

WEBVTT

NOTE duration:"00:52:28"

NOTE recognizability:0.799

NOTE language:en-us

NOTE Confidence: 0.77213187833333

00:00:07.860 --> 00:00:09.498 A few more people are joining,

NOTE Confidence: 0.77213187833333

00:00:09.500 --> 00:00:11.630 but let's get started here.

NOTE Confidence: 0.77213187833333

00:00:11.630 --> 00:00:13.706 Thank you all for joining today.

NOTE Confidence: 0.77213187833333

00:00:13.710 --> 00:00:18.844 We're going to review editing your profile

NOTE Confidence: 0.77213187833333

00:00:18.844 --> 00:00:23.450 and Beatrix which is the new version of.

NOTE Confidence: 0.77213187833333

00:00:23.450 --> 00:00:25.832 What was formally called the Profile

NOTE Confidence: 0.77213187833333

00:00:25.832 --> 00:00:27.966 System and we're going to go over how

NOTE Confidence: 0.77213187833333

00:00:27.966 --> 00:00:30.105 to edit your profile to update it on

NOTE Confidence: 0.77213187833333

00:00:30.105 --> 00:00:32.106 the website as well as take advantage

NOTE Confidence: 0.77213187833333

00:00:32.106 --> 00:00:34.248 of a couple of the other features

NOTE Confidence: 0.77213187833333

00:00:34.248 --> 00:00:36.844 that were recently introduced prior

NOTE Confidence: 0.77213187833333

00:00:36.844 --> 00:00:41.223 to the relaunch as vitrix and as well

NOTE Confidence: 0.77213187833333

00:00:41.223 --> 00:00:44.647 as a few features that are brand new.

NOTE Confidence: 0.77213187833333

00:00:44.650 --> 00:00:47.275 So. I'm going to get started by  
NOTE Confidence: 0.772131878333333

00:00:47.275 --> 00:00:48.860 sharing my screen here.  
NOTE Confidence: 0.772131878333333

00:00:48.860 --> 00:00:50.340 And just a note,  
NOTE Confidence: 0.772131878333333

00:00:50.340 --> 00:00:53.735 we are recording this just so we can share  
NOTE Confidence: 0.772131878333333

00:00:53.735 --> 00:00:56.760 it with others who can't join us live.  
NOTE Confidence: 0.772131878333333

00:00:56.760 --> 00:00:59.637 Because we have a smaller group today,  
NOTE Confidence: 0.772131878333333

00:00:59.640 --> 00:01:02.144 I'd like to try to go through this  
NOTE Confidence: 0.772131878333333

00:01:02.144 --> 00:01:04.059 relatively quickly and leave lots of  
NOTE Confidence: 0.772131878333333

00:01:04.059 --> 00:01:06.200 time for your questions toward the end.  
NOTE Confidence: 0.772131878333333

00:01:06.200 --> 00:01:09.736 So do feel free to use the chat  
NOTE Confidence: 0.772131878333333

00:01:09.736 --> 00:01:11.979 to send a question.  
NOTE Confidence: 0.772131878333333

00:01:11.980 --> 00:01:14.761 Or I think this is a group that you  
NOTE Confidence: 0.772131878333333

00:01:14.761 --> 00:01:17.698 can feel free to just speak up and  
NOTE Confidence: 0.772131878333333

00:01:17.698 --> 00:01:20.459 interrupt me if you have a question.  
NOTE Confidence: 0.772131878333333

00:01:20.460 --> 00:01:21.244 So we want it.  
NOTE Confidence: 0.772131878333333

00:01:21.244 --> 00:01:22.742 This is the purpose of us being

NOTE Confidence: 0.77213187833333  
00:01:22.742 --> 00:01:24.380 here is to answer your questions.  
NOTE Confidence: 0.77213187833333  
00:01:24.380 --> 00:01:26.786 So feel free to stop me.  
NOTE Confidence: 0.77213187833333  
00:01:26.790 --> 00:01:28.250 If a question comes up.  
NOTE Confidence: 0.918016528  
00:01:30.320 --> 00:01:35.801 All right, so First off, to access the  
NOTE Confidence: 0.918016528  
00:01:35.801 --> 00:01:39.708 system you will visit the atrix.yale.edu.  
NOTE Confidence: 0.918016528  
00:01:39.708 --> 00:01:43.684 We've also redirected the profile.yale.edu  
NOTE Confidence: 0.918016528  
00:01:43.684 --> 00:01:46.762 domain that used to lead you to  
NOTE Confidence: 0.918016528  
00:01:46.762 --> 00:01:48.886 the former version of the system.  
NOTE Confidence: 0.918016528  
00:01:48.890 --> 00:01:51.059 And after you log in with your net ID,  
NOTE Confidence: 0.918016528  
00:01:51.060 --> 00:01:52.876 you are going to end up on a  
NOTE Confidence: 0.918016528  
00:01:52.876 --> 00:01:54.300 screen that looks like this.  
NOTE Confidence: 0.918016528  
00:01:54.300 --> 00:01:56.784 It probably will not look so  
NOTE Confidence: 0.918016528  
00:01:56.784 --> 00:01:59.790 much like my view of the screen.  
NOTE Confidence: 0.918016528  
00:01:59.790 --> 00:02:04.254 What you will definitely see or may see are  
NOTE Confidence: 0.918016528  
00:02:04.254 --> 00:02:08.477 some publications to review if you have.  
NOTE Confidence: 0.918016528

00:02:08.480 --> 00:02:10.645 Recently imported publications, or if  
NOTE Confidence: 0.918016528

00:02:10.645 --> 00:02:14.519 you have not had a chance yet to log in,  
NOTE Confidence: 0.918016528

00:02:14.520 --> 00:02:16.818 review those publications that were imported.  
NOTE Confidence: 0.918016528

00:02:16.820 --> 00:02:18.182 I'll be talking a lot about  
NOTE Confidence: 0.918016528

00:02:18.182 --> 00:02:19.090 publications a little bit,  
NOTE Confidence: 0.918016528

00:02:19.090 --> 00:02:21.673 so I'm not going to go into that now.  
NOTE Confidence: 0.918016528

00:02:21.680 --> 00:02:23.840 If you are someone who is  
NOTE Confidence: 0.918016528

00:02:23.840 --> 00:02:25.355 creating news or events,  
NOTE Confidence: 0.918016528

00:02:25.355 --> 00:02:27.280 you will see those here.  
NOTE Confidence: 0.918016528

00:02:27.280 --> 00:02:29.110 If you've started a news  
NOTE Confidence: 0.918016528

00:02:29.110 --> 00:02:30.574 article and finished it,  
NOTE Confidence: 0.918016528

00:02:30.580 --> 00:02:32.308 it's going to show up on  
NOTE Confidence: 0.918016528

00:02:32.308 --> 00:02:33.460 this dashboard for you.  
NOTE Confidence: 0.918016528

00:02:33.460 --> 00:02:34.948 But the reason we're here today  
NOTE Confidence: 0.918016528

00:02:34.948 --> 00:02:36.537 is to talk about editing profiles  
NOTE Confidence: 0.918016528

00:02:36.537 --> 00:02:38.427 or you're going to want to go.

NOTE Confidence: 0.918016528

00:02:38.430 --> 00:02:42.478 To edit your profile is this people section.

NOTE Confidence: 0.918016528

00:02:42.480 --> 00:02:44.690 And once you click that.

NOTE Confidence: 0.918016528

00:02:44.690 --> 00:02:46.430 If you have access to more

NOTE Confidence: 0.918016528

00:02:46.430 --> 00:02:47.590 than your own profile,

NOTE Confidence: 0.918016528

00:02:47.590 --> 00:02:49.606 you're going to land on a page like this.

NOTE Confidence: 0.918016528

00:02:49.610 --> 00:02:49.953 However,

NOTE Confidence: 0.918016528

00:02:49.953 --> 00:02:52.011 I assume for most faculty you're

NOTE Confidence: 0.918016528

00:02:52.011 --> 00:02:54.238 only gonna have access to your own

NOTE Confidence: 0.918016528

00:02:54.238 --> 00:02:56.653 profile and you'll end up on a page

NOTE Confidence: 0.918016528

00:02:56.653 --> 00:02:58.288 that looks something like this.

NOTE Confidence: 0.918016528

00:02:58.290 --> 00:03:01.642 Ideally with your headshot here and you

NOTE Confidence: 0.918016528

00:03:01.642 --> 00:03:05.130 will be free to start editing your profile.

NOTE Confidence: 0.918016528

00:03:05.130 --> 00:03:07.578 For example purposes here,

NOTE Confidence: 0.918016528

00:03:07.578 --> 00:03:11.038 I'm going to use the same profile I've

NOTE Confidence: 0.918016528

00:03:11.038 --> 00:03:12.550 been using for all these presentations,

NOTE Confidence: 0.918016528

00:03:12.550 --> 00:03:15.000 which is Doctor Grauer's profile.

NOTE Confidence: 0.918016528

00:03:15.000 --> 00:03:17.118 Because he is a very complete

NOTE Confidence: 0.918016528

00:03:17.118 --> 00:03:19.939 profile due to his involvement in OD.

NOTE Confidence: 0.918016528

00:03:19.940 --> 00:03:22.811 So the very first thing I want to point

NOTE Confidence: 0.918016528

00:03:22.811 --> 00:03:26.062 out about the profile is if you don't

NOTE Confidence: 0.918016528

00:03:26.062 --> 00:03:28.179 necessarily have time to do edit,

NOTE Confidence: 0.918016528

00:03:28.180 --> 00:03:30.035 keep this profile up to date yourself.

NOTE Confidence: 0.918016528

00:03:30.040 --> 00:03:31.880 You can designate somebody to

NOTE Confidence: 0.918016528

00:03:31.880 --> 00:03:33.720 edit this profile for you.

NOTE Confidence: 0.918016528

00:03:33.720 --> 00:03:35.820 There are the communications

NOTE Confidence: 0.918016528

00:03:35.820 --> 00:03:37.920 professionals in each department

NOTE Confidence: 0.918016528

00:03:37.920 --> 00:03:40.300 who sometimes take on this task,

NOTE Confidence: 0.918016528

00:03:40.300 --> 00:03:42.834 but for the most part they they

NOTE Confidence: 0.918016528

00:03:42.834 --> 00:03:45.178 don't have the time to manage.

NOTE Confidence: 0.918016528

00:03:45.180 --> 00:03:48.090 Every single profile in their department.

NOTE Confidence: 0.918016528

00:03:48.090 --> 00:03:51.681 So if you have an admin assistant

NOTE Confidence: 0.918016528  
00:03:51.681 --> 00:03:53.880 or someone in your.  
NOTE Confidence: 0.918016528  
00:03:53.880 --> 00:03:56.320 Office that can edit this profile for you.  
NOTE Confidence: 0.918016528  
00:03:56.320 --> 00:03:59.344 You can right at the top here in this  
NOTE Confidence: 0.918016528  
00:03:59.344 --> 00:04:01.700 editable by section click add editor  
NOTE Confidence: 0.918016528  
00:04:01.700 --> 00:04:04.461 and for example if Doctor wanted to  
NOTE Confidence: 0.918016528  
00:04:04.461 --> 00:04:07.079 grant me access to edit his profile,  
NOTE Confidence: 0.918016528  
00:04:07.080 --> 00:04:08.760 he could start typing in my name.  
NOTE Confidence: 0.918016528  
00:04:08.760 --> 00:04:11.037 It'll show up in this list and now I  
NOTE Confidence: 0.918016528  
00:04:11.037 --> 00:04:13.337 would have access to edit this profile.  
NOTE Confidence: 0.875082705666667  
00:04:16.350 --> 00:04:17.953 I'll just, I'm going to skip a  
NOTE Confidence: 0.875082705666667  
00:04:17.953 --> 00:04:19.782 little bit to point out that there  
NOTE Confidence: 0.875082705666667  
00:04:19.782 --> 00:04:21.408 is a similar looking field down  
NOTE Confidence: 0.875082705666667  
00:04:21.464 --> 00:04:23.120 here called your assistance and this  
NOTE Confidence: 0.875082705666667  
00:04:23.120 --> 00:04:24.989 very well may be the same people  
NOTE Confidence: 0.875082705666667  
00:04:24.989 --> 00:04:26.760 that you want to edit your profile.  
NOTE Confidence: 0.902026786

00:04:29.430 --> 00:04:30.990 And the way this works,  
NOTE Confidence: 0.902026786

00:04:30.990 --> 00:04:33.096 I just went ahead and removed myself as a  
NOTE Confidence: 0.902026786

00:04:33.096 --> 00:04:34.910 profile editor just to demonstrate this.  
NOTE Confidence: 0.902026786

00:04:34.910 --> 00:04:37.322 If someone is actually your administrative  
NOTE Confidence: 0.902026786

00:04:37.322 --> 00:04:39.690 assistant, it would be great to  
NOTE Confidence: 0.902026786

00:04:39.690 --> 00:04:42.250 enter that person in this field.  
NOTE Confidence: 0.902026786

00:04:42.250 --> 00:04:44.392 This isn't going to display publicly  
NOTE Confidence: 0.902026786

00:04:44.392 --> 00:04:46.450 just on the websites just yet.  
NOTE Confidence: 0.902026786

00:04:46.450 --> 00:04:49.234 However, we do plan to add some new  
NOTE Confidence: 0.902026786

00:04:49.234 --> 00:04:51.293 contact listing options that will  
NOTE Confidence: 0.902026786

00:04:51.293 --> 00:04:53.443 feature this information if you've  
NOTE Confidence: 0.902026786

00:04:53.443 --> 00:04:56.152 entered it in your profile and also  
NOTE Confidence: 0.902026786

00:04:56.152 --> 00:04:58.225 one of the enhancements for the  
NOTE Confidence: 0.902026786

00:04:58.225 --> 00:05:00.290 system we're focused on for next year.  
NOTE Confidence: 0.902026786

00:05:00.290 --> 00:05:01.583 Involves reporting capabilities,  
NOTE Confidence: 0.902026786

00:05:01.583 --> 00:05:05.047 and it would be really great if we

NOTE Confidence: 0.902026786

00:05:05.047 --> 00:05:07.309 could have the assistance for each

NOTE Confidence: 0.902026786

00:05:07.309 --> 00:05:09.671 faculty member who has one logged

NOTE Confidence: 0.902026786

00:05:09.671 --> 00:05:11.606 in here for reporting purposes.

NOTE Confidence: 0.902026786

00:05:11.610 --> 00:05:16.118 So if I was doctor Grauer's assistant.

NOTE Confidence: 0.902026786

00:05:16.120 --> 00:05:18.297 I could add myself here the same

NOTE Confidence: 0.902026786

00:05:18.297 --> 00:05:21.020 way I did for the profile editor.

NOTE Confidence: 0.902026786

00:05:21.020 --> 00:05:22.740 And when I do this,

NOTE Confidence: 0.902026786

00:05:22.740 --> 00:05:24.920 it'll say it'll prompt me.

NOTE Confidence: 0.902026786

00:05:24.920 --> 00:05:27.512 What I also like to give this is an

NOTE Confidence: 0.902026786

00:05:27.512 --> 00:05:29.656 assistant access to edit your profile.

NOTE Confidence: 0.902026786

00:05:29.660 --> 00:05:30.792 If I say yes,

NOTE Confidence: 0.902026786

00:05:30.792 --> 00:05:32.936 it's going to record me both as

NOTE Confidence: 0.902026786

00:05:32.936 --> 00:05:34.791 an assistant and somebody who

NOTE Confidence: 0.902026786

00:05:34.791 --> 00:05:36.275 can edit this profile.

NOTE Confidence: 0.902026786

00:05:36.280 --> 00:05:39.480 Um, so just wanted to point that out.

NOTE Confidence: 0.902026786

00:05:39.480 --> 00:05:42.408 I'm a few popular fields here,  
NOTE Confidence: 0.902026786

00:05:42.410 --> 00:05:44.084 but like I said, I'd like to keep this.  
NOTE Confidence: 0.902026786

00:05:44.090 --> 00:05:45.850 A lot of this is just data entry,  
NOTE Confidence: 0.902026786

00:05:45.850 --> 00:05:46.135 honestly,  
NOTE Confidence: 0.902026786

00:05:46.135 --> 00:05:48.130 so I'm not going to run through  
NOTE Confidence: 0.902026786

00:05:48.130 --> 00:05:50.430 how to fill out every single field,  
NOTE Confidence: 0.902026786

00:05:50.430 --> 00:05:52.758 but I do want to highlight a few  
NOTE Confidence: 0.902026786

00:05:52.758 --> 00:05:54.656 fields that have specific purposes  
NOTE Confidence: 0.902026786

00:05:54.656 --> 00:05:56.726 that might not be apparent.  
NOTE Confidence: 0.902026786

00:05:56.730 --> 00:05:58.578 The first thing is you will  
NOTE Confidence: 0.902026786

00:05:58.578 --> 00:05:59.810 see your name here.  
NOTE Confidence: 0.902026786

00:05:59.810 --> 00:06:01.350 This is the name we're  
NOTE Confidence: 0.902026786

00:06:01.350 --> 00:06:02.582 importing from work day,  
NOTE Confidence: 0.902026786

00:06:02.590 --> 00:06:06.568 the Yale Yale University HR system.  
NOTE Confidence: 0.902026786

00:06:06.570 --> 00:06:09.420 If this name is incorrect, please do.  
NOTE Confidence: 0.902026786

00:06:09.420 --> 00:06:11.240 Either request an edit,

NOTE Confidence: 0.902026786  
00:06:11.240 --> 00:06:13.050 this will create this will  
NOTE Confidence: 0.902026786  
00:06:13.050 --> 00:06:14.860 generate a message to us,  
NOTE Confidence: 0.902026786  
00:06:14.860 --> 00:06:18.820 but or you could just contact  
NOTE Confidence: 0.902026786  
00:06:18.820 --> 00:06:21.460 employee services directly and  
NOTE Confidence: 0.902026786  
00:06:21.460 --> 00:06:21.818 employee.services@yale.edu.  
NOTE Confidence: 0.902026786  
00:06:21.818 --> 00:06:24.682 We want to make sure that your name  
NOTE Confidence: 0.902026786  
00:06:24.682 --> 00:06:26.819 is incorrect and it's sorry that your  
NOTE Confidence: 0.902026786  
00:06:26.819 --> 00:06:29.439 name is correct in the Yale system of record.  
NOTE Confidence: 0.902026786  
00:06:29.440 --> 00:06:31.232 So while you could use these override  
NOTE Confidence: 0.902026786  
00:06:31.232 --> 00:06:33.234 fields here to make sure your name is  
NOTE Confidence: 0.902026786  
00:06:33.234 --> 00:06:35.309 correct on your School of Medicine profile,  
NOTE Confidence: 0.902026786  
00:06:35.310 --> 00:06:37.137 at least if this name isn't right,  
NOTE Confidence: 0.902026786  
00:06:37.140 --> 00:06:38.565 we really should get it  
NOTE Confidence: 0.902026786  
00:06:38.565 --> 00:06:39.705 corrected and the yell.  
NOTE Confidence: 0.902026786  
00:06:39.710 --> 00:06:42.119 System of record.  
NOTE Confidence: 0.902026786

00:06:42.120 --> 00:06:42.976 As I alluded to,  
NOTE Confidence: 0.902026786

00:06:42.976 --> 00:06:45.199 if you'd like to go by some other name.  
NOTE Confidence: 0.902026786

00:06:45.200 --> 00:06:45.848 For example,  
NOTE Confidence: 0.902026786

00:06:45.848 --> 00:06:48.116 if Jonathan Grauer went by John Grower,  
NOTE Confidence: 0.902026786

00:06:48.120 --> 00:06:51.168 he could update his display first  
NOTE Confidence: 0.902026786

00:06:51.168 --> 00:06:54.773 name and that will update his name  
NOTE Confidence: 0.902026786

00:06:54.773 --> 00:06:57.707 as it appears on his profile.  
NOTE Confidence: 0.902026786

00:06:57.710 --> 00:06:59.280 And on listings, when he,  
NOTE Confidence: 0.902026786

00:06:59.280 --> 00:06:59.657 uh,  
NOTE Confidence: 0.902026786

00:06:59.657 --> 00:07:01.542 anywhere basically that he appears  
NOTE Confidence: 0.902026786

00:07:01.542 --> 00:07:02.392 on medicine.yale.edu,  
NOTE Confidence: 0.902026786

00:07:02.392 --> 00:07:06.640 it's going to use this form of his name.  
NOTE Confidence: 0.902026786

00:07:06.640 --> 00:07:10.720 Suffixes are another popular topic.  
NOTE Confidence: 0.902026786

00:07:10.720 --> 00:07:12.104 There are a few.  
NOTE Confidence: 0.902026786

00:07:12.104 --> 00:07:14.180 We categorize suffixes a few things.  
NOTE Confidence: 0.902026786

00:07:14.180 --> 00:07:16.082 One is family suffixes is really

NOTE Confidence: 0.902026786

00:07:16.082 --> 00:07:17.960 straightforward if you go by junior.

