

WEBVTT

NOTE duration:"00:36:26"

NOTE recognizability:0.875

NOTE language:en-us

NOTE Confidence: 0.877318875

00:00:00.000 --> 00:00:01.770 Good morning everyone.

NOTE Confidence: 0.877318875

00:00:01.770 --> 00:00:06.848 My name is Lloyd Cantly and the other person

NOTE Confidence: 0.877318875

00:00:06.848 --> 00:00:10.040 helping run this is Christine Costantino,

NOTE Confidence: 0.877318875

00:00:10.040 --> 00:00:14.240 and this webinar is basically to help

NOTE Confidence: 0.877318875

00:00:14.240 --> 00:00:17.120 you understand the options available for

NOTE Confidence: 0.877318875

00:00:17.120 --> 00:00:21.680 applying for either a pre doctoral or

NOTE Confidence: 0.877318875

00:00:21.680 --> 00:00:23.844 postdoctoral training grant through YCCI.

NOTE Confidence: 0.877318875

00:00:23.844 --> 00:00:26.900 So I'm going to give you a very

NOTE Confidence: 0.877318875

00:00:26.900 --> 00:00:28.800 brief little bit of background.

NOTE Confidence: 0.877318875

00:00:28.800 --> 00:00:32.832 So YCC I I back a long time ago,

NOTE Confidence: 0.877318875

00:00:32.840 --> 00:00:34.680 almost 20 years ago now,

NOTE Confidence: 0.877318875

00:00:34.680 --> 00:00:36.100 obtained grant funding from

NOTE Confidence: 0.877318875

00:00:36.100 --> 00:00:37.875 one of the NIH institutes,

NOTE Confidence: 0.877318875

00:00:37.880 --> 00:00:42.110 the NCATS to support training
NOTE Confidence: 0.877318875

00:00:42.110 --> 00:00:44.724 of pre doctoral and postdoctoral
NOTE Confidence: 0.877318875

00:00:44.724 --> 00:00:46.929 and junior faculty and clinical
NOTE Confidence: 0.877318875

00:00:46.929 --> 00:00:48.999 and translational research.
NOTE Confidence: 0.877318875

00:00:49.000 --> 00:00:54.280 And as part of that funding we created
NOTE Confidence: 0.877318875

00:00:54.280 --> 00:00:58.150 these two specific training programs that
NOTE Confidence: 0.877318875

00:00:58.150 --> 00:01:01.240 can be applied for by people here at Yale,
NOTE Confidence: 0.877318875

00:01:01.240 --> 00:01:03.610 one for postdoctoral trainees be
NOTE Confidence: 0.877318875

00:01:03.610 --> 00:01:07.504 they MD or PhD and one for pre
NOTE Confidence: 0.877318875

00:01:07.504 --> 00:01:10.354 doctoral trainees again MD or PhD.
NOTE Confidence: 0.877318875

00:01:10.360 --> 00:01:12.208 And so we're going to just give you
NOTE Confidence: 0.877318875

00:01:12.208 --> 00:01:14.458 a little bit of the nuts and bolts of
NOTE Confidence: 0.877318875

00:01:14.458 --> 00:01:16.160 how those programs look and what you
NOTE Confidence: 0.877318875

00:01:16.160 --> 00:01:17.730 might need to know and to consider
NOTE Confidence: 0.877318875

00:01:17.730 --> 00:01:19.200 whether you want to apply or not.
NOTE Confidence: 0.906485525

00:01:22.120 --> 00:01:26.396 And so this is our agenda for the meeting.

NOTE Confidence: 0.906485525

00:01:26.400 --> 00:01:28.236 We're going to describe the team,

NOTE Confidence: 0.906485525

00:01:28.240 --> 00:01:30.520 what the two training programs are

NOTE Confidence: 0.906485525

00:01:30.520 --> 00:01:33.600 and the eligibility requirements.

NOTE Confidence: 0.906485525

00:01:33.600 --> 00:01:36.078 There are some areas of special emphasis

NOTE Confidence: 0.906485525

00:01:36.078 --> 00:01:38.600 that we'll talk about briefly and then

NOTE Confidence: 0.906485525

00:01:38.600 --> 00:01:40.854 Christine's going to talk to you about

NOTE Confidence: 0.906485525

00:01:40.854 --> 00:01:42.280 the specific application process.

NOTE Confidence: 0.790942988571429

00:01:46.440 --> 00:01:49.877 So this is our YCCI education team.

NOTE Confidence: 0.790942988571429

00:01:49.880 --> 00:01:53.720 So I'm Lloyd, Jen Edelman,

NOTE Confidence: 0.790942988571429

00:01:53.720 --> 00:01:56.359 who is also a professor of medicine.

NOTE Confidence: 0.790942988571429

00:01:56.360 --> 00:01:58.000 And Eugene OR Jean Shapiro,

NOTE Confidence: 0.790942988571429

00:01:58.000 --> 00:02:00.880 who's a professor in Pediatrics and

NOTE Confidence: 0.790942988571429

00:02:00.880 --> 00:02:03.384 infectious disease are the three Co

NOTE Confidence: 0.790942988571429

00:02:03.384 --> 00:02:05.314 directors of this educational program

NOTE Confidence: 0.790942988571429

00:02:05.314 --> 00:02:07.479 that overseas the pre doctoral,

NOTE Confidence: 0.790942988571429

00:02:07.480 --> 00:02:09.256 postdoctoral and junior
NOTE Confidence: 0.790942988571429

00:02:09.256 --> 00:02:10.746 faculty training programs.
NOTE Confidence: 0.790942988571429

00:02:10.746 --> 00:02:12.582 And then Christine is the person
NOTE Confidence: 0.790942988571429

00:02:12.582 --> 00:02:14.360 who actually knows what's going on.
NOTE Confidence: 0.790942988571429

00:02:14.360 --> 00:02:15.736 The three of us say a lot of
NOTE Confidence: 0.790942988571429

00:02:15.736 --> 00:02:17.037 stuff and blow a lot of smoke,
NOTE Confidence: 0.790942988571429

00:02:17.040 --> 00:02:18.590 but Christine actually has all
NOTE Confidence: 0.790942988571429

00:02:18.590 --> 00:02:20.507 the the true details of what
NOTE Confidence: 0.790942988571429

00:02:20.507 --> 00:02:22.037 happens and how it happens.
NOTE Confidence: 0.790942988571429

00:02:22.040 --> 00:02:24.434 So she'll she's the main point person
NOTE Confidence: 0.790942988571429

00:02:24.434 --> 00:02:26.240 really for these applications.
NOTE Confidence: 0.898117222857143

00:02:30.240 --> 00:02:33.426 So these these two training programs
NOTE Confidence: 0.898117222857143

00:02:33.426 --> 00:02:37.780 that were designed around between
NOTE Confidence: 0.898117222857143

00:02:37.780 --> 00:02:40.988 2010 and 2016 specifically for pre
NOTE Confidence: 0.898117222857143

00:02:40.988 --> 00:02:43.273 doctor and post doctoral trainees,
NOTE Confidence: 0.898117222857143

00:02:43.280 --> 00:02:44.500 they're two separate applications.

NOTE Confidence: 0.898117222857143

00:02:44.500 --> 00:02:46.662 If you're a postdoc, you apply for

NOTE Confidence: 0.898117222857143

00:02:46.662 --> 00:02:47.918 the postdoctoral training program.

NOTE Confidence: 0.898117222857143

00:02:47.920 --> 00:02:49.159 If they're if you're a pre doc,

NOTE Confidence: 0.898117222857143

00:02:49.160 --> 00:02:51.380 you apply for the pre doctoral

NOTE Confidence: 0.898117222857143

00:02:51.380 --> 00:02:52.120 training program.

NOTE Confidence: 0.898117222857143

00:02:52.120 --> 00:02:54.836 But based on our funding for this,

NOTE Confidence: 0.898117222857143

00:02:54.840 --> 00:02:59.238 which is do Ncats, these really require

NOTE Confidence: 0.898117222857143

00:02:59.238 --> 00:03:02.994 2 components to be viable applications.

NOTE Confidence: 0.898117222857143

00:03:03.000 --> 00:03:06.115 One is that the research you're proposing

NOTE Confidence: 0.898117222857143

00:03:06.120 --> 00:03:09.697 and your career goal should be aligned

NOTE Confidence: 0.898117222857143

00:03:09.697 --> 00:03:12.527 with clinical and translational types

NOTE Confidence: 0.898117222857143

00:03:12.527 --> 00:03:16.720 of research focused on a human problem.

NOTE Confidence: 0.898117222857143

00:03:16.720 --> 00:03:19.516 Now when we say translational research,

NOTE Confidence: 0.898117222857143

00:03:19.520 --> 00:03:22.930 that really has a broad definition.

NOTE Confidence: 0.898117222857143

00:03:22.930 --> 00:03:24.520 So, for example,

NOTE Confidence: 0.898117222857143

00:03:24.520 --> 00:03:27.700 someone in my lab who might
NOTE Confidence: 0.898117222857143

00:03:27.802 --> 00:03:29.362 be doing mouse work,
NOTE Confidence: 0.898117222857143

00:03:29.362 --> 00:03:31.768 but it's mouse work that's defined
NOTE Confidence: 0.898117222857143

00:03:31.768 --> 00:03:34.057 around a gene mutation that's
NOTE Confidence: 0.898117222857143

00:03:34.057 --> 00:03:36.877 involved in kidney disease in humans.
NOTE Confidence: 0.898117222857143

00:03:36.880 --> 00:03:39.910 That would be seen as translational
NOTE Confidence: 0.898117222857143

00:03:39.910 --> 00:03:42.967 research because it's research applied to
NOTE Confidence: 0.898117222857143

00:03:42.967 --> 00:03:45.835 a specific problem that affects humans.
NOTE Confidence: 0.898117222857143

00:03:45.840 --> 00:03:47.688 So it doesn't mean you have to
NOTE Confidence: 0.898117222857143

00:03:47.688 --> 00:03:49.482 be working with human samples to
NOTE Confidence: 0.898117222857143

00:03:49.482 --> 00:03:51.360 apply for this for these awards.
NOTE Confidence: 0.898117222857143

00:03:51.360 --> 00:03:53.118 In other words.
NOTE Confidence: 0.898117222857143

00:03:53.120 --> 00:03:54.284 And the second piece,
NOTE Confidence: 0.898117222857143

00:03:54.284 --> 00:03:56.776 besides the fact that they need to be
NOTE Confidence: 0.898117222857143

00:03:56.776 --> 00:03:58.834 clinical or translational types of research,
NOTE Confidence: 0.898117222857143

00:03:58.840 --> 00:04:02.400 is that there's a strong emphasis on

NOTE Confidence: 0.898117222857143
00:04:02.400 --> 00:04:04.960 the training being multidisciplinary
NOTE Confidence: 0.898117222857143
00:04:04.960 --> 00:04:06.160 for both of these programs.
NOTE Confidence: 0.898117222857143
00:04:06.160 --> 00:04:08.056 And what that basically means is
NOTE Confidence: 0.898117222857143
00:04:08.056 --> 00:04:10.429 that if you have a primary mentor
NOTE Confidence: 0.898117222857143
00:04:10.429 --> 00:04:12.517 who is in a particular department
NOTE Confidence: 0.898117222857143
00:04:12.517 --> 00:04:14.903 and has a particular focus and
NOTE Confidence: 0.898117222857143
00:04:14.903 --> 00:04:16.479 particular type of research,
NOTE Confidence: 0.898117222857143
00:04:16.480 --> 00:04:18.435 we strongly encourage the applicants
NOTE Confidence: 0.898117222857143
00:04:18.435 --> 00:04:21.241 for this program to have a secondary
NOTE Confidence: 0.898117222857143
00:04:21.241 --> 00:04:23.196 mentor who's in a different
NOTE Confidence: 0.898117222857143
00:04:23.196 --> 00:04:25.080 section or department who might.
NOTE Confidence: 0.898117222857143
00:04:25.080 --> 00:04:27.276 So for example might be a
NOTE Confidence: 0.898117222857143
00:04:27.276 --> 00:04:29.256 biostatistician who would help you
NOTE Confidence: 0.898117222857143
00:04:29.256 --> 00:04:31.481 with understanding how you use
NOTE Confidence: 0.898117222857143
00:04:31.481 --> 00:04:33.261 statistical approaches to analyze
NOTE Confidence: 0.898117222857143

00:04:33.327 --> 00:04:35.875 clinical data that might be an example.

