563

 $00:49:50.270 \longrightarrow 00:49:52.327$  is unwilling to participate directly

NOTE Confidence: 0.86971563

 $00:49:52.327 \longrightarrow 00:49:54.667$  with a contact with the therapist.

 $00:49:54.670 \longrightarrow 00:49:57.512$  Sometimes they are unable that maybe they're

NOTE Confidence: 0.86971563

 $00:49:57.512 \longrightarrow 00:50:00.419$  not verbal or have other issues that.

NOTE Confidence: 0.86971563

 $00:50:00.420 \longrightarrow 00:50:01.908$  Clude they're act evaluation

NOTE Confidence: 0.86971563

 $00:50:01.908 \longrightarrow 00:50:03.024$  in those situations,

NOTE Confidence: 0.86971563

 $00:50:03.030 \dashrightarrow 00:50:05.501$  having a treatment option that can be

NOTE Confidence: 0.86971563

 $00:50:05.501 \longrightarrow 00:50:07.400$  effectively applied only through parent

NOTE Confidence: 0.86971563

00:50:07.400 --> 00:50:09.746 work is actually a tremendous advantage,

NOTE Confidence: 0.86971563

 $00:50:09.750 \longrightarrow 00:50:11.988$  but in in the routine normal

NOTE Confidence: 0.86971563

00:50:11.988 --> 00:50:13.480 course of our work,

NOTE Confidence: 0.86971563

 $00:50:13.480 \longrightarrow 00:50:15.260$  we regularly assess the child

NOTE Confidence: 0.86971563

 $00{:}50{:}15.260 \dashrightarrow 00{:}50{:}17.580$  directly as well as the parent,

NOTE Confidence: 0.86971563

 $00:50:17.580 \longrightarrow 00:50:20.155$  even when the intervention is

NOTE Confidence: 0.86971563

 $00:50:20.155 \longrightarrow 00:50:22.730$  going to focus on parents.

NOTE Confidence: 0.86971563

 $00:50:22.730 \longrightarrow 00:50:23.090$  Thanks

NOTE Confidence: 0.8657328

 $00:50:23.090 \longrightarrow 00:50:24.179$  very much. Thank

 $00:50:24.180 \longrightarrow 00:50:27.036$  you so we have time being respectful of

NOTE Confidence: 0.8657328

 $00{:}50{:}27.036 \dashrightarrow 00{:}50{:}29.248$  everyone's time on this virtual space.

NOTE Confidence: 0.8657328

 $00:50:29.250 \longrightarrow 00:50:32.138$  We have time for couple of more questions.

NOTE Confidence: 0.8657328

 $00:50:32.140 \longrightarrow 00:50:35.119$  Looking to the chat but also again if you

NOTE Confidence: 0.8657328

 $00:50:35.119 \longrightarrow 00:50:37.929$  would like just shout your question out.

NOTE Confidence: 0.88795733

00:50:46.400 --> 00:50:48.633 And just to give a preview of

NOTE Confidence: 0.88795733

 $00:50:48.633 \longrightarrow 00:50:50.260$  where we're headed tomorrow,

NOTE Confidence: 0.88795733

 $00{:}50{:}50.260 \dashrightarrow 00{:}50{:}52.714$  we will talk about school based services

NOTE Confidence: 0.88795733

 $00:50:52.714 \longrightarrow 00:50:54.820$  and delivery of services within schools.

NOTE Confidence: 0.88795733

 $00:50:54.820 \longrightarrow 00:50:57.172$  The impact of Covid on those services

NOTE Confidence: 0.88795733

00:50:57.172 --> 00:50:59.649 and and how we're thinking about

NOTE Confidence: 0.88795733

 $00:50:59.649 \longrightarrow 00:51:01.969$  education in a covid environment.

NOTE Confidence: 0.88795733

00:51:01.970 --> 00:51:04.686 On Wednesday we will talk about diversity,

NOTE Confidence: 0.88795733

00:51:04.690 --> 00:51:05.821 equity and inclusion,

NOTE Confidence: 0.88795733

00:51:05.821 --> 00:51:08.922 what we're doing in the Child study center

NOTE Confidence: 0.88795733

 $00:51:08.922 \longrightarrow 00:51:11.694$  in response to what many have called

 $00:51:11.694 \longrightarrow 00:51:14.068$  another pandemic social injustice over the

NOTE Confidence: 0.88795733

 $00{:}51{:}14.068 {\:\raisebox{--}{\text{--}}}{\:\raisebox{--}{\text{--}}}{\:\raisebox{--}{\text{--}}} 00{:}51{:}17.106$  summer and continuing in all of these things,

NOTE Confidence: 0.88795733

 $00:51:17.106 \longrightarrow 00:51:18.270$  will tie together.

