WEBVTT

NOTE Confidence: 0.838394489333333

00:00:07.350 --> 00:00:10.598 And further. Some of the rest of

NOTE Confidence: 0.838394489333333

00:00:10.598 --> 00:00:14.059 our team are on the on the call.

NOTE Confidence: 0.838394489333333

00:00:14.060 --> 00:00:17.256 This session is to review kind of

NOTE Confidence: 0.838394489333333

00:00:17.256 --> 00:00:19.560 a general overview of Beatrix,

NOTE Confidence: 0.838394489333333

00:00:19.560 --> 00:00:21.460 which is the relaunched system

NOTE Confidence: 0.838394489333333

00:00:21.460 --> 00:00:23.360 profile system at the School

NOTE Confidence: 0.838394489333333

00:00:23.427 --> 00:00:25.359 of Medicine contains profiles,

NOTE Confidence: 0.838394489333333

00:00:25.360 --> 00:00:28.192 organizations, news, events,

NOTE Confidence: 0.838394489333333

00:00:28.192 --> 00:00:32.220 clinical trials, media.

NOTE Confidence: 0.838394489333333

00:00:32.220 --> 00:00:35.420 We have lots of plans to continue expanding

NOTE Confidence: 0.838394489333333

00:00:35.420 --> 00:00:37.540 its functionality over the next year.

NOTE Confidence: 0.838394489333333

00:00:37.540 --> 00:00:40.501 In the new Year we're going to begin sharing

NOTE Confidence: 0.838394489333333

00:00:40.501 --> 00:00:43.264 out a road map for product development on it,

NOTE Confidence: 0.838394489333333

00:00:43.264 --> 00:00:46.020 but in the. In the next month,

NOTE Confidence: 0.838394489333333

00:00:46.020 --> 00:00:49.073 we're going to be focusing on minor

NOTE Confidence: 0.838394489333333

00:00:49.073 --> 00:00:51.964 features and any kind of bugs that

NOTE Confidence: 0.838394489333333

00:00:51.964 --> 00:00:54.066 I people might find in the system.

NOTE Confidence: 0.838394489333333

00:00:54.070 --> 00:00:55.820 If you do encounter a bug or

NOTE Confidence: 0.838394489333333

00:00:55.820 --> 00:00:57.290 a question in the system,

NOTE Confidence: 0.838394489333333

00:00:57.290 --> 00:00:59.089 if you can just use the report

NOTE Confidence: 0.838394489333333

00:00:59.089 --> 00:01:00.951 a bug button on whatever page

NOTE Confidence: 0.838394489333333

00:01:00.951 --> 00:01:02.319 you encounter that bug,

NOTE Confidence: 0.838394489333333

00:01:02.320 --> 00:01:04.352 that will submit a ticket to our team

NOTE Confidence: 0.838394489333333

00:01:04.352 --> 00:01:07.770 and then they'll get back to you anyway.

NOTE Confidence: 0.838394489333333

00:01:07.770 --> 00:01:09.710 Feel free to ask questions,

NOTE Confidence: 0.838394489333333

00:01:09.710 --> 00:01:11.670 unmute yourself, ask questions,

NOTE Confidence: 0.838394489333333

00:01:11.670 --> 00:01:13.515 or if you'd rather put it in the chat,

NOTE Confidence: 0.838394489333333

00:01:13.520 --> 00:01:15.240 feel free to put it in the chat.

NOTE Confidence: 0.838394489333333

00:01:15.240 --> 00:01:15.924 And uh,

NOTE Confidence: 0.838394489333333

00:01:15.924 --> 00:01:18.660 Elvis is just going to do a quick

NOTE Confidence: 0.838394489333333

00:01:18.752 --> 00:01:21.158 overview of the system with you

NOTE Confidence: 0.838394489333333

00:01:21.158 --> 00:01:23.770 now and we'll go from there.

NOTE Confidence: 0.889569333333334

00:01:26.480 --> 00:01:27.386 Hey, everybody.

NOTE Confidence: 0.889569333333334

00:01:27.386 --> 00:01:29.198 Thanks for joining today.

NOTE Confidence: 0.889569333333334

00:01:29.200 --> 00:01:32.032 This is our third and final

NOTE Confidence: 0.889569333333334

00:01:32.032 --> 00:01:34.700 introductory session for BH Beatrix,

NOTE Confidence: 0.889569333333334

00:01:34.700 --> 00:01:37.265 which is a replacement system

NOTE Confidence: 0.889569333333334

00:01:37.265 --> 00:01:38.758 for what was previously

NOTE Confidence: 0.889569333333334

00:01:38.758 --> 00:01:40.388 known as the Profile System.

NOTE Confidence: 0.8827591435

00:01:42.920 --> 00:01:45.517 This new tool it honestly the majority

NOTE Confidence: 0.8827591435

00:01:45.517 --> 00:01:48.480 of the system is simply recreating what

NOTE Confidence: 0.8827591435

00:01:48.480 --> 00:01:51.138 was available in the profile system.

NOTE Confidence: 0.8827591435

00:01:51.140 --> 00:01:53.723 However, there are some new features and

NOTE Confidence: 0.8827591435

00:01:53.723 --> 00:01:56.701 I'm going to take a minute to go over a

NOTE Confidence: 0.8827591435

00:01:56.701 --> 00:01:59.497 few of the more prominent new features.

NOTE Confidence: 0.8827591435

00:01:59.500 --> 00:02:02.139 The first of which is this dashboard

NOTE Confidence: 0.8827591435

00:02:02.139 --> 00:02:04.060 that I'm sharing right now.

NOTE Confidence: 0.8827591435

00:02:04.060 --> 00:02:07.889 So previously if you all use the

NOTE Confidence: 0.8827591435

00:02:07.889 --> 00:02:11.257 profile system before in the old tool,

NOTE Confidence: 0.8827591435

00:02:11.260 --> 00:02:12.763 you kind of had to know where you were.

NOTE Confidence: 0.8827591435

00:02:12.770 --> 00:02:15.346 Knowing the base on the task that you

NOTE Confidence: 0.8827591435

00:02:15.346 --> 00:02:17.712 were trying to complete that day or

NOTE Confidence: 0.8827591435

00:02:17.712 --> 00:02:20.368 at that time now we've tried to do

NOTE Confidence: 0.8827591435

00:02:20.368 --> 00:02:23.619 at least to a limited extent for now,

NOTE Confidence: 0.8827591435

00:02:23.620 --> 00:02:25.874 is try to populate this home page

NOTE Confidence: 0.8827591435

00:02:25.874 --> 00:02:28.309 for the system that we call the

NOTE Confidence: 0.8827591435

00:02:28.309 --> 00:02:30.160 dashboard with some calls to action

NOTE Confidence: 0.8827591435

00:02:30.160 --> 00:02:32.388 for tasks that you might be logging

NOTE Confidence: 0.8827591435

00:02:32.388 --> 00:02:34.058 into the system to complete.

NOTE Confidence: 0.8827591435

00:02:34.060 --> 00:02:34.680 For example,

NOTE Confidence: 0.8827591435

00:02:34.680 --> 00:02:37.160 if I have events that are in draft

NOTE Confidence: 0.8827591435

00:02:37.229 --> 00:02:39.539 or news articles that are in draft,

NOTE Confidence: 0.8827591435

00:02:39.540 --> 00:02:41.958 so I haven't published these yet,

NOTE Confidence: 0.8827591435

00:02:41.960 --> 00:02:44.466 they're going to be front and center.

NOTE Confidence: 0.8827591435

00:02:44.470 --> 00:02:47.270 On my dashboard so I have my

NOTE Confidence: 0.8827591435

00:02:47.270 --> 00:02:49.358 incomplete items that I might be

NOTE Confidence: 0.8827591435

00:02:49.358 --> 00:02:51.763 looking to finish right at the top

NOTE Confidence: 0.8827591435

00:02:51.763 --> 00:02:53.665 on this drafts of progress section.

NOTE Confidence: 0.8827591435

00:02:53.670 --> 00:02:57.366 Secondly, we have this needs review section.

NOTE Confidence: 0.8827591435

00:02:57.370 --> 00:03:00.979 You will see this element if generally

NOTE Confidence: 0.8827591435

00:03:00.979 --> 00:03:04.402 if you are either the administrator for

NOTE Confidence: 0.8827591435

00:03:04.402 --> 00:03:08.590 a our organization calendar or news feed,

NOTE Confidence: 0.8827591435

00:03:08.590 --> 00:03:11.488 you'll see the articles and events that

NOTE Confidence: 0.8827591435

00:03:11.488 --> 00:03:14.806 are left for you to approve or reject.

NOTE Confidence: 0.8827591435

00:03:14.810 --> 00:03:16.898 From appearing on your news feed

NOTE Confidence: 0.8827591435

00:03:16.898 --> 00:03:18.900 or calendar on your website.

NOTE Confidence: 0.8827591435

00:03:18.900 --> 00:03:19.401 Additionally,

NOTE Confidence: 0.8827591435

00:03:19.401 --> 00:03:22.908 most of the faculty at the school

NOTE Confidence: 0.8827591435

00:03:22.908 --> 00:03:25.826 will see this section not because

NOTE Confidence: 0.8827591435

00:03:25.826 --> 00:03:27.318 of news or events,

NOTE Confidence: 0.8827591435

00:03:27.320 --> 00:03:30.128 but because of publications that have

NOTE Confidence: 0.8827591435

00:03:30.128 --> 00:03:32.700 been imported for their profile.

NOTE Confidence: 0.8827591435

00:03:32.700 --> 00:03:35.171 That's also another new big feature that

NOTE Confidence: 0.8827591435

00:03:35.171 --> 00:03:38.457 we have is an integration with dimensions,

NOTE Confidence: 0.8827591435

00:03:38.460 --> 00:03:41.436 which is an AI tool used to identify

NOTE Confidence: 0.8827591435

00:03:41.440 --> 00:03:43.710 the publications that are associated

NOTE Confidence: 0.8827591435

00:03:43.710 --> 00:03:45.526 with specific faculty members.

NOTE Confidence: 0.8827591435

00:03:45.530 --> 00:03:45.854 Um,

NOTE Confidence: 0.8827591435

00:03:45.854 --> 00:03:48.446 if you haven't worked with PUB Med before,

NOTE Confidence: 0.8827591435

00:03:48.450 --> 00:03:51.096 it can sometimes be really difficult

NOTE Confidence: 0.8827591435

00:03:51.100 --> 00:03:54.369 to simply get a list of applications

NOTE Confidence: 0.8827591435

00:03:54.369 --> 00:03:57.509 for one specific person, it turns out.

NOTE Confidence: 0.8827591435

00:03:57.509 --> 00:03:59.910 And dimensions is a good job of

NOTE Confidence: 0.8827591435

00:03:59.993 --> 00:04:02.357 sorting through that ambiguity,

NOTE Confidence: 0.8827591435

00:04:02.360 --> 00:04:04.696 so I'll cover that in a little bit.

NOTE Confidence: 0.8827591435

00:04:04.700 --> 00:04:07.409 But for now we're going to look at a

NOTE Confidence: 0.8827591435

00:04:07.409 --> 00:04:10.207 few other of these big new features.

NOTE Confidence: 0.8827591435

00:04:10.210 --> 00:04:10.593 Um,

NOTE Confidence: 0.8827591435

00:04:10.593 --> 00:04:12.891 another new feature that you might

NOTE Confidence: 0.8827591435

00:04:12.891 --> 00:04:15.534 notice here is I've got this little

NOTE Confidence: 0.8827591435

00:04:15.534 --> 00:04:18.460 Bell icon with these this 14 number on.

NOTE Confidence: 0.8827591435

00:04:18.460 --> 00:04:20.535 These are notifications when certain

NOTE Confidence: 0.8827591435

00:04:20.535 --> 00:04:22.610 things happen in the system.

NOTE Confidence: 0.8827591435

00:04:22.610 --> 00:04:25.474 I'm going to be notified about it and

NOTE Confidence: 0.8827591435

00:04:25.474 --> 00:04:29.068 I'll get a list of all those happenings here.

NOTE Confidence: 0.8827591435

00:04:29.070 --> 00:04:30.159 To an extent,

NOTE Confidence: 0.8827591435

00:04:30.159 --> 00:04:32.337 this overlaps with the things that

NOTE Confidence: 0.8827591435

00:04:32.337 --> 00:04:34.350 appear on the dashboard itself.

NOTE Confidence: 0.8827591435

00:04:34.350 --> 00:04:36.762 Like you'll see I have notifications

NOTE Confidence: 0.8827591435

00:04:36.762 --> 00:04:38.910 about pending items for review,

NOTE Confidence: 0.8827591435

00:04:38.910 --> 00:04:40.470 like news articles and events.

NOTE Confidence: 0.8827591435

00:04:40.470 --> 00:04:42.794 But I'm also going to see things

NOTE Confidence: 0.8827591435

00:04:42.794 --> 00:04:44.402 like when I'm events,

NOTE Confidence: 0.8827591435

00:04:44.402 --> 00:04:47.844 like when I'm tagged in an event or

NOTE Confidence: 0.8827591435

00:04:47.844 --> 00:04:50.497 if I'm tagged in a news article.

NOTE Confidence: 0.8827591435

00:04:50.500 --> 00:04:52.690 Those will also.

NOTE Confidence: 0.8827591435

00:04:52.690 --> 00:04:55.160 Or if I've uploaded a video to

NOTE Confidence: 0.8827591435

00:04:55.160 --> 00:04:57.207 the media library and it finished

NOTE Confidence: 0.8827591435

00:04:57.207 --> 00:04:58.449 uploading and encoding,

NOTE Confidence: 0.812754026

00:04:58.450 --> 00:04:59.950 I'll get a notification there. Second,

NOTE Confidence: 0.812754026

00:04:59.950 --> 00:05:02.190 sometimes take more than a few minutes.

NOTE Confidence: 0.812754026

00:05:02.190 --> 00:05:04.742 You might not want to sit staring at

NOTE Confidence: 0.812754026

00:05:04.742 --> 00:05:07.320 that screen until it finishes in coding.

NOTE Confidence: 0.812754026

00:05:07.320 --> 00:05:09.868 So we're trying really to bring to

NOTE Confidence: 0.812754026

00:05:09.868 --> 00:05:12.059 the forefront of the tasks that

NOTE Confidence: 0.812754026

00:05:12.059 --> 00:05:14.453 are relevant to you at that time,

NOTE Confidence: 0.812754026

00:05:14.460 --> 00:05:16.468 instead of forcing you to sort of dig

NOTE Confidence: 0.812754026

00:05:16.468 --> 00:05:18.766 down to the screen in the system where

NOTE Confidence: 0.812754026

00:05:18.766 --> 00:05:20.838 you're trying to make some edits for

NOTE Confidence: 0.812754026

00:05:20.838 --> 00:05:22.924 whatever task you've logged in to complete.

NOTE Confidence: 0.89924728

00:05:24.960 --> 00:05:27.471 OK, I'm going to jump around a little bit

NOTE Confidence: 0.89924728

00:05:27.471 --> 00:05:30.430 more to show some of the other new features

NOTE Confidence: 0.89924728

00:05:30.430 --> 00:05:33.700 that are widespread throughout the system.

NOTE Confidence: 0.89924728

00:05:33.700 --> 00:05:35.632 One big improvement is whenever you

NOTE Confidence: 0.89924728

00:05:35.632 --> 00:05:38.278 see a table of items like this one,

NOTE Confidence: 0.89924728

00:05:38.280 --> 00:05:40.480 where I'm looking at a list of the

NOTE Confidence: 0.89924728

00:05:40.480 --> 00:05:41.918 organizations I have access to.

NOTE Confidence: 0.89924728

00:05:41.920 --> 00:05:44.993 I now have several of ways to

NOTE Confidence: 0.89924728

00:05:44.993 --> 00:05:47.000 filter and sort those,

NOTE Confidence: 0.89924728

00:05:47.000 --> 00:05:48.935 so I could sort by any of these items.

NOTE Confidence: 0.89924728

00:05:48.940 --> 00:05:49.514 By default,

NOTE Confidence: 0.89924728

00:05:49.514 --> 00:05:51.236 it's sorting these orders by name.

NOTE Confidence: 0.89924728

00:05:51.240 --> 00:05:52.770 I could choose to sort

NOTE Confidence: 0.89924728

00:05:52.770 --> 00:05:54.567 them by type instead, or.

NOTE Confidence: 0.89924728

00:05:54.567 --> 00:05:56.268 Um, organization ID.

NOTE Confidence: 0.89924728

00:05:56.268 --> 00:06:00.577 That's really more relevant for our web team

NOTE Confidence: 0.89924728

00:06:00.577 --> 00:06:04.484 or even the parent org or that organization.

NOTE Confidence: 0.89924728

00:06:04.484 --> 00:06:09.713 Also in other lists you might see.

NOTE Confidence: 0.89924728

00:06:09.720 --> 00:06:12.464 And. A little filter icon here in

NOTE Confidence: 0.89924728

00:06:12.464 --> 00:06:14.949 addition to these sorting buttons.

NOTE Confidence: 0.89924728

00:06:14.950 --> 00:06:18.110 This filter icon works very much like Excel.

