

WEBVTT

NOTE duration: "00:10:04.032"

NOTE Confidence: 0.95279366

00:00:00.160 --> 00:00:01.920 Hi, everybody. I am Raj

NOTE Confidence: 0.95279366

00:00:01.920 --> 00:00:03.520 Nimehta. I'm the director of

NOTE Confidence: 0.95279366

00:00:03.520 --> 00:00:05.140 the rapid case ascertainment

NOTE Confidence: 0.9779053

00:00:05.519 --> 00:00:06.420 shared resource.

NOTE Confidence: 0.97998047

00:00:08.480 --> 00:00:08.980 And

NOTE Confidence: 0.8520508

00:00:09.280 --> 00:00:10.500 next slide, please.

NOTE Confidence: 0.97802734

00:00:10.880 --> 00:00:11.380 So

NOTE Confidence: 0.98442733

00:00:12.000 --> 00:00:14.160 the rapid case ascertainment resource

NOTE Confidence: 0.98442733

00:00:14.160 --> 00:00:15.700 is a little different from

NOTE Confidence: 0.98442733

00:00:15.815 --> 00:00:16.935 probably what you've heard,

NOTE Confidence: 0.95644534

00:00:17.414 --> 00:00:19.035 because we we work with

NOTE Confidence: 0.9980469

00:00:19.735 --> 00:00:21.035 investigators conducting

NOTE Confidence: 0.9549805

00:00:21.494 --> 00:00:23.414 non therapeutic studies. So you

NOTE Confidence: 0.9549805

00:00:23.414 --> 00:00:24.614 can think of us as

NOTE Confidence: 0.97627395

00:00:25.335 --> 00:00:26.134 you can think of the
NOTE Confidence: 0.97627395

00:00:26.134 --> 00:00:28.055 clinical trials office as the
NOTE Confidence: 0.97627395

00:00:28.055 --> 00:00:28.555 therapeutic,
NOTE Confidence: 0.98291016

00:00:29.710 --> 00:00:30.210 resource,
NOTE Confidence: 0.9654134

00:00:30.830 --> 00:00:31.949 and we are the non
NOTE Confidence: 0.9654134

00:00:31.949 --> 00:00:33.650 therapeutic. So we support,
NOTE Confidence: 0.9970703

00:00:34.909 --> 00:00:36.210 cancer center members
NOTE Confidence: 0.94628906

00:00:36.670 --> 00:00:37.170 in,
NOTE Confidence: 0.97075737

00:00:38.270 --> 00:00:39.309 in studies that are non
NOTE Confidence: 0.97075737

00:00:39.309 --> 00:00:41.090 therapeutic for case identification,
NOTE Confidence: 0.9594029

00:00:41.790 --> 00:00:44.510 study management, patient enrollment, medical
NOTE Confidence: 0.9594029

00:00:44.510 --> 00:00:45.645 record abstraction,
NOTE Confidence: 0.9777344

00:00:46.985 --> 00:00:49.145 and specimen collection so they
NOTE Confidence: 0.9777344

00:00:49.145 --> 00:00:51.965 can accomplish their scientific goals.
NOTE Confidence: 1

00:00:52.345 --> 00:00:53.085 Next slide.
NOTE Confidence: 1

00:00:54.585 --> 00:00:56.205 So we have been a

NOTE Confidence: 0.9837472
00:00:56.665 --> 00:00:58.985 YCC shared resource since nineteen
NOTE Confidence: 0.9837472
00:00:58.985 --> 00:00:59.885 ninety five,
NOTE Confidence: 0.9948397
00:01:00.870 --> 00:01:02.810 and we wear several different
NOTE Confidence: 0.9948397
00:01:02.870 --> 00:01:04.870 hats. Right? So we we
NOTE Confidence: 0.9948397
00:01:04.870 --> 00:01:07.350 work as Yale staff to
NOTE Confidence: 0.9948397
00:01:07.350 --> 00:01:09.110 support Yale studies, but we
NOTE Confidence: 0.9948397
00:01:09.110 --> 00:01:10.010 also work,
NOTE Confidence: 0.99118376
00:01:11.510 --> 00:01:13.290 as agents of the Connecticut
NOTE Confidence: 0.99118376
00:01:13.350 --> 00:01:15.270 Tumor Registry through a personal
NOTE Confidence: 0.99118376
00:01:15.270 --> 00:01:16.250 service agreement
NOTE Confidence: 0.9998372
00:01:16.685 --> 00:01:18.305 so we can collect data
NOTE Confidence: 0.9998372
00:01:18.365 --> 00:01:18.865 from
NOTE Confidence: 1
00:01:19.485 --> 00:01:19.985 outside
NOTE Confidence: 0.9935128
00:01:20.285 --> 00:01:22.125 hospitals that are not Yale.
NOTE Confidence: 0.9935128
00:01:22.125 --> 00:01:23.165 So that's kind of our
NOTE Confidence: 0.9935128

