Breast Pathology

The Yale Breast Pathology Program offers world-renowned diagnostic and therapeutic services. Our Breast Pathology team provides diagnoses on biopsies in order to evaluate breast lesions detected clinically or by imaging studies. Therapeutic resections such as lumpectomies, mastectomies, sentinel lymph nodes, and axillary lymph node dissections are studied in detail to evaluate significant factors subsequently used to guide therapy.

Malini Harigopal, MD
Associate Professor of Pathology
Director, Breast Pathology Program

Veerle Bossuyt, MD
Assistant Professor of Pathology

Natalia Ruta, MD
Associate Professor of Pathology
Associate Director, Gynecologic Pathology
Associate Director, Pathology Residency Program

Remulo Celli, MD
Assistant Professor of Pathology

William Lackin MD
Associate Professor of Pathology

Marguerite Pinto, MD
Assistant Professor of Pathology

Emily Reisenbichler, MD
Assistant Professor of Pathology

Serena Wong, MD
Assistant Professor of Pathology

Thoracic Pathology

The Yale Thoracic Pathology Program offers comprehensive diagnostic services on biopsies and resections from the lung. Results of comprehensive examinations are rendered with an emphasis on prognosis and prediction of the response to therapy. Areas of expertise include lung cancer, interstitial lung disease, lung fibrosis, occupational lung disease, chronic extrinsic hypersensitivity pneumonitis, early lung cancer, screening detected cancers, small cell carcinoma, neuroendocrine carcinoma, adenocarcinoma, bronchial biopsies, thoracoscopic biopsies, mesothelioma, thymoma, sarcoidosis, emphysema, asthma, airways diseases.

Robert J. Homer, MD, PhD
Professor of Pathology and of Medicine (Pulmonary)
Director, Thoracic Pathology
Director, Medical Studies

José Costa, MD
Professor of Pathology and Orthopaedics and Rehabilitation
Director, Autopsy Services
Director, Bone and Soft Tissue Pathology

Guoping Cai, MD
Associate Professor of Pathology

Paul Cohen, MD
Assistant Professor of Pathology
Chair, Bridgeport Hospital Pathology

John Sinard, MD, PhD
Professor of Pathology and Ophthalmology and Visual Science
Vice Chair, Pathology
Director, Anatomic Pathology

Xuchen Zhang, MD, PhD
Associate Professor of Pathology
