

WEBVTT

NOTE duration:"00:59:02"

NOTE recognizability:0.831

NOTE language:en-us

NOTE Confidence: 0.7301502

00:00:04.660 --> 00:00:05.320 And.

NOTE Confidence: 0.833333323333333

00:00:07.360 --> 00:00:11.130 And he will give you an overview of profiles.

NOTE Confidence: 0.89453236

00:00:13.270 --> 00:00:14.338 All right. Hi, everybody

NOTE Confidence: 0.89453236

00:00:14.338 --> 00:00:15.673 and thank you for joining.

NOTE Confidence: 0.844874465

00:00:17.810 --> 00:00:18.850 Today, like Justin said,

NOTE Confidence: 0.844874465

00:00:18.850 --> 00:00:21.170 we're going to cover how to edit profiles.

NOTE Confidence: 0.844874465

00:00:21.170 --> 00:00:22.834 So we did cover this briefly in some

NOTE Confidence: 0.844874465

00:00:22.834 --> 00:00:24.709 of the intro and the intro sessions,

NOTE Confidence: 0.844874465

00:00:24.710 --> 00:00:27.014 but we're going to take a deeper dive

NOTE Confidence: 0.844874465

00:00:27.014 --> 00:00:29.530 into each section if we have time.

NOTE Confidence: 0.844874465

00:00:29.530 --> 00:00:31.393 I do think we're going to spend a little

NOTE Confidence: 0.844874465

00:00:31.393 --> 00:00:33.253 more time on publications because we have

NOTE Confidence: 0.844874465

00:00:33.253 --> 00:00:35.338 been getting the most questions about that,

NOTE Confidence: 0.844874465

00:00:35.340 --> 00:00:38.564 so I'm assuming most everyone else has two.

NOTE Confidence: 0.844874465

00:00:38.570 --> 00:00:41.072 Anyway, I'm just going to get started so we

NOTE Confidence: 0.844874465

00:00:41.072 --> 00:00:43.475 leave plenty of time for questions after.

NOTE Confidence: 0.844874465

00:00:43.475 --> 00:00:46.265 Oh, and just one caveat like

NOTE Confidence: 0.844874465

00:00:46.265 --> 00:00:47.660 the other presentations.

NOTE Confidence: 0.844874465

00:00:47.660 --> 00:00:48.970 I am currently in our

NOTE Confidence: 0.844874465

00:00:48.970 --> 00:00:49.494 development environment,

NOTE Confidence: 0.844874465

00:00:49.500 --> 00:00:51.692 so you might see me put some silly

NOTE Confidence: 0.844874465

00:00:51.692 --> 00:00:53.979 stuff into some silly content that we

NOTE Confidence: 0.844874465

00:00:53.979 --> 00:00:56.101 would never want to actually appear

NOTE Confidence: 0.844874465

00:00:56.101 --> 00:00:58.399 on our profile in this demonstration.

NOTE Confidence: 0.844874465

00:00:58.400 --> 00:01:00.140 It's all in our development environment.

NOTE Confidence: 0.844874465

00:01:00.140 --> 00:01:02.324 We never want to put fake content

NOTE Confidence: 0.844874465

00:01:02.324 --> 00:01:03.680 on the live site,

NOTE Confidence: 0.844874465

00:01:03.680 --> 00:01:06.256 the live Beatrix application.

NOTE Confidence: 0.844874465

00:01:06.256 --> 00:01:09.144 OK, so when after I log into

NOTE Confidence: 0.844874465  
00:01:09.144 --> 00:01:11.540 Beatrix to get to profiles,  
NOTE Confidence: 0.844874465  
00:01:11.540 --> 00:01:13.772 I'm going to click on people on the left  
NOTE Confidence: 0.844874465  
00:01:13.772 --> 00:01:15.936 side here already you're going to see  
NOTE Confidence: 0.844874465  
00:01:15.936 --> 00:01:17.950 some of these gibberish entries here.  
NOTE Confidence: 0.844874465  
00:01:17.950 --> 00:01:19.410 That we've tested with users,  
NOTE Confidence: 0.844874465  
00:01:19.410 --> 00:01:22.146 but by default we're going to be brought  
NOTE Confidence: 0.844874465  
00:01:22.146 --> 00:01:25.303 is a list of every user that I have  
NOTE Confidence: 0.844874465  
00:01:25.303 --> 00:01:28.688 access to edit the profile for in the system.  
NOTE Confidence: 0.844874465  
00:01:28.690 --> 00:01:32.026 I can search by their name.  
NOTE Confidence: 0.844874465  
00:01:32.030 --> 00:01:33.542 As I type,  
NOTE Confidence: 0.844874465  
00:01:33.542 --> 00:01:37.070 the results will reduce as I'm typing.  
NOTE Confidence: 0.844874465  
00:01:37.070 --> 00:01:39.870 If I type some name that I'm sorry,  
NOTE Confidence: 0.844874465  
00:01:39.870 --> 00:01:40.908 that's my cursor.  
NOTE Confidence: 0.844874465  
00:01:40.908 --> 00:01:44.141 If I type sub name that does not exist  
NOTE Confidence: 0.844874465  
00:01:44.141 --> 00:01:47.085 or that doesn't match any kind of user,  
NOTE Confidence: 0.844874465

00:01:47.090 --> 00:01:48.770 I'm going to get no entries to display.  
NOTE Confidence: 0.844874465

00:01:48.770 --> 00:01:50.770 And that means that my filter or search  
NOTE Confidence: 0.844874465

00:01:50.770 --> 00:01:53.162 is a little too specific and I probably  
NOTE Confidence: 0.844874465

00:01:53.162 --> 00:01:55.359 need to remove some characters here.  
NOTE Confidence: 0.864896170666667

00:01:58.680 --> 00:02:02.838 Once we have, we can also filter by their  
NOTE Confidence: 0.864896170666667

00:02:02.838 --> 00:02:06.586 job code that is coming from. Work day.  
NOTE Confidence: 0.864896170666667

00:02:06.586 --> 00:02:08.707 So everybody in the school has some  
NOTE Confidence: 0.864896170666667

00:02:08.707 --> 00:02:11.017 kind of classification for their job.  
NOTE Confidence: 0.831973788333333

00:02:13.060 --> 00:02:14.635 The one thing I'll note is if  
NOTE Confidence: 0.831973788333333

00:02:14.635 --> 00:02:16.179 you use this faculty filter,  
NOTE Confidence: 0.831973788333333

00:02:16.180 --> 00:02:18.032 it's going to be 100% accurate  
NOTE Confidence: 0.831973788333333

00:02:18.032 --> 00:02:20.144 according to how your records this  
NOTE Confidence: 0.831973788333333

00:02:20.144 --> 00:02:21.940 thing records this information.  
NOTE Confidence: 0.831973788333333

00:02:21.940 --> 00:02:24.484 But what we have found is that what  
NOTE Confidence: 0.831973788333333

00:02:24.484 --> 00:02:26.795 we and the departments consider  
NOTE Confidence: 0.831973788333333

00:02:26.795 --> 00:02:29.992 faculty all don't always 100% match

NOTE Confidence: 0.831973788333333  
00:02:29.992 --> 00:02:33.085 up with what who is considered  
NOTE Confidence: 0.831973788333333  
00:02:33.085 --> 00:02:36.055 a faculty member in work day.  
NOTE Confidence: 0.831973788333333  
00:02:36.060 --> 00:02:38.268 So if you don't see the person you're  
NOTE Confidence: 0.831973788333333  
00:02:38.268 --> 00:02:40.518 looking for after you filtered a faculty,  
NOTE Confidence: 0.831973788333333  
00:02:40.520 --> 00:02:41.705 please just try removing the  
NOTE Confidence: 0.831973788333333  
00:02:41.705 --> 00:02:43.150 filter and search for their name.  
NOTE Confidence: 0.831973788333333  
00:02:43.150 --> 00:02:44.440 Um, if there is a problem  
NOTE Confidence: 0.831973788333333  
00:02:44.440 --> 00:02:45.085 with the classification,  
NOTE Confidence: 0.831973788333333  
00:02:45.090 --> 00:02:46.026 we could try to address it,  
NOTE Confidence: 0.831973788333333  
00:02:46.030 --> 00:02:47.585 but it probably needs to  
NOTE Confidence: 0.831973788333333  
00:02:47.585 --> 00:02:49.720 be fixed in the HR system.  
NOTE Confidence: 0.831973788333333  
00:02:49.720 --> 00:02:50.760 And occasionally people have  
NOTE Confidence: 0.831973788333333  
00:02:50.760 --> 00:02:52.320 dual roles of some kind and  
NOTE Confidence: 0.831973788333333  
00:02:52.369 --> 00:02:53.647 there's really no good fix and  
NOTE Confidence: 0.831973788333333  
00:02:53.647 --> 00:02:55.249 we just have to work around it.  
NOTE Confidence: 0.831973788333333

00:02:55.250 --> 00:02:57.700 So with all those caveats,  
NOTE Confidence: 0.831973788333333  
00:02:57.700 --> 00:03:00.934 let me actually jump into a profile.  
NOTE Confidence: 0.839984450769231  
00:03:03.970 --> 00:03:05.740 Again, I'm picking on Doctor Grauer  
NOTE Confidence: 0.839984450769231  
00:03:05.740 --> 00:03:08.030 because he is a very full profile.  
NOTE Confidence: 0.839984450769231  
00:03:08.030 --> 00:03:09.407 This is going to be a little bit of  
NOTE Confidence: 0.839984450769231  
00:03:09.407 --> 00:03:10.846 a rehash from the intro session,  
NOTE Confidence: 0.839984450769231  
00:03:10.850 --> 00:03:14.669 but importantly if.  
NOTE Confidence: 0.839984450769231  
00:03:14.670 --> 00:03:16.110 If I am a comms officer,  
NOTE Confidence: 0.839984450769231  
00:03:16.110 --> 00:03:17.600 maybe I we've identified people  
NOTE Confidence: 0.839984450769231  
00:03:17.600 --> 00:03:19.783 who can spend more time working on  
NOTE Confidence: 0.839984450769231  
00:03:19.783 --> 00:03:21.697 individual profiles and might be useful  
NOTE Confidence: 0.839984450769231  
00:03:21.697 --> 00:03:24.140 for them to have access to one or a  
NOTE Confidence: 0.839984450769231  
00:03:24.140 --> 00:03:25.808 handful of profiles that they are  
NOTE Confidence: 0.839984450769231  
00:03:25.808 --> 00:03:27.644 going to be responsible for editing.  
NOTE Confidence: 0.839984450769231  
00:03:27.650 --> 00:03:29.396 But we might not necessarily want  
NOTE Confidence: 0.839984450769231  
00:03:29.396 --> 00:03:31.673 to give this person access to every

NOTE Confidence: 0.839984450769231

00:03:31.673 --> 00:03:33.423 single profile in our organization.

NOTE Confidence: 0.839984450769231

00:03:33.430 --> 00:03:36.030 We could handle that by going to each

NOTE Confidence: 0.839984450769231

00:03:36.030 --> 00:03:38.392 profile that we want them to be able

NOTE Confidence: 0.839984450769231

00:03:38.392 --> 00:03:40.729 to edit and adding them as an editor.

NOTE Confidence: 0.839984450769231

00:03:40.730 --> 00:03:42.314 I've already added myself as an

NOTE Confidence: 0.839984450769231

00:03:42.314 --> 00:03:44.066 editor who's a little helpful little

NOTE Confidence: 0.839984450769231

00:03:44.066 --> 00:03:46.004 description and her info bubble here.

NOTE Confidence: 0.777927274375

00:03:48.050 --> 00:03:51.900 But if I was going to add Justin as the

NOTE Confidence: 0.777927274375

00:03:52.001 --> 00:03:56.147 another profile editor of Jonathan Grauer,

NOTE Confidence: 0.777927274375

00:03:56.150 --> 00:03:57.790 I would just click add.

NOTE Confidence: 0.777927274375

00:03:57.790 --> 00:04:00.110 I'd type his name into this field and

NOTE Confidence: 0.777927274375

00:04:00.110 --> 00:04:02.050 we have both his name, his headshot,

NOTE Confidence: 0.777927274375

00:04:02.050 --> 00:04:04.362 and it's that idea to confirm that this

NOTE Confidence: 0.777927274375

00:04:04.362 --> 00:04:06.115 is absolutely the right person that

NOTE Confidence: 0.777927274375

00:04:06.115 --> 00:04:07.830 I want to give access because maybe

NOTE Confidence: 0.777927274375

00:04:07.830 --> 00:04:09.067 they're three Justin fans, lawyers,  
NOTE Confidence: 0.777927274375

00:04:09.067 --> 00:04:10.650 and I'm not sure which one is the right one.  
NOTE Confidence: 0.7838783033333333

00:04:13.050 --> 00:04:17.649 Secondly, name info.  
NOTE Confidence: 0.7838783033333333

00:04:17.650 --> 00:04:19.672 This name that appears here is  
NOTE Confidence: 0.7838783033333333

00:04:19.672 --> 00:04:21.340 what we're getting from work  
NOTE Confidence: 0.7838783033333333

00:04:21.340 --> 00:04:24.820 day if this name is wrong.  
NOTE Confidence: 0.7838783033333333

00:04:24.820 --> 00:04:26.590 You can use this request edit  
NOTE Confidence: 0.7838783033333333

00:04:26.590 --> 00:04:28.600 but a link to contact us,  
NOTE Confidence: 0.7838783033333333

00:04:28.600 --> 00:04:30.904 but we are probably just going to send  
NOTE Confidence: 0.7838783033333333

00:04:30.904 --> 00:04:33.658 you to work today to get that corrected.  
NOTE Confidence: 0.7838783033333333

00:04:33.660 --> 00:04:34.904 We really should correct  
NOTE Confidence: 0.7838783033333333

00:04:34.904 --> 00:04:36.459 this name if it's wrong.  
NOTE Confidence: 0.7838783033333333

00:04:36.460 --> 00:04:38.588 The the person can go into these  
NOTE Confidence: 0.7838783033333333

00:04:38.588 --> 00:04:40.136 display fields and fix their  
NOTE Confidence: 0.7838783033333333

00:04:40.136 --> 00:04:42.138 name here so that at least will  
NOTE Confidence: 0.7838783033333333

00:04:42.138 --> 00:04:44.100 appear correctly on their profile.

NOTE Confidence: 0.7838783033333333  
00:04:44.100 --> 00:04:45.437 But if the wrong name is showing  
NOTE Confidence: 0.7838783033333333  
00:04:45.437 --> 00:04:46.983 up here we should make sure it  
NOTE Confidence: 0.7838783033333333  
00:04:46.983 --> 00:04:48.138 gets corrected in the system  
NOTE Confidence: 0.7838783033333333  
00:04:48.138 --> 00:04:49.618 the record of system of record.  
NOTE Confidence: 0.7838783033333333  
00:04:49.620 --> 00:04:52.108 So please either request an edit or you  
NOTE Confidence: 0.7838783033333333  
00:04:52.108 --> 00:04:55.140 can even just start work trying to work with.  
NOTE Confidence: 0.7838783033333333  
00:04:55.140 --> 00:04:58.796 Are directly to get this corrected so that  
NOTE Confidence: 0.7838783033333333  
00:04:58.796 --> 00:05:03.000 we have the right name in all Yale systems.  
NOTE Confidence: 0.7838783033333333  
00:05:03.000 --> 00:05:05.527 Display name fields are really more for.  
NOTE Confidence: 0.7838783033333333  
00:05:05.530 --> 00:05:06.206 For example,  
NOTE Confidence: 0.7838783033333333  
00:05:06.206 --> 00:05:08.234 if Jonathan Grauer went by John,  
NOTE Confidence: 0.7838783033333333  
00:05:08.240 --> 00:05:10.718 he might want to have his display  
NOTE Confidence: 0.7838783033333333  
00:05:10.718 --> 00:05:13.340 name be John instead of Jonathan.  
NOTE Confidence: 0.7838783033333333  
00:05:13.340 --> 00:05:15.940 That's really what it's for.  
NOTE Confidence: 0.7838783033333333  
00:05:15.940 --> 00:05:18.076 You can choose to elect to show or  
NOTE Confidence: 0.7838783033333333

00:05:18.076 --> 00:05:20.343 hide your middle name if it's imported  
NOTE Confidence: 0.7838783033333333

00:05:20.343 --> 00:05:22.619 from your profile by using this box.  
NOTE Confidence: 0.7838783033333333

00:05:22.620 --> 00:05:24.720 If you're middle name, is it imported?  
NOTE Confidence: 0.7838783033333333

00:05:24.720 --> 00:05:26.676 Sorry, isn't present in work day.  
NOTE Confidence: 0.7838783033333333

00:05:26.680 --> 00:05:28.336 Maybe that's not the most important  
NOTE Confidence: 0.7838783033333333

00:05:28.336 --> 00:05:29.800 thing that you care about.  
NOTE Confidence: 0.7838783033333333

00:05:29.800 --> 00:05:31.591 You could just put the initial or the name  
NOTE Confidence: 0.7838783033333333

00:05:31.591 --> 00:05:33.565 you want to appear in the middle name field.  
NOTE Confidence: 0.7838783033333333

00:05:33.570 --> 00:05:33.947 Um.  
NOTE Confidence: 0.7838783033333333

00:05:33.947 --> 00:05:36.209 Suffixes are another thing we get  
NOTE Confidence: 0.7838783033333333

00:05:36.209 --> 00:05:38.829 lots and lots of questions about.  
NOTE Confidence: 0.7838783033333333

00:05:38.830 --> 00:05:39.064 Again,  
NOTE Confidence: 0.7838783033333333

00:05:39.064 --> 00:05:40.936 this is a little bit of a rehash,  
NOTE Confidence: 0.7838783033333333

00:05:40.940 --> 00:05:43.397 but I think it's worth going over again if  
NOTE Confidence: 0.7838783033333333

00:05:43.397 --> 00:05:46.025 I want to add additional suffixes here,  
NOTE Confidence: 0.7838783033333333

00:05:46.030 --> 00:05:49.378 I'm free to add whatever familial

NOTE Confidence: 0.7838783033333333  
00:05:49.378 --> 00:05:52.150 and professional suffixes I'd like.  
NOTE Confidence: 0.7838783033333333  
00:05:52.150 --> 00:05:54.448 We have some preset lists here.  
NOTE Confidence: 0.7838783033333333  
00:05:54.450 --> 00:05:56.700 I think family suffixes are a  
NOTE Confidence: 0.7838783033333333  
00:05:56.700 --> 00:05:58.200 little more straightforward for  
NOTE Confidence: 0.7838783033333333  
00:05:58.262 --> 00:05:59.477 professional certifications that  
NOTE Confidence: 0.7838783033333333  
00:05:59.477 --> 00:06:02.312 people might want to add to their  
NOTE Confidence: 0.7838783033333333  
00:06:02.381 --> 00:06:04.409 suffix list on their web profile.  
NOTE Confidence: 0.7838783033333333  
00:06:04.410 --> 00:06:05.490 There are many, many more.  
NOTE Confidence: 0.7838783033333333  
00:06:05.490 --> 00:06:05.861 Options.  
NOTE Confidence: 0.7838783033333333  
00:06:05.861 --> 00:06:08.458 We have a pretty comprehensive list here,  
NOTE Confidence: 0.7838783033333333  
00:06:08.460 --> 00:06:10.763 but it certainly is not a complete  
NOTE Confidence: 0.7838783033333333  
00:06:10.763 --> 00:06:13.021 list of every suffix that anyone  
NOTE Confidence: 0.7838783033333333  
00:06:13.021 --> 00:06:15.560 might ever need to add to their name.  
NOTE Confidence: 0.7838783033333333  
00:06:15.560 --> 00:06:19.408 So if you don't see the suffix there for  
NOTE Confidence: 0.7838783033333333  
00:06:19.408 --> 00:06:22.220 the professional suffix you're trying to add,  
NOTE Confidence: 0.7838783033333333

00:06:22.220 --> 00:06:22.562 please.  
NOTE Confidence: 0.7838783033333333

00:06:22.562 --> 00:06:23.246 I'm sorry,  
NOTE Confidence: 0.7838783033333333

00:06:23.246 --> 00:06:25.640 I'm working with a smaller screen today,  
NOTE Confidence: 0.7838783033333333

00:06:25.640 --> 00:06:27.989 so I need to drag my own windows over.  
NOTE Confidence: 0.7838783033333333

00:06:27.990 --> 00:06:29.234 Please use this report.  
NOTE Confidence: 0.7838783033333333

00:06:29.234 --> 00:06:32.077 A bug button on the right edge of your  
NOTE Confidence: 0.7838783033333333

00:06:32.077 --> 00:06:33.310 screen doesn't necessarily have to be  
NOTE Confidence: 0.7838783033333333

00:06:33.310 --> 00:06:34.580 a bug that you're telling us about,  
NOTE Confidence: 0.7838783033333333

00:06:34.580 --> 00:06:35.870 this is just an easy way.  
NOTE Confidence: 0.7838783033333333

00:06:35.870 --> 00:06:37.796 For you to contact us and let us know,  
NOTE Confidence: 0.7838783033333333

00:06:37.800 --> 00:06:38.182 hey,  
NOTE Confidence: 0.7838783033333333

00:06:38.182 --> 00:06:40.474 we need another value in this  
NOTE Confidence: 0.7838783033333333

00:06:40.474 --> 00:06:41.620 professional suffixes list,  
NOTE Confidence: 0.7838783033333333

00:06:41.620 --> 00:06:43.146 we'll make sure it's not somehow duplicating  
NOTE Confidence: 0.7838783033333333

00:06:43.146 --> 00:06:44.758 one of the values we already have,  
NOTE Confidence: 0.7838783033333333

00:06:44.760 --> 00:06:47.220 and we'll add it for you.