00:01:23.165 --> 00:01:25.425 Connecticut Tumor Registry hat.
NOTE Confidence: 0.9912485

00:01:25.965 --> 00:01:27.885 So in in this personal
NOTE Confidence: 0.9912485

00:01:27.885 --> 00:01:29.725 service agreement, after we get
NOTE Confidence: 0.9912485

00:01:29.725 --> 00:01:30.545 all the approvals,
NOTE Confidence: 0.99975586

00:01:31.270 --> 00:01:33.450 we can assist investigators
NOTE Confidence: 0.98601425

00:01:33.910 --> 00:01:36.250 in identifying cases and collecting
NOTE Confidence: 0.98601425

00:01:36.310 --> 00:01:37.530 specimens from,
NOTE Confidence: 0.9527751

00:01:38.630 --> 00:01:41.110 Connecticut hospitals for our for
NOTE Confidence: 0.9527751

00:01:41.190 --> 00:01:42.970 through the Connecticut Tumor Registry.
NOTE Confidence: 0.99902344

00:01:44.615 --> 00:01:46.475 The cost of RCA
NOTE Confidence: 0.9988281

00:01:47.174 --> 00:01:48.955 is is really the staff
NOTE Confidence: 0.96684825

00:01:49.494 --> 00:01:51.255 time and effort. Right? We
NOTE Confidence: 0.96684825

00:01:51.255 --> 00:01:52.955 we don't have any machines
NOTE Confidence: 0.96684825

00:01:53.015 --> 00:01:53.975 or we don't have any
NOTE Confidence: 0.96684825

00:01:53.975 --> 00:01:55.915 equipment. We just charge
NOTE Confidence: 1

00:01:56.375 --> 00:01:58.155 for our time and effort

NOTE Confidence: 0.99609375
00:01:58.615 --> 00:01:59.115 devoted
NOTE Confidence: 0.9770159
00:01:59.610 --> 00:02:00.730 to what we do for
NOTE Confidence: 0.9770159
00:02:00.730 --> 00:02:01.710 each investigator,
NOTE Confidence: 0.9987996
00:02:02.330 --> 00:02:03.210 and we do that in
NOTE Confidence: 0.9987996
00:02:03.210 --> 00:02:04.410 two ways. So we have
NOTE Confidence: 0.9987996
00:02:04.410 --> 00:02:05.150 our current,
NOTE Confidence: 0.96651787
00:02:06.570 --> 00:02:07.930 way of one hundred and
NOTE Confidence: 0.96651787
00:02:07.930 --> 00:02:09.130 forty dollars an hour, and
NOTE Confidence: 0.96651787
00:02:09.130 --> 00:02:10.510 that's a fee for service.
NOTE Confidence: 0.96651787
00:02:10.570 --> 00:02:11.850 And as a cancer center
NOTE Confidence: 0.96651787
00:02:11.850 --> 00:02:12.350 member,
NOTE Confidence: 0.92885745
00:02:12.730 --> 00:02:14.510 you get, a fifteen percent,
NOTE Confidence: 1
00:02:15.255 --> 00:02:15.755 discount
NOTE Confidence: 0.97526854
00:02:16.135 --> 00:02:17.175 on that. So it's a
NOTE Confidence: 0.97526854
00:02:17.335 --> 00:02:19.175 the cancer center pays fifteen
NOTE Confidence: 0.97526854

00:02:19.175 --> 00:02:20.215 percent of that. So you're
NOTE Confidence: 0.97526854

00:02:20.215 --> 00:02:21.915 only charged for the eighty,
NOTE Confidence: 0.9983724

00:02:22.775 --> 00:02:23.834 eighty five percent.
NOTE Confidence: 0.9760742

00:02:24.694 --> 00:02:26.955 And then another way that
NOTE Confidence: 0.9760742

00:02:27.175 --> 00:02:29.355 we recover costs is that
NOTE Confidence: 1

00:02:29.770 --> 00:02:30.810 some of our staff are
NOTE Confidence: 1

00:02:30.810 --> 00:02:31.310 dedicated
NOTE Confidence: 1

00:02:31.690 --> 00:02:33.230 to your study
NOTE Confidence: 0.9959542

00:02:33.930 --> 00:02:35.530 as a percent effort. So
NOTE Confidence: 0.9959542

00:02:35.530 --> 00:02:36.350 many studies
NOTE Confidence: 0.99853516

00:02:37.210 --> 00:02:37.710 cannot,
NOTE Confidence: 0.9937054

00:02:38.330 --> 00:02:39.690 hire a full time person.
NOTE Confidence: 0.9937054

