

WEBVTT

NOTE duration:"00:41:00.6400000"

NOTE recognizability:0.813

NOTE language:en-us

NOTE Confidence: 0.7518274

00:00:03.170 --> 00:00:07.186 Do my. I'll do my very quick introduction.

NOTE Confidence: 0.7518274

00:00:07.190 --> 00:00:11.190 Uh, so this is a dedicated

NOTE Confidence: 0.7518274

00:00:11.190 --> 00:00:13.050 session on Beatrix,

NOTE Confidence: 0.7518274

00:00:13.050 --> 00:00:15.810 the school's newly launched profile system.

NOTE Confidence: 0.7518274

00:00:15.810 --> 00:00:19.700 Well, it's exactly 1 month old today.

NOTE Confidence: 0.7518274

00:00:19.700 --> 00:00:24.860 To review how to manage people listings

NOTE Confidence: 0.7518274

00:00:24.860 --> 00:00:28.619 on your websites so this will cover both.

NOTE Confidence: 0.7518274

00:00:28.620 --> 00:00:31.728 Uh, the school based websites and Yale

NOTE Confidence: 0.7518274

00:00:31.728 --> 00:00:34.655 medicine because those are a little bit

NOTE Confidence: 0.7518274

00:00:34.655 --> 00:00:37.440 different but managed from the same place.

NOTE Confidence: 0.7518274

00:00:37.440 --> 00:00:39.624 And that's all I'm going to say.

NOTE Confidence: 0.7518274

00:00:39.624 --> 00:00:40.740 Uh, as always,

NOTE Confidence: 0.7518274

00:00:40.740 --> 00:00:43.014 feel free to post questions in

NOTE Confidence: 0.7518274

00:00:43.014 --> 00:00:45.556 the chat or unmute yourself and  
NOTE Confidence: 0.7518274

00:00:45.556 --> 00:00:48.388 interrupt us and we can answer  
NOTE Confidence: 0.7518274

00:00:48.388 --> 00:00:50.110 questions because otherwise  
NOTE Confidence: 0.801676726

00:00:50.460 --> 00:00:51.440 we might just keep talking.  
NOTE Confidence: 0.5352709

00:00:52.500 --> 00:00:53.908 Now I'm going to turn it over to Elvis.  
NOTE Confidence: 0.776780484285714

00:00:55.360 --> 00:00:56.608 Thanks everybody for coming.  
NOTE Confidence: 0.776780484285714

00:00:56.608 --> 00:00:57.544 Like Justin said,  
NOTE Confidence: 0.776780484285714

00:00:57.550 --> 00:01:00.550 please do feel free to stop me and  
NOTE Confidence: 0.776780484285714

00:01:00.550 --> 00:01:03.064 interrupt with your questions, I think.  
NOTE Confidence: 0.776780484285714

00:01:03.064 --> 00:01:05.200 I think we really are going to have  
NOTE Confidence: 0.776780484285714

00:01:05.266 --> 00:01:07.234 a smaller group today because this  
NOTE Confidence: 0.776780484285714

00:01:07.234 --> 00:01:09.458 is a smaller subset of people that  
NOTE Confidence: 0.776780484285714

00:01:09.460 --> 00:01:11.092 organization member management really  
NOTE Confidence: 0.776780484285714

00:01:11.092 --> 00:01:13.132 applies to that are completing  
NOTE Confidence: 0.776780484285714

00:01:13.132 --> 00:01:14.980 these kinds of tasks regularly.  
NOTE Confidence: 0.776780484285714

00:01:14.980 --> 00:01:16.654 So I think it's going to be smaller group.

NOTE Confidence: 0.776780484285714  
00:01:16.660 --> 00:01:18.914 So please feel free to speak up,  
NOTE Confidence: 0.776780484285714  
00:01:18.920 --> 00:01:21.880 raise your hand virtually here or just write  
NOTE Confidence: 0.776780484285714  
00:01:21.880 --> 00:01:25.095 a note in the chat on the services team.  
NOTE Confidence: 0.776780484285714  
00:01:25.100 --> 00:01:27.410 Folks will be keeping an eye on  
NOTE Confidence: 0.776780484285714  
00:01:27.410 --> 00:01:29.521 that and stopping me if you decide  
NOTE Confidence: 0.776780484285714  
00:01:29.521 --> 00:01:31.770 not to stop me at the appropriate  
NOTE Confidence: 0.776780484285714  
00:01:31.770 --> 00:01:34.170 time to ask for ask questions.  
NOTE Confidence: 0.776780484285714  
00:01:34.170 --> 00:01:37.890 So I'm going to start sharing my screen,  
NOTE Confidence: 0.776780484285714  
00:01:37.890 --> 00:01:41.170 as I've done for all of these presentations.  
NOTE Confidence: 0.776780484285714  
00:01:41.170 --> 00:01:44.770 I am going to use the acceptance environment,  
NOTE Confidence: 0.776780484285714  
00:01:44.770 --> 00:01:47.314 which is not hooked up to any public  
NOTE Confidence: 0.776780484285714  
00:01:47.314 --> 00:01:49.388 website that anyone is looking at.  
NOTE Confidence: 0.776780484285714  
00:01:49.390 --> 00:01:51.190 So please don't be alarmed if you see  
NOTE Confidence: 0.776780484285714  
00:01:51.190 --> 00:01:53.104 me turning people on and off for display  
NOTE Confidence: 0.776780484285714  
00:01:53.104 --> 00:01:54.750 on websites and your organizations.  
NOTE Confidence: 0.776780484285714

00:01:54.750 --> 00:01:57.620 It's not actually going to change your.  
NOTE Confidence: 0.776780484285714

00:01:57.620 --> 00:01:58.984 So organization,  
NOTE Confidence: 0.776780484285714

00:01:58.984 --> 00:02:00.348 member management,  
NOTE Confidence: 0.776780484285714

00:02:00.348 --> 00:02:05.308 basically what this is for today is for  
NOTE Confidence: 0.776780484285714

00:02:05.308 --> 00:02:08.404 deciding who in your organization is  
NOTE Confidence: 0.776780484285714

00:02:08.404 --> 00:02:12.210 going to display on your websites soon.  
NOTE Confidence: 0.776780484285714

00:02:12.210 --> 00:02:15.816 Once we have the reporting module  
NOTE Confidence: 0.776780484285714

00:02:15.816 --> 00:02:18.664 that I keep alluding to and all these  
NOTE Confidence: 0.776780484285714

00:02:18.664 --> 00:02:20.128 presentations organizations are also  
NOTE Confidence: 0.776780484285714

00:02:20.128 --> 00:02:22.571 going to be very important for me.  
NOTE Confidence: 0.776780484285714

00:02:22.580 --> 00:02:23.393 So this is.  
NOTE Confidence: 0.776780484285714

00:02:23.393 --> 00:02:25.019 I only mentioned this because this  
NOTE Confidence: 0.776780484285714

00:02:25.019 --> 00:02:27.449 is an important reason why we don't  
NOTE Confidence: 0.776780484285714

00:02:27.449 --> 00:02:28.845 necessarily remove people from  
NOTE Confidence: 0.776780484285714

00:02:28.906 --> 00:02:30.541 organizations just because we don't  
NOTE Confidence: 0.776780484285714

00:02:30.541 --> 00:02:33.200 want them to display on the website.

NOTE Confidence: 0.776780484285714  
00:02:33.200 --> 00:02:36.660 We might need them there for to  
NOTE Confidence: 0.776780484285714  
00:02:36.660 --> 00:02:39.460 accurately reflect the membership of the org,  
NOTE Confidence: 0.776780484285714  
00:02:39.460 --> 00:02:42.148 even if we don't want them displaying  
NOTE Confidence: 0.776780484285714  
00:02:42.148 --> 00:02:43.300 on the site.  
NOTE Confidence: 0.776780484285714  
00:02:43.300 --> 00:02:46.702 So when we need to manage membership  
NOTE Confidence: 0.776780484285714  
00:02:46.702 --> 00:02:48.160 for an organization,  
NOTE Confidence: 0.776780484285714  
00:02:48.160 --> 00:02:50.328 we are going to have to log into  
NOTE Confidence: 0.776780484285714  
00:02:50.328 --> 00:02:51.722 Beatrix to do that.  
NOTE Confidence: 0.776780484285714  
00:02:51.722 --> 00:02:52.096 However,  
NOTE Confidence: 0.776780484285714  
00:02:52.096 --> 00:02:55.137 the thing that I wanted to point out  
NOTE Confidence: 0.776780484285714  
00:02:55.137 --> 00:02:57.702 right off the bat is that you might  
NOTE Confidence: 0.776780484285714  
00:02:57.702 --> 00:03:00.100 see a page in the system and you  
NOTE Confidence: 0.776780484285714  
00:03:00.100 --> 00:03:02.312 know you want to change the people  
NOTE Confidence: 0.776780484285714  
00:03:02.312 --> 00:03:04.588 that are displaying on that page,  
NOTE Confidence: 0.776780484285714  
00:03:04.590 --> 00:03:07.502 but you're not quite sure what the  
NOTE Confidence: 0.776780484285714

00:03:07.502 --> 00:03:09.698 name of the organization that you're  
NOTE Confidence: 0.776780484285714

00:03:09.698 --> 00:03:12.730 trying to update on that website is, so.  
NOTE Confidence: 0.776780484285714

00:03:12.730 --> 00:03:16.230 I'm going to go to our corresponding.  
NOTE Confidence: 0.776780484285714

00:03:16.230 --> 00:03:18.575 Again, this looks like the live website,  
NOTE Confidence: 0.776780484285714

00:03:18.580 --> 00:03:19.732 but it is not.  
NOTE Confidence: 0.776780484285714

00:03:19.732 --> 00:03:21.172 This is another development version  
NOTE Confidence: 0.776780484285714

00:03:21.172 --> 00:03:24.110 of this website. Umm.  
NOTE Confidence: 0.776780484285714

00:03:24.110 --> 00:03:27.030 And I keep using RPD, so why stop now?  
NOTE Confidence: 0.897571455

00:03:31.840 --> 00:03:33.928 If I see this list on a website  
NOTE Confidence: 0.897571455

00:03:33.928 --> 00:03:36.430 and I would like to edit the  
NOTE Confidence: 0.897571455

00:03:36.430 --> 00:03:38.335 people who are displaying here.  
NOTE Confidence: 0.897571455

00:03:38.340 --> 00:03:39.828 Actually, you know what, I'm sorry,  
NOTE Confidence: 0.897571455

00:03:39.830 --> 00:03:41.981 I'm gonna have to go to the live website  
NOTE Confidence: 0.897571455

00:03:41.981 --> 00:03:43.696 because otherwise my example is not  
NOTE Confidence: 0.897571455

00:03:43.696 --> 00:03:45.519 gonna be really very relevant to you.  
NOTE Confidence: 0.897571455

00:03:45.520 --> 00:03:47.479 But that's OK.

NOTE Confidence: 0.897571455

00:03:47.480 --> 00:03:49.272 When I'm on the live website and I

NOTE Confidence: 0.897571455

00:03:49.272 --> 00:03:51.060 see this list, I know I want to edit,

NOTE Confidence: 0.897571455

00:03:51.060 --> 00:03:53.250 the people in one of these

NOTE Confidence: 0.897571455

00:03:53.250 --> 00:03:57.010 lists say I want to. Add myself.

NOTE Confidence: 0.897571455

00:03:57.010 --> 00:03:59.005 And I'm not actually gonna do this

NOTE Confidence: 0.897571455

00:03:59.005 --> 00:04:00.507 because look at the live site.

NOTE Confidence: 0.897571455

00:04:00.510 --> 00:04:02.358 Say I need to add myself

NOTE Confidence: 0.897571455

00:04:02.358 --> 00:04:03.590 to the OAD leadership.

NOTE Confidence: 0.897571455

00:04:03.590 --> 00:04:06.008 I could open a new tab,

NOTE Confidence: 0.897571455

00:04:06.010 --> 00:04:07.228 go to beatrix.yale.edu,

NOTE Confidence: 0.897571455

00:04:07.228 --> 00:04:08.446 go to organizations,

NOTE Confidence: 0.897571455

00:04:08.450 --> 00:04:10.170 try to find this organization.

NOTE Confidence: 0.897571455

00:04:10.170 --> 00:04:13.292 Or a really quick trick here is

NOTE Confidence: 0.897571455

00:04:13.292 --> 00:04:16.534 just change the URL that you see

NOTE Confidence: 0.897571455

00:04:16.534 --> 00:04:18.571 here from medicine to 1.edu/whatever

NOTE Confidence: 0.897571455

00:04:18.571 --> 00:04:19.726 your page you're looking at.

NOTE Confidence: 0.897571455

00:04:19.730 --> 00:04:23.870 To preview that yale.edu, press enter.

NOTE Confidence: 0.897571455

00:04:23.870 --> 00:04:25.358 I'm going to have to log

NOTE Confidence: 0.897571455

00:04:25.358 --> 00:04:26.350 into CAS because this.

NOTE Confidence: 0.897571455

00:04:26.350 --> 00:04:27.734 Is our staging server.

NOTE Confidence: 0.897571455

00:04:27.734 --> 00:04:30.180 You might already be familiar with this.

NOTE Confidence: 0.897571455

00:04:30.180 --> 00:04:32.518 When we publish changes to the websites,

NOTE Confidence: 0.897571455

00:04:32.520 --> 00:04:35.544 we publish changes to a site that

NOTE Confidence: 0.897571455

00:04:35.544 --> 00:04:37.156 is located on preview.yale.edu.

NOTE Confidence: 0.897571455

00:04:37.156 --> 00:04:39.684 That is so we can test out what

NOTE Confidence: 0.897571455

00:04:39.684 --> 00:04:41.674 these changes look like before we

NOTE Confidence: 0.897571455

00:04:41.674 --> 00:04:43.680 actually publish them to the live

NOTE Confidence: 0.897571455

00:04:43.680 --> 00:04:45.355 website that everyone can see.

NOTE Confidence: 0.897571455

00:04:45.360 --> 00:04:48.314 And this preview version of the site

NOTE Confidence: 0.897571455

00:04:48.314 --> 00:04:50.616 is secured by CAS so that people

NOTE Confidence: 0.897571455

00:04:50.616 --> 00:04:52.008 outside of you can't reach it.

