

WEBVTT

NOTE duration:"00:55:03"

NOTE recognizability:0.845

NOTE language:en-us

NOTE Confidence: 0.7050344

00:00:10.900 --> 00:00:13.496 Thank you. So my name is Justin Fansler.

NOTE Confidence: 0.895632207777778

00:00:13.500 --> 00:00:15.774 I'm part of the technology and

NOTE Confidence: 0.895632207777778

00:00:15.774 --> 00:00:18.240 strategy team within the Office of

NOTE Confidence: 0.895632207777778

00:00:18.240 --> 00:00:20.874 Communications at the School of Medicine.

NOTE Confidence: 0.895632207777778

00:00:20.880 --> 00:00:24.120 Our team supports.

NOTE Confidence: 0.895632207777778

00:00:24.120 --> 00:00:26.630 The communications tools that are

NOTE Confidence: 0.895632207777778

00:00:26.630 --> 00:00:30.182 used by both the schools of public

NOTE Confidence: 0.895632207777778

00:00:30.182 --> 00:00:33.038 health and the School of Medicine.

NOTE Confidence: 0.895632207777778

00:00:33.040 --> 00:00:36.865 As you may know, we had a previous profile

NOTE Confidence: 0.895632207777778

00:00:36.865 --> 00:00:39.664 system that managed people profiles,

NOTE Confidence: 0.895632207777778

00:00:39.664 --> 00:00:43.396 news, events, clinical trials and media

NOTE Confidence: 0.895632207777778

00:00:43.400 --> 00:00:47.996 that we just relaunched as Beatrix.

NOTE Confidence: 0.895632207777778

00:00:48.000 --> 00:00:49.946 So the the purpose of this session

NOTE Confidence: 0.895632207777778

00:00:49.946 --> 00:00:52.459 is to just give you a quick overview,
NOTE Confidence: 0.895632207777778

00:00:52.460 --> 00:00:55.331 well maybe not quick but an overview of the
NOTE Confidence: 0.895632207777778

00:00:55.331 --> 00:00:57.607 system and the different features within
NOTE Confidence: 0.895632207777778

00:00:57.607 --> 00:01:00.520 the system that you might have access to,
NOTE Confidence: 0.895632207777778

00:01:00.520 --> 00:01:03.376 but also give you an opportunity to ask.
NOTE Confidence: 0.895632207777778

00:01:03.380 --> 00:01:06.173 Us questions and raise any issues that
NOTE Confidence: 0.895632207777778

00:01:06.173 --> 00:01:08.880 you may have encountered that would
NOTE Confidence: 0.895632207777778

00:01:08.880 --> 00:01:11.742 be opportunities for us to improve
NOTE Confidence: 0.895632207777778

00:01:11.742 --> 00:01:14.930 the system over the next month.
NOTE Confidence: 0.895632207777778

00:01:14.930 --> 00:01:19.610 We're going to be focused on minor fixes,
NOTE Confidence: 0.895632207777778

00:01:19.610 --> 00:01:22.150 bugs that people have encountered,
NOTE Confidence: 0.895632207777778

00:01:22.150 --> 00:01:24.706 different kind of user interface issues
NOTE Confidence: 0.895632207777778

00:01:24.706 --> 00:01:27.160 that people are finding confusing.
NOTE Confidence: 0.895632207777778

00:01:27.160 --> 00:01:29.197 We're going to focus on on rolling
NOTE Confidence: 0.895632207777778

00:01:29.197 --> 00:01:30.490 out updates to those.
NOTE Confidence: 0.895632207777778

00:01:30.490 --> 00:01:34.150 We're doing deployments right now.

NOTE Confidence: 0.895632207777778
00:01:34.150 --> 00:01:36.246 About once a week,
NOTE Confidence: 0.895632207777778
00:01:36.246 --> 00:01:38.866 sometimes more if something's urgent.
NOTE Confidence: 0.895632207777778
00:01:38.870 --> 00:01:40.790 If you do run into anything,
NOTE Confidence: 0.895632207777778
00:01:40.790 --> 00:01:43.558 please use the report a bug button in
NOTE Confidence: 0.895632207777778
00:01:43.558 --> 00:01:46.488 Beatrix to let us know and be very clear,
NOTE Confidence: 0.895632207777778
00:01:46.490 --> 00:01:48.569 as clear as you can be with what issue
NOTE Confidence: 0.895632207777778
00:01:48.569 --> 00:01:50.569 you came up with or that you found.
NOTE Confidence: 0.895632207777778
00:01:50.570 --> 00:01:53.034 Then when we get back from the
NOTE Confidence: 0.895632207777778
00:01:53.034 --> 00:01:54.770 holiday break in January,
NOTE Confidence: 0.895632207777778
00:01:54.770 --> 00:01:58.410 we are going to divide our development
NOTE Confidence: 0.895632207777778
00:01:58.410 --> 00:02:01.105 team into a group that is working
NOTE Confidence: 0.895632207777778
00:02:01.105 --> 00:02:03.770 on bug fixes and minor new features,
NOTE Confidence: 0.895632207777778
00:02:03.770 --> 00:02:05.632 and then a group that's working on
NOTE Confidence: 0.895632207777778
00:02:05.632 --> 00:02:07.010 major improvements to the system.
NOTE Confidence: 0.895632207777778
00:02:07.010 --> 00:02:10.055 So an example of some of those
NOTE Confidence: 0.895632207777778

00:02:10.055 --> 00:02:12.759 improvements are a bunch of new
NOTE Confidence: 0.895632207777778

00:02:12.759 --> 00:02:15.804 news layouts that you'll be able to.
NOTE Confidence: 0.895632207777778

00:02:15.810 --> 00:02:18.720 Utilize when creating news articles.
NOTE Confidence: 0.895632207777778

00:02:18.720 --> 00:02:21.786 We've been building an AI based tool
NOTE Confidence: 0.895632207777778

00:02:21.786 --> 00:02:24.908 over the last six months that will
NOTE Confidence: 0.895632207777778

00:02:24.908 --> 00:02:28.014 allow faculty to upload a CV into
NOTE Confidence: 0.895632207777778

00:02:28.014 --> 00:02:31.080 Beatrix and then export all of that
NOTE Confidence: 0.895632207777778

00:02:31.080 --> 00:02:33.800 data from the CV into their profile.
NOTE Confidence: 0.895632207777778

00:02:33.800 --> 00:02:35.510 This should be especially helpful
NOTE Confidence: 0.895632207777778

00:02:35.510 --> 00:02:37.580 for any new faculty that join,
NOTE Confidence: 0.895632207777778

00:02:37.580 --> 00:02:39.729 but it will also be helpful for
NOTE Confidence: 0.895632207777778

00:02:39.729 --> 00:02:42.228 faculty who have been here for a long
NOTE Confidence: 0.895632207777778

00:02:42.228 --> 00:02:44.603 time and may have hundreds of pending
NOTE Confidence: 0.895632207777778

00:02:44.603 --> 00:02:47.003 publications that they need to approve.
NOTE Confidence: 0.895632207777778

00:02:47.010 --> 00:02:47.526 Um,
NOTE Confidence: 0.895632207777778

00:02:47.526 --> 00:02:50.622 this would automatically approve those based

NOTE Confidence: 0.895632207777778
00:02:50.622 --> 00:02:53.736 on extracting that data from from their CV.
NOTE Confidence: 0.895632207777778
00:02:53.736 --> 00:02:55.157 So there's a bunch of different kind
NOTE Confidence: 0.895632207777778
00:02:55.157 --> 00:02:56.322 of major improvements that we're
NOTE Confidence: 0.895632207777778
00:02:56.322 --> 00:02:57.960 going to be making to the system
NOTE Confidence: 0.895632207777778
00:02:57.960 --> 00:02:59.065 over the next six months.
NOTE Confidence: 0.895632207777778
00:02:59.070 --> 00:03:01.934 We're always happy to hear your input for
NOTE Confidence: 0.895632207777778
00:03:01.934 --> 00:03:04.946 things that would help make your life easier.
NOTE Confidence: 0.895632207777778
00:03:04.950 --> 00:03:07.810 So never hesitate to reach out to any of us
NOTE Confidence: 0.895632207777778
00:03:07.877 --> 00:03:10.669 on the communications team to let us know,
NOTE Confidence: 0.895632207777778
00:03:10.670 --> 00:03:10.934 OK?
NOTE Confidence: 0.895632207777778
00:03:10.934 --> 00:03:11.726 And with that,
NOTE Confidence: 0.895632207777778
00:03:11.726 --> 00:03:14.218 I'm going to turn it over to Mark Albus,
NOTE Confidence: 0.895632207777778
00:03:14.220 --> 00:03:17.316 and he's going to share his screen and.
NOTE Confidence: 0.895632207777778
00:03:17.320 --> 00:03:18.780 Take you through the system.
NOTE Confidence: 0.895632207777778
00:03:18.780 --> 00:03:22.258 Feel free to use the chat to ask any
NOTE Confidence: 0.895632207777778

00:03:22.258 --> 00:03:24.334 questions or just unmute yourself and
NOTE Confidence: 0.895632207777778

00:03:24.334 --> 00:03:27.079 ask a question during the presentation.
NOTE Confidence: 0.895632207777778

00:03:27.080 --> 00:03:28.388 Don't don't hesitate to do that.
NOTE Confidence: 0.920304006666667

00:03:31.160 --> 00:03:33.260 Hi everybody and thanks for joining.
NOTE Confidence: 0.920304006666667

00:03:33.260 --> 00:03:35.492 I just wanted to mention because
NOTE Confidence: 0.920304006666667

00:03:35.492 --> 00:03:37.839 I see some familiar faces here.
NOTE Confidence: 0.920304006666667

00:03:37.840 --> 00:03:41.420 This is going to be largely the same as our
NOTE Confidence: 0.920304006666667

00:03:41.507 --> 00:03:44.837 previous intro general overview session,
NOTE Confidence: 0.920304006666667

00:03:44.840 --> 00:03:48.440 so if you already attended that and you
NOTE Confidence: 0.920304006666667

00:03:48.440 --> 00:03:50.680 don't have any specific questions to ask,
NOTE Confidence: 0.920304006666667

00:03:50.680 --> 00:03:53.193 then you might just want to listen
NOTE Confidence: 0.920304006666667

00:03:53.193 --> 00:03:55.093 in the background because it's
NOTE Confidence: 0.920304006666667

00:03:55.093 --> 00:03:56.968 going to be very similar.
NOTE Confidence: 0.920304006666667

00:03:56.970 --> 00:03:58.979 But we will be having the there
NOTE Confidence: 0.920304006666667

00:03:58.979 --> 00:04:00.463 are additional trainings coming up
NOTE Confidence: 0.920304006666667

00:04:00.463 --> 00:04:02.155 that are more focused on specific

NOTE Confidence: 0.920304006666667

00:04:02.155 --> 00:04:04.009 modules and those will be different.

NOTE Confidence: 0.920304006666667

00:04:04.010 --> 00:04:05.530 So I just wanted to open with that.

NOTE Confidence: 0.920304006666667

00:04:05.530 --> 00:04:07.933 But with that I'm just going to jump into

NOTE Confidence: 0.920304006666667

00:04:07.933 --> 00:04:10.749 it sort of a general overview of the system.

NOTE Confidence: 0.920304006666667

00:04:10.750 --> 00:04:12.450 Please note for this time,

NOTE Confidence: 0.920304006666667

00:04:12.450 --> 00:04:13.812 for this demonstration,

NOTE Confidence: 0.920304006666667

00:04:13.812 --> 00:04:17.450 I'm in a development version of this site.

NOTE Confidence: 0.920304006666667

00:04:17.450 --> 00:04:19.746 So nothing I change here is going to

NOTE Confidence: 0.920304006666667

00:04:19.746 --> 00:04:21.487 actually affect any of the websites.

NOTE Confidence: 0.920304006666667

00:04:21.490 --> 00:04:23.362 All this data is basically it's

NOTE Confidence: 0.920304006666667

00:04:23.362 --> 00:04:25.050 copied from the production system,

NOTE Confidence: 0.920304006666667

00:04:25.050 --> 00:04:26.208 but it's not.

NOTE Confidence: 0.920304006666667

00:04:26.208 --> 00:04:28.524 Used anywhere that you are going

NOTE Confidence: 0.920304006666667

00:04:28.524 --> 00:04:31.128 to see in the profile in Beatrix

NOTE Confidence: 0.920304006666667

00:04:31.128 --> 00:04:34.130 when you log in or on the websites.

NOTE Confidence: 0.920304006666667

00:04:34.130 --> 00:04:36.785 So if I add something crazy to your profile,
NOTE Confidence: 0.920304006666667

00:04:36.790 --> 00:04:38.990 don't worry, it's not going to go anywhere.
NOTE Confidence: 0.920304006666667

00:04:38.990 --> 00:04:41.540 Umm.
NOTE Confidence: 0.920304006666667

00:04:41.540 --> 00:04:44.168 So you can access the production
NOTE Confidence: 0.920304006666667

00:04:44.168 --> 00:04:45.378 system at beatrix.yellow.edu,
NOTE Confidence: 0.920304006666667

00:04:45.378 --> 00:04:47.018 and when you log in,
NOTE Confidence: 0.920304006666667

00:04:47.020 --> 00:04:49.127 you're going to see a page that
NOTE Confidence: 0.920304006666667

00:04:49.127 --> 00:04:50.380 looks something like this.
NOTE Confidence: 0.920304006666667

00:04:50.380 --> 00:04:53.586 This is a new feature with Beatrix.
NOTE Confidence: 0.920304006666667

00:04:53.590 --> 00:04:54.866 It's called the dashboard.
NOTE Confidence: 0.920304006666667

00:04:54.866 --> 00:04:57.388 And what we're trying to do is there's
NOTE Confidence: 0.920304006666667

00:04:57.388 --> 00:04:59.980 going to be a lot more content here later.
NOTE Confidence: 0.920304006666667

00:04:59.980 --> 00:05:00.826 But for that,
NOTE Confidence: 0.920304006666667

00:05:00.826 --> 00:05:03.520 what we're trying to do is add ways to
NOTE Confidence: 0.920304006666667

00:05:03.520 --> 00:05:05.680 quickly access things that you might
NOTE Confidence: 0.920304006666667

00:05:05.680 --> 00:05:08.240 be logging into the system to work on.

NOTE Confidence: 0.920304006666667
00:05:08.240 --> 00:05:09.854 So the only things that we're
NOTE Confidence: 0.920304006666667
00:05:09.854 --> 00:05:11.499 including for the time being are.
NOTE Confidence: 0.920304006666667
00:05:11.500 --> 00:05:14.419 Your drafts in progress, which are events,
NOTE Confidence: 0.920304006666667
00:05:14.420 --> 00:05:15.935 news articles, newsletters.
NOTE Confidence: 0.920304006666667
00:05:15.935 --> 00:05:19.470 If you're using the system to create
NOTE Confidence: 0.920304006666667
00:05:19.552 --> 00:05:21.556 newsletters that you might have
NOTE Confidence: 0.920304006666667
00:05:21.556 --> 00:05:22.976 started but haven't finished yet,
NOTE Confidence: 0.920304006666667
00:05:22.980 --> 00:05:24.678 putting those front and Center for
NOTE Confidence: 0.920304006666667
00:05:24.678 --> 00:05:27.089 you so you can once you log back in,
NOTE Confidence: 0.920304006666667
00:05:27.090 --> 00:05:28.406 it's pretty likely you want to go
NOTE Confidence: 0.920304006666667
00:05:28.406 --> 00:05:29.699 back and finish your news article,
NOTE Confidence: 0.920304006666667
00:05:29.700 --> 00:05:31.080 your event, and submit it.
NOTE Confidence: 0.920304006666667
00:05:31.080 --> 00:05:32.496 So we're making a quick link
NOTE Confidence: 0.920304006666667
00:05:32.496 --> 00:05:33.440 for you right there.
NOTE Confidence: 0.920304006666667
00:05:33.440 --> 00:05:35.540 The other really popular task,
NOTE Confidence: 0.920304006666667

00:05:35.540 --> 00:05:38.074 at least for people who have some
NOTE Confidence: 0.920304006666667

00:05:38.074 --> 00:05:39.955 kind of communications role or
NOTE Confidence: 0.920304006666667

00:05:39.955 --> 00:05:41.760 at least have a communications.
NOTE Confidence: 0.920304006666667

00:05:41.760 --> 00:05:44.469 Aspect of their role at the school
NOTE Confidence: 0.920304006666667

00:05:44.470 --> 00:05:47.310 is this needs review section.
NOTE Confidence: 0.920304006666667

00:05:47.310 --> 00:05:47.616 Actually,
NOTE Confidence: 0.920304006666667

00:05:47.616 --> 00:05:49.758 you will also see this importantly if
NOTE Confidence: 0.920304006666667

00:05:49.758 --> 00:05:52.371 you are a faculty member and you have
NOTE Confidence: 0.920304006666667

00:05:52.371 --> 00:05:54.170 pending publications to your profile.
NOTE Confidence: 0.920304006666667

00:05:54.170 --> 00:05:56.310 I personally haven't published anything,
NOTE Confidence: 0.920304006666667

00:05:56.310 --> 00:05:58.529 so I don't see any pending pending
NOTE Confidence: 0.920304006666667

00:05:58.529 --> 00:06:00.010 publications for my profile.
NOTE Confidence: 0.920304006666667

00:06:00.010 --> 00:06:02.269 But if you are a faculty member who at
NOTE Confidence: 0.920304006666667

00:06:02.269 --> 00:06:04.916 we have linked with a dimensions profile,
NOTE Confidence: 0.920304006666667

00:06:04.920 --> 00:06:06.210 which I'll talk more about
NOTE Confidence: 0.920304006666667

00:06:06.210 --> 00:06:07.242 a little bit later,

NOTE Confidence: 0.920304006666667

00:06:07.250 --> 00:06:09.810 you might see an element here that sells

NOTE Confidence: 0.920304006666667

00:06:09.810 --> 00:06:11.930 you opening publications to review.

NOTE Confidence: 0.920304006666667

00:06:11.930 --> 00:06:13.556 And these are just quick links.

NOTE Confidence: 0.920304006666667

00:06:13.560 --> 00:06:14.310 For example,

NOTE Confidence: 0.920304006666667

00:06:14.310 --> 00:06:16.560 if I'm managing the news that

NOTE Confidence: 0.920304006666667

00:06:16.560 --> 00:06:18.198 appears on the YCI website,

NOTE Confidence: 0.920304006666667

00:06:18.198 --> 00:06:21.054 I can click on this view all link under

NOTE Confidence: 0.920304006666667

00:06:21.054 --> 00:06:23.400 the new articles that are suggested.

NOTE Confidence: 0.85039993

00:06:23.400 --> 00:06:25.648 One CI and I'll see a whole list

NOTE Confidence: 0.85039993

00:06:25.648 --> 00:06:28.309 of the those articles and I can

NOTE Confidence: 0.85039993

00:06:28.309 --> 00:06:30.804 start going through and approve or

NOTE Confidence: 0.85039993

00:06:30.804 --> 00:06:33.186 reject them as necessary to make

NOTE Confidence: 0.85039993

00:06:33.186 --> 00:06:36.840 these articles show up on my site.

NOTE Confidence: 0.85039993

00:06:36.840 --> 00:06:39.210 So this is our first new

NOTE Confidence: 0.85039993

00:06:39.210 --> 00:06:40.790 big feature is dashboard.

