

PAYMENT OPTIONS FOR REVIEW OF PREGNANCY SPECIMENS

If you have health insurance coverage it should cover our review of the slides from your pregnancy placenta(s) or placental tissue(s) themselves (if the entire placenta is sent to the Kliman Laboratory).

If you don't have health insurance, or prefer to pay for this review yourself, you may do so by credit card (Visa or Mastercard).

Whichever option you choose, the first step will be for you to contact our Patient Pre-Estimation Department to register at:

203-737-7692

Please communicate the following information to the Patient Financial Counselor:

1. You or your doctor wishes to send slides or specimens to Dr. Harvey Kliman, Department of Obstetrics, Gynecology and Reproductive Sciences for his review.
2. Ask them to see if you are registered as a patient in the Yale Medicine system.
3. If not, ask them to register you.
4. If you wish to pay by insurance, ask them to start the preapproval process with your insurance carrier.
 - a. Let them know that the CPT codes may be one or more from this list:
 - i. **88325** (the code if we will just be reviewing slides)
 - ii. **88307** (if an entire third trimester placenta is sent to us)
 - iii. **88355** (this is added to 88307 if the review is being done to assess for the risk of a developmental delay)
 - b. There are many potential diagnostic (ICD-10) codes. The most likely will be one or more from this list:
 - i. **O02.1**: pregnancy loss prior to 20 weeks
 - ii. **Z37.1**: pregnancy loss at or after 20 weeks
 - iii. **N96**: recurrent pregnancy loss
 - iv. **P02.20**: newborn affected by abnormality of the placenta
5. If you wish to pay by credit card, let them know and they will collect the necessary information.