NOTE Confidence: 0.89924728

00:06:18.110 --> 00:06:20.934 I click on this filter and I can

NOTE Confidence: 0.89924728

00:06:20.934 --> 00:06:23.060 apply some kind of filter based on

NOTE Confidence: 0.89924728

00:06:23.060 --> 00:06:25.129 the column where this icon appeared.

NOTE Confidence: 0.89924728

00:06:25.130 --> 00:06:27.906 So if I wanted to just show in.

NOTE Confidence: 0.89924728

00:06:27.910 --> 00:06:29.370 Sorry, I skipped pretty quickly,

NOTE Confidence: 0.89924728

00:06:29.370 --> 00:06:32.202 but I'm now looking at my list of

NOTE Confidence: 0.89924728

00:06:32.202 --> 00:06:34.646 news articles that I have access to.

NOTE Confidence: 0.89924728

00:06:34.650 --> 00:06:36.589 I can if I just want to,

NOTE Confidence: 0.89924728

00:06:36.590 --> 00:06:39.047 look at the articles that are tagged

NOTE Confidence: 0.89924728

00:06:39.047 --> 00:06:41.937 to the Yale School of Public Health.

NOTE Confidence: 0.89924728

00:06:41.940 --> 00:06:44.208 I can type in the name of the organization

NOTE Confidence: 0.89924728

00:06:44.208 --> 00:06:46.266 and Yale School of Public Health and

NOTE Confidence: 0.89924728

00:06:46.266 --> 00:06:48.241 click apply and then it's only going

NOTE Confidence: 0.89924728

00:06:48.241 --> 00:06:50.363 to show me the articles that I have

NOTE Confidence: 0.89924728

00:06:50.363 --> 00:06:52.834 access to that have been tagged to.

NOTE Confidence: 0.89924728

00:06:52.840 --> 00:06:54.800 We have school public health,

NOTE Confidence: 0.89924728

00:06:54.800 --> 00:06:57.180 so there are some helpful features there.

NOTE Confidence: 0.89924728

00:06:57.180 --> 00:07:01.176 And in addition, very much related.

NOTE Confidence: 0.89924728

00:07:01.180 --> 00:07:02.240 Whenever I'm dealing with

NOTE Confidence: 0.89924728

00:07:02.240 --> 00:07:03.300 any of these tables,

NOTE Confidence: 0.89924728

00:07:03.300 --> 00:07:05.644 in almost every case you're going to see

NOTE Confidence: 0.89924728

00:07:05.644 --> 00:07:08.155 this little link here to download that table.

NOTE Confidence: 0.89924728

00:07:08.160 --> 00:07:10.440 What this will do is it

NOTE Confidence: 0.89924728

00:07:10.440 --> 00:07:12.490 will download a CSV file.

NOTE Confidence: 0.89924728

00:07:12.490 --> 00:07:14.698 Of all the data that's currently

NOTE Confidence: 0.89924728

00:07:14.698 --> 00:07:16.170 shown on this table.

NOTE Confidence: 0.89924728

00:07:16.170 --> 00:07:17.790 So if I click download table,

NOTE Confidence: 0.89924728

00:07:17.790 --> 00:07:20.639 I'll get a CSV file that contains

NOTE Confidence: 0.89924728

00:07:20.639 --> 00:07:22.768 all this information I see here.

NOTE Confidence: 0.89924728

00:07:22.770 --> 00:07:24.888 We do understand that you're probably

NOTE Confidence: 0.89924728

00:07:24.888 --> 00:07:27.289 not going to always see all the

NOTE Confidence: 0.89924728

00:07:27.289 --> 00:07:29.143 fields that you might be interested

NOTE Confidence: 0.89924728

00:07:29.143 --> 00:07:31.130 in in these tables right now,

NOTE Confidence: 0.89924728

00:07:31.130 --> 00:07:32.615 especially for things like people

NOTE Confidence: 0.89924728

00:07:32.615 --> 00:07:34.340 we're not displaying a whole lot.

NOTE Confidence: 0.89924728

00:07:34.340 --> 00:07:36.068 And sorry, there's a lot of test data here.

NOTE Confidence: 0.89924728

00:07:36.070 --> 00:07:36.323 Don't.

NOTE Confidence: 0.89924728

00:07:36.323 --> 00:07:37.588 This is a test environment,

NOTE Confidence: 0.89924728

00:07:37.590 --> 00:07:39.162 so we've got some.

NOTE Confidence: 0.89924728

00:07:39.162 --> 00:07:40.734 Crappy looking data here,

NOTE Confidence: 0.89924728

00:07:40.740 --> 00:07:41.430 but don't worry,

NOTE Confidence: 0.89924728

00:07:41.430 --> 00:07:43.040 this is not in the production system.

NOTE Confidence: 0.89924728

00:07:43.040 --> 00:07:44.376 It's only for testing.

NOTE Confidence: 0.89924728

00:07:44.376 --> 00:07:47.120 But it's very possible that you might be

NOTE Confidence: 0.89924728

00:07:47.120 --> 00:07:49.479 interested in more than a person's name,

NOTE Confidence: 0.89924728

00:07:49.480 --> 00:07:52.200 department, e-mail, and person type.

NOTE Confidence: 0.89924728

00:07:52.200 --> 00:07:54.756 We have lots of other information

NOTE Confidence: 0.89924728

00:07:54.756 --> 00:07:56.034 like phone numbers,

NOTE Confidence: 0.89924728

00:07:56.040 --> 00:07:56.890 mailing addresses,

NOTE Confidence: 0.89924728

00:07:56.890 --> 00:07:59.865 things like that that you very much

NOTE Confidence: 0.89924728

00:07:59.865 --> 00:08:02.204 might be interested in getting a

NOTE Confidence: 0.89924728

00:08:02.204 --> 00:08:04.900 table a sorry to download a table of.

NOTE Confidence: 0.89924728

00:08:04.900 --> 00:08:06.856 We are working on some enhanced

NOTE Confidence: 0.89924728

00:08:06.856 --> 00:08:08.160 reporting functionality that will

NOTE Confidence: 0.89924728

00:08:08.213 --> 00:08:09.815 allow you to eventually do that.

NOTE Confidence: 0.89924728

00:08:09.820 --> 00:08:11.701 Kind of thing.

NOTE Confidence: 0.89924728

00:08:11.701 --> 00:08:12.328 Umm.

NOTE Confidence: 0.882443796666667

00:08:15.770 --> 00:08:20.390 Importantly, this system is now responsive

NOTE Confidence: 0.882443796666667

00:08:20.390 --> 00:08:23.064 if you use the profile system before.

NOTE Confidence: 0.882443796666667

00:08:23.070 --> 00:08:25.167 If you ever try to make an edit in

NOTE Confidence: 0.882443796666667

00:08:25.167 --> 00:08:27.366 the profile system from your phone,

NOTE Confidence: 0.882443796666667

00:08:27.370 --> 00:08:29.200 you probably didn't have very

NOTE Confidence: 0.882443796666667

00:08:29.200 --> 00:08:31.715 good luck because the UI was not

NOTE Confidence: 0.882443796666667

00:08:31.715 --> 00:08:33.850 friendly to use on a mobile device

NOTE Confidence: 0.882443796666667

00:08:33.850 --> 00:08:36.469 or even really tablet sized devices.

NOTE Confidence: 0.882443796666667

00:08:36.470 --> 00:08:38.570 But now, as you can see,

NOTE Confidence: 0.882443796666667

00:08:38.570 --> 00:08:40.574 when I just change the size

NOTE Confidence: 0.882443796666667

00:08:40.574 --> 00:08:42.330 of my browser window here,

NOTE Confidence: 0.882443796666667

00:08:42.330 --> 00:08:43.898 the site will adjust.

NOTE Confidence: 0.882443796666667

00:08:43.898 --> 00:08:46.870 Depending on the width of the screen,

NOTE Confidence: 0.882443796666667

00:08:46.870 --> 00:08:49.838 I'm looking at, Umm, it'll hide the

NOTE Confidence: 0.882443796666667

00:08:49.838 --> 00:08:52.578 navigation behind this little menu button.

NOTE Confidence: 0.882443796666667

00:08:52.580 --> 00:08:54.932 It will resort the data in

NOTE Confidence: 0.882443796666667

00:08:54.932 --> 00:08:57.240 these columns so that it fits.

NOTE Confidence: 0.882443796666667

00:08:57.240 --> 00:08:58.032 And you could,

NOTE Confidence: 0.882443796666667

00:08:58.032 --> 00:09:01.138 if you really had to in a pinch for example,

NOTE Confidence: 0.882443796666667

00:09:01.140 --> 00:09:02.958 make an edit through a profile,

NOTE Confidence: 0.882443796666667

00:09:02.960 --> 00:09:05.720 add somebody to an organization.

NOTE Confidence: 0.882443796666667

00:09:05.720 --> 00:09:07.022 Maybe you don't want to write a

NOTE Confidence: 0.882443796666667

00:09:07.022 --> 00:09:08.138 whole news article on your phone,

NOTE Confidence: 0.882443796666667

00:09:08.140 --> 00:09:09.466 but if you have some kind

NOTE Confidence: 0.882443796666667

00:09:09.466 --> 00:09:10.660 of basic update to make,

NOTE Confidence: 0.882443796666667

00:09:10.660 --> 00:09:13.099 you can certainly do that on your phone now.

NOTE Confidence: 0.882443796666667

00:09:13.100 --> 00:09:13.554 Like if.

NOTE Confidence: 0.882443796666667

00:09:13.554 --> 00:09:14.916 That happened to walk by somebody

NOTE Confidence: 0.882443796666667

00:09:14.916 --> 00:09:16.465 in the hallway and they mentioned

NOTE Confidence: 0.882443796666667

00:09:16.465 --> 00:09:17.775 not fair on the website.

NOTE Confidence: 0.882443796666667

00:09:17.780 --> 00:09:19.292 You could just open up your

NOTE Confidence: 0.882443796666667

00:09:19.292 --> 00:09:21.068 phone and add them to that site.

NOTE Confidence: 0.882443796666667

00:09:21.070 --> 00:09:22.010 Umm.

NOTE Confidence: 0.921999034545455

00:09:24.450 --> 00:09:26.718 OK, I think that's it for

NOTE Confidence: 0.921999034545455

00:09:26.718 --> 00:09:29.090 the really big new features.

NOTE Confidence: 0.921999034545455

00:09:29.090 --> 00:09:31.800 Now I'm going to try to take a really quick

NOTE Confidence: 0.921999034545455

00:09:31.868 --> 00:09:37.686 look at the popular modules of the system.

NOTE Confidence: 0.921999034545455

00:09:37.690 --> 00:09:40.096 Obviously our original and most popular

NOTE Confidence: 0.921999034545455

00:09:40.096 --> 00:09:42.350 module is managing our profiles.

NOTE Confidence: 0.921999034545455

00:09:42.350 --> 00:09:44.888 These are the profiles that populate

NOTE Confidence: 0.921999034545455

00:09:44.888 --> 00:09:47.878 the profiles you see on the School

NOTE Confidence: 0.921999034545455

00:09:47.878 --> 00:09:50.326 of Medicine website and the Yale

NOTE Confidence: 0.921999034545455

00:09:50.326 --> 00:09:54.950 Medicine website they pull data from.

NOTE Confidence: 0.921999034545455

00:09:54.950 --> 00:09:58.310 This module of the tool.

NOTE Confidence: 0.921999034545455

00:09:58.310 --> 00:10:01.686 And I have been using Doctor Grauer as my

NOTE Confidence: 0.921999034545455

00:10:01.686 --> 00:10:04.009 example because this is a very full profile.

NOTE Confidence: 0.921999034545455

00:10:04.010 --> 00:10:05.414 And all these meetings,

NOTE Confidence: 0.921999034545455

00:10:05.414 --> 00:10:08.190 a couple of quick notes about profiles.

NOTE Confidence: 0.921999034545455

00:10:08.190 --> 00:10:10.308 One really important thing is not

NOTE Confidence: 0.921999034545455

00:10:10.308 --> 00:10:12.154 some faculty members are really

NOTE Confidence: 0.921999034545455

00:10:12.154 --> 00:10:14.350 eager to update their own profiles.

NOTE Confidence: 0.921999034545455

00:10:14.350 --> 00:10:15.310 Some of them don't necessarily

NOTE Confidence: 0.921999034545455

00:10:15.310 --> 00:10:16.270 want to deal with it,

NOTE Confidence: 0.921999034545455

00:10:16.270 --> 00:10:19.342 and in those cases they probably want to

NOTE Confidence: 0.921999034545455

00:10:19.342 --> 00:10:22.630 designate a profile editor for their profile.

NOTE Confidence: 0.921999034545455

00:10:22.630 --> 00:10:24.698 I've added myself here.

NOTE Confidence: 0.921999034545455

00:10:24.698 --> 00:10:29.296 You could add any individual user at Yale.

NOTE Confidence: 0.921999034545455

00:10:29.296 --> 00:10:33.784 To be a profile editor for.

NOTE Confidence: 0.921999034545455

00:10:33.790 --> 00:10:36.260 A given profile. The faculty

NOTE Confidence: 0.921999034545455

00:10:36.260 --> 00:10:39.070 members can do this themselves if.

NOTE Confidence: 0.921999034545455

00:10:39.070 --> 00:10:40.870 They can't do that.

NOTE Confidence: 0.921999034545455

00:10:40.870 --> 00:10:43.570 Then you can also just e-mail

NOTE Confidence: 0.921999034545455

00:10:43.666 --> 00:10:45.474 us to ask for permission,

NOTE Confidence: 0.921999034545455

00:10:45.474 --> 00:10:48.729 and we can set that up for you.

NOTE Confidence: 0.921999034545455

00:10:48.730 --> 00:10:50.683 But this is a good way for the fact

NOTE Confidence: 0.921999034545455

00:10:50.683 --> 00:10:52.524 that you may not be inclined to want

NOTE Confidence: 0.921999034545455

00:10:52.524 --> 00:10:54.826 to log in and update their own profile.

NOTE Confidence: 0.921999034545455

00:10:54.830 --> 00:10:57.526 They can designate someone else to do so.

NOTE Confidence: 0.921999034545455

00:10:57.530 --> 00:10:59.156 In addition, just so you know,

NOTE Confidence: 0.921999034545455

00:10:59.160 --> 00:11:00.390 there are generally,

NOTE Confidence: 0.921999034545455

00:11:00.390 --> 00:11:02.850 at least at the department level.

NOTE Confidence: 0.921999034545455

00:11:02.850 --> 00:11:04.566 There's often a communications

NOTE Confidence: 0.921999034545455

00:11:04.566 --> 00:11:06.711 person designated who have access

NOTE Confidence: 0.921999034545455

00:11:06.711 --> 00:11:08.618 to edit all the profiles,

NOTE Confidence: 0.921999034545455

00:11:08.620 --> 00:11:09.620 though they may not be.

NOTE Confidence: 0.921999034545455

00:11:09.620 --> 00:11:10.739 Effectively going through,

NOTE Confidence: 0.921999034545455

00:11:10.739 --> 00:11:12.604 especially for the larger departments,

NOTE Confidence: 0.921999034545455

00:11:12.610 --> 00:11:14.075 and really keeping every single

NOTE Confidence: 0.921999034545455

00:11:14.075 --> 00:11:15.247 profile up to date.

NOTE Confidence: 0.921999034545455

00:11:15.250 --> 00:11:17.616 So even if you have a communications

NOTE Confidence: 0.921999034545455

00:11:17.616 --> 00:11:19.039 officer who's paying attention

NOTE Confidence: 0.921999034545455

00:11:19.039 --> 00:11:20.769 to these kinds of things,

NOTE Confidence: 0.921999034545455

00:11:20.770 --> 00:11:22.968 it's generally good if the faculty member

NOTE Confidence: 0.921999034545455

00:11:22.968 --> 00:11:25.427 is not going to be updating their own

NOTE Confidence: 0.921999034545455

00:11:25.427 --> 00:11:27.990 profile to have a profile editor designated.

NOTE Confidence: 0.921999034545455

00:11:27.990 --> 00:11:28.718 Similarly,

NOTE Confidence: 0.921999034545455

00:11:28.718 --> 00:11:31.630 you can add administrative

NOTE Confidence: 0.921999034545455

00:11:31.630 --> 00:11:34.542 assistance in the system.

NOTE Confidence: 0.921999034545455

00:11:34.550 --> 00:11:37.090 This data won't actually appear

NOTE Confidence: 0.921999034545455

00:11:37.090 --> 00:11:39.671 on the profile anywhere but.

NOTE Confidence: 0.921999034545455

00:11:39.671 --> 00:11:43.999 It will be used on soon for listing

NOTE Confidence: 0.921999034545455

00:11:43.999 --> 00:11:46.314 contact information for faculty,

NOTE Confidence: 0.921999034545455

00:11:46.314 --> 00:11:47.556 and this can be really important,

NOTE Confidence: 0.921999034545455

00:11:47.560 --> 00:11:49.660 especially for faculty or leadership

NOTE Confidence: 0.921999034545455

00:11:49.660 --> 00:11:52.212 positions that might not be checking

NOTE Confidence: 0.921999034545455

00:11:52.212 --> 00:11:54.516 their own e-mail all that often,

NOTE Confidence: 0.921999034545455

00:11:54.520 --> 00:11:55.992 and the best way to get in touch

NOTE Confidence: 0.921999034545455

00:11:55.992 --> 00:11:57.500 with them could be their assistant.