NOTE Confidence: 0.85039993

00:06:40.790 --> 00:06:42.262 There's more coming later,
NOTE Confidence: 0.85039993

00:06:42.262 --> 00:06:45.108 but for now it's just sort of a
NOTE Confidence: 0.85039993

00:06:45.108 --> 00:06:47.096 quick way to get links to things
NOTE Confidence: 0.85039993

00:06:47.096 --> 00:06:49.539 you might want to edit right away.
NOTE Confidence: 0.85039993

00:06:49.540 --> 00:06:51.297 I'm going to jump around the system
NOTE Confidence: 0.85039993

00:06:51.297 --> 00:06:53.115 a little bit just to show you
NOTE Confidence: 0.85039993

00:06:53.115 --> 00:06:54.621 some of the other new features,
NOTE Confidence: 0.85039993

00:06:54.630 --> 00:06:57.563 one of which is for almost every
NOTE Confidence: 0.85039993

00:06:57.563 --> 00:07:00.429 list of people you see here now.
NOTE Confidence: 0.85039993

00:07:00.430 --> 00:07:02.590 Well, list of anything you see.
NOTE Confidence: 0.85039993

00:07:02.590 --> 00:07:04.288 There's going to be an option
NOTE Confidence: 0.85039993

00:07:04.288 --> 00:07:05.949 to download a table of that,
NOTE Confidence: 0.85039993

00:07:05.950 --> 00:07:08.386 which might be really handy if.
NOTE Confidence: 0.85039993

00:07:08.390 --> 00:07:14.837 For example. I wanted to filter to.
NOTE Confidence: 0.85039993

00:07:14.840 --> 00:07:15.710 Umm.
NOTE Confidence: 0.912178501

00:07:19.040 --> 00:07:21.565 A list of faculty members

NOTE Confidence: 0.912178501

00:07:21.565 --> 00:07:24.090 who are in my department.

NOTE Confidence: 0.912178501

00:07:24.090 --> 00:07:27.410 I could filter by department and by faculty,

NOTE Confidence: 0.912178501

00:07:27.410 --> 00:07:30.138 and then I could quickly download a table,

NOTE Confidence: 0.912178501

00:07:30.140 --> 00:07:31.556 download a CSV file,

NOTE Confidence: 0.912178501

00:07:31.556 --> 00:07:34.491 but I can then manipulate and easily get

NOTE Confidence: 0.912178501

00:07:34.491 --> 00:07:37.435 a list of the data that's displayed here.

NOTE Confidence: 0.912178501

00:07:37.440 --> 00:07:38.252 We have a lot.

NOTE Confidence: 0.912178501

00:07:38.252 --> 00:07:39.950 For now, this is only going to show

NOTE Confidence: 0.912178501

00:07:39.950 --> 00:07:41.380 you the data that's shown here,

NOTE Confidence: 0.912178501

00:07:41.380 --> 00:07:43.676 which may or may not be super helpful,

NOTE Confidence: 0.912178501

00:07:43.680 --> 00:07:46.564 but we are working on some future

NOTE Confidence: 0.912178501

00:07:46.564 --> 00:07:47.800 improvements and reporting.

NOTE Confidence: 0.912178501

00:07:47.800 --> 00:07:49.020 I'll give you many more

NOTE Confidence: 0.912178501

00:07:49.020 --> 00:07:50.240 options that will be hopefully.

NOTE Confidence: 0.912178501

00:07:50.240 --> 00:07:55.150 Available in earlier mid next year.

NOTE Confidence: 0.912178501

00:07:55.150 --> 00:07:57.184 But this download table option is
NOTE Confidence: 0.912178501

00:07:57.184 --> 00:07:59.529 there today and it does function.
NOTE Confidence: 0.912178501

00:07:59.530 --> 00:08:01.590 Umm.
NOTE Confidence: 0.912178501

00:08:01.590 --> 00:08:02.742 Another important update,
NOTE Confidence: 0.912178501

00:08:02.742 --> 00:08:05.046 and hopefully this will work properly
NOTE Confidence: 0.912178501

00:08:05.046 --> 00:08:06.770 while I'm demonstrating here,
NOTE Confidence: 0.912178501

00:08:06.770 --> 00:08:10.074 is that we now have a responsive
NOTE Confidence: 0.912178501

00:08:10.074 --> 00:08:12.670 design for this whole tool.
NOTE Confidence: 0.912178501

00:08:12.670 --> 00:08:16.150 So previously if you ever tried
NOTE Confidence: 0.912178501

00:08:16.150 --> 00:08:18.287 to log into profilethatyouknow.edu
NOTE Confidence: 0.912178501

00:08:18.287 --> 00:08:20.669 on your phone or a tablet,
NOTE Confidence: 0.912178501

00:08:20.670 --> 00:08:22.614 you probably didn't have a great
NOTE Confidence: 0.912178501

00:08:22.614 --> 00:08:24.269 experience because it was not
NOTE Confidence: 0.912178501

00:08:24.269 --> 00:08:25.774 optimized to work on anything
NOTE Confidence: 0.912178501

00:08:25.774 --> 00:08:27.490 other than a desktop browser.
NOTE Confidence: 0.912178501

00:08:27.490 --> 00:08:31.618 Now we have a responsive design that will.

NOTE Confidence: 0.912178501

00:08:31.620 --> 00:08:33.016 Significantly change the layout

NOTE Confidence: 0.912178501

00:08:33.016 --> 00:08:35.110 to make it easier to use.

NOTE Confidence: 0.912178501

00:08:35.110 --> 00:08:37.558 If for some reason you're on your phone,

NOTE Confidence: 0.912178501

00:08:37.560 --> 00:08:39.222 you desperately need to go update

NOTE Confidence: 0.912178501

00:08:39.222 --> 00:08:41.560 your profile. You can do that now.

NOTE Confidence: 0.912178501

00:08:41.560 --> 00:08:43.515 It is optimized for display

NOTE Confidence: 0.912178501

00:08:43.515 --> 00:08:44.688 on smaller devices.

NOTE Confidence: 0.912178501

00:08:44.690 --> 00:08:46.839 You can make almost any edit in

NOTE Confidence: 0.912178501

00:08:46.839 --> 00:08:49.091 the system on whatever device you

NOTE Confidence: 0.912178501

00:08:49.091 --> 00:08:51.599 have that connects to the Internet,

NOTE Confidence: 0.912178501

00:08:51.600 --> 00:08:53.088 so that's really handy.

NOTE Confidence: 0.775019848571429

00:08:55.570 --> 00:08:57.580 I also I partially demonstrated

NOTE Confidence: 0.775019848571429

00:08:57.580 --> 00:09:00.810 this already, but we have a lot

NOTE Confidence: 0.775019848571429

00:09:00.810 --> 00:09:02.746 more filtering options here.

NOTE Confidence: 0.775019848571429

00:09:02.750 --> 00:09:06.600 One important note is that you'll often

NOTE Confidence: 0.775019848571429

00:09:06.600 --> 00:09:10.102 see at the tops of columns in a table these
NOTE Confidence: 0.775019848571429

00:09:10.102 --> 00:09:12.647 little sorting option sorting arrows,
NOTE Confidence: 0.775019848571429

00:09:12.650 --> 00:09:15.602 I should say, that allow you to sort all
NOTE Confidence: 0.775019848571429

00:09:15.602 --> 00:09:18.477 the items in the list by that column.
NOTE Confidence: 0.775019848571429

00:09:18.480 --> 00:09:21.595 And also a little filter icon which
NOTE Confidence: 0.775019848571429

00:09:21.595 --> 00:09:26.120 will allow you for example. To filter.
NOTE Confidence: 0.775019848571429

00:09:26.120 --> 00:09:29.564 My articles list by the organizations
NOTE Confidence: 0.775019848571429

00:09:29.564 --> 00:09:33.180 that those articles are approved for.
NOTE Confidence: 0.775019848571429

00:09:33.180 --> 00:09:35.035 We basically just ripped off Excel here,
NOTE Confidence: 0.775019848571429

00:09:35.040 --> 00:09:36.570 so it's hopefully something most
NOTE Confidence: 0.775019848571429

00:09:36.570 --> 00:09:38.389 people are familiar with and it's
NOTE Confidence: 0.775019848571429

00:09:38.389 --> 00:09:39.805 not too tricky to work with.
NOTE Confidence: 0.775019848571429

00:09:39.810 --> 00:09:41.940 It's a pretty familiar interface
NOTE Confidence: 0.775019848571429

00:09:41.940 --> 00:09:43.644 that people are using.
NOTE Confidence: 0.88393507

00:09:46.040 --> 00:09:49.864 Lastly, an important new aspect of the system
NOTE Confidence: 0.88393507

00:09:49.864 --> 00:09:54.296 and I'm going to jump to I keep picking on.

NOTE Confidence: 0.88393507

00:09:54.296 --> 00:09:56.716 Doctor Grauer in these sessions

NOTE Confidence: 0.88393507

00:09:56.716 --> 00:09:59.876 because he has such a complete profile.

NOTE Confidence: 0.88393507

00:09:59.880 --> 00:10:03.032 But one another new feature is that we're

NOTE Confidence: 0.88393507

00:10:03.032 --> 00:10:05.069 autosaving content as you're working.

NOTE Confidence: 0.88393507

00:10:05.070 --> 00:10:08.490 So if I start typing.

NOTE Confidence: 0.88393507

00:10:08.490 --> 00:10:09.858 In this biography field.

NOTE Confidence: 0.88393507

00:10:09.858 --> 00:10:12.760 I'm going to see this little green check.

NOTE Confidence: 0.88393507

00:10:12.760 --> 00:10:15.076 This means that my work up

NOTE Confidence: 0.88393507

00:10:15.076 --> 00:10:17.210 to this point isn't saved.

NOTE Confidence: 0.88393507

00:10:17.210 --> 00:10:18.930 This isn't universal to every

NOTE Confidence: 0.88393507

00:10:18.930 --> 00:10:20.650 single field in the system.

NOTE Confidence: 0.88393507

00:10:20.650 --> 00:10:25.666 For example, when you take some kind of

NOTE Confidence: 0.88393507

00:10:25.666 --> 00:10:29.411 action that results in a pop-up appearing,

NOTE Confidence: 0.88393507

00:10:29.411 --> 00:10:30.919 generally we're not saving

NOTE Confidence: 0.88393507

00:10:30.919 --> 00:10:32.570 this data as you go.

NOTE Confidence: 0.88393507

00:10:32.570 --> 00:10:34.991 You have to complete it and click add or
NOTE Confidence: 0.88393507

00:10:34.991 --> 00:10:37.267 update in order for your changes to save.
NOTE Confidence: 0.88393507

00:10:37.270 --> 00:10:39.424 But generally, if I'm editing fields
NOTE Confidence: 0.88393507

00:10:39.424 --> 00:10:42.207 that appear just on the page by default,
NOTE Confidence: 0.88393507

00:10:42.210 --> 00:10:43.950 like this bio field,
NOTE Confidence: 0.88393507

00:10:43.950 --> 00:10:47.133 it's going to save as I go so
NOTE Confidence: 0.88393507

00:10:47.133 --> 00:10:48.498 that you won't lose work.
NOTE Confidence: 0.88393507

00:10:48.500 --> 00:10:50.840 If you accidentally close your browser,
NOTE Confidence: 0.88393507

00:10:50.840 --> 00:10:53.150 or you lose access, or whatever.
NOTE Confidence: 0.88393507

00:10:53.150 --> 00:10:56.748 Um. That is an overview of some
NOTE Confidence: 0.88393507

00:10:56.748 --> 00:10:58.210 of the new major features,
NOTE Confidence: 0.88393507

00:10:58.210 --> 00:11:00.874 so now I'm going to start
NOTE Confidence: 0.88393507

00:11:00.874 --> 00:11:02.206 jumping into specifics.
NOTE Confidence: 0.88393507

00:11:02.210 --> 00:11:03.212 And conveniently,
NOTE Confidence: 0.88393507

00:11:03.212 --> 00:11:06.218 I'm going to start with profiles.
NOTE Confidence: 0.88393507

00:11:06.220 --> 00:11:08.264 I'm not going to go through each

NOTE Confidence: 0.88393507
00:11:08.264 --> 00:11:10.124 and every field because there are
NOTE Confidence: 0.88393507
00:11:10.124 --> 00:11:12.259 a ton of fields in each profile,
NOTE Confidence: 0.88393507
00:11:12.260 --> 00:11:13.478 but I just want to highlight
NOTE Confidence: 0.88393507
00:11:13.478 --> 00:11:14.087 some important things,
NOTE Confidence: 0.88393507
00:11:14.090 --> 00:11:16.016 some of which are features we
NOTE Confidence: 0.88393507
00:11:16.016 --> 00:11:18.039 had in profile systems in the
NOTE Confidence: 0.88393507
00:11:18.039 --> 00:11:19.714 previous version of the system,
NOTE Confidence: 0.88393507
00:11:19.720 --> 00:11:22.336 some of which are new to be matrix.
NOTE Confidence: 0.88393507
00:11:22.340 --> 00:11:23.474 One of them,
NOTE Confidence: 0.88393507
00:11:23.474 --> 00:11:25.742 which we have made front and
NOTE Confidence: 0.88393507
00:11:25.742 --> 00:11:28.258 center now is the profile editor.
NOTE Confidence: 0.88393507
00:11:28.260 --> 00:11:30.933 If you are a faculty member or a staff
NOTE Confidence: 0.88393507
00:11:30.933 --> 00:11:33.237 member and you have an assistant who
NOTE Confidence: 0.88393507
00:11:33.237 --> 00:11:35.459 could be doing this work for you,
NOTE Confidence: 0.88393507
00:11:35.460 --> 00:11:37.809 you might want to add them as a profile.
NOTE Confidence: 0.88393507

00:11:37.810 --> 00:11:41.289 Better for your profile so that they
NOTE Confidence: 0.88393507

00:11:41.289 --> 00:11:43.150 have access to loginbeatrix.yellow.edu
NOTE Confidence: 0.88393507

00:11:43.150 --> 00:11:45.000 themselves and they can make
NOTE Confidence: 0.88393507

00:11:45.000 --> 00:11:46.939 edits to your profile for you.
NOTE Confidence: 0.88393507

00:11:46.940 --> 00:11:49.720 Relatedly, if you don't necessarily.
NOTE Confidence: 0.88393507

00:11:49.720 --> 00:11:51.792 If you're a faculty member and you
NOTE Confidence: 0.88393507

00:11:51.792 --> 00:11:53.060 don't necessarily want somebody
NOTE Confidence: 0.88393507

00:11:53.060 --> 00:11:54.974 inviting all of your profile info,
NOTE Confidence: 0.88393507

00:11:54.980 --> 00:11:56.966 but you could use some help
NOTE Confidence: 0.88393507

00:11:56.966 --> 00:11:57.959 approving your publications,
NOTE Confidence: 0.88393507

00:11:57.960 --> 00:11:59.320 because you have hundreds
NOTE Confidence: 0.88393507

00:11:59.320 --> 00:12:00.680 and hundreds of publications,
NOTE Confidence: 0.88393507

00:12:00.680 --> 00:12:02.920 you can add somebody specifically
NOTE Confidence: 0.88393507

00:12:02.920 --> 00:12:05.080 as a publication reviewer and
NOTE Confidence: 0.88393507

00:12:05.080 --> 00:12:06.880 that will give them similar.
NOTE Confidence: 0.88393507

00:12:06.880 --> 00:12:08.341 It's very similar.

NOTE Confidence: 0.88393507
00:12:08.341 --> 00:12:10.289 To the profile editor,
NOTE Confidence: 0.88393507
00:12:10.290 --> 00:12:13.433 but this will only give them access
NOTE Confidence: 0.88393507
00:12:13.433 --> 00:12:16.801 to update your approved or rejected
NOTE Confidence: 0.88393507
00:12:16.801 --> 00:12:19.369 publications or feature them.
NOTE Confidence: 0.88393507
00:12:19.370 --> 00:12:21.491 They won't be able to edit your
NOTE Confidence: 0.88393507
00:12:21.491 --> 00:12:23.497 biography or any of the other
NOTE Confidence: 0.88393507
00:12:23.497 --> 00:12:24.869 sections of your profile.
NOTE Confidence: 0.88393507
00:12:24.870 --> 00:12:26.268 So a couple different ways you
NOTE Confidence: 0.88393507
00:12:26.268 --> 00:12:27.632 can grant people access to your
NOTE Confidence: 0.88393507
00:12:27.632 --> 00:12:28.408 profile to edit it.
NOTE Confidence: 0.69592774
00:12:30.420 --> 00:12:33.080 Umm, I skipped over this.
NOTE Confidence: 0.69592774
00:12:33.080 --> 00:12:34.808 This is somewhat similar.
NOTE Confidence: 0.69592774
00:12:34.808 --> 00:12:37.400 We have a list of assistance.
NOTE Confidence: 0.69592774
00:12:37.400 --> 00:12:39.680 This is really important for
NOTE Confidence: 0.69592774
00:12:39.680 --> 00:12:41.036 especially faculty, viewer,
NOTE Confidence: 0.69592774

00:12:41.036 --> 00:12:44.172 and more senior roles who have assistance.

NOTE Confidence: 0.69592774

00:12:44.180 --> 00:12:46.455 It might be difficult to contact directly,

NOTE Confidence: 0.69592774

00:12:46.460 --> 00:12:49.358 and it's better to get in touch with their

NOTE Confidence: 0.69592774

00:12:49.358 --> 00:12:51.355 assistant if you need to reach them.

NOTE Confidence: 0.69592774

00:12:51.360 --> 00:12:52.944 This isn't appearing on

NOTE Confidence: 0.69592774

00:12:52.944 --> 00:12:54.528 the websites just yet,

NOTE Confidence: 0.69592774

00:12:54.530 --> 00:12:56.810 so even though I've added myself,

NOTE Confidence: 0.69592774

00:12:56.810 --> 00:12:58.730 even if I did in the production system,

NOTE Confidence: 0.69592774

00:12:58.730 --> 00:13:00.851 if I added myself as Jonathan Rogers

NOTE Confidence: 0.69592774

00:13:00.851 --> 00:13:02.124 assistant, that's not going to

NOTE Confidence: 0.69592774

00:13:02.124 --> 00:13:03.570 show up on the website anywhere.

NOTE Confidence: 0.69592774

00:13:03.570 --> 00:13:06.082 But we are working on ways to expose

NOTE Confidence: 0.69592774

00:13:06.082 --> 00:13:07.891 that information so that we can

NOTE Confidence: 0.69592774

00:13:07.891 --> 00:13:09.565 make sure we're listing the best

NOTE Confidence: 0.69592774

00:13:09.624 --> 00:13:13.510 contact way to contact these people.

NOTE Confidence: 0.69592774

00:13:13.510 --> 00:13:14.880 And also just internally again

NOTE Confidence: 0.69592774

00:13:14.880 --> 00:13:16.581 for some of the reporting features

NOTE Confidence: 0.69592774

00:13:16.581 --> 00:13:17.966 we're going to add later,

NOTE Confidence: 0.69592774

00:13:17.970 --> 00:13:19.452 could be really handy for department

NOTE Confidence: 0.69592774

00:13:19.452 --> 00:13:21.654 to be able to pull the assistance for

NOTE Confidence: 0.69592774

00:13:21.654 --> 00:13:23.850 all faculty in their department for example.

NOTE Confidence: 0.69592774

00:13:23.850 --> 00:13:26.769 So please do take the time to

NOTE Confidence: 0.69592774

00:13:26.769 --> 00:13:29.449 add assistance if you're able to.

