

WEBVTT

NOTE duration:"01:01:26"

NOTE recognizability:0.830

NOTE language:en-us

NOTE Confidence: 0.9159896875

00:00:30.800 --> 00:00:32.760 OK, let's get started.

NOTE Confidence: 0.9159896875

00:00:32.760 --> 00:00:34.720 Thanks everyone for joining.

NOTE Confidence: 0.9159896875

00:00:34.720 --> 00:00:36.049 I'm Justin fansler.

NOTE Confidence: 0.9159896875

00:00:36.049 --> 00:00:38.264 I'm a senior director of.

NOTE Confidence: 0.9159896875

00:00:38.270 --> 00:00:39.986 Technology and communications and

NOTE Confidence: 0.9159896875

00:00:39.986 --> 00:00:42.560 strategy and the Office of Communications.

NOTE Confidence: 0.9159896875

00:00:42.560 --> 00:00:43.733 It's a mouthful.

NOTE Confidence: 0.9159896875

00:00:43.733 --> 00:00:46.079 So our team is responsible for

NOTE Confidence: 0.9159896875

00:00:46.079 --> 00:00:49.126 all of the back end and front end

NOTE Confidence: 0.9159896875

00:00:49.126 --> 00:00:51.229 systems that power the schools,

NOTE Confidence: 0.9159896875

00:00:51.230 --> 00:00:55.256 websites and a bunch of other

NOTE Confidence: 0.9159896875

00:00:55.256 --> 00:00:58.830 communications platforms at the school.

NOTE Confidence: 0.9159896875

00:00:58.830 --> 00:01:01.189 This session is to introduce you all

NOTE Confidence: 0.9159896875

00:01:01.189 --> 00:01:03.303 to Beatrix to answer your questions
NOTE Confidence: 0.9159896875

00:01:03.303 --> 00:01:06.375 and to give you a general lay of the
NOTE Confidence: 0.9159896875

00:01:06.375 --> 00:01:08.518 land for the new system, Beatrix.
NOTE Confidence: 0.9159896875

00:01:08.518 --> 00:01:11.110 Because the replacement system
NOTE Confidence: 0.9159896875

00:01:11.110 --> 00:01:14.350 for the school's profile system.
NOTE Confidence: 0.9159896875

00:01:14.350 --> 00:01:18.557 It's a custom built tool that our
NOTE Confidence: 0.9159896875

00:01:18.557 --> 00:01:23.090 team builds and manages so we have
NOTE Confidence: 0.9159896875

00:01:23.090 --> 00:01:26.208 lots of room to make improvements
NOTE Confidence: 0.9159896875

00:01:26.208 --> 00:01:28.920 and changes as you all highlight
NOTE Confidence: 0.9159896875

00:01:28.920 --> 00:01:30.995 things that would be helpful
NOTE Confidence: 0.9159896875

00:01:30.995 --> 00:01:32.655 in your day-to-day work.
NOTE Confidence: 0.9159896875

00:01:32.660 --> 00:01:35.530 The system was designed to be easy
NOTE Confidence: 0.9159896875

00:01:35.530 --> 00:01:38.949 to use and as a self-service tool.
NOTE Confidence: 0.9159896875

00:01:38.950 --> 00:01:40.570 Understanding that people are busy
NOTE Confidence: 0.9159896875

00:01:40.570 --> 00:01:43.249 and they work at all hours of the day,
NOTE Confidence: 0.9159896875

00:01:43.250 --> 00:01:45.750 so if a faculty member wants to log in it.

NOTE Confidence: 0.9159896875

00:01:45.750 --> 00:01:48.914 Three in the morning from Berlin to

NOTE Confidence: 0.9159896875

00:01:48.914 --> 00:01:51.686 update their publications on their profile.

NOTE Confidence: 0.9159896875

00:01:51.690 --> 00:01:52.562 They can do that.

NOTE Confidence: 0.9159896875

00:01:52.562 --> 00:01:54.858 If you need to post a story from your

NOTE Confidence: 0.9159896875

00:01:54.858 --> 00:01:56.706 phone while you're picking up your

NOTE Confidence: 0.9159896875

00:01:56.706 --> 00:01:59.510 kids from school, you can do that.

NOTE Confidence: 0.9159896875

00:01:59.510 --> 00:02:05.440 So if you run into issues that you.

NOTE Confidence: 0.9159896875

00:02:05.440 --> 00:02:08.000 Think make this not an easy to use

NOTE Confidence: 0.9159896875

00:02:08.000 --> 00:02:10.480 tool or you run into questions.

NOTE Confidence: 0.9159896875

00:02:10.480 --> 00:02:11.915 Please never hesitate to reach

NOTE Confidence: 0.9159896875

00:02:11.915 --> 00:02:13.063 out to us via

NOTE Confidence: 0.912115448

00:02:16.050 --> 00:02:17.298 YS m.editor@yale.edu and the

NOTE Confidence: 0.912115448

00:02:17.298 --> 00:02:18.858 team is very responsive and

NOTE Confidence: 0.912115448

00:02:18.858 --> 00:02:20.439 we'll get back to you quickly.

NOTE Confidence: 0.912115448

00:02:20.440 --> 00:02:23.590 You can also use the report a bug feature

NOTE Confidence: 0.912115448

00:02:23.590 --> 00:02:26.513 button in the system itself to let us
NOTE Confidence: 0.912115448

00:02:26.513 --> 00:02:28.900 know anything that you come up with.
NOTE Confidence: 0.912115448

00:02:28.900 --> 00:02:31.240 So I'm going to stop talking now
NOTE Confidence: 0.912115448

00:02:31.240 --> 00:02:33.160 because I could go on for a while
NOTE Confidence: 0.912115448

00:02:33.215 --> 00:02:35.047 and Mark Albus is going to pick up
NOTE Confidence: 0.912115448

00:02:35.047 --> 00:02:36.787 and take you through the system.
NOTE Confidence: 0.912115448

00:02:36.790 --> 00:02:39.164 If you have questions that come up,
NOTE Confidence: 0.912115448

00:02:39.164 --> 00:02:40.712 just use the chat feature and
NOTE Confidence: 0.912115448

00:02:40.712 --> 00:02:42.572 we've got people that are going to
NOTE Confidence: 0.912115448

00:02:42.572 --> 00:02:44.673 monitor that and can make sure that
NOTE Confidence: 0.912115448

00:02:44.673 --> 00:02:46.025 Elvis answers those questions.
NOTE Confidence: 0.912115448

00:02:46.030 --> 00:02:48.816 We're also going to be pasting links
NOTE Confidence: 0.912115448

00:02:48.816 --> 00:02:51.522 into the chat at relevant times during
NOTE Confidence: 0.912115448

00:02:51.522 --> 00:02:54.261 the during the discussion to let you
NOTE Confidence: 0.912115448

00:02:54.261 --> 00:02:56.685 know about future training sessions or
NOTE Confidence: 0.912115448

00:02:56.685 --> 00:02:59.558 specific web pages that could help you out.

NOTE Confidence: 0.912115448
00:02:59.560 --> 00:03:00.700 OK, I'll just take it away.
NOTE Confidence: 0.874979054285714
00:03:01.460 --> 00:03:04.000 All right. Thanks everybody,
NOTE Confidence: 0.874979054285714
00:03:04.000 --> 00:03:05.905 for joining today.
NOTE Confidence: 0.874979054285714
00:03:05.910 --> 00:03:08.846 I'm just going to dive right in since
NOTE Confidence: 0.874979054285714
00:03:08.846 --> 00:03:11.529 Justin gave the introduction already,
NOTE Confidence: 0.874979054285714
00:03:11.530 --> 00:03:14.365 but if you haven't logged in already,
NOTE Confidence: 0.874979054285714
00:03:14.370 --> 00:03:16.169 the first thing you will see when
NOTE Confidence: 0.874979054285714
00:03:16.169 --> 00:03:18.058 you log in in the new system.
NOTE Confidence: 0.874979054285714
00:03:18.060 --> 00:03:20.741 Is something that that Beatrix that yelled
NOTE Confidence: 0.874979054285714
00:03:20.741 --> 00:03:24.246 at you is something that looks like this.
NOTE Confidence: 0.874979054285714
00:03:24.250 --> 00:03:26.368 This, this very first thing that
NOTE Confidence: 0.874979054285714
00:03:26.368 --> 00:03:29.009 you're going to see is the dashboard.
NOTE Confidence: 0.874979054285714
00:03:29.010 --> 00:03:32.484 We are this is still a work in progress.
NOTE Confidence: 0.874979054285714
00:03:32.490 --> 00:03:35.129 We have some helpful links here currently,
NOTE Confidence: 0.874979054285714
00:03:35.130 --> 00:03:36.774 but we're going to continue to
NOTE Confidence: 0.874979054285714

00:03:36.774 --> 00:03:38.729 add to this as time goes on.
NOTE Confidence: 0.874979054285714

00:03:38.730 --> 00:03:39.582 Most importantly,
NOTE Confidence: 0.874979054285714

00:03:39.582 --> 00:03:41.712 what you're going to see
NOTE Confidence: 0.874979054285714

00:03:41.712 --> 00:03:43.689 are two categories of items,
NOTE Confidence: 0.874979054285714

00:03:43.690 --> 00:03:46.786 which are the drafts in progress,
NOTE Confidence: 0.874979054285714

00:03:46.790 --> 00:03:48.890 which could be events that you haven't
NOTE Confidence: 0.874979054285714

00:03:48.890 --> 00:03:51.270 that you started but haven't published yet,
NOTE Confidence: 0.874979054285714

00:03:51.270 --> 00:03:53.153 news that you might be working on
NOTE Confidence: 0.874979054285714

00:03:53.153 --> 00:03:55.040 that you haven't published just yet.
NOTE Confidence: 0.874979054285714

00:03:55.040 --> 00:03:57.525 We're trying to make it easier to
NOTE Confidence: 0.874979054285714

00:03:57.525 --> 00:04:00.780 access all of those kind of items quickly.
NOTE Confidence: 0.784480258

00:04:02.930 --> 00:04:04.618 I think some of you might find there
NOTE Confidence: 0.784480258

00:04:04.618 --> 00:04:06.410 were you had items in draft status
NOTE Confidence: 0.784480258

00:04:06.410 --> 00:04:07.725 that you totally forgot about.
NOTE Confidence: 0.784480258

00:04:07.730 --> 00:04:09.666 Now they're going to be surfaced right here,
NOTE Confidence: 0.784480258

00:04:09.670 --> 00:04:13.100 so we should be easy access there.

NOTE Confidence: 0.784480258

00:04:13.100 --> 00:04:15.746 On the other really important thing

NOTE Confidence: 0.784480258

00:04:15.746 --> 00:04:18.650 is we are putting these categories of

NOTE Confidence: 0.784480258

00:04:18.650 --> 00:04:20.890 items that need some kind of review.

NOTE Confidence: 0.784480258

00:04:20.890 --> 00:04:23.634 You're only going to see this if

NOTE Confidence: 0.784480258

00:04:23.634 --> 00:04:25.510 you have administrative access to

NOTE Confidence: 0.784480258

00:04:25.510 --> 00:04:28.085 organization for approving news or

NOTE Confidence: 0.784480258

00:04:28.085 --> 00:04:31.470 events to appear on the website.

NOTE Confidence: 0.784480258

00:04:31.470 --> 00:04:34.278 So these will be quick links to go

NOTE Confidence: 0.784480258

00:04:34.278 --> 00:04:37.007 straight to your list of news events

NOTE Confidence: 0.784480258

00:04:37.007 --> 00:04:39.570 so you can start approving things,

NOTE Confidence: 0.784480258

00:04:39.570 --> 00:04:45.310 which I will get to shortly. Um.

NOTE Confidence: 0.784480258

00:04:45.310 --> 00:04:49.280 So. Sorry for all the barking,

NOTE Confidence: 0.784480258

00:04:49.280 --> 00:04:52.043 it is in power line working on set my.

NOTE Confidence: 0.8439244425

00:04:54.150 --> 00:04:55.150 Alright, that's enough for

NOTE Confidence: 0.8439244425

00:04:55.150 --> 00:04:56.150 the dashboard for now.

NOTE Confidence: 0.8439244425

00:04:56.150 --> 00:04:58.661 I'm gonna go right into the meat of it
NOTE Confidence: 0.8439244425

00:04:58.661 --> 00:05:01.288 that most people are gonna end up using,
NOTE Confidence: 0.8439244425

00:05:01.290 --> 00:05:02.904 which are profiles.
NOTE Confidence: 0.8439244425

00:05:02.904 --> 00:05:06.670 Profiles we haven't changed a whole lot.
NOTE Confidence: 0.8439244425

00:05:06.670 --> 00:05:09.142 It's mostly the same data that
NOTE Confidence: 0.8439244425

00:05:09.142 --> 00:05:10.790 we were collecting previously.
NOTE Confidence: 0.8439244425

00:05:10.790 --> 00:05:12.530 It's just in this new,
NOTE Confidence: 0.8439244425

00:05:12.530 --> 00:05:14.480 hopefully easier to use layout.
NOTE Confidence: 0.823532786470588

00:05:16.610 --> 00:05:19.180 Importantly, for faculty and other
NOTE Confidence: 0.823532786470588

00:05:19.180 --> 00:05:22.250 people who might want somebody else
NOTE Confidence: 0.823532786470588

00:05:22.250 --> 00:05:24.758 to help them edit their profile,
NOTE Confidence: 0.823532786470588

00:05:24.760 --> 00:05:26.180 we have this feature before.
NOTE Confidence: 0.823532786470588

00:05:26.180 --> 00:05:30.005 But you can you do have the ability to
NOTE Confidence: 0.823532786470588

00:05:30.005 --> 00:05:34.348 add a editor to your profile so that they
NOTE Confidence: 0.823532786470588

00:05:34.348 --> 00:05:38.618 also have access to this profile. Umm.
NOTE Confidence: 0.905991536428571

00:05:41.800 --> 00:05:43.332 In addition to that,

NOTE Confidence: 0.905991536428571
00:05:43.332 --> 00:05:45.247 you can manage things like
NOTE Confidence: 0.905991536428571
00:05:45.247 --> 00:05:47.359 the how your name appears,
NOTE Confidence: 0.905991536428571
00:05:47.360 --> 00:05:49.445 there's big we're importing everyone's
NOTE Confidence: 0.905991536428571
00:05:49.445 --> 00:05:53.880 name from work day, but importantly.
NOTE Confidence: 0.905991536428571
00:05:53.880 --> 00:05:56.104 You can put your own display name here.
NOTE Confidence: 0.905991536428571
00:05:56.110 --> 00:05:59.022 If you'd like your name to appear slightly
NOTE Confidence: 0.905991536428571
00:05:59.022 --> 00:06:00.668 differently then your legal name,
NOTE Confidence: 0.905991536428571
00:06:00.668 --> 00:06:02.810 you can use these display first name,
NOTE Confidence: 0.905991536428571
00:06:02.810 --> 00:06:04.522 display middle name fields,
NOTE Confidence: 0.905991536428571
00:06:04.522 --> 00:06:07.090 etcetera to update her name appears.
NOTE Confidence: 0.905991536428571
00:06:07.090 --> 00:06:09.070 But if your name legally changes,
NOTE Confidence: 0.905991536428571
00:06:09.070 --> 00:06:12.950 you really should contact each other or go
NOTE Confidence: 0.905991536428571
00:06:12.950 --> 00:06:17.070 into work day and your name in work day.
NOTE Confidence: 0.905991536428571
00:06:17.070 --> 00:06:18.642 Do that and it will automatically
NOTE Confidence: 0.905991536428571
00:06:18.642 --> 00:06:20.406 improve and it will automatically update
NOTE Confidence: 0.905991536428571

00:06:20.406 --> 00:06:22.404 once it's processed and work day.
NOTE Confidence: 0.905991536428571

00:06:22.410 --> 00:06:24.394 But you want to make sure that you're.
NOTE Confidence: 0.905991536428571

00:06:24.400 --> 00:06:27.572 Legal name is what is the assistant
NOTE Confidence: 0.905991536428571

00:06:27.572 --> 00:06:31.908 record at Yale, which is work day.
NOTE Confidence: 0.905991536428571

00:06:31.910 --> 00:06:33.398 Another important element is
NOTE Confidence: 0.905991536428571

00:06:33.398 --> 00:06:34.514 managing your suffixes.
NOTE Confidence: 0.805459141111111

00:06:36.610 --> 00:06:39.850 For the types of suffixes you want to add,
NOTE Confidence: 0.805459141111111

00:06:39.850 --> 00:06:42.700 you have these your familial substances
NOTE Confidence: 0.805459141111111

00:06:42.700 --> 00:06:44.222 like junior, senior, etcetera.
NOTE Confidence: 0.805459141111111

00:06:44.222 --> 00:06:46.510 You can just go ahead and add those.
NOTE Confidence: 0.805459141111111

00:06:46.510 --> 00:06:48.910 Same thing for professional suffixes.
NOTE Confidence: 0.805459141111111

00:06:48.910 --> 00:06:50.920 If someone needs to add some
NOTE Confidence: 0.805459141111111

00:06:50.920 --> 00:06:51.590 professional certification,
NOTE Confidence: 0.805459141111111

00:06:51.590 --> 00:06:53.030 they don't seem this list,
NOTE Confidence: 0.805459141111111

00:06:53.030 --> 00:06:56.210 just contact us and we'll try to add it here.
NOTE Confidence: 0.805459141111111

00:06:56.210 --> 00:06:59.630 But importantly for your academic suffixes,

NOTE Confidence: 0.8054591411111111
00:06:59.630 --> 00:07:02.612 you're only going to be able to
NOTE Confidence: 0.8054591411111111
00:07:02.612 --> 00:07:04.900 choose suffixes that you've entered
NOTE Confidence: 0.8054591411111111
00:07:04.900 --> 00:07:06.920 the corresponding education that.
NOTE Confidence: 0.8054591411111111
00:07:06.920 --> 00:07:09.930 Information to your profile about.
NOTE Confidence: 0.8054591411111111
00:07:09.930 --> 00:07:10.962 So for example,
NOTE Confidence: 0.8054591411111111
00:07:10.962 --> 00:07:13.026 right now Doctor Grauer all he's
NOTE Confidence: 0.8054591411111111
00:07:13.026 --> 00:07:14.810 entered information about his MD
NOTE Confidence: 0.8054591411111111
00:07:14.810 --> 00:07:17.239 which he's already added to his name
NOTE Confidence: 0.8054591411111111
00:07:17.239 --> 00:07:19.346 and he also has educational if he
NOTE Confidence: 0.8054591411111111
00:07:19.346 --> 00:07:22.008 wanted his BS to show up, he can.
NOTE Confidence: 0.8054591411111111
00:07:22.010 --> 00:07:23.606 I don't think it's super popular option,
NOTE Confidence: 0.8054591411111111
00:07:23.610 --> 00:07:24.495 but it's there.
NOTE Confidence: 0.8054591411111111
00:07:24.495 --> 00:07:26.560 So if anyone ever is unable to
NOTE Confidence: 0.8054591411111111
00:07:26.631 --> 00:07:28.557 add a suffix because it's some
NOTE Confidence: 0.8054591411111111
00:07:28.557 --> 00:07:30.230 kind of degree they have,
NOTE Confidence: 0.8054591411111111

00:07:30.230 --> 00:07:32.885 make sure they know to go to the education

NOTE Confidence: 0.8054591411111111

00:07:32.885 --> 00:07:34.450 section and update that information

NOTE Confidence: 0.8054591411111111

00:07:34.450 --> 00:07:37.089 so that it will then be available to.

NOTE Confidence: 0.8054591411111111

00:07:37.090 --> 00:07:37.866 Another suffix.

NOTE Confidence: 0.8054591411111111

00:07:37.866 --> 00:07:40.194 We also put the suffixes editor

NOTE Confidence: 0.8054591411111111

00:07:40.194 --> 00:07:42.506 here so that people can easily

NOTE Confidence: 0.8054591411111111

00:07:42.506 --> 00:07:44.702 add to it after they've added

NOTE Confidence: 0.8054591411111111

00:07:44.781 --> 00:07:47.109 some new degree to their profile.

NOTE Confidence: 0.859595655714286

00:07:50.900 --> 00:07:52.874 And we have all your standard info.

NOTE Confidence: 0.859595655714286

00:07:52.880 --> 00:07:55.015 This is nothing different from the current,

NOTE Confidence: 0.859595655714286

00:07:55.020 --> 00:07:56.916 the old profile system,

NOTE Confidence: 0.859595655714286

00:07:56.916 --> 00:08:00.683 I should say, your phone numbers,

NOTE Confidence: 0.859595655714286

00:08:00.683 --> 00:08:03.807 your e-mail mailing address.

