WEBVTT

NOTE Confidence: 0.90441199

00:00:09.100 --> 00:00:12.498 Most of the faculty tracks have have

NOTE Confidence: 0.90441199

00:00:12.498 --> 00:00:15.088 different timelines at the assistant

NOTE Confidence: 0.90441199

00:00:15.088 --> 00:00:17.411 professor rank the clinician scientist.

NOTE Confidence: 0.90441199

00:00:17.411 --> 00:00:19.119 The traditional tenure track,

NOTE Confidence: 0.90441199

00:00:19.120 --> 00:00:21.148 and the investigator track all have

NOTE Confidence: 0.90441199

00:00:21.148 --> 00:00:24.037 a maximum of six years that you can

NOTE Confidence: 0.90441199

00:00:24.037 --> 00:00:25.877 spend as an assistant professor.

NOTE Confidence: 0.90441199

00:00:25.880 --> 00:00:27.332 That's excluding some extensions

NOTE Confidence: 0.90441199

00:00:27.332 --> 00:00:30.000 that I'll talk about in the moment,

NOTE Confidence: 0.90441199

00:00:30.000 --> 00:00:31.000 and then if you move,

NOTE Confidence: 0.90441199

00:00:31.000 --> 00:00:33.821 look at the assistant professors on the

NOTE Confidence: 0.90441199

00:00:33.821 --> 00:00:36.418 clinician educator or the clinical tracks,

NOTE Confidence: 0.90441199

00:00:36.420 --> 00:00:39.630 you'll you can have be reappointed.

NOTE Confidence: 0.90441199

00:00:39.630 --> 00:00:41.470 Several times and it's renewable

NOTE Confidence: 0.90441199

00:00:41.470 --> 00:00:43.310 in the assistant professor in

NOTE Confidence: 0.90441199

00:00:43.369 --> 00:00:45.089 the clinician educator track.

NOTE Confidence: 0.90441199

00:00:45.090 --> 00:00:48.288 Generally, that renewal should be forth,

NOTE Confidence: 0.90441199

00:00:48.290 --> 00:00:50.540 you know, up to three terms of three or

NOTE Confidence: 0.90441199

00:00:50.540 --> 00:00:52.967 three three year terms less than nine years,

NOTE Confidence: 0.90441199

00:00:52.970 --> 00:00:54.435 but we're certainly we let

NOTE Confidence: 0.90441199

00:00:54.435 --> 00:00:55.607 people stay much longer.

NOTE Confidence: 0.90441199

00:00:55.610 --> 00:00:57.510 It's not a mandatory thing.

NOTE Confidence: 0.90441199

00:00:57.510 --> 00:00:59.814 The university would like us not to have

NOTE Confidence: 0.90441199

00:00:59.814 --> 00:01:01.710 people staying as a clinician educator.

NOTE Confidence: 0.90441199

00:01:01.710 --> 00:01:03.482 Faculty beyond nine years,

NOTE Confidence: 0.90441199

00:01:03.482 --> 00:01:06.140 but we do not enforce that

NOTE Confidence: 0.90441199

00:01:06.228 --> 00:01:08.568 at the medical school level.

NOTE Confidence: 0.90441199

00:01:08.570 --> 00:01:10.550 And then you know at the

NOTE Confidence: 0.90441199

00:01:10.550 --> 00:01:11.705 associate professor ranks,

NOTE Confidence: 0.90441199

00:01:11.705 --> 00:01:14.768 you have different time periods and I just

NOTE Confidence: 0.90441199

00:01:14.768 --> 00:01:17.477 want to note bring up to your attention that.

NOTE Confidence: 0.90441199

00:01:17.480 --> 00:01:19.230 In the tenure track as

NOTE Confidence: 0.90441199

00:01:19.230 --> 00:01:20.280 an assistant professor,

NOTE Confidence: 0.90441199

00:01:20.280 --> 00:01:21.356 you spent six years,

NOTE Confidence: 0.90441199

00:01:21.356 --> 00:01:23.719 and then you have 10 years to 10 years.

NOTE Confidence: 0.90441199

00:01:23.720 --> 00:01:25.813 So you really have four years as

NOTE Confidence: 0.90441199

00:01:25.813 --> 00:01:27.343 an associate professor before you

NOTE Confidence: 0.90441199

00:01:27.343 --> 00:01:29.059 have to be appointed to tenure.

NOTE Confidence: 0.90441199

00:01:29.060 --> 00:01:31.154 If you've already done six years

NOTE Confidence: 0.90441199

00:01:31.154 --> 00:01:32.550 as an assistant professor.

