NOTE language:en-us

NOTE Confidence: 0.83101535

00:00:00.000 --> 00:00:03.339 Hi, my name is Andrew saying I am radiation

NOTE Confidence: 0.83101535

00:00:03.339 --> 00:00:06.149 colleges said Yelan I treat mostly GI

NOTE Confidence: 0.83101535

00:00:06.149 --> 00:00:08.440 patients and breast cancer patients.

NOTE Confidence: 0.83101535

00:00:08.440 --> 00:00:11.079 I chose to become a radiation oncologist

NOTE Confidence: 0.83101535

00:00:11.079 --> 00:00:13.210 because it represents a cutting edge

NOTE Confidence: 0.83101535

00:00:13.210 --> 00:00:15.380 in cancer treatment were able to use

NOTE Confidence: 0.83101535

00:00:15.449 --> 00:00:17.734 photon electron and proton particles

NOTE Confidence: 0.83101535

00:00:17.734 --> 00:00:20.019 to deliver patient specific millimeter

NOTE Confidence: 0.83101535

00:00:20.020 --> 00:00:21.148 accurate radiation treatments.

NOTE Confidence: 0.83101535

00:00:21.148 --> 00:00:23.780 Patients are just calm as they are

NOTE Confidence: 0.83101535

00:00:23.841 --> 00:00:25.806 preferably with the family member.

NOTE Confidence: 0.83101535

00:00:25.810 --> 00:00:28.498 I think a lot of times having

NOTE Confidence: 0.83101535

00:00:28.498 --> 00:00:30.350 a diagnosis of cancer.

NOTE Confidence: 0.83101535

00:00:30.350 --> 00:00:32.632 Even though a lot of cancers like

NOTE Confidence: 0.83101535

00:00:32.632 --> 00:00:34.299 early stage breast cancer can

NOTE Confidence: 0.83101535

00:00:34.299 --> 00:00:36.215 be cured 9095% of the time,

NOTE Confidence: 0.83101535

00:00:36.215 --> 00:00:37.515 that diagnosis is traumatizing,

NOTE Confidence: 0.83101535

00:00:37.520 --> 00:00:38.432 it's very difficult.

NOTE Confidence: 0.83101535

00:00:38.432 --> 00:00:39.952 And sometimes when we present

NOTE Confidence: 0.83101535

00:00:39.952 --> 00:00:41.429 a lot of information,

NOTE Confidence: 0.83101535

00:00:41.430 --> 00:00:43.873 it's difficult for one person to be

NOTE Confidence: 0.83101535

00:00:43.873 --> 00:00:46.318 able to absorb it all at one time.

NOTE Confidence: 0.83101535

00:00:46.320 --> 00:00:48.276 0 Coming with one family member,

NOTE Confidence: 0.83101535

00:00:48.280 --> 00:00:50.236 I know there's a lot of

NOTE Confidence: 0.83101535

00:00:50.236 --> 00:00:51.540 restrictions nowadays with COVID,

NOTE Confidence: 0.83101535

00:00:51.540 --> 00:00:53.170 so if that's not possible,

NOTE Confidence: 0.83101535

00:00:53.170 --> 00:00:55.906 we do a lot of Tele health visits and

NOTE Confidence: 0.83101535

00:00:55.906 --> 00:00:58.416 being on a zoom meeting with me with

NOTE Confidence: 0.83101535

00:00:58.416 --> 00:01:00.823 some of your family members so that

NOTE Confidence: 0.83101535

00:01:00.823 --> 00:01:03.406 you guys can all process it together.  
NOTE Confidence: 0.83101535

00:01:03.406 --> 00:01:05.230 I think it's invaluable.  
NOTE Confidence: 0.83101535

00:01:05.230 --> 00:01:07.870 I think patients should be empowered  
NOTE Confidence: 0.83101535

00:01:07.870 --> 00:01:10.229 with every resource available to them.  
NOTE Confidence: 0.83101535

00:01:10.230 --> 00:01:10.992 An Internet,  
NOTE Confidence: 0.83101535

00:01:10.992 --> 00:01:11.754 of course,  
NOTE Confidence: 0.83101535

00:01:11.754 --> 00:01:13.659 can be confusing because with  
NOTE Confidence: 0.83101535

00:01:13.659 --> 00:01:15.650 any cancer diagnosis there,  
NOTE Confidence: 0.83101535

00:01:15.650 --> 00:01:17.318 sometimes the Internet poses  
NOTE Confidence: 0.83101535

00:01:17.318 --> 00:01:18.986 more questions than answers,  
NOTE Confidence: 0.83101535

00:01:18.990 --> 00:01:21.650 but I think that if patients come  
NOTE Confidence: 0.83101535

00:01:21.650 --> 00:01:23.782 well prepared with their questions  
NOTE Confidence: 0.83101535

00:01:23.782 --> 00:01:26.077 and with their own research,  
NOTE Confidence: 0.83101535

00:01:26.080 --> 00:01:28.462 we can more easily work through  
NOTE Confidence: 0.83101535

00:01:28.462 --> 00:01:30.670 them and more easily tackle.  
NOTE Confidence: 0.83101535

00:01:30.670 --> 00:01:33.876 You know these questions 1 by 1.

NOTE Confidence: 0.83101535  
00:01:33.880 --> 00:01:35.560 Our radiation oncology team  
NOTE Confidence: 0.83101535  
00:01:35.560 --> 00:01:37.240 consists of the patient,  
NOTE Confidence: 0.83101535  
00:01:37.240 --> 00:01:40.152 the center, and we are a big team  
NOTE Confidence: 0.83101535  
00:01:40.152 --> 00:01:42.700 to support them with physicians,  
NOTE Confidence: 0.83101535  
00:01:42.700 --> 00:01:44.284 nurses, technicians, physicists,  
NOTE Confidence: 0.83101535  
00:01:44.284 --> 00:01:44.812 dosimetrists.  
NOTE Confidence: 0.83101535  
00:01:44.812 --> 00:01:47.980 I'm hoping I'm not missing anyone  
NOTE Confidence: 0.83101535  
00:01:48.051 --> 00:01:50.483 but we all have our own role in  
NOTE Confidence: 0.83101535  
00:01:50.483 --> 00:01:52.393 explaining and providing the best  
NOTE Confidence: 0.83101535  
00:01:52.393 --> 00:01:54.453 radiation care for the patient.  
NOTE Confidence: 0.83101535  
00:01:54.460 --> 00:01:56.626 And of course with that team  
NOTE Confidence: 0.83101535  
00:01:56.626 --> 00:01:59.137 is not only the patient but  
NOTE Confidence: 0.83101535  
00:01:59.137 --> 00:02:01.597 also their family members too.
