NOTE Confidence: 0.851396535

00:00:15.130 --> 00:00:16.936 my name is Doctor Daniel Kellner.

NOTE Confidence: 0.851396535

00:00:16.940 --> 00:00:18.860 I'm a urologist at Yale Medicine,

NOTE Confidence: 0.851396535

00:00:18.860 --> 00:00:20.848 which is a multi specialty group in

NOTE Confidence: 0.851396535

00:00:20.848 --> 00:00:23.377 the old School of Medicine and I'm a

NOTE Confidence: 0.851396535

00:00:23.377 --> 00:00:25.330 general urologist, but I have a special
NOTE Confidence: 0.851396535

00:00:25.330 --> 00:00:27.100 interest in BPH in men's health.
NOTE Confidence: 0.851396535

00:00:27.100 --> 00:00:28.880 I practice in New Haven,
NOTE Confidence: 0.851396535

00:00:28.880 --> 00:00:30.836 CT, but I also have offices.
NOTE Confidence: 0.851396535

00:00:30.840 --> 00:00:33.390 In Madison, CT and Hamden, CT
NOTE Confidence: 0.853103306363637

00:00:33.420 --> 00:00:35.232 we're talking this morning with Doctor
NOTE Confidence: 0.853103306363637

00:00:35.232 --> 00:00:36.940 Daniel Kellner of Yale Medicine,
NOTE Confidence: 0.853103306363637

00:00:36.940 --> 00:00:39.194 and you are a urologist and you
NOTE Confidence: 0.853103306363637

00:00:39.194 --> 00:00:41.298 have an emphasis on men's health.
NOTE Confidence: 0.853103306363637

00:00:41.300 --> 00:00:42.380 Is it a struggle?
NOTE Confidence: 0.853103306363637

00:00:42.380 --> 00:00:44.665 First of all, to get guys to see
NOTE Confidence: 0.853103306363637

00:00:44.665 --> 00:00:46.630 a urologist in the first place,
NOTE Confidence: 0.872783355333333

00:00:46.930 --> 00:00:48.806 I think typically men are are less
NOTE Confidence: 0.872783355333333

00:00:48.806 --> 00:00:50.756 likely to want to go to the doctor,
NOTE Confidence: 0.872783355333333

00:00:50.760 --> 00:00:51.912 but unfortunately you
NOTE Confidence: 0.872783355333333

00:00:51.912 --> 00:00:53.448 can't avoid your bladder.

NOTE Confidence: 0.872783355333333

00:00:53.450 --> 00:00:55.184 And many times people are certainly

NOTE Confidence: 0.872783355333333

00:00:55.184 --> 00:00:56.875 at their very aggravated by their

NOTE Confidence: 0.872783355333333

00:00:56.875 --> 00:00:58.803 situation and so they'll end up making an

NOTE Confidence: 0.872783355333333

00:00:58.854 --> 00:01:00.876 appointment because if you ignore problem,

NOTE Confidence: 0.872783355333333

00:01:00.880 --> 00:01:02.270 it doesn't really go away.

NOTE Confidence: 0.872783355333333

00:01:02.270 --> 00:01:03.775 Or sometimes I have a friend who

NOTE Confidence: 0.872783355333333

00:01:03.775 --> 00:01:05.138 had a similar situation and kind

NOTE Confidence: 0.872783355333333

00:01:05.138 --> 00:01:06.990 of clue them in that there is help.

NOTE Confidence: 0.872783355333333

00:01:06.990 --> 00:01:07.984 So many men who come to me.

NOTE Confidence: 0.872783355333333

00:01:07.990 --> 00:01:09.574 They've come to me because they are friends,

NOTE Confidence: 0.872783355333333

00:01:09.580 --> 00:01:11.524 but it's similar experience or coworker

NOTE Confidence: 0.872783355333333

00:01:11.524 --> 00:01:13.551 would have similar experience and then

NOTE Confidence: 0.872783355333333

00:01:13.551 --> 00:01:15.241 obviously they're prompted sometimes by

NOTE Confidence: 0.872783355333333

00:01:15.241 --> 00:01:16.967 their significant other to to come in.

NOTE Confidence: 0.872783355333333

00:01:16.970 --> 00:01:17.843 No girlfriend, wife,

NOTE Confidence: 0.872783355333333

00:01:17.843 --> 00:01:19.298 partner because someone else is
NOTE Confidence: 0.8727833553333333

00:01:19.298 --> 00:01:20.529 recognizing that they're having
NOTE Confidence: 0.8727833553333333

00:01:20.529 --> 00:01:22.034 difficulty with what their bladder.
NOTE Confidence: 0.940794076428571

00:01:22.370 --> 00:01:25.026 Let's go over the symptoms and how severe
NOTE Confidence: 0.940794076428571

00:01:25.026 --> 00:01:27.927 do the symptoms have to get before you
NOTE Confidence: 0.940794076428571

00:01:27.927 --> 00:01:30.256 consider some of the procedures that
NOTE Confidence: 0.940794076428571

00:01:30.256 --> 00:01:32.920 were going to talk about today? When
NOTE Confidence: 0.7701022833333333

00:01:32.930 --> 00:01:35.222 men have BPH, the prostate is
NOTE Confidence: 0.7701022833333333

00:01:35.222 --> 00:01:37.510 typically the size of a walnut,
NOTE Confidence: 0.7701022833333333

00:01:37.510 --> 00:01:39.526 and it can continue to grow,
NOTE Confidence: 0.7701022833333333

00:01:39.530 --> 00:01:40.856 and it could obstruct the urethra.
NOTE Confidence: 0.7701022833333333

00:01:40.860 --> 00:01:42.780 And that's the tube empties the
NOTE Confidence: 0.7701022833333333

00:01:42.780 --> 00:01:44.361 bladder and prostate doesn't have
NOTE Confidence: 0.7701022833333333

00:01:44.361 --> 00:01:46.083 to be big to constrict that too,
NOTE Confidence: 0.7701022833333333

00:01:46.090 --> 00:01:48.100 and symptoms could be increased
NOTE Confidence: 0.7701022833333333