NOTE Confidence: 0.849893544285714  
00:04:54.490 --> 00:04:56.947 In any case, I load this page,  
NOTE Confidence: 0.849893544285714  
00:04:56.950 --> 00:04:58.567 it looks pretty much exactly the same,  
NOTE Confidence: 0.849893544285714  
00:04:58.570 --> 00:05:01.370 except I see this really handy link here,  
NOTE Confidence: 0.849893544285714  
00:05:01.370 --> 00:05:05.582 which is edit members if I open this link.  
NOTE Confidence: 0.849893544285714  
00:05:05.590 --> 00:05:07.918 Then, well, I have to log in because  
NOTE Confidence: 0.849893544285714  
00:05:07.918 --> 00:05:10.578 I was logged in acceptance version.  
NOTE Confidence: 0.849893544285714  
00:05:10.580 --> 00:05:11.910 This is leading me the live version  
NOTE Confidence: 0.849893544285714  
00:05:11.910 --> 00:05:13.428 which is why I'm not making changes.  
NOTE Confidence: 0.849893544285714  
00:05:13.430 --> 00:05:15.686 Sorry if this is confusing you,  
NOTE Confidence: 0.849893544285714  
00:05:15.690 --> 00:05:17.859 I promise it will not be confusing if you  
NOTE Confidence: 0.849893544285714  
00:05:17.859 --> 00:05:20.186 try to do this yourself for a real update.  
NOTE Confidence: 0.849893544285714  
00:05:20.190 --> 00:05:21.954 This is going to link me directly  
NOTE Confidence: 0.849893544285714  
00:05:21.954 --> 00:05:23.370 to the membership management page  
NOTE Confidence: 0.849893544285714  
00:05:23.370 --> 00:05:25.188 where I can change these Members.  
NOTE Confidence: 0.849893544285714  
00:05:25.190 --> 00:05:28.025 So if you take anything away today,  
NOTE Confidence: 0.849893544285714

00:05:28.030 --> 00:05:29.710 take away this one trick.  
NOTE Confidence: 0.849893544285714  
00:05:29.710 --> 00:05:31.439 If you know you have the ability  
NOTE Confidence: 0.849893544285714  
00:05:31.439 --> 00:05:32.950 to edit this organization,  
NOTE Confidence: 0.849893544285714  
00:05:32.950 --> 00:05:34.558 you can quickly get a link to that  
NOTE Confidence: 0.849893544285714  
00:05:34.558 --> 00:05:35.850 organization by visiting the preview.  
NOTE Confidence: 0.849893544285714  
00:05:35.850 --> 00:05:40.178 Version of your website and then logging in.  
NOTE Confidence: 0.849893544285714  
00:05:40.180 --> 00:05:42.357 I honestly I didn't notice if we  
NOTE Confidence: 0.849893544285714  
00:05:42.357 --> 00:05:46.118 have Y pH folks here, but if we do,  
NOTE Confidence: 0.849893544285714  
00:05:46.118 --> 00:05:48.528 Please note that your website  
NOTE Confidence: 0.849893544285714  
00:05:48.528 --> 00:05:50.723 is served from wiseh.yale.edu.  
NOTE Confidence: 0.849893544285714  
00:05:50.723 --> 00:05:53.441 It's a slightly more complicated to  
NOTE Confidence: 0.849893544285714  
00:05:53.441 --> 00:05:56.793 get to the preview version of YSPH.  
NOTE Confidence: 0.849893544285714  
00:05:56.793 --> 00:06:01.560 It is also located on preview.yale.edu.  
NOTE Confidence: 0.849893544285714  
00:06:01.560 --> 00:06:05.808 But these YHVH pages are all located every  
NOTE Confidence: 0.849893544285714  
00:06:05.808 --> 00:06:09.579 single one in a directory called SPH.  
NOTE Confidence: 0.849893544285714  
00:06:09.580 --> 00:06:10.632 That is not present.

NOTE Confidence: 0.849893544285714  
00:06:10.632 --> 00:06:12.210 That is not rendered when we  
NOTE Confidence: 0.849893544285714  
00:06:12.272 --> 00:06:13.777 actually view the live site.  
NOTE Confidence: 0.849893544285714  
00:06:13.780 --> 00:06:15.742 So you'll have to add Y pH to that  
NOTE Confidence: 0.849893544285714  
00:06:15.742 --> 00:06:17.580 URL to get the preview version.  
NOTE Confidence: 0.849893544285714  
00:06:17.580 --> 00:06:18.564 In any case,  
NOTE Confidence: 0.849893544285714  
00:06:18.564 --> 00:06:20.532 that's that if you have questions  
NOTE Confidence: 0.849893544285714  
00:06:20.532 --> 00:06:22.877 about how to get to your preview URL.  
NOTE Confidence: 0.849893544285714  
00:06:22.880 --> 00:06:24.350 That's like I say all the time.  
NOTE Confidence: 0.849893544285714  
00:06:24.350 --> 00:06:26.186 Just contact us at wise and  
NOTE Confidence: 0.849893544285714  
00:06:26.186 --> 00:06:27.410 the editor at yale.edu.  
NOTE Confidence: 0.849893544285714  
00:06:27.410 --> 00:06:31.058 We will get you that information  
NOTE Confidence: 0.849893544285714  
00:06:31.058 --> 00:06:32.274 very quickly.  
NOTE Confidence: 0.849893544285714  
00:06:32.280 --> 00:06:34.715 So that is your shortcut  
NOTE Confidence: 0.849893544285714  
00:06:34.715 --> 00:06:36.176 to managing membership.  
NOTE Confidence: 0.849893544285714  
00:06:36.180 --> 00:06:37.650 The other way I can manage  
NOTE Confidence: 0.849893544285714

00:06:37.650 --> 00:06:38.966 this membership and now I'm  
NOTE Confidence: 0.849893544285714

00:06:38.966 --> 00:06:40.356 back in the acceptance system.  
NOTE Confidence: 0.849893544285714

00:06:40.360 --> 00:06:43.198 Is by searching for my org.  
NOTE Confidence: 0.79745932

00:06:45.390 --> 00:06:47.974 Find my order. I can then visit it.  
NOTE Confidence: 0.79745932

00:06:47.980 --> 00:06:49.639 I will see the by default I'm  
NOTE Confidence: 0.79745932

00:06:49.639 --> 00:06:51.411 going to see this overview page  
NOTE Confidence: 0.79745932

00:06:51.411 --> 00:06:53.409 where we have lots of information.  
NOTE Confidence: 0.79745932

00:06:53.410 --> 00:06:55.215 This link is important because  
NOTE Confidence: 0.79745932

00:06:55.215 --> 00:06:57.496 it isn't used in certain places  
NOTE Confidence: 0.79745932

00:06:57.496 --> 00:07:00.303 throughout the site to link to your  
NOTE Confidence: 0.79745932

00:07:00.303 --> 00:07:02.029 organization where it's appears.  
NOTE Confidence: 0.79745932

00:07:02.030 --> 00:07:04.196 For example, there is the departments  
NOTE Confidence: 0.79745932

00:07:04.196 --> 00:07:07.000 tree that exists on the main School of  
NOTE Confidence: 0.79745932

00:07:07.000 --> 00:07:09.576 Medicine site and that sorry you know I'm  
NOTE Confidence: 0.79745932

00:07:09.576 --> 00:07:12.081 not going to load it like that right now,  
NOTE Confidence: 0.79745932

00:07:12.081 --> 00:07:13.407 but that will use this website.

NOTE Confidence: 0.79745932

00:07:13.410 --> 00:07:15.506 You were all the link to your site.

NOTE Confidence: 0.79745932

00:07:15.510 --> 00:07:17.939 We also have this description which is

NOTE Confidence: 0.79745932

00:07:17.939 --> 00:07:19.928 not actually linking it to anywhere,

NOTE Confidence: 0.79745932

00:07:19.930 --> 00:07:23.270 actually appearing anywhere right now.

NOTE Confidence: 0.79745932

00:07:23.270 --> 00:07:25.069 May use these for something later on.

NOTE Confidence: 0.79745932

00:07:25.070 --> 00:07:26.690 We did used to use them,

NOTE Confidence: 0.79745932

00:07:26.690 --> 00:07:28.356 so we haven't gone and deleted them,

NOTE Confidence: 0.79745932

00:07:28.360 --> 00:07:32.368 but they aren't appearing anywhere just yet.

NOTE Confidence: 0.79745932

00:07:32.370 --> 00:07:34.638 In any case, what we came here to do

NOTE Confidence: 0.79745932

00:07:34.638 --> 00:07:36.969 was the manager members and leaders,

NOTE Confidence: 0.79745932

00:07:36.970 --> 00:07:39.987 and here are my members and leaders.

NOTE Confidence: 0.79745932

00:07:39.990 --> 00:07:42.285 I'm going to go over the basics that you

NOTE Confidence: 0.79745932

00:07:42.285 --> 00:07:44.377 might be familiar with really quickly.

NOTE Confidence: 0.79745932

00:07:44.380 --> 00:07:45.254 Um.

NOTE Confidence: 0.79745932

00:07:45.254 --> 00:07:50.498 For most organizations, I'm gonna see.

NOTE Confidence: 0.79745932

00:07:50.500 --> 00:07:52.080 A few columns here.

NOTE Confidence: 0.79745932

00:07:52.080 --> 00:07:54.944 One set of toggles for displaying to

NOTE Confidence: 0.79745932

00:07:54.944 --> 00:07:58.961 to that allowed me to set the user to

NOTE Confidence: 0.79745932

00:07:58.961 --> 00:08:02.216 display or not display on the website,

NOTE Confidence: 0.79745932

00:08:02.220 --> 00:08:05.118 and then last column to add or

NOTE Confidence: 0.79745932

00:08:05.118 --> 00:08:07.380 remove people from leadership.

NOTE Confidence: 0.79745932

00:08:07.380 --> 00:08:10.257 Leadership also appears at the top of

NOTE Confidence: 0.79745932

00:08:10.257 --> 00:08:13.686 this page and I can manually drag and

NOTE Confidence: 0.79745932

00:08:13.686 --> 00:08:17.137 drop to sort these folks in leadership.

NOTE Confidence: 0.79745932

00:08:17.140 --> 00:08:18.524 We do not have the option to sort

NOTE Confidence: 0.79745932

00:08:18.524 --> 00:08:20.080 people in a regular membership listing.

NOTE Confidence: 0.79745932

00:08:20.080 --> 00:08:21.268 We're just going to display them.

NOTE Confidence: 0.79745932

00:08:21.270 --> 00:08:21.944 Alphabetical order.

NOTE Confidence: 0.79745932

00:08:21.944 --> 00:08:22.281 Generally,

NOTE Confidence: 0.79745932

00:08:22.281 --> 00:08:25.034 we only care about the order that these

NOTE Confidence: 0.79745932

00:08:25.034 --> 00:08:27.026 people appear if we're displaying the

NOTE Confidence: 0.79745932

00:08:27.026 --> 00:08:29.189 hierarchy among the leaders of the order.

NOTE Confidence: 0.80817362

00:08:31.960 --> 00:08:34.480 To add or remove somebody from leadership,

NOTE Confidence: 0.80817362

00:08:34.480 --> 00:08:36.070 I can easily remove somebody from

NOTE Confidence: 0.80817362

00:08:36.070 --> 00:08:37.400 this leadership list right here.

NOTE Confidence: 0.80817362

00:08:37.400 --> 00:08:39.104 By clicking these X's I can

NOTE Confidence: 0.80817362

00:08:39.104 --> 00:08:41.140 do the same exact thing in the

NOTE Confidence: 0.80817362

00:08:41.140 --> 00:08:42.862 list of all people down here,

NOTE Confidence: 0.80817362

00:08:42.862 --> 00:08:44.969 with the addition that I can add

NOTE Confidence: 0.80817362

00:08:44.969 --> 00:08:47.018 people if they are already present,

NOTE Confidence: 0.80817362

00:08:47.020 --> 00:08:49.066 but should be added to leadership

NOTE Confidence: 0.80817362

00:08:49.066 --> 00:08:50.430 by clicking the little.

NOTE Confidence: 0.80817362

00:08:50.430 --> 00:08:51.750 And they will appear in this

NOTE Confidence: 0.80817362

00:08:51.750 --> 00:08:53.487 list up top and I can sort them.

NOTE Confidence: 0.800532377142857

00:09:11.630 --> 00:09:15.438 We do display the leadership titles that

NOTE Confidence: 0.800532377142857

00:09:15.438 --> 00:09:19.119 people enter on here on the website.

NOTE Confidence: 0.800532377142857

00:09:19.120 --> 00:09:20.550 Those titles can be edited.  
NOTE Confidence: 0.800532377142857

00:09:20.550 --> 00:09:23.196 By clicking one of these leaders  
NOTE Confidence: 0.800532377142857

00:09:23.200 --> 00:09:24.796 I will see a title field.  
NOTE Confidence: 0.800532377142857

00:09:24.800 --> 00:09:27.397 This is where I can compare leadership  
NOTE Confidence: 0.800532377142857

00:09:27.397 --> 00:09:30.727 title that is specific to this organization.  
NOTE Confidence: 0.800532377142857

00:09:30.730 --> 00:09:33.404 If I'm using that leadership a template  
NOTE Confidence: 0.800532377142857

00:09:33.404 --> 00:09:35.867 that is showing that leadership on  
NOTE Confidence: 0.800532377142857

00:09:35.867 --> 00:09:38.363 the site those titles will display.  
NOTE Confidence: 0.800532377142857

00:09:38.370 --> 00:09:39.948 If you are entering these titles  
NOTE Confidence: 0.800532377142857

00:09:39.948 --> 00:09:41.988 here and you want them to appear on  
NOTE Confidence: 0.800532377142857

00:09:41.988 --> 00:09:43.960 your site and they are not appearing.  
NOTE Confidence: 0.800532377142857

00:09:43.960 --> 00:09:46.116 Contact wise and that editor and  
NOTE Confidence: 0.800532377142857

00:09:46.116 --> 00:09:47.096 we will switch the temp.  
NOTE Confidence: 0.800532377142857

00:09:47.100 --> 00:09:48.724 We will switch the options so that  
NOTE Confidence: 0.800532377142857

00:09:48.724 --> 00:09:49.699 those leadership titles start  
NOTE Confidence: 0.800532377142857

00:09:49.699 --> 00:09:50.627 hearings for that page.

NOTE Confidence: 0.800532377142857  
00:09:50.630 --> 00:09:53.220 Just send us the URL and let us know you  
NOTE Confidence: 0.800532377142857  
00:09:53.285 --> 00:09:55.938 want the titles to start appearing there.  
NOTE Confidence: 0.800532377142857  
00:09:55.940 --> 00:09:58.040 Um.  
NOTE Confidence: 0.800532377142857  
00:09:58.040 --> 00:10:01.225 The other element you may have noticed  
NOTE Confidence: 0.800532377142857  
00:10:01.225 --> 00:10:04.492 when I opened up this model about  
NOTE Confidence: 0.800532377142857  
00:10:04.492 --> 00:10:07.668 this person is this bio for office of  
NOTE Confidence: 0.800532377142857  
00:10:07.668 --> 00:10:09.180 academic and professional development.  
NOTE Confidence: 0.800532377142857  
00:10:09.180 --> 00:10:11.382 You might not see this when  
NOTE Confidence: 0.800532377142857  
00:10:11.382 --> 00:10:13.992 you are editing details about  
NOTE Confidence: 0.800532377142857  
00:10:13.992 --> 00:10:15.558 your organization numbers.  
NOTE Confidence: 0.800532377142857  
00:10:15.560 --> 00:10:17.786 This is because this is controlled.  
NOTE Confidence: 0.698010782  
00:10:20.000 --> 00:10:21.820 By the southern setting here,  
NOTE Confidence: 0.698010782  
00:10:21.820 --> 00:10:23.323 we only want to show these fields if you're  
NOTE Confidence: 0.698010782  
00:10:23.323 --> 00:10:24.618 actually going to use them on your website,  
NOTE Confidence: 0.698010782  
00:10:24.620 --> 00:10:27.056 because otherwise it can get confusing.  
NOTE Confidence: 0.698010782

00:10:27.060 --> 00:10:30.372 But we do have the option to include custom  
NOTE Confidence: 0.698010782

00:10:30.372 --> 00:10:32.750 biographies for people that are specific  
NOTE Confidence: 0.698010782

00:10:32.750 --> 00:10:35.430 to the organization they're a member of.  
NOTE Confidence: 0.698010782

00:10:35.430 --> 00:10:39.224 This is because there may be situations  
NOTE Confidence: 0.698010782

00:10:39.224 --> 00:10:41.930 where, like on the LAPD page,  
NOTE Confidence: 0.698010782

00:10:41.930 --> 00:10:44.168 we want to write something about  
NOTE Confidence: 0.698010782

00:10:44.168 --> 00:10:46.612 this person that is very specific  
NOTE Confidence: 0.698010782

00:10:46.612 --> 00:10:49.246 to their role in this organization.  
NOTE Confidence: 0.698010782