NOTE Confidence: 0.90441199

00:01:32.550 --> 00:01:34.495 And that's the main difference

NOTE Confidence: 0.90441199

00:01:34.495 --> 00:01:36.440 between the traditional track and

NOTE Confidence: 0.90441199

00:01:36.505 --> 00:01:38.329 the clinician scientist track,

NOTE Confidence: 0.90441199

00:01:38.330 --> 00:01:40.927 which has no limit to the number

NOTE Confidence: 0.90441199

00:01:40.927 --> 00:01:44.182 of terms you can be as an associate

NOTE Confidence: 0.90441199

00:01:44.182 --> 00:01:46.623 professor in that in that track,

NOTE Confidence: 0.90441199

00:01:46.623 --> 00:01:49.430 and so it's a less your trajectory

NOTE Confidence: 0.90441199

00:01:49.517 --> 00:01:52.883 in terms of advancement and your

NOTE Confidence: 0.90441199

00:01:52.883 --> 00:01:54.825 accomplishments made us need to be

NOTE Confidence: 0.90441199

00:01:54.825 --> 00:01:56.861 as steep in the traditional in the

NOTE Confidence: 0.90441199

00:01:56.861 --> 00:01:58.655 clinician scientist track as it does

NOTE Confidence: 0.90441199

00:01:58.655 --> 00:02:00.989 in the in in the traditional track,

NOTE Confidence: 0.90441199

00:02:00.990 --> 00:02:02.280 and that has to do oftentimes

NOTE Confidence: 0.90441199

00:02:02.280 --> 00:02:03.570 with the type of science.

NOTE Confidence: 0.90441199

00:02:03.570 --> 00:02:05.460 With people and research that people

NOTE Confidence: 0.90441199

00:02:05.460 --> 00:02:07.338 are conducting in, the clinician,

NOTE Confidence: 0.90441199

00:02:07.338 --> 00:02:09.658 scientists in the traditional track.

NOTE Confidence: 0.90441199

00:02:09.660 --> 00:02:12.047 So I want to mention also about

NOTE Confidence: 0.90441199

00:02:12.047 --> 00:02:13.070 the COVID extension.

NOTE Confidence: 0.90441199

00:02:13.070 --> 00:02:15.485 Depending upon when you were actually hired.

NOTE Confidence: 0.90441199

00:02:15.490 --> 00:02:17.270 If you were hired before,

NOTE Confidence: 0.90441199

00:02:17.270 --> 00:02:19.697 on or before January 1st, 2021,

NOTE Confidence: 0.90441199

00:02:19.697 --> 00:02:21.432 then you had an automatic

NOTE Confidence: 0.90441199

00:02:21.432 --> 00:02:23.270 extension added to your clock,

NOTE Confidence: 0.90441199

00:02:23.270 --> 00:02:25.125 and if you were in different time,

NOTE Confidence: 0.90441199

00:02:25.130 --> 00:02:26.582 limited time limited tracks,

NOTE Confidence: 0.90441199

00:02:26.582 --> 00:02:29.789 it does not count to the maximum three

NOTE Confidence: 0.90441199

00:02:29.789 --> 00:02:32.663 years total for other approved extensions,

NOTE Confidence: 0.90441199

00:02:32.670 --> 00:02:34.122 you may have that those might

NOTE Confidence: 0.90441199

00:02:34.122 --> 00:02:35.090 be for child rearing.

NOTE Confidence: 0.90441199

00:02:35.090 --> 00:02:36.266 If you have a public service.

NOTE Confidence: 0.90441199

00:02:36.270 --> 00:02:39.886 Sleep military leave that type of thing.

NOTE Confidence: 0.90441199

00:02:39.890 --> 00:02:42.418 So just keep in mind that those are

NOTE Confidence: 0.90441199

00:02:42.418 --> 00:02:44.841 things that depending upon when you

NOTE Confidence: 0.90441199

00:02:44.841 --> 00:02:47.421 were appointed to your current position,

NOTE Confidence: 0.90441199

00:02:47.430 --> 00:02:49.782 you may have a different timeline

NOTE Confidence: 0.90441199

00:02:49.782 --> 00:02:51.734 or a different opportunity to

NOTE Confidence: 0.90441199

00:02:51.734 --> 00:02:52.990 because of the COVID.

NOTE Confidence: 0.90441199

00:02:52.990 --> 00:02:54.565 If you were an assistant

NOTE Confidence: 0.90441199

00:02:54.565 --> 00:02:55.825 professor at another institution,

NOTE Confidence: 0.90441199

00:02:55.830 --> 00:02:57.944 3 three years or all those years

NOTE Confidence: 0.90441199

00:02:57.944 --> 00:03:00.230 you were at the other institution

NOTE Confidence: 0.90441199

00:03:00.230 --> 00:03:02.415 may count towards your clock.