NOTE Confidence: 0.921999034545455

00:11:57.500 --> 00:11:59.110 We want to make sure their assistant

NOTE Confidence: 0.921999034545455

00:11:59.110 --> 00:12:01.013 is here so when we output their

NOTE Confidence: 0.921999034545455

00:12:01.013 --> 00:12:02.458 contact information on the site,

NOTE Confidence: 0.921999034545455

00:12:02.460 --> 00:12:03.818 we can make sure to highlight that,

NOTE Confidence: 0.921999034545455

00:12:03.820 --> 00:12:05.185 hey, this is the assistant

NOTE Confidence: 0.921999034545455

00:12:05.185 --> 00:12:06.277 for this faculty member.

NOTE Confidence: 0.921999034545455

00:12:06.280 --> 00:12:07.445 If you're not having luck

NOTE Confidence: 0.921999034545455

00:12:07.445 --> 00:12:08.144 reaching them directly,

NOTE Confidence: 0.921999034545455

00:12:08.150 --> 00:12:09.725 you might want to contact

NOTE Confidence: 0.921999034545455

00:12:09.725 --> 00:12:10.670 this person instead.

NOTE Confidence: 0.921999034545455

00:12:10.670 --> 00:12:11.187 Um,

NOTE Confidence: 0.921999034545455

00:12:11.187 --> 00:12:11.704 additionally,

NOTE Confidence: 0.921999034545455

00:12:11.704 --> 00:12:14.289 this information is helpful for

NOTE Confidence: 0.921999034545455

00:12:14.289 --> 00:12:16.696 again this reporting tool that

NOTE Confidence: 0.921999034545455

00:12:16.696 --> 00:12:18.646 we're working to expand on.

NOTE Confidence: 0.921999034545455

00:12:18.650 --> 00:12:20.500 This would be really critical

NOTE Confidence: 0.921999034545455

00:12:20.500 --> 00:12:23.137 information to have to be able to

NOTE Confidence: 0.921999034545455

00:12:23.137 --> 00:12:25.279 get the assistance for any faculty

NOTE Confidence: 0.921999034545455

00:12:25.279 --> 00:12:27.609 member who has them via reporting.

NOTE Confidence: 0.921999034545455

00:12:27.610 --> 00:12:31.378 So please do fill out that your assistance

NOTE Confidence: 0.921999034545455

00:12:31.378 --> 00:12:33.830 field for faculty if it's all over.

NOTE Confidence: 0.885803008

00:12:37.660 --> 00:12:40.108 OK, now I'm going to go through a few

NOTE Confidence: 0.885803008

00:12:40.108 --> 00:12:42.560 of the more popular sections here.

NOTE Confidence: 0.885803008

00:12:42.560 --> 00:12:44.990 One important aspect of the profile

NOTE Confidence: 0.885803008

00:12:44.990 --> 00:12:46.649 is suffixes. These will appear.

NOTE Confidence: 0.885803008

00:12:46.649 --> 00:12:48.347 I'm going to go ahead and

NOTE Confidence: 0.885803008

00:12:48.347 --> 00:12:49.878 click preview this profile.

NOTE Confidence: 0.885803008

00:12:49.880 --> 00:12:51.944 It's going to show me a preview of

NOTE Confidence: 0.885803008

00:12:51.944 --> 00:12:53.949 what this profile will actually look

NOTE Confidence: 0.885803008

00:12:53.949 --> 00:12:56.091 like on this little medicine site.

NOTE Confidence: 0.885803008

00:12:56.100 --> 00:12:59.166 Umm, so you can see that on

NOTE Confidence: 0.885803008

00:12:59.166 --> 00:13:01.380 guns and growers profile,

NOTE Confidence: 0.885803008

00:13:01.380 --> 00:13:03.816 he's got the suffix ND appearing here.

NOTE Confidence: 0.885803008

00:13:03.820 --> 00:13:06.220 That's because in his suffixes,

NOTE Confidence: 0.885803008

00:13:06.220 --> 00:13:11.076 in his profile editor, he's got entity here.

NOTE Confidence: 0.885803008

00:13:11.080 --> 00:13:13.360 There are several kinds of suffixes,

NOTE Confidence: 0.885803008

00:13:13.360 --> 00:13:14.848 family suffices or just what you

NOTE Confidence: 0.885803008

00:13:14.848 --> 00:13:16.624 think of junior, senior, etcetera.

NOTE Confidence: 0.885803008

00:13:16.624 --> 00:13:20.208 We have all kinds of options here.

NOTE Confidence: 0.885803008

00:13:20.210 --> 00:13:22.098 National suffixes are certifications

NOTE Confidence: 0.885803008

00:13:22.098 --> 00:13:25.769 and such that you can simply add by

NOTE Confidence: 0.885803008

00:13:25.769 --> 00:13:28.055 selecting them from this drop down.

NOTE Confidence: 0.885803008

00:13:28.060 --> 00:13:30.447 If you don't see the suffix that

NOTE Confidence: 0.885803008

00:13:30.447 --> 00:13:32.659 somebody is looking for in this list,

NOTE Confidence: 0.885803008

00:13:32.660 --> 00:13:35.960 just contact us and we can add to this list.

NOTE Confidence: 0.885803008

00:13:35.960 --> 00:13:36.932 Is a static list.

NOTE Confidence: 0.885803008

00:13:36.932 --> 00:13:38.147 You can't type whatever you

NOTE Confidence: 0.885803008

00:13:38.147 --> 00:13:39.120 want in this field,

NOTE Confidence: 0.885803008

00:13:39.120 --> 00:13:41.777 so we just have to make sure we add it to

NOTE Confidence: 0.885803008

00:13:41.777 --> 00:13:43.996 the database before you can select it.

NOTE Confidence: 0.885803008

00:13:44.000 --> 00:13:46.415 You can always contact us with any

NOTE Confidence: 0.885803008

00:13:46.415 --> 00:13:48.812 kind of question or concern additions

NOTE Confidence: 0.885803008

00:13:48.812 --> 00:13:50.967 to various fields by clicking.

NOTE Confidence: 0.885803008

00:13:50.970 --> 00:13:53.460 This report a bug button here

NOTE Confidence: 0.885803008

00:13:53.460 --> 00:13:55.850 just put in your e-mail.

NOTE Confidence: 0.885803008

00:13:55.850 --> 00:13:57.398 It's helpful if you describe the

NOTE Confidence: 0.885803008

00:13:57.398 --> 00:13:58.929 issue and the subject line and

NOTE Confidence: 0.885803008

00:13:58.929 --> 00:14:00.497 then you can just briefly and then

NOTE Confidence: 0.885803008

00:14:00.497 --> 00:14:02.469 you can give us some more thorough

NOTE Confidence: 0.885803008

00:14:02.469 --> 00:14:03.950 description and this message field.

NOTE Confidence: 0.885803008

00:14:03.950 --> 00:14:05.700 And when you send this,

NOTE Confidence: 0.885803008

00:14:05.700 --> 00:14:07.100 when you click send here,

NOTE Confidence: 0.885803008

00:14:07.100 --> 00:14:08.162 it's going to send a message

NOTE Confidence: 0.885803008

00:14:08.162 --> 00:14:09.100 to our web services team.

NOTE Confidence: 0.885803008

00:14:09.100 --> 00:14:10.942 We're going to triage your request

NOTE Confidence: 0.885803008

00:14:10.942 --> 00:14:12.750 and get your issue resolved.

NOTE Confidence: 0.750221651428571

00:14:15.150 --> 00:14:16.830 Sorry, I digressed for a second there,

NOTE Confidence: 0.750221651428571

00:14:16.830 --> 00:14:19.812 but I skipped over the academic

NOTE Confidence: 0.750221651428571

00:14:19.812 --> 00:14:22.234 suffixes because they're a little

NOTE Confidence: 0.750221651428571

00:14:22.234 --> 00:14:24.639 more complicated than the others.

NOTE Confidence: 0.750221651428571

00:14:24.640 --> 00:14:26.290 The reason why is for

NOTE Confidence: 0.750221651428571

00:14:26.290 --> 00:14:27.280 these academic suffixes.

NOTE Confidence: 0.750221651428571

00:14:27.280 --> 00:14:30.339 We really would like to make sure

NOTE Confidence: 0.750221651428571

00:14:30.340 --> 00:14:33.424 that faculty and staff have the

NOTE Confidence: 0.750221651428571

00:14:33.424 --> 00:14:36.911 information to back up this degree

NOTE Confidence: 0.750221651428571

00:14:36.911 --> 00:14:39.575 associated with their profile.

NOTE Confidence: 0.750221651428571

00:14:39.580 --> 00:14:41.460 And entered into that profile.

NOTE Confidence: 0.750221651428571

00:14:41.460 --> 00:14:44.246 So you're only going to see the

NOTE Confidence: 0.750221651428571

00:14:44.246 --> 00:14:47.255 academic suffixes here that map to the

NOTE Confidence: 0.750221651428571

00:14:47.255 --> 00:14:49.430 educational information you have entered

NOTE Confidence: 0.750221651428571

00:14:49.430 --> 00:14:52.740 in the education section of your profile.

NOTE Confidence: 0.750221651428571

00:14:52.740 --> 00:14:54.624 So for Doctor Grauer,

NOTE Confidence: 0.750221651428571

00:14:54.624 --> 00:14:58.420 he already had added envy 2 suffixes.

NOTE Confidence: 0.750221651428571

00:14:58.420 --> 00:15:02.319 And I also saw BS and this

NOTE Confidence: 0.750221651428571

00:15:02.319 --> 00:15:05.730 audiology degree as options to add.

NOTE Confidence: 0.750221651428571

00:15:05.730 --> 00:15:08.040 But doctor growers only chosen to

NOTE Confidence: 0.750221651428571

00:15:08.040 --> 00:15:12.650 show his MD on his profile. So um.

NOTE Confidence: 0.750221651428571

00:15:12.650 --> 00:15:15.800 And because this these academic

NOTE Confidence: 0.750221651428571

00:15:15.800 --> 00:15:18.950 suffixes are tied to education,

NOTE Confidence: 0.750221651428571

00:15:18.950 --> 00:15:21.638 we also expose the suffix UI here so

NOTE Confidence: 0.750221651428571

00:15:21.638 --> 00:15:24.908 that if you're adding some new education,

NOTE Confidence: 0.750221651428571

00:15:24.910 --> 00:15:27.240 you can easily add that

NOTE Confidence: 0.750221651428571

00:15:27.240 --> 00:15:29.104 degree to your suffixes.

NOTE Confidence: 0.750221651428571

00:15:29.110 --> 00:15:31.192 Umm, OK,

NOTE Confidence: 0.750221651428571

00:15:31.192 --> 00:15:35.356 that's it for suffixes.

26

NOTE Confidence: 0.750221651428571

00:15:35.360 --> 00:15:38.138 Another critical section of this profile,

NOTE Confidence: 0.750221651428571

00:15:38.140 --> 00:15:42.920 specifically for faculty who also.

NOTE Confidence: 0.750221651428571

00:15:42.920 --> 00:15:46.231 See patients via Yale Medicine is the

NOTE Confidence: 0.750221651428571

00:15:46.231 --> 00:15:49.119 Patient care section of their profile.

NOTE Confidence: 0.750221651428571

00:15:49.120 --> 00:15:50.805 Basically what they enter here

NOTE Confidence: 0.750221651428571

00:15:50.805 --> 00:15:52.490 is going to determine number

NOTE Confidence: 0.750221651428571

00:15:52.553 --> 00:15:54.835 one if they appear on the Yale

NOTE Confidence: 0.750221651428571

00:15:54.835 --> 00:15:56.330 Medicine Clinical Practice website.

NOTE Confidence: 0.750221651428571

00:15:56.330 --> 00:16:00.088 And #2 where they appear so the quickly.

NOTE Confidence: 0.750221651428571

00:16:00.088 --> 00:16:03.104 The most important few sections to

NOTE Confidence: 0.750221651428571

00:16:03.104 --> 00:16:06.452 pay attention to are the specialties,

NOTE Confidence: 0.750221651428571

00:16:06.460 --> 00:16:08.960 and equally important are these

NOTE Confidence: 0.750221651428571

00:16:08.960 --> 00:16:11.460 expertise in areas of specialization

NOTE Confidence: 0.750221651428571

00:16:11.535 --> 00:16:14.070 on your medicine.org.

NOTE Confidence: 0.750221651428571

00:16:14.070 --> 00:16:17.238 These are so the way we are primarily

NOTE Confidence: 0.750221651428571

00:16:17.238 --> 00:16:19.770 associating faculty with various conditions,

NOTE Confidence: 0.750221651428571

00:16:19.770 --> 00:16:20.351 treatments,

NOTE Confidence: 0.750221651428571

00:16:20.351 --> 00:16:23.837 procedures on the Yale Medicine website

NOTE Confidence: 0.750221651428571

00:16:23.837 --> 00:16:27.565 is by relating them via the ID and

NOTE Confidence: 0.750221651428571

00:16:27.565 --> 00:16:30.610 CPT codes that they are billing for.

NOTE Confidence: 0.750221651428571

00:16:30.610 --> 00:16:33.866 But that is not always going to give

NOTE Confidence: 0.750221651428571

00:16:33.866 --> 00:16:36.482 an accurate representation of the

NOTE Confidence: 0.750221651428571

00:16:36.482 --> 00:16:38.386 work of that faculty member and it

NOTE Confidence: 0.750221651428571

00:16:38.386 --> 00:16:40.307 might not be what they necessarily

NOTE Confidence: 0.750221651428571

00:16:40.307 --> 00:16:41.947 want to be associated with,

NOTE Confidence: 0.750221651428571

00:16:41.950 --> 00:16:42.798 for example.

NOTE Confidence: 0.750221651428571

00:16:42.798 --> 00:16:45.342 You could have a dermatologist who

NOTE Confidence: 0.750221651428571

00:16:45.342 --> 00:16:47.640 is removing warts all the time,

NOTE Confidence: 0.750221651428571

00:16:47.640 --> 00:16:50.540 but they're also a specialist

NOTE Confidence: 0.750221651428571

00:16:50.540 --> 00:16:52.280 in those surgery.

NOTE Confidence: 0.750221651428571

00:16:52.280 --> 00:16:55.220 They probably care more about being highly

00:16:55.220 --> 00:16:57.945 ranked when prospective patients are looking

00:16:57.945 --> 00:17:00.250 at information about motive surgery,

00:17:00.250 --> 00:17:02.896 then wart removal.

00:17:02.896 --> 00:17:06.406 So if you are a faculty member or

00:17:06.406 --> 00:17:08.020 you're adding the profile member,

00:17:08.020 --> 00:17:10.860 profile the faculty member.

00:17:10.860 --> 00:17:14.570 Who has some kind of super specialization?

00:17:14.570 --> 00:17:16.130 That is very rare,

00:17:16.130 --> 00:17:18.470 and they might not be performing

00:17:18.554 --> 00:17:19.841 that procedure or treating

00:17:19.841 --> 00:17:21.476 that condition all that often,

00:17:21.480 --> 00:17:23.790 but it is sort of their focus

00:17:23.790 --> 00:17:24.780 of their career.

00:17:24.780 --> 00:17:26.985 You're going to want to make sure

00:17:26.985 --> 00:17:28.579 that they've entered that here.

00:17:28.580 --> 00:17:29.208 Similarly,

NOTE Confidence: 0.750221651428571

00:17:29.208 --> 00:17:32.410 they can also enter specialties that

NOTE Confidence: 0.750221651428571

00:17:32.410 --> 00:17:34.135 they're not even necessarily doing,

NOTE Confidence: 0.750221651428571

00:17:34.140 --> 00:17:36.012 but they're interested in

NOTE Confidence: 0.750221651428571

00:17:36.012 --> 00:17:38.352 branching out into and this.

NOTE Confidence: 0.750221651428571

00:17:38.360 --> 00:17:39.560 How do you want to build

NOTE Confidence: 0.750221651428571

00:17:39.560 --> 00:17:40.160 your practice section?

NOTE Confidence: 0.750221651428571

00:17:40.160 --> 00:17:42.410 This gives me the opportunity to.

NOTE Confidence: 0.750221651428571

00:17:42.410 --> 00:17:44.510 Make their profile appear

NOTE Confidence: 0.750221651428571

00:17:44.510 --> 00:17:46.085 associated with conditions,

NOTE Confidence: 0.750221651428571

00:17:46.090 --> 00:17:47.734 even if they're not really currently

NOTE Confidence: 0.750221651428571

00:17:47.734 --> 00:17:49.170 treating it all that often,

NOTE Confidence: 0.750221651428571

00:17:49.170 --> 00:17:50.626 but they would like to do so,

NOTE Confidence: 0.750221651428571

00:17:50.630 --> 00:17:52.750 they can add that here.