00:01:48.100 --> 00:01:49.306 frequency to urinate,

NOTE Confidence: 0.7701022833333333
00:01:49.310 --> 00:01:50.482 increased urgency to urinate,
NOTE Confidence: 0.7701022833333333
00:01:50.482 --> 00:01:52.240 a slower stream or the stream
NOTE Confidence: 0.7701022833333333
00:01:52.297 --> 00:01:53.987 could be hesitant or intermittent,
NOTE Confidence: 0.7701022833333333
00:01:53.990 --> 00:01:55.148 or there may be more getting
NOTE Confidence: 0.7701022833333333
00:01:55.148 --> 00:01:56.330 up at night to urinate.
NOTE Confidence: 0.7701022833333333
00:01:56.330 --> 00:01:57.980 These things could affect the quality
NOTE Confidence: 0.7701022833333333
00:01:57.980 --> 00:01:59.900 of life, so in in other words,
NOTE Confidence: 0.7701022833333333
00:01:59.900 --> 00:02:01.748 sometimes men will be distracted at work.
NOTE Confidence: 0.7701022833333333
00:02:01.750 --> 00:02:02.594 They'll be thinking about.
NOTE Confidence: 0.7701022833333333
00:02:02.594 --> 00:02:04.109 You know where bathroom is or if
NOTE Confidence: 0.7701022833333333
00:02:04.109 --> 00:02:05.369 they go shopping or they're driving.
NOTE Confidence: 0.7701022833333333
00:02:05.370 --> 00:02:06.550 They're always kind of aware
NOTE Confidence: 0.7701022833333333
00:02:06.550 --> 00:02:07.494 where a bathroom is,
NOTE Confidence: 0.7701022833333333
00:02:07.500 --> 00:02:08.646 or to make sure that they
NOTE Confidence: 0.7701022833333333
00:02:08.646 --> 00:02:09.810 urinate before they go anywhere,
NOTE Confidence: 0.7701022833333333

00:02:09.810 --> 00:02:11.938 and so the symptoms could be quite subtle,
NOTE Confidence: 0.7701022833333333

00:02:11.940 --> 00:02:13.842 but there could be a more
NOTE Confidence: 0.7701022833333333

00:02:13.842 --> 00:02:14.793 serious underlying problem,
NOTE Confidence: 0.7701022833333333

00:02:14.800 --> 00:02:16.535 because men could actually be
NOTE Confidence: 0.7701022833333333

00:02:16.535 --> 00:02:17.576 developing urinary retention,
NOTE Confidence: 0.7701022833333333

00:02:17.580 --> 00:02:19.724 and they're aware of the symptoms are having,
NOTE Confidence: 0.7701022833333333

00:02:19.730 --> 00:02:21.180 but they're not aware that
NOTE Confidence: 0.7701022833333333

00:02:21.180 --> 00:02:22.050 they're retaining urine,
NOTE Confidence: 0.7701022833333333

00:02:22.050 --> 00:02:23.275 and when that urine is
NOTE Confidence: 0.7701022833333333

00:02:23.275 --> 00:02:24.255 retained in the bladder,
NOTE Confidence: 0.7701022833333333

00:02:24.260 --> 00:02:25.790 they could actually start to cause
NOTE Confidence: 0.7701022833333333

00:02:25.790 --> 00:02:27.345 problems with the buyer with the
NOTE Confidence: 0.7701022833333333

00:02:27.345 --> 00:02:28.797 bladder will start to retain urine,
NOTE Confidence: 0.7701022833333333

00:02:28.800 --> 00:02:30.564 and the buyer could get quite large,
NOTE Confidence: 0.7701022833333333

00:02:30.570 --> 00:02:31.530 and that pressure to even
NOTE Confidence: 0.7701022833333333

00:02:31.530 --> 00:02:32.690 back up to the kidneys and.

NOTE Confidence: 0.7701022833333333
00:02:32.690 --> 00:02:34.274 Does kidney damage and it's a
NOTE Confidence: 0.7701022833333333
00:02:34.274 --> 00:02:35.870 bar is not emptying properly.
NOTE Confidence: 0.7701022833333333
00:02:35.870 --> 00:02:37.406 It can lead to other problems
NOTE Confidence: 0.7701022833333333
00:02:37.406 --> 00:02:39.040 such as urinary tract infections,
NOTE Confidence: 0.7701022833333333
00:02:39.040 --> 00:02:39.732 bladder stones,
NOTE Confidence: 0.7701022833333333
00:02:39.732 --> 00:02:41.808 other things could be a problem,
NOTE Confidence: 0.7701022833333333
00:02:41.810 --> 00:02:43.898 so men may be aware of subtle symptoms,
NOTE Confidence: 0.7701022833333333
00:02:43.900 --> 00:02:45.226 but they're not going to necessarily
NOTE Confidence: 0.7701022833333333
00:02:45.226 --> 00:02:46.769 be aware that there is a more
NOTE Confidence: 0.7701022833333333
00:02:46.769 --> 00:02:47.794 ominous problem that may be
NOTE Confidence: 0.7701022833333333
00:02:47.794 --> 00:02:49.078 happening that they're not aware of.
NOTE Confidence: 0.948819125384615
00:02:49.350 --> 00:02:51.184 So where do you come in and
NOTE Confidence: 0.948819125384615
00:02:51.184 --> 00:02:53.278 how do you fix these problems
NOTE Confidence: 0.8878457373333333
00:02:53.610 --> 00:02:55.887 when it comes to me and they have urinary
NOTE Confidence: 0.8878457373333333
00:02:55.887 --> 00:02:57.571 problems and the first thing I do is
NOTE Confidence: 0.8878457373333333

00:02:57.571 --> 00:02:59.532 simply do a history and physical and try
NOTE Confidence: 0.887845737333333

00:02:59.532 --> 00:03:01.376 to assess the degree of their problems.
NOTE Confidence: 0.887845737333333

00:03:01.376 --> 00:03:02.954 We have a questionnaire we often.
NOTE Confidence: 0.887845737333333

00:03:02.960 --> 00:03:04.130 Use quality anyway.
NOTE Confidence: 0.887845737333333

00:03:04.130 --> 00:03:05.690 Symptoms for the American
NOTE Confidence: 0.887845737333333

00:03:05.690 --> 00:03:06.860 neurologic symptoms score,
NOTE Confidence: 0.887845737333333

00:03:06.860 --> 00:03:08.883 which is a series of questions and
NOTE Confidence: 0.887845737333333

00:03:08.883 --> 00:03:10.938 it often kind of gauge how severe
NOTE Confidence: 0.887845737333333

00:03:10.938 --> 00:03:12.940 a patient or a man symptoms are.
NOTE Confidence: 0.887845737333333

00:03:12.940 --> 00:03:14.606 And often we could categorize them as
NOTE Confidence: 0.887845737333333

00:03:14.606 --> 00:03:16.476 kind of mild, moderate or severe symptoms.
NOTE Confidence: 0.887845737333333

00:03:16.476 --> 00:03:18.210 We also have ways of measuring
NOTE Confidence: 0.887845737333333

00:03:18.262 --> 00:03:19.879 the bladder to see if it empties.
NOTE Confidence: 0.887845737333333

00:03:19.880 --> 00:03:21.798 We call that a post void residual,
NOTE Confidence: 0.887845737333333

00:03:21.800 --> 00:03:23.879 and then we also assess things that
NOTE Confidence: 0.887845737333333

00:03:23.879 --> 00:03:25.479 may be contributing to the area.