NOTE Confidence: 0.859595655714286

00:08:03.810 --> 00:08:05.514 Importantly, one thing that

NOTE Confidence: 0.859595655714286

00:08:05.514 --> 00:08:07.644 we'd like to start tracking,

NOTE Confidence: 0.859595655714286

00:08:07.650 --> 00:08:09.610 especially for our leadership

NOTE Confidence: 0.859595655714286
00:08:09.610 --> 00:08:12.550 and chairs and people like that,
NOTE Confidence: 0.859595655714286
00:08:12.550 --> 00:08:15.448 their administrative assistance.
NOTE Confidence: 0.859595655714286
00:08:15.450 --> 00:08:18.586 We're going to use this both to output
NOTE Confidence: 0.859595655714286
00:08:18.586 --> 00:08:20.760 information about who the best person
NOTE Confidence: 0.859595655714286
00:08:20.760 --> 00:08:22.850 to contact is for those people who
NOTE Confidence: 0.859595655714286
00:08:22.850 --> 00:08:25.170 might be too busy to take their own
NOTE Confidence: 0.859595655714286
00:08:25.170 --> 00:08:27.305 emails and phone calls all the time.
NOTE Confidence: 0.859595655714286
00:08:27.310 --> 00:08:29.396 But also we're hoping to use the
NOTE Confidence: 0.859595655714286
00:08:29.396 --> 00:08:31.704 data in the system for general
NOTE Confidence: 0.859595655714286
00:08:31.704 --> 00:08:33.897 reporting purposes as well. So.
NOTE Confidence: 0.859595655714286
00:08:33.897 --> 00:08:36.746 It'd be really helpful if we could
NOTE Confidence: 0.859595655714286
00:08:36.746 --> 00:08:39.650 fill out these assistant fields.
NOTE Confidence: 0.859595655714286
00:08:39.650 --> 00:08:42.394 As needed so that we have this
NOTE Confidence: 0.859595655714286
00:08:42.394 --> 00:08:43.570 data stored somewhere.
NOTE Confidence: 0.859595655714286
00:08:43.570 --> 00:08:46.870 Um. That about covers it.
NOTE Confidence: 0.859595655714286

00:08:46.870 --> 00:08:51.230 For the overview I'm going to skip to,
NOTE Confidence: 0.859595655714286

00:08:51.230 --> 00:08:52.410 well, I'll quickly go,
NOTE Confidence: 0.859595655714286

00:08:52.410 --> 00:08:53.885 biography hasn't changed very much.
NOTE Confidence: 0.859595655714286

00:08:53.890 --> 00:08:59.380 You can still. Update your biography.
NOTE Confidence: 0.859595655714286

00:08:59.380 --> 00:09:00.589 When it appears.
NOTE Confidence: 0.834776886666667

00:09:05.430 --> 00:09:07.350 You can still update your biography,
NOTE Confidence: 0.834776886666667

00:09:07.350 --> 00:09:10.327 and you may or may not sometimes.
NOTE Confidence: 0.834776886666667

00:09:10.327 --> 00:09:13.983 Faculty and staff will be used appear in
NOTE Confidence: 0.834776886666667

00:09:13.983 --> 00:09:16.728 listings that have custom biographies,
NOTE Confidence: 0.834776886666667

00:09:16.730 --> 00:09:18.392 for whatever reason,
NOTE Confidence: 0.834776886666667

00:09:18.392 --> 00:09:21.384 provide their role specifically in such
NOTE Confidence: 0.834776886666667

00:09:21.384 --> 00:09:23.706 as it pertains to some organization.
NOTE Confidence: 0.834776886666667

00:09:23.710 --> 00:09:25.660 For example, that could growler
NOTE Confidence: 0.834776886666667

00:09:25.660 --> 00:09:27.610 has his primary biography that
NOTE Confidence: 0.834776886666667

00:09:27.680 --> 00:09:29.128 appears on his profile,
NOTE Confidence: 0.834776886666667

00:09:29.130 --> 00:09:31.713 but he has a special biography that

NOTE Confidence: 0.834776886666667

00:09:31.713 --> 00:09:34.991 appears on the office of Academic and

NOTE Confidence: 0.834776886666667

00:09:34.991 --> 00:09:37.087 Professional Development site that

NOTE Confidence: 0.834776886666667

00:09:37.087 --> 00:09:39.758 describes his role for that office.

NOTE Confidence: 0.834776886666667

00:09:39.760 --> 00:09:43.120 Because these only appear in certain sites,

NOTE Confidence: 0.834776886666667

00:09:43.120 --> 00:09:47.520 we don't allow users generally to edit these,

NOTE Confidence: 0.834776886666667

00:09:47.520 --> 00:09:49.632 but they can request a change if they

NOTE Confidence: 0.834776886666667

00:09:49.632 --> 00:09:51.168 find something inaccurate they display

NOTE Confidence: 0.834776886666667

00:09:51.168 --> 00:09:52.736 here so they know what they say.

NOTE Confidence: 0.834776886666667

00:09:52.740 --> 00:09:53.680 Even if they don't,

NOTE Confidence: 0.834776886666667

00:09:53.680 --> 00:09:55.500 they might not be aware all the

NOTE Confidence: 0.834776886666667

00:09:55.500 --> 00:09:56.940 places their profiles appearing,

NOTE Confidence: 0.834776886666667

00:09:56.940 --> 00:09:59.308 but we don't allow them to edit this

NOTE Confidence: 0.834776886666667

00:09:59.308 --> 00:10:01.631 just because it could cause issues if

NOTE Confidence: 0.834776886666667

00:10:01.631 --> 00:10:04.036 they don't realize the context in which

NOTE Confidence: 0.834776886666667

00:10:04.036 --> 00:10:06.076 this profile appears on the website.

NOTE Confidence: 0.834776886666667

00:10:06.080 --> 00:10:06.628 But again,
NOTE Confidence: 0.834776886666667

00:10:06.628 --> 00:10:07.998 they could always request an
NOTE Confidence: 0.834776886666667

00:10:07.998 --> 00:10:09.479 edit with this button here.
NOTE Confidence: 0.834776886666667

00:10:09.480 --> 00:10:09.980 Mark,
NOTE Confidence: 0.834776886666667

00:10:09.980 --> 00:10:11.258 can I interrupt you for a SEC because
NOTE Confidence: 0.834776886666667

00:10:11.258 --> 00:10:13.322 this is where I got tripped up yesterday.
NOTE Confidence: 0.834776886666667

00:10:13.330 --> 00:10:16.640 Could you talk about the autosave feature?
NOTE Confidence: 0.834776886666667

00:10:16.640 --> 00:10:18.166 And I realized I'm in the live
NOTE Confidence: 0.834776886666667

00:10:18.166 --> 00:10:19.698 system where I don't want to be,
NOTE Confidence: 0.834776886666667

00:10:19.700 --> 00:10:19.970 so.
NOTE Confidence: 0.799492108571429

00:10:22.570 --> 00:10:23.918 Been carefully avoiding making
NOTE Confidence: 0.799492108571429

00:10:23.918 --> 00:10:25.838 any actual updates, so let me go.
NOTE Confidence: 0.799492108571429

00:10:25.838 --> 00:10:27.200 This is just a development environment,
NOTE Confidence: 0.799492108571429

00:10:27.200 --> 00:10:29.615 so don't be scared that I'm screwing
NOTE Confidence: 0.799492108571429

00:10:29.615 --> 00:10:31.498 up Doctor Rogers by bio here.
NOTE Confidence: 0.799492108571429

00:10:31.500 --> 00:10:35.920 This is only in our test system, so.

NOTE Confidence: 0.799492108571429
00:10:35.920 --> 00:10:37.024 In profile system,
NOTE Confidence: 0.799492108571429
00:10:37.024 --> 00:10:39.600 whenever you need any kind of edit,
NOTE Confidence: 0.799492108571429
00:10:39.600 --> 00:10:41.448 you would always have to go click
NOTE Confidence: 0.799492108571429
00:10:41.448 --> 00:10:43.293 some button that says save or update
NOTE Confidence: 0.799492108571429
00:10:43.293 --> 00:10:45.319 in order for that change to be saved.
NOTE Confidence: 0.799492108571429
00:10:45.320 --> 00:10:47.165 One theme you're gonna notice
NOTE Confidence: 0.799492108571429
00:10:47.165 --> 00:10:49.798 throughout the system is in a lot
NOTE Confidence: 0.799492108571429
00:10:49.798 --> 00:10:51.940 of places where you're using an
NOTE Confidence: 0.799492108571429
00:10:51.940 --> 00:10:53.715 autosave function to save your
NOTE Confidence: 0.799492108571429
00:10:53.715 --> 00:10:55.375 edits as you're making them.
NOTE Confidence: 0.799492108571429
00:10:55.380 --> 00:10:58.260 This is both for convenience and
NOTE Confidence: 0.799492108571429
00:10:58.260 --> 00:11:00.676 to make sure if you're spending
NOTE Confidence: 0.799492108571429
00:11:00.676 --> 00:11:01.916 lots and lots of time,
NOTE Confidence: 0.799492108571429
00:11:01.920 --> 00:11:03.880 I could easily spend maybe 30 minutes
NOTE Confidence: 0.799492108571429
00:11:03.880 --> 00:11:05.890 or more editing somebody's biography.
NOTE Confidence: 0.799492108571429

00:11:05.890 --> 00:11:07.410 Writing it from scratch,
NOTE Confidence: 0.799492108571429

00:11:07.410 --> 00:11:09.310 even we don't want you to lose your work,
NOTE Confidence: 0.799492108571429

00:11:09.310 --> 00:11:10.888 so you're periodically,
NOTE Confidence: 0.799492108571429

00:11:10.888 --> 00:11:12.872 periodically going to as
NOTE Confidence: 0.799492108571429

00:11:12.872 --> 00:11:14.078 you're making changes.
NOTE Confidence: 0.859616785454546

00:11:18.630 --> 00:11:20.814 You will see this little green
NOTE Confidence: 0.859616785454546

00:11:20.814 --> 00:11:22.770 check appear in that field.
NOTE Confidence: 0.859616785454546

00:11:22.770 --> 00:11:24.310 That green check means that
NOTE Confidence: 0.859616785454546

00:11:24.310 --> 00:11:25.850 we've saved whatever you wrote.
NOTE Confidence: 0.859616785454546

00:11:25.850 --> 00:11:28.030 Obviously I need to go back and fix my typos,
NOTE Confidence: 0.859616785454546

00:11:28.030 --> 00:11:30.291 but we're going to save as you're
NOTE Confidence: 0.859616785454546

00:11:30.291 --> 00:11:32.730 making edits so that in the event
NOTE Confidence: 0.859616785454546

00:11:32.730 --> 00:11:34.485 that you lose Internet access,
NOTE Confidence: 0.859616785454546

00:11:34.490 --> 00:11:37.248 your computer crashes and you totally lose
NOTE Confidence: 0.859616785454546

00:11:37.250 --> 00:11:39.743 your place in the system when you come back,
NOTE Confidence: 0.859616785454546

00:11:39.750 --> 00:11:40.706 it's going to start.

NOTE Confidence: 0.859616785454546
00:11:40.706 --> 00:11:42.600 Your changes are still going to be there,
NOTE Confidence: 0.859616785454546
00:11:42.600 --> 00:11:44.250 and that's not just the bio.
NOTE Confidence: 0.859616785454546
00:11:44.250 --> 00:11:44.563 Importantly,
NOTE Confidence: 0.859616785454546
00:11:44.563 --> 00:11:46.754 that's for lots and lots of field
NOTE Confidence: 0.859616785454546
00:11:46.754 --> 00:11:49.007 throughout if you're ever editing on a page.
NOTE Confidence: 0.859616785454546
00:11:49.010 --> 00:11:50.714 And you don't see a save
NOTE Confidence: 0.859616785454546
00:11:50.714 --> 00:11:52.216 button or an update button.
NOTE Confidence: 0.859616785454546
00:11:52.216 --> 00:11:54.941 Keep an eye out for this little check
NOTE Confidence: 0.859616785454546
00:11:54.941 --> 00:11:57.006 because your changes are probably
NOTE Confidence: 0.859616785454546
00:11:57.006 --> 00:12:01.260 being saved as you're editing. Umm.
NOTE Confidence: 0.859616785454546
00:12:01.260 --> 00:12:03.180 I'll quickly go over education.
NOTE Confidence: 0.859616785454546
00:12:03.180 --> 00:12:05.298 One place you often you might
NOTE Confidence: 0.859616785454546
00:12:05.298 --> 00:12:07.424 not see the autosave function so
NOTE Confidence: 0.859616785454546
00:12:07.424 --> 00:12:09.968 often is in a model like this one
NOTE Confidence: 0.859616785454546
00:12:10.042 --> 00:12:13.004 or a pop-up so when I add a new
NOTE Confidence: 0.859616785454546

00:12:13.004 --> 00:12:14.860 education for my education list
NOTE Confidence: 0.859616785454546

00:12:14.860 --> 00:12:16.570 when I'm adding this degree.
NOTE Confidence: 0.917423934545455

00:12:21.260 --> 00:12:23.871 I need to actually fill out all
NOTE Confidence: 0.917423934545455

00:12:23.871 --> 00:12:25.460 the required information first.
NOTE Confidence: 0.895487282

00:12:27.840 --> 00:12:29.270 And then once I have.
NOTE Confidence: 0.80747807

00:12:36.010 --> 00:12:38.305 Once I have, then I'm going to hit add.
NOTE Confidence: 0.80747807

00:12:38.310 --> 00:12:40.958 So usually the rule is if I'm editing
NOTE Confidence: 0.80747807

00:12:40.958 --> 00:12:43.669 in a field that's on the page,
NOTE Confidence: 0.80747807

00:12:43.670 --> 00:12:45.125 like the biography,
NOTE Confidence: 0.80747807

00:12:45.125 --> 00:12:47.065 this guy biography field,
NOTE Confidence: 0.80747807

00:12:47.070 --> 00:12:48.690 it's going to be autosaved.
NOTE Confidence: 0.80747807

00:12:48.690 --> 00:12:51.147 If I'm interacting with some kind of pop up,
NOTE Confidence: 0.80747807

00:12:51.150 --> 00:12:53.366 I probably need to hit an add or
NOTE Confidence: 0.80747807

00:12:53.366 --> 00:12:55.624 update button in order to save my work.
NOTE Confidence: 0.80747807

00:12:55.630 --> 00:12:57.850 So that's just a general rule.
NOTE Confidence: 0.80747807

00:12:57.850 --> 00:12:59.050 It's not, I don't think it's

NOTE Confidence: 0.80747807

00:12:59.050 --> 00:12:59.650 necessarily true throughout,

NOTE Confidence: 0.80747807

00:12:59.650 --> 00:13:01.990 but that's a general guideline

NOTE Confidence: 0.80747807

00:13:01.990 --> 00:13:03.778 so you know you can save.

NOTE Confidence: 0.794392878181818

00:13:06.190 --> 00:13:07.393 Let's keep going.

NOTE Confidence: 0.794392878181818

00:13:07.393 --> 00:13:10.890 I'm going to touch on titles really quickly.

NOTE Confidence: 0.794392878181818

00:13:10.890 --> 00:13:12.562 Umm, your primary title?

NOTE Confidence: 0.794392878181818

00:13:12.562 --> 00:13:15.070 So Doctor Brauer's primary title is

NOTE Confidence: 0.794392878181818

00:13:15.143 --> 00:13:18.208 professor of orthopedics and rehabilitation.

NOTE Confidence: 0.794392878181818

00:13:18.210 --> 00:13:19.668 This is coming from work day.

NOTE Confidence: 0.794392878181818

00:13:19.670 --> 00:13:22.290 We're not going to be able to edit this year.

NOTE Confidence: 0.794392878181818

00:13:22.290 --> 00:13:24.194 You're not be able to hide it

NOTE Confidence: 0.794392878181818

00:13:24.194 --> 00:13:25.909 from your profile because we want

NOTE Confidence: 0.794392878181818

00:13:25.909 --> 00:13:27.855 to show your role at the school.

NOTE Confidence: 0.794392878181818

00:13:27.860 --> 00:13:29.152 If this is wrong,

NOTE Confidence: 0.794392878181818

00:13:29.152 --> 00:13:30.767 you're going to have to

NOTE Confidence: 0.794392878181818

00:13:30.767 --> 00:13:32.349 contact employee services,
NOTE Confidence: 0.794392878181818

00:13:32.350 --> 00:13:34.436 which you have the address right here
NOTE Confidence: 0.794392878181818

00:13:34.436 --> 00:13:36.804 to get that corrected and it may
NOTE Confidence: 0.794392878181818

00:13:36.804 --> 00:13:38.244 involve various departments to get
NOTE Confidence: 0.794392878181818

00:13:38.244 --> 00:13:40.157 the backup information and all that.
NOTE Confidence: 0.794392878181818

00:13:40.160 --> 00:13:40.400 But
NOTE Confidence: 0.796487996666667

00:13:40.410 --> 00:13:42.300 once it's updated and work day,
NOTE Confidence: 0.796487996666667

00:13:42.300 --> 00:13:44.638 it will import into the system overnight.
NOTE Confidence: 0.796487996666667

00:13:44.640 --> 00:13:46.908 We sync with work day once once a day,
NOTE Confidence: 0.64191294

00:13:47.460 --> 00:13:48.748 right? Thank you, Justin.
NOTE Confidence: 0.89056676

00:13:51.650 --> 00:13:52.253 Additionally,
NOTE Confidence: 0.89056676

00:13:52.253 --> 00:13:55.268 we can add administrative positions.
NOTE Confidence: 0.89056676

00:13:55.270 --> 00:13:57.769 These aren't really tracked in work day,
NOTE Confidence: 0.89056676

00:13:57.770 --> 00:14:01.458 so we we have to rely on people
NOTE Confidence: 0.89056676

00:14:01.458 --> 00:14:04.089 inputting this data themselves.
NOTE Confidence: 0.89056676

00:14:04.090 --> 00:14:07.247 You can Add all the titles that

NOTE Confidence: 0.89056676

00:14:07.247 --> 00:14:09.422 are relevant and you can choose

NOTE Confidence: 0.89056676

00:14:09.422 --> 00:14:12.090 to show or hide them as you wish.

NOTE Confidence: 0.89056676

00:14:12.090 --> 00:14:13.609 The exception is we're obviously not going

NOTE Confidence: 0.89056676

00:14:13.609 --> 00:14:15.515 to show any titles that are from the past.

NOTE Confidence: 0.89056676

00:14:15.520 --> 00:14:16.855 You're not be able to

NOTE Confidence: 0.89056676

00:14:16.855 --> 00:14:18.190 display these on the site,

NOTE Confidence: 0.89056676

00:14:18.190 --> 00:14:20.696 but it's nice to have this record.

NOTE Confidence: 0.89056676

00:14:20.700 --> 00:14:22.961 Again, just so we have this record

NOTE Confidence: 0.89056676

00:14:22.961 --> 00:14:24.490 of previous positions of the

NOTE Confidence: 0.89056676

00:14:24.490 --> 00:14:26.156 school similar to the assistance,

NOTE Confidence: 0.89056676

00:14:26.156 --> 00:14:28.280 this could be useful data to

NOTE Confidence: 0.89056676

00:14:28.353 --> 00:14:30.157 have for reporting purposes.

NOTE Confidence: 0.89056676

00:14:30.160 --> 00:14:31.171 Um, patient care.

NOTE Confidence: 0.89056676

00:14:31.171 --> 00:14:31.508 Again,

NOTE Confidence: 0.89056676

00:14:31.508 --> 00:14:34.620 I'm not going to dive too deep into this,

NOTE Confidence: 0.89056676

00:14:34.620 --> 00:14:38.778 but the main things to be aware of are

NOTE Confidence: 0.89056676

00:14:38.778 --> 00:14:42.980 for faculty who are also specialists,

NOTE Confidence: 0.89056676

00:14:42.980 --> 00:14:44.928 seeing patients for you

NOTE Confidence: 0.89056676

00:14:44.928 --> 00:14:46.389 through real medicine.

NOTE Confidence: 0.89056676

00:14:46.390 --> 00:14:49.085 They're going to want to make sure

NOTE Confidence: 0.89056676

00:14:49.085 --> 00:14:51.280 that this information is up to date.

NOTE Confidence: 0.89056676

00:14:51.280 --> 00:14:55.000 Importantly, they are going to want

NOTE Confidence: 0.89056676

00:14:55.000 --> 00:14:57.980 to select their specialties and.

NOTE Confidence: 0.89056676

00:14:57.980 --> 00:15:01.040 Especially these expertise areas

NOTE Confidence: 0.89056676

00:15:01.040 --> 00:15:02.570 of specialization.

NOTE Confidence: 0.89056676

00:15:02.570 --> 00:15:03.086 Generally,

NOTE Confidence: 0.89056676

00:15:03.086 --> 00:15:05.150 on the yalemedicine.org website,

NOTE Confidence: 0.89056676

00:15:05.150 --> 00:15:08.670 we're associating the specialists

NOTE Confidence: 0.89056676

00:15:08.670 --> 00:15:11.974 with conditions that that are

NOTE Confidence: 0.89056676

00:15:11.974 --> 00:15:15.122 treated and news articles that are

NOTE Confidence: 0.89056676

00:15:15.122 --> 00:15:18.020 written by the YM content team.

NOTE Confidence: 0.89056676

00:15:18.020 --> 00:15:21.404 Or associating that based on the ICD 9

NOTE Confidence: 0.89056676

00:15:21.404 --> 00:15:25.285 and CPT 10 codes that they bill against.

NOTE Confidence: 0.89056676

00:15:25.290 --> 00:15:26.172 It's all anonymized.

NOTE Confidence: 0.89056676

00:15:26.172 --> 00:15:27.642 So we're not dealing with

NOTE Confidence: 0.89056676

00:15:27.642 --> 00:15:29.069 any sense of information.

NOTE Confidence: 0.89056676

00:15:29.070 --> 00:15:31.968 It's simply what kinds of we're tracking,

NOTE Confidence: 0.89056676

00:15:31.970 --> 00:15:34.370 what kinds of things these

NOTE Confidence: 0.89056676

00:15:34.370 --> 00:15:35.810 special surveilling for.

NOTE Confidence: 0.89056676

00:15:35.810 --> 00:15:38.138 But that might not always give

NOTE Confidence: 0.89056676

00:15:38.138 --> 00:15:40.796 an accurate picture of what that

NOTE Confidence: 0.89056676

00:15:40.796 --> 00:15:42.848 specialist is actually treating.

NOTE Confidence: 0.89056676

00:15:42.850 --> 00:15:43.810 For example,

NOTE Confidence: 0.89056676

00:15:43.810 --> 00:15:46.942 you might have some super specialty quote,

NOTE Confidence: 0.89056676

00:15:46.942 --> 00:15:49.970 UN quote that is. Very rare and.