NOTE Confidence: 0.902026786

00:07:17.960 --> 00:07:21.190 If you're a junior 1/3.

NOTE Confidence: 0.902026786

00:07:21.190 --> 00:07:25.940 You can pick that from here alternatively.

NOTE Confidence: 0.902026786

00:07:25.940 --> 00:07:29.293 There are a preset list of professional

NOTE Confidence: 0.902026786

00:07:29.293 --> 00:07:31.104 suffixes and certifications that

NOTE Confidence: 0.902026786

00:07:31.104 --> 00:07:33.448 you might want to add as a suffix

NOTE Confidence: 0.902026786

00:07:33.448 --> 00:07:34.749 to your profile.

NOTE Confidence: 0.902026786

00:07:34.750 --> 00:07:35.730 To add one of these,

NOTE Confidence: 0.902026786

00:07:35.730 --> 00:07:38.789 you simply select it from the list.

NOTE Confidence: 0.902072884117647

00:07:38.790 --> 00:07:41.310 And it will be added and it

NOTE Confidence: 0.902072884117647

00:07:41.310 --> 00:07:43.306 should be reflected on your

NOTE Confidence: 0.902072884117647

00:07:43.306 --> 00:07:45.386 public facing profile as well.

NOTE Confidence: 0.902072884117647

00:07:45.390 --> 00:07:50.390 I can resort these suffixes however I'd like.

NOTE Confidence: 0.902072884117647

00:07:50.390 --> 00:07:52.196 Although I do think we forced the

NOTE Confidence: 0.902072884117647

00:07:52.196 --> 00:07:53.670 family suffixes to appear first,

NOTE Confidence: 0.902072884117647

00:07:53.670 --> 00:07:55.910 just because it would be a little odd  
NOTE Confidence: 0.902072884117647

00:07:55.910 --> 00:07:58.360 if it was such and such MD Junior.  
NOTE Confidence: 0.867870040666667

00:08:01.310 --> 00:08:03.695 But the one thing I do want to call  
NOTE Confidence: 0.867870040666667

00:08:03.695 --> 00:08:05.726 attention to are the academic suffixes.  
NOTE Confidence: 0.867870040666667

00:08:05.730 --> 00:08:08.938 These are a little bit more involved because  
NOTE Confidence: 0.867870040666667

00:08:08.938 --> 00:08:12.766 we do want to track the actual degree  
NOTE Confidence: 0.867870040666667

00:08:12.766 --> 00:08:14.713 information about your educational career  
NOTE Confidence: 0.867870040666667

00:08:14.713 --> 00:08:17.726 so we can to back up the degrees that  
NOTE Confidence: 0.867870040666667

00:08:17.726 --> 00:08:20.510 are going to display next to your name.  
NOTE Confidence: 0.867870040666667

00:08:20.510 --> 00:08:23.460 So when I open, when I select academic and I  
NOTE Confidence: 0.867870040666667

00:08:23.527 --> 00:08:26.404 open these suffix options for Doctor Rauer,  
NOTE Confidence: 0.867870040666667

00:08:26.410 --> 00:08:29.890 I only see BS because that is the only other.  
NOTE Confidence: 0.867870040666667

00:08:29.890 --> 00:08:32.602 A degree that he has information  
NOTE Confidence: 0.867870040666667

00:08:32.602 --> 00:08:35.799 for about in his education tab.  
NOTE Confidence: 0.867870040666667

00:08:35.800 --> 00:08:38.005 So I'm going to skip ahead to  
NOTE Confidence: 0.867870040666667

00:08:38.005 --> 00:08:40.251 the Education tab quickly just to

NOTE Confidence: 0.867870040666667  
00:08:40.251 --> 00:08:41.895 demonstrate how this works.  
NOTE Confidence: 0.867870040666667  
00:08:41.900 --> 00:08:44.798 I see a list of doctor Grauer's  
NOTE Confidence: 0.867870040666667  
00:08:44.798 --> 00:08:46.040 educational history here.  
NOTE Confidence: 0.867870040666667  
00:08:46.040 --> 00:08:48.700 If I wanted to add a new suffix to my name,  
NOTE Confidence: 0.867870040666667  
00:08:48.700 --> 00:08:52.268 I would first need to add a new  
NOTE Confidence: 0.867870040666667  
00:08:52.268 --> 00:08:54.800 degree to back up that information.  
NOTE Confidence: 0.867870040666667  
00:08:54.800 --> 00:08:57.895 So let's pretend Doctor Grauer  
NOTE Confidence: 0.867870040666667  
00:08:57.895 --> 00:09:00.990 has a degree in audiology.  
NOTE Confidence: 0.869757885714286  
00:09:03.000 --> 00:09:05.954 And I would enter in this information.  
NOTE Confidence: 0.869757885714286  
00:09:05.960 --> 00:09:08.420 So here I do have to enter an end date.  
NOTE Confidence: 0.869757885714286  
00:09:08.420 --> 00:09:10.275 Again, this is just for  
NOTE Confidence: 0.869757885714286  
00:09:10.275 --> 00:09:11.017 verification purposes,  
NOTE Confidence: 0.869757885714286  
00:09:11.020 --> 00:09:12.988 but you can elect to hide it if  
NOTE Confidence: 0.869757885714286  
00:09:12.988 --> 00:09:14.980 you don't want to reveal the date.  
NOTE Confidence: 0.869757885714286  
00:09:14.980 --> 00:09:16.332 We're conferred this degree.  
NOTE Confidence: 0.869757885714286

00:09:16.332 --> 00:09:18.723 I can hide that date from display

NOTE Confidence: 0.869757885714286

00:09:18.723 --> 00:09:20.823 on the website and it will just

NOTE Confidence: 0.869757885714286

00:09:20.823 --> 00:09:22.679 say that I have this degree.

NOTE Confidence: 0.869757885714286

00:09:22.680 --> 00:09:24.724 And as long as I fill in

NOTE Confidence: 0.869757885714286

00:09:24.724 --> 00:09:26.120 these other required fields.

NOTE Confidence: 0.51706976

00:09:29.540 --> 00:09:29.830 Hmm.

NOTE Confidence: 0.756832045714286

00:09:31.910 --> 00:09:33.226 OK, I'm gonna have to scroll here.

NOTE Confidence: 0.3527723

00:09:38.510 --> 00:09:39.510 Alright.

NOTE Confidence: 0.865708544

00:09:41.680 --> 00:09:45.000 OK, once I do that I can add this degree.

NOTE Confidence: 0.865708544

00:09:45.000 --> 00:09:46.600 And once it's added here,

NOTE Confidence: 0.865708544

00:09:46.600 --> 00:09:48.380 we repeat the suffixes here,

NOTE Confidence: 0.865708544

00:09:48.380 --> 00:09:50.711 just so that they're handy when you're

NOTE Confidence: 0.865708544

00:09:50.711 --> 00:09:52.400 modifying this education information.

NOTE Confidence: 0.865708544

00:09:52.400 --> 00:09:53.480 But this is a.

NOTE Confidence: 0.865708544

00:09:53.480 --> 00:09:55.100 This will update the same way

NOTE Confidence: 0.865708544

00:09:55.163 --> 00:09:56.819 it did in the Overview tab.

NOTE Confidence: 0.865708544  
00:09:56.820 --> 00:09:58.857 I can then add a new suffix,  
NOTE Confidence: 0.865708544  
00:09:58.860 --> 00:09:59.412 click academic.  
NOTE Confidence: 0.865708544  
00:09:59.412 --> 00:10:01.068 I'm going to see my new  
NOTE Confidence: 0.865708544  
00:10:01.068 --> 00:10:02.538 degree that I've added here,  
NOTE Confidence: 0.865708544  
00:10:02.540 --> 00:10:05.110 and I can add it to my list of suffixes.  
NOTE Confidence: 0.7885649  
00:10:07.430 --> 00:10:11.070 That is how suffixes work.  
NOTE Confidence: 0.7885649  
00:10:11.070 --> 00:10:12.606 This other information it  
NOTE Confidence: 0.7885649  
00:10:12.606 --> 00:10:14.526 will appear on your profile.  
NOTE Confidence: 0.7885649  
00:10:14.530 --> 00:10:17.810 It's standard data entry process.  
NOTE Confidence: 0.7885649  
00:10:17.810 --> 00:10:19.262 If you have questions about how  
NOTE Confidence: 0.7885649  
00:10:19.262 --> 00:10:20.890 to fill out this information,  
NOTE Confidence: 0.7885649  
00:10:20.890 --> 00:10:22.490 please reach out to us.  
NOTE Confidence: 0.7885649  
00:10:22.490 --> 00:10:23.882 Any question you have about this  
NOTE Confidence: 0.7885649  
00:10:23.882 --> 00:10:25.616 tool you can always reach out to us  
NOTE Confidence: 0.7885649  
00:10:25.616 --> 00:10:27.246 either by if you're in the system you  
NOTE Confidence: 0.7885649

00:10:27.246 --> 00:10:28.842 can if you've logged in the system,  
NOTE Confidence: 0.7885649

00:10:28.850 --> 00:10:30.690 you can click this report a bug button.  
NOTE Confidence: 0.7885649

00:10:30.690 --> 00:10:31.718 You don't necessarily have  
NOTE Confidence: 0.7885649

00:10:31.718 --> 00:10:33.003 to be reporting a bug.  
NOTE Confidence: 0.7885649

00:10:33.010 --> 00:10:36.426 Then you can click this button provide  
NOTE Confidence: 0.7885649

00:10:36.426 --> 00:10:38.638 your e-mail providing a subject is  
NOTE Confidence: 0.7885649

00:10:38.638 --> 00:10:40.790 helpful just so we know what the.  
NOTE Confidence: 0.7885649

00:10:40.790 --> 00:10:41.990 General nature of the issue is  
NOTE Confidence: 0.7885649

00:10:41.990 --> 00:10:43.545 and then you can describe it in  
NOTE Confidence: 0.7885649

00:10:43.545 --> 00:10:44.720 detail in this message field.  
NOTE Confidence: 0.7885649

00:10:44.720 --> 00:10:46.709 This will send us a message and we will  
NOTE Confidence: 0.7885649

00:10:46.709 --> 00:10:48.741 get back to you and resolve whatever  
NOTE Confidence: 0.7885649

00:10:48.741 --> 00:10:50.257 issue or answer whatever question  
NOTE Confidence: 0.7885649

00:10:50.257 --> 00:10:52.796 you have have as soon as we can.  
NOTE Confidence: 0.7885649

00:10:52.800 --> 00:10:53.045 Alternatively,  
NOTE Confidence: 0.7885649

00:10:53.045 --> 00:10:54.515 you can just you can always

NOTE Confidence: 0.7885649  
00:10:54.515 --> 00:10:55.370 e-mail us directly at  
NOTE Confidence: 0.97286735  
00:10:57.960 --> 00:11:00.490 YS m.editor@yale.edu.  
NOTE Confidence: 0.97286735  
00:11:00.490 --> 00:11:04.256 OK, I want to quickly touch on  
NOTE Confidence: 0.97286735  
00:11:04.256 --> 00:11:07.634 headshots only because nothing much has  
NOTE Confidence: 0.97286735  
00:11:07.634 --> 00:11:11.162 changed here from the previous system,  
NOTE Confidence: 0.97286735  
00:11:11.170 --> 00:11:11.558 profile.yahoo.edu.  
NOTE Confidence: 0.97286735  
00:11:11.558 --> 00:11:13.498 But one problem we've noticed  
NOTE Confidence: 0.97286735  
00:11:13.498 --> 00:11:15.969 is that some of the headshots,  
NOTE Confidence: 0.97286735  
00:11:15.970 --> 00:11:17.735 for whatever reason when they  
NOTE Confidence: 0.97286735  
00:11:17.735 --> 00:11:20.030 were imported to the new system,  
NOTE Confidence: 0.97286735  
00:11:20.030 --> 00:11:23.588 don't have are not cropped correctly.  
NOTE Confidence: 0.97286735  
00:11:23.590 --> 00:11:25.410 This problem does not affect doctor rower,  
NOTE Confidence: 0.97286735  
00:11:25.410 --> 00:11:27.390 but I have seen this affect  
NOTE Confidence: 0.97286735  
00:11:27.390 --> 00:11:28.710 a few people's profiles.  
NOTE Confidence: 0.97286735  
00:11:28.710 --> 00:11:30.350 Right now we don't have a great solution.  
NOTE Confidence: 0.97286735

00:11:30.350 --> 00:11:31.946 For this, because there's no way for  
NOTE Confidence: 0.97286735

00:11:31.946 --> 00:11:33.618 me to adjust this crop right now.  
NOTE Confidence: 0.97286735

00:11:33.620 --> 00:11:35.530 We are working on a way to fix that so  
NOTE Confidence: 0.97286735

00:11:35.590 --> 00:11:37.552 we can re crop the images and fix them.  
NOTE Confidence: 0.97286735

00:11:37.560 --> 00:11:39.530 Do apologize if you're having  
NOTE Confidence: 0.97286735

00:11:39.530 --> 00:11:41.500 an issue with that currently.  
NOTE Confidence: 0.97286735

00:11:41.500 --> 00:11:44.265 I'm going to skip to the biography  
NOTE Confidence: 0.97286735

00:11:44.265 --> 00:11:46.279 field he biography page here.  
NOTE Confidence: 0.97286735

00:11:46.280 --> 00:11:48.646 The very first thing that will appear  
NOTE Confidence: 0.97286735

00:11:48.646 --> 00:11:50.939 is your primary slash academic bio.  
NOTE Confidence: 0.97286735

00:11:50.940 --> 00:11:54.048 This is a biography that will appear.  
NOTE Confidence: 0.77782442

00:11:56.320 --> 00:11:59.380 On your school medicine profile,  
NOTE Confidence: 0.77782442

00:11:59.380 --> 00:12:01.160 sort of front and center.  
NOTE Confidence: 0.77782442

00:12:01.160 --> 00:12:02.232 That's where, Oops, sorry,  
NOTE Confidence: 0.77782442

00:12:02.232 --> 00:12:03.840 didn't mean to click that link.  
NOTE Confidence: 0.77782442

00:12:03.840 --> 00:12:04.932 That's where your primary

NOTE Confidence: 0.77782442

00:12:04.932 --> 00:12:06.297 bio is going to appear.

NOTE Confidence: 0.77782442

00:12:06.300 --> 00:12:08.668 But you may say, see a few other

NOTE Confidence: 0.77782442

00:12:08.668 --> 00:12:11.138 kinds of biographies on this page.

NOTE Confidence: 0.77782442

00:12:11.140 --> 00:12:13.120 One of them is an organization

NOTE Confidence: 0.77782442

00:12:13.120 --> 00:12:13.780 specific biography,

NOTE Confidence: 0.77782442

00:12:13.780 --> 00:12:15.035 and you'll notice that you

NOTE Confidence: 0.77782442

00:12:15.035 --> 00:12:16.039 can't edit these directly.

NOTE Confidence: 0.77782442

00:12:16.040 --> 00:12:18.000 You can submit a request to edit them,

NOTE Confidence: 0.77782442

00:12:18.000 --> 00:12:20.376 but you're not able to edit them directly.

NOTE Confidence: 0.77782442

00:12:20.380 --> 00:12:22.501 The reason for that is that these

NOTE Confidence: 0.77782442

00:12:22.501 --> 00:12:24.003 biographies were written for some

NOTE Confidence: 0.77782442

00:12:24.003 --> 00:12:26.139 specific use case on a very specific page,

NOTE Confidence: 0.77782442

00:12:26.140 --> 00:12:27.534 for example.

NOTE Confidence: 0.77782442

00:12:27.534 --> 00:12:32.413 This OP D leadership biography was written,

NOTE Confidence: 0.77782442

00:12:32.420 --> 00:12:36.384 I think by Doctor Brauer for so long

NOTE Confidence: 0.77782442

00:12:36.384 --> 00:12:39.040 with this profile as it appears on LAPD,  
NOTE Confidence: 0.77782442

00:12:39.040 --> 00:12:40.480 simply because rather than  
NOTE Confidence: 0.77782442

00:12:40.480 --> 00:12:41.920 showing his academic bio,  
NOTE Confidence: 0.77782442

00:12:41.920 --> 00:12:44.015 he wanted to talk about  
NOTE Confidence: 0.77782442

00:12:44.015 --> 00:12:46.480 his work specific to a PD.  
NOTE Confidence: 0.77782442

00:12:46.480 --> 00:12:48.160 So that's the point of these profiles.  
NOTE Confidence: 0.77782442

00:12:48.160 --> 00:12:50.160 It's not of these biographies,  
NOTE Confidence: 0.77782442

00:12:50.160 --> 00:12:51.810 it's not necessarily apparent where  
NOTE Confidence: 0.77782442

00:12:51.810 --> 00:12:53.960 this might appear on the website,  
NOTE Confidence: 0.77782442

00:12:53.960 --> 00:12:57.288 so we just wanted to make sure that.  
NOTE Confidence: 0.77782442

00:12:57.290 --> 00:12:59.474 We get the editorial sort of input  
NOTE Confidence: 0.77782442

00:12:59.474 --> 00:13:01.441 here to make sure any updates  
NOTE Confidence: 0.77782442

00:13:01.441 --> 00:13:03.674 that are made are going to make  
NOTE Confidence: 0.77782442

00:13:03.744 --> 00:13:06.348 sense in the context of where that  
NOTE Confidence: 0.77782442

00:13:06.348 --> 00:13:07.787 biography is actually appearing.  
NOTE Confidence: 0.77782442

00:13:07.787 --> 00:13:10.006 If you want some change to these

NOTE Confidence: 0.77782442  
00:13:10.006 --> 00:13:11.951 biographies to click this request edit  
NOTE Confidence: 0.77782442  
00:13:11.951 --> 00:13:14.209 button very similar to the report a bug,  
NOTE Confidence: 0.77782442  
00:13:14.210 --> 00:13:15.830 it'll just open up this form.  
NOTE Confidence: 0.77782442  
00:13:15.830 --> 00:13:18.390 You can actually it'll prepopulate.  
NOTE Confidence: 0.77782442  
00:13:18.390 --> 00:13:20.466 The field with the current biography.  
NOTE Confidence: 0.77782442  
00:13:20.470 --> 00:13:23.228 You can edit the biography right here,  
NOTE Confidence: 0.77782442  
00:13:23.230 --> 00:13:24.994 or you can just describe what  
NOTE Confidence: 0.77782442  
00:13:24.994 --> 00:13:26.577 you would like amended instead  
NOTE Confidence: 0.77782442  
00:13:26.577 --> 00:13:27.977 of directly editing it.  
NOTE Confidence: 0.153404  
00:13:30.150 --> 00:13:34.656 Um. You may also see in your profile  
NOTE Confidence: 0.153404  
00:13:34.656 --> 00:13:36.736 Y in patient Care biography and  
NOTE Confidence: 0.153404  
00:13:36.736 --> 00:13:39.040 this also is not directly editable.  
NOTE Confidence: 0.153404  
00:13:39.040 --> 00:13:42.250 This is a biography that is created  
NOTE Confidence: 0.153404  
00:13:42.250 --> 00:13:44.950 by the Yale Medicine editorial team.  
NOTE Confidence: 0.153404  
00:13:44.950 --> 00:13:47.836 Again, they will work with you.  
NOTE Confidence: 0.153404

00:13:47.840 --> 00:13:49.166 If there is something that needs

NOTE Confidence: 0.153404

00:13:49.166 --> 00:13:50.540 to change in this biography,

NOTE Confidence: 0.153404

00:13:50.540 --> 00:13:52.647 please just reach out to them by

NOTE Confidence: 0.153404

00:13:52.647 --> 00:13:53.921 contacting this e-mail address

NOTE Confidence: 0.153404

00:13:53.921 --> 00:13:55.481 that's listed right here and

NOTE Confidence: 0.153404

00:13:55.481 --> 00:13:57.279 they can update your you know,

NOTE Confidence: 0.153404

00:13:57.280 --> 00:14:00.808 medicine biography as needed. Umm.