NOTE Confidence: 0.88795733

 $00:51:18.270 \longrightarrow 00:51:20.685$  We hope and there will be opportunities

NOTE Confidence: 0.88795733

 $00:51:20.685 \longrightarrow 00:51:23.342$  on Thursday for further questions, but.

NOTE Confidence: 0.88795733

 $00:51:23.342 \longrightarrow 00:51:25.874$  Please if you have other questions.

NOTE Confidence: 0.78002584

00:51:28.530 --> 00:51:31.190 As I say, shout them or put

NOTE Confidence: 0.78002584

 $00:51:31.190 \longrightarrow 00:51:33.430$  them in the chat. Trump.

NOTE Confidence: 0.8367864

00:51:35.140 --> 00:51:38.080 And Steve, can you hear me? Yes,

NOTE Confidence: 0.8367864

00:51:38.080 --> 00:51:41.860 I think in the you know I'm NYC centric,

NOTE Confidence: 0.8367864

 $00{:}51{:}41.860 \dashrightarrow 00{:}51{:}43.960$  although we're living in Westchester

NOTE Confidence: 0.8367864

 $00:51:43.960 \longrightarrow 00:51:46.900$  since March 11th, but I still love

NOTE Confidence: 0.8367864

 $00{:}51{:}46.900 \dashrightarrow 00{:}51{:}50.260$  New York City and I work with an

NOTE Confidence: 0.8367864

 $00:51:50.260 \longrightarrow 00:51:52.360$  organization that not for profit

NOTE Confidence: 0.8367864

 $00:51:52.360 \longrightarrow 00:51:55.300$  that deals with the people of the.

 $00:51:56.660 \longrightarrow 00:51:57.890$  It's in the

NOTE Confidence: 0.8572874

 $00:51:57.890 \longrightarrow 00:52:00.748$  work situations and was policing is a

NOTE Confidence: 0.8572874

 $00{:}52{:}00.748 \dashrightarrow 00{:}52{:}04.012$  big issue these days and I believe at

NOTE Confidence: 0.8572874

 $00:52:04.020 \longrightarrow 00:52:07.290$  some point you had reached out to them,

NOTE Confidence: 0.8572874

00:52:07.290 --> 00:52:10.160 or like someone tried to put you

NOTE Confidence: 0.8572874

 $00:52:10.160 \longrightarrow 00:52:12.610$  together with a very unsuccessful result.

NOTE Confidence: 0.8572874

 $00:52:12.610 \longrightarrow 00:52:17.790$  I may be wrong on that. But what?

NOTE Confidence: 0.8572874

00:52:17.790 --> 00:52:20.750 If any communication do you have with New

NOTE Confidence: 0.8572874

 $00{:}52{:}20.750 \longrightarrow 00{:}52{:}23.340$  York City, which as you probably know,

NOTE Confidence: 0.8572874

 $00:52:23.340 \longrightarrow 00:52:25.930$  the crime rate has more than doubled,

NOTE Confidence: 0.8572874

 $00{:}52{:}25.930 \to 00{:}52{:}28.890$ you know, during covid it's down from its

NOTE Confidence: 0.8572874

 $00:52:28.890 \longrightarrow 00:52:32.166$  peak of several years ago, but it's it's.

NOTE Confidence: 0.8572874

00:52:32.166 --> 00:52:33.990 On everybody's mind,

NOTE Confidence: 0.8572874

 $00:52:33.990 \longrightarrow 00:52:35.350$  then there's everybody,

NOTE Confidence: 0.8572874

 $00:52:35.350 \longrightarrow 00:52:38.068$  gets forced indoors and gets crazy.

NOTE Confidence: 0.8572874

00:52:38.070 --> 00:52:41.240 Or crime is only going to get

00:52:41.240 --> 00:52:43.956 worse and New York City certainly

NOTE Confidence: 0.8572874

 $00:52:43.956 \longrightarrow 00:52:46.670$  need your kind of help, yeah,

NOTE Confidence: 0.84664357

 $00{:}52{:}46.670 \dashrightarrow 00{:}52{:}49.904$  so we are in regular contact with

NOTE Confidence: 0.84664357

00:52:49.904 --> 00:52:53.019 colleagues in New York and you know,

NOTE Confidence: 0.84664357

 $00:52:53.020 \longrightarrow 00:52:55.280$  the good news is Tom,

NOTE Confidence: 0.84664357

 $00:52:55.280 \longrightarrow 00:52:57.752$  that that actually the NYPD did

NOTE Confidence: 0.84664357

00:52:57.752 --> 00:53:00.597 move ahead with with training and

NOTE Confidence: 0.84664357

00:53:00.597 --> 00:53:02.817 developed a specialized unit.

