NOTE Confidence: 0.9892282

00:00:00.000 --> 00:00:02.590 Cancer survivor is anyone who's

NOTE Confidence: 0.9892282

00:00:02.590 --> 00:00:05.180 been diagnosed with cancer starting

NOTE Confidence: 0.9892282

00:00:05.259 --> 00:00:08.367 the day of diagnosis and spanning

NOTE Confidence: 0.9892282

00:00:08.367 --> 00:00:10.439 throughout the individual's life.

NOTE Confidence: 0.958368

00:00:15.400 --> 00:00:16.976 Cancer survivors are our

NOTE Confidence: 0.958368

00:00:16.976 --> 00:00:18.150 patients. Are patients

NOTE Confidence: 0.958368

00:00:18.150 --> 00:00:20.509 with a history of cancer and just

NOTE Confidence: 0.958368

00:00:20.509 --> 00:00:22.776 as we support them through that

NOTE Confidence: 0.958368

00:00:22.776 --> 00:00:25.140 diagnostic work up and then of

NOTE Confidence: 0.958368

00:00:25.140 --> 00:00:27.190 course through the treatment,

NOTE Confidence: 0.958368

00:00:27.190 --> 00:00:29.958 so do we need to support them as

NOTE Confidence: 0.958368

00:00:29.958 --> 00:00:32.386 they finish treatment and enter

NOTE Confidence: 0.958368

00:00:32.386 --> 00:00:34.590 into the surveillance period?

NOTE Confidence: 0.958368

00:00:34.590 --> 00:00:37.117 This is a time of high uncertainty.

NOTE Confidence: 0.958368
00:00:37.120 --> 00:00:39.118 Every ache and pain could mean
NOTE Confidence: 0.958368
00:00:39.118 --> 00:00:41.308 recurrence and then a time where
NOTE Confidence: 0.958368
00:00:41.308 --> 00:00:42.888 side effects still linger.
NOTE Confidence: 0.958368
00:00:42.890 --> 00:00:44.545 It's our responsibility and our
NOTE Confidence: 0.958368
00:00:44.545 --> 00:00:47.229 duty to take care of these patients,
NOTE Confidence: 0.958368
00:00:47.230 --> 00:00:49.694 especially the ones who have a high
NOTE Confidence: 0.958368
00:00:49.694 --> 00:00:52.279 burden of needs and and side effects.
NOTE Confidence: 0.9826497

NOTE Confidence: 0.99155104

00:02:05.130 --> 00:02:07.130 UM, the oftentimes the entire

NOTE Confidence: 0.99155104

00:02:07.130 --> 00:02:09.605 support network sort of feels the

NOTE Confidence: 0.99155104

00:02:09.605 --> 00:02:11.635 impact of a patient's diagnosis,

NOTE Confidence: 0.99155104

00:02:11.640 --> 00:02:14.058 and it is very important to

NOTE Confidence: 0.99155104

00:02:14.058 --> 00:02:15.670 understand what the caregiver

NOTE Confidence: 0.99155104

00:02:15.744 --> 00:02:18.150 feels drained this period as well.

NOTE Confidence: 0.99155104

00:02:18.150 --> 00:02:20.400 We have a caregiver support group

NOTE Confidence: 0.99155104

00:02:26.892 --> 00:02:29.869 a loved one who either lives in the

NOTE Confidence: 0.99155104

00:02:29.869 --> 00:02:32.233 household or is a very supportive

NOTE Confidence: 0.99155104

00:02:32.233 --> 00:02:35.329 person because we believe that real.

NOTE Confidence: 0.99155104

00:02:35.330 --> 00:02:37.150 Change after cancer happens

NOTE Confidence: 0.99155104

00:02:37.150 --> 00:02:39.425 when everyone is on board.