00:10:49.250 --> 00:10:51.542 So for example,  
NOTE Confidence: 0.698010782

00:10:51.542 --> 00:10:56.126 Doctor Brauer is a orthopedic specialist.  
NOTE Confidence: 0.698010782

00:10:56.130 --> 00:10:57.966 He does lots of work in  
NOTE Confidence: 0.698010782

00:10:57.966 --> 00:10:59.190 the realm of orthopedics.  
NOTE Confidence: 0.698010782

00:10:59.190 --> 00:11:01.325 He also has this other role with  
NOTE Confidence: 0.698010782

00:11:01.325 --> 00:11:03.330 LAPD and when his profile appears  
NOTE Confidence: 0.698010782

00:11:03.330 --> 00:11:05.364 in the OPPD site he wants.  
NOTE Confidence: 0.698010782

00:11:05.370 --> 00:11:07.484 This bio that describes his role with

NOTE Confidence: 0.698010782  
00:11:07.484 --> 00:11:09.778 OPPD to appear instead of the work  
NOTE Confidence: 0.698010782  
00:11:09.778 --> 00:11:11.764 about orthopedics which is not really  
NOTE Confidence: 0.698010782  
00:11:11.829 --> 00:11:14.037 relevant for this particular use case.  
NOTE Confidence: 0.698010782  
00:11:14.040 --> 00:11:17.525 So that's why those organization  
NOTE Confidence: 0.698010782  
00:11:17.525 --> 00:11:19.616 BIOS are there.  
NOTE Confidence: 0.698010782  
00:11:19.620 --> 00:11:20.152 Importantly,  
NOTE Confidence: 0.698010782  
00:11:20.152 --> 00:11:23.876 those will not be editable even though  
NOTE Confidence: 0.698010782  
00:11:23.876 --> 00:11:27.599 this bio is associated with of course.  
NOTE Confidence: 0.698010782  
00:11:27.600 --> 00:11:28.500 I don't see it here.  
NOTE Confidence: 0.698010782  
00:11:28.500 --> 00:11:33.169 I'm not sure why this bio is.  
NOTE Confidence: 0.698010782  
00:11:33.170 --> 00:11:34.706 Not editable by this,  
NOTE Confidence: 0.698010782  
00:11:34.706 --> 00:11:36.626 by whoever it belongs to.  
NOTE Confidence: 0.698010782  
00:11:36.630 --> 00:11:38.856 It is only editable by people who  
NOTE Confidence: 0.698010782  
00:11:38.856 --> 00:11:40.730 can manage this organization.  
NOTE Confidence: 0.698010782  
00:11:40.730 --> 00:11:42.520 And that's very specifically because  
NOTE Confidence: 0.698010782

00:11:42.520 --> 00:11:44.715 we don't expect all the faculty  
NOTE Confidence: 0.698010782

00:11:44.715 --> 00:11:47.095 and staff to know all the places  
NOTE Confidence: 0.698010782

00:11:47.095 --> 00:11:48.718 they necessarily appear on the  
NOTE Confidence: 0.698010782

00:11:48.718 --> 00:11:50.470 website and why those BIOS might  
NOTE Confidence: 0.698010782

00:11:50.470 --> 00:11:52.022 be written a certain way.  
NOTE Confidence: 0.698010782

00:11:52.022 --> 00:11:54.414 So we don't want them to unintentionally  
NOTE Confidence: 0.698010782

00:11:54.414 --> 00:11:57.090 scrub a biography that is very  
NOTE Confidence: 0.698010782

00:11:57.090 --> 00:11:59.830 specifically for one page of the website,  
NOTE Confidence: 0.698010782

00:11:59.830 --> 00:12:02.609 thinking that this is the one bio  
NOTE Confidence: 0.698010782

00:12:02.609 --> 00:12:04.460 associated with their profile.  
NOTE Confidence: 0.698010782

00:12:04.460 --> 00:12:06.440 So that's why these are bifurcated.  
NOTE Confidence: 0.698010782

00:12:06.440 --> 00:12:08.070 This option is available if  
NOTE Confidence: 0.698010782

00:12:08.070 --> 00:12:09.700 you'd like to use it.  
NOTE Confidence: 0.698010782

00:12:09.700 --> 00:12:11.870 If you manage an organization we can  
NOTE Confidence: 0.698010782

00:12:11.870 --> 00:12:14.158 obviously give you access to manage these.  
NOTE Confidence: 0.698010782

00:12:14.160 --> 00:12:15.805 You might just want to message that

NOTE Confidence: 0.698010782  
00:12:15.805 --> 00:12:17.479 with the faculty that you're or staff  
NOTE Confidence: 0.698010782  
00:12:17.479 --> 00:12:19.319 that you're going to add these BIOS for.  
NOTE Confidence: 0.698010782  
00:12:19.320 --> 00:12:19.956 But again,  
NOTE Confidence: 0.698010782  
00:12:19.956 --> 00:12:21.546 as always just contact us,  
NOTE Confidence: 0.698010782  
00:12:21.550 --> 00:12:23.680 we can help you configure this  
NOTE Confidence: 0.698010782  
00:12:23.680 --> 00:12:26.134 initially and then you will have  
NOTE Confidence: 0.698010782  
00:12:26.134 --> 00:12:28.544 full control of those organizations  
NOTE Confidence: 0.698010782  
00:12:28.544 --> 00:12:30.600 specific biographies going forward.  
NOTE Confidence: 0.698010782  
00:12:30.600 --> 00:12:32.497 I jumped right into some complex stuff.  
NOTE Confidence: 0.698010782  
00:12:32.500 --> 00:12:35.209 Let me go over the more simple  
NOTE Confidence: 0.698010782  
00:12:35.209 --> 00:12:36.370 stuff really quickly.  
NOTE Confidence: 0.698010782  
00:12:36.370 --> 00:12:38.330 Another element you will see in this  
NOTE Confidence: 0.698010782  
00:12:38.330 --> 00:12:40.744 model when I click a person is a  
NOTE Confidence: 0.698010782  
00:12:40.744 --> 00:12:42.259 QikLink to that person's profile.  
NOTE Confidence: 0.698010782  
00:12:42.260 --> 00:12:43.280 I can click this link,  
NOTE Confidence: 0.698010782

00:12:43.280 --> 00:12:44.840 it's going to link me to their profile.  
NOTE Confidence: 0.698010782

00:12:44.840 --> 00:12:46.760 So that's how you get to quickly make  
NOTE Confidence: 0.698010782

00:12:46.760 --> 00:12:48.711 an edit to somebody's profile if in  
NOTE Confidence: 0.698010782

00:12:48.711 --> 00:12:51.139 the course of making some membership update,  
NOTE Confidence: 0.698010782

00:12:51.140 --> 00:12:55.697 you realize they need a profile update.  
NOTE Confidence: 0.698010782

00:12:55.700 --> 00:12:56.021 Additionally,  
NOTE Confidence: 0.698010782

00:12:56.021 --> 00:12:57.947 I can use these toggles that  
NOTE Confidence: 0.698010782

00:12:57.947 --> 00:13:00.018 appear that you might have noticed.  
NOTE Confidence: 0.698010782

00:13:00.020 --> 00:13:01.580 They also appear in the model,  
NOTE Confidence: 0.698010782

00:13:01.580 --> 00:13:04.205 but I can also decide who displays  
NOTE Confidence: 0.698010782

00:13:04.205 --> 00:13:07.295 or does not display on the website  
NOTE Confidence: 0.698010782

00:13:07.295 --> 00:13:09.650 by just clicking this toggle.  
NOTE Confidence: 0.698010782

00:13:09.650 --> 00:13:10.469 Back and forth.  
NOTE Confidence: 0.749732455

00:13:12.780 --> 00:13:14.820 I can also manage not this  
NOTE Confidence: 0.749732455

00:13:14.820 --> 00:13:17.140 is a new feature in Beatrix.  
NOTE Confidence: 0.749732455

00:13:17.140 --> 00:13:20.437 I can edit multiple members at once.

NOTE Confidence: 0.749732455

00:13:20.440 --> 00:13:24.148 For instance, if I wanted to turn these three

NOTE Confidence: 0.749732455

00:13:24.148 --> 00:13:27.399 folks all on for display on the website,

NOTE Confidence: 0.749732455

00:13:27.400 --> 00:13:28.880 I could select them all.

NOTE Confidence: 0.749732455

00:13:28.880 --> 00:13:30.710 This new set of options will

NOTE Confidence: 0.749732455

00:13:30.710 --> 00:13:32.859 appear at the top of the table,

NOTE Confidence: 0.749732455

00:13:32.860 --> 00:13:34.360 replacing the column headers.

NOTE Confidence: 0.749732455

00:13:34.360 --> 00:13:36.610 And if I flip this option,

NOTE Confidence: 0.749732455

00:13:36.610 --> 00:13:38.724 it's going to set give me a

NOTE Confidence: 0.749732455

00:13:38.724 --> 00:13:40.549 warning just in case I have.

NOTE Confidence: 0.749732455

00:13:40.550 --> 00:13:41.790 A bunch of people selected.

NOTE Confidence: 0.749732455

00:13:41.790 --> 00:13:43.470 I wanna be sure making the right

NOTE Confidence: 0.749732455

00:13:43.470 --> 00:13:45.049 change before I change them all.

NOTE Confidence: 0.749732455

00:13:45.050 --> 00:13:47.234 And I say yes, it's gonna flip

NOTE Confidence: 0.749732455

00:13:47.234 --> 00:13:49.430 all over their options that way.

NOTE Confidence: 0.749732455

00:13:49.430 --> 00:13:51.454 Importantly, you can select.

NOTE Confidence: 0.749732455

00:13:51.454 --> 00:13:53.478 A mix of people.  
NOTE Confidence: 0.749732455

00:13:53.480 --> 00:13:53.826 I mean,  
NOTE Confidence: 0.749732455

00:13:53.826 --> 00:13:55.210 this would only make sense if you were  
NOTE Confidence: 0.749732455

00:13:55.254 --> 00:13:56.496 making more than one change here,  
NOTE Confidence: 0.749732455

00:13:56.500 --> 00:14:00.322 but if I select people who have  
NOTE Confidence: 0.749732455

00:14:00.322 --> 00:14:02.635 various settings for the one setting  
NOTE Confidence: 0.749732455

00:14:02.635 --> 00:14:04.780 I'm trying to manipulate already.  
NOTE Confidence: 0.749732455

00:14:04.780 --> 00:14:06.530 So you can see I've selected a  
NOTE Confidence: 0.749732455

00:14:06.530 --> 00:14:08.356 mixture of people who are set for  
NOTE Confidence: 0.749732455

00:14:08.356 --> 00:14:10.215 display on the website and people who  
NOTE Confidence: 0.749732455

00:14:10.215 --> 00:14:11.944 aren't set for display by default.  
NOTE Confidence: 0.749732455

00:14:11.944 --> 00:14:14.520 I'm going to see this setting turned off.  
NOTE Confidence: 0.749732455

00:14:14.520 --> 00:14:17.974 I can flip it on and it will.  
NOTE Confidence: 0.749732455

00:14:17.974 --> 00:14:20.314 Whoops, I shouldn't click cancel.  
NOTE Confidence: 0.749732455

00:14:20.320 --> 00:14:22.826 It'll turn everybody on if the whole.  
NOTE Confidence: 0.749732455

00:14:22.830 --> 00:14:24.209 One of this was I wanted to

NOTE Confidence: 0.749732455  
00:14:24.209 --> 00:14:24.800 turn everybody off.  
NOTE Confidence: 0.749732455  
00:14:24.800 --> 00:14:27.089 I just have to click it again.  
NOTE Confidence: 0.749732455  
00:14:27.090 --> 00:14:28.777 And again, go with the confirmation that  
NOTE Confidence: 0.749732455  
00:14:28.777 --> 00:14:30.188 will turn everybody that I selected.  
NOTE Confidence: 0.749732455  
00:14:30.190 --> 00:14:32.044 The only person I didn't have  
NOTE Confidence: 0.749732455  
00:14:32.044 --> 00:14:33.730 selected there was Doctor Brauer.  
NOTE Confidence: 0.749732455  
00:14:33.730 --> 00:14:37.530 That'll turn everybody off. Umm.  
NOTE Confidence: 0.749732455  
00:14:37.530 --> 00:14:40.194 So if if you want to turn everyone off,  
NOTE Confidence: 0.749732455  
00:14:40.200 --> 00:14:41.118 you might have to click twice,  
NOTE Confidence: 0.749732455  
00:14:41.120 --> 00:14:44.016 that's the only thing.  
NOTE Confidence: 0.749732455  
00:14:44.016 --> 00:14:46.060 Um. Any I can do the same.  
NOTE Confidence: 0.749732455  
00:14:46.060 --> 00:14:47.635 We have the same option for leadership.  
NOTE Confidence: 0.749732455  
00:14:47.640 --> 00:14:48.570 It's similar pattern.  
NOTE Confidence: 0.749732455  
00:14:48.570 --> 00:14:51.153 If I wanted to remove a bunch of  
NOTE Confidence: 0.749732455  
00:14:51.153 --> 00:14:52.878 people from leadership at once,  
NOTE Confidence: 0.749732455

00:14:52.880 --> 00:14:55.260 I have, and we had a mixture.

NOTE Confidence: 0.749732455

00:14:55.260 --> 00:14:56.618 I mean, I'd have to add everybody,

NOTE Confidence: 0.749732455

00:14:56.620 --> 00:14:57.892 then remove them all.

NOTE Confidence: 0.749732455

00:14:57.892 --> 00:15:00.418 That's just the one way we could

NOTE Confidence: 0.749732455

00:15:00.418 --> 00:15:02.059 keep everything consistent.

NOTE Confidence: 0.749732455

00:15:02.060 --> 00:15:03.758 Are there any questions at this

NOTE Confidence: 0.749732455

00:15:03.758 --> 00:15:05.738 point before I move on to some

NOTE Confidence: 0.749732455

00:15:05.738 --> 00:15:07.053 other aspects of this page?

NOTE Confidence: 0.951191

00:15:10.930 --> 00:15:16.006 OK. Alright, so organizations that do not

NOTE Confidence: 0.951191

00:15:16.006 --> 00:15:19.113 have membership imported from work day are

NOTE Confidence: 0.951191

00:15:19.113 --> 00:15:23.101 going to look like this one where I can

NOTE Confidence: 0.951191

00:15:23.101 --> 00:15:27.538 add or remove people at will by clicking

NOTE Confidence: 0.951191

00:15:27.538 --> 00:15:30.250 this little remove Member button here,

NOTE Confidence: 0.951191

00:15:30.250 --> 00:15:33.001 or I can add people by clicking

NOTE Confidence: 0.951191

00:15:33.001 --> 00:15:35.369 the add new button here.