NOTE Confidence: 0.153404

00:14:00.808 --> 00:14:04.096 With that, on that same topic,

NOTE Confidence: 0.153404

00:14:04.100 --> 00:14:05.744 I'm going to skip ahead to

NOTE Confidence: 0.153404

00:14:05.744 --> 00:14:06.840 the Patient care tab.

NOTE Confidence: 0.153404

00:14:06.840 --> 00:14:10.496 If you are a specialist who is seeing

NOTE Confidence: 0.153404

00:14:10.496 --> 00:14:12.679 patients through Yale Medicine,

NOTE Confidence: 0.153404

00:14:12.680 --> 00:14:14.626 this is going to be a very

NOTE Confidence: 0.153404

00:14:14.626 --> 00:14:16.644 important page to make sure it's

NOTE Confidence: 0.153404

00:14:16.644 --> 00:14:18.509 configured properly and I think

NOTE Confidence: 0.153404

00:14:18.509 --> 00:14:20.708 Denise Meyer and our communication.

NOTE Confidence: 0.153404  
00:14:20.710 --> 00:14:22.334 Steam is gonna be sharing a link to  
NOTE Confidence: 0.153404  
00:14:22.334 --> 00:14:23.979 the chat shortly with some detailed  
NOTE Confidence: 0.153404  
00:14:23.979 --> 00:14:25.755 information about how to update this.  
NOTE Confidence: 0.153404  
00:14:25.760 --> 00:14:28.272 I'm going to talk about a few of  
NOTE Confidence: 0.153404  
00:14:28.272 --> 00:14:30.400 these items really briefly here,  
NOTE Confidence: 0.153404  
00:14:30.400 --> 00:14:31.720 First off.  
NOTE Confidence: 0.80817522  
00:14:34.110 --> 00:14:35.529 Are these expert?  
NOTE Confidence: 0.810236331666667  
00:14:59.420 --> 00:15:01.196 Come back. Very sorry,  
NOTE Confidence: 0.810236331666667  
00:15:01.196 --> 00:15:03.416 I just briefly lost my  
NOTE Confidence: 0.810236331666667  
00:15:03.416 --> 00:15:05.379 network connection there.  
NOTE Confidence: 0.810236331666667  
00:15:05.380 --> 00:15:06.388 It's a little odd.  
NOTE Confidence: 0.810236331666667  
00:15:06.388 --> 00:15:07.648 Hopefully it doesn't happen again.  
NOTE Confidence: 0.861259466666667  
00:15:09.190 --> 00:15:10.846 You're making us feel very comfortable  
NOTE Confidence: 0.861259466666667  
00:15:10.850 --> 00:15:12.348 when you have these kinds of problems  
NOTE Confidence: 0.861259466666667  
00:15:12.350 --> 00:15:14.456 and not feeling so inadequate that.  
NOTE Confidence: 0.855464458

00:15:14.690 --> 00:15:16.730 Thank you for doing that.  
NOTE Confidence: 0.855464458

00:15:16.730 --> 00:15:17.954 You're welcome anytime.  
NOTE Confidence: 0.855464458

00:15:17.954 --> 00:15:20.810 Yeah, it's a little concerning that I'm  
NOTE Confidence: 0.855464458

00:15:20.881 --> 00:15:23.548 in our office and the network's not  
NOTE Confidence: 0.855464458

00:15:23.548 --> 00:15:25.614 functioning anyway, sorry about that.  
NOTE Confidence: 0.855464458

00:15:25.614 --> 00:15:28.695 So these expertise in areas of specialization  
NOTE Confidence: 0.855464458

00:15:28.695 --> 00:15:32.048 right now on the Yale Medicine site,  
NOTE Confidence: 0.855464458

00:15:32.050 --> 00:15:34.026 specialists are associated with  
NOTE Confidence: 0.855464458

00:15:34.026 --> 00:15:36.496 conditions that appear on the  
NOTE Confidence: 0.855464458

00:15:36.496 --> 00:15:39.386 site via an AI algorithm, that is.  
NOTE Confidence: 0.855464458

00:15:39.386 --> 00:15:40.942 Actually, looking at, um,  
NOTE Confidence: 0.855464458

00:15:40.942 --> 00:15:43.266 the ICD and CPT codes that are  
NOTE Confidence: 0.855464458

00:15:43.266 --> 00:15:45.329 used for billing purposes,  
NOTE Confidence: 0.855464458

00:15:45.330 --> 00:15:47.592 we're literally just looking at which  
NOTE Confidence: 0.855464458

00:15:47.592 --> 00:15:49.800 specialists are building against which codes.  
NOTE Confidence: 0.855464458

00:15:49.800 --> 00:15:51.696 We're not looking at any kind

NOTE Confidence: 0.855464458  
00:15:51.696 --> 00:15:52.644 of patient information.  
NOTE Confidence: 0.855464458  
00:15:52.650 --> 00:15:55.176 We're just trying to get some  
NOTE Confidence: 0.855464458  
00:15:55.176 --> 00:15:57.623 idea without manual input of the  
NOTE Confidence: 0.855464458  
00:15:57.623 --> 00:16:00.003 kinds of work that you are doing.  
NOTE Confidence: 0.855464458  
00:16:00.010 --> 00:16:02.130 However, as you can imagine,  
NOTE Confidence: 0.855464458  
00:16:02.130 --> 00:16:03.940 that's not always going to  
NOTE Confidence: 0.855464458  
00:16:03.940 --> 00:16:05.388 give an accurate picture.  
NOTE Confidence: 0.855464458  
00:16:05.390 --> 00:16:07.790 Of your specializations or  
NOTE Confidence: 0.855464458  
00:16:07.790 --> 00:16:10.790 your practice as a whole.  
NOTE Confidence: 0.855464458  
00:16:10.790 --> 00:16:12.930 So we've provided these fields  
NOTE Confidence: 0.855464458  
00:16:12.930 --> 00:16:16.129 that allow you to sort of override.  
NOTE Confidence: 0.855464458  
00:16:16.130 --> 00:16:17.522 Not completely override,  
NOTE Confidence: 0.855464458  
00:16:17.522 --> 00:16:19.698 but modify, I should say,  
NOTE Confidence: 0.855464458  
00:16:19.698 --> 00:16:21.362 the relationships between your  
NOTE Confidence: 0.855464458  
00:16:21.362 --> 00:16:23.561 profile and the content that  
NOTE Confidence: 0.855464458

00:16:23.561 --> 00:16:25.317 appears on Yale Medicine.  
NOTE Confidence: 0.855464458

00:16:25.320 --> 00:16:28.200 This first list condition conditions,  
NOTE Confidence: 0.855464458

00:16:28.200 --> 00:16:29.588 treatments and procedures in  
NOTE Confidence: 0.855464458

00:16:29.588 --> 00:16:30.976 which you super specialize.  
NOTE Confidence: 0.855464458

00:16:30.980 --> 00:16:32.240 This is an important one,  
NOTE Confidence: 0.855464458

00:16:32.240 --> 00:16:34.820 especially if you are treating  
NOTE Confidence: 0.855464458

00:16:34.820 --> 00:16:36.155 some kind of condition that's  
NOTE Confidence: 0.855464458

00:16:36.155 --> 00:16:38.075 very rare and it might you might  
NOTE Confidence: 0.855464458

00:16:38.075 --> 00:16:39.653 not get all that many patients.  
NOTE Confidence: 0.855464458

00:16:39.660 --> 00:16:42.299 So it's obviously not going to appear  
NOTE Confidence: 0.855464458

00:16:42.299 --> 00:16:45.100 all that often in your billing codes.  
NOTE Confidence: 0.855464458

00:16:45.100 --> 00:16:46.300 So in that case,  
NOTE Confidence: 0.855464458

00:16:46.300 --> 00:16:48.539 you want to make sure that you  
NOTE Confidence: 0.855464458

00:16:48.539 --> 00:16:50.420 add whatever rare condition or  
NOTE Confidence: 0.855464458

00:16:50.420 --> 00:16:51.980 procedure that you're performing,  
NOTE Confidence: 0.855464458

00:16:51.980 --> 00:16:54.800 treating or performing and add

NOTE Confidence: 0.855464458  
00:16:54.800 --> 00:16:55.928 the appropriate.  
NOTE Confidence: 0.855464458  
00:16:55.930 --> 00:16:58.078 Keyword for that specialty  
NOTE Confidence: 0.855464458  
00:16:58.078 --> 00:17:01.760 if you do not see it in.  
NOTE Confidence: 0.837505695384615  
00:17:03.820 --> 00:17:05.815 I mean, heart, this is probably not  
NOTE Confidence: 0.837505695384615  
00:17:05.815 --> 00:17:08.022 the best search for rare disease. Well.  
NOTE Confidence: 0.837505695384615  
00:17:08.022 --> 00:17:10.074 There certainly could be something here.  
NOTE Confidence: 0.837505695384615  
00:17:10.080 --> 00:17:12.747 Anyway, if you do not see whatever  
NOTE Confidence: 0.837505695384615  
00:17:12.747 --> 00:17:14.825 condition or procedure you're looking  
NOTE Confidence: 0.837505695384615  
00:17:14.825 --> 00:17:16.975 for in this prepopulated list,  
NOTE Confidence: 0.837505695384615  
00:17:16.980 --> 00:17:19.339 please reach out to us by clicking  
NOTE Confidence: 0.837505695384615  
00:17:19.339 --> 00:17:21.113 this suggest new clinical keyword  
NOTE Confidence: 0.837505695384615  
00:17:21.113 --> 00:17:23.521 and you can simply tell us what  
NOTE Confidence: 0.837505695384615  
00:17:23.521 --> 00:17:25.787 the specialty is that's missing.  
NOTE Confidence: 0.837505695384615  
00:17:25.790 --> 00:17:27.862 Hopefully it is in our system and  
NOTE Confidence: 0.837505695384615  
00:17:27.862 --> 00:17:29.922 just going by some other name that  
NOTE Confidence: 0.837505695384615

00:17:29.922 --> 00:17:32.280 maybe we need to add as a synonym,  
NOTE Confidence: 0.837505695384615

00:17:32.280 --> 00:17:34.520 but it it is possible that we're not  
NOTE Confidence: 0.837505695384615

00:17:34.520 --> 00:17:36.320 capturing every single specialty here,  
NOTE Confidence: 0.837505695384615

00:17:36.320 --> 00:17:38.378 so please do use that if you're  
NOTE Confidence: 0.837505695384615

00:17:38.378 --> 00:17:40.448 not seeing what you expect to see.  
NOTE Confidence: 0.837505695384615

00:17:40.450 --> 00:17:41.042 Similarly, uh,  
NOTE Confidence: 0.837505695384615

00:17:41.042 --> 00:17:43.410 how do you want to build your practice?  
NOTE Confidence: 0.837505695384615

00:17:43.410 --> 00:17:44.390 This is a separate list,  
NOTE Confidence: 0.837505695384615

00:17:44.390 --> 00:17:46.286 but it's a very similar purpose.  
NOTE Confidence: 0.837505695384615

00:17:46.290 --> 00:17:49.986 If there is some procedure that you would  
NOTE Confidence: 0.837505695384615

00:17:49.986 --> 00:17:54.128 like to specialize or perform more often,  
NOTE Confidence: 0.837505695384615

00:17:54.130 --> 00:17:55.635 but you maybe haven't actually  
NOTE Confidence: 0.837505695384615

00:17:55.635 --> 00:17:57.410 performed it all that much yet,  
NOTE Confidence: 0.837505695384615

00:17:57.410 --> 00:17:58.367 it's obviously not.  
NOTE Confidence: 0.837505695384615

00:17:58.367 --> 00:18:00.600 You're not going to be strongly associated  
NOTE Confidence: 0.837505695384615

00:18:00.659 --> 00:18:02.309 with whatever that procedure is.

NOTE Confidence: 0.837505695384615  
00:18:02.310 --> 00:18:04.221 So similarly, if there is some way  
NOTE Confidence: 0.837505695384615  
00:18:04.221 --> 00:18:06.169 you're trying to build your practice,  
NOTE Confidence: 0.837505695384615  
00:18:06.170 --> 00:18:10.027 you should add the relevant words here.  
NOTE Confidence: 0.837505695384615  
00:18:10.030 --> 00:18:13.986 Umm. And then these are a little easier.  
NOTE Confidence: 0.837505695384615  
00:18:13.990 --> 00:18:15.805 These patient interactions on these  
NOTE Confidence: 0.837505695384615  
00:18:15.805 --> 00:18:18.368 yes or no questions are very important  
NOTE Confidence: 0.837505695384615  
00:18:18.368 --> 00:18:20.402 for how your profile is presented  
NOTE Confidence: 0.837505695384615  
00:18:20.402 --> 00:18:22.499 on the Yale Medicine website.  
NOTE Confidence: 0.837505695384615  
00:18:22.500 --> 00:18:24.003 People because if.  
NOTE Confidence: 0.837505695384615  
00:18:24.003 --> 00:18:26.508 You see patients by appointment.  
NOTE Confidence: 0.837505695384615  
00:18:26.510 --> 00:18:28.526 We want to make sure that we're providing  
NOTE Confidence: 0.837505695384615  
00:18:28.526 --> 00:18:29.967 information for them to contact you.  
NOTE Confidence: 0.837505695384615  
00:18:29.970 --> 00:18:31.762 If you are a pathologist who is  
NOTE Confidence: 0.837505695384615  
00:18:31.762 --> 00:18:33.644 never going to have an appointment  
NOTE Confidence: 0.837505695384615  
00:18:33.644 --> 00:18:35.044 directly with a patient,  
NOTE Confidence: 0.837505695384615

00:18:35.050 --> 00:18:38.182 then we don't want to make it seem like  
NOTE Confidence: 0.837505695384615

00:18:38.182 --> 00:18:40.030 somebody could make an appointment with you.  
NOTE Confidence: 0.837505695384615

00:18:40.030 --> 00:18:42.330 So this is pretty straightforward.  
NOTE Confidence: 0.837505695384615

00:18:42.330 --> 00:18:43.814 There is a bit more information on  
NOTE Confidence: 0.837505695384615

00:18:43.814 --> 00:18:45.369 that link that Denise shared with you  
NOTE Confidence: 0.837505695384615

00:18:45.369 --> 00:18:47.020 about how to fill out these fields,  
NOTE Confidence: 0.837505695384615

00:18:47.020 --> 00:18:48.610 but I I think they're  
NOTE Confidence: 0.837505695384615

00:18:48.610 --> 00:18:49.246 relatively straightforward.  
NOTE Confidence: 0.849187175909091

00:18:52.940 --> 00:18:55.649 Also, you will see a list of articles that  
NOTE Confidence: 0.849187175909091

00:18:55.649 --> 00:18:58.399 are appear on the L Medicine site that  
NOTE Confidence: 0.849187175909091

00:18:58.399 --> 00:19:00.991 you are currently associated with. Umm.  
NOTE Confidence: 0.849187175909091

00:19:00.991 --> 00:19:03.697 Obviously the algorithm is not perfect,  
NOTE Confidence: 0.849187175909091

00:19:03.700 --> 00:19:05.580 so if you find that you are associated  
NOTE Confidence: 0.849187175909091

00:19:05.580 --> 00:19:07.298 with an article that doesn't really  
NOTE Confidence: 0.849187175909091

00:19:07.298 --> 00:19:09.080 belong and you don't think you  
NOTE Confidence: 0.849187175909091

00:19:09.134 --> 00:19:10.976 should be appearing on that article,

NOTE Confidence: 0.849187175909091  
00:19:10.980 --> 00:19:14.517 you can use this toggle right here to  
NOTE Confidence: 0.849187175909091  
00:19:14.517 --> 00:19:17.019 to hide yourself from that article.  
NOTE Confidence: 0.849187175909091  
00:19:17.020 --> 00:19:19.428 It does help us improve the algorithm  
NOTE Confidence: 0.849187175909091  
00:19:19.428 --> 00:19:21.110 if you can give us.  
NOTE Confidence: 0.849187175909091  
00:19:21.110 --> 00:19:23.752 A reason why you don't want, hopefully.  
NOTE Confidence: 0.849187175909091  
00:19:23.752 --> 00:19:25.324 I think the reason will likely  
NOTE Confidence: 0.849187175909091  
00:19:25.324 --> 00:19:27.929 be in this list, but if not,  
NOTE Confidence: 0.849187175909091  
00:19:27.929 --> 00:19:30.444 please let us know why.  
NOTE Confidence: 0.849187175909091  
00:19:30.450 --> 00:19:32.958 That will allow you to prevent  
NOTE Confidence: 0.849187175909091  
00:19:32.958 --> 00:19:36.950 yourself from appearing on that. Call.  
NOTE Confidence: 0.849187175909091  
00:19:36.950 --> 00:19:39.910 Um, I'm going to go ahead. You know,  
NOTE Confidence: 0.849187175909091  
00:19:39.910 --> 00:19:43.130 I'll touch on research very quickly here.  
NOTE Confidence: 0.849187175909091  
00:19:43.130 --> 00:19:44.306 The research tab, uh,  
NOTE Confidence: 0.849187175909091  
00:19:44.306 --> 00:19:46.070 sort of similar to the bio,  
NOTE Confidence: 0.849187175909091  
00:19:46.070 --> 00:19:48.578 we have a brief research summary  
NOTE Confidence: 0.849187175909091

00:19:48.578 --> 00:19:50.670 when you what you can.  
NOTE Confidence: 0.849187175909091

00:19:50.670 --> 00:19:52.160 Ideally, this field would be  
NOTE Confidence: 0.849187175909091

00:19:52.160 --> 00:19:53.650 sort of in layman's terms,  
NOTE Confidence: 0.849187175909091

00:19:53.650 --> 00:19:55.547 or as close to layman's terms as  
NOTE Confidence: 0.849187175909091

00:19:55.547 --> 00:19:57.898 you can get a description of your  
NOTE Confidence: 0.849187175909091

00:19:57.898 --> 00:19:59.710 research and as the title implies,  
NOTE Confidence: 0.849187175909091

00:19:59.710 --> 00:19:59.997 brief.  
NOTE Confidence: 0.849187175909091

00:19:59.997 --> 00:20:02.293 And then we also provide a second field  
NOTE Confidence: 0.849187175909091

00:20:02.293 --> 00:20:04.306 for an extensive description where you  
NOTE Confidence: 0.849187175909091

00:20:04.306 --> 00:20:06.628 can really get into the nitty gritty  
NOTE Confidence: 0.849187175909091

00:20:06.628 --> 00:20:09.012 of the kinds of work that you're doing.  
NOTE Confidence: 0.849187175909091

00:20:09.020 --> 00:20:11.100 Um.  
NOTE Confidence: 0.849187175909091

00:20:11.100 --> 00:20:14.052 The medical subject headings are these  
NOTE Confidence: 0.849187175909091

00:20:14.052 --> 00:20:16.020 research interests keywords here?  
NOTE Confidence: 0.849187175909091

00:20:16.020 --> 00:20:18.750 These are.  
NOTE Confidence: 0.849187175909091

00:20:18.750 --> 00:20:20.310 When you select these keywords,

NOTE Confidence: 0.849187175909091  
00:20:20.310 --> 00:20:24.727 this is actually really important for the  
NOTE Confidence: 0.849187175909091  
00:20:24.730 --> 00:20:26.870 directory of faculty research interests.  
NOTE Confidence: 0.849187175909091  
00:20:26.870 --> 00:20:28.706 That is a site that the  
NOTE Confidence: 0.849187175909091  
00:20:28.706 --> 00:20:29.930 students are directed to.  
NOTE Confidence: 0.849187175909091  
00:20:29.930 --> 00:20:32.716 The Med students are directed to each  
NOTE Confidence: 0.849187175909091  
00:20:32.716 --> 00:20:35.364 year to identify faculty who might  
NOTE Confidence: 0.849187175909091  
00:20:35.364 --> 00:20:37.664 be appropriate mentors for them.  
NOTE Confidence: 0.849187175909091  
00:20:37.670 --> 00:20:40.136 And I'll just, I'll try to.  
NOTE Confidence: 0.849187175909091  
00:20:40.140 --> 00:20:41.990 Let me just demonstrate the  
NOTE Confidence: 0.849187175909091  
00:20:41.990 --> 00:20:43.840 site in case you're not.  
NOTE Confidence: 0.849187175909091  
00:20:43.840 --> 00:20:46.348 Familiar with it.  
NOTE Confidence: 0.849187175909091  
00:20:46.350 --> 00:20:48.576 So you can see how this works.  
NOTE Confidence: 0.849187175909091  
00:20:48.580 --> 00:20:49.025 Apologize,  
NOTE Confidence: 0.849187175909091  
00:20:49.025 --> 00:20:52.585 I should have loaded this up in advance.  
NOTE Confidence: 0.849187175909091  
00:20:52.590 --> 00:20:53.202 Um,  
NOTE Confidence: 0.849187175909091

00:20:53.202 --> 00:20:55.650 so on this website.