NOTE Confidence: 0.7838783033333333  
00:06:47.220 --> 00:06:50.322 Academic suffixes are a little bit  
NOTE Confidence: 0.7838783033333333  
00:06:50.322 --> 00:06:52.675 trickier because we want to ensure  
NOTE Confidence: 0.7838783033333333  
00:06:52.675 --> 00:06:54.510 we have the appropriate educational  
NOTE Confidence: 0.7838783033333333  
00:06:54.573 --> 00:06:56.678 information stored in your profile,  
NOTE Confidence: 0.7838783033333333  
00:06:56.680 --> 00:06:58.390 even if it's not necessarily  
NOTE Confidence: 0.7838783033333333  
00:06:58.390 --> 00:06:59.074 displaying publicly.  
NOTE Confidence: 0.7838783033333333  
00:06:59.080 --> 00:07:01.257 We just want to have the backup  
NOTE Confidence: 0.7838783033333333  
00:07:01.257 --> 00:07:03.034 information to to be able to  
NOTE Confidence: 0.7838783033333333  
00:07:03.034 --> 00:07:04.854 confirm if we had to that this  
NOTE Confidence: 0.8410079372  
00:07:04.919 --> 00:07:06.759 person does have this degree.  
NOTE Confidence: 0.8410079372  
00:07:06.760 --> 00:07:10.189 So when I go to academic I'm only going  
NOTE Confidence: 0.8410079372  
00:07:10.189 --> 00:07:14.312 to see suffixes that the this person  
NOTE Confidence: 0.8410079372  
00:07:14.312 --> 00:07:17.200 has added educational information for.  
NOTE Confidence: 0.8410079372  
00:07:17.200 --> 00:07:18.160 Into their profile.  
NOTE Confidence: 0.8410079372  
00:07:18.160 --> 00:07:20.400 So Doctor Grauer already has added his  
NOTE Confidence: 0.8410079372

00:07:20.460 --> 00:07:22.780 and I'm sorry this keeps collapsing on us.  
NOTE Confidence: 0.8410079372

00:07:22.780 --> 00:07:24.356 It's a little frustrating.  
NOTE Confidence: 0.8410079372

00:07:24.356 --> 00:07:26.326 I should probably fix that.  
NOTE Confidence: 0.8410079372

00:07:26.330 --> 00:07:28.150 Doctor Grauer has already added his MD  
NOTE Confidence: 0.8410079372

00:07:28.150 --> 00:07:31.050 so I do not see that in the list that's  
NOTE Confidence: 0.8410079372

00:07:31.050 --> 00:07:32.730 already appearing in his suffixes.  
NOTE Confidence: 0.8410079372

00:07:32.730 --> 00:07:35.002 I do see these see these other two  
NOTE Confidence: 0.8410079372

00:07:35.002 --> 00:07:37.444 degrees that he's added as an edge into  
NOTE Confidence: 0.8410079372

00:07:37.444 --> 00:07:40.724 his education as options to add as a suffix.  
NOTE Confidence: 0.8410079372

00:07:40.730 --> 00:07:42.865 We could take a little bit of  
NOTE Confidence: 0.8410079372

00:07:42.865 --> 00:07:45.372 a closer look by looking at the  
NOTE Confidence: 0.8410079372

00:07:45.372 --> 00:07:46.751 education page at this information.  
NOTE Confidence: 0.8410079372

00:07:46.751 --> 00:07:48.590 I'm just going to switch tabs for a minute.  
NOTE Confidence: 0.8410079372

00:07:48.590 --> 00:07:49.658 So I can save my place.  
NOTE Confidence: 0.883550394

00:07:52.050 --> 00:07:56.907 And you'll see we have his  
NOTE Confidence: 0.883550394

00:07:56.907 --> 00:07:59.598 educational history here.

NOTE Confidence: 0.883550394  
00:07:59.600 --> 00:08:01.250 You've got the degrees here if  
NOTE Confidence: 0.883550394  
00:08:01.250 --> 00:08:03.420 I need to add some new degree.  
NOTE Confidence: 0.883550394  
00:08:03.420 --> 00:08:07.020 Um, I could click add new.  
NOTE Confidence: 0.883550394  
00:08:07.020 --> 00:08:09.264 I would select whatever  
NOTE Confidence: 0.883550394  
00:08:09.264 --> 00:08:12.069 degree I'm trying to add.  
NOTE Confidence: 0.883550394  
00:08:12.070 --> 00:08:14.702 I have no idea what university I might  
NOTE Confidence: 0.883550394  
00:08:14.702 --> 00:08:17.266 have to attend to get that degree,  
NOTE Confidence: 0.883550394  
00:08:17.266 --> 00:08:21.314 but I'm just going to pretend for now we  
NOTE Confidence: 0.883550394  
00:08:21.314 --> 00:08:25.460 do require at least an end date, so we.  
NOTE Confidence: 0.883550394  
00:08:25.460 --> 00:08:27.469 The the year that the degree was  
NOTE Confidence: 0.883550394  
00:08:27.469 --> 00:08:29.658 conferred so that it could be confirmed,  
NOTE Confidence: 0.883550394  
00:08:29.660 --> 00:08:31.160 if we ever had to,  
NOTE Confidence: 0.883550394  
00:08:31.160 --> 00:08:34.340 that this degree was actually obtained.  
NOTE Confidence: 0.883550394  
00:08:34.340 --> 00:08:36.510 So we'll pretend that he  
NOTE Confidence: 0.883550394  
00:08:36.510 --> 00:08:38.680 received it in May 2019.  
NOTE Confidence: 0.883550394

00:08:38.680 --> 00:08:40.828 We'll say we want to display  
NOTE Confidence: 0.883550394

00:08:40.828 --> 00:08:42.980 this data on the profile.  
NOTE Confidence: 0.883550394

00:08:42.980 --> 00:08:44.600 Oh sorry, display this date.  
NOTE Confidence: 0.883550394

00:08:44.600 --> 00:08:46.380 Sorry.  
NOTE Confidence: 0.883550394

00:08:46.380 --> 00:08:48.276 I can also, when I'm adding the suffix,  
NOTE Confidence: 0.883550394

00:08:48.280 --> 00:08:51.120 elect to add it directly to my list  
NOTE Confidence: 0.883550394

00:08:51.120 --> 00:08:53.800 of suffixes by checking off this box.  
NOTE Confidence: 0.883550394

00:08:53.800 --> 00:08:55.408 So this will by checking this.  
NOTE Confidence: 0.883550394

00:08:55.410 --> 00:08:55.808 Box.  
NOTE Confidence: 0.883550394

00:08:55.808 --> 00:08:57.400 It should automatically add  
NOTE Confidence: 0.883550394

00:08:57.400 --> 00:08:59.385 this degree to doctor Grauer  
NOTE Confidence: 0.883550394

00:08:59.385 --> 00:09:01.360 suffixes after I complete it.  
NOTE Confidence: 0.883550394

00:09:01.360 --> 00:09:03.874 The last bit of information that's  
NOTE Confidence: 0.883550394

00:09:03.874 --> 00:09:06.320 required here is the location.  
NOTE Confidence: 0.788221155454545

00:09:08.790 --> 00:09:10.431 For the institution.  
NOTE Confidence: 0.788221155454545

00:09:10.431 --> 00:09:15.830 And now I should be able to add the suffix.

NOTE Confidence: 0.788221155454545  
00:09:15.830 --> 00:09:19.160 And it should show up directly.  
NOTE Confidence: 0.788221155454545  
00:09:19.160 --> 00:09:21.267 If I go back to my overview  
NOTE Confidence: 0.788221155454545  
00:09:21.267 --> 00:09:22.600 and refresh the page,  
NOTE Confidence: 0.788221155454545  
00:09:22.600 --> 00:09:23.986 I'm going to have to refresh  
NOTE Confidence: 0.788221155454545  
00:09:23.986 --> 00:09:25.340 because I didn't actually navigate.  
NOTE Confidence: 0.788221155454545  
00:09:25.340 --> 00:09:28.310 I'm going to see my new degree in this list.  
NOTE Confidence: 0.849553861666667  
00:09:31.050 --> 00:09:34.428 You also can sort these suffixes,  
NOTE Confidence: 0.849553861666667  
00:09:34.430 --> 00:09:36.446 but we do have some rules like  
NOTE Confidence: 0.849553861666667  
00:09:36.446 --> 00:09:38.550 I believe we force the family  
NOTE Confidence: 0.849553861666667  
00:09:38.550 --> 00:09:40.495 suffixes to appear first because  
NOTE Confidence: 0.849553861666667  
00:09:40.495 --> 00:09:43.310 it would just be weird to be doctor  
NOTE Confidence: 0.849553861666667  
00:09:43.310 --> 00:09:45.193 Jonathan Grauer and MD Junior.  
NOTE Confidence: 0.849553861666667  
00:09:45.193 --> 00:09:48.008 But to some extent you,  
NOTE Confidence: 0.849553861666667  
00:09:48.010 --> 00:09:49.765 at least for the professional  
NOTE Confidence: 0.849553861666667  
00:09:49.765 --> 00:09:51.520 certifications and the academic degrees,  
NOTE Confidence: 0.849553861666667

00:09:51.520 --> 00:09:53.417 you can sort those as you wish.  
NOTE Confidence: 0.849076974545455

00:09:55.700 --> 00:09:58.892 Foreign languages. This is just nice  
NOTE Confidence: 0.849076974545455

00:09:58.892 --> 00:10:01.410 information to have specifically for.  
NOTE Confidence: 0.839190559166667

00:10:04.510 --> 00:10:06.832 Faculty who see patients to have  
NOTE Confidence: 0.839190559166667

00:10:06.832 --> 00:10:09.139 the languages that they can speak.  
NOTE Confidence: 0.872333788947368

00:10:13.570 --> 00:10:15.880 We just store a few data points  
NOTE Confidence: 0.872333788947368

00:10:15.880 --> 00:10:18.172 about that and then this information  
NOTE Confidence: 0.872333788947368

00:10:18.172 --> 00:10:20.614 will show up in your profile.  
NOTE Confidence: 0.851155618181818

00:10:23.100 --> 00:10:23.740 Contact information.  
NOTE Confidence: 0.851155618181818

00:10:23.740 --> 00:10:25.980 We all know this is definitely going  
NOTE Confidence: 0.851155618181818

00:10:25.980 --> 00:10:28.154 to show up in your profile unless  
NOTE Confidence: 0.851155618181818

00:10:28.154 --> 00:10:29.940 you indicate it's private like this.  
NOTE Confidence: 0.851155618181818

00:10:29.940 --> 00:10:32.016 Clinic fax and mobile phone for  
NOTE Confidence: 0.851155618181818

00:10:32.016 --> 00:10:33.400 example are considered private.  
NOTE Confidence: 0.851155618181818

00:10:33.400 --> 00:10:35.464 These will not show up on  
NOTE Confidence: 0.851155618181818

00:10:35.464 --> 00:10:36.496 Doctor Graves profile,

NOTE Confidence: 0.851155618181818

00:10:36.500 --> 00:10:37.856 but these first two,

NOTE Confidence: 0.851155618181818

00:10:37.856 --> 00:10:39.890 his academic office and office office

NOTE Confidence: 0.851155618181818

00:10:39.954 --> 00:10:41.778 fax will display on his profile

NOTE Confidence: 0.851155618181818

00:10:41.778 --> 00:10:43.700 because they are set to display.

NOTE Confidence: 0.851155618181818

00:10:43.700 --> 00:10:45.653 I could always show or hide these

NOTE Confidence: 0.851155618181818

00:10:45.653 --> 00:10:47.220 by toggling this option here,

NOTE Confidence: 0.851155618181818

00:10:47.220 --> 00:10:49.152 or I could delete one of these

NOTE Confidence: 0.851155618181818

00:10:49.152 --> 00:10:50.899 if it's no longer accurate

NOTE Confidence: 0.851155618181818

00:10:50.899 --> 00:10:53.014 if I'm missing some contact.

NOTE Confidence: 0.851155618181818

00:10:53.020 --> 00:10:55.150 Information I can click add phone,

NOTE Confidence: 0.851155618181818

00:10:55.150 --> 00:10:56.726 select the appropriate type,

NOTE Confidence: 0.851155618181818

00:10:56.726 --> 00:10:59.090 and go ahead and add it.

NOTE Confidence: 0.851155618181818

00:10:59.090 --> 00:11:01.638 One important note is as you'll see,

NOTE Confidence: 0.851155618181818

00:11:01.640 --> 00:11:04.188 there is no appointment phone listed for

NOTE Confidence: 0.851155618181818

00:11:04.188 --> 00:11:06.827 Doctor Grauer even though he sees patients.

NOTE Confidence: 0.851155618181818

00:11:06.830 --> 00:11:08.582 There is this message here that  
NOTE Confidence: 0.851155618181818

00:11:08.582 --> 00:11:10.313 says your appointment phone is set  
NOTE Confidence: 0.851155618181818

00:11:10.313 --> 00:11:11.831 to the Yale Medicine Care Center  
NOTE Confidence: 0.851155618181818

00:11:11.831 --> 00:11:15.005 number since right now the Care  
NOTE Confidence: 0.851155618181818

00:11:15.005 --> 00:11:17.400 Center is rolling out department by  
NOTE Confidence: 0.851155618181818

00:11:17.400 --> 00:11:20.169 department if you are in a if you are,  
NOTE Confidence: 0.851155618181818

00:11:20.170 --> 00:11:21.616 your faculty member that you're editing  
NOTE Confidence: 0.851155618181818

00:11:21.616 --> 00:11:23.409 a profile for is in the department.  
NOTE Confidence: 0.851155618181818

00:11:23.410 --> 00:11:24.838 That is, using the care center,  
NOTE Confidence: 0.851155618181818

00:11:24.840 --> 00:11:26.432 we're automatically setting this  
NOTE Confidence: 0.851155618181818

00:11:26.432 --> 00:11:28.820 appointment phone to the care center.  
NOTE Confidence: 0.851155618181818

00:11:28.820 --> 00:11:32.019 If this causes some kind of issue,  
NOTE Confidence: 0.851155618181818

00:11:32.020 --> 00:11:33.118 we'd like to know about it.  
NOTE Confidence: 0.851155618181818

00:11:33.120 --> 00:11:34.416 So again, just oh,  
NOTE Confidence: 0.851155618181818

00:11:34.416 --> 00:11:36.360 you can always use this report  
NOTE Confidence: 0.851155618181818

00:11:36.428 --> 00:11:38.276 a bug feature to contact us,

NOTE Confidence: 0.851155618181818

00:11:38.280 --> 00:11:42.110 or you can e-mail us at wisn.editor@yale.edu.

NOTE Confidence: 0.92151046

00:11:45.300 --> 00:11:47.940 Additional e-mail.

NOTE Confidence: 0.92151046

00:11:47.940 --> 00:11:49.942 I believe this is just the test

NOTE Confidence: 0.92151046

00:11:49.942 --> 00:11:51.717 value because this is going to be,

NOTE Confidence: 0.92151046

00:11:51.720 --> 00:11:53.670 this will be the same as

NOTE Confidence: 0.92151046

00:11:53.670 --> 00:11:55.107 his e-mail that's imported.

NOTE Confidence: 0.92151046

00:11:55.107 --> 00:11:56.952 Again, we're importing the data

NOTE Confidence: 0.92151046

00:11:56.952 --> 00:11:59.204 from work day, but if you had,

NOTE Confidence: 0.92151046

00:11:59.204 --> 00:12:01.556 if for whatever reason you had some

NOTE Confidence: 0.92151046

00:12:01.556 --> 00:12:03.756 other e-mail that you preferred

NOTE Confidence: 0.92151046

00:12:03.756 --> 00:12:05.516 to receive communications at,

NOTE Confidence: 0.92151046

00:12:05.520 --> 00:12:07.896 you could plug this in and click it.

NOTE Confidence: 0.92151046

00:12:07.900 --> 00:12:10.125 Click this display e-mail checkbox

NOTE Confidence: 0.92151046

00:12:10.125 --> 00:12:12.784 that will override your standard Yale

NOTE Confidence: 0.92151046

00:12:12.784 --> 00:12:15.318 e-mail that would appear on the profile

NOTE Confidence: 0.92151046

00:12:15.318 --> 00:12:19.628 with that display e-mail that's sent here.  
NOTE Confidence: 0.92151046

00:12:19.630 --> 00:12:21.510 Um, assistance?  
NOTE Confidence: 0.92151046

00:12:21.510 --> 00:12:25.270 This is fairly well.  
NOTE Confidence: 0.92151046

00:12:25.270 --> 00:12:28.846 The interface is the same as profile editors.  
NOTE Confidence: 0.92151046

00:12:28.850 --> 00:12:31.218 If I want to add an assistant here,  
NOTE Confidence: 0.92151046

00:12:31.220 --> 00:12:33.660 I could just type their name and they  
NOTE Confidence: 0.92151046

00:12:33.660 --> 00:12:35.812 should start showing up and I could  
NOTE Confidence: 0.92151046

00:12:35.812 --> 00:12:37.418 select their appropriate person.  
NOTE Confidence: 0.92151046

00:12:37.418 --> 00:12:39.162 Assistance do not necessarily  
NOTE Confidence: 0.92151046

00:12:39.162 --> 00:12:41.609 get access to edit the profile,  
NOTE Confidence: 0.92151046

00:12:41.610 --> 00:12:45.510 although we do make it easy for you to elect.  
NOTE Confidence: 0.92151046

00:12:45.510 --> 00:12:48.795 Again, I'm going to use Justin as an example.  
NOTE Confidence: 0.92151046

00:12:48.800 --> 00:12:50.560 We do make it.  
NOTE Confidence: 0.92151046

00:12:50.560 --> 00:12:52.410 Well, that was a bad example because  
NOTE Confidence: 0.92151046

00:12:52.410 --> 00:12:53.690 Justin's already a profile editor.  
NOTE Confidence: 0.92151046

00:12:53.690 --> 00:12:56.203 If I had somebody who's not already

NOTE Confidence: 0.92151046

00:12:56.203 --> 00:12:57.280 a profile editor,

NOTE Confidence: 0.92151046

00:12:57.280 --> 00:12:58.104 for example,

NOTE Confidence: 0.92151046

00:12:58.104 --> 00:13:01.940 I hope me Spire is not already in here.

NOTE Confidence: 0.92151046

00:13:01.940 --> 00:13:03.836 I will get a confirmation dialog.

NOTE Confidence: 0.92151046

00:13:03.840 --> 00:13:05.870 Would I like to give this assistant

NOTE Confidence: 0.92151046

00:13:05.870 --> 00:13:07.499 access to edit the profile?

NOTE Confidence: 0.92151046

00:13:07.500 --> 00:13:09.080 And I can say yes.

NOTE Confidence: 0.92151046

00:13:09.080 --> 00:13:12.344 That will automatically both

NOTE Confidence: 0.92151046

00:13:12.344 --> 00:13:15.356 track Denise as a Denise as an

NOTE Confidence: 0.92151046

00:13:15.356 --> 00:13:16.820 assistant for Doctor Grauer.

NOTE Confidence: 0.92151046

00:13:16.820 --> 00:13:19.038 And if I scroll back up, I'll see that.

NOTE Confidence: 0.92151046

00:13:19.038 --> 00:13:21.514 Denise has also been added as a user

NOTE Confidence: 0.92151046

00:13:21.514 --> 00:13:23.748 who has access to edit this profile.

NOTE Confidence: 0.903977492727273

00:13:27.070 --> 00:13:28.675 This information does not display

NOTE Confidence: 0.903977492727273

00:13:28.675 --> 00:13:30.550 on the public website just yet.

NOTE Confidence: 0.903977492727273

00:13:30.550 --> 00:13:32.230 We are adding some templates  
NOTE Confidence: 0.903977492727273

00:13:32.230 --> 00:13:33.910 that will do so soon,  
NOTE Confidence: 0.903977492727273

00:13:33.910 --> 00:13:37.390 but honestly even more important,  
NOTE Confidence: 0.903977492727273

00:13:37.390 --> 00:13:40.502 we are working on lots of of new  
NOTE Confidence: 0.903977492727273

00:13:40.502 --> 00:13:42.572 reporting features for Beatrix and  
NOTE Confidence: 0.903977492727273

00:13:42.572 --> 00:13:44.926 it'll be really handy for reporting  
NOTE Confidence: 0.903977492727273

00:13:44.926 --> 00:13:47.134 purposes to have the assistance for  
NOTE Confidence: 0.903977492727273

00:13:47.134 --> 00:13:49.650 all of the faculty you have them,  
NOTE Confidence: 0.903977492727273

00:13:49.650 --> 00:13:50.970 so if you know this information,  
NOTE Confidence: 0.903977492727273

00:13:50.970 --> 00:13:52.580 please do take the time to add  
NOTE Confidence: 0.903977492727273

00:13:52.580 --> 00:13:54.189 it when you're editing profiles.  
NOTE Confidence: 0.873388266

00:13:56.470 --> 00:14:00.670 Mailing addresses are pretty straightforward.  
NOTE Confidence: 0.873388266

00:14:00.670 --> 00:14:02.558 That's simply the address.  
NOTE Confidence: 0.873388266

00:14:02.558 --> 00:14:05.180 Again, we do have show hide.  
NOTE Confidence: 0.873388266

00:14:05.180 --> 00:14:07.940 Probably is helpful to have at least one  
NOTE Confidence: 0.873388266

00:14:07.940 --> 00:14:09.995 mailing address displaying on the profile

NOTE Confidence: 0.873388266

00:14:09.995 --> 00:14:12.880 so that they have a mailing address handy.

NOTE Confidence: 0.873388266

00:14:12.880 --> 00:14:15.720 Locations are a bit more can be a

NOTE Confidence: 0.873388266

00:14:15.720 --> 00:14:18.351 bit more daunting to manage because

NOTE Confidence: 0.873388266

00:14:18.351 --> 00:14:21.860 some faculty may have a lot of them.

NOTE Confidence: 0.873388266

00:14:21.860 --> 00:14:24.206 But this is really important because

NOTE Confidence: 0.873388266

00:14:24.206 --> 00:14:26.138 this information populates both the

NOTE Confidence: 0.873388266

00:14:26.138 --> 00:14:27.768 profiles that appear on medicine.edu

NOTE Confidence: 0.873388266

00:14:27.768 --> 00:14:30.872 and YS h.yale.edu as well as the Yale

NOTE Confidence: 0.873388266

00:14:30.872 --> 00:14:33.263 Cancer Center site and Patient care

NOTE Confidence: 0.873388266

00:14:33.263 --> 00:14:36.159 locations like this one will also display.

NOTE Confidence: 0.873388266

00:14:36.160 --> 00:14:38.630 On the Yale Medicine website,

NOTE Confidence: 0.873388266

00:14:38.630 --> 00:14:40.142 the clinical practice website.

NOTE Confidence: 0.873388266

00:14:40.142 --> 00:14:43.070 So when you're adding a new location,

NOTE Confidence: 0.873388266

00:14:43.070 --> 00:14:44.372 I'm not going.

NOTE Confidence: 0.873388266

00:14:44.372 --> 00:14:46.108 Should be pretty straightforward.