00:02:39.690 --> 00:02:40.650 So if you can hire
NOTE Confidence: 0.9937054

00:02:40.650 --> 00:02:42.345 your full time person, great.
NOTE Confidence: 0.9937054

00:02:42.505 --> 00:02:43.544 You can go and hire
NOTE Confidence: 0.9937054

00:02:43.544 --> 00:02:44.605 them. But many

NOTE Confidence: 0.9772949
00:02:44.985 --> 00:02:46.445 of our studies are smaller,
NOTE Confidence: 0.9772949
00:02:46.585 --> 00:02:47.485 and investigators
NOTE Confidence: 0.98768836
00:02:47.865 --> 00:02:48.985 only have, like, let's say,
NOTE Confidence: 0.98768836
00:02:48.985 --> 00:02:50.345 a twenty percent effort or
NOTE Confidence: 0.98768836
00:02:50.345 --> 00:02:51.625 a ten percent effort. So
NOTE Confidence: 0.98768836
00:02:51.625 --> 00:02:52.905 that's where we can come
NOTE Confidence: 0.98768836
00:02:52.905 --> 00:02:53.405 in,
NOTE Confidence: 1
00:02:53.705 --> 00:02:55.405 and you can hire somebody
NOTE Confidence: 0.8317871
00:02:55.705 --> 00:02:56.285 at that
NOTE Confidence: 0.9609375
00:02:56.889 --> 00:02:58.910 small effort to help you,
NOTE Confidence: 0.99400747
00:02:59.290 --> 00:03:00.490 and you don't have to
NOTE Confidence: 0.99400747
00:03:00.490 --> 00:03:01.770 hire somebody because you could
NOTE Confidence: 0.99400747
00:03:01.770 --> 00:03:02.270 never,
NOTE Confidence: 0.9941406
00:03:02.650 --> 00:03:04.730 hire somebody at that, level
NOTE Confidence: 0.9941406
00:03:04.730 --> 00:03:06.190 of effort. So that's how,
NOTE Confidence: 0.9659627

00:03:07.130 --> 00:03:08.250 some of our staff, you
NOTE Confidence: 0.9659627

00:03:08.250 --> 00:03:09.530 know, work twenty percent on
NOTE Confidence: 0.9659627

00:03:09.530 --> 00:03:10.810 one study, twenty percent on
NOTE Confidence: 0.9659627

00:03:10.810 --> 00:03:12.385 another study. So so it
NOTE Confidence: 0.9659627

00:03:12.385 --> 00:03:13.925 really helps these smaller
NOTE Confidence: 0.9987522

00:03:14.225 --> 00:03:15.625 investigators who do not have
NOTE Confidence: 0.9987522

00:03:15.625 --> 00:03:16.565 a lot of money,
NOTE Confidence: 0.97354406

00:03:17.345 --> 00:03:18.544 be able to conduct their
NOTE Confidence: 0.97354406

00:03:18.544 --> 00:03:20.544 studies. Because if if, of
NOTE Confidence: 0.97354406

00:03:20.544 --> 00:03:21.505 course, if you have a
NOTE Confidence: 0.97354406

00:03:21.505 --> 00:03:23.345 full time FTE, then it's
NOTE Confidence: 0.97354406

00:03:23.345 --> 00:03:24.945 great. You have somebody dedicated,
NOTE Confidence: 0.97354406

00:03:24.945 --> 00:03:26.385 but we can help you
NOTE Confidence: 0.97354406

00:03:26.385 --> 00:03:27.330 in that way.
NOTE Confidence: 0.9932422

00:03:28.690 --> 00:03:30.530 In in addition to the
NOTE Confidence: 0.9932422

00:03:30.530 --> 00:03:32.130 dedicated effort, just being able

NOTE Confidence: 0.9932422
00:03:32.130 --> 00:03:33.090 to charge you by the
NOTE Confidence: 0.9932422
00:03:33.090 --> 00:03:34.530 hour is something that some
NOTE Confidence: 0.9932422
00:03:34.530 --> 00:03:36.390 investigators like because you don't
NOTE Confidence: 0.99423826
00:03:36.770 --> 00:03:38.230 you only need a certain,
NOTE Confidence: 0.9573916
00:03:38.690 --> 00:03:40.875 let's say, hundred records extracted.
NOTE Confidence: 0.9573916
00:03:40.875 --> 00:03:42.415 Right? So we just say,
NOTE Confidence: 0.9573916
00:03:42.475 --> 00:03:43.595 okay. Can you extract a
NOTE Confidence: 0.9573916
00:03:43.595 --> 00:03:44.955 hundred records for us? We
NOTE Confidence: 0.9573916
00:03:44.955 --> 00:03:45.115 don't
NOTE Confidence: 0.9990845
00:03:45.755 --> 00:03:46.875 it could take us, you
NOTE Confidence: 0.9990845
00:03:46.875 --> 00:03:48.075 know, a couple of months,
NOTE Confidence: 0.9990845
00:03:48.075 --> 00:03:49.755 but we just pay you
NOTE Confidence: 0.9990845
00:03:49.755 --> 00:03:51.275 by the hour that we
NOTE Confidence: 0.9990845
00:03:51.275 --> 00:03:52.415 work on your study.
NOTE Confidence: 0.9996338
00:03:52.795 --> 00:03:53.835 So those are the the
NOTE Confidence: 0.9996338