NOTE Confidence: 0.849187175909091

00:20:55.650 --> 00:20:57.978 We have there are a few ways you

NOTE Confidence: 0.849187175909091

00:20:57.978 --> 00:20:59.948 can slice and dice this data,

NOTE Confidence: 0.849187175909091

00:20:59.950 --> 00:21:03.630 but we have a list of keywords that

NOTE Confidence: 0.849187175909091

00:21:03.630 --> 00:21:05.580 some at least one faculty member

NOTE Confidence: 0.849187175909091

00:21:05.580 --> 00:21:07.883 at the school has indicated that

NOTE Confidence: 0.849187175909091

00:21:07.883 --> 00:21:10.208 they are interested in researching.

NOTE Confidence: 0.849187175909091

00:21:10.210 --> 00:21:12.714 If I click one of these word keywords

NOTE Confidence: 0.849187175909091

00:21:12.714 --> 00:21:15.790 and I'd like to pick one that maybe

NOTE Confidence: 0.849187175909091

00:21:15.790 --> 00:21:18.009 has several people associated with it.

NOTE Confidence: 0.788303283333333

00:21:20.580 --> 00:21:25.040 I will see a list of the Faculty of indicated

NOTE Confidence: 0.788303283333333

00:21:25.146 --> 00:21:27.938 they are interested in this kind of research.

NOTE Confidence: 0.788303283333333

00:21:27.940 --> 00:21:30.436 I can that from there, it's kind of cool

NOTE Confidence: 0.788303283333333

00:21:30.436 --> 00:21:32.390 that they can continue continue to browse.

NOTE Confidence: 0.788303283333333

00:21:32.390 --> 00:21:33.990 We're going to expose all of the research

NOTE Confidence: 0.788303283333333

00:21:33.990 --> 00:21:35.518 interests for each of these faculty members,

NOTE Confidence: 0.78830328333333  
00:21:35.520 --> 00:21:37.417 so if they see some related keyword  
NOTE Confidence: 0.78830328333333  
00:21:37.417 --> 00:21:39.479 that there may be also interested in,  
NOTE Confidence: 0.78830328333333  
00:21:39.480 --> 00:21:42.896 they can select that and continue to browse.  
NOTE Confidence: 0.78830328333333  
00:21:42.900 --> 00:21:45.402 We also serve a slightly modified  
NOTE Confidence: 0.78830328333333  
00:21:45.402 --> 00:21:47.975 version of your profile here that  
NOTE Confidence: 0.78830328333333  
00:21:47.975 --> 00:21:50.447 emphasizes the research a bit more.  
NOTE Confidence: 0.78830328333333  
00:21:50.450 --> 00:21:52.991 And one thing we add here that  
NOTE Confidence: 0.78830328333333  
00:21:52.991 --> 00:21:55.422 doesn't appear on normally on your  
NOTE Confidence: 0.78830328333333  
00:21:55.422 --> 00:21:57.942 profile are a list of co-authors.  
NOTE Confidence: 0.78830328333333  
00:21:57.950 --> 00:21:59.834 If we have identified that you  
NOTE Confidence: 0.78830328333333  
00:21:59.834 --> 00:22:02.091 have Co written a paper publication  
NOTE Confidence: 0.78830328333333  
00:22:02.091 --> 00:22:04.426 with another ESL faculty member,  
NOTE Confidence: 0.78830328333333  
00:22:04.430 --> 00:22:05.930 they will be linked here.  
NOTE Confidence: 0.78830328333333  
00:22:05.930 --> 00:22:09.430 So it's just a handy way for.  
NOTE Confidence: 0.78830328333333  
00:22:09.430 --> 00:22:13.070 Just for students to see who at the  
NOTE Confidence: 0.78830328333333

00:22:13.070 --> 00:22:15.770 school is researching similar topics.  
NOTE Confidence: 0.788303283333333

00:22:15.770 --> 00:22:17.525 Anyway, that is the reason  
NOTE Confidence: 0.788303283333333

00:22:17.525 --> 00:22:18.929 for selecting these keywords.  
NOTE Confidence: 0.788303283333333

00:22:18.930 --> 00:22:19.977 We do hope.  
NOTE Confidence: 0.788303283333333

00:22:19.977 --> 00:22:22.420 I don't have a timeline for this.  
NOTE Confidence: 0.788303283333333

00:22:22.420 --> 00:22:24.346 We do hope in the future to move to  
NOTE Confidence: 0.788303283333333

00:22:24.346 --> 00:22:26.603 a sort of AI model similar to what  
NOTE Confidence: 0.788303283333333

00:22:26.603 --> 00:22:28.329 we're doing with Yale Medicine,  
NOTE Confidence: 0.788303283333333

00:22:28.330 --> 00:22:31.872 to apply these keywords automatically to each  
NOTE Confidence: 0.788303283333333

00:22:31.872 --> 00:22:35.160 profile based on primarily your publications,  
NOTE Confidence: 0.788303283333333

00:22:35.160 --> 00:22:38.485 which I'll get to in a second.  
NOTE Confidence: 0.788303283333333

00:22:38.490 --> 00:22:41.829 But for now it is this sort  
NOTE Confidence: 0.788303283333333

00:22:41.829 --> 00:22:43.260 of manual process.  
NOTE Confidence: 0.788303283333333

00:22:43.260 --> 00:22:45.374 We will try to improve it soon.  
NOTE Confidence: 0.788303283333333

00:22:45.380 --> 00:22:45.872 Lastly,  
NOTE Confidence: 0.788303283333333

00:22:45.872 --> 00:22:49.316 I want to quickly mention research images.

NOTE Confidence: 0.78830328333333  
00:22:49.320 --> 00:22:51.528 We found that this category is  
NOTE Confidence: 0.78830328333333  
00:22:51.528 --> 00:22:53.770 just a little too specific.  
NOTE Confidence: 0.78830328333333  
00:22:53.770 --> 00:22:55.258 Lots of faculty have media that  
NOTE Confidence: 0.78830328333333  
00:22:55.258 --> 00:22:57.119 they'd like to share on their profile,  
NOTE Confidence: 0.78830328333333  
00:22:57.120 --> 00:22:59.838 and it's not always research images.  
NOTE Confidence: 0.78830328333333  
00:22:59.840 --> 00:23:01.316 We're not going to get rid of this field,  
NOTE Confidence: 0.78830328333333  
00:23:01.320 --> 00:23:03.749 but we are going to move it  
NOTE Confidence: 0.78830328333333  
00:23:03.749 --> 00:23:05.980 somewhere else into a more generic.  
NOTE Confidence: 0.78830328333333  
00:23:05.980 --> 00:23:07.858 Related media bucket that you can  
NOTE Confidence: 0.78830328333333  
00:23:07.858 --> 00:23:09.430 then upload whatever you'd like.  
NOTE Confidence: 0.78830328333333  
00:23:09.430 --> 00:23:10.538 It'll display your profile.  
NOTE Confidence: 0.78830328333333  
00:23:10.538 --> 00:23:12.450 Make it a little simpler and less  
NOTE Confidence: 0.78830328333333  
00:23:12.450 --> 00:23:14.767 specific so we're not having tons of  
NOTE Confidence: 0.78830328333333  
00:23:14.767 --> 00:23:17.067 different lists of types of media on  
NOTE Confidence: 0.78830328333333  
00:23:17.067 --> 00:23:19.190 your profile, so please do use this.  
NOTE Confidence: 0.78830328333333

00:23:19.190 --> 00:23:22.058 If you add something here before  
NOTE Confidence: 0.788303283333333

00:23:22.058 --> 00:23:23.210 we make that change,  
NOTE Confidence: 0.788303283333333

00:23:23.210 --> 00:23:27.354 it will move over to our related media  
NOTE Confidence: 0.788303283333333

00:23:27.354 --> 00:23:30.528 section when that change happens.  
NOTE Confidence: 0.788303283333333

00:23:30.530 --> 00:23:31.482 OK, publications.  
NOTE Confidence: 0.788303283333333

00:23:31.482 --> 00:23:31.958 Umm,  
NOTE Confidence: 0.788303283333333

00:23:31.958 --> 00:23:35.290 imagine we might have some questions here.  
NOTE Confidence: 0.788303283333333

00:23:35.290 --> 00:23:39.226 We this is a new method that we  
NOTE Confidence: 0.788303283333333

00:23:39.226 --> 00:23:41.749 have launched with Beatrix.  
NOTE Confidence: 0.788303283333333

00:23:41.750 --> 00:23:43.734 We are matching publications  
NOTE Confidence: 0.788303283333333

00:23:43.734 --> 00:23:46.214 to faculty using dimensions AI,  
NOTE Confidence: 0.788303283333333

00:23:46.220 --> 00:23:48.248 which is a third party tool.  
NOTE Confidence: 0.788303283333333

00:23:48.250 --> 00:23:48.836 Again,  
NOTE Confidence: 0.788303283333333

00:23:48.836 --> 00:23:52.338 it's using AI to match authors  
NOTE Confidence: 0.788303283333333

00:23:52.338 --> 00:23:54.042 to specific publications.  
NOTE Confidence: 0.788303283333333

00:23:54.042 --> 00:23:58.810 Generally we have found it is very accurate,

NOTE Confidence: 0.78830328333333  
00:23:58.810 --> 00:24:01.490 but we do still ask that you approve.  
NOTE Confidence: 0.78830328333333  
00:24:01.490 --> 00:24:02.210 These publications,  
NOTE Confidence: 0.78830328333333  
00:24:02.210 --> 00:24:04.370 just to be certain before they  
NOTE Confidence: 0.78830328333333  
00:24:04.370 --> 00:24:06.020 actually appear on your profile.  
NOTE Confidence: 0.78830328333333  
00:24:06.020 --> 00:24:07.520 Hopefully you don't have hundreds,  
NOTE Confidence: 0.78830328333333  
00:24:07.520 --> 00:24:08.900 but you may if you've never  
NOTE Confidence: 0.78830328333333  
00:24:08.900 --> 00:24:09.820 looked at this before,  
NOTE Confidence: 0.78830328333333  
00:24:09.820 --> 00:24:11.440 which obviously since it's new,  
NOTE Confidence: 0.78830328333333  
00:24:11.440 --> 00:24:14.464 many of us haven't.  
NOTE Confidence: 0.78830328333333  
00:24:14.464 --> 00:24:15.220 So.  
NOTE Confidence: 0.78830328333333  
00:24:15.220 --> 00:24:17.502 If you have pending publications that have  
NOTE Confidence: 0.78830328333333  
00:24:17.502 --> 00:24:19.659 been imported from a dimensions profile,  
NOTE Confidence: 0.78830328333333  
00:24:19.660 --> 00:24:22.156 you will get an e-mail about it and  
NOTE Confidence: 0.78830328333333  
00:24:22.156 --> 00:24:24.812 when you get that e-mail it will  
NOTE Confidence: 0.78830328333333  
00:24:24.812 --> 00:24:27.488 link you directly to this page.  
NOTE Confidence: 0.78830328333333

00:24:27.490 --> 00:24:30.969 And to approve or reject these publications,  
NOTE Confidence: 0.788303283333333

00:24:30.970 --> 00:24:33.147 you can simply go through this list,  
NOTE Confidence: 0.849274236

00:24:33.150 --> 00:24:35.850 verify it is your publication,  
NOTE Confidence: 0.849274236

00:24:35.850 --> 00:24:39.718 and accept it if it is, if it is not.  
NOTE Confidence: 0.849274236

00:24:39.720 --> 00:24:42.058 This one looks like it probably is,  
NOTE Confidence: 0.849274236

00:24:42.060 --> 00:24:43.872 but I'm oh, I should have  
NOTE Confidence: 0.849274236

00:24:43.872 --> 00:24:45.080 mentioned this much earlier.  
NOTE Confidence: 0.849274236

00:24:45.080 --> 00:24:47.216 I am currently in the development  
NOTE Confidence: 0.849274236

00:24:47.216 --> 00:24:48.640 environment for the system,  
NOTE Confidence: 0.849274236

00:24:48.640 --> 00:24:51.190 so I'm not actually changing  
NOTE Confidence: 0.849274236

00:24:51.190 --> 00:24:52.936 the doctor's profile right now.  
NOTE Confidence: 0.849274236

00:24:52.936 --> 00:24:55.162 So none of this is going to  
NOTE Confidence: 0.849274236

00:24:55.162 --> 00:24:56.697 be reflected on the website.  
NOTE Confidence: 0.849274236

00:24:56.700 --> 00:24:59.010 If it wasn't a publication I that  
NOTE Confidence: 0.849274236

00:24:59.010 --> 00:25:01.564 belongs to me, I could reject it.  
NOTE Confidence: 0.849274236

00:25:01.564 --> 00:25:02.737 We are working.

NOTE Confidence: 0.849274236  
00:25:02.740 --> 00:25:05.170 I realize this is a big pain if you  
NOTE Confidence: 0.849274236  
00:25:05.170 --> 00:25:07.868 have dozens or hundreds of publications.  
NOTE Confidence: 0.849274236  
00:25:07.870 --> 00:25:08.767 Here we are.  
NOTE Confidence: 0.849274236  
00:25:08.767 --> 00:25:10.860 Working to add a multi select function  
NOTE Confidence: 0.849274236  
00:25:10.918 --> 00:25:12.801 to this table soon so that you  
NOTE Confidence: 0.849274236  
00:25:12.801 --> 00:25:14.669 could simply go through the list,  
NOTE Confidence: 0.849274236  
00:25:14.670 --> 00:25:16.469 check off all the boxes and then  
NOTE Confidence: 0.849274236  
00:25:16.469 --> 00:25:18.268 approve or reject everything at once,  
NOTE Confidence: 0.849274236  
00:25:18.270 --> 00:25:20.470 which would be a little easier than clicking,  
NOTE Confidence: 0.849274236  
00:25:20.470 --> 00:25:21.890 getting the message, clicking,  
NOTE Confidence: 0.849274236  
00:25:21.890 --> 00:25:23.310 getting the message again.  
NOTE Confidence: 0.849274236  
00:25:23.310 --> 00:25:25.434 So we're trying to stream that  
NOTE Confidence: 0.849274236  
00:25:25.434 --> 00:25:27.470 streamline that a bit for you.  
NOTE Confidence: 0.849274236  
00:25:27.470 --> 00:25:30.643 One additional note here is dimensions  
NOTE Confidence: 0.849274236  
00:25:30.643 --> 00:25:32.708 in general is very accurate.  
NOTE Confidence: 0.849274236

00:25:32.710 --> 00:25:35.566 If you find that you are rejecting lots  
NOTE Confidence: 0.849274236

00:25:35.566 --> 00:25:39.410 of publications, I would say more than.  
NOTE Confidence: 0.849274236

00:25:39.410 --> 00:25:42.515 Five or even maybe 2% of your publications.  
NOTE Confidence: 0.849274236

00:25:42.515 --> 00:25:44.790 If you're having to reject more than  
NOTE Confidence: 0.849274236

00:25:44.853 --> 00:25:46.929 a couple publications here and there,  
NOTE Confidence: 0.849274236

00:25:46.930 --> 00:25:49.300 the problem is likely the profiles  
NOTE Confidence: 0.849274236

00:25:49.300 --> 00:25:51.373 in dimensions that we've associated  
NOTE Confidence: 0.849274236

00:25:51.373 --> 00:25:52.630 with with you.  
NOTE Confidence: 0.849274236

00:25:52.630 --> 00:25:54.136 It may be that they're just  
NOTE Confidence: 0.849274236

00:25:54.136 --> 00:25:55.810 incorrect and we need to fix them.  
NOTE Confidence: 0.849274236

00:25:55.810 --> 00:25:58.366 So if you see lots and lots of incorrect  
NOTE Confidence: 0.849274236

00:25:58.366 --> 00:25:59.989 publications that you have to reject,  
NOTE Confidence: 0.849274236

00:25:59.990 --> 00:26:01.790 please don't go through the exercise  
NOTE Confidence: 0.849274236

00:26:01.790 --> 00:26:03.710 of rejecting all these publications.  
NOTE Confidence: 0.849274236

00:26:03.710 --> 00:26:07.190 The real fix is to get in touch with us.  
NOTE Confidence: 0.849274236

00:26:07.190 --> 00:26:08.594 You can click this link to

NOTE Confidence: 0.849274236  
00:26:08.594 --> 00:26:09.530 e-mail wise Sunday editor.  
NOTE Confidence: 0.849274236  
00:26:09.530 --> 00:26:11.294 Again, you could use report a bug.  
NOTE Confidence: 0.849274236  
00:26:11.300 --> 00:26:14.268 We also have this don't see your  
NOTE Confidence: 0.849274236  
00:26:14.268 --> 00:26:16.375 publications button here that will  
NOTE Confidence: 0.849274236  
00:26:16.375 --> 00:26:19.028 prompt an e-mail to us and we're  
NOTE Confidence: 0.849274236  
00:26:19.028 --> 00:26:21.719 actually this isn't in place right now,  
NOTE Confidence: 0.849274236  
00:26:21.720 --> 00:26:25.098 but because we've had this issue  
NOTE Confidence: 0.849274236  
00:26:25.100 --> 00:26:26.792 with a few users already where  
NOTE Confidence: 0.849274236  
00:26:26.792 --> 00:26:29.031 they spend a lot of time rejecting  
NOTE Confidence: 0.849274236  
00:26:29.031 --> 00:26:30.771 publications when really we just  
NOTE Confidence: 0.849274236  
00:26:30.771 --> 00:26:32.860 need to update their profiles.  
NOTE Confidence: 0.849274236  
00:26:32.860 --> 00:26:34.897 We are soon going to be adding  
NOTE Confidence: 0.849274236  
00:26:34.897 --> 00:26:36.840 in live logic that if you start  
NOTE Confidence: 0.849274236  
00:26:36.840 --> 00:26:38.200 rejecting a lot of publications,  
NOTE Confidence: 0.849274236  
00:26:38.200 --> 00:26:39.744 we're going to prompt you to contact us.  
NOTE Confidence: 0.849274236

00:26:39.750 --> 00:26:42.204 We just don't want people spending  
NOTE Confidence: 0.849274236

00:26:42.204 --> 00:26:45.050 tons and tons of time rejecting  
NOTE Confidence: 0.849274236

00:26:45.050 --> 00:26:46.826 publications that don't belong to them,  
NOTE Confidence: 0.849274236

00:26:46.830 --> 00:26:49.158 when really we just need to fix the  
NOTE Confidence: 0.849274236

00:26:49.158 --> 00:26:51.769 profile so that those don't appear at all.  
NOTE Confidence: 0.849274236

00:26:51.770 --> 00:26:54.255 And that your results will be accurate  
NOTE Confidence: 0.849274236

00:26:54.255 --> 00:26:56.140 going forward more importantly?  
NOTE Confidence: 0.849274236

00:26:56.140 --> 00:26:57.980 Um.  
NOTE Confidence: 0.849274236

00:26:57.980 --> 00:26:59.828 Do we have any questions about publications?  
NOTE Confidence: 0.849274236

00:26:59.830 --> 00:27:01.209 I know that there were a bunch  
NOTE Confidence: 0.849274236

00:27:01.209 --> 00:27:02.500 of issues with this at launch.  
NOTE Confidence: 0.849274236

00:27:02.500 --> 00:27:04.396 We've tried to resolve a lot of them,  
NOTE Confidence: 0.849274236

00:27:04.400 --> 00:27:05.780 but if there are questions,  
NOTE Confidence: 0.849274236

00:27:05.780 --> 00:27:09.158 please do feel free to ask.  
NOTE Confidence: 0.849274236

00:27:09.160 --> 00:27:09.630 I I  
NOTE Confidence: 0.8010998

00:27:09.640 --> 00:27:10.564 actually have a question.