NOTE Confidence: 0.887845737333333

00:03:25.480 --> 00:03:28.138 Symptoms such as excessive caffeine intake,

NOTE Confidence: 0.887845737333333

00:03:28.140 --> 00:03:28.790 alcohol intake,

NOTE Confidence: 0.887845737333333

00:03:28.790 --> 00:03:30.090 certain medications that are

NOTE Confidence: 0.887845737333333

00:03:30.090 --> 00:03:31.726 prescribed such as diuretics which

NOTE Confidence: 0.887845737333333

00:03:31.726 --> 00:03:33.136 could cause urinary symptoms so.

NOTE Confidence: 0.887845737333333

00:03:33.140 --> 00:03:35.065 That's how we initially evaluate a man

NOTE Confidence: 0.862360362142857

00:03:35.290 --> 00:03:37.970 what has to happen for you to decide

NOTE Confidence: 0.862360362142857

00:03:37.970 --> 00:03:40.690 to go to the euro lift? Let's say

NOTE Confidence: 0.909190597142857

00:03:40.720 --> 00:03:42.659 when a man has difficulty with urinating

NOTE Confidence: 0.909190597142857

00:03:42.659 --> 00:03:44.480 and first thing we do is lifestyle.

NOTE Confidence: 0.909190597142857

00:03:44.480 --> 00:03:46.185 Modifications typically will try men

NOTE Confidence: 0.909190597142857

00:03:46.185 --> 00:03:48.354 on medications and there are different

NOTE Confidence: 0.909190597142857

00:03:48.354 --> 00:03:50.369 medications that relax the prostate,

NOTE Confidence: 0.909190597142857

00:03:50.370 --> 00:03:52.505 make it easier to pass the urine.

NOTE Confidence: 0.909190597142857

00:03:52.510 --> 00:03:54.281 If a man is not having a

NOTE Confidence: 0.909190597142857

00:03:54.281 --> 00:03:55.850 good response to medications,
NOTE Confidence: 0.909190597142857

00:03:55.850 --> 00:03:57.006 side effects from medications,
NOTE Confidence: 0.909190597142857

00:03:57.006 --> 00:03:59.500 or simply does not want to take medicine,
NOTE Confidence: 0.909190597142857

00:03:59.500 --> 00:04:00.970 we could think of alternative
NOTE Confidence: 0.909190597142857

00:04:00.970 --> 00:04:02.770 options such as the euro lift.
NOTE Confidence: 0.909190597142857

00:04:02.770 --> 00:04:03.834 Now the euro lift.
NOTE Confidence: 0.909190597142857

00:04:03.834 --> 00:04:05.430 Is a procedure that is done
NOTE Confidence: 0.909190597142857

00:04:05.493 --> 00:04:07.481 where you put an implant into the
NOTE Confidence: 0.909190597142857

00:04:07.481 --> 00:04:09.453 prostate and it holds the prostate
NOTE Confidence: 0.909190597142857

00:04:09.453 --> 00:04:11.223 tissue in an unobstructed way.
NOTE Confidence: 0.909190597142857

00:04:11.230 --> 00:04:12.362 Basically opening the channel
NOTE Confidence: 0.909190597142857

00:04:12.362 --> 00:04:14.060 and making it easier to urinate.
NOTE Confidence: 0.909190597142857

00:04:14.060 --> 00:04:15.756 Now one of the appeals of the euro
NOTE Confidence: 0.909190597142857

00:04:15.756 --> 00:04:17.858 lift is it also could be done right in
NOTE Confidence: 0.909190597142857

00:04:17.858 --> 00:04:19.570 the office with a local anesthetic,
NOTE Confidence: 0.909190597142857

00:04:19.570 --> 00:04:22.252 and there is a relatively quick

NOTE Confidence: 0.909190597142857
00:04:22.252 --> 00:04:24.040 recovery and significant improvement
NOTE Confidence: 0.909190597142857
00:04:24.105 --> 00:04:25.419 in urinary symptoms,
NOTE Confidence: 0.904263677142857
00:04:25.590 --> 00:04:28.845 but it doesn't fix the enlarged prostate.
NOTE Confidence: 0.904263677142857
00:04:28.850 --> 00:04:31.100 Is the prostate still enlarged
NOTE Confidence: 0.834337734
00:04:31.430 --> 00:04:32.665 so when you do that, you roll it?
NOTE Confidence: 0.834337734
00:04:32.665 --> 00:04:33.840 You're not removing any tissue.
NOTE Confidence: 0.834337734
00:04:33.840 --> 00:04:35.000 You're not burning any tissue.
NOTE Confidence: 0.834337734
00:04:35.000 --> 00:04:36.216 Nothing is being removed.
NOTE Confidence: 0.834337734
00:04:36.216 --> 00:04:37.736 You're simply taking that issue
NOTE Confidence: 0.834337734
00:04:37.736 --> 00:04:39.197 that's obstructing and by putting
NOTE Confidence: 0.834337734
00:04:39.197 --> 00:04:40.853 these implants and you move the
NOTE Confidence: 0.834337734
00:04:40.900 --> 00:04:42.280 tissue into unobstructed way.
NOTE Confidence: 0.834337734
00:04:42.280 --> 00:04:43.774 I mean, you could think of something like a,
NOTE Confidence: 0.834337734
00:04:43.780 --> 00:04:44.770 you know, like a hose.
NOTE Confidence: 0.834337734
00:04:44.770 --> 00:04:46.276 If you if you basically have
NOTE Confidence: 0.834337734

00:04:46.276 --> 00:04:47.580 your thumb partly over host,
NOTE Confidence: 0.834337734

00:04:47.580 --> 00:04:50.284 it really changes the flow of the liquid,
NOTE Confidence: 0.834337734

00:04:50.290 --> 00:04:51.198 right? I'm removing moving
NOTE Confidence: 0.834337734

00:04:51.198 --> 00:04:52.560 your thumb out of the way.
NOTE Confidence: 0.834337734

00:04:52.560 --> 00:04:53.880 The flow is going to change a lot,
NOTE Confidence: 0.834337734

00:04:53.880 --> 00:04:55.385 and so with the Europe is similar.
NOTE Confidence: 0.834337734

00:04:55.390 --> 00:04:56.596 If you basically move that tissue
NOTE Confidence: 0.834337734

00:04:56.596 --> 00:04:58.129 out of the way and you don't
NOTE Confidence: 0.834337734