NOTE Confidence: 0.898117222857143

00:04:35.880 --> 00:04:38.620 So a single mentor that's

NOTE Confidence: 0.898117222857143

00:04:38.620 --> 00:04:41.360 focused on A1 particular area,

NOTE Confidence: 0.898117222857143

00:04:41.360 --> 00:04:43.642 those type of applications tend not to

NOTE Confidence: 0.898117222857143

00:04:43.642 --> 00:04:46.428 be scored as highly for these programs

NOTE Confidence: 0.898117222857143

00:04:46.428 --> 00:04:48.598 as those that are multidisciplinary

NOTE Confidence: 0.898117222857143

00:04:48.600 --> 00:04:50.418 and often these involve team research

NOTE Confidence: 0.898117222857143

00:04:50.418 --> 00:04:52.582 where you may have two or three

NOTE Confidence: 0.898117222857143

00:04:52.582 --> 00:04:55.348 different mentors involved in helping

NOTE Confidence: 0.898117222857143

00:04:55.348 --> 00:04:58.433 you develop a multidisciplinary team.

NOTE Confidence: 0.898117222857143

00:04:58.440 --> 00:05:00.960 The awards are for one year,

NOTE Confidence: 0.898117222857143

00:05:00.960 --> 00:05:03.080 but you can apply for a second year.

NOTE Confidence: 0.898117222857143

00:05:03.080 --> 00:05:06.398 It requires a a new application.

NOTE Confidence: 0.898117222857143

00:05:06.400 --> 00:05:08.512 We're in the process of discussing

NOTE Confidence: 0.898117222857143

00:05:08.512 --> 00:05:11.432 right now the potential for having a

NOTE Confidence: 0.898117222857143

00:05:11.432 --> 00:05:15.224 two year award for the postdoctoral

NOTE Confidence: 0.898117222857143
00:05:15.224 --> 00:05:18.118 slots rather than just a one year award.
NOTE Confidence: 0.898117222857143
00:05:18.120 --> 00:05:19.480 But as of this year,
NOTE Confidence: 0.898117222857143
00:05:19.480 --> 00:05:20.840 it's a one year award.
NOTE Confidence: 0.898117222857143
00:05:20.840 --> 00:05:23.353 You would say your science should be
NOTE Confidence: 0.898117222857143
00:05:23.353 --> 00:05:25.839 describing what you would do in one year.
NOTE Confidence: 0.898117222857143
00:05:25.840 --> 00:05:27.544 And then if you get the award and
NOTE Confidence: 0.898117222857143
00:05:27.544 --> 00:05:29.395 you want to apply for a second year,
NOTE Confidence: 0.898117222857143
00:05:29.400 --> 00:05:32.238 you would go through the application
NOTE Confidence: 0.898117222857143
00:05:32.240 --> 00:05:34.280 a year from now for that second year.
NOTE Confidence: 0.898117222857143
00:05:34.280 --> 00:05:36.278 But you would use most of the same materials.
NOTE Confidence: 0.898117222857143
00:05:36.280 --> 00:05:37.864 But you would have to update it with
NOTE Confidence: 0.898117222857143
00:05:37.864 --> 00:05:39.794 a few things that we'll talk about
NOTE Confidence: 0.898117222857143
00:05:39.794 --> 00:05:41.279 with the progress report basically
NOTE Confidence: 0.898117222857143
00:05:41.329 --> 00:05:42.899 and an updated mentor statement
NOTE Confidence: 0.898117222857143
00:05:42.899 --> 00:05:44.155 talking about your progress.
NOTE Confidence: 0.92469595

00:05:46.520 --> 00:05:50.975 So trainees who are from groups who
NOTE Confidence: 0.92469595
00:05:50.975 --> 00:05:52.160 are traditionally underrepresented
NOTE Confidence: 0.92469595
00:05:52.160 --> 00:05:54.240 in medical research careers are
NOTE Confidence: 0.92469595
00:05:54.240 --> 00:05:55.876 strongly encouraged to apply.
NOTE Confidence: 0.92469595
00:05:55.880 --> 00:05:58.598 We very much value those applications.
NOTE Confidence: 0.92469595
00:05:58.600 --> 00:06:01.240 We look at them very carefully,
NOTE Confidence: 0.92469595
00:06:01.240 --> 00:06:04.980 and so anyone who comes from
NOTE Confidence: 0.92469595
00:06:04.980 --> 00:06:06.800 one of those backgrounds,
NOTE Confidence: 0.92469595
00:06:06.800 --> 00:06:08.280 we strongly encourage you to
NOTE Confidence: 0.92469595
00:06:08.280 --> 00:06:09.760 contact us if you're questioning
NOTE Confidence: 0.92469595
00:06:09.816 --> 00:06:11.358 whether you should apply and if
NOTE Confidence: 0.92469595
00:06:11.358 --> 00:06:12.880 you are interested in applying,
NOTE Confidence: 0.92469595
00:06:12.880 --> 00:06:16.156 we strongly encourage you to apply.
NOTE Confidence: 0.92469595
00:06:16.160 --> 00:06:20.396 This provides salary support for you,
NOTE Confidence: 0.92469595
00:06:20.400 --> 00:06:23.808 and that salary support includes A
NOTE Confidence: 0.92469595
00:06:23.808 --> 00:06:26.080 stipend for healthcare coverage.

NOTE Confidence: 0.92469595
00:06:26.080 --> 00:06:28.186 If there is money leftover from
NOTE Confidence: 0.92469595
00:06:28.186 --> 00:06:29.239 that healthcare coverage,
NOTE Confidence: 0.92469595
00:06:29.240 --> 00:06:31.564 that typically is not very much because
NOTE Confidence: 0.92469595
00:06:31.564 --> 00:06:34.676 the base the way the NIH sets up the funding.
NOTE Confidence: 0.92469595
00:06:34.680 --> 00:06:36.680 This isn't controlled by us,
NOTE Confidence: 0.92469595
00:06:36.680 --> 00:06:37.828 but if there is a little bit
NOTE Confidence: 0.92469595
00:06:37.828 --> 00:06:38.320 of money leftover,
NOTE Confidence: 0.92469595
00:06:38.320 --> 00:06:40.773 sometimes there'll be 1000 or \$1500
NOTE Confidence: 0.92469595
00:06:40.773 --> 00:06:43.384 leftover that can then be used for
NOTE Confidence: 0.92469595
00:06:43.384 --> 00:06:45.375 research types of usage like software
NOTE Confidence: 0.92469595
00:06:45.375 --> 00:06:48.180 that you need for your computer or some
NOTE Confidence: 0.92469595
00:06:48.180 --> 00:06:50.798 reagents that you might need or something.
NOTE Confidence: 0.92469595
00:06:50.800 --> 00:06:53.200 But basically this is not providing
NOTE Confidence: 0.92469595
00:06:53.200 --> 00:06:55.826 you with the money to fund your
NOTE Confidence: 0.92469595
00:06:55.826 --> 00:06:58.879 mice or fund your assay development.
NOTE Confidence: 0.92469595

00:06:58.880 --> 00:07:01.118 It's really for salary and healthcare
NOTE Confidence: 0.92469595

00:07:01.118 --> 00:07:03.479 coverage of the predominant parts of this.
NOTE Confidence: 0.92469595

00:07:03.480 --> 00:07:04.284 As I mentioned,
NOTE Confidence: 0.92469595

00:07:04.284 --> 00:07:05.356 it's funded by Ncats,
NOTE Confidence: 0.92469595

00:07:05.360 --> 00:07:08.980 the National Center for Clinical and
NOTE Confidence: 0.92469595

00:07:08.980 --> 00:07:11.680 Translational Science and this these
NOTE Confidence: 0.92469595

00:07:11.680 --> 00:07:13.680 two programs are specifically funded
NOTE Confidence: 0.92469595

00:07:13.680 --> 00:07:17.760 by our TL1 component of our grant,
NOTE Confidence: 0.92469595

00:07:17.760 --> 00:07:20.380 which is very similar to AT32 actually.
NOTE Confidence: 0.92469595

00:07:20.380 --> 00:07:23.670 And if you are awarded one of
NOTE Confidence: 0.92469595

00:07:23.670 --> 00:07:26.680 these and you accept that award,
NOTE Confidence: 0.92469595

00:07:26.680 --> 00:07:29.720 you are then one of our YCCI scholars.
NOTE Confidence: 0.92469595

00:07:29.720 --> 00:07:33.484 And that comes with a lot of good things,
NOTE Confidence: 0.92469595

00:07:33.484 --> 00:07:35.878 but it also comes with some obligations.
NOTE Confidence: 0.92469595

00:07:35.880 --> 00:07:38.445 And so the obligations are that
NOTE Confidence: 0.92469595

00:07:38.445 --> 00:07:40.875 we have a research in progress

NOTE Confidence: 0.92469595

00:07:40.880 --> 00:07:43.036 meeting twice a month and you'll be

NOTE Confidence: 0.92469595

00:07:43.036 --> 00:07:44.439 expected to participate in that,

NOTE Confidence: 0.92469595

00:07:44.440 --> 00:07:46.156 both attending when you're not presenting,

NOTE Confidence: 0.92469595

00:07:46.160 --> 00:07:49.480 but also once a year presenting in that.

NOTE Confidence: 0.92469595

00:07:49.480 --> 00:07:51.356 Those are the research and progress seminars.

NOTE Confidence: 0.92469595

00:07:51.360 --> 00:07:53.316 There's a summer sessions of scholar

NOTE Confidence: 0.92469595

00:07:53.316 --> 00:07:55.284 orientation that we call rockets and

NOTE Confidence: 0.92469595

00:07:55.284 --> 00:07:56.804 you'll be expected to participate

NOTE Confidence: 0.92469595

00:07:56.804 --> 00:07:58.708 in that and that basically these

NOTE Confidence: 0.92469595

00:07:58.708 --> 00:08:00.568 are useful things to you because

NOTE Confidence: 0.92469595

00:08:00.568 --> 00:08:03.445 they help you improve your skills

NOTE Confidence: 0.92469595

00:08:03.445 --> 00:08:05.142 and your own presentation.

NOTE Confidence: 0.92469595

00:08:05.142 --> 00:08:07.112 The scholar orientation gives you

NOTE Confidence: 0.92469595

00:08:07.112 --> 00:08:09.596 a lot of information about what's

NOTE Confidence: 0.92469595

00:08:09.596 --> 00:08:12.038 available at Yale for your research.

NOTE Confidence: 0.92469595

00:08:12.040 --> 00:08:14.287 There's also the Robert Sherwin All Scholars

NOTE Confidence: 0.92469595

00:08:14.287 --> 00:08:16.520 Day that's going to be coming up in May.

NOTE Confidence: 0.92469595

00:08:16.520 --> 00:08:17.960 That happens once a year and

NOTE Confidence: 0.92469595

00:08:17.960 --> 00:08:18.920 you'll participate in that,

NOTE Confidence: 0.92469595

00:08:18.920 --> 00:08:21.468 present a poster and there are other

NOTE Confidence: 0.92469595

00:08:21.468 --> 00:08:23.544 things that that are described in

NOTE Confidence: 0.92469595

00:08:23.544 --> 00:08:25.656 this that that you'll be expected

NOTE Confidence: 0.92469595

00:08:25.656 --> 00:08:27.436 to participate in as part of being

NOTE Confidence: 0.92469595

00:08:27.436 --> 00:08:28.280 a YCCI scholar.