NOTE Confidence: 0.873388266

00:14:46.110 --> 00:14:46.518 Importantly,  
NOTE Confidence: 0.873388266

00:14:46.518 --> 00:14:48.966 just make sure you select patient  
NOTE Confidence: 0.873388266

00:14:48.966 --> 00:14:51.923 care if this is a patient care  
NOTE Confidence: 0.873388266

00:14:51.923 --> 00:14:53.998 location or they're seeing patients.  
NOTE Confidence: 0.873388266

00:14:54.000 --> 00:14:57.151 Excuse me? Building.  
NOTE Confidence: 0.873388266

00:14:57.151 --> 00:14:58.956 Sorry, one important note here.  
NOTE Confidence: 0.873388266

00:14:58.960 --> 00:15:00.269 The rest of this is pretty obvious,  
NOTE Confidence: 0.873388266

00:15:00.270 --> 00:15:02.478 but building we do have a  
NOTE Confidence: 0.873388266

00:15:02.478 --> 00:15:04.860 preset list of Yale buildings.  
NOTE Confidence: 0.858519958333333

00:15:07.490 --> 00:15:11.570 That will populate here if that's.  
NOTE Confidence: 0.858519958333333

00:15:11.570 --> 00:15:13.130 If you're if there is a Yale building  
NOTE Confidence: 0.858519958333333

00:15:13.130 --> 00:15:14.300 that's missing here, it's entirely  
NOTE Confidence: 0.858519958333333

00:15:14.300 --> 00:15:16.225 possible we haven't found a good way  
NOTE Confidence: 0.858519958333333

00:15:16.225 --> 00:15:18.184 to import this data yet, unfortunately.  
NOTE Confidence: 0.858519958333333

00:15:18.184 --> 00:15:21.674 So if we are missing building, that's  
NOTE Confidence: 0.858519958333333

00:15:21.674 --> 00:15:23.946 again another cue to please let us know.

NOTE Confidence: 0.858519958333333

00:15:23.950 --> 00:15:25.966 We need to add it to our list again,

NOTE Confidence: 0.858519958333333

00:15:25.970 --> 00:15:28.966 it's why [sn.editor@yale.edu](mailto:sn.editor@yale.edu) or click this

NOTE Confidence: 0.858519958333333

00:15:28.966 --> 00:15:31.733 reporter bug button in the side column and

NOTE Confidence: 0.858519958333333

00:15:31.733 --> 00:15:34.077 we can make sure that building gets added.

NOTE Confidence: 0.858519958333333

00:15:34.080 --> 00:15:36.096 Um, other than that, I think the

NOTE Confidence: 0.858519958333333

00:15:36.096 --> 00:15:37.920 details are pretty straightforward.

NOTE Confidence: 0.858519958333333

00:15:37.920 --> 00:15:40.092 If there is an applicable weighing

NOTE Confidence: 0.858519958333333

00:15:40.092 --> 00:15:41.996 floor suite room, please add that.

NOTE Confidence: 0.858519958333333

00:15:41.996 --> 00:15:43.800 I mean, usually only one or two of

NOTE Confidence: 0.858519958333333

00:15:43.800 --> 00:15:46.140 these is going to be relevant, if any.

NOTE Confidence: 0.858519958333333

00:15:46.140 --> 00:15:49.620 You can add a phone for this location,

NOTE Confidence: 0.858519958333333

00:15:49.620 --> 00:15:50.910 I'll show you in a minute.

NOTE Confidence: 0.858519958333333

00:15:50.910 --> 00:15:51.828 We've done a lot of edits.

NOTE Confidence: 0.858519958333333

00:15:51.830 --> 00:15:53.396 I'm going to preview the profile

NOTE Confidence: 0.858519958333333

00:15:53.396 --> 00:15:55.507 in a second and give you a minute

NOTE Confidence: 0.858519958333333

00:15:55.507 --> 00:15:57.340 to ask questions if you have them.  
NOTE Confidence: 0.8585199583333333

00:15:57.340 --> 00:16:00.960 But this phone will appear as  
NOTE Confidence: 0.8585199583333333

00:16:00.960 --> 00:16:02.512 associated with this location,  
NOTE Confidence: 0.8585199583333333

00:16:02.520 --> 00:16:04.190 so if there's a specific.  
NOTE Confidence: 0.8585199583333333

00:16:04.190 --> 00:16:06.486 Phone you need to get in touch with  
NOTE Confidence: 0.8585199583333333

00:16:06.490 --> 00:16:08.566 Doctor Grauer at this specific location.  
NOTE Confidence: 0.8585199583333333

00:16:08.570 --> 00:16:09.725 You might want to add it here.  
NOTE Confidence: 0.8585199583333333

00:16:09.730 --> 00:16:11.188 It'll show up on their profile,  
NOTE Confidence: 0.8585199583333333

00:16:11.190 --> 00:16:12.468 the location with the phone number.  
NOTE Confidence: 0.8682320566666667

00:16:14.950 --> 00:16:17.830 That's about it for the dresses,  
NOTE Confidence: 0.8682320566666667

00:16:17.830 --> 00:16:19.755 and I'm going to leave the stuff  
NOTE Confidence: 0.8682320566666667

00:16:19.755 --> 00:16:21.688 I don't want to add a new one.  
NOTE Confidence: 0.8682320566666667

00:16:21.690 --> 00:16:23.484 So like I said, let's click  
NOTE Confidence: 0.8682320566666667

00:16:23.484 --> 00:16:25.158 preview this profile and take a  
NOTE Confidence: 0.8682320566666667

00:16:25.158 --> 00:16:27.308 look at what we've done so far.  
NOTE Confidence: 0.8682320566666667

00:16:27.310 --> 00:16:30.054 Actually, not a lot of the changes

NOTE Confidence: 0.868232056666667  
00:16:30.060 --> 00:16:33.917 are going to show up just yet.  
NOTE Confidence: 0.868232056666667  
00:16:33.920 --> 00:16:35.668 Well, unfortunately I don't  
NOTE Confidence: 0.868232056666667  
00:16:35.668 --> 00:16:37.853 see my suffix edition yet,  
NOTE Confidence: 0.868232056666667  
00:16:37.860 --> 00:16:39.270 which is disappointing,  
NOTE Confidence: 0.868232056666667  
00:16:39.270 --> 00:16:42.090 but you can see at least  
NOTE Confidence: 0.868232056666667  
00:16:42.090 --> 00:16:44.558 for these locations here.  
NOTE Confidence: 0.868232056666667  
00:16:44.560 --> 00:16:46.877 I do have an associated phone number  
NOTE Confidence: 0.868232056666667  
00:16:46.877 --> 00:16:48.800 with this patient care location,  
NOTE Confidence: 0.868232056666667  
00:16:48.800 --> 00:16:52.130 so that is helpful to have.  
NOTE Confidence: 0.868232056666667  
00:16:52.130 --> 00:16:54.830 The mailing address that was already  
NOTE Confidence: 0.868232056666667  
00:16:54.830 --> 00:16:58.128 added to his profile is displayed here.  
NOTE Confidence: 0.868232056666667  
00:16:58.130 --> 00:16:58.980 Umm.  
NOTE Confidence: 0.872820619615385  
00:17:04.770 --> 00:17:06.919 You know, I'm wondering if I didn't  
NOTE Confidence: 0.872820619615385  
00:17:06.919 --> 00:17:08.870 click save on my education page  
NOTE Confidence: 0.872820619615385  
00:17:08.870 --> 00:17:11.110 and that's why I'm not seeing the  
NOTE Confidence: 0.872820619615385

00:17:11.176 --> 00:17:13.060 other updates I expect to see.  
NOTE Confidence: 0.872820619615385

00:17:13.060 --> 00:17:14.248 No, they're all saved.  
NOTE Confidence: 0.886295246666667

00:17:16.280 --> 00:17:18.638 OK, well that's a little disappointing.  
NOTE Confidence: 0.886295246666667

00:17:18.640 --> 00:17:19.728 These should be updating.  
NOTE Confidence: 0.886295246666667

00:17:19.728 --> 00:17:21.662 We have been having some issues with  
NOTE Confidence: 0.886295246666667

00:17:21.662 --> 00:17:23.433 content as some of you have noticed  
NOTE Confidence: 0.886295246666667

00:17:23.433 --> 00:17:25.179 with content updating on the websites,  
NOTE Confidence: 0.886295246666667

00:17:25.180 --> 00:17:27.574 and I think this may be is just another  
NOTE Confidence: 0.886295246666667

00:17:27.574 --> 00:17:29.379 symptom of that problem right now.  
NOTE Confidence: 0.886295246666667

00:17:29.380 --> 00:17:32.908 Hopefully it'll update a little bit later.  
NOTE Confidence: 0.886295246666667

00:17:32.910 --> 00:17:34.597 I did promise I would go to  
NOTE Confidence: 0.886295246666667

00:17:34.597 --> 00:17:36.149 questions now if there are any.  
NOTE Confidence: 0.886295246666667

00:17:36.150 --> 00:17:37.452 Do we have any questions in the  
NOTE Confidence: 0.886295246666667

00:17:37.452 --> 00:17:38.755 chat or that anybody has just  
NOTE Confidence: 0.886295246666667

00:17:38.755 --> 00:17:40.153 been holding in their head that  
NOTE Confidence: 0.886295246666667

00:17:40.153 --> 00:17:41.527 they'd like to ask at this point?

NOTE Confidence: 0.903858294

00:17:50.600 --> 00:17:53.060 OK, I will keep going.

NOTE Confidence: 0.903858294

00:17:53.060 --> 00:17:56.462 You're the only bit I left off here for

NOTE Confidence: 0.903858294

00:17:56.462 --> 00:17:59.677 this overview tab is the lab website.

NOTE Confidence: 0.903858294

00:17:59.680 --> 00:18:04.307 This is pretty straightforward if I add.

NOTE Confidence: 0.903858294

00:18:04.310 --> 00:18:06.798 A live website and I don't have no

NOTE Confidence: 0.903858294

00:18:06.798 --> 00:18:09.729 idea if he has an actual live website.

NOTE Confidence: 0.903858294

00:18:09.730 --> 00:18:13.300 You just need to put in the name in the URL.

NOTE Confidence: 0.903858294

00:18:13.300 --> 00:18:15.118 If this preview was working properly,

NOTE Confidence: 0.903858294

00:18:15.120 --> 00:18:17.028 when I clicked preview it should

NOTE Confidence: 0.903858294

00:18:17.028 --> 00:18:19.190 show up in the side column.

NOTE Confidence: 0.903858294

00:18:19.190 --> 00:18:21.556 Here there would be a link to

NOTE Confidence: 0.903858294

00:18:21.560 --> 00:18:24.680 doctor Growers Lab website.

NOTE Confidence: 0.903858294

00:18:24.680 --> 00:18:29.335 Um, OK, let's move on to headshots.

NOTE Confidence: 0.903858294

00:18:29.340 --> 00:18:30.525 There's not a whole lot

NOTE Confidence: 0.903858294

00:18:30.525 --> 00:18:31.236 that's different here.

NOTE Confidence: 0.903858294

00:18:31.240 --> 00:18:33.436 The one thing I will say is that we  
NOTE Confidence: 0.903858294

00:18:33.436 --> 00:18:35.460 have discovered that some people,  
NOTE Confidence: 0.903858294

00:18:35.460 --> 00:18:36.612 for whatever reason,  
NOTE Confidence: 0.903858294

00:18:36.612 --> 00:18:38.148 their headshot didn't get  
NOTE Confidence: 0.903858294

00:18:38.148 --> 00:18:40.140 imported with the correct crop.  
NOTE Confidence: 0.903858294

00:18:40.140 --> 00:18:42.025 Um, I'm not totally positive  
NOTE Confidence: 0.903858294

00:18:42.025 --> 00:18:43.156 why this happened.  
NOTE Confidence: 0.903858294

00:18:43.160 --> 00:18:44.416 It doesn't affect everybody.  
NOTE Confidence: 0.903858294

00:18:44.416 --> 00:18:46.300 It's only a subset of people.  
NOTE Confidence: 0.903858294

00:18:46.300 --> 00:18:48.208 But we have had several people  
NOTE Confidence: 0.903858294

00:18:48.208 --> 00:18:50.052 contact us about this right now.  
NOTE Confidence: 0.903858294

00:18:50.052 --> 00:18:52.804 There's no way for me to re crop this  
NOTE Confidence: 0.903858294

00:18:52.804 --> 00:18:55.162 headshot that we imported from the  
NOTE Confidence: 0.903858294

00:18:55.162 --> 00:18:57.740 profile system from the previous system.  
NOTE Confidence: 0.903858294

00:18:57.740 --> 00:18:59.693 We are going to add a way to do  
NOTE Confidence: 0.903858294

00:18:59.693 --> 00:19:01.494 that in the coming weeks so that

NOTE Confidence: 0.903858294

00:19:01.494 --> 00:19:03.040 we can fix the cropping issues

NOTE Confidence: 0.903858294

00:19:03.040 --> 00:19:04.600 that some of these headshots have.

NOTE Confidence: 0.86433116

00:19:06.720 --> 00:19:09.597 So much else to say about headshots

NOTE Confidence: 0.86433116

00:19:09.597 --> 00:19:11.865 that that hasn't really changed

NOTE Confidence: 0.86433116

00:19:11.865 --> 00:19:14.240 at all from profile system.

NOTE Confidence: 0.86433116

00:19:14.240 --> 00:19:17.558 Biography. OK, a few notes here.

NOTE Confidence: 0.86433116

00:19:17.560 --> 00:19:18.793 The primary bio.

NOTE Confidence: 0.86433116

00:19:18.793 --> 00:19:20.437 This is pretty straightforward.

NOTE Confidence: 0.86433116

00:19:20.440 --> 00:19:23.086 The faculty member has the ability

NOTE Confidence: 0.86433116

00:19:23.086 --> 00:19:26.464 for they or their admin to add

NOTE Confidence: 0.86433116

00:19:26.464 --> 00:19:28.500 a biography about themselves.

NOTE Confidence: 0.86433116

00:19:28.500 --> 00:19:32.300 The important thing is that should be brief,

NOTE Confidence: 0.86433116

00:19:32.300 --> 00:19:34.190 and I think this sentence is really

NOTE Confidence: 0.86433116

00:19:34.190 --> 00:19:36.096 helpful to describe yourself as you might

NOTE Confidence: 0.86433116

00:19:36.096 --> 00:19:37.960 end up book jacket in paragraph form.

NOTE Confidence: 0.86433116

00:19:37.960 --> 00:19:41.776 So that's what Doctor Grauer has done here.

NOTE Confidence: 0.86433116

00:19:41.780 --> 00:19:45.122 That will appear on his medicine

NOTE Confidence: 0.86433116

00:19:45.122 --> 00:19:47.824 at yale.edu/his School of Public

NOTE Confidence: 0.86433116

00:19:47.824 --> 00:19:51.078 Health website Profile if he has one.

NOTE Confidence: 0.86433116

00:19:51.080 --> 00:19:51.555 Additionally,

NOTE Confidence: 0.86433116

00:19:51.555 --> 00:19:54.405 there are other biographies that a

NOTE Confidence: 0.86433116

00:19:54.405 --> 00:19:57.139 especially a faculty member might have.

NOTE Confidence: 0.86433116

00:19:57.140 --> 00:20:00.650 One type is a organization

NOTE Confidence: 0.86433116

00:20:00.650 --> 00:20:02.054 specific biography.

NOTE Confidence: 0.86433116

00:20:02.060 --> 00:20:05.570 The point of this is to allow people who

NOTE Confidence: 0.86433116

00:20:05.570 --> 00:20:08.364 appear in listings on certain websites

NOTE Confidence: 0.86433116

00:20:08.364 --> 00:20:11.770 to have a biography that is specific.

NOTE Confidence: 0.86433116

00:20:11.770 --> 00:20:13.606 To the website they're appearing on.

NOTE Confidence: 0.86433116

00:20:13.610 --> 00:20:14.348 For example,

NOTE Confidence: 0.86433116

00:20:14.348 --> 00:20:16.193 Doctor Grauer is very involved

NOTE Confidence: 0.86433116

00:20:16.193 --> 00:20:18.964 in the office of Academic and

NOTE Confidence: 0.86433116  
00:20:18.964 --> 00:20:20.026 Professional Development,  
NOTE Confidence: 0.86433116  
00:20:20.030 --> 00:20:22.910 so he has a bio that specifically appears  
NOTE Confidence: 0.86433116  
00:20:22.910 --> 00:20:26.075 if I were to go to the LAPD website  
NOTE Confidence: 0.86433116  
00:20:26.075 --> 00:20:28.924 and look him up instead of seeing  
NOTE Confidence: 0.86433116  
00:20:28.924 --> 00:20:31.558 this bio that he's entered himself.  
NOTE Confidence: 0.86433116  
00:20:31.560 --> 00:20:33.378 When I click his name in a list and  
NOTE Confidence: 0.86433116  
00:20:33.378 --> 00:20:34.160 you know what,  
NOTE Confidence: 0.86433116  
00:20:34.160 --> 00:20:35.650 I'll try to find this.  
NOTE Confidence: 0.83660134125  
00:20:38.540 --> 00:20:40.404 You know, I'm not positive where it appears,  
NOTE Confidence: 0.83660134125  
00:20:40.410 --> 00:20:43.794 so this might be a really bad idea.  
NOTE Confidence: 0.83660134125  
00:20:43.800 --> 00:20:45.648 But it will just be a lot easier  
NOTE Confidence: 0.83660134125  
00:20:45.648 --> 00:20:46.799 to demonstrate than explain.  
NOTE Confidence: 0.920742005714286  
00:20:50.600 --> 00:20:52.707 Yes. OK. So I hope it's here.  
NOTE Confidence: 0.885725928571428  
00:20:55.740 --> 00:20:58.270 Yes. So when I go to the office of Academic  
NOTE Confidence: 0.885725928571428  
00:20:58.337 --> 00:21:00.517 and Professional Development website,  
NOTE Confidence: 0.885725928571428

00:21:00.520 --> 00:21:03.238 I see Doctor Grauer's bio here.  
NOTE Confidence: 0.885725928571428

00:21:03.240 --> 00:21:06.095 It's actually his organization specific  
NOTE Confidence: 0.885725928571428

00:21:06.095 --> 00:21:09.440 bio which is specifically about COPD.  
NOTE Confidence: 0.885725928571428

00:21:09.440 --> 00:21:12.864 I see a special page that previews just  
NOTE Confidence: 0.885725928571428

00:21:12.864 --> 00:21:16.367 that or that displays just that bio.  
NOTE Confidence: 0.885725928571428

00:21:16.370 --> 00:21:18.484 I could click through to see this  
NOTE Confidence: 0.885725928571428

00:21:18.484 --> 00:21:20.524 full his standard profile page by  
NOTE Confidence: 0.885725928571428

00:21:20.524 --> 00:21:22.660 clicking the view full profile button.  
NOTE Confidence: 0.885725928571428

00:21:22.660 --> 00:21:25.095 So that's the point of  
NOTE Confidence: 0.885725928571428

00:21:25.095 --> 00:21:26.556 organization specific BIOS.  
NOTE Confidence: 0.885725928571428

00:21:26.560 --> 00:21:28.996 The reason why faculty can't edit those  
NOTE Confidence: 0.885725928571428

00:21:28.996 --> 00:21:32.145 is it might be not at all clear to that  
NOTE Confidence: 0.885725928571428

00:21:32.145 --> 00:21:35.326 person why this bio exists at all,  
NOTE Confidence: 0.885725928571428

00:21:35.330 --> 00:21:38.135 let alone why it's different  
NOTE Confidence: 0.885725928571428

00:21:38.135 --> 00:21:40.379 from their primary biography.  
NOTE Confidence: 0.885725928571428

00:21:40.380 --> 00:21:42.060 So we blocked them for editing.

NOTE Confidence: 0.885725928571428  
00:21:42.060 --> 00:21:43.880 They can request an edit,  
NOTE Confidence: 0.885725928571428  
00:21:43.880 --> 00:21:45.917 so if I spot a typo here,  
NOTE Confidence: 0.885725928571428  
00:21:45.920 --> 00:21:49.189 or there's some aspect of Doctor Grauer's  
NOTE Confidence: 0.885725928571428  
00:21:49.189 --> 00:21:52.928 role in LAPD that's not reflected here.  
NOTE Confidence: 0.885725928571428  
00:21:52.930 --> 00:21:54.334 He could click request,  
NOTE Confidence: 0.885725928571428  
00:21:54.334 --> 00:21:56.089 edit and edit as needed,  
NOTE Confidence: 0.885725928571428  
00:21:56.090 --> 00:21:57.806 or add to it as needed.  
NOTE Confidence: 0.885725928571428  
00:21:57.810 --> 00:21:59.553 Send us a request and we'll make  
NOTE Confidence: 0.885725928571428  
00:21:59.553 --> 00:22:01.791 sure it work with the website for  
NOTE Confidence: 0.885725928571428  
00:22:01.791 --> 00:22:03.227 the appropriate website stakeholder  
NOTE Confidence: 0.885725928571428  
00:22:03.227 --> 00:22:05.279 and make that it if appropriate.  
NOTE Confidence: 0.8739102  
00:22:07.500 --> 00:22:11.046 Those are. The organization specific  
NOTE Confidence: 0.8739102  
00:22:11.046 --> 00:22:13.006 biographies and what they're about,  
NOTE Confidence: 0.8739102  
00:22:13.010 --> 00:22:15.593 and the last bit that only faculty  
NOTE Confidence: 0.8739102  
00:22:15.593 --> 00:22:18.375 who are in the Yale Medicine  
NOTE Confidence: 0.8739102

00:22:18.375 --> 00:22:20.487 clinical practice will see,  
NOTE Confidence: 0.8739102

00:22:20.490 --> 00:22:23.526 is this YMCA Patient Care biography.  
NOTE Confidence: 0.8739102

00:22:23.530 --> 00:22:26.146 These biographies are written by the  
NOTE Confidence: 0.8739102

00:22:26.146 --> 00:22:28.604 Yale Medicine editorial team, so again,  
NOTE Confidence: 0.8739102

00:22:28.604 --> 00:22:30.746 we're not allowing faculty to just  
NOTE Confidence: 0.8739102

00:22:30.746 --> 00:22:32.784 directly edit this, but they can.  
NOTE Confidence: 0.8739102

00:22:32.784 --> 00:22:34.692 If they have some issue where  
NOTE Confidence: 0.8739102

00:22:34.692 --> 00:22:36.690 something's missing from this biography,  
NOTE Confidence: 0.8739102

00:22:36.690 --> 00:22:39.426 they find some problem they can reach out to.  
NOTE Confidence: 0.8739102

00:22:39.430 --> 00:22:41.452 The Yale Medicine content team by  
NOTE Confidence: 0.8739102

00:22:41.452 --> 00:22:43.164 contacting this address and they  
NOTE Confidence: 0.8739102

00:22:43.164 --> 00:22:45.018 will work with them to correct  
NOTE Confidence: 0.8739102

00:22:45.018 --> 00:22:46.170 whatever the problem is.  
NOTE Confidence: 0.8792999975

00:22:48.630 --> 00:22:49.773 Any question about  
NOTE Confidence: 0.8792999975

00:22:49.773 --> 00:22:51.678 biographies before I move on?  
NOTE Confidence: 0.88527143

00:22:55.390 --> 00:22:58.604 OK. Education we already covered,

NOTE Confidence: 0.88527143

00:22:58.604 --> 00:23:01.185 so I'm going to go ahead and skip

NOTE Confidence: 0.88527143

00:23:01.185 --> 00:23:03.045 past this because it really is

NOTE Confidence: 0.88527143

00:23:03.045 --> 00:23:05.275 simply adding the degrees with the

NOTE Confidence: 0.88527143

00:23:05.275 --> 00:23:06.433 appropriate backup information

NOTE Confidence: 0.88527143

00:23:06.433 --> 00:23:08.452 plus suffix at managing suffixes.

