

WEBVTT

NOTE duration:"00:04:34.0270000"

NOTE language:en-us

NOTE Confidence: 0.8481722

00:00:00.000 --> 00:00:01.212 I'm Sarah Goldberg.

NOTE Confidence: 0.8481722

00:00:01.212 --> 00:00:03.636 I'm an associate professor of medicine.

NOTE Confidence: 0.8481722

00:00:03.640 --> 00:00:05.860 In this section of medical oncology,

NOTE Confidence: 0.8481722

00:00:05.860 --> 00:00:06.652 thoracic oncologist,

NOTE Confidence: 0.8481722

00:00:06.652 --> 00:00:09.028 which means that I treat patients

NOTE Confidence: 0.8481722

00:00:09.028 --> 00:00:10.668 with cancer in the chest.

NOTE Confidence: 0.8481722

00:00:10.670 --> 00:00:12.520 Most most commonly lung cancer,

NOTE Confidence: 0.8481722

00:00:12.520 --> 00:00:14.740 but other cancers as well such

NOTE Confidence: 0.8481722

00:00:14.740 --> 00:00:16.220 as mesothelioma and thymoma.

NOTE Confidence: 0.8481722

00:00:16.220 --> 00:00:18.470 I decided long time ago that

NOTE Confidence: 0.8481722

00:00:18.470 --> 00:00:20.765 I wanted to become a doctor

NOTE Confidence: 0.8481722

00:00:20.765 --> 00:00:23.250 even when I was in high school.

NOTE Confidence: 0.8481722

00:00:23.250 --> 00:00:25.470 I was interested in this field,

NOTE Confidence: 0.8481722

00:00:25.470 --> 00:00:28.086 but really it was more in college and

NOTE Confidence: 0.8481722

00:00:28.086 --> 00:00:31.076 then in medical school where I started.

NOTE Confidence: 0.8481722

00:00:31.080 --> 00:00:32.795 Interact with patients and work

NOTE Confidence: 0.8481722

00:00:32.795 --> 00:00:34.510 in doctors offices and hospitals

NOTE Confidence: 0.8481722

00:00:34.573 --> 00:00:36.337 that I realized it was clearly the

NOTE Confidence: 0.8481722

00:00:36.337 --> 00:00:38.277 field that I wanted to be part of.

NOTE Confidence: 0.8481722

00:00:38.280 --> 00:00:40.352 I really love to take care of patients

NOTE Confidence: 0.8481722

00:00:40.352 --> 00:00:42.339 and to interact with them to get

NOTE Confidence: 0.8481722

00:00:42.339 --> 00:00:44.747 to know people well and get to know

NOTE Confidence: 0.8481722

00:00:44.747 --> 00:00:46.625 people's families and have long term,

NOTE Confidence: 0.8481722

00:00:46.630 --> 00:00:47.834 important relationships with them

NOTE Confidence: 0.8481722

00:00:47.834 --> 00:00:50.207 where I feel like I could make a

NOTE Confidence: 0.8481722

00:00:50.207 --> 00:00:51.737 difference in their quality of life

NOTE Confidence: 0.8481722

00:00:51.737 --> 00:00:53.785 and how they live and their health

NOTE Confidence: 0.8481722

00:00:53.785 --> 00:00:55.557 when someone has an appointment to

NOTE Confidence: 0.8481722

00:00:55.557 --> 00:00:57.853 see me or one of my colleagues here.