00:03:53.835 --> 00:03:54.815 two different ways.
NOTE Confidence: 1
00:03:55.195 --> 00:03:56.015 Next slide.
NOTE Confidence: 0.9965515
00:03:56.930 --> 00:03:58.290 And so, again, these are
NOTE Confidence: 0.9965515
00:03:58.290 --> 00:03:59.349 our key services
NOTE Confidence: 0.998759
00:04:00.049 --> 00:04:01.489 that we perform. We have
NOTE Confidence: 0.998759
00:04:01.489 --> 00:04:02.690 a lot of experience with
NOTE Confidence: 0.998759
00:04:02.690 --> 00:04:03.750 IRB approvals,
NOTE Confidence: 0.9694824
00:04:04.530 --> 00:04:05.830 overall study management.
NOTE Confidence: 0.99157715
00:04:06.769 --> 00:04:08.129 You know, people come to
NOTE Confidence: 0.99157715
00:04:08.129 --> 00:04:09.250 me to say, oh, how
NOTE Confidence: 0.99157715
00:04:09.250 --> 00:04:10.450 do I get this DUA
NOTE Confidence: 0.99157715
00:04:10.450 --> 00:04:10.905 done?
NOTE Confidence: 0.99938965
00:04:11.625 --> 00:04:12.685 Can you help me?
NOTE Confidence: 0.9969841
00:04:13.145 --> 00:04:14.605 How do I pay sites?
NOTE Confidence: 0.9969841
00:04:14.745 --> 00:04:15.705 Can you help me pay
NOTE Confidence: 0.9969841
00:04:15.705 --> 00:04:17.065 sites? And and so these

NOTE Confidence: 0.9969841
00:04:17.065 --> 00:04:17.725 are just,
NOTE Confidence: 0.9995117
00:04:18.345 --> 00:04:18.845 staff,
NOTE Confidence: 0.98637253
00:04:19.464 --> 00:04:21.225 you know, activities that that
NOTE Confidence: 0.98637253
00:04:21.225 --> 00:04:23.005 people need help with. We
NOTE Confidence: 0.98637253
00:04:23.145 --> 00:04:23.645 identify
NOTE Confidence: 0.99886066
00:04:24.185 --> 00:04:26.185 cancer cases. So if you
NOTE Confidence: 0.99886066
00:04:26.185 --> 00:04:26.685 say
NOTE Confidence: 0.99433243
00:04:27.110 --> 00:04:29.110 you need to identify everybody
NOTE Confidence: 0.99433243
00:04:29.110 --> 00:04:30.470 with liver cancer because you
NOTE Confidence: 0.99433243
00:04:30.470 --> 00:04:31.450 wanna do a study,
NOTE Confidence: 0.93520886
00:04:32.310 --> 00:04:34.310 and abstract treatment on liver
NOTE Confidence: 0.93520886
00:04:34.310 --> 00:04:35.830 cancer, so we can help
NOTE Confidence: 0.93520886
00:04:35.830 --> 00:04:36.550 you with that.
NOTE Confidence: 0.9494629
00:04:36.950 --> 00:04:39.270 Again, extracting medical records. Many
NOTE Confidence: 0.9494629
00:04:39.270 --> 00:04:39.930 of our,
NOTE Confidence: 0.9733887

00:04:41.824 --> 00:04:43.285 you know, the IRB protocols
NOTE Confidence: 0.9733887

00:04:43.345 --> 00:04:45.525 require physician consent. So we
NOTE Confidence: 0.9733887

00:04:45.745 --> 00:04:46.485 help investigators
NOTE Confidence: 0.9754357

00:04:47.104 --> 00:04:48.464 identify the patients and then
NOTE Confidence: 0.9754357

00:04:48.464 --> 00:04:50.625 contacting these the their their
NOTE Confidence: 0.9754357

00:04:50.625 --> 00:04:52.705 clinicians for permission to contact
NOTE Confidence: 0.9754357

00:04:52.705 --> 00:04:54.625 them. We screen them. We
NOTE Confidence: 0.9754357

00:04:54.625 --> 00:04:57.300 conduct surveys either in person
NOTE Confidence: 0.9754357