NOTE Confidence: 0.89056676

00:15:49.970 --> 00:15:52.790 They're not seeing patients that often,

NOTE Confidence: 0.89056676

00:15:52.790 --> 00:15:55.359 but it's really their entire focus of
NOTE Confidence: 0.89056676

00:15:55.359 --> 00:15:57.958 their career could be treated treating
NOTE Confidence: 0.89056676

00:15:57.958 --> 00:15:59.866 this particularly rare illness.
NOTE Confidence: 0.89056676

00:15:59.870 --> 00:16:02.684 So they're going to want to make
NOTE Confidence: 0.89056676

00:16:02.684 --> 00:16:05.628 sure that that is reflected in
NOTE Confidence: 0.89056676

00:16:05.628 --> 00:16:07.828 this expertise areas section.
NOTE Confidence: 0.89056676

00:16:07.830 --> 00:16:10.152 Similarly this how do you want
NOTE Confidence: 0.89056676

00:16:10.152 --> 00:16:12.600 to build your practice for new
NOTE Confidence: 0.89056676

00:16:12.600 --> 00:16:14.645 faculty or specialists who are
NOTE Confidence: 0.89056676

00:16:14.645 --> 00:16:17.270 looking to expand into another area?
NOTE Confidence: 0.89056676

00:16:17.270 --> 00:16:19.636 They might want to be associated with
NOTE Confidence: 0.89056676

00:16:19.636 --> 00:16:21.600 conditions that they're not necessarily.
NOTE Confidence: 0.89056676

00:16:21.600 --> 00:16:23.880 Seeing people for at the moment
NOTE Confidence: 0.89056676

00:16:23.880 --> 00:16:26.652 because they're interested in
NOTE Confidence: 0.89056676

00:16:26.652 --> 00:16:29.540 seeing patients in that capacity.
NOTE Confidence: 0.89056676

00:16:29.540 --> 00:16:31.215 So again, in that case,

NOTE Confidence: 0.89056676

00:16:31.215 --> 00:16:32.790 they're going to make sure they fill

NOTE Confidence: 0.89056676

00:16:32.835 --> 00:16:34.407 out this list with relevant values,

NOTE Confidence: 0.89056676

00:16:34.410 --> 00:16:35.960 so they'll be associated with

NOTE Confidence: 0.89056676

00:16:35.960 --> 00:16:37.876 the conditions they want to be

NOTE Confidence: 0.89056676

00:16:37.876 --> 00:16:39.416 associated with on the website.

NOTE Confidence: 0.89056676

00:16:39.420 --> 00:16:41.910 Lastly.

NOTE Confidence: 0.89056676

00:16:41.910 --> 00:16:43.524 We'll just want to make sure

NOTE Confidence: 0.89056676

00:16:43.524 --> 00:16:45.547 that the answer to these patient

NOTE Confidence: 0.89056676

00:16:45.547 --> 00:16:47.307 interactions questions are correct

NOTE Confidence: 0.89056676

00:16:47.307 --> 00:16:49.365 and accurate because if they if

NOTE Confidence: 0.89056676

00:16:49.365 --> 00:16:50.835 they answer to do you provide

NOTE Confidence: 0.89056676

00:16:50.835 --> 00:16:52.711 direct patient care and or clinical

NOTE Confidence: 0.89056676

00:16:52.711 --> 00:16:54.490 services related to patients is no,

NOTE Confidence: 0.89056676

00:16:54.490 --> 00:16:56.460 then you're not going to show up on the site.

NOTE Confidence: 0.89056676

00:16:56.460 --> 00:16:58.672 So we want to make sure this

NOTE Confidence: 0.89056676

00:16:58.672 --> 00:17:00.612 question is accurately filled out
NOTE Confidence: 0.89056676

00:17:00.612 --> 00:17:03.216 here so that everybody should be
NOTE Confidence: 0.89056676

00:17:03.216 --> 00:17:04.440 appearing on the yalemedicine.org
NOTE Confidence: 0.89056676

00:17:04.440 --> 00:17:05.680 site is appearing there.
NOTE Confidence: 0.914572442307692

00:17:07.700 --> 00:17:10.028 OK. We've got several things here
NOTE Confidence: 0.914572442307692

00:17:10.028 --> 00:17:13.487 that are not a whole lot different in
NOTE Confidence: 0.914572442307692

00:17:13.487 --> 00:17:15.496 the new system and Beatrix as they
NOTE Confidence: 0.914572442307692

00:17:15.496 --> 00:17:17.732 were in profile systems, not again,
NOTE Confidence: 0.914572442307692

00:17:17.732 --> 00:17:19.734 not going to spend too much time,
NOTE Confidence: 0.914572442307692

00:17:19.740 --> 00:17:23.100 but we've broken out these honors so that
NOTE Confidence: 0.914572442307692

00:17:23.100 --> 00:17:26.824 it's hopefully easier to scan to these
NOTE Confidence: 0.914572442307692

00:17:26.824 --> 00:17:30.364 different categories and manage those.
NOTE Confidence: 0.914572442307692

00:17:30.370 --> 00:17:31.866 And the research section,
NOTE Confidence: 0.914572442307692

00:17:31.866 --> 00:17:34.110 this hasn't changed a whole lot.
NOTE Confidence: 0.914572442307692

00:17:34.110 --> 00:17:37.290 Faculty and researchers could
NOTE Confidence: 0.914572442307692

00:17:37.290 --> 00:17:41.265 describe their work on research.

NOTE Confidence: 0.914572442307692
00:17:41.270 --> 00:17:44.048 They can indicate their research interests.
NOTE Confidence: 0.914572442307692
00:17:44.050 --> 00:17:46.689 There is a custom list of keywords
NOTE Confidence: 0.914572442307692
00:17:46.689 --> 00:17:49.374 for public health faculty for their
NOTE Confidence: 0.914572442307692
00:17:49.374 --> 00:17:52.266 institutional priorities and areas of focus,
NOTE Confidence: 0.914572442307692
00:17:52.270 --> 00:17:55.870 and then for everyone, really,
NOTE Confidence: 0.914572442307692
00:17:55.870 --> 00:17:59.740 we have a mesh which is managed by the NIH.
NOTE Confidence: 0.849575121818182
00:18:01.770 --> 00:18:03.996 We aren't doing a whole lot
NOTE Confidence: 0.849575121818182
00:18:03.996 --> 00:18:05.830 with these mesh categories yet,
NOTE Confidence: 0.849575121818182
00:18:05.830 --> 00:18:07.906 but we will in the future,
NOTE Confidence: 0.849575121818182
00:18:07.910 --> 00:18:10.906 so we'll be asking people to fill
NOTE Confidence: 0.849575121818182
00:18:10.906 --> 00:18:13.105 these out in earnest sometime
NOTE Confidence: 0.849575121818182
00:18:13.105 --> 00:18:15.100 in the near future. We're
NOTE Confidence: 0.817342355416667
00:18:15.110 --> 00:18:17.679 going to use an AI based system
NOTE Confidence: 0.817342355416667
00:18:17.679 --> 00:18:20.170 that we've built for Yale Medicine
NOTE Confidence: 0.817342355416667
00:18:20.170 --> 00:18:22.350 to derive mesh keywords for
NOTE Confidence: 0.817342355416667

00:18:22.350 --> 00:18:24.910 faculty and suggest them to them.
NOTE Confidence: 0.817342355416667

00:18:24.910 --> 00:18:26.597 So it's easier than going in and
NOTE Confidence: 0.817342355416667

00:18:26.597 --> 00:18:28.069 trying to select from the many,
NOTE Confidence: 0.817342355416667

00:18:28.070 --> 00:18:29.900 many thousands of mesh keywords
NOTE Confidence: 0.817342355416667

00:18:29.900 --> 00:18:31.730 that exist and then create.
NOTE Confidence: 0.817342355416667

00:18:31.730 --> 00:18:34.190 And approval system. So you
NOTE Confidence: 0.7019538025

00:18:34.200 --> 00:18:35.840 know navigating this hierarchy
NOTE Confidence: 0.7019538025

00:18:35.840 --> 00:18:38.112 is not the best, so I'm going to
NOTE Confidence: 0.7019538025

00:18:38.112 --> 00:18:39.310 try to make it a little easier
NOTE Confidence: 0.7019538025

00:18:39.310 --> 00:18:40.528 for people to fill this out.
NOTE Confidence: 0.55009159

00:18:43.580 --> 00:18:49.138 Um, OK. Publications is entirely different
NOTE Confidence: 0.55009159

00:18:49.138 --> 00:18:52.929 in Beatrix than it was in profile system.
NOTE Confidence: 0.55009159

00:18:52.930 --> 00:18:55.060 We have a brand new integration
NOTE Confidence: 0.55009159

00:18:55.060 --> 00:18:58.250 with this tool, dimensions AI,
NOTE Confidence: 0.55009159

00:18:58.250 --> 00:19:02.490 which will hopefully automatically
NOTE Confidence: 0.55009159

00:19:02.490 --> 00:19:05.438 match only the publications that

NOTE Confidence: 0.55009159
00:19:05.438 --> 00:19:07.798 are truly associated with Doctor,
NOTE Confidence: 0.55009159
00:19:07.800 --> 00:19:09.244 Grauer or whoever's profile
NOTE Confidence: 0.55009159
00:19:09.244 --> 00:19:11.410 we happen to be looking at.
NOTE Confidence: 0.55009159
00:19:11.410 --> 00:19:13.315 When new publications
NOTE Confidence: 0.55009159
00:19:13.315 --> 00:19:15.855 come in from dimensions,
NOTE Confidence: 0.55009159
00:19:15.860 --> 00:19:18.380 they will appear in this pending tab.
NOTE Confidence: 0.55009159
00:19:18.380 --> 00:19:21.233 I think actually I might have to peek at
NOTE Confidence: 0.55009159
00:19:21.233 --> 00:19:24.517 the production system because I believe yes.
NOTE Confidence: 0.55009159
00:19:24.520 --> 00:19:26.419 So if you have pending and I'm not going
NOTE Confidence: 0.55009159
00:19:26.419 --> 00:19:28.152 to touch any of these again because
NOTE Confidence: 0.55009159
00:19:28.152 --> 00:19:30.220 now we're back in the lives of Beatrix.
NOTE Confidence: 0.55009159
00:19:30.220 --> 00:19:33.620 But if new publications are
NOTE Confidence: 0.55009159
00:19:33.620 --> 00:19:35.660 identified by dimensions,
NOTE Confidence: 0.55009159
00:19:35.660 --> 00:19:37.420 we're going to import them.
NOTE Confidence: 0.55009159
00:19:37.420 --> 00:19:40.094 And then the faculty member or researcher
NOTE Confidence: 0.55009159

00:19:40.094 --> 00:19:43.128 will have the ability to come in and
NOTE Confidence: 0.55009159

00:19:43.128 --> 00:19:45.371 improve or reject these based on
NOTE Confidence: 0.55009159

00:19:45.371 --> 00:19:48.275 whether or not they actually belong to them.
NOTE Confidence: 0.55009159

00:19:48.280 --> 00:19:49.436 Um, importantly,
NOTE Confidence: 0.55009159

00:19:49.436 --> 00:19:52.904 generally these should be mostly correct.
NOTE Confidence: 0.55009159

00:19:52.910 --> 00:19:55.465 We shouldn't see a whole lot of
NOTE Confidence: 0.55009159

00:19:55.465 --> 00:19:57.450 incorrect publications that are not
NOTE Confidence: 0.55009159

00:19:57.450 --> 00:20:00.410 actually associated with it with the person.
NOTE Confidence: 0.55009159

00:20:00.410 --> 00:20:01.810 Umm, if we do,
NOTE Confidence: 0.55009159

00:20:01.810 --> 00:20:03.560 if a faculty member comes
NOTE Confidence: 0.55009159

00:20:03.560 --> 00:20:05.789 to you with this problem,
NOTE Confidence: 0.55009159

00:20:05.790 --> 00:20:08.195 or you happen to notice somebody with
NOTE Confidence: 0.55009159

00:20:08.195 --> 00:20:10.025 lots of publications that don't seem
NOTE Confidence: 0.55009159

00:20:10.025 --> 00:20:12.069 right and do not belong to them,
NOTE Confidence: 0.55009159

00:20:12.070 --> 00:20:14.398 it's probably because we need to
NOTE Confidence: 0.55009159

00:20:14.398 --> 00:20:15.950 reconfigure how we're importing

NOTE Confidence: 0.55009159

00:20:16.016 --> 00:20:17.170 their publications.

NOTE Confidence: 0.55009159

00:20:17.170 --> 00:20:17.562 So.

NOTE Confidence: 0.55009159

00:20:17.562 --> 00:20:19.914 If somebody's seeing lots and lots

NOTE Confidence: 0.55009159

00:20:19.914 --> 00:20:21.430 of incorrect publications that

NOTE Confidence: 0.55009159

00:20:21.430 --> 00:20:22.805 do not belong to them,

NOTE Confidence: 0.55009159

00:20:22.810 --> 00:20:26.275 they should go down to this button

NOTE Confidence: 0.55009159

00:20:26.275 --> 00:20:29.038 here where it says don't see your

NOTE Confidence: 0.55009159

00:20:29.038 --> 00:20:30.970 publications and they can briefly

NOTE Confidence: 0.55009159

00:20:30.970 --> 00:20:33.371 describe the issue if they have a

NOTE Confidence: 0.55009159

00:20:33.371 --> 00:20:36.275 pub Med query that they use or my

NOTE Confidence: 0.55009159

00:20:36.275 --> 00:20:38.062 bibliography and the NCBI website.

NOTE Confidence: 0.55009159

00:20:38.062 --> 00:20:40.878 A link to that would be helpful to

NOTE Confidence: 0.55009159

00:20:40.878 --> 00:20:44.210 help us correct this but and some

NOTE Confidence: 0.55009159

00:20:44.210 --> 00:20:46.924 people could have multiple dimensions,

NOTE Confidence: 0.55009159

00:20:46.924 --> 00:20:48.808 profiles or might be missing some

NOTE Confidence: 0.55009159

00:20:48.808 --> 00:20:49.750 of their publications.
NOTE Confidence: 0.55009159

00:20:49.750 --> 00:20:51.374 That's also a problem that we have to
NOTE Confidence: 0.55009159

00:20:51.374 --> 00:20:52.939 fix with the import configuration.
NOTE Confidence: 0.55009159

00:20:52.940 --> 00:20:54.500 So if something seems very wrong,
NOTE Confidence: 0.55009159

00:20:54.500 --> 00:20:56.318 we're missing a lot of publications,
NOTE Confidence: 0.55009159

00:20:56.320 --> 00:20:58.546 or there are lots of publications
NOTE Confidence: 0.55009159

00:20:58.546 --> 00:20:59.659 that don't belong,
NOTE Confidence: 0.55009159

00:20:59.660 --> 00:21:01.756 please use this button to let us know,
NOTE Confidence: 0.55009159

00:21:01.760 --> 00:21:04.644 and then we can try to correct
NOTE Confidence: 0.55009159

00:21:04.644 --> 00:21:05.880 their import settings.
NOTE Confidence: 0.55009159

00:21:05.880 --> 00:21:09.148 Similarly for new faculty.
NOTE Confidence: 0.874756025

00:21:11.250 --> 00:21:14.626 It would be best if when they start,
NOTE Confidence: 0.874756025

00:21:14.630 --> 00:21:17.871 you could let us know by contacting
NOTE Confidence: 0.874756025

00:21:17.871 --> 00:21:19.764 us at YS_n.editor@yale.edu.
NOTE Confidence: 0.874756025

00:21:19.764 --> 00:21:22.656 And honestly the best thing to
NOTE Confidence: 0.874756025

00:21:22.656 --> 00:21:25.129 try to configure import settings

NOTE Confidence: 0.874756025

00:21:25.129 --> 00:21:28.447 correctly as a copy of their CD.

NOTE Confidence: 0.874756025

00:21:28.450 --> 00:21:32.450 So if people see no publications at all,

NOTE Confidence: 0.874756025

00:21:32.450 --> 00:21:35.627 if you could send us either their CD by

NOTE Confidence: 0.874756025

00:21:35.627 --> 00:21:38.390 contacting wise and that editor at yale.edu,

NOTE Confidence: 0.874756025

00:21:38.390 --> 00:21:40.050 or some of those other

NOTE Confidence: 0.874756025

00:21:40.050 --> 00:21:41.378 items like the bibliography.

NOTE Confidence: 0.874756025

00:21:41.380 --> 00:21:42.948 Um, that would be really helpful for

NOTE Confidence: 0.874756025

00:21:42.948 --> 00:21:44.540 making sure those settings are correct.

NOTE Confidence: 0.8403820825

00:21:45.650 --> 00:21:47.010 You'll also notice that.

NOTE Confidence: 0.8403820825

00:21:47.010 --> 00:21:49.848 Umm, can you go back?

NOTE Confidence: 0.8403820825

00:21:49.848 --> 00:21:51.246 You'll notice that.

NOTE Confidence: 0.8403820825

00:21:51.250 --> 00:21:53.325 All of the imported publications

NOTE Confidence: 0.8403820825

00:21:53.325 --> 00:21:55.400 have a category peer reviewed

NOTE Confidence: 0.8403820825

00:21:55.468 --> 00:21:57.408 original research by default.

NOTE Confidence: 0.8403820825

00:21:57.410 --> 00:22:00.410 That is not necessarily going to be correct.

NOTE Confidence: 0.8403820825

00:22:00.410 --> 00:22:04.922 So in Doctor Grauer's list I

NOTE Confidence: 0.8403820825

00:22:04.922 --> 00:22:08.060 noticed there was a chapter there.

NOTE Confidence: 0.8403820825

00:22:08.060 --> 00:22:10.510 There might be abstracts

NOTE Confidence: 0.8403820825

00:22:10.510 --> 00:22:13.180 so the user will want to.

NOTE Confidence: 0.888925

00:22:15.410 --> 00:22:19.690 Change that. By just clicking that dropdown

NOTE Confidence: 0.888925

00:22:19.690 --> 00:22:21.870 and changing it to another category.

NOTE Confidence: 0.888925

00:22:21.870 --> 00:22:24.108 Um, so that it's category categorized

NOTE Confidence: 0.888925

00:22:24.108 --> 00:22:26.016 correctly on their CV because

NOTE Confidence: 0.888925

00:22:26.016 --> 00:22:28.128 this feeds into the CV builder?

NOTE Confidence: 0.838762043333333

00:22:32.360 --> 00:22:34.398 Thank you. I'm just going to answer

NOTE Confidence: 0.838762043333333

00:22:34.398 --> 00:22:36.150 the two questions that I see

NOTE Confidence: 0.838762043333333

00:22:36.211 --> 00:22:38.059 in chat regarding publications.

NOTE Confidence: 0.838762043333333

00:22:38.060 --> 00:22:40.315 So dimensions has about 160

NOTE Confidence: 0.838762043333333

00:22:40.315 --> 00:22:42.570 million publications in it that

NOTE Confidence: 0.838762043333333

00:22:42.651 --> 00:22:45.094 are out that that cover pub Med.

NOTE Confidence: 0.838762043333333

00:22:45.100 --> 00:22:47.716 But also outside of pub Med,

NOTE Confidence: 0.838762043333333

00:22:47.720 --> 00:22:50.144 there's a bunch of different data

NOTE Confidence: 0.838762043333333

00:22:50.144 --> 00:22:52.160 sources the dimensions pulls from.

NOTE Confidence: 0.838762043333333

00:22:52.160 --> 00:22:53.966 You all have access actually to

NOTE Confidence: 0.838762043333333

00:22:53.966 --> 00:22:55.930 go poke around and dimensions any

NOTE Confidence: 0.838762043333333

00:22:55.930 --> 00:22:58.024 anyone at the School of Medicine

NOTE Confidence: 0.838762043333333

00:22:58.024 --> 00:22:59.809 or schools of public health.

NOTE Confidence: 0.838762043333333

00:22:59.810 --> 00:23:01.399 Have access to log into dimensions to

NOTE Confidence: 0.838762043333333

00:23:01.399 --> 00:23:03.370 look at it. It's a pretty powerful tool.

NOTE Confidence: 0.959075002

00:23:05.490 --> 00:23:07.950 We are going to investigate.

NOTE Confidence: 0.959075002

00:23:07.950 --> 00:23:10.525 Uh, connecting publications to Scopus

NOTE Confidence: 0.959075002

00:23:10.525 --> 00:23:14.474 and Web of science and a couple of

NOTE Confidence: 0.959075002

00:23:14.474 --> 00:23:17.048 other data sources in the future.

NOTE Confidence: 0.959075002

00:23:17.050 --> 00:23:18.370 But we started with dimensions.

NOTE Confidence: 0.959075002

00:23:18.370 --> 00:23:19.570 When we finished that project,

NOTE Confidence: 0.959075002

00:23:19.570 --> 00:23:21.217 it should have.

NOTE Confidence: 0.959075002

00:23:21.217 --> 00:23:22.864 Pretty comprehensive coverage
NOTE Confidence: 0.959075002

00:23:22.864 --> 00:23:25.060 across all publication sources.
NOTE Confidence: 0.959075002

00:23:25.060 --> 00:23:26.920 On the other question is when
NOTE Confidence: 0.959075002

00:23:26.920 --> 00:23:28.894 faculty create their own articles or
NOTE Confidence: 0.959075002

00:23:28.894 --> 00:23:30.922 publications or they now auto approve
NOTE Confidence: 0.959075002

00:23:30.922 --> 00:23:33.003 to appear on their profile, yes.
NOTE Confidence: 0.959075002

00:23:33.003 --> 00:23:35.544 So if there is a publication that
NOTE Confidence: 0.959075002

00:23:35.544 --> 00:23:38.619 is not imported through dimensions,
NOTE Confidence: 0.959075002

00:23:38.620 --> 00:23:40.496 there's a button at the bottom that
NOTE Confidence: 0.959075002

00:23:40.496 --> 00:23:41.958 says manually out of publication
NOTE Confidence: 0.959075002

00:23:41.958 --> 00:23:43.776 and you can add that publication.
NOTE Confidence: 0.959075002

00:23:43.780 --> 00:23:45.334 You can either put in the pub
NOTE Confidence: 0.959075002

00:23:45.334 --> 00:23:47.338 Med ID or you can click the other
NOTE Confidence: 0.959075002

00:23:47.338 --> 00:23:49.474 button and put in the full citation
NOTE Confidence: 0.959075002

00:23:49.474 --> 00:23:51.066 and that will automatically.
NOTE Confidence: 0.959075002

00:23:51.070 --> 00:23:53.215 Here on their profile other

NOTE Confidence: 0.959075002

00:23:53.215 --> 00:23:54.931 important note about publications

NOTE Confidence: 0.959075002

00:23:54.931 --> 00:23:57.820 when a faculty member approves a

NOTE Confidence: 0.959075002

00:23:57.820 --> 00:24:01.195 publication from their pending list.

NOTE Confidence: 0.959075002

00:24:01.200 --> 00:24:02.537 I was if you could just go

NOTE Confidence: 0.959075002

00:24:02.537 --> 00:24:03.620 over to the accepted,

NOTE Confidence: 0.959075002

00:24:03.620 --> 00:24:06.210 yeah so the you'll see a public

NOTE Confidence: 0.959075002

00:24:06.210 --> 00:24:08.559 toggle in the public column.

NOTE Confidence: 0.959075002

00:24:08.560 --> 00:24:10.690 That toggle green toggle means that

NOTE Confidence: 0.959075002

00:24:10.690 --> 00:24:13.119 it will appear on their profile.