NOTE Confidence: 0.951191

00:15:35.370 --> 00:15:38.202 So if I really wanted, I could go ahead

NOTE Confidence: 0.951191  
00:15:38.202 --> 00:15:40.050 and add myself to this organization.  
NOTE Confidence: 0.951191  
00:15:40.050 --> 00:15:45.198 I could give myself my leadership title.  
NOTE Confidence: 0.951191  
00:15:45.200 --> 00:15:49.295 And I could give myself my custom.  
NOTE Confidence: 0.951191  
00:15:49.300 --> 00:15:50.780 Oh wait, maybe 5?  
NOTE Confidence: 0.951191  
00:15:50.780 --> 00:15:53.000 And obviously since and leadership I  
NOTE Confidence: 0.951191  
00:15:53.076 --> 00:15:55.890 want to include myself in leadership add.  
NOTE Confidence: 0.951191  
00:15:55.890 --> 00:15:57.054 And there I go.  
NOTE Confidence: 0.951191  
00:15:57.054 --> 00:15:59.210 I've been added to the main list.  
NOTE Confidence: 0.951191  
00:15:59.210 --> 00:16:02.465 I've added to the leadership list with  
NOTE Confidence: 0.951191  
00:16:02.465 --> 00:16:05.588 the title and bio that I entered.  
NOTE Confidence: 0.951191  
00:16:05.590 --> 00:16:08.810 If I look at instead an organization,  
NOTE Confidence: 0.951191  
00:16:08.810 --> 00:16:12.562 that is where the membership is imported  
NOTE Confidence: 0.951191  
00:16:12.562 --> 00:16:15.736 from work day, like Internal medicine.  
NOTE Confidence: 0.951191  
00:16:15.736 --> 00:16:19.390 The UI is a little bit different.  
NOTE Confidence: 0.951191  
00:16:19.390 --> 00:16:22.946 This organization is wholly that who appears  
NOTE Confidence: 0.951191

00:16:22.946 --> 00:16:26.278 in this organization is not editable by me.

NOTE Confidence: 0.951191

00:16:26.280 --> 00:16:29.472 You'll I will not see this remove from

NOTE Confidence: 0.951191

00:16:29.472 --> 00:16:31.390 organization button here and I will

NOTE Confidence: 0.951191

00:16:31.390 --> 00:16:33.859 not be able to add new people here.

NOTE Confidence: 0.951191

00:16:33.860 --> 00:16:36.440 This is because for the department

NOTE Confidence: 0.951191

00:16:36.440 --> 00:16:38.160 level membership and higher,

NOTE Confidence: 0.951191

00:16:38.160 --> 00:16:41.802 basically we are 100% reliant on

NOTE Confidence: 0.951191

00:16:41.802 --> 00:16:45.379 the data coming from work day.

NOTE Confidence: 0.951191

00:16:45.380 --> 00:16:45.942 Our system.

NOTE Confidence: 0.951191

00:16:45.942 --> 00:16:47.909 So if someone needs to appear here

NOTE Confidence: 0.951191

00:16:47.909 --> 00:16:49.816 and they are not appearing here,

NOTE Confidence: 0.951191

00:16:49.820 --> 00:16:52.328 it means that something is wrong

NOTE Confidence: 0.951191

00:16:52.328 --> 00:16:53.582 and work day.

NOTE Confidence: 0.951191

00:16:53.590 --> 00:16:53.958 Honestly,

NOTE Confidence: 0.951191

00:16:53.958 --> 00:16:56.534 would it would be great if we

NOTE Confidence: 0.951191

00:16:56.534 --> 00:16:59.372 could use work day as the source

NOTE Confidence: 0.951191  
00:16:59.372 --> 00:17:01.397 of truth for these organization  
NOTE Confidence: 0.951191  
00:17:01.480 --> 00:17:03.810 membership lists at all levels.  
NOTE Confidence: 0.951191  
00:17:03.810 --> 00:17:06.339 But the reality is that the data from HR  
NOTE Confidence: 0.951191  
00:17:06.339 --> 00:17:09.021 is not quite there in terms of tracking  
NOTE Confidence: 0.951191  
00:17:09.021 --> 00:17:11.730 people who are members of every section,  
NOTE Confidence: 0.951191  
00:17:11.730 --> 00:17:12.448 program, etcetera.  
NOTE Confidence: 0.951191  
00:17:12.448 --> 00:17:15.320 So we just can't rely on that and  
NOTE Confidence: 0.951191  
00:17:15.395 --> 00:17:17.883 force you to rely on HR making sure  
NOTE Confidence: 0.951191  
00:17:17.883 --> 00:17:19.818 all those memberships are correct  
NOTE Confidence: 0.951191  
00:17:19.818 --> 00:17:22.302 for who displays on your site.  
NOTE Confidence: 0.951191  
00:17:22.310 --> 00:17:24.452 So that's why we have many organizations  
NOTE Confidence: 0.951191  
00:17:24.452 --> 00:17:26.504 that. Um, have custom leadership?  
NOTE Confidence: 0.951191  
00:17:26.504 --> 00:17:26.940 Sure.  
NOTE Confidence: 0.951191  
00:17:26.940 --> 00:17:28.407 Why don't you go ahead and ask your question?  
NOTE Confidence: 0.931876101428571  
00:17:29.200 --> 00:17:32.020 Could you just explain  
NOTE Confidence: 0.931876101428571

00:17:32.020 --> 00:17:34.135 organizations in general?  
NOTE Confidence: 0.931876101428571

00:17:34.140 --> 00:17:36.180 For instance, the organizations that  
NOTE Confidence: 0.931876101428571

00:17:36.180 --> 00:17:40.678 I seem to be able to view tend to map  
NOTE Confidence: 0.931876101428571

00:17:40.678 --> 00:17:42.973 up with our departments divisions,  
NOTE Confidence: 0.931876101428571

00:17:42.980 --> 00:17:45.740 but I don't know if separate.  
NOTE Confidence: 0.931876101428571

00:17:45.740 --> 00:17:46.892 Website pages for them.  
NOTE Confidence: 0.931876101428571

00:17:46.892 --> 00:17:48.620 Do you know what I mean?  
NOTE Confidence: 0.931876101428571

00:17:48.620 --> 00:17:51.150 I I I guess yeah.  
NOTE Confidence: 0.883372086363636

00:17:51.160 --> 00:17:53.701 So it's not a one to one  
NOTE Confidence: 0.883372086363636

00:17:53.701 --> 00:17:55.500 relationship with the website.  
NOTE Confidence: 0.883372086363636

00:17:55.500 --> 00:17:57.474 The main purpose of an organization  
NOTE Confidence: 0.883372086363636

00:17:57.474 --> 00:17:59.605 in this context of Beatrix is  
NOTE Confidence: 0.883372086363636

00:17:59.605 --> 00:18:01.055 for website display, right?  
NOTE Confidence: 0.883372086363636

00:18:01.055 --> 00:18:02.945 We do have some other features  
NOTE Confidence: 0.883372086363636

00:18:02.945 --> 00:18:05.050 that I'm not actually going I  
NOTE Confidence: 0.883372086363636

00:18:05.050 --> 00:18:06.100 wasn't planning to go over,

NOTE Confidence: 0.883372086363636  
00:18:06.100 --> 00:18:08.413 but if you have time at the end I  
NOTE Confidence: 0.883372086363636  
00:18:08.413 --> 00:18:10.283 could start looking at different  
NOTE Confidence: 0.883372086363636  
00:18:10.283 --> 00:18:12.698 aspects of organizations that are  
NOTE Confidence: 0.883372086363636  
00:18:12.698 --> 00:18:15.595 used for other purposes aside from  
NOTE Confidence: 0.883372086363636  
00:18:15.595 --> 00:18:18.247 just displaying people on the website.  
NOTE Confidence: 0.883372086363636  
00:18:18.250 --> 00:18:20.442 Like calendars or technically  
NOTE Confidence: 0.883372086363636  
00:18:20.442 --> 00:18:23.182 an aspect of an organization.  
NOTE Confidence: 0.883372086363636  
00:18:23.190 --> 00:18:25.398 You'll see that there are options  
NOTE Confidence: 0.883372086363636  
00:18:25.398 --> 00:18:27.273 like security groups and patient  
NOTE Confidence: 0.883372086363636  
00:18:27.273 --> 00:18:29.604 care in here that do other things,  
NOTE Confidence: 0.883372086363636  
00:18:29.610 --> 00:18:31.176 but basically organizations.  
NOTE Confidence: 0.883372086363636  
00:18:31.176 --> 00:18:33.786 They should reflect the organizations  
NOTE Confidence: 0.883372086363636  
00:18:33.786 --> 00:18:36.565 that exist at the school and the  
NOTE Confidence: 0.883372086363636  
00:18:36.565 --> 00:18:38.741 primary purpose here is for grouping  
NOTE Confidence: 0.883372086363636  
00:18:38.741 --> 00:18:41.828 people together for display on the website.  
NOTE Confidence: 0.883372086363636

00:18:41.830 --> 00:18:42.541 Like I said,  
NOTE Confidence: 0.883372086363636  
00:18:42.541 --> 00:18:44.180 there are those other features, but.  
NOTE Confidence: 0.827275645333333  
00:18:46.600 --> 00:18:48.065 We are importing all these  
NOTE Confidence: 0.827275645333333  
00:18:48.065 --> 00:18:49.972 really these organic if if it's  
NOTE Confidence: 0.827275645333333  
00:18:49.972 --> 00:18:51.480 not an imported organization,  
NOTE Confidence: 0.827275645333333  
00:18:51.480 --> 00:18:53.355 we've probably created it for  
NOTE Confidence: 0.827275645333333  
00:18:53.355 --> 00:18:56.880 display on the website. Um.  
NOTE Confidence: 0.827275645333333  
00:18:56.880 --> 00:18:58.518 Justin, I don't know if there's any  
NOTE Confidence: 0.827275645333333  
00:18:58.518 --> 00:19:00.360 other aspects we wanna add in here, but.  
NOTE Confidence: 0.900000364285714  
00:19:02.290 --> 00:19:04.810 Well, the short of it is you.  
NOTE Confidence: 0.900000364285714  
00:19:04.810 --> 00:19:06.952 I mean that tip about changing the  
NOTE Confidence: 0.900000364285714  
00:19:06.952 --> 00:19:08.579 URL the preview because because  
NOTE Confidence: 0.900000364285714  
00:19:08.579 --> 00:19:10.812 often I don't know where the I  
NOTE Confidence: 0.900000364285714  
00:19:10.812 --> 00:19:12.790 don't know what organization of,  
NOTE Confidence: 0.900000364285714  
00:19:12.790 --> 00:19:16.638 you know urology but.  
NOTE Confidence: 0.900000364285714  
00:19:16.640 --> 00:19:18.680 Beyond that maybe their division,

NOTE Confidence: 0.900000364285714  
00:19:18.680 --> 00:19:20.598 but some of them are aren't matching.  
NOTE Confidence: 0.900000364285714  
00:19:20.600 --> 00:19:22.476 So so that was an awesome tip.  
NOTE Confidence: 0.900000364285714  
00:19:22.480 --> 00:19:24.584 I even practiced it while you did it  
NOTE Confidence: 0.742711565882353  
00:19:24.600 --> 00:19:27.687 and it worked so. So that was I guess  
NOTE Confidence: 0.742711565882353  
00:19:27.687 --> 00:19:30.800 one caveat I should say here is that  
NOTE Confidence: 0.742711565882353  
00:19:30.800 --> 00:19:32.834 some of the organizations in the  
NOTE Confidence: 0.742711565882353  
00:19:32.834 --> 00:19:34.800 hierarchy and I'll I'll actually,  
NOTE Confidence: 0.742711565882353  
00:19:34.800 --> 00:19:36.408 I'll look at this hierarchy in a minute.  
NOTE Confidence: 0.6583594  
00:19:39.050 --> 00:19:41.026 When I look at the hierarchy right now,  
NOTE Confidence: 0.6583594  
00:19:41.030 --> 00:19:42.970 some of these organizations are  
NOTE Confidence: 0.6583594  
00:19:42.970 --> 00:19:44.522 better organized than others.  
NOTE Confidence: 0.6583594  
00:19:44.530 --> 00:19:48.211 For a while, we allowed anyone who had access  
NOTE Confidence: 0.6583594  
00:19:48.211 --> 00:19:51.687 to the system to create organizations,  
NOTE Confidence: 0.6583594  
00:19:51.690 --> 00:19:55.050 and for a while, I mean years.  
NOTE Confidence: 0.6583594  
00:19:55.050 --> 00:19:57.355 And that resulted in lots  
NOTE Confidence: 0.6583594

00:19:57.355 --> 00:19:59.660 and lots of bad data.  
NOTE Confidence: 0.6583594  
00:19:59.660 --> 00:20:01.879 And not all of which has been  
NOTE Confidence: 0.6583594  
00:20:01.879 --> 00:20:04.322 cleaned up yet since we took that  
NOTE Confidence: 0.6583594  
00:20:04.322 --> 00:20:06.810 ability away a couple of years ago.  
NOTE Confidence: 0.6583594  
00:20:06.810 --> 00:20:09.510 Umm, and I'll get to teams in a minute.  
NOTE Confidence: 0.6583594  
00:20:09.510 --> 00:20:11.050 You can still create teams,  
NOTE Confidence: 0.6583594  
00:20:11.050 --> 00:20:13.726 but we're not quite there yet.  
NOTE Confidence: 0.6583594  
00:20:13.730 --> 00:20:16.390 So you might be seeing some organizations  
NOTE Confidence: 0.6583594  
00:20:16.390 --> 00:20:19.182 that are just outdated or were created  
NOTE Confidence: 0.6583594  
00:20:19.182 --> 00:20:21.546 simply to show some really small  
NOTE Confidence: 0.6583594  
00:20:21.620 --> 00:20:24.245 custom group of people on the website.  
NOTE Confidence: 0.6583594  
00:20:24.250 --> 00:20:26.008 But it's not really an organization  
NOTE Confidence: 0.6583594  
00:20:26.008 --> 00:20:26.887 at the school,  
NOTE Confidence: 0.6583594  
00:20:26.890 --> 00:20:30.730 and it should probably be a team instead.  
NOTE Confidence: 0.6583594  
00:20:30.730 --> 00:20:32.530 I think I should probably get to this  
NOTE Confidence: 0.6583594  
00:20:32.530 --> 00:20:34.601 teams soon because those are going to be

NOTE Confidence: 0.6583594

00:20:34.601 --> 00:20:36.360 really relevant to helping clear this up,

NOTE Confidence: 0.6583594

00:20:36.360 --> 00:20:37.940 I think for you,

NOTE Confidence: 0.6583594

00:20:37.940 --> 00:20:40.310 but just keep in mind that.

NOTE Confidence: 0.6583594

00:20:40.310 --> 00:20:42.928 There are, there are some serious cleanup

NOTE Confidence: 0.6583594

00:20:42.928 --> 00:20:45.461 work that needs to be done at some

NOTE Confidence: 0.6583594

00:20:45.461 --> 00:20:47.790 point to some of these organizations.

NOTE Confidence: 0.6583594

00:20:47.790 --> 00:20:50.046 I see Krista nodding her head because we

NOTE Confidence: 0.6583594

00:20:50.046 --> 00:20:52.360 have helped her quite a bit already, I think.

NOTE Confidence: 0.6583594

00:20:52.360 --> 00:20:54.110 I think we still have more work to go,

NOTE Confidence: 0.6583594

00:20:54.110 --> 00:20:56.910 but we've done some work to try to clean up

NOTE Confidence: 0.6583594

00:20:56.977 --> 00:20:59.905 the CHILD Study Center organizations already.

NOTE Confidence: 0.6583594

00:20:59.910 --> 00:21:01.662 But there there can be a lot of

NOTE Confidence: 0.6583594

00:21:01.662 --> 00:21:03.352 bad data in here very honestly

NOTE Confidence: 0.6583594

00:21:03.352 --> 00:21:04.842 before we lock things down.

NOTE Confidence: 0.6583594

00:21:04.850 --> 00:21:05.770 And we definitely have not

NOTE Confidence: 0.6583594

00:21:05.770 --> 00:21:06.690 cleaned it all up yet.

NOTE Confidence: 0.6583594

00:21:06.690 --> 00:21:07.852 So that might be some of the

NOTE Confidence: 0.6583594

00:21:07.852 --> 00:21:08.819 confusion that you're seeing there.