NOTE Confidence: 0.88527143

00:23:08.452 --> 00:23:11.008 We also output suffixes here so

NOTE Confidence: 0.88527143

00:23:11.008 --> 00:23:13.560 that you can quickly and easily

NOTE Confidence: 0.88527143

00:23:13.560 --> 00:23:15.990 manage them if you're making lots

NOTE Confidence: 0.88527143

00:23:16.062 --> 00:23:18.157 of changes to your education.

NOTE Confidence: 0.88527143

00:23:18.160 --> 00:23:21.106 Career. This is where the user's

NOTE Confidence: 0.88527143

00:23:21.106 --> 00:23:23.830 titles are going to appear.

NOTE Confidence: 0.88527143

00:23:23.830 --> 00:23:25.996 The first title you should always

NOTE Confidence: 0.88527143

00:23:25.996 --> 00:23:28.476 see in Anyones career tab is going

NOTE Confidence: 0.88527143

00:23:28.476 --> 00:23:30.730 to be their imported work day title.

NOTE Confidence: 0.88527143

00:23:30.730 --> 00:23:32.470 You cannot edit this title here.

NOTE Confidence: 0.88527143

00:23:32.470 --> 00:23:34.130 If this title is wrong,  
NOTE Confidence: 0.88527143

00:23:34.130 --> 00:23:36.434 you need to get in touch with employee  
NOTE Confidence: 0.88527143

00:23:36.434 --> 00:23:38.509 services to correct this information.  
NOTE Confidence: 0.88527143

00:23:38.510 --> 00:23:40.010 As for the other titles,  
NOTE Confidence: 0.88527143

00:23:40.010 --> 00:23:43.461 these can be added by either the  
NOTE Confidence: 0.88527143

00:23:43.461 --> 00:23:46.171 faculty or staff person themselves  
NOTE Confidence: 0.88527143

00:23:46.171 --> 00:23:48.976 or by a profile editor.  
NOTE Confidence: 0.88527143

00:23:48.980 --> 00:23:51.300 We actually keep a record.  
NOTE Confidence: 0.88527143

00:23:51.300 --> 00:23:53.540 This is again for internal  
NOTE Confidence: 0.88527143

00:23:53.540 --> 00:23:54.436 reporting purposes.  
NOTE Confidence: 0.88527143

00:23:54.440 --> 00:23:56.114 Even though they won't display on  
NOTE Confidence: 0.88527143

00:23:56.114 --> 00:23:57.816 your profile because it would be  
NOTE Confidence: 0.88527143

00:23:57.816 --> 00:23:59.400 silly because they're in the past,  
NOTE Confidence: 0.88527143

00:23:59.400 --> 00:24:00.972 these past administrative positions  
NOTE Confidence: 0.88527143

00:24:00.972 --> 00:24:03.840 will be appear here and be stored.  
NOTE Confidence: 0.88527143

00:24:03.840 --> 00:24:07.095 This is just helpful for reporting purposes.

NOTE Confidence: 0.88527143  
00:24:07.100 --> 00:24:08.828 If I need to add some new title,  
NOTE Confidence: 0.88527143  
00:24:08.830 --> 00:24:10.790 you could see that there are only  
NOTE Confidence: 0.88527143  
00:24:10.790 --> 00:24:12.738 these two titles in addition to  
NOTE Confidence: 0.88527143  
00:24:12.738 --> 00:24:14.478 doctor Rowers imported title that  
NOTE Confidence: 0.88527143  
00:24:14.478 --> 00:24:16.172 are displayed on his profile today  
NOTE Confidence: 0.88527143  
00:24:16.172 --> 00:24:18.520 if I need to add some new title.  
NOTE Confidence: 0.88527143  
00:24:18.520 --> 00:24:20.845 It's very, very easy process.  
NOTE Confidence: 0.88527143  
00:24:20.850 --> 00:24:23.223 I simply choose whether it was a  
NOTE Confidence: 0.88527143  
00:24:23.223 --> 00:24:25.210 position at Yale or elsewhere.  
NOTE Confidence: 0.88527143  
00:24:25.210 --> 00:24:26.102 Enter the.  
NOTE Confidence: 0.88527143  
00:24:26.102 --> 00:24:29.224 Title and the the actual title as  
NOTE Confidence: 0.88527143  
00:24:29.224 --> 00:24:32.392 well as a little bit of backup  
NOTE Confidence: 0.88527143  
00:24:32.392 --> 00:24:35.000 information and then I can add  
NOTE Confidence: 0.88527143  
00:24:35.000 --> 00:24:36.520 it to my profile.  
NOTE Confidence: 0.84524245  
00:24:38.760 --> 00:24:40.209 It's pretty straightforward.  
NOTE Confidence: 0.684996878

00:24:43.050 --> 00:24:49.130 And to training, this is pretty similar  
NOTE Confidence: 0.684996878

00:24:49.130 --> 00:24:51.630 to the past administrative appointments.  
NOTE Confidence: 0.684996878

00:24:51.630 --> 00:24:53.578 Again, sorry, the yes,  
NOTE Confidence: 0.684996878

00:24:53.578 --> 00:24:55.998 the past administrative positions again,  
NOTE Confidence: 0.684996878

00:24:55.998 --> 00:24:59.274 I can just enter some limited information  
NOTE Confidence: 0.684996878

00:24:59.274 --> 00:25:01.957 about this training that I took.  
NOTE Confidence: 0.684996878

00:25:01.960 --> 00:25:05.696 Or underwent, and once I add it all,  
NOTE Confidence: 0.684996878

00:25:05.700 --> 00:25:06.748 I can choose, well,  
NOTE Confidence: 0.684996878

00:25:06.748 --> 00:25:09.379 I can choose to this show or hide the date.  
NOTE Confidence: 0.684996878

00:25:09.380 --> 00:25:11.504 So again, some faculty don't want  
NOTE Confidence: 0.684996878

00:25:11.504 --> 00:25:13.600 to necessarily give away their age.  
NOTE Confidence: 0.684996878

00:25:13.600 --> 00:25:15.490 We do need it for, again,  
NOTE Confidence: 0.684996878

00:25:15.490 --> 00:25:17.610 verification purposes if necessary.  
NOTE Confidence: 0.84944222

00:25:19.890 --> 00:25:24.776 And I can. Add to my training  
NOTE Confidence: 0.84944222

00:25:24.776 --> 00:25:27.450 history. Um, appointments.  
NOTE Confidence: 0.915059062727273

00:25:29.850 --> 00:25:32.272 I can also add, we should hopefully

NOTE Confidence: 0.915059062727273  
00:25:32.272 --> 00:25:34.250 get your current appointments,  
NOTE Confidence: 0.915059062727273  
00:25:34.250 --> 00:25:35.485 but we are not necessarily  
NOTE Confidence: 0.915059062727273  
00:25:35.485 --> 00:25:36.720 going to have information about  
NOTE Confidence: 0.915059062727273  
00:25:36.762 --> 00:25:38.037 all of your past appointments.  
NOTE Confidence: 0.915059062727273  
00:25:38.040 --> 00:25:39.635 So that's really what this  
NOTE Confidence: 0.915059062727273  
00:25:39.635 --> 00:25:41.230 ad new feature is for,  
NOTE Confidence: 0.915059062727273  
00:25:41.230 --> 00:25:44.350 to add non Yale appointments that  
NOTE Confidence: 0.915059062727273  
00:25:44.350 --> 00:25:46.430 are from previous positions.  
NOTE Confidence: 0.915059062727273  
00:25:46.430 --> 00:25:49.470 And again it's a set number of fields,  
NOTE Confidence: 0.915059062727273  
00:25:49.470 --> 00:25:51.998 we need some relevant dates in order to  
NOTE Confidence: 0.915059062727273  
00:25:51.998 --> 00:25:54.950 store it again for record keeping purposes.  
NOTE Confidence: 0.915059062727273  
00:25:54.950 --> 00:25:57.995 That's how you can add it there.  
NOTE Confidence: 0.915059062727273  
00:25:58.000 --> 00:26:02.102 Patents is admittedly a bit  
NOTE Confidence: 0.915059062727273  
00:26:02.102 --> 00:26:03.838 underdeveloped at the moment.  
NOTE Confidence: 0.915059062727273  
00:26:03.840 --> 00:26:05.094 I think there are probably more  
NOTE Confidence: 0.915059062727273

00:26:05.094 --> 00:26:06.399 changes coming here in the future.  
NOTE Confidence: 0.915059062727273

00:26:06.400 --> 00:26:08.312 These are really important for the CV people  
NOTE Confidence: 0.915059062727273

00:26:08.312 --> 00:26:10.260 who are interested in using CV builder,  
NOTE Confidence: 0.915059062727273

00:26:10.260 --> 00:26:13.914 though they may need to enter patents  
NOTE Confidence: 0.915059062727273

00:26:13.914 --> 00:26:17.418 here so I don't have eventual plan is  
NOTE Confidence: 0.915059062727273

00:26:17.420 --> 00:26:21.680 also to import patents from dimensions,  
NOTE Confidence: 0.915059062727273

00:26:21.680 --> 00:26:23.136 which is the same tool that we're  
NOTE Confidence: 0.915059062727273

00:26:23.136 --> 00:26:25.360 using to import publications,  
NOTE Confidence: 0.915059062727273

00:26:25.360 --> 00:26:27.384 so hopefully that will help.  
NOTE Confidence: 0.915059062727273

00:26:27.384 --> 00:26:30.294 For some of this data.  
NOTE Confidence: 0.915059062727273

00:26:30.300 --> 00:26:32.586 Yeah, and I, correct me if I'm wrong Justin,  
NOTE Confidence: 0.915059062727273

00:26:32.590 --> 00:26:34.354 but I'm pretty sure these are not  
NOTE Confidence: 0.915059062727273

00:26:34.354 --> 00:26:35.730 appearing on the website today  
NOTE Confidence: 0.915059062727273

00:26:35.730 --> 00:26:37.037 on the profile on.  
NOTE Confidence: 0.915059062727273

00:26:37.037 --> 00:26:39.779 They're only for CV builder really.  
NOTE Confidence: 0.915059062727273

00:26:39.780 --> 00:26:40.900 OK. Right.

NOTE Confidence: 0.915059062727273  
00:26:40.900 --> 00:26:42.020 But again,  
NOTE Confidence: 0.915059062727273  
00:26:42.020 --> 00:26:45.020 I think we'll add the ability in the future,  
NOTE Confidence: 0.915059062727273  
00:26:45.020 --> 00:26:48.382 but they're not really known for now.  
NOTE Confidence: 0.915059062727273  
00:26:48.382 --> 00:26:49.859 They really were just added so we  
NOTE Confidence: 0.915059062727273  
00:26:49.859 --> 00:26:51.399 could make sure we have a complete,  
NOTE Confidence: 0.915059062727273  
00:26:51.400 --> 00:26:52.660 we have all the information  
NOTE Confidence: 0.915059062727273  
00:26:52.660 --> 00:26:53.920 we need for CV builder.  
NOTE Confidence: 0.915059062727273  
00:26:53.920 --> 00:26:55.594 There are probably some changes here  
NOTE Confidence: 0.915059062727273  
00:26:55.594 --> 00:26:57.599 to come if you're adding these do,  
NOTE Confidence: 0.915059062727273  
00:26:57.600 --> 00:26:59.595 if there are multiple Yale people involved,  
NOTE Confidence: 0.915059062727273  
00:26:59.600 --> 00:27:01.150 especially please add the other  
NOTE Confidence: 0.915059062727273  
00:27:01.150 --> 00:27:03.220 relevant people to this patent so we  
NOTE Confidence: 0.915059062727273  
00:27:03.220 --> 00:27:04.865 know it's just helpful and I'll save  
NOTE Confidence: 0.915059062727273  
00:27:04.865 --> 00:27:06.690 some work on the other end and make  
NOTE Confidence: 0.915059062727273  
00:27:06.690 --> 00:27:08.448 sure we don't get duplicate data.  
NOTE Confidence: 0.84640186

00:27:11.580 --> 00:27:14.630 That's really it for patents  
NOTE Confidence: 0.84640186

00:27:14.630 --> 00:27:16.630 questions about the career tab.  
NOTE Confidence: 0.864225494827586

00:27:21.950 --> 00:27:23.126 OK, patient care.  
NOTE Confidence: 0.864225494827586

00:27:23.126 --> 00:27:25.478 We spent a little time reviewing  
NOTE Confidence: 0.864225494827586

00:27:25.478 --> 00:27:28.120 this in the intro session because it  
NOTE Confidence: 0.864225494827586

00:27:28.120 --> 00:27:30.954 is critical for any faculty who are  
NOTE Confidence: 0.864225494827586

00:27:30.954 --> 00:27:33.564 appearing on the Yale Medicine website.  
NOTE Confidence: 0.864225494827586

00:27:33.570 --> 00:27:35.118 I'm going to reiterate some information.  
NOTE Confidence: 0.864225494827586

00:27:35.120 --> 00:27:37.624 I'll try to give a little more context.  
NOTE Confidence: 0.864225494827586

00:27:37.630 --> 00:27:41.608 Importantly, specialties are going to help.  
NOTE Confidence: 0.864225494827586

00:27:41.610 --> 00:27:43.375 Well, they're going to display  
NOTE Confidence: 0.864225494827586

00:27:43.375 --> 00:27:44.787 prominently on your profile,  
NOTE Confidence: 0.864225494827586

00:27:44.790 --> 00:27:46.190 so they should reflect what  
NOTE Confidence: 0.864225494827586

00:27:46.190 --> 00:27:47.030 you're working on.  
NOTE Confidence: 0.864225494827586

00:27:47.030 --> 00:27:49.850 They're also going to help us  
NOTE Confidence: 0.864225494827586

00:27:49.850 --> 00:27:52.700 figure out how to associate.

NOTE Confidence: 0.864225494827586  
00:27:52.700 --> 00:27:54.528 This faculty member's profile  
NOTE Confidence: 0.864225494827586  
00:27:54.528 --> 00:27:55.899 with certain conditions.  
NOTE Confidence: 0.864225494827586  
00:27:55.900 --> 00:27:58.960 The primary relationship we're looking at  
NOTE Confidence: 0.864225494827586  
00:27:58.960 --> 00:28:02.160 is an export of data from the hospital.  
NOTE Confidence: 0.864225494827586  
00:28:02.160 --> 00:28:05.260 We are trying to associate  
NOTE Confidence: 0.864225494827586  
00:28:05.260 --> 00:28:08.345 doctors and specialists with the  
NOTE Confidence: 0.864225494827586  
00:28:08.345 --> 00:28:10.196 conditions and treatments,  
NOTE Confidence: 0.864225494827586  
00:28:10.200 --> 00:28:11.812 the conditions they treat,  
NOTE Confidence: 0.864225494827586  
00:28:11.812 --> 00:28:14.230 and the treatments they perform by  
NOTE Confidence: 0.864225494827586  
00:28:14.302 --> 00:28:16.838 using their ID and CPT codes that are  
NOTE Confidence: 0.864225494827586  
00:28:16.838 --> 00:28:19.328 entered in their medical billing data.  
NOTE Confidence: 0.864225494827586  
00:28:19.330 --> 00:28:21.676 There's no patient information in there.  
NOTE Confidence: 0.864225494827586  
00:28:21.680 --> 00:28:23.305 We're literally just seeing what  
NOTE Confidence: 0.864225494827586  
00:28:23.305 --> 00:28:24.280 kinds of things.  
NOTE Confidence: 0.864225494827586  
00:28:24.280 --> 00:28:27.440 Each faculty member is doing.  
NOTE Confidence: 0.864225494827586

00:28:27.440 --> 00:28:29.524 And using that information  
NOTE Confidence: 0.864225494827586

00:28:29.524 --> 00:28:32.129 to associate the faculty and  
NOTE Confidence: 0.864225494827586

00:28:32.129 --> 00:28:34.678 specialists with specific conditions.  
NOTE Confidence: 0.864225494827586

00:28:34.680 --> 00:28:37.080 But this other information can  
NOTE Confidence: 0.864225494827586

00:28:37.080 --> 00:28:39.591 be helpful and provide some  
NOTE Confidence: 0.864225494827586

00:28:39.591 --> 00:28:42.693 context for the EPIC data which.  
NOTE Confidence: 0.864225494827586

00:28:42.700 --> 00:28:46.378 Sometimes doesn't give the full picture.  
NOTE Confidence: 0.864225494827586

00:28:46.380 --> 00:28:48.040 There is this daunting tree.  
NOTE Confidence: 0.864225494827586

00:28:48.040 --> 00:28:50.368 If you're looking to add a new specialty,  
NOTE Confidence: 0.864225494827586

00:28:50.370 --> 00:28:52.405 you're probably better off trying  
NOTE Confidence: 0.864225494827586

00:28:52.405 --> 00:28:55.100 to use this search off the bat.  
NOTE Confidence: 0.864225494827586

00:28:55.100 --> 00:28:56.228 But if you're not having luck  
NOTE Confidence: 0.864225494827586

00:28:56.228 --> 00:28:56.792 with the search,  
NOTE Confidence: 0.864225494827586

00:28:56.800 --> 00:28:59.784 then we are exposing the full tree so  
NOTE Confidence: 0.864225494827586

00:28:59.784 --> 00:29:02.771 you can dig down to whatever specialty  
NOTE Confidence: 0.864225494827586

00:29:02.771 --> 00:29:06.339 you are trying to add to your profile.

NOTE Confidence: 0.864225494827586

00:29:06.340 --> 00:29:08.548 Once I get past this oh right and

NOTE Confidence: 0.864225494827586

00:29:08.548 --> 00:29:10.898 if the specialty doesn't appear,

NOTE Confidence: 0.864225494827586

00:29:10.900 --> 00:29:12.898 please click this button and suggested

NOTE Confidence: 0.864225494827586

00:29:12.898 --> 00:29:15.797 we add a new specialty to this tree.

NOTE Confidence: 0.864225494827586

00:29:15.800 --> 00:29:19.316 Uh, similar similarly to the specialties,

NOTE Confidence: 0.864225494827586

00:29:19.320 --> 00:29:21.858 we it would be really helpful,

NOTE Confidence: 0.864225494827586

00:29:21.860 --> 00:29:22.670 especially if.

NOTE Confidence: 0.864225494827586

00:29:22.670 --> 00:29:25.505 You or the faculty member is noticing

NOTE Confidence: 0.864225494827586

00:29:25.505 --> 00:29:28.149 that a particular specialist is not

NOTE Confidence: 0.864225494827586

00:29:28.149 --> 00:29:30.755 appearing on the Yale Medicine site

NOTE Confidence: 0.864225494827586

00:29:30.755 --> 00:29:32.927 where they would where it would

NOTE Confidence: 0.864225494827586

00:29:32.927 --> 00:29:35.058 make sense for them to appear.

NOTE Confidence: 0.864225494827586

00:29:35.058 --> 00:29:37.480 To fill out this expertise in areas

NOTE Confidence: 0.864225494827586

00:29:37.555 --> 00:29:40.070 of specialization section this allow,

NOTE Confidence: 0.864225494827586

00:29:40.070 --> 00:29:42.709 this is the best way for an

NOTE Confidence: 0.864225494827586

00:29:42.709 --> 00:29:44.682 individual specialist to get us  
NOTE Confidence: 0.864225494827586

00:29:44.682 --> 00:29:46.986 the information that might not be  
NOTE Confidence: 0.864225494827586

00:29:46.986 --> 00:29:48.988 reflected in their epic data.  
NOTE Confidence: 0.864225494827586

00:29:48.990 --> 00:29:51.324 About the conditions they treat and  
NOTE Confidence: 0.864225494827586

00:29:51.324 --> 00:29:53.243 the procedures they perform that  
NOTE Confidence: 0.864225494827586

00:29:53.243 --> 00:29:55.350 they maybe are not showing up for.  
NOTE Confidence: 0.864225494827586

00:29:55.350 --> 00:29:56.020 For example,  
NOTE Confidence: 0.864225494827586

00:29:56.020 --> 00:29:58.365 if they have some super specialty for  
NOTE Confidence: 0.864225494827586

00:29:58.365 --> 00:30:00.471 some rare disease that they're only  
NOTE Confidence: 0.864225494827586

00:30:00.471 --> 00:30:02.669 going to treat maybe once a year.  
NOTE Confidence: 0.864225494827586

00:30:02.670 --> 00:30:04.296 But that's really their main focus.  
NOTE Confidence: 0.864225494827586

00:30:04.300 --> 00:30:08.948 All their research is about this condition.  
NOTE Confidence: 0.864225494827586

00:30:08.950 --> 00:30:11.320 That definitely needs to be entered  
NOTE Confidence: 0.864225494827586

00:30:11.320 --> 00:30:13.868 into this list because if we try  
NOTE Confidence: 0.864225494827586

00:30:13.868 --> 00:30:15.961 to look at that persons epic data,  
NOTE Confidence: 0.864225494827586

00:30:15.970 --> 00:30:18.598 they're not going to have a whole lot of

NOTE Confidence: 0.864225494827586

00:30:18.598 --> 00:30:21.075 billing codes for this really rare disease.