NOTE Confidence: 0.8010998  
00:27:10.564 --> 00:27:12.070 This is Darren. David, could you  
NOTE Confidence: 0.8010998  
00:27:12.070 --> 00:27:13.690 scroll back up for one second?  
NOTE Confidence: 0.778075244  
00:27:14.350 --> 00:27:16.390 Sure. I had a quick.  
NOTE Confidence: 0.87135488375  
00:27:16.400 --> 00:27:18.808 Thank you very much. I had a question,  
NOTE Confidence: 0.87135488375  
00:27:18.810 --> 00:27:21.537 could you go all the way up because I.  
NOTE Confidence: 0.87135488375  
00:27:21.540 --> 00:27:24.128 OK. So I'm not seeing it here where it  
NOTE Confidence: 0.87135488375  
00:27:24.128 --> 00:27:26.340 says public view versus not public view.  
NOTE Confidence: 0.87135488375  
00:27:26.340 --> 00:27:28.562 I think I saw that and and I tried  
NOTE Confidence: 0.87135488375  
00:27:28.562 --> 00:27:29.990 to change that on mine and I  
NOTE Confidence: 0.85305440375  
00:27:30.000 --> 00:27:31.805 didn't know and then everything  
NOTE Confidence: 0.85305440375  
00:27:31.805 --> 00:27:35.610 was still populating on my.  
NOTE Confidence: 0.834517876363636  
00:27:35.610 --> 00:27:36.540 Like when I then went in  
NOTE Confidence: 0.834517876363636  
00:27:36.540 --> 00:27:37.510 and looked at my profile,  
NOTE Confidence: 0.834517876363636  
00:27:37.510 --> 00:27:39.484 even if I turned public view off.  
NOTE Confidence: 0.834517876363636  
00:27:39.490 --> 00:27:41.266 So I don't know what that is exactly.  
NOTE Confidence: 0.842721676

00:27:41.650 --> 00:27:44.790 So you understood it correctly.

NOTE Confidence: 0.842721676

00:27:44.790 --> 00:27:47.193 It sounds like we one issue we have been

NOTE Confidence: 0.842721676

00:27:47.193 --> 00:27:49.402 having since the new system launched that

NOTE Confidence: 0.842721676

00:27:49.402 --> 00:27:51.849 we've been trying to address is that changes

NOTE Confidence: 0.842721676

00:27:51.849 --> 00:27:53.843 made in the system are not reflecting

NOTE Confidence: 0.842721676

00:27:53.843 --> 00:27:56.107 the website as quickly as they should be.

NOTE Confidence: 0.842721676

00:27:56.110 --> 00:27:57.642 Generally when you're right,

NOTE Confidence: 0.842721676

00:27:57.642 --> 00:28:00.686 when you change a value from here from

NOTE Confidence: 0.842721676

00:28:00.686 --> 00:28:04.250 public to this lock icon, the red icon it is,

NOTE Confidence: 0.842721676

00:28:04.250 --> 00:28:06.978 it should be hidden from your public profile.

NOTE Confidence: 0.842721676

00:28:06.980 --> 00:28:08.925 Um, generally that should happen

NOTE Confidence: 0.842721676

00:28:08.925 --> 00:28:11.280 with within 5 minutes or less,

NOTE Confidence: 0.842721676

00:28:11.280 --> 00:28:14.214 but there is some bug that is preventing it

NOTE Confidence: 0.842721676

00:28:14.214 --> 00:28:17.057 from updating immediately on the website,

NOTE Confidence: 0.842721676

00:28:17.060 --> 00:28:20.018 so I apologize for the inconvenience,

NOTE Confidence: 0.842721676

00:28:20.020 --> 00:28:21.860 but that is what that option is for.

NOTE Confidence: 0.842721676  
00:28:21.860 --> 00:28:24.954 If you set this toggle to private,  
NOTE Confidence: 0.842721676  
00:28:24.960 --> 00:28:27.160 then it should no longer  
NOTE Confidence: 0.842721676  
00:28:27.160 --> 00:28:28.920 display on your profile.  
NOTE Confidence: 0.842721676  
00:28:28.920 --> 00:28:30.978 If you do see that your profile  
NOTE Confidence: 0.842721676  
00:28:30.978 --> 00:28:31.860 isn't updating immediately,  
NOTE Confidence: 0.842721676  
00:28:31.860 --> 00:28:33.939 we we are aware of this issue,  
NOTE Confidence: 0.842721676  
00:28:33.940 --> 00:28:36.116 but it helps to know if somebody is  
NOTE Confidence: 0.842721676  
00:28:36.116 --> 00:28:37.279 actively experiencing the problem.  
NOTE Confidence: 0.842721676  
00:28:37.280 --> 00:28:37.872 So again,  
NOTE Confidence: 0.842721676  
00:28:37.872 --> 00:28:39.648 if you're experiencing that issue where  
NOTE Confidence: 0.842721676  
00:28:39.648 --> 00:28:41.419 you're making updates to your profile,  
NOTE Confidence: 0.842721676  
00:28:41.420 --> 00:28:42.700 you've waited the five minutes,  
NOTE Confidence: 0.842721676  
00:28:42.700 --> 00:28:43.755 and you're still not seeing  
NOTE Confidence: 0.842721676  
00:28:43.755 --> 00:28:44.599 it on the website,  
NOTE Confidence: 0.842721676  
00:28:44.600 --> 00:28:45.853 please let us know and we can  
NOTE Confidence: 0.842721676

00:28:45.853 --> 00:28:47.706 use that as an example to try to

NOTE Confidence: 0.842721676

00:28:47.706 --> 00:28:48.718 investigate this issue further.

NOTE Confidence: 0.842721676

00:28:48.720 --> 00:28:50.070 I do apologize for that.

NOTE Confidence: 0.846640765

00:28:50.990 --> 00:28:52.406 No problem. Thank you for for

NOTE Confidence: 0.846640765

00:28:52.406 --> 00:28:53.800 clarifying what that is. I appreciate

NOTE Confidence: 0.874203174

00:28:53.810 --> 00:28:55.162 it. Sure. Thank you.

NOTE Confidence: 0.874203174

00:28:55.162 --> 00:28:57.190 I should also mention in this,

NOTE Confidence: 0.874203174

00:28:57.190 --> 00:29:00.795 so the reason why this public private

NOTE Confidence: 0.874203174

00:29:00.800 --> 00:29:02.627 toggle did not show up is because

NOTE Confidence: 0.874203174

00:29:02.627 --> 00:29:04.580 I was looking at the pending list.

NOTE Confidence: 0.874203174

00:29:04.580 --> 00:29:06.920 This will only show up once I'm looking at

NOTE Confidence: 0.874203174

00:29:06.920 --> 00:29:09.220 the publications I've already accepted.

NOTE Confidence: 0.874203174

00:29:09.220 --> 00:29:10.075 Pending publications will

NOTE Confidence: 0.874203174

00:29:10.075 --> 00:29:11.500 never appear on your profile,

NOTE Confidence: 0.874203174

00:29:11.500 --> 00:29:13.299 only those that you have accepted well.

NOTE Confidence: 0.874203174

00:29:13.300 --> 00:29:15.136 And even on top of that,

NOTE Confidence: 0.874203174

00:29:15.140 --> 00:29:17.092 we do want you.

NOTE Confidence: 0.874203174

00:29:17.092 --> 00:29:19.044 That's an important distinction.

NOTE Confidence: 0.874203174

00:29:19.050 --> 00:29:20.540 You might see a publication

NOTE Confidence: 0.874203174

00:29:20.540 --> 00:29:22.470 in this list that is yours,

NOTE Confidence: 0.874203174

00:29:22.470 --> 00:29:24.504 but you don't want to display on the profile.

NOTE Confidence: 0.874203174

00:29:24.510 --> 00:29:25.674 Please accept it anyway.

NOTE Confidence: 0.874203174

00:29:25.674 --> 00:29:28.549 But then you can hide it using this toggle.

NOTE Confidence: 0.874203174

00:29:28.550 --> 00:29:30.770 We just want to make sure we have an accurate

NOTE Confidence: 0.874203174

00:29:30.829 --> 00:29:32.810 list of your publications in the system,

NOTE Confidence: 0.874203174

00:29:32.810 --> 00:29:34.286 even if you don't want it

NOTE Confidence: 0.874203174

00:29:34.286 --> 00:29:35.790 to display on the website.

NOTE Confidence: 0.874203174

00:29:35.790 --> 00:29:37.374 Mark, can I ask you a quick question?

NOTE Confidence: 0.874203174

00:29:37.380 --> 00:29:39.296 This is Larry Villano. Thanks for your.

NOTE Confidence: 0.874203174

00:29:39.296 --> 00:29:40.308 You're being very clear.

NOTE Confidence: 0.874203174

00:29:40.310 --> 00:29:41.262 Thank you.

NOTE Confidence: 0.874203174

00:29:41.262 --> 00:29:42.690 My question is,  
NOTE Confidence: 0.874203174

00:29:42.690 --> 00:29:43.932 I'm one of those negligent people  
NOTE Confidence: 0.874203174

00:29:43.932 --> 00:29:44.996 who hasn't done this for a while,  
NOTE Confidence: 0.874203174

00:29:45.000 --> 00:29:46.522 and the people around me are just  
NOTE Confidence: 0.874203174

00:29:46.522 --> 00:29:48.560 so overwhelmed that, you know,  
NOTE Confidence: 0.874203174

00:29:48.560 --> 00:29:49.560 they say,  
NOTE Confidence: 0.900575748333333

00:29:48.250 --> 00:29:49.550 I'll help you. I'll help you. But  
NOTE Confidence: 0.872170995

00:29:49.560 --> 00:29:51.792 it's it's really hard to get to can we  
NOTE Confidence: 0.872170995

00:29:51.792 --> 00:29:54.412 do this part part way, you know and  
NOTE Confidence: 0.872170995

00:29:54.412 --> 00:29:57.438 not sit down for you know, 60 hours to  
NOTE Confidence: 0.780181965

00:29:57.450 --> 00:29:58.930 go through everything. Yeah.  
NOTE Confidence: 0.848526605

00:29:59.560 --> 00:30:00.694 And and then just stop and  
NOTE Confidence: 0.848526605

00:30:00.694 --> 00:30:01.879 then come back to it later.  
NOTE Confidence: 0.848526605

00:30:01.880 --> 00:30:03.010 You totally can do that.  
NOTE Confidence: 0.848526605

00:30:03.010 --> 00:30:05.386 You totally. OK. Thank you. Do that.  
NOTE Confidence: 0.848526605

00:30:05.386 --> 00:30:07.864 We're also I realize we've been

NOTE Confidence: 0.848526605  
00:30:07.864 --> 00:30:09.478 annoying annoying you a lot.  
NOTE Confidence: 0.848526605  
00:30:09.480 --> 00:30:10.980 The people who have not received  
NOTE Confidence: 0.848526605  
00:30:10.980 --> 00:30:12.277 your publications yet because you're  
NOTE Confidence: 0.848526605  
00:30:12.277 --> 00:30:13.795 receiving an e-mail every single day.  
NOTE Confidence: 0.848526605  
00:30:13.800 --> 00:30:16.673 Another every single work  
NOTE Confidence: 0.848526605  
00:30:16.673 --> 00:30:18.237 day at least weekday.  
NOTE Confidence: 0.848526605  
00:30:18.240 --> 00:30:19.878 We are working to add some.  
NOTE Confidence: 0.848526605  
00:30:19.880 --> 00:30:21.524 Customization options to that so that  
NOTE Confidence: 0.848526605  
00:30:21.524 --> 00:30:23.355 maybe you don't get an e-mail every  
NOTE Confidence: 0.848526605  
00:30:23.355 --> 00:30:25.570 single day and maybe you get it once a week.  
NOTE Confidence: 0.848526605  
00:30:25.570 --> 00:30:27.090 We don't want to really turn them off  
NOTE Confidence: 0.848526605  
00:30:27.090 --> 00:30:28.084 entirely because I'm worried that  
NOTE Confidence: 0.848526605  
00:30:28.084 --> 00:30:29.435 people are going to forget about them.  
NOTE Confidence: 0.848526605  
00:30:29.440 --> 00:30:31.342 But bugging people every single day  
NOTE Confidence: 0.848526605  
00:30:31.342 --> 00:30:33.569 does seem to kind of be overkill.  
NOTE Confidence: 0.848526605

00:30:33.570 --> 00:30:36.506 So that we're not clogging up your inboxes.

NOTE Confidence: 0.848526605

00:30:36.510 --> 00:30:39.132 We are going to add some

NOTE Confidence: 0.848526605

00:30:39.132 --> 00:30:40.336 notification settings options,

NOTE Confidence: 0.848526605

00:30:40.336 --> 00:30:42.251 but you can certainly just

NOTE Confidence: 0.848526605

00:30:42.251 --> 00:30:44.449 do this as you have time.

NOTE Confidence: 0.848526605

00:30:44.450 --> 00:30:47.890 Go through even a dozen at a time.

NOTE Confidence: 0.848526605

00:30:47.890 --> 00:30:48.709 Accept or reject.

NOTE Confidence: 0.848526605

00:30:48.709 --> 00:30:50.347 It's going to save your work.

NOTE Confidence: 0.848526605

00:30:50.350 --> 00:30:51.645 The publications that you accept

NOTE Confidence: 0.848526605

00:30:51.645 --> 00:30:53.386 are going to start showing up in

NOTE Confidence: 0.848526605

00:30:53.386 --> 00:30:54.592 your profile and you can come

NOTE Confidence: 0.848526605

00:30:54.592 --> 00:30:55.529 back later and finish.

NOTE Confidence: 0.848526605

00:30:55.530 --> 00:30:56.535 You definitely do not have

NOTE Confidence: 0.848526605

00:30:56.535 --> 00:30:57.930 to do it all in one go.

NOTE Confidence: 0.848526605

00:30:57.930 --> 00:31:00.290 Thank you.

NOTE Confidence: 0.848526605

00:31:00.290 --> 00:31:02.194 The other thing I wanted to mention the

NOTE Confidence: 0.848526605  
00:31:02.194 --> 00:31:04.119 last bit here is what I'm looking at.  
NOTE Confidence: 0.848526605  
00:31:04.120 --> 00:31:06.020 These accepted publications that  
NOTE Confidence: 0.848526605  
00:31:06.020 --> 00:31:08.590 I've already confirmed as my own.  
NOTE Confidence: 0.848526605  
00:31:08.590 --> 00:31:11.930 I can also feature some of these  
NOTE Confidence: 0.848526605  
00:31:11.930 --> 00:31:12.749 publications.  
NOTE Confidence: 0.848526605  
00:31:12.750 --> 00:31:15.430 All this does is it's going to force.  
NOTE Confidence: 0.848526605  
00:31:15.430 --> 00:31:16.290 By default,  
NOTE Confidence: 0.848526605  
00:31:16.290 --> 00:31:18.440 all of your publications will  
NOTE Confidence: 0.848526605  
00:31:18.440 --> 00:31:20.477 display most recent to furthest  
NOTE Confidence: 0.848526605  
00:31:20.477 --> 00:31:22.487 in the past at the bottom.  
NOTE Confidence: 0.848526605  
00:31:22.490 --> 00:31:25.948 You can override that order by featuring  
NOTE Confidence: 0.848526605  
00:31:25.948 --> 00:31:29.270 these publications so I could feature a few.  
NOTE Confidence: 0.848526605  
00:31:29.270 --> 00:31:31.650 We'll pretend those are my most important.  
NOTE Confidence: 0.848526605  
00:31:31.650 --> 00:31:33.588 And then in this feature tab,  
NOTE Confidence: 0.848526605  
00:31:33.590 --> 00:31:35.020 if I want these disappear  
NOTE Confidence: 0.848526605

00:31:35.020 --> 00:31:36.164 in some particular order,  
NOTE Confidence: 0.848526605

00:31:36.170 --> 00:31:38.970 I can hover over these dots here to  
NOTE Confidence: 0.848526605

00:31:38.970 --> 00:31:42.146 drag and drop these and order I'd like.  
NOTE Confidence: 0.848526605

00:31:42.150 --> 00:31:44.610 Currently this is limited to five,  
NOTE Confidence: 0.848526605

00:31:44.610 --> 00:31:46.980 but we realize that five publications  
NOTE Confidence: 0.848526605

00:31:46.980 --> 00:31:49.781 might be a little too difficult to  
NOTE Confidence: 0.848526605

00:31:49.781 --> 00:31:52.810 choose just five if you have several 100.  
NOTE Confidence: 0.848526605

00:31:52.810 --> 00:31:54.370 So we are going to bump this up to 20.  
NOTE Confidence: 0.848526605

00:31:54.370 --> 00:31:56.738 We don't want to bump it up to  
NOTE Confidence: 0.848526605

00:31:56.738 --> 00:31:58.032 unlimited because we actually  
NOTE Confidence: 0.848526605

00:31:58.032 --> 00:32:00.298 in the previous system had some  
NOTE Confidence: 0.848526605

00:32:00.298 --> 00:32:02.330 users who were featuring.  
NOTE Confidence: 0.848526605

00:32:02.330 --> 00:32:03.395 Hundreds of publications,  
NOTE Confidence: 0.848526605

00:32:03.395 --> 00:32:05.525 which sort of defeats the purpose  
NOTE Confidence: 0.848526605

00:32:05.525 --> 00:32:07.123 of featuring them at all.  
NOTE Confidence: 0.848526605

00:32:07.123 --> 00:32:08.990 So we are going to bump up this

NOTE Confidence: 0.848526605  
00:32:08.990 --> 00:32:10.817 limit to 20 soon if you're having  
NOTE Confidence: 0.848526605  
00:32:10.817 --> 00:32:12.699 a tough time picking just five.  
NOTE Confidence: 0.23818451  
00:32:14.950 --> 00:32:20.633 Um. This. I'm going to go over a couple  
NOTE Confidence: 0.23818451  
00:32:20.633 --> 00:32:22.126 of other things really quickly and then I  
NOTE Confidence: 0.23818451  
00:32:22.126 --> 00:32:23.787 would really like to get to the CV builder.  
NOTE Confidence: 0.23818451  
00:32:23.790 --> 00:32:26.712 So let me just touch on these other tabs  
NOTE Confidence: 0.23818451  
00:32:26.712 --> 00:32:29.928 here because actually most of the the pages  
NOTE Confidence: 0.23818451  
00:32:29.928 --> 00:32:33.265 I'm skipping over are really tightly are  
NOTE Confidence: 0.23818451  
00:32:33.265 --> 00:32:35.890 very important to the CD builder itself.  
NOTE Confidence: 0.23818451  
00:32:35.890 --> 00:32:37.710 If you click on news,  
NOTE Confidence: 0.23818451  
00:32:37.710 --> 00:32:39.408 the news tab within your profile,  
NOTE Confidence: 0.23818451  
00:32:39.410 --> 00:32:40.685 the news page I should  
NOTE Confidence: 0.23818451  
00:32:40.685 --> 00:32:41.705 say within your profile,  
NOTE Confidence: 0.23818451  
00:32:41.710 --> 00:32:44.310 you will get a list of news articles  
NOTE Confidence: 0.23818451  
00:32:44.310 --> 00:32:47.394 that are submitted by folks at Yale  
NOTE Confidence: 0.23818451

00:32:47.394 --> 00:32:49.950 that mention that you are tagging.