00:04:57.360 --> 00:04:57.860 or,
NOTE Confidence: 0.9959542

00:04:58.479 --> 00:05:00.160 sending them a link. We
NOTE Confidence: 0.9959542

00:05:00.160 --> 00:05:01.060 also collect
NOTE Confidence: 0.9890137

00:05:02.080 --> 00:05:02.580 blood,
NOTE Confidence: 0.9510634

00:05:03.199 --> 00:05:05.039 specimens during their standard of
NOTE Confidence: 0.9510634

00:05:05.039 --> 00:05:06.900 care collection. Some some
NOTE Confidence: 0.9189453

00:05:07.440 --> 00:05:07.940 investigators,
NOTE Confidence: 0.9981864

00:05:09.615 --> 00:05:10.975 wanna collect an additional tube

NOTE Confidence: 0.9981864
00:05:10.975 --> 00:05:11.635 of blood
NOTE Confidence: 0.9962158
00:05:12.095 --> 00:05:14.175 from these, patients that are
NOTE Confidence: 0.9962158
00:05:14.175 --> 00:05:15.395 getting certain treatments
NOTE Confidence: 0.9453125
00:05:15.775 --> 00:05:16.275 or,
NOTE Confidence: 0.95273435
00:05:17.455 --> 00:05:19.235 you know, the COVID vaccine.
NOTE Confidence: 0.95273435
00:05:19.375 --> 00:05:20.895 They wanna test, you know,
NOTE Confidence: 0.95130754
00:05:21.455 --> 00:05:23.214 markers, and so we have
NOTE Confidence: 0.95130754
00:05:23.214 --> 00:05:24.330 done that as well.
NOTE Confidence: 0.9687771
00:05:24.810 --> 00:05:25.849 Same thing for stool and
NOTE Confidence: 0.9687771
00:05:25.849 --> 00:05:26.349 CSF.
NOTE Confidence: 0.99902344
00:05:27.289 --> 00:05:28.970 And we also work with
NOTE Confidence: 0.99902344
00:05:28.970 --> 00:05:30.909 archival pathology specimens.
NOTE Confidence: 0.98391724
00:05:32.169 --> 00:05:33.529 We work with Yale New
NOTE Confidence: 0.98391724
00:05:33.529 --> 00:05:34.729 Haven Hospital with,
NOTE Confidence: 0.9772426
00:05:35.449 --> 00:05:37.849 the shared resource also, and
NOTE Confidence: 0.9772426

00:05:37.849 --> 00:05:40.245 we work collecting specimens from
NOTE Confidence: 0.9772426

00:05:40.245 --> 00:05:41.385 all over the country.
NOTE Confidence: 0.98109657

00:05:42.565 --> 00:05:44.885 Cohorts, for example, everybody who's
NOTE Confidence: 0.98109657

00:05:45.045 --> 00:05:45.945 who has,
NOTE Confidence: 0.9935303

00:05:46.404 --> 00:05:47.145 had, like,
NOTE Confidence: 0.98547363

00:05:47.765 --> 00:05:48.585 liver cancer,
NOTE Confidence: 0.9794238

00:05:49.285 --> 00:05:51.045 through the VA, for example.
NOTE Confidence: 0.9794238

00:05:51.045 --> 00:05:52.505 We've done a study where
NOTE Confidence: 0.9794238

00:05:52.789 --> 00:05:54.310 we collected from all the
NOTE Confidence: 0.9794238

00:05:54.310 --> 00:05:55.509 stations at the VA for
NOTE Confidence: 0.9794238

00:05:55.509 --> 00:05:56.970 patients who had liver cancer.
NOTE Confidence: 0.94422746

00:05:57.830 --> 00:05:59.029 And then it was brought
NOTE Confidence: 0.94422746

00:05:59.190 --> 00:06:00.470 you know, they shipped the
NOTE Confidence: 0.94422746

00:06:00.470 --> 00:06:02.069 specimens. We we worked with
NOTE Confidence: 0.94422746

00:06:02.069 --> 00:06:02.889 the l pathology
NOTE Confidence: 0.9906761

00:06:03.190 --> 00:06:04.470 to section them with our

NOTE Confidence: 0.9906761
00:06:04.470 --> 00:06:05.370 study pathologist,
NOTE Confidence: 0.94523114
00:06:06.069 --> 00:06:07.349 and then we returned these
NOTE Confidence: 0.94523114
00:06:07.349 --> 00:06:07.849 specimens.
NOTE Confidence: 0.9731038
00:06:08.945 --> 00:06:10.785 We also serve as honest
NOTE Confidence: 0.9731038
00:06:10.785 --> 00:06:12.625 brokers, which means that some
NOTE Confidence: 0.9731038
00:06:12.625 --> 00:06:14.625 studies that the investigator has
NOTE Confidence: 0.9731038
00:06:14.625 --> 00:06:15.445 to be blinded.
NOTE Confidence: 0.96928185
00:06:16.145 --> 00:06:17.985 We're able to be that
NOTE Confidence: 0.96928185
00:06:17.985 --> 00:06:20.005 person who that the the
NOTE Confidence: 0.96928185
00:06:20.065 --> 00:06:21.425 the shared resource who knows
NOTE Confidence: 0.96928185
00:06:21.425 --> 00:06:22.705 who these patients are to
NOTE Confidence: 0.96928185
00:06:22.705 --> 00:06:23.820 be able to collect the
NOTE Confidence: 0.96928185
00:06:24.060 --> 00:06:25.120 specimens. But when
NOTE Confidence: 0.9597439
00:06:25.660 --> 00:06:26.460 we give it to the
NOTE Confidence: 0.9597439
00:06:26.460 --> 00:06:28.080 investigator, it's de identified.
NOTE Confidence: 0.97026366