NOTE Confidence: 0.864225494827586

00:30:21.080 --> 00:30:23.438 So it's important to indicate that

NOTE Confidence: 0.864225494827586

00:30:23.438 --> 00:30:25.932 they are really focused on treating

NOTE Confidence: 0.864225494827586

00:30:25.932 --> 00:30:28.763 this specific condition by adding

NOTE Confidence: 0.864225494827586

00:30:28.763 --> 00:30:32.729 it to their super specialties here.

NOTE Confidence: 0.864225494827586

00:30:32.730 --> 00:30:34.386 How do you want to build your practice?

NOTE Confidence: 0.864225494827586

00:30:34.390 --> 00:30:36.590 This is more simply.

NOTE Confidence: 0.864225494827586

00:30:36.590 --> 00:30:39.230 There may be some specialties in

NOTE Confidence: 0.864225494827586

00:30:39.230 --> 00:30:41.766 our list that that specialist for

NOTE Confidence: 0.864225494827586

00:30:41.766 --> 00:30:44.094 whatever reason is not performing often

NOTE Confidence: 0.864225494827586

00:30:44.094 --> 00:30:46.408 or maybe hasn't performed at all,

NOTE Confidence: 0.883064775

00:30:46.410 --> 00:30:48.914 but is looking to get into that area.

NOTE Confidence: 0.883064775

00:30:48.920 --> 00:30:50.390 They want to add this to this,

NOTE Confidence: 0.883064775

00:30:50.390 --> 00:30:52.371 add that specialty to this list so

NOTE Confidence: 0.883064775

00:30:52.371 --> 00:30:54.765 we know that they're trying to get

NOTE Confidence: 0.883064775

00:30:54.765 --> 00:30:56.610 involved in that other specialty.  
NOTE Confidence: 0.883064775

00:30:56.610 --> 00:31:00.012 We can make sure they appear as a relevant  
NOTE Confidence: 0.883064775

00:31:00.012 --> 00:31:01.486 specialist when prospective patients,  
NOTE Confidence: 0.883064775

00:31:01.486 --> 00:31:02.958 patients are looking at  
NOTE Confidence: 0.883064775

00:31:02.958 --> 00:31:04.430 content about that condition.  
NOTE Confidence: 0.59264824

00:31:07.060 --> 00:31:10.764 And two. Patient interactions  
NOTE Confidence: 0.59264824

00:31:10.764 --> 00:31:13.074 is a very important section.  
NOTE Confidence: 0.59264824

00:31:13.080 --> 00:31:13.998 It's fairly straightforward.  
NOTE Confidence: 0.59264824

00:31:13.998 --> 00:31:16.720 There's a series of yes or no questions,  
NOTE Confidence: 0.59264824

00:31:16.720 --> 00:31:17.905 but depending on how you  
NOTE Confidence: 0.59264824

00:31:17.905 --> 00:31:18.616 answer these questions.  
NOTE Confidence: 0.59264824

00:31:18.620 --> 00:31:20.769 For instance, if the person answers no  
NOTE Confidence: 0.59264824

00:31:20.769 --> 00:31:23.776 to do you provide direct patient care and  
NOTE Confidence: 0.59264824

00:31:23.776 --> 00:31:26.440 or clinical services related to patients,  
NOTE Confidence: 0.59264824

00:31:26.440 --> 00:31:27.724 they are not going to appear  
NOTE Confidence: 0.59264824

00:31:27.724 --> 00:31:28.939 on the medicine site at all.

NOTE Confidence: 0.59264824

00:31:28.940 --> 00:31:31.217 So if you know of a faculty member who

NOTE Confidence: 0.59264824

00:31:31.217 --> 00:31:32.990 should be appearing as a specialist

NOTE Confidence: 0.59264824

00:31:32.990 --> 00:31:34.740 on Yale Medicine but is not,

NOTE Confidence: 0.59264824

00:31:34.740 --> 00:31:37.820 the very first thing to check is to

NOTE Confidence: 0.59264824

00:31:37.820 --> 00:31:40.815 make sure this value is set to yes.

NOTE Confidence: 0.59264824

00:31:40.820 --> 00:31:42.339 It's also really helpful to know if

NOTE Confidence: 0.59264824

00:31:42.339 --> 00:31:43.937 they see patients by appointment or not.

NOTE Confidence: 0.59264824

00:31:43.940 --> 00:31:44.602 For example,

NOTE Confidence: 0.59264824

00:31:44.602 --> 00:31:46.919 a pathologist is going to be related

NOTE Confidence: 0.59264824

00:31:46.919 --> 00:31:49.298 in clinical services for patients.

NOTE Confidence: 0.59264824

00:31:49.300 --> 00:31:50.764 They might never have an appointment

NOTE Confidence: 0.59264824

00:31:50.764 --> 00:31:51.496 with the patient.

NOTE Confidence: 0.59264824

00:31:51.500 --> 00:31:53.576 So that's just useful to know.

NOTE Confidence: 0.59264824

00:31:53.580 --> 00:31:56.364 We will make information available to

NOTE Confidence: 0.59264824

00:31:56.364 --> 00:31:58.762 prospective patients to make appointments

NOTE Confidence: 0.59264824

00:31:58.762 --> 00:32:01.534 for people who indicate yes here.  
NOTE Confidence: 0.59264824

00:32:01.540 --> 00:32:02.150 And.  
NOTE Confidence: 0.87455873625

00:32:04.660 --> 00:32:07.465 This other information I think  
NOTE Confidence: 0.87455873625

00:32:07.465 --> 00:32:09.148 is relatively straightforward.  
NOTE Confidence: 0.87455873625

00:32:09.150 --> 00:32:12.478 There is going to be a lot more  
NOTE Confidence: 0.87455873625

00:32:12.478 --> 00:32:14.996 work coming soon with regards  
NOTE Confidence: 0.87455873625

00:32:14.996 --> 00:32:17.388 to booking appointments online.  
NOTE Confidence: 0.87455873625

00:32:17.390 --> 00:32:19.430 We've been working with the hospital on that.  
NOTE Confidence: 0.87455873625

00:32:19.430 --> 00:32:21.262 I don't have a whole lot of information  
NOTE Confidence: 0.87455873625

00:32:21.262 --> 00:32:23.228 right now because it's not live just yet,  
NOTE Confidence: 0.87455873625

00:32:23.230 --> 00:32:25.090 but it should be relatively soon.  
NOTE Confidence: 0.87455873625

00:32:25.090 --> 00:32:27.382 So there will be more information  
NOTE Confidence: 0.87455873625

00:32:27.382 --> 00:32:28.910 about booking appointments online  
NOTE Confidence: 0.87455873625

00:32:28.974 --> 00:32:32.750 and the coming months. Lastly.  
NOTE Confidence: 0.87455873625

00:32:32.750 --> 00:32:35.168 I think lastly in this list,  
NOTE Confidence: 0.87455873625

00:32:35.170 --> 00:32:36.505 sorry, almost lastly,

NOTE Confidence: 0.87455873625

00:32:36.505 --> 00:32:39.754 are a list of the yalemedicine.org articles

NOTE Confidence: 0.87455873625

00:32:39.754 --> 00:32:43.850 that this person is going to appear in.

NOTE Confidence: 0.87455873625

00:32:43.850 --> 00:32:45.545 Occasionally there might be an

NOTE Confidence: 0.87455873625

00:32:45.545 --> 00:32:47.659 article that is not really so

NOTE Confidence: 0.87455873625

00:32:47.659 --> 00:32:49.444 relevant to what the specialist

NOTE Confidence: 0.87455873625

00:32:49.444 --> 00:32:51.230 is doing their day-to-day work.

NOTE Confidence: 0.87455873625

00:32:51.230 --> 00:32:53.462 They can choose to hide themselves

NOTE Confidence: 0.87455873625

00:32:53.462 --> 00:32:55.501 from that article if it's

NOTE Confidence: 0.87455873625

00:32:55.501 --> 00:32:57.397 really just totally incorrect.

NOTE Confidence: 0.84486452875

00:33:00.800 --> 00:33:03.984 That's. Really all there is to it there.

NOTE Confidence: 0.84486452875

00:33:03.990 --> 00:33:07.566 Some of these lists are a lot longer.

NOTE Confidence: 0.84486452875

00:33:07.570 --> 00:33:09.170 But this is their recourse.

NOTE Confidence: 0.84486452875

00:33:09.170 --> 00:33:10.928 If for some reason they get

NOTE Confidence: 0.84486452875

00:33:10.928 --> 00:33:12.809 associated with the fact sheet that

NOTE Confidence: 0.84486452875

00:33:12.809 --> 00:33:14.807 they should not be associated with,

NOTE Confidence: 0.84486452875

00:33:14.810 --> 00:33:18.870 they can disable it here. It's if um.  
NOTE Confidence: 0.84486452875

00:33:18.870 --> 00:33:21.110 I'm going to give a similar spiel  
NOTE Confidence: 0.84486452875

00:33:21.184 --> 00:33:23.759 in a second about publications, but.  
NOTE Confidence: 0.84486452875

00:33:23.759 --> 00:33:25.973 If you're seeing a lot of  
NOTE Confidence: 0.84486452875

00:33:25.973 --> 00:33:27.080 incorrect articles here,  
NOTE Confidence: 0.84486452875

00:33:27.080 --> 00:33:28.140 please don't just go through  
NOTE Confidence: 0.84486452875

00:33:28.140 --> 00:33:29.200 and disable all of them.  
NOTE Confidence: 0.84486452875

00:33:29.200 --> 00:33:30.960 If there are a lot of incorrect articles,  
NOTE Confidence: 0.84486452875

00:33:30.960 --> 00:33:32.478 it might be that there's something  
NOTE Confidence: 0.84486452875

00:33:32.478 --> 00:33:34.111 wrong with our data and that  
NOTE Confidence: 0.84486452875

00:33:34.111 --> 00:33:35.541 this person is getting associated  
NOTE Confidence: 0.84486452875

00:33:35.541 --> 00:33:37.273 with articles that do not belong.  
NOTE Confidence: 0.84486452875

00:33:37.273 --> 00:33:39.310 So if you see lots of articles  
NOTE Confidence: 0.84486452875

00:33:39.377 --> 00:33:41.393 that simply do not match with  
NOTE Confidence: 0.84486452875

00:33:41.393 --> 00:33:43.520 what the specialist is working on,  
NOTE Confidence: 0.84486452875

00:33:43.520 --> 00:33:45.280 please again contact us.

NOTE Confidence: 0.84486452875  
00:33:45.280 --> 00:33:46.600 Report a bug,  
NOTE Confidence: 0.84486452875  
00:33:46.600 --> 00:33:47.782 let us know that something is  
NOTE Confidence: 0.84486452875  
00:33:47.782 --> 00:33:49.339 off with the way this person is  
NOTE Confidence: 0.84486452875  
00:33:49.339 --> 00:33:50.539 being associated with content on  
NOTE Confidence: 0.84486452875  
00:33:50.539 --> 00:33:51.670 the Yale Medicine site.  
NOTE Confidence: 0.737952396  
00:33:53.780 --> 00:33:56.096 Very last thing that's gonna appear  
NOTE Confidence: 0.737952396  
00:33:56.096 --> 00:33:57.640 here is board certifications.  
NOTE Confidence: 0.737952396  
00:33:57.640 --> 00:34:00.320 These are 100% imported data.  
NOTE Confidence: 0.737952396  
00:34:00.320 --> 00:34:04.951 I can't edit anything here if I am  
NOTE Confidence: 0.737952396  
00:34:04.951 --> 00:34:07.236 someone who's practicing all medicine  
NOTE Confidence: 0.737952396  
00:34:07.236 --> 00:34:10.609 because we really should have your data.  
NOTE Confidence: 0.737952396  
00:34:10.610 --> 00:34:12.310 In a system of record,  
NOTE Confidence: 0.737952396  
00:34:12.310 --> 00:34:15.208 if you are seeing patients for Yale,  
NOTE Confidence: 0.737952396  
00:34:15.210 --> 00:34:17.523 so if there is some kind of issue here,  
NOTE Confidence: 0.737952396  
00:34:17.530 --> 00:34:20.306 please request an edit to let us know.  
NOTE Confidence: 0.737952396

00:34:20.310 --> 00:34:22.718 Users who are not part of Yale Medicine  
NOTE Confidence: 0.737952396

00:34:22.718 --> 00:34:25.368 can add their own board certifications,  
NOTE Confidence: 0.737952396

00:34:25.370 --> 00:34:28.050 but we found that.  
NOTE Confidence: 0.737952396

00:34:28.050 --> 00:34:29.890 The point was to allow them to add  
NOTE Confidence: 0.737952396

00:34:29.890 --> 00:34:31.739 the board certification so that they  
NOTE Confidence: 0.737952396

00:34:31.739 --> 00:34:33.743 could display those on their profile,  
NOTE Confidence: 0.737952396

00:34:33.750 --> 00:34:34.854 their academic profile.  
NOTE Confidence: 0.737952396

00:34:34.854 --> 00:34:36.694 If they have them on,  
NOTE Confidence: 0.737952396

00:34:36.700 --> 00:34:38.236 they might be interested in showing  
NOTE Confidence: 0.737952396

00:34:38.236 --> 00:34:39.970 that they have that certification.  
NOTE Confidence: 0.737952396

00:34:39.970 --> 00:34:41.867 But it turns out because of the  
NOTE Confidence: 0.737952396

00:34:41.867 --> 00:34:43.723 what the logic we're using to  
NOTE Confidence: 0.737952396

00:34:43.723 --> 00:34:45.685 display specific tabs of a profile.  
NOTE Confidence: 0.737952396

00:34:45.690 --> 00:34:46.970 So on our profiles,  
NOTE Confidence: 0.737952396

00:34:46.970 --> 00:34:48.890 we have the the Biography tab,  
NOTE Confidence: 0.737952396

00:34:48.890 --> 00:34:50.230 the Research Publications tab,

NOTE Confidence: 0.737952396

00:34:50.230 --> 00:34:51.570 the Patient Care tab.

NOTE Confidence: 0.737952396

00:34:51.570 --> 00:34:52.872 We've noticed that most of the people

NOTE Confidence: 0.737952396

00:34:52.872 --> 00:34:54.174 who are not in Yale medicine do

NOTE Confidence: 0.737952396

00:34:54.174 --> 00:34:55.529 not get a patient care tab at all,

NOTE Confidence: 0.737952396

00:34:55.530 --> 00:34:57.180 and therefore even if they

NOTE Confidence: 0.737952396

00:34:57.180 --> 00:34:58.500 are allowed to manually.

NOTE Confidence: 0.737952396

00:34:58.500 --> 00:34:59.955 Winter or certifications,

NOTE Confidence: 0.737952396

00:34:59.955 --> 00:35:03.350 it's not going anywhere because they don't

NOTE Confidence: 0.737952396

00:35:03.424 --> 00:35:06.344 have a patient care tab on their profile.

NOTE Confidence: 0.737952396

00:35:06.350 --> 00:35:09.030 This isn't happening super soon,

NOTE Confidence: 0.737952396

00:35:09.030 --> 00:35:10.866 but we are going to be working on a

NOTE Confidence: 0.737952396

00:35:10.866 --> 00:35:12.613 new profile layout sometime the next

NOTE Confidence: 0.737952396

00:35:12.613 --> 00:35:15.115 year that will make sure we will make

NOTE Confidence: 0.737952396

00:35:15.115 --> 00:35:16.710 sure that those board certifications

NOTE Confidence: 0.737952396

00:35:16.710 --> 00:35:19.730 get exposed on the profile for the

NOTE Confidence: 0.737952396

00:35:19.730 --> 00:35:23.130 users who are not seeing patients.  
NOTE Confidence: 0.737952396

00:35:23.130 --> 00:35:24.500 In that capacity at Yale,  
NOTE Confidence: 0.737952396

00:35:24.500 --> 00:35:27.776 but want to demonstrate want to show  
NOTE Confidence: 0.737952396

00:35:27.776 --> 00:35:30.369 their certification on their profile.  
NOTE Confidence: 0.737952396

00:35:30.370 --> 00:35:32.562 I believe this is when I referenced the  
NOTE Confidence: 0.737952396

00:35:32.562 --> 00:35:34.726 links that Denise has been helpfully  
NOTE Confidence: 0.737952396

00:35:34.726 --> 00:35:36.286 sharing throughout the meeting.  
NOTE Confidence: 0.737952396

00:35:36.290 --> 00:35:38.355 There is a page with lots and  
NOTE Confidence: 0.737952396

00:35:38.355 --> 00:35:40.245 lots of information about how all  
NOTE Confidence: 0.737952396

00:35:40.245 --> 00:35:42.123 this these options work on the  
NOTE Confidence: 0.737952396

00:35:42.123 --> 00:35:44.007 Patient care tab that she shared,  
NOTE Confidence: 0.737952396

00:35:44.010 --> 00:35:45.347 but if anyone has questions right now  
NOTE Confidence: 0.737952396

00:35:45.347 --> 00:35:46.788 before I move on to another section,  
NOTE Confidence: 0.737952396

00:35:46.790 --> 00:35:49.448 I can try to answer them.  
NOTE Confidence: 0.737952396

00:35:49.450 --> 00:35:51.310 Any questions about patient care tab?  
NOTE Confidence: 0.83850215

00:35:55.930 --> 00:35:58.430 All right, this is a little too easy so far.

NOTE Confidence: 0.83850215

00:35:58.430 --> 00:36:02.818 On to honors. Um, these are broken

NOTE Confidence: 0.83850215

00:36:02.818 --> 00:36:04.506 out into several categories.

NOTE Confidence: 0.83850215

00:36:04.510 --> 00:36:07.030 And this. Is really, uh.

NOTE Confidence: 0.83850215

00:36:07.030 --> 00:36:08.654 These categories are really for the CV.

NOTE Confidence: 0.83850215

00:36:08.660 --> 00:36:10.090 That's why it's not just

NOTE Confidence: 0.83850215

00:36:10.090 --> 00:36:12.028 one big list of honors.

NOTE Confidence: 0.83850215

00:36:12.028 --> 00:36:15.262 There are specific categories that are

NOTE Confidence: 0.83850215

00:36:15.262 --> 00:36:18.788 important when it comes to building the CV.

NOTE Confidence: 0.83850215

00:36:18.790 --> 00:36:20.673 So it might seem silly that there's

NOTE Confidence: 0.83850215

00:36:20.673 --> 00:36:22.070 all these different categories,

NOTE Confidence: 0.83850215

00:36:22.070 --> 00:36:23.960 although I think we're going to remove

NOTE Confidence: 0.83850215

00:36:23.960 --> 00:36:25.920 unknown because that is really just overkill.

NOTE Confidence: 0.83850215

00:36:25.920 --> 00:36:28.965 Especially when you already have other award.

NOTE Confidence: 0.83850215

00:36:28.970 --> 00:36:30.950 These other categories are necessary.

NOTE Confidence: 0.83850215

00:36:30.950 --> 00:36:32.924 There's a reason they're here to make

NOTE Confidence: 0.83850215

00:36:32.924 --> 00:36:35.329 sure the CV gets constructed properly,  
NOTE Confidence: 0.83850215

00:36:35.330 --> 00:36:36.000 but again.  
NOTE Confidence: 0.83850215

00:36:36.000 --> 00:36:38.345 Like when a lot of the other  
NOTE Confidence: 0.83850215

00:36:38.345 --> 00:36:40.398 information we've been talking about.  
NOTE Confidence: 0.83850215

00:36:40.400 --> 00:36:42.760 When I want to add a new one,  
NOTE Confidence: 0.83850215

00:36:42.760 --> 00:36:44.615 there are a few required fields here.  
NOTE Confidence: 0.83850215

00:36:44.620 --> 00:36:46.312 I have to give the name of the award.  
NOTE Confidence: 0.83850215

00:36:46.320 --> 00:36:48.984 Obviously I have to choose which of those  
NOTE Confidence: 0.83850215

00:36:48.984 --> 00:36:51.087 categories that I was just scrolling  
NOTE Confidence: 0.83850215

00:36:51.087 --> 00:36:53.151 through is appropriate for this award,  
NOTE Confidence: 0.83850215

00:36:53.160 --> 00:36:54.679 so I don't need to worry about.  
NOTE Confidence: 0.83850215

00:36:54.680 --> 00:36:54.949 Importantly,  
NOTE Confidence: 0.83850215

00:36:54.949 --> 00:36:56.832 I don't really need to worry about  
NOTE Confidence: 0.83850215

00:36:56.832 --> 00:36:58.700 where I click this add new button.  
NOTE Confidence: 0.83850215

00:36:58.700 --> 00:37:00.345 If I click add new under Yale  
NOTE Confidence: 0.83850215

00:37:00.345 --> 00:37:01.400 School of Medicine award,

NOTE Confidence: 0.83850215

00:37:01.400 --> 00:37:02.860 it'll pre populate the category.

NOTE Confidence: 0.83850215

00:37:02.860 --> 00:37:04.078 But if I realize that's not right,

NOTE Confidence: 0.83850215

00:37:04.080 --> 00:37:05.460 I can just change it.

NOTE Confidence: 0.83850215

00:37:05.460 --> 00:37:06.660 So don't stress if you just

NOTE Confidence: 0.83850215

00:37:06.660 --> 00:37:07.900 want to add a new one,

NOTE Confidence: 0.83850215

00:37:07.900 --> 00:37:09.322 just click add new wherever you

NOTE Confidence: 0.83850215

00:37:09.322 --> 00:37:11.269 see it first and then you can fix

NOTE Confidence: 0.83850215

00:37:11.269 --> 00:37:12.890 this category later if you want to.

NOTE Confidence: 0.83850215

00:37:12.890 --> 00:37:13.974 And again,

NOTE Confidence: 0.83850215

00:37:13.974 --> 00:37:17.768 we do require I believe at least

NOTE Confidence: 0.83850215

00:37:17.768 --> 00:37:21.090 a date to indicate when this was

NOTE Confidence: 0.83850215

00:37:21.090 --> 00:37:22.920 for record keeping purposes again.

NOTE Confidence: 0.83850215

00:37:22.920 --> 00:37:25.216 And once I Add all that required info,

NOTE Confidence: 0.83850215

00:37:25.220 --> 00:37:27.180 I can add it to the list.