NOTE Confidence: 0.750221651428571

00:17:52.750 --> 00:17:54.961 Um, and lastly,

NOTE Confidence: 0.750221651428571

00:17:54.961 --> 00:17:57.909 these patient interactions questions,

NOTE Confidence: 0.750221651428571

00:17:57.910 --> 00:17:58.502 they're simple,

NOTE Confidence: 0.750221651428571

00:17:58.502 --> 00:17:58.798 yes,

NOTE Confidence: 0.750221651428571

00:17:58.798 --> 00:17:59.390 no questions,

NOTE Confidence: 0.750221651428571

00:17:59.390 --> 00:18:01.245 but they help us format

NOTE Confidence: 0.750221651428571

00:18:01.245 --> 00:18:03.100 the profiles in the front

NOTE Confidence: 0.8670757375

00:18:03.177 --> 00:18:06.918 end so that it's clear to users of the site,

NOTE Confidence: 0.8670757375

00:18:06.918 --> 00:18:08.304 particularly prospective patients,

NOTE Confidence: 0.8670757375

00:18:08.310 --> 00:18:09.558 whether or not they can actually

NOTE Confidence: 0.8670757375

00:18:09.558 --> 00:18:10.869 make an appointment with that person.

NOTE Confidence: 0.8670757375

00:18:10.870 --> 00:18:12.130 So it's just important to fill

NOTE Confidence: 0.8670757375

00:18:12.130 --> 00:18:13.210 out those questions as well.

NOTE Confidence: 0.903105714705882

00:18:15.330 --> 00:18:17.620 I think we are going to share in the chat

NOTE Confidence: 0.903105714705882

00:18:17.682 --> 00:18:19.810 a link to more information about this.

NOTE Confidence: 0.903105714705882

00:18:19.810 --> 00:18:20.968 And yes, it looks like Denise

NOTE Confidence: 0.903105714705882

00:18:20.968 --> 00:18:21.740 has already done that.

NOTE Confidence: 0.903105714705882

00:18:21.740 --> 00:18:23.076 Thank you very much.

NOTE Confidence: 0.903105714705882

00:18:23.076 --> 00:18:25.776 Denise, please take a look at the link

NOTE Confidence: 0.903105714705882

00:18:25.776 --> 00:18:28.560 that Denise sent if you have more

NOTE Confidence: 0.903105714705882

00:18:28.560 --> 00:18:31.104 questions about this patient care section.

NOTE Confidence: 0.903105714705882

00:18:31.110 --> 00:18:35.940 Um, alright, let's move on to publications,

NOTE Confidence: 0.903105714705882

00:18:35.940 --> 00:18:37.532 which I mentioned earlier.

NOTE Confidence: 0.903105714705882

00:18:37.532 --> 00:18:39.124 We have had publications

NOTE Confidence: 0.903105714705882

00:18:39.124 --> 00:18:40.959 in the system before.

NOTE Confidence: 0.903105714705882

00:18:40.960 --> 00:18:43.450 We went through several iterations of

NOTE Confidence: 0.903105714705882

00:18:43.450 --> 00:18:45.720 getting publications into these profiles,

NOTE Confidence: 0.903105714705882

00:18:45.720 --> 00:18:49.010 but this latest version is clearly the

NOTE Confidence: 0.903105714705882

00:18:49.010 --> 00:18:52.342 best as dimensions is really successful

NOTE Confidence: 0.903105714705882

00:18:52.342 --> 00:18:54.786 at identifying publications that

NOTE Confidence: 0.903105714705882

00:18:54.786 --> 00:18:57.910 are truly associated with a person.

NOTE Confidence: 0.903105714705882

00:18:57.910 --> 00:18:58.340 Previously,

NOTE Confidence: 0.903105714705882

00:18:58.340 --> 00:19:01.670 a lot of the efforts that we took.

32

NOTE Confidence: 0.903105714705882

00:19:01.670 --> 00:19:04.211 To try to match faculty and staff

NOTE Confidence: 0.903105714705882

00:19:04.211 --> 00:19:06.486 to publications were even if there

NOTE Confidence: 0.903105714705882

00:19:06.486 --> 00:19:08.336 was some automation behind it,

NOTE Confidence: 0.903105714705882

00:19:08.340 --> 00:19:11.742 in the end there had to be a very

NOTE Confidence: 0.903105714705882

00:19:11.742 --> 00:19:14.961 manual step to associate those

NOTE Confidence: 0.903105714705882

00:19:14.961 --> 00:19:18.109 publications with those people.

NOTE Confidence: 0.903105714705882

00:19:18.110 --> 00:19:20.147 There is still a manual review step,

NOTE Confidence: 0.903105714705882

00:19:20.150 --> 00:19:20.903 however,

NOTE Confidence: 0.903105714705882

00:19:20.903 --> 00:19:23.915 generally if our configuration

NOTE Confidence: 0.903105714705882

00:19:23.915 --> 00:19:27.680 settings for importing a person's

NOTE Confidence: 0.903105714705882

00:19:27.790 --> 00:19:31.606 profiles into the system are correct.

NOTE Confidence: 0.903105714705882

00:19:31.610 --> 00:19:34.530 Something like 95 or 98% of the

NOTE Confidence: 0.903105714705882

00:19:34.530 --> 00:19:35.805 publications they see are truly

NOTE Confidence: 0.903105714705882

00:19:35.805 --> 00:19:37.589 going to be their publications,

NOTE Confidence: 0.903105714705882

00:19:37.590 --> 00:19:40.606 and they should be able to quickly go

NOTE Confidence: 0.903105714705882

00:19:40.606 --> 00:19:43.112 through and approve the publications

NOTE Confidence: 0.903105714705882

00:19:43.112 --> 00:19:47.298 that are associated with them.

NOTE Confidence: 0.903105714705882

00:19:47.300 --> 00:19:48.504 As you can see,

NOTE Confidence: 0.903105714705882

00:19:48.504 --> 00:19:50.310 Jonathan Grower has lots of publications

NOTE Confidence: 0.903105714705882

00:19:50.369 --> 00:19:52.199 and he actually has zero rejected.

NOTE Confidence: 0.903105714705882

00:19:52.200 --> 00:19:54.440 So every single publication that

NOTE Confidence: 0.903105714705882

00:19:54.440 --> 00:19:56.680 was imported from dimensions that

NOTE Confidence: 0.903105714705882

00:19:56.756 --> 00:19:58.946 was associated with his profile

NOTE Confidence: 0.903105714705882

00:19:58.946 --> 00:20:00.698 was truly his publication.

NOTE Confidence: 0.903105714705882

00:20:00.700 --> 00:20:01.270 These

NOTE Confidence: 0.768720063

00:20:01.620 --> 00:20:02.944 these publications are going

NOTE Confidence: 0.768720063

00:20:02.944 --> 00:20:04.930 to be important for the CME.

NOTE Confidence: 0.768720063

00:20:04.930 --> 00:20:06.042 Process that the school

NOTE Confidence: 0.768720063

00:20:06.042 --> 00:20:07.320 is undergoing right now.

NOTE Confidence: 0.892487833

00:20:09.740 --> 00:20:12.582 So we're going to start doing a

NOTE Confidence: 0.892487833

00:20:12.582 --> 00:20:15.111 more concerted push to ask faculty

34

NOTE Confidence: 0.892487833

00:20:15.111 --> 00:20:17.212 to review their publications later

NOTE Confidence: 0.892487833

00:20:17.212 --> 00:20:19.676 this month and into the new Year.

NOTE Confidence: 0.892487833

00:20:19.680 --> 00:20:21.913 So we're probably going to be reaching

NOTE Confidence: 0.892487833

00:20:21.913 --> 00:20:24.471 out to lead admins and to department

NOTE Confidence: 0.892487833

00:20:24.471 --> 00:20:26.769 chairs and to communicators to help

NOTE Confidence: 0.892487833

00:20:26.837 --> 00:20:29.050 us push out the message that we need

NOTE Confidence: 0.892487833

00:20:29.050 --> 00:20:30.900 all faculty to participate in this.

NOTE Confidence: 0.892487833

00:20:30.900 --> 00:20:33.515 We've gotten a remarkable amount

NOTE Confidence: 0.892487833

00:20:33.515 --> 00:20:35.607 of participation so far.

NOTE Confidence: 0.883866821666667

00:20:37.800 --> 00:20:39.876 From about 50% of the faculty,

NOTE Confidence: 0.883866821666667

00:20:39.880 --> 00:20:41.890 they've approved more than 50,000

NOTE Confidence: 0.883866821666667

00:20:41.890 --> 00:20:44.220 publications in the system so far.

NOTE Confidence: 0.883866821666667

00:20:44.220 --> 00:20:46.397 So it's it's pretty, it's pretty good,

NOTE Confidence: 0.883866821666667

00:20:46.400 --> 00:20:48.476 but we're aiming to get, you know,

NOTE Confidence: 0.883866821666667

00:20:48.476 --> 00:20:49.666 a much higher percentage rate.

NOTE Confidence: 0.721756486

00:20:52.050 --> 00:20:53.420 Elvis, there's a question about.

NOTE Confidence: 0.887763296

00:20:55.470 --> 00:20:59.170 In the chat about. What?

NOTE Confidence: 0.887763296

00:20:59.170 --> 00:21:01.767 The person is agreeing to when they

NOTE Confidence: 0.887763296

00:21:01.767 --> 00:21:06.240 use Beatrix I I can just take that so.

NOTE Confidence: 0.887763296

00:21:06.240 --> 00:21:08.148 We're working with General

NOTE Confidence: 0.887763296

00:21:08.148 --> 00:21:09.579 Counsel's office to.

NOTE Confidence: 0.887763296

00:21:09.580 --> 00:21:11.890 Kind of have an attestation every

NOTE Confidence: 0.887763296

00:21:11.890 --> 00:21:13.440 time someone logs into Beatrix.

NOTE Confidence: 0.887763296

00:21:13.440 --> 00:21:14.976 This this text is actually going

NOTE Confidence: 0.887763296

00:21:14.976 --> 00:21:17.230 to get a little bit longer in the

NOTE Confidence: 0.887763296

00:21:17.230 --> 00:21:18.988 coming weeks with some additions that

NOTE Confidence: 0.887763296

00:21:19.050 --> 00:21:21.080 general counsel would like us to make.

NOTE Confidence: 0.887763296

00:21:21.080 --> 00:21:23.360 But essentially what you're agreeing to

NOTE Confidence: 0.887763296

00:21:23.360 --> 00:21:26.732 is that you're not going to put any Phi

NOTE Confidence: 0.887763296

00:21:26.732 --> 00:21:31.856 or HIPAA covered content into the system.

NOTE Confidence: 0.887763296

00:21:31.860 --> 00:21:35.794 That you're not going to upload any.

36

NOTE Confidence: 0.887763296

00:21:35.800 --> 00:21:37.380 Content that that someone

NOTE Confidence: 0.887763296

00:21:37.380 --> 00:21:39.355 else owns the copyright to.

NOTE Confidence: 0.887763296

00:21:39.360 --> 00:21:41.574 So you're not going to, you know,

NOTE Confidence: 0.887763296

00:21:41.574 --> 00:21:43.416 just go grab an image from

NOTE Confidence: 0.887763296

00:21:43.416 --> 00:21:45.375 someone's website and put in a

NOTE Confidence: 0.887763296

00:21:45.375 --> 00:21:46.655 news article without permission.

NOTE Confidence: 0.887763296

00:21:46.660 --> 00:21:50.020 You're not going to upload music or

NOTE Confidence: 0.887763296

00:21:50.020 --> 00:21:53.624 video that that you don't have written

NOTE Confidence: 0.887763296

00:21:53.624 --> 00:21:57.380 permission or rights to use into the

NOTE Confidence: 0.887763296

00:21:57.380 --> 00:22:00.686 system and that you're not uploading.

NOTE Confidence: 0.887763296

00:22:00.690 --> 00:22:03.485 Any really sensitive content that

NOTE Confidence: 0.887763296

00:22:03.485 --> 00:22:06.862 would be covered under any other

NOTE Confidence: 0.887763296

00:22:06.862 --> 00:22:09.359 kind of privacy policy at the

NOTE Confidence: 0.7473401244

00:22:09.370 --> 00:22:10.378 university. Beatrice probably

NOTE Confidence: 0.7473401244

00:22:10.378 --> 00:22:12.394 don't want to upload an Excel

NOTE Confidence: 0.7473401244

00:22:12.394 --> 00:22:14.198 file of people salaries in here.

NOTE Confidence: 0.7473401244

00:22:14.200 --> 00:22:17.160 There's just no reason to do that right

NOTE Confidence: 0.735481312

00:22:17.210 --> 00:22:20.738 so so Beatrix if you think about how we

NOTE Confidence: 0.735481312

00:22:20.738 --> 00:22:24.414 intend how we use Beatrix and Beatrix

NOTE Confidence: 0.735481312

00:22:24.414 --> 00:22:28.004 intended use is for. Mostly public.

NOTE Confidence: 0.735481312

00:22:28.004 --> 00:22:30.614 Information that we're going to

NOTE Confidence: 0.735481312

00:22:30.614 --> 00:22:33.240 make available through our websites.

NOTE Confidence: 0.735481312

00:22:33.240 --> 00:22:36.400 The caveat there is there is some information

NOTE Confidence: 0.735481312

00:22:36.400 --> 00:22:39.724 in Beatrix such as appointment history

NOTE Confidence: 0.735481312

00:22:39.724 --> 00:22:42.638 that's intended solely for CV usage.

NOTE Confidence: 0.735481312

00:22:42.638 --> 00:22:45.430 But if you if you think about anything

NOTE Confidence: 0.735481312

00:22:45.511 --> 00:22:47.660 that's going to be included on a

NOTE Confidence: 0.735481312

00:22:47.660 --> 00:22:49.554 CV or should be publicly available,

NOTE Confidence: 0.735481312

00:22:49.554 --> 00:22:51.746 those are kind of the two main areas

NOTE Confidence: 0.735481312

00:22:51.746 --> 00:22:53.787 of content that you want to think

NOTE Confidence: 0.735481312

00:22:53.787 --> 00:22:55.754 about when putting in Beatrix if if

NOTE Confidence: 0.735481312

00:22:55.754 --> 00:22:57.913 you wouldn't want it to appear on the

NOTE Confidence: 0.735481312

00:22:57.913 --> 00:23:00.384 front page of the New York Times.

NOTE Confidence: 0.735481312

00:23:00.390 --> 00:23:02.302 Or in someone's CV.

NOTE Confidence: 0.735481312

00:23:02.302 --> 00:23:04.692 Don't put it in Beatrix.

NOTE Confidence: 0.735481312

00:23:04.700 --> 00:23:06.090 Does that answer your question?

NOTE Confidence: 0.856061165

00:23:11.160 --> 00:23:13.220 OK, great. Great. Thank you.

NOTE Confidence: 0.833533618

00:23:13.440 --> 00:23:17.930 Thanks. That's a good question. Um.

NOTE Confidence: 0.833533618

00:23:17.930 --> 00:23:19.974 Yeah, there's just one other thing I

NOTE Confidence: 0.833533618

00:23:19.974 --> 00:23:21.967 wanted to say about publications and

NOTE Confidence: 0.833533618

00:23:21.967 --> 00:23:24.278 that is we've already had several.

NOTE Confidence: 0.833533618

00:23:24.278 --> 00:23:26.690 In instances where somebody logged in,

NOTE Confidence: 0.833533618

00:23:26.690 --> 00:23:28.275 they maybe haven't even looked

NOTE Confidence: 0.833533618

00:23:28.275 --> 00:23:29.860 at the profile system before.

NOTE Confidence: 0.833533618

00:23:29.860 --> 00:23:32.448 A little one, Beatrix.

NOTE Confidence: 0.833533618

00:23:32.450 --> 00:23:34.538 And they see lots and lots of pending

NOTE Confidence: 0.833533618

00:23:34.538 --> 00:23:35.630 publications from dimensions.

NOTE Confidence: 0.833533618

00:23:35.630 --> 00:23:37.110 Dozens or even hundreds.

NOTE Confidence: 0.833533618

00:23:37.110 --> 00:23:39.330 And they start rejecting lots and

NOTE Confidence: 0.833533618

00:23:39.395 --> 00:23:41.370 lots of publications because they're

NOTE Confidence: 0.833533618

00:23:41.370 --> 00:23:44.393 finding that most or even all of the

NOTE Confidence: 0.833533618

00:23:44.393 --> 00:23:46.349 publications do not belong to them.

NOTE Confidence: 0.833533618

00:23:46.350 --> 00:23:48.354 We're working on some UI changes

NOTE Confidence: 0.833533618

00:23:48.354 --> 00:23:49.690 to make this clearer,

NOTE Confidence: 0.833533618

00:23:49.690 --> 00:23:51.706 but we really encourage you to

NOTE Confidence: 0.833533618

00:23:51.706 --> 00:23:54.060 not have to start rejecting lots

NOTE Confidence: 0.833533618

00:23:54.060 --> 00:23:55.928 and lots of publications.

NOTE Confidence: 0.833533618

00:23:55.930 --> 00:23:57.450 If you're rejecting rejecting

NOTE Confidence: 0.833533618

00:23:57.450 --> 00:23:59.350 more than a few publications,

NOTE Confidence: 0.833533618

00:23:59.350 --> 00:24:01.258 then that probably means that the

NOTE Confidence: 0.833533618

00:24:01.258 --> 00:24:02.530 import settings are incorrect.

NOTE Confidence: 0.833533618

00:24:02.530 --> 00:24:04.210 And the best thing to do,

NOTE Confidence: 0.833533618

00:24:04.210 --> 00:24:06.611 and the best use of your or

NOTE Confidence: 0.833533618

00:24:06.611 --> 00:24:08.070 the faculty member's time,

NOTE Confidence: 0.833533618

00:24:08.070 --> 00:24:10.206 would be to contact us and ask us

NOTE Confidence: 0.833533618

00:24:10.206 --> 00:24:12.569 to take a look at their dimensions,

NOTE Confidence: 0.833533618

00:24:12.570 --> 00:24:16.497 profile settings, and address and fix them.