NOTE Confidence: 0.23818451

00:32:49.950 --> 00:32:51.858 Um, if for whatever reason you

NOTE Confidence: 0.23818451

00:32:51.858 --> 00:32:53.892 don't think you should be associated

NOTE Confidence: 0.23818451

00:32:53.892 --> 00:32:55.647 with one of these articles,

NOTE Confidence: 0.23818451

00:32:55.650 --> 00:32:57.835 maybe you have somebody just

NOTE Confidence: 0.23818451

00:32:57.835 --> 00:32:59.583 tagged the wrong person.

NOTE Confidence: 0.23818451

00:32:59.590 --> 00:33:01.312 You can remove yourself by clicking

NOTE Confidence: 0.23818451

00:33:01.312 --> 00:33:03.270 this little trash can icon icon here.

NOTE Confidence: 0.23818451

00:33:03.270 --> 00:33:04.750 That will remove your association

NOTE Confidence: 0.23818451

00:33:04.750 --> 00:33:05.638 with this article,

NOTE Confidence: 0.23818451

00:33:05.640 --> 00:33:07.600 and you should no longer appear as

NOTE Confidence: 0.23818451

00:33:07.600 --> 00:33:09.669 associated with that article on the website.

NOTE Confidence: 0.23818451

00:33:09.670 --> 00:33:13.150 Very similarly events.

NOTE Confidence: 0.23818451

00:33:13.150 --> 00:33:16.230 Will appear if the events that you are

NOTE Confidence: 0.23818451

00:33:16.230 --> 00:33:19.266 tagged in in some way will appear here.

NOTE Confidence: 0.23818451

00:33:19.266 --> 00:33:22.290 Whether you're the contact or a speaker,

NOTE Confidence: 0.23818451  
00:33:22.290 --> 00:33:24.990 those events will appear here.  
NOTE Confidence: 0.23818451  
00:33:24.990 --> 00:33:27.145 You can also remove yourself  
NOTE Confidence: 0.23818451  
00:33:27.145 --> 00:33:29.300 from those if it's appropriate  
NOTE Confidence: 0.23818451  
00:33:29.379 --> 00:33:31.719 by clicking that trash can icon.  
NOTE Confidence: 0.23818451  
00:33:31.720 --> 00:33:32.860 At this point.  
NOTE Confidence: 0.23818451  
00:33:32.860 --> 00:33:36.559 I'm going to jump over to the CV builder.  
NOTE Confidence: 0.23818451  
00:33:36.560 --> 00:33:36.994 Um,  
NOTE Confidence: 0.23818451  
00:33:36.994 --> 00:33:39.598 this was available in profile system,  
NOTE Confidence: 0.23818451  
00:33:39.600 --> 00:33:43.290 though it was closer to the end  
NOTE Confidence: 0.23818451  
00:33:43.290 --> 00:33:45.615 of the profile system lifecycle.  
NOTE Confidence: 0.23818451  
00:33:45.620 --> 00:33:48.892 But what the CV builder does is it  
NOTE Confidence: 0.23818451  
00:33:48.892 --> 00:33:51.850 allows you to create a actual CV  
NOTE Confidence: 0.23818451  
00:33:51.850 --> 00:33:55.475 document in at the Yale format or the  
NOTE Confidence: 0.23818451  
00:33:55.475 --> 00:33:57.870 Yale Appointments and promotions format  
NOTE Confidence: 0.23818451  
00:33:57.952 --> 00:34:00.888 based on all the data in your profile.  
NOTE Confidence: 0.23818451

00:34:00.890 --> 00:34:05.259 So if I go to the CV builder, I create new.

NOTE Confidence: 0.23818451

00:34:05.260 --> 00:34:08.090 I could create either my, uh,

NOTE Confidence: 0.23818451

00:34:08.090 --> 00:34:09.140 this is an important distinction.

NOTE Confidence: 0.23818451

00:34:09.140 --> 00:34:11.910 So there are really only two formats here.

NOTE Confidence: 0.23818451

00:34:11.910 --> 00:34:13.800 We have the appointments and promotions

NOTE Confidence: 0.23818451

00:34:13.800 --> 00:34:15.719 format and the standard Yale format.

NOTE Confidence: 0.23818451

00:34:15.720 --> 00:34:18.640 You'll also see this option Yale public CV.

NOTE Confidence: 0.23818451

00:34:18.640 --> 00:34:21.307 The only difference between public CV and

NOTE Confidence: 0.23818451

00:34:21.307 --> 00:34:24.655 Yale CV is that if I choose this option,

NOTE Confidence: 0.23818451

00:34:24.660 --> 00:34:26.708 when I get to the last step of

NOTE Confidence: 0.23818451

00:34:26.708 --> 00:34:28.954 the process and I generate my CV,

NOTE Confidence: 0.23818451

00:34:28.954 --> 00:34:32.210 it's also going to appear on my profile.

NOTE Confidence: 0.23818451

00:34:32.210 --> 00:34:34.890 So if you just want the document for

NOTE Confidence: 0.23818451

00:34:34.890 --> 00:34:37.249 your own purposes, select Yale CV.

NOTE Confidence: 0.23818451

00:34:37.249 --> 00:34:40.132 If you want to create the CV document and

NOTE Confidence: 0.23818451

00:34:40.132 --> 00:34:43.230 also post a link to it on your profile,

NOTE Confidence: 0.23818451

00:34:43.230 --> 00:34:47.478 then you select Yale public CV.

NOTE Confidence: 0.23818451

00:34:47.480 --> 00:34:49.489 I'll just go ahead and do that.

NOTE Confidence: 0.23818451

00:34:49.490 --> 00:34:52.206 So when I start generating the CV,

NOTE Confidence: 0.23818451

00:34:52.210 --> 00:34:55.530 it's going to start me through the step

NOTE Confidence: 0.23818451

00:34:55.530 --> 00:34:59.199 by step process where I need to select.

NOTE Confidence: 0.23818451

00:34:59.200 --> 00:35:01.570 Basically from all of the information

NOTE Confidence: 0.23818451

00:35:01.570 --> 00:35:03.499 I've entered into my profile

NOTE Confidence: 0.23818451

00:35:03.499 --> 00:35:05.739 what I want to use for my CV.

NOTE Confidence: 0.23818451

00:35:05.740 --> 00:35:07.936 So very basically I've got to

NOTE Confidence: 0.23818451

00:35:07.936 --> 00:35:09.400 select my contacts address,

NOTE Confidence: 0.23818451

00:35:09.400 --> 00:35:13.090 my contact number, the school.

NOTE Confidence: 0.23818451

00:35:13.090 --> 00:35:15.890 I'll continue on to the next step

NOTE Confidence: 0.23818451

00:35:15.890 --> 00:35:19.019 where it shows my career information.

NOTE Confidence: 0.23818451

00:35:19.020 --> 00:35:20.635 Obviously if you already filled

NOTE Confidence: 0.23818451

00:35:20.635 --> 00:35:21.604 out your profile.

NOTE Confidence: 0.23818451

00:35:21.610 --> 00:35:23.479 This could be a very quick process  
NOTE Confidence: 0.23818451

00:35:23.479 --> 00:35:24.837 of just choosing what information  
NOTE Confidence: 0.23818451

00:35:24.837 --> 00:35:26.845 I would like to show or hide on  
NOTE Confidence: 0.814053115

00:35:26.903 --> 00:35:27.808 the CV. Importantly,  
NOTE Confidence: 0.814053115

00:35:27.808 --> 00:35:31.574 these toggles here will not affect what  
NOTE Confidence: 0.814053115

00:35:31.574 --> 00:35:34.530 information appears on your website profile.  
NOTE Confidence: 0.814053115

00:35:34.530 --> 00:35:36.511 This is only going to affect what  
NOTE Confidence: 0.814053115

00:35:36.511 --> 00:35:39.092 appears or does not appear in the CV  
NOTE Confidence: 0.814053115

00:35:39.092 --> 00:35:40.939 document that's generated here. Umm.  
NOTE Confidence: 0.814053115

00:35:40.939 --> 00:35:45.011 You can go through and fill out your  
NOTE Confidence: 0.814053115

00:35:45.011 --> 00:35:47.750 CV this way and like the publications,  
NOTE Confidence: 0.814053115

00:35:47.750 --> 00:35:50.093 it'll save all your work as you're going  
NOTE Confidence: 0.814053115

00:35:50.093 --> 00:35:52.149 and you can come back to it later.  
NOTE Confidence: 0.814053115

00:35:52.150 --> 00:35:54.400 But I do think it would take quite a  
NOTE Confidence: 0.814053115

00:35:54.400 --> 00:35:56.847 while if you had had never updated your  
NOTE Confidence: 0.814053115

00:35:56.847 --> 00:35:59.209 profile before to go through this process

NOTE Confidence: 0.814053115

00:35:59.209 --> 00:36:03.030 and add everything to generate the CV.

NOTE Confidence: 0.814053115

00:36:03.030 --> 00:36:04.409 I'll talk about that a little bit

NOTE Confidence: 0.814053115

00:36:04.409 --> 00:36:07.440 more in a few, but for now I'll just

NOTE Confidence: 0.814053115

00:36:07.440 --> 00:36:09.208 finish this generation process.

NOTE Confidence: 0.814053115

00:36:09.210 --> 00:36:11.023 Can I ask you a question while

NOTE Confidence: 0.814053115

00:36:11.023 --> 00:36:11.800 you're doing this?

NOTE Confidence: 0.814053115

00:36:11.800 --> 00:36:14.897 Already, you know, have a million CV's,

NOTE Confidence: 0.814053115

00:36:14.897 --> 00:36:17.466 including Yale, part one and Part 2.

NOTE Confidence: 0.814053115

00:36:17.470 --> 00:36:18.130 You know, they take

NOTE Confidence: 0.873727631818182

00:36:18.140 --> 00:36:19.120 forever for, you know,

NOTE Confidence: 0.873727631818182

00:36:19.120 --> 00:36:20.890 every five years now we do them,

NOTE Confidence: 0.873364022

00:36:21.040 --> 00:36:24.080 you know, for advanced people.

NOTE Confidence: 0.873364022

00:36:24.080 --> 00:36:26.069 Can we use any of that stuff or is

NOTE Confidence: 0.873364022

00:36:26.069 --> 00:36:28.146 it better to do it just this way?

NOTE Confidence: 0.873364022

00:36:28.150 --> 00:36:31.948 So the the do you know what I'm asking?

NOTE Confidence: 0.873364022

00:36:31.950 --> 00:36:33.434 I I do know what you're asking.

NOTE Confidence: 0.873364022

00:36:33.440 --> 00:36:34.750 The topic is going to get to in a minute,

NOTE Confidence: 0.873364022

00:36:34.750 --> 00:36:35.926 but I'll just talk about it now.

NOTE Confidence: 0.873364022

00:36:35.930 --> 00:36:38.333 Is that one feature we do not have yet

NOTE Confidence: 0.873364022

00:36:38.333 --> 00:36:40.647 but we are hopefully going to have.

NOTE Confidence: 0.873364022

00:36:40.650 --> 00:36:43.742 I'm hoping by the summer I really it's hard

NOTE Confidence: 0.873364022

00:36:43.742 --> 00:36:45.519 to give a timeline at this point because

NOTE Confidence: 0.873364022

00:36:45.519 --> 00:36:47.402 they're not that close to completion yet.

NOTE Confidence: 0.873364022

00:36:47.410 --> 00:36:49.570 But as a CV importing tool,

NOTE Confidence: 0.873364022

00:36:49.570 --> 00:36:51.986 so that we could take your CV that

NOTE Confidence: 0.873364022

00:36:51.986 --> 00:36:54.269 is already in one of these formats,

NOTE Confidence: 0.873364022

00:36:54.270 --> 00:36:57.448 you can simply take that electronic document,

NOTE Confidence: 0.873364022

00:36:57.450 --> 00:36:58.128 digital document,

NOTE Confidence: 0.873364022

00:36:58.128 --> 00:37:00.501 upload it to this tool and it'll

NOTE Confidence: 0.873364022

00:37:00.501 --> 00:37:02.729 guide you through a similar process.

NOTE Confidence: 0.873364022

00:37:02.730 --> 00:37:05.026 But. It will be sort of the reverse.

NOTE Confidence: 0.873364022  
00:37:05.030 --> 00:37:07.095 We're going to scan that CV for  
NOTE Confidence: 0.873364022  
00:37:07.095 --> 00:37:07.980 all this data,  
NOTE Confidence: 0.873364022  
00:37:07.980 --> 00:37:09.330 try to associate it with  
NOTE Confidence: 0.873364022  
00:37:09.330 --> 00:37:10.140 the appropriate fields,  
NOTE Confidence: 0.873364022  
00:37:10.140 --> 00:37:14.154 and then the process to fill in your  
NOTE Confidence: 0.873364022  
00:37:14.154 --> 00:37:16.660 profile with data from the CV would  
NOTE Confidence: 0.873364022  
00:37:16.738 --> 00:37:19.900 simply be approving or editing and then  
NOTE Confidence: 0.873364022  
00:37:19.900 --> 00:37:23.579 approving data as it's pulled from your CV.  
NOTE Confidence: 0.873364022  
00:37:23.580 --> 00:37:24.384 OK, I understand.  
NOTE Confidence: 0.873364022  
00:37:24.384 --> 00:37:27.060 And you know we have two that are required,  
NOTE Confidence: 0.873364022  
00:37:27.060 --> 00:37:27.565 right,  
NOTE Confidence: 0.873364022  
00:37:27.565 --> 00:37:28.575 for reappointment.  
NOTE Confidence: 0.873364022  
00:37:28.575 --> 00:37:31.362 There's one with percent efforts and all  
NOTE Confidence: 0.873364022  
00:37:31.362 --> 00:37:33.965 these justifications and then another CB.  
NOTE Confidence: 0.873364022  
00:37:33.965 --> 00:37:35.915 So part one and Part 2,  
NOTE Confidence: 0.873364022

00:37:35.920 --> 00:37:38.278 I believe that's all captured here.

NOTE Confidence: 0.873364022

00:37:38.280 --> 00:37:40.422 CV Builder is not my personal

NOTE Confidence: 0.873364022

00:37:40.422 --> 00:37:41.493 bread and butter,

NOTE Confidence: 0.873364022

00:37:41.500 --> 00:37:44.224 but I do know that Andrew Minatore

NOTE Confidence: 0.873364022

00:37:44.224 --> 00:37:46.898 in our office who has been really

NOTE Confidence: 0.873364022

00:37:46.898 --> 00:37:49.128 spearheading this project has been working

NOTE Confidence: 0.873364022

00:37:49.128 --> 00:37:51.718 closely with Doctor Rauer on all of this.

NOTE Confidence: 0.873364022

00:37:51.720 --> 00:37:53.240 John, I can quick comment on if it's.

NOTE Confidence: 0.873364022

00:37:53.240 --> 00:37:54.242 OK. Ohh, sure.

NOTE Confidence: 0.873364022

00:37:54.242 --> 00:37:55.466 Go ahead. Alright.

NOTE Confidence: 0.873364022

00:37:55.466 --> 00:37:58.246 John grower here from OD.

NOTE Confidence: 0.873364022

00:37:58.250 --> 00:37:58.610 Yeah,

NOTE Confidence: 0.873364022

00:37:58.610 --> 00:37:59.750 so CV one,

NOTE Confidence: 0.873364022

00:37:59.750 --> 00:38:01.390 there were a few tweaks that

NOTE Confidence: 0.873364022

00:38:01.390 --> 00:38:03.064 Beatrix is going to solve that

NOTE Confidence: 0.873364022

00:38:03.064 --> 00:38:04.859 we've had limitations with profiles.

NOTE Confidence: 0.873364022  
00:38:04.860 --> 00:38:06.470 So we're going through and putting those  
NOTE Confidence: 0.873364022  
00:38:06.470 --> 00:38:08.590 in and working closely with Anju on that.  
NOTE Confidence: 0.873364022  
00:38:08.590 --> 00:38:09.838 As soon as we get that cleaned up,  
NOTE Confidence: 0.873364022  
00:38:09.840 --> 00:38:12.950 we're gonna move on to put a CV2 builder in.  
NOTE Confidence: 0.873364022  
00:38:12.950 --> 00:38:15.078 It's not clear yet what the relationship  
NOTE Confidence: 0.873364022  
00:38:15.078 --> 00:38:16.859 between CB1 and two builder and  
NOTE Confidence: 0.873364022  
00:38:16.859 --> 00:38:18.756 fpac would be because for those of  
NOTE Confidence: 0.873364022  
00:38:18.816 --> 00:38:20.496 you who have been part of FDIC,  
NOTE Confidence: 0.873364022  
00:38:20.500 --> 00:38:22.066 there's a lot of overlap there  
NOTE Confidence: 0.873364022  
00:38:22.066 --> 00:38:22.849 that shouldn't be.  
NOTE Confidence: 0.873364022  
00:38:22.850 --> 00:38:23.116 Again,  
NOTE Confidence: 0.873364022  
00:38:23.116 --> 00:38:24.446 the goal is to make.  
NOTE Confidence: 0.873364022  
00:38:24.450 --> 00:38:26.082 One place to put your information  
NOTE Confidence: 0.873364022  
00:38:26.082 --> 00:38:27.170 and have this together,  
NOTE Confidence: 0.873364022  
00:38:27.170 --> 00:38:30.145 but CB2 is builder is kinda Next  
NOTE Confidence: 0.873364022

00:38:30.145 --> 00:38:33.290 up after we finished the Beatrix  
NOTE Confidence: 0.873364022

00:38:33.290 --> 00:38:36.245 Twix tweaks for CV1 builder.  
NOTE Confidence: 0.873364022

00:38:36.250 --> 00:38:36.720 Thank you.  
NOTE Confidence: 0.855003065555556

00:38:38.770 --> 00:38:40.588 Doctor Grauer, sorry to put you on the spot,  
NOTE Confidence: 0.855003065555556

00:38:40.590 --> 00:38:43.306 but we actually just got a question  
NOTE Confidence: 0.855003065555556

00:38:43.306 --> 00:38:46.362 in the chat about can the CV listed  
NOTE Confidence: 0.855003065555556

00:38:46.362 --> 00:38:49.070 in the profile be pulled by EU Reg?  
NOTE Confidence: 0.855003065555556

00:38:49.070 --> 00:38:52.438 I'm not sure what ereg or ereg is.  
NOTE Confidence: 0.855003065555556

00:38:52.440 --> 00:38:54.880 Are you familiar with that tool E Reg?  
NOTE Confidence: 0.855003065555556

00:38:54.880 --> 00:38:58.530 I think. No. OK.  
NOTE Confidence: 0.727614625714286

00:38:58.540 --> 00:39:01.740 Meg is a a tool that is being  
NOTE Confidence: 0.727614625714286

00:39:01.740 --> 00:39:04.240 used right now by Weiss CI.  
NOTE Confidence: 0.727614625714286

00:39:04.240 --> 00:39:06.892 It holds all of the regulatory  
NOTE Confidence: 0.727614625714286

00:39:06.892 --> 00:39:08.218 documents for research.  
NOTE Confidence: 0.727614625714286

00:39:08.220 --> 00:39:10.257 One of the one of the key  
NOTE Confidence: 0.727614625714286

00:39:10.260 --> 00:39:13.516 pieces of ereg is the CV and it

NOTE Confidence: 0.727614625714286  
00:39:13.516 --> 00:39:16.699 has to be updated regularly.  
NOTE Confidence: 0.727614625714286  
00:39:16.700 --> 00:39:19.164 And so I was wondering if you  
NOTE Confidence: 0.727614625714286  
00:39:19.164 --> 00:39:21.500 already have it where it's showing  
NOTE Confidence: 0.727614625714286  
00:39:21.500 --> 00:39:23.900 up in your in your profile,  
NOTE Confidence: 0.727614625714286  
00:39:23.900 --> 00:39:27.100 could that just be pulled by the ereg  
NOTE Confidence: 0.727614625714286  
00:39:27.100 --> 00:39:28.780 and there's other things that appear in.  
NOTE Confidence: 0.727614625714286  
00:39:28.780 --> 00:39:30.900 Ereg that could easily overlap  
NOTE Confidence: 0.727614625714286  
00:39:30.900 --> 00:39:33.020 with what Beatrix is doing  
NOTE Confidence: 0.811892289333333  
00:39:33.770 --> 00:39:35.834 and when it's. I'll have to reach out  
NOTE Confidence: 0.811892289333333  
00:39:35.834 --> 00:39:38.216 to YC and get some more information,  
NOTE Confidence: 0.811892289333333  
00:39:38.220 --> 00:39:39.808 but when you're, Umm,  
NOTE Confidence: 0.811892289333333  
00:39:39.808 --> 00:39:42.592 updating the CV in ereg, is that.  
NOTE Confidence: 0.811892289333333  
00:39:42.592 --> 00:39:44.980 Is it just a PDF document  
NOTE Confidence: 0.811892289333333  
00:39:45.073 --> 00:39:47.479 or is it in some specific?  
NOTE Confidence: 0.843094105  
00:39:48.390 --> 00:39:51.813 It usually it's just a PDF document  
NOTE Confidence: 0.843094105