NOTE Confidence: 0.8519474

00:08:32.920 --> 00:08:35.398 So eligibility for the pre doc,

NOTE Confidence: 0.8519474

00:08:35.400 --> 00:08:38.640 you have to be at Yale as a student

NOTE Confidence: 0.8519474

00:08:38.640 --> 00:08:40.584 at Yale enrolled and in good

NOTE Confidence: 0.8519474

00:08:40.584 --> 00:08:42.240 standing in either the MD program.

NOTE Confidence: 0.8519474

00:08:42.240 --> 00:08:43.822 So this would typically be and we've

NOTE Confidence: 0.8519474

00:08:43.822 --> 00:08:45.839 had many of these, the 5th year.

NOTE Confidence: 0.8519474

00:08:45.839 --> 00:08:47.837 So if you're looking to do,

NOTE Confidence: 0.8519474

00:08:47.840 --> 00:08:49.800 if you're a medical student and you're

NOTE Confidence: 0.8519474

00:08:49.800 --> 00:08:52.384 thinking to do the fifth year of research,

NOTE Confidence: 0.8519474

00:08:52.384 --> 00:08:54.656 this would be a pathway

NOTE Confidence: 0.8519474

00:08:54.656 --> 00:08:56.796 to fund that fifth year.

NOTE Confidence: 0.8519474

00:08:56.800 --> 00:08:59.680 If you're in the MDPHD program

NOTE Confidence: 0.8519474

00:08:59.680 --> 00:09:01.960 and need funding for part of

NOTE Confidence: 0.8519474

00:09:01.960 --> 00:09:03.480 your PhD research training,

NOTE Confidence: 0.8519474

00:09:03.480 --> 00:09:05.152 this would be a way to obtain the

NOTE Confidence: 0.8519474

00:09:05.152 --> 00:09:06.899 year of funding for that and again

NOTE Confidence: 0.8519474

00:09:06.899 --> 00:09:08.839 with potential to get a second year.

NOTE Confidence: 0.8519474

00:09:08.840 --> 00:09:12.277 Or if you're in a PhD program,

NOTE Confidence: 0.8519474

00:09:12.280 --> 00:09:13.600 if you're in the PhD program,

NOTE Confidence: 0.8519474

00:09:13.600 --> 00:09:16.127 you have to have passed your qualifiers

NOTE Confidence: 0.8519474

00:09:16.127 --> 00:09:18.756 to be eligible to be in this program.

NOTE Confidence: 0.8519474

00:09:18.760 --> 00:09:20.200 Oh, sorry, that's in the second line there.

NOTE Confidence: 0.8519474

00:09:20.200 --> 00:09:24.490 Yes, so so you would if you're
NOTE Confidence: 0.8519474

00:09:24.490 --> 00:09:26.040 in one and and this PhD,
NOTE Confidence: 0.8519474

00:09:26.040 --> 00:09:27.804 you could be in the PhD program
NOTE Confidence: 0.8519474

00:09:27.804 --> 00:09:28.560 in biomedical engineering,
NOTE Confidence: 0.8519474

00:09:28.560 --> 00:09:31.108 in public health and it's across multiple
NOTE Confidence: 0.8519474

00:09:31.108 --> 00:09:33.439 schools in the School of Nursing,
NOTE Confidence: 0.8519474

00:09:33.440 --> 00:09:34.564 the School of Medicine.
NOTE Confidence: 0.8519474

00:09:34.564 --> 00:09:35.969 So it's not restricted to
NOTE Confidence: 0.8519474

00:09:35.969 --> 00:09:37.318 the School of Medicine.
NOTE Confidence: 0.8519474

00:09:37.320 --> 00:09:39.322 As long as your mentor and your
NOTE Confidence: 0.8519474

00:09:39.322 --> 00:09:41.044 research is focused on clinical
NOTE Confidence: 0.8519474

00:09:41.044 --> 00:09:42.640 or translational types of
NOTE Confidence: 0.8519474

00:09:42.640 --> 00:09:44.236 research affecting human disease,
NOTE Confidence: 0.8519474

00:09:44.240 --> 00:09:45.717 then you would be eligible to apply.
NOTE Confidence: 0.97057613

00:09:48.360 --> 00:09:51.620 So if you've been on the TL1 two
NOTE Confidence: 0.97057613

00:09:51.620 --> 00:09:54.320 years you are no longer eligible.

NOTE Confidence: 0.97057613

00:09:54.320 --> 00:09:55.888 So you can only get a maximum

NOTE Confidence: 0.97057613

00:09:55.888 --> 00:09:57.199 of two years of support.

NOTE Confidence: 0.97057613

00:09:57.200 --> 00:09:59.601 But as again as I mentioned you

NOTE Confidence: 0.97057613

00:09:59.601 --> 00:10:01.775 would apply for that first year

NOTE Confidence: 0.97057613

00:10:01.775 --> 00:10:04.274 and then apply for a second year.

NOTE Confidence: 0.97057613

00:10:04.280 --> 00:10:05.990 And we are thinking for the

NOTE Confidence: 0.97057613

00:10:05.990 --> 00:10:07.470 future of having potential for

NOTE Confidence: 0.97057613

00:10:07.470 --> 00:10:08.880 a two year application slot.

NOTE Confidence: 0.97057613

00:10:08.880 --> 00:10:09.960 But as of this year,

NOTE Confidence: 0.97057613

00:10:09.960 --> 00:10:13.345 it's a one year you need to be a

NOTE Confidence: 0.97057613

00:10:13.345 --> 00:10:15.085 citizen or a green card holder

NOTE Confidence: 0.97057613

00:10:15.085 --> 00:10:16.915 or non citizen national since

NOTE Confidence: 0.97057613

00:10:16.915 --> 00:10:19.424 these are funded by the the

NOTE Confidence: 0.97057613

00:10:19.424 --> 00:10:22.560 National Institutes of Health.

NOTE Confidence: 0.97057613

00:10:22.560 --> 00:10:26.364 And if you've already had four

NOTE Confidence: 0.97057613

00:10:26.364 --> 00:10:29.600 years of support on the NRSA
NOTE Confidence: 0.97057613

00:10:29.600 --> 00:10:31.680 or similar national funding,
NOTE Confidence: 0.97057613

00:10:31.680 --> 00:10:34.104 you would not be eligible for
NOTE Confidence: 0.97057613

00:10:34.104 --> 00:10:36.639 further funding on this using this.
NOTE Confidence: 0.895233788571429

00:10:38.920 --> 00:10:41.118 So those are some of the restrictions,
NOTE Confidence: 0.895233788571429

00:10:41.120 --> 00:10:42.992 and again, this should all be on the website
NOTE Confidence: 0.2233263

00:10:46.680 --> 00:10:50.760 postdocs. You must be at Yale.
NOTE Confidence: 0.2233263

00:10:50.760 --> 00:10:52.960 Doing a postdoctoral training again,
NOTE Confidence: 0.2233263

00:10:52.960 --> 00:10:55.032 in any one of the schools is eligible
NOTE Confidence: 0.2233263

00:10:55.032 --> 00:10:57.930 as long as your research is focused on
NOTE Confidence: 0.2233263

00:10:57.930 --> 00:10:59.474 clinical and translational research.
NOTE Confidence: 0.2233263

00:10:59.480 --> 00:11:00.885 Similarly, if you've already had
NOTE Confidence: 0.2233263

00:11:00.885 --> 00:11:03.039 two years on the TL1 as a postdoc,
NOTE Confidence: 0.2233263

00:11:03.040 --> 00:11:04.957 you would not be eligible for a third year.
NOTE Confidence: 0.2233263

00:11:04.960 --> 00:11:07.156 You have to be AUS citizen,
NOTE Confidence: 0.2233263

00:11:07.160 --> 00:11:10.460 and if you've already received more

NOTE Confidence: 0.2233263

00:11:10.460 --> 00:11:12.289 than two years of support through

NOTE Confidence: 0.2233263

00:11:12.289 --> 00:11:13.877 NIH Postdoctoral Training Grants,

NOTE Confidence: 0.2233263

00:11:13.880 --> 00:11:15.660 you wouldn't be eligible

NOTE Confidence: 0.2233263

00:11:15.660 --> 00:11:17.440 for applying through this

NOTE Confidence: 0.6353218

00:11:19.600 --> 00:11:20.560 so, very similar.

NOTE Confidence: 0.8745654875

00:11:22.240 --> 00:11:25.360 Lloyd, we have a question in the chat.

NOTE Confidence: 0.8745654875

00:11:25.360 --> 00:11:28.097 What if you expect to pass qualifying

NOTE Confidence: 0.8745654875

00:11:28.097 --> 00:11:30.479 exams prior to the start date,

NOTE Confidence: 0.8745654875

00:11:30.480 --> 00:11:33.000 but have not yet passed the qualifying exams?

NOTE Confidence: 0.7636918733333333

00:11:33.000 --> 00:11:34.518 But then you would be eligible.

NOTE Confidence: 0.7636918733333333

00:11:34.520 --> 00:11:37.427 You have to, you have to have passed your

NOTE Confidence: 0.7636918733333333

00:11:37.427 --> 00:11:39.558 qualifiers at the time you would start.

NOTE Confidence: 0.7636918733333333

00:11:39.560 --> 00:11:42.818 So assuming that your qualifiers are

NOTE Confidence: 0.7636918733333333

00:11:42.818 --> 00:11:46.399 scheduled to occur before the start date,

NOTE Confidence: 0.7636918733333333

00:11:46.400 --> 00:11:47.340 then you should be eligible

NOTE Confidence: 0.7636918733333333

00:11:47.340 --> 00:11:48.520 as long as you pass them.
NOTE Confidence: 0.8726486

00:11:50.640 --> 00:11:51.360 Great, thanks.
NOTE Confidence: 0.953221332222222

00:11:56.680 --> 00:12:00.544 So these are areas of special
NOTE Confidence: 0.953221332222222

00:12:00.544 --> 00:12:03.840 emphasis that we're this is
NOTE Confidence: 0.953221332222222

00:12:03.840 --> 00:12:06.982 based on the thematic components
NOTE Confidence: 0.953221332222222

00:12:06.982 --> 00:12:09.514 of the overall CTSA for Yale,
NOTE Confidence: 0.953221332222222

00:12:09.520 --> 00:12:12.194 of which this TL1 is one piece.
NOTE Confidence: 0.953221332222222

00:12:12.200 --> 00:12:14.156 There's multiple pieces to the CTSA.
NOTE Confidence: 0.953221332222222

00:12:14.160 --> 00:12:19.172 It's a much larger grant and so these areas,
NOTE Confidence: 0.953221332222222

00:12:19.172 --> 00:12:21.587 if your research for example
NOTE Confidence: 0.953221332222222

00:12:21.587 --> 00:12:23.679 is in HealthEquity,
NOTE Confidence: 0.953221332222222

00:12:23.680 --> 00:12:26.080 if that's your focus of interest,
NOTE Confidence: 0.953221332222222

00:12:26.080 --> 00:12:28.720 then those applications will be
NOTE Confidence: 0.929578524

00:12:31.320 --> 00:12:33.760 preferred for topic of interest.
NOTE Confidence: 0.929578524

00:12:33.760 --> 00:12:35.935 We don't actually have a
NOTE Confidence: 0.929578524

00:12:35.935 --> 00:12:37.240 specific scoring mechanism.

NOTE Confidence: 0.929578524

00:12:37.240 --> 00:12:38.128 In other words,

NOTE Confidence: 0.929578524

00:12:38.128 --> 00:12:40.104 we don't change your score on.