NOTE Confidence: 0.8481722

00:00:57.860 --> 00:00:59.426 There's a variety of ways that
NOTE Confidence: 0.8481722

00:00:59.426 --> 00:01:01.030 you could think about preparing.
NOTE Confidence: 0.8481722

00:01:01.030 --> 00:01:03.226 Some people really come in and.
NOTE Confidence: 0.8481722

00:01:03.230 --> 00:01:04.742 Don't necessarily know too much about
NOTE Confidence: 0.8481722

00:01:04.742 --> 00:01:06.200 their diagnosis or what's happening,
NOTE Confidence: 0.8481722

00:01:06.200 --> 00:01:08.630 or they may not even have a diagnosis yet.
NOTE Confidence: 0.8481722

00:01:08.630 --> 00:01:10.118 And so in those cases it's
NOTE Confidence: 0.8481722

00:01:10.118 --> 00:01:11.600 made Harvey hard to prepare,
NOTE Confidence: 0.8481722

00:01:11.600 --> 00:01:13.580 and so I think I think of my role
NOTE Confidence: 0.8481722

00:01:13.580 --> 00:01:15.529 and my goal of the visit is really
NOTE Confidence: 0.8481722

00:01:15.529 --> 00:01:17.661 for me to educate the patient and
NOTE Confidence: 0.8481722

00:01:17.661 --> 00:01:19.970 the family and friends or whoever is
NOTE Confidence: 0.8481722

00:01:19.970 --> 00:01:21.860 with the person on what is happening,
NOTE Confidence: 0.8481722

00:01:21.860 --> 00:01:23.750 what we know, what we don't know,
NOTE Confidence: 0.8481722

00:01:23.750 --> 00:01:26.180 what we can do to figure things out better,
NOTE Confidence: 0.8481722

00:01:26.180 --> 00:01:28.070 and what we can do to help.

NOTE Confidence: 0.8481722

00:01:28.070 --> 00:01:28.817 Some people do,

NOTE Confidence: 0.8481722

00:01:28.817 --> 00:01:31.040 like to prepare to do things in advance.

NOTE Confidence: 0.8481722

00:01:31.040 --> 00:01:33.569 I know a lot of people go online and.

NOTE Confidence: 0.8481722

00:01:33.570 --> 00:01:35.754 And look things up and search for for

NOTE Confidence: 0.8481722

00:01:35.754 --> 00:01:37.767 answers before they come into their visit.

NOTE Confidence: 0.8481722

00:01:37.770 --> 00:01:39.354 I think that can sometimes be

NOTE Confidence: 0.8481722

00:01:39.354 --> 00:01:41.053 helpful when when someone is really

NOTE Confidence: 0.8481722

00:01:41.053 --> 00:01:42.528 anxious to hear more information,

NOTE Confidence: 0.8481722

00:01:42.530 --> 00:01:44.371 but there's a lot out there that

NOTE Confidence: 0.8481722

00:01:44.371 --> 00:01:46.540 can be not so clear on the Internet

NOTE Confidence: 0.8481722

00:01:46.540 --> 00:01:48.410 or may not even be correct.

NOTE Confidence: 0.8481722

00:01:48.410 --> 00:01:50.626 So I think that could be a little

NOTE Confidence: 0.8481722

00:01:50.626 --> 00:01:51.769 bit difficult at times,

NOTE Confidence: 0.8481722

00:01:51.770 --> 00:01:53.674 but I think really coming in with

NOTE Confidence: 0.8481722

00:01:53.674 --> 00:01:55.130 questions written down and writing,

NOTE Confidence: 0.8481722

00:01:55.130 --> 00:01:56.786 writing things that you really want
NOTE Confidence: 0.8481722

00:01:56.786 --> 00:01:59.074 to get out of it to make sure that
NOTE Confidence: 0.8481722

00:01:59.074 --> 00:02:01.241 we touch on all the points that are
NOTE Confidence: 0.8481722

00:02:01.241 --> 00:02:03.530 important to the patient and their family.
NOTE Confidence: 0.8481722

00:02:03.530 --> 00:02:05.658 I think that can be really helpful
NOTE Confidence: 0.8481722

00:02:05.658 --> 00:02:07.298 'cause sometimes you come in and.
NOTE Confidence: 0.8481722

00:02:07.300 --> 00:02:09.148 And people forget what they really
NOTE Confidence: 0.8481722

00:02:09.148 --> 00:02:11.741 wanted to get out of the visit or
NOTE Confidence: 0.8481722

