NOTE Confidence: 0.89640695

00:00:00.000 --> 00:00:01.784 Hi, I'm Andrea Silber,

NOTE Confidence: 0.89640695

00:00:01.784 --> 00:00:03.568 a medical oncologist who

NOTE Confidence: 0.89640695

00:00:03.568 --> 00:00:05.539 specializes in breast cancer.

NOTE Confidence: 0.89640695

00:00:05.540 --> 00:00:08.066 I really love what I do.

NOTE Confidence: 0.89640695

00:00:08.070 --> 00:00:11.031 I have been doing this for many

NOTE Confidence: 0.89640695

00:00:11.031 --> 00:00:14.044 years and it's an honor to be

NOTE Confidence: 0.89640695

00:00:14.044 --> 00:00:16.522 able to take care of patients.

NOTE Confidence: 0.89640695

00:00:16.530 --> 00:00:19.176 It's a particular honor to be able

NOTE Confidence: 0.89640695

00:00:19.176 --> 00:00:22.139 to take care of patients from this

NOTE Confidence: 0.89640695

00:00:22.139 --> 00:00:25.719 community that trained me how to be a

NOTE Confidence: 0.89640695

00:00:25.719 --> 00:00:28.377 doctor and to have better alternatives,

NOTE Confidence: 0.89640695

00:00:28.380 --> 00:00:30.120 better treatments, new discoveries

NOTE Confidence: 0.89640695

00:00:30.120 --> 00:00:32.730 that are going to help patients.

NOTE Confidence: 0.89640695

00:00:32.730 --> 00:00:37.275 It's a great time to be a breast oncologist.

NOTE Confidence: 0.89640695

00:00:37.280 --> 00:00:40.316 I'm all about the team approach.

NOTE Confidence: 0.89640695

00:00:40.320 --> 00:00:44.368 I work with a nurse practitioner and nurse,

NOTE Confidence: 0.89640695

00:00:44.370 --> 00:00:45.384 usually PCA,

NOTE Confidence: 0.89640695

00:00:45.384 --> 00:00:48.426 who helps room the patient and

NOTE Confidence: 0.89640695

00:00:48.426 --> 00:00:51.608 the person who mansar telephones.

NOTE Confidence: 0.89640695

00:00:51.610 --> 00:00:55.187 All of the members of the team.

NOTE Confidence: 0.89640695

00:00:55.190 --> 00:00:58.242 Need to know a little bit about

NOTE Confidence: 0.89640695

00:00:58.242 --> 00:01:01.236 that patient so they can put

NOTE Confidence: 0.89640695

00:01:01.236 --> 00:01:03.352 anything that transpires into

NOTE Confidence: 0.89640695

00:01:03.352 --> 00:01:06.709 context and we all work together.

NOTE Confidence: 0.89640695

00:01:06.710 --> 00:01:10.478 We're like a family and we're a family

NOTE Confidence: 0.89640695

00:01:10.478 --> 00:01:14.228 that all takes care of that patient.

NOTE Confidence: 0.89640695

00:01:14.230 --> 00:01:17.236 I think it's a good idea

NOTE Confidence: 0.89640695

00:01:17.236 --> 00:01:19.240 to bring a caregiver,

NOTE Confidence: 0.89640695

00:01:19.240 --> 00:01:21.244 particularly for those who

NOTE Confidence: 0.89640695

00:01:21.244 --> 00:01:23.248 have trouble either speaking,
NOTE Confidence: 0.89640695

00:01:23.250 --> 00:01:24.270 expressing themselves,
NOTE Confidence: 0.89640695

00:01:24.270 --> 00:01:26.310 have difficulty with health.
NOTE Confidence: 0.89640695

00:01:26.310 --> 00:01:27.837 Or medical terminology.
NOTE Confidence: 0.89640695

00:01:27.837 --> 00:01:30.891 Often a caregiver can serve as
NOTE Confidence: 0.89640695

00:01:30.891 --> 00:01:34.140 a different kind of translator,
NOTE Confidence: 0.89640695

00:01:34.140 --> 00:01:36.935 making sure that everyone understands
NOTE Confidence: 0.89640695

00:01:36.935 --> 00:01:39.730 what's discussed at the visit.
NOTE Confidence: 0.89640695

00:01:39.730 --> 00:01:43.363 I have long been interested in why
NOTE Confidence: 0.89640695

00:01:43.363 --> 00:01:45.619 certain populations are vulnerable
NOTE Confidence: 0.89640695

00:01:45.619 --> 00:01:49.225 or more vulnerable to breast cancer,
NOTE Confidence: 0.89640695

00:01:49.230 --> 00:01:52.578 either in incidents or an outcome,
NOTE Confidence: 0.89640695

00:01:52.580 --> 00:01:56.584 and my particular interest is looking at.
NOTE Confidence: 0.89640695

00:01:56.590 --> 00:02:00.568 Breast cancer in women of color,
NOTE Confidence: 0.89640695

00:02:00.570 --> 00:02:03.610 trying to increase inclusivity
NOTE Confidence: 0.89640695

00:02:03.610 --> 00:02:06.650 in clinical trial participation.

NOTE Confidence: 0.89640695

00:02:06.650 --> 00:02:09.476 It's not that I'm just interested

NOTE Confidence: 0.89640695

00:02:09.476 --> 00:02:12.023 in one particular group or

NOTE Confidence: 0.89640695

00:02:12.023 --> 00:02:13.757 one particular ethnicity.

NOTE Confidence: 0.89640695

00:02:13.760 --> 00:02:17.080 Finding out having discovery in

NOTE Confidence: 0.89640695

00:02:17.080 --> 00:02:22.016 what makes press cancer not do well

NOTE Confidence: 0.89640695

00:02:22.016 --> 00:02:25.016 informs knowledge for everybody.