NOTE Confidence: 0.69592774

00:13:29.450 --> 00:13:29.955 Umm,

NOTE Confidence: 0.69592774

00:13:29.955 --> 00:13:32.985 and then move something that's really

NOTE Confidence: 0.69592774

00:13:32.985 --> 00:13:36.662 important because if I preview my profile or,

NOTE Confidence: 0.69592774

00:13:36.662 --> 00:13:37.134 sorry,

NOTE Confidence: 0.69592774

00:13:37.134 --> 00:13:38.550 preview this profile,

NOTE Confidence: 0.69592774

00:13:38.550 --> 00:13:40.468 one of the first things I'm going

NOTE Confidence: 0.69592774

00:13:40.468 --> 00:13:42.189 to see aside from his name,

NOTE Confidence: 0.69592774

00:13:42.190 --> 00:13:45.508 are Doctor Rouse Dr Growers titles.

NOTE Confidence: 0.69592774

00:13:45.510 --> 00:13:48.268 If you're not familiar with the system,

NOTE Confidence: 0.69592774

00:13:48.270 --> 00:13:50.622 it might not be clear that these

NOTE Confidence: 0.69592774

00:13:50.622 --> 00:13:53.099 titles are a combination of data

NOTE Confidence: 0.69592774

00:13:53.099 --> 00:13:55.414 we're importing from Yale's HR

NOTE Confidence: 0.69592774

00:13:55.414 --> 00:13:58.211 system work day and titles that you

NOTE Confidence: 0.69592774

00:13:58.211 --> 00:14:00.668 can add directly in this system.

NOTE Confidence: 0.69592774

00:14:00.668 --> 00:14:04.616 We are importing your primary title,

NOTE Confidence: 0.69592774

00:14:04.620 --> 00:14:06.840 business title from Work Day.

NOTE Confidence: 0.69592774

00:14:06.840 --> 00:14:09.038 That's going to display on your profile.

NOTE Confidence: 0.69592774

00:14:09.040 --> 00:14:10.696 You can't remove it or control

NOTE Confidence: 0.69592774

00:14:10.696 --> 00:14:12.851 it in any way aside from getting

NOTE Confidence: 0.69592774

00:14:12.851 --> 00:14:14.496 it updated in work day.

NOTE Confidence: 0.69592774

00:14:14.500 --> 00:14:17.236 So if your very first title or only

NOTE Confidence: 0.69592774

00:14:17.236 --> 00:14:20.019 title on your profile is incorrect,

NOTE Confidence: 0.69592774

00:14:20.020 --> 00:14:22.078 it's probably coming from work day.

NOTE Confidence: 0.69592774

00:14:22.080 --> 00:14:23.928 And we do weeks here to get you

NOTE Confidence: 0.69592774

00:14:23.928 --> 00:14:26.110 to the people you need to contact

NOTE Confidence: 0.69592774

00:14:26.110 --> 00:14:27.434 to get that corrected.

NOTE Confidence: 0.69592774

00:14:27.440 --> 00:14:28.790 But you're going to basically the

NOTE Confidence: 0.69592774

00:14:28.790 --> 00:14:30.091 answer is you're going to want

NOTE Confidence: 0.69592774

00:14:30.091 --> 00:14:31.147 to make sure your work day.

NOTE Confidence: 0.69592774

00:14:31.150 --> 00:14:32.095 Title is correct.

NOTE Confidence: 0.69592774

00:14:32.095 --> 00:14:33.670 And then that next day,

NOTE Confidence: 0.69592774

00:14:33.670 --> 00:14:35.428 once it's updated and work dated

NOTE Confidence: 0.69592774

00:14:35.428 --> 00:14:37.273 and work day, the day after,

NOTE Confidence: 0.69592774

00:14:37.273 --> 00:14:39.520 we're going to import that data and

NOTE Confidence: 0.69592774

00:14:39.586 --> 00:14:41.770 it will be updated on the website.

NOTE Confidence: 0.69592774

00:14:41.770 --> 00:14:45.238 For other positions that are not

NOTE Confidence: 0.69592774

00:14:45.238 --> 00:14:48.808 necessarily going to appear in work day,

NOTE Confidence: 0.69592774

00:14:48.810 --> 00:14:53.328 you can add titles directly and

NOTE Confidence: 0.69592774

00:14:53.328 --> 00:14:56.394 those you can simply go to your

NOTE Confidence: 0.69592774

00:14:56.394 --> 00:14:58.058 administrative position section in
NOTE Confidence: 0.69592774

00:14:58.058 --> 00:15:00.906 this career page and add a new title.
NOTE Confidence: 0.69592774

00:15:00.910 --> 00:15:02.135 We're going to require some
NOTE Confidence: 0.69592774

00:15:02.135 --> 00:15:03.599 information about it so it could
NOTE Confidence: 0.69592774

00:15:03.599 --> 00:15:04.943 be verified if it had to be,
NOTE Confidence: 0.69592774

00:15:04.950 --> 00:15:07.956 but you can add those titles that are not
NOTE Confidence: 0.69592774

00:15:07.956 --> 00:15:10.975 your primary business title and work day.
NOTE Confidence: 0.69592774

00:15:10.980 --> 00:15:12.590 Yourself.
NOTE Confidence: 0.69592774

00:15:12.590 --> 00:15:13.358 Umm,
NOTE Confidence: 0.69592774

00:15:13.358 --> 00:15:16.430 that's it for titles.
NOTE Confidence: 0.69592774

00:15:16.430 --> 00:15:18.250 I think I want to quickly move
NOTE Confidence: 0.69592774

00:15:18.250 --> 00:15:19.030 to patient care.
NOTE Confidence: 0.69592774

00:15:19.030 --> 00:15:21.478 This is really important for any
NOTE Confidence: 0.69592774

00:15:21.478 --> 00:15:24.081 faculty that are part of Yale
NOTE Confidence: 0.69592774

00:15:24.081 --> 00:15:26.296 Medicine and are seeing patients.
NOTE Confidence: 0.77590707

00:15:29.710 --> 00:15:31.922 Via the clinical practice,

NOTE Confidence: 0.77590707

00:15:31.922 --> 00:15:34.687 so we have this other,

NOTE Confidence: 0.77590707

00:15:34.690 --> 00:15:36.424 we have our School of Medicine

NOTE Confidence: 0.77590707

00:15:36.424 --> 00:15:38.046 website of course and we have

NOTE Confidence: 0.77590707

00:15:38.046 --> 00:15:39.090 the yalemedicine.org site,

NOTE Confidence: 0.77590707

00:15:39.090 --> 00:15:41.190 which is the site specifically

NOTE Confidence: 0.77590707

00:15:41.190 --> 00:15:43.050 for the clinical practice.

NOTE Confidence: 0.77590707

00:15:43.050 --> 00:15:45.630 The settings that the faculty member,

NOTE Confidence: 0.77590707

00:15:45.630 --> 00:15:47.046 each faculty member has in this

NOTE Confidence: 0.77590707

00:15:47.046 --> 00:15:48.618 section of their profile are going to

NOTE Confidence: 0.77590707

00:15:48.618 --> 00:15:50.230 determine how they show up on the site.

NOTE Confidence: 0.77590707

00:15:50.230 --> 00:15:54.936 Basically the really important thing is to

NOTE Confidence: 0.77590707

00:15:54.936 --> 00:15:58.184 make sure if you provide direct patient care.

NOTE Confidence: 0.77590707

00:15:58.190 --> 00:15:59.655 And our clinical services to

NOTE Confidence: 0.77590707

00:15:59.655 --> 00:16:01.380 patients that this answer is yes,

NOTE Confidence: 0.77590707

00:16:01.380 --> 00:16:03.308 otherwise you are not going to adhere on

NOTE Confidence: 0.77590707

00:16:03.308 --> 00:16:05.739 the L Medicine site even if you should be.

NOTE Confidence: 0.77590707

00:16:05.740 --> 00:16:07.340 So please make sure that's up to date.

NOTE Confidence: 0.77590707

00:16:07.340 --> 00:16:09.338 I think if we haven't already,

NOTE Confidence: 0.77590707

00:16:09.340 --> 00:16:11.132 we're going to share in the chat

NOTE Confidence: 0.77590707

00:16:11.132 --> 00:16:13.388 a link to more information about

NOTE Confidence: 0.77590707

00:16:13.388 --> 00:16:15.753 managing this patient care information.

NOTE Confidence: 0.77590707

00:16:15.760 --> 00:16:17.412 But basically the hots,

NOTE Confidence: 0.77590707

00:16:17.412 --> 00:16:19.064 the really important sections

NOTE Confidence: 0.77590707

00:16:19.064 --> 00:16:21.445 that follow are these patient

NOTE Confidence: 0.77590707

00:16:21.445 --> 00:16:22.936 interactions and secondarily.

NOTE Confidence: 0.77590707

00:16:22.940 --> 00:16:25.412 From these expertise in

NOTE Confidence: 0.77590707

00:16:25.412 --> 00:16:27.266 areas of specialization.

NOTE Confidence: 0.77590707

00:16:27.270 --> 00:16:29.064 These are going to help us

NOTE Confidence: 0.77590707

00:16:29.064 --> 00:16:31.267 associate you or the faculty member

NOTE Confidence: 0.77590707

00:16:31.267 --> 00:16:33.135 whose profile you're editing.

NOTE Confidence: 0.77590707

00:16:33.140 --> 00:16:34.870 It's going to help associate

NOTE Confidence: 0.77590707

00:16:34.870 --> 00:16:36.600 them with the conditions and

NOTE Confidence: 0.77590707

00:16:36.666 --> 00:16:38.706 procedures that they would like to

NOTE Confidence: 0.77590707

00:16:38.706 --> 00:16:40.859 be associated with on the website.

NOTE Confidence: 0.77590707

00:16:40.860 --> 00:16:41.804 By default,

NOTE Confidence: 0.77590707

00:16:41.804 --> 00:16:45.108 what we're doing is we're trying to

NOTE Confidence: 0.77590707

00:16:45.108 --> 00:16:48.610 associate these specialists with

NOTE Confidence: 0.77590707

00:16:48.610 --> 00:16:52.842 conditions that match the ICD and

NOTE Confidence: 0.77590707

00:16:52.842 --> 00:16:56.148 CPT codes that they're billing for.

NOTE Confidence: 0.77590707

00:16:56.150 --> 00:16:57.630 So that's all automated,

NOTE Confidence: 0.77590707

00:16:57.630 --> 00:16:59.850 but obviously there might be cases

NOTE Confidence: 0.77590707

00:16:59.920 --> 00:17:02.068 where a faculty member is doing

NOTE Confidence: 0.77590707

00:17:02.068 --> 00:17:04.130 some common procedure all the time,

NOTE Confidence: 0.77590707

00:17:04.130 --> 00:17:06.251 but maybe they don't want to be

NOTE Confidence: 0.77590707

00:17:06.251 --> 00:17:08.281 the first person that gets called

NOTE Confidence: 0.77590707

00:17:08.281 --> 00:17:10.387 for removing a wart or something.

NOTE Confidence: 0.77590707

00:17:10.390 --> 00:17:13.374 So what we want to make sure that

NOTE Confidence: 0.77590707

00:17:13.374 --> 00:17:16.618 we do is that if there is some.

NOTE Confidence: 0.77590707

00:17:16.620 --> 00:17:17.885 Specialty you're trying to build

NOTE Confidence: 0.77590707

00:17:17.885 --> 00:17:18.644 in your practice.

NOTE Confidence: 0.77590707

00:17:18.650 --> 00:17:20.132 So maybe it's something that you're

NOTE Confidence: 0.77590707

00:17:20.132 --> 00:17:21.470 not really doing much of yet,

NOTE Confidence: 0.77590707

00:17:21.470 --> 00:17:22.850 but you're interested in doing it.

NOTE Confidence: 0.77590707

00:17:22.850 --> 00:17:24.446 You want to make sure that's added

NOTE Confidence: 0.77590707

00:17:24.446 --> 00:17:26.370 in this how to build your practice

NOTE Confidence: 0.77590707

00:17:26.370 --> 00:17:28.734 section and then more importantly

NOTE Confidence: 0.77590707

00:17:28.734 --> 00:17:30.440 our conditions, conditions,

NOTE Confidence: 0.77590707

00:17:30.440 --> 00:17:33.120 treatments, procedures they are

NOTE Confidence: 0.77590707

00:17:33.120 --> 00:17:35.800 already seeing or treating.

NOTE Confidence: 0.77590707

00:17:35.800 --> 00:17:37.028 You're that are rare,

NOTE Confidence: 0.77590707

00:17:37.028 --> 00:17:39.251 but you are a specialist and you're

NOTE Confidence: 0.77590707

00:17:39.251 --> 00:17:41.165 definitely going to want to add

NOTE Confidence: 0.77590707

00:17:41.165 --> 00:17:43.385 those to this first section because

NOTE Confidence: 0.77590707

00:17:43.385 --> 00:17:45.779 obviously if it's some super rare

NOTE Confidence: 0.77590707

00:17:45.779 --> 00:17:46.918 condition that you're treating,

NOTE Confidence: 0.77590707

00:17:46.918 --> 00:17:47.902 you're probably not treating

NOTE Confidence: 0.77590707

00:17:47.902 --> 00:17:49.120 it all that frequently.

NOTE Confidence: 0.77590707

00:17:49.120 --> 00:17:50.890 It's not going to appear off

NOTE Confidence: 0.77590707

00:17:50.890 --> 00:17:52.070 frequently or building codes

NOTE Confidence: 0.77590707

00:17:52.126 --> 00:17:53.938 unless you add that specialty here.

NOTE Confidence: 0.77590707

00:17:53.940 --> 00:17:56.817 We might not be properly associating you

NOTE Confidence: 0.77590707

00:17:56.817 --> 00:17:59.840 with that condition on the ill medicine site.

NOTE Confidence: 0.77590707

00:17:59.840 --> 00:18:03.030 We're going to.

NOTE Confidence: 0.867521548260869

00:18:03.030 --> 00:18:05.005 Have a communications campaign in

NOTE Confidence: 0.867521548260869

00:18:05.005 --> 00:18:07.803 the next month or so for clinical

NOTE Confidence: 0.867521548260869

00:18:07.803 --> 00:18:10.414 faculty to remind them of this and

NOTE Confidence: 0.867521548260869

00:18:10.414 --> 00:18:12.301 how they appear on yalemedicine.org,

NOTE Confidence: 0.867521548260869

00:18:12.301 --> 00:18:14.356 but for all the communications.
NOTE Confidence: 0.867521548260869

00:18:14.360 --> 00:18:16.719 Focus people who are on this call.
NOTE Confidence: 0.867521548260869

00:18:16.720 --> 00:18:19.604 Anything that you can do to encourage
NOTE Confidence: 0.867521548260869

00:18:19.604 --> 00:18:22.352 faculty to review their Patient care
NOTE Confidence: 0.867521548260869

00:18:22.352 --> 00:18:24.747 section and especially the areas
NOTE Confidence: 0.867521548260869

00:18:24.747 --> 00:18:26.854 of expertise and specialization
NOTE Confidence: 0.867521548260869

00:18:26.854 --> 00:18:29.529 would be incredibly helpful to.
NOTE Confidence: 0.867521548260869

00:18:29.530 --> 00:18:31.822 Target how how they appear on
NOTE Confidence: 0.867521548260869

00:18:31.822 --> 00:18:32.938 your medicine.org a bit better.
NOTE Confidence: 0.972980256666667

00:18:36.180 --> 00:18:39.642 OK. Thank you. Umm, OK,
NOTE Confidence: 0.972980256666667

00:18:39.642 --> 00:18:44.170 now I'm going to move on to publications.
NOTE Confidence: 0.972980256666667

00:18:44.170 --> 00:18:46.984 You might have heard about our new
NOTE Confidence: 0.972980256666667

00:18:46.984 --> 00:18:48.450 integration with dimensions AI,
NOTE Confidence: 0.972980256666667

00:18:48.450 --> 00:18:50.389 because lots and lots of faculty have
NOTE Confidence: 0.972980256666667

00:18:50.389 --> 00:18:52.018 been getting emails about pending
NOTE Confidence: 0.972980256666667

00:18:52.018 --> 00:18:53.510 publications and their profiles.

NOTE Confidence: 0.972980256666667
00:18:53.510 --> 00:18:55.988 Now, the short of it is,
NOTE Confidence: 0.972980256666667
00:18:55.990 --> 00:18:59.590 dimensions AI is a external site.
NOTE Confidence: 0.972980256666667
00:18:59.590 --> 00:19:01.498 It's not our thing.
NOTE Confidence: 0.972980256666667
00:19:01.498 --> 00:19:04.846 It's a site that already existed that
NOTE Confidence: 0.972980256666667
00:19:04.846 --> 00:19:07.983 uses AI to match profiles on their.
NOTE Confidence: 0.972980256666667
00:19:07.983 --> 00:19:09.576 He mentions profiles,
NOTE Confidence: 0.972980256666667
00:19:09.580 --> 00:19:11.230 not our profiles,
NOTE Confidence: 0.972980256666667
00:19:11.230 --> 00:19:13.430 but profiles with individuals
NOTE Confidence: 0.972980256666667
00:19:13.430 --> 00:19:15.796 who are publishing getting
NOTE Confidence: 0.972980256666667
00:19:15.796 --> 00:19:18.328 published in medical journals.
NOTE Confidence: 0.972980256666667
00:19:18.330 --> 00:19:23.188 So we're leveraging that data and importing.
NOTE Confidence: 0.972980256666667
00:19:23.190 --> 00:19:26.034 Publications to faculty profiles
NOTE Confidence: 0.972980256666667
00:19:26.034 --> 00:19:29.589 based on those dimensions profiles.
NOTE Confidence: 0.972980256666667
00:19:29.590 --> 00:19:32.602 The most important thing to note
NOTE Confidence: 0.972980256666667
00:19:32.602 --> 00:19:35.138 here is some people have lots
NOTE Confidence: 0.972980256666667

00:19:35.138 --> 00:19:37.048 and lots of pending publications.
NOTE Confidence: 0.972980256666667

00:19:37.050 --> 00:19:39.126 There were other methods that were
NOTE Confidence: 0.972980256666667

00:19:39.126 --> 00:19:41.139 used to associate faculty with
NOTE Confidence: 0.972980256666667

00:19:41.139 --> 00:19:42.828 publications automatically before,
NOTE Confidence: 0.972980256666667

00:19:42.830 --> 00:19:44.328 but that was only a subset of
NOTE Confidence: 0.972980256666667

00:19:44.328 --> 00:19:45.530 people that were doing that.
NOTE Confidence: 0.972980256666667

00:19:45.530 --> 00:19:47.370 This is brand new functionality
NOTE Confidence: 0.972980256666667

00:19:47.370 --> 00:19:48.842 for lots of faculty.
NOTE Confidence: 0.972980256666667

00:19:48.850 --> 00:19:50.086 So there are lots of faculty.
NOTE Confidence: 0.972980256666667

00:19:50.090 --> 00:19:51.630 You have many, many publications,
NOTE Confidence: 0.972980256666667

00:19:51.630 --> 00:19:54.498 hundreds of publications that are impending.
NOTE Confidence: 0.972980256666667

00:19:54.500 --> 00:19:56.397 Important thing to note is if there
NOTE Confidence: 0.972980256666667

00:19:56.397 --> 00:19:58.715 are a ton of pending publications in
NOTE Confidence: 0.972980256666667

00:19:58.715 --> 00:20:01.694 this list and a lot of them look wrong,
NOTE Confidence: 0.972980256666667

00:20:01.700 --> 00:20:04.777 we really do not want people going
NOTE Confidence: 0.972980256666667