NOTE Confidence: 0.90441199

00:03:02.420 --> 00:03:06.091 But you are given two more years that

NOTE Confidence: 0.90441199

00:03:06.091 --> 00:03:08.437 are are allowed that don't count.

NOTE Confidence: 0.90441199

00:03:08.440 --> 00:03:10.960 It's three years of total approved

NOTE Confidence: 0.90441199

00:03:10.960 --> 00:03:11.380 extensions.

NOTE Confidence: 0.930258225

00:03:11.380 --> 00:03:13.662 That gives you time to move your

NOTE Confidence: 0.930258225

00:03:13.662 --> 00:03:16.031 program here to Yale before you

NOTE Confidence: 0.930258225

00:03:16.031 --> 00:03:18.236 might be considered for advancement.

NOTE Confidence: 0.930258225

00:03:18.240 --> 00:03:19.952 So I asked you, do you know your

NOTE Confidence: 0.930258225

00:03:19.952 --> 00:03:21.714 timeline and if you want to look for it,

NOTE Confidence: 0.930258225

00:03:21.720 --> 00:03:22.998 you have to look for it and work day.

NOTE Confidence: 0.930258225

00:03:23.000 --> 00:03:25.871 And I just created a a snapshot of a

NOTE Confidence: 0.930258225

00:03:25.871 --> 00:03:29.222 of a of what it looks like in work day.

NOTE Confidence: 0.930258225

00:03:29.230 --> 00:03:30.990 You'll see this summary on

NOTE Confidence: 0.930258225

00:03:30.990 --> 00:03:32.720 the left where you have your.

NOTE Confidence: 0.930258225

00:03:32.720 --> 00:03:34.869 Your name and your title will be up here.

NOTE Confidence: 0.930258225

00:03:34.870 --> 00:03:36.994 If you look on under academic

NOTE Confidence: 0.930258225

00:03:36.994 --> 00:03:38.820 under appointment history you can

NOTE Confidence: 0.930258225

00:03:38.820 --> 00:03:40.570 find when you're track started.

NOTE Confidence: 0.930258225

00:03:40.570 --> 00:03:43.570 This person started as an undifferentiated

NOTE Confidence: 0.930258225

00:03:43.570 --> 00:03:46.016 ladder faculty person in 2016,

NOTE Confidence: 0.930258225

00:03:46.016 --> 00:03:48.246 and then when that appointment

NOTE Confidence: 0.930258225

00:03:48.246 --> 00:03:51.174 ended was in 2019 because then they

NOTE Confidence: 0.930258225

00:03:51.174 --> 00:03:53.550 were actually appointed to a track.

NOTE Confidence: 0.930258225

00:03:53.550 --> 00:03:55.762 At that point it was called the

NOTE Confidence: 0.930258225

00:03:55.762 --> 00:03:57.818 clinician scholar track in 2019 and

NOTE Confidence: 0.930258225

00:03:57.818 --> 00:04:00.838 in January of 2021 that name was

NOTE Confidence: 0.930258225

00:04:00.838 --> 00:04:02.466 changed to clinician scientists.

NOTE Confidence: 0.930258225

00:04:02.470 --> 00:04:04.468 So this is a. Historical record

NOTE Confidence: 0.930258225

00:04:04.468 --> 00:04:06.180 of what's happening in your.

NOTE Confidence: 0.930258225

00:04:06.180 --> 00:04:08.440 Your appointments and promotions.

NOTE Confidence: 0.930258225

00:04:08.440 --> 00:04:12.140 So this is how this might be recorded here.

NOTE Confidence: 0.930258225

00:04:12.140 --> 00:04:14.583 But you can look and find out

NOTE Confidence: 0.930258225

00:04:14.583 --> 00:04:16.204 when your assistant professorship

NOTE Confidence: 0.930258225

00:04:16.204 --> 00:04:18.699 started the appointment start and

NOTE Confidence: 0.930258225

00:04:18.699 --> 00:04:21.479 when your current term is ending.

NOTE Confidence: 0.930258225

00:04:21.480 --> 00:04:23.220 In work day and just remember

NOTE Confidence: 0.930258225

00:04:23.220 --> 00:04:24.950 you know your numbers of years,

NOTE Confidence: 0.930258225

00:04:24.950 --> 00:04:26.306 you can have in these tracks.

NOTE Confidence: 0.930258225

00:04:26.310 --> 00:04:29.467 It's going to be really dependent upon.

NOTE Confidence: 0.930258225

00:04:29.470 --> 00:04:33.740 Your your particular track that you're in.