NOTE Confidence: 0.83850215

00:37:27.180 --> 00:37:28.600 And like most other information

NOTE Confidence: 0.83850215

00:37:28.600 --> 00:37:30.460 in the profile I can choose.  
NOTE Confidence: 0.83850215

00:37:30.460 --> 00:37:31.958 I might maybe I add some award.  
NOTE Confidence: 0.83850215

00:37:31.960 --> 00:37:33.402 I don't really want to display out  
NOTE Confidence: 0.83850215

00:37:33.402 --> 00:37:35.388 my profile, but I need it for my CV.  
NOTE Confidence: 0.83850215

00:37:35.390 --> 00:37:37.766 I might just choose to hide that from  
NOTE Confidence: 0.83850215

00:37:37.766 --> 00:37:40.026 my profile by using this toggle here.  
NOTE Confidence: 0.83850215

00:37:40.030 --> 00:37:41.766 Then it won't display on the web profile,  
NOTE Confidence: 0.83850215

00:37:41.770 --> 00:37:43.660 but I will have this data available  
NOTE Confidence: 0.83850215

00:37:43.660 --> 00:37:46.216 when I go to construct my CD later on.  
NOTE Confidence: 0.83850215

00:37:46.220 --> 00:37:47.372 That's honors.  
NOTE Confidence: 0.83850215

00:37:47.372 --> 00:37:47.948 Umm.  
NOTE Confidence: 0.83850215

00:37:47.948 --> 00:37:51.980 I'm just going to move straight on  
NOTE Confidence: 0.83850215

00:37:52.094 --> 00:37:53.909 to research here.  
NOTE Confidence: 0.83850215

00:37:53.910 --> 00:37:56.310 Currently we are thinking of  
NOTE Confidence: 0.83850215

00:37:56.310 --> 00:37:57.270 reevaluating this.  
NOTE Confidence: 0.83850215

00:37:57.270 --> 00:37:59.292 Currently we still have these two

NOTE Confidence: 0.83850215

00:37:59.292 --> 00:38:01.350 separate fields for research description.

NOTE Confidence: 0.83850215

00:38:01.350 --> 00:38:03.525 Brief research summary is really

NOTE Confidence: 0.83850215

00:38:03.525 --> 00:38:05.265 what we are hoping.

NOTE Confidence: 0.83850215

00:38:05.270 --> 00:38:08.637 This is actually a pretty good one.

NOTE Confidence: 0.83850215

00:38:08.640 --> 00:38:12.340 Really we want just a very almost

NOTE Confidence: 0.83850215

00:38:12.340 --> 00:38:14.240 elementary level explanation of what

NOTE Confidence: 0.83850215

00:38:14.240 --> 00:38:16.502 their research is about as as in

NOTE Confidence: 0.83850215

00:38:16.502 --> 00:38:18.320 as simple terms as they can put it,

NOTE Confidence: 0.83850215

00:38:18.320 --> 00:38:19.860 what their research is about.

NOTE Confidence: 0.83850215

00:38:19.860 --> 00:38:22.060 So that someone who is maybe not a

NOTE Confidence: 0.83850215

00:38:22.060 --> 00:38:24.105 scientist or doctor could understand kind

NOTE Confidence: 0.83850215

00:38:24.105 --> 00:38:26.960 of the things they're working on day-to-day.

NOTE Confidence: 0.83850215

00:38:26.960 --> 00:38:28.958 And then we provide an extensive

NOTE Confidence: 0.83850215

00:38:28.958 --> 00:38:30.290 research description where they

NOTE Confidence: 0.83850215

00:38:30.344 --> 00:38:32.311 can really get into the details of

NOTE Confidence: 0.83850215

00:38:32.311 --> 00:38:33.520 the research you're doing.  
NOTE Confidence: 0.83850215

00:38:33.520 --> 00:38:34.205 Um,  
NOTE Confidence: 0.83850215

00:38:34.205 --> 00:38:35.575 in addition,  
NOTE Confidence: 0.83850215

00:38:35.575 --> 00:38:40.370 we have these research interests right now.  
NOTE Confidence: 0.83850215

00:38:40.370 --> 00:38:44.084 These are simply manual lists that  
NOTE Confidence: 0.83850215

00:38:44.084 --> 00:38:48.336 appear on the profile the mesh keywords.  
NOTE Confidence: 0.83850215

00:38:48.336 --> 00:38:49.520 And actually,  
NOTE Confidence: 0.7873392125

00:38:49.520 --> 00:38:52.216 I think the public health keywords as well  
NOTE Confidence: 0.7873392125

00:38:52.216 --> 00:38:56.448 are involved in a use for an alternate.  
NOTE Confidence: 0.7873392125

00:38:56.448 --> 00:38:59.156 Um. View of this. And now I'm  
NOTE Confidence: 0.7873392125

00:38:59.156 --> 00:39:01.119 forgetting what the site is called.  
NOTE Confidence: 0.813643105384615

00:39:04.090 --> 00:39:06.904 But depending on the. Mesh keywords  
NOTE Confidence: 0.813643105384615

00:39:06.904 --> 00:39:09.607 that a faculty member associates  
NOTE Confidence: 0.813643105384615

00:39:09.607 --> 00:39:12.290 themselves with, they will appear.  
NOTE Confidence: 0.761080523333333

00:39:14.340 --> 00:39:17.949 As associated with.  
NOTE Confidence: 0.761080523333333

00:39:17.950 --> 00:39:20.438 Specific keywords that they

NOTE Confidence: 0.761080523333333

00:39:20.438 --> 00:39:22.926 are interested in researching.

NOTE Confidence: 0.761080523333333

00:39:22.930 --> 00:39:25.002 And it builds this great directory of

NOTE Confidence: 0.761080523333333

00:39:25.002 --> 00:39:26.535 faculty research interests that's promoted

NOTE Confidence: 0.761080523333333

00:39:26.535 --> 00:39:28.305 to the medical students every year,

NOTE Confidence: 0.761080523333333

00:39:28.310 --> 00:39:30.254 so they can try to find mentors who

NOTE Confidence: 0.761080523333333

00:39:30.254 --> 00:39:32.019 might be interested in the same

NOTE Confidence: 0.761080523333333

00:39:32.019 --> 00:39:33.843 kinds of research that they are.

NOTE Confidence: 0.761080523333333

00:39:33.850 --> 00:39:36.200 So if there's some student

NOTE Confidence: 0.761080523333333

00:39:36.200 --> 00:39:38.550 who is really interested in.

NOTE Confidence: 0.761080523333333

00:39:38.550 --> 00:39:39.758 Anticoagulants and I should

NOTE Confidence: 0.761080523333333

00:39:39.758 --> 00:39:40.966 have checked this beforehand.

NOTE Confidence: 0.761080523333333

00:39:40.970 --> 00:39:42.167 OK, we have at least one person,

NOTE Confidence: 0.761080523333333

00:39:42.170 --> 00:39:43.388 and this is somebody who reached

NOTE Confidence: 0.761080523333333

00:39:43.388 --> 00:39:45.049 out to us about the headshot issue,

NOTE Confidence: 0.761080523333333

00:39:45.050 --> 00:39:48.690 so that was really lucky of me.

NOTE Confidence: 0.761080523333333

00:39:48.690 --> 00:39:51.210 So when I click on the research keyword,  
NOTE Confidence: 0.7610805233333333

00:39:51.210 --> 00:39:52.542 it's going to show me a list of everybody  
NOTE Confidence: 0.7610805233333333

00:39:52.542 --> 00:39:53.647 who's associated with this keyword.  
NOTE Confidence: 0.7610805233333333

00:39:53.650 --> 00:39:55.400 It turns out only doctor  
NOTE Confidence: 0.7610805233333333

00:39:55.400 --> 00:39:56.324 Faustino's associated. Here.  
NOTE Confidence: 0.7610805233333333

00:39:56.324 --> 00:39:59.420 Let me try to just so we get a better  
NOTE Confidence: 0.7610805233333333

00:39:59.420 --> 00:40:01.166 idea of how this actually looks.  
NOTE Confidence: 0.7610805233333333

00:40:01.170 --> 00:40:02.785 OK, so I picked biomarkers  
NOTE Confidence: 0.7610805233333333

00:40:02.785 --> 00:40:05.409 and I get a lot more people.  
NOTE Confidence: 0.7610805233333333

00:40:05.410 --> 00:40:07.384 And then also helpfully on this  
NOTE Confidence: 0.7610805233333333

00:40:07.384 --> 00:40:09.451 website and I'm just showing off  
NOTE Confidence: 0.7610805233333333

00:40:09.451 --> 00:40:11.680 this website a little bit, but.  
NOTE Confidence: 0.85756992125

00:40:13.890 --> 00:40:15.850 When I view a profile on this website,  
NOTE Confidence: 0.85756992125

00:40:15.850 --> 00:40:18.706 we show a slightly different view of the  
NOTE Confidence: 0.85756992125

00:40:18.706 --> 00:40:20.988 profile that's geared toward research.  
NOTE Confidence: 0.85756992125

00:40:20.990 --> 00:40:22.482 And in this view,

NOTE Confidence: 0.85756992125

00:40:22.482 --> 00:40:24.347 we will expose the coauthors,

NOTE Confidence: 0.85756992125

00:40:24.350 --> 00:40:26.800 who are other Yale faculty who have

NOTE Confidence: 0.85756992125

00:40:26.800 --> 00:40:28.629 co-authored papers with this person.

NOTE Confidence: 0.85756992125

00:40:28.630 --> 00:40:30.884 So we're just trying to make connections

NOTE Confidence: 0.85756992125

00:40:30.884 --> 00:40:33.043 between the faculty so that it's easier

NOTE Confidence: 0.85756992125

00:40:33.043 --> 00:40:35.083 for the students to find somebody that

NOTE Confidence: 0.85756992125

00:40:35.083 --> 00:40:37.008 might be a suitable mentor for them.

NOTE Confidence: 0.85756992125

00:40:37.010 --> 00:40:38.470 Maybe they can help them

NOTE Confidence: 0.85756992125

00:40:38.470 --> 00:40:39.930 out with their own research.

NOTE Confidence: 0.85756992125

00:40:39.930 --> 00:40:41.740 There's a lot more functionality

NOTE Confidence: 0.85756992125

00:40:41.740 --> 00:40:44.154 coming here in the future that I

NOTE Confidence: 0.85756992125

00:40:44.154 --> 00:40:46.044 do not even have a timeline for,

NOTE Confidence: 0.85756992125

00:40:46.050 --> 00:40:48.339 but we are hoping to apply some

NOTE Confidence: 0.85756992125

00:40:48.339 --> 00:40:50.080 of the same AI principles that

NOTE Confidence: 0.85756992125

00:40:50.080 --> 00:40:51.405 we're using on the medicine.

NOTE Confidence: 0.85756992125

00:40:51.410 --> 00:40:53.315 Website to the research keywords  
NOTE Confidence: 0.85756992125

00:40:53.315 --> 00:40:57.083 that we have so that we can try to  
NOTE Confidence: 0.85756992125

00:40:57.083 --> 00:40:58.867 automatically make these connections  
NOTE Confidence: 0.85756992125

00:40:58.867 --> 00:41:02.032 rather than relying on people going into  
NOTE Confidence: 0.85756992125

00:41:02.032 --> 00:41:04.770 their profile and selecting from this  
NOTE Confidence: 0.85756992125

00:41:04.770 --> 00:41:07.470 giant medical subject headings list,  
NOTE Confidence: 0.85756992125

00:41:07.470 --> 00:41:10.200 which is this list maintained by NIH.  
NOTE Confidence: 0.85756992125

00:41:10.200 --> 00:41:11.915 Rather than having requiring them  
NOTE Confidence: 0.85756992125

00:41:11.915 --> 00:41:14.076 to manually go in and select  
NOTE Confidence: 0.85756992125

00:41:14.076 --> 00:41:15.996 these keywords from this list,  
NOTE Confidence: 0.85756992125

00:41:16.000 --> 00:41:21.216 which can be very daunting to deal with.  
NOTE Confidence: 0.85756992125

00:41:21.220 --> 00:41:22.712 That we can automate,  
NOTE Confidence: 0.85756992125

00:41:22.712 --> 00:41:24.204 try to automatically associate.  
NOTE Confidence: 0.85756992125

00:41:24.210 --> 00:41:25.860 Faculty with keywords based primarily  
NOTE Confidence: 0.85756992125

00:41:25.860 --> 00:41:27.814 on their publications is most likely  
NOTE Confidence: 0.85756992125

00:41:27.814 --> 00:41:29.782 where this data is going to come from,

NOTE Confidence: 0.85756992125  
00:41:29.790 --> 00:41:31.950 and maybe a few other sources.  
NOTE Confidence: 0.85756992125  
00:41:31.950 --> 00:41:34.134 Anyway, that is a bigger project  
NOTE Confidence: 0.85756992125  
00:41:34.134 --> 00:41:36.290 that is coming down the line.  
NOTE Confidence: 0.85756992125  
00:41:36.290 --> 00:41:38.500 Eventually.  
NOTE Confidence: 0.85756992125  
00:41:38.500 --> 00:41:44.130 The last the last section of this.  
NOTE Confidence: 0.85756992125  
00:41:44.130 --> 00:41:47.620 Research section is research images.  
NOTE Confidence: 0.85756992125  
00:41:47.620 --> 00:41:49.440 I'm planning to just move this to  
NOTE Confidence: 0.85756992125  
00:41:49.440 --> 00:41:50.994 another section of the profile and  
NOTE Confidence: 0.85756992125  
00:41:50.994 --> 00:41:52.674 it could be a general image bank  
NOTE Confidence: 0.85756992125  
00:41:52.728 --> 00:41:54.280 because obviously not everyone.  
NOTE Confidence: 0.85756992125  
00:41:54.280 --> 00:41:56.583 Lots of faculty and staff have images  
NOTE Confidence: 0.85756992125  
00:41:56.583 --> 00:41:59.218 that are somehow relevant to their profile.  
NOTE Confidence: 0.85756992125  
00:41:59.220 --> 00:42:00.858 They would like to display them.  
NOTE Confidence: 0.85756992125  
00:42:00.860 --> 00:42:02.660 They're not always research images.  
NOTE Confidence: 0.85756992125  
00:42:02.660 --> 00:42:04.622 I don't think we needed educated  
NOTE Confidence: 0.85756992125

00:42:04.622 --> 00:42:05.603 research images first.  
NOTE Confidence: 0.85756992125

00:42:05.610 --> 00:42:08.466 We're just going to be a generic  
NOTE Confidence: 0.85756992125

00:42:08.466 --> 00:42:11.680 media section that will probably go.  
NOTE Confidence: 0.85756992125

00:42:11.680 --> 00:42:14.000 We'll probably expand this links  
NOTE Confidence: 0.85756992125

00:42:14.000 --> 00:42:16.275 functionality so if a faculty  
NOTE Confidence: 0.85756992125

00:42:16.275 --> 00:42:18.095 member the short story.  
NOTE Confidence: 0.85756992125

00:42:18.100 --> 00:42:19.780 Is if a faculty member has some  
NOTE Confidence: 0.85756992125

00:42:19.780 --> 00:42:21.413 image they want to display on  
NOTE Confidence: 0.85756992125

00:42:21.413 --> 00:42:22.848 their website on their profile.  
NOTE Confidence: 0.85756992125

00:42:22.850 --> 00:42:23.298 I mean,  
NOTE Confidence: 0.85756992125

00:42:23.298 --> 00:42:24.642 right now their only recourse is  
NOTE Confidence: 0.85756992125

00:42:24.642 --> 00:42:26.429 to add it through research images.  
NOTE Confidence: 0.85756992125

00:42:26.430 --> 00:42:28.824 Even if it's not a research image,  
NOTE Confidence: 0.85756992125

00:42:28.830 --> 00:42:30.951 soon we will be moving this section  
NOTE Confidence: 0.85756992125

00:42:30.951 --> 00:42:33.377 and it's so it's in a more logical  
NOTE Confidence: 0.85756992125

00:42:33.377 --> 00:42:35.538 place and it's more of a generic

NOTE Confidence: 0.85756992125

00:42:35.538 --> 00:42:37.792 media bank for just content they want

NOTE Confidence: 0.85756992125

00:42:37.792 --> 00:42:40.560 to make available in their profile.

NOTE Confidence: 0.85756992125

00:42:40.560 --> 00:42:42.344 So that's research images.

NOTE Confidence: 0.85756992125

00:42:42.344 --> 00:42:45.020 Any questions about honors or research

NOTE Confidence: 0.85756992125

00:42:45.092 --> 00:42:47.287 before I jump into publications?

NOTE Confidence: 0.802259933076923

00:42:51.720 --> 00:42:52.770 OK, and I think I could spend

NOTE Confidence: 0.802259933076923

00:42:52.770 --> 00:42:54.059 a lot of time on publication,

NOTE Confidence: 0.802259933076923

00:42:54.060 --> 00:42:56.006 so I'm going to really quickly go

NOTE Confidence: 0.802259933076923

00:42:56.006 --> 00:42:58.320 through a few of these other sections.

NOTE Confidence: 0.802259933076923

00:42:58.320 --> 00:43:00.988 I'm just going to jump ahead a little news.

NOTE Confidence: 0.802259933076923

00:43:00.988 --> 00:43:02.956 News. This is literally just going

NOTE Confidence: 0.802259933076923

00:43:02.956 --> 00:43:05.417 to list all the articles that this

NOTE Confidence: 0.802259933076923

00:43:05.417 --> 00:43:07.535 special this person is tagged in.

NOTE Confidence: 0.802259933076923

00:43:07.540 --> 00:43:09.298 They can remove themselves from the

NOTE Confidence: 0.802259933076923

00:43:09.298 --> 00:43:11.358 article by clicking this little trash can.

NOTE Confidence: 0.802259933076923

00:43:11.360 --> 00:43:14.336 Maybe it was made in error.  
NOTE Confidence: 0.802259933076923

00:43:14.340 --> 00:43:15.796 Maybe they're just are not interested in  
NOTE Confidence: 0.802259933076923

00:43:15.796 --> 00:43:17.160 being associated with that article anymore.  
NOTE Confidence: 0.802259933076923

00:43:17.160 --> 00:43:18.392 When they get Googled,  
NOTE Confidence: 0.802259933076923

00:43:18.392 --> 00:43:19.932 they can remove themselves here.  
NOTE Confidence: 0.802259933076923

00:43:19.940 --> 00:43:22.708 Same thing for events.  
NOTE Confidence: 0.802259933076923

00:43:22.710 --> 00:43:23.650 If I go to events,  
NOTE Confidence: 0.802259933076923

00:43:23.650 --> 00:43:25.410 I'm going to see a list of events  
NOTE Confidence: 0.802259933076923

00:43:25.410 --> 00:43:27.337 that I or the person whose profile  
NOTE Confidence: 0.802259933076923

00:43:27.337 --> 00:43:28.990 I'm looking at is tagged in.  
NOTE Confidence: 0.802259933076923

00:43:28.990 --> 00:43:31.790 I can review the details for that event.  
NOTE Confidence: 0.802259933076923

00:43:31.790 --> 00:43:33.350 If it's for whatever reason  
NOTE Confidence: 0.802259933076923

00:43:33.350 --> 00:43:34.910 I want to remove myself,  
NOTE Confidence: 0.802259933076923

00:43:34.910 --> 00:43:36.414 I can do that using this trash can.  
NOTE Confidence: 0.87594265

00:43:38.580 --> 00:43:42.260 Clinical trials.  
NOTE Confidence: 0.87594265

00:43:42.260 --> 00:43:45.188 Try to do this really quick.

NOTE Confidence: 0.87594265

00:43:45.190 --> 00:43:48.109 This will be a combination of trials

NOTE Confidence: 0.87594265

00:43:48.109 --> 00:43:50.806 that are imported from the system

NOTE Confidence: 0.87594265

00:43:50.806 --> 00:43:53.076 of record maintained by Encore,

NOTE Confidence: 0.87594265

00:43:53.080 --> 00:43:56.110 maintained by CI and it also,

NOTE Confidence: 0.87594265

00:43:56.110 --> 00:43:59.488 for CD purposes may contain information

NOTE Confidence: 0.87594265

00:43:59.488 --> 00:44:03.129 that was manually entered by the faculty

NOTE Confidence: 0.87594265

00:44:03.129 --> 00:44:05.466 or staff member because it's a past

NOTE Confidence: 0.87594265

00:44:05.466 --> 00:44:07.529 trial that is not going to ever be,

NOTE Confidence: 0.87594265

00:44:07.530 --> 00:44:09.609 that was not ever and will never

NOTE Confidence: 0.87594265

00:44:09.609 --> 00:44:11.849 be in yales instance of Encore.

NOTE Confidence: 0.87594265

00:44:11.850 --> 00:44:13.635 That's what the ad pass trial is

NOTE Confidence: 0.87594265

00:44:13.635 --> 00:44:15.328 for and that's why we label it.

NOTE Confidence: 0.87594265

00:44:15.330 --> 00:44:16.682 Is add pass trial.

NOTE Confidence: 0.87594265

00:44:16.682 --> 00:44:19.064 Because if a faculty member comes to

NOTE Confidence: 0.87594265

00:44:19.064 --> 00:44:21.352 this page and they don't see a trial

NOTE Confidence: 0.87594265

00:44:21.352 --> 00:44:23.591 that they are currently working on  
NOTE Confidence: 0.87594265

00:44:23.591 --> 00:44:25.726 at Yale and then something's wrong,  
NOTE Confidence: 0.87594265

00:44:25.726 --> 00:44:26.956 they really should see it.  
NOTE Confidence: 0.87594265

00:44:26.960 --> 00:44:29.780 We should have it in encore for 100%.  
NOTE Confidence: 0.87594265

00:44:29.780 --> 00:44:31.740 If there's an active trial at Yale,  
NOTE Confidence: 0.87594265

00:44:31.740 --> 00:44:32.916 it has to be an encore.  
NOTE Confidence: 0.87594265

00:44:32.920 --> 00:44:34.500 We should have the data.  
NOTE Confidence: 0.87594265

00:44:34.500 --> 00:44:38.076 So again, if we don't see a current  
NOTE Confidence: 0.87594265

00:44:38.076 --> 00:44:40.100 or pending trial, that's.  
NOTE Confidence: 0.87594265

00:44:40.100 --> 00:44:42.300 That should be appearing here.  
NOTE Confidence: 0.87594265

00:44:42.300 --> 00:44:43.257 Please contact us.  
NOTE Confidence: 0.87594265

00:44:43.257 --> 00:44:46.380 Don't try to add it as a past trial.  
NOTE Confidence: 0.87594265

00:44:46.380 --> 00:44:48.380 Past trials are really only for the CD.  
NOTE Confidence: 0.85733383625

00:44:50.560 --> 00:44:52.576 Organizations, I just want to point this out.  
NOTE Confidence: 0.85733383625

00:44:52.580 --> 00:44:54.484 This can be really handy just for  
NOTE Confidence: 0.85733383625

00:44:54.484 --> 00:44:56.668 seeing where this is a much improved

NOTE Confidence: 0.85733383625

00:44:56.668 --> 00:44:57.976 interface over profile system.