NOTE Confidence: 0.929578524

00:12:40.104 --> 00:12:42.180 These are evaluated in a study

NOTE Confidence: 0.929578524

00:12:42.253 --> 00:12:44.402 section approach where they're given

NOTE Confidence: 0.929578524

00:12:44.402 --> 00:12:46.448 to three reviewers to review and

NOTE Confidence: 0.929578524

00:12:46.448 --> 00:12:48.230 those reviewers review them in a

NOTE Confidence: 0.929578524

00:12:48.230 --> 00:12:50.131 very much a study section like very

NOTE Confidence: 0.929578524

00:12:50.131 --> 00:12:51.877 similar to an NIH study section,

NOTE Confidence: 0.929578524

00:12:51.880 --> 00:12:52.532 basically identical.

NOTE Confidence: 0.929578524

00:12:52.532 --> 00:12:54.814 And then based on the scores and

NOTE Confidence: 0.929578524

00:12:54.814 --> 00:12:56.866 the voting of the whole study

NOTE Confidence: 0.929578524

00:12:56.866 --> 00:12:58.194 section each each application

NOTE Confidence: 0.929578524

00:12:58.194 --> 00:13:00.077 is assigned A composite score

NOTE Confidence: 0.929578524

00:13:00.080 --> 00:13:02.492 and they're funded based in on

NOTE Confidence: 0.929578524

00:13:02.492 --> 00:13:04.720 the priority of those scores.

NOTE Confidence: 0.929578524

00:13:04.720 --> 00:13:06.676 But if we have two applications
NOTE Confidence: 0.929578524

00:13:06.676 --> 00:13:08.872 that are close to fundable level
NOTE Confidence: 0.929578524

00:13:08.872 --> 00:13:10.932 and one's on HealthEquity research
NOTE Confidence: 0.929578524

00:13:10.932 --> 00:13:13.240 and one's on something else,
NOTE Confidence: 0.929578524

00:13:13.240 --> 00:13:15.012 that HealthEquity research application
NOTE Confidence: 0.929578524

00:13:15.012 --> 00:13:17.670 is going to get preferred status
NOTE Confidence: 0.929578524

00:13:17.741 --> 00:13:19.706 because that's within the special
NOTE Confidence: 0.929578524

00:13:19.706 --> 00:13:21.671 emphasis of our overall CTSA.
NOTE Confidence: 0.929578524

00:13:21.680 --> 00:13:25.839 SO3 areas that are that are definitely
NOTE Confidence: 0.838831394545455

00:13:27.920 --> 00:13:30.636 of interest to the CTSA are the
NOTE Confidence: 0.838831394545455

00:13:30.636 --> 00:13:32.400 promotion of implementation science,
NOTE Confidence: 0.838831394545455

00:13:32.400 --> 00:13:34.584 community engaged research,
NOTE Confidence: 0.838831394545455

00:13:34.584 --> 00:13:36.040 HealthEquity research.
NOTE Confidence: 0.838831394545455

00:13:36.040 --> 00:13:40.764 And we at Yale are very highly
NOTE Confidence: 0.838831394545455

00:13:40.764 --> 00:13:42.660 interested in increasing our
NOTE Confidence: 0.838831394545455

00:13:42.754 --> 00:13:45.466 diversity in the the applicant pool

NOTE Confidence: 0.838831394545455

00:13:45.466 --> 00:13:47.438 of doing translational research.

NOTE Confidence: 0.838831394545455

00:13:47.440 --> 00:13:50.815 And so these are all areas that we are

NOTE Confidence: 0.838831394545455

00:13:50.815 --> 00:13:53.029 encouraging strongly people who are

NOTE Confidence: 0.838831394545455

00:13:53.029 --> 00:13:56.360 doing these types of research to apply.

NOTE Confidence: 0.895522699

00:14:00.960 --> 00:14:02.048 OK, I think, Christine,

NOTE Confidence: 0.895522699

00:14:02.048 --> 00:14:03.680 are you taking this from here?

NOTE Confidence: 0.843778333333333

00:14:03.680 --> 00:14:07.040 Yes, I'll take this from here.

NOTE Confidence: 0.843778333333333

00:14:07.040 --> 00:14:10.916 All right. So the application process,

NOTE Confidence: 0.843778333333333

00:14:10.920 --> 00:14:13.510 as you all know we've released the

NOTE Confidence: 0.843778333333333

00:14:13.510 --> 00:14:15.520 RFA and application in November.

NOTE Confidence: 0.843778333333333

00:14:15.520 --> 00:14:17.600 This month we're doing the

NOTE Confidence: 0.843778333333333

00:14:17.600 --> 00:14:20.200 webinar as you all are here.

NOTE Confidence: 0.843778333333333

00:14:20.200 --> 00:14:21.836 All of the applications,

NOTE Confidence: 0.843778333333333

00:14:21.836 --> 00:14:24.290 so pre doc applications and postdoc

NOTE Confidence: 0.843778333333333

00:14:24.364 --> 00:14:26.479 applications are due on Friday,

NOTE Confidence: 0.843778333333333

00:14:26.480 --> 00:14:30.640 March 8th, 5:00 PM.
NOTE Confidence: 0.8437783333333333

00:14:30.640 --> 00:14:33.692 From there, I will do the internal
NOTE Confidence: 0.8437783333333333

00:14:33.692 --> 00:14:36.890 review making sure everything is in order
NOTE Confidence: 0.8437783333333333

00:14:36.890 --> 00:14:40.264 before passing them along to our expert
NOTE Confidence: 0.8437783333333333

00:14:40.264 --> 00:14:42.972 faculty to review the applications.
NOTE Confidence: 0.8437783333333333

00:14:42.972 --> 00:14:47.120 And that will happen between March and April.
NOTE Confidence: 0.8437783333333333

00:14:47.120 --> 00:14:51.826 Then we'll have our review meeting in
NOTE Confidence: 0.8437783333333333

00:14:51.826 --> 00:14:54.914 the end of around the end of April.
NOTE Confidence: 0.8437783333333333

00:14:54.920 --> 00:14:58.280 And then in May I'll do just
NOTE Confidence: 0.8437783333333333

00:14:58.280 --> 00:14:59.720 in time requests.
NOTE Confidence: 0.8437783333333333

00:14:59.720 --> 00:15:00.746 Basically,
NOTE Confidence: 0.8437783333333333

00:15:00.746 --> 00:15:05.904 that means we'll make we'll ask
NOTE Confidence: 0.8437783333333333

00:15:05.904 --> 00:15:10.679 for other support information
NOTE Confidence: 0.8437783333333333

00:15:10.680 --> 00:15:14.075 in the case that you have any
NOTE Confidence: 0.8437783333333333

00:15:14.075 --> 00:15:18.040 other grants NIH grants pending
NOTE Confidence: 0.970295978

00:15:20.080 --> 00:15:22.240 because as you may know,

NOTE Confidence: 0.970295978

00:15:22.240 --> 00:15:23.960 you cannot accept more than

NOTE Confidence: 0.970295978

00:15:23.960 --> 00:15:26.120 one NIH grant at the time,

NOTE Confidence: 0.970295978

00:15:26.120 --> 00:15:29.036 but you can have them pending

NOTE Confidence: 0.970295978

00:15:29.040 --> 00:15:31.760 and then we'll do notifications.

NOTE Confidence: 0.970295978

00:15:31.760 --> 00:15:34.556 The early start date for these

NOTE Confidence: 0.970295978

00:15:34.560 --> 00:15:38.340 is June 1st, which is based on

NOTE Confidence: 0.970295978

00:15:38.340 --> 00:15:41.840 our TL1 grant year start date

NOTE Confidence: 0.943400664444444

00:15:44.160 --> 00:15:46.635 and I'll talk about that in a little bit.

NOTE Confidence: 0.943400664444444

00:15:46.640 --> 00:15:48.782 And then July is when programming

NOTE Confidence: 0.943400664444444

00:15:48.782 --> 00:15:51.200 begins for all of our scholars.

NOTE Confidence: 0.943400664444444

00:15:51.200 --> 00:15:54.750 As Lloyd mentioned, we have our

NOTE Confidence: 0.943400664444444

00:15:54.750 --> 00:15:56.630 orientation and summer programming

NOTE Confidence: 0.943400664444444

00:15:56.630 --> 00:15:59.078 and that's when July it'll begin.

NOTE Confidence: 0.96293411

00:16:04.570 --> 00:16:06.730 So as I mentioned, Friday,

NOTE Confidence: 0.96293411

00:16:06.730 --> 00:16:11.560 March 8th is the application due date.

NOTE Confidence: 0.96293411

00:16:11.560 --> 00:16:13.632 The Word document applications
NOTE Confidence: 0.96293411

00:16:13.632 --> 00:16:16.740 for both the pre doctoral and
NOTE Confidence: 0.96293411

00:16:16.834 --> 00:16:19.599 postdoctoral programs are on the
NOTE Confidence: 0.96293411

00:16:19.600 --> 00:16:21.440 respective web pages already.
NOTE Confidence: 0.914804682142857

00:16:23.720 --> 00:16:25.460 So please be sure to follow
NOTE Confidence: 0.914804682142857

00:16:25.460 --> 00:16:26.620 the instructions that are
NOTE Confidence: 0.914804682142857

00:16:26.680 --> 00:16:28.160 listed in the applications.
NOTE Confidence: 0.914804682142857

00:16:28.160 --> 00:16:29.570 And I just wanted to point
NOTE Confidence: 0.914804682142857

00:16:29.570 --> 00:16:31.240 out a couple of things here.
NOTE Confidence: 0.963628496153846

00:16:33.680 --> 00:16:37.068 Those of you who will be reapplying
NOTE Confidence: 0.963628496153846

00:16:37.068 --> 00:16:40.239 for a second year of support,
NOTE Confidence: 0.963628496153846

00:16:40.240 --> 00:16:43.090 make sure you include A1 page
NOTE Confidence: 0.963628496153846

00:16:43.090 --> 00:16:46.120 pre application summary with your
NOTE Confidence: 0.963628496153846

00:16:46.120 --> 00:16:47.880 describing your previous aims,
NOTE Confidence: 0.963628496153846

00:16:47.880 --> 00:16:51.680 what has changed, your progress.
NOTE Confidence: 0.963628496153846

00:16:51.680 --> 00:16:54.046 Your other support document needs to be

NOTE Confidence: 0.963628496153846
00:16:54.046 --> 00:16:56.040 completed with your business office,
NOTE Confidence: 0.963628496153846
00:16:56.040 --> 00:16:58.722 so this includes your current grant
NOTE Confidence: 0.963628496153846
00:16:58.722 --> 00:17:01.080 information and any pending grants.
NOTE Confidence: 0.963628496153846
00:17:01.080 --> 00:17:04.210 So if you're also applying
NOTE Confidence: 0.963628496153846
00:17:04.210 --> 00:17:07.338 for an F30F31 AK 99,
NOTE Confidence: 0.963628496153846
00:17:07.338 --> 00:17:10.000 what have you that needs to be included?
NOTE Confidence: 0.922727567058823
00:17:13.120 --> 00:17:15.100 Also be sure to read through
NOTE Confidence: 0.922727567058823
00:17:15.100 --> 00:17:17.439 what needs to be included in
NOTE Confidence: 0.922727567058823
00:17:17.439 --> 00:17:19.794 your mentor's letters of support,
NOTE Confidence: 0.922727567058823
00:17:19.800 --> 00:17:22.485 your commitment that they will
NOTE Confidence: 0.922727567058823
00:17:22.485 --> 00:17:24.633 cover any additional costs.
NOTE Confidence: 0.922727567058823
00:17:24.640 --> 00:17:27.238 As Lloyd mentioned,
NOTE Confidence: 0.922727567058823
00:17:27.240 --> 00:17:30.400 the training related expenses is
NOTE Confidence: 0.922727567058823
00:17:30.400 --> 00:17:33.560 primarily for your healthcare costs.
NOTE Confidence: 0.922727567058823
00:17:33.560 --> 00:17:36.896 So if you're going to need any additional
NOTE Confidence: 0.922727567058823