NOTE Confidence: 0.959075002

00:24:13.120 --> 00:24:14.920 If they toggle that to red,

NOTE Confidence: 0.959075002

00:24:14.920 --> 00:24:16.380 then the publication will not

NOTE Confidence: 0.959075002

00:24:16.380 --> 00:24:17.840 appear on their public profile.

NOTE Confidence: 0.959075002

00:24:17.840 --> 00:24:20.479 That's how you they can control now.

NOTE Confidence: 0.959075002

00:24:20.480 --> 00:24:22.976 Um, what shows up on their public profile?

NOTE Confidence: 0.959075002

00:24:22.980 --> 00:24:25.020 They can also feature an article.

NOTE Confidence: 0.959075002

00:24:25.020 --> 00:24:26.840 So if there's a Seminole piece of
NOTE Confidence: 0.959075002

00:24:26.840 --> 00:24:28.190 research that they published that
NOTE Confidence: 0.959075002

00:24:28.190 --> 00:24:30.010 they want to always appear at the
NOTE Confidence: 0.959075002

00:24:30.010 --> 00:24:31.620 top of their publication list,
NOTE Confidence: 0.959075002

00:24:31.620 --> 00:24:33.906 you can click that star that
NOTE Confidence: 0.959075002

00:24:33.906 --> 00:24:36.273 Elvis is clicking and that will
NOTE Confidence: 0.959075002

00:24:36.273 --> 00:24:38.220 go into the featured list.
NOTE Confidence: 0.959075002

00:24:38.220 --> 00:24:40.740 And those publications up to five.
NOTE Confidence: 0.959075002

00:24:40.740 --> 00:24:42.576 We're only letting people do 5.
NOTE Confidence: 0.959075002

00:24:42.580 --> 00:24:44.532 Up to five of those will always appear
NOTE Confidence: 0.959075002

00:24:44.532 --> 00:24:46.768 at the top of their publications list.
NOTE Confidence: 0.948842015

00:24:50.720 --> 00:24:53.308 All right. Thank you.
NOTE Confidence: 0.948842015

00:24:53.310 --> 00:24:54.759 I'm going to skip really quickly through
NOTE Confidence: 0.948842015

00:24:54.759 --> 00:24:56.239 the next few things because again,
NOTE Confidence: 0.948842015

00:24:56.240 --> 00:24:59.336 they haven't changed a whole lot.
NOTE Confidence: 0.948842015

00:24:59.340 --> 00:25:03.784 Well, so we did merge and I forget what

NOTE Confidence: 0.948842015

00:25:03.784 --> 00:25:05.989 they were called professional services.

NOTE Confidence: 0.948842015

00:25:05.990 --> 00:25:10.346 And international activity into this new.

NOTE Confidence: 0.948842015

00:25:10.350 --> 00:25:12.322 Big old category called

NOTE Confidence: 0.948842015

00:25:12.322 --> 00:25:13.308 Professional Activity,

NOTE Confidence: 0.948842015

00:25:13.310 --> 00:25:15.844 just because it turns out we were

NOTE Confidence: 0.948842015

00:25:15.844 --> 00:25:18.233 tracking two very similar things

NOTE Confidence: 0.948842015

00:25:18.233 --> 00:25:20.765 differently and now we're just merging

NOTE Confidence: 0.948842015

00:25:20.765 --> 00:25:23.762 this so we can get more comprehensive

NOTE Confidence: 0.948842015

00:25:23.762 --> 00:25:27.220 list of all the kinds of things

NOTE Confidence: 0.948842015

00:25:27.220 --> 00:25:29.344 outside of their current positions,

NOTE Confidence: 0.948842015

00:25:29.344 --> 00:25:31.479 research, etcetera, that the faculty

NOTE Confidence: 0.948842015

00:25:31.479 --> 00:25:34.070 and staff are doing at the school,

NOTE Confidence: 0.948842015

00:25:34.070 --> 00:25:35.926 so they can put all kinds of things.

NOTE Confidence: 0.948842015

00:25:35.930 --> 00:25:36.970 Oops, sorry about that.

NOTE Confidence: 0.948842015

00:25:36.970 --> 00:25:38.530 All kinds of things are participating

NOTE Confidence: 0.948842015

00:25:38.581 --> 00:25:40.314 in committees, advisory boards.

NOTE Confidence: 0.948842015

00:25:40.314 --> 00:25:43.149 Journals that they work on,

NOTE Confidence: 0.948842015

00:25:43.150 --> 00:25:44.735 all that kinds of information

NOTE Confidence: 0.948842015

00:25:44.735 --> 00:25:46.003 to be tracked here.

NOTE Confidence: 0.948842015

00:25:46.010 --> 00:25:47.590 This is all important information

NOTE Confidence: 0.948842015

00:25:47.590 --> 00:25:49.170 for feeding into their CV,

NOTE Confidence: 0.948842015

00:25:49.170 --> 00:25:51.718 which I'll get into a little bit.

NOTE Confidence: 0.948842015

00:25:51.720 --> 00:25:54.420 Slightly later.

NOTE Confidence: 0.948842015

00:25:54.420 --> 00:25:54.859 News.

NOTE Confidence: 0.948842015

00:25:54.859 --> 00:25:57.493 You can review any news in

NOTE Confidence: 0.948842015

00:25:57.493 --> 00:25:59.370 the time being here.

NOTE Confidence: 0.948842015

00:25:59.370 --> 00:26:01.902 That's the same as the old

NOTE Confidence: 0.948842015

00:26:01.902 --> 00:26:03.389 system related links that

NOTE Confidence: 0.948842015

00:26:03.390 --> 00:26:05.310 users would like to appear in

NOTE Confidence: 0.948842015

00:26:05.310 --> 00:26:06.960 their profile be stored here.

NOTE Confidence: 0.948842015

00:26:06.960 --> 00:26:07.210 We

NOTE Confidence: 0.78989651375

00:26:07.220 --> 00:26:09.080 should not just a clarification on

NOTE Confidence: 0.78989651375

00:26:09.080 --> 00:26:11.585 related links. We used to ask people

NOTE Confidence: 0.78989651375

00:26:11.585 --> 00:26:13.033 to put external news articles.

NOTE Confidence: 0.78989651375

00:26:13.033 --> 00:26:15.143 So if they were quoted in the New York

NOTE Confidence: 0.78989651375

00:26:15.143 --> 00:26:16.475 Times or something and they wanted

NOTE Confidence: 0.78989651375

00:26:16.475 --> 00:26:18.015 to link to that to put it there.

NOTE Confidence: 0.78989651375

00:26:18.020 --> 00:26:20.260 We ask that you not do that anymore,

NOTE Confidence: 0.78989651375

00:26:20.260 --> 00:26:24.082 but go and through news and

NOTE Confidence: 0.78989651375

00:26:24.082 --> 00:26:26.232 you can when you add it,

NOTE Confidence: 0.78989651375

00:26:26.232 --> 00:26:28.238 when the faculty member adds a piece of news,

NOTE Confidence: 0.78989651375

00:26:28.240 --> 00:26:29.934 they can select it as an external

NOTE Confidence: 0.78989651375

00:26:29.934 --> 00:26:31.708 article and put in a link to the

NOTE Confidence: 0.78989651375

00:26:31.708 --> 00:26:33.216 New York Times page and put the

NOTE Confidence: 0.78989651375

00:26:33.216 --> 00:26:34.614 article in and stuff and that

NOTE Confidence: 0.78989651375

00:26:34.614 --> 00:26:36.512 will then appear in their news.

NOTE Confidence: 0.78989651375

00:26:36.512 --> 00:26:38.302 Listing instead of related links.
NOTE Confidence: 0.821210934444444

00:26:41.360 --> 00:26:43.260 All right. Thank you.
NOTE Confidence: 0.821210934444444

00:26:43.260 --> 00:26:45.635 And then similarly to news,
NOTE Confidence: 0.821210934444444

00:26:45.640 --> 00:26:48.176 you could see a list of events here
NOTE Confidence: 0.821210934444444

00:26:48.176 --> 00:26:50.646 tagged in by going over the events.
NOTE Confidence: 0.821210934444444

00:26:50.650 --> 00:26:55.474 Age. This is all again saying ported
NOTE Confidence: 0.821210934444444

00:26:55.474 --> 00:26:58.030 over from old profile system,
NOTE Confidence: 0.821210934444444

00:26:58.030 --> 00:26:59.098 clinical trials, very similar.
NOTE Confidence: 0.821210934444444

00:26:59.098 --> 00:27:01.010 If they're an investigator in a trial,
NOTE Confidence: 0.821210934444444

00:27:01.010 --> 00:27:02.090 it's going to show up here.
NOTE Confidence: 0.840026529166667

00:27:04.240 --> 00:27:07.828 Organizations. This is a much improved
NOTE Confidence: 0.840026529166667

00:27:07.828 --> 00:27:11.820 UI interface over the previous system
NOTE Confidence: 0.840026529166667

00:27:11.820 --> 00:27:14.460 that will let you see all of the
NOTE Confidence: 0.840026529166667

00:27:14.460 --> 00:27:16.678 organizations that this person belongs to.
NOTE Confidence: 0.840026529166667

00:27:16.680 --> 00:27:19.018 This could be useful for helping figure
NOTE Confidence: 0.840026529166667

00:27:19.018 --> 00:27:21.510 out where they display on the website.

NOTE Confidence: 0.840026529166667
00:27:21.510 --> 00:27:25.145 Um. I'm going to touch really
NOTE Confidence: 0.840026529166667
00:27:25.145 --> 00:27:26.205 quickly on CV builder.
NOTE Confidence: 0.840026529166667
00:27:26.210 --> 00:27:28.424 We're not going to go into
NOTE Confidence: 0.840026529166667
00:27:28.424 --> 00:27:29.900 this too deeply today,
NOTE Confidence: 0.840026529166667
00:27:29.900 --> 00:27:34.175 but users can create a CD based on all
NOTE Confidence: 0.840026529166667
00:27:34.175 --> 00:27:38.148 their profile data using this tool.
NOTE Confidence: 0.840026529166667
00:27:38.148 --> 00:27:42.324 They can also even use this.
NOTE Confidence: 0.840026529166667
00:27:42.330 --> 00:27:44.562 To help as a guide to fill out their
NOTE Confidence: 0.840026529166667
00:27:44.562 --> 00:27:45.650 existing, their current profile.
NOTE Confidence: 0.840026529166667
00:27:45.650 --> 00:27:47.050 If their current profile is
NOTE Confidence: 0.840026529166667
00:27:47.050 --> 00:27:48.489 and all that fleshed out,
NOTE Confidence: 0.840026529166667
00:27:48.490 --> 00:27:49.702 it can be a helpful exercise
NOTE Confidence: 0.840026529166667
00:27:49.702 --> 00:27:50.510 to run through this.
NOTE Confidence: 0.840026529166667
00:27:50.510 --> 00:27:52.484 If they need to create CV anyway,
NOTE Confidence: 0.840026529166667
00:27:52.490 --> 00:27:54.930 they can do a kill two birds with
NOTE Confidence: 0.840026529166667

00:27:54.930 --> 00:27:57.711 one stone and create their CD and
NOTE Confidence: 0.840026529166667

00:27:57.711 --> 00:27:59.806 fill out some pertinent information
NOTE Confidence: 0.840026529166667

00:27:59.879 --> 00:28:02.009 on their bio in their profile.
NOTE Confidence: 0.840026529166667

00:28:02.010 --> 00:28:04.677 Next year we are going to be
NOTE Confidence: 0.840026529166667

00:28:04.677 --> 00:28:06.769 introducing a tool that will
NOTE Confidence: 0.840026529166667

00:28:06.769 --> 00:28:09.349 allow backwards to to upload an
NOTE Confidence: 0.840026529166667

00:28:09.349 --> 00:28:11.352 existing CD and automatically
NOTE Confidence: 0.840026529166667

00:28:11.352 --> 00:28:14.520 fill out lots of this information,
NOTE Confidence: 0.840026529166667

00:28:14.520 --> 00:28:16.324 which is very exciting.
NOTE Confidence: 0.840026529166667

00:28:16.324 --> 00:28:19.060 It's not going to be 100% accurate.
NOTE Confidence: 0.840026529166667

00:28:19.060 --> 00:28:20.260 There's going to be a
NOTE Confidence: 0.840026529166667

00:28:20.260 --> 00:28:20.980 review process involved,
NOTE Confidence: 0.840026529166667

00:28:20.980 --> 00:28:23.548 but we're trying to make it as little
NOTE Confidence: 0.840026529166667

00:28:23.548 --> 00:28:25.870 work as possible for faculty and staff
NOTE Confidence: 0.840026529166667

00:28:25.870 --> 00:28:27.620 to get their information in the system,
NOTE Confidence: 0.840026529166667

00:28:27.620 --> 00:28:28.045 so.

NOTE Confidence: 0.840026529166667
00:28:28.045 --> 00:28:31.020 You'll definitely be hearing more about that.
NOTE Confidence: 0.840026529166667
00:28:31.020 --> 00:28:33.084 It's not going to be ready
NOTE Confidence: 0.840026529166667
00:28:33.084 --> 00:28:34.880 until the next calendar year.
NOTE Confidence: 0.840026529166667
00:28:34.880 --> 00:28:36.595 We'll be talking about that
NOTE Confidence: 0.840026529166667
00:28:36.595 --> 00:28:37.967 more in coming meetings.
NOTE Confidence: 0.919272007142857
00:28:40.190 --> 00:28:44.768 OK, I will quickly go over organizations.
NOTE Confidence: 0.919272007142857
00:28:44.770 --> 00:28:47.025 The functionality here is pretty
NOTE Confidence: 0.919272007142857
00:28:47.025 --> 00:28:50.418 much the same as it was in
NOTE Confidence: 0.919272007142857
00:28:50.418 --> 00:28:53.570 the previous profile system,
NOTE Confidence: 0.919272007142857
00:28:53.570 --> 00:28:57.596 but we did make some enhancements
NOTE Confidence: 0.919272007142857
00:28:57.596 --> 00:29:00.678 specifically about as it pertains
NOTE Confidence: 0.919272007142857
00:29:00.678 --> 00:29:03.086 to managing membership lists.
NOTE Confidence: 0.919272007142857
00:29:03.090 --> 00:29:05.274 One thing is we've tried to add
NOTE Confidence: 0.919272007142857
00:29:05.274 --> 00:29:06.570 people's headshots in here,
NOTE Confidence: 0.919272007142857
00:29:06.570 --> 00:29:08.022 so it's a little easier to
NOTE Confidence: 0.919272007142857

00:29:08.022 --> 00:29:09.230 remember who these people are.
NOTE Confidence: 0.919272007142857

00:29:09.230 --> 00:29:10.980 When you're managing these lists
NOTE Confidence: 0.919272007142857

00:29:10.980 --> 00:29:13.147 and also make sure you're adding
NOTE Confidence: 0.919272007142857

00:29:13.147 --> 00:29:15.247 the right person when we have
NOTE Confidence: 0.919272007142857

00:29:15.247 --> 00:29:17.210 different people with similar names.
NOTE Confidence: 0.919272007142857

00:29:17.210 --> 00:29:19.122 You can also maybe this isn't the best
NOTE Confidence: 0.919272007142857

00:29:19.122 --> 00:29:20.707 example because aren't there any people,
NOTE Confidence: 0.919272007142857

00:29:20.710 --> 00:29:22.887 but you can edit people in bulk.
NOTE Confidence: 0.919272007142857

00:29:22.890 --> 00:29:25.848 So if I wanted to change
NOTE Confidence: 0.919272007142857

00:29:25.848 --> 00:29:27.327 everybody's status from.
NOTE Confidence: 0.919272007142857

00:29:27.330 --> 00:29:30.284 Yes or no or vice versa very easily
NOTE Confidence: 0.919272007142857

00:29:30.284 --> 00:29:33.343 here by selecting everybody in the list.
NOTE Confidence: 0.919272007142857

00:29:33.350 --> 00:29:34.990 But using this check box,
NOTE Confidence: 0.919272007142857

00:29:34.990 --> 00:29:36.826 I could also select some subset.
NOTE Confidence: 0.919272007142857

00:29:36.830 --> 00:29:38.574 If I just wanted to turn off these
NOTE Confidence: 0.919272007142857

00:29:38.574 --> 00:29:40.151 three people for whatever reason or I

NOTE Confidence: 0.919272007142857
00:29:40.151 --> 00:29:41.989 wanted to add them all the leadership,
NOTE Confidence: 0.919272007142857
00:29:41.990 --> 00:29:44.090 I could do that too.
NOTE Confidence: 0.919272007142857
00:29:44.090 --> 00:29:45.710 So we got some.
NOTE Confidence: 0.919272007142857
00:29:45.710 --> 00:29:49.292 We added some bulk at editing tools here to
NOTE Confidence: 0.919272007142857
00:29:49.292 --> 00:29:53.289 try to make this a not so arduous process.
NOTE Confidence: 0.919272007142857
00:29:53.290 --> 00:29:55.450 Now that we have this nicer new UI,
NOTE Confidence: 0.919272007142857
00:29:55.450 --> 00:29:57.458 we are going to try to ask more
NOTE Confidence: 0.919272007142857
00:29:57.458 --> 00:29:59.369 people to manage these directly.
NOTE Confidence: 0.919272007142857
00:29:59.370 --> 00:29:59.615 Umm.
NOTE Confidence: 0.919272007142857
00:29:59.615 --> 00:30:01.575 The benefit of this is you don't have
NOTE Confidence: 0.919272007142857
00:30:01.575 --> 00:30:03.892 to make a ticket in order to update
NOTE Confidence: 0.919272007142857
00:30:03.892 --> 00:30:05.688 the membership lists on your website.
NOTE Confidence: 0.919272007142857
00:30:05.690 --> 00:30:07.268 You can just log right in.
NOTE Confidence: 0.919272007142857
00:30:07.270 --> 00:30:08.684 We'll have this easy to use tool.
NOTE Confidence: 0.919272007142857
00:30:08.690 --> 00:30:11.490 Or you can manage this and you'll see
NOTE Confidence: 0.919272007142857

00:30:11.490 --> 00:30:14.609 the update on the website in a few minutes.

NOTE Confidence: 0.919272007142857

00:30:14.610 --> 00:30:17.410 So.

NOTE Confidence: 0.919272007142857

00:30:17.410 --> 00:30:19.198 That's about it.

NOTE Confidence: 0.818475855

00:30:22.630 --> 00:30:26.086 OK, importantly, I skipped over this.

NOTE Confidence: 0.818475855

00:30:26.090 --> 00:30:28.988 We had the concept of display groups

NOTE Confidence: 0.818475855

00:30:28.988 --> 00:30:31.154 in profile system, and this is one.

NOTE Confidence: 0.818475855

00:30:31.154 --> 00:30:32.958 We're making groups of people that aren't

NOTE Confidence: 0.818475855

00:30:32.958 --> 00:30:34.808 really meaningful organizations at school.

NOTE Confidence: 0.818475855

00:30:34.810 --> 00:30:36.166 But for whatever reason,

NOTE Confidence: 0.818475855

00:30:36.166 --> 00:30:39.070 we might want to display a certain subset

NOTE Confidence: 0.818475855

00:30:39.070 --> 00:30:41.370 of people in a list on the website.

NOTE Confidence: 0.818475855

00:30:41.370 --> 00:30:43.149 For instance, faculty,

NOTE Confidence: 0.818475855

00:30:43.149 --> 00:30:45.521 advisors for a particular

NOTE Confidence: 0.818475855

00:30:45.521 --> 00:30:48.210 fellowship or something like that.

NOTE Confidence: 0.818475855

00:30:48.210 --> 00:30:49.326 In profile system.

NOTE Confidence: 0.818475855

00:30:49.326 --> 00:30:51.186 These were called display groups.

NOTE Confidence: 0.818475855
00:30:51.190 --> 00:30:52.531 We've renamed them.
NOTE Confidence: 0.818475855
00:30:52.531 --> 00:30:54.319 Rename them to teams.
NOTE Confidence: 0.818475855
00:30:54.320 --> 00:30:55.560 So if you see teams,
NOTE Confidence: 0.818475855
00:30:55.560 --> 00:30:57.724 that's what that's about.
NOTE Confidence: 0.818475855
00:30:57.724 --> 00:30:58.806 These are.
NOTE Confidence: 0.818475855
00:30:58.810 --> 00:31:00.226 Sort of organizations,
NOTE Confidence: 0.818475855
00:31:00.226 --> 00:31:03.058 but they're really just meant to
NOTE Confidence: 0.818475855
00:31:03.058 --> 00:31:05.468 display some subset of people for a
NOTE Confidence: 0.818475855
00:31:05.468 --> 00:31:07.599 particular use case on the website.
NOTE Confidence: 0.818475855
00:31:07.600 --> 00:31:08.210 Umm.
NOTE Confidence: 0.833064744444445
00:31:10.530 --> 00:31:13.729 So teams can come in handy for
NOTE Confidence: 0.833064744444445
00:31:13.729 --> 00:31:15.290 website display. Um, alright.
NOTE Confidence: 0.833064744444445
00:31:15.290 --> 00:31:17.850 I'm not going to touch on any of
NOTE Confidence: 0.833064744444445
00:31:17.929 --> 00:31:20.209 these other items at the moment.
NOTE Confidence: 0.833064744444445
00:31:20.210 --> 00:31:21.746 I'm going to skip over and then just
NOTE Confidence: 0.833064744444445

00:31:21.746 --> 00:31:23.540 in time I'm going to skip over to news.
NOTE Confidence: 0.839832932857143

00:31:26.930 --> 00:31:30.808 News, the functionality is largely the same.
NOTE Confidence: 0.839832932857143

00:31:30.810 --> 00:31:33.225 There is A and I've pre selected
NOTE Confidence: 0.839832932857143

00:31:33.225 --> 00:31:35.310 an article to look at here.
NOTE Confidence: 0.839832932857143

00:31:35.310 --> 00:31:38.734 It's actually one of Ryan's articles I
NOTE Confidence: 0.839832932857143

00:31:38.734 --> 00:31:40.526 just wanted to review here and again Fran.
NOTE Confidence: 0.839832932857143

00:31:40.530 --> 00:31:41.390 I made some edits here,
NOTE Confidence: 0.839832932857143

00:31:41.390 --> 00:31:43.088 but it's only an acceptance environment.
NOTE Confidence: 0.839832932857143

00:31:43.090 --> 00:31:45.508 Don't worry, I didn't edit your
NOTE Confidence: 0.839832932857143

00:31:45.508 --> 00:31:47.840 live article on the website.
NOTE Confidence: 0.839832932857143

00:31:47.840 --> 00:31:49.802 When you're, one thing you'll notice
NOTE Confidence: 0.839832932857143

00:31:49.802 --> 00:31:51.581 is that instead of navigating
NOTE Confidence: 0.839832932857143

00:31:51.581 --> 00:31:53.221 through several different screens
NOTE Confidence: 0.839832932857143

00:31:53.221 --> 00:31:55.750 with a limited subset of fields,
NOTE Confidence: 0.839832932857143

00:31:55.750 --> 00:31:58.684 you can browse all of the
NOTE Confidence: 0.839832932857143

00:31:58.684 --> 00:32:01.310 fields on the same page.