00:20:04.777 --> 00:20:07.005 through and rejecting dozens

NOTE Confidence: 0.972980256666667
00:20:07.005 --> 00:20:09.233 and dozens of publications.
NOTE Confidence: 0.972980256666667
00:20:09.240 --> 00:20:11.395 If there are that many
NOTE Confidence: 0.972980256666667
00:20:11.395 --> 00:20:12.257 incorrect publications,
NOTE Confidence: 0.972980256666667
00:20:12.260 --> 00:20:13.980 it probably means it probably
NOTE Confidence: 0.972980256666667
00:20:13.980 --> 00:20:16.123 means that our import settings for
NOTE Confidence: 0.972980256666667
00:20:16.123 --> 00:20:17.938 that faculty member are incorrect.
NOTE Confidence: 0.972980256666667
00:20:17.940 --> 00:20:19.937 We need to fix them more.
NOTE Confidence: 0.972980256666667
00:20:19.937 --> 00:20:21.833 We're working on a way to make this
NOTE Confidence: 0.972980256666667
00:20:21.833 --> 00:20:23.492 more obvious to people so people
NOTE Confidence: 0.972980256666667
00:20:23.492 --> 00:20:25.070 don't spend lots and lots of.
NOTE Confidence: 0.972980256666667
00:20:25.070 --> 00:20:26.505 I am rejecting publications when
NOTE Confidence: 0.972980256666667
00:20:26.505 --> 00:20:28.831 what we really need to do is fix
NOTE Confidence: 0.972980256666667
00:20:28.831 --> 00:20:29.665 their import settings.
NOTE Confidence: 0.972980256666667
00:20:29.670 --> 00:20:31.710 But.
NOTE Confidence: 0.972980256666667
00:20:31.710 --> 00:20:33.870 Basically the message is if you
NOTE Confidence: 0.972980256666667

00:20:33.870 --> 00:20:36.146 go to pending and there's lots
NOTE Confidence: 0.972980256666667

00:20:36.146 --> 00:20:38.036 and lots of wrong pubs,
NOTE Confidence: 0.972980256666667

00:20:38.040 --> 00:20:40.098 please contact us either by using
NOTE Confidence: 0.972980256666667

00:20:40.098 --> 00:20:42.250 this report, a bug button, or using.
NOTE Confidence: 0.972980256666667

00:20:42.250 --> 00:20:44.614 Ideally using this don't see your
NOTE Confidence: 0.972980256666667

00:20:44.614 --> 00:20:46.566 publications button and that will
NOTE Confidence: 0.972980256666667

00:20:46.566 --> 00:20:48.701 generate a message to us and it'll
NOTE Confidence: 0.972980256666667

00:20:48.701 --> 00:20:51.553 allow us to look into it and correct
NOTE Confidence: 0.972980256666667

00:20:51.553 --> 00:20:53.422 your important information if necessary.
NOTE Confidence: 0.972980256666667

00:20:53.422 --> 00:20:55.894 You really shouldn't see the dimensions.
NOTE Confidence: 0.972980256666667

00:20:55.900 --> 00:20:57.824 AI is very good,
NOTE Confidence: 0.972980256666667

00:20:57.824 --> 00:20:59.642 it's generally pretty accurate,
NOTE Confidence: 0.972980256666667

00:20:59.642 --> 00:21:02.288 like over 90% in my experience.
NOTE Confidence: 0.972980256666667

00:21:02.288 --> 00:21:05.670 When the profiles are set correctly so and
NOTE Confidence: 0.972980256666667

00:21:05.670 --> 00:21:07.666 it might be even higher than that, I'm not.
NOTE Confidence: 0.972980256666667

00:21:07.666 --> 00:21:09.664 Yeah, don't hold me to that,

NOTE Confidence: 0.972980256666667
00:21:09.670 --> 00:21:11.330 but.
NOTE Confidence: 0.972980256666667
00:21:11.330 --> 00:21:11.539 Yeah,
NOTE Confidence: 0.972980256666667
00:21:11.539 --> 00:21:13.211 we want to make sure that you're not
NOTE Confidence: 0.972980256666667
00:21:13.211 --> 00:21:14.989 spending lots and lots of time manually
NOTE Confidence: 0.972980256666667
00:21:14.989 --> 00:21:16.005 approving and rejecting things,
NOTE Confidence: 0.972980256666667
00:21:16.010 --> 00:21:17.529 because the whole idea is for us
NOTE Confidence: 0.972980256666667
00:21:17.529 --> 00:21:19.428 to be a time saver for people.
NOTE Confidence: 0.972980256666667
00:21:19.430 --> 00:21:21.390 So we're automatically associating these
NOTE Confidence: 0.972980256666667
00:21:21.390 --> 00:21:23.750 these publications and there are very
NOTE Confidence: 0.972980256666667
00:21:23.750 --> 00:21:25.778 few instances where something is wrong.
NOTE Confidence: 0.830353739375
00:21:27.290 --> 00:21:29.006 To introduce functionality in
NOTE Confidence: 0.830353739375
00:21:29.006 --> 00:21:32.580 the next month or so where if a
NOTE Confidence: 0.830353739375
00:21:32.580 --> 00:21:34.420 person rejects 10 publications,
NOTE Confidence: 0.830353739375
00:21:34.420 --> 00:21:36.030 the system will just pop up and
NOTE Confidence: 0.830353739375
00:21:36.030 --> 00:21:37.875 notice and say we noticed that
NOTE Confidence: 0.830353739375

00:21:37.875 --> 00:21:39.335 you've been rejecting publications,
NOTE Confidence: 0.830353739375

00:21:39.340 --> 00:21:40.588 these might we might have you
NOTE Confidence: 0.830353739375

00:21:40.588 --> 00:21:41.940 linked to the wrong dimensions,
NOTE Confidence: 0.830353739375

00:21:41.940 --> 00:21:43.326 profile, you know,
NOTE Confidence: 0.830353739375

00:21:43.326 --> 00:21:45.909 report this to us to make that
NOTE Confidence: 0.830353739375

00:21:45.909 --> 00:21:47.124 a little clearer for people.
NOTE Confidence: 0.862835702307692

00:21:49.220 --> 00:21:50.416 Yeah, and when you.
NOTE Confidence: 0.862835702307692

00:21:50.416 --> 00:21:53.540 So when you do report a problem like that.
NOTE Confidence: 0.862835702307692

00:21:53.540 --> 00:21:55.020 The only information we
NOTE Confidence: 0.862835702307692

00:21:55.020 --> 00:21:56.500 really need is either.
NOTE Confidence: 0.862835702307692

00:21:56.500 --> 00:21:59.200 If the faculty member has
NOTE Confidence: 0.862835702307692

00:21:59.200 --> 00:22:00.820 NCBI mindedly iographer,
NOTE Confidence: 0.862835702307692

00:22:00.820 --> 00:22:02.675 you could just link to that and
NOTE Confidence: 0.862835702307692

00:22:02.675 --> 00:22:04.800 we can use that bibliography to
NOTE Confidence: 0.862835702307692

00:22:04.800 --> 00:22:06.616 correct your import settings.
NOTE Confidence: 0.862835702307692

00:22:06.616 --> 00:22:07.978 The other option,

NOTE Confidence: 0.862835702307692
00:22:07.980 --> 00:22:09.737 if you don't have a my bibliography,
NOTE Confidence: 0.862835702307692
00:22:09.740 --> 00:22:12.428 is just to give us at least three
NOTE Confidence: 0.862835702307692
00:22:12.428 --> 00:22:14.172 full citations that you are
NOTE Confidence: 0.862835702307692
00:22:14.172 --> 00:22:16.176 an author on that are correct,
NOTE Confidence: 0.862835702307692
00:22:16.180 --> 00:22:18.679 and we can use that information to
NOTE Confidence: 0.862835702307692
00:22:18.679 --> 00:22:22.930 correct the import settings. Umm.
NOTE Confidence: 0.862835702307692
00:22:22.930 --> 00:22:26.206 I think that's all for publications.
NOTE Confidence: 0.862835702307692
00:22:26.210 --> 00:22:27.350 For now.
NOTE Confidence: 0.862835702307692
00:22:27.350 --> 00:22:27.920 I'm
NOTE Confidence: 0.907175326666667
00:22:27.930 --> 00:22:29.440 just going to answer one
NOTE Confidence: 0.907175326666667
00:22:29.440 --> 00:22:30.648 question from the chat.
NOTE Confidence: 0.907175326666667
00:22:30.650 --> 00:22:32.708 There was a question that says,
NOTE Confidence: 0.907175326666667
00:22:32.710 --> 00:22:34.875 Will you experience overlap between
NOTE Confidence: 0.907175326666667
00:22:34.875 --> 00:22:36.174 already accepted publications
NOTE Confidence: 0.907175326666667
00:22:36.174 --> 00:22:38.349 and the pending publications?
NOTE Confidence: 0.907175326666667

00:22:38.350 --> 00:22:39.886 There could be overlap right now,
NOTE Confidence: 0.907175326666667

00:22:39.890 --> 00:22:43.100 so if a faculty member.
NOTE Confidence: 0.907175326666667

00:22:43.100 --> 00:22:44.990 Use the manually added publication button
NOTE Confidence: 0.907175326666667

00:22:44.990 --> 00:22:47.399 that you can see on the screen there.
NOTE Confidence: 0.907175326666667

00:22:47.400 --> 00:22:49.157 Um, Elvis. Can you just click that?
NOTE Confidence: 0.907175326666667

00:22:49.160 --> 00:22:49.534 Thanks.
NOTE Confidence: 0.907175326666667

00:22:49.534 --> 00:22:52.526 So if you've used this and you've added
NOTE Confidence: 0.907175326666667

00:22:52.526 --> 00:22:55.499 a publication using the pub Med ID,
NOTE Confidence: 0.907175326666667

00:22:55.500 --> 00:22:58.398 then the system will not create duplicates.
NOTE Confidence: 0.907175326666667

00:22:58.400 --> 00:23:00.269 It will it will merge those records
NOTE Confidence: 0.907175326666667

00:23:00.269 --> 00:23:02.463 and it will just be one entry and
NOTE Confidence: 0.907175326666667

00:23:02.463 --> 00:23:04.140 you won't have to approve that.
NOTE Confidence: 0.907175326666667

00:23:04.140 --> 00:23:05.724 So if you've you've already added
NOTE Confidence: 0.907175326666667

00:23:05.724 --> 00:23:07.120 that publication to your profile
NOTE Confidence: 0.907175326666667

00:23:07.120 --> 00:23:08.595 and then dimensions imports it,
NOTE Confidence: 0.907175326666667

00:23:08.600 --> 00:23:10.300 it will automatically approve it

NOTE Confidence: 0.907175326666667
00:23:10.300 --> 00:23:12.343 and you don't have to approve
NOTE Confidence: 0.907175326666667
00:23:12.343 --> 00:23:14.744 it if you use the other option.
NOTE Confidence: 0.907175326666667
00:23:14.750 --> 00:23:17.114 There where you're manually
NOTE Confidence: 0.907175326666667
00:23:17.114 --> 00:23:18.887 entering the citation.
NOTE Confidence: 0.907175326666667
00:23:18.890 --> 00:23:21.605 And the same publication has
NOTE Confidence: 0.907175326666667
00:23:21.605 --> 00:23:23.777 been imported from dimensions,
NOTE Confidence: 0.907175326666667
00:23:23.780 --> 00:23:27.000 then it will create a duplicate record.
NOTE Confidence: 0.907175326666667
00:23:27.000 --> 00:23:29.800 We're working on a data cleanup project,
NOTE Confidence: 0.907175326666667
00:23:29.800 --> 00:23:31.332 but it's pretty massive.
NOTE Confidence: 0.907175326666667
00:23:31.332 --> 00:23:33.247 There's about 9000 of these
NOTE Confidence: 0.907175326666667
00:23:33.247 --> 00:23:34.571 publications that have been
NOTE Confidence: 0.907175326666667
00:23:34.571 --> 00:23:36.335 added to the system over time,
NOTE Confidence: 0.907175326666667
00:23:36.340 --> 00:23:38.601 so we're doing a data cleanup project
NOTE Confidence: 0.907175326666667
00:23:38.601 --> 00:23:41.657 to try to match those with dimensions
NOTE Confidence: 0.907175326666667
00:23:41.657 --> 00:23:44.177 publications to remove the duplicates.
NOTE Confidence: 0.907175326666667

00:23:44.180 --> 00:23:46.483 But if you do approve the dimensions
NOTE Confidence: 0.907175326666667

00:23:46.483 --> 00:23:49.009 publication and you have it manually entered.
NOTE Confidence: 0.907175326666667

00:23:49.010 --> 00:23:49.403 Publication.
NOTE Confidence: 0.907175326666667

00:23:49.403 --> 00:23:51.368 It will create a duplicate.
NOTE Confidence: 0.907175326666667

00:23:51.370 --> 00:23:54.241 The easy fix for that is to just go
NOTE Confidence: 0.907175326666667

00:23:54.241 --> 00:23:56.265 delete the manually entered publication
NOTE Confidence: 0.907175326666667

00:23:56.265 --> 00:23:58.590 and accept the dimensions publication,
NOTE Confidence: 0.907175326666667

00:23:58.590 --> 00:24:00.550 but it will create that right now.
NOTE Confidence: 0.916161976666667

00:24:03.480 --> 00:24:05.360 Any other questions that we
NOTE Confidence: 0.916161976666667

00:24:05.360 --> 00:24:06.864 can answer around publications?
NOTE Confidence: 0.888587751428571

00:24:11.490 --> 00:24:13.290 I'll give you a really interesting
NOTE Confidence: 0.888587751428571

00:24:13.290 --> 00:24:15.155 statistic, uh, when we launched the
NOTE Confidence: 0.888587751428571

00:24:15.155 --> 00:24:17.400 system on the 14th of November.
NOTE Confidence: 0.867123076666667

00:24:20.130 --> 00:24:23.734 5501 faculty members had
NOTE Confidence: 0.867123076666667

00:24:23.734 --> 00:24:25.536 pending publications.
NOTE Confidence: 0.867123076666667

00:24:25.540 --> 00:24:29.300 As of yesterday afternoon,

NOTE Confidence: 0.867123076666667
00:24:29.300 --> 00:24:32.576 2385 of those people had approved
NOTE Confidence: 0.867123076666667
00:24:32.576 --> 00:24:35.904 their publications in the system and
NOTE Confidence: 0.867123076666667
00:24:35.904 --> 00:24:37.946 almost 49,000 new publications have
NOTE Confidence: 0.867123076666667
00:24:37.946 --> 00:24:40.740 been added to the system since launch,
NOTE Confidence: 0.867123076666667
00:24:40.740 --> 00:24:42.464 which is really. Crazy.
NOTE Confidence: 0.867123076666667
00:24:42.464 --> 00:24:46.303 We are going to work with the department
NOTE Confidence: 0.867123076666667
00:24:46.303 --> 00:24:48.627 chairs and the communications
NOTE Confidence: 0.867123076666667
00:24:48.627 --> 00:24:51.821 officers and the lead admins in
NOTE Confidence: 0.867123076666667
00:24:51.821 --> 00:24:54.558 the New Year to do a campaign.
NOTE Confidence: 0.867123076666667
00:24:54.560 --> 00:24:56.020 A communications campaign to
NOTE Confidence: 0.867123076666667
00:24:56.020 --> 00:24:57.845 encourage faculty to review and
NOTE Confidence: 0.867123076666667
00:24:57.845 --> 00:24:59.164 approve their publications and
NOTE Confidence: 0.867123076666667
00:24:59.164 --> 00:25:01.264 offer ways that we can help them.
NOTE Confidence: 0.867123076666667
00:25:01.270 --> 00:25:02.606 Especially for those faculty
NOTE Confidence: 0.867123076666667
00:25:02.606 --> 00:25:04.276 who have hundreds to approve,
NOTE Confidence: 0.867123076666667

00:25:04.280 --> 00:25:07.040 ways that we may automate that for them.

NOTE Confidence: 0.867123076666667

00:25:07.040 --> 00:25:09.614 This is pretty critical to the

NOTE Confidence: 0.867123076666667

00:25:09.614 --> 00:25:10.901 LCE reaccreditation process

NOTE Confidence: 0.867123076666667

00:25:10.901 --> 00:25:12.520 that's that's occurring.

NOTE Confidence: 0.867123076666667

00:25:12.520 --> 00:25:13.240 You know,

NOTE Confidence: 0.867123076666667

00:25:13.240 --> 00:25:15.740 one of the pieces of data that we

NOTE Confidence: 0.867123076666667

00:25:15.740 --> 00:25:18.262 need to generate for L CME is the

NOTE Confidence: 0.867123076666667

00:25:18.262 --> 00:25:20.326 number of publications that have been.

NOTE Confidence: 0.85148058925926

00:25:22.750 --> 00:25:25.282 Published by faculty over a certain

NOTE Confidence: 0.85148058925926

00:25:25.282 --> 00:25:27.435 time period and dimensions and

NOTE Confidence: 0.85148058925926

00:25:27.435 --> 00:25:29.375 this data that we're getting

NOTE Confidence: 0.85148058925926

00:25:29.375 --> 00:25:31.780 from dimensions is going to be

NOTE Confidence: 0.85148058925926

00:25:31.780 --> 00:25:33.725 critical to providing that report.

NOTE Confidence: 0.85148058925926

00:25:33.730 --> 00:25:35.690 So we're going to encourage

NOTE Confidence: 0.85148058925926

00:25:35.690 --> 00:25:37.354 people to, you know.

NOTE Confidence: 0.85148058925926

00:25:37.354 --> 00:25:39.539 Review and approve their publications.

NOTE Confidence: 0.91138822

00:25:41.960 --> 00:25:45.158 I have a question about publications.

NOTE Confidence: 0.91138822

00:25:45.160 --> 00:25:46.362 So are the faculty,

NOTE Confidence: 0.91138822

00:25:46.362 --> 00:25:47.880 because I know as an admin,

NOTE Confidence: 0.91138822

00:25:47.880 --> 00:25:50.108 I've been in a profile editor.

NOTE Confidence: 0.92889871125

00:25:50.120 --> 00:25:53.450 I've been getting these messages to

NOTE Confidence: 0.92889871125

00:25:53.450 --> 00:25:56.759 review and verify the publications.

NOTE Confidence: 0.92889871125

00:25:56.760 --> 00:25:59.235 Now I haven't done anything because

NOTE Confidence: 0.92889871125

00:25:59.235 --> 00:26:02.300 I hadn't attended this course,

NOTE Confidence: 0.92889871125

00:26:02.300 --> 00:26:04.720 but I'm assuming that the providers

NOTE Confidence: 0.92889871125

00:26:04.720 --> 00:26:06.462 are getting this same message.

NOTE Confidence: 0.92889871125

00:26:06.462 --> 00:26:08.940 They are so if you have been

NOTE Confidence: 0.92889871125

00:26:09.024 --> 00:26:10.760 added as a publication.

NOTE Confidence: 0.92889871125

00:26:10.760 --> 00:26:12.566 Viewer, you can just see on the

NOTE Confidence: 0.92889871125

00:26:12.566 --> 00:26:14.149 bottom of the screen there.