NOTE Confidence: 0.85733383625

00:44:57.980 --> 00:45:00.230 Just helpful for seeing what

NOTE Confidence: 0.85733383625

00:45:00.230 --> 00:45:02.480 organizations this faculty member or

NOTE Confidence: 0.85733383625

00:45:02.554 --> 00:45:04.978 staff member or whoever belongs to.

NOTE Confidence: 0.85733383625

00:45:04.980 --> 00:45:08.214 When these items appear here in Gray,

NOTE Confidence: 0.85733383625

00:45:08.220 --> 00:45:10.650 it simply means they're not a member of this

NOTE Confidence: 0.85733383625

00:45:10.650 --> 00:45:12.075 org, but if it's appearing in this list,

NOTE Confidence: 0.85733383625

00:45:12.080 --> 00:45:15.518 it means they're in some subset

NOTE Confidence: 0.85733383625

00:45:15.520 --> 00:45:19.118 of an org and it looks like.

NOTE Confidence: 0.85733383625

00:45:19.120 --> 00:45:20.770 The. Development team was doing

NOTE Confidence: 0.85733383625

00:45:20.770 --> 00:45:22.420 some testing with this one.

NOTE Confidence: 0.85733383625

00:45:22.420 --> 00:45:23.698 I don't think this is real,

NOTE Confidence: 0.85733383625

00:45:23.700 --> 00:45:25.640 but just demonstrates how

NOTE Confidence: 0.85733383625

00:45:25.640 --> 00:45:27.095 this highlighting works.

NOTE Confidence: 0.85733383625

00:45:27.100 --> 00:45:30.020 They might not be a member of these

NOTE Confidence: 0.85733383625

00:45:30.020 --> 00:45:31.745 overarching organizations and they're not  
NOTE Confidence: 0.85733383625

00:45:31.745 --> 00:45:34.278 going to be appearing on the website if  
NOTE Confidence: 0.85733383625

00:45:34.278 --> 00:45:36.614 there are websites for any of these orgs,  
NOTE Confidence: 0.85733383625

00:45:36.620 --> 00:45:38.996 but they are the member of  
NOTE Confidence: 0.85733383625

00:45:38.996 --> 00:45:41.130 some child org of that.  
NOTE Confidence: 0.85733383625

00:45:41.130 --> 00:45:43.820 Organization.  
NOTE Confidence: 0.85733383625

00:45:43.820 --> 00:45:45.192 We do want to make some more  
NOTE Confidence: 0.85733383625

00:45:45.192 --> 00:45:46.020 improvements here so that,  
NOTE Confidence: 0.85733383625

00:45:46.020 --> 00:45:46.624 for example,  
NOTE Confidence: 0.85733383625

00:45:46.624 --> 00:45:49.580 if I had the access to manage the membership  
NOTE Confidence: 0.85733383625

00:45:49.580 --> 00:45:52.394 for the center of musculoskeletal care,  
NOTE Confidence: 0.85733383625

00:45:52.400 --> 00:45:54.144 I could click here and it take me  
NOTE Confidence: 0.85733383625

00:45:54.144 --> 00:45:55.500 directly to that organization.  
NOTE Confidence: 0.85733383625

00:45:55.500 --> 00:45:59.196 That's something that'll come a bit later.  
NOTE Confidence: 0.85733383625

00:45:59.200 --> 00:46:01.025 I will mention really quickly  
NOTE Confidence: 0.85733383625

00:46:01.025 --> 00:46:02.120 about Canonical URL.

NOTE Confidence: 0.85733383625  
00:46:02.120 --> 00:46:03.656 This will determine basically  
NOTE Confidence: 0.85733383625  
00:46:03.656 --> 00:46:06.400 what the top result is when this  
NOTE Confidence: 0.85733383625  
00:46:06.400 --> 00:46:08.584 person gets searched for on Google  
NOTE Confidence: 0.85733383625  
00:46:08.584 --> 00:46:10.560 and where it's pointing to.  
NOTE Confidence: 0.85733383625  
00:46:10.560 --> 00:46:13.090 So for example, I believe.  
NOTE Confidence: 0.85733383625  
00:46:13.090 --> 00:46:14.640 This matches what's in production,  
NOTE Confidence: 0.85733383625  
00:46:14.640 --> 00:46:17.258 but if I look up Jonathan Grauer,  
NOTE Confidence: 0.85733383625  
00:46:17.260 --> 00:46:18.440 sorry, on the live website.  
NOTE Confidence: 0.85733383625  
00:46:18.440 --> 00:46:19.328 I mean,  
NOTE Confidence: 0.85733383625  
00:46:19.328 --> 00:46:22.880 if I look up Jonathan Grauer his profile,  
NOTE Confidence: 0.85733383625  
00:46:22.880 --> 00:46:26.558 the top result is rendered at  
NOTE Confidence: 0.85733383625  
00:46:26.560 --> 00:46:27.524 madison.yahoo.edu/profile doctor.  
NOTE Confidence: 0.85733383625  
00:46:27.524 --> 00:46:29.934 Grauer does have the option,  
NOTE Confidence: 0.85733383625  
00:46:29.940 --> 00:46:31.592 if he wished to,  
NOTE Confidence: 0.85733383625  
00:46:31.592 --> 00:46:33.657 to select another organization that  
NOTE Confidence: 0.85733383625

00:46:33.657 --> 00:46:37.108 he's a member of that has a website URL  
NOTE Confidence: 0.85733383625

00:46:37.108 --> 00:46:39.299 like orthopedics and rehabilitation.  
NOTE Confidence: 0.85733383625

00:46:39.300 --> 00:46:41.323 What this would do is instead of  
NOTE Confidence: 0.85733383625

00:46:41.323 --> 00:46:43.239 the top result being basically.  
NOTE Confidence: 0.85733383625

00:46:43.240 --> 00:46:46.288 In the home School of Medicine site instead,  
NOTE Confidence: 0.85733383625

00:46:46.290 --> 00:46:49.710 I would see his profile.  
NOTE Confidence: 0.85733383625

00:46:49.710 --> 00:46:55.689 On. The orthopedics website.  
NOTE Confidence: 0.85733383625

00:46:55.690 --> 00:46:58.194 So that just gives them a little bit  
NOTE Confidence: 0.85733383625

00:46:58.194 --> 00:47:00.144 more control over how they would  
NOTE Confidence: 0.85733383625

00:47:00.144 --> 00:47:02.350 like to be represented on the web.  
NOTE Confidence: 0.85733383625

00:47:02.350 --> 00:47:04.222 That's what that Canonical  
NOTE Confidence: 0.85733383625

00:47:04.222 --> 00:47:06.562 organized URL fields all about.  
NOTE Confidence: 0.85733383625

00:47:06.570 --> 00:47:07.034 And now,  
NOTE Confidence: 0.85733383625

00:47:07.034 --> 00:47:08.658 just because we're running out of time,  
NOTE Confidence: 0.85733383625

00:47:08.660 --> 00:47:10.346 I'm going to go to publications.  
NOTE Confidence: 0.85733383625

00:47:10.350 --> 00:47:11.635 We did cover these pretty

NOTE Confidence: 0.85733383625  
00:47:11.635 --> 00:47:12.663 extensively in the overview,  
NOTE Confidence: 0.85733383625  
00:47:12.670 --> 00:47:15.750 but I wanted to go over it again.  
NOTE Confidence: 0.85733383625  
00:47:15.750 --> 00:47:17.394 These this is probably the page  
NOTE Confidence: 0.85733383625  
00:47:17.394 --> 00:47:19.113 that most faculty are going to  
NOTE Confidence: 0.85733383625  
00:47:19.113 --> 00:47:20.533 be steered toward because they're  
NOTE Confidence: 0.85733383625  
00:47:20.533 --> 00:47:22.255 going to get e-mail notifications  
NOTE Confidence: 0.85733383625  
00:47:22.255 --> 00:47:24.285 if they have pending publications.  
NOTE Confidence: 0.85733383625  
00:47:24.290 --> 00:47:26.205 You faculty will have pending  
NOTE Confidence: 0.85733383625  
00:47:26.205 --> 00:47:28.120 publications if they have a  
NOTE Confidence: 0.85733383625  
00:47:28.189 --> 00:47:29.725 dimensions profile associated  
NOTE Confidence: 0.85733383625  
00:47:29.725 --> 00:47:32.285 with their profile and Beatrix.  
NOTE Confidence: 0.85733383625  
00:47:32.290 --> 00:47:34.618 And just for reference,  
NOTE Confidence: 0.85733383625  
00:47:34.618 --> 00:47:37.528 dimensions is this external tool.  
NOTE Confidence: 0.85733383625  
00:47:37.530 --> 00:47:37.920 Oops.  
NOTE Confidence: 0.74045535  
00:47:40.660 --> 00:47:41.488 What's not working?  
NOTE Confidence: 0.830535748571428

00:47:45.850 --> 00:47:48.986 OK, well that's supposed to link 2.  
NOTE Confidence: 0.6501674375

00:47:51.130 --> 00:47:54.530 The dimensions AI website.  
NOTE Confidence: 0.6501674375

00:47:54.530 --> 00:47:55.914 And you know, I'm not gonna be able  
NOTE Confidence: 0.6501674375

00:47:55.914 --> 00:47:57.267 to pull up this profile quickly.  
NOTE Confidence: 0.6501674375

00:47:57.270 --> 00:48:00.216 That's supposed to be linking to  
NOTE Confidence: 0.6501674375

00:48:00.216 --> 00:48:03.180 doctor Grauer's profile on dimensions.  
NOTE Confidence: 0.6501674375

00:48:03.180 --> 00:48:06.512 And it is. Dimensions is the third  
NOTE Confidence: 0.6501674375

00:48:06.512 --> 00:48:09.977 party API tool that we're using to.  
NOTE Confidence: 0.6501674375

00:48:09.980 --> 00:48:11.870 Associate publications with  
NOTE Confidence: 0.6501674375

00:48:11.870 --> 00:48:15.650 faculty and staff at the school.  
NOTE Confidence: 0.6501674375

00:48:15.650 --> 00:48:17.054 Doctor Grauer has already  
NOTE Confidence: 0.6501674375

00:48:17.054 --> 00:48:18.107 reviewed his profile,  
NOTE Confidence: 0.6501674375

00:48:18.110 --> 00:48:20.090 so he has no pending currently.  
NOTE Confidence: 0.6501674375

00:48:20.090 --> 00:48:22.750 But if he had published,  
NOTE Confidence: 0.6501674375

00:48:22.750 --> 00:48:25.216 if there was some new publication  
NOTE Confidence: 0.6501674375

00:48:25.216 --> 00:48:27.266 that got published, if doctor,

NOTE Confidence: 0.6501674375

00:48:27.266 --> 00:48:28.898 growers and author Dimensions

NOTE Confidence: 0.6501674375

00:48:28.898 --> 00:48:31.249 should identify him as an author,

NOTE Confidence: 0.6501674375

00:48:31.250 --> 00:48:33.427 it will pop into the next day,

NOTE Confidence: 0.6501674375

00:48:33.430 --> 00:48:36.286 it'll pop into his pending publications list.

NOTE Confidence: 0.6501674375

00:48:36.290 --> 00:48:38.726 He will get an e-mail notification

NOTE Confidence: 0.6501674375

00:48:38.726 --> 00:48:41.564 that next day to come to this page and

NOTE Confidence: 0.6501674375

00:48:41.564 --> 00:48:43.390 approve or reject that publication.

NOTE Confidence: 0.6501674375

00:48:43.390 --> 00:48:44.438 Assuming he approves it,

NOTE Confidence: 0.6501674375

00:48:44.438 --> 00:48:45.748 it'll show up in this.

NOTE Confidence: 0.6501674375

00:48:45.750 --> 00:48:47.856 Accepted tab where you can see

NOTE Confidence: 0.6501674375

00:48:47.856 --> 00:48:49.816 all of his publications have

NOTE Confidence: 0.6501674375

00:48:49.816 --> 00:48:51.280 been previously imported.

NOTE Confidence: 0.6501674375

00:48:51.280 --> 00:48:52.684 He will want to make sure

NOTE Confidence: 0.6501674375

00:48:52.684 --> 00:48:53.620 to set the category.

NOTE Confidence: 0.6501674375

00:48:53.620 --> 00:48:55.000 The vast majority are probably going

NOTE Confidence: 0.6501674375

00:48:55.000 --> 00:48:56.699 to be peer reviewed original research,

NOTE Confidence: 0.6501674375

00:48:56.700 --> 00:48:58.584 but we do have these other

NOTE Confidence: 0.6501674375

00:48:58.584 --> 00:48:59.526 categories if needed.

NOTE Confidence: 0.733328853333333

00:49:01.740 --> 00:49:03.336 I can always if I accept

NOTE Confidence: 0.733328853333333

00:49:03.336 --> 00:49:04.134 something by accident,

NOTE Confidence: 0.733328853333333

00:49:04.140 --> 00:49:05.814 I can open this accepted drop

NOTE Confidence: 0.733328853333333

00:49:05.814 --> 00:49:07.897 down and change it to rejected to

NOTE Confidence: 0.733328853333333

00:49:07.897 --> 00:49:09.715 remove it from my list entirely.

NOTE Confidence: 0.733328853333333

00:49:09.720 --> 00:49:11.460 Please note it's faculty and

NOTE Confidence: 0.733328853333333

00:49:11.460 --> 00:49:13.581 staff should really only reject a

NOTE Confidence: 0.733328853333333

00:49:13.581 --> 00:49:15.519 publication if it's truly not theirs.

NOTE Confidence: 0.733328853333333

00:49:15.520 --> 00:49:16.703 If they just don't want it to

NOTE Confidence: 0.733328853333333

00:49:16.703 --> 00:49:17.689 display on their web profile,

NOTE Confidence: 0.733328853333333

00:49:17.690 --> 00:49:20.280 they should use this private

NOTE Confidence: 0.733328853333333

00:49:20.280 --> 00:49:21.855 toggle here that will prevent

NOTE Confidence: 0.733328853333333

00:49:21.855 --> 00:49:23.430 it from appearing on their

NOTE Confidence: 0.7333288533333333

00:49:23.495 --> 00:49:25.770 profile or anywhere publicly. Um.

NOTE Confidence: 0.91918390875

00:49:29.320 --> 00:49:31.555 There is also the option

NOTE Confidence: 0.91918390875

00:49:31.555 --> 00:49:32.896 to feature publications.

NOTE Confidence: 0.91918390875

00:49:32.900 --> 00:49:35.014 This will force that normally they will

NOTE Confidence: 0.91918390875

00:49:35.014 --> 00:49:37.200 just be displayed in chronological order,

NOTE Confidence: 0.91918390875

00:49:37.200 --> 00:49:40.308 most recent to oldest.

NOTE Confidence: 0.91918390875

00:49:40.310 --> 00:49:43.327 The faculty and staff can overwrite this,

NOTE Confidence: 0.91918390875

00:49:43.330 --> 00:49:45.515 override this option by featuring

NOTE Confidence: 0.91918390875

00:49:45.515 --> 00:49:48.171 publications and this will force those

NOTE Confidence: 0.91918390875

00:49:48.171 --> 00:49:51.006 featured publications to appear at the top.

NOTE Confidence: 0.91918390875

00:49:51.010 --> 00:49:54.244 Currently, right now we have it limited

NOTE Confidence: 0.91918390875

00:49:54.244 --> 00:49:56.362 to five based on popular demand.

NOTE Confidence: 0.91918390875

00:49:56.362 --> 00:49:59.018 We are going to increase this to 20 simply

NOTE Confidence: 0.91918390875

00:49:59.018 --> 00:50:01.285 because there are lots of faculty or in

NOTE Confidence: 0.91918390875

00:50:01.285 --> 00:50:03.175 a similar situation to doctor Grauer,

NOTE Confidence: 0.91918390875

00:50:03.180 --> 00:50:04.710 they have hundreds and hundreds of  
NOTE Confidence: 0.91918390875

00:50:04.710 --> 00:50:06.470 publications and they can't choose just five.  
NOTE Confidence: 0.91918390875

00:50:06.470 --> 00:50:07.542 So we're going to,  
NOTE Confidence: 0.91918390875

00:50:07.542 --> 00:50:09.464 we're going to upgrade it to 20  
NOTE Confidence: 0.91918390875

00:50:09.464 --> 00:50:10.468 so they can choose.  
NOTE Confidence: 0.91918390875

00:50:10.470 --> 00:50:12.910 20 but we're really we're trying to keep  
NOTE Confidence: 0.91918390875

00:50:12.910 --> 00:50:15.440 some kind of limit because if you're  
NOTE Confidence: 0.91918390875

00:50:15.440 --> 00:50:18.080 featuring 50 items they're really not  
NOTE Confidence: 0.91918390875

00:50:18.080 --> 00:50:21.058 even featured anymore because you're just.  
NOTE Confidence: 0.91918390875

00:50:21.060 --> 00:50:21.676 It's not.  
NOTE Confidence: 0.91918390875

00:50:21.676 --> 00:50:23.524 You want to actually feature these  
NOTE Confidence: 0.91918390875

00:50:23.524 --> 00:50:24.858 publications and indicate they're  
NOTE Confidence: 0.91918390875

00:50:24.858 --> 00:50:26.518 more important than the rest,  
NOTE Confidence: 0.91918390875

00:50:26.520 --> 00:50:29.298 for whatever reason.  
NOTE Confidence: 0.91918390875

00:50:29.300 --> 00:50:32.055 A couple other important notes  
NOTE Confidence: 0.91918390875

00:50:32.055 --> 00:50:34.259 about managing publications if.

NOTE Confidence: 0.91918390875  
00:50:34.260 --> 00:50:35.520 And this will generally happen with  
NOTE Confidence: 0.91918390875  
00:50:35.520 --> 00:50:36.848 people who haven't looked at it before.  
NOTE Confidence: 0.91918390875  
00:50:36.850 --> 00:50:38.796 But if they go to their pending  
NOTE Confidence: 0.91918390875  
00:50:38.796 --> 00:50:40.619 publications tab and they see dozens  
NOTE Confidence: 0.91918390875  
00:50:40.619 --> 00:50:42.473 of publications that are not theirs,  
NOTE Confidence: 0.91918390875  
00:50:42.480 --> 00:50:44.646 or even they have 10 publications  
NOTE Confidence: 0.91918390875  
00:50:44.646 --> 00:50:46.880 and seven of them are wrong,  
NOTE Confidence: 0.91918390875  
00:50:46.880 --> 00:50:48.959 it probably means that the import settings  
NOTE Confidence: 0.91918390875  
00:50:48.959 --> 00:50:51.528 that we have for this person are incorrect,  
NOTE Confidence: 0.91918390875  
00:50:51.530 --> 00:50:54.464 and that person should reach out to us to  
NOTE Confidence: 0.91918390875  
00:50:54.464 --> 00:50:57.318 correct their import settings for dimensions.  
NOTE Confidence: 0.91918390875  
00:50:57.320 --> 00:50:58.014 So please,  
NOTE Confidence: 0.91918390875  
00:50:58.014 --> 00:51:00.096 we're actually going to add some  
NOTE Confidence: 0.91918390875  
00:51:00.096 --> 00:51:02.555 handling in the next few days so  
NOTE Confidence: 0.91918390875  
00:51:02.555 --> 00:51:04.255 that if somebody starts rejecting  
NOTE Confidence: 0.91918390875

00:51:04.326 --> 00:51:06.216 lots and lots of publications,  
NOTE Confidence: 0.91918390875

00:51:06.220 --> 00:51:07.468 we'll get a little pop up.  
NOTE Confidence: 0.91918390875

00:51:07.470 --> 00:51:08.238 That says, hey,  
NOTE Confidence: 0.91918390875

00:51:08.238 --> 00:51:09.518 it looks like your import  
NOTE Confidence: 0.91918390875

00:51:09.518 --> 00:51:10.490 settings might be wrong,  
NOTE Confidence: 0.91918390875

00:51:10.490 --> 00:51:11.444 please contact us.  
NOTE Confidence: 0.91918390875

00:51:11.444 --> 00:51:14.060 But for now there's no limit on that.  
NOTE Confidence: 0.91918390875

00:51:14.060 --> 00:51:16.062 There have already been a couple of  
NOTE Confidence: 0.91918390875

00:51:16.062 --> 00:51:17.809 instances where people spent lots of  
NOTE Confidence: 0.91918390875

00:51:17.809 --> 00:51:19.483 time rejecting a ton of publications.  
NOTE Confidence: 0.91918390875

00:51:19.490 --> 00:51:20.848 That's really just a waste of time,  
NOTE Confidence: 0.91918390875

00:51:20.850 --> 00:51:21.714 because the real problem  
NOTE Confidence: 0.91918390875

00:51:21.714 --> 00:51:22.794 is that the imports wrong,  
NOTE Confidence: 0.91918390875

00:51:22.800 --> 00:51:24.050 and once we fix that,  
NOTE Confidence: 0.91918390875

00:51:24.050 --> 00:51:25.990 those problems should be resolved.  
NOTE Confidence: 0.91918390875

00:51:25.990 --> 00:51:27.698 They might have to reject a few

NOTE Confidence: 0.91918390875  
00:51:27.698 --> 00:51:29.270 that are not really belong.  
NOTE Confidence: 0.91918390875  
00:51:29.270 --> 00:51:30.812 I'm not going to say dimensions  
NOTE Confidence: 0.91918390875  
00:51:30.812 --> 00:51:32.782 is 100% accurate all the time,  
NOTE Confidence: 0.91918390875  
00:51:32.782 --> 00:51:34.597 but generally we've seen it's  
NOTE Confidence: 0.91918390875  
00:51:34.597 --> 00:51:35.936 like 95 to 98% accurate.  
NOTE Confidence: 0.91918390875  
00:51:35.936 --> 00:51:37.987 It's very it should be very close.  
NOTE Confidence: 0.91918390875  
00:51:37.990 --> 00:51:39.061 To 100% accurate.  
NOTE Confidence: 0.91918390875  
00:51:39.061 --> 00:51:41.203 So if it looks really wrong,  
NOTE Confidence: 0.91918390875  
00:51:41.210 --> 00:51:43.450 please reach out to us before you or  
NOTE Confidence: 0.91918390875  
00:51:43.450 --> 00:51:45.810 a faculty member try to go through  
NOTE Confidence: 0.91918390875  
00:51:45.810 --> 00:51:47.545 and accept or reject everything,  
NOTE Confidence: 0.91918390875  
00:51:47.550 --> 00:51:49.685 or reject lots and lots of content,  
NOTE Confidence: 0.91918390875  
00:51:49.690 --> 00:51:50.230 basically.  
NOTE Confidence: 0.799042475  
00:51:52.740 --> 00:51:54.772 Last bit really important.  
NOTE Confidence: 0.799042475  
00:51:54.772 --> 00:51:56.804 Just like profile editors,  
NOTE Confidence: 0.799042475

00:51:56.810 --> 00:51:58.645 a faculty member can designate  
NOTE Confidence: 0.799042475

00:51:58.645 --> 00:52:00.480 somebody to review their publications.  
NOTE Confidence: 0.799042475

00:52:00.480 --> 00:52:02.285 This works exactly like the  
NOTE Confidence: 0.799042475

00:52:02.285 --> 00:52:03.368 profile editor permission.  
NOTE Confidence: 0.799042475

00:52:03.370 --> 00:52:04.785 The one difference is that  
NOTE Confidence: 0.799042475

00:52:04.785 --> 00:52:06.200 this person will only have  
NOTE Confidence: 0.799042475

00:52:06.259 --> 00:52:07.807 access to their publications.  
NOTE Confidence: 0.799042475

00:52:07.810 --> 00:52:10.096 So maybe they, the faculty member,  
NOTE Confidence: 0.799042475

00:52:10.100 --> 00:52:11.765 would like to have complete  
NOTE Confidence: 0.799042475

00:52:11.765 --> 00:52:13.430 control over their biography and  
NOTE Confidence: 0.799042475

00:52:13.491 --> 00:52:15.266 career information and all that.  
NOTE Confidence: 0.799042475

00:52:15.270 --> 00:52:16.680 I don't have time to do  
NOTE Confidence: 0.799042475

00:52:16.680 --> 00:52:17.620 this publication review bit.  
NOTE Confidence: 0.799042475

00:52:17.620 --> 00:52:19.072 They can add somebody who is  
NOTE Confidence: 0.799042475

00:52:19.072 --> 00:52:20.040 specifically going to review  
NOTE Confidence: 0.799042475

00:52:20.089 --> 00:52:21.109 their publications here.