NOTE Confidence: 0.839832932857143

00:32:01.310 --> 00:32:03.520 Importantly, note on every page,

NOTE Confidence: 0.839832932857143

00:32:03.520 --> 00:32:04.816 pretty much every page would be a trick.

NOTE Confidence: 0.839832932857143

00:32:04.820 --> 00:32:06.235 We've added this helpful anchor

NOTE Confidence: 0.839832932857143

00:32:06.235 --> 00:32:08.053 list that will let you navigate

NOTE Confidence: 0.839832932857143

00:32:08.053 --> 00:32:09.758 quickly to different sections of

NOTE Confidence: 0.839832932857143

00:32:09.758 --> 00:32:11.760 the current page you're looking at.

NOTE Confidence: 0.839832932857143

00:32:11.760 --> 00:32:12.570 So if I.

NOTE Confidence: 0.839832932857143

00:32:12.570 --> 00:32:14.894 Made one edit to the title and then

NOTE Confidence: 0.839832932857143

00:32:14.894 --> 00:32:17.084 I wanted to publish that change.

NOTE Confidence: 0.839832932857143

00:32:17.090 --> 00:32:18.230 I could make my edit,

NOTE Confidence: 0.839832932857143

00:32:18.230 --> 00:32:20.211 click the publish and then I go

NOTE Confidence: 0.839832932857143

00:32:20.211 --> 00:32:22.450 right down to publish this article.

NOTE Confidence: 0.839832932857143

00:32:22.450 --> 00:32:24.928 Which leads me to important point.

NOTE Confidence: 0.839832932857143

00:32:24.930 --> 00:32:27.318 Previously in the system once you

NOTE Confidence: 0.839832932857143

00:32:27.318 --> 00:32:29.459 published an article that was it,

NOTE Confidence: 0.839832932857143

00:32:29.460 --> 00:32:30.330 it was live.
NOTE Confidence: 0.839832932857143

00:32:30.330 --> 00:32:32.360 If you made changes they would appear
NOTE Confidence: 0.839832932857143

00:32:32.420 --> 00:32:34.508 a little bit after on the live site.
NOTE Confidence: 0.795539581428572

00:32:36.540 --> 00:32:38.844 To make this a little more of a
NOTE Confidence: 0.795539581428572

00:32:38.844 --> 00:32:41.119 make this a little more friendly,
NOTE Confidence: 0.795539581428572

00:32:41.120 --> 00:32:43.820 if you're making drastic revisions to
NOTE Confidence: 0.795539581428572

00:32:43.820 --> 00:32:45.968 an article, we've sort of introduced
NOTE Confidence: 0.795539581428572

00:32:45.968 --> 00:32:47.840 this concept of a draft status.
NOTE Confidence: 0.795539581428572

00:32:47.840 --> 00:32:52.355 So if I have written this article,
NOTE Confidence: 0.795539581428572

00:32:52.360 --> 00:32:54.316 I finished it, I published it,
NOTE Confidence: 0.795539581428572

00:32:54.320 --> 00:32:56.536 and I later go back to make changes,
NOTE Confidence: 0.795539581428572

00:32:56.540 --> 00:32:59.984 once I start making changes, they're not
NOTE Confidence: 0.795539581428572

00:32:59.984 --> 00:33:01.920 going to immediately go to the live site.
NOTE Confidence: 0.795539581428572

00:33:01.920 --> 00:33:04.530 They're not going to go to the live site
NOTE Confidence: 0.795539581428572

00:33:04.530 --> 00:33:06.899 until I go to the bottom of this page.
NOTE Confidence: 0.795539581428572

00:33:06.900 --> 00:33:07.587 And of course,

NOTE Confidence: 0.795539581428572
00:33:07.587 --> 00:33:09.190 it didn't say my edit just yet.
NOTE Confidence: 0.795539581428572
00:33:09.190 --> 00:33:11.980 Oh no, it's OK. Um.
NOTE Confidence: 0.862922985714286
00:33:14.100 --> 00:33:16.739 And if I make these edits then.
NOTE Confidence: 0.848020144666666
00:33:20.130 --> 00:33:21.890 OK, well it should be telling me that
NOTE Confidence: 0.848020144666666
00:33:21.890 --> 00:33:23.930 I have unsafe changes on this article.
NOTE Confidence: 0.848020144666666
00:33:23.930 --> 00:33:25.538 OK, here it is. So I see this
NOTE Confidence: 0.848020144666666
00:33:25.538 --> 00:33:27.498 message at the top that says this
NOTE Confidence: 0.848020144666666
00:33:27.498 --> 00:33:28.702 article is unpublished changes.
NOTE Confidence: 0.848020144666666
00:33:28.710 --> 00:33:29.820 In order for them to actually
NOTE Confidence: 0.848020144666666
00:33:29.820 --> 00:33:30.910 be reflected on the website,
NOTE Confidence: 0.848020144666666
00:33:30.910 --> 00:33:33.406 I have to go down and hit publish.
NOTE Confidence: 0.848020144666666
00:33:33.410 --> 00:33:35.600 That will republish the article with
NOTE Confidence: 0.848020144666666
00:33:35.600 --> 00:33:37.750 all the latest changes I've made.
NOTE Confidence: 0.848020144666666
00:33:37.750 --> 00:33:39.870 Just like the old system,
NOTE Confidence: 0.848020144666666
00:33:39.870 --> 00:33:41.767 if I click this preview article button,
NOTE Confidence: 0.848020144666666

00:33:41.770 --> 00:33:43.570 I can preview the changes I've
NOTE Confidence: 0.8480201446666666

00:33:43.570 --> 00:33:45.460 made before I actually publish it.
NOTE Confidence: 0.8480201446666666

00:33:45.460 --> 00:33:47.296 Um, one thing I added here,
NOTE Confidence: 0.8480201446666666

00:33:47.300 --> 00:33:49.344 even though it has no actual relevance
NOTE Confidence: 0.8480201446666666

00:33:49.344 --> 00:33:51.108 to this article, is a related event,
NOTE Confidence: 0.8480201446666666

00:33:51.108 --> 00:33:53.180 because this is a feature we added recently.
NOTE Confidence: 0.8480201446666666

00:33:53.180 --> 00:33:55.190 If you're writing an article
NOTE Confidence: 0.8480201446666666

00:33:55.190 --> 00:33:56.396 about some event,
NOTE Confidence: 0.8480201446666666

00:33:56.400 --> 00:33:57.877 it'd really be best if you could.
NOTE Confidence: 0.8480201446666666

00:33:57.880 --> 00:33:59.686 Also, if there's not an event
NOTE Confidence: 0.8480201446666666

00:33:59.686 --> 00:34:01.420 in our calendar system already,
NOTE Confidence: 0.8480201446666666

00:34:01.420 --> 00:34:02.990 create an event for that.
NOTE Confidence: 0.887056475

00:34:05.150 --> 00:34:06.414 Conference or seminar or
NOTE Confidence: 0.887056475

00:34:06.414 --> 00:34:08.310 whatever kind of event it is,
NOTE Confidence: 0.887056475

00:34:08.310 --> 00:34:10.176 and then people can easily access
NOTE Confidence: 0.887056475

00:34:10.176 --> 00:34:11.810 information about the event while

NOTE Confidence: 0.887056475
00:34:11.810 --> 00:34:13.470 they're reading the news article.
NOTE Confidence: 0.887056475
00:34:13.470 --> 00:34:15.000 They'll get tools like downloading
NOTE Confidence: 0.887056475
00:34:15.000 --> 00:34:17.030 the event to their calendar location,
NOTE Confidence: 0.887056475
00:34:17.030 --> 00:34:19.950 RSVP information and all that.
NOTE Confidence: 0.887056475
00:34:19.950 --> 00:34:22.230 So that's a really handy feature
NOTE Confidence: 0.887056475
00:34:22.230 --> 00:34:24.574 that we added that's just exposing
NOTE Confidence: 0.887056475
00:34:24.574 --> 00:34:27.192 more of the data we have already.
NOTE Confidence: 0.887056475
00:34:27.200 --> 00:34:29.286 Also, I wanted to call out the
NOTE Confidence: 0.887056475
00:34:29.286 --> 00:34:31.768 use of the call to action link
NOTE Confidence: 0.887056475
00:34:31.768 --> 00:34:34.036 that frame used in this article.
NOTE Confidence: 0.887056475
00:34:34.040 --> 00:34:35.642 This is really handy if there
NOTE Confidence: 0.887056475
00:34:35.642 --> 00:34:37.732 is some kind of action you would
NOTE Confidence: 0.887056475
00:34:37.732 --> 00:34:39.652 like users to take after reading
NOTE Confidence: 0.887056475
00:34:39.652 --> 00:34:41.434 your article so it appears at
NOTE Confidence: 0.887056475
00:34:41.434 --> 00:34:43.067 the very bottom of the article,
NOTE Confidence: 0.887056475

00:34:43.067 --> 00:34:44.726 and then you could even just link
NOTE Confidence: 0.887056475

00:34:44.726 --> 00:34:46.318 to your news page if you wanted
NOTE Confidence: 0.887056475

00:34:46.318 --> 00:34:47.710 for them to read more articles
NOTE Confidence: 0.887056475

00:34:47.710 --> 00:34:49.336 or you could link to something.
NOTE Confidence: 0.887056475

00:34:49.340 --> 00:34:52.058 It's probably honestly more effective if
NOTE Confidence: 0.887056475

00:34:52.058 --> 00:34:54.867 you're linking to some specific other
NOTE Confidence: 0.887056475

00:34:54.867 --> 00:34:56.949 article or information on your site.
NOTE Confidence: 0.887056475

00:34:56.950 --> 00:34:59.206 That will be helpful to the person who
NOTE Confidence: 0.887056475

00:34:59.206 --> 00:35:03.820 read this article and that call to action.
NOTE Confidence: 0.887056475

00:35:03.820 --> 00:35:04.087 Sorry,
NOTE Confidence: 0.887056475

00:35:04.087 --> 00:35:05.689 I'm skipping around a little bit.
NOTE Confidence: 0.863582571538462

00:35:07.890 --> 00:35:09.780 My related events are going to be
NOTE Confidence: 0.863582571538462

00:35:09.780 --> 00:35:11.970 managed in this related content section.
NOTE Confidence: 0.863582571538462

00:35:11.970 --> 00:35:13.510 Oh, I'm sorry, this is really important,
NOTE Confidence: 0.863582571538462

00:35:13.510 --> 00:35:15.480 but I haven't mentioned yet so
NOTE Confidence: 0.863582571538462

00:35:15.480 --> 00:35:17.230 that you can easily manage the UI.

NOTE Confidence: 0.863582571538462

00:35:17.230 --> 00:35:19.012 We've added the concept of these

NOTE Confidence: 0.863582571538462

00:35:19.012 --> 00:35:21.182 recordings so you can show and hide

NOTE Confidence: 0.863582571538462

00:35:21.182 --> 00:35:22.727 content here as you're editing.

NOTE Confidence: 0.863582571538462

00:35:22.730 --> 00:35:25.094 The more popular sections for editing

NOTE Confidence: 0.863582571538462

00:35:25.094 --> 00:35:27.429 you'll find are expanding by default,

NOTE Confidence: 0.863582571538462

00:35:27.430 --> 00:35:29.326 but some sections that don't necessarily

NOTE Confidence: 0.863582571538462

00:35:29.326 --> 00:35:31.650 get used that often might be collapsed.

NOTE Confidence: 0.863582571538462

00:35:31.650 --> 00:35:33.130 If you're not seeing some

NOTE Confidence: 0.863582571538462

00:35:33.130 --> 00:35:34.610 field that you're looking for,

NOTE Confidence: 0.863582571538462

00:35:34.610 --> 00:35:36.178 it's most likely in a collapse section.

NOTE Confidence: 0.863582571538462

00:35:36.180 --> 00:35:38.308 You just need to use these arrow toggles.

NOTE Confidence: 0.863582571538462

00:35:38.310 --> 00:35:40.878 To show or hide those fields.

NOTE Confidence: 0.863582571538462

00:35:40.880 --> 00:35:43.200 This is where my related links in my

NOTE Confidence: 0.863582571538462

00:35:43.200 --> 00:35:45.143 related events show up and that call

NOTE Confidence: 0.863582571538462

00:35:45.143 --> 00:35:47.079 to action you might have just seen.

NOTE Confidence: 0.863582571538462

00:35:47.080 --> 00:35:50.055 It appears just below this article body.

NOTE Confidence: 0.863582571538462

00:35:50.060 --> 00:35:52.240 You can add the title,

NOTE Confidence: 0.863582571538462

00:35:52.240 --> 00:35:54.816 a subtitle if you want it the

NOTE Confidence: 0.863582571538462

00:35:54.816 --> 00:35:57.741 actual text for the link that the

NOTE Confidence: 0.863582571538462

00:35:57.741 --> 00:35:59.790 button that appears in the target.

NOTE Confidence: 0.842088437

00:36:01.260 --> 00:36:02.364 Could you show people

NOTE Confidence: 0.842088437

00:36:02.364 --> 00:36:04.020 how to add a pull quote?

NOTE Confidence: 0.805579046

00:36:06.680 --> 00:36:09.920 Yes. So this article editor,

NOTE Confidence: 0.805579046

00:36:09.920 --> 00:36:11.632 you'll find is much,

NOTE Confidence: 0.805579046

00:36:11.632 --> 00:36:14.200 much different than it was previously.

NOTE Confidence: 0.805579046

00:36:14.200 --> 00:36:16.104 That used to be that there was a

NOTE Confidence: 0.805579046

00:36:16.104 --> 00:36:17.326 dedicated field for poll quotes

NOTE Confidence: 0.805579046

00:36:17.326 --> 00:36:19.302 and you could only put one and you

NOTE Confidence: 0.805579046

00:36:19.302 --> 00:36:20.917 couldn't control where it appeared.

NOTE Confidence: 0.805579046

00:36:20.920 --> 00:36:22.264 We were just kind of stick it

NOTE Confidence: 0.805579046

00:36:22.264 --> 00:36:23.558 in the middle of the article.

NOTE Confidence: 0.805579046

00:36:23.560 --> 00:36:25.756 Now you'll have the ability to,

NOTE Confidence: 0.805579046

00:36:25.760 --> 00:36:27.620 with this new editor,

NOTE Confidence: 0.805579046

00:36:27.620 --> 00:36:30.930 insert a pull quote wherever you want.

NOTE Confidence: 0.805579046

00:36:30.930 --> 00:36:33.378 Once I start editing in an article on,

NOTE Confidence: 0.805579046

00:36:33.380 --> 00:36:34.661 there are a bunch of features hiding

NOTE Confidence: 0.805579046

00:36:34.661 --> 00:36:35.579 behind this little plus sign.

NOTE Confidence: 0.805579046

00:36:35.580 --> 00:36:38.562 I could add things like media and

NOTE Confidence: 0.805579046

00:36:38.562 --> 00:36:43.300 a pull quote. And I can just.

NOTE Confidence: 0.805579046

00:36:43.300 --> 00:36:44.950 I should have thought more about

NOTE Confidence: 0.805579046

00:36:44.950 --> 00:36:46.260 this before I entered it,

NOTE Confidence: 0.805579046

00:36:46.260 --> 00:36:48.738 but I could add this little

NOTE Confidence: 0.805579046

00:36:48.738 --> 00:36:50.390 poll quote and it.

NOTE Confidence: 0.805579046

00:36:50.390 --> 00:36:52.930 Gives you some default information

NOTE Confidence: 0.805579046

00:36:52.930 --> 00:36:54.562 that you can write over with

NOTE Confidence: 0.805579046

00:36:54.562 --> 00:36:56.090 your actual quote and credit.

NOTE Confidence: 0.805579046

00:36:56.090 --> 00:36:58.730 And once I do that.
NOTE Confidence: 0.805579046

00:36:58.730 --> 00:37:01.886 I can preview my article again.
NOTE Confidence: 0.805579046

00:37:01.890 --> 00:37:05.470 And there's my poco.
NOTE Confidence: 0.805579046

00:37:05.470 --> 00:37:06.493 And they can.
NOTE Confidence: 0.805579046

00:37:06.493 --> 00:37:08.198 It's appearing exactly where I
NOTE Confidence: 0.805579046

00:37:08.198 --> 00:37:10.427 put it in my article content.
NOTE Confidence: 0.805579046

00:37:10.430 --> 00:37:12.750 So we're trying to add some more flexibility.
NOTE Confidence: 0.805579046

00:37:12.750 --> 00:37:15.732 We actually are hopefully going to be
NOTE Confidence: 0.805579046

00:37:15.732 --> 00:37:17.549 adding some additional flexibility
NOTE Confidence: 0.805579046

00:37:17.549 --> 00:37:19.859 soon and even more options.
NOTE Confidence: 0.805579046

00:37:19.860 --> 00:37:22.996 And we'll cover that a little bit more.
NOTE Confidence: 0.805579046

00:37:23.000 --> 00:37:24.194 I'm not sure there's going to
NOTE Confidence: 0.805579046

00:37:24.194 --> 00:37:25.770 be ready in time for our news
NOTE Confidence: 0.805579046

00:37:25.770 --> 00:37:26.990 training that we have scheduled,
NOTE Confidence: 0.805579046

00:37:26.990 --> 00:37:28.718 but we'll at least tell you about some
NOTE Confidence: 0.805579046

00:37:28.718 --> 00:37:30.639 of the options that we're working on.

NOTE Confidence: 0.783038855

00:37:30.730 --> 00:37:32.815 Can you show people where

NOTE Confidence: 0.783038855

00:37:32.815 --> 00:37:34.900 the bulleted list moved to?

NOTE Confidence: 0.776314025

00:37:35.630 --> 00:37:36.800 Yeah, we're going to fix this.

NOTE Confidence: 0.776314025

00:37:36.800 --> 00:37:37.770 This is kind of silly.

NOTE Confidence: 0.776314025

00:37:37.770 --> 00:37:39.706 If you need to add a bullet list,

NOTE Confidence: 0.776314025

00:37:39.710 --> 00:37:41.950 it's behind this format button.

NOTE Confidence: 0.776314025

00:37:41.950 --> 00:37:44.326 I don't know how that ended up there,

NOTE Confidence: 0.776314025

00:37:44.330 --> 00:37:46.106 but it's not the expected place.

NOTE Confidence: 0.776314025

00:37:46.110 --> 00:37:48.325 But you can totally add

NOTE Confidence: 0.776314025

00:37:48.325 --> 00:37:50.097 your bullets as needed.

NOTE Confidence: 0.776314025

00:37:50.100 --> 00:37:52.214 Here you just need to click behind

NOTE Confidence: 0.776314025

00:37:52.214 --> 00:37:53.929 this paragraph symbol format button.

NOTE Confidence: 0.776314025

00:37:53.930 --> 00:37:57.164 This is also where you can add

NOTE Confidence: 0.776314025

00:37:57.164 --> 00:37:59.310 headings throughout your article.

NOTE Confidence: 0.776314025

00:37:59.310 --> 00:38:01.886 Just make sure this could be a

NOTE Confidence: 0.776314025

00:38:01.886 --> 00:38:03.540 whole separate training town hall,
NOTE Confidence: 0.776314025

00:38:03.540 --> 00:38:05.465 but make sure you use the correct
NOTE Confidence: 0.776314025

00:38:05.465 --> 00:38:07.049 semantic order for your headings.
NOTE Confidence: 0.776314025

00:38:07.050 --> 00:38:09.006 We will definitely cover that more.
NOTE Confidence: 0.776314025

00:38:09.010 --> 00:38:11.620 In the news specific session,
NOTE Confidence: 0.855626830555555

00:38:12.170 --> 00:38:14.264 Amy asks whether you can take
NOTE Confidence: 0.855626830555555

00:38:14.264 --> 00:38:16.384 a paragraph and create a quote
NOTE Confidence: 0.855626830555555

00:38:16.384 --> 00:38:18.346 from it by clicking the button.
NOTE Confidence: 0.855626830555555

00:38:18.350 --> 00:38:19.025 I'm assuming no,
NOTE Confidence: 0.855626830555555

00:38:19.025 --> 00:38:20.375 that you could just copy it.
NOTE Confidence: 0.873127448

00:38:21.190 --> 00:38:22.430 I think no, but yeah,
NOTE Confidence: 0.873127448

00:38:22.430 --> 00:38:23.606 I could just highlight this text,
NOTE Confidence: 0.873127448

00:38:23.610 --> 00:38:26.167 copy it, and then when I add,
NOTE Confidence: 0.873127448

00:38:26.167 --> 00:38:27.469 well that's probably going to break
NOTE Confidence: 0.873127448

00:38:27.469 --> 00:38:29.368 if I try to add a quote in a bullet.
NOTE Confidence: 0.873127448

00:38:29.370 --> 00:38:33.106 But then if I make my new quote,

NOTE Confidence: 0.873127448

00:38:33.110 --> 00:38:35.917 I can just copy and paste there.

NOTE Confidence: 0.9309049

00:38:41.250 --> 00:38:42.419 Yeah. So future state,

NOTE Confidence: 0.9309049

00:38:42.419 --> 00:38:44.400 we're going to add a bunch of

NOTE Confidence: 0.871699795333333

00:38:44.464 --> 00:38:46.249 other layout options to this,

NOTE Confidence: 0.871699795333333

00:38:46.250 --> 00:38:49.042 so you can insert columns and and do

NOTE Confidence: 0.871699795333333

00:38:49.042 --> 00:38:52.065 a lot of a lot of things with it.