NOTE Confidence: 0.833533618

00:24:16.500 --> 00:24:17.658 Like I said,

NOTE Confidence: 0.833533618

00:24:17.658 --> 00:24:20.360 really it should be well over 90%

NOTE Confidence: 0.833533618

00:24:20.360 --> 00:24:22.896 accurate and that if that's not the case,

NOTE Confidence: 0.833533618

00:24:22.900 --> 00:24:24.660 we probably have the wrong

NOTE Confidence: 0.833533618

00:24:24.660 --> 00:24:25.716 profile associated here.

NOTE Confidence: 0.833533618

00:24:25.720 --> 00:24:30.193 So if you see lots and lots of incorrect

NOTE Confidence: 0.833533618

00:24:30.193 --> 00:24:32.857 publications and this pending list,

NOTE Confidence: 0.833533618

00:24:32.860 --> 00:24:36.070 please do contact us before you

NOTE Confidence: 0.833533618

00:24:36.070 --> 00:24:39.220 try to manipulate and reject lots

NOTE Confidence: 0.833533618

00:24:39.220 --> 00:24:41.820 and lots of publications here.

NOTE Confidence: 0.833533618

00:24:41.820 --> 00:24:43.734 We just don't want people spending

NOTE Confidence: 0.833533618

00:24:43.734 --> 00:24:45.903 lots of time trying to clean up

NOTE Confidence: 0.833533618

00:24:45.903 --> 00:24:47.559 data that might just be wrong.

NOTE Confidence: 0.833533618

00:24:47.560 --> 00:24:51.020 Umm, that's it for publications,

NOTE Confidence: 0.833533618

00:24:51.020 --> 00:24:53.162 although it does tie in pretty closely

NOTE Confidence: 0.833533618

00:24:53.162 --> 00:24:55.500 to the next item on our list here,

NOTE Confidence: 0.833533618

00:24:55.500 --> 00:24:58.300 which is the CD builder.

NOTE Confidence: 0.833533618

00:24:58.300 --> 00:25:01.500 The CD builder is not new to Beatrix,

NOTE Confidence: 0.833533618

00:25:01.500 --> 00:25:04.388 it's been around for.

NOTE Confidence: 0.833533618

00:25:04.390 --> 00:25:05.510 Over a year now,

NOTE Confidence: 0.833533618

00:25:05.510 --> 00:25:07.970 I can't quite remember when we launched it,

NOTE Confidence: 0.833533618

00:25:07.970 --> 00:25:10.420 but what the CD builder does is

NOTE Confidence: 0.833533618

00:25:10.420 --> 00:25:12.960 it takes all of the information

NOTE Confidence: 0.833533618

00:25:12.960 --> 00:25:15.774 that is entered into the faculty

NOTE Confidence: 0.833533618

00:25:15.774 --> 00:25:17.620 members profile and basically

NOTE Confidence: 0.833533618

00:25:17.620 --> 00:25:20.630 puts them through a step by step

NOTE Confidence: 0.833533618

00:25:20.630 --> 00:25:24.542 process to review and select the

NOTE Confidence: 0.833533618

00:25:24.542 --> 00:25:27.150 appropriate information from their

NOTE Confidence: 0.833533618

00:25:27.247 --> 00:25:29.677 profile to generate a CD.

NOTE Confidence: 0.807728012222222

00:25:31.900 --> 00:25:33.844 The model we tried to follow

NOTE Confidence: 0.807728012222222

00:25:33.844 --> 00:25:35.173 here was uh, TurboTax.

NOTE Confidence: 0.807728012222222

00:25:35.173 --> 00:25:37.644 We're really trying to take you through

NOTE Confidence: 0.807728012222222

00:25:37.644 --> 00:25:41.026 a step by step process where you simply

NOTE Confidence: 0.807728012222222

00:25:41.026 --> 00:25:42.766 are reviewing information hopefully.

NOTE Confidence: 0.807728012222222

00:25:42.770 --> 00:25:44.915 And picking the information that's

NOTE Confidence: 0.807728012222222

00:25:44.915 --> 00:25:48.010 already in the system to create a CV.

NOTE Confidence: 0.807728012222222

00:25:48.010 --> 00:25:49.890 Guys, this is not as convenient for maybe

NOTE Confidence: 0.807728012222222

00:25:49.890 --> 00:25:52.284 a new faculty member who might have very

NOTE Confidence: 0.807728012222222

00:25:52.284 --> 00:25:53.980 little information in their profile.

NOTE Confidence: 0.807728012222222

00:25:53.980 --> 00:25:56.080 That'd be pretty arduous to go

NOTE Confidence: 0.807728012222222

00:25:56.080 --> 00:25:58.608 through this tool and have to enter

NOTE Confidence: 0.807728012222222

00:25:58.608 --> 00:26:00.720 all this information all at once.

NOTE Confidence: 0.807728012222222

00:26:00.720 --> 00:26:04.074 However, sometime next calendar year we

NOTE Confidence: 0.807728012222222

00:26:04.074 --> 00:26:08.079 are hoping to launch a CSV import tool,

NOTE Confidence: 0.807728012222222

00:26:08.080 --> 00:26:10.402 which would basically be really good

NOTE Confidence: 0.807728012222222

00:26:10.402 --> 00:26:13.334 for doing the opposite of what the CV

NOTE Confidence: 0.807728012222222

00:26:13.334 --> 00:26:15.302 builder does instead of taking data

NOTE Confidence: 0.807728012222222

00:26:15.373 --> 00:26:18.325 that's already in Beatrix to generate the CV.

NOTE Confidence: 0.807728012222222

00:26:18.330 --> 00:26:22.282 We would take the PDF or Word document

NOTE Confidence: 0.807728012222222

00:26:22.282 --> 00:26:26.900 that a faculty member has for their CV.

NOTE Confidence: 0.807728012222222

00:26:26.900 --> 00:26:28.988 Maybe their profile is nearly empty

NOTE Confidence: 0.807728012222222

00:26:28.988 --> 00:26:31.626 with just the bare minimum of imported

NOTE Confidence: 0.807728012222222

00:26:31.626 --> 00:26:33.984 information and that profile and they

NOTE Confidence: 0.807728012222222

00:26:33.984 --> 00:26:36.377 can upload it to the tool it will.

NOTE Confidence: 0.807728012222222

00:26:36.380 --> 00:26:39.146 We are using AI to parse set tool, sorry.

NOTE Confidence: 0.807728012222222

00:26:39.146 --> 00:26:40.730 To parse that CV,

NOTE Confidence: 0.807728012222222

00:26:40.730 --> 00:26:42.361 try to pull out the specific fields

NOTE Confidence: 0.807728012222222

00:26:42.361 --> 00:26:43.400 that we care about,

NOTE Confidence: 0.807728012222222

00:26:43.400 --> 00:26:46.328 and then through a similar review

NOTE Confidence: 0.807728012222222

00:26:46.328 --> 00:26:49.498 process go through all of that data.

NOTE Confidence: 0.807728012222222

00:26:49.500 --> 00:26:52.716 Accept or reject information where needed,

NOTE Confidence: 0.807728012222222

00:26:52.720 --> 00:26:53.515 or make edits.

NOTE Confidence: 0.807728012222222

00:26:53.515 --> 00:26:54.840 Usually it would be accepted,

NOTE Confidence: 0.807728012222222

00:26:54.840 --> 00:26:57.206 or probably make an edit to the

NOTE Confidence: 0.807728012222222

00:26:57.206 --> 00:26:59.453 information if the AI didn't identify

NOTE Confidence: 0.807728012222222

00:26:59.453 --> 00:27:02.326 the field field quite right to fill

NOTE Confidence: 0.807728012222222

00:27:02.326 --> 00:27:05.104 out that faculty members profile based

NOTE Confidence: 0.807728012222222

00:27:05.104 --> 00:27:09.129 on a CD that they've already produced.

NOTE Confidence: 0.807728012222222

00:27:09.130 --> 00:27:13.130 So that is under is under development

NOTE Confidence: 0.807728012222222

00:27:13.130 --> 00:27:13.980 right now.

NOTE Confidence: 0.807728012222222

00:27:13.980 --> 00:27:17.056 We will be providing a lot more

NOTE Confidence: 0.807728012222222

00:27:17.056 --> 00:27:19.261 information about that in spring

NOTE Confidence: 0.807728012222222

00:27:19.261 --> 00:27:21.570 I believe in summer maybe.

NOTE Confidence: 0.867361936666667

00:27:24.780 --> 00:27:26.593 OK, I'm going to quickly go through

NOTE Confidence: 0.867361936666667

00:27:26.593 --> 00:27:28.419 a few other enhancements here.

NOTE Confidence: 0.867361936666667

00:27:28.420 --> 00:27:29.056 Organizations.

NOTE Confidence: 0.867361936666667

00:27:29.056 --> 00:27:33.508 This module has not changed much from

NOTE Confidence: 0.867361936666667

00:27:33.508 --> 00:27:37.360 the profile system in terms of functionality.

NOTE Confidence: 0.867361936666667

00:27:37.360 --> 00:27:40.890 This will still be used to manage.

NOTE Confidence: 0.867361936666667

00:27:40.890 --> 00:27:43.955 Some basic information about each

NOTE Confidence: 0.867361936666667

00:27:43.955 --> 00:27:46.606 organization and probably most importantly,

NOTE Confidence: 0.867361936666667

00:27:46.606 --> 00:27:50.235 the people that belong to each organization

NOTE Confidence: 0.867361936666667

00:27:50.235 --> 00:27:53.623 on one big improvement here and I

NOTE Confidence: 0.867361936666667

00:27:53.623 --> 00:27:56.518 should pick a larger organization.

NOTE Confidence: 0.867361936666667

00:27:56.520 --> 00:27:58.770 Use them as an example.

NOTE Confidence: 0.867361936666667

00:27:58.770 --> 00:28:01.346 One big improvement here is the UI.

NOTE Confidence: 0.867361936666667

00:28:01.350 --> 00:28:03.686 We haven't really added any new options here,

NOTE Confidence: 0.867361936666667

00:28:03.690 --> 00:28:05.890 but we do have lots of UI improvements.

NOTE Confidence: 0.867361936666667

00:28:05.890 --> 00:28:07.570 We've got these sort and filter

NOTE Confidence: 0.867361936666667

00:28:07.570 --> 00:28:09.410 options that we already demonstrated,

NOTE Confidence: 0.867361936666667

00:28:09.410 --> 00:28:12.077 but also one feature that was not

NOTE Confidence: 0.867361936666667

00:28:12.077 --> 00:28:14.392 present in profile system but is

NOTE Confidence: 0.867361936666667

00:28:14.392 --> 00:28:16.954 present in Beatrix is the ability to

NOTE Confidence: 0.867361936666667

00:28:17.032 --> 00:28:19.402 select multiple people in this list

NOTE Confidence: 0.867361936666667

00:28:19.402 --> 00:28:22.734 at once and modify them in some way.

NOTE Confidence: 0.867361936666667

00:28:22.734 --> 00:28:26.606 So for example if I need to turn

NOTE Confidence: 0.867361936666667

00:28:26.606 --> 00:28:28.782 several people who currently are not.

NOTE Confidence: 0.867361936666667

00:28:28.782 --> 00:28:30.873 Stay on the website to turn them on

NOTE Confidence: 0.867361936666667

00:28:30.873 --> 00:28:32.595 so they will appear on the website.

NOTE Confidence: 0.867361936666667

00:28:32.600 --> 00:28:35.558 I could simply go through select

NOTE Confidence: 0.867361936666667

00:28:35.558 --> 00:28:37.037 all those people.

NOTE Confidence: 0.867361936666667

00:28:37.040 --> 00:28:39.567 And in this toggle at the top,

NOTE Confidence: 0.867361936666667

00:28:39.570 --> 00:28:41.607 I can hit display an academic website.

NOTE Confidence: 0.867361936666667

00:28:41.610 --> 00:28:43.122 It's going to give me a little

NOTE Confidence: 0.867361936666667

00:28:43.122 --> 00:28:44.295 warning just because I'm editing

NOTE Confidence: 0.867361936666667

00:28:44.295 --> 00:28:45.723 multiple people at the same time.

NOTE Confidence: 0.867361936666667

00:28:45.730 --> 00:28:46.660 I click yes,

NOTE Confidence: 0.867361936666667

00:28:46.660 --> 00:28:48.520 and it's going to adjust that

NOTE Confidence: 0.867361936666667

00:28:48.520 --> 00:28:50.292 setting for all the people I

NOTE Confidence: 0.867361936666667

00:28:50.292 --> 00:28:52.249 click a little check box next to.

NOTE Confidence: 0.867361936666667

00:28:52.250 --> 00:28:54.364 I could also Add all those people

NOTE Confidence: 0.867361936666667

00:28:54.364 --> 00:28:56.028 with leadership if I wanted to,

NOTE Confidence: 0.867361936666667

00:28:56.030 --> 00:28:57.570 which would save some time,

NOTE Confidence: 0.867361936666667

00:28:57.570 --> 00:28:59.496 especially if it's a newer org

NOTE Confidence: 0.867361936666667

00:28:59.496 --> 00:29:01.720 or they might not have any

NOTE Confidence: 0.867361936666667

00:29:01.720 --> 00:29:03.460 leadership information at all.

NOTE Confidence: 0.867361936666667

00:29:03.460 --> 00:29:06.196 And like before I can click

NOTE Confidence: 0.867361936666667

00:29:06.196 --> 00:29:08.020 into these individual people,

NOTE Confidence: 0.867361936666667

00:29:08.020 --> 00:29:10.012 if they have some special leadership

NOTE Confidence: 0.867361936666667

00:29:10.012 --> 00:29:12.299 title that I should be adding here,

NOTE Confidence: 0.867361936666667

00:29:12.300 --> 00:29:13.980 I can add it here.

NOTE Confidence: 0.867361936666667

00:29:13.980 --> 00:29:17.011 I also just have an secondary way

NOTE Confidence: 0.867361936666667

00:29:17.011 --> 00:29:19.738 to access these options about the

NOTE Confidence: 0.867361936666667

00:29:19.738 --> 00:29:21.892 display of this person on the

NOTE Confidence: 0.867361936666667

00:29:21.892 --> 00:29:24.406 site by these tables that appear

NOTE Confidence: 0.867361936666667

00:29:24.406 --> 00:29:26.974 after I click on an individual.

NOTE Confidence: 0.867361936666667

00:29:26.980 --> 00:29:27.900 Umm.

NOTE Confidence: 0.72944224

00:29:30.310 --> 00:29:35.340 Think. That's really one other thing.

NOTE Confidence: 0.72944224

00:29:35.340 --> 00:29:37.660 I'm sorry. One other important

NOTE Confidence: 0.72944224

00:29:37.660 --> 00:29:39.904 note is in profile system.

NOTE Confidence: 0.72944224

00:29:39.904 --> 00:29:42.094 Again, this is not new.

NOTE Confidence: 0.72944224

00:29:42.100 --> 00:29:43.486 In Profile System,

NOTE Confidence: 0.72944224

00:29:43.486 --> 00:29:46.900 we had the ability to create display groups,

NOTE Confidence: 0.72944224

00:29:46.900 --> 00:29:48.820 which were sort of like organizations,

NOTE Confidence: 0.72944224

49

00:29:48.820 --> 00:29:52.076 but they were only for creating really custom

NOTE Confidence: 0.72944224

00:29:52.076 --> 00:29:55.479 groups of people for displaying the website.

NOTE Confidence: 0.72944224

00:29:55.480 --> 00:29:57.888 So they might not be a true

NOTE Confidence: 0.72944224

00:29:57.888 --> 00:30:00.019 organization at the school that's,

NOTE Confidence: 0.72944224

00:30:00.020 --> 00:30:02.660 but it's a group, maybe a group of.

NOTE Confidence: 0.72944224

00:30:02.660 --> 00:30:04.640 Faculty in a particular department

NOTE Confidence: 0.72944224

00:30:04.640 --> 00:30:06.980 who specialized in some specific area,

NOTE Confidence: 0.72944224

00:30:06.980 --> 00:30:09.128 but they don't have a program.

NOTE Confidence: 0.72944224

00:30:09.130 --> 00:30:11.181 For instance, you might still want to

NOTE Confidence: 0.72944224

00:30:11.181 --> 00:30:12.969 list those people on your website,

NOTE Confidence: 0.72944224

00:30:12.970 --> 00:30:15.370 and the way to do that in profile

NOTE Confidence: 0.72944224

00:30:15.370 --> 00:30:17.279 system would be a display group.

NOTE Confidence: 0.72944224

00:30:17.280 --> 00:30:19.541 Um, teams in Theatrix are the exact

NOTE Confidence: 0.72944224

00:30:19.541 --> 00:30:21.639 same thing as a display group.

NOTE Confidence: 0.72944224

00:30:21.640 --> 00:30:22.876 We just renamed it to be

NOTE Confidence: 0.72944224

00:30:22.876 --> 00:30:23.700 a little more friendly.

NOTE Confidence: 0.72944224

00:30:23.700 --> 00:30:26.500 They're now called teams you.