NOTE Confidence: 0.8804800308

00:21:11.300 --> 00:21:13.724 Umm. All right, let me just get back

NOTE Confidence: 0.8804800308

00:21:13.724 --> 00:21:15.120 to internal medicine membership

NOTE Confidence: 0.8804800308

00:21:15.120 --> 00:21:17.640 really quick so I can talk about

NOTE Confidence: 0.8804800308

00:21:17.640 --> 00:21:19.649 some of the other things here.

NOTE Confidence: 0.8804800308

00:21:19.650 --> 00:21:20.875 A lot of it is the same,

NOTE Confidence: 0.8804800308

00:21:20.880 --> 00:21:22.855 but Umm, so this organization

NOTE Confidence: 0.8804800308

00:21:22.855 --> 00:21:24.830 is imported from work day.

NOTE Confidence: 0.8804800308

00:21:24.830 --> 00:21:28.007 I cannot add or remove people from this org.

NOTE Confidence: 0.8804800308

00:21:28.010 --> 00:21:29.816 If I don't want someone to display

NOTE Confidence: 0.8804800308

00:21:29.816 --> 00:21:31.670 on the website, I just turn them off.

NOTE Confidence: 0.8804800308

00:21:31.670 --> 00:21:32.762 It's that simple.

NOTE Confidence: 0.8804800308

00:21:32.762 --> 00:21:35.770 We don't want to remove them according to HR.

NOTE Confidence: 0.8804800308

00:21:35.770 --> 00:21:37.198 I mean, if if you see someone

NOTE Confidence: 0.8804800308  
00:21:37.198 --> 00:21:38.625 who you know is not actually  
NOTE Confidence: 0.8804800308  
00:21:38.625 --> 00:21:40.149 part of the department in here,  
NOTE Confidence: 0.8804800308  
00:21:40.150 --> 00:21:41.476 it means HR data is wrong.  
NOTE Confidence: 0.8804800308  
00:21:41.480 --> 00:21:42.644 You might want to do something  
NOTE Confidence: 0.8804800308  
00:21:42.644 --> 00:21:43.226 to address that.  
NOTE Confidence: 0.8804800308  
00:21:43.230 --> 00:21:43.733 But.  
NOTE Confidence: 0.8804800308  
00:21:43.733 --> 00:21:46.751 In terms of making sure the  
NOTE Confidence: 0.8804800308  
00:21:46.751 --> 00:21:48.260 website displays correct,  
NOTE Confidence: 0.8804800308  
00:21:48.260 --> 00:21:50.000 just make sure anyone who  
NOTE Confidence: 0.8804800308  
00:21:50.000 --> 00:21:51.740 shouldn't appear on this website  
NOTE Confidence: 0.8804800308  
00:21:51.800 --> 00:21:53.774 on your website is turned off or  
NOTE Confidence: 0.8804800308  
00:21:53.774 --> 00:21:55.700 display on the academic website.  
NOTE Confidence: 0.8804800308  
00:21:55.700 --> 00:21:58.172 You will also see this toggle  
NOTE Confidence: 0.8804800308  
00:21:58.172 --> 00:22:00.376 for Yale Medicine on certain  
NOTE Confidence: 0.8804800308  
00:22:00.376 --> 00:22:02.791 departments that also appear on  
NOTE Confidence: 0.8804800308

00:22:02.791 --> 00:22:04.930 the clinical practice website.  
NOTE Confidence: 0.8804800308

00:22:04.930 --> 00:22:07.370 Um.  
NOTE Confidence: 0.8804800308

00:22:07.370 --> 00:22:08.595 When we first launched the  
NOTE Confidence: 0.8804800308

00:22:08.595 --> 00:22:09.330 Yale Medicine website,  
NOTE Confidence: 0.8804800308

00:22:09.330 --> 00:22:11.026 we did not think this would be necessary.  
NOTE Confidence: 0.8804800308

00:22:11.030 --> 00:22:13.326 But it turns out that it is very  
NOTE Confidence: 0.8804800308

00:22:13.326 --> 00:22:15.293 necessary because everybody that it's  
NOTE Confidence: 0.8804800308

00:22:15.293 --> 00:22:17.065 associated with internal medicine,  
NOTE Confidence: 0.8804800308

00:22:17.070 --> 00:22:19.794 even if they see patients doesn't  
NOTE Confidence: 0.8804800308

00:22:19.794 --> 00:22:21.610 necessarily see patients in  
NOTE Confidence: 0.8804800308

00:22:21.692 --> 00:22:24.426 the capacity of an intern as in  
NOTE Confidence: 0.8804800308

00:22:24.426 --> 00:22:26.446 their capacity as an internist.  
NOTE Confidence: 0.8804800308

00:22:26.450 --> 00:22:29.732 So there is a separate toggle  
NOTE Confidence: 0.8804800308

00:22:29.732 --> 00:22:31.920 specifically for showing determining  
NOTE Confidence: 0.8804800308

00:22:32.003 --> 00:22:34.726 who will we're not will not display  
NOTE Confidence: 0.8804800308

00:22:34.726 --> 00:22:37.389 on the Yale Medicine website.

NOTE Confidence: 0.8804800308  
00:22:37.390 --> 00:22:41.176 Umm. That is the style here.  
NOTE Confidence: 0.8804800308  
00:22:41.180 --> 00:22:41.685 Umm,  
NOTE Confidence: 0.8804800308  
00:22:41.685 --> 00:22:45.220 so you can control who will actually  
NOTE Confidence: 0.8804800308  
00:22:45.220 --> 00:22:47.702 display on Yale, on Yale Medicine.  
NOTE Confidence: 0.8804800308  
00:22:47.702 --> 00:22:49.760 And I'll just show you an example  
NOTE Confidence: 0.8804800308  
00:22:49.819 --> 00:22:51.314 really quickly of what I'm  
NOTE Confidence: 0.8804800308  
00:22:51.314 --> 00:22:53.244 talking about in terms of where  
NOTE Confidence: 0.8804800308  
00:22:53.244 --> 00:22:54.720 this person would display.  
NOTE Confidence: 0.8804800308  
00:22:54.720 --> 00:22:57.079 So I was looking at internal medicine.  
NOTE Confidence: 0.8804800308  
00:22:57.080 --> 00:22:59.600 I'm in the internal Medicine Department page.  
NOTE Confidence: 0.8804800308  
00:22:59.600 --> 00:23:01.496 When I click see all specialists,  
NOTE Confidence: 0.8804800308  
00:23:01.500 --> 00:23:03.604 I get this list.  
NOTE Confidence: 0.8804800308  
00:23:03.604 --> 00:23:06.630 This is everyone from this internal  
NOTE Confidence: 0.8804800308  
00:23:06.630 --> 00:23:09.360 medicine organization that is set to display.  
NOTE Confidence: 0.8804800308  
00:23:09.360 --> 00:23:11.460 And your medicine?  
NOTE Confidence: 0.8804800308

00:23:11.460 --> 00:23:14.988 That's what that second time was about.

NOTE Confidence: 0.8804800308

00:23:14.990 --> 00:23:15.333 Um,

NOTE Confidence: 0.8804800308

00:23:15.333 --> 00:23:18.077 and I should say this is not specific

NOTE Confidence: 0.8804800308

00:23:18.077 --> 00:23:21.149 to imported versus not imported orgs.

NOTE Confidence: 0.8804800308

00:23:21.150 --> 00:23:23.700 This is just organizations that are

NOTE Confidence: 0.8804800308

00:23:23.700 --> 00:23:26.688 part of the clinical practice or not.

NOTE Confidence: 0.8804800308

00:23:26.690 --> 00:23:28.570 If it if they are,

NOTE Confidence: 0.8804800308

00:23:28.570 --> 00:23:30.760 you will see this toggle whether

NOTE Confidence: 0.8804800308

00:23:30.760 --> 00:23:33.072 or whether or not it's not

NOTE Confidence: 0.8804800308

00:23:33.072 --> 00:23:34.628 imported from work day.

NOTE Confidence: 0.8804800308

00:23:34.630 --> 00:23:36.295 Just another thing that's different

NOTE Confidence: 0.8804800308

00:23:36.295 --> 00:23:37.627 from the previous organization

NOTE Confidence: 0.8804800308

00:23:37.627 --> 00:23:38.790 we were looking at.

NOTE Confidence: 0.8804800308

00:23:38.790 --> 00:23:39.254 Umm,

NOTE Confidence: 0.8804800308

00:23:39.254 --> 00:23:41.574 the other thing about imported

NOTE Confidence: 0.8804800308

00:23:41.574 --> 00:23:43.430 organizations is this appointments

NOTE Confidence: 0.8804800308  
00:23:43.506 --> 00:23:45.761 column will actually have meaning  
NOTE Confidence: 0.8804800308  
00:23:45.761 --> 00:23:48.016 because the appointments that were  
NOTE Confidence: 0.8804800308  
00:23:48.088 --> 00:23:50.318 importing are all for departments  
NOTE Confidence: 0.8804800308  
00:23:50.318 --> 00:23:51.210 and sections.  
NOTE Confidence: 0.8804800308  
00:23:51.210 --> 00:23:54.927 You're going to see if somebody is  
NOTE Confidence: 0.8804800308  
00:23:54.930 --> 00:23:59.025 a primary or secondary or fully joint,  
NOTE Confidence: 0.8804800308  
00:23:59.030 --> 00:24:00.493 or the other one that sounds like  
NOTE Confidence: 0.8804800308  
00:24:00.493 --> 00:24:01.865 fully joint but is apparently  
NOTE Confidence: 0.8804800308  
00:24:01.865 --> 00:24:02.567 slightly different.  
NOTE Confidence: 0.8804800308  
00:24:02.570 --> 00:24:04.418 But I can't remember at the top  
NOTE Confidence: 0.8804800308  
00:24:04.418 --> 00:24:05.868 of my head whatever appointment  
NOTE Confidence: 0.8804800308  
00:24:05.868 --> 00:24:07.513 status they have to this  
NOTE Confidence: 0.8804800308  
00:24:07.513 --> 00:24:08.730 organizational display there too.  
NOTE Confidence: 0.13580543  
00:24:10.790 --> 00:24:14.592 Um. Any other questions  
NOTE Confidence: 0.13580543  
00:24:14.592 --> 00:24:16.776 before I move on to teams?  
NOTE Confidence: 0.902861825

00:24:21.500 --> 00:24:25.048 OK. So like I was saying  
NOTE Confidence: 0.902861825

00:24:25.048 --> 00:24:26.033 a couple of minutes ago,  
NOTE Confidence: 0.902861825

00:24:26.040 --> 00:24:28.455 we used to let anyone create orgs.  
NOTE Confidence: 0.902861825

00:24:28.460 --> 00:24:30.516 It resulted in lots of bad data because  
NOTE Confidence: 0.902861825

00:24:30.516 --> 00:24:32.621 we were creating lots of organizations  
NOTE Confidence: 0.902861825

00:24:32.621 --> 00:24:34.536 that are not really departments,  
NOTE Confidence: 0.902861825

00:24:34.540 --> 00:24:36.772 programs, section centers, labs or any  
NOTE Confidence: 0.902861825

00:24:36.772 --> 00:24:38.980 kind of organization at the school.  
NOTE Confidence: 0.902861825

00:24:38.980 --> 00:24:41.012 It's simply a group of people we want  
NOTE Confidence: 0.902861825

00:24:41.012 --> 00:24:42.900 to display on the website somewhere.  
NOTE Confidence: 0.902861825

00:24:42.900 --> 00:24:45.898 So we made an organization that.  
NOTE Confidence: 0.902861825

00:24:45.898 --> 00:24:49.388 Would let us do that.  
NOTE Confidence: 0.902861825

00:24:49.390 --> 00:24:53.485 The problem is that once we start doing that,  
NOTE Confidence: 0.902861825

00:24:53.490 --> 00:24:55.610 it means that our hierarchy,  
NOTE Confidence: 0.902861825

00:24:55.610 --> 00:24:57.105 like this sub organizations page  
NOTE Confidence: 0.902861825

00:24:57.105 --> 00:24:59.310 I was looking at a minute ago,

NOTE Confidence: 0.902861825  
00:24:59.310 --> 00:25:03.648 no longer reflects the real programs  
NOTE Confidence: 0.902861825  
00:25:03.650 --> 00:25:05.673 in sections that are part of this  
NOTE Confidence: 0.902861825  
00:25:05.673 --> 00:25:07.270 department or whatever organization.  
NOTE Confidence: 0.902861825  
00:25:07.270 --> 00:25:09.041 I'm looking at the solution to this  
NOTE Confidence: 0.902861825  
00:25:09.041 --> 00:25:10.950 problem so that we can still create  
NOTE Confidence: 0.902861825  
00:25:10.950 --> 00:25:14.510 those custom groups of people, our teams.  
NOTE Confidence: 0.902861825  
00:25:14.510 --> 00:25:18.430 If you used the profile system extensively,  
NOTE Confidence: 0.902861825  
00:25:18.430 --> 00:25:19.786 these are the exact same thing.  
NOTE Confidence: 0.902861825  
00:25:19.790 --> 00:25:20.963 As display groups,  
NOTE Confidence: 0.902861825  
00:25:20.963 --> 00:25:22.918 just rename them to teams.  
NOTE Confidence: 0.902861825  
00:25:22.920 --> 00:25:27.429 Little bit easier to say and it's not as.  
NOTE Confidence: 0.902861825  
00:25:27.430 --> 00:25:28.830 Yeah, it's just a little easier to  
NOTE Confidence: 0.902861825  
00:25:28.830 --> 00:25:30.171 say than display groups is basically  
NOTE Confidence: 0.902861825  
00:25:30.171 --> 00:25:31.326 the reason for that change.  
NOTE Confidence: 0.902861825  
00:25:31.330 --> 00:25:32.086 Sorry for you,  
NOTE Confidence: 0.902861825

00:25:32.086 --> 00:25:32.590 confused you,  
NOTE Confidence: 0.902861825

00:25:32.590 --> 00:25:34.018 but just think that if you're  
NOTE Confidence: 0.902861825

00:25:34.018 --> 00:25:35.350 used to using display groups,  
NOTE Confidence: 0.902861825

00:25:35.350 --> 00:25:37.515 they are now called teams and  
NOTE Confidence: 0.902861825

00:25:37.515 --> 00:25:40.065 you can see very clearly from.  
NOTE Confidence: 0.902861825

00:25:40.070 --> 00:25:42.450 The types of teams that are showing  
NOTE Confidence: 0.902861825

00:25:42.450 --> 00:25:44.730 up here that these were created for  
NOTE Confidence: 0.902861825

00:25:44.730 --> 00:25:46.010 displaying these specific subgroups  
NOTE Confidence: 0.902861825

00:25:46.010 --> 00:25:47.889 of people which have some meaning,  
NOTE Confidence: 0.902861825

00:25:47.890 --> 00:25:50.234 but really we're never going to use this  
NOTE Confidence: 0.902861825

00:25:50.234 --> 00:25:52.157 for anything other than the website.  
NOTE Confidence: 0.902861825

00:25:52.160 --> 00:25:54.776 We're probably not going to make a third  
NOTE Confidence: 0.902861825

00:25:54.776 --> 00:25:57.908 year and beyond Fellows calendar for example.  
NOTE Confidence: 0.902861825

00:25:57.910 --> 00:26:01.438 We just want to be able to display that  
NOTE Confidence: 0.902861825

00:26:01.438 --> 00:26:04.920 person on the website where they belong.  
NOTE Confidence: 0.902861825

00:26:04.920 --> 00:26:06.640 You actually have the ability.