NOTE Confidence: 0.871699795333333

00:38:52.070 --> 00:38:54.046 We didn't have that ready for this launch,

NOTE Confidence: 0.871699795333333

00:38:54.050 --> 00:38:56.543 but that should be done in the new year.

NOTE Confidence: 0.871699795333333

00:38:56.550 --> 00:39:01.750 Early in the New year, yes. Um.

NOTE Confidence: 0.872045646875

00:39:01.750 --> 00:39:03.730 The only other thing I'm going

NOTE Confidence: 0.872045646875

00:39:03.730 --> 00:39:06.831 to touch on in news for now is

NOTE Confidence: 0.872045646875

00:39:06.831 --> 00:39:08.320 suggested articles. Yeah. And

NOTE Confidence: 0.729810655555556

00:39:08.590 --> 00:39:11.569 there's a for the comms officers on the call.

NOTE Confidence: 0.729810655555556

00:39:11.570 --> 00:39:14.170 We're going to go over this some more

NOTE Confidence: 0.729810655555556

00:39:14.170 --> 00:39:17.190 in the comms officer meeting tomorrow,

NOTE Confidence: 0.729810655555556

00:39:17.190 --> 00:39:19.158 Jill's comms officer meeting and then
NOTE Confidence: 0.729810655555556

00:39:19.158 --> 00:39:21.439 there's a specific news training session.
NOTE Confidence: 0.881977331666667

00:39:24.270 --> 00:39:26.106 That's happening in the New Year,
NOTE Confidence: 0.881977331666667

00:39:26.110 --> 00:39:28.460 where we'll go into a deep dive of news.
NOTE Confidence: 0.889808242727273

00:39:29.790 --> 00:39:32.010 Yeah, so I have access to
NOTE Confidence: 0.889808242727273

00:39:32.010 --> 00:39:34.110 lots and lots of stuff.
NOTE Confidence: 0.889808242727273

00:39:34.110 --> 00:39:38.569 So I see that Sun suggested articles.
NOTE Confidence: 0.889808242727273

00:39:38.570 --> 00:39:40.262 If you see way too much
NOTE Confidence: 0.889808242727273

00:39:40.262 --> 00:39:41.108 and it's overwhelming,
NOTE Confidence: 0.889808242727273

00:39:41.110 --> 00:39:42.910 there's probably a subset of
NOTE Confidence: 0.889808242727273

00:39:42.910 --> 00:39:45.110 organizations that you really care about.
NOTE Confidence: 0.889808242727273

00:39:45.110 --> 00:39:46.675 One important thing about Beatrix
NOTE Confidence: 0.889808242727273

00:39:46.675 --> 00:39:48.550 is the permissions model is very,
NOTE Confidence: 0.889808242727273

00:39:48.550 --> 00:39:52.370 very different from profile system.
NOTE Confidence: 0.889808242727273

00:39:52.370 --> 00:39:55.090 It's much more powerful.
NOTE Confidence: 0.889808242727273

00:39:55.090 --> 00:39:56.350 But you're going to find

NOTE Confidence: 0.889808242727273

00:39:56.350 --> 00:39:57.358 that you have access.

NOTE Confidence: 0.889808242727273

00:39:57.360 --> 00:39:59.632 You probably have access to a lot more

NOTE Confidence: 0.889808242727273

00:39:59.632 --> 00:40:01.200 organizations than you did previously,

NOTE Confidence: 0.889808242727273

00:40:01.200 --> 00:40:03.951 especially if you had access at a

NOTE Confidence: 0.889808242727273

00:40:03.951 --> 00:40:06.539 department level or higher previously.

NOTE Confidence: 0.889808242727273

00:40:06.540 --> 00:40:08.339 If you see way too many organizations

NOTE Confidence: 0.889808242727273

00:40:08.339 --> 00:40:10.099 that you're never ever going to touch,

NOTE Confidence: 0.889808242727273

00:40:10.100 --> 00:40:11.462 and it doesn't even make sense

NOTE Confidence: 0.889808242727273

00:40:11.462 --> 00:40:13.319 for you to have editing access to,

NOTE Confidence: 0.889808242727273

00:40:13.320 --> 00:40:15.658 then contact us and we'll work with

NOTE Confidence: 0.889808242727273

00:40:15.658 --> 00:40:17.960 you to update these permissions.

NOTE Confidence: 0.889808242727273

00:40:17.960 --> 00:40:19.188 But in the meantime,

NOTE Confidence: 0.889808242727273

00:40:19.188 --> 00:40:21.624 I can focus in on some specific

NOTE Confidence: 0.889808242727273

00:40:21.624 --> 00:40:24.458 organization just by selecting it from

NOTE Confidence: 0.889808242727273

00:40:24.458 --> 00:40:26.588 this organization drop down list.

NOTE Confidence: 0.889808242727273

00:40:26.590 --> 00:40:28.809 Also, once I select a single organization,
NOTE Confidence: 0.889808242727273

00:40:28.810 --> 00:40:31.010 I have the ability to approve or reject
NOTE Confidence: 0.889808242727273

00:40:31.010 --> 00:40:33.465 an Oracle from here very quickly if I want.
NOTE Confidence: 0.889808242727273

00:40:33.470 --> 00:40:35.689 That's not going to be an option
NOTE Confidence: 0.889808242727273

00:40:35.689 --> 00:40:38.397 if I'm looking at the list of all
NOTE Confidence: 0.889808242727273

00:40:38.397 --> 00:40:40.360 the organizations I have access to.
NOTE Confidence: 0.889808242727273

00:40:40.360 --> 00:40:41.845 Umm, and again,
NOTE Confidence: 0.889808242727273

00:40:41.845 --> 00:40:46.050 if I go to a organization that has multiple,
NOTE Confidence: 0.889808242727273

00:40:46.050 --> 00:40:48.920 if I review all these really quickly
NOTE Confidence: 0.889808242727273

00:40:48.920 --> 00:40:51.179 and I decide these are all good to go,
NOTE Confidence: 0.889808242727273

00:40:51.180 --> 00:40:52.876 I could approve all of these at once.
NOTE Confidence: 0.889808242727273

00:40:52.880 --> 00:40:53.215 Again,
NOTE Confidence: 0.889808242727273

00:40:53.215 --> 00:40:55.225 that's only going to happen once
NOTE Confidence: 0.889808242727273

00:40:55.225 --> 00:40:57.859 I've selected a single organization
NOTE Confidence: 0.889808242727273

00:40:57.859 --> 00:40:59.818 from this filter.
NOTE Confidence: 0.889808242727273

00:40:59.820 --> 00:41:01.828 If you only have access to one organization,

NOTE Confidence: 0.889808242727273
00:41:01.830 --> 00:41:03.162 you should see this these options
NOTE Confidence: 0.889808242727273
00:41:03.162 --> 00:41:03.828 by default though,
NOTE Confidence: 0.889808242727273
00:41:03.830 --> 00:41:05.335 you shouldn't have to select an organization.
NOTE Confidence: 0.889808242727273
00:41:05.340 --> 00:41:08.108 We're just going to show you only those
NOTE Confidence: 0.889808242727273
00:41:08.108 --> 00:41:10.742 articles in the one organization that
NOTE Confidence: 0.889808242727273
00:41:10.742 --> 00:41:13.630 you have news approval access for.
NOTE Confidence: 0.889808242727273
00:41:13.630 --> 00:41:13.924 Um,
NOTE Confidence: 0.889808242727273
00:41:13.924 --> 00:41:15.982 and you might notice there's a bug
NOTE Confidence: 0.889808242727273
00:41:15.982 --> 00:41:17.777 where system account is appearing
NOTE Confidence: 0.889808242727273
00:41:17.777 --> 00:41:19.687 instead of the actual submitter.
NOTE Confidence: 0.889808242727273
00:41:19.690 --> 00:41:22.010 We're working on that.
NOTE Confidence: 0.889808242727273
00:41:22.010 --> 00:41:27.780 Um, OK, I'm going to skip over to events now.
NOTE Confidence: 0.844576709
00:41:31.310 --> 00:41:33.858 I identified another event
NOTE Confidence: 0.844576709
00:41:33.858 --> 00:41:37.680 that I want to review here.
NOTE Confidence: 0.844576709
00:41:37.680 --> 00:41:39.024 Again, similar to news,
NOTE Confidence: 0.844576709

00:41:39.024 --> 00:41:41.440 not a whole lot has changed here.

NOTE Confidence: 0.844576709

00:41:41.440 --> 00:41:43.638 It's most, it's all the same fields.

NOTE Confidence: 0.844576709

00:41:43.640 --> 00:41:47.049 We did add the same concept of

NOTE Confidence: 0.844576709

00:41:47.049 --> 00:41:49.346 publishing and we have and I made some

NOTE Confidence: 0.844576709

00:41:49.346 --> 00:41:51.408 updates for the meeting that this was

NOTE Confidence: 0.844576709

00:41:51.408 --> 00:41:53.730 the message I was looking for before,

NOTE Confidence: 0.844576709

00:41:53.730 --> 00:41:56.058 but I haven't published just yet

NOTE Confidence: 0.844576709

00:41:56.060 --> 00:42:00.100 and as you'll see, we have. Umm.

NOTE Confidence: 0.844576709

00:42:00.100 --> 00:42:02.464 Expose everything on a single page

NOTE Confidence: 0.844576709

00:42:02.464 --> 00:42:05.490 and again have these anchor links to

NOTE Confidence: 0.844576709

00:42:05.490 --> 00:42:07.775 quickly navigate through this page.

NOTE Confidence: 0.844576709

00:42:07.780 --> 00:42:09.550 All these fields we've seen really,

NOTE Confidence: 0.844576709

00:42:09.550 --> 00:42:10.948 I'm not going to spend too

NOTE Confidence: 0.844576709

00:42:10.948 --> 00:42:12.180 much time going over this.

NOTE Confidence: 0.844576709

00:42:12.180 --> 00:42:14.148 One important relatively new

NOTE Confidence: 0.844576709

00:42:14.148 --> 00:42:17.100 field we added is the ability

NOTE Confidence: 0.844576709

00:42:17.187 --> 00:42:19.589 to add videos to your events,

NOTE Confidence: 0.844576709

00:42:19.589 --> 00:42:21.754 which could be really helpful

NOTE Confidence: 0.844576709

00:42:21.754 --> 00:42:24.024 for displaying with some past

NOTE Confidence: 0.844576709

00:42:24.024 --> 00:42:25.796 conferences or grand rounds,

NOTE Confidence: 0.844576709

00:42:25.800 --> 00:42:28.360 things like that, so.

NOTE Confidence: 0.862106074230769

00:42:30.410 --> 00:42:32.312 Start adding your videos after the

NOTE Confidence: 0.862106074230769

00:42:32.312 --> 00:42:35.060 fact if you want to be trapped having

NOTE Confidence: 0.862106074230769

00:42:35.060 --> 00:42:37.184 lists of previous zoom recordings or

NOTE Confidence: 0.862106074230769

00:42:37.251 --> 00:42:39.489 something like that in your website.

NOTE Confidence: 0.862106074230769

00:42:39.490 --> 00:42:41.008 I skipped over this for news,

NOTE Confidence: 0.862106074230769

00:42:41.010 --> 00:42:42.742 but it works essentially

NOTE Confidence: 0.862106074230769

00:42:42.742 --> 00:42:44.907 identically in events and news.

NOTE Confidence: 0.862106074230769

00:42:44.910 --> 00:42:48.588 But when you're tagging your event or news

NOTE Confidence: 0.862106074230769

00:42:48.588 --> 00:42:51.984 item, the process really hasn't changed.

NOTE Confidence: 0.862106074230769

00:42:51.990 --> 00:42:54.570 Keywords have been renamed as tags,

NOTE Confidence: 0.862106074230769

00:42:54.570 --> 00:42:57.034 but they're they function the exact same way.

NOTE Confidence: 0.831813276666667

00:42:59.060 --> 00:43:01.976 We tied our speakers, our hosts,

NOTE Confidence: 0.831813276666667

00:43:01.980 --> 00:43:06.170 users or orgs and then.

NOTE Confidence: 0.831813276666667

00:43:06.170 --> 00:43:08.936 We will add it to our.

NOTE Confidence: 0.831813276666667

00:43:08.940 --> 00:43:10.908 These are really just organizations now,

NOTE Confidence: 0.831813276666667

00:43:10.910 --> 00:43:13.190 but we call them calendars.

NOTE Confidence: 0.831813276666667

00:43:13.190 --> 00:43:14.486 We choose which calendars

NOTE Confidence: 0.831813276666667

00:43:14.486 --> 00:43:16.430 we'd like to add it to.

NOTE Confidence: 0.831813276666667

00:43:16.430 --> 00:43:17.985 Some calendars would be added

NOTE Confidence: 0.831813276666667

00:43:17.985 --> 00:43:19.940 automatically depending on who is tagged.

NOTE Confidence: 0.87987105

00:43:22.030 --> 00:43:26.081 So if I want to add this event to.

NOTE Confidence: 0.87987105

00:43:26.081 --> 00:43:29.390 Abdominal imaging I could add just this one.

NOTE Confidence: 0.87987105

00:43:29.390 --> 00:43:31.106 I'm actually sorry I should explain.

NOTE Confidence: 0.87987105

00:43:31.110 --> 00:43:32.960 I'm looking at the occurrence

NOTE Confidence: 0.87987105

00:43:32.960 --> 00:43:34.440 of a recurring event.

NOTE Confidence: 0.87987105

00:43:34.440 --> 00:43:35.796 So I'm looking at a single

NOTE Confidence: 0.87987105

00:43:35.796 --> 00:43:37.010 occurrence of a repeated event.

NOTE Confidence: 0.87987105

00:43:37.010 --> 00:43:39.257 That's why I see this full event

NOTE Confidence: 0.87987105

00:43:39.257 --> 00:43:41.323 series button link in the side that

NOTE Confidence: 0.87987105

00:43:41.323 --> 00:43:43.545 will link me over to the primary event

NOTE Confidence: 0.87987105

00:43:43.545 --> 00:43:45.961 that I created in the 1st place to

NOTE Confidence: 0.87987105

00:43:45.970 --> 00:43:48.690 create all these event occurrences.

NOTE Confidence: 0.87987105

00:43:48.690 --> 00:43:50.250 But if I'm looking at a

NOTE Confidence: 0.87987105

00:43:50.250 --> 00:43:51.290 single occurrence of event,

NOTE Confidence: 0.87987105

00:43:51.290 --> 00:43:54.164 I could suggest just this occurrence

NOTE Confidence: 0.87987105

00:43:54.164 --> 00:43:57.809 to a calendar or the entire series.

NOTE Confidence: 0.87987105

00:43:57.810 --> 00:43:59.910 So that's why we see two

NOTE Confidence: 0.87987105

00:43:59.910 --> 00:44:00.960 different options here.

NOTE Confidence: 0.87987105

00:44:00.960 --> 00:44:04.056 So if you want every instance of this

NOTE Confidence: 0.87987105

00:44:04.056 --> 00:44:06.700 yoga restorative yoga to go to a calendar,

NOTE Confidence: 0.87987105

00:44:06.700 --> 00:44:08.536 I would click the calendar button.

NOTE Confidence: 0.87987105

00:44:08.540 --> 00:44:10.416 If I just want this one occurrence,
NOTE Confidence: 0.87987105

00:44:10.420 --> 00:44:16.070 I click this little plus. Umm.
NOTE Confidence: 0.87987105

00:44:16.070 --> 00:44:18.282 And then you could see the status
NOTE Confidence: 0.87987105

00:44:18.282 --> 00:44:20.250 of the various suggestions here.
NOTE Confidence: 0.87987105

00:44:20.250 --> 00:44:21.270 And again,
NOTE Confidence: 0.87987105

00:44:21.270 --> 00:44:23.820 we've implemented the same exact
NOTE Confidence: 0.87987105

00:44:23.820 --> 00:44:25.779 published publishing logic that
NOTE Confidence: 0.87987105

00:44:25.779 --> 00:44:28.069 we implemented for news here.
NOTE Confidence: 0.87987105

00:44:28.070 --> 00:44:31.115 So if I'm making changes to an
NOTE Confidence: 0.87987105

00:44:31.115 --> 00:44:32.520 already published event currents
NOTE Confidence: 0.87987105

00:44:32.520 --> 00:44:34.375 they're not going to show up on
NOTE Confidence: 0.87987105

00:44:34.375 --> 00:44:36.287 the website until I click publish.
NOTE Confidence: 0.87987105

00:44:36.290 --> 00:44:37.152 And again,
NOTE Confidence: 0.87987105

00:44:37.152 --> 00:44:39.738 I can preview my changes without
NOTE Confidence: 0.87987105

00:44:39.738 --> 00:44:42.879 publishing by clicking this preview button.
NOTE Confidence: 0.87987105

00:44:42.880 --> 00:44:44.560 And unfortunately I'm in the test system,

NOTE Confidence: 0.87987105
00:44:44.560 --> 00:44:46.396 so it's a little slower than
NOTE Confidence: 0.87987105
00:44:46.396 --> 00:44:47.314 the prod environment,
NOTE Confidence: 0.87987105
00:44:47.320 --> 00:44:49.468 but now I see my preview.
NOTE Confidence: 0.71893931
00:44:52.410 --> 00:44:57.711 Umm, I think that 01,
NOTE Confidence: 0.71893931
00:44:57.711 --> 00:44:59.916 another feature that we implemented.
NOTE Confidence: 0.71893931
00:44:59.920 --> 00:45:02.825 This is carried over from profile system,
NOTE Confidence: 0.71893931
00:45:02.830 --> 00:45:05.514 but it was in the last few months
NOTE Confidence: 0.71893931
00:45:05.514 --> 00:45:07.002 of profile system that we added.
NOTE Confidence: 0.71893931
00:45:07.010 --> 00:45:09.590 It wasn't integration with campus groups,
NOTE Confidence: 0.71893931
00:45:09.590 --> 00:45:12.873 which is the calendaring tool that is
NOTE Confidence: 0.71893931
00:45:12.873 --> 00:45:16.769 used by the mainly by student groups.
NOTE Confidence: 0.71893931
00:45:16.770 --> 00:45:20.146 You can actually search for all these events.
NOTE Confidence: 0.71893931
00:45:20.150 --> 00:45:25.176 Umm. Here, if you'd like they will show up.
NOTE Confidence: 0.71893931
00:45:25.180 --> 00:45:27.580 I sorry, I should have thought of one
NOTE Confidence: 0.71893931
00:45:27.580 --> 00:45:30.179 that is definitely an external event,
NOTE Confidence: 0.71893931

00:45:30.180 --> 00:45:30.940 so I could show you.
NOTE Confidence: 0.71893931

00:45:30.940 --> 00:45:33.173 But if you know there's some student
NOTE Confidence: 0.71893931

00:45:33.173 --> 00:45:35.573 event that was entered in the camp by
NOTE Confidence: 0.71893931

00:45:35.573 --> 00:45:38.020 a student on a campus groups calendar,
NOTE Confidence: 0.71893931

00:45:38.020 --> 00:45:40.324 you we will be importing those
NOTE Confidence: 0.71893931

00:45:40.324 --> 00:45:42.560 events on nightly I believe,
NOTE Confidence: 0.71893931

00:45:42.560 --> 00:45:44.224 and you can search for it here and
NOTE Confidence: 0.71893931

00:45:44.224 --> 00:45:46.017 add it directly to your calendar.
NOTE Confidence: 0.71893931

00:45:46.020 --> 00:45:48.540 You don't have to copy and paste
NOTE Confidence: 0.71893931

00:45:48.540 --> 00:45:49.620 all the details.
NOTE Confidence: 0.71893931

00:45:49.620 --> 00:45:51.330 We're hoping we will eventually
NOTE Confidence: 0.71893931

00:45:51.330 --> 00:45:52.356 have an integration.
NOTE Confidence: 0.71893931

00:45:52.360 --> 00:45:54.295 With uh beadworks the Central
NOTE Confidence: 0.71893931

00:45:54.295 --> 00:45:55.843 university calendar as well,
NOTE Confidence: 0.71893931

00:45:55.850 --> 00:45:57.970 sometime soon.
NOTE Confidence: 0.71893931

00:45:57.970 --> 00:45:59.518 I'm really hoping that integration will

NOTE Confidence: 0.71893931

00:45:59.518 --> 00:46:01.651 go both ways because I know some of you

NOTE Confidence: 0.71893931

00:46:01.651 --> 00:46:03.050 are managing calendars in both places.

NOTE Confidence: 0.71893931

00:46:03.050 --> 00:46:06.389 Right now I need to work with

NOTE Confidence: 0.71893931

00:46:06.389 --> 00:46:10.388 ITS to sort out that integration.

NOTE Confidence: 0.71893931

00:46:10.390 --> 00:46:12.190 So hopefully that'll be something

NOTE Confidence: 0.71893931

00:46:12.190 --> 00:46:15.190 that's coming in the next year or so.

NOTE Confidence: 0.71893931

00:46:15.190 --> 00:46:17.110 Umm.

NOTE Confidence: 0.71893931

00:46:17.110 --> 00:46:19.040 Were there any calendar questions

NOTE Confidence: 0.71893931

00:46:19.040 --> 00:46:21.560 I should address before I move on?

NOTE Confidence: 0.71893931

00:46:21.560 --> 00:46:22.390 Someone asked

NOTE Confidence: 0.870953805

00:46:22.450 --> 00:46:24.642 about a uploading a video to an event

NOTE Confidence: 0.870953805

00:46:24.642 --> 00:46:27.085 that used to have to go to the media

NOTE Confidence: 0.870953805

00:46:27.085 --> 00:46:28.740 library and upload it directly from

NOTE Confidence: 0.870953805

00:46:28.740 --> 00:46:30.950 there and then add it to your event.