NOTE Confidence: 0.84664357

 $00:53:02.820 \longrightarrow 00:53:04.392$  Under the domestic violence

NOTE Confidence: 0.84664357

00:53:04.392 --> 00:53:06.357 section of the Department,

NOTE Confidence: 0.84664357

 $00:53:06.360 \longrightarrow 00:53:08.538$  all of those officers have been

NOTE Confidence: 0.84664357

 $00:53:08.538 \longrightarrow 00:53:10.845$  trained and they are now working

NOTE Confidence: 0.84664357

 $00{:}53{:}10.845 \dashrightarrow 00{:}53{:}12.800$  with colleagues that we've trained

NOTE Confidence: 0.84664357

 $00{:}53{:}12.800 \dashrightarrow 00{:}53{:}16.102$  in CF TSI as well as cute response

NOTE Confidence: 0.84664357

00:53:16.102 --> 00:53:17.746 protocols from Safe Horizon,

00:53:17.750 --> 00:53:19.720 which covers the five boroughs,

NOTE Confidence: 0.84664357

00:53:19.720 --> 00:53:21.680 and they have actually been

NOTE Confidence: 0.84664357

 $00:53:21.680 \longrightarrow 00:53:22.464$  incredibly active.

NOTE Confidence: 0.84664357

00:53:22.470 --> 00:53:23.646 You're absolutely right,

NOTE Confidence: 0.84664357

 $00:53:23.646 \longrightarrow 00:53:25.214$  and by the way,

NOTE Confidence: 0.84664357

 $00:53:25.220 \longrightarrow 00:53:27.644$  the one of the training that we did

NOTE Confidence: 0.84664357

 $00:53:27.644 \longrightarrow 00:53:30.146$  in the acute stress intervention for

NOTE Confidence: 0.84664357

00:53:30.146 --> 00:53:32.876 adults was hosted by the Columbia

NOTE Confidence: 0.84664357

 $00:53:32.949 \longrightarrow 00:53:35.547$  School for Social Work and involved.

NOTE Confidence: 0.84664357

 $00:53:35.550 \longrightarrow 00:53:36.934$  1400 mental health providers

NOTE Confidence: 0.84664357

00:53:36.934 --> 00:53:39.010 from around the city and the

NOTE Confidence: 0.84664357

 $00:53:39.077 \longrightarrow 00:53:40.778$  country and internationally.

NOTE Confidence: 0.84664357

 $00:53:40.780 \longrightarrow 00:53:41.488$  So yes,

NOTE Confidence: 0.84664357

00:53:41.488 --> 00:53:43.966 many of us have very close ties

NOTE Confidence: 0.84664357

 $00:53:43.966 \longrightarrow 00:53:46.989$  to New York City and and continue

NOTE Confidence: 0.84664357

 $00:53:46.989 \longrightarrow 00:53:49.220$  to work closely with them.

 $00:53:49.220 \longrightarrow 00:53:50.828$  The challenges to policing

NOTE Confidence: 0.84664357

 $00{:}53{:}50.828 \dashrightarrow 00{:}53{:}52.838$  in this country are enormous.

NOTE Confidence: 0.84664357

 $00:53:52.840 \longrightarrow 00:53:55.492$  Hopefully there will be an opportunity

NOTE Confidence: 0.84664357

 $00:53:55.492 \longrightarrow 00:53:58.486$  in the coming years to return to

NOTE Confidence: 0.84664357

00:53:58.486 --> 00:54:00.772 some of the basic police reforms

NOTE Confidence: 0.84664357

 $00:54:00.772 \longrightarrow 00:54:03.432$  that were in fact driven by a

NOTE Confidence: 0.84664357

00:54:03.432 --> 00:54:05.326 very different model of policing.

NOTE Confidence: 0.84664357

 $00{:}54{:}05.326 \dashrightarrow 00{:}54{:}07.882$  Then some of the symptoms of

NOTE Confidence: 0.84664357

 $00:54:07.882 \longrightarrow 00:54:10.913$  the the poor forms of or models

NOTE Confidence: 0.84664357

00:54:10.913 --> 00:54:13.415 of policing that we've seen too

NOTE Confidence: 0.84664357

 $00:54:13.507 \longrightarrow 00:54:15.679$  many examples of recently,

NOTE Confidence: 0.84664357

 $00:54:15.680 \longrightarrow 00:54:19.487$  and we hope to be very involved in the

NOTE Confidence: 0.84664357

 $00{:}54{:}19.487 \dashrightarrow 00{:}54{:}21.495$  discussions of moving things forward

NOTE Confidence: 0.84664357

00:54:21.495 --> 00:54:24.750 in a in a much more productive,

NOTE Confidence: 0.84664357

 $00:54:24.750 \longrightarrow 00:54:26.478$  Humane, and just fashion.