00:39:51.813 --> 00:39:55.681 and it has the the persons signed it,  
NOTE Confidence: 0.843094105

00:39:55.681 --> 00:39:58.783 whether it be digitally in ereg,  
NOTE Confidence: 0.843094105

00:39:58.790 --> 00:40:00.966 but it has to be signed and dated  
NOTE Confidence: 0.843094105

00:40:00.970 --> 00:40:03.298 so that it's considered kind of  
NOTE Confidence: 0.843094105

00:40:03.298 --> 00:40:05.615 like the most up-to-date CV and  
NOTE Confidence: 0.843094105

00:40:05.615 --> 00:40:07.345 that's because it's for NIH,  
NOTE Confidence: 0.843094105

00:40:07.350 --> 00:40:11.704 for FDA and for other regulatory bodies.  
NOTE Confidence: 0.843094105

00:40:11.710 --> 00:40:14.815 This is part of what you need in your  
NOTE Confidence: 0.843094105

00:40:14.815 --> 00:40:17.718 regulatory documents to to conduct research.  
NOTE Confidence: 0.859804975

00:40:18.290 --> 00:40:20.165 OK, so that integration definitely  
NOTE Confidence: 0.859804975

00:40:20.165 --> 00:40:22.040 does not exist right now.  
NOTE Confidence: 0.859804975

00:40:22.040 --> 00:40:25.076 However, when I finish this process,  
NOTE Confidence: 0.859804975

00:40:25.080 --> 00:40:26.880 I'm going to generate a PDF.  
NOTE Confidence: 0.83725956

00:40:28.580 --> 00:40:29.994 And we could pull that into OK,  
NOTE Confidence: 0.844351762142857

00:40:30.010 --> 00:40:31.954 right. So you you could at least pull  
NOTE Confidence: 0.844351762142857

00:40:31.954 --> 00:40:33.938 that in there would be the manual step

NOTE Confidence: 0.844351762142857  
00:40:33.938 --> 00:40:36.170 at the end to get it signed and verified  
NOTE Confidence: 0.844351762142857  
00:40:36.170 --> 00:40:38.546 as necessary and then upload it to erag.  
NOTE Confidence: 0.844351762142857  
00:40:38.550 --> 00:40:39.910 But it could certainly make  
NOTE Confidence: 0.844351762142857  
00:40:39.910 --> 00:40:40.726 that process easier.  
NOTE Confidence: 0.844351762142857  
00:40:40.730 --> 00:40:43.338 If what you need is an updated PDF,  
NOTE Confidence: 0.844351762142857  
00:40:43.340 --> 00:40:45.023 I can reach out to them and see if  
NOTE Confidence: 0.844351762142857  
00:40:45.023 --> 00:40:46.581 it's possible that we could make  
NOTE Confidence: 0.844351762142857  
00:40:46.581 --> 00:40:48.141 some kind of automatic poll so  
NOTE Confidence: 0.844351762142857  
00:40:48.141 --> 00:40:49.677 you could just check off a box and  
NOTE Confidence: 0.844351762142857  
00:40:49.677 --> 00:40:51.730 it will also submit it to ereg.  
NOTE Confidence: 0.844351762142857  
00:40:51.730 --> 00:40:53.823 But it sounds like there might be  
NOTE Confidence: 0.844351762142857  
00:40:53.823 --> 00:40:55.767 some the manual step to sign it,  
NOTE Confidence: 0.844351762142857  
00:40:55.770 --> 00:40:58.119 I'm not sure.  
NOTE Confidence: 0.844351762142857  
00:40:58.120 --> 00:40:59.090 Have to look into it.  
NOTE Confidence: 0.844351762142857  
00:40:59.090 --> 00:41:00.686 I'll get some more information from YC.  
NOTE Confidence: 0.844351762142857

00:41:00.690 --> 00:41:01.662 I thank you.  
NOTE Confidence: 0.844351762142857

00:41:01.662 --> 00:41:03.229 It should at least make it easier  
NOTE Confidence: 0.844351762142857

00:41:03.229 --> 00:41:04.387 because you will get that PDF  
NOTE Confidence: 0.844351762142857

00:41:04.387 --> 00:41:05.608 at the end of this process.  
NOTE Confidence: 0.881355544782609

00:41:08.590 --> 00:41:10.254 I'm actually going to go ahead and skip  
NOTE Confidence: 0.881355544782609

00:41:10.254 --> 00:41:12.129 to that and then we could just talk  
NOTE Confidence: 0.881355544782609

00:41:12.129 --> 00:41:13.689 about more questions that we have them.  
NOTE Confidence: 0.881355544782609

00:41:13.690 --> 00:41:16.112 So the very last step of this  
NOTE Confidence: 0.881355544782609

00:41:16.112 --> 00:41:18.529 process is to generate the CV.  
NOTE Confidence: 0.881355544782609

00:41:18.530 --> 00:41:20.930 Because I chose public CV,  
NOTE Confidence: 0.881355544782609

00:41:20.930 --> 00:41:22.650 it's going to generate and  
NOTE Confidence: 0.881355544782609

00:41:22.650 --> 00:41:24.370 publish this to my profile,  
NOTE Confidence: 0.881355544782609

00:41:24.370 --> 00:41:27.010 well to doctor growers profile.  
NOTE Confidence: 0.881355544782609

00:41:27.010 --> 00:41:31.946 So first I will preview what I've created.  
NOTE Confidence: 0.881355544782609

00:41:31.950 --> 00:41:35.160 This does take a little bit.  
NOTE Confidence: 0.881355544782609

00:41:35.160 --> 00:41:37.272 We're working to speed up this

NOTE Confidence: 0.881355544782609  
00:41:37.272 --> 00:41:39.282 process as well because it does take  
NOTE Confidence: 0.881355544782609  
00:41:39.282 --> 00:41:41.130 a couple minutes for it to process  
NOTE Confidence: 0.881355544782609  
00:41:41.130 --> 00:41:42.945 and actually generate the document.  
NOTE Confidence: 0.881355544782609  
00:41:42.950 --> 00:41:45.146 I went ahead and uploaded it,  
NOTE Confidence: 0.881355544782609  
00:41:45.150 --> 00:41:46.110 loaded this earlier.  
NOTE Confidence: 0.881355544782609  
00:41:46.110 --> 00:41:48.350 You will end up with a preview  
NOTE Confidence: 0.881355544782609  
00:41:48.414 --> 00:41:50.359 that looks something like this.  
NOTE Confidence: 0.881355544782609  
00:41:50.360 --> 00:41:53.419 And this is the CV that's generated  
NOTE Confidence: 0.881355544782609  
00:41:53.419 --> 00:41:56.129 from all of Doctor Grauers  
NOTE Confidence: 0.881355544782609  
00:41:56.130 --> 00:41:57.879 Bitrex profile information.  
NOTE Confidence: 0.93124933375  
00:42:01.350 --> 00:42:04.350 So you could download this document  
NOTE Confidence: 0.93124933375  
00:42:04.350 --> 00:42:06.718 right here. It will be stored  
NOTE Confidence: 0.93124933375  
00:42:06.718 --> 00:42:08.428 as associated with your profile.  
NOTE Confidence: 0.93124933375  
00:42:08.430 --> 00:42:10.401 You can update it at a later date if  
NOTE Confidence: 0.93124933375  
00:42:10.401 --> 00:42:12.345 you'd like and generate a new version.  
NOTE Confidence: 0.93124933375

00:42:12.350 --> 00:42:15.062 And again you can choose whether or not  
NOTE Confidence: 0.93124933375

00:42:15.062 --> 00:42:17.809 to publish it also to your profile or just  
NOTE Confidence: 0.93124933375

00:42:17.809 --> 00:42:20.499 to get the document that you need to.  
NOTE Confidence: 0.93124933375

00:42:20.500 --> 00:42:23.396 For ereg or ereg or for whatever else,  
NOTE Confidence: 0.93124933375

00:42:23.400 --> 00:42:26.990 you might need your CV 4. Umm.  
NOTE Confidence: 0.874106752352941

00:42:29.360 --> 00:42:31.028 I guess that's really all I  
NOTE Confidence: 0.874106752352941

00:42:31.028 --> 00:42:32.885 wanted to make sure we covered  
NOTE Confidence: 0.874106752352941

00:42:32.885 --> 00:42:34.580 if there were more questions.  
NOTE Confidence: 0.874106752352941

00:42:34.580 --> 00:42:37.292 I would love to get hear those and  
NOTE Confidence: 0.874106752352941

00:42:37.292 --> 00:42:39.566 answer those now if you have them.  
NOTE Confidence: 0.874106752352941

00:42:39.570 --> 00:42:40.790 Mark Harvey climbing here,  
NOTE Confidence: 0.874106752352941

00:42:40.790 --> 00:42:43.253 could you just go back to the last  
NOTE Confidence: 0.874106752352941

00:42:43.253 --> 00:42:44.975 thing I was just playing with  
NOTE Confidence: 0.874106752352941

00:42:44.975 --> 00:42:46.890 creating a CV how if you don't want  
NOTE Confidence: 0.874106752352941

00:42:46.890 --> 00:42:48.517 it to be shown you know to anybody  
NOTE Confidence: 0.874106752352941

00:42:48.517 --> 00:42:49.909 else how do you actually turn.

NOTE Confidence: 0.874106752352941  
00:42:49.910 --> 00:42:53.110 I can't find how you turn that off.  
NOTE Confidence: 0.874106752352941  
00:42:53.110 --> 00:42:55.896 So it's this very first step when  
NOTE Confidence: 0.874106752352941  
00:42:55.896 --> 00:42:58.625 I'm creating the CD, the CD type,  
NOTE Confidence: 0.874106752352941  
00:42:58.625 --> 00:43:01.861 if I select just Yale CV one that  
NOTE Confidence: 0.874106752352941  
00:43:01.861 --> 00:43:04.267 will create just create the document.  
NOTE Confidence: 0.874106752352941  
00:43:04.270 --> 00:43:07.096 It's only going to be viewable to me in  
NOTE Confidence: 0.874106752352941  
00:43:07.096 --> 00:43:09.556 Beatrix if I select Yale public CV one.  
NOTE Confidence: 0.874106752352941  
00:43:09.560 --> 00:43:13.016 That is going to publish it to your profile.  
NOTE Confidence: 0.874106752352941  
00:43:13.020 --> 00:43:15.196 OK, so if I choose the first one,  
NOTE Confidence: 0.874106752352941  
00:43:15.200 --> 00:43:17.467 it won't be public, then appointments  
NOTE Confidence: 0.874106752352941  
00:43:17.467 --> 00:43:20.316 and promotions will not never be public.  
NOTE Confidence: 0.874106752352941  
00:43:20.320 --> 00:43:22.429 OK. Thank you.  
NOTE Confidence: 0.874106752352941  
00:43:22.430 --> 00:43:24.950 I had another general question.  
NOTE Confidence: 0.874106752352941  
00:43:24.950 --> 00:43:25.450 Go ahead.  
NOTE Confidence: 0.874106752352941  
00:43:25.450 --> 00:43:25.700 OK.  
NOTE Confidence: 0.874106752352941

00:43:25.700 --> 00:43:27.450 So one of the things that's always  
NOTE Confidence: 0.874106752352941

00:43:27.504 --> 00:43:29.190 been difficult for me in the  
NOTE Confidence: 0.874106752352941

00:43:29.190 --> 00:43:30.840 profile system was adding students,  
NOTE Confidence: 0.874106752352941

00:43:30.840 --> 00:43:31.680 Yale undergraduates.  
NOTE Confidence: 0.874106752352941

00:43:31.680 --> 00:43:32.940 I mean, like,  
NOTE Confidence: 0.874106752352941

00:43:32.940 --> 00:43:35.950 adding collaborators as faculty is so easy.  
NOTE Confidence: 0.874106752352941

00:43:35.950 --> 00:43:37.903 You just put their net ID in  
NOTE Confidence: 0.874106752352941

00:43:37.903 --> 00:43:40.248 and it just populates them as  
NOTE Confidence: 0.874106752352941

00:43:40.248 --> 00:43:42.643 collaborators under your faculty tab.  
NOTE Confidence: 0.874106752352941

00:43:42.650 --> 00:43:44.596 And then someone said that they were  
NOTE Confidence: 0.874106752352941

00:43:44.596 --> 00:43:46.687 going to fix that in this version.  
NOTE Confidence: 0.874106752352941

00:43:46.690 --> 00:43:48.500 What is the way to,  
NOTE Confidence: 0.874106752352941

00:43:48.500 --> 00:43:48.926 you know,  
NOTE Confidence: 0.874106752352941

00:43:48.926 --> 00:43:49.778 because I have undergraduates  
NOTE Confidence: 0.874106752352941

00:43:49.778 --> 00:43:51.528 coming in and out of my lab all the time.  
NOTE Confidence: 0.874106752352941

00:43:51.530 --> 00:43:52.380 I'd like to keep that.

NOTE Confidence: 0.874106752352941  
00:43:52.380 --> 00:43:55.481 Updated do we have we fixed that  
NOTE Confidence: 0.874106752352941  
00:43:55.481 --> 00:43:58.089 issue for in this system.  
NOTE Confidence: 0.874106752352941  
00:43:58.090 --> 00:44:00.001 Don't think this is fixed only because  
NOTE Confidence: 0.874106752352941  
00:44:00.001 --> 00:44:01.989 it's not really a technological issue.  
NOTE Confidence: 0.874106752352941  
00:44:01.990 --> 00:44:06.030 It's more of a.  
NOTE Confidence: 0.874106752352941  
00:44:06.030 --> 00:44:09.698 Operational issue in that we just do  
NOTE Confidence: 0.874106752352941  
00:44:09.698 --> 00:44:12.890 not import student data by default.  
NOTE Confidence: 0.874106752352941  
00:44:12.890 --> 00:44:15.080 We would have to start importing  
NOTE Confidence: 0.874106752352941  
00:44:15.080 --> 00:44:16.175 all that information.  
NOTE Confidence: 0.84787273  
00:44:18.910 --> 00:44:20.380 About the students by default,  
NOTE Confidence: 0.84787273  
00:44:20.380 --> 00:44:22.396 and we've just been reluctant to do  
NOTE Confidence: 0.84787273  
00:44:22.396 --> 00:44:24.513 that even though we do have lots  
NOTE Confidence: 0.84787273  
00:44:24.513 --> 00:44:26.008 of information that doesn't display  
NOTE Confidence: 0.84787273  
00:44:26.008 --> 00:44:27.859 on the websites in the system.  
NOTE Confidence: 0.84787273  
00:44:27.860 --> 00:44:30.137 It was just always sort of a privacy concern.  
NOTE Confidence: 0.84787273

00:44:30.140 --> 00:44:32.500 If we start pulling in  
NOTE Confidence: 0.84787273

00:44:32.500 --> 00:44:33.916 data about undergraduates,  
NOTE Confidence: 0.84787273

00:44:33.920 --> 00:44:36.152 it honestly would not be difficult  
NOTE Confidence: 0.84787273

00:44:36.152 --> 00:44:38.940 for us to start pulling them in.  
NOTE Confidence: 0.84787273

00:44:38.940 --> 00:44:41.859 But it's more of a privacy concern  
NOTE Confidence: 0.84787273

00:44:41.859 --> 00:44:43.800 than a technological concern.  
NOTE Confidence: 0.84787273

00:44:43.800 --> 00:44:45.360 So let me take that back.  
NOTE Confidence: 0.84787273

00:44:45.360 --> 00:44:47.208 I'm sorry that didn't make it  
NOTE Confidence: 0.84787273

00:44:47.208 --> 00:44:49.490 into the launch, but. Um.  
NOTE Confidence: 0.872938706

00:44:52.330 --> 00:44:54.122 Well, I can just say Liz has been  
NOTE Confidence: 0.872938706

00:44:54.122 --> 00:44:55.413 super helpful. Thank you, Liz.  
NOTE Confidence: 0.872938706

00:44:55.413 --> 00:44:56.818 And whenever I've given her  
NOTE Confidence: 0.872938706

00:44:56.818 --> 00:44:58.470 and that idea she's created,  
NOTE Confidence: 0.872938706

00:44:58.470 --> 00:44:59.890 she's created it for me.  
NOTE Confidence: 0.872938706

00:44:59.890 --> 00:45:01.090 But I just was curious,  
NOTE Confidence: 0.872938706

00:45:01.090 --> 00:45:02.350 I like to do things myself.

NOTE Confidence: 0.872938706  
00:45:02.350 --> 00:45:03.792 So I was just curious if that  
NOTE Confidence: 0.872938706  
00:45:03.792 --> 00:45:05.300 was going to yeah, I understand.  
NOTE Confidence: 0.872938706  
00:45:05.300 --> 00:45:07.660 I I think we are leaning toward that  
NOTE Confidence: 0.872938706  
00:45:07.728 --> 00:45:09.738 option honestly mostly because more  
NOTE Confidence: 0.872938706  
00:45:09.738 --> 00:45:12.100 recently we've been getting lots of  
NOTE Confidence: 0.872938706  
00:45:12.100 --> 00:45:13.834 requests from students to turn them  
NOTE Confidence: 0.872938706  
00:45:13.834 --> 00:45:15.740 on so that they can get their web  
NOTE Confidence: 0.872938706  
00:45:15.740 --> 00:45:17.570 profile to appear on the medicine website,  
NOTE Confidence: 0.872938706  
00:45:17.570 --> 00:45:18.539 which they like.  
NOTE Confidence: 0.872938706  
00:45:18.539 --> 00:45:22.267 So I I think we are going to look into that.  
NOTE Confidence: 0.872938706  
00:45:22.270 --> 00:45:23.518 But it it,  
NOTE Confidence: 0.872938706  
00:45:23.518 --> 00:45:25.598 it would be a relatively  
NOTE Confidence: 0.872938706  
00:45:25.598 --> 00:45:27.939 easy update technology wise.  
NOTE Confidence: 0.872938706  
00:45:27.940 --> 00:45:30.005 It's more of the legal and privacy  
NOTE Confidence: 0.872938706  
00:45:30.005 --> 00:45:32.652 issues that we need to make sure we get  
NOTE Confidence: 0.872938706

00:45:32.652 --> 00:45:34.625 cleared from HR before we start doing  
NOTE Confidence: 0.872938706

00:45:34.625 --> 00:45:37.676 that or I'm not even sure it would be HR.  
NOTE Confidence: 0.872938706

00:45:37.676 --> 00:45:39.236 Thank you, regulatory body.  
NOTE Confidence: 0.872938706

00:45:39.236 --> 00:45:39.604 Yeah.  
NOTE Confidence: 0.872938706

00:45:39.604 --> 00:45:42.180 So we will focus on that issue.  
NOTE Confidence: 0.872938706

00:45:42.180 --> 00:45:43.956 Thank you for bringing it up.  
NOTE Confidence: 0.872938706

00:45:43.960 --> 00:45:49.100 I see another question from Doctor Mecca.  
NOTE Confidence: 0.872938706

00:45:49.100 --> 00:45:51.948 Hi, it's Marsha.  
NOTE Confidence: 0.872938706

00:45:51.948 --> 00:45:54.465 So thanks for doing this presentation.  
NOTE Confidence: 0.872938706

00:45:54.465 --> 00:45:56.513 I just wanted to make sure  
NOTE Confidence: 0.872938706

00:45:56.513 --> 00:45:59.441 I understood that this so,  
NOTE Confidence: 0.872938706

00:45:59.441 --> 00:46:02.603 so I have previously edited in  
NOTE Confidence: 0.872938706

00:46:02.603 --> 00:46:05.240 the Yale profile system like  
NOTE Confidence: 0.872938706

00:46:05.240 --> 00:46:06.700 adding these things to that,  
NOTE Confidence: 0.872938706

00:46:06.700 --> 00:46:08.831 so it sounds like Beatrix  
NOTE Confidence: 0.872938706

00:46:08.831 --> 00:46:11.136 even to the Yale profile.