00:02:11.741 --> 00:02:13.356 specific questions that they had.
NOTE Confidence: 0.8481722

00:02:13.360 --> 00:02:15.579 I think it's really helpful to have
NOTE Confidence: 0.8481722

00:02:15.579 --> 00:02:17.858 family or friends or loved ones with
NOTE Confidence: 0.8481722

00:02:17.858 --> 00:02:19.760 the patient for their first visit,
NOTE Confidence: 0.8481722

00:02:19.760 --> 00:02:21.360 and even often subsequent visits.
NOTE Confidence: 0.8481722

00:02:21.360 --> 00:02:23.322 There's a lot of information that
NOTE Confidence: 0.8481722

00:02:23.322 --> 00:02:25.275 that gets exchanged during a visit
NOTE Confidence: 0.8481722

00:02:25.275 --> 00:02:26.157 with an oncologist,

NOTE Confidence: 0.8481722

00:02:26.160 --> 00:02:28.155 we talk about the diagnosis about what

NOTE Confidence: 0.8481722

00:02:28.155 --> 00:02:30.000 that means about treatment options,

NOTE Confidence: 0.8481722

00:02:30.000 --> 00:02:33.200 and I think it can be a lot of information.

NOTE Confidence: 0.8766105

00:02:33.200 --> 00:02:35.760 I always try to go through things really,

NOTE Confidence: 0.8766105

00:02:35.760 --> 00:02:37.360 really carefully and in detail,

NOTE Confidence: 0.8766105

00:02:37.360 --> 00:02:38.960 and repeat things when needed,

NOTE Confidence: 0.8766105

00:02:38.960 --> 00:02:41.200 but I still think having an extra

NOTE Confidence: 0.8766105

00:02:41.200 --> 00:02:43.084 set of ears, someone else too.

NOTE Confidence: 0.8766105

00:02:43.084 --> 00:02:44.932 To absorb the information can be

NOTE Confidence: 0.8766105

00:02:44.932 --> 00:02:46.669 really helpful and can really provide

NOTE Confidence: 0.8766105

00:02:46.669 --> 00:02:48.816 a lot of support for the person

NOTE Confidence: 0.8766105

00:02:48.816 --> 00:02:50.596 going through the diagnosis and

NOTE Confidence: 0.8766105

00:02:50.596 --> 00:02:51.973 talking about treatment options.

NOTE Confidence: 0.8766105

00:02:51.973 --> 00:02:53.488 It really can be helpful

NOTE Confidence: 0.8766105

00:02:53.488 --> 00:02:55.040 to have someone with them.

NOTE Confidence: 0.8766105

00:02:55.040 --> 00:02:57.080 Sometimes people want to bring several
NOTE Confidence: 0.8766105

00:02:57.080 --> 00:02:59.013 family members or friends and really
NOTE Confidence: 0.8766105

00:02:59.013 --> 00:03:00.833 have a lot of support around them
NOTE Confidence: 0.8766105

00:03:00.833 --> 00:03:02.689 that can sometimes be helpful too,
NOTE Confidence: 0.8766105

00:03:02.690 --> 00:03:04.550 but I think you know really
NOTE Confidence: 0.8766105

00:03:04.550 --> 00:03:06.733 having one key person who can be
NOTE Confidence: 0.8766105

00:03:06.733 --> 00:03:08.193 your advocate or you know,
NOTE Confidence: 0.8766105

00:03:08.200 --> 00:03:10.036 be another set of ears is
NOTE Confidence: 0.8766105

00:03:10.036 --> 00:03:11.260 incredibly helpful at times.
NOTE Confidence: 0.8766105

00:03:11.260 --> 00:03:14.095 Sometimes we do that by phone or or even.
NOTE Confidence: 0.8766105

00:03:14.100 --> 00:03:15.906 My video is not everybody has
NOTE Confidence: 0.8766105

00:03:15.906 --> 00:03:18.194 family or friends close by and we
NOTE Confidence: 0.8766105

00:03:18.194 --> 00:03:19.558 absolutely can accommodate that.
NOTE Confidence: 0.8766105

00:03:19.560 --> 00:03:21.840 If if someone comes in and they want
NOTE Confidence: 0.8766105

00:03:21.840 --> 00:03:24.533 to call a relative or friend by phone
NOTE Confidence: 0.8766105

00:03:24.533 --> 00:03:26.620 while they're in during the visit,

NOTE Confidence: 0.8766105

00:03:26.620 --> 00:03:27.840 I absolutely welcome that.

