Motivation for Change: Overcoming Helplessness

Stage of Change Graduation Game Worksheet

My current Stage of Change: In the space provided below, write the name of the stage (precontemplation, contemplation, action, preparation, or maintenance) from your Readiness Assessment.

Sexual practices _________ Health care _________
Drug use _________ Sharing “works” _________

The behavior I’m most ambivalent about changing is: Select the behavior, from the four above, that you are least motivated to change and write it here. ____________________________

List the reasons for not wanting to change your behavior (costs):

1. __________________________
2. __________________________
3. __________________________
4. __________________________
5. __________________________
6. __________________________
7. __________________________
8. __________________________
9. __________________________
10. __________________________

(a) Total number of costs of change and enter here: ___

List the potential benefits of change:

1. __________________________
2. __________________________
3. __________________________
4. __________________________
5. __________________________
6. __________________________
7. __________________________
8. __________________________
9. __________________________
10. __________________________

(b) Total the number of potential benefits of change and enter here: ___

(c) Subtract costs (a) from benefits (b) and enter results here: ___

Write in the name of the next Stage of Change here: __________________________

List below the strategies you will use to help you graduate to the next stage for changing this risky behavior:

1. __________________________
2. __________________________
3. __________________________
4. __________________________
5. __________________________
6. __________________________
7. __________________________
8. __________________________
9. __________________________
10. __________________________

(d) Total the number of strategies for graduation and enter here: ___