00:17:36.896 --> 00:17:39.320 money to cover research costs,
NOTE Confidence: 0.905540325

00:17:41.680 --> 00:17:43.465 your mentors are likely going
NOTE Confidence: 0.905540325

00:17:43.465 --> 00:17:45.880 to have to cover that for you.
NOTE Confidence: 0.905540325

00:17:45.880 --> 00:17:48.288 And then for those again who are
NOTE Confidence: 0.905540325

00:17:48.288 --> 00:17:50.240 reapplying for a second year,
NOTE Confidence: 0.905540325

00:17:50.240 --> 00:17:52.628 make sure your mentors comment on
NOTE Confidence: 0.905540325

00:17:52.628 --> 00:17:54.924 your progress made during the first
NOTE Confidence: 0.905540325

00:17:54.924 --> 00:17:57.160 year and then finally make sure you
NOTE Confidence: 0.905540325

00:17:57.160 --> 00:17:59.832 use the correct version of the forms.
NOTE Confidence: 0.905540325

00:17:59.832 --> 00:18:02.648 So for the bio sketch that it's
NOTE Confidence: 0.905540325

00:18:02.648 --> 00:18:04.940 the fellowship Bio sketch and the
NOTE Confidence: 0.905540325

00:18:05.017 --> 00:18:07.595 correct version and the correct
NOTE Confidence: 0.905540325

00:18:07.595 --> 00:18:10.120 version of the other support.
NOTE Confidence: 0.905540325

00:18:10.120 --> 00:18:11.440 Christine, there's a question.
NOTE Confidence: 0.905540325

00:18:11.440 --> 00:18:14.096 Yes, I see that.
NOTE Confidence: 0.905540325

00:18:14.096 --> 00:18:17.375 OK Are recipients of these grants

NOTE Confidence: 0.905540325
00:18:17.375 --> 00:18:18.944 considered postdoctoral fellows
NOTE Confidence: 0.905540325
00:18:18.944 --> 00:18:20.800 or postdoctoral associates?
NOTE Confidence: 0.905540325
00:18:20.800 --> 00:18:22.593 Oh, that's a great question, Ruth.
NOTE Confidence: 0.905540325
00:18:22.593 --> 00:18:24.558 First, so your your appointment
NOTE Confidence: 0.94984398
00:18:24.560 --> 00:18:26.600 is determined by your department,
NOTE Confidence: 0.94984398
00:18:26.600 --> 00:18:28.598 whoever hired you, not by us.
NOTE Confidence: 0.94984398
00:18:28.600 --> 00:18:30.968 We fund your salary.
NOTE Confidence: 0.94984398
00:18:30.968 --> 00:18:33.435 But what your appointment title is
NOTE Confidence: 0.94984398
00:18:33.435 --> 00:18:35.999 really comes from whoever has hired you.
NOTE Confidence: 0.9752505
00:18:38.320 --> 00:18:43.240 Yeah, there is.
NOTE Confidence: 0.9752505
00:18:43.240 --> 00:18:45.440 I'm trying to remember which one it is.
NOTE Confidence: 0.9752505
00:18:45.440 --> 00:18:47.924 It there is a requirement that it has to
NOTE Confidence: 0.9752505
00:18:47.924 --> 00:18:50.519 be either the fellow or the associate,
NOTE Confidence: 0.9752505
00:18:50.520 --> 00:18:53.320 and I forget which one it is.
NOTE Confidence: 0.9752505
00:18:53.320 --> 00:18:55.560 Your business office will know the answer.
NOTE Confidence: 0.96160608

00:18:58.920 --> 00:19:02.160 OK, let's see. Next question.
NOTE Confidence: 0.96160608

00:19:02.160 --> 00:19:04.332 What's the difference between the personal
NOTE Confidence: 0.96160608

00:19:04.332 --> 00:19:06.790 statement and the bio sketch and the
NOTE Confidence: 0.96160608

00:19:06.790 --> 00:19:08.680 statement of purpose for the grant?
NOTE Confidence: 0.897183105384616

00:19:10.760 --> 00:19:13.696 A personal statement in a bio sketch is
NOTE Confidence: 0.897183105384616

00:19:13.696 --> 00:19:15.713 typically like something about generally
NOTE Confidence: 0.897183105384616

00:19:15.713 --> 00:19:19.049 about you as a researcher that is not
NOTE Confidence: 0.897183105384616

00:19:19.049 --> 00:19:21.319 specific to anyone particular grant.
NOTE Confidence: 0.897183105384616

00:19:21.320 --> 00:19:22.605 The statement of purpose for
NOTE Confidence: 0.897183105384616

00:19:22.605 --> 00:19:24.310 the grant is what what you're
NOTE Confidence: 0.897183105384616

00:19:24.310 --> 00:19:26.320 planning to do for that grant,
NOTE Confidence: 0.897183105384616

00:19:26.320 --> 00:19:28.445 specifically the their The personal
NOTE Confidence: 0.897183105384616

00:19:28.445 --> 00:19:31.010 statement in your bio sketch is
NOTE Confidence: 0.897183105384616

00:19:31.010 --> 00:19:32.840 a much more general statement.
NOTE Confidence: 0.897183105384616

00:19:32.840 --> 00:19:35.558 Typically some people can align them,
NOTE Confidence: 0.897183105384616

00:19:35.560 --> 00:19:37.756 but that's not always the case.

NOTE Confidence: 0.73570186
00:19:42.600 --> 00:19:42.920 OK,
NOTE Confidence: 0.56038045
00:19:44.960 --> 00:19:46.115 all right, I'm going to move on.
NOTE Confidence: 0.823091723333333
00:19:48.840 --> 00:19:51.960 OK, so for the Pre Doctoral
NOTE Confidence: 0.823091723333333
00:19:51.960 --> 00:19:53.685 online submission form,
NOTE Confidence: 0.823091723333333
00:19:53.685 --> 00:19:56.560 this is a Qualtrics form.
NOTE Confidence: 0.823091723333333
00:19:56.560 --> 00:19:58.500 You'll complete some basic
NOTE Confidence: 0.823091723333333
00:19:58.500 --> 00:20:00.440 questions in the beginning.
NOTE Confidence: 0.823091723333333
00:20:00.440 --> 00:20:02.360 And then you'll upload
NOTE Confidence: 0.823091723333333
00:20:02.360 --> 00:20:03.800 your application package.
NOTE Confidence: 0.823091723333333
00:20:03.800 --> 00:20:06.866 Again, everything's included in the Word
NOTE Confidence: 0.823091723333333
00:20:06.866 --> 00:20:09.998 document that's listed on the web page,
NOTE Confidence: 0.823091723333333
00:20:10.000 --> 00:20:12.058 but I've outlined it here to
NOTE Confidence: 0.823091723333333
00:20:12.058 --> 00:20:14.200 give you just an overview,
NOTE Confidence: 0.823091723333333
00:20:14.200 --> 00:20:17.560 so the abstract half a page,
NOTE Confidence: 0.823091723333333
00:20:17.560 --> 00:20:18.940 the reapplication summary,
NOTE Confidence: 0.823091723333333

00:20:18.940 --> 00:20:21.240 if that's applicable to you.
NOTE Confidence: 0.8230917233333333

00:20:21.240 --> 00:20:22.540 Again, this is only for
NOTE Confidence: 0.8230917233333333

00:20:22.540 --> 00:20:23.840 those applying for a second.
NOTE Confidence: 0.8230917233333333

00:20:23.840 --> 00:20:27.080 Here of support is one page,
NOTE Confidence: 0.8230917233333333

00:20:27.080 --> 00:20:31.118 the research plan narrative, 3 pages,
NOTE Confidence: 0.8230917233333333

00:20:31.120 --> 00:20:36.910 references as needed and that's citation
NOTE Confidence: 0.8230917233333333

00:20:36.910 --> 00:20:39.480 references and then statement of purpose,
NOTE Confidence: 0.8230917233333333

00:20:39.480 --> 00:20:43.240 2 pages, your bio sketch.
NOTE Confidence: 0.8230917233333333

00:20:43.240 --> 00:20:46.584 And here I put in it's the fellowship
NOTE Confidence: 0.8230917233333333

00:20:46.584 --> 00:20:49.760 version revision October of 2021.
NOTE Confidence: 0.8230917233333333

00:20:49.760 --> 00:20:53.720 Your other support as many pages as needed.
NOTE Confidence: 0.8230917233333333

00:20:53.720 --> 00:20:54.071 Again,
NOTE Confidence: 0.8230917233333333

00:20:54.071 --> 00:20:55.826 it's revision 10/21 and you're
NOTE Confidence: 0.8230917233333333

00:20:55.826 --> 00:20:58.090 going to work with your business
NOTE Confidence: 0.8230917233333333

00:20:58.090 --> 00:20:59.678 office on creating that.
NOTE Confidence: 0.8230917233333333

00:20:59.680 --> 00:21:02.739 And then your letters of support from

NOTE Confidence: 0.8230917233333333

00:21:02.739 --> 00:21:05.759 primary and secondary mentors up to 2 pages.

NOTE Confidence: 0.8230917233333333

00:21:05.760 --> 00:21:09.421 And then at the end there are

NOTE Confidence: 0.8230917233333333

00:21:09.421 --> 00:21:12.040 some basic reporting questions

NOTE Confidence: 0.8230917233333333

00:21:12.040 --> 00:21:13.520 related to the CTSA.

NOTE Confidence: 0.83974927375

00:21:17.840 --> 00:21:19.615 So for the post doctoral

NOTE Confidence: 0.83974927375

00:21:19.615 --> 00:21:20.680 online submission form,

NOTE Confidence: 0.83974927375

00:21:20.680 --> 00:21:23.606 it's basically the same as the pre

NOTE Confidence: 0.83974927375

00:21:23.606 --> 00:21:26.737 doctoral with a few additional pieces

NOTE Confidence: 0.83974927375

00:21:26.737 --> 00:21:30.439 as part of the application package.

NOTE Confidence: 0.83974927375

00:21:30.440 --> 00:21:34.080 So the first eight pieces are the same,

NOTE Confidence: 0.83974927375

00:21:34.080 --> 00:21:37.167 and then at the end you have 3 letters

NOTE Confidence: 0.83974927375

00:21:37.167 --> 00:21:40.439 of reference to include one page each

NOTE Confidence: 0.83974927375

00:21:40.440 --> 00:21:43.878 and a department letter of commitment.

NOTE Confidence: 0.83974927375

00:21:43.880 --> 00:21:45.119 That's one page.

NOTE Confidence: 0.86612767

00:21:47.560 --> 00:21:50.038 There's These page limits are the maximum,

NOTE Confidence: 0.86612767

00:21:50.040 --> 00:21:52.200 so it's not that they have to be one page,

NOTE Confidence: 0.86612767

00:21:52.200 --> 00:21:54.280 it's just the longest.

NOTE Confidence: 0.86612767

00:21:54.280 --> 00:21:55.440 And your letters of reference,

NOTE Confidence: 0.86612767

00:21:55.440 --> 00:21:57.244 ideally here, should be.

NOTE Confidence: 0.86612767

00:21:57.244 --> 00:21:59.499 Often people will use whoever

NOTE Confidence: 0.86612767

00:21:59.499 --> 00:22:02.080 their PhD mentor was, for example,

NOTE Confidence: 0.86612767

00:22:02.080 --> 00:22:04.840 or someone who has had familiarity

NOTE Confidence: 0.86612767

00:22:04.840 --> 00:22:08.482 with their research that they've done

NOTE Confidence: 0.86612767

00:22:08.482 --> 00:22:11.800 prior to this particular postdoc,

NOTE Confidence: 0.86612767

00:22:11.800 --> 00:22:14.265 or a collaborator who's had

NOTE Confidence: 0.86612767

00:22:14.265 --> 00:22:16.237 familiarity with their research.