00:04:58.129 --> 00:04:59.259 necessarily move is very far.
NOTE Confidence: 0.834337734

00:04:59.260 --> 00:05:01.132 The air flow is going to be much better,
NOTE Confidence: 0.834337734

00:05:01.140 --> 00:05:02.472 and when that happens,
NOTE Confidence: 0.834337734

00:05:02.472 --> 00:05:04.137 then typically the other symptoms.
NOTE Confidence: 0.834337734

00:05:04.140 --> 00:05:05.160 Starts to get better too,
NOTE Confidence: 0.834337734

00:05:05.160 --> 00:05:07.008 such as the frequency of urinating
NOTE Confidence: 0.834337734

00:05:07.008 --> 00:05:09.271 urgency to urinate so that one of the
NOTE Confidence: 0.834337734

00:05:09.271 --> 00:05:11.333 appeals of the euro lift for many men

NOTE Confidence: 0.834337734

00:05:11.333 --> 00:05:13.258 as well is there are no documented

NOTE Confidence: 0.834337734

00:05:13.258 --> 00:05:14.975 sexual side effects because many of

NOTE Confidence: 0.834337734

00:05:14.975 --> 00:05:16.998 the other surgeries that we do or

NOTE Confidence: 0.834337734

00:05:16.998 --> 00:05:18.860 some of the medications that we give

NOTE Confidence: 0.834337734

00:05:18.860 --> 00:05:20.478 sometimes interfere with the ability

NOTE Confidence: 0.834337734

00:05:20.478 --> 00:05:22.093 to ejaculate or could sometimes

NOTE Confidence: 0.834337734

00:05:22.093 --> 00:05:23.564 even cause problems with erections.

NOTE Confidence: 0.834337734

00:05:23.564 --> 00:05:25.687 So the euro it has really no

NOTE Confidence: 0.834337734

00:05:25.687 --> 00:05:27.079 documented sexual side effects,

NOTE Confidence: 0.834337734

00:05:27.080 --> 00:05:28.568 so that is very appealing to many men.

NOTE Confidence: 0.89257844

00:05:28.760 --> 00:05:31.315 Does it return a guide to normal?

NOTE Confidence: 0.89257844

00:05:31.320 --> 00:05:34.307 Not maybe to his 20s? But does it?

NOTE Confidence: 0.89257844

00:05:34.307 --> 00:05:37.060 Return him to a normal urinary flow, then

NOTE Confidence: 0.813213937692308

00:05:37.280 --> 00:05:39.968 at times there is a very very remarkable

NOTE Confidence: 0.813213937692308

00:05:39.968 --> 00:05:41.529 improvement with the euro lift.

NOTE Confidence: 0.813213937692308

00:05:41.530 --> 00:05:43.066 I mean, I think it is very important
NOTE Confidence: 0.813213937692308

00:05:43.066 --> 00:05:44.465 that a managed properly selected
NOTE Confidence: 0.813213937692308

00:05:44.465 --> 00:05:46.228 there are certain anatomy's that are
NOTE Confidence: 0.813213937692308

00:05:46.228 --> 00:05:47.824 very good for your lip procedure.
NOTE Confidence: 0.813213937692308

00:05:47.830 --> 00:05:48.910 I think there are other anatomy
NOTE Confidence: 0.813213937692308

00:05:48.910 --> 00:05:50.040 is where a person really is,
NOTE Confidence: 0.813213937692308

00:05:50.040 --> 00:05:51.664 not a good candidate for the airlift.
NOTE Confidence: 0.813213937692308

00:05:51.670 --> 00:05:52.630 And if they're not a good
NOTE Confidence: 0.813213937692308

00:05:52.630 --> 00:05:53.270 candidate for their lists,
NOTE Confidence: 0.813213937692308

00:05:53.270 --> 00:05:54.782 the fortunate thing is we actually have
NOTE Confidence: 0.813213937692308

00:05:54.782 --> 00:05:56.161 many other procedures that could be done
NOTE Confidence: 0.813213937692308

00:05:56.161 --> 00:05:57.616 which could help them out by anatomy.
NOTE Confidence: 0.813213937692308

00:05:57.616 --> 00:05:58.788 What do you mean?
NOTE Confidence: 0.813213937692308

00:05:58.790 --> 00:06:00.490 I mean, the prostate anatomy,
NOTE Confidence: 0.813213937692308

00:06:00.490 --> 00:06:02.080 the size of the prostate,
NOTE Confidence: 0.813213937692308

00:06:02.080 --> 00:06:04.222 and the shape of the prostate has to be.

NOTE Confidence: 0.813213937692308

00:06:04.230 --> 00:06:05.378 Determined there are certain

NOTE Confidence: 0.813213937692308

00:06:05.378 --> 00:06:06.526 shapes of the prostate,

NOTE Confidence: 0.813213937692308

00:06:06.530 --> 00:06:08.054 just basically the where the tissue

NOTE Confidence: 0.813213937692308

00:06:08.054 --> 00:06:09.979 is located in how it's constricting,

NOTE Confidence: 0.813213937692308

00:06:09.980 --> 00:06:11.240 which could determine if the

NOTE Confidence: 0.813213937692308

00:06:11.240 --> 00:06:12.870 airlift is a good procedure or not.

NOTE Confidence: 0.813213937692308

00:06:12.870 --> 00:06:14.638 So I think it's really up to the

NOTE Confidence: 0.813213937692308

00:06:14.638 --> 00:06:15.860 experience of the urologist to

NOTE Confidence: 0.813213937692308

00:06:15.860 --> 00:06:17.547 kind of distinguish who is a good

NOTE Confidence: 0.813213937692308

00:06:17.597 --> 00:06:19.424 candidate for euro lift and who isn't.

