

## Standard Operating Procedure for MRRC Rapid Ramp-Down

1. We will text, email or call research personnel to have them stop their experiments immediately.
2. All research space will be cleaned.
3. All equipment that can be will be turned off or paused indefinitely.
4. The MRRC will be vacated.
5. No one will be permitted to do additional research at the MRRC except for urgent clinical trials or animal studies deemed essential by Yale University School of Medicine.
6. We will monitor closely the national and local situation.
7. The MRRC will reopen for subject research again as soon as it safe to do so and Yale University permits.
