Doctoral Internship in Clinical & Community Psychology Internship Admissions, Support, & Initial Placement Data

Date Program Tables were updated: September 10, 2021

Internship Program Admissions

Briefly described in narrative form important information to assist potential applicants in addressing their likely fit with your program. This description should be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

The Yale Doctoral Internship in Clinical and Community Psychology offers internship positions based at either the Connecticut Mental Health Center or Yale-New Haven Hospital. Applicants apply for one, and only one placement, within the program. The internship, which embraces a scientist-practitioner model, is most appropriate for and gives a strong preference to students from graduate programs that have a scientist-practitioner or clinical-scientist training model. Additional admission criteria are described below. *Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:*

Total Direct Contact Intervention Hours	No*	Y	Amount-N/A
Total Direct Contact Assessment Hours	No*	Y	Amount-N/A

*Required minimum of 450 face-to-face hours of assessment & intervention combined at the time of application (terminal masters hours count if the application indicates that these were verified by the graduate program director of clinical training)

Describe any other required minimum criteria used to screen applicants:

1. Enrolled in an APA or CPA accredited doctoral training program in clinical, counseling, or clinical and community psychology (neither the program nor the applicant may be on probation);
2. Has at least three years of graduate training at the time of application;
3. Has passed the comprehensive or qualifying exam by the time of application (unless such an exam is not required by the graduating program); and
4. Has an approved dissertation proposal by the time of application.

Exceptions are not made to these criteria. Applications from candidates who do not meet all criteria will not be processed.

Financial and Other Benefit Support for Upcoming Training Year*

Annual Stipend/Salary for Full-time Interns	\$36,771