NOTE Confidence: 0.813213937692308

00:06:19.430 --> 00:06:20.828 It's not a good procedure across

NOTE Confidence: 0.813213937692308

00:06:20.828 --> 00:06:21.990 the board for every man,

NOTE Confidence: 0.813213937692308

00:06:21.990 --> 00:06:23.462 so I think every man has to be

NOTE Confidence: 0.813213937692308

00:06:23.462 --> 00:06:24.702 evaluated often times that we have

NOTE Confidence: 0.813213937692308

00:06:24.702 --> 00:06:25.950 to do what's called a cystoscopy,

NOTE Confidence: 0.813213937692308

00:06:25.950 --> 00:06:27.470 where we look directly inside
NOTE Confidence: 0.813213937692308

00:06:27.470 --> 00:06:28.990 the prostate at that issue.
NOTE Confidence: 0.813213937692308

00:06:28.990 --> 00:06:30.700 And then we could figure out if the person
NOTE Confidence: 0.813213937692308

00:06:30.700 --> 00:06:32.415 is a good candidate for the euro lift.
NOTE Confidence: 0.856959143333333

00:06:32.450 --> 00:06:34.916 Do you usually need to do a euro lift?
NOTE Confidence: 0.856959143333333

00:06:34.920 --> 00:06:36.244 Again, down the road,
NOTE Confidence: 0.856959143333333

00:06:36.244 --> 00:06:38.890 or is it once and done? Usually
NOTE Confidence: 0.76621115125

00:06:39.170 --> 00:06:42.106 the euro lift has very very good durability.
NOTE Confidence: 0.76621115125

00:06:42.110 --> 00:06:43.580 When it was approved by the FDA,
NOTE Confidence: 0.76621115125

00:06:43.580 --> 00:06:44.400 there was a trial club,
NOTE Confidence: 0.76621115125

00:06:44.400 --> 00:06:46.544 a lift trial which looked at five year
NOTE Confidence: 0.76621115125

00:06:46.544 --> 00:06:48.479 follow up in the retreatment rate.
NOTE Confidence: 0.76621115125

00:06:48.480 --> 00:06:50.096 The surgical retreatment rate
NOTE Confidence: 0.76621115125

00:06:50.096 --> 00:06:52.999 for euro lift is about 13 to 14%.
NOTE Confidence: 0.76621115125

00:06:52.999 --> 00:06:55.684 So most men at five years are going to be
NOTE Confidence: 0.76621115125

00:06:55.684 --> 00:06:58.036 OK with that or after having the airlift.

NOTE Confidence: 0.76621115125

00:06:58.040 --> 00:06:59.517 But there will be a certain percentage

NOTE Confidence: 0.76621115125

00:06:59.517 --> 00:07:01.353 of men who may need to go on to

NOTE Confidence: 0.76621115125

00:07:01.353 --> 00:07:02.870 have either another euro lift or a

NOTE Confidence: 0.76621115125

00:07:02.870 --> 00:07:04.025 different procedure to help them.

NOTE Confidence: 0.83901769

00:07:04.330 --> 00:07:06.696 What is? Recovery like for euro lift.

NOTE Confidence: 0.805626091428571

00:07:06.820 --> 00:07:09.022 Most men after euro lift of

NOTE Confidence: 0.805626091428571

00:07:09.022 --> 00:07:10.490 experienced some irritative urinary

NOTE Confidence: 0.805626091428571

00:07:10.554 --> 00:07:12.444 symptoms so they may have some

NOTE Confidence: 0.805626091428571

00:07:12.444 --> 00:07:14.230 urgency or frequency to urinate.

NOTE Confidence: 0.805626091428571

00:07:14.230 --> 00:07:15.498 Some burning with urination,

NOTE Confidence: 0.805626091428571

00:07:15.498 --> 00:07:17.960 some blood in the urine and this usually

NOTE Confidence: 0.805626091428571

00:07:17.960 --> 00:07:20.402 goes on for a few days and then he thinks

NOTE Confidence: 0.805626091428571

00:07:20.402 --> 00:07:22.488 they kind of get better over a few weeks.

NOTE Confidence: 0.805626091428571

00:07:22.490 --> 00:07:24.296 Or maybe maybe mild symptoms and

NOTE Confidence: 0.805626091428571

00:07:24.296 --> 00:07:26.389 over the course of several weeks.

NOTE Confidence: 0.805626091428571

00:07:26.390 --> 00:07:27.620 Then you start to see the
NOTE Confidence: 0.805626091428571

00:07:27.620 --> 00:07:28.440 improvement in the urination.
NOTE Confidence: 0.894370578333333

00:07:28.600 --> 00:07:30.605 There are other procedures though
NOTE Confidence: 0.894370578333333

00:07:30.605 --> 00:07:33.638 that address BPH and you want to talk
NOTE Confidence: 0.894370578333333

00:07:33.638 --> 00:07:35.990 about one of them today. That you do
NOTE Confidence: 0.849246970769231

00:07:36.280 --> 00:07:38.093 right? So I'd like to talk about
NOTE Confidence: 0.849246970769231

00:07:38.093 --> 00:07:39.638 a procedure called the whole LIP,
NOTE Confidence: 0.849246970769231

00:07:39.640 --> 00:07:41.950 which is holmium laser enucleation
NOTE Confidence: 0.849246970769231

00:07:41.950 --> 00:07:44.420 or prostate, and this is a very
NOTE Confidence: 0.849246970769231

00:07:44.420 --> 00:07:45.960 unique procedure at Yale Medicine.
NOTE Confidence: 0.849246970769231

00:07:45.960 --> 00:07:48.158 We are the only group in Connecticut
NOTE Confidence: 0.849246970769231

00:07:48.158 --> 00:07:49.960 that actually performs this procedure.
NOTE Confidence: 0.849246970769231

00:07:49.960 --> 00:07:51.530 Surgical technique which is minimally
NOTE Confidence: 0.849246970769231

00:07:51.530 --> 00:07:53.412 invasive where you go inside the
NOTE Confidence: 0.849246970769231

00:07:53.412 --> 00:07:54.954 prostate with a scope and you're
NOTE Confidence: 0.849246970769231

00:07:54.954 --> 00:07:56.563 able to basically peel out the

NOTE Confidence: 0.849246970769231
00:07:56.563 --> 00:07:58.135 inside of the prostate like you're
NOTE Confidence: 0.849246970769231
00:07:58.135 --> 00:08:00.320 peeling out the inside of an orange.
NOTE Confidence: 0.849246970769231
00:08:00.320 --> 00:08:02.108 And the nice thing about this
NOTE Confidence: 0.849246970769231
00:08:02.108 --> 00:08:03.860 procedure is it's really complete.
NOTE Confidence: 0.849246970769231
00:08:03.860 --> 00:08:05.715 Removal of the inside of the prostate.
NOTE Confidence: 0.849246970769231
00:08:05.720 --> 00:08:07.260 And there's very little bleeding,
NOTE Confidence: 0.849246970769231
00:08:07.260 --> 00:08:08.604 similar to if you're in the right.
NOTE Confidence: 0.849246970769231
00:08:08.610 --> 00:08:09.365 If you're peeling an orange
NOTE Confidence: 0.849246970769231
00:08:09.365 --> 00:08:10.340 in here in the right plane,
NOTE Confidence: 0.849246970769231
00:08:10.340 --> 00:08:11.524 there's very little juice.
NOTE Confidence: 0.849246970769231
00:08:11.524 --> 00:08:13.437 Well, just think of that juice as blood,
NOTE Confidence: 0.849246970769231
00:08:13.440 --> 00:08:14.848 so when you get into the right plane,
NOTE Confidence: 0.849246970769231
00:08:14.850 --> 00:08:16.621 you could basically peel out the inside
NOTE Confidence: 0.849246970769231
00:08:16.621 --> 00:08:18.530 of the prostate so it's really complete.
NOTE Confidence: 0.849246970769231
00:08:18.530 --> 00:08:20.399 Removal of the inside of the prostate,
NOTE Confidence: 0.849246970769231