NOTE Confidence: 0.902861825  
00:26:06.640 --> 00:26:08.550 If you are the administrator  
NOTE Confidence: 0.902861825  
00:26:08.550 --> 00:26:09.696 of an organization,  
NOTE Confidence: 0.902861825  
00:26:09.700 --> 00:26:11.716 you will have the ability to make a  
NOTE Confidence: 0.902861825  
00:26:11.716 --> 00:26:14.043 new team yourself at the bottom of the  
NOTE Confidence: 0.902861825  
00:26:14.043 --> 00:26:16.020 overview tab for your organization.  
NOTE Confidence: 0.902861825  
00:26:16.020 --> 00:26:17.434 So right now I'm in internal medicine.  
NOTE Confidence: 0.902861825  
00:26:17.440 --> 00:26:18.810 I'm on the overview tab,  
NOTE Confidence: 0.902861825  
00:26:18.810 --> 00:26:20.357 let's scroll all the way to the  
NOTE Confidence: 0.902861825  
00:26:20.357 --> 00:26:21.980 bottom I see this team section,  
NOTE Confidence: 0.902861825  
00:26:21.980 --> 00:26:24.276 and at the bottom of this table  
NOTE Confidence: 0.902861825  
00:26:24.276 --> 00:26:26.707 I can elect to add a new team.  
NOTE Confidence: 0.902861825  
00:26:26.710 --> 00:26:29.416 I put in my team title.  
NOTE Confidence: 0.902861825  
00:26:29.420 --> 00:26:30.608 I click add.  
NOTE Confidence: 0.902861825  
00:26:30.608 --> 00:26:33.380 And it should appear in this list.  
NOTE Confidence: 0.71312501125  
00:26:35.410 --> 00:26:36.316 There's Mark's team.  
NOTE Confidence: 0.71312501125

00:26:36.316 --> 00:26:37.826 I haven't added anybody yet.

NOTE Confidence: 0.71312501125

00:26:37.830 --> 00:26:39.526 It's already been assigned

NOTE Confidence: 0.71312501125

00:26:39.526 --> 00:26:40.798 in organization ID,

NOTE Confidence: 0.71312501125

00:26:40.800 --> 00:26:42.858 and I can go into this team,

NOTE Confidence: 0.71312501125

00:26:42.860 --> 00:26:44.547 start adding whoever I need to add.

NOTE Confidence: 0.71312501125

00:26:44.550 --> 00:26:46.647 We can even do leadership if we need it.

NOTE Confidence: 0.71312501125

00:26:46.650 --> 00:26:49.066 And then I can grab this organization ID,

NOTE Confidence: 0.71312501125

00:26:49.070 --> 00:26:52.373 send it over to why sound editor at yale.edu,

NOTE Confidence: 0.71312501125

00:26:52.380 --> 00:26:55.097 and ask them to put this list of people on a

NOTE Confidence: 0.71312501125

00:26:55.097 --> 00:26:57.569 page or a new page if we need some new page.

NOTE Confidence: 0.71312501125

00:26:57.570 --> 00:27:00.550 Umm. That's how that worked.

NOTE Confidence: 0.71312501125

00:27:00.550 --> 00:27:03.955 Ohh. And for teams this custom

NOTE Confidence: 0.71312501125

00:27:03.955 --> 00:27:06.423 BIOS toggles right here,

NOTE Confidence: 0.71312501125

00:27:06.430 --> 00:27:07.844 so if you'd like to use those,

NOTE Confidence: 0.71312501125

00:27:07.850 --> 00:27:10.146 you can just check off this option here.

NOTE Confidence: 0.828851754

00:27:12.330 --> 00:27:14.310 That's really it for teams.

NOTE Confidence: 0.828851754  
00:27:14.310 --> 00:27:16.790 Aside from having limited options,  
NOTE Confidence: 0.828851754  
00:27:16.790 --> 00:27:19.499 it really they really don't work any  
NOTE Confidence: 0.828851754  
00:27:19.499 --> 00:27:21.038 differently than organizations in  
NOTE Confidence: 0.828851754  
00:27:21.038 --> 00:27:22.964 terms of adding and removing people.  
NOTE Confidence: 0.828851754  
00:27:22.970 --> 00:27:24.734 Sorry Denise, can't type your name today.  
NOTE Confidence: 0.838478947272727  
00:27:27.850 --> 00:27:28.972 Umm, but yeah,  
NOTE Confidence: 0.838478947272727  
00:27:28.972 --> 00:27:31.930 you can just add people as you go.  
NOTE Confidence: 0.838478947272727  
00:27:31.930 --> 00:27:34.386 We do have this show hide toggle honestly,  
NOTE Confidence: 0.838478947272727  
00:27:34.390 --> 00:27:36.202 because teams are solely for the  
NOTE Confidence: 0.838478947272727  
00:27:36.202 --> 00:27:38.210 purpose of displaying people on the website.  
NOTE Confidence: 0.838478947272727  
00:27:38.210 --> 00:27:41.290 You might be better off just removing people,  
NOTE Confidence: 0.838478947272727  
00:27:41.290 --> 00:27:44.080 but you can show hide that instead if you  
NOTE Confidence: 0.838478947272727  
00:27:44.080 --> 00:27:46.629 think you might turn them back on for  
NOTE Confidence: 0.838478947272727  
00:27:46.629 --> 00:27:49.078 display at some time at a later point.  
NOTE Confidence: 0.596626313333333  
00:27:51.860 --> 00:27:55.190 That's it, fourteens.  
NOTE Confidence: 0.596626313333333

00:27:55.190 --> 00:27:57.230 Any questions about teams?

NOTE Confidence: 0.9639071

00:28:01.870 --> 00:28:07.750 OK. Um, as far as organization

NOTE Confidence: 0.9639071

00:28:07.750 --> 00:28:10.174 membership management goes?

NOTE Confidence: 0.9639071

00:28:10.180 --> 00:28:12.840 I think that's about it.

NOTE Confidence: 0.9639071

00:28:12.840 --> 00:28:15.666 This is a somewhat limited topic.

NOTE Confidence: 0.9639071

00:28:15.670 --> 00:28:21.816 Umm. But I'm just going through ohh.

NOTE Confidence: 0.894557168333333

00:28:28.410 --> 00:28:30.000 I guess if anyone has questions,

NOTE Confidence: 0.894557168333333

00:28:30.000 --> 00:28:34.190 now would be the time to ask. Umm.

NOTE Confidence: 0.873967464285714

00:28:36.960 --> 00:28:38.759 This may be a stupid question but.

NOTE Confidence: 0.801087175

00:28:41.560 --> 00:28:43.120 I'm I'm sort of still taking it

NOTE Confidence: 0.801087175

00:28:43.120 --> 00:28:44.672 all in and I think I need to play

NOTE Confidence: 0.801087175

00:28:44.672 --> 00:28:46.289 around a little bit with what I see.

NOTE Confidence: 0.801087175

00:28:46.290 --> 00:28:49.013 You know, in my dashboard view and

NOTE Confidence: 0.801087175

00:28:49.013 --> 00:28:51.094 what I have for organizations,

NOTE Confidence: 0.801087175

00:28:51.094 --> 00:28:54.293 I have a lot listed and then

NOTE Confidence: 0.801087175

00:28:54.293 --> 00:28:56.219 there are parent orgs,

NOTE Confidence: 0.801087175  
00:28:56.220 --> 00:28:57.718 most of which seem to be in,  
NOTE Confidence: 0.801087175  
00:28:57.720 --> 00:28:59.400 for example the CHILD Study Center parent,  
NOTE Confidence: 0.801087175  
00:28:59.400 --> 00:29:00.472 which would make sense.  
NOTE Confidence: 0.801087175  
00:29:00.472 --> 00:29:02.374 But then I've got other ones that  
NOTE Confidence: 0.801087175  
00:29:02.374 --> 00:29:04.310 I'm guessing are like sub orbs to the  
NOTE Confidence: 0.801087175  
00:29:04.310 --> 00:29:06.047 orgs that are within child study.  
NOTE Confidence: 0.842347992  
00:29:06.960 --> 00:29:08.336 Yeah. So if that's,  
NOTE Confidence: 0.842347992  
00:29:08.336 --> 00:29:10.400 if you're not sure about that,  
NOTE Confidence: 0.842347992  
00:29:10.400 --> 00:29:12.596 what I would check out is  
NOTE Confidence: 0.842347992  
00:29:12.596 --> 00:29:14.498 that sub organizations page we  
NOTE Confidence: 0.842347992  
00:29:14.498 --> 00:29:16.338 looked at really briefly for.  
NOTE Confidence: 0.842347992  
00:29:16.340 --> 00:29:19.636 This is going to blow up every group  
NOTE Confidence: 0.842347992  
00:29:19.636 --> 00:29:22.045 that is part of your department,  
NOTE Confidence: 0.842347992  
00:29:22.045 --> 00:29:23.870 assuming you're looking at an  
NOTE Confidence: 0.842347992  
00:29:23.870 --> 00:29:25.900 apartment level like we are here.  
NOTE Confidence: 0.842347992

00:29:25.900 --> 00:29:27.258 One thing we need to add here,  
NOTE Confidence: 0.842347992

00:29:27.260 --> 00:29:28.856 I I should mention a couple  
NOTE Confidence: 0.842347992

00:29:28.856 --> 00:29:30.230 improvements we're trying to make  
NOTE Confidence: 0.842347992

00:29:30.230 --> 00:29:31.778 here to make this less confusing.  
NOTE Confidence: 0.842347992

00:29:31.780 --> 00:29:32.884 Number one, it would be really  
NOTE Confidence: 0.842347992

00:29:32.884 --> 00:29:34.100 helpful if we could filter this.  
NOTE Confidence: 0.842347992

00:29:34.100 --> 00:29:34.528 For example,  
NOTE Confidence: 0.842347992

00:29:34.528 --> 00:29:36.530 I might not want to see any of these  
NOTE Confidence: 0.842347992

00:29:36.530 --> 00:29:38.168 teams because I just want to see  
NOTE Confidence: 0.842347992

00:29:38.168 --> 00:29:40.062 the real organizations, you know,  
NOTE Confidence: 0.842347992

00:29:40.062 --> 00:29:42.078 that are part of this department.  
NOTE Confidence: 0.842347992

00:29:42.080 --> 00:29:44.321 So we're going to add a way to filter  
NOTE Confidence: 0.842347992

00:29:44.321 --> 00:29:46.528 out certain types of organizations.  
NOTE Confidence: 0.842347992

00:29:46.530 --> 00:29:48.189 I think the most helpful would be  
NOTE Confidence: 0.842347992

00:29:48.189 --> 00:29:50.147 simply to hide all the teams so I can  
NOTE Confidence: 0.842347992

00:29:50.147 --> 00:29:51.939 just see what the real orgs are here

NOTE Confidence: 0.842347992  
00:29:51.939 --> 00:29:53.786 that will make this easier to digest.  
NOTE Confidence: 0.842347992  
00:29:53.786 --> 00:29:55.866 Another thing that will help.  
NOTE Confidence: 0.842347992  
00:29:55.870 --> 00:29:58.396 This will also help with the  
NOTE Confidence: 0.842347992  
00:29:58.396 --> 00:30:00.669 issue Sherry was mentioning before  
NOTE Confidence: 0.842347992  
00:30:00.669 --> 00:30:02.709 with not necessarily knowing  
NOTE Confidence: 0.842347992  
00:30:02.709 --> 00:30:04.749 where these orgs display.  
NOTE Confidence: 0.842347992  
00:30:04.750 --> 00:30:07.564 One bit of functionality that we added  
NOTE Confidence: 0.842347992  
00:30:07.564 --> 00:30:10.209 to profile system in the final month,  
NOTE Confidence: 0.842347992  
00:30:10.210 --> 00:30:12.410 in the final months of its run was  
NOTE Confidence: 0.842347992  
00:30:12.410 --> 00:30:14.250 a helpful table that would appear  
NOTE Confidence: 0.842347992  
00:30:14.250 --> 00:30:16.858 on this page and show you where on  
NOTE Confidence: 0.842347992  
00:30:16.858 --> 00:30:18.970 the site that organization was used.  
NOTE Confidence: 0.842347992  
00:30:18.970 --> 00:30:20.395 That piece of functionality just  
NOTE Confidence: 0.842347992  
00:30:20.395 --> 00:30:22.489 did not make it in for launch.  
NOTE Confidence: 0.842347992  
00:30:22.490 --> 00:30:24.464 We are going to reintroduce that  
NOTE Confidence: 0.842347992

00:30:24.464 --> 00:30:26.549 and it'll actually be even a  
NOTE Confidence: 0.842347992

00:30:26.549 --> 00:30:28.667 little better because it will also  
NOTE Confidence: 0.842347992

00:30:28.667 --> 00:30:30.050 include calendar usage now.  
NOTE Confidence: 0.842347992

00:30:30.050 --> 00:30:31.305 Which might not be relevant  
NOTE Confidence: 0.842347992

00:30:31.305 --> 00:30:32.309 when you're managing people,  
NOTE Confidence: 0.842347992

00:30:32.310 --> 00:30:34.848 but it'll just be helpful to know that you  
NOTE Confidence: 0.842347992

00:30:34.848 --> 00:30:37.440 can go here and see where the calendar  
NOTE Confidence: 0.842347992

00:30:37.440 --> 00:30:40.290 for this organization appears as well.  
NOTE Confidence: 0.842347992

00:30:40.290 --> 00:30:41.809 So we're going to add that back.  
NOTE Confidence: 0.842347992

00:30:41.810 --> 00:30:43.466 So there's a bit more of a connection  
NOTE Confidence: 0.842347992

00:30:43.466 --> 00:30:44.749 because at the end of the day,  
NOTE Confidence: 0.842347992

00:30:44.750 --> 00:30:46.205 Beatrix is really convenient for  
NOTE Confidence: 0.842347992

00:30:46.205 --> 00:30:48.110 making updates to the site quickly.  
NOTE Confidence: 0.842347992

00:30:48.110 --> 00:30:50.228 But Beatrix is right now essentially  
NOTE Confidence: 0.842347992

00:30:50.228 --> 00:30:52.102 totally separate from the website  
NOTE Confidence: 0.842347992

00:30:52.102 --> 00:30:53.299 that we're managing,

NOTE Confidence: 0.842347992  
00:30:53.300 --> 00:30:53.667 right.  
NOTE Confidence: 0.842347992  
00:30:53.667 --> 00:30:55.869 So we're trying to make more  
NOTE Confidence: 0.842347992  
00:30:55.869 --> 00:30:58.238 connections here so that it's clearer.  
NOTE Confidence: 0.842347992  
00:30:58.240 --> 00:31:00.893 What is gonna happen when I make  
NOTE Confidence: 0.842347992  
00:31:00.893 --> 00:31:02.968 updates in Beatrix without having  
NOTE Confidence: 0.842347992  
00:31:02.968 --> 00:31:05.554 to know exactly where these things  
NOTE Confidence: 0.842347992  
00:31:05.554 --> 00:31:08.495 are used on the site before I go in?  
NOTE Confidence: 0.842347992  
00:31:08.500 --> 00:31:08.952 And yes,  
NOTE Confidence: 0.842347992  
00:31:08.952 --> 00:31:10.534 we are going to add some options  
NOTE Confidence: 0.842347992  
00:31:10.534 --> 00:31:11.959 here to help filter this and  
NOTE Confidence: 0.842347992  
00:31:11.959 --> 00:31:13.559 make it a little easier to view.  
NOTE Confidence: 0.842347992  
00:31:13.560 --> 00:31:16.260 But basically when you're seeing  
NOTE Confidence: 0.842347992  
00:31:16.260 --> 00:31:18.276 an organization that you manage  
NOTE Confidence: 0.842347992  
00:31:18.276 --> 00:31:20.972 that has a parent org that is not  
NOTE Confidence: 0.842347992  
00:31:20.972 --> 00:31:23.167 the CHILD Study Center Department.  
NOTE Confidence: 0.842347992