NOTE Confidence: 0.92889871125

00:26:14.150 --> 00:26:15.400 If you've been added as

NOTE Confidence: 0.92889871125

00:26:15.400 --> 00:26:16.150 a publication reviewer,
NOTE Confidence: 0.92889871125

00:26:16.150 --> 00:26:18.964 those people specifically have access and
NOTE Confidence: 0.92889871125

00:26:18.964 --> 00:26:22.109 will get the notification to approve these.
NOTE Confidence: 0.92889871125

00:26:22.110 --> 00:26:24.420 I believe you also get it
NOTE Confidence: 0.92889871125

00:26:24.420 --> 00:26:27.320 as a an editor on a profile,
NOTE Confidence: 0.92889871125

00:26:27.320 --> 00:26:29.987 and then the faculty member is also
NOTE Confidence: 0.92889871125

00:26:29.987 --> 00:26:31.650 getting that notification and it
NOTE Confidence: 0.92889871125

00:26:31.650 --> 00:26:33.352 should really be the faculty member
NOTE Confidence: 0.92889871125

00:26:33.352 --> 00:26:35.764 to really review them and verify.
NOTE Confidence: 0.92889871125

00:26:35.770 --> 00:26:37.803 Or if they give us the permission to do it.
NOTE Confidence: 0.92889871125

00:26:37.803 --> 00:26:39.318 Depends. It's up to it.
NOTE Confidence: 0.92889871125

00:26:39.318 --> 00:26:40.770 Totally depends. OK.
NOTE Confidence: 0.92889871125

00:26:40.770 --> 00:26:42.795 It's it's up to you to decide that workflow.
NOTE Confidence: 0.92889871125

00:26:42.800 --> 00:26:45.614 If you're comfortable Karen in reviewing
NOTE Confidence: 0.92889871125

00:26:45.614 --> 00:26:47.490 that faculty members publications
NOTE Confidence: 0.92889871125

00:26:47.562 --> 00:26:49.337 because you know their work,

NOTE Confidence: 0.92889871125

00:26:49.340 --> 00:26:51.545 even taking a first pass at it

NOTE Confidence: 0.92889871125

00:26:51.545 --> 00:26:53.380 to say these are theirs,

NOTE Confidence: 0.92889871125

00:26:53.380 --> 00:26:55.480 then by all means feel free to

NOTE Confidence: 0.92889871125

00:26:55.480 --> 00:26:57.590 go in and then with that,

NOTE Confidence: 0.92889871125

00:26:57.590 --> 00:26:58.240 thank you.

NOTE Confidence: 0.856403846428571

00:27:00.510 --> 00:27:04.101 There's a question about whether a book

NOTE Confidence: 0.856403846428571

00:27:04.101 --> 00:27:07.217 preface is categorized as a book chapter.

NOTE Confidence: 0.801722418

00:27:09.420 --> 00:27:12.268 I don't actually know.

NOTE Confidence: 0.801722418

00:27:12.268 --> 00:27:16.536 Uh, I will reach out to faculty affairs.

NOTE Confidence: 0.801722418

00:27:16.540 --> 00:27:19.220 I typically love these kinds

NOTE Confidence: 0.801722418

00:27:19.220 --> 00:27:21.900 of questions to Jonathan Grauer

NOTE Confidence: 0.801722418

00:27:21.900 --> 00:27:23.778 in his role in faculty affairs,

NOTE Confidence: 0.801722418

00:27:23.780 --> 00:27:24.800 and he gives me an answer.

NOTE Confidence: 0.801722418

00:27:24.800 --> 00:27:27.200 So I will ask him that

NOTE Confidence: 0.801722418

00:27:27.200 --> 00:27:29.140 question and then follow up.

NOTE Confidence: 0.855446016666667

00:27:33.620 --> 00:27:35.132 Thank you. I know this is a popular topic.
NOTE Confidence: 0.855446016666667

00:27:35.140 --> 00:27:36.544 Do we have any other publications
NOTE Confidence: 0.855446016666667

00:27:36.544 --> 00:27:37.650 questions before we move on?
NOTE Confidence: 0.859129122352941

00:27:42.620 --> 00:27:44.240 Great questions. All right.
NOTE Confidence: 0.859129122352941

00:27:44.240 --> 00:27:47.354 The last bit of profiles that I'm going
NOTE Confidence: 0.859129122352941

00:27:47.354 --> 00:27:50.524 to look at right now is the CD builder.
NOTE Confidence: 0.859129122352941

00:27:50.524 --> 00:27:54.119 This is not a feature new to Beatrix,
NOTE Confidence: 0.859129122352941

00:27:54.120 --> 00:27:56.344 but I just wanted to point it out
NOTE Confidence: 0.859129122352941

00:27:56.344 --> 00:27:58.044 because it was introduced later
NOTE Confidence: 0.859129122352941

00:27:58.044 --> 00:28:00.192 in the life of profile system.
NOTE Confidence: 0.859129122352941

00:28:00.200 --> 00:28:03.680 What this tool allows is for faculty to
NOTE Confidence: 0.859129122352941

00:28:03.680 --> 00:28:06.999 leverage the data that is in their profile
NOTE Confidence: 0.859129122352941

00:28:06.999 --> 00:28:11.260 to generate a new well to create a CD.
NOTE Confidence: 0.78923693

00:28:13.390 --> 00:28:16.250 Doctor Rauer already has several,
NOTE Confidence: 0.78923693

00:28:16.250 --> 00:28:18.978 but basically what it does is it breaks
NOTE Confidence: 0.78923693

00:28:18.978 --> 00:28:21.770 it down into a step by step process.

NOTE Confidence: 0.78923693

00:28:21.770 --> 00:28:24.728 Using data that's hopefully already in

NOTE Confidence: 0.78923693

00:28:24.728 --> 00:28:27.125 your profile so that you can construct

NOTE Confidence: 0.78923693

00:28:27.125 --> 00:28:30.330 a CV that's in the Yale format or the

NOTE Confidence: 0.78923693

00:28:30.330 --> 00:28:32.058 appointments and promotions format,

NOTE Confidence: 0.78923693

00:28:32.060 --> 00:28:33.116 those yellow proof formats

NOTE Confidence: 0.78923693

00:28:33.116 --> 00:28:34.436 that you're going to need,

NOTE Confidence: 0.78923693

00:28:34.440 --> 00:28:38.718 the faculty will need for specific.

NOTE Confidence: 0.78923693

00:28:38.720 --> 00:28:41.275 Advancement at the school and

NOTE Confidence: 0.78923693

00:28:41.275 --> 00:28:44.490 also just for various use cases.

NOTE Confidence: 0.78923693

00:28:44.490 --> 00:28:46.778 Really, it's all about.

NOTE Confidence: 0.78923693

00:28:46.780 --> 00:28:49.108 Exposing or choosing not to expose

NOTE Confidence: 0.78923693

00:28:49.108 --> 00:28:51.489 information that's available in your profile.

NOTE Confidence: 0.78923693

00:28:51.490 --> 00:28:54.354 You can choose to show or hide information

NOTE Confidence: 0.78923693

00:28:54.354 --> 00:28:56.638 that displays on your profile and the

NOTE Confidence: 0.78923693

00:28:56.638 --> 00:28:58.914 CD that will not affect your profile

NOTE Confidence: 0.78923693

00:28:58.914 --> 00:29:00.674 will just affect this iteration
NOTE Confidence: 0.78923693

00:29:00.674 --> 00:29:03.920 of your CD that you're creating.
NOTE Confidence: 0.78923693

00:29:03.920 --> 00:29:04.520 But really,
NOTE Confidence: 0.78923693

00:29:04.520 --> 00:29:06.920 this is all data that is pulling from
NOTE Confidence: 0.78923693

00:29:06.988 --> 00:29:09.316 other sections of the profile already,
NOTE Confidence: 0.78923693

00:29:09.320 --> 00:29:12.029 where it's using that data to create
NOTE Confidence: 0.78923693

00:29:12.029 --> 00:29:14.670 a document that you can then use
NOTE Confidence: 0.78923693

00:29:14.670 --> 00:29:17.070 as your or your faculty member CD.
NOTE Confidence: 0.78923693

00:29:17.070 --> 00:29:21.340 Later this year, our sorry next year,
NOTE Confidence: 0.78923693

00:29:21.340 --> 00:29:24.329 we will be introducing a new feature
NOTE Confidence: 0.78923693

00:29:24.329 --> 00:29:28.254 that allows us to import CD's so
NOTE Confidence: 0.78923693

00:29:28.254 --> 00:29:30.018 that newer faculty or faculty who
NOTE Confidence: 0.78923693

00:29:30.018 --> 00:29:31.939 don't have a robust profile can
NOTE Confidence: 0.78923693

00:29:31.939 --> 00:29:33.883 also leverage this tool and it
NOTE Confidence: 0.78923693

00:29:33.883 --> 00:29:36.016 will basically work the other way.
NOTE Confidence: 0.78923693

00:29:36.020 --> 00:29:37.760 You can start with your CV,

NOTE Confidence: 0.78923693

00:29:37.760 --> 00:29:39.580 upload it to the tool.

NOTE Confidence: 0.78923693

00:29:39.580 --> 00:29:42.036 It's not going to 100% field identify

NOTE Confidence: 0.78923693

00:29:42.036 --> 00:29:45.172 every item of information in your CD,

NOTE Confidence: 0.78923693

00:29:45.180 --> 00:29:46.620 but it should give you a really good.

NOTE Confidence: 0.78923693

00:29:46.620 --> 00:29:49.098 Start to filling out your profile,

NOTE Confidence: 0.78923693

00:29:49.100 --> 00:29:52.250 and similar to approving publications,

NOTE Confidence: 0.78923693

00:29:52.250 --> 00:29:54.170 we'll just have a UI that you click

NOTE Confidence: 0.78923693

00:29:54.170 --> 00:29:56.024 through to approve or correct the

NOTE Confidence: 0.78923693

00:29:56.024 --> 00:29:57.669 information that we're pulling from

NOTE Confidence: 0.78923693

00:29:57.669 --> 00:29:59.882 your CD and that will go directly into

NOTE Confidence: 0.78923693

00:29:59.882 --> 00:30:02.066 your profile and then you can very

NOTE Confidence: 0.78923693

00:30:02.066 --> 00:30:05.190 easily create an updated CD at a later time.

NOTE Confidence: 0.78923693

00:30:05.190 --> 00:30:05.910 Umm.

NOTE Confidence: 0.942872525

00:30:09.410 --> 00:30:13.116 All right. I'm can now

NOTE Confidence: 0.942872525

00:30:13.116 --> 00:30:15.684 move on to organizations.

NOTE Confidence: 0.942872525

00:30:15.690 --> 00:30:18.483 Some of the main improvements here are
NOTE Confidence: 0.942872525

00:30:18.483 --> 00:30:21.750 simply with the filtering that's available.
NOTE Confidence: 0.942872525

00:30:21.750 --> 00:30:23.808 You can now filter by type.
NOTE Confidence: 0.942872525

00:30:23.810 --> 00:30:26.230 The search is much improved.
NOTE Confidence: 0.942872525

00:30:26.230 --> 00:30:28.230 You don't have to in the previous system,
NOTE Confidence: 0.942872525

00:30:28.230 --> 00:30:30.332 you have to type in a query, click search.
NOTE Confidence: 0.942872525

00:30:30.332 --> 00:30:34.049 Now we're providing suggestions as you type,
NOTE Confidence: 0.942872525

00:30:34.050 --> 00:30:35.205 so it makes it a little easier.
NOTE Confidence: 0.942872525

00:30:35.210 --> 00:30:36.518 If you're not seeing exactly what
NOTE Confidence: 0.942872525

00:30:36.518 --> 00:30:37.890 you expected to see right away,
NOTE Confidence: 0.942872525

00:30:37.890 --> 00:30:39.598 you can change your query on the
NOTE Confidence: 0.942872525

00:30:39.598 --> 00:30:41.367 fly and update it and the results.
NOTE Confidence: 0.942872525

00:30:41.370 --> 00:30:43.010 Also, return very quickly instead
NOTE Confidence: 0.942872525

00:30:43.010 --> 00:30:46.120 of taking a second to come back. Um.
NOTE Confidence: 0.915669356666667

00:30:48.140 --> 00:30:54.395 You might notice that we had in the previous
NOTE Confidence: 0.915669356666667

00:30:54.395 --> 00:30:57.748 system there were organizations that.

NOTE Confidence: 0.915669356666667
00:30:57.748 --> 00:31:00.643 Really. That unlimited feature is
NOTE Confidence: 0.915669356666667
00:31:00.643 --> 00:31:03.297 called display groups that allowed
NOTE Confidence: 0.915669356666667
00:31:03.297 --> 00:31:06.237 you to create custom lists of people
NOTE Confidence: 0.915669356666667
00:31:06.240 --> 00:31:08.460 specifically for display on the website,
NOTE Confidence: 0.915669356666667
00:31:08.460 --> 00:31:12.228 even if they weren't truly a
NOTE Confidence: 0.915669356666667
00:31:12.228 --> 00:31:14.740 organization at the school.
NOTE Confidence: 0.915669356666667
00:31:14.740 --> 00:31:16.942 These display groups and Beatrix are
NOTE Confidence: 0.915669356666667
00:31:16.942 --> 00:31:19.770 now called teens and you still have the
NOTE Confidence: 0.915669356666667
00:31:19.770 --> 00:31:22.030 ability to create these on your own.
NOTE Confidence: 0.915669356666667
00:31:22.030 --> 00:31:25.121 And you can use this to create, um,
NOTE Confidence: 0.915669356666667
00:31:25.121 --> 00:31:27.578 really customized list of people that you
NOTE Confidence: 0.915669356666667
00:31:27.578 --> 00:31:30.408 want to display for specific use cases,
NOTE Confidence: 0.915669356666667
00:31:30.410 --> 00:31:32.510 like the way that the breast
NOTE Confidence: 0.915669356666667
00:31:32.510 --> 00:31:34.250 cancer program is broken out.
NOTE Confidence: 0.915669356666667
00:31:34.250 --> 00:31:37.382 They're specialists in the very specific
NOTE Confidence: 0.915669356666667

00:31:37.382 --> 00:31:41.659 foci of their of their program.
NOTE Confidence: 0.915669356666667

00:31:41.660 --> 00:31:44.194 And then those display on their websites.
NOTE Confidence: 0.915669356666667

00:31:44.200 --> 00:31:45.940 If you want to add these,
NOTE Confidence: 0.915669356666667

00:31:45.940 --> 00:31:47.980 you can create the groups yourself.
NOTE Confidence: 0.915669356666667

00:31:47.980 --> 00:31:50.472 You will just have to get in
NOTE Confidence: 0.915669356666667

00:31:50.472 --> 00:31:52.866 touch with our web services team
NOTE Confidence: 0.915669356666667

00:31:52.866 --> 00:31:53.756 at YS n.editor@yale.edu.
NOTE Confidence: 0.915669356666667

00:31:53.756 --> 00:31:55.902 If you create new teams and you want to
NOTE Confidence: 0.915669356666667

00:31:55.902 --> 00:31:57.438 add those to some page on your website,
NOTE Confidence: 0.915669356666667

00:31:57.440 --> 00:31:59.078 just get in touch with us and
NOTE Confidence: 0.915669356666667

00:31:59.078 --> 00:32:00.749 we can help you set that up.
NOTE Confidence: 0.915669356666667

00:32:00.750 --> 00:32:01.840 Um.
NOTE Confidence: 0.87773087

00:32:07.730 --> 00:32:10.312 I guess that's really it. Oh OK,
NOTE Confidence: 0.87773087

00:32:10.312 --> 00:32:12.720 we do have a few more enhanced features
NOTE Confidence: 0.87773087

00:32:12.789 --> 00:32:15.407 here that I didn't demonstrate just yet.
NOTE Confidence: 0.87773087

00:32:15.410 --> 00:32:19.138 They include the ability to well, firstly,

NOTE Confidence: 0.87773087

00:32:19.138 --> 00:32:21.022 we've included headshots in this list

NOTE Confidence: 0.87773087

00:32:21.022 --> 00:32:23.342 just to hopefully make it easier for you

NOTE Confidence: 0.87773087

00:32:23.342 --> 00:32:25.538 all to identify who we're talking about,

NOTE Confidence: 0.87773087

00:32:25.540 --> 00:32:27.696 especially for people who have sort of

NOTE Confidence: 0.87773087

00:32:27.696 --> 00:32:29.786 generic names that there are lots of

NOTE Confidence: 0.87773087

00:32:29.786 --> 00:32:31.770 people at the school with similar name.

NOTE Confidence: 0.87773087

00:32:31.770 --> 00:32:34.920 You can also edit. People in bulk.

NOTE Confidence: 0.87773087

00:32:34.920 --> 00:32:37.944 So for example if I needed to hide

NOTE Confidence: 0.87773087

00:32:37.944 --> 00:32:40.258 several Members of this organization

NOTE Confidence: 0.87773087

00:32:40.258 --> 00:32:42.718 from displaying on the website,

NOTE Confidence: 0.87773087

00:32:42.720 --> 00:32:45.506 I could select this little checkbox next

NOTE Confidence: 0.87773087

00:32:45.506 --> 00:32:49.049 to their name and then when I go up to

NOTE Confidence: 0.87773087

00:32:49.049 --> 00:32:51.579 toggle this display on academic website.

NOTE Confidence: 0.87773087

00:32:51.580 --> 00:32:52.204 Toggle then.

NOTE Confidence: 0.87773087

00:32:52.204 --> 00:32:55.122 All three of those users will now be headed

NOTE Confidence: 0.87773087

00:32:55.122 --> 00:32:57.628 in from the medicine at yale.edu site.

NOTE Confidence: 0.859137715555555

00:33:00.110 --> 00:33:02.320 Similarly, you can add people

NOTE Confidence: 0.859137715555555

00:33:02.320 --> 00:33:04.088 in bulk to leadership,

NOTE Confidence: 0.859137715555555

00:33:04.090 --> 00:33:05.818 which would be helpful

NOTE Confidence: 0.859137715555555

00:33:05.818 --> 00:33:07.978 when you're setting up new.

NOTE Confidence: 0.859137715555555

00:33:07.980 --> 00:33:10.004 A new team maybe.

NOTE Confidence: 0.859137715555555

00:33:10.004 --> 00:33:13.040 And then you can still add

NOTE Confidence: 0.859137715555555

00:33:13.040 --> 00:33:15.220 leadership specific titles and such

NOTE Confidence: 0.859137715555555

00:33:15.220 --> 00:33:17.400 by clicking on those leadership,

NOTE Confidence: 0.859137715555555

00:33:17.400 --> 00:33:18.810 adding those titles.

NOTE Confidence: 0.842938453529412

00:33:22.550 --> 00:33:24.482 So we've got some additional UI

NOTE Confidence: 0.842938453529412

00:33:24.482 --> 00:33:26.197 elements there that should hopefully

NOTE Confidence: 0.842938453529412

00:33:26.197 --> 00:33:28.387 make things more convenient for you.

NOTE Confidence: 0.842938453529412

00:33:28.390 --> 00:33:30.392 Umm. So that's all I really want

NOTE Confidence: 0.842938453529412

00:33:30.392 --> 00:33:32.419 to touch on in organizations.

NOTE Confidence: 0.842938453529412

00:33:32.420 --> 00:33:35.199 I'm gonna keep moving on to news.

