

Outcomes related to Mission and Goals

Data Source: Graduate Survey Results

The Alumni Survey is deployed 12 months after graduation as one method used to measure outcomes related to our mission and goals. The last survey was deployed to the Class of 2018 in December 2019. Items are measured using the Likert rating scale (1=strongly disagree; 5=strongly agree)

Area Evaluated	Class of 2014 (RR=56%)	Class of 2015 (RR=53%)	Class of 2016 (RR=66%)	Class of 2017 (RR=51%)	Class of 2018 (RR=58%)
Developing a differential diagnosis	4.00	4.05	4.04	3.85	3.81
Counseling patients	4.33	4.16	4.12	4.30	4.10
Searching, evaluating and interpreting medical literature	4.40	4.16	4.16	4.25	4.00
Thinking critically	4.27	4.32	4.12	4.20	4.14
Team work and inter-professional collaboration	4.13	4.53	4.64	4.55	4.38
Professionalism	4.67	4.58	4.64	4.45	4.43
Life-long learning	4.67	4.47	4.56	4.15	4.38
Caring for diverse population	4.53	4.32	4.64	4.37	4.19
Professional role of a PA	4.20	4.50	4.16	3.95	4.14