NOTE Confidence: 0.863804429333333  
00:52:23.970 --> 00:52:25.506 I think I'm going to stop there because  
NOTE Confidence: 0.863804429333333  
00:52:25.506 --> 00:52:26.890 you only have a few minutes left.  
NOTE Confidence: 0.863804429333333  
00:52:26.890 --> 00:52:28.866 I know we haven't had questions yet,  
NOTE Confidence: 0.863804429333333  
00:52:28.866 --> 00:52:30.606 but if anybody has questions,  
NOTE Confidence: 0.863804429333333  
00:52:30.610 --> 00:52:31.884 now would be the time to ask.  
NOTE Confidence: 0.863804429333333  
00:52:31.890 --> 00:52:34.490 And I'll also point out to the the  
NOTE Confidence: 0.863804429333333  
00:52:34.490 --> 00:52:36.659 folks from communications here,  
NOTE Confidence: 0.863804429333333  
00:52:36.660 --> 00:52:38.358 if I've missed anything that I  
NOTE Confidence: 0.863804429333333  
00:52:38.358 --> 00:52:39.572 should cover before we stop,  
NOTE Confidence: 0.863804429333333  
00:52:39.572 --> 00:52:40.428 please let me know.  
NOTE Confidence: 0.803522288181818  
00:52:47.710 --> 00:52:49.120 Thank you, Denise, for answering  
NOTE Confidence: 0.803522288181818  
00:52:49.120 --> 00:52:50.970 some questions while I was talking.  
NOTE Confidence: 0.803522288181818  
00:52:50.970 --> 00:52:53.980 There are no other questions.  
NOTE Confidence: 0.803522288181818  
00:52:53.980 --> 00:52:55.516 Anything I skipped over that anybody  
NOTE Confidence: 0.803522288181818  
00:52:55.516 --> 00:52:57.541 wants me to take another look at or a  
NOTE Confidence: 0.803522288181818

00:52:57.541 --> 00:52:59.598 first look at if I truly skipped over it?  
NOTE Confidence: 0.710278476666667

00:53:06.560 --> 00:53:08.724 All right. Mark, a question just popped  
NOTE Confidence: 0.710278476666667

00:53:08.724 --> 00:53:11.714 in the chat about training for CV builder.  
NOTE Confidence: 0.11673349

00:53:14.250 --> 00:53:17.280 Umm. We don't have anything scheduled,  
NOTE Confidence: 0.955257118

00:53:17.280 --> 00:53:20.440 but we could schedule something.  
NOTE Confidence: 0.955257118

00:53:20.440 --> 00:53:22.450 It's honestly very straightforward  
NOTE Confidence: 0.955257118

00:53:22.450 --> 00:53:24.626 and we're happy to.  
NOTE Confidence: 0.955257118

00:53:24.626 --> 00:53:29.489 I point you to the OA PD website,  
NOTE Confidence: 0.955257118

00:53:29.490 --> 00:53:31.178 which contains like actual  
NOTE Confidence: 0.955257118

00:53:31.178 --> 00:53:33.710 information about the kind of content.  
NOTE Confidence: 0.955257118

00:53:33.710 --> 00:53:36.788 The CV builder itself is a  
NOTE Confidence: 0.955257118

00:53:36.788 --> 00:53:38.853 very straightforward tool that  
NOTE Confidence: 0.955257118

00:53:38.853 --> 00:53:40.945 just is displaying information  
NOTE Confidence: 0.955257118

00:53:40.945 --> 00:53:43.560 that's already in the profile.  
NOTE Confidence: 0.955257118

00:53:43.560 --> 00:53:45.725 The questions that most people  
NOTE Confidence: 0.955257118

00:53:45.725 --> 00:53:47.890 have are around the information

NOTE Confidence: 0.955257118

00:53:47.963 --> 00:53:50.195 that needs to go into A and PCD,

NOTE Confidence: 0.955257118

00:53:50.200 --> 00:53:53.624 which is more of a a COPD schedule.

NOTE Confidence: 0.955257118

00:53:53.630 --> 00:53:53.966 With Elvis,

NOTE Confidence: 0.955257118

00:53:53.966 --> 00:53:55.502 you just wanted to quickly take them

NOTE Confidence: 0.955257118

00:53:55.502 --> 00:53:57.686 through this just to give an overview.

NOTE Confidence: 0.754213347777778

00:53:58.510 --> 00:54:00.757 Yeah, so if I pretend I'm starting

NOTE Confidence: 0.754213347777778

00:54:00.757 --> 00:54:02.440 from scratch, I'm creating a new CV,

NOTE Confidence: 0.754213347777778

00:54:02.440 --> 00:54:03.280 it's actually going to tell

NOTE Confidence: 0.754213347777778

00:54:03.280 --> 00:54:04.680 me if I have a previous one.

NOTE Confidence: 0.754213347777778

00:54:04.680 --> 00:54:05.895 Let's say I'm making an

NOTE Confidence: 0.754213347777778

00:54:05.895 --> 00:54:06.867 appointment and promotion CV.

NOTE Confidence: 0.754213347777778

00:54:06.870 --> 00:54:08.370 I'll select that format.

NOTE Confidence: 0.863068082

00:54:08.680 --> 00:54:10.594 So just to be clear, those those

NOTE Confidence: 0.863068082

00:54:10.594 --> 00:54:13.456 are just three different CV types.

NOTE Confidence: 0.863068082

00:54:13.460 --> 00:54:15.788 And one is specific to appointments

NOTE Confidence: 0.863068082

00:54:15.788 --> 00:54:19.798 and promotions, the other is.  
NOTE Confidence: 0.863068082

00:54:19.800 --> 00:54:21.396 Just a regular CV.  
NOTE Confidence: 0.863068082

00:54:21.396 --> 00:54:23.790 And the other one is you're  
NOTE Confidence: 0.863068082

00:54:23.878 --> 00:54:26.320 making a CV that will be public.  
NOTE Confidence: 0.863068082

00:54:26.320 --> 00:54:28.280 So you can create three different  
NOTE Confidence: 0.863068082

00:54:28.280 --> 00:54:30.502 versions of these CV's based on data  
NOTE Confidence: 0.863068082

00:54:30.502 --> 00:54:32.450 that's in the profile system, right?  
NOTE Confidence: 0.806919535555556

00:54:32.460 --> 00:54:33.798 So it's two for these are  
NOTE Confidence: 0.806919535555556

00:54:33.798 --> 00:54:34.467 two different formats.  
NOTE Confidence: 0.806919535555556

00:54:34.470 --> 00:54:36.126 And then this last one is the same  
NOTE Confidence: 0.806919535555556

00:54:36.126 --> 00:54:37.862 as the Yale, the standard Yale CV,  
NOTE Confidence: 0.806919535555556

00:54:37.862 --> 00:54:39.830 but it'll also appear in your profile.  
NOTE Confidence: 0.884570976666667

00:54:43.130 --> 00:54:45.146 And if I go into this,  
NOTE Confidence: 0.884570976666667

00:54:45.150 --> 00:54:46.809 it's going to run me through the  
NOTE Confidence: 0.884570976666667

00:54:46.809 --> 00:54:48.921 step by step process that is quite  
NOTE Confidence: 0.884570976666667

00:54:48.921 --> 00:54:50.606 exhaustive because it covers every

NOTE Confidence: 0.884570976666667  
00:54:50.606 --> 00:54:52.416 section of the profile essentially  
NOTE Confidence: 0.884570976666667  
00:54:52.416 --> 00:54:53.836 that we've covered already,  
NOTE Confidence: 0.884570976666667  
00:54:53.840 --> 00:54:58.044 and asks me to indicate, for example,  
NOTE Confidence: 0.884570976666667  
00:54:58.044 --> 00:55:00.126 which mailing address needs to display,  
NOTE Confidence: 0.884570976666667  
00:55:00.130 --> 00:55:01.624 which phone number should be at  
NOTE Confidence: 0.884570976666667  
00:55:01.624 --> 00:55:02.999 the very top of my CV.  
NOTE Confidence: 0.884570976666667  
00:55:03.000 --> 00:55:05.345 And then as I get into it,  
NOTE Confidence: 0.884570976666667  
00:55:05.350 --> 00:55:06.274 I enter some information.  
NOTE Confidence: 0.884570976666667  
00:55:06.274 --> 00:55:07.660 So if I'm looking at appointments  
NOTE Confidence: 0.884570976666667  
00:55:07.703 --> 00:55:08.838 and promotions it's going to,  
NOTE Confidence: 0.884570976666667  
00:55:08.840 --> 00:55:10.751 I'm going to have to enter some  
NOTE Confidence: 0.884570976666667  
00:55:10.751 --> 00:55:11.870 information specific to that.  
NOTE Confidence: 0.884570976666667  
00:55:11.870 --> 00:55:13.220 Sorry it's lagging a little bit.  
NOTE Confidence: 0.884570976666667  
00:55:13.220 --> 00:55:14.840 I'm not trying to scroll so  
NOTE Confidence: 0.884570976666667  
00:55:14.840 --> 00:55:15.920 fast on everybody here.  
NOTE Confidence: 0.773830794444444

00:55:18.420 --> 00:55:21.522 So I'd enter that appointments and  
NOTE Confidence: 0.7738307944444444

00:55:21.522 --> 00:55:23.073 promotion specific information.  
NOTE Confidence: 0.7738307944444444

00:55:23.080 --> 00:55:25.677 Then once I complete that and again  
NOTE Confidence: 0.7738307944444444

00:55:25.677 --> 00:55:28.757 that'll only be relevant for that and PCV.  
NOTE Confidence: 0.7738307944444444

00:55:28.760 --> 00:55:30.398 But once I get past that,  
NOTE Confidence: 0.7738307944444444

00:55:30.400 --> 00:55:33.109 now I'm in this step by step process of  
NOTE Confidence: 0.7738307944444444

00:55:33.109 --> 00:55:35.559 reviewing all the information in my profile,  
NOTE Confidence: 0.7738307944444444

00:55:35.560 --> 00:55:38.157 showing or hiding information if I do  
NOTE Confidence: 0.7738307944444444

00:55:38.157 --> 00:55:41.020 or don't want it to display on my CV.  
NOTE Confidence: 0.7738307944444444

00:55:41.020 --> 00:55:42.570 I might see incomplete data  
NOTE Confidence: 0.7738307944444444

00:55:42.570 --> 00:55:44.120 that was entered at some,  
NOTE Confidence: 0.7738307944444444

00:55:44.120 --> 00:55:46.976 like maybe years ago when we had fewer  
NOTE Confidence: 0.7738307944444444

00:55:46.976 --> 00:55:49.419 required fields and now I'm missing some.  
NOTE Confidence: 0.7738307944444444

00:55:49.420 --> 00:55:50.034 Critical information,  
NOTE Confidence: 0.7738307944444444

00:55:50.034 --> 00:55:52.490 then I'm gonna need to generate the CV.  
NOTE Confidence: 0.7738307944444444

00:55:52.490 --> 00:55:54.858 We were, we'll call that all out to

NOTE Confidence: 0.773830794444444

00:55:54.858 --> 00:55:57.494 you as you're running through this

NOTE Confidence: 0.773830794444444

00:55:57.494 --> 00:55:59.999 process that you might have to make some

NOTE Confidence: 0.773830794444444

00:55:59.999 --> 00:56:01.928 adjustments and complete some missing fields,

NOTE Confidence: 0.773830794444444

00:56:01.930 --> 00:56:03.295 but that's the general gist of it.

NOTE Confidence: 0.773830794444444

00:56:03.300 --> 00:56:05.208 It's really just reviewing all of

NOTE Confidence: 0.773830794444444

00:56:05.208 --> 00:56:07.112 this data that we've entered in

NOTE Confidence: 0.773830794444444

00:56:07.112 --> 00:56:09.093 these other tabs of the profile to

NOTE Confidence: 0.773830794444444

00:56:09.093 --> 00:56:11.148 to fill in gaps where necessary,

NOTE Confidence: 0.773830794444444

00:56:11.150 --> 00:56:13.070 choose what displays and what doesn't,

NOTE Confidence: 0.773830794444444

00:56:13.070 --> 00:56:14.718 and generate my CV.

NOTE Confidence: 0.773830794444444

00:56:14.718 --> 00:56:16.366 At the very end,

NOTE Confidence: 0.773830794444444

00:56:16.370 --> 00:56:18.248 I'm just going to skip through.

NOTE Confidence: 0.773830794444444

00:56:18.250 --> 00:56:21.058 I will be able to preview the CV.

NOTE Confidence: 0.773830794444444

00:56:21.060 --> 00:56:24.240 Which? We'll probably take a minute.

NOTE Confidence: 0.773830794444444

00:56:24.240 --> 00:56:24.594 Yeah.

NOTE Confidence: 0.773830794444444

00:56:24.594 --> 00:56:27.780 Unfortunately on the OK well I got 500 error,  
NOTE Confidence: 0.7738307944444444

00:56:27.780 --> 00:56:29.352 so that's not great.  
NOTE Confidence: 0.7738307944444444

00:56:29.352 --> 00:56:31.317 Hopefully that's only in my  
NOTE Confidence: 0.7738307944444444

00:56:31.317 --> 00:56:32.570 development environment.  
NOTE Confidence: 0.77077794

00:56:34.710 --> 00:56:37.535 A couple of important notes about CV builder.  
NOTE Confidence: 0.47325727

00:56:40.260 --> 00:56:44.395 The. You don't want to delete data out of it.  
NOTE Confidence: 0.47325727

00:56:44.400 --> 00:56:46.795 If the data is accurate, don't delete it.  
NOTE Confidence: 0.47325727

00:56:46.795 --> 00:56:48.860 You can just click the button that  
NOTE Confidence: 0.47325727

00:56:48.925 --> 00:56:51.032 says display on CV and you can  
NOTE Confidence: 0.47325727

00:56:51.032 --> 00:56:52.565 hide that information from display  
NOTE Confidence: 0.47325727

00:56:52.565 --> 00:56:54.546 on the CV if it's not relevant.  
NOTE Confidence: 0.47325727

00:56:54.550 --> 00:56:57.456 The other piece of functionality that we're  
NOTE Confidence: 0.47325727

00:56:57.456 --> 00:57:00.360 working on is a CV importer that Elvis  
NOTE Confidence: 0.47325727

00:57:00.442 --> 00:57:05.000 may have mentioned that will enable that.  
NOTE Confidence: 0.47325727

00:57:05.000 --> 00:57:08.024 OK, so so the CSV importer tool is the  
NOTE Confidence: 0.47325727

00:57:08.024 --> 00:57:11.146 opposite of the CV builder tool. It will.

NOTE Confidence: 0.47325727  
00:57:11.146 --> 00:57:15.900 Enable you or a faculty to upload a CV.  
NOTE Confidence: 0.47325727  
00:57:15.900 --> 00:57:18.861 Into the into their profile and it  
NOTE Confidence: 0.47325727  
00:57:18.861 --> 00:57:21.630 will extract the data from the CV.  
NOTE Confidence: 0.47325727  
00:57:21.630 --> 00:57:23.766 And. Put that in their profile.  
NOTE Confidence: 0.47325727  
00:57:23.770 --> 00:57:25.072 There will be a review process  
NOTE Confidence: 0.47325727  
00:57:25.072 --> 00:57:26.016 built into that,  
NOTE Confidence: 0.47325727  
00:57:26.016 --> 00:57:28.190 but it will enable someone who's  
NOTE Confidence: 0.47325727  
00:57:28.190 --> 00:57:30.400 joining Yale for the first time,  
NOTE Confidence: 0.47325727  
00:57:30.400 --> 00:57:32.458 or someone who has an incomplete profile,  
NOTE Confidence: 0.47325727  
00:57:32.460 --> 00:57:34.259 to load their CV into the system  
NOTE Confidence: 0.47325727  
00:57:34.259 --> 00:57:36.377 and have it extract all that data.  
NOTE Confidence: 0.47325727  
00:57:36.380 --> 00:57:39.292 And then the idea is that then  
NOTE Confidence: 0.47325727  
00:57:39.292 --> 00:57:40.540 they would use.  
NOTE Confidence: 0.47325727  
00:57:40.540 --> 00:57:42.235 Metrics to maintain their information  
NOTE Confidence: 0.47325727  
00:57:42.235 --> 00:57:44.740 and then use the CV builder to  
NOTE Confidence: 0.47325727

00:57:44.740 --> 00:57:46.610 generate new CD's for themselves.  
NOTE Confidence: 0.47325727

00:57:46.610 --> 00:57:49.452 So it becomes less of an administrative  
NOTE Confidence: 0.47325727

00:57:49.452 --> 00:57:52.032 function that lives in Word and one  
NOTE Confidence: 0.47325727

00:57:52.032 --> 00:57:54.320 that lives in Beatrix that they can.  
NOTE Confidence: 0.47325727

00:57:54.320 --> 00:57:59.298 Leverage. So that's that should be coming.  
NOTE Confidence: 0.47325727

00:57:59.300 --> 00:58:01.658 In the in the first half of next year.  
NOTE Confidence: 0.8028620025

00:58:02.690 --> 00:58:04.556 Yeah, I do think we've updated  
NOTE Confidence: 0.8028620025

00:58:04.556 --> 00:58:06.760 this UI so that it's not possible  
NOTE Confidence: 0.8028620025

00:58:06.760 --> 00:58:08.510 to delete lots of information.  
NOTE Confidence: 0.8028620025

00:58:08.510 --> 00:58:10.071 But still, it's good to know that  
NOTE Confidence: 0.8028620025

00:58:10.071 --> 00:58:11.542 if you want to hide something  
NOTE Confidence: 0.8028620025

00:58:11.542 --> 00:58:12.878 from the CV, just hide it.  
NOTE Confidence: 0.8028620025

00:58:12.878 --> 00:58:14.250 You don't have to go and delete  
NOTE Confidence: 0.8028620025

00:58:14.298 --> 00:58:15.390 the information entirely.  
NOTE Confidence: 0.79100664

00:58:18.140 --> 00:58:19.400 If you have other specific  
NOTE Confidence: 0.79100664

00:58:19.400 --> 00:58:20.660 questions about the CV builder,

NOTE Confidence: 0.79100664

00:58:20.660 --> 00:58:23.168 it feel free to reach out to

NOTE Confidence: 0.785839725

00:58:25.950 --> 00:58:26.823 us.viays.m.editor@yale.edu and we

NOTE Confidence: 0.785839725

00:58:26.823 --> 00:58:28.569 could also look at scheduling and

NOTE Confidence: 0.785839725

00:58:28.569 --> 00:58:30.088 more in depth session of CV builder

NOTE Confidence: 0.785839725

00:58:30.088 --> 00:58:31.430 for people who are interested.

NOTE Confidence: 0.923531797777778

00:58:36.290 --> 00:58:38.201 And with that, if there are no

NOTE Confidence: 0.923531797777778

00:58:38.201 --> 00:58:40.770 other questions, we are out of time.

NOTE Confidence: 0.923531797777778

00:58:40.770 --> 00:58:42.084 Does anyone else have any questions

NOTE Confidence: 0.923531797777778

00:58:42.084 --> 00:58:43.310 that we could help answer?

NOTE Confidence: 0.952934

00:58:48.240 --> 00:58:49.755 OK. If you need to reach

NOTE Confidence: 0.952934

00:58:49.755 --> 00:58:50.750 us or you have questions,

NOTE Confidence: 0.789068220909091

00:58:53.420 --> 00:58:54.224 e-mail YS m.editor@yale.edu and

NOTE Confidence: 0.789068220909091

00:58:54.224 --> 00:58:55.580 the team will get back to you

NOTE Confidence: 0.89150742

00:58:56.080 --> 00:58:57.694 quickly. Thank you,

NOTE Confidence: 0.89150742

00:58:57.694 --> 00:59:02.000 everybody. Thank you. Right.