NOTE Confidence: 0.860832250588236
00:33:37.880 --> 00:33:40.484 In news. This is largely the
NOTE Confidence: 0.860832250588236
00:33:40.484 --> 00:33:44.180 same as it was in profile system
NOTE Confidence: 0.860832250588236
00:33:44.180 --> 00:33:46.660 with A1 important caveat,
NOTE Confidence: 0.860832250588236
00:33:46.660 --> 00:33:51.232 which is I've actually gotten news
NOTE Confidence: 0.860832250588236
00:33:51.232 --> 00:33:53.610 article I want to edit already.
NOTE Confidence: 0.83342929
00:33:57.270 --> 00:33:59.086 And here's a really good demonstration of it.
NOTE Confidence: 0.83342929
00:33:59.090 --> 00:34:01.898 There is now a published status
NOTE Confidence: 0.83342929
00:34:01.898 --> 00:34:03.770 associated with each article.
NOTE Confidence: 0.83342929
00:34:03.770 --> 00:34:05.765 Previously, when you created an
NOTE Confidence: 0.83342929
00:34:05.765 --> 00:34:08.238 article once you suggested it to
NOTE Confidence: 0.83342929
00:34:08.238 --> 00:34:10.258 organizations and it was approved.
NOTE Confidence: 0.83342929
00:34:10.260 --> 00:34:11.236 The article was live.
NOTE Confidence: 0.83342929
00:34:11.236 --> 00:34:13.549 And if you made a change to the article,
NOTE Confidence: 0.83342929
00:34:13.550 --> 00:34:15.722 it would almost immediately
NOTE Confidence: 0.83342929
00:34:15.722 --> 00:34:17.894 update on the website.
NOTE Confidence: 0.83342929

00:34:17.900 --> 00:34:19.982 Now we essentially have a draft
NOTE Confidence: 0.83342929

00:34:19.982 --> 00:34:22.030 status for these news articles.
NOTE Confidence: 0.83342929

00:34:22.030 --> 00:34:24.980 So for example, this article,
NOTE Confidence: 0.83342929

00:34:24.980 --> 00:34:26.576 it's already published on the website.
NOTE Confidence: 0.83342929

00:34:26.580 --> 00:34:28.638 I went back later before this
NOTE Confidence: 0.83342929

00:34:28.638 --> 00:34:30.620 meeting and made some changes,
NOTE Confidence: 0.83342929

00:34:30.620 --> 00:34:32.330 and now I see this message at the top,
NOTE Confidence: 0.83342929

00:34:32.330 --> 00:34:33.820 but it contains unpublished changes
NOTE Confidence: 0.83342929

00:34:33.820 --> 00:34:35.610 published on the site and live.
NOTE Confidence: 0.83342929

00:34:35.610 --> 00:34:37.514 This means I made some edits here.
NOTE Confidence: 0.83342929

00:34:37.520 --> 00:34:40.456 They're not present on the version of this
NOTE Confidence: 0.83342929

00:34:40.456 --> 00:34:43.398 news article that the general public can see.
NOTE Confidence: 0.83342929

00:34:43.400 --> 00:34:45.860 If I want to go ahead and publish my changes,
NOTE Confidence: 0.83342929

00:34:45.860 --> 00:34:48.065 I just go ahead and click publish.
NOTE Confidence: 0.83342929

00:34:48.070 --> 00:34:48.678 Umm.
NOTE Confidence: 0.83342929

00:34:48.678 --> 00:34:51.980 And that will update the data

NOTE Confidence: 0.83342929

00:34:51.980 --> 00:34:53.020 on the live site.

NOTE Confidence: 0.83342929

00:34:53.020 --> 00:34:55.088 So like other sections,

NOTE Confidence: 0.83342929

00:34:55.088 --> 00:34:58.050 we will be saving as you

NOTE Confidence: 0.83342929

00:34:58.050 --> 00:35:00.275 type in fields like this,

NOTE Confidence: 0.83342929

00:35:00.280 --> 00:35:03.568 but those the content that's saved

NOTE Confidence: 0.83342929

00:35:03.568 --> 00:35:06.690 is not necessarily going to Umm.

NOTE Confidence: 0.865439747058823

00:35:08.820 --> 00:35:09.483 It's not necessary.

NOTE Confidence: 0.865439747058823

00:35:09.483 --> 00:35:11.333 It's not going to update on the website

NOTE Confidence: 0.865439747058823

00:35:11.333 --> 00:35:12.857 right away until you hit publish.

NOTE Confidence: 0.865439747058823

00:35:12.860 --> 00:35:16.262 I just see a question from column that popped

NOTE Confidence: 0.865439747058823

00:35:16.262 --> 00:35:19.560 in poll quotes do work differently now.

NOTE Confidence: 0.865439747058823

00:35:19.560 --> 00:35:20.712 In the previous system

NOTE Confidence: 0.865439747058823

00:35:20.712 --> 00:35:22.152 you could add poll quotes,

NOTE Confidence: 0.865439747058823

00:35:22.160 --> 00:35:24.057 but we had dedicated fields for them

NOTE Confidence: 0.865439747058823

00:35:24.057 --> 00:35:26.734 so you can only add 1 pull quote and

NOTE Confidence: 0.865439747058823

00:35:26.734 --> 00:35:28.460 you couldn't control where it went.
NOTE Confidence: 0.865439747058823

00:35:28.460 --> 00:35:29.937 We just kind of stuck it in
NOTE Confidence: 0.865439747058823

00:35:29.937 --> 00:35:31.250 the middle of the article.
NOTE Confidence: 0.865439747058823

00:35:31.250 --> 00:35:33.050 So now already it might not be obvious
NOTE Confidence: 0.865439747058823

00:35:33.050 --> 00:35:34.558 with the formatting used here,
NOTE Confidence: 0.865439747058823

00:35:34.560 --> 00:35:36.582 but there are already a couple
NOTE Confidence: 0.865439747058823

00:35:36.582 --> 00:35:37.593 pull quotes here.
NOTE Confidence: 0.865439747058823

00:35:37.600 --> 00:35:39.672 But I can go ahead and add another
NOTE Confidence: 0.865439747058823

00:35:39.672 --> 00:35:41.718 one by clicking to my article.
NOTE Confidence: 0.865439747058823

00:35:41.720 --> 00:35:45.616 I create a new paragraph by hitting return.
NOTE Confidence: 0.865439747058823

00:35:45.620 --> 00:35:48.448 I need to go into my ad menu option
NOTE Confidence: 0.865439747058823

00:35:48.448 --> 00:35:50.576 here and one of the options here
NOTE Confidence: 0.865439747058823

00:35:50.576 --> 00:35:52.652 if I want an image, add an image.
NOTE Confidence: 0.865439747058823

00:35:52.652 --> 00:35:53.996 This is also where I'd go,
NOTE Confidence: 0.865439747058823

00:35:54.000 --> 00:35:56.640 but one option is a quote.
NOTE Confidence: 0.865439747058823

00:35:56.640 --> 00:35:59.040 This is going to prepopulate some

NOTE Confidence: 0.865439747058823

00:35:59.040 --> 00:36:01.326 stub information for the quote and

NOTE Confidence: 0.865439747058823

00:36:01.326 --> 00:36:03.454 basically put the quote where it says quote.

NOTE Confidence: 0.88072977

00:36:09.030 --> 00:36:12.158 And I've got my quote there and then.

NOTE Confidence: 0.88072977

00:36:12.160 --> 00:36:14.270 I add my author attribution.

NOTE Confidence: 0.82749884

00:36:16.440 --> 00:36:18.036 And now I've got a poll quote

NOTE Confidence: 0.82749884

00:36:18.036 --> 00:36:19.419 and this poll quote quote,

NOTE Confidence: 0.82749884

00:36:19.420 --> 00:36:21.120 I'm sorry, little tongue tied,

NOTE Confidence: 0.82749884

00:36:21.120 --> 00:36:24.976 will appear exactly where I've placed it in

NOTE Confidence: 0.82749884

00:36:24.976 --> 00:36:28.777 this article if I go to preview this article.

NOTE Confidence: 0.82749884

00:36:28.780 --> 00:36:31.076 So I'm going to preview my currently.

NOTE Confidence: 0.82749884

00:36:31.080 --> 00:36:33.250 If I click preview, importantly,

NOTE Confidence: 0.82749884

00:36:33.250 --> 00:36:34.748 that's going to take the latest information

NOTE Confidence: 0.82749884

00:36:34.748 --> 00:36:36.118 even if it's not published yet,

NOTE Confidence: 0.82749884

00:36:36.120 --> 00:36:37.758 so that you can see it.

NOTE Confidence: 0.82749884

00:36:37.760 --> 00:36:41.520 And I will see my new amazing and

NOTE Confidence: 0.82749884

00:36:41.520 --> 00:36:44.099 impactful quote in this article.
NOTE Confidence: 0.82749884

00:36:44.100 --> 00:36:45.160 And it's exactly where I
NOTE Confidence: 0.82749884

00:36:45.160 --> 00:36:46.220 placed it in the text.
NOTE Confidence: 0.82749884

00:36:46.220 --> 00:36:47.516 So that has changed.
NOTE Confidence: 0.82749884

00:36:47.516 --> 00:36:49.460 It's a little more powerful now.
NOTE Confidence: 0.894277977

00:36:51.520 --> 00:36:52.760 We are still working out
NOTE Confidence: 0.894277977

00:36:52.760 --> 00:36:54.000 some kinks with this editor.
NOTE Confidence: 0.894277977

00:36:54.000 --> 00:36:55.281 It's a little trickier to use in
NOTE Confidence: 0.894277977

00:36:55.281 --> 00:36:56.609 the last one because we're planning
NOTE Confidence: 0.894277977

00:36:56.609 --> 00:36:58.073 to add some more features here,
NOTE Confidence: 0.894277977

00:36:58.080 --> 00:37:00.936 but for now we still kind of have
NOTE Confidence: 0.894277977

00:37:00.936 --> 00:37:02.800 the training wheels on while
NOTE Confidence: 0.894277977

00:37:02.800 --> 00:37:05.299 we work out some of the kinks.
NOTE Confidence: 0.894277977

00:37:05.300 --> 00:37:08.888 This is a really powerful editor right now.
NOTE Confidence: 0.894277977

00:37:08.888 --> 00:37:12.120 One thing it does not do well is
NOTE Confidence: 0.894277977

00:37:12.120 --> 00:37:16.100 accept copied and pasted text.

NOTE Confidence: 0.894277977
00:37:16.100 --> 00:37:19.234 It's very easy for. Bad HTML code
NOTE Confidence: 0.894277977
00:37:19.234 --> 00:37:20.760 that can cause issues to get in.
NOTE Confidence: 0.894277977
00:37:20.760 --> 00:37:22.160 Right now we're working to.
NOTE Confidence: 0.894277977
00:37:22.160 --> 00:37:23.768 We've already made some fixes but
NOTE Confidence: 0.894277977
00:37:23.768 --> 00:37:25.719 it looks like some people are still
NOTE Confidence: 0.894277977
00:37:25.719 --> 00:37:27.630 having issues so we continue to work
NOTE Confidence: 0.894277977
00:37:27.691 --> 00:37:29.497 on that to improve that experience.
NOTE Confidence: 0.894277977
00:37:29.500 --> 00:37:32.475 And like Justin said later on once
NOTE Confidence: 0.894277977
00:37:32.475 --> 00:37:35.737 we can knock out all those issues,
NOTE Confidence: 0.894277977
00:37:35.740 --> 00:37:37.700 there are some new features that we'd
NOTE Confidence: 0.894277977
00:37:37.700 --> 00:37:40.120 like to add here that will allow you
NOTE Confidence: 0.894277977
00:37:40.120 --> 00:37:42.022 to create for example custom grids
NOTE Confidence: 0.894277977
00:37:42.022 --> 00:37:44.614 that so you could have multi column articles.
NOTE Confidence: 0.894277977
00:37:44.620 --> 00:37:46.690 At least on a desktop they would appear as
NOTE Confidence: 0.894277977
00:37:46.690 --> 00:37:48.776 one column but they would automatically.
NOTE Confidence: 0.894277977

00:37:48.780 --> 00:37:50.295 Properly adjust to a single
NOTE Confidence: 0.894277977

00:37:50.295 --> 00:37:51.507 column view for mobile,
NOTE Confidence: 0.894277977

00:37:51.510 --> 00:37:54.863 just like this website does when I
NOTE Confidence: 0.894277977

00:37:54.863 --> 00:37:58.119 start shrinking my viewport with here.
NOTE Confidence: 0.894277977

00:37:58.120 --> 00:37:58.438 Anyway,
NOTE Confidence: 0.894277977

00:37:58.438 --> 00:38:00.028 so there's lots of exciting
NOTE Confidence: 0.894277977

00:38:00.028 --> 00:38:01.300 stuff coming in news.
NOTE Confidence: 0.894277977

00:38:01.300 --> 00:38:01.655 Mark,
NOTE Confidence: 0.894277977

00:38:01.655 --> 00:38:02.010 can
NOTE Confidence: 0.763939036666667

00:38:02.020 --> 00:38:03.616 you there's a couple of questions.
NOTE Confidence: 0.763939036666667

00:38:03.620 --> 00:38:06.170 Yeah, can can you show how to add an image
NOTE Confidence: 0.76248928

00:38:06.180 --> 00:38:10.050 and in line? So adding an image in
NOTE Confidence: 0.76248928

00:38:10.050 --> 00:38:12.499 line if I wanted to add an image.
NOTE Confidence: 0.76248928

00:38:12.500 --> 00:38:13.343 In this paragraph,
NOTE Confidence: 0.76248928

00:38:13.343 --> 00:38:15.310 this is similar to the poll quotes.
NOTE Confidence: 0.76248928

00:38:15.310 --> 00:38:17.983 It's going to insert exactly where I put it,

NOTE Confidence: 0.76248928

00:38:17.990 --> 00:38:19.538 so you have to be a little more careful.

NOTE Confidence: 0.76248928

00:38:19.540 --> 00:38:21.520 That old system sort of

NOTE Confidence: 0.76248928

00:38:21.520 --> 00:38:22.840 your options were limited,

NOTE Confidence: 0.76248928

00:38:22.840 --> 00:38:25.300 but it made sure that things worked.

NOTE Confidence: 0.76248928

00:38:25.300 --> 00:38:26.410 Now it's kind of possible that

NOTE Confidence: 0.76248928

00:38:26.410 --> 00:38:27.690 you might put an image somewhere

NOTE Confidence: 0.76248928

00:38:27.690 --> 00:38:28.930 where it doesn't look great,

NOTE Confidence: 0.76248928

00:38:28.930 --> 00:38:30.076 you might have to move it.

NOTE Confidence: 0.76248928

00:38:30.080 --> 00:38:30.590 But anyway,

NOTE Confidence: 0.76248928

00:38:30.590 --> 00:38:32.925 as long as you're making sure to put it

NOTE Confidence: 0.76248928

00:38:32.925 --> 00:38:35.076 at the end or the beginning of a sentence,

NOTE Confidence: 0.76248928

00:38:35.080 --> 00:38:37.318 you should be in good shape.

NOTE Confidence: 0.76248928

00:38:37.320 --> 00:38:40.715 So to add most kinds of elements

NOTE Confidence: 0.76248928

00:38:40.715 --> 00:38:42.770 that aren't text here.

NOTE Confidence: 0.76248928

00:38:42.770 --> 00:38:43.085 Basically,

NOTE Confidence: 0.76248928

00:38:43.085 --> 00:38:44.975 unless you're editing text or links,
NOTE Confidence: 0.76248928

00:38:44.980 --> 00:38:47.292 you're going to have to put your cursor
NOTE Confidence: 0.76248928

00:38:47.292 --> 00:38:49.522 where you want to add the new element
NOTE Confidence: 0.76248928

00:38:49.522 --> 00:38:51.768 and then hit this add button up here.
NOTE Confidence: 0.76248928

00:38:51.770 --> 00:38:54.254 This is where I'm going to see options like
NOTE Confidence: 0.76248928

00:38:54.254 --> 00:38:56.890 the quote and media if I want to add media,
NOTE Confidence: 0.76248928

00:38:56.890 --> 00:38:59.740 and this is another big thing
NOTE Confidence: 0.76248928

00:38:59.740 --> 00:39:02.836 that has changed and Beatrix is
NOTE Confidence: 0.76248928

00:39:02.836 --> 00:39:05.970 adding media to anything really,
NOTE Confidence: 0.76248928

00:39:05.970 --> 00:39:07.330 including news.
NOTE Confidence: 0.76248928

00:39:07.330 --> 00:39:07.996 Right away.
NOTE Confidence: 0.76248928

00:39:07.996 --> 00:39:09.661 You'll notice I helpfully see
NOTE Confidence: 0.76248928

00:39:09.661 --> 00:39:11.866 the images that are used in this
NOTE Confidence: 0.76248928

00:39:11.866 --> 00:39:13.938 article and this article is from is
NOTE Confidence: 0.76248928

00:39:13.938 --> 00:39:15.690 actually created in the old system
NOTE Confidence: 0.76248928

00:39:15.690 --> 00:39:17.930 where we add that we had to add

NOTE Confidence: 0.76248928

00:39:17.930 --> 00:39:19.980 the same image twice in order to

NOTE Confidence: 0.76248928

00:39:19.980 --> 00:39:22.150 get it to appear in the thumbnail.

NOTE Confidence: 0.76248928

00:39:22.150 --> 00:39:24.898 And in the article body itself.

NOTE Confidence: 0.76248928

00:39:24.900 --> 00:39:26.515 So now this shouldn't happen

NOTE Confidence: 0.76248928

00:39:26.515 --> 00:39:28.730 anymore because when I want to add

NOTE Confidence: 0.76248928

00:39:28.730 --> 00:39:30.356 the same image in the thumbnail

NOTE Confidence: 0.76248928

00:39:30.356 --> 00:39:32.398 and then again in my article body,

NOTE Confidence: 0.76248928

00:39:32.400 --> 00:39:34.269 I can just select the same image

NOTE Confidence: 0.76248928

00:39:34.269 --> 00:39:35.717 I've already uploaded instead of

NOTE Confidence: 0.76248928

00:39:35.717 --> 00:39:37.499 having to upload it again separately.

NOTE Confidence: 0.76248928

00:39:37.500 --> 00:39:40.860 So that's one enhancement there.

NOTE Confidence: 0.76248928

00:39:40.860 --> 00:39:41.870 In addition,

NOTE Confidence: 0.76248928

00:39:41.870 --> 00:39:45.405 I could go explore instead and view

NOTE Confidence: 0.76248928

00:39:45.405 --> 00:39:48.867 all of the media that has been

NOTE Confidence: 0.76248928

00:39:48.867 --> 00:39:52.345 uploaded to the system ever and is set.

NOTE Confidence: 0.76248928

00:39:52.345 --> 00:39:54.775 To share whilst the privacy settings
NOTE Confidence: 0.76248928

00:39:54.775 --> 00:39:57.256 are set such that other people
NOTE Confidence: 0.76248928

00:39:57.256 --> 00:39:59.226 are allowed to use them.
NOTE Confidence: 0.76248928

00:39:59.230 --> 00:40:02.060 So anything here is set in a way that the
NOTE Confidence: 0.76248928

00:40:02.129 --> 00:40:04.889 uploader thought it was OK to be reused,
NOTE Confidence: 0.76248928

00:40:04.890 --> 00:40:07.986 so you don't have to worry about that.
NOTE Confidence: 0.76248928

00:40:07.990 --> 00:40:09.886 And I could select any of those items.
NOTE Confidence: 0.76248928

00:40:09.890 --> 00:40:11.610 This is really handy.
NOTE Confidence: 0.76248928

00:40:11.610 --> 00:40:12.470 For example,
NOTE Confidence: 0.76248928

00:40:12.470 --> 00:40:14.702 if I wanted to add a headshot of somebody,
NOTE Confidence: 0.76248928

00:40:14.710 --> 00:40:18.262 I would filter to images and then I
NOTE Confidence: 0.76248928

00:40:18.262 --> 00:40:21.707 might start typing that person's name.
NOTE Confidence: 0.76248928

00:40:21.710 --> 00:40:23.663 And hopefully one of the first things
NOTE Confidence: 0.76248928

00:40:23.663 --> 00:40:25.658 that comes up are and again you'll
NOTE Confidence: 0.76248928

00:40:25.658 --> 00:40:27.733 see this problem from the old system
NOTE Confidence: 0.76248928

00:40:27.733 --> 00:40:29.598 where we uploaded Josh Koppel's

NOTE Confidence: 0.76248928

00:40:29.598 --> 00:40:31.502 headshot probably hundreds of times

NOTE Confidence: 0.76248928

00:40:31.502 --> 00:40:33.974 because he got mentioned in dozens

NOTE Confidence: 0.76248928

00:40:33.974 --> 00:40:36.605 of different articles and we had to

NOTE Confidence: 0.76248928

00:40:36.605 --> 00:40:38.597 reupload his headshot over and over.