NOTE Confidence: 0.72944224

00:30:26.500 --> 00:30:28.960 If you are an organization administrator,

NOTE Confidence: 0.72944224

00:30:28.960 --> 00:30:30.340 you should be able to create

NOTE Confidence: 0.72944224

00:30:30.340 --> 00:30:31.573 these teams themselves, yourself,

NOTE Confidence: 0.72944224

00:30:31.573 --> 00:30:34.288 and you can manage them.

NOTE Confidence: 0.72944224

00:30:34.290 --> 00:30:34.712 That's you.

NOTE Confidence: 0.72944224

00:30:34.712 --> 00:30:36.189 If you're creating a new team and

NOTE Confidence: 0.72944224

00:30:36.189 --> 00:30:37.614 you want to add it to the site,

NOTE Confidence: 0.72944224

00:30:37.620 --> 00:30:40.076 you're just going to have to contact us

NOTE Confidence: 0.72944224

00:30:40.076 --> 00:30:42.648 to make sure it gets added to that website.

NOTE Confidence: 0.72944224

00:30:42.648 --> 00:30:44.033 But once we add it,

NOTE Confidence: 0.72944224

00:30:44.040 --> 00:30:46.518 you have full control to manage that

NOTE Confidence: 0.72944224

00:30:46.518 --> 00:30:48.978 list of people via the teams here.

NOTE Confidence: 0.72944224

00:30:48.980 --> 00:30:51.890 And again, to contact us, just e-mail.

NOTE Confidence: 0.72944224

00:30:51.890 --> 00:30:53.960 Why? Send the editor at yale.edu.

NOTE Confidence: 0.72944224

00:30:53.960 --> 00:30:56.000 Or you could even use this report a bug tool.

NOTE Confidence: 0.72944224

00:30:56.000 --> 00:30:57.866 Just this is really just going

NOTE Confidence: 0.72944224

00:30:57.866 --> 00:30:59.020 to it's basically functionally

NOTE Confidence: 0.72944224

00:30:59.020 --> 00:31:00.980 the same as sending us an e-mail.

NOTE Confidence: 0.72944224

00:31:00.980 --> 00:31:02.771 So if you don't want to have to take

NOTE Confidence: 0.72944224

00:31:02.771 --> 00:31:04.446 the time to go, open your e-mail.

NOTE Confidence: 0.72944224

00:31:04.446 --> 00:31:05.906 Client addressed the wise matter.

NOTE Confidence: 0.72944224

00:31:05.910 --> 00:31:08.095 Just explain what you're looking

NOTE Confidence: 0.72944224

00:31:08.095 --> 00:31:11.361 for here and we will triage your

NOTE Confidence: 0.72944224

00:31:11.361 --> 00:31:12.846 request as needed.

NOTE Confidence: 0.72944224

00:31:12.850 --> 00:31:13.487 Um.

NOTE Confidence: 0.72944224

00:31:13.487 --> 00:31:18.583 I think that's it for organizations for now.

NOTE Confidence: 0.72944224

00:31:18.590 --> 00:31:20.270 Do you have any questions before

NOTE Confidence: 0.72944224

00:31:20.270 --> 00:31:22.450 I move on to news and events?

NOTE Confidence: 0.918194593333333

00:31:25.400 --> 00:31:26.576 OK. I'm going to go ahead.

NOTE Confidence: 0.918194593333333

00:31:26.580 --> 00:31:29.628 All right, so news.

NOTE Confidence: 0.918194593333333

00:31:29.630 --> 00:31:32.609 News is one of the modules that is largely

NOTE Confidence: 0.918194593333333

00:31:32.609 --> 00:31:35.387 the same as it was in profile system.

NOTE Confidence: 0.918194593333333

00:31:35.390 --> 00:31:37.090 There is one important difference

NOTE Confidence: 0.918194593333333

00:31:37.090 --> 00:31:39.391 here and I'm just going to switch

NOTE Confidence: 0.918194593333333

00:31:39.391 --> 00:31:41.267 over to an article that I loaded

NOTE Confidence: 0.918194593333333

00:31:41.267 --> 00:31:42.916 up actually the articles right

NOTE Confidence: 0.918194593333333

00:31:42.916 --> 00:31:44.884 here so I'll just click it.

NOTE Confidence: 0.918194593333333

00:31:44.890 --> 00:31:46.342 This is the article I want

NOTE Confidence: 0.918194593333333

00:31:46.342 --> 00:31:47.870 to use as an example.

NOTE Confidence: 0.918194593333333

00:31:47.870 --> 00:31:50.816 The one important caveat here that

NOTE Confidence: 0.918194593333333

00:31:50.816 --> 00:31:53.260 is slightly different from the

NOTE Confidence: 0.918194593333333

00:31:53.260 --> 00:31:56.175 previous system is now we have a

NOTE Confidence: 0.918194593333333

00:31:56.175 --> 00:31:59.565 draft and published status for news.

NOTE Confidence: 0.918194593333333

00:31:59.570 --> 00:32:02.838 Articles and also events.

NOTE Confidence: 0.918194593333333

00:32:02.840 --> 00:32:05.600 So previously in profile system,

NOTE Confidence: 0.918194593333333

53

00:32:05.600 --> 00:32:07.436 if I wrote a news article,

NOTE Confidence: 0.918194593333333

00:32:07.440 --> 00:32:09.822 it wasn't appearing anywhere on the

NOTE Confidence: 0.918194593333333

00:32:09.822 --> 00:32:12.848 website until I went ahead and tagged

NOTE Confidence: 0.918194593333333

00:32:12.848 --> 00:32:15.978 it to some organizations and hit publish.

NOTE Confidence: 0.918194593333333

00:32:15.980 --> 00:32:17.900 But once I published that article,

NOTE Confidence: 0.918194593333333

00:32:17.900 --> 00:32:20.537 if I were then to go back later and

NOTE Confidence: 0.918194593333333

00:32:20.537 --> 00:32:23.336 start making some edits to that article,

NOTE Confidence: 0.918194593333333

00:32:23.340 --> 00:32:24.592 they would almost immediately

NOTE Confidence: 0.918194593333333

00:32:24.592 --> 00:32:26.157 propagate out to the website.

NOTE Confidence: 0.918194593333333

00:32:26.160 --> 00:32:27.847 And that might not be ideal if

NOTE Confidence: 0.918194593333333

00:32:27.847 --> 00:32:29.608 you needed to make some kind of.

NOTE Confidence: 0.918194593333333

00:32:29.610 --> 00:32:33.666 Uh, involved rewrite of an article,

NOTE Confidence: 0.918194593333333

00:32:33.670 --> 00:32:37.786 so now there is this draft

NOTE Confidence: 0.918194593333333

00:32:37.786 --> 00:32:39.844 and published status.

NOTE Confidence: 0.918194593333333

00:32:39.850 --> 00:32:41.476 If I start editing an article

NOTE Confidence: 0.918194593333333

00:32:41.476 --> 00:32:43.150 that has already been published,

54

NOTE Confidence: 0.918194593333333

00:32:43.150 --> 00:32:45.810 like this one, these edits,

NOTE Confidence: 0.918194593333333

00:32:45.810 --> 00:32:47.455 these very important edits I made here,

NOTE Confidence: 0.918194593333333

00:32:47.460 --> 00:32:49.994 are not going to appear on the

NOTE Confidence: 0.918194593333333

00:32:49.994 --> 00:32:53.086 website until I go back down to this.

NOTE Confidence: 0.918194593333333

00:32:53.086 --> 00:32:56.816 Publish section and hit publish.

NOTE Confidence: 0.918194593333333

00:32:56.820 --> 00:32:59.596 Once I do that and publish my changes,

NOTE Confidence: 0.918194593333333

00:32:59.600 --> 00:33:01.896 that will send a signal to update

NOTE Confidence: 0.918194593333333

00:33:01.896 --> 00:33:03.780 the content on the website.

NOTE Confidence: 0.918194593333333

00:33:03.780 --> 00:33:04.970 So that's just an important

NOTE Confidence: 0.918194593333333

00:33:04.970 --> 00:33:06.160 thing to keep in mind.

NOTE Confidence: 0.918194593333333

00:33:06.160 --> 00:33:08.064 If you go back to an existing article,

NOTE Confidence: 0.918194593333333

00:33:08.070 --> 00:33:09.040 make some edits and you're

NOTE Confidence: 0.918194593333333

00:33:09.040 --> 00:33:10.010 not seeing on the website,

NOTE Confidence: 0.918194593333333

00:33:10.010 --> 00:33:11.194 but on the website,

NOTE Confidence: 0.918194593333333

00:33:11.194 --> 00:33:13.372 please make sure that you've gone in

NOTE Confidence: 0.918194593333333

00:33:13.372 --> 00:33:15.102 and actually published that article

NOTE Confidence: 0.918194593333333

00:33:15.102 --> 00:33:16.880 after you finish making edits.

NOTE Confidence: 0.918194593333333

00:33:16.880 --> 00:33:18.500 Same exact concept for events,

NOTE Confidence: 0.918194593333333

00:33:18.500 --> 00:33:21.484 which we'll get to in a little bit.

NOTE Confidence: 0.918194593333333

00:33:21.490 --> 00:33:23.986 I realized I skipped over one new feature,

NOTE Confidence: 0.918194593333333

00:33:23.990 --> 00:33:26.650 which are these helpful anchor tags here.

NOTE Confidence: 0.918194593333333

00:33:26.650 --> 00:33:31.179 You might notice that in many cases.

NOTE Confidence: 0.918194593333333

00:33:31.180 --> 00:33:33.880 Interfaces that were multiple screens in

NOTE Confidence: 0.918194593333333

00:33:33.880 --> 00:33:36.434 profile system have now been condensed

NOTE Confidence: 0.918194593333333

00:33:36.434 --> 00:33:39.138 down to a single page and this is

NOTE Confidence: 0.918194593333333

00:33:39.208 --> 00:33:42.328 both just the trend in web technology.

NOTE Confidence: 0.918194593333333

00:33:42.330 --> 00:33:43.956 Now we're getting used to more

NOTE Confidence: 0.918194593333333

00:33:43.956 --> 00:33:45.040 scrolling and longer pages.

NOTE Confidence: 0.918194593333333

00:33:45.040 --> 00:33:47.068 But to help mitigate the difficulty

NOTE Confidence: 0.918194593333333

00:33:47.068 --> 00:33:49.884 that can cause when you have to deal

NOTE Confidence: 0.918194593333333

00:33:49.884 --> 00:33:51.984 with scrolling through really long page,

NOTE Confidence: 0.918194593333333

00:33:51.990 --> 00:33:53.215 we added added these little

NOTE Confidence: 0.918194593333333

00:33:53.215 --> 00:33:54.940 anchors to the side of the page.

NOTE Confidence: 0.918194593333333

00:33:54.940 --> 00:33:57.502 You can quickly jump from one section

NOTE Confidence: 0.918194593333333

00:33:57.502 --> 00:33:59.614 to the other without necessarily

NOTE Confidence: 0.918194593333333

00:33:59.614 --> 00:34:03.163 having to scroll and skim the page.

NOTE Confidence: 0.918194593333333

00:34:03.170 --> 00:34:05.984 Just note that your your viewport with.

NOTE Confidence: 0.918194593333333

00:34:05.990 --> 00:34:07.685 Sorry, your browser doesn't have

NOTE Confidence: 0.918194593333333

00:34:07.685 --> 00:34:09.850 to be a little bit wider.

NOTE Confidence: 0.918194593333333

00:34:09.850 --> 00:34:12.370 This element simply can't fit if I

NOTE Confidence: 0.918194593333333

00:34:12.370 --> 00:34:14.890 have my browser narrowed like this.

NOTE Confidence: 0.918194593333333

00:34:14.890 --> 00:34:17.490 So if you want to use this element,

NOTE Confidence: 0.918194593333333

00:34:17.490 --> 00:34:18.574 you're not seeing it.

NOTE Confidence: 0.918194593333333

00:34:18.574 --> 00:34:20.200 Just make sure you can expand

NOTE Confidence: 0.918194593333333

00:34:20.258 --> 00:34:21.110 your browser to.

NOTE Confidence: 0.918194593333333

00:34:21.110 --> 00:34:26.266 I think it has to be above 1300 pixels.

NOTE Confidence: 0.918194593333333

00:34:26.266 --> 00:34:28.030 That's a guess,

NOTE Confidence: 0.918194593333333

00:34:28.030 --> 00:34:28.686 but anyway,

NOTE Confidence: 0.918194593333333

00:34:28.686 --> 00:34:30.982 just if you're not seeing this element,

NOTE Confidence: 0.918194593333333

00:34:30.990 --> 00:34:32.654 just stretch out your browser a little bit.

NOTE Confidence: 0.883181700714286

00:34:32.660 --> 00:34:34.180 If you can and it should appear for

NOTE Confidence: 0.883181700714286

00:34:34.180 --> 00:34:35.740 you so you can quickly navigate.

NOTE Confidence: 0.808211520769231

00:34:38.830 --> 00:34:41.586 Other items about news,

NOTE Confidence: 0.808211520769231

00:34:41.586 --> 00:34:45.031 one important update we added

NOTE Confidence: 0.808211520769231

00:34:45.031 --> 00:34:47.949 recently are related events.

NOTE Confidence: 0.808211520769231

00:34:47.950 --> 00:34:50.827 So now if you have an event,

NOTE Confidence: 0.808211520769231

00:34:50.830 --> 00:34:52.414 especially if you have a larger

NOTE Confidence: 0.808211520769231

00:34:52.414 --> 00:34:54.049 event like a conference or retreat,

NOTE Confidence: 0.808211520769231

00:34:54.050 --> 00:34:55.779 you might be writing a news article

NOTE Confidence: 0.808211520769231

00:34:55.779 --> 00:34:57.997 about that and it could be handy to link

NOTE Confidence: 0.808211520769231

00:34:57.997 --> 00:34:59.988 directly to that event from a news article.

NOTE Confidence: 0.808211520769231

00:34:59.990 --> 00:35:01.454 That is possible.

NOTE Confidence: 0.808211520769231

00:35:01.454 --> 00:35:04.870 Now I could simply click add new

NOTE Confidence: 0.808211520769231

00:35:04.975 --> 00:35:08.523 under related events I can search.

NOTE Confidence: 0.808211520769231

00:35:08.523 --> 00:35:11.812 For an event, I'm going to add my test

NOTE Confidence: 0.808211520769231

00:35:11.812 --> 00:35:13.879 event that I created the other day.

NOTE Confidence: 0.808211520769231

00:35:13.880 --> 00:35:16.666 And it's my related events and then

NOTE Confidence: 0.808211520769231

00:35:16.666 --> 00:35:18.915 and there's already another related

NOTE Confidence: 0.808211520769231

00:35:18.915 --> 00:35:21.350 event that was here previously.

NOTE Confidence: 0.808211520769231

00:35:21.350 --> 00:35:24.430 And when I go to preview this article,

NOTE Confidence: 0.808211520769231

00:35:24.430 --> 00:35:27.870 I should see my event highlighted

NOTE Confidence: 0.808211520769231

00:35:27.870 --> 00:35:29.870 in the side column here.

NOTE Confidence: 0.808211520769231

00:35:29.870 --> 00:35:31.844 So it'll give that you could have

NOTE Confidence: 0.808211520769231

00:35:31.844 --> 00:35:33.420 a article that maybe mentions

NOTE Confidence: 0.808211520769231

00:35:33.420 --> 00:35:35.406 or is entirely about an event,

NOTE Confidence: 0.808211520769231

00:35:35.410 --> 00:35:37.450 and if users who are reading

NOTE Confidence: 0.808211520769231

00:35:37.450 --> 00:35:38.810 this article are interested,

NOTE Confidence: 0.808211520769231

00:35:38.810 --> 00:35:41.266 they can click over to see the event.

NOTE Confidence: 0.808211520769231

00:35:41.270 --> 00:35:44.438 And they will get more details

NOTE Confidence: 0.808211520769231

00:35:44.438 --> 00:35:46.022 about that event.

NOTE Confidence: 0.808211520769231

00:35:46.030 --> 00:35:48.250 Um, other.

NOTE Confidence: 0.844349370833333

00:35:52.420 --> 00:35:54.928 I guess the only other thing

NOTE Confidence: 0.844349370833333

00:35:54.928 --> 00:35:57.240 I want to mention is um.

NOTE Confidence: 0.844349370833333

00:35:57.240 --> 00:36:01.320 Suggesting articles and sharing articles.

NOTE Confidence: 0.844349370833333

00:36:01.320 --> 00:36:02.474 Um, importantly,

NOTE Confidence: 0.844349370833333

00:36:02.474 --> 00:36:05.359 there is this visibility setting.

NOTE Confidence: 0.844349370833333

00:36:05.360 --> 00:36:07.600 If you're entering an article,

NOTE Confidence: 0.844349370833333

00:36:07.600 --> 00:36:08.300 obviously these articles are

NOTE Confidence: 0.844349370833333

00:36:08.300 --> 00:36:09.520 going to share it on the web,

NOTE Confidence: 0.844349370833333

00:36:09.520 --> 00:36:11.116 so you don't want to update

NOTE Confidence: 0.844349370833333

00:36:11.116 --> 00:36:12.180 upload anything to private.