00:31:23.170 --> 00:31:25.330 That means that it's going to be an org.  
NOTE Confidence: 0.842347992

00:31:25.330 --> 00:31:26.500 I'm just looking for an example.  
NOTE Confidence: 0.842347992

00:31:26.500 --> 00:31:29.636 It looks like there aren't that many.  
NOTE Confidence: 0.842347992

00:31:29.640 --> 00:31:32.862 Like the School of the 21st Century  
NOTE Confidence: 0.842347992

00:31:32.862 --> 00:31:34.838 is a child of the Zigler Center,  
NOTE Confidence: 0.842347992

00:31:34.840 --> 00:31:36.100 which is in itself child,  
NOTE Confidence: 0.842347992

00:31:36.100 --> 00:31:37.280 the Child Study Center.  
NOTE Confidence: 0.842347992

00:31:37.280 --> 00:31:39.880 So if I go to this school of  
NOTE Confidence: 0.842347992

00:31:39.880 --> 00:31:41.017 the 21st century,  
NOTE Confidence: 0.842347992

00:31:41.020 --> 00:31:42.476 I can also click any of these to  
NOTE Confidence: 0.842347992

00:31:42.476 --> 00:31:44.048 go to manage the organization,  
NOTE Confidence: 0.842347992

00:31:44.050 --> 00:31:44.959 which is handy.  
NOTE Confidence: 0.842347992

00:31:44.959 --> 00:31:47.080 So I go to school the 21st  
NOTE Confidence: 0.860041794545454

00:31:47.161 --> 00:31:48.876 century, then I see, OK,  
NOTE Confidence: 0.860041794545454

00:31:48.876 --> 00:31:50.296 we've got this other organization  
NOTE Confidence: 0.860041794545454

00:31:50.296 --> 00:31:51.896 that is apparent of this one,

NOTE Confidence: 0.860041794545454  
00:31:51.900 --> 00:31:53.286 and that is the child of  
NOTE Confidence: 0.860041794545454  
00:31:53.286 --> 00:31:54.310 the child study. Sorry.  
NOTE Confidence: 0.881883627777778  
00:31:55.700 --> 00:31:57.536 OK. And that one does make sense to me.  
NOTE Confidence: 0.881883627777778  
00:31:57.540 --> 00:31:59.186 I think that's similar to  
NOTE Confidence: 0.881883627777778  
00:31:59.186 --> 00:32:00.518 what Sherry said in the chat.  
NOTE Confidence: 0.881883627777778  
00:32:00.520 --> 00:32:01.378 Part of it is I don't  
NOTE Confidence: 0.881883627777778  
00:32:01.378 --> 00:32:02.180 know what I don't know.  
NOTE Confidence: 0.881883627777778  
00:32:02.180 --> 00:32:04.000 So I I feel that.  
NOTE Confidence: 0.881883627777778  
00:32:04.000 --> 00:32:05.254 And I do think playing around  
NOTE Confidence: 0.881883627777778  
00:32:05.254 --> 00:32:06.491 with it and trying to figure  
NOTE Confidence: 0.881883627777778  
00:32:06.491 --> 00:32:07.737 out how it what does map to  
NOTE Confidence: 0.881883627777778  
00:32:07.737 --> 00:32:09.008 the website and what doesn't  
NOTE Confidence: 0.823352138  
00:32:09.020 --> 00:32:10.127 will be helpful.  
NOTE Confidence: 0.823352138  
00:32:10.127 --> 00:32:11.603 It's definitely overwhelming if  
NOTE Confidence: 0.823352138  
00:32:11.603 --> 00:32:13.184 you're not already intimately  
NOTE Confidence: 0.823352138

00:32:13.184 --> 00:32:14.856 familiar with your website,  
NOTE Confidence: 0.823352138

00:32:14.860 --> 00:32:16.948 which I don't think many of us are,  
NOTE Confidence: 0.823352138

00:32:16.950 --> 00:32:17.619 to be honest.  
NOTE Confidence: 0.823352138

00:32:17.619 --> 00:32:18.734 It's just there's a lot  
NOTE Confidence: 0.823352138

00:32:18.734 --> 00:32:19.928 of content on our website,  
NOTE Confidence: 0.823352138

00:32:19.930 --> 00:32:22.240 so it's hard to know, right?  
NOTE Confidence: 0.800526621666667

00:32:22.250 --> 00:32:23.180 And that's the thing when we  
NOTE Confidence: 0.800526621666667

00:32:23.180 --> 00:32:24.260 get into some of these teams,  
NOTE Confidence: 0.800526621666667

00:32:24.260 --> 00:32:26.164 I don't know what's accurate and what.  
NOTE Confidence: 0.800526621666667

00:32:26.170 --> 00:32:27.700 But you know overtime hopefully  
NOTE Confidence: 0.800526621666667

00:32:27.700 --> 00:32:29.230 we'll get those things cleaned.  
NOTE Confidence: 0.842470427619048

00:32:29.240 --> 00:32:32.082 Yeah we'll we'll work on this where  
NOTE Confidence: 0.842470427619048

00:32:32.082 --> 00:32:34.002 used functionality so that that's  
NOTE Confidence: 0.842470427619048

00:32:34.002 --> 00:32:36.870 not as much of a mystery for you all.  
NOTE Confidence: 0.842470427619048

00:32:36.870 --> 00:32:39.138 I understand it was really helpful as  
NOTE Confidence: 0.842470427619048

00:32:39.138 --> 00:32:41.546 disappointed we weren't able to fit it in for

NOTE Confidence: 0.842470427619048  
00:32:41.546 --> 00:32:43.739 launch because I know I used it all the time.  
NOTE Confidence: 0.842470427619048  
00:32:43.740 --> 00:32:46.980 I'm looking forward to having it back too. As  
NOTE Confidence: 0.821008025454546  
00:32:46.990 --> 00:32:49.348 we work on, um, future iterations  
NOTE Confidence: 0.821008025454546  
00:32:49.348 --> 00:32:51.590 of the websites and changes,  
NOTE Confidence: 0.821008025454546  
00:32:51.590 --> 00:32:53.624 there will be a much tighter  
NOTE Confidence: 0.821008025454546  
00:32:53.624 --> 00:32:55.335 connection between Beatrix and the  
NOTE Confidence: 0.821008025454546  
00:32:55.335 --> 00:32:57.093 information and and the websites and  
NOTE Confidence: 0.821008025454546  
00:32:57.093 --> 00:32:59.530 it will be a much clearer connection.  
NOTE Confidence: 0.821008025454546  
00:32:59.530 --> 00:33:02.130 So that's. I know it's a future state,  
NOTE Confidence: 0.821008025454546  
00:33:02.130 --> 00:33:04.068 but but that's where we're headed  
NOTE Confidence: 0.821008025454546  
00:33:04.068 --> 00:33:06.220 and in the meantime they're used.  
NOTE Confidence: 0.821008025454546  
00:33:06.220 --> 00:33:07.870 Should make a big difference.  
NOTE Confidence: 0.871717866  
00:33:08.840 --> 00:33:09.875 You got to start somewhere  
NOTE Confidence: 0.871717866  
00:33:09.875 --> 00:33:10.910 and it's a great start.  
NOTE Confidence: 0.900484145  
00:33:14.440 --> 00:33:15.830 Other questions?  
NOTE Confidence: 0.18299672

00:33:20.710 --> 00:33:23.820 Umm. Communications folks,  
NOTE Confidence: 0.18299672

00:33:23.820 --> 00:33:25.290 am I missing anything that I  
NOTE Confidence: 0.18299672

00:33:25.290 --> 00:33:26.689 said I should address here?  
NOTE Confidence: 0.18299672

00:33:26.690 --> 00:33:28.160 If if I'm not, I guess we  
NOTE Confidence: 0.18299672

00:33:28.160 --> 00:33:29.629 could just end a little early,  
NOTE Confidence: 0.18299672

00:33:29.630 --> 00:33:31.475 but I want to make sure we answer any  
NOTE Confidence: 0.18299672

00:33:31.475 --> 00:33:32.996 questions people might have about this.  
NOTE Confidence: 0.86997661

00:33:34.590 --> 00:33:38.685 Hi, this is Susan from comparative medicine.  
NOTE Confidence: 0.86997661

00:33:38.690 --> 00:33:41.050 Hi, I'm So what about news?  
NOTE Confidence: 0.86997661

00:33:41.050 --> 00:33:42.590 I sent something to you  
NOTE Confidence: 0.86997661

00:33:42.590 --> 00:33:44.560 guys trying to put a news.  
NOTE Confidence: 0.86997661

00:33:44.560 --> 00:33:46.639 Piece on my site and you said to try  
NOTE Confidence: 0.86997661

00:33:46.639 --> 00:33:48.715 it in Beatrix and I have no idea.  
NOTE Confidence: 0.86997661

00:33:48.720 --> 00:33:51.536 So I know we just talked about people,  
NOTE Confidence: 0.86997661

00:33:51.540 --> 00:33:54.207 but what about news events I mean.  
NOTE Confidence: 0.79833537875

00:33:56.600 --> 00:33:58.840 Do you have anymore upcoming

NOTE Confidence: 0.79833537875  
00:33:58.840 --> 00:34:00.560 sessions about news? I  
NOTE Confidence: 0.88908129125  
00:34:00.690 --> 00:34:03.426 we do. We have another session in January,  
NOTE Confidence: 0.88908129125  
00:34:03.430 --> 00:34:06.350 but Susan, uh, the team can pop in the chat,  
NOTE Confidence: 0.88908129125  
00:34:06.350 --> 00:34:08.926 the video session that we did on news  
NOTE Confidence: 0.88908129125  
00:34:08.926 --> 00:34:11.878 and that should help walk you through it.  
NOTE Confidence: 0.734136410666667  
00:34:12.010 --> 00:34:13.922 Yeah, we do have a recording available and  
NOTE Confidence: 0.734136410666667  
00:34:13.922 --> 00:34:16.009 if you have a really specific question,  
NOTE Confidence: 0.734136410666667  
00:34:16.010 --> 00:34:18.285 if you haven't already, I would just.  
NOTE Confidence: 0.734136410666667  
00:34:18.290 --> 00:34:19.526 Make a ticket with the services  
NOTE Confidence: 0.734136410666667  
00:34:19.526 --> 00:34:20.770 team and they can help you.  
NOTE Confidence: 0.734136410666667  
00:34:20.770 --> 00:34:22.282 They should be able to send you  
NOTE Confidence: 0.734136410666667  
00:34:22.282 --> 00:34:24.056 some both the recording and I think  
NOTE Confidence: 0.734136410666667  
00:34:24.056 --> 00:34:25.670 we have step by step instructions.  
NOTE Confidence: 0.734136410666667  
00:34:25.670 --> 00:34:26.738 There might be a little bit.  
NOTE Confidence: 0.8624146  
00:34:28.830 --> 00:34:30.430 Yeah, OK. We definitely have  
NOTE Confidence: 0.8624146

00:34:30.430 --> 00:34:32.144 step by step instructions, um,

NOTE Confidence: 0.8624146

00:34:32.144 --> 00:34:34.748 they may not yet be updated

NOTE Confidence: 0.8624146

00:34:34.748 --> 00:34:36.050 specifically for Beatrix.

NOTE Confidence: 0.8624146

00:34:36.050 --> 00:34:37.870 They might still reflect the

NOTE Confidence: 0.8624146

00:34:37.870 --> 00:34:39.326 profile system user interface,

NOTE Confidence: 0.8624146

00:34:39.330 --> 00:34:40.395 but it's they're really quite

NOTE Confidence: 0.8624146

00:34:40.395 --> 00:34:41.910 similar and if you have questions,

NOTE Confidence: 0.8624146

00:34:41.910 --> 00:34:42.888 you can just let us know,

NOTE Confidence: 0.8624146

00:34:42.890 --> 00:34:44.416 we'll put you in the right direction.

NOTE Confidence: 0.841789342857143

00:34:45.250 --> 00:34:48.967 OK, also on for like for example,

NOTE Confidence: 0.841789342857143

00:34:48.970 --> 00:34:52.396 Doctor Prendergast is in our department,

NOTE Confidence: 0.841789342857143

00:34:52.400 --> 00:34:54.200 but I don't see him because

NOTE Confidence: 0.841789342857143

00:34:54.200 --> 00:34:56.942 I'm on my I'm not in Beatrix

NOTE Confidence: 0.841789342857143

00:34:56.942 --> 00:34:58.406 and comparative medicine.

NOTE Confidence: 0.841789342857143

00:34:58.410 --> 00:35:01.120 And if I'm under orgs?

NOTE Confidence: 0.841789342857143

00:35:01.120 --> 00:35:04.414 I mean, I don't see where he would be.

NOTE Confidence: 0.841789342857143  
00:35:04.420 --> 00:35:06.169 Under which heading?  
NOTE Confidence: 0.841789342857143  
00:35:06.169 --> 00:35:09.084 For lack of better understanding  
NOTE Confidence: 0.73072878  
00:35:10.000 --> 00:35:12.040 so I'm looking in the main  
NOTE Confidence: 0.73072878  
00:35:12.040 --> 00:35:14.380 in the comp Med department.  
NOTE Confidence: 0.73072878  
00:35:14.380 --> 00:35:16.347 I sorry I should have mentioned this.  
NOTE Confidence: 0.73072878  
00:35:16.350 --> 00:35:18.310 There is this nice little text  
NOTE Confidence: 0.73072878  
00:35:18.310 --> 00:35:20.060 field so I can filter by name.  
NOTE Confidence: 0.73072878  
00:35:20.060 --> 00:35:22.660 So he's not set to display on the  
NOTE Confidence: 0.73072878  
00:35:22.660 --> 00:35:24.870 website if he should be appearing  
NOTE Confidence: 0.73072878  
00:35:24.870 --> 00:35:26.800 on the comparative medicine site.  
NOTE Confidence: 0.73072878  
00:35:26.800 --> 00:35:30.139 And you know what this I should check.  
NOTE Confidence: 0.73072878  
00:35:30.140 --> 00:35:31.925 Production this new might not  
NOTE Confidence: 0.73072878  
00:35:31.925 --> 00:35:33.353 accurately reflect the data.  
NOTE Confidence: 0.73072878  
00:35:33.360 --> 00:35:33.910 In production,  
NOTE Confidence: 0.73072878  
00:35:33.910 --> 00:35:35.560 I'm looking at our testing environment.  
NOTE Confidence: 0.73072878

00:35:35.560 --> 00:35:38.314 But if you're seeing the same thing I am,  
NOTE Confidence: 0.73072878

00:35:38.320 --> 00:35:40.260 which is that he's turned,  
NOTE Confidence: 0.73072878

00:35:40.260 --> 00:35:42.460 he's not set to display on this site.  
NOTE Confidence: 0.73072878

00:35:42.460 --> 00:35:42.870 So I'm  
NOTE Confidence: 0.8351989666666667

00:35:42.880 --> 00:35:45.029 not saying that I when I look  
NOTE Confidence: 0.8351989666666667

00:35:45.029 --> 00:35:47.143 him up and I see his name  
NOTE Confidence: 0.8351989666666667

00:35:47.143 --> 00:35:48.700 and you have his title there,  
NOTE Confidence: 0.8351989666666667

00:35:48.700 --> 00:35:50.270 but my I'm under people.  
NOTE Confidence: 0.8351989666666667

00:35:50.270 --> 00:35:51.200 Am I supposed to be under.  
NOTE Confidence: 0.8351989666666667

00:35:51.200 --> 00:35:53.540 Oh, let me go to organizations. Yeah,  
NOTE Confidence: 0.787357837272727

