00:00:03.290 --> 00:00:05.859 Go on, Chamberlain, and I am a

00:00:05.859 --> 00:00:08.390 two time lung cancer survivor.

00:00:08.390 --> 00:00:10.973 I have gotten very involved with advocacy

00:00:10.973 --> 00:00:14.067 work at the Smilow Cancer Center and

00:00:14.067 --> 00:00:16.462 specifically their patient and Family

00:00:16.470 --> 00:00:17.745 Advisory Council, and

00:00:17.745 --> 00:00:19.870 it's a very important tool

00:00:19.870 --> 00:00:21.570 at the Cancer Center.

00:00:21.570 --> 00:00:24.969 When I learned of the opportunity to donate,

00:00:24.970 --> 00:00:27.834 I asked to be first in line if

00:00:27.834 --> 00:00:30.694 there is something that I can

00:00:30.694 --> 00:00:33.249 do to improve someone else's.

00:00:33.250 --> 00:00:36.895 Chances of survival or help

00:00:36.895 --> 00:00:40.860 them to get through this. I

NOTE Confidence: 0.88982

00:00:40.860 --> 00:00:42.450 would be happy to do

NOTE Confidence: 0.88982

00:00:42.450 --> 00:00:44.370 that. My name is Jody Saginaw.

NOTE Confidence: 0.88982

00:00:44.370 --> 00:00:47.002 I became a member of the patient

NOTE Confidence: 0.88982

00:00:47.002 --> 00:00:48.790 and Family Advisory Council.

NOTE Confidence: 0.88982

00:00:48.790 --> 00:00:50.990 After helping my late husband

NOTE Confidence: 0.88982

00:00:50.990 --> 00:00:53.190 Paul through his nine year

NOTE Confidence: 0.88982

00:00:53.270 --> 00:00:55.550 battle with multiple myeloma.

NOTE Confidence: 0.88982

00:00:55.550 --> 00:00:59.414 I like the idea of tissue donation because.

NOTE Confidence: 0.88982

00:00:59.420 --> 00:01:01.250 I think it's very important.

NOTE Confidence: 0.88982

00:01:01.250 --> 00:01:03.693 I believe Paul would have signed up

NOTE Confidence: 0.88982

00:01:03.693 --> 00:01:05.822 for this program because he always

NOTE Confidence: 0.88982

00:01:05.822 --> 00:01:09.049 wanted to make sense of how what he was

NOTE Confidence: 0.88982

00:01:09.049 --> 00:01:11.467 experiencing fit into the bigger picture.

NOTE Confidence: 0.88982

00:01:11.470 --> 00:01:14.100 Paul benefited through new treatments.

NOTE Confidence: 0.88982

00:01:14.100 --> 00:01:15.738 And I know he would have been

NOTE Confidence: 0.88982

00:01:15.738 --> 00:01:17.190 honored to be able to contribute.