NOTE Confidence: 0.8766105

00:03:27.840 --> 00:03:30.150 I think that can work out really,

NOTE Confidence: 0.8766105

00:03:30.150 --> 00:03:30.746 really well.

NOTE Confidence: 0.8766105

00:03:30.746 --> 00:03:33.999 Huge part of what I do day today is research,

NOTE Confidence: 0.8766105

00:03:34.000 --> 00:03:35.734 so it's it's really another reason

NOTE Confidence: 0.8766105

00:03:35.734 --> 00:03:38.008 why I really like the field of

NOTE Confidence: 0.8766105

00:03:38.008 --> 00:03:39.778 oncology and specifically lung cancer,

NOTE Confidence: 0.8766105

00:03:39.780 --> 00:03:42.412 because not only does it allow me to

NOTE Confidence: 0.8766105

00:03:42.412 --> 00:03:44.487 treat patients and really help them.

NOTE Confidence: 0.8766105

00:03:44.490 --> 00:03:46.164 Feel as well as possible and

NOTE Confidence: 0.8766105

00:03:46.164 --> 00:03:47.920 live as well as possible,

NOTE Confidence: 0.8766105

00:03:47.920 --> 00:03:50.264 but I also able to do research and

NOTE Confidence: 0.8766105

00:03:50.264 --> 00:03:52.288 really try to advance the field,

NOTE Confidence: 0.8766105

00:03:52.290 --> 00:03:54.120 meaning figure things out about lung

NOTE Confidence: 0.8766105

00:03:54.120 --> 00:03:56.030 cancer that we didn't know before.

NOTE Confidence: 0.8766105

00:03:56.030 --> 00:03:57.274 An even more importantly,
NOTE Confidence: 0.8766105

00:03:57.274 --> 00:03:59.541 try to figure out better treatments for
NOTE Confidence: 0.8766105

00:03:59.541 --> 00:04:01.251 people so there's really incredible
NOTE Confidence: 0.8766105

00:04:01.251 --> 00:04:02.936 advances in treating people with
NOTE Confidence: 0.8766105

00:04:02.936 --> 00:04:04.770 lung cancer over the last few years,
NOTE Confidence: 0.8766105

00:04:04.770 --> 00:04:07.010 but there's still a lot that we
NOTE Confidence: 0.8766105

00:04:07.010 --> 00:04:08.509 don't fully understand or know,
NOTE Confidence: 0.8766105

00:04:08.510 --> 00:04:10.406 and there are still many medicines
NOTE Confidence: 0.8766105

00:04:10.406 --> 00:04:13.347 that I think we will have in our future
NOTE Confidence: 0.8766105

00:04:13.347 --> 00:04:15.469 that can really help people and so.
NOTE Confidence: 0.8766105

00:04:15.470 --> 00:04:17.678 A lot of my research focuses on that
NOTE Confidence: 0.8766105

00:04:17.678 --> 00:04:19.767 trying to understand who is benefiting
NOTE Confidence: 0.8766105

00:04:19.767 --> 00:04:21.969 from the medicines that we have.
NOTE Confidence: 0.8766105

00:04:21.970 --> 00:04:23.270 If they're not benefiting,
NOTE Confidence: 0.8766105

00:04:23.270 --> 00:04:23.920 why not,
NOTE Confidence: 0.8766105

00:04:23.920 --> 00:04:26.416 and then also trying to find even better

NOTE Confidence: 0.8766105

00:04:26.416 --> 00:04:28.469 treatments for people with lung cancer.