NOTE Confidence: 0.86612767

00:22:16.240 --> 00:22:17.560 This. Typically those are the types

NOTE Confidence: 0.86612767

00:22:17.560 --> 00:22:19.240 of people you use for these letters.

NOTE Confidence: 0.578094

00:22:23.640 --> 00:22:23.920 OK,

NOTE Confidence: 0.86002817

00:22:28.000 --> 00:22:29.488 OK, now I just put together

NOTE Confidence: 0.86002817

00:22:29.488 --> 00:22:31.551 a couple of do's and don'ts.

NOTE Confidence: 0.86002817
00:22:31.551 --> 00:22:34.173 Do make sure that your mentor
NOTE Confidence: 0.86002817
00:22:34.173 --> 00:22:36.640 mentors review your application.
NOTE Confidence: 0.86002817
00:22:36.640 --> 00:22:39.488 You want to make sure that your application
NOTE Confidence: 0.86002817
00:22:39.488 --> 00:22:42.439 is free of spelling and grammar errors.
NOTE Confidence: 0.86002817
00:22:42.440 --> 00:22:47.760 That's true of your bio sketches as well.
NOTE Confidence: 0.86002817
00:22:47.760 --> 00:22:49.836 If you're going to use acronyms,
NOTE Confidence: 0.86002817
00:22:49.840 --> 00:22:52.558 make sure you write them out the first time.
NOTE Confidence: 0.86002817
00:22:52.560 --> 00:22:55.560 Or better yet, don't use them at all.
NOTE Confidence: 0.86002817
00:22:55.560 --> 00:22:58.836 And be sure to review the RFA
NOTE Confidence: 0.86002817
00:22:58.836 --> 00:23:00.808 and the instructions before
NOTE Confidence: 0.86002817
00:23:00.808 --> 00:23:03.080 you submit your application.
NOTE Confidence: 0.86002817
00:23:03.080 --> 00:23:05.796 And don't forget to include a letter
NOTE Confidence: 0.86002817
00:23:05.796 --> 00:23:08.637 of support for each of your mentors.
NOTE Confidence: 0.86002817
00:23:08.640 --> 00:23:11.076 I will be doing, as I mentioned,
NOTE Confidence: 0.86002817
00:23:11.080 --> 00:23:13.540 the internal review once all
NOTE Confidence: 0.86002817

00:23:13.540 --> 00:23:16.000 of the applications come in,
NOTE Confidence: 0.86002817

00:23:16.000 --> 00:23:18.639 but it it really helps if you
NOTE Confidence: 0.86002817

00:23:18.640 --> 00:23:21.160 make sure that all of these things
NOTE Confidence: 0.86002817

00:23:21.160 --> 00:23:23.080 are in place ahead of time.
NOTE Confidence: 0.951700295

00:23:27.920 --> 00:23:31.460 OK. In terms of the application
NOTE Confidence: 0.951700295

00:23:31.460 --> 00:23:34.800 review process, as Lloyd mentioned,
NOTE Confidence: 0.951700295

00:23:34.800 --> 00:23:39.080 the reviewers will be evaluating
NOTE Confidence: 0.951700295

00:23:39.080 --> 00:23:43.200 your applications on the applicant.
NOTE Confidence: 0.951700295

00:23:43.200 --> 00:23:44.960 You, the applicant yourself,
NOTE Confidence: 0.951700295

00:23:44.960 --> 00:23:47.440 the mentoring plan, innovation,
NOTE Confidence: 0.951700295

00:23:47.440 --> 00:23:51.160 significance and approach of your research,
NOTE Confidence: 0.951700295

00:23:51.160 --> 00:23:55.160 commitment to multidisciplinary science.
NOTE Confidence: 0.951700295

00:23:55.160 --> 00:24:00.144 And then if you are applying related to
NOTE Confidence: 0.951700295

00:24:00.144 --> 00:24:02.720 one of the areas of special emphasis,
NOTE Confidence: 0.951700295

00:24:02.720 --> 00:24:04.176 diversity, HealthEquity,
NOTE Confidence: 0.951700295

00:24:04.176 --> 00:24:06.360 research, Community, Engage,

NOTE Confidence: 0.951700295

00:24:06.360 --> 00:24:09.368 research or implementation science.

NOTE Confidence: 0.951700295

00:24:09.368 --> 00:24:12.720 OK, I see we have a couple of questions.

NOTE Confidence: 0.952083064210526

00:24:15.680 --> 00:24:18.872 What is the best way to include our

NOTE Confidence: 0.952083064210526

00:24:18.872 --> 00:24:21.036 unpublished data within the three

NOTE Confidence: 0.952083064210526

00:24:21.036 --> 00:24:23.598 page limit for the research plan?

NOTE Confidence: 0.952083064210526

00:24:23.600 --> 00:24:25.080 Do figures count towards

NOTE Confidence: 0.952083064210526

00:24:25.080 --> 00:24:26.560 the three page limit?

NOTE Confidence: 0.86194808

00:24:29.720 --> 00:24:30.719 Lloyd, you're muted.

NOTE Confidence: 0.942177796

00:24:33.080 --> 00:24:35.960 Thank you. This is typically

NOTE Confidence: 0.942177796

00:24:35.960 --> 00:24:37.580 your preliminary results.

NOTE Confidence: 0.942177796

00:24:37.580 --> 00:24:41.360 So basically you start out with your,

NOTE Confidence: 0.942177796

00:24:41.360 --> 00:24:43.705 what your specific aims are going to

NOTE Confidence: 0.942177796

00:24:43.705 --> 00:24:46.518 be some background and then you provide

NOTE Confidence: 0.942177796

00:24:46.518 --> 00:24:49.667 if you have at the preliminary data

NOTE Confidence: 0.942177796

00:24:49.667 --> 00:24:52.957 that you have that's going to support

NOTE Confidence: 0.942177796

00:24:52.960 --> 00:24:54.720 how you're developing your aims.

NOTE Confidence: 0.942177796

00:24:54.720 --> 00:24:56.540 And so that's where you show your

NOTE Confidence: 0.942177796

00:24:56.540 --> 00:24:57.760 preliminary data and figures.

NOTE Confidence: 0.942177796

00:24:57.760 --> 00:25:00.896 And yes, they count.

NOTE Confidence: 0.942177796

00:25:00.896 --> 00:25:03.048 So if you've published something,

NOTE Confidence: 0.942177796

00:25:03.048 --> 00:25:04.758 you can reference that publication.

NOTE Confidence: 0.942177796

00:25:04.760 --> 00:25:06.628 And but even there,

NOTE Confidence: 0.942177796

00:25:06.628 --> 00:25:10.110 if there's a critical figure in that

NOTE Confidence: 0.942177796

00:25:10.110 --> 00:25:13.030 publication that really cements for

NOTE Confidence: 0.942177796

00:25:13.030 --> 00:25:16.760 a reviewer that you have valid data,

NOTE Confidence: 0.942177796

00:25:16.760 --> 00:25:18.480 that supports why you've chosen

NOTE Confidence: 0.942177796

00:25:18.480 --> 00:25:20.200 to go a certain direction.

NOTE Confidence: 0.942177796

00:25:20.200 --> 00:25:21.400 And with your specific aims,

NOTE Confidence: 0.942177796

00:25:21.400 --> 00:25:22.835 you should show it in the grant,

NOTE Confidence: 0.942177796

00:25:22.840 --> 00:25:25.920 because reviewers are not required

NOTE Confidence: 0.942177796

00:25:25.920 --> 00:25:28.894 to read all of your citations,

NOTE Confidence: 0.942177796

00:25:28.894 --> 00:25:31.792 so they don't have to go pull

NOTE Confidence: 0.942177796

00:25:31.792 --> 00:25:33.680 that paper and read it.

NOTE Confidence: 0.942177796

00:25:33.680 --> 00:25:34.226 So you would.

NOTE Confidence: 0.942177796

00:25:34.226 --> 00:25:36.120 And this is all, all this is standard NIH,

NOTE Confidence: 0.942177796

00:25:36.120 --> 00:25:38.000 it's exactly the way the NIH does it.

NOTE Confidence: 0.942177796

00:25:38.000 --> 00:25:40.256 So if you have some key

NOTE Confidence: 0.942177796

00:25:40.256 --> 00:25:42.280 data that's going to that,

NOTE Confidence: 0.942177796

00:25:42.280 --> 00:25:43.966 you're that's the foundation of why

NOTE Confidence: 0.942177796

00:25:43.966 --> 00:25:45.759 you're taking the direction you're taking.

NOTE Confidence: 0.942177796

00:25:45.760 --> 00:25:47.594 That should be in your preliminary results.

NOTE Confidence: 0.942177796

00:25:47.600 --> 00:25:49.155 And if there are figures

NOTE Confidence: 0.942177796

00:25:49.155 --> 00:25:50.399 that make that clear,

NOTE Confidence: 0.942177796

00:25:50.400 --> 00:25:52.360 that's the easiest way to show it typically.

NOTE Confidence: 0.81853406826087

00:25:55.400 --> 00:25:58.025 OK And another question is the personal

NOTE Confidence: 0.81853406826087

00:25:58.025 --> 00:26:00.453 statement in the bio sketch where

NOTE Confidence: 0.81853406826087

00:26:00.453 --> 00:26:02.907 we mentioned how we're involved in
NOTE Confidence: 0.81853406826087

00:26:02.907 --> 00:26:05.200 diversity and translational research.
NOTE Confidence: 0.81853406826087

00:26:05.200 --> 00:26:07.902 If not, do we mention that anywhere
NOTE Confidence: 0.81853406826087

00:26:07.902 --> 00:26:10.758 in the written portion of the grant?
NOTE Confidence: 0.81853406826087

00:26:10.760 --> 00:26:14.036 So there are questions that you will
NOTE Confidence: 0.81853406826087

00:26:14.036 --> 00:26:16.650 answer in the online application
NOTE Confidence: 0.81853406826087

00:26:16.650 --> 00:26:20.280 itself where you will note this.
NOTE Confidence: 0.81853406826087

00:26:20.280 --> 00:26:22.800 So there'll be a question related to
NOTE Confidence: 0.81853406826087

00:26:22.800 --> 00:26:25.076 areas of special emphasis where you
NOTE Confidence: 0.81853406826087

00:26:25.076 --> 00:26:27.649 will check off whether you're where,
NOTE Confidence: 0.81853406826087

00:26:27.649 --> 00:26:30.547 whether you are applying to one
NOTE Confidence: 0.81853406826087

00:26:30.547 --> 00:26:32.159 of those areas.
NOTE Confidence: 0.81853406826087

00:26:32.160 --> 00:26:34.150 If does that answer the question?
NOTE Confidence: 0.81853406826087

00:26:34.150 --> 00:26:34.560 Well,
NOTE Confidence: 0.7812766

00:26:34.560 --> 00:26:36.280 I and so I would add to that.
NOTE Confidence: 0.7812766

00:26:36.280 --> 00:26:37.736 So Christine's absolutely correct.

NOTE Confidence: 0.7812766

00:26:37.736 --> 00:26:41.239 But I would add to that if you have a strong

NOTE Confidence: 0.970884122222222

00:26:44.600 --> 00:26:48.224 focus on any of the areas of special

NOTE Confidence: 0.970884122222222

00:26:48.224 --> 00:26:50.248 emphasis, those can be mentioned

NOTE Confidence: 0.970884122222222

00:26:50.248 --> 00:26:52.208 in your personal statement on

NOTE Confidence: 0.970884122222222

00:26:52.208 --> 00:26:54.599 your CV but or your buyer sketch.