00:08:20.400 --> 00:08:21.600 and then we use an instrument
NOTE Confidence: 0.849246970769231

00:08:21.600 --> 00:08:22.400 called the morsel later,
NOTE Confidence: 0.849246970769231

00:08:22.400 --> 00:08:23.324 which removes the tissue.
NOTE Confidence: 0.849246970769231

00:08:23.324 --> 00:08:24.479 So there's no in stations,
NOTE Confidence: 0.849246970769231

00:08:24.480 --> 00:08:26.330 and with this procedure you
NOTE Confidence: 0.849246970769231

00:08:26.330 --> 00:08:28.180 can treat any size prostate,
NOTE Confidence: 0.849246970769231

00:08:28.180 --> 00:08:30.532 so for very very very large prostates
NOTE Confidence: 0.849246970769231

00:08:30.532 --> 00:08:32.359 manner have very few options.
NOTE Confidence: 0.849246970769231

00:08:32.360 --> 00:08:33.660 Be able to treat them,
NOTE Confidence: 0.849246970769231

00:08:33.660 --> 00:08:35.220 and they often have to consider
NOTE Confidence: 0.849246970769231

00:08:35.220 --> 00:08:36.000 an open surgical.
NOTE Confidence: 0.849246970769231

00:08:36.000 --> 00:08:36.352 Approach,
NOTE Confidence: 0.849246970769231

00:08:36.352 --> 00:08:38.816 which is very morbid and it requires
NOTE Confidence: 0.849246970769231

00:08:38.816 --> 00:08:40.538 several days in the hospital.
NOTE Confidence: 0.849246970769231

00:08:40.540 --> 00:08:42.196 Potentially a lot of bleeding with
NOTE Confidence: 0.849246970769231

00:08:42.196 --> 00:08:43.819 the procedure called the whole app.

NOTE Confidence: 0.849246970769231
00:08:43.820 --> 00:08:45.536 We can do these surgeries without
NOTE Confidence: 0.849246970769231
00:08:45.536 --> 00:08:46.108 any incisions,
NOTE Confidence: 0.849246970769231
00:08:46.110 --> 00:08:47.818 and most of our patients go home
NOTE Confidence: 0.849246970769231
00:08:47.818 --> 00:08:49.480 the same day and actually is.
NOTE Confidence: 0.849246970769231
00:08:49.480 --> 00:08:51.146 And also we have very little pain.
NOTE Confidence: 0.849246970769231
00:08:51.150 --> 00:08:52.764 Actually I don't even prescribe pain
NOTE Confidence: 0.849246970769231
00:08:52.764 --> 00:08:53.840 medication with this procedure,
NOTE Confidence: 0.849246970769231
00:08:53.840 --> 00:08:54.875 'cause men really don't complain
NOTE Confidence: 0.849246970769231
00:08:54.875 --> 00:08:55.910 of pain with the procedure.
NOTE Confidence: 0.92984903
00:08:56.000 --> 00:08:57.440 Now the way you describe it,
NOTE Confidence: 0.92984903
00:08:57.440 --> 00:08:59.358 I would think that it would rely
NOTE Confidence: 0.92984903
00:08:59.358 --> 00:09:01.510 really on the skill of the surgeon
NOTE Confidence: 0.92984903
00:09:01.510 --> 00:09:03.406 and the artistry of the surgeon.
NOTE Confidence: 0.90494097
00:09:03.530 --> 00:09:04.822 It's a difficult surgery
NOTE Confidence: 0.90494097
00:09:04.822 --> 00:09:06.437 to learn if there is.
NOTE Confidence: 0.90494097

00:09:06.440 --> 00:09:07.476 Certainly a learning curve,
NOTE Confidence: 0.90494097

00:09:07.476 --> 00:09:09.602 and I think you need to be a
NOTE Confidence: 0.90494097

00:09:09.602 --> 00:09:10.638 dedicated surgeon who really
NOTE Confidence: 0.90494097

00:09:10.638 --> 00:09:12.489 wants to focus on this procedure.
NOTE Confidence: 0.90494097

00:09:12.490 --> 00:09:14.638 This is not a procedure that's
NOTE Confidence: 0.90494097

00:09:14.638 --> 00:09:16.850 done casually by any urologist,
NOTE Confidence: 0.90494097

00:09:16.850 --> 00:09:18.299 so for someone who's doing a whole,
NOTE Confidence: 0.90494097

00:09:18.300 --> 00:09:20.076 if you really kind of have to be
NOTE Confidence: 0.90494097

00:09:20.076 --> 00:09:21.442 dedicated to the art of doing
NOTE Confidence: 0.90494097

00:09:21.442 --> 00:09:22.744 this procedure so we have a
NOTE Confidence: 0.90494097

00:09:22.798 --> 00:09:24.378 very successful program at Yale,
NOTE Confidence: 0.90494097

00:09:24.380 --> 00:09:26.358 we've been doing them since 2019 and
NOTE Confidence: 0.90494097

00:09:26.358 --> 00:09:27.972 actually we have patients were coming
NOTE Confidence: 0.90494097

00:09:27.972 --> 00:09:29.940 from all over Connecticut and even
NOTE Confidence: 0.90494097

00:09:29.940 --> 00:09:31.655 outside states such as Massachusetts,
NOTE Confidence: 0.90494097

00:09:31.660 --> 00:09:32.792 Rhode Island, New York,

NOTE Confidence: 0.90494097

00:09:32.792 --> 00:09:34.490 because they hear about this procedure

NOTE Confidence: 0.90494097

00:09:34.536 --> 00:09:36.176 and and once they find out about it,

NOTE Confidence: 0.90494097

00:09:36.180 --> 00:09:37.086 they have a lot of interest.

NOTE Confidence: 0.788975605

00:09:37.400 --> 00:09:39.746 What is the benefit of the

NOTE Confidence: 0.788975605

00:09:39.746 --> 00:09:42.200 whole up over the euro lift

NOTE Confidence: 0.799351276

00:09:42.330 --> 00:09:44.426 so the euro lift is really good for

NOTE Confidence: 0.799351276

00:09:44.426 --> 00:09:45.842 patients who have prostates are

NOTE Confidence: 0.799351276

00:09:45.842 --> 00:09:48.178 kind of on the smaller side that the

NOTE Confidence: 0.799351276

00:09:48.178 --> 00:09:50.146 original approval of the airlift was

NOTE Confidence: 0.799351276

00:09:50.146 --> 00:09:52.274 for properties from 30 to 80 grams.