NOTE Confidence: 0.76248928

00:40:38.600 --> 00:40:41.120 You are working to clean this up a

NOTE Confidence: 0.76248928

00:40:41.120 --> 00:40:43.713 bit and make it easier specifically

NOTE Confidence: 0.76248928

00:40:43.713 --> 00:40:46.073 to find headshots because those

NOTE Confidence: 0.76248928

00:40:46.073 --> 00:40:48.050 get used so frequently.

NOTE Confidence: 0.76248928

00:40:48.050 --> 00:40:48.770 But for now,

NOTE Confidence: 0.76248928

00:40:48.770 --> 00:40:50.450 you should be able to find the

NOTE Confidence: 0.76248928

00:40:50.511 --> 00:40:51.763 headshots for basically anyone

NOTE Confidence: 0.76248928

00:40:51.763 --> 00:40:54.090 who has a headshot in the system,

NOTE Confidence: 0.76248928

00:40:54.090 --> 00:40:56.868 just by searching their name here

NOTE Confidence: 0.76248928

00:40:56.870 --> 00:40:59.395 if you're having trouble finding

NOTE Confidence: 0.76248928

00:40:59.395 --> 00:41:00.910 a particular headshot.

NOTE Confidence: 0.920328322

00:41:00.910 --> 00:41:02.614 You can just let us know and we'll
NOTE Confidence: 0.920328322

00:41:02.614 --> 00:41:04.180 help you track it down for you.
NOTE Confidence: 0.920328322

00:41:04.180 --> 00:41:06.979 Um, and then of course if I'm uploading some
NOTE Confidence: 0.920328322

00:41:06.979 --> 00:41:09.814 new image that I know is it in the system,
NOTE Confidence: 0.920328322

00:41:09.820 --> 00:41:11.840 I can click upload media.
NOTE Confidence: 0.920328322

00:41:11.840 --> 00:41:14.773 I would go ahead and browse for
NOTE Confidence: 0.920328322

00:41:14.773 --> 00:41:17.488 a image that's on my computer.
NOTE Confidence: 0.920328322

00:41:17.490 --> 00:41:22.720 And add it. Hopefully I have some good.
NOTE Confidence: 0.920328322

00:41:22.720 --> 00:41:24.095 Great. Yeah, the screen shot
NOTE Confidence: 0.920328322

00:41:24.095 --> 00:41:25.840 from above that we found today.
NOTE Confidence: 0.7219188866666666

00:41:32.340 --> 00:41:34.416 I add my information.
NOTE Confidence: 0.7219188866666666

00:41:34.416 --> 00:41:39.260 This is the reuse option I was mentioning,
NOTE Confidence: 0.7219188866666666

00:41:39.260 --> 00:41:42.328 and if I say none, only I may use.
NOTE Confidence: 0.7219188866666666

00:41:42.328 --> 00:41:44.461 Then this media item will not appear
NOTE Confidence: 0.7219188866666666

00:41:44.461 --> 00:41:46.717 when other people search for media.
NOTE Confidence: 0.7219188866666666

00:41:46.720 --> 00:41:47.806 So that's important.

NOTE Confidence: 0.7219188866666666
00:41:47.806 --> 00:41:49.650 If you're uploading some image
NOTE Confidence: 0.7219188866666666
00:41:49.650 --> 00:41:51.600 that's proprietary, you just don't
NOTE Confidence: 0.7219188866666666
00:41:51.600 --> 00:41:53.650 want shared for whatever reason,
NOTE Confidence: 0.7219188866666666
00:41:53.650 --> 00:41:54.994 you don't want some other editor to
NOTE Confidence: 0.7219188866666666
00:41:54.994 --> 00:41:56.597 grab it and put it in their article.
NOTE Confidence: 0.7219188866666666
00:41:56.600 --> 00:41:59.057 Just select none. Only I may use.
NOTE Confidence: 0.7219188866666666
00:41:59.060 --> 00:42:02.525 Otherwise please do select anyone may use.
NOTE Confidence: 0.7219188866666666
00:42:02.530 --> 00:42:04.156 Because the more images we have
NOTE Confidence: 0.7219188866666666
00:42:04.156 --> 00:42:06.278 available for people, the better.
NOTE Confidence: 0.7219188866666666
00:42:06.278 --> 00:42:09.548 Um. In any case though,
NOTE Confidence: 0.7219188866666666
00:42:09.550 --> 00:42:10.710 and the other important thing,
NOTE Confidence: 0.7219188866666666
00:42:10.710 --> 00:42:12.628 I'm sort of skipping ahead to the
NOTE Confidence: 0.7219188866666666
00:42:12.628 --> 00:42:14.150 Media Library segment segment here,
NOTE Confidence: 0.7219188866666666
00:42:14.150 --> 00:42:17.510 but also when I'm adding media.
NOTE Confidence: 0.7219188866666666
00:42:17.510 --> 00:42:18.050 By default,
NOTE Confidence: 0.7219188866666666

00:42:18.050 --> 00:42:20.210 only I would be able to edit this.

NOTE Confidence: 0.7219188866666666

00:42:20.210 --> 00:42:21.704 If there's somebody in my apartment

NOTE Confidence: 0.7219188866666666

00:42:21.704 --> 00:42:23.348 I'm working with all the time that

NOTE Confidence: 0.7219188866666666

00:42:23.348 --> 00:42:24.748 I probably want them to be able

NOTE Confidence: 0.7219188866666666

00:42:24.796 --> 00:42:26.324 to get in here and edit this and

NOTE Confidence: 0.7219188866666666

00:42:26.324 --> 00:42:27.950 change the phone mail or update

NOTE Confidence: 0.7219188866666666

00:42:27.950 --> 00:42:29.190 the description or whatever,

NOTE Confidence: 0.7219188866666666

00:42:29.190 --> 00:42:31.878 I should go ahead and add them

NOTE Confidence: 0.7219188866666666

00:42:31.878 --> 00:42:34.263 as a administrator on this media

NOTE Confidence: 0.7219188866666666

00:42:34.263 --> 00:42:36.567 item so that they'll have access

NOTE Confidence: 0.7219188866666666

00:42:36.567 --> 00:42:38.678 to it when they want it.

NOTE Confidence: 0.7219188866666666

00:42:38.680 --> 00:42:39.232 OK, sorry,

NOTE Confidence: 0.7219188866666666

00:42:39.232 --> 00:42:40.888 I went all tangent but then

NOTE Confidence: 0.7219188866666666

00:42:40.888 --> 00:42:42.010 I've added my image.

NOTE Confidence: 0.723099465714286

00:42:44.130 --> 00:42:47.847 Um, there's my preview of my image.

NOTE Confidence: 0.723099465714286

00:42:47.850 --> 00:42:49.155 The only other thing that's

NOTE Confidence: 0.723099465714286
00:42:49.155 --> 00:42:50.460 acquired here I can add.
NOTE Confidence: 0.853148262941176
00:42:53.420 --> 00:42:54.845 Caption That will display when
NOTE Confidence: 0.853148262941176
00:42:54.845 --> 00:42:56.920 I use this image and then the
NOTE Confidence: 0.853148262941176
00:42:56.920 --> 00:42:58.395 last thing is the alignment.
NOTE Confidence: 0.853148262941176
00:42:58.400 --> 00:43:00.104 I can either align it to the left
NOTE Confidence: 0.853148262941176
00:43:00.104 --> 00:43:01.679 where the text will wrap around,
NOTE Confidence: 0.853148262941176
00:43:01.680 --> 00:43:03.234 align it to the right and have
NOTE Confidence: 0.853148262941176
00:43:03.234 --> 00:43:04.560 the text wrap wrap around,
NOTE Confidence: 0.853148262941176
00:43:04.560 --> 00:43:08.808 or do this full width presentation.
NOTE Confidence: 0.853148262941176
00:43:08.810 --> 00:43:11.057 That will make it appear full with.
NOTE Confidence: 0.853148262941176
00:43:11.060 --> 00:43:12.758 I will see something that resembles
NOTE Confidence: 0.853148262941176
00:43:12.758 --> 00:43:14.176 what the preview will look
NOTE Confidence: 0.853148262941176
00:43:14.176 --> 00:43:18.138 like here and then if I go to.
NOTE Confidence: 0.853148262941176
00:43:18.140 --> 00:43:19.088 My preview again.
NOTE Confidence: 0.881399497142857
00:43:21.170 --> 00:43:26.700 We should see my screenshot right here.
NOTE Confidence: 0.881399497142857

00:43:26.700 --> 00:43:28.626 This is an unfortunate formatting issue.

NOTE Confidence: 0.881399497142857

00:43:28.630 --> 00:43:29.776 You might you might find there's

NOTE Confidence: 0.881399497142857

00:43:29.776 --> 00:43:31.078 nothing we can really do about this.

NOTE Confidence: 0.881399497142857

00:43:31.080 --> 00:43:33.674 But if you have a bullet list, for example,

NOTE Confidence: 0.881399497142857

00:43:33.674 --> 00:43:36.450 we're not going to start a new paragraph.

NOTE Confidence: 0.91261525

00:43:38.680 --> 00:43:41.038 In the middle of it, this image has to

NOTE Confidence: 0.91261525

00:43:41.038 --> 00:43:43.090 say associated with this bullet list,

NOTE Confidence: 0.91261525

00:43:43.090 --> 00:43:44.698 so just keep that in mind.

NOTE Confidence: 0.91261525

00:43:44.700 --> 00:43:47.506 I could fix this by simply in

NOTE Confidence: 0.91261525

00:43:47.506 --> 00:43:49.342 the editor taking this text and

NOTE Confidence: 0.91261525

00:43:49.342 --> 00:43:51.278 putting it in the same quote,

NOTE Confidence: 0.91261525

00:43:51.280 --> 00:43:52.768 UN quote, paragraph.

NOTE Confidence: 0.91261525

00:43:52.768 --> 00:43:57.622 So if I go back into my editor and I

NOTE Confidence: 0.91261525

00:43:57.622 --> 00:43:59.990 see this is where I've added my image.

NOTE Confidence: 0.774841860714286

00:44:07.620 --> 00:44:08.750 Actually, something a little funky's

NOTE Confidence: 0.774841860714286

00:44:08.750 --> 00:44:10.620 going on here that I'm have to look into.

NOTE Confidence: 0.718252269090909
00:44:14.130 --> 00:44:16.920 It's OK. I was we should move on for for time
NOTE Confidence: 0.76281557125
00:44:16.930 --> 00:44:17.656 purposes. All right,
NOTE Confidence: 0.76281557125
00:44:17.656 --> 00:44:18.866 we're going to move on.
NOTE Confidence: 0.76281557125
00:44:18.870 --> 00:44:20.142 But actually this is an issue
NOTE Confidence: 0.76281557125
00:44:20.142 --> 00:44:21.664 I need to look into after.
NOTE Confidence: 0.76281557125
00:44:21.664 --> 00:44:23.686 But that's how you would add
NOTE Confidence: 0.76281557125
00:44:23.686 --> 00:44:25.667 an image to a news article.
NOTE Confidence: 0.76281557125
00:44:25.670 --> 00:44:30.176 Um. Sorry, were there other
NOTE Confidence: 0.76281557125
00:44:30.176 --> 00:44:31.610 news questions I should tackle
NOTE Confidence: 0.76281557125
00:44:31.610 --> 00:44:33.020 right now before I move on?
NOTE Confidence: 0.5625873
00:44:36.940 --> 00:44:38.940 I think he answered everything in the chat.
NOTE Confidence: 0.877005785833333
00:44:38.940 --> 00:44:40.572 Is anyone else have any questions
NOTE Confidence: 0.877005785833333
00:44:40.572 --> 00:44:42.250 before we move on to events?
NOTE Confidence: 0.91039676
00:44:44.750 --> 00:44:49.280 I just had one follow up.
NOTE Confidence: 0.91039676
00:44:49.280 --> 00:44:51.490 Do you have the option to have
NOTE Confidence: 0.91039676

00:44:51.490 --> 00:44:54.587 your own media library file or
NOTE Confidence: 0.91039676

00:44:54.587 --> 00:44:56.129 do you always have to search
NOTE Confidence: 0.91039676

00:44:56.130 --> 00:44:58.960 in in the total public files
NOTE Confidence: 0.887018732857143

00:44:58.970 --> 00:45:01.399 or media library if that makes sense.
NOTE Confidence: 0.807872836

00:45:03.470 --> 00:45:04.375 So that's what I was
NOTE Confidence: 0.807872836

00:45:04.375 --> 00:45:05.280 demonstrating at the end there.
NOTE Confidence: 0.807872836

00:45:05.280 --> 00:45:07.188 I actually just uploaded this image,
NOTE Confidence: 0.807872836

00:45:07.190 --> 00:45:08.909 so if I want to add some new image,
NOTE Confidence: 0.807872836

00:45:08.910 --> 00:45:11.030 I would just go to.
NOTE Confidence: 0.807872836

00:45:11.030 --> 00:45:13.480 Add media, and I've just,
NOTE Confidence: 0.807872836

00:45:13.480 --> 00:45:14.988 I've skipped this whole
NOTE Confidence: 0.807872836

00:45:14.988 --> 00:45:16.873 UI and just click upload,
NOTE Confidence: 0.807872836

00:45:16.880 --> 00:45:18.664 and then I could upload my own file.
NOTE Confidence: 0.700118181428572

00:45:19.000 --> 00:45:20.368 You're saying images that
NOTE Confidence: 0.700118181428572

00:45:20.368 --> 00:45:21.394 you've already uploaded.
NOTE Confidence: 0.700118181428572

00:45:21.400 --> 00:45:23.164 You want to see only the images

NOTE Confidence: 0.700118181428572
00:45:23.164 --> 00:45:24.710 that you've uploaded? Yeah,
NOTE Confidence: 0.776673907142857
00:45:25.070 --> 00:45:26.666 I'm sorry, I skipped right over that.
NOTE Confidence: 0.776673907142857
00:45:26.670 --> 00:45:28.077 That's just my media section that's going
NOTE Confidence: 0.776673907142857
00:45:28.077 --> 00:45:29.749 to show you everything you've uploaded.
NOTE Confidence: 0.844159001071428
00:45:29.920 --> 00:45:32.744 OK, OK we're also going to add more
NOTE Confidence: 0.844159001071428
00:45:32.744 --> 00:45:35.826 filters to this view so that you could
NOTE Confidence: 0.844159001071428
00:45:35.826 --> 00:45:38.622 filter by headshots or you could filter
NOTE Confidence: 0.844159001071428
00:45:38.622 --> 00:45:41.814 by other types of media, kind of a.
NOTE Confidence: 0.844159001071428
00:45:41.814 --> 00:45:44.670 To future improvements is running AI on
NOTE Confidence: 0.844159001071428
00:45:44.756 --> 00:45:47.410 these images so that it extracts keywords
NOTE Confidence: 0.844159001071428
00:45:47.410 --> 00:45:50.155 from it so that you can search for images
NOTE Confidence: 0.844159001071428
00:45:50.155 --> 00:45:52.530 from the library based on keywords.
NOTE Confidence: 0.844159001071428
00:45:52.530 --> 00:45:55.152 And then we're also going to
NOTE Confidence: 0.844159001071428
00:45:55.152 --> 00:45:57.550 integrate this with Getty Images.
NOTE Confidence: 0.844159001071428
00:45:57.550 --> 00:45:59.692 We have a subscription to Getty
NOTE Confidence: 0.844159001071428

00:45:59.692 --> 00:46:02.670 Images to enable.
NOTE Confidence: 0.844159001071428

00:46:02.670 --> 00:46:05.902 People to to request that we buy images
NOTE Confidence: 0.844159001071428

00:46:05.902 --> 00:46:09.400 from Getty to include and news articles
NOTE Confidence: 0.844159001071428

00:46:09.400 --> 00:46:10.896 so you'll be able to see that library.
NOTE Confidence: 0.883245588333334

00:46:12.650 --> 00:46:14.318 Great. All very helpful. Thank you.
NOTE Confidence: 0.859574977142857

00:46:16.550 --> 00:46:19.350 Great, OK, and move on to events.
NOTE Confidence: 0.859574977142857

00:46:19.350 --> 00:46:21.426 I'm actually not in horrible shape,
NOTE Confidence: 0.859574977142857

00:46:21.430 --> 00:46:24.650 thankfully, because.
NOTE Confidence: 0.859574977142857

00:46:24.650 --> 00:46:27.450 We did that tangent on media library and
NOTE Confidence: 0.859574977142857

00:46:27.450 --> 00:46:29.830 that's basically covered now events.
NOTE Confidence: 0.810897247692308

00:46:32.700 --> 00:46:35.538 Again, like news is largely similar
NOTE Confidence: 0.810897247692308

00:46:35.538 --> 00:46:38.790 to how it functioned and profiles in
NOTE Confidence: 0.810897247692308

00:46:38.790 --> 00:46:41.940 profile.l.edu if you use that system.
NOTE Confidence: 0.810897247692308

00:46:41.940 --> 00:46:44.532 But again, the one difference is when I
NOTE Confidence: 0.810897247692308

00:46:44.532 --> 00:46:47.708 go to edit a single event like this one.
NOTE Confidence: 0.810897247692308

00:46:47.710 --> 00:46:51.609 Similarly to news, when I start editing,

NOTE Confidence: 0.810897247692308
00:46:51.610 --> 00:46:54.750 my changes will be saved.
NOTE Confidence: 0.810897247692308
00:46:54.750 --> 00:46:56.810 But they're not going to.
NOTE Confidence: 0.810897247692308
00:46:56.810 --> 00:46:59.228 If the event is already published,
NOTE Confidence: 0.810897247692308
00:46:59.230 --> 00:47:01.318 my changes aren't going to show up on
NOTE Confidence: 0.810897247692308
00:47:01.318 --> 00:47:03.608 the live site until I publish it again.
NOTE Confidence: 0.810897247692308
00:47:03.610 --> 00:47:06.508 So we've added the same draft status
NOTE Confidence: 0.810897247692308
00:47:06.510 --> 00:47:10.269 to events that we have for news.
NOTE Confidence: 0.90919417
00:47:12.640 --> 00:47:16.065 I think. The only other thing I'm
NOTE Confidence: 0.90919417
00:47:16.065 --> 00:47:16.960 going to mention really quickly,
NOTE Confidence: 0.90919417
00:47:16.960 --> 00:47:19.288 just so we can leave some time for
NOTE Confidence: 0.90919417
00:47:19.288 --> 00:47:21.246 questions is that shortly before
NOTE Confidence: 0.90919417
00:47:21.246 --> 00:47:24.942 the end of life of profile system,
NOTE Confidence: 0.90919417
00:47:24.950 --> 00:47:26.880 we had an integration with.
NOTE Confidence: 0.841925126153846
00:47:28.970 --> 00:47:32.120 Campus groups, which is the tool that
NOTE Confidence: 0.841925126153846
00:47:32.120 --> 00:47:35.389 students use for the student calendars.
NOTE Confidence: 0.841925126153846

00:47:35.390 --> 00:47:38.374 So if you are an organization that is
NOTE Confidence: 0.841925126153846

00:47:38.374 --> 00:47:40.569 interacting with students frequently,
NOTE Confidence: 0.841925126153846

00:47:40.570 --> 00:47:43.377 you might want to leverage this to
NOTE Confidence: 0.841925126153846

00:47:43.377 --> 00:47:46.030 add student events to your calendars.
NOTE Confidence: 0.841925126153846

00:47:46.030 --> 00:47:48.094 We both sync nightly with campus
NOTE Confidence: 0.841925126153846

00:47:48.094 --> 00:47:50.589 groups to pull in any new events
NOTE Confidence: 0.841925126153846

00:47:50.589 --> 00:47:52.689 that were created by the students
NOTE Confidence: 0.841925126153846

