

## **Guidance for MRRC Submissions**

### **Documents to include:**

- Protocol
- Consent forms
- Proposal for Use form

### **Items to include in protocol body:**

- Risks of MR. The simplest thing is to use the Risks language found on the MRRC web site, adjusted to third person (instead of you, say “the subject”, “they”, etc.).
- Statement that the metal detector will be used.
- Statement that a member of your research staff will accompany the patient to the MRRC and remain there for the scan.
- List type of coil and sequence parameters.

### **Items to include in the consent form:**

- State location of scan as the Magnetic Resonance Research Center in The Anlyan Center (TAC).
- Use the Risks language found on the MRRC web site.

### **Items to include in the Proposal for Use form:**

- Keep research purpose brief (one paragraph).
- List type of coil and sequence parameters.