00:06:28.700 --> 00:06:30.380 So the IRBs will usually,
NOTE Confidence: 0.9906142

00:06:32.380 --> 00:06:33.820 exempt those studies because you're
NOTE Confidence: 0.9906142

00:06:33.820 --> 00:06:35.520 not collecting any identifiers.
NOTE Confidence: 0.9666341

00:06:36.345 --> 00:06:37.785 You you we are your
NOTE Confidence: 0.9666341

00:06:37.785 --> 00:06:39.545 middle person, your honest broker
NOTE Confidence: 0.9666341

00:06:39.545 --> 00:06:40.285 to know.
NOTE Confidence: 0.97218424

00:06:40.985 --> 00:06:42.025 We know who they are
NOTE Confidence: 0.97218424

00:06:42.025 --> 00:06:43.385 to collect the data, but
NOTE Confidence: 0.97218424

00:06:43.385 --> 00:06:44.685 you are not getting anything.
NOTE Confidence: 0.99278843

00:06:45.145 --> 00:06:46.105 And, again, some of the
NOTE Confidence: 0.99278843

00:06:46.105 --> 00:06:47.545 other things that we've done
NOTE Confidence: 0.99278843

00:06:47.545 --> 00:06:48.845 is collecting films,
NOTE Confidence: 0.9433245

00:06:49.464 --> 00:06:51.430 radiology scans. So we work
NOTE Confidence: 0.9433245

00:06:51.430 --> 00:06:52.490 with investigators.
NOTE Confidence: 0.97165257

00:06:52.790 --> 00:06:54.710 If they wanna collect anything,
NOTE Confidence: 0.97165257

00:06:54.710 --> 00:06:56.630 we we can help you

NOTE Confidence: 0.97165257

00:06:56.630 --> 00:06:58.230 and and kinda brainstorm how

NOTE Confidence: 0.97165257

00:06:58.230 --> 00:06:59.050 to do this.

NOTE Confidence: 1

00:06:59.430 --> 00:07:00.250 Next slide.

NOTE Confidence: 0.9980294

00:07:01.430 --> 00:07:02.870 So this is just a

NOTE Confidence: 0.9980294

00:07:02.870 --> 00:07:04.654 really quick example of the

NOTE Confidence: 0.9980294

00:07:04.654 --> 00:07:06.035 studies that we've done.

NOTE Confidence: 0.9065755

00:07:07.615 --> 00:07:09.154 So prospective identification

NOTE Confidence: 0.9180908

00:07:09.615 --> 00:07:11.935 with surveys and pathology collections.

NOTE Confidence: 0.9180908

00:07:11.935 --> 00:07:13.475 These, again, newly diagnosed.

NOTE Confidence: 0.9789516

00:07:14.975 --> 00:07:16.540 We do you know, I've

NOTE Confidence: 0.9789516

00:07:16.540 --> 00:07:17.580 talked a little bit about

NOTE Confidence: 0.9789516

00:07:17.580 --> 00:07:18.880 this where we can,

NOTE Confidence: 0.9849243

00:07:20.140 --> 00:07:21.580 we can consent the patient.

NOTE Confidence: 0.9849243

00:07:21.580 --> 00:07:22.720 We can collect,

NOTE Confidence: 0.9984131

00:07:23.260 --> 00:07:24.780 some a survey. We can

NOTE Confidence: 0.9984131

00:07:24.780 --> 00:07:25.920 collect their specimens.
NOTE Confidence: 0.9605849

00:07:27.580 --> 00:07:29.354 We do this, again, also
NOTE Confidence: 0.9605849

00:07:29.354 --> 00:07:29.854 retrospectively.
NOTE Confidence: 0.9699707

00:07:30.474 --> 00:07:31.775 Like, there's a a retrospective
NOTE Confidence: 0.9699707