00:47:52.689 --> 00:47:55.247 or people who manage those groups,
NOTE Confidence: 0.841925126153846

00:47:55.250 --> 00:47:59.114 and also you can even set up a.
NOTE Confidence: 0.841925126153846

00:47:59.120 --> 00:48:01.910 Subscription, so that if there's
NOTE Confidence: 0.841925126153846

00:48:01.910 --> 00:48:04.700 some specific group on campus,
NOTE Confidence: 0.841925126153846

00:48:04.700 --> 00:48:07.556 groups that you just want to automatically
NOTE Confidence: 0.841925126153846

00:48:07.556 --> 00:48:10.727 add any event that's added to that group
NOTE Confidence: 0.841925126153846

00:48:10.727 --> 00:48:12.524 to your calendar on medicinethatyou.edu,
NOTE Confidence: 0.841925126153846

00:48:12.524 --> 00:48:14.348 we can set up an integration.
NOTE Confidence: 0.841925126153846

00:48:14.350 --> 00:48:16.348 So it's just going to automatically

NOTE Confidence: 0.841925126153846
00:48:16.348 --> 00:48:18.190 pull in all those events.
NOTE Confidence: 0.841925126153846
00:48:18.190 --> 00:48:20.086 If you're interested in that stuff,
NOTE Confidence: 0.841925126153846
00:48:20.090 --> 00:48:21.980 just reach out to us at why
NOTE Confidence: 0.841925126153846
00:48:21.980 --> 00:48:23.420 sound editor at yale.edu.
NOTE Confidence: 0.853434994375
00:48:25.640 --> 00:48:27.152 Media library I'm not going to
NOTE Confidence: 0.853434994375
00:48:27.152 --> 00:48:28.994 go over very much because we
NOTE Confidence: 0.853434994375
00:48:28.994 --> 00:48:30.538 really covered almost everything.
NOTE Confidence: 0.853434994375
00:48:30.540 --> 00:48:32.764 There's a really handy way to get only
NOTE Confidence: 0.853434994375
00:48:32.764 --> 00:48:34.257 your uploads if you're interested
NOTE Confidence: 0.853434994375
00:48:34.257 --> 00:48:36.315 in that by using the toggle here.
NOTE Confidence: 0.853434994375
00:48:36.320 --> 00:48:39.056 This is going to show me only stuff that
NOTE Confidence: 0.853434994375
00:48:39.056 --> 00:48:41.384 I've uploaded, which is pretty handy.
NOTE Confidence: 0.853434994375
00:48:41.384 --> 00:48:43.820 And just note that in this view,
NOTE Confidence: 0.853434994375
00:48:43.820 --> 00:48:45.416 when I click on media library,
NOTE Confidence: 0.853434994375
00:48:45.420 --> 00:48:47.076 I could add a new one by clicking
NOTE Confidence: 0.853434994375

00:48:47.076 --> 00:48:48.497 the big old add new button.
NOTE Confidence: 0.853434994375

00:48:48.500 --> 00:48:51.496 And for now we're splitting out the media
NOTE Confidence: 0.853434994375

00:48:51.496 --> 00:48:53.792 by the type and these navigation items.
NOTE Confidence: 0.853434994375

00:48:53.800 --> 00:48:55.008 So I want images.
NOTE Confidence: 0.853434994375

00:48:55.008 --> 00:48:57.200 Images, video, video, etc.
NOTE Confidence: 0.772987594

00:49:00.480 --> 00:49:04.030 And I think. That's really.
NOTE Confidence: 0.772987594

00:49:04.030 --> 00:49:06.070 I do want to plug that.
NOTE Confidence: 0.772987594

00:49:06.070 --> 00:49:08.128 You won't have access to this directly,
NOTE Confidence: 0.772987594

00:49:08.130 --> 00:49:11.812 but if you ever have a need
NOTE Confidence: 0.772987594

00:49:11.812 --> 00:49:15.369 for a vanity URL short URL,
NOTE Confidence: 0.772987594

00:49:15.370 --> 00:49:17.442 you can request that from us and we
NOTE Confidence: 0.772987594

00:49:17.442 --> 00:49:19.780 can set it up for you and production.
NOTE Confidence: 0.772987594

00:49:19.780 --> 00:49:22.400 These short URL is much shorter, it's just
NOTE Confidence: 0.698256552857143

00:49:24.790 --> 00:49:25.981 m.l.edu/whatever you like.
NOTE Confidence: 0.698256552857143

00:49:25.981 --> 00:49:27.569 Just going to be.
NOTE Confidence: 0.698256552857143

00:49:27.570 --> 00:49:30.966 This can be really handy for

NOTE Confidence: 0.698256552857143
00:49:30.970 --> 00:49:33.046 printed posters in addition to a.
NOTE Confidence: 0.698256552857143
00:49:33.050 --> 00:49:35.240 New our code in case people
NOTE Confidence: 0.698256552857143
00:49:35.240 --> 00:49:36.740 can't create a QR code.
NOTE Confidence: 0.698256552857143
00:49:36.740 --> 00:49:38.012 Although hopefully most people
NOTE Confidence: 0.698256552857143
00:49:38.012 --> 00:49:39.602 have a smartphone that can
NOTE Confidence: 0.698256552857143
00:49:39.602 --> 00:49:41.158 read QR codes at this point.
NOTE Confidence: 0.698256552857143
00:49:41.160 --> 00:49:43.518 It's also really handy if you're
NOTE Confidence: 0.698256552857143
00:49:43.518 --> 00:49:45.869 linking to something in an e-mail.
NOTE Confidence: 0.698256552857143
00:49:45.870 --> 00:49:48.230 That you might want to create a short
NOTE Confidence: 0.698256552857143
00:49:48.230 --> 00:49:50.863 URL for that link so that if you have
NOTE Confidence: 0.698256552857143
00:49:50.863 --> 00:49:53.089 to change the target of that link,
NOTE Confidence: 0.698256552857143
00:49:53.090 --> 00:49:55.626 you don't have to send a correction e-mail.
NOTE Confidence: 0.698256552857143
00:49:55.630 --> 00:49:58.502 You can just ask us to update the
NOTE Confidence: 0.698256552857143
00:49:58.502 --> 00:50:02.015 target of the short URL and it'll start
NOTE Confidence: 0.698256552857143
00:50:02.015 --> 00:50:04.660 directing to the correct location.
NOTE Confidence: 0.698256552857143

00:50:04.660 --> 00:50:06.874 On this particularly helpful if you're
NOTE Confidence: 0.698256552857143

00:50:06.874 --> 00:50:09.797 like to do a PDF on the website,
NOTE Confidence: 0.698256552857143

00:50:09.800 --> 00:50:11.768 because the URLs for those PDFs
NOTE Confidence: 0.698256552857143

00:50:11.768 --> 00:50:13.640 change if the version changes.
NOTE Confidence: 0.698256552857143

00:50:13.640 --> 00:50:16.700 So if you're likely to a PDF on your site,
NOTE Confidence: 0.698256552857143

00:50:16.700 --> 00:50:19.337 you sent out an e-mail linking to that PDF,
NOTE Confidence: 0.698256552857143

00:50:19.340 --> 00:50:20.255 then you realize something's wrong
NOTE Confidence: 0.698256552857143

00:50:20.255 --> 00:50:21.539 with the PDF and you update it.
NOTE Confidence: 0.698256552857143

00:50:21.540 --> 00:50:22.900 It could change the URL.
NOTE Confidence: 0.698256552857143

00:50:22.900 --> 00:50:25.284 So that is a case where you definitely
NOTE Confidence: 0.698256552857143

00:50:25.284 --> 00:50:27.436 want to ask us for a short URL.
NOTE Confidence: 0.698256552857143

00:50:27.440 --> 00:50:30.338 To include in your e-mail message.
NOTE Confidence: 0.698256552857143

00:50:30.340 --> 00:50:32.500 Umm.
NOTE Confidence: 0.698256552857143

00:50:32.500 --> 00:50:35.876 The last very last note is we import
NOTE Confidence: 0.698256552857143

00:50:35.876 --> 00:50:39.172 data at for pretty much everybody
NOTE Confidence: 0.698256552857143

00:50:39.172 --> 00:50:42.533 at the university into the system.

NOTE Confidence: 0.698256552857143
00:50:42.533 --> 00:50:46.250 But the one big exception are students.
NOTE Confidence: 0.698256552857143
00:50:46.250 --> 00:50:47.598 Just for privacy reasons,
NOTE Confidence: 0.698256552857143
00:50:47.598 --> 00:50:49.283 you don't automatically import them.
NOTE Confidence: 0.698256552857143
00:50:49.290 --> 00:50:50.742 If they are interested in having
NOTE Confidence: 0.698256552857143
00:50:50.742 --> 00:50:52.010 a profile on the site,
NOTE Confidence: 0.698256552857143
00:50:52.010 --> 00:50:53.680 or your department is interested
NOTE Confidence: 0.698256552857143
00:50:53.680 --> 00:50:55.514 in getting profiles for the
NOTE Confidence: 0.698256552857143
00:50:55.514 --> 00:50:57.066 students onto their website,
NOTE Confidence: 0.698256552857143
00:50:57.070 --> 00:50:58.967 we can add students to the system.
NOTE Confidence: 0.698256552857143
00:50:58.970 --> 00:51:00.476 You just need to ask us
NOTE Confidence: 0.698256552857143
00:51:00.476 --> 00:51:02.109 first and we can add them.
NOTE Confidence: 0.698256552857143
00:51:02.110 --> 00:51:04.398 So if that's a need that you have,
NOTE Confidence: 0.698256552857143
00:51:04.400 --> 00:51:05.948 we can do that.
NOTE Confidence: 0.698256552857143
00:51:05.948 --> 00:51:07.109 And with that,
NOTE Confidence: 0.698256552857143
00:51:07.110 --> 00:51:08.566 I think I'm just going to stop me
NOTE Confidence: 0.698256552857143

00:51:08.566 --> 00:51:10.199 for a few minutes for questions.
NOTE Confidence: 0.878339439

00:51:12.320 --> 00:51:13.852 Are there any questions
NOTE Confidence: 0.878339439

00:51:13.852 --> 00:51:16.150 I should take a look at?
NOTE Confidence: 0.878339439

00:51:16.150 --> 00:51:18.054 I did skip over the newsletter bit and
NOTE Confidence: 0.878339439

00:51:18.054 --> 00:51:20.329 I see people asking about newsletters.
NOTE Confidence: 0.878339439

00:51:20.330 --> 00:51:23.910 Umm, we're planning a pretty.
NOTE Confidence: 0.878339439

00:51:23.910 --> 00:51:26.586 Significant upgrade to this section soon.
NOTE Confidence: 0.878339439

00:51:26.590 --> 00:51:29.486 So we're not creating new ones right now,
NOTE Confidence: 0.878339439

00:51:29.490 --> 00:51:31.912 but all of these are actually going
NOTE Confidence: 0.878339439

00:51:31.912 --> 00:51:34.266 to get updated with a refreshed look
NOTE Confidence: 0.878339439

00:51:34.266 --> 00:51:36.749 and feel and a lot more options
NOTE Confidence: 0.878339439

00:51:36.749 --> 00:51:38.909 for building those newsletters.
NOTE Confidence: 0.878339439

00:51:38.910 --> 00:51:41.637 You will be sort of locked into our style,
NOTE Confidence: 0.878339439

00:51:41.640 --> 00:51:43.808 but it's going to allow you to add,
NOTE Confidence: 0.878339439

00:51:43.810 --> 00:51:44.714 for example,
NOTE Confidence: 0.878339439

00:51:44.714 --> 00:51:47.878 several different layouts of text of images.

NOTE Confidence: 0.878339439
00:51:47.880 --> 00:51:49.830 You could have lists of publications,
NOTE Confidence: 0.878339439
00:51:49.830 --> 00:51:51.842 lists of clinical trials,
NOTE Confidence: 0.878339439
00:51:51.842 --> 00:51:54.860 a link to a media gallery.
NOTE Confidence: 0.878339439
00:51:54.860 --> 00:51:55.252 Um.
NOTE Confidence: 0.878339439
00:51:55.252 --> 00:51:58.388 The news and events that are in the
NOTE Confidence: 0.878339439
00:51:58.388 --> 00:52:01.090 system are very easy to add to an
NOTE Confidence: 0.878339439
00:52:01.090 --> 00:52:03.160 newsletter message using this tool.
NOTE Confidence: 0.878339439
00:52:03.160 --> 00:52:05.968 So we're going to talk a lot more
NOTE Confidence: 0.878339439
00:52:05.968 --> 00:52:10.360 about that in like spring next year.
NOTE Confidence: 0.878339439
00:52:10.360 --> 00:52:11.672 But that is coming.
NOTE Confidence: 0.878339439
00:52:11.672 --> 00:52:13.640 If you're looking for a solution
NOTE Confidence: 0.878339439
00:52:13.711 --> 00:52:15.607 for a e-mail newsletter and you
NOTE Confidence: 0.878339439
00:52:15.607 --> 00:52:18.425 can wait for five months or so
NOTE Confidence: 0.878339439
00:52:18.425 --> 00:52:20.792 and then you might want to try
NOTE Confidence: 0.878339439
00:52:20.792 --> 00:52:22.220 to wait for that if you can.
NOTE Confidence: 0.878339439

00:52:22.220 --> 00:52:23.921 And then we we should hopefully be
NOTE Confidence: 0.878339439

00:52:23.921 --> 00:52:25.639 able to help you in the spring.
NOTE Confidence: 0.878339439

00:52:25.640 --> 00:52:26.560 That's a major update.
NOTE Confidence: 0.878339439

00:52:26.560 --> 00:52:27.020 This coming.
NOTE Confidence: 0.6865494

00:52:29.290 --> 00:52:31.430 Five months at the out.
NOTE Confidence: 0.833611473

00:52:32.230 --> 00:52:33.325 At the furthest,
NOTE Confidence: 0.833611473

00:52:33.325 --> 00:52:35.880 we're hoping to have it done earlier.
NOTE Confidence: 0.833611473

00:52:35.880 --> 00:52:37.658 But the way that to be clear,
NOTE Confidence: 0.833611473

00:52:37.660 --> 00:52:40.603 this does not send the for the most part.
NOTE Confidence: 0.833611473

00:52:40.610 --> 00:52:43.178 This will not send the message.
NOTE Confidence: 0.833611473

00:52:43.180 --> 00:52:45.406 It will enable you to very
NOTE Confidence: 0.833611473

00:52:45.406 --> 00:52:47.378 easily create the message based
NOTE Confidence: 0.833611473

00:52:47.378 --> 00:52:49.458 on content that's in Beatrix,
NOTE Confidence: 0.833611473

00:52:49.460 --> 00:52:51.805 and then it will create the HTML
NOTE Confidence: 0.833611473

00:52:51.805 --> 00:52:54.379 for you that you just have to
NOTE Confidence: 0.833611473

00:52:54.379 --> 00:52:56.611 copy and paste into your message.

NOTE Confidence: 0.833611473

00:52:56.620 --> 00:53:00.058 So it greatly simplifies the process

NOTE Confidence: 0.833611473

00:53:00.058 --> 00:53:02.388 of creating that that newsletter.

NOTE Confidence: 0.833611473

00:53:02.388 --> 00:53:04.212 And then you would send it

NOTE Confidence: 0.833611473

00:53:04.212 --> 00:53:05.310 through your message.

NOTE Confidence: 0.906204116666667

00:53:11.450 --> 00:53:12.740 Any other questions?

NOTE Confidence: 0.899569286

00:53:18.180 --> 00:53:20.476 One of the things that we're planning

NOTE Confidence: 0.899569286

00:53:20.476 --> 00:53:23.620 to do in the new year also is share

NOTE Confidence: 0.899569286

00:53:23.620 --> 00:53:27.876 out publicly a road map for future

NOTE Confidence: 0.899569286

00:53:27.876 --> 00:53:29.356 development for basically all the

NOTE Confidence: 0.899569286

00:53:29.356 --> 00:53:31.360 things that that were responsible for.

NOTE Confidence: 0.899569286

00:53:31.360 --> 00:53:34.012 So that includes Beatrix, the school

NOTE Confidence: 0.899569286

00:53:34.012 --> 00:53:36.490 medicine websites and Yale medicine,

NOTE Confidence: 0.899569286

00:53:36.490 --> 00:53:38.238 the Yale Medicine website.

NOTE Confidence: 0.899569286

00:53:38.238 --> 00:53:40.423 That'll be an interactive road

NOTE Confidence: 0.899569286

00:53:40.423 --> 00:53:42.693 map that you'll be able to look

NOTE Confidence: 0.899569286

00:53:42.693 --> 00:53:44.250 at kind of at a high level to see
NOTE Confidence: 0.899569286

00:53:44.298 --> 00:53:45.894 kind of the major things that we're
NOTE Confidence: 0.899569286

00:53:45.894 --> 00:53:47.346 working on and then you'll actually
NOTE Confidence: 0.899569286

00:53:47.346 --> 00:53:49.033 be able to drill down into that.
NOTE Confidence: 0.899569286

00:53:49.040 --> 00:53:51.536 To see very specific things and
NOTE Confidence: 0.899569286

00:53:51.536 --> 00:53:54.569 when we expect to get those done,
NOTE Confidence: 0.899569286

00:53:54.570 --> 00:53:57.504 the goal with that is to provide as much
NOTE Confidence: 0.899569286

00:53:57.504 --> 00:53:59.248 transparency to the school community
NOTE Confidence: 0.899569286

00:53:59.248 --> 00:54:01.276 as we can about our development
NOTE Confidence: 0.899569286

00:54:01.345 --> 00:54:03.865 activities and the timeline around those.
NOTE Confidence: 0.899569286

00:54:03.870 --> 00:54:05.643 I know that right now we're kind of a
NOTE Confidence: 0.899569286

00:54:05.643 --> 00:54:07.379 black hole and you don't necessarily know
NOTE Confidence: 0.899569286

00:54:07.379 --> 00:54:09.290 when you might see these new features.
NOTE Confidence: 0.899569286

00:54:09.290 --> 00:54:11.796 So that road map will helpfully clarify.
NOTE Confidence: 0.9282477844444444

00:54:18.710 --> 00:54:21.601 Are there any other questions that we
NOTE Confidence: 0.9282477844444444

00:54:21.601 --> 00:54:23.630 can answer? In the remaining 5 minutes.

NOTE Confidence: 0.96866125

00:54:31.270 --> 00:54:35.220 OK, if you do have any suggestions or.

NOTE Confidence: 0.866105189285714

00:54:37.650 --> 00:54:39.890 Improvements that we could make to the

NOTE Confidence: 0.866105189285714

00:54:39.890 --> 00:54:42.250 system to help make your life easier.

NOTE Confidence: 0.866105189285714

00:54:42.250 --> 00:54:43.362 Please don't hesitate to

NOTE Confidence: 0.866105189285714

00:54:43.362 --> 00:54:45.365 reach out to us. And we will.

NOTE Confidence: 0.866105189285714

00:54:45.365 --> 00:54:47.790 We will get those on our road map,

NOTE Confidence: 0.866105189285714

00:54:47.790 --> 00:54:50.040 or let you know that perhaps

NOTE Confidence: 0.866105189285714

00:54:50.040 --> 00:54:51.908 we've already thought of that

NOTE Confidence: 0.866105189285714

00:54:51.908 --> 00:54:54.236 and have it in the in the works.

NOTE Confidence: 0.866105189285714

00:54:54.240 --> 00:54:56.210 And thank you very much.

NOTE Confidence: 0.866105189285714

00:54:56.210 --> 00:54:57.070 Have a great afternoon.

NOTE Confidence: 0.8727416

00:54:57.980 --> 00:54:58.910 Thank you everybody.