NOTE Confidence: 0.970884122222222

00:26:54.600 --> 00:26:56.748 But that's not the critical place

NOTE Confidence: 0.970884122222222

00:26:56.748 --> 00:26:58.883 that those should really be in

NOTE Confidence: 0.970884122222222

00:26:58.883 --> 00:27:00.828 your statement of purpose because

NOTE Confidence: 0.970884122222222

00:27:00.828 --> 00:27:04.168 those relate directly to this

NOTE Confidence: 0.970884122222222

00:27:04.168 --> 00:27:06.315 application as opposed to just kind

NOTE Confidence: 0.970884122222222

00:27:06.315 --> 00:27:07.950 of your general the buyer sketch,

NOTE Confidence: 0.970884122222222

00:27:07.950 --> 00:27:10.599 like I said is more of a general thing.

NOTE Confidence: 0.970884122222222

00:27:10.600 --> 00:27:14.776 Jane Doe began her research career

NOTE Confidence: 0.970884122222222

00:27:14.776 --> 00:27:17.260 when she was an undergraduate at

NOTE Confidence: 0.970884122222222

00:27:17.334 --> 00:27:19.806 such and such and did such and such

NOTE Confidence: 0.970884122222222

00:27:19.806 --> 00:27:21.920 and she has remained focused on it.
NOTE Confidence: 0.970884122222222

00:27:21.920 --> 00:27:24.797 It it's kind of a general overview
NOTE Confidence: 0.970884122222222

00:27:24.797 --> 00:27:27.518 of your life as a researcher,
NOTE Confidence: 0.970884122222222

00:27:27.520 --> 00:27:29.410 whereas for this particular grant that
NOTE Confidence: 0.970884122222222

00:27:29.410 --> 00:27:31.519 we have these special emphasis areas.
NOTE Confidence: 0.970884122222222

00:27:31.520 --> 00:27:34.887 So if you believe that your background
NOTE Confidence: 0.970884122222222

00:27:34.887 --> 00:27:37.162 or your proposal is aligns with
NOTE Confidence: 0.970884122222222

00:27:37.162 --> 00:27:38.848 one of these special emphasis area
NOTE Confidence: 0.970884122222222

00:27:38.848 --> 00:27:40.771 that that would go in that two
NOTE Confidence: 0.970884122222222

00:27:40.771 --> 00:27:42.076 page statement of purpose part.
NOTE Confidence: 0.913027380769231

00:27:45.320 --> 00:27:49.352 Yeah, I guess it should also be
NOTE Confidence: 0.913027380769231

00:27:49.352 --> 00:27:52.424 noted that related to diversity
NOTE Confidence: 0.913027380769231

00:27:52.424 --> 00:27:54.984 and health related research,
NOTE Confidence: 0.913027380769231

00:27:54.984 --> 00:27:59.853 there are a couple of different ways
NOTE Confidence: 0.913027380769231

00:27:59.853 --> 00:28:03.120 you can I guess qualify for that,
NOTE Confidence: 0.913027380769231

00:28:03.120 --> 00:28:05.000 so to speak. And it's,

NOTE Confidence: 0.913027380769231
00:28:05.000 --> 00:28:08.960 it's outlined in the online application
NOTE Confidence: 0.913027380769231
00:28:08.960 --> 00:28:12.236 and there are questions related to that
NOTE Confidence: 0.913027380769231
00:28:12.240 --> 00:28:17.357 and there's an NIH statement and link.
NOTE Confidence: 0.913027380769231
00:28:17.360 --> 00:28:23.434 So it's related to ethnicity, race,
NOTE Confidence: 0.913027380769231
00:28:23.434 --> 00:28:31.240 background and what's the 4th one disability.
NOTE Confidence: 0.913027380769231
00:28:31.240 --> 00:28:32.892 So there'll be questions
NOTE Confidence: 0.913027380769231
00:28:32.892 --> 00:28:34.957 related to that as well,
NOTE Confidence: 0.913027380769231
00:28:34.960 --> 00:28:38.200 but they're completely anonymous and
NOTE Confidence: 0.913027380769231
00:28:38.200 --> 00:28:40.314 if you don't want to answer them,
NOTE Confidence: 0.913027380769231
00:28:40.320 --> 00:28:44.564 you can check off a box that says withheld.
NOTE Confidence: 0.913027380769231
00:28:44.564 --> 00:28:47.840 So just a little bit of background on that.
NOTE Confidence: 0.84892428
00:28:48.120 --> 00:28:50.016 Yeah. So this. Yeah.
NOTE Confidence: 0.84892428
00:28:50.016 --> 00:28:53.125 So this is a good example of the
NOTE Confidence: 0.84892428
00:28:53.125 --> 00:28:54.473 difference between an application,
NOTE Confidence: 0.84892428
00:28:54.480 --> 00:28:55.760 the application and the review.
NOTE Confidence: 0.84892428

00:28:55.760 --> 00:28:58.280 So again, as as Christine just said,
NOTE Confidence: 0.84892428

00:28:58.280 --> 00:29:00.596 all those things are specifically there.
NOTE Confidence: 0.84892428

00:29:00.600 --> 00:29:03.035 But weaving that information into
NOTE Confidence: 0.84892428

00:29:03.035 --> 00:29:06.005 that statement is what the where
NOTE Confidence: 0.84892428

00:29:06.005 --> 00:29:09.066 the reviewer really sees it and
NOTE Confidence: 0.84892428

00:29:09.066 --> 00:29:13.196 that's where they understand that
NOTE Confidence: 0.84892428

00:29:13.200 --> 00:29:16.890 this has an importance to you and
NOTE Confidence: 0.84892428

00:29:16.890 --> 00:29:19.194 your and importance to your research
NOTE Confidence: 0.84892428

00:29:19.194 --> 00:29:21.519 career and your training career.
NOTE Confidence: 0.84892428

00:29:21.520 --> 00:29:22.008 And that's.
NOTE Confidence: 0.84892428

00:29:22.008 --> 00:29:23.716 So I think that's where it will
NOTE Confidence: 0.84892428

00:29:23.716 --> 00:29:25.147 have the biggest impact from
NOTE Confidence: 0.84892428

00:29:25.147 --> 00:29:26.851 the standpoint of how the review
NOTE Confidence: 0.84892428

00:29:26.909 --> 00:29:28.739 goes as opposed to having checked
NOTE Confidence: 0.84892428

00:29:28.739 --> 00:29:29.959 all the appropriate boxes,
NOTE Confidence: 0.84892428

00:29:29.960 --> 00:29:31.838 which has to happen as well.

NOTE Confidence: 0.84892428
00:29:31.840 --> 00:29:32.758 I get it,
NOTE Confidence: 0.84892428
00:29:32.758 --> 00:29:34.594 But I'm just telling you that
NOTE Confidence: 0.84892428
00:29:34.600 --> 00:29:36.032 a lot of this comes down to the
NOTE Confidence: 0.84892428
00:29:36.032 --> 00:29:37.144 review and the reviewers really
NOTE Confidence: 0.84892428
00:29:37.144 --> 00:29:38.319 going to see it mostly.
NOTE Confidence: 0.84892428
00:29:38.320 --> 00:29:39.480 But then that statement.
NOTE Confidence: 0.958463318333333
00:29:41.400 --> 00:29:44.118 Yeah, I should also mention that
NOTE Confidence: 0.958463318333333
00:29:44.120 --> 00:29:45.496 the demographic information that
NOTE Confidence: 0.958463318333333
00:29:45.496 --> 00:29:47.560 you check off on the application
NOTE Confidence: 0.958463318333333
00:29:47.621 --> 00:29:49.157 is not seen by the reviewers.
NOTE Confidence: 0.958463318333333
00:29:49.160 --> 00:29:51.480 The reviewer doesn't see that. Correct.
NOTE Confidence: 0.91855824
00:29:55.440 --> 00:30:00.554 OK. So in terms of the award notification,
NOTE Confidence: 0.91855824
00:30:00.560 --> 00:30:03.493 our goal is to notify all applicants
NOTE Confidence: 0.91855824
00:30:03.493 --> 00:30:06.358 by just of decisions by May.
NOTE Confidence: 0.91855824
00:30:06.360 --> 00:30:07.860 As I mentioned earlier,
NOTE Confidence: 0.91855824

00:30:07.860 --> 00:30:10.799 our earliest start date will be June 1st,
NOTE Confidence: 0.91855824

00:30:10.800 --> 00:30:13.440 coincide with the start of our grant year.
NOTE Confidence: 0.91855824

00:30:13.440 --> 00:30:16.500 We can accommodate July one for
NOTE Confidence: 0.91855824

00:30:16.500 --> 00:30:19.584 start dates as that's our fiscal
NOTE Confidence: 0.91855824

00:30:19.584 --> 00:30:22.680 year start date for the university
NOTE Confidence: 0.91855824

00:30:22.680 --> 00:30:25.350 and we do have some flexibility
NOTE Confidence: 0.91855824

00:30:25.350 --> 00:30:27.600 to accommodate later start dates
NOTE Confidence: 0.91855824

00:30:27.600 --> 00:30:30.456 for folks who are on grants that
NOTE Confidence: 0.91855824

00:30:30.456 --> 00:30:32.480 might be ending a little bit later.
NOTE Confidence: 0.925875941428571

00:30:35.320 --> 00:30:40.368 OK, That's all we have for our presentation.
NOTE Confidence: 0.925875941428571

00:30:40.368 --> 00:30:42.640 Are there other questions?
NOTE Confidence: 0.925875941428571

00:30:42.640 --> 00:30:45.040 And feel free to unmute yourselves
NOTE Confidence: 0.925875941428571

00:30:45.040 --> 00:30:47.358 of you when I just ask the question,
NOTE Confidence: 0.738680728

00:31:02.920 --> 00:31:05.425 oh, OK, here's a question. Can you have
NOTE Confidence: 0.738680728

00:31:05.425 --> 00:31:08.240 mentors from outside of Yale? Yes,
NOTE Confidence: 0.865153647

00:31:09.000 --> 00:31:10.264 your your primary mentor

NOTE Confidence: 0.865153647

00:31:10.264 --> 00:31:12.160 needs to be a Yale mentor.

NOTE Confidence: 0.865153647

00:31:12.160 --> 00:31:13.768 But having secondary mentors

NOTE Confidence: 0.865153647

00:31:13.768 --> 00:31:16.180 that are outside of Yale is

NOTE Confidence: 0.865153647

00:31:16.252 --> 00:31:18.376 definitely acceptable and that's

NOTE Confidence: 0.865153647

00:31:18.376 --> 00:31:19.916 been that's not uncommon actually,

NOTE Confidence: 0.865153647

00:31:19.920 --> 00:31:22.340 especially if you're if you're

NOTE Confidence: 0.865153647

00:31:22.340 --> 00:31:25.320 working in a particularly niche area

NOTE Confidence: 0.865153647

00:31:25.320 --> 00:31:27.920 or a unique particular expertise.

NOTE Confidence: 0.865153647

00:31:27.920 --> 00:31:29.942 And the best expertise for that

NOTE Confidence: 0.865153647

00:31:29.942 --> 00:31:32.316 is someone at UCSD or somewhere

NOTE Confidence: 0.865153647

00:31:32.316 --> 00:31:35.028 else and there's a you have

NOTE Confidence: 0.865153647

00:31:35.028 --> 00:31:38.078 a connection to that person.

NOTE Confidence: 0.865153647

00:31:38.080 --> 00:31:38.405 Absolutely.