00:07:32.074 --> 00:07:33.995 cohort of ten years of,
NOTE Confidence: 0.9699707

00:07:33.995 --> 00:07:34.735 let's say,
NOTE Confidence: 0.92578125

00:07:36.155 --> 00:07:36.974 brain tumors,
NOTE Confidence: 0.9538574

00:07:37.995 --> 00:07:39.115 and we can go back
NOTE Confidence: 0.9538574

00:07:39.115 --> 00:07:40.235 and do a whole medical
NOTE Confidence: 0.9538574

00:07:40.235 --> 00:07:42.235 record abstraction, collect their slide
NOTE Confidence: 0.9538574

00:07:42.474 --> 00:07:43.294 their blocks,
NOTE Confidence: 0.9983724

00:07:43.640 --> 00:07:45.340 collect imaging, everything.
NOTE Confidence: 0.9427558

00:07:46.520 --> 00:07:48.140 Number three is, again, our
NOTE Confidence: 0.9427558

00:07:48.440 --> 00:07:49.720 our work with our connect
NOTE Confidence: 0.9427558

00:07:49.880 --> 00:07:51.480 with the Connecticut Tumor Registry.
NOTE Confidence: 0.9427558

00:07:51.480 --> 00:07:52.600 This is like our our

NOTE Confidence: 0.9427558
00:07:52.600 --> 00:07:54.760 kinda Connecticut Tumor Registry hat
NOTE Confidence: 0.9427558
00:07:54.760 --> 00:07:56.200 a little bit differently than
NOTE Confidence: 0.9427558
00:07:56.200 --> 00:07:57.800 as working as a Yale
NOTE Confidence: 0.9427558
00:07:57.800 --> 00:07:58.300 employee.
NOTE Confidence: 0.9637207
00:07:59.865 --> 00:08:01.485 And we we can collect,
NOTE Confidence: 0.9795532
00:08:02.425 --> 00:08:04.445 specimens, medical record abstraction
NOTE Confidence: 0.9416504
00:08:05.785 --> 00:08:06.285 for,
NOTE Confidence: 0.930603
00:08:06.985 --> 00:08:09.085 any, you know, any patient
NOTE Confidence: 0.930603
00:08:09.225 --> 00:08:10.445 diagnosed in Connecticut.
NOTE Confidence: 0.79215497
00:08:11.225 --> 00:08:12.045 As you know,
NOTE Confidence: 0.97680664
00:08:12.490 --> 00:08:14.730 any cancer diagnosis is reportable
NOTE Confidence: 0.97680664
00:08:14.730 --> 00:08:16.490 to the Connecticut Tumor Registry,
NOTE Confidence: 0.97680664
00:08:16.490 --> 00:08:17.310 so they
NOTE Confidence: 0.95408934
00:08:17.770 --> 00:08:19.930 have everybody who's been diagnosed
NOTE Confidence: 0.95408934
00:08:19.930 --> 00:08:21.310 with cancer. It's the oldest,
NOTE Confidence: 0.99853516

00:08:21.690 --> 00:08:23.470 tumor registry in the country.
NOTE Confidence: 0.9740804

00:08:24.855 --> 00:08:26.855 And then, again, our, like
NOTE Confidence: 0.9740804

00:08:26.855 --> 00:08:28.295 I've said before, we also
NOTE Confidence: 0.9740804

00:08:28.295 --> 00:08:29.115 can collect,
NOTE Confidence: 0.98860675

00:08:29.575 --> 00:08:31.255 blood, stools. We've done some
NOTE Confidence: 0.98860675

00:08:31.255 --> 00:08:31.915 of these,
NOTE Confidence: 0.9757635

00:08:32.615 --> 00:08:35.415 CSF collections that investigators need.
NOTE Confidence: 0.9757635

00:08:35.415 --> 00:08:36.615 We we bring the tubes,
NOTE Confidence: 0.9757635

00:08:36.615 --> 00:08:38.410 and then when they're getting
NOTE Confidence: 0.9757635

00:08:38.410 --> 00:08:39.950 their CSF or their biopsy,
NOTE Confidence: 0.9757635

00:08:40.090 --> 00:08:40.650 we then,
NOTE Confidence: 0.99405926

00:08:41.450 --> 00:08:43.050 transport that back to the
NOTE Confidence: 0.99405926