NOTE Confidence: 0.872938706

00:46:11.140 --> 00:46:13.942 So does it go backwards like does the Yale

NOTE Confidence: 0.872938706

00:46:13.942 --> 00:46:16.240 profile stuff that I've entered before?

NOTE Confidence: 0.872938706

00:46:16.240 --> 00:46:20.244 Will that be populated and any attract?

NOTE Confidence: 0.872938706

00:46:20.250 --> 00:46:20.690 Unclear.

NOTE Confidence: 0.872938706

00:46:20.690 --> 00:46:23.294 So so Beatrix is the next

NOTE Confidence: 0.872938706

00:46:23.294 --> 00:46:25.030 version of Profile System.

NOTE Confidence: 0.872938706

00:46:25.030 --> 00:46:27.628 Profile System essentially is no more,

NOTE Confidence: 0.872938706

00:46:27.630 --> 00:46:29.270 but as you can see,

NOTE Confidence: 0.872938706

00:46:29.270 --> 00:46:31.050 this has all that functionality.

NOTE Confidence: 0.872938706

00:46:31.050 --> 00:46:34.109 Any edits you made in the profile

NOTE Confidence: 0.872938706

00:46:34.109 --> 00:46:36.429 system are present in Beatrix.

NOTE Confidence: 0.872938706

00:46:36.430 --> 00:46:38.760 If you see any issues there, do let us know.

NOTE Confidence: 0.872938706

00:46:38.760 --> 00:46:40.470 But as far as I know,

NOTE Confidence: 0.872938706

00:46:40.470 --> 00:46:42.478 all of the data,

NOTE Confidence: 0.872938706

00:46:42.478 --> 00:46:45.942 all of the edits made in profile.yale.edu

NOTE Confidence: 0.872938706

00:46:45.942 --> 00:46:49.106 should be reflected in the profile or  
NOTE Confidence: 0.872938706

00:46:49.106 --> 00:46:51.984 event news, whatever you're editing.  
NOTE Confidence: 0.872938706

00:46:51.984 --> 00:46:53.300 And beatrix.l.edu.  
NOTE Confidence: 0.872938706

00:46:53.300 --> 00:46:55.076 It's just that when we upgraded the system,  
NOTE Confidence: 0.872938706

00:46:55.080 --> 00:46:57.688 we also renamed it.  
NOTE Confidence: 0.872938706

00:46:57.690 --> 00:46:59.360 OK, thanks.  
NOTE Confidence: 0.872938706

00:46:59.360 --> 00:47:01.180 I probably just missed that.  
NOTE Confidence: 0.872938706

00:47:01.180 --> 00:47:04.590 And my second question is?  
NOTE Confidence: 0.872938706

00:47:04.590 --> 00:47:06.162 That the PDF that gets  
NOTE Confidence: 0.872938706

00:47:06.162 --> 00:47:08.466 printed out then from the CD,  
NOTE Confidence: 0.872938706

00:47:08.470 --> 00:47:11.143 is that in the exact format  
NOTE Confidence: 0.872938706

00:47:11.143 --> 00:47:12.662 that is needed for promotion,  
NOTE Confidence: 0.872938706

00:47:12.662 --> 00:47:15.093 or does it still need to be edited?  
NOTE Confidence: 0.872938706

00:47:15.093 --> 00:47:19.109 In small ways it should be in that format,  
NOTE Confidence: 0.872938706

00:47:19.110 --> 00:47:19.352 obviously.  
NOTE Confidence: 0.872938706

00:47:19.352 --> 00:47:21.288 You might want to review and double check,

NOTE Confidence: 0.872938706

00:47:21.290 --> 00:47:22.808 but it yes, it should be.

NOTE Confidence: 0.872938706

00:47:22.810 --> 00:47:24.835 We've been working with faculty

NOTE Confidence: 0.872938706

00:47:24.835 --> 00:47:27.150 affairs to make sure that the

NOTE Confidence: 0.872938706

00:47:27.150 --> 00:47:29.817 CV that is printed is the one

NOTE Confidence: 0.872938706

00:47:29.817 --> 00:47:32.467 that you're going to need for

NOTE Confidence: 0.872938706

00:47:32.467 --> 00:47:33.886 that promotion process.

NOTE Confidence: 0.872938706

00:47:33.890 --> 00:47:34.470 Thank you.

NOTE Confidence: 0.626512915

00:47:36.930 --> 00:47:40.790 Another question from Doctor Russiano.

NOTE Confidence: 0.626512915

00:47:40.790 --> 00:47:44.120 Yeah Mark, just a question about Beatrix.

NOTE Confidence: 0.626512915

00:47:44.120 --> 00:47:46.830 Sorry to be paranoid but I'm from psych

NOTE Confidence: 0.626512915

00:47:46.830 --> 00:47:49.198 is that is this a Yale program or is this

NOTE Confidence: 0.626512915

00:47:49.198 --> 00:47:50.768 something you bought from someone else,

NOTE Confidence: 0.626512915

00:47:50.770 --> 00:47:52.530 the matrix program and so like are we

NOTE Confidence: 0.626512915

00:47:52.530 --> 00:47:54.930 going to get a million emails you know for

NOTE Confidence: 0.626512915

00:47:54.930 --> 00:47:57.590 advertisements and things once we do this,

NOTE Confidence: 0.626512915

00:47:57.590 --> 00:47:59.309 this is a system that was built in house.  
NOTE Confidence: 0.626512915

00:47:59.310 --> 00:48:01.130 It's it's just the next  
NOTE Confidence: 0.626512915

00:48:01.130 --> 00:48:02.950 iteration of the profile system,  
NOTE Confidence: 0.626512915

00:48:02.950 --> 00:48:04.546 previous in-house system.  
NOTE Confidence: 0.626512915

00:48:04.546 --> 00:48:07.206 It's just the next version.  
NOTE Confidence: 0.626512915

00:48:07.210 --> 00:48:10.724 It's actually the the name Beatrix is.  
NOTE Confidence: 0.626512915

00:48:10.730 --> 00:48:13.530 Are Beatrix Hamburg, who was the first  
NOTE Confidence: 0.626512915

00:48:13.530 --> 00:48:16.159 black graduate of the medical school?  
NOTE Confidence: 0.626512915

00:48:16.160 --> 00:48:17.896 We just, we just wanted to give  
NOTE Confidence: 0.626512915

00:48:17.896 --> 00:48:20.214 it a name that was more easily  
NOTE Confidence: 0.626512915

00:48:20.214 --> 00:48:22.099 identifiable in the profile system.  
NOTE Confidence: 0.626512915

00:48:22.100 --> 00:48:23.540 We called it a few different things over  
NOTE Confidence: 0.626512915

00:48:23.540 --> 00:48:25.095 the years and it started to get confusing.  
NOTE Confidence: 0.626512915

00:48:25.100 --> 00:48:27.156 So we wanted to give it more defined  
NOTE Confidence: 0.626512915

00:48:27.156 --> 00:48:29.179 name that we could easily reference.  
NOTE Confidence: 0.626512915

00:48:29.180 --> 00:48:29.344 Wonderful.

NOTE Confidence: 0.626512915

00:48:29.344 --> 00:48:30.820 I just wanted to make sure it was private.

NOTE Confidence: 0.626512915

00:48:30.820 --> 00:48:33.688 Thank you. Ah, I see.

NOTE Confidence: 0.626512915

00:48:33.688 --> 00:48:34.280 Another question,

NOTE Confidence: 0.626512915

00:48:34.280 --> 00:48:35.129 another raised hand.

NOTE Confidence: 0.811294915555555

00:48:37.130 --> 00:48:40.305 Quick question, for new faculty

NOTE Confidence: 0.811294915555555

00:48:40.305 --> 00:48:42.845 that are getting onboarded,

NOTE Confidence: 0.811294915555555

00:48:42.850 --> 00:48:45.559 what is the expectation of when they're

NOTE Confidence: 0.811294915555555

00:48:45.559 --> 00:48:47.910 Beatrix profile should be up and running?

NOTE Confidence: 0.811294915555555

00:48:47.910 --> 00:48:49.740 Is that something that we

NOTE Confidence: 0.811294915555555

00:48:49.740 --> 00:48:51.286 can pull from somewhere?

NOTE Confidence: 0.811294915555555

00:48:51.286 --> 00:48:54.030 Like if we're having a faculty member

NOTE Confidence: 0.811294915555555

00:48:54.099 --> 00:48:56.329 join us from another institution,

NOTE Confidence: 0.811294915555555

00:48:56.330 --> 00:48:58.474 is there a way to pull

NOTE Confidence: 0.811294915555555

00:48:58.474 --> 00:49:01.050 all of that information?

NOTE Confidence: 0.811294915555555

00:49:01.050 --> 00:49:02.030 It's that sort of thing,

NOTE Confidence: 0.902479582307692

00:49:02.220 --> 00:49:04.572 yeah. So there's not a way to pull  
NOTE Confidence: 0.902479582307692

00:49:04.572 --> 00:49:06.200 that information easily right now.  
NOTE Confidence: 0.902479582307692

00:49:06.200 --> 00:49:08.615 It is sort of a manual process.  
NOTE Confidence: 0.902479582307692

00:49:08.620 --> 00:49:10.972 I don't think there's any set expectation  
NOTE Confidence: 0.902479582307692

00:49:10.972 --> 00:49:13.669 for when the profiles filled out today.  
NOTE Confidence: 0.902479582307692

00:49:13.670 --> 00:49:15.800 Obviously the sooner the better.  
NOTE Confidence: 0.902479582307692

00:49:15.800 --> 00:49:19.408 But the CV importer I was mentioning earlier  
NOTE Confidence: 0.902479582307692

00:49:19.408 --> 00:49:21.592 that we're really hoping that that'll  
NOTE Confidence: 0.902479582307692

00:49:21.592 --> 00:49:23.848 make process much easier for new faculty,  
NOTE Confidence: 0.902479582307692

00:49:23.850 --> 00:49:25.695 especially those coming from other  
NOTE Confidence: 0.902479582307692

00:49:25.695 --> 00:49:27.540 institutions who are already going  
NOTE Confidence: 0.902479582307692

00:49:27.596 --> 00:49:29.668 to have a very robust CV so that  
NOTE Confidence: 0.902479582307692

00:49:29.668 --> 00:49:32.426 they can upload that document to the  
NOTE Confidence: 0.902479582307692

00:49:32.426 --> 00:49:35.265 system and follow a sort of like  
NOTE Confidence: 0.902479582307692

00:49:35.265 --> 00:49:37.411 TurboTax style process to decide  
NOTE Confidence: 0.902479582307692

00:49:37.411 --> 00:49:39.856 what information goes in there.

NOTE Confidence: 0.902479582307692  
00:49:39.860 --> 00:49:40.515 Profile.  
NOTE Confidence: 0.902479582307692  
00:49:40.515 --> 00:49:44.468 I'm we're hoping that's available next year,  
NOTE Confidence: 0.902479582307692  
00:49:44.468 --> 00:49:47.180 but we don't have it available just yet.  
NOTE Confidence: 0.902479582307692  
00:49:47.180 --> 00:49:49.460 So it is sort of a mostly manual  
NOTE Confidence: 0.902479582307692  
00:49:49.460 --> 00:49:50.509 process unfortunately for now.  
NOTE Confidence: 0.858541808  
00:49:54.460 --> 00:49:55.970 Thank you for that. Oh,  
NOTE Confidence: 0.858541808  
00:49:55.970 --> 00:49:59.615 and Liz just shared a link about some with  
NOTE Confidence: 0.858541808  
00:49:59.615 --> 00:50:03.297 some onboarding information for reference.  
NOTE Confidence: 0.858541808  
00:50:03.300 --> 00:50:04.716 And in fact, you say one thing is,  
NOTE Confidence: 0.858541808  
00:50:04.720 --> 00:50:06.435 John, is, you know, for new faculty,  
NOTE Confidence: 0.858541808  
00:50:06.440 --> 00:50:07.672 if it's a question of when should  
NOTE Confidence: 0.858541808  
00:50:07.672 --> 00:50:09.660 they put in their information,  
NOTE Confidence: 0.858541808  
00:50:09.660 --> 00:50:11.298 this is what's populating their page  
NOTE Confidence: 0.858541808  
00:50:11.298 --> 00:50:13.260 when they type in their name, Yale.  
NOTE Confidence: 0.858541808  
00:50:13.260 --> 00:50:15.600 I would encourage them to do it right away,  
NOTE Confidence: 0.858541808

00:50:15.600 --> 00:50:17.198 just so that they're known locally. I mean,  
NOTE Confidence: 0.858541808

00:50:17.200 --> 00:50:18.966 the CV is a wonderful secondary thing,  
NOTE Confidence: 0.858541808

00:50:18.966 --> 00:50:20.370 and maybe it'd be great way for  
NOTE Confidence: 0.858541808

00:50:20.370 --> 00:50:22.260 their initial appointment to do that.  
NOTE Confidence: 0.858541808

00:50:22.260 --> 00:50:24.252 But even if it's just a question of  
NOTE Confidence: 0.858541808

00:50:24.252 --> 00:50:26.138 making it known that they're here,  
NOTE Confidence: 0.858541808

00:50:26.140 --> 00:50:27.390 I would encourage them early,  
NOTE Confidence: 0.858541808

00:50:27.390 --> 00:50:30.498 even if it's not an official requirement.  
NOTE Confidence: 0.858541808

00:50:30.500 --> 00:50:32.618 We do have very good search  
NOTE Confidence: 0.858541808

00:50:32.618 --> 00:50:33.324 engine optimization.  
NOTE Confidence: 0.858541808

00:50:33.330 --> 00:50:34.185 On these profiles.  
NOTE Confidence: 0.858541808

00:50:34.185 --> 00:50:35.895 So if you have a profile,  
NOTE Confidence: 0.858541808

00:50:35.900 --> 00:50:36.980 if you search your name,  
NOTE Confidence: 0.858541808

00:50:36.980 --> 00:50:38.180 and especially if you search  
NOTE Confidence: 0.858541808

00:50:38.180 --> 00:50:39.660 your name plus the word Yale,  
NOTE Confidence: 0.858541808

00:50:39.660 --> 00:50:41.452 it should be the very first thing

NOTE Confidence: 0.858541808

00:50:41.452 --> 00:50:43.427 that comes up on any search engine.

NOTE Confidence: 0.858541808

00:50:43.430 --> 00:50:43.971 So.

NOTE Confidence: 0.858541808

00:50:43.971 --> 00:50:46.135 There's definitely some built-in

NOTE Confidence: 0.858541808

00:50:46.135 --> 00:50:48.830 incentive there to get make sure

NOTE Confidence: 0.858541808

00:50:48.830 --> 00:50:50.685 all of your work is reflected there

NOTE Confidence: 0.651675968

00:50:50.800 --> 00:50:52.580 and for fellows and postdocs,

NOTE Confidence: 0.651675968

00:50:52.580 --> 00:50:54.316 is this the same?

NOTE Confidence: 0.651675968

00:50:54.316 --> 00:50:56.486 Would this be the same?

NOTE Confidence: 0.651675968

00:50:56.490 --> 00:50:58.128 You know, we could tell them, hey,

NOTE Confidence: 0.651675968

00:50:58.128 --> 00:50:59.920 go ahead and do this, you know.

NOTE Confidence: 0.78529375

00:51:00.150 --> 00:51:01.842 Yeah, they certainly can.

NOTE Confidence: 0.78529375

00:51:01.842 --> 00:51:04.610 We actually, so we have information

NOTE Confidence: 0.78529375

00:51:04.610 --> 00:51:06.530 about every university employee.

NOTE Confidence: 0.78529375

00:51:06.530 --> 00:51:08.180 It's on the systems only really

NOTE Confidence: 0.78529375

00:51:08.180 --> 00:51:10.189 actively used by the school medicine,

NOTE Confidence: 0.78529375

00:51:10.190 --> 00:51:11.730 school public health right now.

NOTE Confidence: 0.78529375

00:51:11.730 --> 00:51:13.500 But yes, any Yale employee

NOTE Confidence: 0.78529375

00:51:13.500 --> 00:51:15.870 has a profile in this system.

NOTE Confidence: 0.84117672125

00:51:16.490 --> 00:51:18.362 OK, the reason why I'm asking all of

NOTE Confidence: 0.84117672125

00:51:18.362 --> 00:51:20.216 this is because I'm currently working

NOTE Confidence: 0.84117672125

00:51:20.216 --> 00:51:22.469 at Child Study Center with we're coming

NOTE Confidence: 0.84117672125

00:51:22.469 --> 00:51:24.614 up with a like an onboarding packet.

NOTE Confidence: 0.84117672125

00:51:24.614 --> 00:51:27.702 And so if this is something that needs

NOTE Confidence: 0.84117672125

00:51:27.702 --> 00:51:30.355 to go into that packet for onboarding,

NOTE Confidence: 0.84117672125

00:51:30.360 --> 00:51:32.299 then we should tell our fellows and

NOTE Confidence: 0.84117672125

00:51:32.299 --> 00:51:34.282 we should tell our postdocs and and

NOTE Confidence: 0.84117672125

00:51:34.282 --> 00:51:36.250 faculty that they have to do this.

NOTE Confidence: 0.904170394545455

00:51:37.360 --> 00:51:38.776 That would be wonderful.

NOTE Confidence: 0.904170394545455

00:51:38.776 --> 00:51:40.546 And I would definitely lean

NOTE Confidence: 0.904170394545455

00:51:40.546 --> 00:51:42.229 on that information that Liz

NOTE Confidence: 0.904170394545455

00:51:42.229 --> 00:51:44.227 linked to a few minutes ago.

NOTE Confidence: 0.904170394545455  
00:51:44.230 --> 00:51:46.048 So you don't have to rewrite  
NOTE Confidence: 0.904170394545455  
00:51:46.050 --> 00:51:47.246 content that's already there.  
NOTE Confidence: 0.904170394545455  
00:51:47.246 --> 00:51:49.250 You can just link people off to.  
NOTE Confidence: 0.904170394545455  
00:51:49.250 --> 00:51:51.043 But yeah, that would that would be great.  
NOTE Confidence: 0.904170394545455  
00:51:51.043 --> 00:51:52.770 Thank you. Thanks.  
NOTE Confidence: 0.855033646666667  
00:51:55.720 --> 00:51:56.860 Any other questions?  
NOTE Confidence: 0.941584323333333  
00:52:00.970 --> 00:52:03.290 Alright. Thank you all so  
NOTE Confidence: 0.941584323333333  
00:52:03.290 --> 00:52:05.146 much for attending today.  
NOTE Confidence: 0.941584323333333  
00:52:05.150 --> 00:52:07.370 If you think of questions later,  
NOTE Confidence: 0.941584323333333  
00:52:07.370 --> 00:52:11.108 please do reach out to us at  
NOTE Confidence: 0.941584323333333  
00:52:11.110 --> 00:52:13.094 ism.editor@yale.edu or you can  
NOTE Confidence: 0.941584323333333  
00:52:13.094 --> 00:52:14.816 log into beatrix.yale.edu and send  
NOTE Confidence: 0.941584323333333  
00:52:14.816 --> 00:52:16.268 us a message with this report,  
NOTE Confidence: 0.941584323333333  
00:52:16.270 --> 00:52:19.870 a bug button and just let us know.  
NOTE Confidence: 0.941584323333333  
00:52:19.870 --> 00:52:21.425 Thanks so much for attending  
NOTE Confidence: 0.941584323333333

00:52:21.425 --> 00:52:22.669 and for your questions.

NOTE Confidence: 0.941584323333333

00:52:22.670 --> 00:52:23.620 Have a great day everyone.