00:35:53.550 --> 00:35:55.788 you're only going to see information  
NOTE Confidence: 0.787357837272727

00:35:55.788 --> 00:35:58.380 about his profile in people. So  
NOTE Confidence: 0.923916564

00:35:58.770 --> 00:36:00.000 when I look him up.  
NOTE Confidence: 0.793551181428571

00:36:02.610 --> 00:36:03.993 That's under organizations.  
NOTE Confidence: 0.793551181428571

00:36:03.993 --> 00:36:05.837 I type in Prendergast.  
NOTE Confidence: 0.4636035

00:36:08.210 --> 00:36:09.738 You'd have to visit your

NOTE Confidence: 0.4636035  
00:36:09.738 --> 00:36:11.450 original entries to display.  
NOTE Confidence: 0.7471181  
00:36:14.320 --> 00:36:15.860 Right, because there's no  
NOTE Confidence: 0.7471181  
00:36:15.860 --> 00:36:17.015 organization named Prendergast.  
NOTE Confidence: 0.7471181  
00:36:17.020 --> 00:36:19.512 What you'd have to do is find  
NOTE Confidence: 0.7471181  
00:36:19.512 --> 00:36:21.180 the comparative medicine or care.  
NOTE Confidence: 0.7471181  
00:36:21.180 --> 00:36:23.730 So click on your organizations  
NOTE Confidence: 0.7471181  
00:36:23.730 --> 00:36:25.770 from the that appears,  
NOTE Confidence: 0.7471181  
00:36:25.770 --> 00:36:28.920 they start typing comparative medicine.  
NOTE Confidence: 0.7471181  
00:36:28.920 --> 00:36:30.803 I click it, I'm going to see  
NOTE Confidence: 0.7471181  
00:36:30.803 --> 00:36:32.397 this default page you're talking  
NOTE Confidence: 0.7471181  
00:36:32.397 --> 00:36:34.197 about with some website URL.  
NOTE Confidence: 0.7471181  
00:36:34.200 --> 00:36:37.539 In such, click into members and leaders  
NOTE Confidence: 0.7471181  
00:36:37.540 --> 00:36:39.927 once I'm here to filter the members.  
NOTE Confidence: 0.80204670111111  
00:36:40.520 --> 00:36:42.480 So if I click that red button  
NOTE Confidence: 0.80204670111111  
00:36:42.480 --> 00:36:44.360 to green, then he will show up.  
NOTE Confidence: 0.82507787625

00:36:44.530 --> 00:36:45.498 Yes, and I do.

NOTE Confidence: 0.82507787625

00:36:45.498 --> 00:36:46.950 This is actually a really important

NOTE Confidence: 0.82507787625

00:36:47.003 --> 00:36:48.407 point that I want to mention.

NOTE Confidence: 0.82507787625

00:36:48.410 --> 00:36:50.468 As many of you have already discovered,

NOTE Confidence: 0.82507787625

00:36:50.470 --> 00:36:52.340 we've been experiencing some problems

NOTE Confidence: 0.82507787625

00:36:52.340 --> 00:36:54.647 with updates you make and Beatrix

NOTE Confidence: 0.82507787625

00:36:54.647 --> 00:36:56.885 appearing on the website right away.

NOTE Confidence: 0.82507787625

00:36:56.890 --> 00:37:02.315 We have done some work to improve that or

NOTE Confidence: 0.82507787625

00:37:02.315 --> 00:37:05.360 hopefully no longer going to see really

NOTE Confidence: 0.82507787625

00:37:05.441 --> 00:37:08.289 long delays of like an hour or more.

NOTE Confidence: 0.82507787625

00:37:08.290 --> 00:37:12.136 It should be closer to 6 minutes or

NOTE Confidence: 0.82507787625

00:37:12.136 --> 00:37:14.188 less if we're being really technical

NOTE Confidence: 0.82507787625

00:37:14.188 --> 00:37:16.539 and everything's working properly.

NOTE Confidence: 0.82507787625

00:37:16.540 --> 00:37:17.146 We're working.

NOTE Confidence: 0.82507787625

00:37:17.146 --> 00:37:18.964 Once we can make sure that's

NOTE Confidence: 0.82507787625

00:37:18.964 --> 00:37:20.160 working right correctly,

NOTE Confidence: 0.82507787625  
00:37:20.160 --> 00:37:21.455 then we're going to actually  
NOTE Confidence: 0.82507787625  
00:37:21.455 --> 00:37:23.200 work to reduce that even further.  
NOTE Confidence: 0.82507787625  
00:37:23.200 --> 00:37:25.680 It's just a bit of some growing pains  
NOTE Confidence: 0.82507787625  
00:37:25.680 --> 00:37:28.163 with the new architecture for this  
NOTE Confidence: 0.82507787625  
00:37:28.163 --> 00:37:30.408 system that we're working through.  
NOTE Confidence: 0.82507787625  
00:37:30.410 --> 00:37:32.466 If you are making some kind of update,  
NOTE Confidence: 0.82507787625  
00:37:32.470 --> 00:37:34.080 like setting Doctor Prendergast to  
NOTE Confidence: 0.82507787625  
00:37:34.080 --> 00:37:36.588 display on the website and he's just not  
NOTE Confidence: 0.82507787625  
00:37:36.588 --> 00:37:38.548 appearing on the website an hour later,  
NOTE Confidence: 0.82507787625  
00:37:38.550 --> 00:37:41.070 please let us know and we will shoot  
NOTE Confidence: 0.82507787625  
00:37:41.070 --> 00:37:43.782 that over to our development team to take  
NOTE Confidence: 0.82507787625  
00:37:43.782 --> 00:37:46.567 a look and figure out what's going on.  
NOTE Confidence: 0.82507787625  
00:37:46.570 --> 00:37:48.078 But in any case,  
NOTE Confidence: 0.82507787625  
00:37:48.078 --> 00:37:49.963 we're aware of these delays.  
NOTE Confidence: 0.82507787625  
00:37:49.970 --> 00:37:51.920 We are working to correct them.  
NOTE Confidence: 0.82507787625

00:37:51.920 --> 00:37:53.940 Apologies if it's blocking your  
NOTE Confidence: 0.82507787625

00:37:53.940 --> 00:37:55.556 work in the meantime.  
NOTE Confidence: 0.85749383

00:37:56.310 --> 00:37:58.240 OK, so if I if I'm looking at all our  
NOTE Confidence: 0.85749383

00:37:58.293 --> 00:38:00.372 Members and a lot of my Members are red.  
NOTE Confidence: 0.85749383

00:38:00.380 --> 00:38:00.982 Including myself.  
NOTE Confidence: 0.85749383

00:38:00.982 --> 00:38:02.788 I don't know if it matters.  
NOTE Confidence: 0.85749383

00:38:02.790 --> 00:38:04.482 I would think that they should  
NOTE Confidence: 0.85749383

00:38:04.482 --> 00:38:06.190 all be on the website.  
NOTE Confidence: 0.85749383

00:38:06.190 --> 00:38:08.577 How is that work that some are  
NOTE Confidence: 0.85749383

00:38:08.577 --> 00:38:11.310 red and some are green? Umm.  
NOTE Confidence: 0.85331612

00:38:12.930 --> 00:38:15.680 Individual choice by by department.  
NOTE Confidence: 0.85331612

00:38:15.680 --> 00:38:18.332 So some departments choose to show  
NOTE Confidence: 0.85331612

00:38:18.332 --> 00:38:20.100 everyone who's associated with  
NOTE Confidence: 0.85331612

00:38:20.170 --> 00:38:23.340 their department on their website,  
NOTE Confidence: 0.85331612

00:38:23.340 --> 00:38:26.210 others choose to only show primary faculty.  
NOTE Confidence: 0.85331612

00:38:26.210 --> 00:38:28.275 Some choose to only show

NOTE Confidence: 0.85331612  
00:38:28.275 --> 00:38:29.927 primary and secondary faculty.  
NOTE Confidence: 0.85331612  
00:38:29.930 --> 00:38:31.634 It's a department by department decision  
NOTE Confidence: 0.85331612  
00:38:31.634 --> 00:38:35.410 that you would need to make with your chair,  
NOTE Confidence: 0.85331612  
00:38:35.410 --> 00:38:37.244 and if you need more information or  
NOTE Confidence: 0.85331612  
00:38:37.244 --> 00:38:39.100 help kind of walking through this  
NOTE Confidence: 0.85331612  
00:38:39.100 --> 00:38:41.128 because it sounds like you could  
NOTE Confidence: 0.85331612  
00:38:41.128 --> 00:38:43.219 probably use some personalized guidance.  
NOTE Confidence: 0.85331612  
00:38:43.220 --> 00:38:45.677 Yeah, just reach out to the web  
NOTE Confidence: 0.85331612  
00:38:45.677 --> 00:38:47.686 services team and they can schedule  
NOTE Confidence: 0.85331612  
00:38:47.686 --> 00:38:48.910 a session with you.  
NOTE Confidence: 0.792782346  
00:38:49.120 --> 00:38:51.450 OK, that would be great. Yeah.  
NOTE Confidence: 0.836246968461538  
00:38:51.460 --> 00:38:52.874 Sorry, this actually leads me to another  
NOTE Confidence: 0.836246968461538  
00:38:52.874 --> 00:38:54.199 point which I wanted to mention,  
NOTE Confidence: 0.836246968461538  
00:38:54.200 --> 00:38:57.260 but I forgot until this point.  
NOTE Confidence: 0.836246968461538  
00:38:57.260 --> 00:38:59.825 There are a lot of orgs like this where  
NOTE Confidence: 0.836246968461538

00:38:59.825 --> 00:39:02.574 lots of people are turned off for display.  
NOTE Confidence: 0.836246968461538

00:39:02.580 --> 00:39:05.724 I ideally I think we should be displaying  
NOTE Confidence: 0.836246968461538

00:39:05.724 --> 00:39:08.763 most people who are in the department on  
NOTE Confidence: 0.836246968461538

00:39:08.763 --> 00:39:12.038 the website and then if we want some more  
NOTE Confidence: 0.836246968461538

00:39:12.038 --> 00:39:14.840 custom lists like for just the faculty,  
NOTE Confidence: 0.836246968461538

00:39:14.840 --> 00:39:16.786 we would make that a team where  
NOTE Confidence: 0.836246968461538

00:39:16.786 --> 00:39:18.918 we just Add all the faculty in.  
NOTE Confidence: 0.836246968461538

00:39:18.920 --> 00:39:21.680 We have tried to in the past and  
NOTE Confidence: 0.836246968461538

00:39:21.680 --> 00:39:24.479 actually this functionality still exists,  
NOTE Confidence: 0.836246968461538

00:39:24.480 --> 00:39:26.900 filter people by their job class, but it.  
NOTE Confidence: 0.836246968461538

00:39:26.900 --> 00:39:28.860 It just does not work very well.  
NOTE Confidence: 0.836246968461538

00:39:28.860 --> 00:39:31.400 Well, unfortunately, it's mostly accurate.  
NOTE Confidence: 0.836246968461538

00:39:31.400 --> 00:39:33.808 But then there are people with sort  
NOTE Confidence: 0.836246968461538

00:39:33.808 --> 00:39:36.339 of weird roles that we may consider  
NOTE Confidence: 0.836246968461538

00:39:36.339 --> 00:39:38.481 faculty or staff or vice versa,  
NOTE Confidence: 0.836246968461538

00:39:38.490 --> 00:39:40.818 and they're not appearing in the right list.

NOTE Confidence: 0.836246968461538  
00:39:40.820 --> 00:39:42.388 And then we have to end up making  
NOTE Confidence: 0.836246968461538  
00:39:42.388 --> 00:39:43.758 the entire list manually anyway,  
NOTE Confidence: 0.836246968461538  
00:39:43.760 --> 00:39:45.270 you just because we're missing  
NOTE Confidence: 0.836246968461538  
00:39:45.270 --> 00:39:46.478 a couple of people.  
NOTE Confidence: 0.836246968461538  
00:39:46.480 --> 00:39:48.888 So if you really want a list  
NOTE Confidence: 0.836246968461538  
00:39:48.888 --> 00:39:50.560 specifically for the faculty.  
NOTE Confidence: 0.836246968461538  
00:39:50.560 --> 00:39:52.520 You may want to make a team  
NOTE Confidence: 0.836246968461538  
00:39:52.520 --> 00:39:54.264 specifically for that so that you  
NOTE Confidence: 0.836246968461538  
00:39:54.264 --> 00:39:55.944 could also list all the faculty  
NOTE Confidence: 0.836246968461538  
00:39:55.944 --> 00:39:57.643 staff in your department elsewhere,  
NOTE Confidence: 0.836246968461538  
00:39:57.643 --> 00:39:59.581 because I mean the staff are  
NOTE Confidence: 0.836246968461538  
00:39:59.581 --> 00:40:01.320 part of the department.  
NOTE Confidence: 0.836246968461538  
00:40:01.320 --> 00:40:03.510 The non faculty who are staff  
NOTE Confidence: 0.836246968461538  
00:40:03.510 --> 00:40:06.240 are also part of the department.  
NOTE Confidence: 0.836246968461538  
00:40:06.240 --> 00:40:08.224 It kind of makes sense to display them  
NOTE Confidence: 0.836246968461538

00:40:08.224 --> 00:40:10.078 on the site as well because people  
NOTE Confidence: 0.836246968461538

00:40:10.078 --> 00:40:12.318 are going to get in touch with them.  
NOTE Confidence: 0.836246968461538

00:40:12.320 --> 00:40:15.008 But we we can help guide you through  
NOTE Confidence: 0.836246968461538

00:40:15.008 --> 00:40:17.611 that process once you figure out exactly  
NOTE Confidence: 0.836246968461538

00:40:17.611 --> 00:40:20.360 what you'd like to display on the site.  
NOTE Confidence: 0.836246968461538

00:40:20.360 --> 00:40:21.016 And yeah,  
NOTE Confidence: 0.836246968461538

00:40:21.016 --> 00:40:21.344 again,  
NOTE Confidence: 0.836246968461538

00:40:21.344 --> 00:40:23.640 I would just contact our web services  
NOTE Confidence: 0.836246968461538

00:40:23.701 --> 00:40:25.738 team for help there once you have  
NOTE Confidence: 0.836246968461538

00:40:25.738 --> 00:40:27.709 a decision one way or the other.  
NOTE Confidence: 0.836246968461538

00:40:27.710 --> 00:40:29.978 OK. Thanks. Thanks.  
NOTE Confidence: 0.738408943333333

00:40:33.850 --> 00:40:35.458 Any other questions?  
NOTE Confidence: 0.730836992

00:40:40.670 --> 00:40:42.780 Alright. And in that case,  
NOTE Confidence: 0.730836992

00:40:42.780 --> 00:40:44.724 I think we're going to give  
NOTE Confidence: 0.730836992

00:40:44.724 --> 00:40:46.390 everybody about 20 minutes back.  
NOTE Confidence: 0.730836992

00:40:46.390 --> 00:40:48.350 Thank you all for attending.

NOTE Confidence: 0.730836992

00:40:48.350 --> 00:40:49.764 And if you think of any questions

NOTE Confidence: 0.730836992

00:40:49.764 --> 00:40:51.710 after the facts, just let us know

NOTE Confidence: 0.730836992

00:40:51.710 --> 00:40:53.325 why to send to editor@yale.edu

NOTE Confidence: 0.730836992

00:40:53.325 --> 00:40:55.250 and we'll get back to you soon.

NOTE Confidence: 0.730836992

00:40:55.250 --> 00:40:56.730 Um, thanks so much.

NOTE Confidence: 0.730836992

00:40:57.030 --> 00:40:57.770 Thanks everyone.