NOTE Confidence: 0.799351276

00:09:52.274 --> 00:09:54.657 And now it's just been extended from 30

NOTE Confidence: 0.799351276

00:09:54.657 --> 00:09:57.049 to 100 grams with the whole of procedure.

NOTE Confidence: 0.799351276

00:09:57.050 --> 00:09:58.737 You can do any size prostate you

NOTE Confidence: 0.799351276

00:09:58.737 --> 00:09:59.870 can do prostate better,

NOTE Confidence: 0.799351276

00:09:59.870 --> 00:10:01.628 even several 100 grams and the

NOTE Confidence: 0.799351276

00:10:01.628 --> 00:10:03.762 whole app is really good for any
NOTE Confidence: 0.799351276

00:10:03.762 --> 00:10:05.556 prostate versus the euro lift is
NOTE Confidence: 0.799351276

00:10:05.556 --> 00:10:07.676 going to be good on select prostate.
NOTE Confidence: 0.799351276

00:10:07.680 --> 00:10:08.828 Based on the anatomy
NOTE Confidence: 0.859880485

00:10:09.020 --> 00:10:11.564 and what is the recovery like for Jolla
NOTE Confidence: 0.861633701538461

00:10:11.860 --> 00:10:13.540 so most patients will go home
NOTE Confidence: 0.861633701538461

00:10:13.540 --> 00:10:15.538 the same day after the whole app.
NOTE Confidence: 0.861633701538461

00:10:15.540 --> 00:10:16.740 They live far away.
NOTE Confidence: 0.861633701538461

00:10:16.740 --> 00:10:18.540 Sometimes will keep them overnight and
NOTE Confidence: 0.861633701538461

00:10:18.597 --> 00:10:20.550 usually we keep a catheter in for a day
NOTE Confidence: 0.861633701538461

00:10:20.550 --> 00:10:22.820 or two after the catheter comes out,
NOTE Confidence: 0.861633701538461

00:10:22.820 --> 00:10:24.732 so they should not do any heavy lifting
NOTE Confidence: 0.861633701538461

00:10:24.732 --> 00:10:26.181 or straining this activity for about
NOTE Confidence: 0.861633701538461

00:10:26.181 --> 00:10:28.069 two or three weeks so they can drive.
NOTE Confidence: 0.861633701538461

00:10:28.070 --> 00:10:29.738 They can walk, they can shower,
NOTE Confidence: 0.861633701538461

00:10:29.740 --> 00:10:31.652 and after two or three weeks they could

NOTE Confidence: 0.861633701538461
00:10:31.652 --> 00:10:33.427 start to do normal activity again.
NOTE Confidence: 0.885265337
00:10:33.580 --> 00:10:36.400 I noticed that there are ads
NOTE Confidence: 0.885265337
00:10:36.400 --> 00:10:38.280 online and on television.
NOTE Confidence: 0.885265337
00:10:38.280 --> 00:10:40.552 And on radio for some of these procedures
NOTE Confidence: 0.885265337
00:10:40.552 --> 00:10:42.606 that you never used to see before,
NOTE Confidence: 0.885265337
00:10:42.610 --> 00:10:44.050 I guess it was taboo.
NOTE Confidence: 0.885265337
00:10:44.050 --> 00:10:47.900 Is the taboo around this topic lifting?
NOTE Confidence: 0.885265337
00:10:47.900 --> 00:10:48.689 Do you think?
NOTE Confidence: 0.885265337
00:10:48.689 --> 00:10:50.874 Or why are we talking about it more
NOTE Confidence: 0.885265337
00:10:50.874 --> 00:10:53.106 and seeing more of this in your view?
NOTE Confidence: 0.892631107619048
00:10:53.260 --> 00:10:55.066 Well, I think that the reason we're
NOTE Confidence: 0.892631107619048
00:10:55.066 --> 00:10:57.282 seeing a lot more of this on TV and
NOTE Confidence: 0.892631107619048
00:10:57.282 --> 00:10:58.800 other places this is marketing.
NOTE Confidence: 0.892631107619048
00:10:58.800 --> 00:11:00.704 There is a business aspect terms of
NOTE Confidence: 0.892631107619048
00:11:00.704 --> 00:11:02.597 you know products that are being used.
NOTE Confidence: 0.892631107619048

00:11:02.600 --> 00:11:05.274 But it also comes with good intention.
NOTE Confidence: 0.892631107619048

00:11:05.280 --> 00:11:08.390 I mean there is a huge huge need for men.
NOTE Confidence: 0.892631107619048

00:11:08.390 --> 00:11:09.530 We're having difficulty
NOTE Confidence: 0.892631107619048

00:11:09.530 --> 00:11:11.050 urinating who need care,
NOTE Confidence: 0.892631107619048

00:11:11.050 --> 00:11:13.140 and so I think it is good that men are
NOTE Confidence: 0.892631107619048

00:11:13.198 --> 00:11:15.286 being made aware of different options.
NOTE Confidence: 0.892631107619048

00:11:15.290 --> 00:11:17.546 Making this conversation come to life.
NOTE Confidence: 0.892631107619048

00:11:17.550 --> 00:11:18.526 Universe is something that
NOTE Confidence: 0.892631107619048

00:11:18.526 --> 00:11:19.746 you just don't talk about.
NOTE Confidence: 0.892631107619048

00:11:19.750 --> 00:11:21.472 I mean, I think some men they
NOTE Confidence: 0.892631107619048

00:11:21.472 --> 00:11:23.235 just accept that part of aging
NOTE Confidence: 0.892631107619048

00:11:23.235 --> 00:11:24.519 is having difficulty urinating
NOTE Confidence: 0.892631107619048

00:11:24.519 --> 00:11:26.349 getting up many times at night.
NOTE Confidence: 0.892631107619048

00:11:26.350 --> 00:11:26.730 You know,
NOTE Confidence: 0.892631107619048

00:11:26.730 --> 00:11:28.250 not being able to sit through a movie
NOTE Confidence: 0.892631107619048