NOTE Confidence: 0.870953805

00:46:30.950 --> 00:46:33.260 But I was just saying over the

NOTE Confidence: 0.870953805

00:46:33.260 --> 00:46:35.433 chat now you can actually do
NOTE Confidence: 0.870953805

00:46:35.433 --> 00:46:37.587 that from the event itself so.
NOTE Confidence: 0.793247915

00:46:38.580 --> 00:46:40.980 So. Thank you, it's kind of get Media
NOTE Confidence: 0.793247915

00:46:40.980 --> 00:46:43.089 library is luckily the next topic,
NOTE Confidence: 0.793247915

00:46:43.090 --> 00:46:46.114 so this will be a great introduction.
NOTE Confidence: 0.793247915

00:46:46.120 --> 00:46:49.214 If I when I click upload media,
NOTE Confidence: 0.793247915

00:46:49.220 --> 00:46:51.474 it's going to bring up this prompt.
NOTE Confidence: 0.793247915

00:46:51.480 --> 00:46:52.894 This home screen is going to show
NOTE Confidence: 0.793247915

00:46:52.894 --> 00:46:54.468 nothing if you haven't edited before,
NOTE Confidence: 0.793247915

00:46:54.470 --> 00:46:55.952 which in my test environment I
NOTE Confidence: 0.793247915

00:46:55.952 --> 00:46:57.525 guess I haven't. Sorry about that.
NOTE Confidence: 0.793247915

00:46:57.525 --> 00:46:58.625 We're we're working on
NOTE Confidence: 0.793247915

00:46:58.625 --> 00:46:59.740 making some tweaks here,
NOTE Confidence: 0.793247915

00:46:59.740 --> 00:47:03.716 but I can go ahead and choose from.
NOTE Confidence: 0.793247915

00:47:03.720 --> 00:47:06.372 All the media that people have
NOTE Confidence: 0.793247915

00:47:06.372 --> 00:47:08.140 uploaded the system previously

NOTE Confidence: 0.793247915

00:47:08.140 --> 00:47:11.700 and elected to be shareable,

NOTE Confidence: 0.793247915

00:47:11.700 --> 00:47:13.534 so I could select from all those

NOTE Confidence: 0.793247915

00:47:13.534 --> 00:47:15.878 or I could select something I've

NOTE Confidence: 0.793247915

00:47:15.878 --> 00:47:17.660 uploaded previously personally.

NOTE Confidence: 0.8937152

00:47:19.900 --> 00:47:21.727 Or if I have some new thing,

NOTE Confidence: 0.8937152

00:47:21.730 --> 00:47:23.606 I could click this upload media button

NOTE Confidence: 0.8937152

00:47:23.606 --> 00:47:26.294 and this is going to bring me through the

NOTE Confidence: 0.8937152

00:47:26.294 --> 00:47:28.110 normal process of uploading the video,

NOTE Confidence: 0.8937152

00:47:28.110 --> 00:47:30.042 adding all the relevant details and coding

NOTE Confidence: 0.8937152

00:47:30.042 --> 00:47:32.229 and I'll add it directly to this event.

NOTE Confidence: 0.8937152

00:47:32.230 --> 00:47:36.102 Or I could take an existing YouTube or

NOTE Confidence: 0.8937152

00:47:36.102 --> 00:47:40.164 Vimeo video and just plug in the link here.

NOTE Confidence: 0.8937152

00:47:40.170 --> 00:47:41.580 And add a video that way.

NOTE Confidence: 0.84966456375

00:47:42.770 --> 00:47:45.062 Importantly, in the old

NOTE Confidence: 0.84966456375

00:47:45.062 --> 00:47:47.354 system you would upload.

NOTE Confidence: 0.84966456375

00:47:47.360 --> 00:47:50.195 An asset to an an event or a news
NOTE Confidence: 0.84966456375

00:47:50.195 --> 00:47:52.434 article and it would only be
NOTE Confidence: 0.84966456375

00:47:52.434 --> 00:47:54.497 attached to that one thing, right?
NOTE Confidence: 0.84966456375

00:47:54.497 --> 00:47:56.233 So if you if you had a headshot
NOTE Confidence: 0.84966456375

00:47:56.233 --> 00:47:57.778 of someone and you want to put
NOTE Confidence: 0.84966456375

00:47:57.778 --> 00:47:59.740 it in a news article or an event,
NOTE Confidence: 0.84966456375

00:47:59.740 --> 00:48:01.434 you had to go get their headshot,
NOTE Confidence: 0.84966456375

00:48:01.440 --> 00:48:02.260 go to download it,
NOTE Confidence: 0.84966456375

00:48:02.260 --> 00:48:03.780 you have to upload it to that,
NOTE Confidence: 0.84966456375

00:48:03.780 --> 00:48:05.265 to that item.
NOTE Confidence: 0.84966456375

00:48:05.265 --> 00:48:08.235 So now we're making all headshots
NOTE Confidence: 0.84966456375

00:48:08.235 --> 00:48:10.038 available in the system,
NOTE Confidence: 0.84966456375

00:48:10.040 --> 00:48:11.104 so you can just search for it.
NOTE Confidence: 0.84966456375

00:48:11.110 --> 00:48:12.534 You don't need to go download it anymore,
NOTE Confidence: 0.84966456375

00:48:12.540 --> 00:48:14.956 it's just in the system and it will
NOTE Confidence: 0.84966456375

00:48:14.956 --> 00:48:17.798 tie it to their latest profile image.

NOTE Confidence: 0.84966456375
00:48:17.800 --> 00:48:20.239 And if you want to reuse an image that
NOTE Confidence: 0.84966456375
00:48:20.239 --> 00:48:22.684 you've put in another place in the system,
NOTE Confidence: 0.84966456375
00:48:22.690 --> 00:48:23.668 whether it be a news article,
NOTE Confidence: 0.84966456375
00:48:23.670 --> 00:48:25.500 an event or a profile,
NOTE Confidence: 0.84966456375
00:48:25.500 --> 00:48:27.612 those are going to be available
NOTE Confidence: 0.84966456375
00:48:27.612 --> 00:48:30.250 to you in your section.
NOTE Confidence: 0.821443578
00:48:32.460 --> 00:48:34.200 And then anything anyone else
NOTE Confidence: 0.821443578
00:48:34.200 --> 00:48:35.940 is added and made public,
NOTE Confidence: 0.821443578
00:48:35.940 --> 00:48:37.046 so I will go over that now.
NOTE Confidence: 0.8010695725
00:48:39.170 --> 00:48:40.890 I think you kind of covered it there.
NOTE Confidence: 0.8010695725
00:48:40.890 --> 00:48:42.434 The only thing I'd say is that we're
NOTE Confidence: 0.8010695725
00:48:42.434 --> 00:48:44.250 trying to make it easier to find headshots.
NOTE Confidence: 0.8010695725
00:48:44.250 --> 00:48:45.618 Right now it's kind of hit or miss.
NOTE Confidence: 0.8010695725
00:48:45.620 --> 00:48:48.791 I would just try typing the person's
NOTE Confidence: 0.8010695725
00:48:48.791 --> 00:48:51.425 name in here and luckily Jonathan
NOTE Confidence: 0.8010695725

00:48:51.425 --> 00:48:53.975 growers headshot is the first thing
NOTE Confidence: 0.8010695725

00:48:53.975 --> 00:48:56.565 that comes up when I search grower.
NOTE Confidence: 0.8010695725

00:48:56.570 --> 00:48:58.970 You might not find that for all faculty.
NOTE Confidence: 0.8010695725

00:48:58.970 --> 00:49:02.988 They they should all be available here.
NOTE Confidence: 0.8010695725

00:49:02.990 --> 00:49:04.982 We're going to try to add a filter
NOTE Confidence: 0.8010695725

00:49:04.982 --> 00:49:06.825 here that I'll show just headshots
NOTE Confidence: 0.8010695725

00:49:06.825 --> 00:49:08.757 because we know these are really
NOTE Confidence: 0.8010695725

00:49:08.820 --> 00:49:11.158 popular images to use as news article
NOTE Confidence: 0.8010695725

00:49:11.158 --> 00:49:12.526 thumbnails and things like that,
NOTE Confidence: 0.8010695725

00:49:12.526 --> 00:49:14.330 so we're going to try to make it easier.
NOTE Confidence: 0.8010695725

00:49:14.330 --> 00:49:14.990 They are there.
NOTE Confidence: 0.8010695725

00:49:14.990 --> 00:49:16.310 If you're having trouble finding one,
NOTE Confidence: 0.8010695725

00:49:16.310 --> 00:49:16.859 let us know.
NOTE Confidence: 0.8010695725

00:49:16.859 --> 00:49:18.594 We'll try to dig it up for you so
NOTE Confidence: 0.8010695725

00:49:18.594 --> 00:49:20.210 you don't have to go to the website,
NOTE Confidence: 0.8010695725

00:49:20.210 --> 00:49:21.686 download the headshot from the profile,

NOTE Confidence: 0.8010695725

00:49:21.690 --> 00:49:23.951 and then upload it right back to

NOTE Confidence: 0.8010695725

00:49:23.951 --> 00:49:25.919 the matrix where it was already

NOTE Confidence: 0.8010695725

00:49:25.920 --> 00:49:28.368 for a news article or event.

NOTE Confidence: 0.8010695725

00:49:28.370 --> 00:49:29.380 Umm.

NOTE Confidence: 0.740981015

00:49:31.970 --> 00:49:36.470 Let's see. I guess I'll run through.

NOTE Confidence: 0.777435034

00:49:38.750 --> 00:49:41.006 Adding a video, and of course I don't

NOTE Confidence: 0.777435034

00:49:41.006 --> 00:49:43.437 know if they're file readily available

NOTE Confidence: 0.777435034

00:49:43.437 --> 00:49:45.110 here, but I'll find something.

NOTE Confidence: 0.88036793

00:49:48.400 --> 00:49:52.446 OK. So if I can get out of video,

NOTE Confidence: 0.88036793

00:49:52.450 --> 00:49:56.040 I just browse for it, upload it.

NOTE Confidence: 0.88036793

00:49:56.040 --> 00:49:58.230 Importantly, I think a lot of

NOTE Confidence: 0.88036793

00:49:58.230 --> 00:50:00.936 people ran into an error with this

NOTE Confidence: 0.88036793

00:50:00.936 --> 00:50:03.270 tool in the first couple days.

NOTE Confidence: 0.88036793

00:50:03.270 --> 00:50:05.055 But the system was that

NOTE Confidence: 0.88036793

00:50:05.055 --> 00:50:06.126 Beatrix was available.

NOTE Confidence: 0.88036793

00:50:06.130 --> 00:50:08.806 There was some really strict slash,
NOTE Confidence: 0.88036793

00:50:08.810 --> 00:50:10.630 incorrect file name checking
NOTE Confidence: 0.88036793

00:50:10.630 --> 00:50:12.905 that we had on upload,
NOTE Confidence: 0.88036793

00:50:12.910 --> 00:50:15.028 and those issues have been resolved.
NOTE Confidence: 0.88036793

00:50:15.030 --> 00:50:17.694 So we're hoping you get many fewer errors
NOTE Confidence: 0.88036793

00:50:17.694 --> 00:50:20.507 when you're trying to upload video files now.
NOTE Confidence: 0.88036793

00:50:20.510 --> 00:50:24.890 You also will notice that my mom video
NOTE Confidence: 0.88036793

00:50:24.890 --> 00:50:28.310 finished uploading and it's now encoding.
NOTE Confidence: 0.88036793

00:50:28.310 --> 00:50:30.310 So it's not ready for use just yet.
NOTE Confidence: 0.88036793

00:50:30.310 --> 00:50:33.358 I have to wait until this video is
NOTE Confidence: 0.88036793

00:50:33.358 --> 00:50:36.367 finished in coding we have really not,
NOTE Confidence: 0.88036793

00:50:36.370 --> 00:50:38.530 I have to admit not great messaging around
NOTE Confidence: 0.88036793

00:50:38.530 --> 00:50:40.479 when your video is finishing coding.
NOTE Confidence: 0.88036793

00:50:40.480 --> 00:50:42.154 Right now we're trying to update
NOTE Confidence: 0.88036793

00:50:42.154 --> 00:50:43.810 this interface to make it a
NOTE Confidence: 0.88036793

00:50:43.810 --> 00:50:45.010 lot clearer what's going on.

NOTE Confidence: 0.88036793

00:50:45.010 --> 00:50:46.558 Give you kind of progress bars

NOTE Confidence: 0.88036793

00:50:46.558 --> 00:50:48.772 if you have an idea of what's how

NOTE Confidence: 0.88036793

00:50:48.772 --> 00:50:50.704 much longer you have to wait,

NOTE Confidence: 0.88036793

00:50:50.710 --> 00:50:52.810 but you what you will see,

NOTE Confidence: 0.88036793

00:50:52.810 --> 00:50:55.946 and I kind of skipped over this part,

NOTE Confidence: 0.88036793

00:50:55.950 --> 00:50:57.874 is a notification when.

NOTE Confidence: 0.88036793

00:50:57.874 --> 00:51:00.760 Your media item finishes in coding,

NOTE Confidence: 0.88036793

00:51:00.760 --> 00:51:02.386 so I could go start doing

NOTE Confidence: 0.88036793

00:51:02.386 --> 00:51:03.960 other things in the system.

NOTE Confidence: 0.88036793

00:51:03.960 --> 00:51:07.138 And whenever this video finishes in coding,

NOTE Confidence: 0.88036793

00:51:07.140 --> 00:51:08.910 I'm going to get a notification

NOTE Confidence: 0.88036793

00:51:08.910 --> 00:51:11.102 here that says such and such video

NOTE Confidence: 0.88036793

00:51:11.102 --> 00:51:13.010 is finished encoding and talk more

NOTE Confidence: 0.88036793

00:51:13.010 --> 00:51:14.948 about notifications a little bit.

NOTE Confidence: 0.88036793

00:51:14.950 --> 00:51:15.309 Umm.

NOTE Confidence: 0.88036793

00:51:15.309 --> 00:51:17.463 I could upload a custom thumbnail
NOTE Confidence: 0.88036793

00:51:17.463 --> 00:51:19.140 here if I wanted.
NOTE Confidence: 0.88036793

00:51:19.140 --> 00:51:20.970 Just like the previous version
NOTE Confidence: 0.88036793

00:51:20.970 --> 00:51:22.434 of the Media library,
NOTE Confidence: 0.88036793

00:51:22.440 --> 00:51:23.550 I could also select the
NOTE Confidence: 0.88036793

00:51:23.550 --> 00:51:24.438 thumbnail from the video.
NOTE Confidence: 0.88036793

00:51:24.440 --> 00:51:26.156 These aren't going to be available
NOTE Confidence: 0.88036793

00:51:26.156 --> 00:51:27.300 until it finishes encoding,
NOTE Confidence: 0.88036793

00:51:27.300 --> 00:51:29.595 so I can come back and do that later.
NOTE Confidence: 0.88036793

00:51:29.600 --> 00:51:29.889 Importantly,
NOTE Confidence: 0.88036793

00:51:29.889 --> 00:51:31.623 you're going to want to add
NOTE Confidence: 0.88036793

00:51:31.623 --> 00:51:33.457 your alt text for the video on.
NOTE Confidence: 0.88036793

00:51:33.460 --> 00:51:35.168 This really should just.
NOTE Confidence: 0.846802695555556

00:51:37.510 --> 00:51:39.374 Be a brief description of what's in the
NOTE Confidence: 0.846802695555556

00:51:39.374 --> 00:51:40.996 video. It doesn't have to be super long.
NOTE Confidence: 0.856815449230769

00:51:43.310 --> 00:51:45.760 The page name will determine the URL

NOTE Confidence: 0.856815449230769

00:51:45.760 --> 00:51:48.098 that this video is made available.

NOTE Confidence: 0.856815449230769

00:51:48.100 --> 00:51:49.844 If somebody finishes it,

NOTE Confidence: 0.856815449230769

00:51:49.844 --> 00:51:53.591 access it directly and it looks like my

NOTE Confidence: 0.856815449230769

00:51:53.591 --> 00:51:56.206 media library objects finishing coding.

NOTE Confidence: 0.856815449230769

00:51:56.210 --> 00:51:57.920 So if I unfortunately have

NOTE Confidence: 0.856815449230769

00:51:57.920 --> 00:51:59.288 to refresh this page,

NOTE Confidence: 0.856815449230769

00:51:59.290 --> 00:52:02.218 it's another thing we're working on.

NOTE Confidence: 0.856815449230769

00:52:02.220 --> 00:52:04.380 And now we'll see a thumbnail.

NOTE Confidence: 0.856815449230769

00:52:04.380 --> 00:52:05.360 I'll see my transcript.

NOTE Confidence: 0.856815449230769

00:52:05.360 --> 00:52:07.260 This is just me recording my screens.

NOTE Confidence: 0.856815449230769

00:52:07.260 --> 00:52:09.990 There's no.

NOTE Confidence: 0.856815449230769

00:52:09.990 --> 00:52:12.320 No dialogue here to record,

NOTE Confidence: 0.856815449230769

00:52:12.320 --> 00:52:14.474 but you will notice that one

NOTE Confidence: 0.856815449230769

00:52:14.474 --> 00:52:16.391 behavior change you've made here

NOTE Confidence: 0.856815449230769

00:52:16.391 --> 00:52:18.471 is we've always requested that

NOTE Confidence: 0.856815449230769

00:52:18.471 --> 00:52:20.546 people approve the transcript before
NOTE Confidence: 0.856815449230769

00:52:20.546 --> 00:52:22.580 it ever displayed on the site.
NOTE Confidence: 0.856815449230769

00:52:22.580 --> 00:52:25.300 We're not doing that anymore.
NOTE Confidence: 0.856815449230769

00:52:25.300 --> 00:52:25.854 I mean,
NOTE Confidence: 0.856815449230769

00:52:25.854 --> 00:52:27.793 the negative side of this is you
NOTE Confidence: 0.856815449230769

00:52:27.793 --> 00:52:29.408 could have a transcript that's
NOTE Confidence: 0.856815449230769

00:52:29.408 --> 00:52:31.729 not accurate up here on this video
NOTE Confidence: 0.856815449230769

00:52:31.729 --> 00:52:33.787 if you haven't reviewed it and
NOTE Confidence: 0.856815449230769

00:52:33.787 --> 00:52:36.311 made corrections for typos or or
NOTE Confidence: 0.856815449230769

00:52:36.311 --> 00:52:38.796 whatever the automated tool could
NOTE Confidence: 0.856815449230769

00:52:38.796 --> 00:52:41.119 not understand from the video.
NOTE Confidence: 0.856815449230769

00:52:41.120 --> 00:52:42.830 But even if there are errors,
NOTE Confidence: 0.856815449230769

00:52:42.830 --> 00:52:44.982 it's going to be better to have a
NOTE Confidence: 0.856815449230769

00:52:44.982 --> 00:52:47.224 transcript with that's not 100% correct,
NOTE Confidence: 0.856815449230769

00:52:47.224 --> 00:52:49.354 then no transcript at all.
NOTE Confidence: 0.856815449230769

00:52:49.360 --> 00:52:51.148 So these transcripts should

NOTE Confidence: 0.856815449230769
00:52:51.148 --> 00:52:52.936 start appearing by default.
NOTE Confidence: 0.856815449230769
00:52:52.940 --> 00:52:54.914 You know if you haven't done anything
NOTE Confidence: 0.856815449230769
00:52:54.914 --> 00:52:57.358 to them if I do start making that it.
NOTE Confidence: 0.856815449230769
00:52:57.360 --> 00:52:59.760 I'm going to have to click approve for
NOTE Confidence: 0.856815449230769
00:52:59.760 --> 00:53:01.699 public access to save those changes.
NOTE Confidence: 0.7510729625
00:53:03.770 --> 00:53:07.005 Um. OK, here is our
NOTE Confidence: 0.7510729625
00:53:07.005 --> 00:53:08.946 thumbnail selection tool.
NOTE Confidence: 0.7510729625
00:53:08.950 --> 00:53:10.606 It's not the most dynamic video,
NOTE Confidence: 0.7510729625
00:53:10.610 --> 00:53:11.850 so they're not very interesting,
NOTE Confidence: 0.7510729625
00:53:11.850 --> 00:53:14.178 but you will see snapshots from
NOTE Confidence: 0.7510729625
00:53:14.178 --> 00:53:16.250 various points in the video.
NOTE Confidence: 0.7510729625
00:53:16.250 --> 00:53:17.580 I talked about the importance
NOTE Confidence: 0.7510729625
00:53:17.580 --> 00:53:18.644 of adding all text.
NOTE Confidence: 0.7510729625
00:53:18.650 --> 00:53:20.220 I can add credits here.
NOTE Confidence: 0.543681835
00:53:25.190 --> 00:53:28.805 Aye or this video reuse.
NOTE Confidence: 0.543681835

00:53:28.805 --> 00:53:31.415 Right now, the default is that
NOTE Confidence: 0.543681835

00:53:31.415 --> 00:53:34.180 only I may use this video.
NOTE Confidence: 0.543681835

00:53:34.180 --> 00:53:35.580 But please, no, I think we're going
NOTE Confidence: 0.543681835

00:53:35.580 --> 00:53:36.815 to change this because our concern
NOTE Confidence: 0.543681835

00:53:36.815 --> 00:53:38.445 is that we're going to have a lot
NOTE Confidence: 0.543681835

00:53:38.445 --> 00:53:39.717 of videos that are not shareable
NOTE Confidence: 0.543681835

00:53:39.717 --> 00:53:41.194 when they really don't have,
NOTE Confidence: 0.543681835

00:53:41.194 --> 00:53:43.696 they don't have to be private.
NOTE Confidence: 0.543681835

00:53:43.700 --> 00:53:45.646 So just know if you are uploading
NOTE Confidence: 0.543681835

00:53:45.646 --> 00:53:47.493 a video that you don't want
NOTE Confidence: 0.543681835

00:53:47.493 --> 00:53:49.389 anyone else using on their site,
NOTE Confidence: 0.543681835

00:53:49.390 --> 00:53:50.680 make sure this says none.
NOTE Confidence: 0.543681835

00:53:50.680 --> 00:53:52.864 Only I may use.
NOTE Confidence: 0.543681835

00:53:52.864 --> 00:53:53.410 Otherwise,
NOTE Confidence: 0.543681835

00:53:53.410 --> 00:53:55.055 it's going to become available for other
NOTE Confidence: 0.543681835

00:53:55.055 --> 00:53:56.747 people to search and find in the system,

NOTE Confidence: 0.543681835

00:53:56.750 --> 00:53:58.460 which normally is going to be a good thing.

NOTE Confidence: 0.543681835

00:53:58.460 --> 00:54:00.188 But in the one out of 10 or one

NOTE Confidence: 0.543681835

00:54:00.188 --> 00:54:01.785 out of 20 times you're uploading

NOTE Confidence: 0.543681835

00:54:01.785 --> 00:54:03.982 a video that you may want to make

NOTE Confidence: 0.543681835

00:54:03.982 --> 00:54:05.566 sure there's only used on some

NOTE Confidence: 0.543681835

00:54:05.566 --> 00:54:06.990 very specific page of your site.