00:54:27.570 --> 00:54:29.220 Thank you Steven. Healthy planet.

NOTE Confidence: 0.8734321

 $00{:}54{:}32.880 \dashrightarrow 00{:}54{:}35.218$  So I'm going to put in the chat.

NOTE Confidence: 0.89430314

 $00:54:37.420 \longrightarrow 00:54:40.988$  Well, trying to put in the chat here.

NOTE Confidence: 0.89430314

 $00:54:40.990 \longrightarrow 00:54:43.685$  That's the link to the ongoing virtual

NOTE Confidence: 0.89430314

 $00:54:43.685 \longrightarrow 00:54:45.857$  poster session that's you can visit

NOTE Confidence: 0.89430314

 $00:54:45.857 \longrightarrow 00:54:48.062$  anytime over the week where we have

NOTE Confidence: 0.89430314

00:54:48.127 --> 00:54:50.117 posters from across the center,

NOTE Confidence: 0.89430314

 $00:54:50.120 \longrightarrow 00:54:52.626$  and some of them are actually narrated

NOTE Confidence: 0.89430314

 $00:54:52.626 \longrightarrow 00:54:54.860$  by the developers of those posters.

NOTE Confidence: 0.89430314

 $00:54:54.860 \longrightarrow 00:54:56.864$  We will meet tomorrow in the

NOTE Confidence: 0.89430314

 $00{:}54{:}56.864 \dashrightarrow 00{:}54{:}59.080$ virtual space again at 2:00 o'clock

NOTE Confidence: 0.89430314

 $00:54:59.080 \longrightarrow 00:55:00.696$  to talk about education,

NOTE Confidence: 0.89430314

 $00:55:00.700 \longrightarrow 00:55:03.756$  our programs in schools in this time of

NOTE Confidence: 0.89430314

 $00{:}55{:}03.756 \dashrightarrow 00{:}55{:}07.118$  kovid and have four of our colleagues who

NOTE Confidence: 0.89430314

 $00:55:07.118 \longrightarrow 00:55:10.209$  are working in schools to speak with us.

NOTE Confidence: 0.89430314

 $00{:}55{:}10.210 \dashrightarrow 00{:}55{:}12.586$  Again, I just want to thank all of

 $00:55:12.586 \longrightarrow 00:55:14.560$  the associates for your support for

NOTE Confidence: 0.89430314

 $00{:}55{:}14.560 \dashrightarrow 00{:}55{:}16.528$  your joining us on this inaugural

NOTE Confidence: 0.89430314

 $00:55:16.591 \longrightarrow 00:55:18.445$  virtual event and look forward to

NOTE Confidence: 0.89430314

00:55:18.445 --> 00:55:20.638 you being with us through the week.

NOTE Confidence: 0.89430314

 $00:55:20.638 \longrightarrow 00:55:21.586$  So thank you.

NOTE Confidence: 0.89430314

00:55:21.590 --> 00:55:23.170 Thank you so much and

NOTE Confidence: 0.8672761

 $00:55:23.170 \longrightarrow 00:55:25.375$  Linda, just to just to have one.

NOTE Confidence: 0.8672761

 $00:55:25.380 \longrightarrow 00:55:26.840$  One thing, if people are

NOTE Confidence: 0.8672761

 $00{:}55{:}26.840 {\:{\circ}{\circ}{\circ}}>00{:}55{:}28.300$  interested in seeing or having

NOTE Confidence: 0.8672761

 $00{:}55{:}28.354 \dashrightarrow 00{:}55{:}30.024$  available the guidelines that we

NOTE Confidence: 0.8672761

 $00{:}55{:}30.024 \dashrightarrow 00{:}55{:}31.694$  developed for a dults and kids,

NOTE Confidence: 0.8672761

 $00:55:31.700 \longrightarrow 00:55:33.680$  we will make sure that they

NOTE Confidence: 0.8672761

 $00{:}55{:}33.680 {\:{\mbox{--}}\!>}\ 00{:}55{:}35.489$  are available to you if you

NOTE Confidence: 0.8672761

 $00:55:35.490 \longrightarrow 00:55:38.015$  give it to a Steven, we can actually

NOTE Confidence: 0.8672761

 $00:55:38.015 \longrightarrow 00:55:39.905$  disseminate it even tomorrow or Sunday.

 $00{:}55{:}40.540 \dashrightarrow 00{:}55{:}41.740$  Excellent, I'll forward

NOTE Confidence: 0.8520189

00:55:41.740 --> 00:55:43.340 it to Rosemary fantastic.

NOTE Confidence: 0.8520189

 $00:55:43.340 \longrightarrow 00:55:46.140$  Alright, thanks so much so thanks everyone.

NOTE Confidence: 0.8520189