00:11:28.292 --> 00:11:29.849 without having to get up a few times and

NOTE Confidence: 0.892631107619048
00:11:29.849 --> 00:11:31.728 it really doesn't have to be that way there.
NOTE Confidence: 0.892631107619048
00:11:31.730 --> 00:11:32.930 There are treatments that are available
NOTE Confidence: 0.892631107619048
00:11:32.930 --> 00:11:34.618 and it's just a matter of kind of
NOTE Confidence: 0.892631107619048
00:11:34.618 --> 00:11:35.673 looking for those treatments and
NOTE Confidence: 0.892631107619048
00:11:35.673 --> 00:11:36.838 finding out what's right for you.
NOTE Confidence: 0.921313275
00:11:37.020 --> 00:11:38.706 Must be a lot of satisfaction.
NOTE Confidence: 0.921313275
00:11:38.710 --> 00:11:39.558 Doing what you do,
NOTE Confidence: 0.861330732
00:11:39.720 --> 00:11:40.635 it's very satisfying,
NOTE Confidence: 0.861330732
00:11:40.635 --> 00:11:42.770 so my focus is really meant self.
NOTE Confidence: 0.861330732
00:11:42.770 --> 00:11:45.530 But really my my passion is treating BPH.
NOTE Confidence: 0.861330732
00:11:45.530 --> 00:11:46.868 It's very very black and white.
NOTE Confidence: 0.861330732
00:11:46.870 --> 00:11:48.368 I mean when you have someone who
NOTE Confidence: 0.861330732
00:11:48.368 --> 00:11:49.633 can't urinate and they may have
NOTE Confidence: 0.861330732
00:11:49.633 --> 00:11:50.977 a catheter end and then you can
NOTE Confidence: 0.861330732
00:11:51.029 --> 00:11:52.499 do a procedure and then then the
NOTE Confidence: 0.861330732

00:11:52.499 --> 00:11:53.841 next day they're able to urinate
NOTE Confidence: 0.861330732

00:11:53.841 --> 00:11:55.263 like they're ten years old again.
NOTE Confidence: 0.861330732

00:11:55.270 --> 00:11:56.802 I mean, it's a very, very satisfying,
NOTE Confidence: 0.861330732

00:11:56.802 --> 00:11:59.574 so there's no school of delay gratification.
NOTE Confidence: 0.861330732

00:11:59.580 --> 00:12:01.458 I mean, you get some gratification
NOTE Confidence: 0.861330732

00:12:01.458 --> 00:12:03.330 very quickly when you treat BPH,
NOTE Confidence: 0.861330732

00:12:03.330 --> 00:12:05.070 able to help someone urinate.
NOTE Confidence: 0.861330732

00:12:05.070 --> 00:12:06.660 And I think I think I make a lot of
NOTE Confidence: 0.861330732

00:12:06.706 --> 00:12:08.566 lifelong friends by doing this procedure,
NOTE Confidence: 0.861330732

00:12:08.570 --> 00:12:09.119 so it it's.
NOTE Confidence: 0.861330732

00:12:09.119 --> 00:12:10.700 One of the things that I really enjoy,
NOTE Confidence: 0.8234992484

00:12:10.860 --> 00:12:12.924 well, I can tell your passion
NOTE Confidence: 0.8234992484

00:12:12.924 --> 00:12:14.623 really comes through anything else
NOTE Confidence: 0.8234992484

00:12:14.623 --> 00:12:16.422 that you want to add on either
NOTE Confidence: 0.8234992484

00:12:16.422 --> 00:12:18.480 the euro lift or the whole lip. I
NOTE Confidence: 0.95572736125

00:12:18.490 --> 00:12:19.862 think there are many

NOTE Confidence: 0.95572736125

00:12:19.862 --> 00:12:21.234 different options for men.

NOTE Confidence: 0.95572736125

00:12:21.240 --> 00:12:22.580 I think it's important that

NOTE Confidence: 0.95572736125

00:12:22.580 --> 00:12:23.920 basically they make an appointment.

NOTE Confidence: 0.95572736125

00:12:23.920 --> 00:12:25.285 You have to see the urologist to

NOTE Confidence: 0.95572736125

00:12:25.285 --> 00:12:27.033 be able to go over the different

NOTE Confidence: 0.95572736125

00:12:27.033 --> 00:12:28.145 options that are available.

NOTE Confidence: 0.95572736125

00:12:28.150 --> 00:12:30.766 I think men are pretty savvy these days.

NOTE Confidence: 0.95572736125

00:12:30.770 --> 00:12:31.890 What they could learn on the Internet?

NOTE Confidence: 0.95572736125

00:12:31.890 --> 00:12:33.815 Many of them come in with some

NOTE Confidence: 0.95572736125

00:12:33.815 --> 00:12:35.241 knowledge of what's available and

NOTE Confidence: 0.95572736125

00:12:35.241 --> 00:12:37.401 then when they come in I could kind

NOTE Confidence: 0.95572736125

00:12:37.456 --> 00:12:39.220 of tailor the right approach to.

NOTE Confidence: 0.95572736125

00:12:39.220 --> 00:12:40.914 The person based on what really what

NOTE Confidence: 0.95572736125

00:12:40.914 --> 00:12:42.453 their desire is, is their number.

NOTE Confidence: 0.95572736125

00:12:42.453 --> 00:12:44.079 One desire to preserve sexual function,

NOTE Confidence: 0.95572736125

00:12:44.080 --> 00:12:45.448 but they want to urinate better
NOTE Confidence: 0.95572736125

00:12:45.448 --> 00:12:47.136 or is their desire to have one
NOTE Confidence: 0.95572736125

00:12:47.136 --> 00:12:48.346 procedure where they're going to
NOTE Confidence: 0.95572736125

00:12:48.346 --> 00:12:49.788 have the best urinating or will
NOTE Confidence: 0.95572736125

00:12:49.788 --> 00:12:51.476 ever be able to achieve and never
NOTE Confidence: 0.95572736125

00:12:51.476 --> 00:12:52.740 need another surgery again.
NOTE Confidence: 0.95572736125

00:12:52.740 --> 00:12:54.356 So we can kind of tell her what
NOTE Confidence: 0.95572736125

00:12:54.356 --> 00:12:55.917 the the treatment is to the
NOTE Confidence: 0.95572736125

00:12:55.917 --> 00:12:57.567 patient and what their desire is.
NOTE Confidence: 0.933485490555556

00:12:58.080 --> 00:12:59.598 Well you've given us a lot
NOTE Confidence: 0.933485490555556

00:12:59.598 --> 00:13:01.174 of information and I want to
NOTE Confidence: 0.933485490555556

00:13:01.174 --> 00:13:02.704 thank you for taking the time.
NOTE Confidence: 0.732007656666667

00:13:02.920 --> 00:13:03.589 No thank you.
NOTE Confidence: 0.800202415

00:13:05.520 --> 00:13:07.605 You strive to innovate to