NOTE Confidence: 0.543681835

00:54:06.990 --> 00:54:10.520 Maybe it's behind security. Umm.

NOTE Confidence: 0.543681835

00:54:10.520 --> 00:54:12.634 Make sure it's set to name only.

NOTE Confidence: 0.543681835

00:54:12.640 --> 00:54:14.131 I might use.

NOTE Confidence: 0.543681835

00:54:14.131 --> 00:54:16.581 Speaking of security if if

NOTE Confidence: 0.543681835

00:54:16.581 --> 00:54:18.886 it's a very secure video,

NOTE Confidence: 0.543681835

00:54:18.890 --> 00:54:21.595 make sure you click requires

NOTE Confidence: 0.543681835

00:54:21.595 --> 00:54:23.218 yuccas login here.

NOTE Confidence: 0.543681835

00:54:23.220 --> 00:54:26.643 Even if the listing or the player

NOTE Confidence: 0.543681835

00:54:26.643 --> 00:54:29.534 that the video appears in on

NOTE Confidence: 0.543681835

00:54:29.534 --> 00:54:32.000 your site is secured by CAS.
NOTE Confidence: 0.543681835

00:54:32.000 --> 00:54:34.660 For every media item in the system,
NOTE Confidence: 0.543681835

00:54:34.660 --> 00:54:37.300 there is a dedicated page for
NOTE Confidence: 0.543681835

00:54:37.300 --> 00:54:39.230 that video only and checking
NOTE Confidence: 0.543681835

00:54:39.230 --> 00:54:41.060 this option will make sure that.
NOTE Confidence: 0.543681835

00:54:41.060 --> 00:54:42.315 That video requires people log
NOTE Confidence: 0.543681835

00:54:42.315 --> 00:54:44.159 in with CAS in order to view it.
NOTE Confidence: 0.881421985

00:54:47.300 --> 00:54:49.020 Administrators. This will allow you
NOTE Confidence: 0.881421985

00:54:49.020 --> 00:54:51.497 to add other people to grant other
NOTE Confidence: 0.881421985

00:54:51.497 --> 00:54:53.585 people access to manage this media.
NOTE Confidence: 0.888131326470588

00:54:55.610 --> 00:54:57.580 So if you are frequently
NOTE Confidence: 0.888131326470588

00:54:57.580 --> 00:54:59.550 collaborating with somebody else in
NOTE Confidence: 0.888131326470588

00:54:59.617 --> 00:55:01.850 your office on this kind of thing,
NOTE Confidence: 0.888131326470588

00:55:01.850 --> 00:55:03.560 you're probably going to want to
NOTE Confidence: 0.888131326470588

00:55:03.560 --> 00:55:05.152 add them as administrator so they
NOTE Confidence: 0.888131326470588

00:55:05.152 --> 00:55:06.760 can go in and make changes to the

NOTE Confidence: 0.888131326470588
00:55:06.815 --> 00:55:08.375 description and or the title or
NOTE Confidence: 0.888131326470588
00:55:08.375 --> 00:55:11.570 the credits that they have to.
NOTE Confidence: 0.888131326470588
00:55:11.570 --> 00:55:14.738 We will give you a little preview of
NOTE Confidence: 0.888131326470588
00:55:14.738 --> 00:55:18.528 the view statistics for these videos here.
NOTE Confidence: 0.888131326470588
00:55:18.530 --> 00:55:20.906 Umm, since they just created it,
NOTE Confidence: 0.888131326470588
00:55:20.910 --> 00:55:22.474 there's no data here.
NOTE Confidence: 0.888131326470588
00:55:22.474 --> 00:55:25.287 But that will populate as time goes
NOTE Confidence: 0.888131326470588
00:55:25.287 --> 00:55:27.609 on and people watch this video.
NOTE Confidence: 0.888131326470588
00:55:27.610 --> 00:55:29.056 Although I don't think anyone's ever
NOTE Confidence: 0.888131326470588
00:55:29.056 --> 00:55:30.799 going to watch this particular video.
NOTE Confidence: 0.888131326470588
00:55:30.800 --> 00:55:32.725 And we'll also tell you where it's
NOTE Confidence: 0.888131326470588
00:55:32.725 --> 00:55:35.169 used in the system or on the websites.
NOTE Confidence: 0.762945998
00:55:38.860 --> 00:55:40.150 Elvis, I'm conscious of time.
NOTE Confidence: 0.762945998
00:55:40.150 --> 00:55:41.540 We've got about four minutes.
NOTE Confidence: 0.762945998
00:55:41.540 --> 00:55:42.554 I think there's a couple of
NOTE Confidence: 0.762945998

00:55:42.554 --> 00:55:43.539 other things we should go over.
NOTE Confidence: 0.762945998

00:55:43.540 --> 00:55:46.531 Can you review the items in
NOTE Confidence: 0.762945998

00:55:46.531 --> 00:55:48.016 the admin that you wanted
NOTE Confidence: 0.762945998

00:55:48.016 --> 00:55:49.860 people to know about quickly?
NOTE Confidence: 0.726686632

00:55:51.790 --> 00:55:53.100 The important things to note,
NOTE Confidence: 0.726686632

00:55:53.100 --> 00:55:54.724 you generally won't be editing in here,
NOTE Confidence: 0.726686632

00:55:54.730 --> 00:55:57.766 but a bunch of you know about this already.
NOTE Confidence: 0.726686632

00:55:57.770 --> 00:56:00.786 But we have the short URL generating tool.
NOTE Confidence: 0.726686632

00:56:00.790 --> 00:56:02.708 This is really useful if you're sending
NOTE Confidence: 0.726686632

00:56:02.708 --> 00:56:04.853 out a link in an e-mail or posting
NOTE Confidence: 0.726686632

00:56:04.853 --> 00:56:06.999 it on social media and you want a
NOTE Confidence: 0.726686632

00:56:06.999 --> 00:56:08.643 URL that's going to remain static,
NOTE Confidence: 0.726686632

00:56:08.650 --> 00:56:09.634 we can create these.
NOTE Confidence: 0.726686632

00:56:09.634 --> 00:56:11.110 As long as it doesn't conflict
NOTE Confidence: 0.726686632

00:56:11.167 --> 00:56:12.567 with some other existing URL.
NOTE Confidence: 0.726686632

00:56:12.570 --> 00:56:14.208 We can create these for you.

NOTE Confidence: 0.726686632

00:56:14.210 --> 00:56:15.644 We can change the target of

NOTE Confidence: 0.726686632

00:56:15.644 --> 00:56:17.389 it at some time if we had to,

NOTE Confidence: 0.726686632

00:56:17.390 --> 00:56:21.270 so you could send out an e-mail with a link.

NOTE Confidence: 0.726686632

00:56:21.270 --> 00:56:22.782 And you maybe you just realize

NOTE Confidence: 0.726686632

00:56:22.782 --> 00:56:24.689 it needs to go somewhere else.

NOTE Confidence: 0.726686632

00:56:24.690 --> 00:56:26.290 We can just update the target of the

NOTE Confidence: 0.726686632

00:56:26.290 --> 00:56:28.135 link and you don't have to worry about

NOTE Confidence: 0.726686632

00:56:28.135 --> 00:56:29.598 sending an update with a new link.

NOTE Confidence: 0.726686632

00:56:29.600 --> 00:56:32.270 It's also really useful for

NOTE Confidence: 0.726686632

00:56:32.270 --> 00:56:34.990 pointing pointing to a document.

NOTE Confidence: 0.726686632

00:56:34.990 --> 00:56:36.494 Or if you have to add a link

NOTE Confidence: 0.726686632

00:56:36.494 --> 00:56:37.680 in a PDF document,

NOTE Confidence: 0.726686632

00:56:37.680 --> 00:56:39.156 you're probably going to want it

NOTE Confidence: 0.726686632

00:56:39.156 --> 00:56:41.129 to be one of these short URLs.

NOTE Confidence: 0.726686632

00:56:41.130 --> 00:56:43.050 It's a really important link that

NOTE Confidence: 0.726686632

00:56:43.050 --> 00:56:44.975 might change targets so you don't
NOTE Confidence: 0.726686632

00:56:44.975 --> 00:56:46.727 have to then update your PDF
NOTE Confidence: 0.726686632

00:56:46.727 --> 00:56:48.440 document just to update one link.
NOTE Confidence: 0.726686632

00:56:48.440 --> 00:56:50.328 Umm, so that's an option you have available.
NOTE Confidence: 0.726686632

00:56:50.330 --> 00:56:51.908 If you're interested in short URLs,
NOTE Confidence: 0.726686632

00:56:51.910 --> 00:56:53.359 you know why I send out editor.
NOTE Confidence: 0.886131315555556

00:56:56.430 --> 00:57:00.224 We have an integration with the Yale
NOTE Confidence: 0.886131315555556

00:57:00.224 --> 00:57:04.398 Identity Service so that we can.
NOTE Confidence: 0.886131315555556

00:57:04.400 --> 00:57:06.536 Add people who don't normally get
NOTE Confidence: 0.886131315555556

00:57:06.536 --> 00:57:08.599 imported into the system if they want.
NOTE Confidence: 0.886131315555556

00:57:08.599 --> 00:57:09.877 If they we want a profiling
NOTE Confidence: 0.886131315555556

00:57:09.877 --> 00:57:10.900 for them to display.
NOTE Confidence: 0.886131315555556

00:57:10.900 --> 00:57:13.288 In this scenario it's primarily applies
NOTE Confidence: 0.886131315555556

00:57:13.288 --> 00:57:14.880 to students student information.
NOTE Confidence: 0.886131315555556

00:57:14.880 --> 00:57:16.280 We're not very good health.
NOTE Confidence: 0.886131315555556

00:57:16.280 --> 00:57:17.864 If a student wants to get their profile

NOTE Confidence: 0.886131315555556
00:57:17.864 --> 00:57:19.698 on the site or we the department is
NOTE Confidence: 0.886131315555556
00:57:19.698 --> 00:57:20.922 interested in getting the student
NOTE Confidence: 0.886131315555556
00:57:20.922 --> 00:57:22.398 profile on the site just caught,
NOTE Confidence: 0.886131315555556
00:57:22.400 --> 00:57:24.254 again contact us with a list of that ID's.
NOTE Confidence: 0.886131315555556
00:57:24.260 --> 00:57:26.436 We'll get the people out in the system
NOTE Confidence: 0.886131315555556
00:57:26.436 --> 00:57:28.705 and you can manage them on the site.
NOTE Confidence: 0.886131315555556
00:57:28.710 --> 00:57:28.900 And.
NOTE Confidence: 0.851721578
00:57:30.470 --> 00:57:32.130 Some people have external profiles.
NOTE Confidence: 0.851721578
00:57:32.130 --> 00:57:33.618 You have external profiles
NOTE Confidence: 0.851721578
00:57:33.618 --> 00:57:35.478 that we've created for you,
NOTE Confidence: 0.851721578
00:57:35.480 --> 00:57:40.256 and those are tied to an e-mail address.
NOTE Confidence: 0.851721578
00:57:40.260 --> 00:57:41.640 We've not tested this yet,
NOTE Confidence: 0.851721578
00:57:41.640 --> 00:57:43.926 but they should be able to log into the
NOTE Confidence: 0.851721578
00:57:43.926 --> 00:57:46.120 system and edit their profile themselves.
NOTE Confidence: 0.851721578
00:57:46.120 --> 00:57:47.312 And if they can't,
NOTE Confidence: 0.851721578

00:57:47.312 --> 00:57:48.504 that's something that will
NOTE Confidence: 0.851721578

00:57:48.504 --> 00:57:49.688 come online pretty soon.
NOTE Confidence: 0.851721578

00:57:49.688 --> 00:57:51.746 So right now in the previous system
NOTE Confidence: 0.851721578

00:57:51.746 --> 00:57:53.679 you had to ask us to make edits,
NOTE Confidence: 0.851721578

00:57:53.680 --> 00:57:54.905 but they'll be able to
NOTE Confidence: 0.851721578

00:57:54.905 --> 00:57:55.640 manage those themselves.
NOTE Confidence: 0.721418452

00:57:58.970 --> 00:58:00.620 All right. And that's that.
NOTE Confidence: 0.721418452

00:58:00.620 --> 00:58:02.531 I just quickly need to talk about
NOTE Confidence: 0.721418452

00:58:02.531 --> 00:58:04.160 notifications because it's a pretty big
NOTE Confidence: 0.721418452

00:58:04.160 --> 00:58:05.678 aspect that we haven't discussed yet.
NOTE Confidence: 0.721418452

00:58:05.680 --> 00:58:08.298 But you might notice you haven't received
NOTE Confidence: 0.721418452

00:58:08.298 --> 00:58:10.799 any emails from the system once yet.
NOTE Confidence: 0.721418452

00:58:10.800 --> 00:58:12.910 That's a feature we're planning
NOTE Confidence: 0.721418452

00:58:12.910 --> 00:58:15.020 to turn on for tomorrow,
NOTE Confidence: 0.721418452

00:58:15.020 --> 00:58:16.556 but notifications are a lot different.
NOTE Confidence: 0.721418452

00:58:16.560 --> 00:58:18.576 You're not going to get separate

NOTE Confidence: 0.721418452

00:58:18.576 --> 00:58:20.695 emails for events versus new people

NOTE Confidence: 0.721418452

00:58:20.695 --> 00:58:22.465 appearing in your organization versus

NOTE Confidence: 0.721418452

00:58:22.465 --> 00:58:24.950 if you have publications to review,

NOTE Confidence: 0.721418452

00:58:24.950 --> 00:58:26.380 everybody's only going to get

NOTE Confidence: 0.721418452

00:58:26.380 --> 00:58:28.155 one e-mail a day that's going

NOTE Confidence: 0.721418452

00:58:28.155 --> 00:58:29.865 to list all the relevant items.

NOTE Confidence: 0.721418452

00:58:29.870 --> 00:58:31.347 That you might want to look at.

NOTE Confidence: 0.721418452

00:58:31.350 --> 00:58:33.432 It's actually going to be very

NOTE Confidence: 0.721418452

00:58:33.432 --> 00:58:35.551 similar to what appears on this

NOTE Confidence: 0.721418452

00:58:35.551 --> 00:58:36.879 dashboard to an extent.

NOTE Confidence: 0.721418452

00:58:36.880 --> 00:58:39.288 It'll be a nice digest of things

NOTE Confidence: 0.721418452

00:58:39.288 --> 00:58:41.655 that have changed in the system that

NOTE Confidence: 0.721418452

00:58:41.655 --> 00:58:44.019 you might want to review or that

NOTE Confidence: 0.721418452

00:58:44.019 --> 00:58:46.377 you might be interested in editing.

NOTE Confidence: 0.721418452

00:58:46.380 --> 00:58:48.054 And those emails will go out

NOTE Confidence: 0.721418452

00:58:48.054 --> 00:58:49.170 around noon every day.
NOTE Confidence: 0.8180101111111111

00:58:49.400 --> 00:58:50.908 Importantly, tomorrow being the
NOTE Confidence: 0.8180101111111111

00:58:50.908 --> 00:58:52.793 first e-mail that goes out,
NOTE Confidence: 0.8180101111111111

00:58:52.800 --> 00:58:54.720 there's about 4500 faculty that are
NOTE Confidence: 0.8180101111111111

00:58:54.720 --> 00:58:57.020 going to get emails to let them
NOTE Confidence: 0.8180101111111111

00:58:57.020 --> 00:58:58.620 know that they have publications
NOTE Confidence: 0.8180101111111111

00:58:58.620 --> 00:59:00.541 to approve and they're pending
NOTE Confidence: 0.8180101111111111

00:59:00.541 --> 00:59:02.576 publications queue on their profile.
NOTE Confidence: 0.8180101111111111

00:59:02.580 --> 00:59:06.700 So if you get feedback from your faculty.
NOTE Confidence: 0.8180101111111111

00:59:06.700 --> 00:59:08.510 That that there's something wrong.
NOTE Confidence: 0.8180101111111111

00:59:08.510 --> 00:59:10.778 Feel free to.
NOTE Confidence: 0.8180101111111111

00:59:10.780 --> 00:59:13.426 Link them to wisdom dot editor or let us
NOTE Confidence: 0.8180101111111111

00:59:13.426 --> 00:59:15.890 know and we can help fix it for them.
NOTE Confidence: 0.8180101111111111

00:59:15.890 --> 00:59:17.840 We're expecting a lot of feedback
NOTE Confidence: 0.8180101111111111

00:59:17.840 --> 00:59:19.639 tomorrow when these first turn on.
NOTE Confidence: 0.830586073

00:59:23.270 --> 00:59:24.660 One other thing to cover

NOTE Confidence: 0.830586073

00:59:24.660 --> 00:59:26.050 with you all is newsletters.

NOTE Confidence: 0.830586073

00:59:26.050 --> 00:59:27.770 We're not going to dive into that right

NOTE Confidence: 0.830586073

00:59:27.770 --> 00:59:32.778 now because we're out of time, but we are.

NOTE Confidence: 0.830586073

00:59:32.780 --> 00:59:36.189 In a in a next year release,

NOTE Confidence: 0.830586073

00:59:36.190 --> 00:59:37.874 but early next year,

NOTE Confidence: 0.830586073

00:59:37.874 --> 00:59:39.979 we're working on building out

NOTE Confidence: 0.830586073

00:59:39.979 --> 00:59:41.847 newsletter capabilities so that

NOTE Confidence: 0.830586073

00:59:41.847 --> 00:59:44.583 you'll be able to create newsletters

NOTE Confidence: 0.830586073

00:59:44.583 --> 00:59:46.549 directly from this system using

NOTE Confidence: 0.830586073

00:59:46.549 --> 00:59:49.159 your events and your news and other

NOTE Confidence: 0.830586073

00:59:49.159 --> 00:59:51.853 kind of static content and media

NOTE Confidence: 0.830586073

00:59:51.853 --> 00:59:54.115 that will essentially output a

NOTE Confidence: 0.830586073

00:59:54.115 --> 00:59:56.425 finalized newsletter that you can copy

NOTE Confidence: 0.830586073

00:59:56.425 --> 00:59:58.690 directly into your message to send.

NOTE Confidence: 0.830586073

00:59:58.690 --> 01:00:01.138 Umm, so you'll be able to create those

NOTE Confidence: 0.830586073

01:00:01.138 --> 01:00:02.760 newsletters from data and Beatrix.
NOTE Confidence: 0.830586073

01:00:02.760 --> 01:00:06.184 And then use your message to send those.
NOTE Confidence: 0.830586073

01:00:06.190 --> 01:00:07.410 Someone asked about pronouns.
NOTE Confidence: 0.830586073

01:00:07.410 --> 01:00:09.240 That's also top of the list.
NOTE Confidence: 0.830586073

01:00:09.240 --> 01:00:13.150 That should be done by the end of the year.
NOTE Confidence: 0.830586073

01:00:13.150 --> 01:00:15.958 Someone added asked about adding hybrid
NOTE Confidence: 0.830586073

01:00:15.958 --> 01:00:17.854 events, hybrid locations for events.
NOTE Confidence: 0.830586073

01:00:17.854 --> 01:00:19.634 That's a great suggestion and
NOTE Confidence: 0.830586073

01:00:19.634 --> 01:00:21.630 we will enable that.
NOTE Confidence: 0.830586073

01:00:21.630 --> 01:00:22.910 Should be easy to do.
NOTE Confidence: 0.705169935

01:00:23.000 --> 01:00:24.608 It's a binary selection right now,
NOTE Confidence: 0.705169935

01:00:24.610 --> 01:00:26.423 but we're going to fix that so
NOTE Confidence: 0.705169935

01:00:26.423 --> 01:00:28.666 you could have both a zoom or
NOTE Confidence: 0.705169935

01:00:28.666 --> 01:00:31.018 whatever URL and a physical location
NOTE Confidence: 0.768227955

01:00:31.950 --> 01:00:35.236 Liz just posted in the chat list
NOTE Confidence: 0.768227955

01:00:35.236 --> 01:00:37.066 of events of upcoming events.

NOTE Confidence: 0.768227955

01:00:37.070 --> 01:00:39.310 We're going to do deeper dives into

NOTE Confidence: 0.768227955

01:00:39.310 --> 01:00:41.448 portions of the system later this month

NOTE Confidence: 0.768227955

01:00:41.448 --> 01:00:43.374 and next month, so if you've got.

NOTE Confidence: 0.768227955

01:00:43.374 --> 01:00:44.558 Additional things you'd like

NOTE Confidence: 0.768227955

01:00:44.558 --> 01:00:45.889 to review or questions,

NOTE Confidence: 0.768227955

01:00:45.890 --> 01:00:47.248 feel free to join one of those.

NOTE Confidence: 0.768227955

01:00:47.250 --> 01:00:48.156 We also can just stay on

NOTE Confidence: 0.768227955

01:00:48.156 --> 01:00:49.110 for a few more minutes.

NOTE Confidence: 0.768227955

01:00:49.110 --> 01:00:50.465 If anyone has any questions

NOTE Confidence: 0.768227955

01:00:50.465 --> 01:00:52.050 that you want to ask us,

NOTE Confidence: 0.768227955

01:00:52.050 --> 01:00:53.838 we're happy to go over those.

NOTE Confidence: 0.936379892

01:00:55.050 --> 01:00:56.558 If you have to leave, thanks so

NOTE Confidence: 0.936379892

01:00:56.558 --> 01:00:58.020 much for attending. Thank you.

NOTE Confidence: 0.81848276

01:01:05.790 --> 01:01:06.400 Anyone.

NOTE Confidence: 0.887371515

01:01:09.970 --> 01:01:12.318 OK, great. If you run into any questions,

NOTE Confidence: 0.887371515

01:01:12.320 --> 01:01:14.570 feel free to use the report of bug button

NOTE Confidence: 0.887371515

01:01:14.570 --> 01:01:16.532 that you'll see on the right of every page,

NOTE Confidence: 0.887371515

01:01:16.540 --> 01:01:19.711 or shoot us an e-mail at wisn.editor@yale.edu

NOTE Confidence: 0.887371515

01:01:19.711 --> 01:01:22.360 and we'll get back to you. Thanks everyone.

NOTE Confidence: 0.900123166666667

01:01:23.120 --> 01:01:23.900 Thank you everybody.