NOTE Confidence: 0.844349370833333

00:36:12.180 --> 00:36:14.015 But maybe you're uploading some

NOTE Confidence: 0.844349370833333

00:36:14.015 --> 00:36:16.182 article that you really only want

NOTE Confidence: 0.844349370833333

00:36:16.182 --> 00:36:17.560 to appear on your department's

NOTE Confidence: 0.844349370833333

00:36:17.560 --> 00:36:19.660 website and you don't want it to

NOTE Confidence: 0.844349370833333

00:36:19.660 --> 00:36:21.172 appear on other department websites

NOTE Confidence: 0.844349370833333

00:36:21.172 --> 00:36:22.687 through the School of Medicine,

NOTE Confidence: 0.844349370833333

00:36:22.690 --> 00:36:24.218 the main home page.

NOTE Confidence: 0.844349370833333

00:36:24.218 --> 00:36:25.364 In that case,

NOTE Confidence: 0.844349370833333

00:36:25.370 --> 00:36:27.194 what you should do is set this news.

NOTE Confidence: 0.844349370833333

00:36:27.200 --> 00:36:29.865 Privacy to private what that

NOTE Confidence: 0.844349370833333

00:36:29.865 --> 00:36:33.554 is going to do is prevent this

NOTE Confidence: 0.844349370833333

00:36:33.554 --> 00:36:35.602 article from being automatically

NOTE Confidence: 0.844349370833333

00:36:35.602 --> 00:36:37.650 suggested to other organizations.

NOTE Confidence: 0.844349370833333

00:36:37.650 --> 00:36:38.014 Generally,

NOTE Confidence: 0.844349370833333

00:36:38.014 --> 00:36:40.562 when you submit a news article and

NOTE Confidence: 0.844349370833333

00:36:40.562 --> 00:36:42.787 you start tagging people who are

NOTE Confidence: 0.844349370833333

00:36:42.787 --> 00:36:45.729 mentioned in the article as you tag people,

NOTE Confidence: 0.844349370833333

00:36:45.730 --> 00:36:50.610 it's going to suggest.

NOTE Confidence: 0.844349370833333

00:36:50.610 --> 00:36:53.075 This article to the organizations

NOTE Confidence: 0.844349370833333

00:36:53.075 --> 00:36:55.047 that person belongs to.

NOTE Confidence: 0.844349370833333

00:36:55.050 --> 00:36:59.052 So I just added myself and when I

NOTE Confidence: 0.844349370833333

00:36:59.052 --> 00:37:01.776 go down to the organizations that

NOTE Confidence: 0.844349370833333

00:37:01.776 --> 00:37:05.180 this article has been suggested to.

NOTE Confidence: 0.784105208

00:37:07.470 --> 00:37:10.450 I should see my organizations,

NOTE Confidence: 0.784105208

00:37:10.450 --> 00:37:11.215 although I don't.

NOTE Confidence: 0.784105208

00:37:11.215 --> 00:37:12.745 It might be because I've screwed

NOTE Confidence: 0.784105208

00:37:12.745 --> 00:37:15.322 up my own data. Anyway it does,

NOTE Confidence: 0.784105208

00:37:15.322 --> 00:37:18.142 it will add organizations based

NOTE Confidence: 0.784105208

00:37:18.142 --> 00:37:21.886 on who you tag in this article.

NOTE Confidence: 0.784105208

00:37:21.890 --> 00:37:24.865 To send it to their approval queues.

NOTE Confidence: 0.784105208

00:37:24.870 --> 00:37:27.246 So just keep in mind if you don't

NOTE Confidence: 0.784105208

00:37:27.246 --> 00:37:29.729 want to be sharing your articles,

NOTE Confidence: 0.784105208

00:37:29.730 --> 00:37:32.490 it probably is a rare case,

NOTE Confidence: 0.784105208

00:37:32.490 --> 00:37:34.422 but just make sure that you toggle

NOTE Confidence: 0.784105208

00:37:34.422 --> 00:37:36.320 this news privacy setting to private.

NOTE Confidence: 0.86959140625

00:37:39.470 --> 00:37:40.602 We also have tags.

NOTE Confidence: 0.86959140625

00:37:40.602 --> 00:37:42.300 These function the same way as

NOTE Confidence: 0.86959140625

00:37:42.360 --> 00:37:44.208 they did in the previous system.

NOTE Confidence: 0.86959140625

00:37:44.210 --> 00:37:46.877 We have public tags that get exposed

NOTE Confidence: 0.86959140625

00:37:46.877 --> 00:37:50.285 on the website, so when a user is

NOTE Confidence: 0.86959140625

00:37:50.285 --> 00:37:52.550 searching for news for example,

NOTE Confidence: 0.86959140625

00:37:52.550 --> 00:37:55.250 they will see keywords that

NOTE Confidence: 0.86959140625

00:37:55.250 --> 00:37:57.790 they can filter through to.

NOTE Confidence: 0.86959140625

00:37:57.790 --> 00:38:00.450 Try to find news that's relevant to

NOTE Confidence: 0.86959140625

00:38:00.450 --> 00:38:02.999 the topic they're interested in.

NOTE Confidence: 0.86959140625

00:38:03.000 --> 00:38:05.300 That's what public tags are.

NOTE Confidence: 0.86959140625

00:38:05.300 --> 00:38:06.468 Private tags are something

NOTE Confidence: 0.86959140625

00:38:06.468 --> 00:38:07.636 a little bit different.

NOTE Confidence: 0.86959140625

63

00:38:07.640 --> 00:38:10.045 Private tags are used if

NOTE Confidence: 0.86959140625

00:38:10.045 --> 00:38:12.450 for example on your site.

NOTE Confidence: 0.86959140625

00:38:12.450 --> 00:38:15.940 You want to have a.

NOTE Confidence: 0.86959140625

00:38:15.940 --> 00:38:16.870 You might have lots and

NOTE Confidence: 0.86959140625

00:38:16.870 --> 00:38:18.060 lots of news on your site,

NOTE Confidence: 0.86959140625

00:38:18.060 --> 00:38:18.756 but maybe,

NOTE Confidence: 0.86959140625

00:38:18.756 --> 00:38:21.192 and this is a good example here,

NOTE Confidence: 0.86959140625

00:38:21.200 --> 00:38:22.550 the school of Public Health

NOTE Confidence: 0.86959140625

00:38:22.550 --> 00:38:23.360 on their homepage,

NOTE Confidence: 0.86959140625

00:38:23.360 --> 00:38:24.984 they only want a subset of their

NOTE Confidence: 0.86959140625

00:38:24.984 --> 00:38:26.315 news that's really really important

NOTE Confidence: 0.86959140625

00:38:26.315 --> 00:38:27.780 to appear on their homepage.

NOTE Confidence: 0.86959140625

00:38:27.780 --> 00:38:29.936 So they have this private tag called

NOTE Confidence: 0.86959140625

00:38:29.936 --> 00:38:32.687 Y SH feature that is used to tag

NOTE Confidence: 0.86959140625

00:38:32.687 --> 00:38:34.095 articles that they specifically

NOTE Confidence: 0.86959140625

00:38:34.095 --> 00:38:36.339 want to appear in their home page.

NOTE Confidence: 0.86959140625

00:38:36.340 --> 00:38:39.147 And then on the website we've set

NOTE Confidence: 0.86959140625

00:38:39.147 --> 00:38:42.352 up the news feed that appears on the

NOTE Confidence: 0.86959140625

00:38:42.352 --> 00:38:44.680 school of Public Health Home page.

NOTE Confidence: 0.86959140625

00:38:44.680 --> 00:38:45.474 So only.

NOTE Confidence: 0.86959140625

00:38:45.474 --> 00:38:47.459 Outputs the articles that are

NOTE Confidence: 0.86959140625

00:38:47.459 --> 00:38:49.947 tagged with that Y pH feature tag.

NOTE Confidence: 0.883327608666667

00:38:52.270 --> 00:38:54.015 Again, this is something that

NOTE Confidence: 0.883327608666667

00:38:54.015 --> 00:38:56.477 our office would have to set up

NOTE Confidence: 0.883327608666667

00:38:56.477 --> 00:38:58.112 for you initially, so again,

NOTE Confidence: 0.883327608666667

00:38:58.112 --> 00:39:00.098 you can just contact us why

NOTE Confidence: 0.883327608666667

00:39:00.098 --> 00:39:01.630 sound editor at yale.edu.

NOTE Confidence: 0.883327608666667

00:39:01.630 --> 00:39:03.514 But once we do that initial

NOTE Confidence: 0.883327608666667

00:39:03.514 --> 00:39:04.770 setup for your site,

NOTE Confidence: 0.883327608666667

00:39:04.770 --> 00:39:07.143 you can use those tags as you're

NOTE Confidence: 0.883327608666667

00:39:07.143 --> 00:39:08.811 entering news articles to make

NOTE Confidence: 0.883327608666667

00:39:08.811 --> 00:39:10.551 them appear in the right place

NOTE Confidence: 0.883327608666667

00:39:10.551 --> 00:39:12.310 that you want on your site.

NOTE Confidence: 0.856186543

00:39:15.280 --> 00:39:16.500 I think that's only going

NOTE Confidence: 0.856186543

00:39:16.500 --> 00:39:17.720 to for news for now.

NOTE Confidence: 0.856186543

00:39:17.720 --> 00:39:19.526 I'm going to go on to events.

NOTE Confidence: 0.856186543

00:39:19.530 --> 00:39:22.090 I'm going to try to keep it quick

NOTE Confidence: 0.856186543

00:39:22.090 --> 00:39:24.927 here so we have time for questions.

NOTE Confidence: 0.856186543

00:39:24.930 --> 00:39:27.018 Events are honestly function.

NOTE Confidence: 0.856186543

00:39:27.018 --> 00:39:29.628 The fields are obviously different

NOTE Confidence: 0.856186543

00:39:29.628 --> 00:39:31.953 because we have things like start

NOTE Confidence: 0.856186543

00:39:31.953 --> 00:39:34.939 date and end date and RCP information.

NOTE Confidence: 0.856186543

00:39:34.939 --> 00:39:38.137 But the process to publish and

NOTE Confidence: 0.856186543

00:39:38.137 --> 00:39:40.595 share events is really identical

NOTE Confidence: 0.856186543

00:39:40.595 --> 00:39:44.280 to what we have set up for news.

NOTE Confidence: 0.856186543

00:39:44.280 --> 00:39:46.317 So when I get down to tagging

NOTE Confidence: 0.856186543

00:39:46.317 --> 00:39:48.140 this event in people again,

NOTE Confidence: 0.856186543

00:39:48.140 --> 00:39:50.384 I have a privacy setting that

NOTE Confidence: 0.856186543

00:39:50.384 --> 00:39:52.851 functions exactly the same way as the

NOTE Confidence: 0.856186543

00:39:52.851 --> 00:39:54.951 news privacy if I keep this event.

NOTE Confidence: 0.856186543

00:39:54.960 --> 00:39:56.634 Private it's not going to get

NOTE Confidence: 0.856186543

00:39:56.634 --> 00:39:58.250 automatically suggested to other calendars.

NOTE Confidence: 0.856186543

00:39:58.250 --> 00:39:59.966 This is probably honestly going to

NOTE Confidence: 0.856186543

00:39:59.966 --> 00:40:01.755 happen more often with count calendar

NOTE Confidence: 0.856186543

00:40:01.755 --> 00:40:03.235 events that maybe you're hosting

NOTE Confidence: 0.856186543

00:40:03.235 --> 00:40:05.228 an event to your department site,

NOTE Confidence: 0.856186543

00:40:05.230 --> 00:40:07.008 but the audience is limited to your

NOTE Confidence: 0.856186543

00:40:07.008 --> 00:40:09.053 department so you don't even want it to

NOTE Confidence: 0.856186543

00:40:09.053 --> 00:40:10.809 appear on the school medicine home site.

NOTE Confidence: 0.856186543

00:40:10.810 --> 00:40:13.050 So you might want to make that event

NOTE Confidence: 0.856186543

00:40:13.050 --> 00:40:15.485 private so it's only appearing for people

NOTE Confidence: 0.856186543

00:40:15.485 --> 00:40:18.020 who are visiting your specific department.

NOTE Confidence: 0.856186543

00:40:18.020 --> 00:40:20.024 Public and private tags are working

NOTE Confidence: 0.856186543

00:40:20.024 --> 00:40:22.196 exactly the same way as they do

NOTE Confidence: 0.856186543

00:40:22.196 --> 00:40:23.744 in news as I just described.

NOTE Confidence: 0.856186543

00:40:23.750 --> 00:40:26.100 Um.

NOTE Confidence: 0.856186543

00:40:26.100 --> 00:40:26.544 Again,

NOTE Confidence: 0.856186543

00:40:26.544 --> 00:40:29.208 the people that you tag as

NOTE Confidence: 0.856186543

00:40:29.208 --> 00:40:32.229 speakers or hosts of this event,

NOTE Confidence: 0.856186543

00:40:32.229 --> 00:40:36.170 if the event privacy setting is public,

NOTE Confidence: 0.856186543

00:40:36.170 --> 00:40:38.260 as you tag those people,

NOTE Confidence: 0.856186543

00:40:38.260 --> 00:40:40.636 this event will be suggested to

NOTE Confidence: 0.856186543

00:40:40.636 --> 00:40:42.220 those relevant calendars that

NOTE Confidence: 0.856186543

00:40:42.290 --> 00:40:45.698 those people that are that.

NOTE Confidence: 0.856186543

00:40:45.700 --> 00:40:47.364 Correspond to the organizations

NOTE Confidence: 0.856186543

00:40:47.364 --> 00:40:49.028 those people belong to.

NOTE Confidence: 0.856186543

00:40:49.030 --> 00:40:54.619 And again we have the same sort of publish.

NOTE Confidence: 0.856186543

00:40:54.620 --> 00:40:55.278 Behavior here?

NOTE Confidence: 0.856186543

00:40:55.278 --> 00:40:57.910 Um, my event is not going to appear

NOTE Confidence: 0.856186543

00:40:57.978 --> 00:41:00.938 anywhere until I hit publish this first time.

NOTE Confidence: 0.856186543

00:41:00.940 --> 00:41:03.504 If I go back and edit this event later,

NOTE Confidence: 0.856186543

00:41:03.510 --> 00:41:04.920 I'm going to have to click

NOTE Confidence: 0.856186543

00:41:04.920 --> 00:41:06.420 publish again for it to update.

NOTE Confidence: 0.856186543

00:41:06.420 --> 00:41:09.006 One really important feature that is

NOTE Confidence: 0.856186543

00:41:09.006 --> 00:41:11.980 easy to overlook is the event status.

NOTE Confidence: 0.856186543

00:41:11.980 --> 00:41:12.820 By default,

NOTE Confidence: 0.856186543

00:41:12.820 --> 00:41:14.470 the event status is confirmed.

NOTE Confidence: 0.856186543

00:41:14.470 --> 00:41:17.320 That means this event schedule it's,

NOTE Confidence: 0.856186543

00:41:17.320 --> 00:41:18.210 as far as we know,

NOTE Confidence: 0.856186543

00:41:18.210 --> 00:41:20.142 definitely going to happen and we

NOTE Confidence: 0.856186543

00:41:20.142 --> 00:41:22.456 want people to start adding it to

NOTE Confidence: 0.856186543

00:41:22.456 --> 00:41:25.420 their calendar if in the event you're.

NOTE Confidence: 0.856186543

00:41:25.420 --> 00:41:26.581 Event is cancelled.

NOTE Confidence: 0.856186543

69

00:41:26.581 --> 00:41:29.290 Please do not log into the system,

NOTE Confidence: 0.856186543

00:41:29.290 --> 00:41:30.714 just delete the event,

NOTE Confidence: 0.856186543

00:41:30.714 --> 00:41:32.494 because that's just going to

NOTE Confidence: 0.856186543

00:41:32.494 --> 00:41:34.612 disappear from the website and people

NOTE Confidence: 0.856186543

00:41:34.612 --> 00:41:36.307 might have seen it previously,

NOTE Confidence: 0.856186543

00:41:36.310 --> 00:41:37.730 could very easily not notice

NOTE Confidence: 0.856186543

00:41:37.730 --> 00:41:38.866 that it's been canceled,

NOTE Confidence: 0.856186543

00:41:38.870 --> 00:41:41.530 and maybe they'll show up.

NOTE Confidence: 0.856186543

00:41:41.530 --> 00:41:43.108 So what you should do instead,

NOTE Confidence: 0.856186543

00:41:43.110 --> 00:41:45.333 if an event that you had entered in the

NOTE Confidence: 0.856186543

00:41:45.333 --> 00:41:47.247 system was appearing on your website,

NOTE Confidence: 0.856186543

00:41:47.250 --> 00:41:48.714 is then cancelled,

NOTE Confidence: 0.856186543

00:41:48.714 --> 00:41:50.666 is coming to Beatrix.

NOTE Confidence: 0.856186543

00:41:50.670 --> 00:41:53.016 Browse to the event that you're

NOTE Confidence: 0.856186543

00:41:53.016 --> 00:41:55.600 editing and change the event status.

NOTE Confidence: 0.856186543

00:41:55.600 --> 00:41:57.870 From confirmed to cancelled and

70

NOTE Confidence: 0.856186543

00:41:57.870 --> 00:41:58.778 then republish.

NOTE Confidence: 0.856186543

00:41:58.780 --> 00:42:01.756 Go down to publish and publish that event.