00:08:43.050 --> 00:08:44.010 lab that's gonna be,
NOTE Confidence: 1

00:08:45.690 --> 00:08:46.910 analyzing that.
NOTE Confidence: 1

00:08:47.690 --> 00:08:48.590 Next slide.
NOTE Confidence: 0.9539795

00:08:50.505 --> 00:08:52.024 So just I've touched a

NOTE Confidence: 0.9539795
00:08:52.024 --> 00:08:53.144 little bit about this, but
NOTE Confidence: 0.9539795
00:08:53.144 --> 00:08:53.885 the benefits
NOTE Confidence: 0.9991319
00:08:54.264 --> 00:08:56.584 is that we we have
NOTE Confidence: 0.9991319
00:08:56.584 --> 00:08:57.644 a lot of experience.
NOTE Confidence: 0.9929481
00:08:59.065 --> 00:09:00.184 I've been this I've been
NOTE Confidence: 0.9929481
00:09:00.184 --> 00:09:01.464 doing this for twenty five
NOTE Confidence: 0.9929481
00:09:01.464 --> 00:09:02.904 years in this position. We
NOTE Confidence: 0.9929481
00:09:02.904 --> 00:09:04.264 have Rocco who's been here
NOTE Confidence: 0.9929481
00:09:04.264 --> 00:09:06.090 for thirty five years, forty
NOTE Confidence: 0.9929481
00:09:06.090 --> 00:09:06.590 years.
NOTE Confidence: 0.9583333
00:09:07.530 --> 00:09:09.530 So we we've have a
NOTE Confidence: 0.9583333
00:09:09.530 --> 00:09:11.770 lot of experience in in
NOTE Confidence: 0.9583333
00:09:11.770 --> 00:09:12.750 lab experience
NOTE Confidence: 0.99031574
00:09:13.130 --> 00:09:15.290 and IRB experience. We're very
NOTE Confidence: 0.99031574
00:09:15.290 --> 00:09:15.790 flexible.
NOTE Confidence: 0.9802144

00:09:17.225 --> 00:09:18.904 I usually meet with every
NOTE Confidence: 0.9802144

00:09:18.904 --> 00:09:20.684 investigator that wants to use
NOTE Confidence: 0.9802144

00:09:20.745 --> 00:09:22.345 RCA just to kinda guide
NOTE Confidence: 0.9802144

00:09:22.345 --> 00:09:23.304 them. You don't have to
NOTE Confidence: 0.9802144

00:09:23.304 --> 00:09:23.945 use me. A lot of
NOTE Confidence: 0.9802144

00:09:23.945 --> 00:09:24.904 times, they're like, oh, thank
NOTE Confidence: 0.9802144

00:09:24.904 --> 00:09:25.785 you for letting me know
NOTE Confidence: 0.9802144

00:09:25.785 --> 00:09:27.005 I could do this. So
NOTE Confidence: 0.9802144

00:09:27.065 --> 00:09:28.505 I'm here just for to
NOTE Confidence: 0.9802144

00:09:28.505 --> 00:09:29.884 also provide guidance,
NOTE Confidence: 0.9909668

00:09:30.460 --> 00:09:31.600 through study planning,
NOTE Confidence: 0.96601564

00:09:32.540 --> 00:09:33.920 just to give you just,
NOTE Confidence: 0.97005486

00:09:35.020 --> 00:09:36.540 ideas and how to better
NOTE Confidence: 0.97005486

00:09:36.540 --> 00:09:37.740 do your study. If you
NOTE Confidence: 0.97005486

00:09:37.740 --> 00:09:38.940 don't have any funding, I've
NOTE Confidence: 0.97005486

00:09:38.940 --> 00:09:40.059 still I can still help

NOTE Confidence: 0.97005486
00:09:40.059 --> 00:09:41.260 you. You know, I'm happy
NOTE Confidence: 0.97005486
00:09:41.260 --> 00:09:42.400 to meet with anybody
NOTE Confidence: 0.9953724
00:09:43.054 --> 00:09:44.415 just to guide you on
NOTE Confidence: 0.9953724
00:09:44.415 --> 00:09:45.214 what you need to do.
NOTE Confidence: 0.9953724
00:09:45.214 --> 00:09:46.095 I do this all the
NOTE Confidence: 0.9953724
00:09:46.095 --> 00:09:47.454 time. How do I apply
NOTE Confidence: 0.9953724
00:09:47.454 --> 00:09:48.194 for IRB?
NOTE Confidence: 0.97626203
00:09:49.134 --> 00:09:50.334 So I'm here to, you
NOTE Confidence: 0.97626203
00:09:50.334 --> 00:09:52.255 know, support anybody here at
NOTE Confidence: 0.97626203
00:09:52.255 --> 00:09:53.315 the cancer center.
NOTE Confidence: 1
00:09:54.326 --> 00:09:54.986 Next slide.
NOTE Confidence: 0.9875488
00:09:55.526 --> 00:09:57.066 So here's my email.
NOTE Confidence: 0.99239093
00:09:57.926 --> 00:09:59.126 Please feel free to reach
NOTE Confidence: 0.99239093
00:09:59.126 --> 00:09:59.626 out,
NOTE Confidence: 0.94392616
00:10:00.566 --> 00:10:01.926 and I can, you know,
NOTE Confidence: 0.94392616

00:10:01.926 --> 00:10:02.806 try to help you in

NOTE Confidence: 0.94392616

00:10:02.806 --> 00:10:03.946 any way I can.