NOTE Confidence: 0.865153647

00:31:38.405 --> 00:31:40.355 And we recognize that in the

NOTE Confidence: 0.865153647

00:31:40.355 --> 00:31:42.834 world of Zoom that those kinds of

NOTE Confidence: 0.865153647

00:31:42.834 --> 00:31:44.639 things can work fairly seamlessly.
NOTE Confidence: 0.865153647

00:31:44.640 --> 00:31:47.440 What I would be cautious about is
NOTE Confidence: 0.865153647

00:31:47.440 --> 00:31:49.570 identifying someone that you don't
NOTE Confidence: 0.865153647

00:31:49.570 --> 00:31:51.700 actually have an existing interaction
NOTE Confidence: 0.865153647

00:31:51.763 --> 00:31:53.890 with and getting them to be a
NOTE Confidence: 0.865153647

00:31:53.890 --> 00:31:55.706 mentor when there's really not a
NOTE Confidence: 0.865153647

00:31:55.706 --> 00:31:58.240 history of you having interactions
NOTE Confidence: 0.865153647

00:31:58.240 --> 00:32:01.360 with them that it looks a little
NOTE Confidence: 0.865153647

00:32:01.360 --> 00:32:03.120 bit too much like grantsmanship,
NOTE Confidence: 0.865153647

00:32:03.120 --> 00:32:05.563 but not like a viable model for
NOTE Confidence: 0.865153647

00:32:05.563 --> 00:32:08.320 someone to be effectively mentored.
NOTE Confidence: 0.865153647

00:32:08.320 --> 00:32:10.784 But it's not uncommon to have someone
NOTE Confidence: 0.865153647

00:32:10.784 --> 00:32:13.266 as a mentor somewhere else who
NOTE Confidence: 0.865153647

00:32:13.266 --> 00:32:14.996 will interact with your committee,
NOTE Confidence: 0.865153647

00:32:15.000 --> 00:32:16.920 will interact with your primary mentor,
NOTE Confidence: 0.865153647

00:32:16.920 --> 00:32:19.240 will interact with you on a regular basis,

NOTE Confidence: 0.865153647

00:32:19.240 --> 00:32:21.178 and there's existing reason to believe

NOTE Confidence: 0.865153647

00:32:21.178 --> 00:32:23.320 that that interaction will actually happen.

NOTE Confidence: 0.853932511

00:32:27.400 --> 00:32:28.192 Oh, I'm sorry.

NOTE Confidence: 0.853932511

00:32:28.192 --> 00:32:30.040 I'll add one more thing to that.

NOTE Confidence: 0.853932511

00:32:30.040 --> 00:32:32.525 If it's a technical thing where that

NOTE Confidence: 0.853932511

00:32:32.525 --> 00:32:34.696 mentor is has a particular expertise

NOTE Confidence: 0.853932511

00:32:34.696 --> 00:32:36.880 that you want for your application,

NOTE Confidence: 0.853932511

00:32:36.880 --> 00:32:38.758 for your grant and that expertise

NOTE Confidence: 0.853932511

00:32:38.758 --> 00:32:40.704 is something you have to have

NOTE Confidence: 0.853932511

00:32:40.704 --> 00:32:41.960 hands on experience with.

NOTE Confidence: 0.853932511

00:32:41.960 --> 00:32:44.198 I would strongly encourage you to

NOTE Confidence: 0.853932511

00:32:44.198 --> 00:32:46.763 include in your description that you're

NOTE Confidence: 0.853932511

00:32:46.763 --> 00:32:50.130 planning to go to that site wherever

NOTE Confidence: 0.853932511

00:32:50.219 --> 00:32:52.746 it is and spend X time learning

NOTE Confidence: 0.853932511

00:32:52.746 --> 00:32:55.520 that hands on technical expertise.

NOTE Confidence: 0.853932511

00:32:55.520 --> 00:32:57.116 I've seen some of these applications
NOTE Confidence: 0.853932511

00:32:57.116 --> 00:32:58.494 where people have a mentor
NOTE Confidence: 0.853932511

00:32:58.494 --> 00:32:59.680 and they're at, you know,
NOTE Confidence: 0.880980436

00:33:01.840 --> 00:33:04.400 wherever UT Southwestern and they
NOTE Confidence: 0.880980436

00:33:04.400 --> 00:33:06.960 do something that's very technical,
NOTE Confidence: 0.880980436

00:33:06.960 --> 00:33:08.576 some assay or something,
NOTE Confidence: 0.880980436

00:33:08.576 --> 00:33:10.596 but the person doesn't actually
NOTE Confidence: 0.880980436

00:33:10.596 --> 00:33:13.159 say that they're going to go there.
NOTE Confidence: 0.880980436

00:33:13.160 --> 00:33:14.584 So you you need to spend some time
NOTE Confidence: 0.880980436

00:33:14.584 --> 00:33:15.919 with that person if you're like
NOTE Confidence: 0.880980436

00:33:15.919 --> 00:33:17.323 going to learn technical things with
NOTE Confidence: 0.880980436

00:33:17.373 --> 00:33:18.871 them and that should be mentioned in
NOTE Confidence: 0.880980436

00:33:18.871 --> 00:33:21.278 their letter and in your application.
NOTE Confidence: 0.66936468

00:33:24.480 --> 00:33:26.280 So as a follow up question,
NOTE Confidence: 0.66936468

00:33:26.280 --> 00:33:28.989 can mentors be outside the US and
NOTE Confidence: 0.66936468

00:33:28.989 --> 00:33:30.552 is international research also

NOTE Confidence: 0.66936468

00:33:30.552 --> 00:33:32.520 funded or does research have to

NOTE Confidence: 0.66936468

00:33:32.520 --> 00:33:34.759 be focused on the US population?

NOTE Confidence: 0.613986721

00:33:35.720 --> 00:33:37.512 No. International's perfectly acceptable.

NOTE Confidence: 0.613986721

00:33:37.512 --> 00:33:39.440 You're, as I said, the mentor.

NOTE Confidence: 0.613986721

00:33:39.440 --> 00:33:42.982 Many people will will have a primary

NOTE Confidence: 0.613986721

00:33:42.982 --> 00:33:45.668 Yale mentor, but they'll go off

NOTE Confidence: 0.613986721

00:33:45.668 --> 00:33:47.753 site for the actual research.

NOTE Confidence: 0.613986721

00:33:47.760 --> 00:33:51.314 There's many examples of that. Again,

NOTE Confidence: 0.613986721

00:33:51.314 --> 00:33:54.638 this isn't funding the actual research,

NOTE Confidence: 0.613986721

00:33:54.640 --> 00:33:58.920 it's funding your salary to do that research.

NOTE Confidence: 0.613986721

00:33:58.920 --> 00:34:01.762 So the funding for the actual research

NOTE Confidence: 0.613986721

00:34:01.762 --> 00:34:04.415 then obviously has to come from your

NOTE Confidence: 0.613986721

00:34:04.415 --> 00:34:05.880 mentor through some other source.

NOTE Confidence: 0.959327685714286

00:34:09.480 --> 00:34:12.280 And another question that came to me,

NOTE Confidence: 0.959327685714286

00:34:12.280 --> 00:34:14.320 can you have concurrent NIH

NOTE Confidence: 0.959327685714286

00:34:14.320 --> 00:34:15.952 funding for separate aims?
NOTE Confidence: 0.959327685714286

00:34:15.960 --> 00:34:19.104 For example F31 for one dissertation
NOTE Confidence: 0.959327685714286

00:34:19.104 --> 00:34:21.880 aim and the YCCI for another aim
NOTE Confidence: 0.824108641428571

00:34:26.600 --> 00:34:28.518 and I'm pretty sure the answer's no.
NOTE Confidence: 0.74582368625

00:34:29.720 --> 00:34:31.880 But you have to you have to provide
NOTE Confidence: 0.74582368625

00:34:31.880 --> 00:34:37.720 75% time on this so I don't,
NOTE Confidence: 0.74582368625

00:34:37.720 --> 00:34:40.478 I think if it's non overlapping names,
NOTE Confidence: 0.74582368625

00:34:40.480 --> 00:34:42.615 I think you're allowed to be have
NOTE Confidence: 0.74582368625

00:34:42.615 --> 00:34:44.439 partial funding from something else.
NOTE Confidence: 0.74582368625

00:34:44.440 --> 00:34:46.118 Whether it's NIH or not, I don't know.
NOTE Confidence: 0.93260023

00:34:47.080 --> 00:34:50.468 I don't think you can have more
NOTE Confidence: 0.93260023

00:34:50.468 --> 00:34:53.880 than one NIH grant at a time for
NOTE Confidence: 0.93260023

00:34:53.880 --> 00:34:55.800 these particular training grants.
NOTE Confidence: 0.93260023

00:34:55.800 --> 00:35:00.985 Yeah, because we've had folks with
NOTE Confidence: 0.93260023

00:35:00.985 --> 00:35:04.760 an F30 or F31 and they haven't
NOTE Confidence: 0.93260023

00:35:04.760 --> 00:35:07.975 been able to have the T31 as well

NOTE Confidence: 0.93260023

00:35:07.975 --> 00:35:09.680 or sorry, the TL1 as well.

NOTE Confidence: 0.960701796666667

00:35:10.520 --> 00:35:12.248 Yeah, I don't think you can

NOTE Confidence: 0.960701796666667

00:35:12.248 --> 00:35:13.706 have those concurrently, no.

NOTE Confidence: 0.960701796666667

00:35:13.706 --> 00:35:16.840 But whether you could, you

NOTE Confidence: 0.95926268

00:35:16.840 --> 00:35:18.454 can apply for both and have

NOTE Confidence: 0.95926268

00:35:18.454 --> 00:35:20.160 both pending at the same time,

NOTE Confidence: 0.89325502

00:35:21.040 --> 00:35:23.440 but you can't accept both. That's correct.

NOTE Confidence: 0.7823712

00:35:23.640 --> 00:35:26.200 So that's why we ask for the other

NOTE Confidence: 0.7823712

00:35:26.200 --> 00:35:28.990 support document, so that we know if

NOTE Confidence: 0.7823712

00:35:28.990 --> 00:35:32.000 you have another NIH grant pending.

NOTE Confidence: 0.689800465

00:35:36.240 --> 00:35:36.680 All right.

NOTE Confidence: 0.92986531

00:35:39.000 --> 00:35:40.320 Do we have other questions?

NOTE Confidence: 0.928462757333333

00:35:45.040 --> 00:35:46.972 I think we've answered all of the

NOTE Confidence: 0.928462757333333

00:35:46.972 --> 00:35:48.960 ones I've seen in the chat so far.

NOTE Confidence: 0.6366104

00:35:56.040 --> 00:35:58.835 All right. So you guys can obviously

NOTE Confidence: 0.6366104

00:35:58.835 --> 00:36:00.790 e-mail Christine or myself or
NOTE Confidence: 0.866582928461539

00:36:00.866 --> 00:36:02.773 Jean or Jen. Remember, Jean Shapiro
NOTE Confidence: 0.866582928461539

00:36:02.773 --> 00:36:06.960 and Jen Edelman are the other 2P is.
NOTE Confidence: 0.866582928461539

00:36:06.960 --> 00:36:09.840 And if you have other questions come to you,
NOTE Confidence: 0.866582928461539

00:36:09.840 --> 00:36:11.600 Christine typically has the
NOTE Confidence: 0.866582928461539

00:36:11.600 --> 00:36:13.360 most detailed information about
NOTE Confidence: 0.866582928461539

00:36:13.360 --> 00:36:15.280 the specific process of this.
NOTE Confidence: 0.866582928461539

00:36:15.280 --> 00:36:16.799 But if you have more general questions,
NOTE Confidence: 0.866582928461539

00:36:16.800 --> 00:36:18.235 you're welcome to e-mail any of us.
NOTE Confidence: 0.891683073333334

00:36:21.280 --> 00:36:23.716 All right. Well, thank you all
NOTE Confidence: 0.891683073333334

00:36:23.716 --> 00:36:25.999 for spending your morning with us.