NOTE Confidence: 0.856186543

00:42:01.760 --> 00:42:03.804 What that will do is give the

NOTE Confidence: 0.856186543

00:42:03.804 --> 00:42:05.438 event some special formatting on

NOTE Confidence: 0.856186543

00:42:05.438 --> 00:42:07.520 the live website so it'll appear

NOTE Confidence: 0.856186543

00:42:07.520 --> 00:42:09.445 grayed out and it'll say cancelled

NOTE Confidence: 0.856186543

00:42:09.445 --> 00:42:11.950 in big letters on top of the event

NOTE Confidence: 0.856186543

00:42:11.950 --> 00:42:14.575 so that users who see that event,

NOTE Confidence: 0.856186543

00:42:14.580 --> 00:42:15.798 maybe they saw it before and

NOTE Confidence: 0.856186543

00:42:15.798 --> 00:42:16.780 they were planning to go.

NOTE Confidence: 0.856186543

00:42:16.780 --> 00:42:19.780 Now they know the events have been cancelled,

NOTE Confidence: 0.889603663888889

00:42:19.780 --> 00:42:22.560 so please just keep that in mind if an event

NOTE Confidence: 0.889603663888889

00:42:22.627 --> 00:42:25.403 you submit to the system does get cancelled.

NOTE Confidence: 0.889603663888889

00:42:25.410 --> 00:42:27.810 Umm, the last bit I'm going to go

NOTE Confidence: 0.889603663888889

00:42:27.810 --> 00:42:29.947 over here is the media library.

NOTE Confidence: 0.889603663888889

00:42:29.950 --> 00:42:32.272 We made some pretty extensive updates

NOTE Confidence: 0.889603663888889

00:42:32.272 --> 00:42:34.689 to the media Library and Beatrix.

NOTE Confidence: 0.889603663888889

00:42:34.690 --> 00:42:38.645 Previously it only hosted video and audio,

NOTE Confidence: 0.889603663888889

00:42:38.650 --> 00:42:41.986 and while we have made some UI improvements,

NOTE Confidence: 0.889603663888889

00:42:41.990 --> 00:42:44.930 the functionality there is largely the same.

NOTE Confidence: 0.889603663888889

00:42:44.930 --> 00:42:46.802 Where a lot of the enhancements

NOTE Confidence: 0.889603663888889

00:42:46.802 --> 00:42:48.570 come in are with images.

NOTE Confidence: 0.889603663888889

00:42:48.570 --> 00:42:51.738 Images are now indexed in this media library

NOTE Confidence: 0.889603663888889

00:42:51.738 --> 00:42:55.311 along with video and audio, and this has.

NOTE Confidence: 0.889603663888889

00:42:55.311 --> 00:42:57.896 Some really good advantages because

NOTE Confidence: 0.889603663888889

00:42:57.896 --> 00:43:03.370 basically any image that you upload to any.

NOTE Confidence: 0.889603663888889

00:43:03.370 --> 00:43:05.701 Objects in the system is going to

NOTE Confidence: 0.889603663888889

00:43:05.701 --> 00:43:08.130 get stored in this media library.

NOTE Confidence: 0.889603663888889

00:43:08.130 --> 00:43:10.990 So if I go back to, for example,

NOTE Confidence: 0.889603663888889

00:43:10.990 --> 00:43:14.450 my news article that I was looking at before.

NOTE Confidence: 0.889603663888889

00:43:14.450 --> 00:43:17.060 When I go to say I want to add a

72

NOTE Confidence: 0.889603663888889

00:43:17.146 --> 00:43:20.247 image to this paragraph of my article,

NOTE Confidence: 0.889603663888889

00:43:20.250 --> 00:43:22.686 I would click into this news article,

NOTE Confidence: 0.889603663888889

00:43:22.690 --> 00:43:27.400 right click this add button, click media.

NOTE Confidence: 0.889603663888889

00:43:27.400 --> 00:43:29.232 And from this point, um, right away.

NOTE Confidence: 0.889603663888889

00:43:29.232 --> 00:43:30.787 There are some improvements here.

NOTE Confidence: 0.889603663888889

00:43:30.790 --> 00:43:32.855 For one, I see the media that's

NOTE Confidence: 0.889603663888889

00:43:32.855 --> 00:43:34.620 already used in this article.

NOTE Confidence: 0.889603663888889

00:43:34.620 --> 00:43:36.900 So.

NOTE Confidence: 0.889603663888889

00:43:36.900 --> 00:43:38.982 This this article was imported from

NOTE Confidence: 0.889603663888889

00:43:38.982 --> 00:43:41.119 the previous system and as you can

NOTE Confidence: 0.889603663888889

00:43:41.119 --> 00:43:43.493 see in order to get the look for the

NOTE Confidence: 0.889603663888889

00:43:43.493 --> 00:43:45.258 article that the submitter wanted,

NOTE Confidence: 0.889603663888889

00:43:45.260 --> 00:43:47.178 they end upload the same image twice.

NOTE Confidence: 0.889603663888889

00:43:47.180 --> 00:43:48.842 Probably because they wanted to use

NOTE Confidence: 0.889603663888889

00:43:48.842 --> 00:43:50.595 this this image for the thumbnail

NOTE Confidence: 0.889603663888889

00:43:50.595 --> 00:43:52.377 that appears when the news article

NOTE Confidence: 0.889603663888889

00:43:52.377 --> 00:43:54.349 appears in listings and also as a big

NOTE Confidence: 0.889603663888889

00:43:54.349 --> 00:43:56.776 hero image at the top of the article,

NOTE Confidence: 0.889603663888889

00:43:56.776 --> 00:43:58.696 so they uploaded it twice.

NOTE Confidence: 0.889603663888889

00:43:58.700 --> 00:44:01.100 Now, when I went to go add my hero image,

NOTE Confidence: 0.889603663888889

00:44:01.100 --> 00:44:03.732 I would have seen this image in my

NOTE Confidence: 0.889603663888889

00:44:03.732 --> 00:44:06.038 media already used for the thumbnail,

NOTE Confidence: 0.889603663888889

00:44:06.040 --> 00:44:07.800 and I could have just selected the same

NOTE Confidence: 0.889603663888889

00:44:07.800 --> 00:44:09.197 image instead of uploading it again.

NOTE Confidence: 0.889603663888889

00:44:09.200 --> 00:44:11.639 So that's a little bit of a time saver.

NOTE Confidence: 0.889603663888889

00:44:11.640 --> 00:44:12.270 In addition,

NOTE Confidence: 0.889603663888889

00:44:12.270 --> 00:44:14.160 when you first open this pop

NOTE Confidence: 0.889603663888889

00:44:14.160 --> 00:44:15.840 up for choosing media,

NOTE Confidence: 0.889603663888889

00:44:15.840 --> 00:44:16.974 you're going to see other media

NOTE Confidence: 0.889603663888889

00:44:16.974 --> 00:44:18.090 that you've looked at recently,

NOTE Confidence: 0.889603663888889

00:44:18.090 --> 00:44:20.393 even if it's not in the context

NOTE Confidence: 0.889603663888889

00:44:20.393 --> 00:44:21.380 of this article,

NOTE Confidence: 0.889603663888889

00:44:21.380 --> 00:44:23.498 because maybe I just uploaded something

NOTE Confidence: 0.889603663888889

00:44:23.498 --> 00:44:26.289 in the media library and then I later went

NOTE Confidence: 0.889603663888889

00:44:26.289 --> 00:44:28.907 to write a news article that uses that video.

NOTE Confidence: 0.889603663888889

00:44:28.910 --> 00:44:32.790 So we're going to populate that list here.

NOTE Confidence: 0.889603663888889

00:44:32.790 --> 00:44:33.804 In addition,

NOTE Confidence: 0.889603663888889

00:44:33.804 --> 00:44:34.818 very importantly,

NOTE Confidence: 0.889603663888889

00:44:34.818 --> 00:44:38.728 I can click public and see all of

NOTE Confidence: 0.889603663888889

00:44:38.728 --> 00:44:41.430 the media in the system that is.

NOTE Confidence: 0.889603663888889

00:44:41.430 --> 00:44:43.355 That the uploader has indicated

NOTE Confidence: 0.889603663888889

00:44:43.355 --> 00:44:46.519 it can be used for other purposes.

NOTE Confidence: 0.762107767777778

00:44:49.010 --> 00:44:51.430 So, Umm, and importantly,

NOTE Confidence: 0.762107767777778

00:44:51.430 --> 00:44:54.737 this includes the headshots for anyone

NOTE Confidence: 0.762107767777778

00:44:54.737 --> 00:44:56.676 who has a headshot on their website.

NOTE Confidence: 0.762107767777778

00:44:56.680 --> 00:45:00.124 So if we pretend that this article

NOTE Confidence: 0.762107767777778

00:45:00.124 --> 00:45:02.588 mentioned doctor Josh Koppel,

NOTE Confidence: 0.762107767777778

00:45:02.588 --> 00:45:07.180 I can search for his last name.

NOTE Confidence: 0.762107767777778

00:45:07.180 --> 00:45:09.668 And some of the 1st results here are

NOTE Confidence: 0.762107767777778

00:45:09.668 --> 00:45:12.279 again data imported from the old system.

NOTE Confidence: 0.762107767777778

00:45:12.280 --> 00:45:14.310 But we have a million versions of

NOTE Confidence: 0.762107767777778

00:45:14.310 --> 00:45:15.960 Josh Koppel's headshot in the system.

NOTE Confidence: 0.762107767777778

00:45:15.960 --> 00:45:19.040 I can just select the one that I

NOTE Confidence: 0.762107767777778

00:45:19.040 --> 00:45:22.604 want and add it to this page and I

NOTE Confidence: 0.762107767777778

00:45:22.604 --> 00:45:25.429 will have added his headshot. Umm.

NOTE Confidence: 0.762107767777778

00:45:25.429 --> 00:45:27.872 I do have to select the alignment

NOTE Confidence: 0.762107767777778

00:45:27.872 --> 00:45:30.656 when I'm adding it into the article.

NOTE Confidence: 0.762107767777778

00:45:30.660 --> 00:45:33.360 And now I've entered this image

NOTE Confidence: 0.762107767777778

00:45:33.360 --> 00:45:35.040 into my article. Umm.

NOTE Confidence: 0.762107767777778

00:45:35.040 --> 00:45:37.020 I just want to point out

NOTE Confidence: 0.762107767777778

00:45:37.020 --> 00:45:38.839 really quickly you could also.

NOTE Confidence: 0.762107767777778

00:45:38.840 --> 00:45:41.279 I would also be able to upload my own

NOTE Confidence: 0.762107767777778

00:45:41.280 --> 00:45:44.480 image if I wanted to if I were to do that.

NOTE Confidence: 0.762107767777778

00:45:44.480 --> 00:45:46.268 I just wanted to quickly mention.

NOTE Confidence: 0.898663752

00:45:51.200 --> 00:45:52.980 When I'm filling out the

NOTE Confidence: 0.898663752

00:45:52.980 --> 00:45:54.760 details for this new image,

NOTE Confidence: 0.898663752

00:45:54.760 --> 00:45:57.994 this reuse field is really what's important.

NOTE Confidence: 0.898663752

00:45:58.000 --> 00:46:00.154 This is what's going to determine

NOTE Confidence: 0.898663752

00:46:00.154 --> 00:46:02.282 whether or not other people can

NOTE Confidence: 0.898663752

00:46:02.282 --> 00:46:04.466 use this image for their or video

NOTE Confidence: 0.898663752

00:46:04.466 --> 00:46:06.777 or audio file or whatever it is.

NOTE Confidence: 0.898663752

00:46:06.780 --> 00:46:08.376 Whether other people can use this,

NOTE Confidence: 0.898663752

00:46:08.380 --> 00:46:11.500 or if I don't want it to show up in

NOTE Confidence: 0.898663752

00:46:11.597 --> 00:46:14.180 that public channel in this pop-up,

NOTE Confidence: 0.898663752

00:46:14.180 --> 00:46:16.180 I could just say none.

NOTE Confidence: 0.898663752

00:46:16.180 --> 00:46:18.444 Only I may use and then it's only

NOTE Confidence: 0.898663752

00:46:18.444 --> 00:46:20.636 going to be available to me and.

NOTE Confidence: 0.898663752

00:46:20.640 --> 00:46:22.568 Other people won't be able to grab it,

NOTE Confidence: 0.898663752

00:46:22.570 --> 00:46:24.450 so that's important if you're

NOTE Confidence: 0.898663752

00:46:24.450 --> 00:46:26.330 uploading something that you don't

NOTE Confidence: 0.898663752

00:46:26.393 --> 00:46:28.331 want people reusing or you have

NOTE Confidence: 0.898663752

00:46:28.331 --> 00:46:30.533 very specific rights to use and you

NOTE Confidence: 0.898663752

00:46:30.533 --> 00:46:32.507 could be could be getting in trouble

NOTE Confidence: 0.898663752

00:46:32.510 --> 00:46:33.763 if somebody else were to grab it

NOTE Confidence: 0.898663752

00:46:33.763 --> 00:46:35.309 and use it for their own purposes.

NOTE Confidence: 0.898663752

00:46:35.310 --> 00:46:37.126 Just select none only item use here and

NOTE Confidence: 0.898663752

00:46:37.126 --> 00:46:39.248 that will prevent other people from using it.

NOTE Confidence: 0.846550604

00:46:41.640 --> 00:46:42.687 Also, quick note,

NOTE Confidence: 0.846550604

00:46:42.687 --> 00:46:44.432 if you're collaborating with someone

NOTE Confidence: 0.846550604

00:46:44.432 --> 00:46:46.817 else in your office on news articles,

NOTE Confidence: 0.846550604

00:46:46.820 --> 00:46:48.530 events and such, you probably want

NOTE Confidence: 0.846550604

00:46:48.530 --> 00:46:50.694 to add them as an administrator of

NOTE Confidence: 0.846550604

00:46:50.694 --> 00:46:52.934 those of any media item you upload,

NOTE Confidence: 0.846550604

00:46:52.940 --> 00:46:55.748 because that will give them the

NOTE Confidence: 0.846550604

00:46:55.748 --> 00:46:59.090 rights to edit that item if needed.

NOTE Confidence: 0.846550604

00:46:59.090 --> 00:47:03.720 OK. Umm, I think we've only

NOTE Confidence: 0.846550604

00:47:03.720 --> 00:47:05.800 got about 12 minutes left.

NOTE Confidence: 0.846550604

00:47:05.800 --> 00:47:09.600 So I think I'm just going to cut off here.

NOTE Confidence: 0.846550604

00:47:09.600 --> 00:47:11.472 I reviewed a lot of the big new ticket,

NOTE Confidence: 0.846550604

00:47:11.480 --> 00:47:14.063 the big ticket items that are new

NOTE Confidence: 0.846550604

00:47:14.063 --> 00:47:16.385 or updated and improved and Beatrix

NOTE Confidence: 0.846550604

00:47:16.385 --> 00:47:19.515 and I just want to make sure I

NOTE Confidence: 0.846550604

00:47:19.515 --> 00:47:21.565 leave time for your questions.

NOTE Confidence: 0.846550604

00:47:21.570 --> 00:47:22.438 Whatever they may be.

NOTE Confidence: 0.937582288

00:47:27.980 --> 00:47:29.120 Do you have any questions?

NOTE Confidence: 0.781661249

00:47:31.950 --> 00:47:33.868 I don't have any I you're very

NOTE Confidence: 0.781661249

00:47:33.868 --> 00:47:36.604 thorough and as very clear to me so I

NOTE Confidence: 0.781661249

00:47:36.604 --> 00:47:38.408 appreciate your you're talking all and

NOTE Confidence: 0.781661249

00:47:38.408 --> 00:47:40.745 it just kind of following on on my own

NOTE Confidence: 0.781661249

00:47:40.745 --> 00:47:42.420 profile and it seems straightforward

NOTE Confidence: 0.781661249

00:47:42.420 --> 00:47:44.670 so thank you great that's awesome.

NOTE Confidence: 0.781661249

00:47:44.670 --> 00:47:46.566 And if you if questions come up later

NOTE Confidence: 0.781661249

00:47:46.566 --> 00:47:48.893 this was a very aside from a few specific

NOTE Confidence: 0.781661249

00:47:48.893 --> 00:47:50.550 features this was very high level.

NOTE Confidence: 0.781661249

00:47:50.550 --> 00:47:52.863 If you come up with a question as you're

NOTE Confidence: 0.781661249

00:47:52.863 --> 00:47:54.619 trying to make edits please do just

NOTE Confidence: 0.781661249

00:47:54.619 --> 00:47:56.889 e-mail us at why I send that editor at

NOTE Confidence: 0.781661249

00:47:56.890 --> 00:47:59.738 yale.edu or use this report a bug tool

NOTE Confidence: 0.781661249

00:47:59.738 --> 00:48:03.053 and we'll get back to you as soon as we can.

NOTE Confidence: 0.781661249

00:48:03.060 --> 00:48:03.939 Great. Thank you.

NOTE Confidence: 0.890551853333333

00:48:07.550 --> 00:48:09.560 Thank you everybody.

NOTE Confidence: 0.890551853333333

00:48:09.560 --> 00:48:11.604 Yes, thanks for joining.

NOTE Confidence: 0.890551853333333

00:48:11.604 --> 00:48:13.620 Thanks everybody. OK, bye, bye.
